PROXY STATEMENT

FOR THE 2007 ANNUAL MEETING OF STOCKHOLDERS

TO BE HELD ON MAY 7, 2007

QUESTIONS AND ANSWERS ABOUT THE ANNUAL MEETING AND VOTING

The Annual Meeting

Why did you send me this Proxy Statement?

We sent you this proxy statement and the enclosed proxy card because our Board of Directors is soliciting your proxy to vote at the 2007 annual meeting of stockholders. This question and answer section summarizes selected information contained elsewhere in this proxy statement, but does not contain all of the information that may be important to you. We urge you to read the entire proxy statement carefully.

You do not need to attend the annual meeting to vote your shares. Instead, you may simply complete, sign and return the enclosed proxy card.

When and where is the Annual Meeting?

The 2007 annual meeting of the stockholders of Goodman Global, Inc. will be held on Monday, May 7, 2007, at 3 p.m., local time, at the Omni Houston Hotel, Four Riverway, Houston, Texas 77056.

What am I being asked to vote upon?

You are being asked to approve (1) the election of three (3) Class I directors to serve until the 2010 annual meeting of stockholders and (2) consider and vote upon such other business as may properly come before the Annual Meeting or any adjournments or postponements thereof.

Voting and Proxy Procedures

Who may vote at the Annual Meeting?

Only stockholders of record at the close of business on March 30, 2007, the record date for the meeting, are entitled to receive notice of and to participate in the annual meeting. If you were a stockholder of record on that date, you will be entitled to vote all of the common shares that you held on that date at the meeting, or any postponements or adjournments of the meeting. We are mailing this proxy statement to stockholders beginning on or about April 10, 2007.

What are the voting rights of the holders of Goodman Global, Inc. stock?

Each share of common stock, par value \$0.01 per share (Common Stock), is entitled to one vote per share on all matters. Your proxy card indicates the number of shares that you owned as of the record date.

Table of Contents

Who is soliciting my proxy?

Our Board of Directors is soliciting proxies to be voted at the annual meeting.

How do I vote by proxy?

Whether you plan to attend the annual meeting or not, we urge you to complete, sign and date the enclosed proxy card and return it promptly in the envelope provided. Returning the proxy card will not affect your right to attend the annual meeting and vote in person.

If you properly fill in your proxy card and send it to us in time to vote, your proxy (one of the individuals named as proxies on your proxy card) will vote your shares as you have directed. Unless otherwise directed in the proxy card, your proxy will vote your shares FOR the election of the three Class I nominees proposed by our Board of Directors.

If any other matter is presented, it is the intention of the persons named in the enclosed proxy card to vote proxies held by them in accordance with their best judgment. At the time this proxy statement went to press, we knew of no matters that needed to be acted on at the annual meeting other than those discussed in this proxy statement.

How may I revoke my signed proxy card?

You may revoke your proxy card or change your vote at any time before your proxy is voted at the annual meeting. You can do this in one of three ways:

First, you can send a written notice to our Corporate Secretary at 2550 North Loop West, Suite 400, Houston, Texas 77092, stating that you would like to revoke your proxy. Any written revocation must be received by the Corporate Secretary prior to the annual meeting to constitute a valid revocation of your proxy card.

Second, you can complete and submit a later-dated proxy card.

Third, you can attend the meeting and vote in person. Your attendance at the annual meeting will not alone revoke your proxy unless you vote at the meeting as described below.

If you have instructed a broker to vote your shares, you must follow directions received from your broker to change those instructions.

What does it mean if I get more than one proxy card?

It indicates that your shares are held in more than one account, such as two brokerage accounts registered in different names. You should complete each of the proxy cards to ensure that all of your shares are voted. We encourage you to register all of your brokerage accounts in the same name and address for better stockholder service. You may do this by contacting our transfer agent, Mellon Investor Services, LLC, at 480 Washington Blvd., Jersey City, NJ 07310-1900, Telephone: (800) 270-3449.

How do I vote in person?

If you plan to attend the annual meeting and vote in person, we will give you a ballot when you arrive. However, if your shares are held in the name of your broker, bank or other nominee, you must bring an account statement or letter from the nominee indicating that you were the beneficial owner of the shares on the record date.

Table of Contents

Quorum and Required Votes

How many votes are needed to hold the meeting?

A majority of the outstanding shares as of the record date must be represented at the meeting in order to hold the meeting and conduct business. This is called a quorum. As of March 30, 2007, there were 68,908,878 shares of Common Stock outstanding held of record by approximately 68 persons. Stockholders are entitled to one vote, exercisable in person or by proxy, for each share of Common Stock held on the record date.

Shares are counted as present at the annual meeting if:

The stockholder is present and votes in person at the meeting, or

The stockholder has properly submitted a proxy card, or

Under certain circumstances, the stockholder's broker votes the shares.

Who will count the vote?

Representatives of Mellon Investor Services, LLC, our transfer agent, will tabulate the votes and act as inspectors of election.

