1. Overview

A. Industry

(1) Industry characteristics and growth potential

- TFT-LCD technology is one of the most widely used technologies in the manufacture of flat panel displays and the demand for flat panel displays is growing rapidly. The flat panel display industry is characterized by high entry barriers due to rapidly evolving technology, capital-intensive characteristics, and the significant investments required to achieve economies of scale, among other factors. There is strong competition between a limited number of players within the industry and production capacity in the industry, including ours, is being continually increased.
- The demand for LCD panels for Notebook PCs & Monitors has been closely related to the IT industry cycle. In addition, the demand for LCD panels for TVs is growing with the start of HDTV broadcasting and as LCD TV is anticipated to play a key role in the digital display area. We expect competition between TFT-LCD and PDP technologies to intensify in the area of large flat TV products. In addition, LCD panel markets for applications, such as mobile phones, PDAs, medical applications and automobile navigation systems, among others, are growing steadily.
- The average selling prices of our display panels have declined in general and are expected to continually decline with time irrespective of industry-wide fluctuations as a result of, among other factors, technology advances and cost reductions.

(2) Cyclicalities

- The TFT-LCD business has high cyclicalities as well as being a capital intensive business. In spite of the increase in demand for products, this industry has experienced periodic volatility caused by imbalances between demand and supply due to capacity expansion within the industry.
- Intense competition and expectations of demand growth may lead panel manufacturers to invest in manufacturing capacity on similar schedules, resulting in a surge in capacity when production is ramped up at new fabrication facilities.
- During such surges in capacity growth, our customers can exert and have exerted strong downward pricing pressure, resulting in sharp declines in average selling prices and significant fluctuations in our gross margins. Conversely, demand surges and fluctuations in the supply chain can lead to price increases.

(3) Competitiveness

- Our ability to compete successfully depends on factors both within and outside our control, including product pricing, performance and reliability, successful and timely investment and product development, success of our end-brand customers in marketing their brands and products, component and raw material supply costs, and general economic and

industry conditions.

Table of Contents

- Core competitiveness includes technology leadership, capability to design new products and premium products, timely investment in advanced fabs, cost leadership through application of large production lines, innovation of process and productivity, and collaborative customer relationships.

 - Most importantly, cost leadership and stable and long-term relationships with customers are critical to secure profit even in a buyer's market.

 - A substantial portion of our sales is attributable to a limited group of end-brand customers and their designated system integrators. The loss of these end-brand customers, as a result of customers entering into strategic supplier arrangements with our competitors or otherwise, would thus result in reduced sales.

 - Developing new products and technologies that can be differentiated from those of our competitors is critical to the success of our business. We take active measures to protect our intellectual property internationally by obtaining patents and undertaking monitoring activities in our major markets. It is also necessary to recruit and retain the experienced key staffs and highly skilled line operators.
- (4) Sourcing material
- Materials are sourced in-house (color filters) as well as from domestic and overseas vendors. However, recently, the domestic portion is growing due to the active participation of domestic vendors.

 - The shortage of raw materials may arise temporarily due to the rapid increase in demand for raw materials from capacity expansion in the TFT-LCD industry.

 - We have purchased, and expect to purchase, a substantial portion of our equipment from a limited number of qualified foreign and local suppliers. From time to time, increased demand for new equipment may cause lead times to extend beyond those normally required by the equipment vendors.
- (5) Others
- Most TFT-LCD panel makers are located in Asia.
 - a. Korea: LG.Philips LCD, Samsung Electronics (including Joint Venture between Samsung Electronics and Sony Corporation), BOE-Hydis
 - b. Taiwan: AU Optronics, Chi Mei Optoelectronics, CPT, QDI, etc.
 - c. Japan: Sharp, Hitachi, etc.
 - d. China: SVA-NEC, BOE-OT, etc.

B. Company

(1) Business overview

- We started the TFT-LCD business in 1998. We currently operate seven fabrication facilities located in Gumi and Paju, Korea and four module facilities located in Gumi & Paju, Korea and Nanjing, China.
- We became the first LCD maker in the world to commence commercial production at a 4th generation fab (P3) in July 2000 and at a 5th generation fab (P4) in March 2002, and we started mass production at our 6th generation fab (P6) in August 2004, which allows us to produce LCD panels for large TVs and monitors. Following mass production at our 7th generation fab (P7) in January 2006, we became a panel maker who operates both 6th and 7th generation lines, which we believe will strengthen our position as a leader in the LCD TV market.
- In the fiscal year 2005, despite the difficult business environment, including a fall in product prices, volatile foreign exchange rates and high oil prices, our non-consolidated sales revenue grew 10% year-on-year to KRW 8,890 billion with operating income of KRW 448 billion and net income of KRW 517 billion.
- In addition, we successfully completed the capital increase of USD 1,386 million through the issuance of ADRs in July 2005, resulting in our financial stability with non-consolidated liability to equity ratio of 69.3% and net debt to equity ratio of 21.5% as of December 31, 2005.
- In terms of our operational performance, we were recognized as the number one producer of large TFT-LCD panels based on the number of units sold in 2005, according to DisplaySearch.
- Business area of the company for disclosure is limited to LCD business

(3) Market characteristics

- Due to the recent high growth in the display appliance market for the flat display format, the scale of the LCD market is growing at a rapid rate, resulting in expansion of the market centered mainly in America, Japan, Europe and China.

(4) New business

- P7, the 7th generation fab which has been constructed at our Paju industrial complex in Korea, started mass production in January 2006. P7 is scheduled to reach a production capacity of 45,000 input glass sheets per month by the third quarter of 2006 and is expected to reach its initial design capacity of 90,000 input glass sheets per month by the first quarter of 2007.
- We have commenced building construction of P8 at our Paju industrial complex in Korea in anticipation of growth of TFT-LCD market.
- In September 2005, we entered into an agreement to build a back-end module production plant in Wroclaw, Poland, becoming the first global LCD industry player to commence such production in Europe. We plan to break ground on the plant in 2006 and expect to begin production during the first half of 2007. The Polish plant is expected to have an initial capacity of 3 million modules per year. We are going to invest a total of EUR 429 million in the plant by 2011, at which time it is scheduled to reach its design capacity of 11 million units per year.

B. Sales route and sales method

(1) Sales organization

- Sales departments for Notebook PC, Monitor and TV panels, qualification department and sales planning & administration department are grouped under the Chief Marketing Sales Officer. Sales department for Application and Customer Service department for Application are in the Application Division.
- Sales subsidiaries in America, Germany, Japan, Taiwan and China (Hong Kong, Shanghai) perform sales activities in overseas countries and provide technical support to customers.

* We have a back-end manufacturing subsidiary in Nanjing, China and we have entered into investment agreement with Polish Government to build a back-end module production plant in Wroclaw, Poland.

(2) Sales route

- LG.Philips LCD HQ & Overseas manufacturing subsidiary → Overseas subsidiaries (USA/Europe/Japan/Taiwan /Hong Kong/Shanghai) → System integrators, Branded customers → End users
- LG.Philips LCD HQ & Overseas manufacturing subsidiary → System integrators, Branded customers → End users

(3) Sales methods and conditions

- Direct sales & sales through overseas subsidiaries, etc.

(4) Sales strategy

- To secure stable sales to major PC makers and the leading consumer electronics makers globally
- To increase sales of premium Notebook PC products, to strengthen sales of the larger size and high-end Monitor segment and to lead the large and wide LCD TV market
- To diversify our market in the applications segment, including products such as mobile phone, automobile navigation systems, aircraft instrumentation and medical diagnostic equipment, etc.

A. Regarding External Auditor Independence

Samit PricewaterhouseCoopers has recently notified our audit committee that pension plans that manage pension funds for the benefit of the employees of three PricewaterhouseCoopers member firms held investments in the equity of Philips Electronics from time to time between 2001 and 2005. PricewaterhouseCoopers became aware of the investments in September 2005 and disposed of all the shareholdings in Philips Electronics by November 2005. The market value of the Philips Electronics shares owned by each of these pension plans ranged from the U.S. dollar equivalent of approximately US\$112,233 to US\$802,753.

