**Item 1.01 Entry into a Material Definitive Agreement.**

On May 4, 2005, the Compensation Committee of the Board of Directors (the Board) of Spinnaker Exploration Company (Spinnaker or the Company) adopted a cash incentive compensation program based on the achievement by the Company of certain goals during a fiscal year. Under the incentive compensation program, the amounts of annual incentive compensation that may be paid to each officer and employee for a given year will be calculated based on target percentages of such person's base salary for that year. The Compensation Committee established the following target percentages for certain officers of the Company:

| <u>Title</u>               | <u>Target<br/>Percentage</u> |
|----------------------------|------------------------------|
| Chief Executive Officer    | 100%                         |
| Chief Operating Officer    | 80%                          |
| Chief Financial Officer    | 60%                          |
| Vice President Operations  | 60%                          |
| Vice President Exploration | 60%                          |
| Vice President Land        | 60%                          |

The Chief Executive Officer was delegated the authority to establish annual target percentages for each of the remaining officers and for each non-officer employee of the Company. Of the total annual incentive compensation payment, 50.0% of the target payment will be determined at the discretion of the Compensation Committee and the remaining 50.0% of the target payment will be based upon a pre-determined formula. The non-discretionary, formula-based payment is calculated using certain operational metrics as follows:

|                               |       |
|-------------------------------|-------|
| Finding and Development Costs | 25.0% |
| Net Proved Reserve Additions  | 12.5% |
| Production                    | 12.5% |

The Compensation Committee establishes annual goals, and the Company's actual annual performance will be compared to these annual goals in determining the amount of incentive compensation to be paid to each officer and employee. To the extent that the Company comes close to meeting its goals, but falls short, or makes decisions that hinder the attainment of short-term targets in exchange for long-term shareholder benefit, the Compensation Committee has the discretion to approve payment of incentive compensation as to the non-discretionary 50.0% of the target payment. In addition, to the extent that the Company surpasses its goals, the Compensation Committee has the discretion to award incentive compensation above the targeted amounts.
