CALCULATION OF REGISTRATION FEE

TITLE OF EACH CLASS OF SECURITIES TO BE REGISTERED	AMOUNT TO BE REGISTERED	PROPOSED MAXIMUM OFFERING PRICE PER UNIT	PROPOSED MAXIMUM AGGREGATE OFFERING PRICE	AMOUNT OF REGISTRATION FEE
Common Stock	280,795 shares	\$8.74 ⁽²⁾	\$2,454,149	\$97
Warrants			\$2,454,149	\$97 ⁽³⁾

- (1) The shares of common stock being registered are purchasable upon exercise of the warrants being registered, which we issued to Treasury concurrent with the sale of the Series A Preferred Stock to Treasury as described in footnote (1). In addition to the number of shares of common stock stated in the table above, there is registered, pursuant to Rule 416, such number of additional shares of common stock, of a currently undeterminable amount, as may from time to time become issuable by reason of stock splits, stock dividends and certain other anti-dilution provisions set forth in the warrants. Pursuant to Rule 457(g), no additional fee is payable for the warrants.
- (2) Estimated in accordance with Rule 457(c), calculated on the basis of \$8.74 per share, which was the average of the high and low sales prices per share of the common stock on the NASDAQ Stock Market on December 16, 2008.
- (3) Previously paid.

The Registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the Registration Statement shall become effective on such date as the Commission, acting pursuant to said Section 8(a), may determine.

The information in this prospectus is not complete and may be changed. The selling securityholders may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and is not soliciting an offer to buy these securities in any state or jurisdiction where the offer or sale is not permitted.

Subject to Completion

Preliminary Prospectus dated December 19, 2008

PROSPECTUS

First PacTrust Bancorp, Inc.

280,795 Shares of Common Stock and a Warrant to Purchase Such Shares

This prospectus relates to (i) a warrant, or portions thereof, which expires on November 21, 2018, to purchase 280,795 shares of our common stock at an exercise price of \$10.31 per share, subject to adjustment as described in this prospectus, and (ii) the shares of our common stock which may be purchased upon exercise of the warrant. The warrant, along with 19,300 shares of our Fixed Rate Cumulative Perpetual Preferred Stock Series A (liquidation preference amount \$1,000 per share), was issued by us on November 21, 2008 to the United States Department of the Treasury as part of Treasury's Troubled Asset Relief Program Capital Purchase Program in a private placement exempt from the registration requirements of the Securities Act of 1933.

The selling securityholders who may sell or otherwise dispose of the securities offered by this prospectus include Treasury and any other holders of the securities covered by this prospectus to whom Treasury has transferred its registration rights in accordance with the terms of the securities purchase agreement between us and Treasury. The selling securityholders may offer the securities from time to time directly or through underwriters, broker-dealers or agents and in one or more public or private transactions and at fixed prices, at prevailing market prices, at prices related to prevailing market prices or at negotiated prices. If these securities are sold through underwriters, broker-dealers or agents, the selling securityholders will be responsible for underwriting discounts or commissions or agents' commissions, if any. We will not receive any proceeds from the sale of securities by the selling securityholders.

Our common stock is listed on the NASDAQ Global Market under the symbol FPTB. On December 18, 2008, the closing sale price of our common stock on the NASDAQ Global Market was \$9.50 per share. The warrant is not currently listed on any established securities exchange or quotation system and we do not intend to seek such a listing for the warrant unless we are requested to do so by Treasury.

The securities offered by this prospectus are not savings accounts, deposits or other obligations of any bank and are not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Investing in the securities offered by this prospectus involves risks. See Risk Factors beginning on page 2 of this prospectus.

Neither the Securities and Exchange Commission nor any state securities commission nor any other regulatory body has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus is _____, 200_.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission (the SEC) using a shelf registration, or continuous offering, process. Under this process, the selling securityholders may from time to time sell or otherwise dispose of the securities described in this prospectus in one or more offerings.

You should rely only on the information contained or incorporated by reference in this prospectus and any supplement to this prospectus. We have not, and the selling securityholders have not, authorized anyone to provide you with information different from that contained in this prospectus. The selling securityholders are offering to sell, and seeking offers to buy, our securities only in jurisdictions where it is lawful to do so. The information in this prospectus is accurate only as of the date of this prospectus, regardless of the time of delivery of this prospectus or any sale of our securities. Neither the delivery of this prospectus nor any sale made under this prospectus shall, under any circumstances, create any implication that there has been no change in our affairs since the date of this prospectus or that the information contained or incorporated by reference in this prospectus is correct as of any time subsequent to the date of such information.

All references in this prospectus to we, us, our or similar references mean First PacTrust Bancorp, Inc. and its consolidated subsidiaries and all references in this prospectus to First PacTrust Bancorp mean First PacTrust Bancorp, Inc. excluding its subsidiaries, in each case unless otherwise expressly stated or the context otherwise requires. When we refer to Pacific Trust Bank in this prospectus, we mean our subsidiary, Pacific Trust Bank, which is a federal savings bank. We sometimes refer to Pacific Trust Bank as the Bank.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus and the documents incorporated by reference may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements often include the words believes, expects, anticipates, estimates, forecasts, intends, plans, targets, potentially, probably, projects, outlook or similar expressions or future or conditional verbs such as should, would and could. These forward-looking statements are subject to known and unknown risks, uncertainties and other factors that could cause the actual results to differ materially from the forward-looking statements, including:

the credit risks of lending activities, including changes in the level and trend of loan delinquencies and write-offs;

the overall quality of the composition of our loan and securities portfolios;

changes in general economic conditions, either nationally or in our market areas;

changes in the levels of general interest rates, deposit interest rates, our net interest margin and funding sources;

fluctuations in the demand for loans, the number of unsold homes and other properties and fluctuations in real estate values in our market areas;

results of examinations of us by the Office of Thrift Supervision (OTS), including the possibility that the OTS may, among other things, require us to increase our allowance for loan losses or to write-down assets;

our ability to control operating costs and expenses;

our ability to manage loan delinquency rates;

our ability to retain key members of our senior management team;

costs and effects of litigation, including settlements and judgments;

Table of Contents

increased competitive pressures among financial services companies;

changes in consumer and business spending, borrowing and savings habits and demand for financial services in our market area;

legislative or regulatory changes that adversely affect our business;

monetary and fiscal policies of the Board of Governors of the Federal Reserve System and the U.S. Government and other governmental initiatives affecting the financial services industry;

adverse changes in the securities markets;

inability of key third-party providers to perform their obligations to us;

changes in accounting policies and practices, as may be adopted by the financial institution regulatory agencies or the Financial Accounting Standards Board;

war or terrorist activities; and

other economic, competitive, governmental, regulatory, and technological factors affecting our operations, pricing, products and services and the other risks described elsewhere in this prospectus and the incorporated documents and in our other filings with the SEC.

Some of these and other factors are discussed in this prospectus under the caption "Risk Factors" and elsewhere in this prospectus and in the incorporated documents. The development of any or all of these factors could have an adverse impact on our financial position and our results of operations.

Any forward-looking statements are based upon management's beliefs and assumptions at the time they are made. We undertake no obligation to publicly update or revise any forward-looking statements included or incorporated by reference in this prospectus or to update the reasons why actual results could differ from those contained in such statements, whether as a result of new information, future events or otherwise. In light of these risks, uncertainties and assumptions, the forward-looking statements discussed in this prospectus or the incorporated documents might not occur, and you should not put undue reliance on any forward-looking statements.

WHERE YOU CAN FIND MORE INFORMATION

We are subject to the informational requirements of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Accordingly, we file annual, quarterly and current reports, proxy statements and other information with the SEC. You may read and copy any reports, statements or other information that we may file with the SEC at the SEC's Public Reference Room at 100 F Street, N.E., Room 1580, Washington, D.C., 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC maintains an Internet site that contains reports, proxy and information statements and other information about issuers that file electronically with the SEC. The address of the SEC's Internet site is <http://www.sec.gov>.

The SEC allows us to incorporate by reference the information we file with them, which means that we can disclose important information to you by referring you to those documents. The information that we incorporate by reference is considered to be a part of this prospectus, and the information we later file with the SEC that is incorporated by reference in this prospectus will automatically update information previously contained in this prospectus and any incorporated document. Any statement contained in this prospectus or in a document incorporated by reference in this prospectus will be deemed modified or superseded to the extent that a later statement contained in this prospectus or in an incorporated document modifies or supersedes such earlier statement.

Edgar Filing: FIRST PACTRUST BANCORP INC - Form S-3/A

This prospectus incorporates by reference the documents listed below that we have filed with the SEC (excluding any portion of these documents that has been furnished to and deemed not to be filed with the SEC):

Report(s)	Period(s) of Report(s) or Date(s) Filed
Annual Report on Form 10-K	For the year ended December 31, 2007
Quarterly Reports on Form 10-Q	For the quarters ended March 31, 2008, June 30, 2008 and September 30, 2008
Current Reports on Form 8-K	Filed on January 23, 2008, January 25, 2008, May 28, 2008, August 8, 2008, November 4, 2008, November 12, 2008 and November 21, 2008

We also incorporate by reference any future documents we may file with the SEC pursuant to Section 13(a), 13(c), 14 or 15(d) of the Exchange Act, excluding any document or portion thereof that has been furnished to and deemed not to be filed with the SEC. In addition, we incorporate by reference the description of our common stock contained in the Registration Statement on Form 8-A we filed with the SEC on May 8, 2002.

