An Annual Report to Stockholders containing financial statements for the fiscal year ended March 31, 2006 is being mailed together with this Proxy Statement to all stockholders entitled to vote at the Meeting. This Proxy Statement and the form of proxy were first mailed to stockholders on or about July 28, 2006.

The purpose of the Meeting is to elect two Class I directors to the Corporation s Board of Directors and to ratify the selection of PricewaterhouseCoopers LLP, independent registered public accounting firm, as auditors for the fiscal year ending March 31, 2007.

**Record Date and Voting Securities**

Only stockholders of record at the close of business on July 20, 2006 ( Record Date ) will be entitled to receive notice of and to vote at the Meeting. As of that date, 31,668,779 shares of common stock of the Corporation were issued and outstanding. The holders of common stock are entitled to one vote per share on any proposal presented at the Meeting. Whether or not they plan to attend the Meeting, stockholders may vote by completing, signing, and dating the accompanying proxy card and returning it in the enclosed postage-prepaid envelope. ## Edgar Filing: NETSCOUT SYSTEMS INC - Form DEF 14A

Attention: Secretary, at or before the taking of the vote at the Meeting.

### **Quorum and Voting**

The representation in person or by proxy of at least a majority of the outstanding shares of common stock entitled to vote at the Meeting is necessary to constitute a quorum for the transaction of business. Votes withheld from any nominee, abstentions, and broker non-votes are counted as present or represented for purposes of determining the presence or absence of a quorum for the Meeting. A non-vote occurs when a nominee holding shares for a beneficial owner votes on one proposal but does not vote on another proposal because, in respect of such other proposal, the nominee does not have discretionary voting power and has not received instructions from the beneficial owner.

In the election of directors, the nominees receiving the highest number of affirmative votes of the shares present or represented and entitled to vote at the Meeting shall be elected as directors. On all other matters being submitted to stockholders, an affirmative vote of a majority of the shares present or represented and voting on each such matter is required for approval. An automated system administered by the Corporation's transfer agent tabulates the votes. The vote on each matter submitted to stockholders is tabulated separately. Abstentions are included in the number of shares present or represented and voting on each matter and, therefore, with respect to votes on specific proposals, will have the effect of negative votes. Broker non-votes are not so included.

The persons named as attorneys-in-fact in the proxies, Anil K. Singhal, Narendra V. Popat and David P. Sommers, were selected by the Board of Directors and are officers of the Corporation. All properly executed proxies returned in time to be counted at the Meeting will be voted. Where a choice has been specified on the proxy with respect to the foregoing matters, the shares represented by the proxy will be voted in accordance with the specifications. If no such specifications are indicated, such proxies will be voted FOR the nominees to the Board of Directors and FOR ratifying the selection of PricewaterhouseCoopers LLP, independent registered public accounting firm, as auditors for the fiscal year ending March 31, 2007.

The Board of Directors knows of no other matters to be presented at the Meeting. If any other matter should be presented at the Meeting upon which a vote properly may be taken, shares represented by all proxies received by the Board of Directors will be voted with respect thereto in accordance with the judgment of the persons named as attorneys-in-fact in the proxies.

*Process for Identifying and Evaluating Director Nominees*

The Board of Directors is responsible for nominating persons for election as directors of the Corporation. The Board of Directors delegates the selection and nomination process to the Nominating and Corporate Governance Committee, with the expectation that other members of the Board of Directors, and of management, will be requested to take part in the process as appropriate.