The U.S. Securities and Exchange Commission's auditor independence rules require that, as our independent auditor, PricewaterhouseCoopers maintain independence from us, as well as from Philips Electronics, to which we are a material investee. Such auditor independence rules extend the definition of an accounting firm to the organization's pension plans. Accordingly, the investments in Philips Electronics by PricewaterhouseCoopers member firms' pension plans are not permitted under the U.S. Securities and Exchange Commission's auditor independence rules.

Table of Contents

After conducting an internal review, PricewaterhouseCoopers has concluded that its objectivity and impartiality were unaffected by these investments and therefore its independence has not been impaired. This conclusion is based on the following:

those professionals who conducted our audit were at all times unaware of the investments;

the investments were held by pension plans of PricewaterhouseCoopers member firms that are legal entities distinct from the relevant PricewaterhouseCoopers member firms, and as such, the holdings belong to those of the individual current and retired partners and staff of the member firms rather than of the firms themselves;

the shareholdings in Philips Electronics were disposed of as soon as practicable once they came to the attention of the engagement team conducting our audit;

the percentage of equity interest in Philips Electronics held by the three individual pension plans were at all times insignificant in the context of the overall investments of the pension funds concerned (constituting less than 1.25%, 0.12% and 0.5% of their respective overall investments, at all relevant times) ; and

all final decisions related to our audit are made by Samil PricewaterhouseCoopers and not by any other member firm of PricewaterhouseCoopers, including those member firms whose pension funds made the investments in Philips Electronics. PricewaterhouseCoopers has discussed the facts and circumstances of this matter with the staff of the U.S. Securities and Exchange Commission, including discussion of PricewaterhouseCoopers' conclusion that its independence was not impaired. In February 2006, PricewaterhouseCoopers issued its Independence Standards Board Standard No. 1 independence letter to our audit committee and therein reported that it is independent under applicable standards in connection with its audit opinion for the financial statements contained in this annual report.

Our audit committee has reviewed this matter in detail and has discussed the matter with PricewaterhouseCoopers and our outside legal counsel. Upon careful review, the audit committee concurred with PricewaterhouseCoopers in concluding the accounting firm's independence was not impaired by the above described incidents.

Report of Independent Auditors

To the Board of Directors and Shareholders of

LG.Philips LCD Co., Ltd.

We have audited the accompanying non-consolidated balance sheets of LG.Philips LCD Co., Ltd. (the Company) as of December 31, 2005 and 2004, and the related non-consolidated statements of income, appropriations of retained earnings, and cash flows for the years then ended, expressed in Korean won. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the Republic of Korea. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the non-consolidated financial statements referred to above present fairly, in all material respects, the financial position of LG.Philips LCD Co., Ltd. as of December 31, 2005 and 2004, and the results of its operations, the changes in its retained earnings and its cash flows for the years then ended in conformity with accounting principles generally accepted in the Republic of Korea.

As discussed in Note 1 and 15, in July 2005, pursuant to a Form F-1 registration statement filed on July 22, 2005, with the U.S. Securities and Exchange Commission, the Company sold 27,900,000 shares of common stock in the form of American Depositary Shares (ADSs) for gross proceeds of US\$1,189,656 thousand. In addition, pursuant to Underwriting Agreement dated July 21, 2005, the Company issued 4,600,000 shares of common stock for gross proceeds of US\$196,144 thousand. The Company intends to use the proceeds of these sales to fund the capital expenditures in connection with the construction of TFT-LCD fabrication plant and other LCD facilities in Korea.

Table of Contents

Accounting principles and auditing standards and their application in practice vary among countries. The accompanying non-consolidated financial statements are not intended to present the financial position, results of operations and cash flows in conformity with accounting principles and practices generally accepted in countries and jurisdictions other than the Republic of Korea. In addition, the procedures and practices used in the Republic of Korea to audit such financial statements may differ from those generally accepted and applied in other countries. Accordingly, this report and the accompanying financial statements are for use by those who are informed about Korean accounting principles or auditing standards and their application in practice.

Notes to Non-Consolidated Financial Statements

December 31, 2005 and 2004

2. Summary of Significant Accounting Policies

The significant accounting policies followed by the Company in the preparation of its interim non-consolidated financial statements are summarized below:

Basis of Financial Statement Presentation

The Company maintains its accounting records in Korean won and prepares statutory financial statements in the Korean language (Hangul) in conformity with the accounting principles generally accepted in the Republic of Korea. Certain accounting principles applied by the Company that conform with financial accounting standards and accounting principles in the Republic of Korea may not conform with generally accepted accounting principles in other countries. Accordingly, these financial statements are intended for use by those who are informed about Korean accounting principles and practices. The accompanying financial statements have been condensed, restructured and translated into English from the Korean language non-consolidated financial statements. Certain information attached to the Korean language financial statements, but not required for a fair presentation of the Company's financial position, results of operations, or cash flows, is not presented in the accompanying non-consolidated financial statements.

Accounting Estimates

The preparation of the financial statements requires management to make estimates and assumptions that affect amounts reported therein. Although these estimates are based on management's best knowledge of current events and actions that the Company may undertake in the future, actual results may differ from those estimates.

Application of the Statements of Korean Financial Accounting Standards

The Korean Accounting Standards Board has published a series of Statements of Korean Financial Accounting Standards (SKFAS), which will gradually replace the existing financial accounting standards established by the Korean Financial Supervisory Commission. As SKFAS Nos. 10, 12 and 13 became applicable to the Company on January 1, 2004, the Company adopted these Standards in its financial statements covering periods beginning January 1, 2004.

And as SKFAS Nos. 15 through 17 became effective for the Company on January 1, 2005, the Company adopted these Standards in its financial statements for the year ended December 31, 2005.

Cash and Cash Equivalents

The Company considers cash on hand, bank deposits and highly liquid marketable securities with original maturities of three months or less to be cash and cash equivalents.

Revenue Recognition

Sales of manufactured products are recognized when significant risks and rewards of ownership of the goods are transferred to the buyer.

Notes to Non-Consolidated Financial Statements

Allowance for Doubtful Accounts

The Company provides an allowance for doubtful accounts and notes receivable based on the aggregate estimated collectibility of the receivables.

Inventories

The Company accounts for inventories under the provision of SKFAS No.10, *Inventories*.

Inventories are stated at the lower of cost or market, with cost being determined using the weighted-average method, except for materials-in-transit, which are stated at actual cost using the specific identification method. If the net realizable value of inventory is less than its cost, the carrying amount is reduced to the net realizable value. Any inventory valuation loss is added to the cost of sales.

Investments in Affiliates and Other Investments

The Company accounts for equity and debt securities under the provision of SKFAS No. 8, *Investments in Securities*. This statement requires investments in equity and debt securities to be divided into three categories: trading, available-for-sale and held-to-maturity.

Securities are initially carried at cost, including incidental expenses, with cost being determined using the gross average method. Debt securities, which the Company has the intent and ability to hold to maturity, are generally carried at cost, adjusted for the amortization of discounts or premiums. Premiums and discounts on debt securities are amortized over the term of the debt using the effective interest rate method. Trading and available-for-sale securities are carried at fair value, except for non-marketable securities classified as available-for-sale securities, which are carried at cost. Non-marketable debt securities are carried at a value using the present value of future cash flows, discounted at the reasonable interest rate determined considering the credit ratings provided by the independent credit rating agencies.

Unrealized valuation gains or losses on trading securities are charged to current operations, and those resulting from available-for-sale securities are recorded as a capital adjustment, the accumulated amount of which shall be charged to current operations when the related securities are sold, or when an impairment loss on the securities is recognized. Impairment losses are recognized in the income statement when the recoverable amounts are less than the acquisition cost of securities or adjusted cost of debt securities for the amortization of discounts or premiums.

