Management's Discussion of Fund Performance

The year ended December 31, 2008 was a very difficult period for U.S. Treasury Inflation-Protected Securities (TIPS^A), as the rise in real yields, along with a switch in CPI^B accretion from positive to negative, combined to produce the largest underperformance since TIPS were first introduced in 1997. The Barclays U.S. Government Inflation-Linked All Maturities Index^C generated a total return of -1.71%, while the Barclays U.S. Government Breakeven Treasury Index^D returned 16.65%. Although the Federal Reserve Board (Fed^E) cut short-term interest rates from 4.25% to 0%, 10-year TIPS real yields rose from approximately 1.70% at the end of 2007 to approximately 2.09% at the end of December 2008. At the same time, inflation in the U.S., as measured by the Consumer Price Index for All Urban Consumers (CPI-U^F), slowed sharply from 4.1% at the end of December 2007 to 0.1% at the end of December 2008, mainly as a result of the collapse in commodity prices in the second half of the year. This combination of increasing real yields and falling inflation accretion resulted in massive underperformance for TIPS.

For the twelve months ended December 31, 2008, the Fund paid dividends of \$0.0625 per share monthly plus a year-end supplemental dividend of \$0.160 per share and generated a total return of -9.50% on a net asset value (NAV^G) basis (including reinvestment of dividends). On a market price basis, the Fund performed better, returning -3.37% during the same period (including reinvestment of dividends). The Fund underperformed U.S. Treasuries, as the Barclays U.S. Treasury Index^H returned 13.74% during the year. Agency mortgage-backed securities (MBS^I) suffered for a majority of the period until the U.S. Treasury took the government-sponsored enterprises (GSEs^J) into conservatorship in September 2008. A major rally was set off in the beginning weeks of September 2008 as spreads began to compress. Overall, for the twelve months ended December 31, 2008, the Fund's exposure to agency MBS contributed to performance. A series of bankruptcies, government conservatorships and mergers stemming from the credit crisis affected the Fund's investment grade and high-yield positions. In September 2008, the federal government placed Fannie Mae and Freddie Mac, the GSEs, into conservatorship, purchased \$1 billion in senior preferred stock in each GSE, and indefinitely suspended the dividend on the existing preferred shares, thereby subordinating the interests of the existing preferred shareholders to the Treasury's. The Fund's exposure to Fannie Mae and Freddie Mac preferreds significantly detracted from performance. The Fund's exposure to Financials issues, specifically Icelandic banks *Kaupthing Bank HF* and *Glimir Banki HF*, and *Citigroup Inc.* detracted from performance, as spreads within this sector widened through the financial crisis. The Fund's high-yield exposure also detracted from performance as spreads widened significantly as well.

As mentioned in the December 31, 2007 annual report, the Fund removed its permanent leverage by redeeming its Auction Market Preferred Shares (AMPS^K) in November 2006. During the financial crisis, the decision to replace permanent leverage via AMPS, while still utilizing opportunistic leverage via repurchase agreements, was a positive for the Fund. Due to the liquidity/credit crunch in February 2008, the cost of AMPS leverage would have increased dramatically as many AMPS auctions failed and issuers were forced to pay the higher stop-out rate. At the peak of the crisis, some issuers were forced to pay double-digit annualized rates to maintain their leverage. This would have been a large detractor from performance. Instead, since TIPS are Treasury securities, the Fund was able to finance its positions at much lower general collateral repurchase rates. During the past twelve months, the Fund's opportunistic use of reverse repurchase agreements to leverage TIPS was a positive contributor to total NAV returns.

Western Asset Management Company

January 20, 2009

^A U.S. Treasury Inflation-Protected Securities (TIPS) are inflation-indexed securities issued by the U.S. Treasury in 5-year, 10-year and 20-year maturities. The principal is adjusted to the Consumer Price Index, the commonly used measure of inflation. The coupon rate is constant, but generates a different amount of

interest when multiplied by the inflation-adjusted principal.

- ^B The Consumer Price Index (CPI) measures the average change in U.S. consumer prices over time in a fixed market basket of goods and services determined by the U.S. Bureau of Labor Statistics.*
- ^C The Barclays U.S. Government Inflation-Linked All Maturities Index measures the performance of the U.S. TIPS market. The Index includes TIPS with one or more years remaining maturity with total outstanding issue size of \$500 million or more.*
- ^D The Barclays U.S. Government Breakeven Treasury Index is composed of nominal U.S. Treasuries corresponding to the maturity of each TIPS issue.*
- ^E The Federal Reserve Board (Fed) is responsible for the formulation of policies designed to promote economic growth, full employment, stable prices and a sustainable pattern of international trade and payments.*
- ^F The Consumer Price Index for All Urban Consumers (CPI-U) is a measure of the average change in prices over time of goods and services purchased by households, which covers approximately 87% of the total population and includes, in addition to wage earners and clerical worker households, groups such as professional, managerial, and technical workers, the self-employed, short-term workers, the unemployed, and retirees and others not in the labor force.*
- ^G Net asset value (NAV) is calculated by subtracting total liabilities and outstanding preferred stock (if any) from the closing value of all securities held by the Fund (plus all other assets) and dividing the result (total net assets) by the total number of the common shares outstanding. The NAV fluctuates with changes in the market prices of securities in which the Fund has invested. However, the price at which an investor may buy or sell shares of the Fund is the Fund 's market price as determined by supply of and demand for the Fund 's shares.*
- ^H The Barclays Capital U.S. Treasury Index is a measure of the public obligations of the U.S. Treasury.*

Per Common Share from Net Income	\$0.91	\$0.74

The Fund

Western Asset/Claymore Inflation-Linked Opportunities & Income Fund (WIW or the Fund) is a diversified, closed-end management investment company which seeks to provide current income for its shareholders. Capital appreciation, when consistent with current income, is a secondary investment objective. Substantially all of the Fund's net investment income (after any interest expense in connection with forms of leverage (if applicable)) is distributed to the Fund's shareholders. A Dividend Reinvestment Plan is available to those shareholders of record desiring it. The Fund's common shares are listed on the New York Stock Exchange (NYSE) where they are traded under the symbol WIW.

Performance Information

Total return on market value measures investment performance in terms of appreciation or depreciation in market value per share, plus dividends and any capital gain distributions. Total return on net asset value measures investment performance in terms of appreciation or depreciation in net asset value per share, plus dividends and any capital gain distributions. Total return on market value assumes that dividends and distributions were reinvested on payment date at prices obtained under the Fund's dividend reinvestment plan. Total return on net asset value assumes that dividends and distributions were reinvested on payment date at net asset value. Average annual returns tend to smooth out variations in a fund's return, so that they differ from actual year-to-year results. No adjustment has been made for any income taxes payable by shareholders.

	Average Annual Return			
	Fourth			
	Quarter	Year Ended	Three	Since
	2008	December 31, 2008	Years	Inception ^A
Total Return Based on:				
Market Value	+3.87%	(3.37)%	+2.55%	(0.38)%

Calculations assume reinvestment of dividends and capital gain distributions. Performance figures for periods shorter than one year represent cumulative figures and are not annualized.

Investment Policies

As previously announced, effective November 26, 2007, the Fund's investment policies were revised to include, among others, that, under normal market conditions and at the time of purchase, its portfolio be invested as follows:

At least 80% of its total managed assets^K in inflation-linked securities

No more than 40% of its total managed assets in below investment grade securities

Up to 100% of its total managed assets in non-U.S. dollar investments (up to 100% of its non-U.S. dollar exposure may be unhedged)

Each of the foregoing policies is a non-fundamental policy that may be changed without shareholder approval. The Fund has also adopted the following non-fundamental policy, which, to the extent required by applicable law, may only be changed after notice to shareholders: under normal market conditions, the Fund will invest at least 80% of its total managed assets in inflation protected securities and non-inflation protected securities and instruments with the potential to enhance the Fund's income. Pursuant to these new policies, the Fund is expected to expand its use of credit default swaps.

The Fund may invest up to 20% of the portfolio in debt instruments of emerging markets issuers that are not inflation-linked securities. Reverse repurchase agreements and other forms of leverage will not exceed 38% of the Fund's total managed assets.