These documents are available without charge to you on the Internet at www.firstpactrustbancorp.com or if you call or write to: Investor Relations, First PacTrust Bancorp, Inc., 610 Bay Boulevard, Chula Vista, California 91910, telephone: (619) 691-1519. The reference to our website is not intended to be an active link and the information on our website is not, and you must not consider the information to be, a part of this prospectus.

We have also filed a registration statement with the SEC relating to the securities offered by this prospectus. This prospectus, which constitutes part of the registration statement, does not contain all of the information presented or incorporated by reference in the registration statement and its exhibits. You may obtain from the SEC a copy of the registration statement and exhibits that we filed with the SEC as described above. The registration statement may contain additional information that may be important to you.

Table of Contents

PROSPECTUS SUMMARY

This summary highlights information contained elsewhere in, or incorporated by reference into, this prospectus. As a result, it does not contain all of the information that may be important to you or that you should consider before investing in our securities. You should read this entire prospectus, including the Risk Factors section, and the documents incorporated by reference, which are described under Where You Can Find More Information in this prospectus.

First PacTrust Bancorp, Inc.

First PacTrust Bancorp, Inc. is a savings and loan holding company incorporated in the State of Maryland. We are primarily engaged in the business of planning, directing and coordinating the business activities of our wholly owned subsidiary, Pacific Trust Bank, a federal savings bank. We are a community-oriented financial institution offering a variety of financial services to meet the needs of the communities we serve. We are headquartered in Chula Vista, California, a suburb of San Diego, California and have nine banking offices primarily serving San Diego and Riverside Counties in California. Our geographic market for loans and deposits is principally San Diego and Riverside counties. Our principal business consists of attracting retail deposits from the general public and investing these funds primarily in permanent loans secured by first mortgages on owner-occupied, one-to four- family residences and a variety of consumer loans. We also originate loans secured by multi-family and commercial real estate and, to a limited extent, commercial business loans. First PacTrust Bancorp is subject to regulation by the OTS, and the Bank is subject to regulation by the OTS and the Federal Deposit Insurance Corporation (the FDIC). The primary source of liquidity for us is dividend payments from the Bank. The Bank is subject to certain legal restrictions on its ability to pay dividends or make loans or advances to us. For information about these restrictions, please see Regulatory Considerations in this prospectus and Item 1. Business How We Are Regulated and Note 11 of the Notes to Consolidated Financial Statements contained in our Annual Report on Form 10-K for the year ended December 31, 2007, which has been filed with the SEC and is available as described under Where You Can Find More Information.

As of September 30, 2008, we had total consolidated assets of \$845.5 million, total loans of \$791.8 million, total deposits of \$575.7 million and total stockholders equity of \$81.8 million.

Our common stock is traded on the NASDAQ Global Market under the ticker symbol FPTB. Our principal executive offices are located at 610 Bay Boulevard, Chula Vista, California 91910. Our telephone number is (619) 691-1519.

Securities Being Offered

On November 21, 2008, pursuant to the Troubled Asset Relief Program Capital Purchase Program of the United States Department of the Treasury (Treasury), we sold to Treasury 19,300 shares of our Fixed Rate Cumulative Perpetual Preferred Stock, Series A (the Series A Preferred Stock), liquidation preference amount \$1,000 per share, for an aggregate purchase price of \$19.3 million, and concurrently issued to Treasury a ten-year warrant to purchase up to 280,795 shares of our common stock at an exercise price of \$10.31 per share. The issuance of the Series A Preferred Stock and the warrant were completed in a private placement to Treasury exempt from the registration requirements of the Securities Act of 1933. We were required under the terms of the related securities purchase agreement between us and Treasury to register for resale the warrant and the shares of our common stock underlying the warrant. The terms of the warrant and the terms of our common stock and the Series A Preferred Stock are described under Description of Warrant, and Description of Capital Stock. The securities purchase agreement between us and Treasury was attached as Exhibit 10.1 to our Current Report on Form 8-K filed on November 21, 2008 and incorporated into this prospectus by reference. See Where You Can Find More Information.

Table of Contents

RISK FACTORS

An investment in our securities is subject to certain risks. You should carefully review the following risk factors and other information contained in this prospectus and the documents incorporated by reference, before deciding whether an investment in our securities is suited to your particular circumstances. The risks and uncertainties not presently known to us or that we currently deem immaterial also may impair our business operations. If any of the following risks actually occur, our business, results of operations and financial condition could suffer. In that event, the value of our securities could decline, and you may lose all or part of your investment. The risks discussed below also include forward-looking statements, and our actual results may differ materially from those discussed in these forward-looking statements.

Risks Relating to First PacTrust

Difficult market conditions and economic trends have adversely affected our industry and our business.

Dramatic declines in the housing market, with decreasing home prices and increasing delinquencies and foreclosures, have negatively impacted the credit performance of mortgage and construction loans and resulted in significant write-downs of assets by many financial institutions. General downward economic trends, reduced availability of commercial credit and increasing unemployment have negatively impacted the credit performance of commercial and consumer credit, resulting in additional write-downs. Concerns over the stability of the financial markets and the economy have resulted in decreased lending by financial institutions to their customers and to each other. This market turmoil and tightening of credit has led to increased commercial and consumer deficiencies, lack of customer confidence, increased market volatility and widespread reduction in general business activity. Financial institutions have experienced decreased access to deposits and borrowings.

The resulting economic pressure on consumers and businesses and the lack of confidence in the financial markets may adversely affect our business, financial condition, results of operations and stock price.

Our ability to assess the creditworthiness of customers and to estimate the losses inherent in our credit exposure is made more complex by these difficult market and economic conditions. We also expect to face increased regulation and government oversight as a result of these downward trends. This increased government action may increase our costs and limit our ability to pursue certain business opportunities. We also may be required to pay even higher FDIC premiums than the recently increased level, because financial institution failures resulting from the depressed market conditions have depleted and may continue to deplete the deposit insurance fund and reduce its ratio of reserves to insured deposits.

We do not believe these difficult conditions are likely to improve in the near future. A worsening of these conditions would likely exacerbate the adverse effects of these difficult economic conditions on us, our customers and the other financial institutions in our market. As a result, we may experience increases in foreclosures, delinquencies and customer bankruptcies, as well as more restricted access to funds.

Recent legislative and regulatory initiatives to address difficult market and economic conditions may not stabilize the U.S. banking system.

The recently enacted Emergency Economic Stabilization Act of 2008 (the EESA) authorizes Treasury to purchase from financial institutions and their holding companies up to \$700 billion in mortgage loans, mortgage-related securities and certain other financial instruments, including debt and equity securities issued by financial institutions and their holding companies, under a troubled asset relief program, or TARP. The purpose of TARP is to restore confidence and stability to the U.S. banking system and to encourage financial institutions to increase their lending to customers and to each other. The Treasury has allocated \$250 billion towards the TARP Capital Purchase Program. Under the TARP Capital Purchase Program, Treasury is purchasing equity securities from participating institutions. The warrant offered by this prospectus, together with the Series A Preferred Stock, was issued by us to Treasury pursuant to the TARP Capital Purchase Program. The EESA also increased federal deposit insurance on most deposit accounts from \$100,000 to \$250,000. This increase is in place until the end of 2009 and is not covered by deposit insurance premiums paid by the banking industry.

Table of Contents

The EESA followed, and has been followed by, numerous actions by the Board of Governors of the Federal Reserve System, the U.S. Congress, Treasury, the FDIC, the SEC and others to address the current liquidity and credit crisis that has followed the sub-prime meltdown that commenced in 2007. These measures include homeowner relief that encourage loan restructuring and modification; the establishment of significant liquidity and credit facilities for financial institutions and investment banks; the lowering of the federal funds rate; emergency action against short selling practices; a temporary guaranty program for money market funds; the establishment of a commercial paper funding facility to provide back-stop liquidity to commercial paper issuers; and coordinated international efforts to address illiquidity and other weaknesses in the banking sector. The purpose of these legislative and regulatory actions is to stabilize the U.S. banking system. The EESA and the other regulatory initiatives described above may not have their desired effects. If the volatility in the markets continues and economic conditions fail to improve or worsen, our business, financial condition and results of operations could be materially and adversely affected.

Current levels of market volatility are unprecedented.

The capital and credit markets have been experiencing volatility and disruption for more than a year. In recent months, the volatility and disruption has reached unprecedented levels. In some cases, the markets have produced downward pressure on stock prices and credit availability for certain issuers without regard to those issuers' underlying financial strength. If current levels of market disruption and volatility continue or worsen, there can be no assurance that we will not experience an adverse effect, which may be material, on our ability to access capital and on our business, financial condition and results of operations.

Changes in economic conditions, particularly a further economic slowdown in California, could hurt our business.

Our business is directly affected by market conditions, trends in industry and finance legislative and regulatory changes, and changes in governmental monetary and fiscal policies and inflation, all of which are beyond our control. In 2007, the housing and real estate sectors experienced an economic slowdown that has continued through 2008. Further deterioration in economic conditions, particularly within the State of California, could result in the following consequences, among others, any of which could hurt our business materially:

loan delinquency may continue to rise;

problem assets and foreclosures may increase;

demand for our products and services may decline; and

collateral for our loans may continue to decline in value, in turn reducing a customer's borrowing power and reducing the value of assets and collateral securing our loans.

As of September 30, 2008, substantially all of our loans were to individuals and business in southern California. If real estate values continue to decline in this area, the collateral for our loans will provide less security. As a result, our ability to recover on defaulted loans by selling the underlying real estate will be diminished, and we would be more likely to suffer losses on defaulted loans.

