Registration No. 333-158319

Prospectus Supplement to Prospectus dated March 31, 2009.

ZIONS BANCORPORATION

Senior Medium-Term Notes

Due Three Years or Less From the Date Issued

Series A

Zions Bancorporation may sell at various times an indeterminate amount of notes that will not exceed a maximum aggregate principal amount of \$500,000,000 outstanding at any given time. The following terms may apply to the notes; however, we will provide specific terms of the notes which we may offer in pricing supplements to this prospectus supplement and accompanying prospectus. You should read this prospectus supplement, the accompanying prospectus, the applicable pricing supplement and, if applicable, any applicable preliminary pricing supplement carefully before you invest.

The following terms may apply to the notes that Zions Bancorporation may sell at one or more times. We have not set a date for termination of our offering. Unless otherwise specified in the applicable pricing supplement, the notes will have the following terms:

Rank as our senior, unsecured indebtedness

Denominated in U.S. dollars

Not subject to redemption at our option or the holder's option unless the pricing supplement specifies a redemption option and a redemption commencement date

Minimum denominations of \$1,000, increasing in integrals of \$1,000

Not amortized or subject to a sinking fund

Book-entry (through the Depository Trust Company) or certificated form

Interest at fixed or floating rates, or no interest at all

Interest payments on the notes on the dates specified in the notes and in the applicable pricing supplement

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 424B2

The floating interest rate may be based on one or more of the following indices, in some cases plus or minus a spread and/or multiplied by a spread multiplier and subject to a minimum and/or maximum rate:

commercial paper rate;

prime rate;

LIBOR;

EURIBOR;

treasury rate;

CMT rate;

CD rate;

federal funds rate notes;

11th district cost of funds rate; and/or

any other rate or combination of rates specified in the pricing supplement

Investing in the notes involves certain risks. See Risk Factors beginning on page S-2 of this prospectus supplement to read about certain factors you should consider before buying the notes.

The notes will be our senior unsecured obligations. The notes will not be savings accounts, deposits or other obligations of any bank or non-bank subsidiary of ours and will not be insured by the Federal Deposit Insurance Corporation or any other governmental agency. Unless you are informed otherwise in the applicable prospectus supplement, these securities will not be guaranteed by the Federal Deposit Insurance Corporation pursuant to the Temporary Liquidity Guarantee Program.

Neither the Securities and Exchange Commission nor any other regulatory body has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense.

The final terms of each note, including the purchase price, agent discounts and commissions, if any, and net proceeds for any particular offering, will be included in the applicable pricing supplement. The notes will be issued at 100% of their principal amount unless otherwise specified in the applicable pricing supplement.

Zions Bancorporation may sell the notes directly or through one or more agents or dealers, including its wholly-owned subsidiary, Zions Direct, Inc., and including through Zions Direct's auction platform. The agents are not required to sell any particular amount of the notes. We do not expect any of the notes to be listed on a securities exchange or made available for quotation on any quotation system, and a market for the notes may not develop.

Zions Bancorporation may use this prospectus supplement and accompanying prospectus in the initial sale of any note. In addition, Zions Direct, Inc. or any other affiliate of Zions Bancorporation may use this prospectus supplement and accompanying prospectus in a market-making transaction in any note after its initial sale. These transactions may be executed at negotiated prices that are related to market prices at the time of purchase or sale or at other prices. ***Unless Zions Bancorporation or its agent informs the purchaser otherwise in the confirmation of sale, this prospectus supplement and accompanying prospectus is being used in a market-making transaction.***

ABOUT THIS PROSPECTUS SUPPLEMENT AND PRICING SUPPLEMENTS

This document is in two parts. The first is this prospectus supplement, which sets forth certain specific terms of the notes that we may offer. The second part, the accompanying prospectus, gives more general information, some of which may not apply to the notes that we may offer. This prospectus supplement also adds to, updates and changes information contained in the accompanying prospectus. If the description of the offering varies between this prospectus supplement and the accompanying prospectus, you should rely on the information in this prospectus supplement. The accompanying prospectus is part of a registration statement that we filed with the Securities and Exchange Commission, or SEC, using a shelf registration statement. Under the shelf registration process, from time to time, we may offer and sell debt securities, warrants or other rights, stock purchase contracts, units, common stock, preferred stock or depository shares, or any combination thereof, in one or more offerings. In this prospectus supplement and the accompanying prospectus, the terms company, Zions, we, us and our refer to Zions Bancorporation and not its consolidated subsidiaries unless the context requires otherwise.

Each time we offer notes, we will attach a pricing supplement to this prospectus supplement. The pricing supplement will contain the specific description of the notes we are offering and the terms of the offering. The pricing supplement will supersede this prospectus supplement or the accompanying prospectus to the extent it contains information that is different from the information contained in this prospectus supplement or the accompanying prospectus.

It is important that you read and consider all of the information contained in this prospectus supplement and the accompanying prospectus in making your investment decision. You should also read and consider the information in the documents to which we have referred you in [Incorporation by Reference](#) on page iii of this prospectus supplement and [Where You Can Find More Information](#) on page 2 of the accompanying prospectus.

The distribution of this prospectus supplement and the accompanying prospectus and the offering of the notes in certain jurisdictions may be restricted by law. Persons into whose possession this prospectus supplement and the accompanying prospectus come should inform themselves about and observe any such restrictions. This prospectus supplement and the accompanying prospectus do not constitute, and may not be used in connection with, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorized or in which the person making such offer or solicitation is not qualified to do so or to any person to whom it is unlawful to make such offer or solicitation. See [Supplemental Plan of Distribution](#). References herein to \$ and dollars are to the currency of the United States.

Zions® and Zions Bank® are registered service marks of Zions Bancorporation. All other service marks, trademarks and trade names referred to in this prospectus supplement and the accompanying prospectus are the property of their respective owners.

INCORPORATION BY REFERENCE

The SEC allows us to incorporate by reference information into this prospectus supplement and the accompanying prospectus. This means that we can disclose important information to you by referring you to another document that Zions has filed separately with the SEC that contains that information. The information incorporated by reference is considered to be part of this prospectus supplement and the accompanying prospectus. Information that Zions files with the SEC after the date of this prospectus supplement will automatically modify and supersede the information included or incorporated by reference in this prospectus supplement and the accompanying prospectus to the extent that the subsequently filed information modifies or supersedes the existing information. We incorporate by reference:

our Annual Report on Form 10-K for the fiscal year ended December 31, 2008;

our Current Reports on Form 8-K filed on January 23, 2009 and March 31, 2009; and

any future filings we make with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934, as amended, or the Exchange Act, until we sell all of the notes offered by the prospectus supplement.

Notwithstanding the foregoing, we are not incorporating any document or information deemed to have been furnished and not filed in accordance with SEC rules.

You may request a copy of any of these filings at no cost by writing to or telephoning us at the following address and telephone number:

Investor Relations

Zions Bancorporation

One South Main Street, 15th Floor

Salt Lake City, Utah 84111

Please note that these web sites do not form a part of this prospectus supplement or the accompanying prospectus.

Table of Contents

SUMMARY

The following summary should be read together with the information contained in other parts of this prospectus supplement, in the accompanying prospectus and in any applicable pricing supplement. This summary alone may not contain all the information that is important to you. You should carefully read this entire prospectus supplement, the accompanying prospectus and any applicable pricing supplement or preliminary pricing supplement to understand fully the terms of the notes, as well as the other considerations that are important to you in making a decision about whether to invest in the notes.

Zions Bancorporation

Zions Bancorporation is a financial holding company organized under the laws of the State of Utah in 1955, and registered under the Bank Holding Company Act of 1956, as amended. Zions Bancorporation and its subsidiaries own and operate eight commercial banks with a total of 513 domestic branches at December 31, 2008. We provide a full range of banking and related services through our banking and other subsidiaries, primarily in Utah, California, Texas, Arizona, Nevada, Colorado, Idaho, Washington and Oregon. Full-time equivalent employees totaled 11,011 at December 31, 2008.

We focus on maintaining community banking services by continuously strengthening our core business lines of 1) small, medium-sized businesses and corporate banking; 2) commercial and residential development, construction and term lending; 3) retail banking; 4) treasury cash management and related products and services; 5) residential mortgage; 6) trust and wealth management; and 7) investment activities. We operate eight different banks in ten Western and Southwestern states with each bank operating under a different name and each having its own board of directors, chief executive officer, and management team. The banks provide a wide variety of commercial and retail banking and mortgage lending products and services. They also provide a wide range of personal banking services to individuals, including home mortgages, bankcard, other installment loans, home equity lines of credit, checking accounts, savings accounts, time certificates of various types and maturities, trust services, safe deposit facilities, direct deposit and 24-hour ATM access. In addition, certain banking subsidiaries provide services to key market segments through their Women's Financial, Private Client Services and Executive Banking Groups. We also offer wealth management services through a subsidiary, Contango Capital Advisors, Inc. and online brokerage services through Zions Direct.

In addition to these core businesses, we have built specialized lines of business in capital markets, public finance, and certain financial technologies, and we are also a leader in Small Business Administration lending. Through our eight banking subsidiaries, we provide Small Business Administration 7(a) loans to small businesses throughout the United States and we are also one of the largest providers of SBA 504 financing in the nation. We own an equity interest in the Federal Agricultural Mortgage Corporation, or Farmer Mac, and we are one of the nation's top originators of secondary market agricultural real estate mortgage loans through Farmer Mac. We are a leader in municipal finance advisory and underwriting services. We also control four venture capital funds that provide early-stage capital primarily for start-up companies located in the Western United States. Finally, our NetDeposit, LLC subsidiary is a leader in the provision of check imaging and clearing software.

Table of Contents

RISK FACTORS

An investment in our notes involves certain risks. You should carefully consider the risks described below and in the accompanying prospectus, as well as the risk factors and other information included or incorporated by reference in this prospectus supplement, the accompanying prospectus and any applicable pricing supplement or preliminary pricing supplement, before making an investment decision. Our business, financial condition or results of operations could be materially adversely affected by any of these risks. The trading price of our notes could decline due to any of these risks, and you may lose all or part of your investment. This prospectus supplement also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the risks faced by us described below and elsewhere in this prospectus supplement and the accompanying prospectus.

Our indebtedness could adversely affect our financial results and prevent us from fulfilling our obligations under the notes.

In addition to our currently outstanding indebtedness and any additional indebtedness we may incur pursuant to any offerings related to this prospectus supplement, we may be able to borrow substantial additional unsecured indebtedness in the future. If new indebtedness is added to our current debt levels, the related risks that we now face could increase.

Our indebtedness, including the indebtedness we may incur in the future, could have important consequences for the holders of the notes, including:

limiting our ability to satisfy our obligations with respect to the notes;

increasing our vulnerability to general adverse economic and industry conditions;

limiting our ability to obtain additional financing to fund future working capital, capital expenditures and other general corporate requirements;

requiring a substantial portion of our cash flow from operations for the payment of principal of, and interest on, our indebtedness and reducing our ability to use our cash flow to fund working capital, capital expenditures and general corporate requirements;

limiting our flexibility in planning for, or reacting to, changes in our business and the industry; and

putting us at a disadvantage compared to competitors with less indebtedness.

Our business operations may not generate the cash needed to service our indebtedness.

Our ability to make payments on our indebtedness, including these notes, and to fund planned capital expenditures will depend on our ability to generate cash in the future. We cannot assure you that our business will generate sufficient cash flow from operations or that future borrowings will be available to us in an amount sufficient to enable us to pay our indebtedness, including these notes, or to fund our other liquidity needs.

Although these notes are referred to as senior notes, they will be effectively subordinated to our secured indebtedness and all liabilities of our subsidiaries.

The notes are unsecured and therefore will be effectively subordinated to any secured indebtedness we may incur to the extent of the value of the assets securing such indebtedness. In the event of a bankruptcy or similar proceeding involving us, any of our assets which serve as collateral for any secured indebtedness will be available to satisfy the obligations under such secured indebtedness before any payments are made on the notes or our other unsecured indebtedness.

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 424B2

In addition, the notes will be structurally subordinated to all indebtedness and other liabilities, including trade payables, of each of our subsidiaries, except to the extent we may be a creditor of that subsidiary with recognized senior claims. This is because we are a holding company and a legal entity separate and distinct from our subsidiaries, and our rights to participate in any distribution of assets of any subsidiary upon its liquidation,

S-2

Table of Contents

reorganization or otherwise, and the ability of any holder of notes to benefit indirectly from such distribution, is subject to superior claims. Claims on our subsidiary banks by creditors other than us include long-term debt, including subordinated and junior subordinated debt issued by our subsidiary, Amegy Corporation, and substantial obligations with respect to deposit liabilities and federal funds purchased, securities sold under repurchase agreements, other short-term borrowings and various other financial obligations.

An active trading market may not develop for the notes.

Prior to a given offering, there is no existing trading market for the notes being issued in that offering. Although Zions Direct has informed us that it currently intends to make a market in any notes we may issue pursuant to this prospectus supplement after we complete an offering, it has no obligation to do so and may discontinue making a market at any time without notice.

We do not intend to apply for listing of the notes on any securities exchange or for quotation on any quotation system.

The liquidity of any market for the notes will depend on a number of factors, including:

the number of holders of the notes;

our performance;

the market for similar securities;

the interest of securities dealers in making a market in the notes; and

prevailing interest rates.

We cannot assure you that an active market for the notes will develop or will continue, if developed.

Downgrades or other changes in our credit ratings that may occur could affect our financial results and reduce the market value of the notes.

The credit ratings assigned to our unsecured indebtedness, including the notes, and our corporate credit may affect our ability to obtain new financing and the costs of our financing. It is possible that rating agencies may downgrade our credit ratings or change their outlook about us, which could increase our cost of capital and make our efforts to raise capital more difficult and, in turn, adversely affect our financial results. Such a downgrade in rating may also reduce the price that a subsequent purchaser may be willing to pay for the notes.

Redemption may adversely affect your return on the Notes.

If your notes are redeemable at our option, we may choose to redeem your notes at times when prevailing interest rates are relatively low. In addition, if your notes are subject to mandatory redemption, we may also be required to redeem your notes at times when prevailing interest rates are relatively low. As a result, you generally will not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as your notes being redeemed.

The notes may have original issue discount, or OID, for U.S. federal income tax purposes and, accordingly, holders may be required to include OID in their income in advance of the receipt of cash attributable to such income.

Notes offered under this prospectus supplement, including those for which the price is determined pursuant to the auction process described below under Supplemental Plan of Distribution The Auction Process, may have OID for U.S. federal income tax purposes. Holders of these notes generally must include OID in income for U.S. federal income tax purposes under a constant yield accrual method regardless of their regular method of tax accounting. As a result, holders of such notes may be required to include OID in their income in advance of the receipt of cash

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 424B2

attributable to such income. See Supplemental Discussion of U.S. Federal Income Tax Consequences in this prospectus supplement for a brief description of the U.S. federal income tax consequences of owning an OID note.

S-3

Table of Contents

Risks Related to the Auction Process

We may distribute our notes and determine the interest rate and/or offering price for our notes sold pursuant to this prospectus supplement and the applicable pricing supplement through an auction conducted by Zions Direct, our auction agent. A participant in such an auction would be subject to certain risks, which include the following.

Even if you submit a bid that is equal to the market-clearing price you may not be allocated any of the notes for which you bid.

We may determine the offering price (or, equivalently, yield) for our notes sold pursuant to this prospectus supplement and the applicable pricing supplement through an auction conducted by Zions Direct, our auction agent. The auction process will reveal a market-clearing price for such notes. The market-clearing price will be the highest offering price at which all of the notes offered in an auction would be sold to bidders. For an explanation of the meaning of market-clearing price see Supplemental Plan of Distribution The Auction Process beginning on page S-25 of this prospectus supplement. If your bid price equals the market-clearing price, you will be allocated notes only to the extent that notes have not been allocated to bidders with higher bid prices. If there are two or more bids that equal the market-clearing price, then the notes that have not been allocated to bidders with higher bid prices will be allocated to the bid with the earliest time stamp, then to the bid with the next earliest time stamp and so on until all of the notes being offered are allocated to bidders. Accordingly, even if you submit a bid that is equal to the market-clearing price, you may not be allocated any of the notes for which you bid based on your time stamp.

Once you submit a bid, you may generally not revoke it.

Once you have submitted and confirmed a bid, you may not subsequently lower your bid price, increase your bid yield or lower the principal amount of notes bid for in that bid. Therefore, even if circumstances arise after you have placed and confirmed a bid that make you want to decrease your original bid price, increase your bid yield, or decrease the principal amount of notes originally bid for, you will nonetheless be bound by that bid. In addition, if you submit and confirm a purchase using the Buy Today feature, if available, you will be obligated to purchase the quantity of notes that you indicated at the time of submitting your order at the Buy Today price unless we subsequently reject your order as described below. Such orders are binding on potential investors and they may not subsequently rescind such order. See Supplemental Plan of Distribution The Auction Process for a description of the Buy Today feature.

We reserve the right to reject any bid.

We reserve the right, in our sole discretion, to reject any bid that we deem to be manipulative, mistaken, made due to a misunderstanding of our notes on the part of the bidder or for any other reason we may determine. We reserve this right in order to preserve the integrity of the auction process. Other conditions for valid bids, including eligibility and account funding requirements of participating dealers and individuals, may vary. As a result of these varying requirements, we may reject a bidder's bid, even while we accept another bidder's identical bid. See the section entitled Supplemental Plan of Distribution The Auction Process Allocation on page S-30 of this prospectus supplement. We further reserve the right to reject all bids if we are unable to sell all of the notes offered in that auction, or for any other reason. You will not be entitled to an allocation of notes, even if your bid is in-the-money at the time an auction closes, until our auction agent has reviewed the results of the auction and informed you that your bid or bids have been accepted. If we reject all bids made in an auction, we reserve the right to cancel all purchases made under the Buy Today feature.

You may receive a full allocation of the notes that you bid for if your bid is successful; therefore, you should not bid for more notes than you are prepared to purchase.

Successful bidders may be allocated all or nearly all of the notes that they bid for in an auction. See Supplemental Plan of Distribution The Auction Process Allocation. Therefore, we caution investors against submitting a bid that does not accurately represent the principal amount of notes that they are willing and prepared to purchase.

Table of Contents

You should not expect to sell your notes after the conclusion of an offering.

As we mentioned above, we may use the auction process to reveal a market-clearing price for the notes offered pursuant to this prospectus supplement. However, this market-clearing price may bear little or no relationship to market demand for our notes following such an offering, or the price at which the notes may be sold. If there is little or no market demand for the notes following the closing of an auction, the price of the notes may decline. If your objective is to make a short-term profit by selling your notes after the conclusion of an auction, you should not submit a bid in an auction.

The aggregate principal amount of notes actually sold in a particular auction may be substantially higher or lower than any estimate provided in a preliminary pricing supplement or other document furnished by us or Zions Direct.

Our indenture does not limit the amount of notes or other debt securities we may issue, and we may issue an indeterminate amount of notes pursuant to this prospectus supplement, so long as the principal amount outstanding at any given time does not exceed \$500,000,000. We will indicate in a preliminary pricing supplement or other document furnished by us or Zions Direct the principal amount of notes we expect to offer in a given auction and, if the auction will include the Buy Today feature and/or whether the auction is subject to institutional up-sizing. We will also indicate whether notes will be sold through any other distribution method, including pursuant to our distribution agreement with Zions Direct. Purchases made under the Buy Today feature, pursuant to the institutional up-sizing option or through any other distribution method will be in addition to the auction amount specified in the applicable preliminary pricing supplement or other document furnished by us or Zions Direct. We will endeavor to provide a good faith estimate of the amount of notes that we expect to issue outside of the auction. However, we cannot assure you that we will not issue more or less notes than those good faith estimates. See Supplemental Plan of Distribution for more information. Our incurrence of additional debt may have important consequences for you as a holder of the notes, including making it more difficult for us to satisfy our obligations with respect to the notes, a loss in the trading value of your notes, if any, and a risk that the credit rating of the notes may be lowered or withdrawn. In addition, your ability to trade in the notes may be impacted if we sell fewer notes than we initially anticipated.

Table of Contents

USE OF PROCEEDS

Unless otherwise indicated in the applicable pricing supplement, we intend to use the net proceeds from the sale of any notes for general corporate purposes.

S-6

Table of Contents

SUPPLEMENTAL DESCRIPTION OF NOTES WE MAY OFFER

Please note that in this section entitled Supplemental Description of Notes We May Offer, references to holders mean those who own notes registered in their own names, on the books that we or the trustee maintain for this purpose, and not those who own beneficial interests in notes registered in street name or in notes issued in book-entry form through The Depository Trust Company or another depository. Owners of beneficial interests in the notes should read the section entitled Legal Ownership and Book-Entry Issuance in the accompanying prospectus.

Information About Our Medium-Term Note Program

We will issue the notes under the indenture dated September 10, 2002 between Zions Bancorporation and The Bank of New York Mellon Trust Company, N.A., as successor to J.P. Morgan Trust Company, National Association, as trustee, which may be supplemented from time to time as provided for in the indenture. The indenture and the notes are governed by New York law. We summarize various terms that apply generally to our debt securities, including the notes, in the accompanying prospectus under the caption Description of Debt Securities We May Offer. The following description of the notes supplements that description of the debt securities. Consequently, you should read this prospectus supplement together with the accompanying prospectus, the applicable pricing supplement and any other offering material in order to understand the terms of the notes. However, if this prospectus supplement is inconsistent with the accompanying prospectus, this prospectus supplement controls with regard to the notes.

This section is a summary of the material terms that are common to the notes. Each particular note will have financial and other terms specific to it, and the specific terms of each note will be described in a pricing supplement attached to the front of this prospectus supplement. Those terms may vary from the terms described here.

As you read this section, please remember that the specific terms of your note as described in your pricing supplement will supplement and, if applicable, may modify or replace the general terms described in this section and in the accompanying prospectus. If your pricing supplement is inconsistent with this prospectus supplement or the accompanying prospectus, your pricing supplement will control with regards to your note. Thus, the statements we make in this section or in the accompanying prospectus may not apply to your note.

When we refer to your pricing supplement or the applicable pricing supplement, we mean the pricing supplement describing the specific terms of the note you purchase. Unless we say otherwise below, the terms we use in this prospectus supplement that we also use in the accompanying prospectus have the meanings we give them in that document. Similarly, the terms we use in any pricing supplement that we also use in this document or the accompanying prospectus will have the meanings we give them in this document or the accompanying prospectus, as the case may be, unless we say otherwise in the pricing supplement.

Amounts That We May Issue

The notes will be our senior unsecured obligations and will rank equally with all of our other senior and unsecured indebtedness from time to time outstanding.

Unless our Board of Directors subsequently modifies our authorization to issue notes pursuant to this Medium-Term Note Program, the notes issued pursuant to this prospectus supplement may be issued in one or more series, in an amount or amounts not to exceed a maximum aggregate principal amount of \$500,000,000 outstanding at any given time. As of March 31, 2009, an aggregate principle amount of \$111,059,000 of the notes was outstanding. The indenture and the notes do not limit the aggregate amount of debt securities that we may issue, nor does the indenture limit the number of series or the aggregate amount of any particular series that we may issue. Also, if we issue notes having the same terms in a particular offering, or intend to continuously issue notes in that offering over time, we may issue notes in that offering and at a later date reopen that offering and offer additional notes having those same terms.

Table of Contents

This Section Is Only a Summary

The indenture and its associated documents, including your note and any supplemental indentures we may enter into, contain the full legal text of the matters described in this section and your prospectus supplement. Our indenture and the notes are governed by New York law. A copy of our indenture has been filed with the Securities and Exchange Commission as part of our registration statement. See [Where You Can Find More Information](#) in the accompanying prospectus for information on how to obtain a copy.

Investors should carefully read the description of the terms and provisions of our debt securities and our indentures under [Description of Debt Securities We May Offer](#) in the accompanying prospectus. That section, together with this prospectus supplement and your pricing supplement, summarize the material terms of our indenture and your note. They do not, however, describe every aspect of our indenture and your note. If the information in this prospectus supplement or in the applicable pricing supplement differs from the terms and provisions of the notes or the indenture, you should in all cases rely on the terms and provisions of the notes and the indenture.

General Features of the Notes

The following description of the notes will apply to each note offered hereby unless otherwise specified in the applicable pricing supplement or note.

Currency of Notes

Unless otherwise specified in the applicable pricing supplement, the notes will be payable in U.S. dollars.

Types of Notes

We may issue the *following two types of notes*:

Fixed Rate Notes. A note of this type will bear interest at a fixed rate described in the applicable pricing supplement. This type includes zero coupon notes, which bear no interest and are instead issued at a price lower than the principal amount.

Floating Rate Notes. A note of this type will bear interest at rates that are determined by reference to an interest rate formula. In some cases, the rates may also be adjusted by adding or subtracting a spread or multiplying by a spread multiplier and may be subject to a minimum rate or a maximum rate. The various interest rate formulas and these other features are described below in [Interest Rates Floating Rate Notes](#). If your note is a floating rate note, the formula and any adjustments that apply to the interest rate will be specified in your pricing supplement.

Original Issue Discount Notes

A fixed rate note or a floating rate note may be an original issue discount, or OID, note. A note of this type is issued at a price lower than its principal amount and provides that, upon redemption or acceleration of its maturity, an amount less than its principal amount will be payable. An OID note may be a zero coupon note. A note issued at a discount to its principal may, for U.S. federal income tax purposes, be considered an OID note, regardless of the amount payable upon redemption or acceleration of maturity. See [Supplemental Discussion of U.S. Federal Income Tax Consequences](#) in this prospectus supplement for a brief description of the U.S. federal income tax consequences of owning an OID note.

Redemption and Repayment

Unless otherwise specified in the applicable pricing supplement, we will not provide any sinking fund for your note.

Unless your pricing supplement specifies (an initial date on which your note may be redeemed by us) a redemption commencement date the notes will not be redeemable by us prior to their stated maturity. If your pricing supplement specifies a redemption commencement date with respect to such note, your pricing supplement will also

Table of Contents

specify one or more redemption prices, which will be expressed as a percentage of the principal amount of your note, and the redemption period or periods during which such redemption prices will apply. If your note is redeemable at our option, as specified in your pricing supplement, it will be redeemable at any time on or after the specified redemption commencement date for a limited period, as specified in your pricing supplement, at the specified redemption price applicable to the redemption period for your note together with interest accrued up to the redemption date.

If different prices are specified for different redemption periods, the price we pay will be the price that applies to the redemption period during which your note is redeemed.

If we exercise an option to redeem any note, we will give to the trustee and the holder written notice of the principal amount of the note to be redeemed, not less than 30 days nor more than 60 days before the applicable redemption date.

If applicable, the pricing supplement will indicate that you have the option to have us repay your note on a date or dates specified prior to its maturity date. You may elect repayment of your entire note or any portion of the principal amount which would be an authorized denomination for the note, except that any remaining unpaid portion must be at least the minimum denomination for your note. Unless otherwise specified in the applicable pricing supplement, the repayment price will be equal to 100% of the principal amount of your note, together with accrued interest to the date of repayment. If your note is issued with original issue discount, the applicable pricing supplement will specify the amount payable upon a repayment.