Due to the investment policy changes described above, an investment in the Fund is now subject to the following additional risk:

Currency Risk. The risk that the value of the Fund's portfolio holdings that are denominated in non-U.S. currencies can be affected by changes in the rates of exchange between those currencies and the U.S. dollar. Although the Fund may at times seek

^E *The S&P 500 Index is a market capitalization-weighted index of 500 widely held common stocks. Please note that an investor cannot invest directly in an index.*

^F *The Barclays Capital U.S. Aggregate Index is a broad-based bond index comprised of government, corporate, mortgage and asset-backed issues, rated investment-grade or higher, and having at least one year to maturity. Please note that an investor cannot invest directly in an index.*

^G *The Barclays U.S. Morgaged Back Securities Index covers the mortgage-backed pass-through securities of Ginnie Mae (GNMA), Fannie Mae (FNMA), and Freddie Mac (FHLMC). The MBS Index is formed by grouping the universe of over 600,000 individual fixed rate MBS pools into approximately 3,500 generic aggregates.*

^H *The Barclays Capital U.S. Credit Index is an index composed of corporate and non-corporate debt issues that are investment grade (rated Baa3/BBB- or higher). An investor cannot invest directly in an index.*

^I *The Barclays Capital U.S. Corporate High Yield 2% Issuer Cap Index is an index of the 2% Issuer Cap component of the Barclays Capital U.S. Corporate High Yield Index, which covers the U.S. dollar-denominated, non-investment grade fixed-rate, taxable corporate bond market. An investor cannot invest directly in an index.*

^J *The JPMorgan Emerging Markets Bond Index (EMBI Global) tracks total returns for U.S. dollar denominated debt instruments issued by emerging market sovereign and quasisovereign entities: Brady bonds, loans, Eurobonds, and local market instruments. Investors cannot invest in an index.*

^K *Total managed assets means the total assets of the Fund (including any assets attributable to leverage) minus accrued liabilities (other than liabilities representing leverage).*

to hedge its foreign currency risk, suitable hedges either may not be available or, if used, may not be effective and may result in losses.

Dividend Reinvestment Plan

The Fund and American Stock Transfer and Trust Company LLC (Agent), as the Transfer Agent (previously Computershare Trust Company N.A.) and Registrar of WIW, offer a convenient way to add shares of WIW to your account. WIW offers to all common shareholders a Dividend Reinvestment Plan (Plan). Under the Plan, cash distributions (e.g., dividends and capital gains) on the common shares are automatically invested in shares of WIW unless the shareholder elects otherwise by contacting the Agent at the address set forth below.

As a participant in the Dividend Reinvestment Plan, you will automatically receive your dividend or net capital gains distribution in newly issued shares of WIW, if the market price of the shares on the date of the distribution is at or above the net asset value (NAV) of the shares, minus estimated brokerage commissions that would be incurred upon the purchase of common shares on the open market. The number of shares to be issued to you will be determined by dividing the amount of the cash distribution to which you are entitled (net of any applicable withholding taxes) by the greater of the NAV per share on such date or 95% of the market price of a share on such date. If the market price of a share on such distribution date is below the NAV, less estimated brokerage commissions that would be incurred upon the purchase of common shares on the open market, the Agent will, as agent for the participants, buy shares of WIW through a broker on the open market. All common shares acquired on your behalf through the Plan will be automatically credited to an account maintained on the books of the Agent.

Additional Information Regarding the Plan

WIW will pay all costs applicable to the Plan, except for brokerage commissions for open market purchases by the Agent under the Plan which will be charged to participants. All shares acquired through the Plan receive voting rights and are eligible for any stock split, stock dividend, or other rights accruing to shareholders that the Board of Trustees may declare.

You may terminate participation in the Plan at any time by giving notice to the Agent. Such termination shall be effective prior to the record date next succeeding the receipt of such instructions or by a later date of termination specified in such instructions. Upon termination, a participant will receive a certificate for the full shares credited to his or her account or may request the sale of all or part of such shares. Fractional shares credited to a terminating account will be paid for in cash at the current market price at the time of termination.

Dividends and other distributions invested in additional shares under the Plan are subject to income tax just as if they had been received in cash. After year end, dividends paid on the accumulated shares will be included in the Form 1099-DIV information return to the Internal Revenue Service and only one Form 1099-DIV will be sent to participants each year.

Inquiries regarding the Plan, as well as notices of termination, should be directed to American Stock Transfer and Trust Company LLC, P.O. Box 922, Wall Street Station, New York, NY 10269-0560. Investor Relations telephone number (888) 888-0151.

Annual Certifications

In May 2008, the Fund submitted its annual CEO certification to the NYSE in which the Fund's principal executive officer certified that he was not aware, as of the date of the certification, of any violation by the Fund of the NYSE's Corporate Governance listing standards. In addition, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and related Securities and Exchange Commission (SEC) rules, the Fund's principal executive and principal financial officers have made quarterly certifications, included in filings with the SEC on Forms N-CSR and N-Q, relating to, among other things, the Fund's disclosure controls and procedures and internal control over financial reporting.

Schedule of Portfolio Holdings

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. You may obtain a free copy of the Fund's Form N-Q by calling 1-800-345-7999, by visiting the Fund's website (<http://www.westernclaymore.com>), or by writing to the Fund, or you may obtain a copy of this report (and other information relating to the Fund) from the SEC's website (<http://www.sec.gov>). Additionally, the Fund's Form N-Q can be viewed or copied at

Annual Report to Shareholders

the SEC's Public Reference Room in Washington D.C. Information about the operation of the Public Reference Room can be obtained by calling 1-800-732-0330.

Proxy Voting

You may request a free description of the policies and procedures that the Fund uses to determine how proxies relating to the Fund's portfolio securities are voted by calling 1-800-345-7999 or by writing to the Fund, or you may obtain a copy of these policies and procedures (and other information relating to the Fund) from the SEC's website (<http://www.sec.gov>). You may request a free report regarding how the Fund voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30, by calling 1-800-345-7999 or by writing to the Fund, or you may obtain a copy of this report (and other information relating to the Fund) from the SEC's website (<http://www.sec.gov>).

Annual Report to Shareholders

Portfolio Diversification

December 31, 2008

The pie and bar charts above represent the Fund's portfolio as of December 31, 2008 and do not include derivatives such as Futures Contracts and Swaps. The Fund's portfolio is actively managed, and its portfolio composition, credit quality breakdown, and other portfolio characteristics will vary from time to time. U.S. Treasury Inflation-Protected Securities are unrated, but are backed by the full faith and credit of the government of the United States of America and are therefore considered by the Fund's investment manager to be comparable to bonds rated AAA/Aaa.

Quarterly Comparison of Market Price and Net Asset Value (NAV), Discount or Premium to NAV and Average Daily Volume of Shares Traded

	Market Price	Net Asset Value	Premium/ (Discount)	Average Daily Volume (Shares)
March 31, 2008	\$ 11.97	\$ 13.93	(14.07)%	253,515
June 30, 2008	\$ 12.27	\$ 13.67	(10.24)%	203,432
September 30, 2008	\$ 10.44	\$ 12.21	(14.50)%	211,843
December 31, 2008	\$ 10.49	\$ 11.39	(7.90)%	197,651

N.M. Not Meaningful.

^A *Treasury Inflation-Protected Security* Treasury security whose principal value is adjusted daily in accordance with changes to the Consumer Price Index for All Urban Consumers. Interest is calculated on the basis of the current adjusted principal value.

^B *All or a portion of this security is collateral to cover futures and options contracts written.*

^C *Position, or a portion thereof, with an aggregate market value of \$89,485,535 has been segregated to collateralize reverse repurchase agreements.*

^D *On September 7, 2008, the Federal Housing Finance Agency placed Fannie Mae and Freddie Mac into Conservatorship.*

^E *Rule 144a Security* A security purchased pursuant to Rule 144a under the Securities Act of 1933 which may not be resold subject to that rule except to qualified institutional buyers. These securities, which the Fund's investment adviser has determined to be liquid, represent 5.18% of net assets.

^F *Indexed Security* The rates of interest earned on these securities are tied to the London Interbank Offered Rate (LIBOR), the Euro Interbank Offered Rate (EURIBOR) Index, the Consumer Price Index (CPI), the one-year Treasury Bill Rate or the ten-year Japanese Government Bond Rate. The coupon rates are the rates as of December 31, 2008.

^G *Stepped Coupon Security* A security with a predetermined schedule of interest or dividend rate changes at which time it begins to accrue interest or pay dividends according to the predetermined schedule.

^H *Pay-in-Kind (PIK) security* A security in which interest or dividends during the initial few years is paid in additional PIK securities rather than in cash.

^I *Yankee Bond* A dollar-denominated bond issued in the U.S. by foreign entities.

^J *Bond is currently in default.*

^K *At December 31, 2008, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were substantially as follows:*

Gross unrealized appreciation	\$ 11,591,681
Gross unrealized depreciation	(103,848,230)
Net unrealized depreciation	\$ (92,256,549)

^L *Futures are described in more detail in the notes to financial statements.*

^A For the period February 27, 2004 (commencement of operations) to December 31, 2004.

^B Net of sales load of \$0.675 on initial shares issued.

^C Computed using average daily shares outstanding.

^D Total return based on market value reflects changes in market value. Total return based on net asset value reflects changes in the Fund's net asset value during the period. Each figure includes reinvestments of dividends and distributions. These figures will differ depending upon the level of any discount from or premium to net asset value at which the Fund's shares trade during the period. Total investment return is not annualized for periods of less than one year. Brokerage commissions are not reflected in the calculations.

^E Not annualized.

^F Total return on NAV includes offering costs. If offering costs were excluded, the total return would be 4.20%.

^G This ratio reflects total expenses before compensating balance credits.

^H Annualized.