Recent negative developments in the financial industry and credit markets may continue to adversely impact our financial condition and results of operations.

Negative developments in the sub-prime mortgage market and the securitization markets for these loans, together with substantial volatility in oil prices and other factors, have resulted in uncertainty in the financial markets in general and a related general economic downturn. Many lending institutions, including us, have experienced substantial declines in the performance of their loans, including construction and land loans, multi-family loans, commercial loans and consumer loans. Moreover, competition among depository institutions for deposits and quality loans has increased significantly. In addition, the values of real estate collateral

Table of Contents

supporting many construction and land, commercial and multi-family and other commercial loans and home mortgages have declined and may continue to decline. Bank and bank holding company stock prices have been negatively affected, as has the ability of banks and bank holding companies to raise capital or borrow in the debt markets compared to recent years. These conditions may have a material adverse effect on our financial condition and results of operations. In addition, as a result of the foregoing factors, there is a potential for new federal or state laws and regulations regarding lending and funding practices and liquidity standards, and bank regulatory agencies are expected to be very aggressive in responding to concerns and trends identified in examinations, including the expected issuance of formal enforcement orders. Negative developments in the financial industry and the impact of new legislation in response to those developments could restrict our business operations, including our ability to originate or sell loans, and adversely impact our results of operations and financial condition.

Liquidity risk could impair our ability to fund operations and jeopardize our financial condition.

Liquidity is essential to our business. An inability to raise funds through deposits, borrowings, the sale of loans and other sources could have a substantial negative effect on our liquidity. Our access to funding sources in amounts adequate to finance our activities or on terms which are acceptable to us could be impaired by factors that affect us specifically or the financial services industry or economy in general. Factors that could detrimentally impact our access to liquidity sources include a decrease in the level of our business activity as a result of a downturn in the markets in which our loans are concentrated or adverse regulatory action against us. Our ability to borrow could also be impaired by factors that are not specific to us, such as a disruption in the financial markets or negative views and expectations about the prospects for the financial services industry in light of the recent turmoil faced by banking organizations and the continued deterioration in credit markets.

We may elect or be compelled to seek additional capital in the future, but that capital may not be available when it is needed.

We are required by federal and state regulatory authorities to maintain adequate levels of capital to support our operations. In addition, we may elect to raise additional capital to support our business or to finance acquisitions, if any, or we may otherwise elect or be required to raise additional capital. In that regard, a number of financial institutions have recently raised considerable amounts of capital in response to a deterioration in their results of operations and financial condition arising from the turmoil in the mortgage loan market, deteriorating economic conditions, declines in real estate values and other factors. Should we be required by regulatory authorities to raise additional capital, we may seek to do so through the issuance of, among other things, our common stock or preferred stock.

Our ability to raise additional capital, if needed, will depend on conditions in the capital markets, economic conditions and a number of other factors, many of which are outside our control, and on our financial performance. Accordingly, we cannot assure you of our ability to raise additional capital if needed or on terms acceptable to us. If we cannot raise additional capital when needed, it may have a material adverse effect on our financial condition, results of operations and prospects.

If our allowance for loan losses is not sufficient to cover actual loan losses or if we are required to increase our provision for loan losses, our results of operations and financial condition could be materially adversely affected.

We make various assumptions and judgments about the collectibility of our loan portfolio, including the creditworthiness of our borrowers and the value of the real estate and other assets serving as collateral for the repayment of many of our loans. In determining the amount of the allowance for loan losses, we review our loans and the loss and delinquency experience, and evaluate economic conditions. If our assumptions are incorrect, the allowance for loan losses may not be sufficient to cover losses inherent in our loan portfolio, resulting in the need for additions to our allowance through an increase in the provision for loan losses. Material additions to the allowance or increases in our provision for loan losses could have a material adverse effect on our financial condition and results of operations.

Table of Contents

In addition, bank regulators periodically review our allowance for loan losses and may require us to increase our provision for loan losses or recognize further loan charge-offs. Any increase in our allowance for loan losses or loan charge-offs as required by these regulatory authorities may have a material adverse effect on our financial condition and results of operations.

The maturity and repricing characteristics of our assets and liabilities are mismatched and subject us to interest rate risk which could adversely affect our results of operations and financial condition.

Our financial condition and results of operations are influenced significantly by general economic conditions, including the absolute level of interest rates, as well as changes in interest rates and the slope of the yield curve. Our ability to operate profitably is dependent to a large extent on our net interest income, which is the difference between the interest received from our interest-earning assets and the interest expense incurred on our interest-bearing liabilities. Significant changes in market interest rates or errors or misjudgments in our interest rate risk management procedures could have a material adverse effect on our results of operations and financial condition.

Our activities, like other financial institutions, inherently involve the assumption of interest rate risk. Interest rate risk is the risk that changes in market interest rates will have an adverse impact on our financial condition and results of operations. Interest rate risk is determined by the maturity and repricing characteristics of our assets, liabilities and off-balance-sheet contracts. Interest rate risk is measured by the variability of financial performance and economic value resulting from changes in interest rates. Interest rate risk is the primary market risk affecting our financial performance.

We believe that the greatest source of interest rate risk to us results from the mismatch of maturities or repricing intervals for our rate sensitive assets, liabilities and off-balance-sheet contracts. This mismatch, or gap, is generally characterized by a substantially shorter maturity structure for interest-bearing liabilities than interest-earning assets. Additional interest rate risk results from mismatched repricing indices and formulae (basis risk and yield curve risk), and product caps and floors and early repayment or withdrawal provisions (option risk), which may be contractual or market driven, that are generally more favorable to customers than to us.

Our primary monitoring tool for assessing interest rate risk is asset/liability simulation modeling, which is designed to capture the dynamics of balance sheet, interest rate and spread movements and to quantify variations in net interest income and net market value of equity resulting from those movements under different rate environments. We update and prepare our simulation modeling at least quarterly for review by senior management and our directors. Nonetheless, the interest rate sensitivity of our net interest income and net market value of our equity could vary substantially if different assumptions were used or if actual experience differs from the assumptions used and, as a result, our interest rate risk management strategies may prove to be inadequate.

Our loan portfolio possesses increased risk due to the number of multi-family, construction, commercial real estate and consumer loans.

Our multi-family, construction and commercial real estate loans accounted for approximately 14.6% of our total loan portfolio as of September 30, 2008. Generally, we consider these types of loans to involve a higher degree of risk compared to first mortgage loans on one- to four-family, owner-occupied residential properties. In addition, we plan to increase our emphasis on multi-family and commercial real estate lending. Because of our planned increased emphasis on and increased investment in multi-family and commercial real estate lending, it may become necessary to increase the level of our provision for loan losses, which could hurt our profits.

The loan portfolio possesses increased risk due to expansion, unseasoned nature and amount of nonconforming loans.

From December 31, 2004 through September 30, 2008, our net loan portfolio grew by \$163.1 million or 25.9%. As a result of this growth, a portion of our loan portfolio is considered to be unseasoned, with the risk that these loans may not have had sufficient time to perform to properly indicate the potential magnitude of losses. Our unseasoned adjustable rate loans have not, therefore, been subject to an interest rate environment which causes them to adjust to the maximum level and may involve risks resulting from potentially increasing payment obligations by the borrower as a result of repricing. Most of our adjustable rate mortgage loans are

Table of Contents

also non-conforming, due mainly to the generally large loan size and are, therefore, not readily saleable to Freddie Mac or Fannie Mae. Since some of these loans have terms which may result in negative amortization, where the loan payments do not fully cover interest and result in an increasing loan principal balance, the portfolio is also subject to increased risk of delinquency or default as the higher, fully indexed rate of interest subsequently comes into effect upon repricing.

If we are unable to redeem the Series A Preferred Stock after five years, the cost of this capital to us will increase substantially.

If we are unable to redeem the Series A Preferred Stock prior to February 15, 2014, the cost of this capital to us will increase substantially on that date, from 5.0% per annum (approximately \$965,000 annually) to 9.0% per annum (approximately \$1.7 million annually). See Description of Series A Preferred Stock Redemption and Repurchases. Depending on our financial condition at the time, this increase in the annual dividend rate on the Series A Preferred Stock could have a material negative effect on our liquidity.

Strong competition within our market area may limit our growth and profitability.

Competition in the banking and financial services industry is intense. In our market area, we compete with commercial banks, savings institutions, mortgage brokerage firms, credit unions, finance companies, mutual funds, insurance companies, and brokerage and investment banking firms operating locally and elsewhere. Many of these competitors have substantially greater resources and lending limits than we do and may offer certain services that we do not or cannot provide. Our profitability depends upon our continued ability to successfully compete in our market.

We encounter continuous technological change in our industry.

The financial services industry is continually undergoing rapid technological change with frequent introductions of new technology-driven products and services. The effective use of technology increases efficiency and enables financial institutions to better serve customers and to reduce costs. Our future success depends, in part, upon our ability to address the needs of our customers by using technology to provide products and services that will satisfy customer demands, as well as to create additional efficiencies in our operations. Many of our competitors have substantially greater resources to invest in technological improvements. We may not be able to effectively implement new technology-driven products and services or be successful in marketing these products and services to our customers. Failure to successfully keep pace with technological change affecting the financial services industry could have a material adverse impact on our business and, in turn, our financial condition and results of operations.

We are subject to extensive government regulation and supervision.