Unless otherwise specified in your pricing supplement, exercise of the repayment option by you will be irrevocable. You may exercise the repayment option for less than the entire principal amount of your notes but, in that event, the principal amount of the notes remaining outstanding after repayment must be an authorized denomination.

Restriction on Sale or Issuance of Capital Stock of Major Constituent Banks

We are not subject to financial or similar restrictions by the terms of the indenture, except as described under *Description of Debt Securities We May Offer Restriction on Sale or Issuance of Capital Stock of Major Constituent Banks* in the accompanying prospectus.

Whether the Defeasance and Covenant Defeasance Provisions Apply

Unless otherwise indicated in your pricing supplement, the full defeasance and covenant defeasance provisions of the indenture described under *Description of Debt Securities We May Offer Defeasance and Covenant Defeasance* in the accompanying prospectus will apply to the notes.

Form, Denomination and Legal Ownership of Notes

Your note will be issued in registered form in an authorized denomination. Unless otherwise indicated in the pricing supplement, the authorized denomination will be \$1,000 and integral multiples of \$1,000.

Your note will be issued in book-entry form and represented by a global note or a master global note which will be deposited with the trustee as custodian for The Depository Trust Company, or DTC, and registered in the name of Cede & Co. as nominee of DTC. You should read the section *Legal Ownership and Book-Entry Issuance* in the accompanying prospectus for information about this type of arrangement and your rights under this type of arrangement.

Information in the Pricing Supplement

Your pricing supplement will describe one or more of the following terms of your note:

any limit on the total principal amount of the note;

the stated maturity;

Table of Contents

the price at which we originally issue your note, expressed as a percentage of the principal amount, and the original issue date;

if you purchase your note in a market-making transaction, you will receive information about the price you pay and your trade and settlement dates in a separate confirmation of sale. A market-making transaction is one in which Zions Direct or another of our affiliates resells a note that it has previously acquired from another holder. A market-making transaction in a particular note occurs after the original sale of the note;

whether your note is a fixed rate note or a floating rate note and also whether it is an original issue discount note;

if your note is a fixed rate note, the yearly rate at which your note will bear interest, if any, and the interest payment dates;

if your note is a floating rate note, the interest rate basis, which may be one of the nine base rates described in [Interest Rates Floating Rate Notes](#) below; any applicable index currency or maturity, spread or spread multiplier or initial, maximum or minimum rate; the interest reset, determination, calculation and payment dates; and the calculation agent, if any, all of which we describe under [Interest Rates Floating Rate Notes](#) below;

if your note is an original issue discount note, the yield to maturity;

if applicable, the circumstances under which your note may be redeemed at our option or repaid at the holder's option before the stated maturity, including any redemption commencement date, repayment date(s), redemption price(s) and redemption period(s);

the authorized denomination, if other than \$1,000 and integral multiples of \$1,000;

whether we will issue or make available your note in non-book-entry form;

whether and under what circumstances we will pay additional amounts on any note held by a person who is not a United States person for tax purposes and whether we can redeem the note if we have to pay additional amounts;

whether the note will be issued in fully registered form or bearer form, in definitive or global form or in any combination of these forms;

the names and duties of any co-trustees, depositories, authenticating agents, paying agents, calculation agents, transfer agents or registrars for the note;

the depository for your note, if other than DTC, and any circumstances under which the holder may request notes in non-global form, if we choose not to issue your note in book-entry form only;

if we choose to issue your note in bearer form, any special provisions relating to bearer notes that are not addressed in the accompanying prospectus; and

any other terms of your note that are consistent with the provisions of the applicable indenture, which could be different from those described in this prospectus supplement and the accompanying prospectus.

The Trustee

The trustee for the holders of notes issued under the indenture will be The Bank of New York Mellon Trust Company, N.A., as successor to J.P. Morgan Trust Company, National Association. If an event of default occurs, and is not cured, the trustee will be required to use the degree of care of a prudent person in the conduct of his or her own affairs in the exercise of its powers. Subject to these provisions, the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request of any holders of notes, unless they have offered the trustee reasonable security or indemnity.

S-10

Table of Contents

The Bank of New York Mellon Trust Company, N.A. is the trustee under our subordinated debt indenture pursuant to which we issue debt. Pursuant to the Trust Indenture Act of 1939, if a default occurs with respect to the notes of any series, the trustee will be required to eliminate any conflicting interest as defined in the Trust Indenture Act or resign as trustee with respect to the notes of that series within 90 days of such default, unless such default is cured, duly waived or otherwise eliminated.

Other Matters

Please see **Description of Debt Securities We May Offer** in the accompanying prospectus for information regarding events of default applicable to the notes, as well information concerning certain covenants that pertain to the notes and the provisions of the indenture governing the terms of our notes.

Interest Rates

This subsection describes the different kinds of interest rates that may apply to your note, if it bears interest.

Fixed Rate Notes

Unless the applicable pricing supplement states otherwise, interest on a fixed rate note will be payable semiannually on the interest payment dates specified in the applicable pricing supplement, and at maturity. For each fixed rate note that bears interest, interest will accrue, and we will compute and pay accrued interest, as described in the accompanying prospectus under **Description of Debt Securities We May Offer Types of Debt Securities Fixed Rate Debt Securities** and **Payment Mechanics for Debt Securities in Registered Form**.

Floating Rate Notes

*In this subsection, we use several specialized terms relating to the manner in which floating interest rates are calculated. These terms appear in **bold, italicized** type the first time they appear, and we define these terms in **Special Rate Calculation Terms** at the end of this subsection.*

For each floating rate note, interest will accrue, and we will compute and pay accrued interest, as described in the accompanying prospectus under **Description of Debt Securities We May Offer Types of Debt Securities Floating Rate Debt Securities** and **Description of Debt Securities We May Offer Payment Mechanics for Debt Securities in Registered Form**. In addition, the following will apply to floating rate notes.

Base Rates. We currently expect to issue floating rate notes that bear interest at rates based on one or more of the following base rates:

commercial paper rate;

prime rate;

LIBOR;

EURIBOR;

treasury rate;

CMT rate;

CD rate;

federal funds rate; and/or

11th district cost of funds rate.

We describe each of these base rates in further detail below in this subsection. If you purchase a floating rate note, your pricing supplement will specify the type of base rate that applies to your note.

S-11

Table of Contents

Interest payable on a floating rate note for any particular interest period will be calculated as described in the accompanying prospectus using an interest factor, expressed as a decimal, applicable to each day during the period. The interest factor for each day will be calculated by dividing the interest rate, expressed as a decimal, applicable to that day by the following:

360, in the case of commercial paper rate notes, prime rate notes, LIBOR notes, EURIBOR notes, CD rate notes, federal funds rate notes and 11th district cost of funds rate notes; or

the actual number of days in the year, in the case of treasury rate notes and CMT rate notes.

See Description of Debt Securities We May Offer Types of Debt Securities Floating Rate Debt Securities Calculation of Interest in the accompanying prospectus for more information about calculation mechanics.

Initial Base Rate. For any floating rate note, the base rate in effect from the original issue date to the first interest reset date will be the initial base rate. We will specify the initial base rate, or the manner in which the initial base rate will be determined, in the applicable pricing supplement.

Spread or Spread Multiplier. In some cases, the base rate for a floating rate note may be adjusted:

by adding or subtracting a specified number of basis points, called the spread, with one basis point being 0.01%; or

by multiplying the base rate by a specified percentage, called the spread multiplier.

If you purchase a floating rate note, your pricing supplement will specify whether a spread or spread multiplier will apply to your note and, if so, the amount of the spread or spread multiplier.

Maximum and Minimum Rates. The actual interest rate, after being adjusted by the spread or spread multiplier, may also be subject to either or both of the following limits:

a maximum rate, meaning a specified upper limit that the actual interest rate in effect at any time may not exceed; and/or

a minimum rate, meaning a specified lower limit that the actual interest rate in effect at any time may not fall below.

If you purchase a floating rate note, your pricing supplement will specify whether a maximum rate and/or minimum rate will apply to your note and, if so, what those rates are.

Whether or not a maximum rate applies, the interest rate on a floating rate note will in no event be higher than the maximum rate permitted by New York law, as it may be modified by U.S. law of general application.

Under current New York law, the maximum rate of interest, with some exceptions, for any loan in an amount less than \$250,000 is 16% and for any loan in the amount of \$250,000 or more but less than \$2,500,000 is 25% per year on a simple interest basis. These limits do not apply to loans of \$2,500,000 or more.

The rest of this subsection describes how the interest rate and the interest payment dates will be determined, and how interest will be calculated, on a floating rate note.

Interest Reset Dates. The rate of interest on a floating rate note will be reset, by the calculation agent described below, daily, weekly, monthly, quarterly, semi-annually, annually or otherwise as specified in the applicable pricing supplement. The date on which the interest rate resets and the reset rate becomes effective is called the interest reset date. Except as otherwise specified in the applicable pricing supplement, the interest

reset date will be as follows:

for floating rate notes that reset daily, each *business day*;

for floating rate notes that reset weekly and are not treasury rate notes, the Wednesday of each week;

S-12

Table of Contents

for treasury rate notes that reset weekly, the Tuesday of each week, except as otherwise described in the next to last paragraph under Interest Determination Dates below;

for floating rate notes that reset monthly, the third Wednesday of each month;

for floating rate notes that reset quarterly, the third Wednesday of March, June, September and December of each year;

for floating rate notes that reset semi-annually, the third Wednesday of each of two months of each year as specified in the applicable pricing supplement; and

for floating rate notes that reset annually, the third Wednesday of one month of each year as specified in the applicable pricing supplement.

For a floating rate note, the interest rate in effect on any particular day will be the interest rate determined with respect to the latest interest reset date that occurs on or before that day. There are several exceptions, however, to the reset provisions described above.

The base rate in effect from the original issue date to the first interest reset date will be the initial base rate specified on the cover of your pricing supplement. For floating rate notes that reset daily or weekly, the base rate in effect for each day following the second business day before an interest payment date to, but excluding, the interest payment date, and for each day following the second business day before the maturity to, but excluding, the maturity, will be the base rate in effect on that second business day.

If any interest reset date for a floating rate note would otherwise be a day that is not a business day, the interest reset date will be postponed to the next day that is a business day. For a LIBOR note, however, if that business day is in the next succeeding calendar month, the interest reset date will be the immediately preceding business day.

Interest Determination Dates. The interest rate that takes effect on an interest reset date will be determined by the calculation agent by reference to a particular date called an interest determination date. Except as otherwise specified in the applicable pricing supplement:

For all floating rate notes other than LIBOR notes, EURIBOR notes, treasury rate notes and 11th district cost of funds rate notes, the interest determination date relating to a particular interest reset date will be the second business day before the interest reset date.

For LIBOR notes, the interest determination date relating to a particular interest reset date will be the second ***London business day*** preceding the interest reset date, unless the ***index currency*** is pounds sterling, in which case the interest determination date will be the interest reset date. We refer to an interest determination date for a LIBOR note as a LIBOR interest determination date.

For EURIBOR notes, the interest determination date relating to a particular interest reset date will be the second ***euro business day*** preceding the interest reset date. We refer to an interest determination date for a EURIBOR note as a EURIBOR interest determination date.

For treasury rate notes, the interest determination date relating to a particular interest reset date, which we refer to as a treasury interest determination date, will be the day of the week in which the interest reset date falls on which treasury bills i.e., direct obligations of the U.S. government would normally be auctioned. Treasury bills are usually sold at auction on the Monday of each week, unless that day is a legal holiday, in which case the auction is usually held on the following Tuesday, except that the auction may be held on the preceding Friday. If as the result of a legal holiday an auction is held on the preceding Friday, that Friday will be the treasury interest determination date relating to the interest reset date occurring in the next succeeding week. If the auction is held on a day that would otherwise be an interest reset date, then the interest reset date will instead be the first business day following the

auction date.

For 11th district cost of funds rate notes, the interest determination date relating to a particular interest reset date will be the last working day, in the first calendar month before that interest reset date, on which the Federal Home Loan Bank of San Francisco publishes the monthly average cost of funds paid by member

S-13

Table of Contents

institutions of the Eleventh Federal Home Loan Bank District for the second calendar month before that interest reset date. We refer to an interest determination date for an 11th district cost of funds rate note as an 11th district interest determination date.

Interest Calculation Dates. As described above, the interest rate that takes effect on a particular interest reset date will be determined by reference to the corresponding interest determination date. Except for LIBOR notes and EURIBOR notes, however, the determination of the rate will actually be made on a day no later than the corresponding interest calculation date. The interest calculation date will be the earlier of the following:

the tenth calendar day after the interest determination date or, if that tenth calendar day is not a business day, the next succeeding business day; and

the business day immediately preceding the interest payment date or the maturity, whichever is the day on which the next payment of interest will be due.

The calculation agent need not wait until the relevant interest calculation date to determine the interest rate if the rate information it needs to make the determination is available from the relevant sources sooner.

Interest Payment Dates. The interest payment dates for a floating rate note will depend on when the interest rate is reset and, unless we specify otherwise in the applicable pricing supplement, will be as follows:

for floating rate notes that reset daily, weekly or monthly, the third Wednesday of each month or the third Wednesday of March, June, September and December of each year, as specified in the applicable pricing supplement;

for floating rate notes that reset quarterly, the third Wednesday of March, June, September and December of each year;

for floating rate notes that reset semi-annually, the third Wednesday of the two months of each year specified in the applicable pricing supplement; or

for floating rate notes that reset annually, the third Wednesday of the month specified in the applicable pricing supplement.

Regardless of these rules, if a note is originally issued after the regular record date and before the date that would otherwise be the first interest payment date, the first interest payment date will be the date that would otherwise be the second interest payment date. We have defined the term regular record date under Description of Debt Securities We May Offer Payment Mechanics for Debt Securities in the accompanying prospectus.

In addition, the following special provision will apply to a floating rate note with regard to any interest payment date other than one that falls on the maturity. If the interest payment date would otherwise fall on a day that is not a business day, then the interest payment date will be the next day that is a business day. However, if the floating rate note is a LIBOR note or a EURIBOR note and the next business day falls in the next calendar month, then the interest payment date will be advanced to the next preceding day that is a business day. In all cases, an interest payment date that falls on the maturity date will not be changed.

Calculation Agent; Paying Agent; Issuing Agent. We have initially appointed Zions First National Bank as our calculation agent, paying agent and issuing agent for the notes.

Commercial Paper Rate Notes

If you purchase a commercial paper rate note, your note will bear interest at a base rate equal to the commercial paper rate and adjusted by the spread or spread multiplier, if any, specified in your pricing supplement. Unless otherwise specified in your pricing supplement, the interest rate for each subsequent interest determination date will be determined by the calculation agent in accordance with the provisions described below.

Table of Contents

Unless otherwise specified in your pricing supplement, the commercial paper rate will be the *money market yield* of the rate, for the relevant interest determination date, for commercial paper having the *index maturity* specified in your pricing supplement, as published in **H.15(519)** under the heading Commercial Paper Nonfinancial. If the commercial paper rate cannot be determined as described above, the following procedures will apply.

If the rate described above does not appear in H.15(519) at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from that source at that time, then the commercial paper rate will be the rate, for the relevant interest determination date, for commercial paper having the index maturity specified in your pricing supplement, as published in **H.15 daily update** or any other recognized electronic source used for displaying that rate, under the heading Commercial Paper Nonfinancial.

If the rate described above does not appear in H.15(519), H.15 daily update or another recognized electronic source at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from one of those sources at that time, the commercial paper rate will be the money market yield of the arithmetic mean of the following offered rates for U.S. dollar commercial paper that has the relevant index maturity and is placed for an industrial issuer whose bond rating is AA, or the equivalent, from a nationally recognized rating agency: the rates offered as of 11:00 A.M., New York City time, on the relevant interest determination date, by three leading U.S. dollar commercial paper dealers in New York City selected by the calculation agent.

If fewer than three dealers selected by the calculation agent are quoting as described above, the commercial paper rate for the new interest period will be the commercial paper rate in effect for the prior interest period. If the initial base rate has been in effect for the prior interest period, it will remain in effect for the new interest period.

Prime Rate Notes

If you purchase a prime rate note, your note will bear interest at a base rate equal to the prime rate and adjusted by the spread or spread multiplier, if any, specified in your pricing supplement.

Unless otherwise specified in your pricing supplement, the prime rate will be the rate, for the relevant interest determination date, published in H.15(519) under the heading Bank Prime Loan. If the prime rate cannot be determined as described above, the following procedures will apply.

If the rate described above does not appear in H.15(519) at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from that source at that time, then the prime rate will be the rate, for the relevant interest determination date, as published in H.15 daily update or another recognized electronic source used for the purpose of displaying that rate, under the heading Bank Prime Loan.

If the rate described above does not appear in H.15(519), H.15 daily update or another recognized electronic source at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from one of those sources at that time, then the prime rate will be the arithmetic mean of the following rates as they appear on the **Reuters Page US PRIME 1**: the rate of interest publicly announced by each bank appearing on that page as that bank's prime rate or base lending rate, as of 11:00 A.M., New York City time, on the relevant interest determination date.

If fewer than four of these rates appear on the Reuters Page US PRIME 1, the prime rate will be the arithmetic mean of the prime rates or base lending rates, as of the close of business on the relevant interest determination date, of three major banks in New York City selected by the calculation agent. For this purpose, the calculation agent will use rates quoted on the basis of the actual number of days in the year divided by a 360-day year.

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 424B2

If fewer than three banks selected by the calculation agent are quoting as described above, the prime rate for the new interest period will be the prime rate in effect for the prior interest period. If the initial base rate has been in effect for the prior interest period, it will remain in effect for the new interest period.

S-15

Table of Contents

LIBOR Notes

If you purchase a LIBOR note, your note will bear interest at a base rate equal to LIBOR, which will be the London interbank offered rate for deposits in U.S. dollars or any other index currency, as specified in your pricing supplement. In addition, the applicable LIBOR base rate will be adjusted by the spread or spread multiplier, if any, specified in your pricing supplement. Unless otherwise specified in your pricing supplement, LIBOR will be determined by the calculation agent in the following manner:

LIBOR will be either:

the offered rate appearing on the **Reuters Page LIBOR01**, as of 11:00 A.M., London time, on the relevant LIBOR interest determination date, for deposits of the relevant index currency having the relevant index maturity beginning on the relevant interest reset date. Your pricing supplement will indicate the index currency, the index maturity and the reference page that apply to your LIBOR note.

If Reuters Page LIBOR01 does not include this rate or is unavailable on the determination date, the calculation agent will request the principal London office of each of four major banks in the London interbank market, as selected by the calculation agent, to provide that bank's offered quotation (expressed as a percentage per annum) as of approximately 11:00 a.m., London time, on the determination date to prime banks in the London interbank market for deposits in a **representative amount** (as defined below) in United States dollars for deposits in the index currency for the period of the index maturity specified in the applicable pricing supplement beginning on the first day of the applicable interest period. If at least two offered quotations are so provided, LIBOR for the interest period will be the arithmetic mean of those quotations. If fewer than two quotations are so provided, the calculation agent will request each of three major banks in New York City, as selected by the calculation agent, to provide that bank's rate (expressed as a percentage per annum), as of approximately 11:00 a.m., New York City time, on the determination date for loans in a representative amount in United States dollars to leading European banks for the index maturity specified in the applicable pricing supplement beginning on the first day of the applicable interest period. If at least two rates are so provided, LIBOR for the interest period will be the arithmetic mean of those rates. If fewer than two rates are so provided, then LIBOR for the interest period will be LIBOR in effect with respect to the immediately preceding interest period.

EURIBOR Notes

If you purchase a EURIBOR note, your EURIBOR note will bear interest at the interest rate (calculated with reference to EURIBOR and the spread or spread multiplier, if any) specified in your pricing supplement. The calculation agent will determine EURIBOR on each EURIBOR determination date.

Unless otherwise specified in your pricing supplement, on a EURIBOR determination date, the calculation agent will determine EURIBOR for each subsequent interest period as follows:

The calculation agent will determine the offered rates for deposits in Euros for the period of the index maturity specified in the applicable pricing supplement, commencing on the interest reset date, which appears on **Reuters Page EURIBOR01** as of 11:00 A.M., Brussels time, on that date.

If EURIBOR cannot be determined on a EURIBOR determination date as described above, then the calculation agent will determine EURIBOR on the basis of the rates, at approximately 11:00 A.M., Brussels time, on the relevant EURIBOR interest determination date, at which deposits of the following kind are offered to prime banks in the euro-zone interbank market by the principal **euro-zone** office of each of four major banks in that market selected by the calculation agent: euro deposits having the relevant index maturity, beginning on the relevant interest reset date, and in a representative amount. The calculation agent will request the principal euro-zone office of each of these banks to provide a quotation of its rate. If at least two quotations are provided, EURIBOR for the relevant EURIBOR interest determination date will be the arithmetic mean of the quotations.

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 424B2

If fewer than two quotations are provided as described above, EURIBOR for the relevant EURIBOR interest determination date will be the arithmetic mean of the rates for loans of the following kind to

S-16

Table of Contents

leading euro-zone banks quoted, at approximately 11:00 A.M., Brussels time on that EURIBOR interest determination date, by three major banks in the euro-zone selected by the calculation agent: loans of euros having the relevant index maturity, beginning on the relevant interest reset date, and in a representative amount.

If fewer than three banks selected by the calculation agent are quoting as described above, EURIBOR for the new interest period will be EURIBOR in effect for the prior interest period. If the initial base rate has been in effect for the prior interest period, it will remain in effect for the new interest period.

Treasury Rate Notes

If you purchase a treasury rate note, your note will bear interest at a base rate equal to the treasury rate and adjusted by the spread or spread multiplier, if any, specified in your pricing supplement.

Unless otherwise specified in your pricing supplement, the treasury rate will be the rate for the auction, on the relevant treasury interest determination date, of treasury bills having the index maturity specified in your pricing supplement, as that rate appears on *Reuters Page USAUCTION 10* or *Reuters Page USAUCTION 11* under the heading Investment Rate. If the treasury rate cannot be determined in this manner, the following procedures will apply.

If the rate described above does not appear on either page at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from that source at that time, the treasury rate will be the **bond equivalent yield** of the rate, for the relevant interest determination date, for the type of treasury bill described above, as published in H.15 daily update, or another recognized electronic source used for displaying that rate, under the heading U.S. Government Securities/Treasury Bills/Auction High.

If the rate described in the prior paragraph does not appear in H.15 daily update or another recognized electronic source at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from one of those sources at that time, the treasury rate will be the bond equivalent yield of the auction rate, for the relevant treasury interest determination date and for treasury bills of the kind described above, as announced by the U.S. Department of the Treasury.

If the auction rate described in the prior paragraph is not so announced by 3:00 P.M., New York City time, on the relevant interest calculation date, or if no such auction is held for the relevant week, then the treasury rate will be the bond equivalent yield of the rate, for the relevant treasury interest determination date and for treasury bills having a remaining maturity closest to the specified index maturity, as published in H.15(519) under the heading U.S. Government Securities/Treasury Bills/Secondary Market.

If the rate described in the prior paragraph does not appear in H.15(519) at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from one of those sources at that time, then the treasury rate will be the rate, for the relevant treasury interest determination date and for treasury bills having a remaining maturity closest to the specified index maturity, as published in H.15 daily update, or another recognized electronic source used for displaying that rate, under the heading U.S. Government Securities/Treasury Bills/Secondary Market.

If the rate described in the prior paragraph does not appear in H.15 daily update or another recognized electronic source at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from one of those sources at that time, the treasury rate will be the bond equivalent yield of the arithmetic mean of the following secondary market bid rates for the issue of treasury bills with a remaining maturity closest to the specified index maturity: the rates bid as of approximately 3:30 P.M., New York City time, on the relevant treasury interest determination date, by three primary U.S. government securities dealers in New York City selected by the calculation agent.

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 424B2

If fewer than three dealers selected by the calculation agent are quoting as described in the prior paragraph, the treasury rate in effect for the new interest period will be the treasury rate in effect for the prior interest period. If the initial base rate has been in effect for the prior interest period, it will remain in effect for the new interest period.

S-17

Table of Contents

CMT Rate Notes

If you purchase a CMT rate note, your note will bear interest at a base rate equal to the CMT rate and adjusted by the spread or spread multiplier, if any, specified in your pricing supplement.

Unless otherwise specified in your pricing supplement, the CMT rate will be the following rate displayed on the ***designated CMT Reuters page*** under the heading . . . Treasury Constant Maturities . . . Federal Reserve Board Release H.15 . . . Mondays Approximately 3:45 P.M., under the column for the ***designated CMT index maturity***:

if the designated CMT Reuters page is Reuters screen FRBCMT page, the rate for the relevant interest determination date; or

if the designated CMT Reuters page is Reuters screen FEDCMT page, the weekly or monthly average, as specified in your pricing supplement, for the week that ends immediately before the week in which the relevant interest determination date falls, or for the month that ends immediately before the month in which the relevant interest determination date falls, as applicable.

If the CMT rate cannot be determined in this manner, the following procedures will apply.

If the applicable rate described above is not displayed on the relevant designated CMT Reuters page at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from that source at that time, then the CMT rate will be the applicable treasury constant maturity rate described above i.e., for the designated CMT index maturity and for either the relevant interest determination date or the weekly or monthly average, as applicable as published in H.15(519).

If the applicable rate described above does not appear in H.15(519) at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from one of those sources at that time, then the CMT rate will be the treasury constant maturity rate, or other U.S. treasury rate, for the designated CMT index maturity and with reference to the relevant interest determination date, that:

is published by the Board of Governors of the Federal Reserve System, or the U.S. Department of the Treasury; and

is determined by the calculation agent to be comparable to the applicable rate formerly displayed on the designated CMT Reuters page and published in H.15(519).

If the rate described in the prior paragraph does not appear at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from one of those sources at that time, then the CMT rate will be the yield to maturity of the arithmetic mean of the following secondary market offered rates for the most recently issued treasury notes having an original maturity of approximately the designated CMT index maturity and a remaining term to maturity of not less than the designated CMT index maturity minus one year, and in a representative amount: the offered rates, as of approximately 3:30 P.M., New York City time, on the relevant interest determination date, of three primary U.S. government securities dealers in New York City selected by the calculation agent. In selecting these offered rates, the calculation agent will request quotations from five of these primary dealers and will disregard the highest quotation or, if there is equality, one of the highest and the lowest quotation or, if there is equality, one of the lowest. Treasury notes are direct, non-callable, fixed rate obligations of the U.S. government.

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 424B2

If the calculation agent is unable to obtain three quotations of the kind described in the prior paragraph, the CMT rate will be the yield to maturity of the arithmetic mean of the following secondary market offered rates for treasury notes with an original maturity longer than the designated CMT index maturity, with a

S-18

Table of Contents

remaining term to maturity closest to the designated CMT index maturity and in a representative amount: the offered rates, as of approximately 3:30 P.M., New York City time, on the relevant interest determination date, of three primary U.S. government securities dealers in New York City selected by the calculation agent. In selecting these offered rates, the calculation agent will request quotations from five of these primary dealers and will disregard the highest quotation or, if there is equality, one of the highest and the lowest quotation or, if there is equality, one of the lowest. If two treasury notes with an original maturity longer than the designated CMT index maturity have remaining terms to maturity that are equally close to the designated CMT index maturity, the calculation agent will obtain quotations for the treasury note with the shorter remaining term to maturity.