How many votes must the nominees have to be elected?

The affirmative vote of holders of a plurality of the Common Stock present or represented by proxy at the meeting and entitled to vote is required for the election of each director nominee. Therefore, abstentions and broker non-votes will not be taken into account in determining the outcome of the election of directors. For any other matters presented for a vote of stockholders, the affirmative vote of holders of a majority of the Common Stock present or represented by proxy at the meeting and entitled to vote is required. Therefore, on any such matters, abstentions have the effect of a negative vote, and broker non-votes will not be taken into account.

How are proxies solicited?

Proxies may be solicited by mail, telephone, or other means by our officers, directors and other employees. No additional compensation will be paid to these individuals in connection with proxy solicitations. We will pay for distributing and soliciting proxies and will reimburse banks, brokers and other custodians their reasonable fees and expenses for forwarding proxy materials to stockholders.

PROPOSAL 1

ELECTION OF CLASS I DIRECTORS

Board of Directors

Our Amended and Restated Certificate of Incorporation and Bylaws provide that, subject to the rights of the holders of any series of preferred stock to elect additional directors under specific circumstances, our Board of Directors serve in three classes having staggered terms of three years each and consist of a number of directors as determined by our Board of Directors but shall not be less than three. Currently, our Board of Directors has eleven directors. Each of the nominees for election to the Board of Directors is currently a director of the Company and has consented to serve if elected. If elected at the annual meeting, each of the nominees will be elected to hold office until the date of the third annual meeting following the annual meeting at which such director was elected and until his successor has been elected and takes office.

Voting

Directors are elected by a plurality of the votes present in person or represented by proxy and entitled to vote at the annual meeting. The three persons receiving the highest number of votes will be elected as directors. Shares represented by executed proxies will be voted, if authority to do so is not withheld, for the election of the nominees named below. In the event that any nominee should be unavailable for election as a result of an unexpected occurrence, such shares will be voted for the election of such substitute nominee as may be nominated by our Board of Directors. Each person nominated for election has agreed to serve if elected, and we have no reason to believe that any nominee will be unable to serve.

Recommendation and Proxies

The Board of Directors recommends a vote FOR each of the nominees named below. The persons named in the enclosed proxy card will vote all shares over which they have discretionary authority FOR the election of the nominees named below. Although our Board of Directors does not anticipate that any of the nominees will be unable to serve, if such a situation should arise prior to the meeting, the appointed persons will use their discretionary authority pursuant to the proxy and vote in accordance with their best judgment.

Set forth below is biographical information for each person nominated for a three-year term expiring at the 2010 annual meeting. Each of the director nominees is an existing director standing for re-election.

CORPORATE GOVERNANCE

Board of Directors

During the fiscal year ended December 31, 2006, our Board of Directors held four meetings. Each director attended at least 75% of the aggregate number of meetings of the Board of Directors. It is the policy of our Board of Directors that directors are encouraged to attend each meeting of stockholders. We obtained a written consent from our majority stockholder in 2006 in lieu of holding an annual meeting.

Our non-management directors meet at regularly scheduled executive sessions without management present. The presiding director at these executive sessions is David W. Oskin.

Director Independence

An affiliate of Apollo and trusts established by certain members of the Goodman family together control a majority of the outstanding shares of our common stock, and therefore have the power to control our affairs and policies. Apollo and the Goodman family trusts also control the election of our directors and the appointment of our management. A majority of the members of our Board of Directors were designated by Apollo. We are a controlled company for purposes of the listing standards of the New York Stock Exchange (NYSE), and therefore not all of the members of our Compensation and our Corporate Governance and Nominating Committees are independent under the rules of the NYSE.

Our Audit Committee consists entirely of directors who have been determined by our Board to be independent under Rule 10A-3 of the Securities Exchange Act of 1934 (Exchange Act) and under the rules of the NYSE.

The Board considered the following relationship in determining the independence of independent directors: Mr. Schultz is a director of Comfort Systems USA, Inc., a company that conducts business from time to time with us in the ordinary course of business, in amounts that constitute less than one percent of our revenues. In light of the ordinary course nature of this business and the fact that the director serves only as a director of the other party to the transactions and has no economic interest in the transactions, the Corporate Governance and Nominating Committee and the Board of Directors determined that this relationship was not material and that Mr. Schultz is independent under the rules of the NYSE.

Code of Ethics

The Company has adopted a Code of Business Conduct and Ethics applicable to all employees, executive officers and directors of the Company and each of its subsidiaries, including the Company's principal executive officer, principal financial officer, principal accounting officer and controller, and persons performing similar functions.

The purpose of the Code of Ethics is: (1) to deter wrongdoing; (2) to promote honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships; (3) to promote full, fair, accurate, timely, and understandable disclosure in reports and documents that we file with the SEC or otherwise communicate to the public; (4) to promote compliance with applicable governmental laws, rules and regulations; (5) to promote prompt internal reporting of violations of the code to an appropriate person; and (6) to promote accountability for adherence to the Code.