We are subject to extensive regulation and supervision, primarily through the Bank. Banking regulations are primarily intended to protect depositors' funds, federal deposit insurance funds and the banking system as a whole, and not holders of our common stock. These regulations affect our lending practices, capital structure, investment practices, dividend policy and growth, among other things. Congress and federal regulatory agencies continually review banking laws, regulations and policies for possible changes. Changes to statutes, regulations or regulatory policies, including changes in interpretation or implementation of statutes, regulations or policies, could affect us in substantial and unpredictable ways. Such changes could subject us to additional costs, limit the types of financial services and products we may offer and/or increase the ability of non-banks to offer competing financial services and products, among other things. Failure to comply with laws, regulations or policies could result in sanctions by regulatory agencies, civil money penalties and/or reputational damage, which could have a material adverse effect on our business, financial condition and results of operations. While we have policies and procedures designed to prevent any such violations, there can be no assurance that such violations will not occur. In addition, we may be subject to new legislation in response to negative developments in the financial industry and the economy as described under Recent negative developments in the financial industry and credit markets may continue to adversely impact our financial condition and results of operations, which also could have a material adverse effect on our results of operations and financial condition.

Our information systems may experience an interruption or breach in security.

We rely heavily on communications and information systems to conduct our business. Any failure, interruption or breach in security of these systems could result in failures or disruptions in our customer relationship management, general ledger, deposit, loan and other systems. While we have policies and procedures designed to prevent or limit the effect of the failure, interruption or security breach of our information systems, there can be no assurance that any such failures, interruptions or security breaches will not occur or, if they do occur, that they will be adequately addressed. The occurrence of any failures, interruptions or security breaches of our information systems could damage our reputation, result in a loss of customer business, subject us to additional regulatory scrutiny, or expose us to civil litigation and possible financial liability, any of which could have a material adverse effect on our financial condition and results of operations.

Table of Contents

We rely on dividends from the Bank for substantially all of our revenue.

First PacTrust Bancorp receives substantially all of its revenue as dividends from Pacific Trust Bank. Federal regulations limit the amount of dividends that the Bank may pay to First PacTrust Bancorp. See Regulatory Considerations. In the event the Bank becomes unable to pay dividends to First PacTrust Bancorp, First PacTrust Bancorp may not be able to service its debt, pay its other obligations or pay dividends on our common stock. Accordingly, our inability to receive dividends from the Bank could also have a material adverse effect on our business, financial condition and results of operations and the value of your investment in our common stock.

Risks Relating to Our Common Stock

The price of our common stock may fluctuate significantly, and this may make it difficult for you to resell our common stock when you want or at prices you find attractive.

We cannot predict how our common stock will trade in the future. The market value of our common stock will likely continue to fluctuate in response to a number of factors including the following, most of which are beyond our control, as well as the other factors described in this Risk Factors section:

actual or anticipated quarterly fluctuations in our operating and financial results;

developments related to investigations, proceedings or litigation that involve us;

changes in financial estimates and recommendations by financial analysts;

dispositions, acquisitions and financings;

actions of our current stockholders, including sales of common stock by existing stockholders and our directors and executive officers;

fluctuations in the stock price and operating results of our competitors;

regulatory developments; and

developments related to the financial services industry.

Table of Contents

The market value of our common stock may also be affected by conditions affecting the financial markets in general, including price and trading fluctuations. These conditions may result in (i) volatility in the level of, and fluctuations in, the market prices of stocks generally and, in turn, our common stock and (ii) sales of substantial amounts of our common stock in the market, in each case that could be unrelated or disproportionate to changes in our operating performance. These broad market fluctuations may adversely affect the market value of our common stock.

There may be future sales of additional common stock or preferred stock or other dilution of our equity, which may adversely affect the market price of our common stock.

We are not restricted from issuing additional common stock or preferred stock, including any securities that are convertible into or exchangeable for, or that represent the right to receive, common stock or preferred stock or any substantially similar securities. The market value of our common stock could decline as a result of sales by us of a large number of shares of common stock or preferred stock or similar securities in the market or the perception that such sales could occur.

Anti-takeover provisions could negatively impact our stockholders.

Provisions in our charter and bylaws, the corporate law of the State of Maryland and federal regulations could delay, defer or prevent a third party from acquiring us, despite the possible benefit to our stockholders, or otherwise adversely affect the market price of any class of our equity securities, including our common stock. These provisions include: a prohibition on voting shares of common stock beneficially owned in excess of 10% of total shares outstanding, supermajority voting requirements for certain business combinations with any person who beneficially owns 10% or more of our outstanding common stock; the election of directors to staggered terms of three years; advance notice requirements for nominations for election to our Board of Directors and for proposing matters that stockholders may act on at stockholder meetings, a requirement that only directors may fill a vacancy in our Board of Directors, supermajority voting requirements to remove any of our directors and the other provisions described under [Description of Capital Stock Anti-Takeover Effects](#). Our charter also authorizes our Board of Directors to issue preferred stock, and preferred stock could be issued as a defensive measure in response to a takeover proposal. For further information, see [Description of Capital Stock Preferred Stock](#). In addition, pursuant to OTS regulations, as a general matter, no person or company, acting individually or in concert with others, may acquire more than 10% of our common stock without prior approval from the OTS.

These provisions may discourage potential takeover attempts, discourage bids for our common stock at a premium over market price or adversely affect the market price of, and the voting and other rights of the holders of, our common stock. These provisions could also discourage proxy contests and make it more difficult for holders of our common stock to elect directors other than the candidates nominated by our Board of Directors.

Table of Contents

Risks Specific to the Common Stock

The securities purchase agreement between us and Treasury limits our ability to pay dividends on and repurchase our common stock.

The securities purchase agreement between us and Treasury provides that prior to the earlier of (i) November 21, 2011 and (ii) the date on which all of the shares of the Series A Preferred Stock have been redeemed by us or transferred by Treasury to third parties, we may not, without the consent of Treasury, (a) increase the cash dividend on our common stock or (b) subject to limited exceptions, redeem, repurchase or otherwise acquire shares of our common stock or preferred stock other than the Series A Preferred Stock or trust preferred securities. In addition, we are unable to pay any dividends on our common stock unless we are current in our dividend payments on the Series A Preferred Stock. These restrictions, together with the potentially dilutive impact of the warrant described in the next risk factor, could have a negative effect on the value of our common stock. Moreover, holders of our common stock are entitled to receive dividends only when, as and if declared by our Board of Directors. Although we have historically paid cash dividends on our common stock, we are not required to do so and our Board of Directors could reduce or eliminate our common stock dividend in the future.

The Series A Preferred Stock impacts net income available to our common stockholders and earnings per common share, and the warrant we issued to Treasury may be dilutive to holders of our common stock.

The dividends declared and the accretion on discount on the Series A Preferred Stock will reduce the net income available to common stockholders and our earnings per common share. The Series A Preferred Stock will also receive preferential treatment in the event of liquidation, dissolution or winding up of First PacTrust Bancorp. Additionally, the ownership interest of the existing holders of our common stock will be diluted to the extent the warrant we issued to Treasury in conjunction with the sale to Treasury of the Series A Preferred Stock is exercised. The shares of common stock underlying the warrant represent approximately 6.1% of the shares of our common stock outstanding as of December 12, 2008 (including the shares issuable upon exercise of the warrant in total shares outstanding). Although Treasury has agreed not to vote any of the shares of common stock it receives upon exercise of the warrant, a transferee of any portion of the warrant or of any shares of common stock acquired upon exercise of the warrant is not bound by this restriction.

The voting limitation provision in our charter could limit your voting rights as a holder of our common stock.

Our charter provides that any person or group who acquires beneficial ownership of our common stock in excess of 10% of the outstanding shares may not vote the excess shares. Accordingly, if you acquire beneficial ownership of more than 10% of the outstanding shares of our common stock, your voting rights with respect to the common stock will not be commensurate with your economic interest in our company.

Table of Contents

USE OF PROCEEDS

All securities sold pursuant to this prospectus will be sold by the selling securityholders and we will not receive the proceeds from such sales.

Table of Contents

REGULATORY CONSIDERATIONS

As a savings and loan holding company, First PacTrust Bancorp is subject to regulation, supervision and examination by the OTS. For a discussion of elements of the regulatory framework applicable to savings and loan holding companies and their subsidiaries, please refer to our Annual Report on Form 10-K for the fiscal year ended December 31, 2007 and the other documents incorporated herein by reference as described under *Where You Can Find More Information*. This regulatory framework is intended primarily for the protection of depositors and the federal deposit insurance fund and not for the protection of security holders, including holders of our common stock. As a result of this regulatory framework, our results of operations and financial condition are affected by actions of the OTS and the FDIC, which insures the deposits of our subsidiary federal savings bank, Pacific Trust Bank.

Our ability to pay dividends on our common stock depends primarily on dividends we receive from the Bank. Under federal regulations, the dollar amount of capital distributions (including dividends) the Bank may make depends upon its capital position and recent net income. Generally, savings institutions, that before and after the proposed distribution remain well-capitalized, may make capital distributions during any calendar year equal to up to 100% of net income for the year-to-date plus retained net income for the two preceding years. However, an institution deemed to be in need of more than normal supervision by the OTS may have its dividend authority restricted by the OTS.

Under Maryland law, First PacTrust Bancorp is generally prohibited from paying a dividend or making any other distribution if, after making such distribution, it would be unable to pay its debts as they become due in the usual course of business, or if its total assets would be less than the sum of its total liabilities plus the amount that would be needed if it were dissolved at the time of the distribution, to satisfy preferential rights on dissolution of holders of preferred stock ranking senior in right of payment to the capital stock on which the applicable distribution is made.