^I This ratio reflects expenses net of compensating balance credits.

^J Total managed assets included the liquidation value of preferred shares through November 22, 2006.

^K The last series of preferred shares was redeemed on November 22, 2006.

^L Asset coverage on preferred shares equals net assets of common shares plus the redemption value of the preferred shares divided by the value of outstanding preferred stock.

See notes to financial statements.

Annual Report to Shareholders

Notes to Financial Statements

1. Significant Accounting Policies:

Western Asset/Claymore Inflation-Linked Opportunities & Income Fund (Fund) is registered under the Investment Company Act of 1940 (1940 Act), as amended, as a diversified, closed-end management investment company. The Fund commenced operations on February 27, 2004.

The Fund's primary investment objective is to provide current income for its shareholders. Capital appreciation, when consistent with current income, is a secondary investment objective.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements:

Investment Valuation

The Fund's securities are valued under policies approved by and under the general oversight of the Board of Trustees. Effective January 1, 2008, the Fund adopted Statement of Financial Accounting Standards No. 157 (FAS 157). FAS 157 establishes a single definition of fair value, creates a three-tier hierarchy as a framework for measuring fair value based on inputs used to value the Fund's investments, and requires additional disclosure about fair value. The hierarchy of inputs is summarized below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

Debt securities are valued at the last quoted bid prices provided by an independent pricing service that are based on transactions in debt obligations, quotations from bond dealers, market transactions in comparable securities and various other relationships between securities. Equity securities for which market quotations are available are valued at the last reported sales price or official closing price on the primary market or exchange on which they trade. Publicly traded foreign government debt securities are typically traded internationally in the over-the-counter market, and are valued at the bid price as of the close of business of that market. When prices are not readily available, or are determined not to reflect fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the Fund calculates its net asset value, the Fund may value these securities at fair value as determined in accordance with the procedures approved by the Fund's Board of Trustees.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Fund's assets carried at fair value:

	December 31, 2008	Quoted Prices (Level 1)	Other Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments in Securities	\$ 784,143,597	\$ 5,832,564	\$ 778,311,033	\$
Other Financial Instruments*				
Derivatives	(15,658,085)	(4,532,743)	(11,125,342)	
Foreign Forward Currency Contracts	226,491		226,491	
Reverse Repurchase Agreement	(92,986,000)		(92,986,000)	
Total Value	\$ 675,726,003	\$ 1,299,821	\$ 674,426,182	\$

* Other financial instruments include reverse repurchase agreements, forward foreign currency contracts and derivatives, e.g. options, futures, and swap contracts.

Annual Report to Shareholders

Notes to Financial Statements Continued

Security Transactions

Security transactions are accounted for as of the trade date. Realized gains and losses from security transactions are reported on an identified cost basis for both financial reporting and federal income tax purposes.

For the year ended December 31, 2008, security transactions (excluding short-term investments) were as follows:

Purchases		Proceeds From Sales	
U.S. Gov t Securities	Other	U.S. Gov t Securities	Other
\$465,256,661	\$ 72,205,630	\$460,602,999	\$21,382,598

Foreign Currency Translation

Assets and liabilities initially expressed in non-U.S. currencies are translated into U.S. dollars using currency exchange rates determined prior to the close of trading on the New York Stock Exchange, usually at 2:00 p.m. Eastern time. Purchases and sales of securities and income and expenses are translated into U.S. dollars at the prevailing market rates on the dates of such transactions. The effects of changes in non-U.S. currency exchange rates on investment securities and other assets and liabilities are included with the net realized and unrealized gain or loss on investment securities.

Repurchase Agreements

The Fund may enter into repurchase agreements with institutions that its investment adviser has determined are creditworthy. Each repurchase agreement is recorded at cost. Under the terms of a typical repurchase agreement, a fund takes possession of an underlying debt obligation subject to an obligation of the seller to repurchase, and of the fund to resell, the obligation at an agreed-upon price and time, thereby determining the yield during a fund's holding period. When entering into repurchase agreements, it is the Fund's policy that its custodian acting on the fund's behalf, or a third party custodian take possession of the underlying collateral securities, the market value of which, at all times, at least equals the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked to market to ensure the adequacy of the collateral. If the counterparty defaults, the Fund generally has the right to use the collateral to satisfy the terms of the repurchase transaction. However, if the market value of the collateral declines during the period in which the Fund seeks to assert its rights or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

Reverse Repurchase Agreements

The Fund may enter into reverse repurchase agreements. Under the terms of a typical reverse repurchase agreement, a fund sells a security subject to an obligation to repurchase the security from the buyer at an agreed-upon time and price, thereby determining the yield to the buyer during the buyer's holding period. A reverse repurchase agreement involves the risk, among others, that the market value of the collateral retained by the fund may decline below the price of the securities the fund has sold but is obligated to repurchase under the agreement. In the event the buyer of securities under a reverse repurchase agreement files for bankruptcy or becomes insolvent, the fund's use of the proceeds of the agreement may be restricted pending a determination by the party, or its trustee or receiver, whether to enforce the Fund's obligation to repurchase the securities. In entering into reverse repurchase agreements, the Fund will maintain cash, U.S. government securities or other liquid high grade debt obligations at least equal in value to its obligations with respect to reverse repurchase agreements or will take other actions

permitted by law to cover its obligations.

Options, Futures and Swap Agreements

The current market value of an exchange traded option is the last sale price or, in the absence of a sale, the price obtained by reference to broker-dealer quotations. Futures contracts are valued daily at the settlement price established by the board of trade or exchange on which they are traded. Futures contracts are marked-to-market on a daily basis. As the contract's value fluctuates, payments known as variation margin are made or received by the Fund each day, depending on the daily fluctuation in the value of the contract. The daily changes in contract value are recorded as unrealized gains or losses, and the Fund recognizes a gain or loss when the contract is closed. Swap agreements are priced daily based upon valuations furnished by an independent pricing service or quotations provided by brokers and the change, if any, is recorded as unrealized appreciation or depreciation.

Annual Report to Shareholders

Short Sales

The Fund may sell a security it does not own in anticipation of a decline in the market price of that security. The Fund must then borrow the security sold short and deliver it to the dealer that brokered the short sale. A gain, limited to the price at which the security was sold short, or a loss, potentially unlimited in size, will be recognized upon the termination of the short sale. With respect to each short sale, the Fund must maintain collateral in a segregated account consisting of liquid assets with a value at least equal to the current market value of the shorted securities, marked-to-market daily, or take other actions permitted by law to cover its obligations. Dividend expenses and fees paid to brokers to borrow securities in connection with short sales are considered part of the cost of short sale transactions. The Fund had no open short sales as of December 31, 2008.

Distributions to Common Shareholders

Distributions to shareholders are recorded on the ex-dividend date. Dividends from net investment income are declared and paid monthly. Net capital gain distributions may be paid after the end of the tax year in which the gain is realized and in December to the extent necessary in order to comply with federal excise tax requirements. Distributions are determined in accordance with federal income tax regulations, which may differ from accounting principles generally accepted in the United States of America; accordingly, periodic reclassifications are made within the Fund's capital accounts to reflect income and gains available for distribution under federal income tax regulations. Income and expenses are recorded on the accrual basis. Bond discounts and premiums are amortized and included in interest income for financial reporting and federal income tax purposes.

Compensating Balance Credits

The Fund has an arrangement with its custodian bank, whereby a portion of the custodian's fee is paid indirectly by credits earned on the Fund's cash on deposit with the bank. This deposit arrangement is an alternative to purchasing overnight investments.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

Credit and Market Risk

Investments in structured securities collateralized by residential real estate mortgages are subject to certain credit and liquidity risks. When market conditions result in an increase in default rates of the underlying mortgages and the foreclosure values of underlying real estate properties are materially below the outstanding amount of these underlying mortgages, collection of accrued interest and principal on these investments may be doubtful. Such market conditions may significantly impair the value of these investments resulting in a lack of correlation between their credit ratings and values.

Other

In the normal course of business, the Fund enters into contracts that provide general indemnifications. The Fund's maximum exposure under these arrangements is dependent upon claims that may be made against the Fund in the future and, therefore, cannot be estimated; however,

based on experience, the risk of material loss from such claims is considered remote.

2. Federal Income Taxes:

It is the Fund's policy to continue to comply with the federal income and excise tax requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, the Fund intends to distribute substantially all of its income and net realized gains on investments, if any, to shareholders each year. Therefore, no federal income tax provision is required in the Fund's financial statements. Under the applicable foreign tax laws, a withholding tax may be imposed on interest, dividends and capital gains at various rates.

Management has analyzed the Fund's tax positions taken on federal income tax returns for all open tax years and has concluded that as of December 31, 2008, no provision for income tax would be required in the Fund's financial statements. The Fund's federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue.