The Company will provide a copy of the Code of Business Conduct and Ethics without charge to any person upon request by contacting the Company's Corporate Secretary at our executive office. The Code of Business Conduct and Ethics is available on the Company's website at www.goodmanglobal.com.

Committees of the Board

Our Board of Directors currently has four standing committees: the Executive Committee, the Audit Committee, the Compensation Committee and the Corporate Governance and Nominating Committee. During

Table of Contents

2006, the Audit Committee met six times, the Compensation Committee met two times, and the Corporate Governance and Nominating Committee and Executive Committee did not meet. Each director attended at least 75% of the aggregate number of meetings of the committees of the Board of Directors on which he served during 2006, except for Mr. Berg who did not attend one Audit Committee meeting held in 2006 during his service on that committee before our initial public offering.

Executive Committee

Membership

The Executive Committee currently consists of three directors, Messrs. Berg, Carroll and Civale.

Responsibilities

The Executive Committee assists our Board of Directors in fulfilling its oversight and monitoring responsibilities between meetings of the full Board and while the Board is not in session. The Committee is authorized by the Board to have all of the powers and exercise all of the duties of the Board in the management of the business of the Company, to the extent permitted by law.

Audit Committee

Membership

The Audit Committee currently consists of three directors, Messrs. Oskin (Chairman), Bechhofer and Schultz. Mr. Schultz was appointed to the Audit Committee in June 2006, replacing Mr. Civale; Mr. Bechhofer was appointed to the Audit Committee in February 2007, replacing Mr. Martinez; and Mr. Oskin was appointed to the Audit Committee in April 2006, replacing Mr. Berg. Messrs. Oskin, Bechhofer and Schultz have been determined by our Board of Directors to be independent pursuant to Rule 10A-3 of the Exchange Act and under the rules of the NYSE. Our Board of Directors has determined that Mr. Oskin has accounting or related financial management expertise and qualifies as an independent audit committee financial expert as defined under the Exchange Act.

Responsibilities

The Audit Committee assists our Board of Directors in fulfilling its oversight and monitoring responsibilities by overseeing and evaluating

the conduct of our accounting and financial reporting process and the integrity of the financial statements that will be provided to stockholders and others;

the review of the Company's internal audit function;

the Company's compliance with applicable laws and regulations;

the functioning of our systems of internal accounting and financial controls; and

the engagement, compensation, performance, qualifications and independence of our independent auditors.

The independent auditors have unrestricted access and report directly to the Audit Committee. The Audit Committee meets privately with management and the independent auditors and may meet with our personnel as it deems necessary.

The Committee reviews the performance of the Company's executive officers and key employees and makes recommendations to the Board of Directors regarding the compensation of executive officers and other compensation arrangements. The Board, which currently includes three independent directors as determined under the standards of the NYSE, then reviews and takes action on the Committee's recommendations. The Committee also administers the Company's 2004 Stock Option Plan and 2006 Incentive Award Plan.

Meetings

Compensation Committee meetings are regularly attended by the President and Chief Executive Officer and the Executive Vice President, Human Resources. On a regular basis, the Compensation Committee also meets in executive session. The Executive Vice President of Human Resources supports the Compensation Committee in its duties and, along with the President and Chief Executive Officer, may be delegated authority to fulfill certain administrative duties regarding the compensation programs. In 2006 and 2007, the CEO provided recommendations to the Committee and participated in discussions and evaluations regarding the compensation of the other NEOs.

Responsibilities

The Committee's responsibilities under its charter are to:

Review and approve corporate goals and objectives relevant to the compensation of the CEO,

Evaluate the performance of the CEO and other executive officers and key employees and to recommend to the Board the annual compensation of the CEO and other executive officers,

Recommend to the Board the financial and other performance targets in connection with annual cash incentives and equity awards,

COMPENSATION DISCUSSION AND ANALYSIS

Objectives of Compensation Programs

In 2006, we compensated our senior executives, including the five most highly compensated executive officers (the named executive officers, or NEOs), at levels we believe to be competitive within the HVAC industry and in general industry. Our primary objective for executive compensation in 2006 was to compensate and retain our senior executive officers during and after our initial public offering of common stock (IPO), which was completed in April 2006.

The Company's business strategy depends to a significant degree upon its executive officers and key employees, and their relationships with distributors. Therefore, we seek to retain our senior executives over the long term and believe that continuity of management is in the interests of our shareholders.

We designed our executive compensation programs to provide a base salary for the NEOs as well as cash and equity incentives. Our executive compensation for 2006 was determined before our IPO, and we determined executive compensation with a view to each NEO's past compensation levels and our future business strategy. The total compensation and benefits to our NEOs in 2006 was designed to be competitive and to exceed median market compensation for talented and experienced senior executives.

At the time of our IPO, we did not conduct a formal benchmark or review of peer companies for HVAC or other durable goods manufacturers and did not engage a compensation consultant for 2006. For 2007, our Compensation Committee engaged Hewitt Associates (the Compensation Consultant) to provide an assessment of our compensation programs.