If fewer than five but more than two of these primary dealers are quoting as described in the prior paragraph, then the CMT rate for the relevant interest determination date will be based on the arithmetic mean of the offered rates so obtained, and neither the highest nor the lowest of those quotations will be disregarded.

If two or fewer primary dealers selected by the calculation agent are quoting as described above, the CMT rate in effect for the new interest period will be the CMT rate in effect for the prior interest period. If the initial base rate has been in effect for the prior interest period, it will remain in effect for the new interest period.

CD Rate Notes

If you purchase a CD rate note, your note will bear interest at a base rate equal to the CD rate and adjusted by the spread or spread multiplier, if any, specified in your pricing supplement.

Unless otherwise specified in your pricing supplement, the CD rate will be the rate, on the relevant interest determination date, for negotiable U.S. dollar certificates of deposit having the index maturity specified in your pricing supplement, as published in H.15(519) under the heading CDs (Secondary Market). If the CD rate cannot be determined in this manner, the following procedures will apply.

If the rate described above does not appear in H.15(519) at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from that source at that time, then the CD rate will be the rate, for the relevant interest determination date, described above as published in H.15 daily update, or another recognized electronic source used for displaying that rate, under the heading CDs (Secondary Market).

If the rate described above does not appear in H.15(519), H.15 daily update or another recognized electronic source at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from one of those sources at that time, the CD rate will be the arithmetic mean of the following secondary market offered rates for negotiable U.S. dollar certificates of deposit of major U.S. money center banks with a remaining maturity closest to the specified index maturity, and in a representative amount: the rates offered as of 10:00 A.M., New York City time, on the relevant interest determination date, by three leading nonbank dealers in negotiable U.S. dollar certificates of deposit in New York City, as selected by the calculation agent.

If fewer than three dealers selected by the calculation agent are quoting as described above, the CD rate in effect for the new interest period will be the CD rate in effect for the prior interest period. If the initial base rate has been in effect for the prior interest period, it will remain in effect for the new interest period.

Federal Funds Rate Notes

If you purchase a federal funds rate note, your note will bear interest at a base rate equal to the federal funds rate and adjusted by the spread or spread multiplier, if any, specified in your pricing supplement.

Unless otherwise specified in your pricing supplement, the federal funds rate will be the rate for U.S. dollar federal funds on the relevant interest determination date, as published in H.15 (519) under the heading EFFECT, as that rate is displayed on Reuters Page FEDFUNDS1. If the federal funds rate cannot be determined in this manner, the following procedures will apply.

Table of Contents

If the rate described above is not displayed on Reuters Page FEDFUNDS1 at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from that source at that time, then the federal funds rate, for the relevant interest determination date, will be the rate described above as published in H.15 daily update, or another recognized electronic source used for displaying that rate, under the heading Federal Funds (Effective).

If the rate described above is not displayed on Reuters Page FEDFUNDS1 and does not appear in H.15(519), H.15 daily update or another recognized electronic source at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from one of those sources at that time, the federal funds rate will be the arithmetic mean of the rates for the last transaction in overnight, U.S. dollar federal funds arranged, before 9:00 A.M., New York City time, on the relevant interest determination date, by three leading brokers of U.S. dollar federal funds transactions in New York City selected by the calculation agent.

If fewer than three brokers selected by the calculation agent are quoting as described above, the federal funds rate in effect for the new interest period will be the federal funds rate in effect for the prior interest period. If the initial base rate has been in effect for the prior interest period, it will remain in effect for the new interest period.

11th District Cost of Funds Rate Notes

If you purchase an 11th district cost of funds rate note, your note will bear interest at a base rate equal to the 11th district cost of funds rate and adjusted by the spread or spread multiplier, if any, specified in your pricing supplement.

Unless otherwise specified in your pricing supplement, the 11th district cost of funds rate will be the rate equal to the monthly weighted average cost of funds for the calendar month immediately before the relevant 11th district interest determination date, as displayed on Reuters Page COFI/ARMS under the heading 1st Dist COFI as of 11:00 A.M., San Francisco time, on that date. If the 1st district cost of funds rate cannot be determined in this manner, the following procedures will apply.

If the rate described above does not appear on Reuters Page COFI/ARMS on the relevant 11th district interest determination date, then the 11th district cost of funds rate for that date will be the monthly weighted average cost of funds paid by institutions that are members of the Eleventh Federal Home Loan Bank District for the calendar month immediately before the relevant 11th district interest determination date, as most recently announced by the Federal Home Loan Bank of San Francisco as that cost of funds.

If the Federal Home Loan Bank of San Francisco fails to announce the cost of funds described in the prior paragraph on or before the relevant 11th district interest determination date, the 11th district cost of funds rate in effect for the new interest period will be the 11th district cost of funds rate in effect for the prior interest period. If the initial base rate has been in effect for the prior interest period, it will remain in effect for the new interest period.

Special Rate Calculation Terms

In this subsection entitled Interest Rates, we use several terms that have special meanings relevant to calculating floating interest rates. We define these terms as follows:

The term ***bond equivalent yield*** means a yield expressed as a percentage and calculated in accordance with the following formula:

$$\text{bond equivalent yield} = \frac{D \times N}{360 - (D \times M)} \times 100$$

Table of Contents

where

D means the annual rate for treasury bills quoted on a bank discount basis and expressed as a decimal;

N means 365 or 366, as the case may be; and

M means the actual number of days in the applicable interest reset period.

The term **business day** means, for any note, a day that meets all the following applicable requirements:

for all notes, is a Monday, Tuesday, Wednesday, Thursday or Friday that is not a day on which banking institutions in Salt Lake City, Utah and New York City generally are authorized or obligated by law or executive order to close;

if the note is a LIBOR note, is also a London business day;

if the note is a EURIBOR note or has a specified currency of euros, or is a LIBOR note for which the index currency is euros, is also a Euro business day; and

if the note is held through Euroclear, is also not a day on which banking institutions in Brussels, Belgium are generally authorized or obligated by law, regulation or executive order to close; and

if the note is held through Clearstream, Luxembourg, is also not a day on which banking institutions in Luxembourg are generally authorized or obligated by law, regulation or executive order to close.

The term **designated CMT index maturity** means the index maturity for a CMT rate note and will be the original period to maturity of a U.S. treasury security either 1, 2, 3, 5, 7, 10, 20 or 30 years specified in the applicable pricing supplement. If no such original maturity period is so specified, the designated CMT index maturity will be 2 years.

The term **designated CMT Reuters page** means the Reuters page mentioned in the relevant pricing supplement that displays treasury constant maturities as reported in H.15(519). If no Reuters page is so specified, then the applicable page will be Reuters screen FEDCMT page. If Reuters screen FEDCMT page applies but the relevant pricing supplement does not specify whether the weekly or monthly average applies, the weekly average will apply.

The term **euro business day** means any day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET) System, or any successor system, is open for business.

The term **euro-zone** means, at any time, the region comprised of the member states of the European Economic and Monetary Union that, as of that time, have adopted a single currency in accordance with the Treaty on European Union of February 1992.

The term **H.15(519)** means the weekly statistical release entitled Statistical Release H.15 (519), or any successor publication, published by the Board of Governors of the Federal Reserve System.

The term **H.15 daily update** means the daily update of H.15(519) available through the worldwide-web site of the Board of Governors of the Federal Reserve System, at <http://www.federalreserve.gov/releases/h15/update>, or any successor site or publication.

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 424B2

The term *index currency* means, with respect to a LIBOR note, the currency specified as such in the applicable pricing supplement. The index currency may be U.S. dollars or any other currency, and will be U.S. dollars unless another currency is specified in the applicable pricing supplement.

The term *index maturity* means, with respect to a floating rate note, the period to maturity of the instrument or obligation on which the interest rate formula is based, as specified in the applicable pricing supplement.

S-21

Table of Contents

The term **London business day** means any day on which dealings in the relevant index currency are transacted in the London interbank market.

The term **money market yield** means a yield expressed as a percentage and calculated in accordance with the following formula:

$$\text{money market yield} = \frac{D \times 360}{360 - (D \times M)} \times 100$$

where

D means the annual rate for commercial paper quoted on a bank discount basis and expressed as a decimal; and

M means the actual number of days in the relevant interest reset period.

The term **representative amount** means an amount that, in the calculation agent's judgment, is representative of a single transaction in the relevant market at the relevant time.

The term **Reuters Page COFI/ARMS** means the display so designated on Reuters (or such other page as may replace that page on that service, or such other service as may be nominated as the information vendor, for the purpose of displaying the monthly weighted average cost of funds paid by member institutions of the Eleventh Federal Home Loan Bank District).

The term **Reuters Page EURIBOR01** means the display so designated on Reuters (or such other page as may replace that page on that service, or such other service as may be nominated as the information vendor, for the purpose of displaying the interest rates for Euro deposits offered in the euro-zone).

The term **Reuters Page FEDFUNDS1** means the display so designated on Reuters (or such other page as may replace that page on that service, or such other service as may be nominated as the information vendor, for the purpose of displaying U.S. dollar federal funds rates).

The term **Reuters Page LIBOR01** means the display so designated on Reuters (or such other page as may replace that page on that service, or such other service as may be nominated as the information vendor, for the purpose of displaying rates or prices comparable to the London Interbank Offered Rate for U.S. dollar deposits).

The term **Reuters Page USAUCTION 10** means the displays so designated on Reuters (or such other page as may replace that page on that service, or such other service as may be nominated as the information vendor, for the purpose of displaying the 3-month Treasury Bill Rate).

The term **Reuters Page USAUCTION 11** means the displays so designated on Reuters (or such other page as may replace that page on that service, or such other service as may be nominated as the information vendor, for the purpose of displaying the 6-month Treasury Bill Rate).

The term **Reuters Page US PRIME 1** means the display on the US PRIME 1 page on the Reuters Monitor Money Rates Service, or any successor service, or any replacement page or pages on that service, for the purpose of displaying prime rates or base lending rates of major U.S. banks.

The term **Reuters page** means the display on the Reuters service, or any successor or replacement service, on the page or pages or any successor or replacement page or pages on that service.

Table of Contents

SUPPLEMENTAL DISCUSSION OF U.S. FEDERAL INCOME TAX CONSEQUENCES

The following section supplements, and to the extent inconsistent therewith, supersedes the discussion of U.S. federal income taxation in the accompanying prospectus with respect to United States holders (as defined in the accompanying prospectus). It applies only to those United States holders who are not excluded from the discussion of U.S. federal income taxation in the accompanying prospectus.

The following section is the opinion of Sullivan & Cromwell LLP, counsel to Zions Bancorporation. The United States federal income tax treatment of your notes will depend on whether or not the term of your notes exceeds one year. In addition, the following discussion assumes your notes are denominated in U.S. dollars. The applicable pricing supplement will discuss the tax consequences if your notes are not denominated in U.S. dollars.

Where the Term of Your Notes Exceeds One Year

Original Issue Discount Notes

If you own original issue discount notes, you generally must include original issue discount, or OID, in income before you receive cash attributable to that income. The amount of OID that you must include in income is calculated using a constant-yield method, and generally you will include increasingly greater amounts of OID in income over the life of your accrual notes. For a detailed discussion of the OID rules, please see *United States Taxation Taxation of Debt Securities Original Issue Discount* in the accompanying prospectus.

Fixed Rate and Floating Rate Notes

If you own fixed rate or floating rate notes, assuming interest on your notes is payable at least annually, you will generally be taxed on any interest on your notes as ordinary income at the time you receive the interest or when it accrues, depending on your method of accounting for tax purposes.

Determination of a Note's Issue Price

As discussed in detail under the heading *United States Taxation Taxation of Debt Securities Original Issue Discount* in the accompanying prospectus, your fixed rate or floating rate notes may be subject to current interest accrual under the OID rules if the principal amount of your notes exceeds the issue price of your notes by more than a de minimis amount. The issue price for your notes will be equal to the first price at which a substantial amount of the notes were sold (excluding sales to brokers, underwriters and similar recipients). Accordingly, if your notes are distributed through the auction process, we may not know whether your fixed rate or floating rate notes will be subject to the OID rules until the closing of the auction for your notes. Moreover, it is possible that the amount you pay for your notes may differ from the issue price of the notes (e.g., if you acquire your notes at the auction price and the issue price is determined by reference to the *Buy Today* price, if applicable).

As stated above, it is possible that the notes will be issued at different prices and therefore the issue price for your notes may be unclear. We will determine the issue price for your notes based on the actual amounts of notes sold and the applicable final pricing supplement will state (i) what we believe the issue price should be and (ii) whether your notes should be treated as issued with more than a de minimis amount of OID. Because the law for determining the issue price of your notes may be unclear, it is possible that the Internal Revenue Service could assert that your notes should have an issue price that is different from the issue price set forth in the applicable final pricing supplement. You should consult your tax advisor about this possibility and its potential tax consequences to you.

Market Discount or Premium

If, as described above, you purchase your notes at a price that is different from the issue price of the notes (as set forth in the final pricing supplement), the rules related to market discount, amortizable bond premium or acquisition premium may also apply to your notes. These rules are discussed in the accompanying prospectus under the headings *United States Taxation Taxation of Debt Securities Market Discount*, *United States Taxation Taxation of Debt Securities Debt Securities Purchased at a Premium* and *United States Taxation Taxation of Debt Securities Acquisition Premium*, respectively.

Table of Contents

Sale or Maturity of your Notes

You will generally recognize gain or loss on the sale or maturity of your notes equal to the difference between the amount you realize on the sale or maturity and your tax basis in your notes. Your tax basis in your notes will generally be the amount you paid for your notes adjusted by:

adding any OID or market discount previously included in income with respect to your notes; and then

subtracting any amortizable bond premium applied to reduce interest on your notes.

Such gain or loss would be capital gain or loss except to the extent (i) attributable to accrued but unpaid interest and (ii) described under United States Taxation Taxation of Debt Securities Market Discount in the accompanying prospectus. Capital gain of a noncorporate U.S. holder that is recognized in taxable years beginning before January 1, 2011 is generally taxed at a maximum rate of 15% where the holder has a holding period of greater than one year.

Where the Term of the Notes will not Exceed One Year

The following subsection will apply to you if you own accrual, fixed rate or step up notes with a term that will not exceed one year. In general, if you are an individual or other cash basis U.S. holder of a short-term debt security, you are not required to accrue discount, as specially defined below for the purposes of this paragraph, for United States federal income tax purposes unless you elect to do so (although you may be required to include any stated interest in income as you receive it). If you are an accrual basis taxpayer, a taxpayer in a special class, including, but not limited to, a regulated investment company, common trust fund, or a certain type of pass-through entity, or a cash basis taxpayer who so elects, you will be required to accrue discount on short-term debt securities on either a straight-line basis or under the constant-yield method, based on daily compounding. If you are not required and do not elect to include discount in income currently, any gain you realize on the sale or retirement of your short-term debt security will be ordinary income to the extent of the accrued discount, which will be determined on a straight-line basis unless you make an election to accrue the discount under the constant-yield method, through the date of sale or retirement. However, if you are not required and do not elect to accrue discount on your short-term debt securities, you will be required to defer deductions for interest on borrowings allocable to your short-term debt securities in an amount not exceeding the deferred income until the deferred income is realized.

When you determine the amount of discount subject to these rules, you must include all interest payments on your short-term debt security, including stated interest, in your short-term debt security's stated redemption price at maturity.

Sale or Maturity of your Notes

You will recognize gain or loss on the sale or maturity of your notes in an amount equal to the difference, if any, between the fair market value of the amount you receive at such time and your adjusted basis in your notes. If you are a cash basis taxpayer, your adjusted basis in your notes will generally be the purchase price of your notes. If you are an accrual basis holder, or a cash basis holder that elects to accrue interest on your notes currently, your adjusted basis in your notes will generally be the purchase price of your notes increased by the amount of interest you accrued on the notes and decreased by the interest paid on the notes. Any gain realized on the sale or maturity of the notes would be ordinary income to the extent of the unpaid interest that had accrued on the notes and the balance would be short-term capital gain or loss. Short term capital gains are taxed at ordinary rates.

Backup Withholding and Information Reporting

Please see the discussion under United States Taxation Taxation of Debt Securities Backup Withholding and Information Reporting in the accompanying prospectus for a description of the applicability of the backup withholding and information reporting rules to payments made on your notes.

Table of Contents

SUPPLEMENTAL PLAN OF DISTRIBUTION

Unless otherwise specified in your pricing supplement, we may offer and sell the securities from time to time as follows:

through agents, including through auctions conducted by Zions Direct;

to or through dealers or underwriters;

directly to investors and other purchasers; or

through a combination of any of these methods of sale.

The purchase price, agent discounts and commissions, if any, and net proceeds for any particular offering will be included in the applicable pricing supplement. The auction process is described below under **The Auction Process**.

The Auction Process

We may elect to distribute notes through an auction, which will be conducted by Zions Direct, Inc., our auction agent. We may elect to use such an auction to determine the allocation and public offering price (or, equivalently, yield) of our notes. The auctions will be modeled after that used by the United States Treasury Department, with some notable differences, some of which are described below. The auctions will be held on the website www.auctions.zionsdirect.com, which also contains the rules that govern the auctions. The following describes generally how our auction agent will conduct the auctions. We reserve the right to change the rules that govern the auctions and potential investors should review the Zions website for the exact auction rules. A preliminary pricing supplement or other document furnished by us or Zions Direct will provide the specific terms of any auction we propose to conduct. We expressly reserve the right to amend any of the terms of the auction described in this prospectus supplement, including, but not limited to, by extending the availability of the Buy-Today feature or the length of a given auction in our sole discretion.

Prior to the commencement of any given auction, we or Zions Direct, will make available to potential investors, by posting on the Zions Direct internet auction website, a preliminary pricing supplement or other document with respect to that auction. The preliminary pricing supplement or other document will specify, among other things:

the aggregate principal amount of the series of notes that we are auctioning, which we refer to as the auction amount;

whether that auction is subject to institutional up-sizing (as described in more detail below under **Institutional Up-Sizing Option**), in which case the total amount of notes of that series that we may issue could be significantly greater than the auction amount;

whether that auction is subject to the **Buy Today** feature (as described in more detail below under **Auction Bidding Process; Irrevocability of Bids**), in which case the total amount of notes of that series that we may issue could be significantly greater than the auction amount;

any minimum bid price (and equivalent maximum bid yield);

the auction commencement time and the auction period; and

information regarding any other distribution method through which we may be offering the notes.

S-25

Table of Contents

Date, Time and Location of Auction

Auctions will be open for the period of time specified in the applicable preliminary pricing supplement or other document furnished by us or Zions Direct. Such period of time may be extended as described under Auction Bidding Process; Irrevocability of Bids. The auctions will be hosted on the internet website www.auctions.zionsdirect.com.

Qualification of Bidders; Suitability

Our objective is to conduct an auction in which you submit informed bids.

Prospective bidders that want to bid for our notes will, by registering with the website www.auctions.zionsdirect.com, automatically qualify to bid for up to an individual bid limit of \$50,000 or such other amount as we may specify in the applicable preliminary pricing supplement or other document furnished by us or Zions Direct. Prospective bidders who want to bid for more than that amount may contact us by telephone at (800) 524-8875 or by e-mail at auctions@zionsdirect.com to request a greater individual bid limit. Any decision to increase a bidder's individual bid limit, upon such request, will be in our discretion. To ensure that we will have sufficient time to process requests for an increase in a bidder's automatically assigned individual bid limit prior to the end of an auction, we recommend that requests be made prior to the start of the auction in which you wish to participate. If you request an increase in your individual bid limit after the start of an auction, we will attempt to process your request. However, we cannot assure you that we will be able to process the request prior to the end of the auction in which you wish to participate. A bidder may be required to submit specified financial information in order to establish an individual bid limit of more than \$50,000 and to establish the bidder's suitability for a larger investment in our notes. We or our auction agent may contact a bidder to request any other pertinent information that we or our auction agent require to establish the individual bid limit and the suitability of such bidder.

As described below under Auction Bidding Process; Irrevocability of Bids, each bidder is allowed to place up to five separate, concurrent bids. However, a bidder will not be able to place aggregate in-the-money bids (as described under Auction Bidding Process; Irrevocability of Bids) that exceed the bidder's individual bid limit.

We caution you that our notes may not be a suitable investment for you even if you qualify to participate in an auction. Moreover, even if you qualify to participate in an auction and place a bid, you may not receive an allocation of notes in our offering for a number of reasons described below.

Registration and Qualification

In order to participate in the note auction, a prospective bidder must (1) register to have a Bidding Account and (2) satisfy and agree to the terms and conditions specific to the auction in which you wish to participate in order to become a qualified bidder. In connection with the registration process, prospective bidders will be required to answer certain questions that indicate that such bidder has accessed or received the offering materials and understands the risk of investing in the notes and that the notes are suitable for such bidder. In addition, by registering to bid in the auctions, a prospective bidder represents and warrants to us that such bidder's bid is submitted for and on behalf of such prospective bidder by himself, herself or itself, as applicable, or by an officer or agent who is duly authorized to bind the prospective bidder to a legal, valid and enforceable contract with respect to the bid for, and purchase of, our notes.

STEP 1: Become a registered bidder

(a) ***Register to have a Bidding Account.*** Individuals and institutions who wish to participate in the auctions must have a Bidding Account. A Bidding Account gives access to Zions Direct auctions. Individuals and institutions can open a Bidding Account and obtain a Bidder ID and password by going to the website (<https://auctions.zionsdirect.com/user/register>), filling in minimal contact information and submitting the Bidder Registration Form electronically. During the registration process, each prospective bidder will select a user identification, or user ID, and password to access the bid page on www.auctions.zionsdirect.com and to submit bids in the auctions. Institutions can also apply to open a Bidding Account by calling (888) 357-3375.

Table of Contents

(b) **Registration is only required once.** After successfully submitting a bidder registration form, a prospective bidder becomes a registered bidder. Once registered, bidders can use the same Bidding Account to participate in any auction. Our auction agent will confirm by e-mail a prospective bidder's successful registration. A prospective bidder is not obligated to submit a bid in any auction simply because that bidder has registered to bid in the auctions.

STEP 2: Become a qualified bidder

(a) **Qualifying for an auction.** After logging into the bidder's Bidding Account and selecting an auction from the Calendar Page, the bidder must qualify to participate in an auction. To qualify to bid in an auction, a bidder must (1) review and acknowledge all documents pertinent to the auction in which the bidder wishes to participate, (2) verify that their suitability profile includes objectives and an investment time horizon that are consistent with an investment in the securities being auctioned and (3) authorize and direct the broker/dealer through which they will hold the securities won in an auction, which broker/dealer may or may not be our auction agent, to update their suitability profile, if necessary, to include the appropriate objectives and investment time horizon. Such review, verification, certification and authorization are acknowledged by clicking on the corresponding checkboxes and by clicking on "I Agree" on the webpage that appears when accessing an auction. Such certification and authorization is a requirement for bidders to qualify to participate in an auction. Once updated, a bidder's suitability profile will remain so updated after an auction in the bidder's broker/dealer account through which the bidder will hold any securities won in an auction, and will not be further updated unless such bidder contacts the broker/dealer through which it will hold any securities won in an auction to further update their suitability profile. By satisfying and accepting the terms and conditions of the securities auction and authorizing updates in the suitability profile if necessary, a bidder becomes qualified to participate in that specific auction.

(b) **Qualifying for each auction.** Qualification to participate in a given auction does not transfer over to another auction. Therefore, bidders are required to review and acknowledge the terms of each auction every time they enter to participate in a new auction.

(c) **Winning Bidders.** If a bidder is awarded securities in an auction, the bidder must then provide additional information, and must either provide a brokerage account that can receive delivery of the securities, or have or open a brokerage account with our auction agent.

Each prospective bidder will be solely responsible for making necessary arrangements to access www.auctions.zionsdirect.com for purposes of submitting its bid in a timely manner and in compliance with the requirements described in this prospectus supplement.

Neither we nor our auction agent have any duty or obligation to undertake such registration to bid for any prospective bidder or to provide or assure such access to any prospective bidder, and neither we nor our auction agent will be responsible for a bidder's failure to register to bid or for proper operation of www.auctions.zionsdirect.com, or have any liability for any delays or interruptions of, or any damages caused by, www.auctions.zionsdirect.com.

Auction Bidding Process; Irrevocability of Bids

Auctions will be open for the period of time specified in the applicable preliminary pricing supplement or other document furnished by us or Zions Direct. Such period of time may be extended as described below. Bids must be submitted electronically at www.auctions.zionsdirect.com. Each prospective bidder will be solely responsible for registering to bid at www.auctions.zionsdirect.com as described above.

You will not be able to bid in an auction unless you have registered on www.auctions.zionsdirect.com. Each bidder will be able to access an auction during the period of time specified in the applicable preliminary pricing supplement or other document furnished by us or Zions Direct using the user ID and password obtained at the time of registration.

The minimum size of a bid is one whole note, which has a principal amount of \$1,000. You will only be allowed to bid for notes in denominations of \$1,000 and integral multiples of \$1,000 in excess thereof. We reserve the right in our sole discretion to reject any bid that we deem to be manipulative, mistaken or made due to a misunderstanding of our notes on the part of the bidder. We reserve this right in order to preserve the integrity of the auction process.

Table of Contents

Bidding for notes will be on the basis of the price that you are willing to pay. The auction site will permit you to bid on the price you are willing to pay per \$1,000 note or, equivalently, the yield you are willing to receive.

You should be aware that your bid will be binding on you once you submit and confirm it. Unless you change a bid to increase the resulting net value of your bid as described below, you will not thereafter be able to retract or cancel that bid. Once you have posted and confirmed a bid, you may not then lower the bid price or lower the number of notes bid for while that bid is in-the-money. You also may not increase the number of notes bid for on a bid row that is in-the-money ; this is to protect the time stamp of your in-the-money bid. If your bid is or becomes out-of-the-money, you will be able to:

increase the number of notes you are bidding for (subject to your individual bid limit); and/or

increase the bid price per note that you are willing to pay (or, equivalently, decrease the yield you are willing to receive).

Each bidder may place up to five separate, concurrent bids. Each bid may be made for different numbers of notes and for different bid prices. A bidder who has one active bid will be able to bid up to his individual bid limit in that one bid. However, if a bidder has more than one active bid, the aggregate amount of in-the-money bids (as described below) cannot exceed that bidder's individual bid limit.