Generally, the Nominating and Corporate Governance Committee identifies candidates for director nominees in consultation with management, through the use of search firms or other advisers, through the recommendations submitted by stockholders, or through such other methods as the Nominating and Corporate Governance Committee deems to be helpful to identify candidates. Once candidates have been identified, the Nominating and Corporate Governance Committee confirms that the candidates meet all of the minimum qualifications for director nominees established by the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee may gather information about the candidates through interviews, questionnaires, background checks, or any other means that the Nominating and Corporate Governance Committee deems to be helpful in the evaluation process. The Nominating and Corporate Governance Committee then meets as a group to discuss and evaluate the qualities and skills of each candidate in light of the criteria set forth above or established by the Nominating and Corporate Governance Committee from time to time, both on an individual basis and taking into account the overall composition and needs of the Board of Directors. Based on the results of the evaluation process, the Nominating and Corporate Governance Committee recommends candidates for the Board's approval as director nominees for election to the Board of Directors. The Nominating and Corporate Governance Committee also recommends candidates for the Board's appointment to the committees of the Board of Directors.

### **Report of Audit Committee of the Board of Directors**

This report is submitted by the Audit Committee of the Board of Directors, which reviews with the Corporation's independent registered public accounting firm and management the annual consolidated financial statements and independent auditors' opinion thereon, reviews the results of the integrated audit of the Corporation's annual consolidated financial statements and management's assessment of internal control over financial reporting, evaluates the effectiveness of the independent auditors, recommends the retention of the independent auditors to the Board of Directors and reviews the Corporation's accounting policies, disclosure controls and procedures and internal control over financial reporting. The Audit Committee of the Board of Directors is currently comprised of Messrs. DeMarines, Egan, Hadzima and Mullarkey, and each is independent within the meaning of the Corporation's and NASDAQ's director independence standards. The Audit Committee operates under a written charter adopted by the Board of Directors.

The Audit Committee oversees the Corporation's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the Corporation's financial statements and the financial reporting process, including disclosure controls and procedures and internal control over financial reporting. In fulfilling its oversight responsibilities, the Audit Committee reviewed the audited consolidated financial statements included in the Corporation's Annual Report on Form 10-K with management, including a discussion of the quality, not just the acceptability, of the implementation of accounting principles, the reasonableness of significant judgments, the clarity of disclosures in the financial statements, and reviewed the Corporation's disclosure controls and procedures and internal control over financial reporting, including management's assessment of the effectiveness of its internal control over financial reporting.

The Audit Committee reviewed the results of the integrated audit with the independent auditors who are responsible for expressing an opinion on the conformity of those audited consolidated financial statements with accounting principles generally accepted in the United States of America and on management's assessment of, and the effective operation of, the Corporation's internal control over financial reporting as of March 31, 2006, in accordance with the standards of the Public Company Accounting Oversight Board (United States). The Audit Committee also reviewed with the independent auditors their judgments as to the quality, not just the acceptability, of the Corporation's selection and implementation of accounting principles and such other matters as are required to be discussed with the Audit Committee under generally accepted auditing standards. In addition, the Audit Committee also discussed with the independent auditors the auditors' independence from management and the Corporation, including the matters in the written disclosures required by the Independence Standards Board and considered the compatibility of any non-audit services with the auditors' independence.

The Audit Committee discussed with the Corporation's management and independent auditors the overall plan for the integrated audit. The Audit Committee meets with the independent auditors, with and without management present, to discuss the results of their examinations, their assessment of the Corporation's internal control over financial reporting, and the overall quality of the Corporation's financial reporting. The Audit Committee held eight meetings during fiscal year 2006.

The Audit Committee has reviewed the audited consolidated financial statements of the Corporation at March 31, 2006 and for each of the three fiscal years then ended with both management and PricewaterhouseCoopers LLP, the Corporation's independent registered public accounting firm. The Audit Committee has also discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61, as amended by Statement on Auditing Standards No. 90 (Communications with Audit Committees), as currently in effect. The Audit Committee has received the written disclosures and the letter from the independent auditors required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), as currently in effect, and has discussed with PricewaterhouseCoopers LLP that firm's independence. Based on its review of the Corporation's consolidated financial statements and these discussions, the Audit Committee concluded that it would be reasonable to recommend, and on that basis did recommend, to the Board of Directors that the audited consolidated financial statements be included in the Corporation's Annual Report on Form 10-K for the fiscal year ended March 31, 2006.