Compensation Philosophy

Our overall compensation philosophy is to use straightforward compensation programs that offer appropriate incentives to our executives and provide transparency to our shareholders. In implementing our philosophy, we have not emphasized perquisites, personal benefits, defined benefit plans or supplemental plans for executives. For 2006 and in the period before our IPO, our executive compensation emphasized cash and equity compensation and consisted primarily of the following:

Base salary to provide stable income to our NEOs in the current year,

Annual performance-based cash incentives tied to our profitability, which were granted under our stockholder-approved 2006 Incentive Award Plan, and

Equity awards in the form of stock options (which were granted in December 2004 and in December 2005, prior to our IPO) to provide retention benefits and long-term incentives to build share price and shareholder value.

For 2007, the Compensation Committee continued to emphasize a mix of base salary and cash incentives, and equity grants continued to vest. A significant proportion of each NEO's compensation for 2006 was at risk incentive compensation that depended upon the Company's profitability for the year. In addition, from time to time through the grant of equity awards, the Committee seeks to encourage the achievement of long-term business objectives that enhance stock price and shareholder value on a continuing basis.

Benchmarking

For 2007, the Compensation Committee reviewed a summary provided by the Compensation Consultant of executive compensation paid by companies against which the Compensation Committee believes the Company competes for executive talent and stockholder investment. The Compensation Committee considered composite measures of executive compensation in three comparator groups: durable goods manufacturers, general industry, and companies with significant venture capital investors.

Compensation Programs

Design of Compensation Programs

Our compensation programs in 2006 were designed to reward the efforts of the NEOs to complete our initial public offering and to build the Company. Specifically,

Base salary was designed at levels to attract, retain and motivate employees capable of managing the Company's transition to, and operation as, a public company,

Annual cash incentives based on pre-determined performance targets were designed to reward execution of the Company's strategy and achievement of profitability objectives, and

Equity awards in the form of stock options (which were granted in December 2004 and in December 2005, prior to our initial public offering) were designed to provide retention benefits and long-term incentives to build share price and shareholder value.

Impact of Performance on Compensation

A significant proportion of each NEO's compensation in 2006 was at risk and depended on the Company's performance. Each NEO's annual cash incentives were tied to pre-established EBITDA targets and were designed to emphasize profitability. The EBITDA targets provided incentives to increase revenues and also to control costs, to the degree that costs were within the control of the executive officers. Cash incentive compensation earned by the NEOs in 2006 exceeded target levels established under the 2006 Incentive Award Plan, based on the Company's EBITDA for the year.

Any increase to the stock price as a result of the efforts of the NEOs to improve the Company's performance also increased the value of the NEOs' stock options, and therefore rewarded the NEO for contributing to shareholder value. In addition, half of the stock options granted to our NEOs in 2004 are performance-based options, for which vesting may be accelerated depending on the Company's achievement of annual EBITDA and ROIC targets, as determined by our Board of Directors. See the description below of these performance metrics.

Elements of Compensation

Compensation paid or awarded to the NEOs during 2006 or the end of 2005 included base salary, an annual cash incentive award, and stock options, as further described below.

Base salary of the NEOs

Each NEO received a significant portion of his total compensation in the form of base salary. Salary was designed to provide a stable income and to attract and retain talented and experienced executives capable of managing the Company's transition to, and operation as, a public company, and strategic growth.

We determined the salary for each NEO based on the salary of comparable positions in the marketplace and adjusted this amount to reflect the individual's experience, performance, potential contributions to the Company and ability to meet the anticipated future needs of the Company. The base salary for Mr. Carroll and the other NEOs was increased effective as of March 1, 2006 and April 1, 2006, respectively, based on our annual review of these factors by the Compensation Committee and the Board of Directors.

Annual Cash Incentive and Description of Performance Metrics

Cash Incentive Awards. A significant proportion of each NEO's compensation was paid as a cash incentive award and depended upon the Company's profitability, as measured by EBITDA. This amount was at risk and was designed to reward the executives for reaching pre-established levels of profitability. Awards may be paid based on achieving threshold, target, target plus, superior or excellence levels for EBITDA. We set the

Table of Contents

EBITDA goals at levels that reflected our internal, confidential business plan at the time the awards were established. The EBITDA target level for our cash incentive award was set at \$220 million for 2006 and required a challenging but achievable level of financial performance. The highest specified level, excellence, represents truly exceptional performance beyond reasonably likely levels of achievement, and we have never achieved this level of performance. Historically, the Company has generally achieved performance between the target and target plus levels.

In setting possible bonus awards to NEOs, we considered the potential bonuses available for comparable positions in the marketplace and the total compensation for comparable positions, including other elements of compensation and perquisites which may be provided. The possible awards were based on a multiple of the NEO's base salary for the 2006 period. As a multiple of salary, the possible payment in 2006 was 0.375 times at threshold, 1.00 times at target and 3.751 times at excellence level for Mr. Carroll and 0.25 times at threshold, 0.75 times at target and 3.00 times at excellence level for each other NEO. The amount of possible payouts, assuming EBITDA goals were met at threshold, target or excellence levels for 2006, are indicated in the Grants of Plan-Based Awards Table.