Annual Report to Shareholders

Notes to Financial Statements Continued

Reclassifications:

Accounting principles generally accepted in the United States of America requires that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset values per share. During the current year, the following reclassifications have been made:

	Undistributed Net Investment Income	Accumulated Net Realized Loss
(a)	\$ 3,339,794	\$ (3,339,794)

^(a) *Reclassifications are primarily due to foreign currency transactions treated as ordinary income for tax purposes and book/tax differences in the treatment of credit default swap contracts.*

Distributions to Shareholders:

Subsequent to the fiscal year end, the Fund has made the following distributions:

Record Date	Payable Date	Per Share Distribution
1/15/2009	1/30/2009	\$0.050000
2/13/2009	2/27/2009	\$0.050000

The tax character of distributions paid during the fiscal years ended December 31, were as follows:

	2008	2007
Distributions paid from:		
Ordinary Income	\$ 55,680,481	\$ 45,398,628

Accumulated Earnings on a Tax Basis:

As of December 31, 2008, the components of accumulated earnings on a tax basis were as follows:

Undistributed ordinary income net	\$ 1,373,109
Capital loss carryforward*	(50,195,179)
Other book/tax temporary differences ^(a)	(3,110,188)

Unrealized appreciation/(depreciation)	(107,688,141)
Total accumulated earnings/(losses) net	\$ (159,620,399)

* During the taxable year ended December 31, 2008, the Fund utilized \$ 12,194,075 of its capital loss carryover available from prior years. As of December 31, 2008, the Fund had the following net capital loss carryforwards remaining:

Year of Expiration	Amount
12/31/2012	\$ (10,084,162)
12/31/2013	(10,088,445)
12/31/2014	(30,022,572)
	\$ (50,195,179)

These amounts will be available to offset any future taxable capital gains.

^(a) Other book/tax temporary differences are attributable primarily to the realization for tax purposes of unrealized gains/(losses) on certain futures and foreign currency contracts, the deferral of post-October capital losses for tax purposes, differences between book/tax accrual of interest income on certain securities and book/tax differences in the timing of the deductibility of various expenses.

Tax Cost of Investments:

As of December 31, 2008, the aggregate cost of investments for federal tax purposes was \$876,400,146.

Annual Report to Shareholders

3. Financial Instruments:

Emerging Markets

The Fund may invest in securities denominated in the currencies of emerging market countries, as well as in securities issued by companies located in emerging market countries and by governments of emerging market countries. Future economic or political developments could adversely affect the liquidity or value, or both, of such securities.

Forward Currency Exchange Contracts

As part of its investment program, the Fund may utilize forward currency exchange contracts. The nature and risks of these financial instruments and the reasons for using them are set forth more fully in the Trust's prospectus and statement of additional information.

Forward foreign exchange contracts are marked-to-market daily using foreign currency exchange rates supplied by an independent pricing service. The change in the contract's market value is recorded by the Fund as an unrealized gain or loss. When a contract is closed or delivery is taken, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

The use of forward foreign currency exchange contracts does not eliminate fluctuations in the underlying prices of the Fund's securities, but it does establish a rate of exchange that can be achieved in the future. These forward foreign currency exchange contracts involve market risk in excess of amounts reflected in the financial statements. Although forward foreign currency exchange contracts used for hedging purposes limit the risk of loss due to the decline in the value of the hedged currency, they also limit any potential gain that might result should the value of the currency increase. In addition, the Fund could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts.

At December 31, 2008, open forward currency exchange contracts (expressed in the contractual currency) were:

Broker	Settlement Date		Receive ^A	Contract to Deliver ^A		Unrealized Gain/(Loss)
Deutsche Bank AG London	2/3/09	JPY	1,861,112,700	USD	18,990,946	\$ 1,553,946
Deutsche Bank AG London	2/3/09	USD	19,217,437	JPY	1,861,112,700	(1,327,455)
						\$ 226,491

^ADefinitions of currency abbreviations:

JPY Japanese Yen
USD United States Dollar

Option Transactions

As part of its investment program, the Fund may utilize options and futures. Options may be written (sold) or purchased by the Fund. When the Fund purchases a put or call option, the premium paid is recorded as an investment and its value is marked-to-market daily. When the Fund writes a put or call option, an amount equal to the premium received by the Fund is recorded as a liability and its value is marked-to-market daily.

When options, whether written or purchased, expire, are exercised or are closed (by entering into a closing purchase or sale transaction), the Fund realizes a gain or loss as described in the chart below:

Annual Report to Shareholders

Notes to Financial Statements Continued

Purchased option:	Impact on the Fund:
The option expires	Realize a loss in the amount of the cost of the option.
The option is closed through a closing sale transaction	Realize a gain or loss depending on whether the proceeds from the closing sale transaction are greater or less than the cost of the option.
The Fund exercises a call option	The cost of the security purchased through the exercise of the option will be increased by the premium originally paid to purchase the option.
The Fund exercises a put option	Realize a gain or loss from the sale of the underlying security. The proceeds of that sale will be reduced by the premium originally paid to purchase the put option.
Written option:	Impact on the Fund:
The option expires	Realize a gain equal to the amount of the premium received.
The option is closed through a closing purchase transaction	Realize a gain or loss without regard to any unrealized gain or loss on the underlying security and eliminate the option liability. The Fund will realize a loss in this transaction if the cost of the closing purchase exceeds the premium received when the option was written.
A written call option is exercised by the option purchaser	Realize a gain or loss from the sale of the underlying security. The proceeds of that sale will be increased by the premium originally received when the option was written.
A written put option is exercised by the option purchaser	The amount of the premium originally received will reduce the cost of the security that the Fund purchased when the option was exercised.

The risk associated with purchasing options is limited to the premium originally paid. Options written by the Fund involve, to varying degrees, risk of loss in excess of the option value reflected in the statement of assets and liabilities. The risk in writing a covered call option is that the Fund may forgo the opportunity of profit if the market price of the underlying security increases and the option is exercised. The risk in writing a put option is that the Fund may incur a loss if the market price of the underlying security decreases and the option is exercised. In addition, there is the risk the Fund may not be able to enter into a closing transaction because of an illiquid secondary market or, for over-the-counter options, because of the counterparty's inability or unwillingness to perform.

Activity in written call and put options during the year ended December 31, 2008, was as follows:

	Actual Contracts	Premiums
Options outstanding at December 31, 2007	682	\$ 419,746
Options written	4,218	2,451,709
Options closed	(15)	(12,972)
Options expired	(4,232)	(2,462,561)
Options exercised	(653)	(395,922)
Options outstanding at December 31, 2008		\$

Swap Agreements

The Fund may invest in swaps for the purpose of managing its exposure to interest rate, credit or market risk, or for other purposes. The use of swaps involves risks that are different from those associated with ordinary portfolio transactions.

The Fund may enter into credit default swap (CDS) contracts for investment purposes, to manage its credit risk or to add leverage. CDS agreements involve one party making a stream of payments to another party in exchange for the right to receive a specified return in the event of a default by a third party, typically corporate issuers or sovereign issuers of an emerging country, on a specified obligation or in the event of a write-down, principal shortfall, interest shortfall or default of all or part of the refer-

Annual Report to Shareholders

enced entities comprising a credit index. The Fund may use a CDS to provide a measure of protection against defaults of the issuers (i.e., to reduce risk where a Fund has exposure to the sovereign issuer) or to take an active long or short position with respect to the likelihood of a particular issuer's default. As a seller of protection, the Fund generally receives an upfront payment or a stream of payments throughout the term of the swap provided that there is no credit event. If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the maximum potential amount of future payments (undiscounted) that the Fund could be required to make under a credit default swap agreement, would be an amount equal to the notional amount of the agreement. These amounts of potential payments will be partially offset by any recovery of values from the respective referenced obligations. As a seller of protection, the Fund effectively adds leverage to its portfolio because, in addition to its total net assets, the Fund would be subject to investment exposure on the notional amount of the swap. As a buyer of protection, the Fund generally receives an amount up to the notional value of the swap if a credit event occurs.

Implied spreads are the theoretical price a lender receives for credit default protection. When spreads rise, market perceived credit risk rises and when spreads fall, market perceived credit risk falls. The implied credit spread of a particular referenced entity reflects the cost of buying/selling protection and may include upfront payments required to enter into the agreement. Wider credit spreads and decreasing market values, when compared to the notional amount of the swap, represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement. Credit spreads utilized in determining the period end market value of credit default swap agreements on corporate issues or sovereign issues of an emerging country are disclosed in the Notes to Financial Statements and serve as an indicator of the current status of the payment/performance risk and represent the likelihood or risk of default for credit derivatives. For credit default swap agreements on asset-backed securities and credit indices, the quoted market prices and resulting values particularly in relation to the notional amount of the contract, as well as the annual payment rate serve as an indication of the current status of the payment/performance risk.

Payments received or made at the beginning of the measurement period are reflected as a premium or deposit, respectively, on the Statement of Assets and Liabilities. These upfront payments are amortized over the life of the swap and are recognized as realized gain or loss on the Statement of Operations. A liquidation payment received or made at the termination of the swap is recognized as realized gain or loss on the Statement of Operations. Net periodic payments received or paid by the Fund are recognized as realized gain or loss at the time of receipt or payment on the Statement of Operations.