**Respectfully submitted by the Audit Committee**

Vincent J. Mullarkey, Chairman

Victor A. DeMarines

### Restricted Stock Unit Grants in Last Fiscal Year

In January 2006, the Corporation granted to each of Messrs. Sommers, Szabados, and Downing a restricted stock unit grant representing 19,025 units of the Corporation's common stock. ### Year-End Option Table

The following table sets forth information regarding exercisable and unexercisable stock options held as of March 31, 2006 by each of the Named Executive Officers. The value realized upon exercise of stock options is calculated by determining the difference between the exercise price per share and the fair market value on the date of exercise. The value of unexercised in-the-money options has been calculated by multiplying the number of shares underlying the option by the difference between the exercise price per share payable upon exercise of such options and the fair market value at March 31, 2006 of \$9.10 per share. As previously disclosed in a Current Report on Form 8-K, in May 2005, the Company approved the acceleration of vesting of all stock options issued on or before December 31, 2004 that become exercisable on or after April 1, 2006, so that all of such options became fully exercisable on March 31, 2006.

### Stock Plans

*1990 Stock Option Plan.* The 1990 Stock Option Plan was adopted by the Board of Directors and approved by the stockholders on October 4, 1990. In general, options granted pursuant to the 1990 Stock Option Plan are exercisable within ten years of the original grant date and become exercisable over a period of four years from a specific date; an additional 25% of unexercisable options shall become exercisable immediately prior to the closing of a merger, acquisition, business combination or similar transaction which results in the Corporation's existing stockholders owning less than 50% of the Corporation's equity securities or assets. Options are not assignable or transferable except by will or the laws of descent or distribution. The Corporation has a right of repurchase for shares issued upon the exercise of options under certain circumstances, including unauthorized transfers of shares and termination of the optionee's relationship with the Corporation in certain situations. As of the Record Date, options to purchase an aggregate of 338,220 shares of common stock at a weighted average exercise price of \$3.83 per share were outstanding under the 1990 Stock Option Plan. No additional option grants will be made under the 1990 Stock Option Plan.

*1999 Stock Option and Incentive Plan.* The Corporation's 1999 Stock Option and Incentive Plan, as amended (the "1999 Stock Option Plan"), was adopted by the Board of Directors in April 1999 and was approved by the Corporation's stockholders in June 1999. The 1999 Stock Option Plan provides for the grant of stock-based awards to the Corporation's employees, officers and directors, consultants or advisors. Under the 1999 Stock Option Plan, the Corporation may grant options that are intended to qualify as incentive stock options within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended (the "Code"), options not intended to qualify as incentive stock options, restricted stock and other stock-based awards. Incentive stock options may be granted only to employees of the Corporation. A total of 4,500,000 shares of common stock were originally reserved for issuance under the 1999 Stock Option Plan. In September 2001, at the annual meeting of stockholders, an additional 5,000,000 shares were approved, for a total of 9,500,000 shares reserved for issuance under the 1999 Stock Option Plan. The maximum number of shares with respect to which awards may be granted to any employee under the 1999 Stock Option Plan shall not exceed 1,000,000 shares of common stock during any calendar year.

The 1999 Stock Option Plan is administered by the Compensation Committee. Subject to the provisions of the 1999 Stock Option Plan, the Compensation Committee has the authority to select the persons to whom awards are granted and to determine the terms of each award, including the number of shares of common stock subject to the award. Payment of the exercise price of an award may be made in cash or, if approved by the Compensation Committee, shares of common stock, a combination of cash and stock, a promissory note or by any other method approved by the Compensation Committee. Unless otherwise permitted by the Compensation Committee, awards are not assignable or transferable except by will or the laws of descent and distribution and, during the participant's lifetime, may be exercised only by the participant.