Performance Metrics. Two financial metrics are commonly referenced in defining Company performance for compensation of NEOs. The primary metrics used are EBITDA and, to a lesser extent, ROIC. These metrics and their use in annual and long-term incentive programs are described below.

EBITDA: EBITDA as used in our executive compensation programs is consolidated net income before interest, taxes, depreciation and amortization as reflected in the Company's audited consolidated financial statements for such period. As required by these executive compensation programs, management and similar fees paid to Apollo were added back in calculating EBITDA for 2006. Consolidated net income will be determined in accordance with generally accepted accounting principles except that gains and losses from extraordinary, unusual or nonrecurring items may be excluded in the discretion of the Compensation Committee of the Board. EBITDA is used as a performance metric for purposes of the annual cash incentive award and for accelerated vesting of one-half of the stock options granted to NEOs in 2004.

ROIC: Return on Invested Capital (ROIC) measures stockholder value creation. It is a non-GAAP measure that supplements traditional accounting measures to evaluate a return on the capital invested in the business. ROIC is generally defined as our consolidated net income on the Company's financial statements for the year, divided by the weighted average invested capital used by us to generate the profit or loss. Capital is generally equivalent to the consolidated total assets identified on our balance sheet, minus cash, intangibles (including goodwill), deferred income tax assets, deferred financing costs, trade accounts payable and current accrued expenses. Extraordinary, unusual or non-recurring items may be excluded in the discretion of the Committee. We adopted ROIC as a performance measure and incentive for senior management to improve the Company's earnings through the efficient allocation of capital. ROIC is a compensation metric used, together with EBITDA, for accelerating vesting of one-half of the stock options granted in 2004.

Long-Term Incentives Stock Options

We may make equity awards to our management from time to time under our stockholder-approved 2006 Incentive Award Plan. No stock options were granted in 2006. Each NEO received stock option grants in December 2004 and in December 2005, before our initial public offering. These stock options were designed to reward the NEO for improving the Company's performance and, as a result, increasing stock price for the benefit of shareholders. Half of the stock options granted in 2004 are performance-based options, for which vesting may be accelerated by the Company's achievement of annual EBITDA and ROIC targets established in 2004. These pre-determined EBITDA and ROIC targets were based on revenue and expense assumptions about the future business of the Company as of the date the options were granted and are subject to adjustment by the Board in some circumstances. See description above of these financial metrics. For the 2004 performance-based options,

Table of Contents

the pre-established ROIC performance target of 10.2% was met in 2006. However, the Company achieved 2006 EBITDA of \$225.5 million, which amount was less than the pre-determined 2006 EBITDA target of \$230 million. Because 2006 EBITDA was reduced by unexpected and unprecedented increases in commodity prices and IPO-related expenses not contemplated when the 2006 ROIC and EBITDA performance targets were initially determined, and in view of the Company's actual financial performance notwithstanding such factors, the Board exercised its discretion to approve the vesting of the 2006 installment of the 2004 performance-based stock options.

Option Grants in 2004: In December 2004, we granted non-qualified options to purchase our common stock to certain management employees. The exercise price of these options is \$5.28 per share (which is equal to the purchase price paid in the acquisition of the Company in that year). All or a portion of the options may become vested and exercisable earlier than scheduled upon certain sales of the assets or capital stock of the Company.

One-half of the options granted to management employees are time vesting options that become vested and exercisable in equal annual installments on each December 31 beginning in 2005 and ending in 2008, subject to continued employment.

The other half of the options granted to management employees are performance vesting options that will become vested and exercisable on the eighth anniversary of the date of grant, subject to continued employment. However, an installment of 20% of each performance vesting option (i.e., 10% of the total shares subject to the non-qualified stock option) will be eligible to become vested and exercisable with respect to each of the fiscal years 2005 through 2008 if we attain certain financial performance targets tied to EBITDA and ROIC (the financial metrics described above). As a result of the completion of our initial public offering, 10% of the options vested, and the Board of Directors determined that vesting requirements were met with respect to 2005 and 2006.

Option Grants in 2005: In December 2005, we granted additional non-qualified stock options to our NEOs and to certain management employees at an exercise price of \$14.52 per share. These options are all time vesting options that generally become vested and exercisable in four equal annual installments on each December 22, beginning in 2006 and ending in 2009, subject to continued employment. The maximum term of these options is ten years.

Personal benefits and perquisites

The NEOs did not receive any perquisites and personal benefits in 2006 other than those broadly available to all employees. The Company emphasizes cash compensation and equity compensation, and therefore perquisites and personal benefits constituted an immaterial portion of each NEO's total compensation.