The individual bid limit for any given bidder is allocated first to the highest price per unit bid by such bidder multiplied by the number of notes bid at that price (or if the bidder has placed a bid on the basis of yield, the price necessary to achieve that yield, given the terms of the notes). Any remaining individual bid limit for that bidder is then allocated to the next highest price per unit bid by such bidder multiplied by the number of notes bid at that price, and so on until the individual bid limit assigned to that bidder has been reached. The bids of a bidder who has placed multiple bids may be deemed to be in-the-money only to the extent that (1) the bid price is at or above the market-clearing price and (2) the aggregate dollar amount of the multiple bids that are in-the-money is less than or equal to that bidder's individual bid limit. In short, the maximum number of notes that a bidder may be allocated will be those notes designated as in-the-money by the auction website.

Each separate bid may be modified as described above in order to increase the number of notes bid for or to increase the bid price (or decrease the yield). There is no limit to the number of times that a bidder may improve an individual bid. In no event will a bidder be allowed to submit or modify a bid in a manner that would result in a reduction in that bidder's aggregate number of notes that are currently designated as in-the-money. A modification of one bid does not modify any other bid. Because each bid is independent of any other bid, each bid may result in an allocation of notes; consequently, the sum of a bidder's bid sizes should be no more than the total number of notes the bidder is willing to purchase.

Once an auction begins, all bidders that have registered may submit bids only through www.auctions.zionsdirect.com.

You should consider all the information in the applicable pricing supplement or preliminary pricing supplement, this prospectus supplement and the accompanying base prospectus in determining whether to submit a bid, the number of notes you are interested in purchasing and your bid price (or yield).

In connection with submitting a bid, you must log on to www.auctions.zionsdirect.com and do the following:

state the number of notes that you are interested in purchasing;

state the purchase price per \$1,000 principal amount (or, equivalently, the yield) at which you are willing to purchase the notes; and

review your bid to ensure accuracy and then confirm that bid.

Table of Contents

Once an investor places a bid on www.auctions.zionsdirect.com, and confirms that bid on www.auctions.zionsdirect.com, that bid will constitute an irrevocable offer to purchase our notes (except as set forth above) on the terms provided for in the bid.

For purposes of the electronic bidding process at www.auctions.zionsdirect.com, the time as maintained on www.auctions.zionsdirect.com will constitute the official time of a bid. Bidders will be able to monitor the status of their bids as described more fully below. Bids submitted on www.auctions.zionsdirect.com must be received before the end of the period of time specified in the applicable preliminary pricing supplement or other document furnished by us or Zions Direct, unless the auction is extended as described in the next paragraph.

During the final two (2) minutes of an auction, if there is a change in the market-clearing price or a change in the allocation of the notes, the auction will automatically be extended two (2) minutes from the time of such change. In no event will such two-minute extensions extend any auction more than fifteen (15) minutes beyond the originally specified auction period.

If so specified in the preliminary pricing supplement or other document furnished by us or Zions Direct, from the start of an auction until midnight Eastern Time the night before an auction ends, bidders may purchase notes at a set price by using the Buy Today feature. On the bid page, a bidder may indicate a quantity of notes in the Buy Today row that the bidder is willing to purchase at the set price. The bidder may not exceed their individual bid limit using the Buy Today feature. Although clicking Buy Today is binding and may not be rescinded, the trade will become final at the close of the auction. Once a bidder clicks Buy Today, the bidder's individual bid limit will be adjusted to reflect a portion of the individual bid limit being allotted to the Buy Today purchase. The bidder may then continue bidding in the auction. Any additional bids will not affect any purchase made through the Buy Today feature. While we will endeavor in the applicable pricing supplement or other document furnished by us or Zions Direct to provide a good faith estimate of the amount of notes that we expect to issue pursuant to the Buy Today feature with respect to that auction, we cannot assure you that we will not issue more or less notes than that good faith estimate. Even if your applicable preliminary pricing supplement indicates that the Buy Today feature will be available during an auction, we reserve the right to discontinue the Buy Today, in our sole discretion, at any time during that auction. Our discontinuance of the Buy Today feature will be evidenced by the absence of the Buy Today feature and accompanying Buy Today offering price on the auction site. Furthermore, if we reject all bids made in an auction, we reserve the right to cancel all purchases made under the Buy Today feature.

While the auction platform has been subjected to stress testing to confirm its functionality and ability to handle numerous bidders, it is impossible for us to predict the response of the investing public to any issuance of notes pursuant to this prospectus supplement. Bidders should be aware that if enough bidders try to access the platform and submit bids simultaneously, there may be a delay in receiving and/or processing their bids. Bidders should be aware that auction website capacity limits may prevent last-minute bids from being received by the auction website and should plan their bidding strategy accordingly. We make no guarantee that any submitted bid will be received, processed and accepted during the auction process.

The auction process is modeled after that used by the United States Treasury, with some notable differences. The auctions will be open auctions, with bidders being updated on the status of their bids relative to other bidders, as described in this paragraph. At no point during any auction, however, will bidders have access to other bidders' actual bids, and at no point will bidders have access to other bidders' identities. After submission and confirmation of bid quantity and price, the www.auctions.zionsdirect.com web page will indicate whether that bid is at that time in a winning position, or in-the-money. If a bid is in-the-money at a particular point in time during an auction, that means that, if the auction ended at that particular time, the in-the-money number of notes of that bidder's bid would be accepted. In order for a bid to be accepted, a bid must be in-the-money at the close of the auction. In order to monitor the progress of an auction, bidders may need to manually refresh the bid page to see whether their status has changed. This process will continue until the end of the auction, at which point our auction agent will review the submitted bids and determine the auction winners and allocations. See Risk Factors Risks Related to the Auction Process beginning on page S-4 of this prospectus supplement.

Table of Contents**Market-Clearing Price**

For auctions involving price (or, equivalently, yield) based bidding, the market-clearing price for our notes will be the highest price at which all of the notes offered in an auction, or the auction amount, are sold. If a bidder chooses to submit a bid on the basis of yield, instead of price, that bid will be considered to be for the price necessary to achieve the bid yield given the other terms of the notes being offered. The auction agent will determine this price by moving down the list of accepted bids in descending order of bid price until the total quantity of notes bid for is greater than or equal to the auction amount.

Example 1. For example, assume that 1,000 notes are being offered and that the following bidders have bid as follows:

Bidder	Number of Notes Represented by Bid	Bid Price
A	500	100.0
B	500	99.9
C	500	99.8

In this example, 100.0 is not the market-clearing price because only 500 of the notes offered could be sold at that price. Furthermore, 99.8 is not the market-clearing price because, although all of the notes being offered are sold for prices over 99.8, this is not the highest price at which all of the notes offered could be sold. Instead, all of the notes offered in this example will be sold at the higher price of 99.9. Therefore, 99.9 is the market-clearing price in this example. The entire auction amount (other than any notes purchased under the Buy Today feature) will be sold at the market-clearing price (similar to the United States Treasury auction). Even the notes that were bid for at 100.0 will be sold for 99.9. In this auction, the winning bidders will pay \$999.00 for each note, which has a principal amount of \$1,000.

We caution you that the market-clearing price may have little or no relationship to the price that would be established using other indicators of value. The scenario above is an example only and should not be considered indicative of an appropriate or likely market-clearing price of our notes.

Minimum Bid Price

We may establish minimum bid prices (and equivalent maximum bid yields) for each auction. Any such minimum bid price (and maximum bid yield) will be provided in the applicable preliminary pricing supplement or other document furnished by us or Zions Direct. We reserve the right, whether or not all of the notes offered in an auction have been sold, to reject any bid price below the minimum bid price (and above the maximum bid yield). Even if we set a minimum bid price in an auction, the notes offered in that auction may still be treated as an OID note. See Supplemental Discussion of U.S. Federal Income Tax Consequences in this prospectus supplement for a brief description of the U.S. federal income tax consequences of owning an OID note.

Allocation

During the auction, notes are allocated to bids with the highest price (or, equivalently, lowest yield). Bids with the same price (or yield) are allocated by time stamp to the earliest bid. Once the auction is fully subscribed, allocation of notes being auctioned is determined first by price and second by time stamp. Bidders bidding above the market-clearing price will be allocated the entire quantity of notes for which they bid; however, in no event will a bidder be allowed to purchase a greater number of notes than the lesser of (1) the number of notes that that bidder's individual bid limit would purchase and (2) the total number of that bidder's bid designated as in-the-money by the auction website. In the event that multiple bidders bid at the market-clearing price and the total quantity of notes for which they have bid exceeds the aggregate amount of notes not allocated to higher bidders, the auction agent will allocate the remaining notes to the bids with the earliest time stamp. The notes will first be allocated to the bid with the earliest time stamp, then to the bid with the next earliest time stamp, and so on until all of the notes being offered are allocated to bidders. To preserve the bidder's earliest time stamp, a bidder will be required to use an additional bid row to increase the number of notes bid for without improving the price.

Table of Contents

For example, assume again that 1,000 notes are being offered and that the following bidders have again bid as follows:

Bidder	Notes		Bid Price	Time Stamp
	Represented by Bid	Notes Allocated		
A	400	400	100.0	11:00 AM
B	400	400	99.9	10:00 AM
C	400	200	99.9	10:30 AM
D	400	0	99.9	10:31 AM

In this example, 99.9 is the market-clearing price because it is the highest price at which all of the notes offered could be sold. Therefore, Bidder A is allocated all 400 notes bid for. This leaves 600 notes to be allocated to the bidders that bid at the market-clearing price. Bidder B and Bidder C bid for an aggregate of 1,200 notes at the same price. However, Bidder B has a time stamp that is earlier than Bidder C's time stamp and Bidder C's time stamp is earlier than Bidder D's time stamp. Therefore, the remaining 600 notes are allocated first to Bidder B and the remaining notes are allocated to Bidder C. Bidder D receives no notes. This scenario is an example only and should not be considered indicative of an appropriate or likely market-clearing price for our notes.

In the event that a single bidder bids at the market-clearing price or market-clearing yield but the available quantity is less than that for which the bidder bid, the bidder will receive the available quantity.

We reserve the right to alter the method of allocation of our notes as we deem necessary to ensure a fair and orderly distribution. We also reserve the right, in our sole discretion, to reject any bid that we deem to be manipulative, mistaken or made due to a misunderstanding of our notes on the part of the bidder. We reserve this right in order to preserve the integrity of the auction process. We further reserve the right to reject all bids, if we are unable to sell all of the notes offered in that auction, or for any other reason. You will not be entitled to an allocation of notes, even if your bid is in-the-money at the time an auction closes, until our auction agent has reviewed the results of the auction and informed you that your bid or bids have been accepted. If we reject all bids made in an auction, we reserve the right to cancel all purchases made under the Buy Today feature.

Institutional Up-Sizing Option

For any given auction, we will specify in the applicable preliminary pricing supplement or other document furnished by us or Zions Direct whether that auction is subject to institutional up-sizing. If institutional up-sizing is applicable, this will mean that we have reserved the right to sell, outside of the auction, additional notes of the same series to any institutional or individual bidder who satisfies all of the following requirements. The bidder must: (i) contact a representative at our auction agent's trading desk before the end of the auction and must indicate the desire to make such an additional purchase; (ii) inform the representative of the additional amount it would like to purchase; (iii) satisfy the credit requirements for such additional purchase; (iv) bid for an aggregate principal amount of notes equal to the lesser of such bidder's bid limit or the Auction Amount; and (v) win at least 20% of the Auction Amount of the Notes, or such other percentage as may be indicated in the applicable preliminary pricing supplement. Any additional notes so purchased will be purchased outside the auction and will not affect the auction or the final market-clearing price (or yield) set by the auction, but will be sold at the market-clearing price set by the auction. If you are interested in qualifying for such an additional purchase, please call your sales representative at 888-357-3375 for dealers, 800-524-4819 for institutions, or 800-524-8875 for individuals.

While we will endeavor in the applicable pricing supplement or other document furnished by us or Zions Direct to provide a good faith estimate of the amount of notes that we expect to issue pursuant to the institutional up-sizing option with respect to that auction, we cannot assure you that we will not issue more or less notes than that good faith estimate.

Results of Auction and Bid Acceptance

As soon as practicable after an auction has ended, our auction agent shall: (a) notify via telephone or e-mail each winning bidder who was awarded notes in the auction, which notice shall specify at a minimum (i) that the auction has closed; (ii) that such bidder's bid has, or bids have, been accepted; (iii) the principal amount of the notes that have been allocated to such winning bidder; and (iv) the market clearing price to be paid for such notes; and (b) cause the results of the auction to be posted on the website.

Table of Contents

Settlement

We expect that settlement of all notes with respect to a given auction (including those purchased under the Buy Today feature) will take place three business days following the conclusion of an auction and the allocation of our notes (the settlement cycle being referred to as T+3). Institutional customers will settle delivery versus payment through their Zions Direct account. Winning bidders who are individuals and who do not have an account with Zions Direct will be required to open such an account, or arrange for their primary broker to enter into a selling group agreement with Zions Direct, in order to facilitate delivery and payment for their notes. Zions Direct will make a suitability determination with respect to those winning bidders seeking to open a Zions Direct account. You should note that if you purchase the notes using the Buy Today feature, your settlement cycle may be longer than T+3. Trading in the notes from the date of a Buy Today purchase until settlement may be affected by this longer settlement cycle.

Distribution Agreement

We may elect to distribute all or part of the notes under a distribution agreement with Zions Direct, as distribution agent or principal, relating to the notes. Such a distribution may be done concurrently with an auction conducted by Zions Direct, as auction agent, as described above.

Pursuant to the distribution agreement, the distribution agent has agreed to use its reasonable best efforts to solicit and receive offers to purchase the notes from us upon the terms and conditions set forth in the applicable pricing supplement. The distribution agent may also purchase the notes as principal for its own account. In the event the distribution agent purchases notes from us as principal, the distribution agent intends to resell the offered notes at the Buy Today price (as described above under The Auction Process) applicable to the offered notes to be resold, if an auction of the offered notes is being held concurrently, or at the original issue price, in each case as specified in the applicable pricing supplement. The distribution agent may also resell the notes to securities dealers at a discount from the price at which it purchased such notes of up to the underwriting discount set forth in the applicable pricing supplement. If we distribute notes pursuant to the distribution agreement concurrently with an auction for the notes, securities dealers will be restricted from reselling the notes while the auction is ongoing at any price other than the Buy Today price.

We have the right to accept offers to purchase notes and may reject any proposed purchase of the notes. The distribution agent may also reject any offer to purchase the notes. We will pay the distribution agent a commission on any notes distributed through the distribution agent, as specified in the applicable pricing supplement.

We may appoint distribution agents under the distribution agreement other than or in addition to Zions Direct. Any of these distribution agents will enter into the distribution agreement referred to above, and the applicable pricing supplement will name any of these distribution agents involved in the offering and issue of the notes and any commission that we will pay to them. Distribution agents through whom we distribute notes may enter into arrangements with other institutions with respect to the distribution of the notes, and those institutions may share in the commissions, discounts or other compensation received by our distribution agents, may be compensated separately and may also receive commissions from purchasers for whom they may act as distribution agents. The other distribution agents may be our affiliates or customers and may engage in transactions with and perform services for us in the ordinary course of business.

The distribution agent, whether acting as agent or principal, may be deemed to be an underwriter within the meaning of the Securities Act of 1933, as amended, or the Securities Act. We have agreed to indemnify the agent against liabilities under the Securities Act, or contribute to payment which the agent may be required to make in that respect. We have also agreed to reimburse the distribution agent for certain expenses.

Broker-dealers and other persons are cautioned that some of their activities may result in their being deemed participants in the distribution of the notes in a manner that would render them statutory underwriters and subject them to the prospectus delivery requirements of the Securities Act and may be subject to certain statutory liabilities of, including but not limited to, Sections 11, 12 and 17 of the Securities Act and Rule 10b-5 under the Securities

Table of Contents

Exchange Act of 1934, or the Exchange Act. The profits and compensation realized by any such broker-dealer upon resale of the notes may be deemed to be underwriting discounts and commissions. A determination of whether a particular market participant is an underwriter must take into account all the facts and circumstances pertaining to the activities of the participant in the particular case.

Direct Placement

We may offer the notes for sale through Zions Direct as placement agent. The placement agent would use its reasonable efforts to solicit purchases of the notes. We have the right to accept offers to purchase notes and may reject any proposed purchase of the notes. The placement agent may also reject any offer to purchase notes. We will pay the placement agent a placement fee on any notes sold through the placement agent. The placement fee will be specified in the applicable pricing supplement. The placement agent, whether acting as placement agent or principal, may be deemed to be an underwriter within the meaning of the Securities Act of 1933, or the Securities Act.

In a direct placement of the notes, we may sell notes to broker-dealers. These broker-dealers may be deemed to be underwriters within the meaning of the Securities Act in connection with the resale of notes. The profits and compensation realized by any such broker-dealer upon resale of the notes may be deemed to be underwriting discounts and commissions. A determination of whether a particular market participant is an underwriter must take into account all the facts and circumstances pertaining to the activities of the participant in the particular case. To the extent the placement agent or any broker-dealer may be deemed to be an underwriter, the placement agent or any such broker-dealer, as the case may be, will be subject to the prospectus delivery requirements of the Securities Act and may be subject to certain statutory liabilities of, including but not limited to, Sections 11, 12 and 17 of the Securities Act and Rule 10b-5 under the Exchange Act.

Purchases for Customer Accounts

In any distribution of notes, other affiliates of Zions, including Zions First National Bank's Liquid Asset Management Department, Zions First National Bank's Trust Department and/or Contango Capital Advisors, Inc. may make purchases of the notes being offered for the accounts of certain customers who have provided to such affiliate or department of such affiliate specific written instructions authorizing them to do so.

Other Arrangements

For more information about the other methods of distribution we may utilize and possible market-making activities, see Plan of Distribution in the accompanying prospectus.

Table of Contents

VALIDITY OF THE NOTES

The validity of the notes offered by this prospectus and certain other matters will be passed upon for us by Sullivan & Cromwell LLP, Los Angeles, California and Callister Nebeker & McCullough, a Professional Corporation, Salt Lake City, Utah. Sullivan & Cromwell LLP will rely upon the opinion of Callister Nebeker & McCullough as to matters of Utah law and Callister Nebeker & McCullough will rely upon the opinion of Sullivan & Cromwell LLP as to matters of New York law. The opinions of Sullivan & Cromwell LLP and Callister Nebeker & McCullough will be conditioned upon, and subject to certain assumptions regarding, future action to be taken by Zions, its board of directors, the Trustee and any authenticating agents in connection with the issuance and sale of any particular series of notes, the specific terms of the notes and other matters which may affect the validity of the notes but which cannot be ascertained on the date of such opinions. Sullivan & Cromwell LLP regularly performs legal services for Zions.

EXPERTS

Ernst & Young LLP, independent registered public accounting firm, has audited our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2008 and the effectiveness of our internal control over financial reporting as of December 31, 2008, as set forth in their reports, which are incorporated in this prospectus supplement by reference. Our consolidated financial statements and our management's assessment of the effectiveness of internal control over financial reporting as of December 31, 2008 are incorporated by reference in reliance on Ernst & Young LLP's reports, given on their authority as experts in accounting and auditing.

Zions Bancorporation and the Issuer Trusts from time to time may offer to sell the securities listed above. The debt securities, warrants, rights, purchase contracts and preferred stock may be convertible into or exercisable or exchangeable for common or preferred stock or other securities of the Company or debt or equity securities of one or more other entities. The common stock of the Company is quoted on the Nasdaq Global Select Market under the symbol ZION.

Zions Bancorporation and the Issuer Trusts may offer and sell these securities to or through one or more underwriters, dealers and/or agents on a continuous or delayed basis.

This prospectus describes some of the general terms that may apply to these securities and the general manner in which they may be offered. The specific terms of any securities to be offered, and the specific manner in which they may be offered, will be described in one or more supplements to this prospectus. Such supplements may also add to, update or change information contained in this prospectus.

Investing in these securities involves risks. See Risk Factors section beginning on page 5 of this prospectus.

These securities will not be savings accounts, deposits or other obligations of any bank or non-bank subsidiary of ours and are not insured by the Federal Deposit Insurance Corporation, the Board of Governors of the Federal Reserve System or any other governmental agency. Unless you are informed otherwise in the applicable prospectus supplement, these securities will not be guaranteed by the Federal Deposit Insurance Corporation pursuant to the Temporary Liquidity Guarantee Program.

Neither the Securities and Exchange Commission nor any other regulatory body has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense.

This prospectus is dated March 31, 2009.

Prospectus

ABOUT THIS PROSPECTUS

This document is called a prospectus, and it provides you with a general description of the securities we may offer. Each time we sell securities, we will provide a prospectus supplement containing specific information about the terms of the securities being offered. That prospectus supplement may include a discussion of any risk factors or other special considerations that apply to those securities. The prospectus supplement may also add, update or change the information in this prospectus. If there is any inconsistency between the information in this prospectus and any prospectus supplement, you should rely on the information in that prospectus supplement. You should read both this prospectus and any prospectus supplement together with additional information described under the heading **Where You Can Find More Information**.

Zions Bancorporation, a Utah corporation, also referred to in this document as Zions, and Zions Capital Trust C and Zions Capital Trust D, each a statutory trust created under the laws of the State of Delaware (each trust is also referred to as an Issuer Trust and together as the Issuer Trusts), have filed a registration statement with the Securities and Exchange Commission, or the SEC, using a shelf registration or continuous offering process. Under this shelf process, Zions and the Issuer Trusts may offer and sell any combination of the securities described in this prospectus in one or more offerings.

Our SEC registration statement containing this prospectus, including exhibits, provides additional information about us and the securities offered under this prospectus. The registration statement can be read at the SEC's web site or at the SEC's offices. The SEC's web site and street addresses are provided under the heading **Where You Can Find More Information**.

When acquiring securities, you should rely only on the information provided in this prospectus and in the related prospectus supplement, including any information incorporated by reference. No one is authorized to provide you with different information. We are not offering the securities in any state where the offer is prohibited. You should not assume that the information in this prospectus, any prospectus supplement or any document incorporated by reference is truthful or complete for any date other than the date indicated on the cover page of these documents.

After the securities are issued, one or more of our subsidiaries, including Zions Direct, Inc. or Amegy Investments, Inc., may buy and sell any of the securities as part of their business as a broker-dealer. Those subsidiaries may use this prospectus and the related prospectus supplement in those transactions. Any sale by a subsidiary will be made at the prevailing market price at the time of sale.

Unless otherwise mentioned or unless the context requires otherwise, all references in this prospectus to **Zions**, **we**, **us**, **our** or similar references mean Zions Bancorporation and its subsidiaries.

Unless otherwise stated, currency amounts in this prospectus and any prospectus supplement are stated in United States dollars.

Table of Contents

WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and current reports, proxy statements and other information with the SEC. You may read and copy any document we file at the SEC's public reference room in Washington, D.C. at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room. In addition, our SEC filings are available to the public at the SEC's web site at <http://www.sec.gov>. However, information on this website does not constitute a part of this prospectus. You can also inspect reports, proxy statements and other information about us at the offices of the Nasdaq Global Select Market, 1735 K Street, N.W., Washington, D.C. 20006.

The SEC allows us to incorporate by reference into this prospectus the information in documents we file with it. This means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is considered to be a part of this prospectus and should be read with the same care. When we update the information contained in documents that have been incorporated by reference by making future filings with the SEC, the information incorporated by reference in this prospectus is considered to be automatically updated and superseded. In other words, in the case of a conflict or inconsistency between information contained in this prospectus and information incorporated by reference into this prospectus, you should rely on the information contained in the document that was filed later.

We incorporate by reference the documents listed below and any documents we file with the SEC in the future under Section 13(a), 13(c), 14, or 15(d) of the Securities Exchange Act of 1934, as amended (the Exchange Act) until our offering is completed:

Annual Report on Form 10-K for the year ended December 31, 2008.

Current Reports on Form 8-K filed on January 23, 2009 and March 31, 2009 (except, in each case, information furnished on Form 8-K and any related exhibits).

The description of our common stock and rights set forth in our registration statement on Form 10 and Form 8-A filed pursuant to Section 12 of the Exchange Act, including any amendment or report filed with the SEC for the purpose of updating such descriptions.

You may request a copy of these filings, other than an exhibit to a filing unless that exhibit is specifically incorporated by reference into that filing, at no cost, by writing to or telephoning us at the following address:

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

Statements in this prospectus, including information incorporated by reference, that are based on other than historical data are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements provide current expectations or forecasts of future events and include, among others:

statements with respect to our beliefs, plans, objectives, goals, guidelines, expectations, anticipations, and future financial condition, results of operations and performance of Zions Bancorporation and its subsidiaries; and

statements preceded by, followed by or that include the words may, could, should, would, believe, anticipate, estimate, expect, intend, plan, projects, or similar expressions.

These forward-looking statements are not guarantees of future performance, nor should they be relied upon as representing management's views as of any subsequent date. Forward-looking statements involve significant risks and uncertainties and actual results may differ materially from those presented, either expressed or implied, in this prospectus, including the information incorporated by reference. You should carefully consider those risks and uncertainties in reading this prospectus. Factors that might cause such differences include, but are not limited to:

our ability to successfully execute our business plans, manage our risks, and achieve our objectives;

changes in political and economic conditions, including the political and economic effects of the current economic crisis and other major developments, including wars, military actions and terrorist attacks;

changes in financial market conditions, either internationally, nationally or locally in areas in which we conduct our operations, including without limitation, changes in business formation and growth, commercial and residential real estate development and real estate prices;

fluctuations in markets for equity, fixed-income, commercial paper and other securities, including availability, market liquidity levels, and pricing;

changes in interest rates, the quality and composition of our loan and securities portfolios, demand for loan products, deposit flows and competition;

acquisitions and integration of acquired businesses;

increases in the levels of losses, customer bankruptcies, claims and assessments;

changes in fiscal, monetary, regulatory, trade and tax policies and laws, including policies of the U.S. Department of Treasury and the Federal Reserve Board;

our participation or lack of participation in governmental programs implemented under the Emergency Economic Stabilization Act (EESA) and the American Recovery and Reinvestment Act (ARRA), including without limitation the Troubled Asset Relief

increased costs of deposit insurance and changes with respect to Federal Deposit Insurance Corporation insurance coverage levels. We specifically disclaim any obligation to update any factors or to publicly announce the result of revisions to any of the forward-looking statements, including the information incorporated by reference, to reflect future events or developments.

Table of Contents

RISK FACTORS

We have included discussions of cautionary factors describing risks relating to our business and an investment in our securities in our Annual Report on Form 10-K for the year ended December 31, 2008, which is incorporated by reference into this prospectus. See [Where You Can Find More Information](#) for an explanation of how to get a copy of this report. Additional risks related to our securities may also be described in a prospectus supplement. Before purchasing our securities, you should carefully consider the risk factors we describe in any prospectus supplement or in any report incorporated by reference into this prospectus or such prospectus supplement, including our Annual Report on Form 10-K for the year ended December 31, 2008. Although we discuss key risks in those risk factor descriptions, additional risks not currently known to us or that we currently deem immaterial also may impair our business. Our subsequent filings with the SEC may contain amended and updated discussions of significant risks. We cannot predict future risks or estimate the extent to which they may affect our financial performance.