Investments in equity securities of companies, over which the Company exercises significant control or influence, are recorded using the equity method of accounting. Under the equity method, the Company records changes in its proportionate ownership in the book value of the investee in current operations, as capital adjustments or as adjustments to retained earnings, depending on the nature of the underlying change in the book value of the investee. The Company discontinues the equity method of accounting for investments in equity method investees when the Company's share in the accumulated losses of the investees equals the costs of the investments, and until the subsequent cumulative changes in its proportionate net income of the investees equals its cumulative proportionate net losses not recognized during the periods when the equity method was suspended.

Table of Contents**LG. Philips LCD Co., Ltd.****Notes to Non-Consolidated Financial Statements****December 31, 2005 and 2004**

Differences between the initial purchase price and the Company's initial proportionate ownership in the net book value of the investee are amortized over the period up to 20 years using the straight-line method.

The Company's proportionate unrealized profit arising from sales between the Company and the equity-method investees or sales between equity-method investees is eliminated. If the equity-method investees are the Company's subsidiaries, unrealized profit arising from sales by the Company to subsidiaries is fully eliminated.

Foreign currency financial statements of equity method investees are translated into Korean won using the exchange rates in effect as of the balance sheet date for assets and liabilities, and annual average exchange rates for income and expenses. Any resulting translation gain or loss is included in the capital adjustment account, a component of shareholders' equity.

Property, Plant and Equipment

The cost of property, plant and equipment includes purchase costs or manufacturing costs, incidental costs directly related to preparing the premises and equipment for use, and the discounted estimated costs to remove, dismantle or restore property, plant and equipment at the end of the estimated useful lives of the related assets when those costs meet the conditions for the recognition of liabilities.

Property, plant and equipment are stated at cost, net of accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets as enumerated below:

| | Estimated useful lives |
|-------------------------------|-------------------------------|
| Buildings | 20 - 40 years |
| Structures | 20 - 40 years |
| Machinery and equipment | 4 years |
| Vehicles | 4 years |
| Tools, furniture and fixtures | 4 years |

Routine maintenance and repairs are charged to current operations as incurred. Betterments and renewals, which enhance the value of the assets over their recently appraised value, are capitalized.

The Company assesses the potential impairment of property, plant and equipment when there is evidence that events or changes in circumstances have made the recovery of an asset's carrying value to be unlikely. The carrying value of the assets is reduced to the estimated realizable value and an impairment loss is recorded as a reduction in the carrying value of the related asset and charged to current operations. However, the recovery of the impaired assets would be recorded in current operations up to the cost of the assets, net of accumulated depreciation before impairment, when the estimated value of the assets exceeds the carrying value after impairment.

Intangible Assets

Intangible assets, comprising industrial property rights, rights to use electricity and gas supply facilities, rights to use the industrial water facility, and software costs, are stated at cost, net of accumulated amortization. Amortization is computed using the straight-line method over the estimated useful lives of the assets ranging from four to ten years. Research and development costs are charged to current operations when incurred, and are included in operating expenses.

The Company assesses the potential impairment of intangible assets when there is evidence that events or changes in circumstances have made the recovery of an asset's carrying value to be unlikely. The carrying value of the assets is reduced to the estimated realizable value, and an impairment loss is recorded as a reduction in the carrying value of the related asset and charged to current operations. However, the recovery of the impaired assets would be recorded in current operations up to the cost of the asset, net of accumulated amortization before impairment, when the estimated value of the assets exceeds the carrying value after impairment.

Discounts on Debentures

Discounts on debentures are amortized over the repayment period of the debentures using the effective interest rate method. Amortization is included in interest expense.

Foreign Currency Translation

Monetary assets and liabilities denominated in foreign currencies are translated into Korean won at the exchange rates in effect at the balance sheet date ((Won)1,013.0 : US\$1 as of December 31, 2005; (Won)1,035.6 : US\$1 as of December 31, 2004), and the resulting translation gains and losses are recognized in current operations.

Warranty Reserve

The Company provides warranty relating to product defects for a specified period of time after sale. Estimated costs of product warranties are charged to cost at the time of sale and are included in the accompanying balance sheet as a warranty reserve. The warranty reserve as of December 31, 2005, is (Won)16,023 million (December 31, 2004 : (Won)15,150 million), and provision for warranty reserve for the year ended December 31, 2005, is (Won)17,215 million (2004: (Won)8,680 million).

Accrued Severance Benefits

Employees and directors with at least one year of service are entitled to receive a lump-sum payment upon termination of their employment, based on their length of service and rate of pay at the time of termination. Accrued severance benefits represent the amount which would be payable assuming all eligible employees and directors were to terminate their employment as of the balance sheet date.

The Company has made deposits to the National Pension Fund in accordance with the National Pension Fund Law. The use of the deposit is restricted to the payment of severance benefits. Accordingly, accrued severance benefits in the accompanying balance sheet are presented net of such deposit.

Table of Contents

LG. Philips LCD Co., Ltd.

Notes to Non-Consolidated Financial Statements

December 31, 2005 and 2004

Accrued severance benefits are funded through a group severance insurance plan and are presented as a deduction from accrued severance benefits.

Sales or Discount of Accounts Receivable

The Company sells or discounts certain accounts or notes receivable to financial institutions, and accounts for the transactions as sales of the receivables if the control over the receivables is substantially transferred to the buyers. The losses from the sales of the receivables are charged to current operations as incurred.

Derivatives

The Company enters into various derivative transactions to hedge against financial risks. Derivatives are classified into: cash flow hedges, hedges for fluctuations in fair market value caused by the changes in foreign exchange rates, and those acquired for profit. In case of cash flow hedges, unrealized holding gains and losses are recorded as capital adjustments in the balance sheet. In the case of hedging for fluctuations in fair market value, unrealized holding gains and losses are recorded in the income statement. If the contract expires, the gains and losses from derivative transactions are presented in the income statement in case of hedges for fluctuations in fair market value and are offset against sales in case of cash flow hedging.

Convertible bonds

When convertible bonds are issued, the amount paid for the conversion right, which is computed as a difference between the issuing value and the present value of future cash flows discounted at effective interest rate of bond without conversion features, is included in other capital surplus. The related adjustment account to the conversion right is presented as a deduction of face value, whereas call premium is presented as an addition.

Stock Appreciation Plan

Compensation costs for stock options granted to employees and executives are recognized on the basis of intrinsic value. Under the intrinsic value basis method, compensation costs for stock option plans are determined by calculating the difference between the exercise price and the market price of the underlying stock. Stock-based compensation cost is remeasured at each reporting date, based on the intrinsic value of the award, and is recognized as expense over the agreed minimum service period.

Table of Contents**LG. Philips LCD Co., Ltd.****Notes to Non-Consolidated Financial Statements****December 31, 2005 and 2004****Income Taxes**

The Company recognizes deferred income tax assets and liabilities, which represent temporary differences between the financial reporting and tax bases of assets and liabilities. Deferred income tax assets and liabilities are computed on such temporary differences, including available net operating loss carryforwards and tax credits, by applying enacted statutory tax rates applicable to the years when such differences are expected to reverse. Deferred income tax assets are recognized when it is almost certain that such deferred income tax assets will be realized. The total income tax provision includes the current income tax expense under applicable tax regulations and the change in the balance of deferred income tax assets and liabilities during the period.

Investment tax credits are accounted for by the flow-through method, whereby income taxes are reduced in the period the assets giving rise to such credits are utilized. To the extent such credits are not currently utilized, deferred income tax assets, subject to considerations on their recognition, are recognized as carryforward amount.