The 1999 Stock Option Plan provides, subject to certain conditions, that upon an acquisition of the Corporation, 25% of each unvested portion of any awards will accelerate and become exercisable, with the remaining 75% of each unvested portion to continue vesting throughout the term of such awards.

The Compensation Committee may, in its sole discretion, amend, modify or terminate any award granted or made under the 1999 Stock Option Plan, so long as such amendment, modification or termination would not materially and adversely affect the participant. The Compensation Committee may also provide that any option shall become immediately exercisable, in full or in part, or that any restricted stock granted under the 1999 Stock Option Plan shall be free of some or all restrictions.

As of the Record Date, options to purchase an aggregate of 4,191,420 shares of common stock at an average exercise price of \$6.24 per share were outstanding under the 1999 Stock Option Plan and the Corporation had granted restricted stock units representing 154,345 shares of common stock.

The plan was amended by the Board of Directors on January 17, 2001, July 18, 2001 and April 29, 2003. A total of 500,000 shares of common stock were originally reserved for issuance under the 1999 Purchase Plan. In September 2003, at the Annual Meeting of Stockholders, an additional 750,000 shares were approved, for a total of 1,250,000 shares reserved for issuance under the 1999 Purchase Plan. The Board of Directors suspended the 1999 Purchase Plan as of October 31, 2005.

*NextPoint Networks, Inc. Stock Incentive Plans.* Upon the consummation of the Corporation's acquisition of NextPoint Networks, Inc. ("NextPoint"), the Corporation assumed NextPoint's 1997 Stock Incentive Plan and 2000 Stock Incentive Plan (collectively, the "NextPoint Plans") and all outstanding options which had been issued pursuant to each plan. Options to purchase shares of NextPoint common stock were converted into options to purchase shares of the Corporation's common stock. In general, options granted pursuant to the 1997 Stock Incentive Plan or the 2000 Stock Incentive Plan are not transferable or assignable except by will or the laws of descent and distribution. The 1997 Stock Incentive Plan provided that all outstanding options become

immediately exercisable upon the consummation of the NextPoint acquisition. However, certain NextPoint option holders executed an agreement providing that (i) only 50% of such option holder's options would become exercisable immediately following the acquisition and (ii) the remainder of the unexercisable options would become exercisable in equal quarterly amounts over the two years following the acquisition. Under the 2000 Stock Incentive Plan, options generally become exercisable over a four-year period from a specific date. As of the Record Date, options to purchase an aggregate of 65,019 shares of the Corporation's common stock at a weighted average exercise price of \$3.23 were outstanding under the 1997 Stock Incentive Plan and options to purchase an aggregate of 6,936 shares of the Corporation's common stock at a weighted average exercise price of \$8.83 were outstanding under the 2000 Stock Incentive Plan. No additional option grants will be made under the 1997 Stock Incentive Plan or the 2000 Stock Incentive Plan.

The Corporation maintains a 401(k) plan qualified under Section 401 of the Code. All of the Corporation's employees who are at least 21 years of age and work at least 20 hours per week are eligible to participate in the 401(k) plan. Under the 401(k) plan, a participant may contribute a maximum of 15% of his or her pre-tax salary, commissions and bonuses through payroll deductions, up to the statutorily prescribed annual limit, which was \$14,000 (or \$18,000 for individuals at least 50 years of age) in calendar year 2005, to the 401(k) plan. The percentage elected by more highly compensated participants may be required to be lower. At the discretion of the Board of Directors, the Corporation may make matching contributions to the 401(k) plan. During the plan year ended December 31, 2005, the Corporation matched \$0.50 for each \$1.00 of employee contributions up to 6% of compensation. The Corporation's contributions vest at a rate of 25% per year of service. In addition, at the discretion of the Board of Directors, the Corporation may make profit-sharing contributions to the 401(k) plan for all eligible employees. During the plan year ended December 31, 2005, the Corporation made no profit-sharing contributions to the 401(k) plan.