Table of Contents

USE OF PROCEEDS

Unless otherwise specified in the applicable prospectus supplement for any offering of securities, the net proceeds we receive from the sale of these securities will be used for general corporate purposes, which may include:

funding investments in, or extensions of credit to, our subsidiaries;

funding investments in non-affiliates;

reducing or refinancing debt;

redeeming outstanding securities;

financing possible acquisitions; and

working capital.

Pending such use, we may temporarily invest net proceeds. We will disclose any proposal to use the net proceeds from any offering of securities in connection with an acquisition in the prospectus supplement relating to such offering.

Each Issuer Trust will use the proceeds from any offering of capital securities to purchase the corresponding junior subordinated debentures issued by us. We expect to use the net proceeds from the sale of the subordinated debt securities to the Issuer Trusts as described above.

Table of Contents

DESCRIPTION OF DEBT SECURITIES WE MAY OFFER

*Please note that in this section entitled **Description of Debt Securities We May Offer**, references to **Zions**, **we**, **our** and **us** refer only to Zions Bancorporation and not to its consolidated subsidiaries. Also, in this section, references to **holders** mean those who own debt securities registered in their own names, on the books that we or the trustee maintain for this purpose, and not those who own beneficial interests in debt securities registered in street name or in debt securities issued in book-entry form through one or more depositaries. Owners of beneficial interests in the debt securities should also read the section entitled **Legal Ownership and Book-Entry Issuance**.*

*The following description summarizes the material provisions of the senior indenture, the subordinated indenture and the debt securities to be issued under these indentures. This description is not complete and is subject to, and is qualified in its entirety by reference to, the indenture under which the debt securities are issued and the Trust Indenture Act of 1939, as amended (the **Trust Indenture Act**). The specific terms of any series of debt securities will be described in the applicable prospectus supplement, and may differ from the general description of the terms presented below. The senior indenture and the subordinated indenture have been filed as exhibits to the registration statement of which this prospectus forms a part. Whenever particular defined terms of the senior indenture or the subordinated indenture, each as supplemented or amended from time to time, are referred to in this prospectus or a prospectus supplement, those defined terms are incorporated in this prospectus or such prospectus supplement by reference.*

Debt Securities May Be Senior or Subordinated

We may issue senior or subordinated debt securities. Unless we specify otherwise in the applicable prospectus supplement, neither the senior debt securities nor the subordinated debt securities will be secured by any property or assets of ours or of our subsidiaries. If you own an unsecured debt security, you are one of our unsecured creditors.

The senior debt securities and, in the case of senior debt securities in bearer form, any related interest coupons, will constitute part of our senior indebtedness, will be issued under the senior debt indenture described below and will rank on a parity with all of our other unsubordinated debt (except to the extent such other indebtedness is secured by collateral that does not also secure the senior debt securities offered by this prospectus).

The subordinated debt securities and, in the case of subordinated debt securities in bearer form, any related interest coupons, will constitute part of our subordinated debt, will be issued under the subordinated debt indenture described below and will be subordinate in right of payment to all of our senior indebtedness, as defined below under **Subordination Provisions**. Upon the occurrence of certain events of insolvency, the subordinated debt securities will be contractually subordinated to the prior payment in full of our general obligations, as defined under **Subordination Provisions**.

Neither indenture limits our ability to incur additional secured or unsecured senior or subordinated indebtedness.

When we use the terms **debt security** or **debt securities** in this description, we mean either the senior debt securities or the subordinated debt securities.

We Are A Holding Company

We are a holding company and a legal entity separate and distinct from our subsidiaries, and our right to participate in any distribution of assets of any subsidiary upon its liquidation, reorganization or otherwise, and the ability of holders of debt securities to benefit indirectly from such distribution, is subject to superior claims. Accordingly, our senior debt securities and subordinated debt securities will be structurally subordinated to all indebtedness and other liabilities, including trade payables and lease obligations, of each of our subsidiaries, except to the extent we may be a creditor of that subsidiary with recognized senior claims. Claims on our subsidiary banks by creditors other than us include long-term debt, including subordinated and junior subordinated debt issued by our

Table of Contents

subsidiary, Amegy Corporation, and substantial obligations with respect to deposit liabilities and federal funds purchased, securities sold under repurchase agreements, other short-term borrowings and various other financial obligations. If we are entitled to participate in any assets of any of our subsidiaries upon the liquidation or reorganization of the subsidiary, the rights of holders of the senior debt securities and subordinated debt securities with respect to those assets will be subject to the contractual subordination of the subordinated debt securities.

The Senior Debt Indenture and the Subordinated Debt Indenture

The senior debt securities are governed by the senior debt indenture, and the subordinated debt securities are governed by the subordinated debt indenture. Each indenture is a contract between us and The Bank of New York Mellon Trust Company, N.A., as successor to J.P. Morgan Trust Company, National Association, as trustee, which indenture may be supplemented from time to time as provided therein. The indentures are substantially identical, except for our covenants described under [Restriction on Sale or Issuance of Capital Stock of Major Constituent Banks](#), which are included only in the senior debt indenture, the provisions relating to subordination, which are included only in the subordinated debt indenture, and the provisions relating to defaults and events of default.

The trustee under each indenture has two main roles:

first, the trustee can enforce your rights against us if we default. There are some limitations on the extent to which the trustee acts on your behalf, which we describe later under [Events of Default and Defaults](#);

second, the trustee performs administrative duties for us, such as sending you interest payments and notices. See [Our Relationship with the Trustee](#) below for more information about the trustee.

When we refer to the indenture or the trustee with respect to any debt securities, we mean the indenture under which those debt securities are issued and the trustee under that indenture.

We May Issue Many Debt Securities or Series of Debt Securities

We may issue as many debt securities or distinct series of debt securities under either indenture as we wish. This section summarizes terms of the debt securities that apply generally to all debt securities or series of debt securities. The provisions of each indenture allow us not only to issue debt securities with terms different from those of debt securities previously issued under that indenture, but also to [reopen](#) previously issued debt securities and issue additional debt securities of the same series as such debt securities, with the same CUSIP number, stated maturity, interest payment dates, if any, and other terms, except for the date of issuance and issue price. We will describe the financial and other specific terms of your debt securities in the applicable prospectus supplement. Those terms may vary from the terms described here.

As you read this section, please remember that the specific terms of your debt security as described in your prospectus supplement will supplement and, if applicable, may modify or replace the general terms described in this section. The statements we make in this section may not apply to your debt security.

When we refer to a series of debt securities, we mean a series issued under the applicable indenture. When we refer to your prospectus supplement, we mean the prospectus supplement describing the specific terms of the debt security you purchase.

Amounts That We May Issue

Neither indenture limits the aggregate amount of debt securities that we may issue, whether secured or unsecured, or the number of series or the aggregate amount of any particular series of debt securities. We may issue debt securities, as well as increase the total authorized amount, at any time without your consent and without notifying you.

Table of Contents

In addition, we have issued and have outstanding, and may in the future issue, junior subordinated debentures to certain financing trust affiliates, which will issue capital securities guaranteed by us on the same subordinated basis as the junior subordinated debentures. The junior subordinated debentures and related guarantees generally rank junior to the subordinated debt securities. The terms debt securities, senior debt securities and subordinated debt securities do not include the junior subordinated debentures or related guarantees.

We are not subject to financial or similar restrictions by the terms of the debt securities, except as described under **Restriction on Sale or Issuance of Capital Stock of Major Constituent Banks** below. The indentures do not contain any covenants designed to afford holders of debt securities protection in the event of a highly leveraged transaction involving us.

Principal Amount, Stated Maturity and Maturity

Unless otherwise specified in the applicable prospectus supplement, the principal amount of a debt security means the principal amount payable at its stated maturity, unless such amount is not determinable, in which case the principal amount of a debt security is its face amount.

The term **stated maturity** with respect to any debt security means the day on which the principal amount of your debt security is scheduled to become due. The principal of your debt security may become due sooner, by reason of redemption or acceleration after an event of default or otherwise in accordance with the terms of your debt security. The day on which the principal of your debt security actually becomes due, whether at the stated maturity or otherwise, is called the maturity of the principal.

We also use the terms **stated maturity** and **maturity** to refer to the days when other payments become due. For example, we may refer to a regular interest payment date when an installment of interest is scheduled to become due as the **stated maturity** of that installment. When we refer to the **stated maturity** or the **maturity** of a debt security without specifying a particular payment, we mean the stated maturity or maturity, as the case may be, of the principal.

Governing Law

The indentures are, and the debt securities will be, governed by New York law.

Currency of Debt Securities

Unless otherwise specified in the applicable prospectus supplement, amounts that become due and payable on your debt security will be payable in U.S. dollars. You will have to pay for your debt securities by delivering the requisite amount for the principal, in U.S. dollars or other specified currency, to the underwriter or dealer that we name in the prospectus supplement related to your debt securities, unless other arrangements have been made between you and us or you and that dealer.

Types of Debt Securities

We may issue any of the three types of senior debt securities or subordinated debt securities described below. A debt security may have elements of each of the three types of debt securities described below. For example, a debt security may bear interest at a fixed rate for some periods and at a floating rate in others. Similarly, a debt security may provide for a payment of principal at maturity linked to an index and also bear interest at a fixed or floating rate.

Table of Contents

Fixed Rate Debt Securities

A debt security of this type will bear interest at a fixed rate described in the applicable prospectus supplement. This type includes zero coupon debt securities, which bear no interest and are instead issued at a price lower than the principal amount. See Original Issue Discount Debt Securities below for more information about zero coupon and other original issue discount debt securities.

Each fixed rate debt security, except any zero coupon debt security, will bear interest from its original issue date or from the most recent date to which interest on the debt security has been paid or made available for payment. Interest will accrue on the principal of a fixed rate debt security at the fixed rate per annum stated in the applicable prospectus supplement, until the principal is paid or made available for payment. Each payment of interest due on an interest payment date or at maturity will include interest accrued from and including the last date to which interest has been paid, or made available for payment, or from the issue date if none has been paid, or made available for payment, to but excluding the interest payment date or the date of maturity. We will compute interest on fixed rate debt securities on the basis of a 360-day year of twelve 30-day months (30/360 (ISDA) day count convention). We will pay interest on each interest payment date and at maturity as described below under Payment Mechanics for Debt Securities in Registered Form.

If your debt security is a zero coupon debt security, the applicable prospectus supplement may specify the original issue discount and the information necessary to determine the accreted value. The accreted value will be (1) as of any date prior to the stated maturity, an amount equal to the sum of (A) the original issue price of your debt security and (B) the portion of the excess of the principal amount of your debt security over the original issue price that shall have been accreted from the original issue price on a daily basis and compounded annually on a date specified in the applicable prospectus supplement, up to and including the stated maturity, at a rate that will be specified in the applicable prospectus supplement from the original issue date, computed on the basis of a 360-day year of twelve 30-day months (30/360 (ISDA) day count convention); and (2) as of any date on or after the stated maturity, the principal amount of your debt security.

Floating Rate Debt Securities

A debt security of this type will bear interest at rates that are determined by reference to an interest rate formula. In some cases, the rates may also be adjusted by adding or subtracting a spread or multiplying by a spread multiplier and may be subject to a minimum rate or a maximum rate. If your debt security is a floating rate debt security, the formula and any adjustments that apply to the interest rate will be specified in your prospectus supplement.

Each floating rate debt security will bear interest from its original issue date or from the most recent date to which interest on your debt security has been paid or made available for payment. Interest will accrue on the principal of a floating rate debt security at a rate per annum determined according to the interest rate formula stated in the applicable prospectus supplement, until the principal is paid or made available for payment. We will pay interest on each interest payment date and at maturity as described below under Payment Mechanics for Debt Securities in Registered Form.

Calculation Agent. Calculations relating to floating rate debt securities will be made by the calculation agent, an institution that we appoint as our agent for this purpose. That institution may include any affiliate of ours, such as Zions First National Bank. The prospectus supplement for a particular floating rate debt security will name the institution that we have appointed to act as the calculation agent for that debt security as of its original issue date. We may appoint a different institution to serve as calculation agent from time to time after the original issue date of the debt security without your consent and without notifying you of the change. Absent manifest error, all determinations of the calculation agent will be final and binding on you and us, without any liability on the part of the calculation agent.

Calculation of Interest. For each floating rate debt security, the calculation agent will determine, on the corresponding interest calculation or interest determination date, as described in the applicable prospectus supplement, the interest rate that takes effect on

Table of Contents

each interest reset date. In addition, the calculation agent will calculate the amount of interest that has accrued during each interest period i.e., the period from and including an interest payment date (or with respect to the initial interest period, the original issue date) to but excluding the next succeeding interest payment date. For each interest period, the calculation agent will calculate the amount of accrued interest by multiplying the face amount of the floating rate debt security by an accrued interest factor for the interest period. Unless we specify otherwise in the applicable prospectus supplement, this factor will be equal to the number of days in the applicable interest period divided by 360 (Actual/360 (ISDA) day count convention).

Upon the request of the holder of any floating rate debt security, the calculation agent will provide for that debt security the interest rate then in effect, and, if determined, the interest rate that will become effective on the next interest reset date.

All percentages resulting from any calculation relating to any debt security will be rounded upward or downward, as appropriate, to the next higher or lower one hundred-thousandth of a percentage point, e.g., 9.876541% (or .09876541) being rounded down to 9.87654% (or .0987654) and 9.876545% (or .09876545) being rounded up to 9.87655% (or .0987655). All amounts used in or resulting from any calculation relating to a floating rate debt security will be rounded upward or downward, as appropriate, to the nearest cent, with one-half cent or one-half of a corresponding hundredth of a unit or more being rounded upward.

In determining the base rate that applies to a floating rate debt security during a particular interest period, the calculation agent may obtain rate quotes from various reference banks or dealers active in the relevant market, as described in the applicable prospectus supplement. Those reference banks and dealers may include the calculation agent itself and its affiliates, as well as any underwriter, dealer or agent participating in the distribution of the relevant floating rate debt securities and its affiliates, and they may include our affiliates.

Indexed Debt Securities

A debt security of this type provides that the principal amount payable at its maturity, and/or the amount of interest payable on an interest payment date, will be determined by reference to

securities of one or more issuers;

one or more currencies;

one or more commodities;

any other financial, economic or other measure or instrument, including the occurrence or non-occurrence of any event or circumstance;

one or more indices; and/or

one or more baskets of the items described above.

An indexed debt security may provide either for cash settlement or for physical settlement by delivery of the underlying security or another property of the type listed above. An indexed debt security may also provide that the form of settlement may be determined at our option or at the holder's option. Some indexed debt securities may be exchangeable, at our option or the holder's option, for securities of an issuer other than us.

If you purchase an indexed debt security, your prospectus supplement will include information about the relevant index or indices, about how amounts that are to become payable will be determined by reference to the price or value of that index and about the terms on which the security may be settled physically or in cash. Your prospectus supplement will also identify the calculation agent that will calculate the amounts payable with respect to the indexed debt security and will have sole discretion in doing so. The calculation agent may be one of our affiliates. See

Considerations Relating to Indexed Securities for more information about risks of investing in debt securities of this type.

Table of Contents

Original Issue Discount Debt Securities

A fixed rate debt security, a floating rate debt security or an indexed debt security may be an original issue discount debt security. A debt security of this type is issued at a price lower than its principal amount and may provide that, upon redemption or acceleration of its maturity, an amount less than its principal amount may be payable. An original issue discount debt security may be a zero coupon debt security. A debt security issued at a discount to its principal may, for U.S. federal income tax purposes, be considered an original issue discount debt security, regardless of the amount payable upon redemption or acceleration of maturity. See United States Taxation Taxation of Debt Securities United States Holders Original Issue Discount below for a brief description of the U.S. federal income tax consequences of owning an original issue discount debt security.

Form of Debt Securities

We will issue each debt security in global i.e., book-entry form only, unless we specify otherwise in the applicable prospectus supplement. Debt securities in book-entry form will be represented by a global security registered in the name of a depository, which will be the holder of all the debt securities represented by the global security. Those who own beneficial interests in a global debt security will do so through participants in the depository's securities clearing system, and the rights of these indirect owners will be governed solely by the applicable procedures of the depository and its participants. We describe book-entry securities under Legal Ownership and Book-Entry Issuance.

In addition, we will issue each debt security in registered form, without coupons, unless the conditions for issuance of bearer securities described under Securities Issued in Bearer Form are met and we choose to issue the debt security in bearer form. We describe bearer securities under Securities Issued in Bearer Form. As we note in that section, some of the features that we describe in this section entitled Description of Debt Securities We May Offer may not apply to bearer securities.

Information in Your Prospectus Supplement

Your prospectus supplement will describe the specific terms of your debt security, which will include some or all of the following, as applicable:

whether it is a senior debt security or a subordinated debt security;

the aggregate principal amount of your debt security or the debt securities of the same series, as applicable;

the stated maturity;

the specified currency or currencies for principal and interest and, if the specified currency is not U.S. dollars, certain other terms relating to your debt security;

the issue price at which we originally issue your debt security, expressed as a percentage of the principal amount, and the original issue date;

whether your debt security is a fixed rate debt security, a floating rate debt security or an indexed debt security or any combination thereof and also whether it is an original issue discount debt security;

if your debt security is a fixed rate debt security, the rate per annum at which your debt security will bear interest, if any, and the interest payment dates;

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 424B2

if your debt security is a floating rate debt security, the interest rate basis; any applicable index currency or index maturity, spread or spread multiplier or initial base rate, maximum or minimum rate; the interest reset, determination, calculation and payment dates; the day count convention used to calculate interest payments; and the calculation agent;

if your debt security is an original issue discount debt security, the yield to maturity;

Table of Contents

if your debt security is an indexed debt security, the principal amount, if any, we will pay you at maturity, the amount of interest, if any, we will pay you on an interest payment date or the formula we will use to calculate these amounts, if any, and the terms on which your debt security will be exchangeable for or payable in cash, securities or other property;

if your debt security may be converted into or exercised or exchanged for common stock or preferred stock or other securities of Zions Bancorporation or debt or equity securities of one or more third parties, the terms on which conversion, exercise or exchange may occur, including whether conversion, exercise or exchange is mandatory, at the option of the holder or at our option, the period during which conversion, exercise or exchange may occur, the initial conversion, exercise or exchange price or rate and the circumstances or manner in which the amount of common stock or preferred stock or other securities issuable upon conversion, exercise or exchange may be adjusted;

the circumstances under which your debt security may be redeemed at our option or repaid at the holder's option before the stated maturity including any redemption commencement date, repayment date(s), redemption price(s) and redemption period(s);

the authorized denominations, if other than \$1,000 and integral multiples of \$1,000 in excess thereof;

the depository for your debt security, if other than DTC, and any circumstances under which the holder may request securities in non-global form, if we choose not to issue your debt security in book-entry form only;

if your debt security will be issued in bearer form, any special provisions relating to bearer securities that are not addressed in this prospectus;

the circumstances under which we will pay additional amounts on any debt securities held by a person who is not a United States person for tax purposes and under which we can redeem the debt securities if we have to pay additional amounts;

the names and duties of any co-trustees, depositaries, authenticating agents, paying agents, transfer agents or registrars for your debt securities;

the terms and conditions, if any, pursuant to which the debt securities of a series are secured; and

any other terms of your debt security which could be different from those described in this prospectus.

Your prospectus supplement will summarize specific financial and other terms of your debt security, while this prospectus describes terms that apply generally to all the debt securities. Consequently, the terms described in your prospectus supplement will supplement those described in this prospectus and, if the terms described there are inconsistent with those described here, the terms described there will be controlling. The terms used in your prospectus supplement have the meanings described in this prospectus, unless otherwise specified.

Redemption and Repayment

Unless otherwise indicated in your prospectus supplement, your debt security will not be entitled to the benefit of any sinking fund—that is, we will not deposit money on a regular basis into any separate custodial account to repay your debt securities. In addition, we will not be entitled to redeem your debt security before its stated maturity unless your prospectus supplement specifies a redemption commencement date. You will not be entitled to require us to buy your debt security from you, before its stated maturity, unless your prospectus supplement specifies one or more repayment dates.

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 424B2

If your prospectus supplement specifies a redemption commencement date or a repayment date, it will also specify one or more redemption prices or repayment prices, which may be expressed as a percentage of the principal amount of your debt security. It may also specify one or more redemption periods during which the redemption prices relating to a redemption of debt securities during those periods will apply.

Table of Contents

If your prospectus supplement specifies a redemption commencement date, your debt security will be redeemable at our option at any time on or after that date or at a specified time or times. If we redeem your debt security, we will do so at the specified redemption price, together with interest accrued to but excluding the redemption date. If different prices are specified for different redemption periods, the price we pay will be the price that applies to the redemption period during which your debt security is redeemed.

If your prospectus supplement specifies a repayment date, your debt security will be repayable at your option on the specified repayment date at the specified repayment price, together with interest accrued to but excluding the repayment date.

If we exercise an option to redeem any debt security, we will give to the trustee and the holder written notice of the principal amount of the debt security to be redeemed, not less than 30 days nor more than 60 days before the applicable redemption date. We will give the notice in the manner described below in Notices.

If a debt security represented by a global debt security is subject to repayment at the holder's option, the depository or its nominee, as the holder, will be the only person that can exercise the right to repayment. Any indirect owners who own beneficial interests in the global debt security and wish to exercise a repayment right must give proper and timely instructions to their banks or brokers through which they hold their interests, requesting that they notify the depository to exercise the repayment right on their behalf. Different firms have different deadlines for accepting instructions from their customers, and you should take care to act promptly enough to ensure that your request is given effect by the depository before the applicable deadline for exercise.

Street name and other indirect owners should contact their banks or brokers for information about how to exercise a repayment right in a timely manner.

We or our affiliates may purchase debt securities from investors who are willing to sell from time to time, either in the open market at prevailing prices or in private transactions at negotiated prices. Debt securities that we or they purchase may, at our discretion, be held, resold or canceled.

Mergers and Similar Transactions

We are generally permitted to merge or consolidate with another corporation or other entity. We are also permitted to sell our assets substantially as an entirety to another corporation or other entity or to have another entity sell its assets substantially as an entirety to us. With regard to any series of debt securities, however, we may not take any of these actions unless all of the following conditions are met:

if we are not the successor entity, the person formed by the consolidation or into or with which we merge or the person to which our properties and assets are conveyed, transferred or leased must be an entity organized and existing under the laws of the United States, any state or the District of Columbia and must expressly assume the due and punctual payment of the principal of, any premium, and interest on the debt securities of that series and the performance of our other covenants under the relevant indenture;

immediately after giving effect to that transaction, no default or event of default under the debt securities of that series, and no event which, after notice or lapse of time or both, would become a default or an event of default under the debt securities of that series, has occurred and is continuing; and

an officer's certificate and legal opinion relating to these conditions must be delivered to the trustee.

If the conditions described above are satisfied with respect to the debt securities of any series, we will not need to obtain the approval of the holders of those debt securities in order to merge or consolidate or to sell our assets. Also, these conditions will apply only if we wish to merge or consolidate with another entity or sell our assets substantially as an entirety to another entity or to acquire the assets of another entity substantially as an entirety. We will not need to satisfy these conditions if we enter into other types of transactions, including any transaction in which we acquire the stock or assets of another entity, any merger of another entity with one of our subsidiaries, any transaction that involves a change of control of us but in which we do not merge or consolidate and any transaction in which we sell less than substantially all our assets.

Table of Contents

Also, if we merge, consolidate or sell our assets substantially as an entirety and the successor is a non-U.S. entity, neither we nor any successor would have any obligation to compensate you for any resulting adverse tax consequences relating to your debt securities.

Subordination Provisions

The subordinated debt securities are subordinated in right of payment to the prior payment in full of all of our senior indebtedness and, under specified circumstances, to our general obligations. This means that, in certain circumstances where we may not be making payments on all of our debt obligations as they become due, the holders of all of our senior indebtedness and general obligations will be entitled to receive payment in full of all amounts due or to become due to them before the holders of the subordinated debt securities will be entitled to receive any amounts under the subordinated debt securities. These circumstances include when we make a payment or distribute assets to creditors upon our liquidation, dissolution, winding up or reorganization.

These subordination provisions mean that if we are insolvent, a direct holder of our senior indebtedness may ultimately receive out of our assets more than a holder of the same amount of subordinated debt securities, and a senior creditor of ours that is owed a specific amount may ultimately receive more than a holder of the same amount of subordinated debt securities. The subordinated debt indenture does not limit our ability to incur senior or subordinated indebtedness or general obligations, including indebtedness ranking on an equal basis with the subordinated debt securities.

The subordinated debt indenture provides that, unless all principal of and any premium or interest on senior indebtedness has been paid in full, no payment or other distribution may be made in respect of any subordinated debt securities in the following circumstances:

in the event of any insolvency or bankruptcy proceedings, or any receivership, liquidation, reorganization, assignment for the benefit of creditors or other similar proceedings or events involving us or our assets;

(a) in the event and during the continuation of any default in the payment of principal, premium or interest on any senior indebtedness beyond any applicable grace period or (b) in the event that any judicial proceeding is pending with respect to any such default; or

in the event that any subordinated debt securities have been declared due and payable before their stated maturity.

If the trustee under the subordinated debt indenture or any holders of the subordinated debt securities receive any payment or distribution that is prohibited under the subordination provisions, and if this fact is made known to the trustee or holders at or prior to the time of such payment or distribution, then the trustee or the holders will have to repay that money to us.

Further, in the event of any insolvency or bankruptcy proceedings, or any receivership, liquidation, reorganization, assignment for the benefit of creditors or other similar proceedings or events involving us or our assets, any creditors in respect of general obligations, which we define below, will be entitled to receive payment in full of all amounts due or to become due on or in respect of such general obligations after payment in full to the holders of senior indebtedness, before any amount is made available for payment or distribution to the holders of any subordinated debt security. However, upon the occurrence of a termination event, which we define below, such subordination to the creditors in respect of general obligations will become null and void and have no further effect.

Even if the subordination provisions prevent us from making any payment when due on the subordinated debt securities of any series, we will be in default on our obligations under that series if we do not make the payment when due. This means that the trustee under the subordinated debt indenture and the holders of that series can take action against us, but they will not receive any money until the claims of the holders of senior indebtedness have been fully satisfied.

Table of Contents

The subordinated debt indenture allows the holders of senior indebtedness to obtain a court order requiring us and any holder of subordinated debt securities to comply with the subordination provisions.

The subordinated debt indenture defines senior indebtedness as:

the principal of, and premium, if any, and interest in respect of our indebtedness for purchased or borrowed money, whether or not evidenced by securities, notes, debentures, bonds or other similar instruments issued by us;

all our capital lease obligations;

all our obligations issued or assumed as the deferred purchase price of property, all our conditional sale obligations and all our obligations under any conditional sale or title retention agreement, but excluding trade accounts payable in the ordinary course of business;

all our obligations in respect of any letters of credit, bankers acceptance, security purchase facilities and similar credit transactions;

all our obligations in respect of interest rate swap, cap or other agreements, interest rate future or options contracts, currency swap agreements, currency future or option contracts and other similar agreements;

all obligations of other persons of the type referred to in the bullets above the payment of which we are responsible or liable for as obligor, guarantor or otherwise;

all obligations of the type referred to in the bullets above of other persons secured by any lien on any of our properties or assets whether or not we assume such obligation; and

any deferrals, renewals or extensions of any such senior indebtedness.