3. Cash and Cash Equivalents, and Financial Instruments

Cash and cash equivalents, and financial instruments as of December 31, 2005 and 2004, consist of the following:

| <i>(in millions of Korean won)</i> | Annual interest rate (%) as of December 31, 2005 | 2005 | 2004 |

Notes to Non-Consolidated Financial Statements**December 31, 2005 and 2004****13. Stock Appreciation Plan**

On April 7, 2005, the Company granted 450,000 shares of stock appreciation rights (SARs) for certain executives. Under the terms of this plan, executives, upon exercising their SARs, are entitled to receive cash equal to the excess of the market price of the Company's common stock over the exercise price of (Won) 44,050 per share. The exercise price decreased from (Won) 44,260 to (Won)44,050 due to the additional issuance of common stock in 2005. These SARs are exercisable on or after April 8, 2008, through April 7, 2012. Additionally, when the increase rate of the Company's share price is the same or less than the increase rate of the Korea Composite Stock Price Index (KOSPI) over the three-year period following the grant date, only 50% of the initially granted shares can be exercised.

The options activity under the SARs for the year ended December 31, 2005, follows:

| | Number of shares under SARs |
|---------------------------------------|--|
| Balance, January 1, 2005 | (Won) |

As of December 31, 2005, the Company has bank overdraft agreements with various banks amounting to (Won)59,000 million.

As of December 31, 2005, the Company has a revolving credit facility agreement with several banks totaling (Won)450,000 million and US\$100 million.

As of December 31, 2005, the Company has agreements with several banks for U.S. dollar denominated accounts receivable negotiating facilities up to an aggregate of US\$1,175 million. The Company has made agreements with several banks in relation to the opening of letters of credit amounting to (Won)140,000 million and US\$145 million. The related amounts of negotiated foreign currency receivables outstanding as of December 31, 2005, amount to (Won)303,904 million (December 31, 2004: (Won)410,824 million).

As of December 31, 2005, in relation to its TFT-LCD business, the Company has technical license agreements with Hitachi and others. As of December 31, 2005, the Company has trademark license agreements with LG Corporation and Philips Electronics.

The Company enters into foreign currency forward contracts to manage the exposure to changes in currency exchange rates in accordance with its foreign currency risk management policy. The use of foreign currency forward contracts allows the Company to reduce its exposure to the risk that the eventual Korean won cash outflows resulting from operating expenses, capital expenditures, purchasing of materials and debt service will be adversely affected by changes in exchange rates.

A summary of said contracts is as follows :

(in millions)

Table of Contents**LG. Philips LCD Co., Ltd.****Notes to Non-Consolidated Financial Statements****December 31, 2005 and 2004**

As of December 31, 2005, the Company recorded unrealized gains and losses on outstanding foreign

currency forward contracts of (Won)63,962 million and (Won)26,061 million, respectively. Total unrealized gains and losses of (Won)26,081 million and (Won)1,514 million, respectively, were charged to operations for the year ended December 31, 2005, as these contracts did not meet the requirements for a cash flow hedge. Unrealized gains and losses of (Won)29,292 million and (Won)18,982 million, respectively, incurred relating to cash flow hedges from forecasted exports, were recorded as capital adjustments.

The forecasted hedged transactions are expected to be completed on December 20, 2006. The aggregate amount of all deferred gains and losses of (Won)37,881 million and (Won)24,547 million, respectively, recorded net of tax under capital adjustments, are expected to be included in the determination of gain and loss within a year from December 31, 2005.

For the year ended December 31, 2005, the Company recorded realized exchange gains of (Won)89,311 million (2004: (Won)80,306 million) on foreign currency forward contracts upon settlement, and realized exchange losses of (Won)100,935 million (2004: (Won)51,597 million).

The Company entered into cross-currency swap contracts to manage the exposure to changes in currency exchange rates in accordance with its foreign currency risk management policy and to manage the exposure to changes in interest rates related to floating rate notes. These transactions do not meet the requirements for hedge accounting for financial statement purposes. Therefore, the resulting realized and unrealized gains or losses, measured by quoted market prices, are recognized in current operations as gains or losses as the exchange rates change.

A summary of such contracts follows:

(in millions)

| Contracting party | Buying position | Selling position | Contract foreign exchange rate | Maturity date |
|---------------------|-----------------|------------------|--------------------------------|---|
| ABN Amro and others | US\$ 430 | (Won) 442,830 | 3M Libor 3.25% -4.40% | February 10, 2006 - December 8, 2006 |

As of December 31, 2005, unrealized gains and losses of (Won)1,277 million and (Won)7,617 million, respectively, were charged to current operations, as these contracts do not fulfill the requirements for hedge accounting for financial statement purposes.

Report on the Review of Internal Accounting Control System

To the President of

LG.Philips LCD Co., Ltd.

We have reviewed the management's report on the operations of the internal accounting control system (IACS) of LG.Philips LCD Co., Ltd. (the Company) as of December 31, 2005. In accordance with Article 2-2 of the Act on External Audit for Stock Companies (the External Audit Law) of the Republic of Korea, the Company's management is responsible for reporting on the design and operations of its IACS (IACS report). Our responsibility is to review the management's IACS report and issue a report based on our review.

We conducted our review in accordance with Article 2-3 of the External Audit Law. Our review included inquiries of management and employees, inspection of related documents and checking of the operations of the Company's IACS. We did not perform an audit of the Company's IACS and accordingly, we do not express an audit opinion.

Based on our review, no material weakness in the design or operations of the Company's IACS under Article 2-2 of the External Audit Law as of December 31, 2005, has come to our attention.

This report applies to the Company's IACS in existence as of December 31, 2005. We did not review the Company's IACS after December 31, 2005. This report has been prepared for Korean regulatory purposes pursuant to the External Audit Law, and may not be appropriate for other purposes or for other users.

As this report is based on Interim Guidelines on Auditors' Review and Report on Management's IACS Report issued by the Korean Audit Standards Committee on March 29, 2005, they apply only from that date until the date the Final Standards for Management's IACS Report, and the Final Standards for Auditors' Review and Report on Management's IACS Report become effective. A review based on the final standards may have different results and accordingly, the content of any updated report may be different.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of

LG.Philips LCD Co., Ltd.

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of income, of changes in stockholders equity and of cash flows present fairly, in all material respects, the financial position of LG.Philips LCD Co., Ltd. and its subsidiaries (the Company) as of December 31, 2004 and 2005, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2005, in conformity with accounting principles, which as described in Note 2, are generally accepted in the United States of America. In addition, in our opinion, the financial statement schedule, Valuation and Qualifying Accounts, presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. These financial statements and financial statement schedule are the responsibility of the Company s management; our responsibility is to express an opinion on these financial statements and financial statement schedule based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Table of Contents**LG. Philips LCD Co., Ltd.****Notes to Consolidated Financial Statements****December 31, 2003, 2004 and 2005****1. Organization and Nature of Business**

LG.Philips LCD Co., Ltd. is a manufacturer and supplier of Thin Film Transistor Liquid Crystal Displays (TFT-LCD) to Original Equipment Manufacturers (OEMs) and multinational corporations.

The accompanying consolidated financial statements include the accounts of LG.Philips LCD Co., Ltd. (LPL) and its consolidated subsidiaries (hereinafter collectively referred to as the Company).

Formation

LG. Philips LCD Co., Ltd. was incorporated in 1985 in the Republic of Korea under the original name of LG Soft, Ltd. and until December 31, 1998 was entirely devoted to the development and marketing of software.

As part of a restructuring of the LG Group of companies, LG Soft, Ltd. changed its name to LG LCD Co., Ltd. in November 1998 and subsequently in December 1998, LG LCD Co., Ltd. acquired the assets and liabilities of the TFT-LCD businesses of LG Electronics Inc. (LGE) and LG Semicon Inc. (LGS). The transfer of assets and liabilities from LGE to LG LCD Co., Ltd. was recorded at historical book values as LG LCD Co. Ltd. was a 100% owned subsidiary of LGE. The assets and liabilities of LGS were transferred to LG LCD Co. Ltd. at fair value based on an independent valuation.

