LG.PHILIPS LCD REPORTS FOURTH QUARTER 2006 RESULTS

SEOUL, Korea January 16, 2007 LG.Philips LCD [NYSE: LPL, KRX: 034220], one of the world's leading TFT-LCD manufacturers, today reported unaudited earnings results based on consolidated Korean GAAP for the three-month period ended December 31, 2006. Amounts in Korean Won (KRW) are translated into US dollars (USD) at the noon buying rate in effect on December 29, 2006, which was KRW 930.00 per US dollar.

Sales in the fourth quarter of 2006 increased by 11% to KRW 3,065 billion (USD 3,296 million) from sales of KRW 2,773 billion (USD 2,982 million) in the third quarter of 2006 and increased 3% compared to KRW 2,963 billion (USD 3,186 million) in the fourth quarter of 2005.

Operating loss in the fourth quarter of 2006 was KRW 177 billion (USD 190 million) compared to an operating loss of KRW 382 billion (USD 411 million) in the third quarter of 2006, and an operating profit of KRW 334 billion (USD 359 million) in the fourth quarter of 2005.

EBITDA in the fourth quarter of 2006 was KRW 559 billion (USD 601 million), an increase of 89% from KRW 295 billion (USD 317 million) in the third quarter of 2006 and a year-over-year decline of 32% from KRW 824 billion (USD 886 million) in the fourth quarter of 2005.

Net income in the fourth quarter of 2006 was a loss of KRW 174 billion (USD 187 million) compared to a loss of KRW 321 billion (USD 345 million) in the third quarter of 2006 and a profit of KRW 328 billion (USD 353 million) in the fourth quarter of 2005. Ron Wirahadiraksa, CFO of LG.Philips LCD, said, "We are encouraged by our performance this quarter and the results of the enhanced cost reduction initiatives we are implementing. During the fourth quarter, we were able to reduce our COGS per square meter in KRW by 10% sequentially. In addition, we maintained finished goods inventory levels at slightly under three weeks at the end of the quarter. Further, the increasing number of long-term supply agreements we have secured, reflects our continued focus on closer customer collaboration as we head into a challenging market environment in 2007.

Responding to the needs of our customers and a rapidly evolving global business environment remains a key focus of LG.Philips LCD, Mr. Wirahadiraksa continued. "We believe our strategy is strong and that the new leadership team, announced in late December, will further enhance the Company's global standing and business capabilities.

Fourth Quarter Financial Review

Revenue and Cost

Revenue in the three-month period ended December 31, 2006, increased by 3% to KRW 3,065 billion (USD 3,296 million) from KRW 2,963 billion (USD 3,186 million) in the corresponding period of 2005. TFT-LCD panels for TVs, desktop monitors, notebook computers and other applications accounted for 48%, 27%, 21% and 4%, respectively, on a revenue basis in the fourth quarter of 2006.

Overall, the Company shipped a total of 2.3 million square meters of net display area in the fourth quarter of 2006, a 14% increase quarter-on-quarter, with an average selling price per square meter of USD 1,414. This represents a decrease in the average selling price per square meter of net display area of approximately 3% compared to the end of the third quarter of 2006 and an average decrease of 1% from the third quarter of 2006.

The total cost of goods sold increased 2% sequentially to KRW 3,090 billion (USD 3,323 million), and increased 26% year-over-year driven by shipment growth. The cost of goods sold per square meter of net display area shipped was KRW 1.4 million (USD 1,460) for the fourth quarter of 2006, down 10% from the third quarter of 2006.

Liquidity

As of December 31, 2006, LG.Philips LCD had KRW 954 billion (USD 1,026 million) of cash and cash equivalents. Total debt was KRW 4,121 billion (USD 4,431 million), and the net debt-to-equity ratio was 46% as of December 31, 2006, compared to 57% as of September 30, 2006.

Capital Spending

Capital expenditures in the fourth quarter of 2006 were KRW 324 billion (USD 348 million) compared to KRW 1,396 billion (USD 1,501 million) in the fourth quarter of 2005, and were primarily invested in Gen 5.5, the Poland module plant, the enhancement of production efficiency, and the maintenance of existing facilities.

Utilization and Capacity

Total input capacity on an area basis increased approximately 17% sequentially in the fourth quarter, mainly attributable to the ramp up of P7, which currently averages 78,000 input sheets per month.

Outlook

The following expectations are based on current information as of January 16, 2007. The Company does not expect to update its expectations until next quarter's earnings announcement. However, the Company may update its full business outlook, or any portion thereof, at any time for any reason.

For the first quarter of 2007, we anticipate a mid-single digit decrease percentage in total area shipments sequentially, where TV decreases by a high-teens and IT increases by a mid-single digit percentage, commented Mr. Wirahadiraksa. We anticipate both the ASP per square meter at the end of the first quarter of 2007 as well as the average ASP during the quarter to decline by a low-teens percentage, which is the same for both TV and IT.