There are numerous other governmental requirements and regulations that affect our business activities. A change in applicable statutes, regulations or regulatory policy may have a material effect on our business and on our ability to pay dividends on our common stock and the Series A Preferred Stock. Depository institutions, like the Bank, are also affected by various federal laws, including those relating to consumer protection and similar matters.

In addition to the foregoing regulatory restrictions, we are and may in the future become subject to contractual restrictions that would limit or prohibit us from paying dividends on our common stock, including those contained in the securities purchase agreement between us and Treasury, as described under *Description of Capital Stock Common Stock-Restrictions on Dividends and Repurchases Under Agreement with Treasury*.

Table of Contents

DESCRIPTION OF WARRANT

This section summarizes specific terms and provisions of the warrant we issued to Treasury on November 21, 2008 concurrent with our sale to Treasury of 19,300 shares of Series A Preferred Stock pursuant to the TARP Capital Purchase Program. The description of the warrant contained in this section is qualified in its entirety by the actual terms of the warrant, a copy of which was attached as Exhibit 4.2 to our Current Report on Form 8-K filed on November 21, 2008 and incorporated by reference into this prospectus. See [Where You Can Find More Information](#).

General

The warrant gives the holder the right to initially purchase up to 280,795 shares of our common stock at an exercise price of \$10.31 per share. Subject to the limitations on exercise to which Treasury is subject described under [Transferability](#), the warrant is immediately exercisable and expires on November 21, 2018. The exercise price may be paid (i) by having us withhold from the shares of common stock that would otherwise be issued to the warrant holder upon exercise, a number of shares of common stock having a market value equal to the aggregate exercise price or (ii) if both we and the warrant holder consent, in cash.

Possible Reduction in Number of Shares

If we (or any successor to us by a business combination) complete one or more Qualified Equity Offerings prior to December 31, 2009 resulting in aggregate gross proceeds of at least \$19.3 million (plus the aggregate liquidation preference amount of any preferred stock issued to Treasury by a successor to us), the number of shares of common stock underlying the warrant then held by Treasury will be reduced by 50%. The number of shares subject to the warrant are subject to further adjustment as described below under [Other Adjustments](#).

A [Qualifying Equity Offering](#) is defined as the sale for cash by First PacTrust Bancorp (or its successor) of preferred stock or common stock that qualifies as Tier 1 capital under applicable regulatory capital guidelines.

Transferability

The warrant is not subject to any restrictions on transfer; however, Treasury may only transfer or exercise the warrant with respect to one-half of the shares underlying the warrant prior to the earlier of (i) the date on which we (or any successor to us by a business combination) have received aggregate gross proceeds of at least \$19.3 million (plus the aggregate liquidation preference amount of any preferred stock issued to Treasury by a successor to us) from one or more Qualified Equity Offerings (including those by any successor to us by a business combination) and (ii) December 31, 2009.

Voting of Warrant Shares

Treasury has agreed that it will not vote any of the shares of common stock that it acquires upon exercise of the warrant. This does not apply to any other person who acquires any portion of the warrant, or the shares of common stock underlying the warrant, from Treasury. Our charter provides, however, that any person who beneficially owns shares of our common stock in excess of 10% of the outstanding shares may not vote the excess shares. See [Description of Capital Stock](#) [Anti-Takeover Effects-Voting Limitation](#).

Table of Contents

Other Adjustments

The exercise price of the warrant and the number of shares underlying the warrant automatically adjust upon the following events:

any stock split, stock dividend, subdivision, reclassification or combination of our common stock;

until the earlier of (i) the date on which Treasury no longer holds any portion of the warrant and (ii) November 21, 2011, issuance of our common stock (or securities convertible into our common stock) for consideration (or having a conversion price per share) less than 90% of then current market value, except for issuances in connection with benefit plans, business acquisitions and public or other broadly marketed offerings;

a pro rata repurchase by us of our common stock; or

a determination by our Board of Directors to make an adjustment to the anti-dilution provisions as are reasonably necessary, in the good faith opinion of the Board, to protect the purchase rights of the warrant holders.

In addition, if we declare any dividends or distributions on our common stock other than our historical, ordinary cash dividends, dividends paid in our common stock and other dividends or distributions covered by the first bullet point above, the exercise price of the warrant will be adjusted to reflect such distribution.

In the event of any merger, consolidation, or other business combination to which we are a party, the warrant holder's right to receive shares of our common stock upon exercise of the warrant will be converted into the right to exercise the warrant to acquire the number of shares of stock or other securities or property (including cash) which the common stock issuable upon exercise of the warrant immediately prior to such business combination would have been entitled to receive upon consummation of the business combination. For purposes of the provision described in the preceding sentence, if the holders of our common stock have the right to elect the amount or type of consideration to be received by them in the business combination, then the consideration that the warrant holder will be entitled to receive upon exercise will be the amount and type of consideration received by a majority of the holders of the common stock who affirmatively make an election.

No Rights as Stockholders

The warrant does not entitle its holder to any of the rights of a stockholder of First PacTrust Bancorp prior to exercise.

Table of Contents

DESCRIPTION OF CAPITAL STOCK

Our authorized capital stock consists of:

20,000,000 shares of common stock, par value \$.01 per share; and

5,000,000 shares of preferred stock, par value \$.01 per share.

As of December 12, 2008, there were 4,254,414 shares of our common stock issued and outstanding and 19,300 shares of our preferred stock issued and outstanding, all of which consisted of our Series A Preferred Stock.

In this section we describe certain features and rights of our capital stock. The summary does not purport to be exhaustive and is qualified in its entirety by reference to our charter and bylaws and to applicable Maryland law.

Common Stock

General. Except as described below under *Anti-takeover Effects Voting Limitation*, each holder of common stock is entitled to one vote for each share on all matters to be voted upon by the common stockholders. There are no cumulative voting rights. Subject to preferences to which holders of any shares of preferred stock may be entitled, holders of common stock will be entitled to receive ratably any dividends that may be declared from time to time by the Board of Directors out of funds legally available for that purpose. In the event of our liquidation, dissolution or winding up, holders of common stock will be entitled to share in our assets remaining after the payment or provision for payment of our debts and other liabilities, and the satisfaction of the liquidation preferences of the holders of the Series A Preferred Stock and any other series of our preferred stock then outstanding. Holders of common stock have no preemptive or conversion rights or other subscription rights. There are no redemption or sinking fund provisions that apply to the common stock. All shares of common stock currently outstanding are fully paid and nonassessable. The rights, preferences and privileges of the holders of common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of preferred stock that we may designate in the future.

Restrictions on Dividends and Repurchases Under Agreement with Treasury. The securities purchase agreement between us and Treasury provides that prior to the earlier of (i) November 21, 2011 and (ii) the date on which all of the shares of the Series A Preferred Stock have been redeemed by us or transferred by Treasury to third parties, we may not, without the consent of Treasury, (a) increase the cash dividend on our common stock or (b) subject to limited exceptions, redeem, repurchase or otherwise acquire shares of our common stock or preferred stock other than the Series A Preferred Stock or trust preferred securities.

Preferred Stock - General

Our charter permits our Board of Directors to authorize the issuance of up to 5,000,000 shares of preferred stock, par value \$0.01, in one or more series, without stockholder action. The Board of Directors can fix the designation, powers, preferences and rights of each series. Therefore, without approval of the holders of our common stock or the Series A Preferred Stock (except as may be required under the terms of the Series A Preferred Stock (see *Series A Preferred Stock Voting Rights*) or by the rules of the NASDAQ Stock Market or any other exchange or market on which our securities may then be listed or quoted), our Board of Directors may authorize the issuance of preferred stock with voting, dividend, liquidation and conversion and other rights that could dilute the voting power or other rights or adversely affect the market value of our common stock and the Series A Preferred Stock and may assist management in impeding any unfriendly takeover or attempted change in control. See *Anti-Takeover Effects Authorized Shares*.

Series A Preferred Stock

This section summarizes specific terms and provisions of the Series A Preferred Stock. The description of the Series A Preferred Stock contained in this section is qualified in its entirety by the actual terms of the Series A Preferred Stock, as are stated in the articles supplementary to our charter, a copy of which was attached as Exhibit 3.1 to our Current Report on Form 8-K filed on November 21, 2008 and incorporated by reference into this prospectus. See *Where You Can Find More Information*.

General. The Series A Preferred Stock constitutes a single series of our preferred stock, consisting of 19,300 shares, par value \$0.01 per share, having a liquidation preference amount of \$1,000 per share. The Series A Preferred Stock has no maturity date. We issued the shares of Series A

Edgar Filing: FIRST PACTRUST BANCORP INC - Form S-3/A

Preferred Stock to Treasury on November 21, 2008 in connection with the TARP Capital Purchase Program for a purchase price of \$19.3 million.

Dividend Rate. Dividends on the Series A Preferred Stock are payable quarterly in arrears, when, as and if authorized and declared by our Board of Directors out of legally available funds, on a cumulative basis on the \$1,000 per share liquidation preference amount plus the amount of accrued and unpaid dividends for any prior dividend periods, at a rate of (i) 5% per annum, from the original issuance date to but excluding the first day of the first dividend period commencing after the fifth anniversary of the original issuance date (i.e., 5% per annum from November 21, 2008 to but excluding February 15, 2014), and (ii) 9% per annum, from and

Table of Contents

after the first day of the first dividend period commencing after the fifth anniversary of the original issuance date (i.e., 9% per annum on and after February 15, 2014). Dividends are payable quarterly in arrears on February 15, May 15, August 15 and November 15 of each year, commencing on February 15, 2009.