On July 26, 1999, Koninklijke Philips Electronics N.V. (Philips) and LGE entered into a joint venture agreement. Effective August 27, 1999 LG LCD Co., Ltd. changed its name to LG. Philips LCD Co., Ltd. and on August 31, 1999 LG.Philips LCD Co., Ltd. issued a total of 145,000,000 previously unissued shares of common stock to Philips in exchange for a contribution of approximately (Won)1,127,000 million to LGE and (Won)725,000 million directly to the Company.

As of December 31, 2005, the Company's shareholders are as follows:

| | Number of | Percentage of |
|---------------------------------------|------------------|----------------------|
| | Shares | Ownership (%) |
| LG Electronics Inc. | 135,625,000 | 37.90 |

2. Summary of Significant Accounting Policies

The consolidated financial statements are presented in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). Significant accounting policies followed by the Company in the preparation of the accompanying consolidated financial statements are summarized below.

Principles of Consolidation

The consolidated financial statements include the accounts of LG.Philips LCD Co., Ltd. and its majority-owned subsidiaries. All intercompany transactions and balances with the consolidated subsidiaries have been eliminated upon consolidation.

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying disclosures. The most significant estimates and assumptions relate to the allowance for uncollectable accounts receivables, warranty accrual and deferred tax valuation allowance. Although these estimates are based on management's best knowledge of current events and actions that the Company may undertake in the future, actual results may be different from the estimates.

Translation of Foreign Currencies

The financial position and results of operations of the Company's subsidiary in Nanjing, China are measured using the Chinese Renminbi as its functional currency, the other overseas subsidiaries use the US dollar, and the Korean parent company uses the Korean Won as its functional currency. The financial statements of these subsidiaries are translated to Korean Won using the current exchange rate method. All the assets and liabilities are translated to Korean Won at the end-of-period exchange rates. Capital accounts are translated using historical exchange rates. Revenues and expenses are translated using average exchange rates. Translation adjustments

Table of Contents**LG. Philips LCD Co., Ltd.****Notes to Consolidated Financial Statements****December 31, 2003, 2004 and 2005**

arising from differences in exchange rates from period to period are included in the cumulative translation adjustment account in other comprehensive income of stockholders' equity. Foreign currency transaction gains and losses are included as a component of other income (expense).

Cash and Cash Equivalents

Cash and cash equivalents include all cash balances and highly liquid investments, including time deposits and short-term bonds which are readily convertible into known amounts of cash and have an original maturity of three months or less.

Accounts Receivable Securitization

The Company has an accounts receivable securitization program whereby the Company sells receivables in securitization transactions and retains a subordinated interest and servicing rights to those receivables. The Company accounts for the program under the FASB's Statement of Financial Accounting Standards No.140 (SFAS 140), *Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities* . The gain or loss on sales of receivables is determined at the date of transfer based upon the relative fair value of the assets sold and the interests retained. The Company estimates fair value based on the present value of future expected cash flows using management's best estimates of the key assumptions, including collection period and discount rates.

Allowance for Doubtful Accounts

The Company provides an allowance for doubtful accounts based on the aggregate estimated collectibility of its accounts receivable.

Inventories

Inventories are valued at the lower of cost or market value, with cost being determined on an average-cost basis, except for the cost of finished products carried by certain subsidiary companies, which is determined on a moving-average cost basis.

Property, Plant and Equipment

Property, plant and equipment are recorded at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the following estimated useful lives.

| | |
|-----------------------------------|---------------|
| Buildings | 20 ~ 40 years |
| Machinery, equipment and vehicles | 4 ~ 8 years |
| Tools, furniture and fixtures | 3 ~ 5 years |

Significant renewals and additions are capitalized at cost. Maintenance and repairs are charged to expense as incurred.

The Company capitalizes interest on borrowings during the active construction period of major capital projects. Capitalized interest is added to the cost of the underlying assets and is amortized over the useful lives of the assets. Total interest expense incurred amounted to (Won)91,524 million, (Won)95,553 million and (Won)154,453 million for the years ended December 31, 2003, 2004 and 2005, respectively, of which, approximately (Won)7,905 million, (Won)37,504 million and (Won)46,913 million, respectively, was capitalized.

Table of Contents**LG. Philips LCD Co., Ltd.****Notes to Consolidated Financial Statements****December 31, 2003, 2004 and 2005****Intangible Assets**

Intangible assets, comprising intellectual property rights (including patents and technology related to the TFT production process and the like), privileges for an industrial water facility, and purchased software, are stated at cost less accumulated amortization. Amortization is computed using the straight-line method over the following estimated useful lives.

| | |
|---|-------------|
| Intellectual property rights | 5 ~10 years |
| Privilege for industrial water facilities | 10 years |
| Purchased software | 4 years |
| Others | 10 years |

Accounting for the Impairment of Long-Lived Assets

Long-lived assets and definite-lived intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. When the aggregate undiscounted future cash flows (undiscounted and without interest charges) is less than the carrying value of the asset, an impairment loss is recognized, based on the fair value of the asset.

Stock Appreciation Plan

Effective January 1, 2005, the company adopted the provisions of Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment* (SFAS 123(R)). SFAS 123(R) establishes accounting for share-based awards exchanged for employee services. Accordingly, share-based compensation cost is measured at grant date, based on the fair value of the award, and is recognized as expense over the requisite employee service period. The option price is determined by Black-Scholes Option Pricing Model.

Accrued Severance Benefits

Employees and directors with one year or more of service are entitled to receive a lump-sum payment upon termination of their employment with the Company, based on their length of service and rate of pay at the time of termination. Accrued severance benefits are estimated assuming all eligible employees were to terminate their employment at the balance sheet date. The annual severance benefits expense charged to operations is calculated based on the net change in the accrued severance benefits payable at the balance sheet date, plus the actual payments made during the year.

The contributions to the national pension fund made under the National Pension Plan and the severance insurance deposit are deducted from accrued severance benefit liabilities. Contributed amounts are refunded from the National Pension Plan and the insurance company to employees on their retirement.

Notes to Consolidated Financial Statements

December 31, 2003, 2004 and 2005

Revenue Recognition

Revenues from the sale of the Company's products are recognized when : i) persuasive evidence of an arrangement exists, ii) delivery has occurred to the customers, iii) the sales price to the customer is fixed or determinable and iv) collectibility is reasonably assured.

The Company generally enters into long term formal master sales agreements with its significant customers. Under the terms of these agreements, the Company does not offer any form of price protection or a returns policy, however, the Company provides basic limited warranties with its products.

The title transfer of the Company's product and risk of loss generally occurs on delivery and acceptance at the customers' premises, at which point revenue is recognized.

Research and Development Costs

Certain costs incurred in connection with the purchase of equipment and facilities used in the Company's research and development activities are capitalized into property, plant and equipment, to the extent that they have alternative future uses. All other research and development costs are expensed as incurred. The Company has expensed (Won)171,387 million, (Won)255,327 million and (Won)365,437 million during the years ended December 31, 2003, 2004 and 2005, respectively, for research and development costs which are included in cost of sales and selling, general and administrative expenses. These research and development expenses included depreciation cost of equipment and facilities used specifically for research and development activities amounting to (Won)8,987 million, (Won)11,078 million and (Won)11,710 million for the years ended December 31, 2003, 2004 and 2005, respectively.

Shipping and Handling Costs

The Company includes shipping and handling costs in selling, general and administrative costs. Shipping and handling costs for the years ended December 31, 2003, 2004 and 2005, amounted to (Won)66,900 million, (Won)94,559 million and (Won)187,633 million, respectively.

Advertising Costs

Advertising costs are expensed as incurred. Advertising expenses for the years ended December 31, 2003, 2004 and 2005 amounted to (Won)1,697 million, (Won)5,524 million and (Won)21,907 million, respectively.