Mr. Wirahadiraksa continued, Our COGS reduction per square meter is expected to be a mid-single digit percentage in the first quarter. Accordingly, our EBITDA margin for the first quarter of 2007 is expected to be a mid-teens percentage. Looking forward to 2007, we anticipate continued progress in our cost reduction efforts and expect that these strategies will reduce costs by 25 to 30 percent.

Our CAPEX guidance for 2007 remains at approximately KRW 1 trillion. Our 2007 CAPEX will be utilized for future production facilities, production efficiency enhancement and existing facility maintenance, thereby providing us with more operational flexibility, Mr. Wirahadiraksa concluded.

Earnings Conference and Conference Call

LG.Philips LCD will hold a Korean language earnings conference on January 16, 2007, at 4:30 p.m. Korea Standard Time on the 1st floor, in the International Conference Room of the Korea Exchange Building (KRX). An English language conference call will follow at 10:00 p.m. Korea Standard Time, 8:00 a.m. EST and 1:00 p.m. GMT. The call-in number is +82 (0)31-810-3001 for both callers in Korea and callers outside of Korea. The confirmation number is 3777. Corresponding slides will be available at the Investor Relations section of the LG.Philips LCD web site: <http://www.lgphilips-lcd.com>

Investors can listen to the conference call via the Internet at <http://www.lgphilips-lcd.com>. To listen to the live call, please go to the Investor Relations section of the web site at least 15 minutes prior to the call to register and install any necessary audio software.

For those who are unable to participate in the call, a replay will be available for 30 days after the call. The call-in number is 031-810-3100 for callers in Korea and +82-31-810-3100 for callers outside of Korea. The confirmation number for the replay is 76999#.

About LG.Philips LCD

LG.Philips LCD Co., Ltd [NYSE: LPL, KRX: 034220] is a leading manufacturer and supplier of thin-film transistor liquid crystal display (TFT-LCD) panels. The Company manufactures TFT-LCD panels in a wide range of sizes and specifications for use in TVs, monitors, notebook PCs, and various applications. LG.Philips LCD currently operates seven fabrication facilities and four back-end assembly facilities in Korea, China and Poland. In addition, LG.Philips LCD has sales and representative offices in ten countries and has approximately 21,000 employees globally. Please visit <http://www.lgphilips-lcd.com> for more information.

Disclaimer

Disclaimer

This presentation contains forward-looking statements. We may also make written or oral forward-looking statements in our periodic reports to the United States Securities and Exchange Commission and the Korean Financial Supervisory Service, in our annual report to shareholders, in our proxy statements, in our offering circulars and prospectuses, in press releases and other written materials and in oral statements made by our

officers, directors or employees to third parties. Statements that are not historical facts, including statements about our beliefs and expectations, are forward-looking statements. These statements are based on current plans, estimates and projections, and therefore you should not place undue reliance on them. Forward-looking statements speak only as of the date they are made, and we undertake no obligation to update publicly any of them in light of new information or future events.

Forward-looking statements involve inherent risks and uncertainties.

We caution you that a number of

important factors could cause actual results to differ materially from those contained in any forward-looking statement. Such factors include, but are not limited to: our highly competitive environment; the cyclical nature of our industry; our ability to introduce new products on a timely basis; our dependence on growth in the demand for our products; our ability to successfully execute our expansion strategy; our dependence on key personnel; and general economic and political conditions, including those related to the TFT-LCD industry; possible disruptions in business activities caused by natural and human-induced disasters, including terrorist activity and armed conflict; and fluctuations in foreign currency exchange rates. Additional information as to these and other factors that may cause actual results to differ materially from our forward-looking statements can be found in our filings with the Securities and Exchange Commission.

This presentation also includes information regarding our historical financial performance through December 31, 2006, and our expectations regarding future performance as reflected in certain non-GAAP financial measures as defined by United States

Securities and Exchange Commission rules. As required by such rules, we have provided a reconciliation of those measures to the most directly comparable GAAP measures, which is available

on our investor relations website at

<http://www.lgphilips-lcd.com>

EBITDA Reconciliation (Continued)

EBITDA Reconciliation (Continued)

EBITDA is defined as net income (loss) plus: interest income (expense); provision (benefit) for income taxes; depreciation of property, plant and equipment; amortization of intangible assets; and amortization of debt issuance cost. EBITDA is a key financial measure used by our senior management to internally evaluate the performance of our business and for other required or discretionary purposes. Specifically, our significant capital

assets are in different stages of depreciation, and because we do not have separate operating divisions, our senior management uses EBITDA internally to measure the performance of these assets on a comparable basis. We also believe that the presentation of EBITDA will enhance an investor's understanding of our operating performance as we believe it is commonly reported and widely used by analysts and investors in our industry. It also provides useful information for comparison on a more comparable basis of our operating performance and those of our competitors, who follow different accounting policies. For example, depreciation on most of our equipment is made based on a four-year useful life while most of our competitors use different depreciation schedules from our own. EBITDA is not a measure determined in accordance with U.S. GAAP. EBITDA should not be considered as an alternative to operating income, cash flows from operating activities or net income, as determined in accordance with U.S. GAAP. Our calculation of EBITDA may not be comparable to similarly titled measures reported by other companies.