#### Employment Agreements

## Edgar Filing: NETSCOUT SYSTEMS INC - Form DEF 14A

Anil K. Singhal and Narendra V. Popat entered into employment agreements with the Corporation on June 1, 1994, which were amended on January 14, 1999 and on August 5, 2004. Under the terms of these employment agreements as in effect prior to August 2004, each of Messrs. Singhal and Popat receive an annual base salary of at least \$250,000 and a year-end non-discretionary bonus of at least \$250,000. For the fiscal year ended March 31, 2004, no year-end bonus was paid to either Messrs. Singhal or Popat, as both individuals agreed to waive any right or entitlement to the year-end bonuses. In August 2004, each of Mr. Singhal and Mr. Popat amended his employment agreement with the Corporation to make any bonus payable discretionary based on

performance and other objectives. For fiscal year 2006, Mr. Singhal and Mr. Popat received a year-end bonus of \$260,000 and \$260,000, respectively. In the event that either Messrs. Singhal or Popat is terminated without cause, or either decides to terminate his own employment for good reason, each is entitled to receive severance benefits for three years as follows:

for the first twelve months following termination, the greater of \$175,000 or base salary as of the date of termination; and

for each of the next two twelve-month periods, an amount equal to 120% of the amount received in the immediately preceding twelve months.

Good reason includes a change in executive responsibilities or a reduction in salary or benefits. Severance benefits will be discontinued if the executive secures alternative employment that is comparable as to position and pay. During any period in which Messrs. Singhal or Popat is entitled to receive severance benefits, he shall also continue to receive all other benefits under the employment agreements, including life insurance, medical insurance and reimbursement for company car expenses. Each of Messrs. Singhal and Popat are also entitled to reimbursement of job placement expenses of up to \$25,000 plus related travel expenses. If either Messrs. Singhal or Popat is terminated with cause, he will not be entitled to any severance payments or other benefits except as required by law. Each employment agreement provides for a five-year term commencing June 1, 1994, with automatic one-year renewals.

#### **Transactions with Management and Others**

All future transactions, if any, with our executive officers, directors and affiliates will be on terms no less favorable to us than could be obtained from unrelated third parties and will be approved by a majority of the Board of Directors and by a majority of the disinterested members of the Board of Directors.

#### **Report of Compensation Committee of the Board of Directors**

This report is submitted by the Compensation Committee of the Board of Directors, which administered the Corporation's executive compensation program during the fiscal year ended March 31, 2006. The Compensation Committee of the Board of Directors is currently comprised of Messrs. Egan, Hadzima, and McGuigan. The Board of Directors has determined that each member of the Compensation Committee is independent within the meaning of the Corporation, SEC, and NASDAQ's director independence standards. The Compensation Committee met five times and took action by written consent one time during the fiscal year ended March 31, 2006.

*Compensation Committee Charter.* A current copy of the Compensation Committee Charter is available at the Corporate Governance section of the Corporation's website at <http://www.netscout.com/investors/>. Under the charter, the Compensation Committee's duties include discharging the Board's responsibilities relating to the compensation of the Corporation's executives, administering the Corporation's incentive compensation and equity plans, reviewing and making recommendations with respect to the Corporation's benefit plans and human resource activities and producing an annual report on executive compensation for inclusion in the Corporation's proxy statement in accordance with applicable rules and regulations. The Compensation Committee has established a regular schedule of review of each of its major areas of responsibility as set forth in the charter.

*Overview and Philosophy.* The Corporation uses its compensation program to achieve the following objectives:

## Edgar Filing: NETSCOUT SYSTEMS INC - Form DEF 14A

To provide compensation that attracts, motivates, and retains the best talent and highest caliber people to serve the Corporation's customers and achieve its strategic objectives.

To align management's interest with the success of the Corporation, including by linking compensation and performance, based on the attainment of both company goals and individual goals.