However, senior indebtedness does not include:

the subordinated debt securities;

any indebtedness that by its terms is subordinated to, or ranks on an equal basis with, the subordinated debt securities, including our 5.50% Subordinated Notes due November 16, 2015, our 5.65% Subordinated Notes due May 15, 2014, our 6.0% Subordinated Notes due September 15, 2015, our Floating Rate Subordinated Notes due September 22, 2014, and our debentures or guarantees of debentures underlying each of Zions Capital Trust B's 8% Capital Securities due September 1, 2032, Stockmen's Statutory Trust II's Floating Rate Capital Securities due March 26, 2033, and Stockmen's Statutory Trust III's Floating Rate Capital Securities due March 17, 2034; and

any indebtedness between or among us and our affiliates, including all other debt securities and guarantees in respect of debt securities issued to any trust, or a trustee of such trust, partnership or other entity affiliated with us which is a financing vehicle of ours in connection with the issuance by such financing vehicle of capital securities or other securities guaranteed by us pursuant to an

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 424B2

instrument that ranks on an equal basis with or junior in respect of payment to the subordinated debt securities.

The subordinated debt indenture defines **general obligations** as all our obligations to make payments on account of claims of general creditors, other than:

obligations on account of senior indebtedness; and

obligations on account of the subordinated debt securities and indebtedness for money borrowed ranking on an equal basis with or junior to the subordinated debt securities.

Table of Contents

However, if the Federal Reserve Board (or other federal banking supervisor that is at the time of determination our primary federal banking supervisor) promulgates any rule or issues any interpretation defining or describing the term general creditor or general creditors or senior indebtedness for purposes of its criteria for the inclusion of subordinated debt of a bank holding company in capital, or otherwise defining or describing the obligations to which subordinated debt of a bank holding company must be subordinated to be included in capital, to include any obligations not included in the definition of senior indebtedness as described above, then the term general obligations will mean such obligations as defined or described in the first such rule or interpretation, other than obligations as described immediately above in bullet points.

Termination event means the promulgation of any rule or regulation or the issuance of any interpretation of the Federal Reserve Board (or other federal banking supervisor that is at the time of determination our primary federal banking supervisor) that:

defines or describes the terms general creditor or general creditors or senior indebtedness. for purposes of its criteria for the inclusion of subordinated debt of a bank holding company in capital, or otherwise defines or describes the obligations to which subordinated debt of a bank holding company must be subordinated for the debt to be included in capital, to include no obligations other than those covered by the definition of senior indebtedness without regard to any of our other obligations;

permits us to include the subordinated debt securities in our capital if they were subordinated in right of payment to the senior indebtedness without regard to any of our other obligations;

otherwise eliminates the requirement that subordinated debt of a bank holding company and its subsidiaries must be subordinated in right of payment to the claims of its general creditors in order to be included in capital; or

causes the subordinated debt securities to be excluded from capital notwithstanding the provisions of the subordinated debt indenture.

Termination event also means any event that results in our not being subject to capital requirements under the rules, regulations or interpretations of the Federal Reserve Board (or other federal banking supervisor).

Restriction on Sale or Issuance of Capital Stock of Major Constituent Banks

With respect to the senior debt securities, we have agreed that we will not, and will not permit any subsidiary to, sell, assign, pledge, transfer, or otherwise dispose of, any shares of capital stock, or any securities convertible into shares of capital stock, of any major constituent bank, which we define below, or any subsidiary owning, directly or indirectly, any shares of capital stock of any major constituent bank. In addition, with respect to the senior debt securities, we have agreed that we will not permit any major constituent bank or any subsidiary owning, directly or indirectly, any shares of capital stock of a major constituent bank to issue any shares of its capital stock or any securities convertible into shares of its capital stock. Notwithstanding the foregoing, we are permitted to make sales, assignments, transfers or other dispositions which:

are for the purpose of qualifying a person to serve as a director; or

are for fair market value, as determined by our board, and, after giving effect to those dispositions and to any potential dilution, we will own not less than 80% of the shares of capital stock of the major constituent bank in question or any subsidiary owning any shares of capital stock of the major constituent bank in question; or

are made

in compliance with court or regulatory authority order; or

in compliance with a condition imposed by any court or regulatory authority permitting our acquisition of any other bank or entity; or

Table of Contents

in compliance with an undertaking made to any regulatory authority in connection with such an acquisition described in the immediately preceding bullet; or

to us or any wholly-owned subsidiary;

provided, in the case of the bullet-points relating to acquisitions, the assets of the bank or entity being acquired and its consolidated subsidiaries equal or exceed 75% of the assets of the major constituent bank in question or the subsidiary owning, directly or indirectly, any shares of capital stock of a major constituent bank and its respective consolidated subsidiaries on the date of acquisition.

Despite the above requirements, any major constituent bank may be merged into or consolidated with, or may lease, sell or transfer all or substantially all of its assets to, another entity if, after giving effect to that merger, consolidation, sale or transfer, we or any of our wholly-owned subsidiaries owns at least 80% of the capital stock of the other entity, or if such merger, consolidation, sale or transfer is made:

in compliance with court or regulatory authority order; or

in compliance with a condition imposed by any court or regulatory authority permitting our acquisition of any other bank or entity; or

in compliance with an undertaking made to any regulatory authority in connection with such an acquisition described in the immediately preceding bullet;

provided, in the case of the bullet-points relating to acquisitions, the assets of the bank or entity being acquired and its consolidated subsidiaries equal or exceed 75% of the assets of the major constituent bank in question or the subsidiary owning, directly or indirectly, any shares of capital stock of a major constituent bank and its respective consolidated subsidiaries on the date of acquisition.

A major constituent bank is defined in the senior debt indenture to mean any subsidiary which is a bank and has total assets equal to 30% or more of our consolidated assets determined on the date of our most recent audited financial statements. As of the date of this prospectus, and based on our audited financial statements for the year ended December 31, 2008, our subsidiary, Zions First National Bank, would be considered a major constituent bank.

The above covenants are not covenants for the benefit of any series of subordinated debt securities.

Defeasance and Covenant Defeasance

Unless we say otherwise in the applicable prospectus supplement, the provisions for full defeasance and covenant defeasance described below apply to each senior and subordinated debt security as indicated in the applicable prospectus supplement.

Full Defeasance

If there is a change in U.S. federal tax law, as described below, we can legally release ourselves from all payment and other obligations on any debt securities. This is called full defeasance. For us to do so, each of the following must occur:

we must deposit in trust for the benefit of all holders of those debt securities money or a combination of money and U.S. government or U.S. government agency notes or bonds that, in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification thereof delivered to the trustee, will generate enough cash to make interest, principal and any other payments on those debt securities on their various due dates;

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 424B2

there must be a change in current U.S. federal tax law or an Internal Revenue Service ruling that lets us make the above deposit without causing the holders to recognize gain or loss for federal income tax purposes as a result of such deposit and full defeasance to be effected with respect to such securities or be taxed on those debt securities any differently than if such deposit and full defeasance were not to occur;

Table of Contents

we must deliver to the trustee a legal opinion of our counsel confirming the tax law change described above;

we must confirm that neither the debt securities nor any securities of the same series, if listed on any securities exchange, will be delisted as a result of depositing such amount in trust;

no default or event of default, as defined below and as applicable under the relevant indenture for such series of securities, shall have occurred and be continuing at the time of such deposit or, with regard to an event of default relating to certain events of bankruptcy, insolvency, reorganization or the appointment of a receiver by us or any major constituent bank, on the date of the deposit referred to above or during the 90 days after that date;

such defeasance will not cause the trustee to have a conflicting interest within the meaning of the Trust Indenture Act, assuming all securities are in default within the meaning of the Trust Indenture Act;

such defeasance will not result in a breach or violation of, or constitute a default under, any other agreement or instrument by which we are bound;

such defeasance will not result in the trust arising from such deposit constituting an investment company within the meaning of the Investment Company Act of 1940, as amended (the Investment Company Act), unless such trust shall be registered or exempt from registration thereunder;

in the case of the subordinated debt securities, no event or condition may exist that, under the provisions described under Subordination Provisions above, would prevent us from making payments of interest, principal and any other payments on those subordinated debt securities on the date of the deposit referred to above or during the 90 days after that date; and

we must deliver to the trustee an officers certificate and a legal opinion of our counsel confirming that all conditions precedent with respect to such defeasance described above have been complied with.

If we ever fully defease your debt security, you will need to rely solely on the trust deposit for payments on your debt security. You could not look to us for payment in the event of any shortfall.

Covenant Defeasance

Under current U.S. federal tax law, we can make the same type of deposit described above and be released from the covenants described under Restriction on Sale or Issuance of Capital Stock of Major Constituent Banks above and certain other covenants relating to your debt security as provided for in the relevant indenture or described in your prospectus supplement. This is called covenant defeasance. In that event, you would lose the protection of those covenants. In the case of subordinated debt securities, you would be released from the subordination provisions on your subordinated debt security described under Subordination Provisions above. In order to achieve covenant defeasance for any debt securities, we must satisfy substantially the same conditions specified above for full defeasance, except with regard to the second bullet point above, which for covenant defeasance requires only a legal opinion of our counsel delivered to the trustee confirming that the holders of such securities will not recognize gain or loss for federal income tax purposes as a result of such deposit and covenant defeasance to be effected with respect to such securities or be taxed on those debt securities any differently than if such deposit and covenant defeasance were not to occur.

If we accomplish covenant defeasance with regard to your debt security, the following provisions, among others, of the applicable indenture and your debt security would no longer apply:

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 424B2

if your debt security is a senior debt security, our promise not to take certain actions with respect to our major constituent banks as described above under Restriction on Sale or Issuance of Capital Stock of Major Constituent Banks;

Table of Contents

any covenants that your prospectus supplement may state are applicable to your debt security;

the events of default resulting from a breach of covenants, described below under Events of Default and Defaults; and

with respect to subordinated debt securities, the subordination provisions described under Subordination Provisions above. If we accomplish covenant defeasance on your debt security, you can still look to us for repayment of your debt security in the event of any shortfall in the trust deposit. You should note, however, that if one of the remaining events of default occurred, such as our bankruptcy, and your debt security became immediately due and payable, there may be a shortfall. Depending on the event causing the default, you may not be able to obtain payment of the shortfall.

Events of Default and Defaults

You will have special rights if a default or an event of default with respect to your debt security occurs and is not cured, as described in this subsection. You should note that under each indenture, we may change, eliminate, or add to provisions related to defaults or events of default with respect to any particular series or any particular debt security or debt securities within a series, under certain circumstances. Any such changes will be described in the prospectus supplement applicable to your debt security.

Events of Default under the Senior Debt Indenture

When we refer to an event of default with respect to any series of senior debt securities, we mean any of the following:

failure to pay principal of or any premium on any senior debt security of that series when due;

failure to pay any interest on any senior debt security of that series when due and that default continues for 30 days;

failure to deposit any sinking fund payment, when and as due by the terms of any senior debt security of that series;

failure to perform any other covenant in the senior debt indenture and that failure continues for 60 days after written notice to us by the trustee or the holders of at least 25% in aggregate principal amount of the relevant outstanding senior debt securities;

our filing for bankruptcy or the occurrence of certain other events of bankruptcy, insolvency or reorganization relating to us or any major constituent bank;

failure to pay any portion of the principal when due of any indebtedness of ours or any major constituent bank in excess of \$25,000,000, or acceleration of the maturity of any such indebtedness exceeding that amount if acceleration results from a default under the instrument giving rise to that indebtedness and is not annulled within 60 days after due notice (*provided* that any such failure or acceleration shall not be deemed to be an event of default if and for so long as we or the applicable major constituent bank contests the validity of the failure or acceleration in good faith by appropriate proceedings); and

any other event of default provided with respect to senior debt securities of that series which will be described in the applicable prospectus supplement for that series.

Events of Default and Defaults under the Subordinated Debt Indenture

When we refer to an event of default with respect to any series of subordinated debt securities, we mean:

our filing for bankruptcy or the occurrence of certain other events of bankruptcy, insolvency or reorganization relating to us or any major constituent bank.

Table of Contents

When we refer to a default with respect to any series of subordinated debt securities, we mean:

failure to pay principal of or any premium on any subordinated debt security of that series when due;

failure to pay any interest on any subordinated debt security of that series when due and that default continues for 30 days;

failure to deposit any sinking fund payment, when and as due by the terms of any subordinated debt security of that series;

failure to perform any other covenant in the subordinated debt indenture and that failure continues for 60 days after written notice to us by the trustee or the holders of at least 25% in aggregate principal amount of the relevant outstanding subordinated debt securities;

any event of default; and

any other default provided with respect to subordinated debt securities of that series which will be described in the applicable prospectus supplement for that series.

Remedies upon an Event of Default or Default

If an event of default occurs and is continuing, either the trustee or the holders of at least 25% in aggregate principal amount of the relevant outstanding debt securities may accelerate the maturity of such debt securities. Additionally, the senior debt indenture provides that in the event of the filing for bankruptcy by us or any major constituent bank or the occurrence of certain other events of bankruptcy, insolvency or reorganization relating to us or any major constituent bank, the maturity of the outstanding senior debt securities will accelerate automatically. After acceleration, but before a judgment or decree based on acceleration, the holders of a majority in aggregate principal amount of the relevant outstanding debt securities may, under circumstances set forth in the relevant indenture, rescind the acceleration if we have deposited monies on account of certain overdue amounts with the trustee.

With respect to subordinated debt securities, if a default occurs that is not also an event of default with respect to the subordinated debt securities, neither the trustee nor the holders of subordinated debt securities may act to accelerate the maturity of the subordinated debt securities. However, if a default occurs, the trustee may proceed to enforce any covenant and other rights of the holders of the subordinated debt securities, and if the default relates to our failure to make any payment of interest when due and payable and such default continues for a period of 30 days or such default is made in the payment of the principal or any premium at its maturity, then the trustee may demand payment of the amounts then due and payable and may proceed to prosecute any failure on our part to make such payments.

Subject to the provisions of the relevant indenture relating to the duties of the trustee in case an event of default shall occur and be continuing, the trustee will be under no obligation to exercise any of its rights or powers under the relevant indenture at the request or direction of any of the holders of the debt securities issued thereunder, unless the holders of such debt securities shall have offered to the trustee reasonable indemnity. Subject to such provisions for the indemnification of the trustee, the holders of a majority in aggregate principal amount of the relevant outstanding debt securities will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee.

Before you may take any action to institute any proceeding relating to the indenture, or to appoint a receiver or a trustee, or for any other remedy, each of the following must occur:

you must have given the trustee written notice of a continuing event of default or defaults;

Table of Contents

the holders of at least 25% of the aggregate principal amount of all relevant outstanding debt securities of your series must make a written request of the trustee to take action because of the event of default or default, as the case may be, and must have offered reasonable indemnification to the trustee against the cost, liabilities and expenses of taking such action;

the trustee must not have taken action for 60 days after receipt of such notice and offer of indemnification; and

no contrary notice shall have been given to the trustee during such 60-day period by the holders of a majority in aggregate principal amount of the securities of your series.

These limitations do not apply to a suit for the enforcement of payment of the principal of or any premium or interest on a security on or after the due dates for such payments.

We will furnish to the trustee annually a statement as to our performance of our obligations under the indentures and as to any default in performance.

Book-entry and other indirect owners should consult their banks or brokers for information on how to give notice or direction to or make a request of the trustee and how to declare or cancel an acceleration of the maturity. Book-entry and other indirect owners are described under Legal Ownership and Book-Entry Issuance below.

Modification of the Indentures and Waiver of Covenants

Certain limited modifications of the indentures may be made without obtaining the consent of the holders of the relevant debt securities. Other modifications and amendments of the indentures may be made only with the consent of the holders of 66 2/3% in principal amount of the outstanding debt securities affected by those modifications and amendments. However, a modification or amendment affecting securities issued under the senior debt indenture or the subordinated debt indenture requires the consent of the holder of each outstanding debt security under the relevant indenture affected if it would:

change the stated maturity of the principal or interest of any security;

reduce the principal amounts of, any premium or interest on, any security or change the currency in which any such amounts are payable;

change the place of payment on a security;

impair the right to institute suit for the enforcement of any payment on any security on or after its stated maturity or redemption date;

reduce the percentage of holders whose consent is needed to modify or amend the indenture;

reduce the percentage of holders whose consent is needed to waive compliance with certain provisions of the indenture or to waive certain defaults;

modify the provisions with respect to subordination of the subordinated debt securities in a manner adverse to the holders of those securities; or

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 424B2

modify the provisions dealing with modification and waiver of the indenture.

In addition, no modification or amendment to the subordinated debt indenture that affects the superior position of the holders of senior indebtedness shall be effective against any holder of senior indebtedness unless the holder shall have consented to the modification or amendment.

The holders of 66 ²/₃ % in principal amount of the outstanding debt securities of any series may, on behalf of the holders of all securities of that series, waive compliance by us with certain restrictive provisions of the indenture. The holders of a majority in principal amount of the outstanding debt securities of any series may, on behalf of the holders of all securities of that series, waive any past default, except a default in the payment of principal or interest, and defaults in respect of a covenant or provision which cannot be modified or amended without the consent of each holder of each outstanding debt security affected.

Table of Contents

We will generally be entitled to set any day as a record date for the purpose of determining the holders of relevant outstanding debt securities that are entitled to take any action under the relevant indenture. In limited circumstances, the trustee will be entitled to set a record date for action by holders of the relevant debt securities. If a record date is set for any action to be taken by holders of debt securities, such action may be taken only by persons who are holders of relevant outstanding debt securities on the record date and must be taken within 180 days following the record date or such other period as we may specify (or as the trustee may specify, if it set the record date). This period may be shortened or lengthened (but not beyond 180 days) from time to time.

Book-entry and other indirect owners should consult their banks or brokers for information on how approval may be granted or denied if we seek to change an indenture or any debt securities or request a waiver.

Special Rules for Action by Holders

When holders take any action under either indenture, such as giving a notice of default, declaring an acceleration, approving any change or waiver or giving the trustee an instruction, we will apply the following rules.

Only Outstanding Debt Securities Are Eligible

Only holders of outstanding debt securities or the outstanding debt securities of the applicable series, as applicable, will be eligible to participate in any action by holders of such debt securities or the debt securities of that series. Also, we will count only outstanding debt securities in determining whether the various percentage requirements for taking action have been met. For these purposes, a debt security will not be outstanding if:

it has been surrendered for cancellation;

we have deposited or set aside, in trust for its holder, money for its payment or redemption;

we have fully defeased it as described above under **Defeasance and Covenant Defeasance** **Full Defeasance**; or

we or one of our affiliates is the beneficial owner.

Eligible Principal Amount of Some Debt Securities

In some situations, we may follow special rules in calculating the principal amount of a debt security that is to be treated as outstanding for the purposes described above. This may happen, for example, if the principal amount increases over time or is not to be fixed until maturity.

For any debt security of the kind described below, we will decide how much principal amount to attribute to the debt security as follows:

for an original issue discount debt security, we will use the principal amount that would be due and payable on the action date if the maturity of the debt security were accelerated to that date because of a default;

for a debt security whose principal amount is not known, we will use any amount that we indicate in the prospectus supplement for that debt security. The principal amount of a debt security may not be known, for example, because it is based on an index that changes from time to time and the principal amount is not to be determined until a later date; or

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 424B2

for debt securities with a principal amount denominated in one or more non-U.S. dollar currencies or currency units, we will use the U.S. dollar equivalent, which we will determine.

Form, Exchange and Transfer of Debt Securities in Registered Form

If any debt securities cease to be issued in registered global form, they will be issued as follows unless we indicate otherwise in your prospectus supplement:

only in fully registered form;

Table of Contents

without interest coupons; and

in denominations of \$1,000 and integral multiples of \$1,000 in excess thereof.

Holders may exchange their debt securities for debt securities of smaller denominations or combined into fewer debt securities of larger denominations, as long as the total principal amount is not changed. You may not exchange your debt securities for securities of a different series or having different terms, unless your prospectus supplement says you may.

Holders may exchange or transfer their debt securities at the office of the trustee. They may also replace lost, stolen, destroyed or mutilated debt securities at that office. We have appointed the trustee to act as our agent for registering debt securities in the names of holders and transferring and replacing debt securities. We may appoint another entity to perform these functions or perform them ourselves.

Holders will not be required to pay a service charge to transfer or exchange their debt securities, but they may be required to pay for any tax or other governmental charge associated with the exchange or transfer. The transfer or exchange, and any replacement, will be made only if our transfer agent is satisfied with the holder's proof of legal ownership. The transfer agent may require an indemnity before replacing any debt securities.

If we have designated additional transfer agents for your debt security, they will be named in your prospectus supplement. We may appoint additional transfer agents or cancel the appointment of any particular transfer agent. We may also approve a change in the office through which any transfer agent acts.

If the debt securities of any series are redeemable and we redeem less than all those debt securities, we may block the transfer or exchange of those debt securities during the period beginning 15 calendar days before the day we mail the notice of redemption and ending on the day of that mailing, in order to freeze the list of holders to prepare the mailing. We may also refuse to register transfers of or exchange any debt security selected for redemption, except that we will continue to permit transfers and exchanges of the unredeemed portion of any debt security being partially redeemed.

If a debt security is issued as a global debt security, only the depositary, e.g. DTC, Euroclear or Clearstream, will be entitled to transfer and exchange the debt security as described in this subsection, since the depositary will be the sole holder of the debt security.

The rules for exchange described above apply to exchange of debt securities for other debt securities of the same series and kind. If a debt security is convertible, exercisable or exchangeable into or for a different kind of security, such as one that we have not issued, or for other property, the rules governing that type of conversion, exercise or exchange will be described in the applicable prospectus supplement.

Payment Mechanics for Debt Securities in Registered Form

Who Receives Payment?

If interest is due on a debt security on an interest payment date, we will pay the interest to the person in whose name the debt security is registered at the close of business on the regular record date relating to the interest payment date as described under **Payment and Record Dates for Interest** below. If interest is due at maturity but on a day that is not an interest payment date, we will pay the interest to the person entitled to receive the principal of the debt security. If principal or another amount besides interest is due on a debt security at maturity, we will pay the amount to the holder of the debt security against surrender of the debt security at a proper place of payment or, in the case of a global debt security, in accordance with the applicable policies of the depositary, DTC, Euroclear or Clearstream, as applicable.

Table of Contents

Payment and Record Dates for Interest

Unless we specify otherwise in the applicable prospectus supplement, interest on any fixed rate debt security will be payable semiannually each February 15 and August 15 and at maturity, and the regular record date relating to an interest payment date for any fixed rate debt security will be the February 1 or August 1 next preceding that interest payment date. Unless we specify otherwise in the applicable prospectus supplement, the regular record date relating to an interest payment date for any floating rate debt security will be the 15th calendar day before that interest payment date. These record dates will apply regardless of whether a particular record date is a business day, as defined below. For the purpose of determining the holder at the close of business on a regular record date when business is not being conducted, the close of business will mean 5:00 P.M., New York City time, on that day.

Unless we specify otherwise in this prospectus or in the applicable prospectus supplement, the term *days* refers to calendar days.

Business Day. Unless we specify otherwise in the applicable prospectus supplement, the term *business day* means, for any debt security, a day that meets all the following applicable requirements:

for all debt securities, is a Monday, Tuesday, Wednesday, Thursday or Friday that is not a day on which banking institutions in Salt Lake City, Utah or New York City generally are authorized or required by law or executive order to close;

if the debt security is a floating rate debt security whose interest rate is based on the London interbank offered rate, or LIBOR, is also a day on which dealings in the relevant index currency specified in the applicable prospectus supplement are transacted in the London interbank market;

if the debt security either is a floating rate debt security whose interest rate is based on the euro interbank offered rate, or EURIBOR, or a floating rate debt security whose interest rate is based on LIBOR and for which the index currency is euros, is also a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET) System, or any successor system, is open for business;

if the debt security is held through Euroclear, is also not a day on which banking institutions in Brussels, Belgium are generally authorized or obligated by law, regulation or executive order to close; and

if the debt security is held through Clearstream, is also not a day on which banking institutions in Luxembourg are generally authorized or obligated by law, regulation or executive order to close.

Business Day Conventions

As specified in the applicable prospectus supplement, one of the following business day conventions may apply to any debt security with regard to any relevant date other than one that falls on the maturity date:

Following business day convention means, for any interest payment date, other than the stated maturity date, if such date would otherwise fall on a day that is not a business day, then such date will be postponed to the next day that is a business day.

Modified following business day convention means, for any interest payment date, other than the stated maturity date, if such date would otherwise fall on a day that is not a business day, then such date will be postponed to the next day that is a business day, except that, if the next business day falls in the next calendar month, then such date will be advanced to the immediately preceding day that is a business day.

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 424B2

Following unadjusted business day convention means, for any interest payment date, other than the stated maturity date, that falls on a day that is not a business day, any payment due on such interest payment date will be postponed to the next day that is a business day; *provided* that interest due with respect to such interest payment date shall not accrue from and including the original interest payment date to and including the date of payment of such interest as so postponed.

Table of Contents

Modified following unadjusted business day convention means, for any interest payment date, other than the stated maturity date, that falls on a day that is not a business day, any payment due on such interest payment date will be postponed to the next day that is a business day; *provided* that interest due with respect to such interest payment date shall not accrue from and including the original interest payment date to and including the date of payment of such interest as so postponed, and *provided further* that, if such day would fall in the succeeding calendar month, the date of payment with respect to the original interest payment date will be advanced to the business day immediately preceding such interest payment date.

In all cases, if the stated maturity date or any earlier redemption date or repayment date with respect to a debt security falls on a day that is not a business day, any payment of principal, premium, if any, and interest otherwise due on such day will be made on the next succeeding business day, and no interest on such payment shall accrue for the period from and after such stated maturity, redemption date or repayment date, as the case may be.

Unless we specify otherwise in the applicable pricing supplement, payment of interest on your debt security will be governed by the following unadjusted business day convention.

Postponement of payments pursuant to the applicable business day convention will not result in a default under any debt security or the applicable indenture.

How We Will Make Payments Due

We will follow the practice described in this subsection when paying amounts due on the debt securities. All amounts due will be paid in U.S. dollars, unless we indicate otherwise in the applicable prospectus supplement.

Payments on Global Debt Securities. We will make payments on a global debt security in accordance with the applicable policies of the depositary as in effect from time to time. Under those policies, we will pay directly to the depositary, or its nominee, and not to any indirect owners who own beneficial interests in the global debt security. An indirect owner's right to receive those payments will be governed by the rules and practices of the depositary and its participants, as described in the section entitled "Legal Ownership and Book-Entry Issuance What Is a Global Security?"

Payments on Non-Global Debt Securities. We will make payments on a debt security in non-global, registered form as follows. We will pay interest that is due on an interest payment date by check mailed on the interest payment date to the holder at his or her address shown on the trustee's records as of the close of business on the regular record date. We will make all other payments by check at the paying agent described below, against surrender of the debt security. All payments by check will be made in next-day funds i.e., funds that become available on the day after the check is cashed.