Dividends on the Series A Preferred Stock will be cumulative. If for any reason our Board of Directors does not declare a dividend on the Series A Preferred Stock for a particular dividend period, or if the Board of Directors declares less than a full dividend, we will remain obligated to pay the unpaid portion of the dividend for that period and the unpaid dividend will compound on each subsequent dividend date (meaning that dividends for future dividend periods will accrue on any unpaid dividend amounts for prior dividend periods).

We are not obligated to pay holders of the Series A Preferred Stock any dividend in excess of the dividends on the Series A Preferred Stock that are payable as described above. There is no sinking fund with respect to dividends on the Series A Preferred Stock.

Priority of Dividends. So long as the Series A Preferred Stock remains outstanding, we may not declare or pay a dividend or other distribution on our common stock or any other shares of Junior Stock (other than dividends payable solely in common stock) or Parity Stock (other than dividends paid on a pro rata basis with the Series A Preferred Stock), and we generally may not directly or indirectly purchase, redeem or otherwise acquire any shares of common stock, Junior Stock or Parity Stock unless all accrued and unpaid dividends on the Series A Preferred Stock for all past dividend periods are paid in full.

Junior Stock means our common stock and any other class or series of our stock the terms of which expressly provide that it ranks junior to the Series A Preferred Stock as to dividend rights and/or as to rights on liquidation, dissolution or winding up of First PacTrust Bancorp. We currently have no outstanding class or series of stock constituting Junior Stock other than our common stock.

Parity Stock means any class or series of our stock, other than the Series A Preferred Stock, the terms of which do not expressly provide that such class or series will rank senior or junior to the Series A Preferred Stock as to dividend rights and/or as to rights on liquidation, dissolution or winding up of First PacTrust Bancorp, in each case without regard to whether dividends accrue cumulatively or non-cumulatively. We currently have no outstanding class or series of stock constituting Parity Stock.

Liquidation Rights. In the event of any voluntary or involuntary liquidation, dissolution or winding up of the affairs of First PacTrust Bancorp, holders of the Series A Preferred Stock will be entitled to receive for each share of Series A Preferred Stock, out of the assets of First PacTrust Bancorp or proceeds available for distribution to our stockholders, subject to any rights of our creditors, before any distribution of assets or proceeds is made to or set aside for the holders of our common stock and any other class or series of our stock ranking junior to the Series A Preferred Stock, payment of an amount equal to the sum of (i) the \$1,000 liquidation preference amount per share and (ii) the amount of any accrued and unpaid dividends on the Series A Preferred Stock (including dividends accrued on any unpaid dividends). To the extent the assets or proceeds available for distribution to stockholders are not sufficient to fully pay the liquidation payments owing to the holders of the Series A Preferred Stock and the holders of any other class or series of our stock ranking equally with the Series A Preferred Stock, the holders of the Series A Preferred Stock and such other stock will share ratably in the distribution.

For purposes of the liquidation rights of the Series A Preferred Stock, neither a merger or consolidation of First PacTrust Bancorp with another entity nor a sale, lease or exchange of all or substantially all of First PacTrust Bancorp's assets will constitute a liquidation, dissolution or winding up of the affairs of First PacTrust Bancorp.

Redemption and Repurchases. Subject to the prior approval of the OTS, the Series A Preferred Stock is redeemable at our option in whole or in part at a redemption price equal to 100% of the liquidation preference amount of \$1,000 per share plus any accrued and unpaid dividends to but excluding the date of redemption (including dividends accrued on any unpaid dividends), provided that any declared but unpaid dividend payable on a redemption date that occurs subsequent to the record date for the dividend will be payable to the holder of record of the redeemed shares on the dividend record date, and provided further that the Series A Preferred Stock may be redeemed prior to the first dividend payment date falling after the third anniversary of the original issuance date (i.e., prior to February 15, 2012) only if (i) we have, or our successor following a business combination with another entity which also participated in the TARP Capital Purchase Program has, raised aggregate gross proceeds in one or more Qualified Equity Offerings (as defined above under *Description of Warrant Possible Reduction in Number of Shares*) of at least the Minimum Amount and (ii) the aggregate redemption price of the Series A Preferred Stock does not exceed the aggregate net proceeds from such Qualified Equity Offerings by us and any successor. The *Minimum Amount* means \$4,825,000 plus, in the event we are succeeded in a business combination by another entity which also participated in the TARP Capital Purchase Program, 25% of the aggregate liquidation preference amount of the preferred stock issued by that entity to Treasury.

Shares of Series A Preferred Stock that we redeem, repurchase or otherwise acquire will revert to authorized but unissued shares of preferred stock, which may then be reissued by us as any series of preferred stock other than the Series A Preferred Stock.

Edgar Filing: FIRST PACTRUST BANCORP INC - Form S-3/A

No Conversion Rights. Holders of the Series A Preferred Stock have no right to exchange or convert their shares into common stock or any other securities.

Table of Contents

Voting Rights. The holders of the Series A Preferred Stock do not have voting rights other than those described below, except to the extent specifically required by Maryland law.

Whenever dividends have not been paid on the Series A Preferred Stock for six or more quarterly dividend periods, whether or not consecutive, the authorized number of directors of First PacTrust Bancorp will automatically increase by two and the holders of the Series A Preferred Stock will have the right, with the holders of shares of any other classes or series of Voting Parity Stock outstanding at the time, voting together as a class, to elect two directors (the Preferred Directors) to fill such newly created directorships at our next annual meeting of stockholders (or at a special meeting called for that purpose prior to the next annual meeting) and at each subsequent annual meeting of stockholders until all accrued and unpaid dividends for all past dividend periods on all outstanding shares of Series A Preferred Stock have been paid in full at which time this right will terminate with respect to the Series A Preferred Stock, subject to vesting in the event of each and every subsequent default by us in the payment of dividends on the Series A Preferred Stock.

Upon any termination of the right of the holders of the Series A Preferred Stock and Voting Parity Stock as a class to vote for directors as described above, the Preferred Directors will cease to be qualified as directors, the terms of office of all Preferred Directors then in office will terminate immediately and the authorized number of directors will be reduced by the number of Preferred Directors which had been elected by the holders of the Series A Preferred Stock and the Voting Parity Stock. Any Preferred Director may be removed at any time, with or without cause, and any vacancy created by such a removal may be filled, only by the affirmative vote of the holders a majority of the outstanding shares of Series A Preferred Stock voting separately as a class together with the holders of shares of Voting Parity Stock, to the extent the voting rights of such holders described above are then exercisable. If the office of any Preferred Director becomes vacant for any reason other than removal from office, the remaining Preferred Director may choose a successor who will hold office for the unexpired term of the office in which the vacancy occurred.

The term Voting Parity Stock means with regard to any matter as to which the holders of the Series A Preferred Stock are entitled to vote, any series of Parity Stock (as defined under Dividends-Priority of Dividends) upon which voting rights similar to those of the Series A Preferred Stock have been conferred and are exercisable with respect to such matter. We currently have no outstanding shares of Voting Parity Stock.

In addition to any other vote or consent required by Maryland law or by our charter, the vote or consent of the holders of at least 66 2/3% of the outstanding shares of Series A Preferred Stock, voting as a separate class, is required in order to do the following:

amend our charter or the articles supplementary for the Series A Preferred Stock to authorize or create or increase the authorized amount of, or any issuance of, any shares of, or any securities convertible into or exchangeable or exercisable for shares of, any class or series of stock ranking senior to the Series A Preferred Stock with respect to the payment of dividends and/or the distribution of assets on any liquidation, dissolution or winding up of First PacTrust Bancorp; or

amend our charter or the articles supplementary for the Series A Preferred Stock in a way that materially and adversely affect the rights, preferences, privileges or voting powers of the Series A Preferred Stock; or

consummate a binding share exchange or reclassification involving the Series A Preferred Stock or a merger or consolidation of First PacTrust Bancorp with another entity, unless (i) the shares of Series A Preferred Stock remain outstanding or, in the case of a merger or consolidation in which First PacTrust Bancorp is not the surviving or resulting entity, are converted into or exchanged for preference securities of the surviving or resulting entity or its ultimate parent, and (ii) the shares of Series A Preferred Stock remaining outstanding or such preference securities, have such rights, preferences, privileges, voting powers, limitations and restrictions, taken as a whole, as are not materially less favorable than the rights, preferences, privileges, voting powers, limitations and restrictions of the Series A Preferred Stock prior to consummation of the transaction, taken as a whole;

provided, however, that (1) any increase in the amount of our authorized but unissued shares of preferred stock, and (2) the creation and issuance, or an increase in the authorized or issued amount, of any other series of preferred stock, or any securities convertible into or exchangeable or exercisable for any other series of preferred stock, ranking equally with and/or junior to the Series A Preferred Stock with respect to the payment of dividends, whether such dividends are cumulative or non-cumulative and the distribution of assets upon our liquidation, dissolution or winding up, will not be deemed to materially and adversely affect the rights, preferences, privileges or voting powers of the Series A Preferred Stock and will not require the vote or consent of the holders of the Series A Preferred Stock.

Edgar Filing: FIRST PACTRUST BANCORP INC - Form S-3/A

To the extent holders of the Series A Preferred Stock are entitled to vote, holders of shares of the Series A Preferred Stock will be entitled to one vote for each share then held.

Table of Contents

Anti-takeover Effects

The provisions of our charter and bylaws summarized in the following paragraphs may have anti-takeover effects and could delay, defer, or prevent a tender offer or takeover attempt that a stockholder might consider to be in such stockholder's best interest, including those attempts that might result in a premium over the market price for the shares held by stockholders, and may make removal of the incumbent management and directors more difficult.