Income Taxes

The Company recognizes deferred tax assets and liabilities created by temporary differences between the financial statement and tax bases of assets and liabilities. Deferred tax assets and liabilities are computed on such temporary differences, including available net operating loss carryforwards and tax credits, by applying enacted statutory tax rates applicable to the years when such differences are expected to reverse. A valuation allowance is provided on deferred tax assets to the extent that it is more likely than not that such deferred tax assets will not be realized. The total income tax provision includes current tax expenses under applicable tax regulations and the change in the balance of deferred tax assets and liabilities.

Investment tax credits are accounted for by the flow-through method whereby they reduce income taxes in the period the assets giving rise to such credits are placed in service. To the extent such credits are not currently utilized, deferred tax assets, subject to considerations regarding the need for a valuation allowance, are recognized for the amount carried forward.

Derivative Financial Instruments

All derivative financial instruments are recognized as either assets or liabilities in the balance sheet at their fair value. Changes in the fair value of derivative financial instruments are either recognized periodically in income or stockholders' equity (as a component of accumulated other comprehensive income), depending on whether the derivative financial instrument qualifies as a cash flow hedge.

At the time the Company designates a hedging relationship, it defines the method it will use to assess the hedge's effectiveness in achieving offsetting changes in fair value or offsetting cash flows attributable to the risk being hedged.

The Company formally documents all hedging relationships between the derivatives designated as hedges and hedged items, as well as its risk management objectives and strategies for undertaking various hedging activities. The Company links all hedges that are designated as cash flow hedges to the specific forecasted transaction. The Company also assesses, both at the inception of the hedge and on an on-going basis, whether the derivatives designated as hedges are highly effective in offsetting changes in fair value or cash flows of hedged items. When it is determined that a derivative is not highly effective as a hedge, the Company discontinues hedge accounting.

The derivatives designated as cash flow hedges include foreign exchange forward contracts, which are used for reducing the risk arising from the changes in anticipated cash flow from expected transactions in foreign currency.

Changes in the fair value of derivatives designated and effective as cash flow hedges for forecasted transactions are initially recorded in other comprehensive income and reclassified into earnings when the hedged transaction affects earnings. Changes in the fair value of the ineffective portion are recognized in current period earnings.

The derivatives designated for trading comprise cross-currency swap contracts and foreign exchange forward contracts. Such contracts are marked-to-market with changes in value, including premiums paid or received, recognized in other income (expense) as foreign exchange gain (loss).

Deferred Bond Issuance Costs

Costs that are directly related to the issuance of bonds are capitalized and amortized over the term of the debt using the effective interest rate method.

Warranty Reserve

The Company records warranty liabilities for the estimated costs that may be incurred under its basic limited warranty. This warranty covers defective products and is normally applicable for eighteen months from the date of purchase. These liabilities are accrued when product revenues are recognized. Warranty costs primarily include raw materials and labor costs. Factors that affect the Company's warranty liability include historical and anticipated rate of warranty claims on those repairs and cost per claim to satisfy the Company's warranty obligation. As these factors are impacted by actual experience and future expectations, the Company periodically assesses the adequacy of its recorded warranty liabilities and adjusts the amounts as necessary.

Fair Value of Financial Instruments

The fair value of a financial instrument is defined as the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The carrying values of cash and cash equivalents, time deposits, trade and notes receivable, short-term borrowings, notes and accounts payable and accrued and other liabilities, approximate fair value, due to their short term maturities. The Company estimates the fair values of its long-term debt, including the current portion, based on either the market value or the discounted amounts of future cash flows using the Company's current incremental debt rates for similar liabilities. The fair values of derivative instruments are estimated based on market quotations.

Recent Accounting Pronouncements

In November 2004, the FASB issued FASB Statement No. 151, *Inventory Costs – an amendment of ARB No. 43* (FAS No. 151), which is the result of its efforts to converge U.S. accounting standards for inventories with International Accounting Standards. FAS No. 151 requires idle facility expenses, freight, handling costs, and wasted material (spoilage) costs to be recognized as current-period charges. It also requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. FAS No. 151 will be effective for inventory costs incurred during fiscal years beginning after June 15, 2005. The Company does not believe adoption of FAS No. 151 will have a material effect on its consolidated financial position, results of operations or cash flows.

In December 2004, the FASB issued FAS No. 123 (revised 2004), *Share-Based Payment* (FAS No. 123(R)). This statement requires the use of the fair value based method of accounting for employee share-based compensation and eliminates the alternative use of the intrinsic value method prescribed by APB No. 25. With limited exceptions, FAS No. 123(R) requires that the grant-date fair value of share-based payments to employees be expensed over the period the service is received. This statement shall be effective for fiscal years beginning after June 15, 2005, with early adoption during the fiscal years beginning after the date this statement is issued encouraged. The Company has adopted FAS No. 123(R) and accounts for its Stock Appreciation Plan using Black-Scholes Option Pricing Model.

On December 16, 2004, the FASB issued Statement No. 153, *Exchanges of Nonmonetary Assets*, an amendment of APB Opinion No. 29 (FAS No. 153). FAS No. 153 addresses the measurement of exchanges of nonmonetary assets and redefines the scope of transactions that should be measured based on the fair value of the assets exchanged. FAS No. 153 is effective for nonmonetary asset exchanges beginning in the second quarter of fiscal 2006. The Company does not believe adoption of FAS No. 153 will have a material effect on its consolidated financial position, results of operations or cash flows.

In May 2005, the FASB issued FAS No. 154, *Accounting Changes and Error Corrections a replacement of APB Opinion No. 20 and FASB Statement No. 3*. This Statement requires retrospective application to prior periods financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. When it is impracticable to determine the period-specific effects of an accounting change on one or more individual prior periods presented, this Statement requires that the new accounting principle be applied to the balances of assets and liabilities as of the beginning of the earliest period for which retrospective application is practicable and that a corresponding adjustment be made to the opening balance of retained earnings (or other appropriate components of equity or net assets in the statement of financial position) for that period rather than being reported in an income statement. When it is impracticable to determine the cumulative effect of applying a change in accounting principle to all prior periods, this Statement requires that the new accounting principle be applied as if it were adopted prospectively from the earliest date practicable. The Company does not believe adoption of FAS No. 154 will have a material effect on its consolidated financial position, results of operations or cash flows.

In February 2006, the FASB issued FAS No. 155, *Accounting for Certain Hybrid Financial Instruments* (FAS No. 155), which amends FAS No. 133, *Accounting for Derivatives Instruments and Hedging Activities* and FAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities*. FAS No.155 amends FAS No. 133 to narrow the scope exception for interest-only and principal-only strips on debt instruments to include only such strips representing rights to receive a specified portion of the contractual interest or principle cash flows. FAS No. 155 also amends FAS No.140 to allow qualifying special-purpose entities to hold a passive derivative financial instrument pertaining to beneficial interests that itself is a derivative instrument. The Company is currently evaluating the impact this new Standard but believes that it will not have a material impact on the Company's financial position, results of operations or cash flows.

4. Accounts Receivable

The following table presents accounts receivable at December 31:

| <i>(in millions of Korean won)</i> | 2004 | 2005 |
|--|---------------|-----------------|
| Trade | (Won) 465,066 | (Won) 809,648 |

| Allowance for doubtful accounts | (3,418) | (4,340) |
| | (Won) 954,317 | (Won) 1,333,101 |

Trade bills to overseas subsidiaries negotiated through banks but not yet matured, which were recorded as short-term borrowings as of December 31, 2004 and 2005 amounted to approximately (Won)410,824 million (US \$369,339 thousand and JPY2,808,387 thousand) and (Won)303,904 million (US \$300,004 thousand), respectively.