Alternatively, if a non-global debt security has a principal amount of at least \$1,000,000 (or the equivalent in another currency) and the holder asks us to do so, we will pay any amount that becomes due on the debt security by wire transfer of immediately available funds to an account at a bank in New York City, on the due date. To request wire payment, the holder must give the paying agent appropriate wire transfer instructions at least five business days before the requested wire payment is due. In the case of any interest payment due on an interest payment date, the instructions must be given by the person or entity who is the holder on the relevant regular record date. In the case of any other payment, payment will be made only after the debt security is surrendered to the paying agent. Any wire instructions, once properly given, will remain in effect unless and until new instructions are given in the manner described above.

Book-entry and other indirect owners should consult their banks or brokers for information on how they will receive payments on their debt securities.

Table of Contents

Paying Agent

We may appoint one or more financial institutions to act as our paying agents, at whose designated offices debt securities in non-global entry form may be surrendered for payment at their maturity. We call each of those offices a paying agent. We may add, replace or terminate paying agents from time to time. We may also choose to act as our own paying agent. Initially, we have appointed Zions First National Bank, at its principal office in Salt Lake City, Utah, as the paying agent for the debt securities. We must notify you of changes in the paying agents.

Unclaimed Payments

Regardless of who acts as paying agent, all money paid by us to a paying agent that remains unclaimed at the end of two years after the amount is due to a holder will be repaid to us. After that two-year period, the holder may look only to us for payment and not to the trustee, any other paying agent or anyone else.

Notices

Notices to be given to holders of a global debt security will be given only to the depositary, in accordance with its applicable policies as in effect from time to time. Notices to be given to holders of debt securities not in global form will be sent by mail to the respective addresses of the holders as they appear in the trustee's records, and will be deemed given when mailed. Neither the failure to give any notice to a particular holder, nor any defect in a notice given to a particular holder, will affect the sufficiency of any notice given to another holder.

Book-entry and other indirect owners should consult their banks or brokers for information on how they will receive notices.

Our Relationship with the Trustee

The Bank of New York Mellon Trust Company, N.A., is initially serving as the trustee for both the senior debt securities and the subordinated debt securities. Consequently, if an actual or potential event of default occurs with respect to any debt securities, the trustee may be considered to have a conflicting interest for purposes of the Trust Indenture Act. In that case, the trustee may be required to resign under one of the indentures, and we would be required to appoint a successor trustee. For this purpose, a potential event of default means an event that would be an event of default if the requirements for giving us default notice or for the default having to exist for a specific period of time were disregarded.

Under the indentures, we are required to file with the trustee any information, documents and other reports, or summaries thereof, as may be required under the Trust Indenture Act, at the times and in the manner provided under the Trust Indenture Act. However, in case of documents filed with the SEC pursuant to Section 13 or 15(d) of the Exchange Act, any such filing with the trustee need not be made until the 15th day after such filing is actually made with the SEC.

Table of Contents

DESCRIPTION OF WARRANTS OR OTHER RIGHTS WE MAY OFFER

Please note that in this section entitled Description of Warrants or Other Rights We May Offer, references to Zions, we, our and us refer only to Zions Bancorporation and not to its consolidated subsidiaries. Also, in this section, references to holders mean those who own warrants or other rights registered in their own names, on the books that we or any applicable trustee or warrant or rights agent maintain for this purpose, and not those who own beneficial interests in warrants or rights registered in street name or in warrants or rights issued in book-entry form through one or more depositaries. Owners of beneficial interests in warrants or rights should also read the section entitled Legal Ownership and Book-Entry Issuance.

This section outlines some of the provisions of each warrant or rights agreement pursuant to which warrants or rights may be issued, the warrants or rights and any warrant or rights certificates. This information may not be complete in all respects and is qualified entirely by reference to any warrant agreement or rights agreement with respect to the warrants or rights of any particular series. The specific terms of any series of warrants or rights will be described in the applicable prospectus supplement. If so described in the prospectus supplement, the terms of that series of warrants or rights may differ from the general description of terms presented below. Owners of warrants or rights should also read the section entitled Legal Ownership and Book-Entry Issuance.

We may issue warrants or other rights. We have no restriction on the number of warrants or rights or the number of distinct series of warrants or rights we may issue. We will issue each series of warrants under either a warrant or rights indenture or agreement. This section summarizes terms to be included in such indenture or agreement and terms of the warrants or rights that apply generally to the warrants or rights. We will describe the specific terms of your warrant or right in the applicable prospectus supplement. Those terms may vary from the terms described here.

Warrants

We may issue warrants, options or similar instruments for the purchase of our debt securities, preferred stock, common stock, depositary shares or units. We refer to these collectively as warrants. Warrants may be issued independently or together with debt securities, preferred stock, common stock, depositary shares or units, and may be attached to or separate from those securities.

Rights

We may also issue rights, on terms to be determined at the time of sale, for the purchase or sale of, or whose cash value or stream of cash payments is determined by reference to, the occurrence or non-occurrence of or the performance, level or value of, one or more of the following:

securities of one or more issuers, including our common or preferred stock or other securities described in this prospectus or debt or equity securities of third parties;

one or more currencies;

one or more commodities;

any other financial, economic or other measure or instrument, including the occurrence or non-occurrence of any event or circumstance;

one or more indices; and/or

one or more baskets of the items described above.

We refer to each property described above as a right property.

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 424B2

We may satisfy our obligations, if any, and the holder of a right may satisfy its obligations, if any, with respect to any rights by delivering, among other things:

the right property;

Table of Contents

the cash value of the right property; or

the cash value of the rights determined by reference to the performance, level or value of the right.

The applicable prospectus supplement will describe what we may deliver to satisfy our obligations, if any, and what the holder of a right may deliver to satisfy its obligations, if any, with respect to any rights.

Agreements

Each series of warrants or rights may be evidenced by certificates and may be issued under a separate indenture, agreement or other instrument to be entered into between us and a bank that we select as agent with respect to such series. The agent, if any, will have its principal office in the U.S. and have a combined capital and surplus of at least \$50,000,000. The prospectus supplement relating to a series of warrants or rights will identify the name and address of the warrant or rights agent, if any. Warrants or rights in book-entry form will be represented by a global security registered in the name of a depository, which will be the holder of all the securities represented by the global security. Those who own beneficial interests in a global security will do so through participants in the depository's system, and the rights of these indirect owners will be governed solely by the applicable procedures of the depository and its participants. We describe book-entry securities under Legal Ownership and Book-Entry Issuance.

General Terms of Warrants or Rights

The prospectus supplement will describe the terms of the series of warrants or rights in respect of which this prospectus is being delivered, including:

the offering price;

the currency for which the warrants or rights may be purchased;

the designation and terms of any securities with which the warrants or rights are issued and in that event the number of warrants or rights issued with each security or each principal amount of security;

the date, if any, on which the warrants or rights and any related securities will be separately transferable;

whether the warrants or rights are to be sold separately or with other securities, as part of units or otherwise;

any securities exchange or quotation system on which the warrants or rights or any securities deliverable upon exercise of such securities may be listed;

whether the warrants or rights will be issued in fully registered form or bearer form, in global or non-global form or in any combination of these forms;

the dates on which the right to exercise the warrants will commence and expire;

material U.S. Federal income tax consequences of holding or exercising these securities; and

any other terms of the warrants or rights.

Warrant or rights certificates may be exchanged for new certificates of different denominations and may be presented for transfer of registration and, if exercisable for other securities or other property, may be exercised at the agent's corporate trust office or any other office indicated in the prospectus supplement. If the warrants or rights are not separately transferable from any securities with which they were issued, this exchange may take place only if the certificates representing the related securities are also exchanged. Prior to exercise of any warrant or right exercisable for other securities or other property, securityholders will not have any rights as holders of the underlying securities, including the right to receive any principal, premium, interest, dividends, or payments upon our liquidation, dissolution or winding up or to exercise any voting rights.

Table of Contents

Exercise of Warrants or Rights

If any warrant or right is exercisable for other securities or other property, the following provisions will apply. Each such warrant or right may be exercised at any time up to any expiration date and time mentioned in the prospectus supplement relating to those warrants or rights as may otherwise be stated in the prospectus supplement. After the close of business on any applicable expiration date, unexercised warrants or rights will become void.

Warrants or rights may be exercised by delivery of the certificate representing the securities to be exercised, or in the case of global securities, as described below under Legal Ownership and Book-Entry Issuance, by delivery of an exercise notice for those warrants or rights, together with certain information, and payment to any agent in immediately available funds, as provided in the prospectus supplement, of the required purchase amount, if any. Upon receipt of payment and the certificate or exercise notice properly executed at the office indicated in the prospectus supplement, we will, in the time period the relevant agreement provides, issue and deliver the securities or other property purchasable upon such exercise. If fewer than all of the warrants or rights represented by such certificates are exercised, a new certificate will be issued for the remaining amount of warrants or rights.

If mentioned in the prospectus supplement, securities may be surrendered as all or part of the exercise price for warrants or rights.

Antidilution Provisions

In the case of warrants or rights to purchase common stock, the exercise price payable and the number of shares of common stock purchasable upon warrant exercise may be adjusted in certain events, including:

the issuance of a stock dividend to common stockholders or a combination, subdivision or reclassification of common stock;

the issuance of rights, warrants or options to all common and preferred stockholders entitling them to purchase common stock for an aggregate consideration per share less than the current market price per share of common stock;

any distribution to our common stockholders of evidences of our indebtedness of assets, excluding cash dividends or distributions referred to above; and

any other events mentioned in the prospectus supplement.

The prospectus supplement will describe which, if any, of these provisions shall apply to a particular series of warrants or rights. Unless otherwise specified in the applicable prospectus supplement, no adjustment in the number of shares purchasable upon warrant or right exercise will be required until cumulative adjustments require an adjustment of at least 1% of such number and no fractional shares will be issued upon warrant or right exercise, but we will pay the cash value of any fractional shares otherwise issuable.

Modification

We and any agent for any series of warrants or rights may amend any warrant or rights agreement and the terms of the related warrants or rights by executing a supplemental agreement, without any such warrant holders or rightholders consent, for the purpose of:

curing any ambiguity or any defective or inconsistent provision contained in the agreement, or making any other corrections to the agreement that are not inconsistent with the provisions of the warrant or rights certificates;

evidencing the succession of another corporation to us and its assumption of our covenants contained in the agreement and the securities;

appointing a successor depository, if the securities are issued in the form of global securities;

evidencing a successor agent's acceptance of appointment with respect to any securities;

Table of Contents

adding to our covenants for the benefit of securityholders or surrendering any right or power we have under the agreement;

issuing warrants or rights in definitive form, if such securities are initially issued in the form of global securities; or

amending the agreement and the warrants or rights as we deem necessary or desirable and that will not adversely affect the interests of the applicable warrantholders or rightholders in any material respect.

We and any agent for any series of warrants or rights may also amend any agreement and the related warrants or rights by a supplemental agreement with the consent of the holders of a majority of the warrants or rights of any series affected by such amendment, for the purpose of adding, modifying or eliminating any of the agreement's provisions or of modifying the rights of the holders of warrants or rights. However, no such amendment that:

reduces the number or amount of securities receivable upon any exercise of any such security;

shortens the time period during which any such security may be exercised;

otherwise adversely affects the exercise rights of warrantholders or rightholders in any material respect; or

reduces the number of securities the consent of holders of which is required for amending the agreement or the related warrants or rights;

may be made without the consent of each holder affected by that amendment.

Consolidation, Merger and Sale of Assets

Any agreement with respect to warrants or rights will provide that we are generally permitted to merge or consolidate with another corporation or other entity. Any such agreement will also provide that we are permitted to sell our assets substantially as an entirety to another corporation or other entity or to have another entity sell its assets substantially as an entirety to us. With regard to any series of securities, however, we may not take any of these actions unless all of the following conditions are met:

if we are not the successor entity, the person formed by the consolidation or into or with which we merge or the person to which our properties and assets are conveyed, transferred or leased must be an entity organized and existing under the laws of the United States, any state or the District of Columbia and must expressly assume the performance of our covenants under any relevant indenture, agreement or other instrument; and

we or that successor corporation must not immediately be in default under that agreement.

Enforcement by Holders of Warrants or Rights

Any agent for any series of warrants or rights will act solely as our agent under the relevant agreement and will not assume any obligation or relationship of agency or trust for any securityholder. A single bank or trust company may act as agent for more than one issue of securities. Any such agent will have no duty or responsibility in case we default in performing our obligations under the relevant agreement or warrant or right, including any duty or responsibility to initiate any legal proceedings or to make any demand upon us. Any securityholder may, without the agent's consent or consent of any other securityholder, enforce by appropriate legal action its right to exercise any warrant or right exercisable for any property.

Replacement of Certificates

We will replace any destroyed, lost, stolen or mutilated warrant or rights certificate upon delivery to us and any applicable agent of satisfactory evidence of the ownership of that certificate and of its destruction, loss, theft or mutilation, and (in the case of mutilation) surrender of that certificate to us or any applicable agent, unless we have, or the agent has, received notice that the certificate has been acquired by a bona fide purchaser. That securityholder will also be required to provide indemnity satisfactory to us and the relevant agent before a replacement certificate will be issued.

Table of Contents

Title

Zions, any agents for any series of warrants or rights and any of their agents may treat the registered holder of any certificate as the absolute owner of the securities evidenced by that certificate for any purpose and as the person entitled to exercise the rights attaching to the warrants or rights so requested, despite any notice to the contrary. See Legal Ownership and Book-Entry Issuance.

DESCRIPTION OF STOCK PURCHASE CONTRACTS WE MAY OFFER

Please note that in this section entitled Description of Stock Purchase Contracts We May Offer, references to Zions, we, our and us refer only to Zions Bancorporation and not to its consolidated subsidiaries. Also, in this section, references to holders mean those who own stock purchase contracts registered in their own names, on the books that we or our agent maintain for this purpose, and not those who own beneficial interests in stock purchase contracts registered in street name or in purchase contracts issued in book-entry form through one or more depositories. Owners of beneficial interests in the purchase contracts should read the section below entitled Legal Ownership and Book-Entry Issuance.

This section outlines some of the provisions of the stock purchase contracts, the purchase contract agreement and the pledge agreement. This information is not complete in all respects and is qualified entirely by reference to the purchase contract agreement and pledge agreement with respect to the stock purchase contracts of any particular series. The specific terms of any series of stock purchase contracts will be described in the applicable prospectus supplement. If so described in the applicable prospectus supplement, the specific terms of any series of stock purchase contracts may differ from the general description of terms presented below.

We may issue stock purchase contracts including contracts obligating holders to purchase from us and us to sell to the holders a specified or varying number of shares of common stock, preferred stock, depositary shares or other security or property, at a future date or dates. Alternatively, the stock purchase contracts may obligate us to purchase from holders, and obligate holders to sell to us, a specified or varying number of shares of common stock, preferred stock, depositary shares or other security or property. The consideration per share of common stock or preferred stock or per depositary share or other security or property may be fixed at the time the stock purchase contracts are issued or may be determined by a specific reference to a formula set forth in the stock purchase contracts. The stock purchase contracts may provide for settlement by delivery by or on behalf of Zions of shares of the underlying security or property or it may provide for settlement by reference or linkage to the value, performance or trading price of the underlying security or property. The stock purchase contracts may be issued separately or as part of stock purchase units consisting of a stock purchase contract and debt securities, preferred stock or debt obligations of third parties, including U.S. treasury securities, other stock purchase contracts or common stock, or other securities or property, securing the holders obligations to purchase or sell, as the case may be, the common stock or the preferred stock under the stock purchase contracts. The stock purchase contracts may require us to make periodic payments to the holders of the stock purchase units or vice versa, and such payments may be unsecured or prefunded on some basis and may be paid on a current or on a deferred basis. The stock purchase contracts may require holders to secure their obligations thereunder in a specified manner and may provide for the prepayment of all or part of the consideration payable by holders in connection with the purchase of the underlying security or other property pursuant to the stock purchase contracts.

The securities related to the stock purchase contracts may be pledged to a collateral agent for Zions benefit pursuant to a pledge agreement to secure the obligations of holders of stock purchase contracts to purchase the underlying security or property under the related stock purchase contracts. The rights of holders of stock purchase contracts to the related pledged securities will be subject to Zions security interest therein created by the pledge agreement. No holder of stock purchase contracts will be permitted to withdraw the pledged securities related to such stock purchase contracts from the pledge arrangement except upon the termination or early settlement of the related stock purchase contracts or in the event other securities, cash or property are made subject to the pledge agreement in lieu of the pledged securities, if permitted by the pledge agreement, or as otherwise provided in the pledge agreement. Subject to such security interest and the terms of the purchase contract agreement and the pledge agreement, each holder of a stock purchase contract will retain full beneficial ownership of the related pledged securities.

Except as described in the applicable prospectus supplement, the collateral agent will, upon receipt of distributions on the pledged securities, distribute such payments to Zions or the purchase contract agent, as provided in the pledge agreement. The purchase agent will in turn distribute payments it receives as provided in the purchase contract agreement.

Table of Contents

DESCRIPTION OF UNITS WE MAY OFFER

Please note that in this section entitled Description of Units We May Offer, references to Zions, we, our and us refer only to Zions Bancorporation and not to its consolidated subsidiaries. Also, in this section, references to holders mean those who own units registered in their own names, on the books that we or our agent maintain for this purpose, and not those who own beneficial interests in units registered in street name or in units issued in book-entry form through one or more depositaries. Owners of beneficial interests in the units should read the section below entitled Legal Ownership and Book-Entry Issuance.

This section outlines some of the provisions of the units and the unit agreements. This information may not be complete in all respects and is qualified entirely by reference to the unit agreement with respect to the units of any particular series. The specific terms of any series of units will be described in the applicable prospectus supplement. If so described the applicable prospectus supplement, the specific terms of any series of units may differ from the general description of terms presented below.

We may issue units comprised of one or more debt securities, shares of common stock, shares of preferred stock, stock purchase contracts, warrants, rights and other securities in any combination. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. The unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately, at any time or at any time before a specified date.

The applicable prospectus supplement may describe:

the designation and terms of the units and of the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;

any provisions of the governing unit agreement that differ from those described below; and

any provisions for the issuance, payment, settlement, transfer or exchange of the units or of the securities comprising the units. The provisions described in this section, as well as those described under Description of Debt Securities We May Offer, Description of Preferred Stock We May Offer, Description of Our Capital Stock, Description of Warrants or Other Rights We May Offer and Description of Stock Purchase Contracts We May Offer, will apply to the securities included in each unit, to the extent relevant.

Issuance in Series

We may issue units in such amounts and in as many distinct series as we wish. We may also reopen a previously issued series of units and issue additional units of that series. This section summarizes terms of the units that apply generally to all series. Most of the financial and other specific terms of your series will be described in the applicable prospectus supplement. Those terms may vary from the terms described here.

Unit Agreements

We will issue the units under one or more unit agreements to be entered into between us and a bank or other financial institution, as unit agent. We may add, replace or terminate unit agents from time to time. We will identify the unit agreement under which each series of units will be issued and the unit agent under that agreement in the applicable prospectus supplement.

The following provisions will generally apply to all unit agreements unless otherwise stated in the applicable prospectus supplement.

Table of Contents

Enforcement of Rights

The unit agent under a unit agreement will act solely as our agent in connection with the units issued under that agreement. The unit agent will not assume any obligation or relationship of agency or trust for or with any holders of those units or of the securities comprising those units. The unit agent will not be obligated to take any action on behalf of those holders to enforce or protect their rights under the units or the included securities.

Except as indicated in the next paragraph, a holder of a unit may, without the consent of the unit agent or any other holder, enforce its rights as holder under any security included in the unit, in accordance with the terms of that security and the indenture, warrant agreement, rights agreement or other instrument under which that security is issued. Those terms are described elsewhere in this prospectus under the sections relating to debt securities, preferred stock, common stock, warrants and capital securities, as relevant.

Notwithstanding the foregoing, a unit agreement may limit or otherwise affect the ability of a holder of units issued under that agreement to enforce its rights, including any right to bring a legal action, with respect to those units or any securities, other than debt securities, that are included in those units. Limitations of this kind will be described in the applicable prospectus supplement.

Modification Without Consent of Holders

We and the applicable unit agent may amend any unit or unit agreement without the consent of any holder:

to cure any ambiguity;

to correct or supplement any defective or inconsistent provision; or

to make any other change that we believe is necessary or desirable and will not adversely affect the interests of the affected holders in any material respect.

We do not need any approval to make changes that affect only units to be issued after the changes take effect. We may also make changes that do not adversely affect a particular unit in any material respect, even if they adversely affect other units in a material respect. In those cases, we do not need to obtain the approval of the holder of the unaffected unit; we need only obtain any required approvals from the holders of the affected units.

Modification With Consent of Holders

We may not amend any particular unit or a unit agreement with respect to any particular unit unless we obtain the consent of the holder of that unit, if the amendment would:

impair any right of the holder to exercise or enforce any right under a security included in the unit if the terms of that security require the consent of the holder to any changes that would impair the exercise or enforcement of that right; or

reduce the percentage of outstanding units or any series or class the consent of whose holders is required to amend that series or class, or the applicable unit agreement with respect to that series or class, as described below.

Any other change to a particular unit agreement and the units issued under that agreement would require the following approval:

Edgar Filing: ZIONS BANCORPORATION /UT/ - Form 424B2

If the change affects only the units of a particular series issued under that agreement, the change must be approved by the holders of a majority of the outstanding units of that series; or

If the change affects the units of more than one series issued under that agreement, it must be approved by the holders of a majority of all outstanding units of all series affected by the change, with the units of all the affected series voting together as one class for this purpose.

Table of Contents

These provisions regarding changes with majority approval also apply to changes affecting any securities issued under a unit agreement, as the governing document.

In each case, the required approval must be given by written consent.

Unit Agreements Will Not Be Qualified Under Trust Indenture Act

No unit agreement will be qualified as an indenture, and no unit agent will be required to qualify as a trustee, under the Trust Indenture Act. Therefore, holders of units issued under unit agreements will not have the protections of the Trust Indenture Act with respect to their units.

Mergers and Similar Transactions Permitted; No Restrictive Covenants or Events of Default

The unit agreements will not restrict our ability to merge or consolidate with, or sell our assets to, another corporation or other entity or to engage in any other transactions. If at any time we merge or consolidate with, or sell our assets substantially as an entirety to, another corporation or other entity, the successor entity will succeed to and assume our obligations under the unit agreements. We will then be relieved of any further obligation under these agreements.

The unit agreements will not include any restrictions on our ability to put liens on our assets, including our interests in our subsidiaries, nor will they restrict our ability to sell our assets. The unit agreements also will not provide for any events of default or remedies upon the occurrence of any events of default.

Governing Law

The unit agreements and the units will be governed by New York law.

Form, Exchange and Transfer

We will issue each unit in global i.e., book-entry form only. Units in book-entry form will be represented by a global security registered in the name of a depository, which will be the holder of all the units represented by the global security. Those who own beneficial interests in a unit will do so through participants in the depository's system, and the rights of these indirect owners will be governed solely by the applicable procedures of the depository and its participants. We describe book-entry securities below under Legal Ownership and Book-Entry Issuance.

In addition, we will issue each unit in registered form, unless we say otherwise in the applicable prospectus supplement. Bearer securities would be subject to special provisions, as we describe below under Securities Issued in Bearer Form.

Each unit and all securities comprising the unit will be issued in the same form.

If we issue any units in registered, non-global form, the following will apply to them:

The units will be issued in the denominations stated in the applicable prospectus supplement. Holders may exchange their units for units of smaller denominations or combined into fewer units of larger denominations, as long as the total amount is not changed.

Holders may exchange or transfer their units at the office of the unit agent. Holders may also replace lost, stolen, destroyed or mutilated units at that office. We may appoint another entity to perform these functions or perform them ourselves.

Holders will not be required to pay a service charge to transfer or exchange their units, but they may be required to pay for any tax or other governmental charge associated with the transfer or exchange. The transfer or exchange, and any replacement, will be made only if our transfer agent is satisfied with the holder's proof of legal ownership. The transfer agent may also require an indemnity before replacing any units.

Table of Contents

If we have the right to redeem, accelerate or settle any units before their maturity, and we exercise our right as to less than all those units or other securities, we may block the exchange or transfer of those units during the period beginning 15 days before the day we mail the notice of exercise and ending on the day of that mailing, in order to freeze the list of holders to prepare the mailing. We may also refuse to register transfers of or exchange any unit selected for early settlement, except that we will continue to permit transfers and exchanges of the unsettled portion of any unit being partially settled. We may also block the transfer or exchange of any unit in this manner if the unit includes securities that are or may be selected for early settlement.

Only the depository will be entitled to transfer or exchange a unit in global form, since it will be the sole holder of the unit.

Payments and Notices

In making payments and giving notices with respect to our units, we will follow the procedures we plan to use with respect to our debt securities, where applicable. We describe those procedures above under [Description of Debt Securities We May Offer](#) [Payment Mechanics for Debt Securities in Registered Form](#) and [Description of Debt Securities We May Offer](#) [Notices](#).

Table of Contents

DESCRIPTION OF OUR CAPITAL STOCK

Please note that in this section entitled Description of Our Capital Stock, references to Zions, we, our and us refer only to Zions Bancorporation and not to its consolidated subsidiaries. Also, in this section, references to holders mean those who own shares of our capital stock, registered in their own names, on the books that the registrar or we maintain for this purpose, and not those who own beneficial interests in shares registered in street name or in shares issued in book-entry form through one or more depositaries. Owners of beneficial interests in shares of our capital stock should also read the section entitled Legal Ownership and Book-Entry Issuance.

The following summary description of our capital stock is based on the provisions of our restated articles of incorporation, as amended, or articles of incorporation, and restated bylaws, or bylaws, and the applicable provisions of the Utah Revised Business Corporation Act, or the UBCA. This description is not complete and is subject to, and is qualified in its entirety by reference to our articles of incorporation, bylaws and the applicable provisions of the UBCA. For information on how to obtain copies of our articles of incorporation and bylaws, see Where You Can Find More Information.

Authorized Capital

Our articles of incorporation authorize us to issue 353,000,000 shares of capital stock, without par value, of which:

350,000,000 shares are designated as common stock, approximately 115,336,203 shares of which were outstanding as of March 26, 2009; and

3,000,000 shares are designated as preferred stock,

240,000 shares of which are designated as Series A Floating-Rate Non-Cumulative Perpetual Preferred Stock (Series A Preferred Stock), all of which were issued and outstanding as of the date of this prospectus;

150,000 shares of which are designated as 9.50% Series C Non-Cumulative Perpetual Preferred Stock (Series C Preferred Stock), 46,949.275 of which were issued and outstanding as of the date of this prospectus; and

1,400,000 shares of Fixed Rate Cumulative Perpetual Preferred Stock, Series D (Series D Preferred Stock), all of which were issued and outstanding as of the date of this prospectus, in each case with a liquidation preference of \$1,000 per share of preferred stock.