Employment Agreements

Employment Agreements. We have employment agreements with Messrs. Carroll and Blackburn. We believe it is in the best interest of the Company and its shareholders to enter into these employment agreements to help assure that the Company will have the continued services of the executive without distraction from any potential significant corporate events that may arise, and the executive will be provided with compensation and benefits arrangements consistent with the executive's expectations.

The employment agreements each have an initial term of three years with automatic extensions of one year each unless notice is given by either party at least 180 days prior to expiration.

The employment agreements provide for the payment of an annual base salary for Mr. Carroll and Mr. Blackburn, and for annual target bonuses that are payable in the event that certain financial and other performance targets are met.

Under the agreements, the executives were each granted a non-qualified stock option under the 2004 Stock Option Plan to purchase shares of our common stock.

Table of Contents

As amended in 2006, each employment agreement provides that the executive shall receive an amount equal to two times base salary plus annual target bonus following the executive's termination of employment under certain circumstances.

Each of the employment agreements also contains restrictive covenants providing that the executive will be subject to certain non-competition and non-solicitation restrictions for two years following the executive's termination of employment.

Additionally, Mr. Carroll's employment agreement, as amended, provides that, following Mr. Carroll's termination of employment under certain circumstances, Mr. Carroll and his eligible dependents will receive continued group health benefits until Mr. Carroll reaches age 65.

Severance Agreements. We have entered into severance agreements with each of the following executive officers: Ben D. Campbell, Donald R. King, William L. Topper, Samuel G. Bikman, Gary L. Clark, James L. Mishler, Terrance M. Smith and Peter H. Alexander.

The severance agreements each have an initial term of two years with automatic extensions of one year each unless notice is given by either party at least 90 days prior to expiration of the term.

As amended in 2006, each severance agreement provides for the payment of one times base salary plus an annual target bonus following the executive's termination of employment under certain circumstances.

Non-Competition Agreements. We have entered into non-competition agreements with each of the following executive officers: Ben D. Campbell, Donald R. King, William L. Topper, Mark M. Dolan, Samuel G. Bikman, Gary L. Clark, James L. Mishler, Terrance M. Smith, Peter H. Alexander, Michael J. Bride, Ardee Toppe and Neelkanth S. Gupte. These non-competition agreements provide that each executive shall be subject to certain non-solicitation and non-competition restrictions for a period of two years following the executive's termination of employment.

Timing of Equity Awards

Equity awards were granted to our NEOs in December 2005 before our IPO, and no grants were made in 2006. For 2007, the Company's practice will be to make any grants of equity awards during the period after the release of earnings, with an exercise price equal to the closing market price on the day before the grant.

Impact of Tax and Accounting Rules

Section 162(m). Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code) places a limit of \$1,000,000 on the amount of compensation that may be deducted by the Company in any year with respect to the NEOs unless the compensation is performance-based compensation as described in Section 162(m) and the related regulations, as well as pursuant to a plan approved by the Company's stockholders. A small portion of the salary that was paid to our CEO in 2006 was not deductible for tax purposes because it exceeded this limit and therefore is not qualified under Internal Revenue Code Section 162(m). Cash incentives paid with respect to 2006 were granted under the stockholder-approved 2006 Incentive Award Plan and were fully deductible for purposes of 162(m).

For 2007, although a portion of the salary of the CEO will not be deductible for purposes of Section 162(m), the Committee considered that the importance of a stable base salary for the CEO outweighed the cost of the non-deductible compensation to the Company. We have qualified certain compensation paid to senior executives for deductibility under Section 162(m), including certain annual cash incentive payments and certain compensation expense related to performance-based options granted in 2004.

Because we were not a public company until April 2006, we are subject to transition rules under Section 162(m). Although the Compensation Committee considers elements of executive compensation that

Table of Contents

preserve deductibility, it also believes that there are circumstances where our interests are best served by maintaining flexibility, even if it might result in the non-deductibility of compensation amounts under the Code.

FAS 123(R). Options granted in 2004 and 2005 before the IPO resulted in compensation expense to the Company under FAS 123(R).

Conclusion

The Compensation Committee considered the balance of elements of cash and equity compensation in determining awards for 2006. The Compensation Committee did not grant any options or other equity awards in 2006 in view of outstanding option grants made in 2004 and December 2005, which continued to vest in 2006.

We believe that the elements and amounts of compensation paid to our executives align with our stated compensation philosophy and objectives.

Amounts earned for 2006 were between the target and the target plus level specified under the 2006 Incentive Award Plan. Amounts shown in the table as Maximum Payout reflect the excellence level specified under the 2006 Incentive Award Plan. The potential payout of annual cash incentive to an executive officer under the 2006 Incentive Award Plan could exceed the excellence level if approved by the Board. The annual payout for each executive officer is capped at \$3,750,000 under the Plan.

As shown in the Summary Compensation Table, the primary elements of compensation of the NEOs are cash in the form of base salary and incentive bonus. For 2006, amounts paid as performance-based cash

compensation exceeded base salary. There were no equity grants in 2006, and the value of stock awards shown for 2006 reflect the 123(R) value of stock options previously granted in 2004 and 2005.