Authorized Shares. Our charter authorizes the issuance of 20,000,000 shares of common stock and 5,000,000 shares of preferred stock. These shares of common stock and preferred stock provide our Board of Directors with as much flexibility as possible to effect, among other transactions, financings, acquisitions, stock dividends, stock splits and the exercise of employee stock options. However, these additional authorized shares may also be used by the Board of Directors consistent with its fiduciary duty to deter future attempts to gain control of us. The Board of Directors also has sole authority to determine the terms of any one or more series of preferred stock, including voting rights, conversion rates, and liquidation preferences. As a result of the ability to fix voting rights for a series of preferred stock, the Board has the power to the extent consistent with its fiduciary duty to issue a series of preferred stock to persons friendly to management in order to attempt to block a tender offer, merger or other transaction by which a third party seeks control of us, and thereby assist members of management to retain their positions.

Voting Limitation. Our charter generally prohibits any stockholder that beneficially owns more than 10% of the outstanding shares of our common stock from voting shares in excess of this limit. This provision would limit the voting power of a beneficial owner of more than 10% of our outstanding shares of common stock in a proxy contest or on other matters on which such person is entitled to vote.

The Maryland General Corporation Law contains a control share acquisition statute which, in general terms, provides that where a stockholder acquires issued and outstanding shares of a corporation's voting stock (referred to as control shares) within one of several specified ranges (one-tenth or more but less than one-third, one-third or more but less than a majority, or a majority or more), approval by stockholders of the control share acquisition must be obtained before the acquiring stockholder may vote the control shares. The required stockholder vote is two-thirds of all votes entitled to be cast, excluding interested shares, defined as shares held by the acquiring person, officers of the corporation and employees who are also directors of the corporation. A corporation may, however, opt-out of the control share statute through a charter or bylaw provision, which we have done pursuant to our charter. Accordingly, the Maryland control share acquisition statute does not apply to acquisitions of shares of our common stock. Though not anticipated, we could seek stockholder approval of an amendment to our charter to eliminate the opt-out provision; such an amendment would require a supermajority vote. See Amendment of Charter and Bylaws.

Board of Directors. Except with respect to any directors who may be elected by any class or series of preferred stock, our Board of Directors is divided into three classes, each of which contains one-third of the members of the Board. The members of each class are elected for a term of three years, with the terms of office of all members of one class expiring each year so that approximately one-third of the total number of directors is elected each year. The classification of directors, together with the provisions in our charter described below that limit the ability of stockholders to remove directors and that permit only the remaining directors to fill any vacancies on the Board of Directors, have the effect of making it more difficult for stockholders to change the composition of the Board of Directors. As a result, at least two annual meetings of stockholders will be required for the stockholders to change a majority of the directors, whether or not a change in the Board of Directors would be beneficial and whether or not a majority of stockholders believe that such a change would be desirable. Our charter provides that stockholders may not cumulate their votes in the election of directors.

Our charter provides that we will have the number of directors fixed from time to time by our Board of Directors by a vote of a majority of the Board. First PacTrust Bancorp currently has six directors. Our charter and bylaws provide that, subject to the rights of the holders of any series of preferred stock then outstanding, vacancies in the Board of Directors may be filled by a majority vote of the directors then in office, though less than a quorum, and any director so chosen shall hold office for the remainder of the full term of the class of directors in which the vacancy occurred. Our charter further provides that, subject to the rights of the holders of any series of preferred stock then outstanding, directors may be removed from office only for cause and only by the vote of the holders of at least 80% of the voting power of the outstanding shares of capital stock entitled to vote generally in the election of directors, voting together as a single class.

Table of Contents

The foregoing description of our Board of Directors does not apply with respect to directors that may be elected by the holders of the Series A Preferred Stock in the event we do not pay dividends on the Series A Preferred Stock for six or more dividend periods. See [Description of Series A Preferred Stock](#) [Voting Rights](#).

Special Meetings of Stockholders. Our bylaws provide that special meetings of stockholders may be called by our Board of Directors by vote of a majority of the whole Board (meaning the total number of directors we would have if there were no vacancies). Our bylaws also provide that a special meeting of stockholders shall be called by on the written request of stockholders entitled to cast at least a majority of all votes entitled to be cast at the meeting.

Action by Stockholders Without A Meeting. Our bylaws provide that no action may be taken by stockholders without a meeting without the written consent of every stockholder entitled to vote on the matter.

Business Combinations With Certain Persons. Our charter provides that certain business combinations (for example, mergers, share exchanges, significant asset sales and significant stock issuances) involving interested stockholders of First PacTrust Bancorp require, in addition to any vote required by law, the approval of the holders of at least 80% of the voting power of the outstanding shares of stock entitled to vote generally in the election of directors, voting together as a single class, unless either (i) a majority of the disinterested directors have approved the business combination or (ii) certain fair price and procedure requirements are satisfied. An interested stockholder generally means a person who is a greater than 10% stockholder of First PacTrust Bancorp or who is an affiliate of First PacTrust Bancorp and at any time within the past two years was a greater than 10% stockholder of First PacTrust Bancorp.

The Maryland General Corporation Law contains a business combination statute that prohibits a business combination between a corporation and an interested stockholder (one who beneficially owns 10% or more of the voting power) for a period of five years after the interested stockholder first becomes an interested stockholder, unless the transaction has been approved by the board of directors before the interested stockholder became an interested stockholder or the corporation has exempted itself from the statute pursuant to a charter provision. After the five-year period has elapsed, a corporation subject to the statute may not consummate a business combination with an interested stockholder unless (i) the transaction has been recommended by the board of directors and (ii) the transaction has been approved by (a) 80% of the outstanding shares entitled to be cast and (b) two-thirds of the votes entitled to be cast other than shares owned by the interested stockholder. This approval requirement need not be met if certain fair price and terms criteria have been satisfied. We have opted-out of the Maryland business combination statute through a provision in our charter.

Amendment of Charter and Bylaws. Our charter generally may be amended upon approval by the Board of Directors and the holders of a majority of the outstanding shares of our common stock. The amendment of certain provisions of our charter, however, requires the vote of the holders of at least 80% of the outstanding shares of capital stock entitled to vote generally in the election of directors, voting together as a single class. These include provisions relating to: voting limitations on greater than 10% stockholders; the opt-out of the Maryland control share acquisition statute (see [Voting Limitation](#) above); the number, classification, election and removal of directors; certain business combinations with greater than 10% stockholders; indemnification of directors and officers; and amendments to the charter and bylaws.

Our bylaws may be amended either by the Board of Directors, by a vote of a majority of the whole Board, or by our stockholders, by the vote of the holders of at least 80% of the voting power of the outstanding shares of capital stock entitled to vote generally in the election of directors, voting together as a single class.

Advance Notice Provisions. Our bylaws provide that we must receive written notice of any stockholder proposal for business at an annual meeting of stockholders, or any stockholder director nomination for an annual meeting of stockholders, not less than 90 days or more than 120 days before the anniversary of the preceding year's annual meeting. If, however, the date of the current year annual meeting is advanced by more than 30 days or delayed by more than 60 days from the anniversary date of the preceding year's annual meeting, notice of the proposal or nomination must be received by us no earlier than the 120th day prior to the annual meeting or later than the close of business on the later of the 90th day prior to the annual meeting or the 10th day following the day on which notice of the meeting is mailed or public announcement of the meeting date is first made.

Table of Contents

Transfer Agent

The transfer agent and registrar for our common stock is Registrar & Transfer Company.

SELLING SECURITYHOLDERS

The selling securityholders may include (i) Treasury, which acquired the warrant and all of the shares of Series A Preferred Stock from us on November 21, 2008 in a private placement exempt from the registration requirements of the Securities Act of 1933, and (ii) any other person or persons holding any portion of the warrant and any shares of our common stock issued upon exercise of the warrant, to whom Treasury has transferred its registration rights under the terms of the securities purchase agreement between us and Treasury. Treasury is required to notify us in writing of any such transfer of its registration rights within ten days after the transfer, including the name and address of the transferee and the number and type of securities with respect to which the registration rights have been assigned. As of the date of this prospectus, Treasury has not notified us of any such transfer. Accordingly, we believe that Treasury currently holds record and beneficial ownership of the entire amount of the warrant (none of which has been exercised) covered by this prospectus.

The securities to be offered under this prospectus for the account of the selling securityholders are:

a ten-year warrant to purchase 280,795 shares of our common stock at an exercise price of \$10.31 per share, subject to adjustment as described under Description of Warrant ; and

the 280,795 shares of our common stock issuable upon exercise of the warrant (subject to adjustment as described under Description of Warrant), which shares, if issued, would represent ownership of approximately 6.1% of the shares of our common stock outstanding as of December 12, 2008 (including the shares issuable upon exercise of the warrant in total shares outstanding).

For purposes of this prospectus, we have assumed that, after completion of the offering, none of the securities covered by this prospectus will be held by the selling securityholders.

We do not know when or in what amounts the selling securityholders may offer the securities for sale. The selling securityholders might not sell any or all of the securities offered by this prospectus. Because the selling securityholders may offer all or some of the securities pursuant to this offering, and because, to our knowledge, no sale of any of the securities is currently subject to any agreements, arrangements or understandings, we cannot estimate the number of the securities that will be held by the selling securityholders after completion of the offering.