In September 2004, the Company entered into a five-year accounts receivable securitization program (the Program) with a financial institution. The Program allows the Company to sell, on a revolving basis, an undivided interest in up to US \$300 million in eligible accounts receivables of four subsidiaries, including LG.Philips LCD America (LPLA), LG.Philips LCD Germany (LPLG), LG.Philips LCD Taiwan (LPLT) and LG.Philips LCD Japan (LPLJ), while retaining a subordinated interest in a portion of the receivables. The eligible receivables of LPLA and LPLG are sold without legal recourse to third party conduits through LG. Philips LCD America Finance Corporation, a qualifying bankruptcy-remote special purpose entity, which is wholly owned by LPLA but is not consolidated for financial reporting purposes. The eligible receivables of LPLT and LPLJ are sold without legal recourse to third party conduits through ABN AMRO Taipei Branch and ABN AMRO Tokyo Branch, respectively, which are consolidated by ABN AMRO Bank. The Company continues servicing the sold receivables and charges the third party conduits a monthly servicing fee at market rates. Accordingly, no servicing asset or liability has been recorded.

The Program qualifies for sale treatment under SFAS 140. As of December 31, 2004 and 2005, the outstanding balance of securitized accounts receivable held by the third party conduits totaled (Won)305,203 million and (Won)272,571 million, respectively, of which the Company's subordinated retained interest was (Won)59,324 million and (Won)52,532 million, respectively. Accordingly, (Won)245,879 million and (Won)220,039 million, respectively, of accounts receivable balances, net of applicable allowances, were removed from the consolidated balance sheets at December 31, 2004 and 2005. Losses recognized on the sale of accounts receivable totaled approximately (Won)3,906

Table of Contents**LG. Philips LCD Co., Ltd.****Notes to Consolidated Financial Statements****December 31, 2003, 2004 and 2005**

million and (Won)8,737 million, respectively, in the year ended December 31, 2004 and 2005. This cost is primarily related to the loss on sale of receivables and discount on retained interests, net of the related servicing revenues and various program and facility fees associated with the Program. This cost is included in the accompanying consolidated statement of income under the caption selling, general and administrative expenses.

The Company measures the fair value of its retained interests at the time of a securitization and throughout the term of the Program using a present value model incorporating two key assumptions: (1) a weighted average life of 65 days and (2) a discount rate of 4.04 % per annum. At December 31, 2005, this retained interest is included in the accounts receivables balance reflected in the consolidated balance sheet, at fair value of the Company's retained interest, which approximates book value due to a short average collection cycle for such accounts receivables and the Company's collection history.

5. Inventories

Inventories comprise the following at December 31:

Unsecured long-term debts are subject to various restrictive covenants. Typically, these covenants include restrictions on the debt to equity ratio, debt coverage ratio, interest coverage ratio, total debt limits, earnings before interest, tax and depreciation requirements and other similar financial ratios. The Company was in compliance with these financial covenants during all periods presented.

¹ The bonds are convertible at (Won)58,251 for one common share from July 27, 2005 to April 4, 2010, redeemable at the option of issuer on or at any time after April 19, 2008. The Company may, having given not less than 30 nor more than 60 days notice to the bondholders, redeem in Dollars all or from time to time any portion of the bonds at their Early Redemption Amount, provided that the aggregate Market Price of a Common Share on the Korea Exchange on at least 20 Trading Days in 30 consecutive Trading Days ending on the Trading Day immediately prior to the date upon which notice of such redemption notice, is at least 130% of the Conversion Price. The bondholders can exercise put options to put the debt back to the Company on October 19, 2007, at 108.39% of the bond's principal amount.

| Others | (708) | 16,934 |
| Non-Current deferred tax asset | (Won) 178,450 | (Won) 357,453 |

As of December 31, 2005, the Company has available unused investment tax credits of (Won)292,976 million, which may be applied against future income tax amounts through 2010.

Realization of the future tax benefits related to the deferred tax assets is dependent on many factors, including the Company's ability to generate taxable income within the period during which the temporary differences reverse, the outlook for the Korean economic environment, and the overall future industry outlook. Management periodically considers these factors in reaching its conclusion, and has determined that no valuation allowance was required as of December 31, 2004 and 2005.

Under the Foreign Investment Promotion Act of Korea, from September 1999, the Company is entitled to an exemption from income taxes in proportion to the percentage of foreign equity for seven years following the registration of each foreign equity investment, and at one-half of that percentage for the subsequent three years through 2008.

Table of Contents**LG. Philips LCD Co., Ltd.****Notes to Consolidated Financial Statements****December 31, 2003, 2004 and 2005**

Aggregate tax benefits and tax effect per share from tax exemption for the years ended December 31, 2003, 2004 and 2005 are as follows:

| <i>(in millions of Korean Won, except for per share amount)</i> | 2003 | 2004 | 2005 |
|---|---------------|---------------|--------------|
| Benefit from tax exemption | (Won) 153,587 | (Won) 239,605 | (Won) 46,026 |
| Weighted-average number of common shares Outstanding | 290 | 305 | 358 |
| Effect per share (Korean Won) | (Won) 529 | (Won) 785 | (Won) 128 |

The statutory income tax rate, including tax surcharges, applicable to the Company was approximately 29.7% in 2002. The statutory income tax rate was amended to 27.5% effective for fiscal years beginning January 1, 2005 in accordance with the Corporate Income Tax Law enacted in December 2003. Accordingly, deferred income taxes as of December 31, 2004 and 2005 were calculated based on the enacted rate of 27.5%.

Taxes are calculated for each individual entity in the group. As a result, losses incurred by subsidiaries cannot be offset against profits earned by the parent company. Taxes on the operating profit differ from the theoretical amount that would arise at the statutory tax rate of the home country of the parent for the years ended December 31, 2003, 2004 and 2005 as follows:

| <i>(in millions of Korean won)</i> | 2003 | 2004 | 2005 |
|---------------------------------------|---------------|---------------|-----------------|
| Taxes at Korean statutory tax rate | (Won) 315,140 | (Won) 517,320 | (Won) 111,356 |

On May 21, 2004, employees of the Company formed an employee stock ownership association, (ESOA), which has the right to purchase on behalf of its membership up to 20% (1,728,000 shares) of shares offered publicly in Korea, pursuant to the Korean Securities and Exchange Act. Employees purchased the shares through the ESOA with loans provided by the Company at the initial public offering price ((Won)34,500) and put under each individual employee s account. 20% of the 20% of shares (345,600 shares) purchased by employees with loans from the Company is accounted for as a restricted stock award which vests over four years. Unearned compensation, shown as a deduction of Capital Surplus, will be amortized over the 4 year vesting period. During the twelve month period ended December 31, 2005, the Company recorded compensation expense of (Won)5,852 million.

Table of Contents**LG. Philips LCD Co., Ltd.****Notes to Consolidated Financial Statements****December 31, 2003, 2004 and 2005****Retained Earnings**

Retained earnings consist of the following as of December 31:

| <i>(in millions of Korean won)</i> | 2004 | 2005 |
|------------------------------------|-----------------|-----------------|
| Appropriated retained earnings: | | |
| Legal reserve | (Won) 60,086 | (Won) 60,086 |
| Unappropriated retained earnings : | 2,940,956 | 3,482,605 |
| | (Won) 3,001,042 | (Won) 3,542,691 |

The Commercial Code of the Republic of Korea requires the Company to appropriate a portion of retained earnings as a legal reserve an amount equal to a minimum of 10% of its cash dividends until such reserve equals 50% of its capital stock. The reserve is not available for dividends but may be transferred to capital stock through an appropriate resolution by the Company's board of directors or used to reduce accumulated deficit, if any, through an appropriate resolution by the Company's stockholders.