The amounts shown in the Grants of Plan-Based Awards Table represent payouts at the threshold, target and highest specified (excellence) levels for the annual cash incentives earned by the NEOs in 2006. The potential payouts were performance-driven, based on achievement of pre-established EBITDA levels, and therefore completely at risk. If threshold levels of performance were not met, then the payout could have been zero. If the Company's EBITDA performance exceeded the level corresponding to the highest specified payout (the excellence level), the Board had the discretion to award an amount greater than the highest specified payout; provided that no individual could receive an amount in excess of \$3,750,000 annually. A portion of the annual incentive compensation for 2006 was paid in November 2006 and March 2007 and reflected performance above the target level and below the maximum, or excellence, level.

There were no options exercised by our executive officers in 2006.

Table of Contents**Potential Payments Upon Termination or Change in Control**

We have employment agreements with Messrs. Carroll and Blackburn. As amended in 2006, each employment agreement provides that the executive shall receive an amount equal to two times base salary plus annual target bonus following the executive's termination of employment by the Company without cause or by the executive for good reason, as provided in the agreements. In the event of a change of control, Messrs. Carroll and Blackburn may resign for good reason and receive these amounts if the purchaser does not assume these severance provisions and if executive does not accept employment with such purchaser. Additionally, Mr. Carroll's employment agreement, as amended, provides that, following Mr. Carroll's termination of employment, Mr. Carroll and his eligible dependents will receive continued group health benefits through Mr. Carroll's attainment of age 65.

We have also entered into severance agreements with each of the following named executive officers: Ben D. Campbell, Donald R. King and William L. Topper, as well as with Samuel G. Bikman, Gary L. Clark, James L. Mishler, Terrance M. Smith and Peter H. Alexander. These severance agreements provide that the executive shall receive an amount equal to his current base salary plus annual target bonus following the executive's termination of employment by the Company without cause or by the executive for good reason, as provided in the agreements.

The amounts payable to the NEOs upon termination (including termination following a change of control) are summarized in the table below.

(1) The amounts in this column reflect vesting of time-vested options held by Messrs. Carroll, Blackburn, Campbell, King and Topper upon a change of control, as if a change of control had occurred and the options had vested as of December 31, 2006, based upon our stock price at year-end. In addition, the performance-vested options eligible to vest on December 31 of the current year would vest upon a change of control occurring prior to that date. If the change of control occurs after July 1 of any year, the Compensation Committee may determine that vesting occurred for any performance options that did not vest in the prior year if performance targets would likely be met for the current year.

Under the applicable agreement, the amounts payable on termination will be payable for two years in the case of Messrs. Carroll and Blackburn and for one year in the case of the other executive officers subject to severance agreements. Generally, the amounts will be paid monthly, except that payment is required in a lump sum within 30 days if the executive is terminated without cause or terminates his employment for good reason within two years following a change of control.

Payment of these amounts will terminate under the agreements if the executive engages in a competitive business, recruits or solicits employees, discloses non-public information of the Company, or disparages the Company, and is therefore subject to the executive's compliance with these provisions. The provisions regarding non-competition and non-solicitation of employees may be altered or waived with the prior written consent of the Board of Directors or the Compensation Committee.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Related-Person Transactions

Related-Person Policy. We currently have certain policies and procedures to address transactions with related persons, including any executive officer, director, nominee for election as a director, greater than 5% holder of our common stock, or immediate family member of any of the foregoing. Our Board of Directors has adopted a policy that all transactions with related persons are subject to approval or ratification by the Audit Committee.

Procedures. In determining whether to approve or ratify an interested transaction, the Audit Committee may take into account, among other factors that it deems appropriate, whether the interested transaction is on terms no less favorable to us than could be obtained from an unaffiliated third party under the same or similar circumstances, as well as the extent of the related person's interest in the transaction. If an interested transaction is ongoing, the Audit Committee may establish guidelines for our management to monitor the Company's ongoing dealings with the related person. Thereafter, the Audit Committee will assess such ongoing relationships on an annual basis.

Approval. The Board of Directors has delegated to the Chairman of the Audit Committee the authority to pre-approve or ratify (as applicable) any interested transaction in which the amount involved is expected to be less than \$250,000. In addition, the following transactions are deemed to be pre-approved by the Audit Committee for purposes of our related-person policies and procedures, even if the amount involved exceeds \$100,000: (1) employment of executive officers and related compensation, (2) director compensation, (3) transactions with another company if the related person is an employee (other than an executive officer) of that company and the aggregate amount involved does not exceed \$1 million or 2 percent of that company's revenues, and (4) transactions in which the related person's interest arises solely from ownership of our common stock and all holders of our common stock receive the same benefit on a pro rata basis.

Each of the transactions listed below has been approved by the Board of Directors or the Audit Committee.