To align management's interest with stockholders by including long-term equity incentives.

To increase profitability of the Corporation and, accordingly, increase stockholder value.

Compensation under the executive compensation program is comprised of cash compensation in the form of base salary and, in the case of certain executive officers, annual incentive bonuses and long-term incentive awards in the form of stock option grants and other forms of equity incentive grants, such as restricted stock units. The Committee reviews the total mix and weighting of compensation, such as short-term versus long-term compensation and cash versus equity compensation, in light of the Corporation's overall compensation goals. For example, equity incentives are designed primarily to align management's interests with that of stockholders over the longer term and are also examined, as discussed more fully below, with respect to their long-term motivational effect in light of the value of previous awards of equity incentives. Also as discussed more fully below, compensation for the Vice President of Sales is structured differently than other executive officers. In addition, the compensation program is comprised of various benefits, including medical and insurance plans, the Corporation's 401(k) Plan, and the 1999 Stock Option Plan, which plans are generally available to all employees of the Corporation. The Compensation Committee has reviewed tally sheets for each executive officer in connection with awarding bonuses for fiscal year 2006 and setting overall compensation for fiscal year 2007 and will review tally sheets at least annually in the future.

*Base Salary.* Base salary levels for each of the Corporation's executive officers, including the Chief Executive Officer, are generally set within the range of salaries that the Compensation Committee believes are paid to executive officers with comparable qualifications, experience and responsibilities at similar companies. The Compensation Committee intends to set compensation, generally, above the average salary level within that peer group range. In setting compensation levels within that peer group range, the Compensation Committee takes into account (i) the Corporation's past financial performance and future expectations, (ii) individual performance and experience and (iii) past overall compensation levels. The Compensation Committee does not assign relative weights or rankings to these factors, but instead makes a determination based upon the consideration of all of these factors as well as the progress made with respect to the Corporation's long-term goals and strategies. Generally, salary decisions for the Corporation's executive officers are made near the beginning of each fiscal year.

Fiscal year 2006 base salaries were determined by the Compensation Committee after considering the base salary level of the executive officers in prior years and taking into account for each executive officer the amount of base salary as a component of total compensation. Base salary is reviewed annually and adjusted as deemed necessary by the Compensation Committee in determining total compensation to each executive officer. Base salary levels for each of the Corporation's executive officers, other than the Chief Executive Officer and Chairman of the Board, are also based upon evaluations and recommendations made by the Chief Executive Officer. Pursuant to their respective employment agreements with the Corporation, Anil K. Singhal, the Corporation's Chief Executive Officer, and Narendra V. Popat, the Corporation's Chairman of the Board, each receive an annual base salary of at least \$250,000.

*Incentive Compensation.* The Compensation Committee determined the amount of incentive compensation paid to each of the executive officers based upon consideration of a number of factors that it deemed relevant to the executive officer's performance in fiscal year 2006. These factors included the Corporation's financial performance and certain non-financial performance factors deemed relevant to the job function of each of the executive officers including non-financial individual goal achievement, experience, and responsibility.

Individual goals are set at the beginning of each fiscal year. Compared to other executive officers' compensation, compensation for the Vice President of Sales is weighted more heavily toward incentive compensation related to achievement of sales targets. Except for the Vice President of Sales, incentive compensation is not awarded to executive officers unless the Corporation achieves certain minimum financial goals. Incentive compensation awards for each of the Corporation's executive officers, other than the Chief Executive Officer and Chairman of the Board, are also based upon evaluations and recommendations made by the Chief Executive Officer.