Entering into a CDS agreement involves, to varying degrees, elements of credit, market and documentation risk in excess of the related amounts recognized on the Statement of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreement may default on its obligation to perform or disagree as to the meaning of the contractual terms in the agreement, and that there will be unfavorable changes in net interest rates.

Swaps are marked-to-market daily and changes in value are recorded as unrealized appreciation/(depreciation). Collateral, in the form of restricted cash or securities, may be required to be held in segregated accounts with the Fund's custodian in compliance with swap contracts.

Annual Report to Shareholders

Notes to Financial Statements Continued

The following is a summary of open credit default swap contracts outstanding as of December 31, 2008.

CREDIT DEFAULT SWAP ON CORPORATE ISSUES SELL PROTECTION

Swap Counterparty (Reference Entity)	Termination Date	Implied Credit Spread At December 31, 2008 ²	Periodic Payment Received by the Fund	Contract Notional Amount ³	Market Value	Upfront Premiums Paid/ (Received)	Unrealized Appreciation/ (Depreciation)
JP Morgan Chase & Co. (Ford Motor Credit Corporation, 7%, due 10/1/13)	March 20, 2011	11.91%	5.1% Quarterly	\$ 10,000,000	\$ (1,250,958)	\$	\$ (1,250,958)
JP Morgan Chase & Co. (General Motors Acceptance Corporation, 6.875%, due 8/28/12)	March 20, 2011	8.57%	4.17% Quarterly	10,000,000	(860,046)		(860,046)
JP Morgan Chase & Co. (SLM Corporation, 5.125%, due 8/27/12)	December 20, 2012	8.76%	2.50% Quarterly	8,100,000	(1,448,641)		(1,448,641)

Net unrealized depreciation on sales of credit default swaps on corporate issues \$ (3,559,645)

CREDIT DEFAULT SWAP ON CREDIT INDICES SELL PROTECTION

Swap Counterparty (Reference Entity)	Termination Date	Periodic Payment Received by the Fund	Contract Notional Amount ³	Market Value ⁴	Upfront Premiums Paid/ (Received)	Unrealized Appreciation/ (Depreciation)
Barclays Capital Inc. (CDX HVOL 7)	June 20, 2012	0.75% Quarterly	\$17,000,000	\$ (1,997,204)	\$ (74,944)	\$ (1,922,260)
Barclays Capital Inc. (CDX HY 8)	June 20, 2012	2.75% Quarterly	8,232,000	(1,397,654)	(346,550)	(1,051,104)
Barclays Capital Inc. (CDX IG 8)	June 20, 2012	0.35% Quarterly	39,625,600	(2,401,799)	(238,545)	(2,163,254)
JP Morgan Chase & Co. (CDX HY 8)	June 20, 2012	2.75% Quarterly	15,582,000	(2,645,559)	(216,480)	(2,429,079)

Net unrealized depreciation on sales of credit default swaps on credit indices \$ (7,565,697)

¹ If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.

² Implied credit spreads, utilized in determining the market value of credit default swap agreements on corporate issues or sovereign issues of an emerging country as of period end serve as an indicator of the current status of the payment/performance risk and represent the likelihood or risk of default for the credit derivative. The implied credit spread of a particular referenced entity reflects the cost of buying/selling protection and may include upfront payments required to be made to enter into the agreement. Wider credit spreads represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement. A credit spread identified as "Defaulted" indicates a credit event has occurred for the referenced entity or obligation.

³ The maximum potential amount the Fund could be required to make as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.

⁴ The quoted market prices and resulting values for credit default swap agreements on asset-backed securities and credit indices serve as an indicator of the current status of the payment/performance risk and represent the likelihood of an expected liability (or profit) for the credit derivative should the notional amount of the swap agreement have been closed/sold as of the period end. Decreasing market values when compared to the notional amount of the swap, represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.

Percentage shown is an annual percentage rate.

Futures

Upon entering into a futures contract, the Fund is required to deposit with the broker an amount of cash or cash equivalents equal to a percentage of the contract amount. This is known as the initial margin. Subsequent payments (variation margin) are made or received by the Fund each day, depending on the daily fluctuation in the value of the contract. For non-U.S. and foreign denominated futures held by the Fund, payment is not sent daily, but is recorded as a net payable or receivable by the Fund to or from the futures broker, which holds cash collateral from the Fund. The daily changes in contract value are recorded as unrealized gains or losses and the Fund recognizes a realized gain or loss when the contract is closed. Futures contracts are valued daily at the settlement price established by the board of trade or exchange on which they are traded.

Annual Report to Shareholders

The Fund may enter into futures contracts for various reasons, including in connection with its interest rate management strategy. Futures contracts involve, to varying degrees, risk of loss in excess of the amounts reflected in the financial statements. The change in the value of futures contracts primarily corresponds with the value of their underlying instruments, which may not correlate with changes in interest rates, if applicable. In addition, there is the risk that the Fund may not be able to enter into a closing transaction because of an illiquid secondary market. The nature and risks of these Financial instruments and other reasons for using them are set forth more fully in the Trust's prospectus and statement of additional information.

The open futures positions and related appreciation or depreciation at December 31, 2008 are listed at the end of the Fund's portfolio of investments.

Reverse Repurchase Agreements

For the year ended December 31, 2008, the average amount of reverse repurchase agreements outstanding was \$157,479,224 and the daily weighted average interest rate was 1.92%.

As of December 30, 2008, the Fund entered into a reverse repurchase agreement (Reverse Repurchase Agreement) with Bank of New York for \$92,986,000. The Reverse Repurchase Agreement, which matured on January 5, 2009, was recorded at cost and was collateralized by a U.S. Treasury Inflation Protected Security with a par value of \$95,000,000 and a market value as of December 31, 2008, of \$89,485,535. The implied interest rate on the Reverse Repurchase Agreement was 0.70% at December 31, 2008.

4. Common Shares:

Of the 61,184,134 shares of common stock outstanding at December 31, 2008, the Investment Manager owned 6,981 shares.

5. Securities Lending:

The Fund may lend its securities to approved brokers to earn additional income and receives cash and U.S. government securities as collateral against the loans. Cash collateral received is invested in a money market pooled account by the Fund's lending agent. Collateral is maintained over the life of the loan in an amount not less than 100% of the value of loaned securities. At December 31, 2008 there were no securities on loan.

6. Transactions With Affiliates and Certain Other Parties:

The Fund has entered into an Investment Advisory Agreement with Claymore Advisors, LLC (Investment Adviser), which provides for payment of a monthly fee computed at the annual rate of 0.60% of the Fund's average weekly assets. The Investment Adviser has, in turn, entered into an Investment Management Agreement with Western Asset Management Company (Investment Manager), pursuant to which the Investment Manager provides investment management services to the Fund. In exchange for the services provided by the Investment Manager, the Investment Adviser pays a portion of the fees it receives from the Fund to the Investment Manager, at the annual rate of 0.27% of the Fund's average weekly assets. Average weekly assets means the average weekly value of the total assets of the Fund (including any assets attributable to leverage) minus accrued liabilities (other than liabilities representing leverage). For purposes of calculating average weekly assets, neither the liquidation preference of any preferred shares outstanding nor any liabilities associated with any instrument or transactions used by the

Investment Manager to leverage the Fund's portfolio (whether or not such instruments or transactions are covered as described in the prospectus) is considered a liability.

Under an administrative agreement with the Fund, Legg Mason Fund Adviser, Inc. (Administrator), an affiliate of the Investment Manager, provides certain administrative and accounting functions for the Fund. In consideration for these services, the Fund pays the Administrator a monthly fee at an annual rate of \$125,000.

7. Trustee Compensation:

Each Independent Trustee receives a fee of \$15,000 for serving as a Trustee of the Fund and a fee of \$1,500 and related expenses for each meeting of the Board of Trustees attended. The Chairman of the Board receives an additional \$5,000 for serving in that capacity. The Audit Committee Chairman and the Governance and Nominating Committee Chairman each receive an additional \$3,000 for serving in their respective capacities. Members of the Audit Committee and the Governance and Nominating Committee receive \$500 for each committee meeting attended.

8. Recent Accounting Pronouncement:

In March 2008, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 161, *Disclosures about Derivative Instruments and Hedging Activities* (FAS 161). FAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008. FAS 161 requires enhanced disclosures about a fund's derivative and hedging activities, including how such activities are accounted for and their effect on a fund's financial position, performance and cash flows. Management is currently evaluating the impact the adoption of FAS 161 will have on the Fund's financial statements and related disclosures.

