DISCOVERY PARTNERS INTERNATIONAL REPORTS SECOND QUARTER 2006 RESULTS

San Diego, CA August 9, 2006 Discovery Partners International, Inc. (NASDAQ: DPII) today announced unaudited financial results for the three and six month periods ended June 30, 2006.

Following the Company's sale of all of the stock of its operating subsidiaries and all of its material operating assets pursuant to a stock and asset purchase agreement with Galapagos NV and Biofocus Inc., a subsidiary of Galapagos NV, and the sale of the instrumentation product lines in 2005, the Company no longer reports any revenue nor associated expense, nor any historical operating results related to its operating activities. These results are reported as discontinued operations. The Company's results from continuing operations arise solely from general and administrative and other expenses related to its corporate activities and investment income on its marketable securities portfolio.

Net loss from continuing operations for the three months ended June 30, 2006 was \$3.2 million, or \$0.12 per share, compared to a net loss of \$2.2 million, or \$0.08 per share, for the same period in 2005. Net loss from continuing operations for the six months ended June 30, 2006 was \$5.3 million, or \$0.20 per share, compared to a net loss of \$4.9 million, or \$0.19 per share, for the same period in 2005.

Selling, general and administrative costs for the second quarter of 2006 were \$4.1 million, up from \$2.6 million in the second quarter of 2005 due to costs related to the Company's strategic initiatives, which more than offset savings from lower staffing levels. Selling, general and administrative costs for the first half of 2006 were \$7.0 million, up from \$5.7 million in the first half of 2005 due to costs related to the Company's strategic initiatives, which more than offset the absence of severance payments to our former COO and savings from lower staffing levels.

Investment income for the three and six months ended June 30, 2006 were \$0.9 million and \$1.8 million, respectively, up from \$0.4 million and \$0.9 million, respectively, for the same periods in 2005 due to higher yields on the Company's investment portfolio.

Net loss from discontinued operations for the three months ended June 30, 2006 was \$1.2 million, or \$0.05 per share, compared to net income of \$0.8 million, or \$0.03 per share, for the same period in 2005. Net loss from discontinued operations for the six months ended June 30, 2006 was \$8.3 million, or \$0.31 per share, compared to a net loss of \$1.0 million, or \$0.04 per share, for the same period in 2005. The increased loss for both periods resulted primarily from a significant reduction in revenue generated from the discontinued operations in 2006 versus 2005.

Cash, cash equivalents and short-term investments at June 30, 2006 were \$75.4 million, a decrease of \$4.7 million from the balance at March 31, 2006 due primarily to the net loss. This cash number does not reflect the \$5.4 million received from the sale of our operational assets to Galapagos NV in early July.

During the second quarter of 2006, Discovery Partners announced both the merger with Infinity Pharmaceuticals, and the sale of our drug discovery business to Galapagos NV for \$5.4 million in cash, said Michael C. Venuti, Ph.D., Acting Chief Executive Officer of Discovery Partners. Importantly, we were able to complete the sale to Galapagos NV without incurring either major severance or shutdown costs. The combination of these strategic initiatives is intended to afford our shareholders the opportunity to participate in the growth associated with the cancer drug development portfolio of Infinity. The date for the special meeting Discovery Partners' shareholders to vote on the Infinity merger and related matters is September 12, 2006, concluded Venuti.