*Stock-Based Awards.* The Compensation Committee periodically reviews the Corporation's guidelines for stock based awards in comparison to the practices of similar companies, as noted above in the discussion about the peer group comparison. The Compensation Committee believes that long-term incentive compensation in the form of restricted stock units, stock options, or other forms of stock-based awards helps to align the interests of management and stockholders and enables executives to develop long-term stock ownership in the Corporation. In addition to an executive's past performance, the Corporation's desire to retain an individual is of paramount importance in the determination of stock-based grants. The Corporation has traditionally used stock options as the most common form of stock-based awards granted under the 1999 Stock Option Plan. However, due to new accounting pronouncements applicable to stock-based awards, the Corporation has begun to use and expects to continue to use restricted stock and restricted stock unit awards as the most common form of stock-based awards granted under the 1999 Stock Option Plan.

The Compensation Committee believes that the Corporation's equity incentive program should be broad based. Accordingly, during the past three fiscal years, approximately 80% of the total number of all stock options granted by the Corporation were granted to employees below the Vice President level, and approximately 20% were granted to employees at the level of Vice President and above (a group including an average of 13 individuals). One hundred percent of current employees hold one or more equity grants. The Corporation's equity incentive program is a key element of the Corporation's compensation program, and the compensation program's goal of attracting and retaining highly qualified individuals essential for the Corporation's success. The Compensation Committee believes that these stock-based awards will help drive superior performance by these individuals, will contribute significantly to the Corporation's future, and will align the interests of employees and stockholders.

*Equity Awards for Non-Executive Employees and Consultants.* For administrative convenience the Board of Directors has established the Equity Compensation Committee, formerly the Stock Option Committee, the sole member of which is currently Anil K. Singhal. The Equity Compensation Committee is responsible for granting stock-based awards to employees and consultants of the Corporation who are not executive officers or directors of the Corporation. The Equity Compensation Committee operates under guidelines established by the Board of Directors based upon recommendations of the Compensation Committee and reports all equity awards granted at each regularly scheduled meeting of the Board of Directors.

*Executive Officer Stock-Based Awards.* When establishing stock-based grant levels for executive officers, the Compensation Committee considers the existing levels of stock ownership, previous grants of stock options and other stock-based awards, vesting schedules of previously granted options and stock-based awards, and the current stock price. The Compensation Committee annually reviews stock-based grants to executive officers and considers the level of outstanding awards as a factor in its determinations with respect to overall compensation for each of the executive officers and the effectiveness of additional awards or other forms of compensation in achieving the Corporation's compensation goals. For additional information regarding the grant of options, see the table under the section heading "Restricted Stock Unit Grants in Last Fiscal Year" above.

*Other Benefits.* The Corporation also has various broad-based employee benefit plans. Executive officers participate in these plans on the same terms as eligible, non-executive employees, subject to any legal limits on the amounts that may be contributed or paid to executive officers under these plans. The Corporation offers a 401(k) plan, which allows employees to invest in a wide array of funds on a pre-tax basis. The Corporation also maintains insurance and other benefit plans for its employees.

*Chief Executive Officer's Compensation.* In fiscal year 2006, the Corporation's Chief Executive Officer, Anil K. Singhal, received salary compensation of \$250,000 and a bonus of \$260,000.

*Tax Deductibility of Executive Compensation.* In general, under Section 162(m) of the Code, the Corporation cannot deduct, for federal income tax purposes, compensation in excess of \$1,000,000 paid to certain executive officers. This deduction limitation does not apply, however, to compensation that constitutes

qualified performance-based compensation within the meaning of Section 162(m) of the Code and the regulations promulgated thereunder. The Compensation Committee has considered the limitations on deductions imposed by Section 162(m) of the Code, and it is the Compensation Committee's present intention, for so long as it is consistent with its overall compensation objective, to structure executive compensation to minimize application of the deduction limitations of Section 162(m) of the Code.

*Conclusion.* The Compensation Committee intends to continue the policy of linking executive compensation to corporate performance, both financial and strategic, with the goal of increasing stockholder value over time.

**Respectfully submitted by the Compensation Committee**

Joseph G. Hadzima, Jr., Chairman

John R. Egan

Stuart McGuigan