Annual Report to Shareholders

Report of Independent Registered Public Accounting Firm

To the Board of Trustees and Shareholders of Western Asset/Claymore Inflation-Linked Opportunities & Income Fund:

In our opinion, the accompanying statement of assets and liabilities, including the portfolio of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Western Asset/Claymore Inflation-Linked Opportunities & Income Fund (the Fund) at December 31, 2008, the results of its operations, the changes in its net assets, and the financial highlights for each of the periods presented, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as financial statements) are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at December 31, 2008 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

Annual Report to Shareholders

Important Tax Information (Unaudited)

The following information is provided with respect to the distributions paid during the taxable year ended December 31, 2008:

Record Date:	Monthly
Payable Date:	Monthly
Ordinary Income:	
Qualified Dividend Income for Individuals	2.25%
Dividends Qualifying for the Dividends	
Received Deduction for Corporations	2.25%
Interest from Federal Obligations*	65.83%

* The Fund has met the quarterly asset requirements for California, Connecticut and New York Resident Shareholders.

The law varies in each state as to whether and what percentage of dividend income attributable to Federal obligations is exempt from state income tax. We recommend that you consult with your tax adviser to determine if any portion of the dividends you received is exempt from state tax.

Please retain this information for your records.

^A Each Trustee also serves as a Trustee of Western Asset/Claymore Inflation-Linked Securities & Income Fund, a closed-end investment company, which is considered part of the same Fund Complex as the Fund. The Investment Manager serves as investment adviser to Western Asset/Claymore Inflation-Linked Securities & Income Fund. Messrs. Nyberg, Toupin and Dalmaso also serve as Trustees of Dreman/Claymore Dividend & Income Fund, MBIA Capital/Claymore Managed Duration Investment Grade Municipal Fund, TS&W/Claymore Tax-Advantaged Balanced Fund, Madison/Claymore Covered Call & Equity Strategy Fund, Fiduciary/Claymore MLP Opportunity Fund, Fiduciary/Claymore Dynamic Equity Fund, Old Mutual/Claymore Long-Short Fund, and Claymore/Guggenheim Strategic Opportunities Fund, each of which is a closed-end management investment company, Claymore Exchange-Traded Fund Trust (consisting of 20 separate portfolios) and Claymore Exchange Traded Fund Trust 2 (consisting of 14 separate portfolios), each an open-end management investment company. Additionally, Messrs. Nyberg and Dalmaso serve as Trustees for Advent Claymore Convertible Securities & Income Fund, Advent/Claymore Enhanced Growth & Income Fund and Advent/Claymore Global Convertible Securities and Income Fund, each a closed-end investment company. Mr. Gerken serves as Director/Trustee to 159 other portfolios associated with Legg Mason & Co., LLC or its affiliates. Legg Mason & Co., LLC is an affiliate of the Investment Manager.

^B Member of the Audit Committee of the Board of Trustees.

^C Member of the Governance and Nominating Committee of the Board of Trustees.

^D Mr. Dalmaso is an interested person (as defined in section 2(a)(19) of the Investment Company Act of 1940, as amended (the 1940 Act)) of the Fund because of his former position as an officer of Claymore Advisors, LLC (the Investment Adviser) the Fund's investment adviser, and his ownership interest in Claymore Group Inc., the parent company of that entity.

^E Mr. Gerken is an interested person (as defined above) of the Fund because of his positions with subsidiaries of, and ownership of shares of common stock of, Legg Mason, Inc., the parent company of the Investment Manager.

^F Each officer shall hold office until his or her respective successor is chosen and qualified, or in each case until he or she sooner dies, resigns, is removed with or without cause or becomes disqualified.

Annual Report to Shareholders

Trustees Consideration of the Management and Advisory Agreements

The Independent Trustees considered the Investment Advisory Agreement (the *Advisory Agreement*) between Claymore Advisors, LLC (*Claymore*) and the Fund and the Investment Management Agreement (the *Management Agreement* and together with the *Advisory Agreement*, the *Agreements*) between Claymore and Western Asset Management Company (*Western Asset*) with respect to the Fund at meetings held on September 8, 2008 and October 31, 2008. At a meeting held on November 17, 2008, the Independent Trustees reported to the full Board of Trustees their considerations with respect to the *Agreements*, and the Board of Trustees, including a majority of the Independent Trustees, considered and approved renewal of the *Agreements*.

In arriving at their decision to renew the *Agreements*, the Trustees met with representatives of Claymore and Western Asset (together, the *Advisers*), including, in the case of Western Asset, relevant investment advisory personnel; reviewed a variety of information prepared by the *Advisers* and materials provided by Lipper Inc. (*Lipper*) and counsel to the Independent Trustees; reviewed performance and expense information for peer groups of comparable funds, selected and prepared by Lipper, and certain other products available from Western Asset for investments in U.S. TIPS; and requested and reviewed additional information as necessary. These reviews were in addition to information obtained by the Trustees at their regular quarterly meetings with respect to the Fund's performance and other relevant matters, such as information on public trading in the Fund's shares and differences between the Fund's share price and net asset value per share, and related discussions with the *Advisers'* personnel.

As part of their review, the Trustees examined Claymore's ability to provide high quality oversight and administrative and shareholder support services to the Fund, and Western Asset's ability to provide high quality investment management services to the Fund. The Trustees considered the experience of Claymore's personnel in providing the types of services that Claymore is responsible for providing to the Fund, such as oversight of the Fund and Western Asset with respect to portfolio management, and written and oral communications with the closed-end fund analyst community, investment advisers and current and prospective shareholders; the ability of Claymore to attract and retain capable personnel; the capability and integrity of Claymore's senior management and staff; and the level of skill required to provide such services to the Fund. The Trustees also considered the investment philosophy and research and decision-making processes of Western Asset; the experience of its key advisory personnel responsible for management of the Fund; the ability of Western Asset to attract and retain capable research and advisory personnel; the capability and integrity of Western Asset's senior management and staff; and the level of skill required to manage the Fund, noting in particular the substantial complexities in purchasing fixed income securities of below investment grade quality and emerging markets debt instruments. In addition, the Trustees reviewed the quality of the *Advisers'* services with respect to regulatory compliance and compliance with the investment policies of the Fund and conditions that might affect the *Advisers'* ability to provide high quality services to the Fund in the future under the *Agreements*, including each *Adviser's* business reputation, financial condition and operational stability. Based on the foregoing, the Trustees concluded that Western Asset's investment process, research capabilities and philosophy were well suited to the Fund given its investment objectives and policies, that Claymore's various services were valuable to the Fund and that the *Advisers* would be able to meet any reasonably foreseeable obligations under the *Agreements*.

In reviewing the quality of the services provided to the Fund, the Trustees also reviewed comparisons of the performance of the Fund to the performance of certain comparable peer groups selected by Lipper, including (i) a group consisting of the Fund and six leveraged closed-end funds that each invest at least 65% of their assets in corporate and government debt issues rated in the top four grades and (ii) a broader group consisting of the Fund and all leveraged closed-end funds that invest at least 65% of their assets in corporate and government debt issues rated in the top four grades regardless of asset size. The Trustees noted that the Fund had met its primary objective of producing current income and that the performance of the Fund over the one-year, three-year and since-inception periods ended August 31, 2008 was above that of each Lipper peer group. The Trustees concluded that the *Advisers'* management of the Fund would continue to be in the best interests of the shareholders.

The Trustees also considered the advisory fee payable by the Fund to Claymore, the management fee payable by Claymore to Western Asset and the total expenses payable by the Fund. They reviewed information concerning fees paid to investment advisers of similarly-managed funds, the fees paid by Claymore's other closed-end fund clients, as well as fees paid by Western Asset's other clients, including separate accounts managed

by Western Asset. The Trustees observed that the advisory fee paid by the Fund to Claymore and the Fund's expense ratio were each at or below the corresponding medians of its Lipper peer groups. The Trustees considered that the advisory fee paid by the Fund to Claymore was below the average of the fees paid to Claymore

Annual Report to Shareholders

by other closed-end fund clients; that Claymore was responsible for payment of the management fees to Western Asset; and that the net fee retained by Claymore was below its fees from other closed-end fund clients. The Trustees noted that the management fee paid by Claymore to Western Asset was generally higher than the fees paid by clients of Western Asset for accounts with similar investment strategies, but that the administrative and operational responsibilities for Western Asset with respect to the Fund were also relatively higher and that the Fund's investment strategy included investments in asset classes other than U.S. TIPS, which was generally not the case for Western Asset's other clients. In light of these differences, the Trustees concluded that the differences in management fees from those paid by Western Asset's other clients were reasonable.

The Trustees further evaluated the benefits of the advisory relationship to the Advisers, including, among others, the profitability of the relationship to the Advisers; the direct and indirect benefits that the Advisers may receive from their relationship with the Fund, including the fallout benefits, such as reputational value derived from serving as investment manager or adviser; and the affiliation between Western Asset and Legg Mason Fund Adviser, Inc., the Fund's administrator. In that connection, the Trustees concluded that the Advisers' profitability was consistent with levels of profitability that had been determined by courts not to be excessive.