14. Stock Appreciation Plan

Effective January 1, 2005, the company adopted the provisions of Statement of Financial Accounting Standards (SFAS) No. 123(R), Share-Based Payment (SFAS 123(R)). SFAS 123(R) establishes accounting for share-based awards exchanged for employee services. SFAS No. 123(R) requires that an award that is classified as a liability to be initially measured at its grant date fair value and remeasured at fair value at the end of each reporting period until the award is settled or expires. The measurement is based on the current stock price and other relevant factors. The difference between the fair value amounts is recognized as compensation expense during the requisite service period, based on the percentage of the requisite service that the employee has rendered as of that date. In accordance with SFAS No. 123(R), compensation expense is remeasured at each reporting date, based on the fair value of the award, and is recognized as expense over the employee requisite service period.

On April 7, 2005, the Company granted 450,000 shares of stock appreciations rights (SARs) for selected management employees. Under the terms of this plan, management, on exercise, receive cash equal to the amount that the market price of the Company's common stock exceeds the strike price ((Won)44,050) of the SARs. The vesting period is two years starting from the grant date, and exercisable period is April 08, 2008 through April 07, 2012.

The following table shows total share-based compensation expense included in the consolidated statement of operations:

| <i>(in millions of Korean won)</i> | December 31, 2005 |
|--|------------------------------|
| Cost of goods sold | (Won) 1,196 |
| Selling general and administrative | 1,637 |
| Income tax benefits | (642) |
| Total share-based compensation expense | (Won) 2,191 |

There were no capitalized share-based compensation costs at December 31, 2005.

The following tables summarize option activity under the SARs for the year ended December 31, 2005:

| <i>(in Korean won)</i> | Weighted-average exercise price | Number of shares under option | Weighted average remaining contractual life (in years) |
|--------------------------------------|--|--|--|
| Balance at December 31, 2004 | (Won) | | |
| Options granted | (Won) 44,260 | 450,000 | |
| Options exercised | | | |
| Options canceled/expired | | 40,000 | |
| Balance at December 31, 2005 | (Won) 44,260 | 410,000 | 6 |
| Exercisable at December 31, 2005 | (Won) | | |

In connection with the adoption of SFAS 123(R), the company assessed its valuation technique and related assumptions. The company estimates the fair value of stock options using a Black-Scholes valuation model, consistent with the provisions of SFAS 123(R) and Securities and Exchange Commission (SEC) Staff Accounting Bulletin No. 107. Key input assumptions used to estimate the fair value of stock options include the grant price of the award, the expected option term, volatility of the company's stock, the risk-free rate and the company's dividend

Table of Contents**LG. Philips LCD Co., Ltd.****Notes to Consolidated Financial Statements****December 31, 2003, 2004 and 2005**

yield. Estimates of fair value are not intended to predict actual future events or the value ultimately realized by selected managements who receive SARs, and subsequent events are not indicative of the reasonableness of the original estimates of fair value made by the Company under SFAS 123(R).

The fair value of SARs was estimated using a Black-Scholes valuation model with the following assumptions:

| | December 31, 2005 |
|--|------------------------------|
| Option term (years) ¹ | 5 |
| Volatility ² | 41.04% |
| Risk-free interest rate (Korean government bond) | 5.08% |
| Dividend yield | 0% |
| Weighted average fair value per option granted | (Won) 18,428 |

¹ The option term is the number of years that the company estimates that options will be outstanding prior to settlement.

² Measured using historical weekly price changes of the Company's stock over the respective term of the option.

15. Earnings Per Share

Earnings per share is computed by dividing net income by the weighted-average number of common shares outstanding during the year.

Diluted earnings per share is computed in a manner consistent with that of basic earnings per share while giving effect to all potentially dilutive common shares that were outstanding during the period.

Earnings per share for the years ended December 31, 2003, 2004 and 2005 is calculated as follows:

| <i>(In millions, except for per share amount)</i> | 2003 | 2004 | 2005 |
|---|--------------------|--------------------|--------------------|
| Net income as reported on the income statements | (Won) 1,006,503 | (Won) 1,703,687 | (Won) 541,649 |
| Weighted-average number of common shares outstanding ¹ | 290 | 305 | 339 |
| Earnings per share | (Won) 3,471 | (Won) 5,586 | (Won) 1,596 |

Convertible bonds, which have a potentially dilutive effect by decreasing net income allocated to common stock, were excluded from the computation of diluted EPS since they did not have a dilutive effect.

¹ For the year ended December 31, 2005, issuance of 32,500 thousand shares of common stock (American Depositary Shares) in July 2005, were included in the computation of weighted-average number of common shares outstanding.

16. Commitments and Contingencies

The Company is subject to several legal proceedings and claims arising in the ordinary course of business. In August 2002, the Company filed a complaint against Chunghwa Picture Tubes, Tatung Company and Tatung Co. of America, alleging patent infringement relating to liquid crystal displays and the manufacturing process for TFT-LCDs. Subsequently the Company filed a complaint against customers of Chunghwa Picture Tubes, including ViewSonic Corp., Jeans Co, Lite-On Technology Corp., Lite-On Technology International, Inc., TpV Technology and Invision Peripheral Inc. In June 2004, Chunghwa Picture Tubes filed a counter-claim against the Company in the United States District Court for the Central District of California for alleged infringement of certain patents and violation of U.S. antitrust laws. In May 2004, the Company filed a complaint against Tatung Co., the parent company of Chunghwa Picture Tubes and ViewSonic Corp. and others, claiming patent infringement of rear mountable liquid crystal display devices in the United States District of Delaware and the Patent Country Court in the United Kingdom. The Company also filed a complaint against Chunghwa Picture Tubes with the American Arbitration Association in connection with the ownership of certain patents. On November 28, 2005, the Company lost its patent infringement case against Tatung Company and ViewSonic Corp. at first instance in Patent Country Court in United Kingdom, and the Company is preparing the appeal against the decision of U.K. Court. In January 2005, Chunghwa Picture Tubes filed a complaint for patent infringement against the Company.

On May 13, 2005, the Company also filed a complaint against Chunghwa Picture Tubes, Tatung Company and Viewsonic Corporation, alleging patent infringement related to liquid crystal display and the manufacturing process for TFT-LCDs in the United States District of Delaware. On September 20, 2005 the United States District Court for the Central District of California dismissed the patent case against Tatung Company and other defendants regarding the patent infringement by Chunghwa Picture Tubes. Thereafter, the Company has revised its claim and has refiled the above complaint including the side mounting patent. The Company's management does not expect that the outcome in any of these legal proceedings, individually or collectively, will have any material adverse effect on the Company's financial condition, results of operations or cash flows.

The Company sells a significant portion of products based on non-binding long-term supply agreements to LGE and Philips, who are currently the largest shareholders of the Company. These agreements are for three-year terms, with automatic renewals. These agreements expired in 2004. The Company is in the process of entering into a formal master agreement with Philips.

Table of Contents**LG. Philips LCD Co., Ltd.****Notes to Consolidated Financial Statements****December 31, 2003, 2004 and 2005**

During the years ended December 31, 2003, 2004 and 2005, the Company's revenue from its three largest customers accounted for 41.1%, 42.9% and 40.1% of total revenue respectively. Sales to A Company constituted 13.4%, 12.5% and 9.8% of total revenue, for the years ended December 31, 2003, 2004 and 2005, respectively. Sales to B Company constituted 18.1%, 16.8% and 14.5% of total revenue, for the years ended December 31, 2003, 2004 and 2005, respectively. The Company purchases a number of components from various sources. In some cases, alternative sources of supply are not available. In other cases, the Company may establish a working relationship with a single source, even when multiple suppliers are available, if the Company believes it is advantageous to do so due to performance, quality, support, delivery, capacity or price considerations. If the supply of a critical material or component were delayed or curtailed, the Company's ability to ship the related product in desired quantities and in a timely manner could be adversely affected. Even where alternative sources of supply are available, qualification of the alternative suppliers and establishment of reliable supplies could result in delays and a possible loss of sales, which could adversely affect operating results.

The following is a summary of revenue by product for the years ended December 31, 2003, 2004 and 2005.