Management Agreement. Apollo and its affiliates entered into a management agreement with us relating to the provision of certain financial and strategic advisory services and consulting services. Beginning in 2005, we agreed to pay to Apollo an annual monitoring fee equal to the greater of \$2.0 million or 1% of our Adjusted EBITDA, as defined in the management agreement. Upon the consummation of our initial public offering in April 2006, the management agreement was terminated, and Apollo received approximately \$16.0 million. In addition, we paid Apollo a one-time transaction fee of \$20.0 million for structuring the transactions prior to our initial public offering. We have agreed to indemnify Apollo and its affiliates and their directors, officers and representatives for losses relating to the services contemplated by the management agreement and the engagement of affiliates of Apollo pursuant to, and the performance by them of the services contemplated by, the management agreement.

Lease Agreement. We currently lease property in Houston, Texas, from trusts established by certain members of the Goodman family under a lease agreement that was entered into in December 1994. The lease expires in November 2014. Monthly payments under the lease are \$16,500. John B. Goodman is one of our directors.

Repurchase of Preferred Stock. In connection with our initial public offering in April 2006, we redeemed all of our outstanding Series A Preferred Stock with an aggregate liquidation preference and accrued and unpaid dividends of approximately \$255.2 million, of which members of our management received approximately \$10.3 million, affiliates of Apollo received approximately \$173.7 million and the Goodman family trusts and other equity syndicate investors received approximately \$71.2 million. Apollo owns approximately 41% of our common stock outstanding as of March 30, 2007. John B. Goodman is one of our directors.

Pre-Approval Policies and Procedures

Consistent with policies of the Securities and Exchange Commission regarding auditor independence, the Audit Committee has responsibility for appointing, setting compensation and overseeing the work of the independent registered public accounting firm. In recognition of this responsibility, the Audit Committee has established a policy to pre-approve all audit and permissible non-audit services provided by the independent registered public accounting firm, either by explicit pre-approval or by delegation to one of its members (but not to management). The director who has delegated authority must report, for informational purposes, any pre-approval decisions to the Audit Committee at its next scheduled meeting.

The Company's policy specifies Audit, Audit-Related, Tax and All Other Services that have been pre-approved by the Audit Committee and documented by the Company. In addition, the policy provides guidelines for the pre-approval of other permissible services, as described below:

Audit Services: The engagement of the independent auditor to perform the Audit Services required to form an opinion on the Company's consolidated financial statements and to attest to management's report on the effectiveness of internal control over financial reporting will be subject to the separate pre-approval of the Audit Committee.

Audit-Related Services: Under the policy, Audit-Related Services are assurance and related services that are reasonably related to the performance of the audit or review of the Company's financial

statements and that are traditionally performed by the independent auditor. The Audit Committee may pre-approve Audit-Related Services based on policies and procedures.

Tax Services: Under the policy, Tax Services may include tax compliance, tax planning and tax advice. The Audit Committee may pre-approve based on policies and procedures those Tax Services that have historically been provided by the auditor, that the Audit Committee has reviewed and believes would not impair the independence of the auditor, and that are consistent with the SEC's rules on auditor independence. The policy requires separate pre-approval for specified other Tax Services.

All Other Services: Under the policy, these services must be routine and recurring services that would not impair the independence of the auditor and are consistent with the SEC's rules on auditor independence.

AUDIT COMMITTEE REPORT

The Audit Committee is responsible for overseeing the Company's financial reporting process, reviewing the financial information that will be provided to stockholders and others, monitoring internal accounting controls, selecting our independent auditors and providing to our Board of Directors such additional information and materials as we may deem necessary to make our Board of Directors aware of significant financial matters. We operate under a written Audit Committee charter adopted by our Board of Directors.

We have reviewed and discussed the audited financial statements of the Company for the fiscal year ended December 31, 2006 with management and Ernst & Young LLP, our independent auditor for the fiscal year ended December 31, 2006. In addition, we have discussed with Ernst & Young LLP the matters required to be discussed by Statement on Auditing Standards No. 61 (Communications with Audit Committee). We also have received the written disclosures and the letter from Ernst & Young LLP, as required by the Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees) and we have discussed the independence of Ernst & Young LLP with that firm. We also have considered the non-audit services provided by Ernst & Young LLP prior to 2005 and determined that the services provided are compatible with maintaining their independence.

We, the members of the Audit Committee, are not professionally engaged in the practice of auditing or accounting nor are we experts in the fields of accounting or auditing, including determination of auditor independence. We rely, without independent verification, on the information provided to us and on the representations made by management and the independent auditors. Accordingly, our oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, our considerations and discussions referred to above do not assure that the audit of our financial statements has been carried out in accordance with auditing standards generally accepted in the United States of America, or that the financial statements are presented in accordance with accounting principles generally accepted in the United States of America.

Based upon the discussions referred to above, the Audit Committee recommended to the Board of Directors that our audited financial statements be included in our Annual Report on Form 10-K for the year ended December 31, 2006.