Finally, the Trustees considered, in light of the profitability information provided by the Advisers, the extent to which economies of scale would be realized by the Advisers as the assets of the Fund grow. The Trustees concluded that, because the Fund is a closed-end fund and does not make a continuous offer of its securities, the Fund's size was relatively fixed and it would be unlikely that the Advisers would realize economies of scale from the Fund's growth. The Trustees further noted that, as the Advisers' profitability was consistent with levels of profitability that had been determined by courts not to be excessive, any economies of scale that may currently exist were being appropriately shared with shareholders.

In their deliberations with respect to these matters, the Independent Trustees were advised by their independent counsel, who are independent of the Advisers within the meaning of the SEC rules regarding the independence of counsel. The Independent Trustees weighed the foregoing matters in light of the advice given to them by their independent counsel as to the law applicable to the review of investment advisory contracts. In arriving at a decision, the Trustees, including the Independent Trustees, did not identify any single matter as all-important or controlling, and the foregoing summary does not detail all the matters considered. The Trustees judged the terms and conditions of the Agreements, including the investment advisory fees, in light of all of the surrounding circumstances.

Based upon their review, the Trustees, including all of the Independent Trustees, determined, in the exercise of their business judgment, that they were satisfied with the quality of investment advisory services being provided by Western Asset and the advisory, oversight, administrative and after-market support services being provided by Claymore; that the fees to be paid to the Advisers under the relevant Agreements were fair and reasonable, given the scope and quality of the services rendered by each Adviser; and that approval of the Agreements was in the best interest of the Fund and its shareholders.

Approval of Additional Subadvisers

At their September 8, 2008 meeting, the Trustees, including the Independent Trustees, approved the addition of the following three non-U.S. affiliates of Western Asset as additional investment subadvisers of the Fund: Western Asset Management Company Pte. Ltd. in Singapore (Western Asset Singapore), Western Asset Management Company Limited in London (Western Asset London) and Western Asset Management Company Ltd in Japan (Western Asset Japan) and together with Western Asset Singapore and Western Asset London, the New Subadvisers. In approving the addition of the New Subadvisers, the Trustees drew on their knowledge of and experience with Western Asset, its personnel, the quality of the services it has provided to the Fund and its investment philosophy and performance, as well as additional information relating to the New Subadvisers. The Trustees noted that the Fund is permitted to invest in non-U.S. dollar denominated securities and related foreign currency instruments and that the addition of the New Subadvisers will provide the Fund with greater global investment management and trading

resources. The Trustees also noted that although the New Subadvisers are separate legal entities from Western Asset, senior investment personnel at Western Asset have supervisory oversight responsibility over the investment decisions made by the New Subadvisers. Finally, the Trustees noted that the management fees paid by the Fund would not change as a result of the addition of the New Subadvisers since the Fund would not be paying the fees of the New Subadvisers.

Annual Report to Shareholders

Privacy Policy

The Fund is committed to keeping nonpublic personal information secure and confidential. This notice is intended to help a shareholder understand how the Fund fulfills this commitment.

From time to time, the Fund, through its service providers, may collect a variety of personal information, including:

Information received on applications and forms, via the telephone, and through websites;

Information about transactions with the Fund, affiliates, or others (such as purchases, sales, or account balances); and

Information about shareholders received from consumer reporting agencies.

The Fund does not disclose shareholder nonpublic personal information, except as permitted by applicable law or regulation. For example, the Fund may share this information with others in order to process transactions. Any information provided to companies that perform services on behalf of the Fund, such as printing and mailing, or to other financial institutions with which the Fund has joint marketing agreements are required to protect the confidentiality of shareholders' information and to use it only to perform the services for which the companies are hired.

The Fund, through its service providers, maintains physical, electronic, and procedural safeguards to protect shareholder nonpublic personal information access to this information is restricted.

If a shareholder decides at some point either to close his/her account(s) or become an inactive customer, the Fund will continue to adhere to these privacy policies and practices with respect to shareholder nonpublic personal information.

This notice is being provided on behalf of:

This report is sent to shareholders of Western Asset/Claymore Inflation-Linked Opportunities & Income Fund for their information. It is not a Prospectus, circular or representation intended for use in the purchase or sale of shares of the Fund or of any securities mentioned in this report.

In accordance with Section 23(c) of the Investment Company Act of 1940, the Fund hereby gives notice that it may, from time to time, repurchase its shares in the open market at the option of the Board of Trustees, and on such terms as the Board of Trustees shall determine.

WIW-A(02/09)-TN09-4348

Item 2. Code of Ethics

- (a) Western Asset/Claymore Inflation-Linked Opportunities & Income Fund (Registrant) has adopted a Code of Ethics, as defined in the instructions to Item 2 of Form N-CSR, that applies to the Registrant s principal executive, financial and accounting officers, a copy of which is attached as an exhibit to this Form N-CSR.

- (b) Omitted.

- (c) Not applicable.

- (d) Not applicable.

- (e) Not applicable.

Item 3. Audit Committee Financial Expert

The Audit Committee of the Registrant's Board of Trustees is comprised solely of Trustees who are independent (as such term has been defined by the Securities and Exchange Commission (SEC) in regulations implementing Section 407 of the Sarbanes-Oxley Act of 2002 (the Regulations)). In addition, the Board of Trustees of the Registrant has determined that Mr. Ronald E. Toupin, Jr. qualifies as an audit committee financial expert (as such term has been defined in the Regulations) based on its review of his pertinent experience, knowledge and education. The SEC has stated that the designation or identification of a person as an audit committee financial expert pursuant to this Item 3 of Form N-CSR does not impose on such person any duties, obligations or liability that are greater than the duties, obligations and liabilities imposed on such person as a member of the Audit Committee and the Board of Trustees in absence of such designation or identification.

Item 4. Principal Accounting Fees and Services

(a) Audit Fees

Fiscal Year Ended December 31, 2007 \$29,850

Fiscal Year Ended December 31, 2008 \$30,000

(b) Audit-Related Fees

Fiscal Year Ended December 31, 2007 \$0

Fiscal Year Ended December 31, 2008 \$0

During the year ended December 31, 2005, review of the rating agency compliance testing for the Registrant's auction market preferred shares outstanding was reviewed.

PricewaterhouseCoopers LLP billed fees in the amount of \$208,000 and \$230,000, respectively for non-audit services that required preapproval by the Audit Committee pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the Registrant's fiscal year ended December 31, 2007 and December 31, 2008, respectively.

During the year ended December 31, 2008, PricewaterhouseCoopers LLP conducted a SAS 70 audit to review and test operating effectiveness of controls placed in operation for Western Asset Management Company. During the year ended December 31, 2008, PricewaterhouseCoopers LLP reviewed the Australian Superannuation Circular.

Tax Fees

Fiscal Year Ended December 31, 2007 \$2,400

Fiscal Year Ended December 31, 2008 \$4,000

Services include preparation of federal and state income tax returns and preparation of excise tax returns.

PricewaterhouseCoopers LLP did not bill fees for tax services that required preapproval by the Audit Committee pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the Registrant's last two fiscal years.

(c) All Other Fees

There were no fees billed to the Registrant during each of the last two fiscal years by PricewaterhouseCoopers LLP that were not disclosed in Items 4(a), (b) or (c) above.

PricewaterhouseCoopers LLP did not bill fees for services not included in Items 4(a), (b) or (c) above that required pre-approval by the Audit Committee pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the Registrant's last two fiscal years.

(e) (1) The Audit Committee has determined that all work performed for the Registrant by PricewaterhouseCoopers LLP will be pre-approved by the full Audit Committee and, therefore, has not adopted preapproval policies and procedures.

(2) None.

(f) Not applicable.

(g) Non-Audit Fees

Fiscal Year Ended December 31, 2007 \$421,049

Fiscal Year Ended December 31, 2008 \$362,500

(h) The Audit Committee of the Registrant has considered whether the non-audit services that were rendered by the Registrant's principal accountant to the Registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser) and any entity controlling, controlled by, or under common control with the investment adviser and that were not preapproved by the Audit Committee are compatible with maintaining the principal accountant's independence.

Item 5. Audit Committee of Listed Registrants

The Registrant has a separately designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The Audit Committee of the Registrant is comprised of Michael Larson, Ronald A. Nyberg and Ronald E. Toupin, Jr.

Item 6. Schedule of Investments

The schedule of investments in securities of unaffiliated issuers as of the close of the reporting period is included as part of the annual report to shareholders contained in Item 1 hereof.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies

The Registrant has delegated the voting of proxies relating to its portfolio securities to its adviser, Western Asset Management Company (the Adviser). The Proxy Voting Policies and Procedures of the Adviser are attached as an exhibit to this Form N-CSR.

Item 8. Portfolio Managers of Closed-End Management Investment Companies

As of December 31, 2008, a team of investment professionals at the Adviser, led by Chief Investment Officer S. Kenneth Leech, Deputy Chief Investment Officer Stephen A. Walsh, and Portfolio Manager Peter H. Stutz, manages the Western Asset/Claymore Inflation-Linked Opportunities & Income Fund (the Fund).

Messrs. Leech and Walsh have each served as portfolio managers for the Adviser for over 10 years. Mr. Stutz has served as a portfolio manager for the Adviser since 1997.