The only potential selling securityholder whose identity we are currently aware of is Treasury. Other than with respect to Treasury's acquisition of the Series A Preferred Stock and warrant from us, Treasury has not had a material relationship with us.

Information about the selling securityholders may change over time and changed information will be set forth in supplements to this prospectus if and when necessary.

Table of Contents

PLAN OF DISTRIBUTION

The selling securityholders may sell all or a portion of the securities beneficially owned by them and offered by this prospectus from time to time directly or through one or more underwriters, broker-dealers or agents. If securities are sold through underwriters or broker-dealers, the selling securityholders will be responsible for underwriting discounts or commissions or agent's commissions. The securities may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale, or at negotiated prices. These sales may be effected in transactions, which may involve crosses or block transactions. The selling securityholders may use any one or more of the following methods when selling shares:

on any national securities exchange or quotation service on which the securities may be listed or quoted at the time of sale;

in the over-the-counter market;

in transactions otherwise than on these exchanges or systems or in the over-the-counter market;

through the writing of options, whether such options are listed on an options exchange or otherwise;

ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;

block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;

purchases by a broker-dealer as principal and resale by the broker-dealer for its account;

an exchange distribution in accordance with the rules of the applicable exchange;

privately negotiated transactions;

settlement of short sales entered into after the effective date of the registration statement of which this prospectus is a part;

broker-dealers may agree with the selling securityholders to sell a specified number of such shares at a stipulated price per share;

a combination of any such methods of sale; and

any other method permitted pursuant to applicable law.

The selling securityholders may also sell securities under Rule 144 under the Securities Act of 1933, if available, rather than under this prospectus.

Edgar Filing: FIRST PACTRUST BANCORP INC - Form S-3/A

Broker-dealers engaged by the selling securityholders may arrange for other brokers-dealers to participate in sales. If the selling securityholders effect such transactions by selling securities to or through underwriters, broker-dealers or agents, such underwriters, broker-dealers or agents may receive commissions in the form of discounts, concessions or commissions from the selling securityholders or commissions from purchasers of the securities for whom they may act as agent or to whom they may sell as principal. These discounts, concessions or commissions as to any particular underwriter, broker-dealer or agent will be in amounts to be negotiated, which are not expected to be in excess of those customary in the types of transactions involved.

Table of Contents

In connection with sales of securities, the selling securityholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the securities in the course of hedging in positions they assume. The selling securityholders may also sell securities short and if such short sale shall take place after the date that the registration statement of which this prospectus is a part is declared effective by the Securities and Exchange Commission, the selling securityholders may deliver securities covered by this prospectus to close out short positions and to return borrowed shares in connection with such short sales. The selling securityholders may also loan or pledge securities to broker-dealers that in turn may sell such shares. The selling securityholders may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The selling securityholders may pledge or grant a security interest in some or all of the securities owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the securities from time to time pursuant to this prospectus or any amendment or supplement to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act of 1933, amending, if necessary, the identification of selling securityholders to include the pledgee, transferee or other successors in interest as selling securityholders under this prospectus. The selling securityholders also may transfer and donate the securities in other circumstances in which case the transferees, donees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

The selling securityholders and any broker-dealer participating in the distribution of the securities may be deemed to be underwriters within the meaning of the Securities Act of 1933, and any commission paid, or any discounts or concessions allowed to, any such broker-dealer may be deemed to be underwriting commissions or discounts under the Securities Act of 1933. At the time a particular offering of securities is made, a prospectus supplement, if required, will be distributed which will set forth (i) the name of each such selling securityholder and of the participating broker-dealer(s), (ii) the number of securities involved, (iii) the price at which such securities were sold, (iv) the commissions paid or discounts or concessions allowed to such broker-dealer(s), where applicable, and (v) any other facts material to the transaction.

The aggregate proceeds to the selling securityholders from the sale of the securities will be the purchase price of the securities less discounts and commissions, if any.

Under the securities laws of some states, the securities covered by this prospectus may be sold in such states only through registered or licensed brokers or dealers. In addition, in some states the securities may not be sold unless such shares have been registered or qualified for sale in such state or an exemption from registration or qualification is available and is complied with.

There can be no assurance that any selling securityholder will sell any or all of the securities registered pursuant to the registration statement of which this prospectus forms a part.

If a selling securityholder uses this prospectus for any sale of securities, it will be subject to the prospectus delivery requirements of the Securities Act of 1933. The selling securityholders and any other person participating in such distribution will be subject to applicable provisions of the Securities Exchange Act of 1934 and the rules and regulations thereunder, including, without limitation, Regulation M under the Exchange Act, which may limit the timing of purchases and sales of any of the securities by the selling securityholders and any other participating person. Regulation M may also restrict the ability of any person engaged in the distribution of securities to engage in market-making activities with respect to such securities. All of the foregoing may affect the marketability of the securities covered by this prospectus and the ability of any person or entity to engage in market-making activities with respect to such securities.

Pursuant to the securities purchase agreement between us and Treasury, we will pay substantially all expenses of the registration of the securities covered by this prospectus, including, without limitation, SEC filing fees and expenses of compliance with state securities or blue sky laws; *provided, however*, that a selling securityholder will pay all underwriting discounts and selling commissions, if any. We will indemnify the selling securityholders against liabilities, including some liabilities under the Securities Act of 1933, in accordance with the securities purchase agreement between us and Treasury, or the selling securityholders will be entitled to contribution. We have agreed under the securities purchase agreement between us and Treasury to cause such of our directors and senior executive officers to execute customary lock-up agreements in such form and for such time period up to 90 days as may be requested by a managing underwriter with respect to an underwritten offering of securities covered by this prospectus.

The following table sets forth the estimated expenses in connection with the issuance and distribution of the securities covered by the registration statement of which this prospectus is a part. First PacTrust Bancorp, Inc. (the Registrant) will bear all of these expenses.

Registration fee under the Securities Act	\$ 856
Legal fees and expenses*	\$ 50,000
Accounting fees and expenses*	\$ 15,000
Printing and other miscellaneous fees and expenses*	\$ 10,000
Total	\$ 75,856

* Estimated solely for the purpose of this Item. Actual expenses may be more or less.

Item 15. Indemnification of Officers and Directors

Section 2-405.2 of the Maryland General Corporation Law permits a Maryland corporation to include in its charter a provision limiting the liability of its directors and officers to the corporation and its stockholders for monetary damages except: (1) to the extent it is proven that the director or officer actually received an improper benefit or profit, for the amount of the improper benefit or profit; or (2) to the extent a final judgment or adjudication against the director or officer is based on a determination that the director's or officer's act or failure to act was the result of active and deliberate dishonesty and was material to the cause of action against the director or officer. The Registrant's charter contains such a provision, thereby limiting the liability of its directors and officers to the maximum extent permitted by Maryland law.

Section 2-418 of the Maryland General Corporation Law permits a Maryland corporation to indemnify a director or officer who is made a party to any proceeding by reason of service in that capacity against judgments, penalties, fines, settlements and reasonable expenses actually incurred unless it is proven that: (1) the act or omission of the director or officer was material to the matter giving rise to the proceeding and was committed in bad faith or with active and deliberate dishonesty; (2) the director or officer actually received an improper personal benefit; or (3) in the case of a criminal proceeding, the director or officer had reason to believe that his conduct was unlawful. The Maryland General Corporation Law provides that where a director or officer is a defendant in a proceeding by or in the right of the corporation, the director or officer may not be indemnified if he or she is found liable to the corporation. The Maryland General Corporation Law also provides that a director or officer may not be indemnified in respect of any proceeding alleging improper personal benefit in which he or she was found liable on the grounds that personal benefit was improperly received. A director or officer found liable in a proceeding by or in the right of the corporation or in a proceeding alleging improper personal benefit may petition a court to nevertheless order indemnification of expenses if the court determines that the director or officer is fairly and reasonably entitled to indemnification in view of all the relevant circumstances.

Section 2-418 of the Maryland General Corporation Law provides that unless limited by the charter of a Maryland corporation, a director or officer who is successful on the merits or otherwise in defense of any proceeding must be indemnified against reasonable expenses. Section 2-418 also provides that a Maryland corporation may advance reasonable expenses to a director or officer upon the corporation's receipt of (a) a written affirmation by the director or officer of his or her good faith belief that he or she has met the standard of conduct necessary for indemnification by the corporation and (b) a written undertaking by the director or officer or on his or her behalf to repay the amount paid or reimbursed by the corporation if it is ultimately determined that the standard of conduct was not met.

The Registrant's charter provides for indemnification of directors and officers to the maximum extent permitted by the Maryland General Corporation Law.

Under a directors and officers liability insurance policy, directors and officers of the Registrant are insured against certain liabilities.

Item 17. Undertakings

The undersigned Registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

Table of Contents

provided, however, that Paragraphs (1)(i), (1)(ii) and (1)(iii) of this section do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the Registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

(i) Each prospectus filed by the Registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(ii) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. *Provided, however*, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

(5) That, for the purpose of determining liability of the Registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities: The undersigned Registrant undertakes that in a primary offering of securities of an undersigned Registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned Registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

(i) Any preliminary prospectus or prospectus of an undersigned Registrant relating to the offering required to be filed pursuant to Rule 424;

(ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned Registrant or used or referred to by the undersigned Registrant;

(iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned Registrant or its securities provided by or on behalf of the undersigned Registrant; and

(iv) Any other communication that is an offer in the offering made by the undersigned Registrant to the purchaser.

(6) That, for purposes of determining any liability under the Securities Act of 1933, each filing of the Registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Table of Contents

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.