The Fund is managed by a team of portfolio managers, sector specialists and other investment professionals. Mr. Leech and Mr. Walsh serve as co-team leaders responsible for day-to-day strategic oversight of the Fund's investments and for supervising the day-to-day operations of the various sector specialist teams dedicated to the specific asset classes in which the Fund invests. Mr. Stutz is responsible for portfolio structure, including sector allocation, duration weighting and term structure decisions.

Other Accounts

As of December 31, 2008, in addition to the Fund, the portfolio manager(s) were responsible for the day-to-day management of certain other accounts, as follows:

S. Kenneth Leech:

Type of Account	Number of Accounts Managed	Total Assets Managed	Number of Accounts Managed for which Advisory Fee is Performance-Based	Assets Managed for which Advisory Fee is Performance-Based
Registered Investment Companies	110	\$ 99,788,905,041	0	0
Other pooled investment vehicles	281	\$195,319,138,291	0	0
Other accounts	969	\$217,490,220,115	94	\$22,992,729,662

Stephen A. Walsh:

Registered Investment Companies	110	\$ 99,788,905,041	0	0
Other pooled investment vehicles	281	\$195,319,138,291	0	0
Other accounts	969	\$217,490,220,115	94	\$22,992,729,662

Peter H. Stutz:

Registered Investment Companies	3	\$ 951,332,589	0	0
Other pooled investment vehicles	2	\$ 15,600,935	0	0
Other accounts	12	\$ 1,407,425,915	2	\$ 133,551,100

Keith J. Gardner:

Registered Investment Companies	6	\$	930,260,956	0	0
Other pooled investment vehicles	8	\$	878,794,855	0	0
Other accounts	0	\$	0	0	0

Michael C. Buchanan:

Registered Investment Companies	17	\$	6,818,941,981	0	0
Other pooled investment vehicles	7	\$	3,280,146,219	0	0
Other accounts	18	\$	1,595,499,619	0	\$ 0

Paul E. Wynn:

Registered Investment Companies	1	\$	53,589,763	0	0
Other pooled investment vehicles	5	\$	435,653,868	0	0
Other accounts	53	\$	16,639,501,222	7	\$ 1,440,889,446

Note: With respect to Mr. Leech and Mr. Walsh, the numbers above reflect the overall number of portfolios managed by the Adviser. Mr. Leech and Mr. Walsh are involved in the management of all the Adviser's portfolios, but they are not solely responsible for particular portfolios. The Adviser's investment discipline emphasizes a team approach that combines the efforts of groups of specialists working in different market sectors. The individuals that have been identified are responsible for overseeing implementation of the Adviser's overall investment ideas and coordinating the work of the various sector teams. This structure ensures that client portfolios benefit from a consensus that draws on the expertise of all team members.

Potential Conflicts of Interest (as of December 31, 2008)

Potential conflicts of interest may arise in connection with the management of multiple accounts (including accounts managed in a personal capacity). These could include potential conflicts of interest related to the knowledge and timing of the Fund's trades, investment opportunities and broker selection. Portfolio managers may be privy to the size, timing and possible market impact of the Fund's trades.

It is possible that an investment opportunity may be suitable for both the Fund and other accounts managed by a portfolio manager, but may not be available in sufficient quantities for both the Fund and the other accounts to participate fully. Similarly, there may be limited opportunity to sell an investment held by the Fund and another account.

A conflict may arise where the portfolio manager may have an incentive to treat an account preferentially as compared to the Fund because the account pays a performance-based fee or the portfolio manager, the Adviser or an affiliate has an interest in the account. The Adviser has adopted procedures for allocation of portfolio transactions and investment opportunities across multiple client accounts on a fair and equitable basis over time. All eligible accounts that can participate in a trade share the same price on a pro-rata allocation basis in an attempt to mitigate any conflict of interest. Trades are allocated among similarly managed accounts to maintain consistency of portfolio strategy, taking into account cash availability, investment restrictions and guidelines, and portfolio composition versus strategy.

With respect to securities transactions for the Fund, the Adviser determines which broker or dealer to use to execute each order, consistent with their duty to seek best execution of the transaction. However, with respect to certain other accounts (such as pooled investment vehicles that are not registered investment companies and other accounts managed for organizations and individuals), the Adviser may be limited by the client with respect to the selection of brokers or dealers or may be instructed to direct trades through a particular broker or dealer. In these cases, trades for the Fund in a particular security may be placed separately from, rather than aggregated with, such other accounts. Having separate transactions with respect to a security may temporarily affect the market price of the security or the execution of the transaction, or both, to the possible detriment of the Fund or the other account(s) involved. Additionally, the management of multiple accounts may result in a portfolio manager devoting unequal time and attention to the management of the Fund and/or other account.

It is theoretically possible that portfolio managers could use information to the advantage of other accounts they manage and to the possible detriment of the Fund. For example, a portfolio manager could short sell a security for an account immediately prior to the Fund's sale of that security. To address this conflict, the Adviser has adopted procedures for reviewing and comparing selected trades of alternative investment accounts (which may make directional trades such as short sells) with long-only accounts (which includes the Fund) for timing and pattern-related issues. Trading decisions for alternative investment and long-only accounts may not be identical even though the same portfolio manager may manage both types of accounts. Whether the Adviser allocates a particular investment opportunity to only alternative investment accounts or to alternative investment and long-only accounts will depend on the investment strategy being implemented. If, under the circumstances, an investment opportunity is appropriate for both its alternative investment and long-only accounts, then it will be allocated to both on a pro-rata basis.

A portfolio manager may also face other potential conflicts of interest in managing the Fund, and the description above is not a complete description of every conflict of interest that could be deemed to exist in managing both the Fund and the other accounts listed above.

Compensation of Portfolio Managers (as of December 31, 2008)

With respect to the compensation of the portfolio managers, the Adviser's compensation system assigns each employee a total compensation "target" and a respective cap, which are derived from annual market surveys that benchmark each role with their job function and peer universe. This method is designed to reward employees with total compensation reflective of the external market value of their skills, experience, and ability to produce desired results.

Standard compensation includes competitive base salaries, generous employee benefits, and a retirement plan.

In addition, employees are eligible for bonuses. These are structured to closely align the interests of employees with those of the Adviser, and are determined by the professional's job function and performance as measured by a formal review process. All bonuses are completely discretionary. One of the principal factors considered is a portfolio manager's investment performance versus appropriate peer groups and benchmarks. Because portfolio managers are generally responsible for multiple accounts (including the Fund) with similar investment strategies, they are compensated on the performance of the aggregate group of similar accounts, rather than a specific account. A smaller portion of a bonus payment is derived from factors that include client service, business development, length of service to the Adviser, management or supervisory responsibilities, contributions to developing business strategy and overall contributions to the Adviser's business.

Finally, in order to attract and retain top talent, all professionals are eligible for additional incentives in recognition of outstanding performance. These are determined based upon the factors described above and include Legg Mason, Inc. stock options and long-term incentives that vest over a set period of time past the award date.

Portfolio Manager Ownership of Fund Securities

The following table provides the dollar range of securities beneficially owned by each portfolio manager as of December 31, 2008:

Portfolio Manager	Dollar Range of Fund Securities Beneficially Owned
S. Kenneth Leech	None
Stephen A. Walsh	None
Peter H. Stutz	\$10,001 - \$50,000
Keith J. Gardner	\$50,000 - \$100,000
Michael C. Buchanan	None
Paul E. Wynn	None

Item 9. Purchases of Equity Securities by Closed-End Management Investment Companies and Affiliated Purchasers

Not applicable.

Item 10. Submission of Matters to a Vote of Security Holders

There have been no material changes to the procedures by which shareholders may recommend nominees to the Registrant's Board of Trustees that have been implemented since the Registrant last provided disclosure in response to the requirements of this Item 10.

Item 11. Controls and Procedures

- (a) The Registrant's principal executive and principal financial officers have concluded, based on their evaluation of the Registrant's disclosure controls and procedures as of a date within 90 days of the filing date of this report, that the Registrant's disclosure controls and procedures are reasonably designed to ensure that information required to be disclosed by the Registrant on Form N-CSR is recorded, processed, summarized and reported within the required time periods in the SEC's rules and forms and that information required to be disclosed by the Registrant in the reports that it files or submits on Form N-CSR is accumulated and communicated to the Registrant's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.
- (b) There were no changes in the Registrant's internal control over financial reporting during the Registrant's second fiscal quarter of the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 12. Exhibits

- (a) (1) Code of Ethics subject to the disclosure required by Item 2 filed as an exhibit hereto.
- (a) (2) Certifications pursuant to Rule 30a-2(a) under the Investment Company Act of 1940 filed as an exhibit hereto.
- (a) (3) Not applicable.
- (b) Certifications pursuant to Rule 30a-2(b) under the Investment Company Act of 1940 filed as an exhibit hereto.
- (c) Proxy Voting Policies and Procedures pursuant to the disclosure required by Item 7 filed as an exhibit hereto.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