Common Stock

We may offer from time to time shares of our common stock. We may also offer common stock issuable upon the conversion of debt securities or preferred stock, the exercise of warrants and pursuant to stock purchase contracts.

Voting Rights

Unless otherwise provided in our articles of incorporation in the UBCA, or other applicable law, the holders of common stock of Zions are entitled to voting rights for the election of directors and for other purposes, subject to voting rights which may in the future be granted to subsequently created series of preferred stock. Shares of Zions common stock do not have cumulative voting rights.

Table of Contents

Dividend and Liquidation Rights

The holders of outstanding shares of our common stock are entitled to receive dividends when and if declared by the Zions board out of any funds legally available therefor, and are entitled upon liquidation, after claims of creditors and preferences of any series of preferred stock hereafter authorized, to receive pro rata the net assets of Zions. Holders of Zions common stock have no preemptive or conversion rights.

Certain Provisions of Utah Law and of Our Articles of Incorporation and Bylaws

Zions is incorporated under the laws of the State of Utah and, accordingly, the rights of our shareholders are governed by our articles of incorporation, our bylaws and the laws of the State of Utah, including the UBCA.

Certain Anti-Takeover Matters

Our articles of incorporation and bylaws include a number of provisions that may have the effect of encouraging persons considering unsolicited tender offers or other unilateral takeover proposals to negotiate with our board of directors rather than pursue non-negotiated takeover attempts. These provisions include:

Classification of the Board of Directors. Our articles of incorporation currently divide our board of directors into three classes as nearly equal in size as possible. Any effort to obtain control of our board by causing the election of a majority of the board may require more time than would be required without a staggered election structure. At our 2009 Annual Meeting, our shareholders will be asked to adopt an amendment to our articles of incorporation eliminating the classified structure of the board and removing the two-thirds voting requirement for changes in board classification. No assurances can be given as to the outcome of the proposed vote. If adopted by two-thirds of the outstanding voting stock entitled to vote thereon, declassification of the board would be phased-in beginning in 2010.

Provisions Regarding Election/Removal of Directors. Our articles of incorporation provide that, while shareholders generally may act by written consent, consents from 100% of our shareholders are required to elect directors by written consent. Our articles of incorporation and bylaws do not authorize cumulative voting for directors.

Our bylaws also provide that a vacancy on the board of directors may be filled by the shareholders or the board of directors. However, if the directors remaining in office constitute less than a quorum of the board, they may fill the vacancy by the affirmative vote of a majority of all directors remaining in office. Our articles of incorporation further provide that, while the shareholders may remove any director for or without cause, it may only be done with the affirmative vote of the holders of two-thirds of the outstanding shares then entitled to vote at an election of directors.

Advance Notice Requirements for Director Nominations and Presentation of Business at Meetings. Our bylaws specify a procedure for shareholders to follow in order to bring business before an annual meeting of the shareholders. Generally, notice of any proposal to be presented by any shareholder or the name of any person to be nominated by any shareholder for election as a director of Zions at any annual meeting of shareholders must be delivered to Zions at least 120 days, but not more than 150 days, prior to the date Zions proxy statement was released to shareholders in connection with the annual meeting for the preceding year. The notice must also provide certain information set forth in Zions bylaws.

Restrictions on Certain Business Transactions. Our articles of incorporation provide that certain business transactions with a person who owns, directly or indirectly, over 10% of our outstanding stock must be approved by a majority vote of the continuing directors or a shareholder vote of at least 80% of outstanding voting shares. Such business transactions include mergers, consolidations, sales of all or more than 20% of the corporation's assets, issuance of securities of the corporation, reclassifications that increase voting power of the interested shareholder, or liquidations, spin-offs or dissolution of the corporation. Zions is also subject to the Utah Control Shares Acquisitions Act, which limits the ability of persons acquiring more than 20% of Zions' voting stock to vote those shares absent approval of voting rights by the holders of a majority of all shares entitled to be cast, excluding all interested shares.

Table of Contents

Blank Check Preferred Stock. Our articles of incorporation provide for 3,000,000 shares of preferred stock. As of the date of this prospectus, we had issued and outstanding 240,000 shares of our Series A Preferred Stock, 46,949,275 shares of our Series C Preferred Stock and 1,400,000 shares of our Series D Preferred Stock, in each case with a \$1,000 liquidation preference per share. The existence of authorized but unissued shares of preferred may enable the board to render more difficult or to discourage an attempt to obtain control of us by means of a merger, tender offer, proxy contest or otherwise. For example, if in the due exercise of its fiduciary obligations, the board determines that a takeover proposal is not in the best interests of Zions, the board could cause shares of preferred stock to be issued without shareholder approval in one or more private offerings or other transactions that might dilute the voting or other rights of the proposed acquiror or insurgent shareholder or shareholder group. In this regard, the articles of incorporation grant our board of directors broad power to establish the rights and preferences of authorized and unissued shares of preferred stock. The issuance of shares of preferred stock could decrease the amount of earnings and assets available for distribution to holders of common stock. The issuance may also adversely affect the rights and powers, including voting rights, of such holders and may have the effect of delaying, deterring or preventing a change in control of Zions.

Supermajority Vote for Certain Amendments to Articles of Incorporation

Our articles of incorporation provide that they may be amended or repealed as permitted by Utah law. The UBCA permits an amendment of the articles of incorporation by approval of a majority of the board of directors and a majority of the outstanding common stock entitled to vote. However, our articles of incorporation further provide that any amendment to Articles IX (regarding the classified board), X (regarding quorum requirement and management of Zions by the board) and XVI (regarding amendment of our articles of incorporation) requires approval by two-thirds of the outstanding shares, and amendment of Article XVII (regarding business transactions with related persons) requires approval by 80% of the outstanding shares. As discussed above under **Certain Anti-Takeover Matters Classification of the Board of Directors**, our shareholders will be asked at our 2009 Annual Meeting to adopt an amendment to our articles of incorporation removing the supermajority voting requirement with respect to Article IX. No assurances can be given as to the outcome of the proposed vote.

Indemnification and Liability Elimination Provisions

Under our articles of incorporation, directors are not personally liable to us or our shareholders for monetary damages for breaches of fiduciary duty as a director, except (1) for breach of the director's duty of loyalty to Zions or its shareholders, (2) for acts or omissions not in good faith or which involve intentional misconduct or knowing violations of law, or (3) any transaction from which the director derived an improper personal benefit.

The UBCA and our bylaws provide that we may indemnify a director, officer, employee or agent if he or she acted in good faith and in a manner he or she reasonably believed to be in, or not opposed to, the best interests of Zions and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful.

Listing; Exchange, Transfer Agent and Registrar

Our common stock is listed on the Nasdaq Global Select Market. The transfer agent and registrar for our common stock is Zions First National Bank.

Preferred Stock

Series A Preferred Stock

The Series A Preferred Stock was issued in December 2006 in the form of 9,600,000 depositary shares with each depositary share representing a $\frac{1}{40}$ th ownership interest in a share of the preferred stock. Dividends are non-cumulative and are computed at an annual rate equal to the greater of three-month LIBOR plus 0.52%, or 4.0%. Dividend payments are made on the 15th day of March, June, September, and December.

Table of Contents

Ranking

Shares of the Series A Preferred Stock rank senior to our common stock, equally with our Series C Preferred Stock and Series D Preferred Stock and at least equally with each other series of our preferred stock we may issue (except for any senior series that may be issued with the requisite consent of the holders of the Series A Preferred Stock, the Series C Preferred Stock and the Series D Preferred Stock and any other class or series whose vote is required) with respect to the payment of dividends and distributions of assets upon liquidation, dissolution or winding up.

Liquidation Rights

Upon any voluntary or involuntary liquidation, dissolution or winding up of Zions, holders of the Series A Preferred Stock are entitled to receive out of assets of Zions available for distribution to shareholders, after satisfaction of liabilities to creditors and subject to the rights of holders of any securities ranking senior to the Series A Preferred Stock, before any distribution of assets is made to holders of common stock or of any of our other shares of junior stock, a liquidating distribution in the amount of the liquidation preference of \$1,000 per share (equivalent to \$25 per depositary share) plus declared and unpaid dividends, without accumulation of any undeclared dividends. Holders of the Series A Preferred Stock will not be entitled to any other amounts from us after they have received their full liquidating distribution.

In any such distribution, if the assets of Zions are not sufficient to pay the liquidation preferences plus declared and unpaid dividends in full to all holders of the Series A Preferred Stock, the Series C Preferred Stock, the Series D Preferred Stock and all holders of any other shares of parity stock, the amounts paid to the holders of Series A Preferred Stock, the Series C Preferred Stock, the Series D Preferred Stock and to the holders of all parity stock will be paid pro rata in accordance with the respective aggregate liquidating distribution owed to those holders. If the liquidation preference plus declared and unpaid dividends has been paid in full to all holders of Series A Preferred Stock, Series C Preferred Stock, Series D Preferred Stock and any other shares of parity stock, the holders of our junior stock will be entitled to receive all of our remaining assets according to their respective rights and preferences.

Redemption

The Series A Preferred Stock is not subject to any mandatory redemption, sinking fund or other similar provisions. The Series A Preferred Stock is not redeemable prior to December 15, 2011. On and after that date, the Series A Preferred Stock is redeemable at our option, in whole or in part, at a redemption price equal to \$1,000 per share (equivalent to \$25 per depositary share), plus any declared and unpaid dividends, without accumulation of any undeclared dividends. Holders of Series A Preferred Stock have no right to require the redemption or repurchase of the Series A Preferred Stock.

Under the Federal Reserve's risk-based capital guidelines applicable to bank holding companies, any redemption of the Series A Preferred Stock is subject to prior approval of the Federal Reserve Board.

Voting Rights

Except as required by law and as provided below, the holders of the Series A Preferred Stock have no voting rights.

Right to Elect Two Directors Upon Non-Payment of Dividends. If and whenever dividends on any shares of the Series A Preferred Stock or any class or series of voting parity stock (as defined below) have not been declared and paid in an aggregate amount at least equal, as to any such class or series, to the amount of dividends payable on such class and series at its stated dividend rate for a period of six dividend periods, whether or not for consecutive dividend periods (a "Nonpayment"), the number of directors then constituting our board will be increased by two. Holders of all classes and series of any voting parity stock as to which a

Table of Contents

Nonpayment exists are entitled to vote as a single class for the election of the two additional members of our board of directors (the Preferred Directors), but only if the election of any such directors would not cause us to violate the listing standards of the Nasdaq Stock Market (or any other exchange on which our securities may be listed) or the rules and regulations of any other regulatory or self-regulatory body. In addition, our board of directors will at no time include more than two Preferred Directors. As used herein, voting parity stock means each class or series of preferred stock that ranks on parity with the Series A Preferred Stock as to payment of dividends and has voting rights similar to those described in this paragraph, which in this case includes both our Series C Preferred Stock and our Series D Preferred Stock.

In the event of a Nonpayment, at the written request of any holder of record of at least 20% of the outstanding shares of any voting parity stock with respect to which a Nonpayment exists addressed to our Secretary at our principal office, our Secretary will call a special meeting of the holders of all voting parity stock with respect to which a Nonpayment exists for the election of the two directors (unless such request is received less than 90 days before the date fixed for the next annual or special meeting of the shareholders, in which event such election will be held at such next annual or special meeting of shareholders). So long as these voting rights have not ceased, holders of any and all voting parity stock with respect to which a Nonpayment exists voting as a single class will continue to elect such directors at each subsequent annual meeting.

If and when full dividends have been paid for at least four dividend periods following a Nonpayment on any class or series of voting parity stock as to which a Nonpayment exists or existed, the foregoing voting rights will cease with respect to that class or series (subject to revesting in the event of each subsequent Nonpayment). If and when full dividends have been paid for at least four dividend periods on all classes and series of voting parity stock as to which a Nonpayment exists or existed, the term of office of each Preferred Director so elected will immediately terminate and the number of directors on the board of directors will automatically decrease by two.

Other Voting Rights. So long as any shares of Series A Preferred Stock remain outstanding:

the affirmative vote or consent of the holders of at least two-thirds of all outstanding shares of Series A Preferred Stock and any class or series of preferred stock that ranks on a parity with such series of preferred stock as to payment of dividends and the distribution of assets upon liquidation, dissolution or winding-up of Zions (which in this case would include our Series C Preferred Stock and Series D Preferred Stock), voting together as a class, is required to issue, authorize or increase the authorized amount of, or to issue or authorize any obligation or security convertible into or evidencing the right to purchase, any class or series of stock ranking senior to such series of preferred stock with respect to the payment of dividends or the distribution of assets upon liquidation, dissolution or winding-up of Zions; and

the affirmative vote or consent of the holders of at least two-thirds of all shares of such series of preferred stock at the time outstanding, voting separately as a class, is required to amend any provisions of Zion's articles of incorporation, whether by merger, consolidation or otherwise, so as to materially and adversely affect the powers, preferences, privileges or rights of such series of preferred stock, taken as a whole.

Series C Preferred Stock

The Series C Preferred Stock offering was completed on July 2, 2008. The offering was issued in the form of 1,877,971 depository shares representing a ¹/₄₀th ownership interest in a share of the preferred stock. Dividends are non-cumulative and are computed at a rate per annum equal to 9.50%. Dividend payments are made on the 15th day of March, June, September, and December.

Ranking

Shares of the Series C Preferred Stock rank senior to our common stock, equally with our Series A Preferred Stock and Series D Preferred Stock and at least equally with each other series of our preferred stock we may issue (except for any senior series that may

Table of Contents

be issued with the requisite consent of the holders of the Series A Preferred Stock, the Series C Preferred Stock and the Series D Preferred Stock and any other class or series whose vote is required) with respect to the payment of dividends and distributions of assets upon liquidation, dissolution or winding up.

Liquidation Rights

Upon any voluntary or involuntary liquidation, dissolution or winding up of Zions, holders of the Series C Preferred Stock are entitled to receive out of assets of Zions available for distribution to shareholders, after satisfaction of liabilities to creditors and subject to the rights of holders of any securities ranking senior to the Series C Preferred Stock, before any distribution of assets is made to holders of common stock or of any of our other shares of junior stock, a liquidating distribution in the amount of the liquidation preference of \$1,000 per share (equivalent to \$25 per depositary share) plus declared and unpaid dividends, without accumulation of any undeclared dividends. Holders of the Series C Preferred Stock will not be entitled to any other amounts from us after they have received their full liquidating distribution.

In any such distribution, if the assets of Zions are not sufficient to pay the liquidation preferences plus declared and unpaid dividends in full to all holders of the Series A Preferred Stock, the Series C Preferred Stock, the Series D Preferred Stock and all holders of any other shares of parity stock, the amounts paid to the holders of Series A Preferred Stock, the Series C Preferred Stock, the Series D Preferred Stock and to the holders of all parity stock will be paid pro rata in accordance with the respective aggregate liquidating distribution owed to those holders. If the liquidation preference plus declared and unpaid dividends has been paid in full to all holders of Series A Preferred Stock, Series C Preferred Stock, Series D Preferred Stock and any other shares of parity stock, the holders of our junior stock will be entitled to receive all of our remaining assets according to their respective rights and preferences.

Redemption

The Series C Preferred Stock is not subject to any mandatory redemption, sinking fund or other similar provisions. The Series C Preferred Stock is not redeemable prior to September 15, 2013. On and after that date, the Series C Preferred Stock will be redeemable at our option, in whole or in part, at a redemption price equal to \$1,000 per share (equivalent to \$25 per depositary share) and an amount equal to the dividend for the then-current quarterly dividend period (whether or not declared but without accumulation of any undeclared dividends for prior periods) accrued to but excluding the date of redemption. Holders of Series C Preferred Stock have no right to require the redemption or repurchase of the Series C Preferred Stock.

Under the Federal Reserve's risk-based capital guidelines applicable to bank holding companies, any redemption of the Series C Preferred Stock is subject to prior approval of the Federal Reserve.

Voting Rights

The voting rights of holders of the Series C Preferred Stock are substantially the same as holders of the Series A Preferred Stock. See Series A Preferred Stock Voting Rights.

Series D Preferred Stock

The Series D Preferred Stock was issued on November 14, 2008 to the U.S. Department of the Treasury (the "U.S. Treasury") with an aggregate liquidation preference of \$1.4 billion. The Emergency Economic Stabilization Act of 2008 authorized the U.S. Treasury to appropriate funds to eligible financial institutions participating in the Troubled Asset Relief Program Capital Purchase Program. The capital investment includes the issuance of preferred shares of the Company and a warrant to purchase common shares pursuant to a Letter Agreement and a Securities Purchase Agreement (collectively, the "TARP Agreement"). Cumulative dividends accrue at a rate of 5% per annum for the first five years, and at a rate of 9% per annum thereafter. Dividend payments are made on the 15th day of February, May, August and November. The TARP Agreement subjects us to certain restrictions and conditions including those related to common dividends, share repurchases, executive compensation, and corporate governance.

Table of Contents

Ranking

Shares of the Series D Preferred Stock rank senior to our common stock, equally with our Series A Preferred Stock and Series C Preferred Stock and at least equally with each other series of our preferred stock we may issue (except for any senior series that may be issued with the requisite consent of the holders of the Series C Preferred Stock and any other class or series whose vote is required) with respect to the payment of dividends and distributions of assets upon liquidation, dissolution or winding up.

Liquidation Rights

In the event of any liquidation, dissolution or winding up of the affairs of Zions, whether voluntary or involuntary, holders of the Series D Preferred Stock are entitled to receive for each share of Series D Preferred Stock, out of the assets of Zions or proceeds thereof (whether capital or surplus) available for distribution to shareholders of Zions, subject to the rights of any creditors of Zions, before any distribution of such assets or proceeds is made to or set aside for the holders of common stock and any other stock of the Zions ranking junior to the Series D Preferred Stock as to such distribution, payment in full in an amount equal to the sum of (i) \$1,000 per share and (ii) the amount of any accrued and unpaid dividends, whether or not declared, to the date of payment (such amounts collectively, the liquidation preference).

If in any such distribution, the assets of Zions or proceeds thereof are not sufficient to pay in full the amounts payable with respect to all outstanding shares of the Series D Preferred Stock and the corresponding amounts payable with respect of any other stock of Zions ranking equally with Series D Preferred Stock as to such distribution, holders of Series D Preferred Stock and the holders of such other stock will share ratably in any such distribution in proportion to the full respective distributions to which they are entitled.

If the liquidation preference has been paid in full to all holders of Series D Preferred Stock and the corresponding amounts payable with respect of any other stock of Zions ranking equally with the Series Preferred Stock as to such distribution has been paid in full, the holders of our other stock are entitled to receive all of our remaining assets (or proceeds thereof) according to their respective rights and preferences.

Redemption

The Series D Preferred Stock is not subject to any mandatory redemption, sinking fund or other similar provisions. Shares of Series D Preferred Stock are redeemable at our option at 100% of their liquidation preference or \$1,000 per share plus accrued and unpaid dividends, whether or not declared; *provided, however*, that such shares may be redeemed prior to November 15, 2011 only if (i) we have raised aggregate gross proceeds in one or more Qualified Equity Offerings (as defined below) in excess of \$350 million and (ii) the aggregate redemption price does not exceed the aggregate net proceeds from such Qualified Equity Offerings.

Qualified Equity Offering means the sale and issuance for cash by us to persons other than Zions or its subsidiaries after November 14, 2008, of shares of perpetual preferred stock, common stock or any combination of such stock, that, in each case, qualify as and may be included in Tier I capital of Zions at the time of issuance under the applicable risk-based capital guidelines of the Board of Governors of the Federal Reserve System (other than any such sales and issuances made pursuant to agreements or arrangements entered into, or pursuant to financing plans which were publicly announced, on or prior to October 13, 2008).

Holders of Series D Preferred Stock have no right to require the redemption or repurchase of the Series C Preferred Stock.

Under the Federal Reserve's risk-based capital guidelines applicable to bank holding companies, any redemption of the Series D Preferred Stock is subject to prior approval of the Federal Reserve.

Table of Contents

Voting Rights

Except as required by law and as provided below, the holders of the Series D Preferred Stock have no voting rights.

Right to Elect Two Directors Upon Non-Payment of Dividends. The voting rights of the Series D Preferred Stock in the event of our nonpayment of dividends on the Series D Preferred Stock for an aggregate of six quarterly dividend periods or more, whether or not consecutive, are substantially the same as holders of the Series A Preferred Stock. See Series A Preferred Stock Voting Rights Right to Elect Two Directors Upon Non-Payment of Dividends.

Other Voting Rights. So long as any shares of Series D Preferred Stock are outstanding, in addition to any other vote or consent of stockholders required by law or by our articles of incorporation, the vote or consent of the holders of at least 66 2/3% of the shares of Series D Preferred Stock at the time outstanding, voting as a separate class, given in person or by proxy, either in writing without a meeting or by vote at any meeting called for the purpose, is necessary for effecting or validating:

any amendment or alteration of the articles of amendment for the Series D Preferred Stock or our articles of incorporation to authorize or create or increase the authorized amount of, or any issuance of, any shares of, or any securities convertible into or exchangeable or exercisable for shares of, any class or series of our capital stock ranking senior to the Series D Preferred Stock with respect to either or both the payment of dividends and/or the distribution of assets on any liquidation, dissolution or winding;

any amendment, alteration or repeal of any provision of the articles of amendment for the Series D Preferred Stock or our articles of incorporation (including, unless no vote on such merger or consolidation is required as provided below, any amendment, alteration or repeal by means of a merger, consolidation or otherwise) so as to adversely affect the rights, preferences, privileges or voting powers of the Series D Preferred Stock; or

any consummation of a binding share exchange or reclassification involving the Series D Preferred Stock, or of our merger or consolidation with another corporation or other entity, unless in each case:

the shares of Series D Preferred Stock remain outstanding or, in the case of any such merger or consolidation with respect to which we are not the surviving or resulting entity, are converted into or exchanged for preference securities of the surviving or resulting entity or its ultimate parent, and

such shares remaining outstanding or such preference securities, as the case may be, have such rights, preferences, privileges and voting powers, and limitations and restrictions thereof, taken as a whole, as are not materially less favorable to the holders thereof than the rights, preferences, privileges and voting powers, and limitations and restrictions thereof, of Series D Preferred Stock immediately prior to such consummation, taken as a whole.

TARP Warrant

On November 14, 2008, we issued and sold to the U.S. Treasury, in connection with the issuance and sale of the Series D Preferred Stock, a ten-year warrant (the TARP Warrant) to purchase up to 5,789,909 shares of our common stock at an exercise price of \$36.27 per share. As of the date of this prospectus, we have no warrants other than the TARP Warrant outstanding. See Preferred Stock Series D Preferred Stock.

Table of Contents

Rights as a Shareholder

The warrant holder has no rights or privileges of the holders of our common stock, including any voting rights, until (and then only to the extent) the TARP Warrant has been exercised.

Adjustments to the TARP Warrant

Adjustments in Connection with Stock Splits, Subdivisions, Reclassifications and Combinations

The number of shares for which the TARP Warrant may be exercised and the exercise price applicable to the TARP Warrant will be proportionately adjusted in the event we pay dividends or make distributions on our common stock in shares of common stock, or subdivide, combine or reclassify outstanding shares of our common stock.

Anti-dilution Adjustment

Until the earlier of November 14, 2011 and the date the U.S. Treasury no longer holds the TARP Warrant (and other than in certain permitted transactions described below), if we issue any shares of common stock (or securities convertible or exercisable into common stock) for less than 90% of the market price of the common stock on the last trading day prior to pricing such shares, then the number of shares of common stock into which the TARP Warrant is exercisable and the exercise price will be adjusted. Permitted transactions include issuances:

as consideration for or to fund the acquisition of businesses and/or related assets;

in connection with employee benefit plans and compensation related arrangements in the ordinary course and consistent with past practice approved by our board of directors;

in connection with public or broadly marketed offerings and sales of common stock or convertible securities for cash conducted by us or our affiliates pursuant to registration under the Securities Act of 1933, as amended (the "Securities Act") or Rule 144A thereunder on a basis consistent with capital-raising transactions by comparable financial institutions; and

in connection with the exercise of preemptive rights on terms existing as of November 14, 2008.

Other Distributions

If we declare any dividends or distributions other than our historical, ordinary cash dividends, the exercise price of the TARP Warrant will be adjusted to reflect such distribution.

Certain Repurchases

If we effect a pro rata repurchase of common stock, both the number of shares issuable upon exercise of the TARP Warrant and the exercise price will be adjusted.

Business Combinations

In the event of a merger, consolidation or similar transaction involving Zions and requiring shareholder approval, the warrant holder's right to receive shares of our common stock upon exercise of the TARP Warrant will be converted into the right to exercise the TARP Warrant for the consideration that would have been payable to the warrant holder with respect to the shares of common stock for which the TARP Warrant may be exercised, as if the TARP Warrant had been exercised prior to such merger, consolidation or similar transaction.

Table of Contents

DESCRIPTION OF PREFERRED STOCK WE MAY OFFER

*Please note that in this section entitled **Description of Preferred Stock We May Offer**, references to **Zions**, **we**, **our** and **us** refer only to Zions Bancorporation and not to its consolidated subsidiaries. Also, in this section, references to **holders** mean those who own shares of preferred stock registered in their own names, on the books that the registrar or we maintain for this purpose, and not those who own beneficial interests in shares registered in street name or in shares issued in book-entry form through one or more depositaries. Owners of beneficial interests in shares of preferred stock should also read the section entitled **Legal Ownership and Book-Entry Issuance**.*

The following description summarizes the material provisions of the preferred stock we may offer. This description is not complete and is subject to, and is qualified in its entirety by reference to our restated articles of incorporation, as amended, which we will refer to as our articles of incorporation. The specific terms of any series of preferred stock will be described in the applicable prospectus supplement, and may differ from the general description of the terms presented below. Any series of preferred stock we issue will be governed by our articles of incorporation and by the articles of amendment related to that series. We will file the articles of amendment with the SEC and incorporate it by reference as an exhibit to our registration statement at or before the time we issue any preferred stock of that series of authorized preferred stock.

Authorized Preferred Stock

Our articles of incorporation authorize us to issue 3,000,000 shares of preferred stock, without par value. We may issue preferred stock from time to time in one or more series, without stockholder approval, when authorized by our board of directors or a duly authorized committee thereof. We may also reopen a previously issued series of preferred stock and issue additional preferred stock of that series. Upon issuance of a particular series of preferred stock, our board of directors, or a duly authorized committee thereof, is authorized to specify:

the serial designation of the series and the number of shares to be included in such series;

dividend rights for the series (which may be cumulative or non-cumulative) and any restrictions or conditions on the payment of dividends;

the redemption price, if any, and the terms and conditions of redemption;

any sinking fund provisions for the purchase or redemption of the series;

if the series is convertible or exchangeable, the terms and conditions of conversion or exchange;

voting rights;

the amounts payable to holders upon our liquidation, dissolution or winding up; and

any other rights, preferences and limitations relating to the series.

The board's ability to authorize, without stockholder approval, the issuance of preferred stock with conversion and other rights may adversely affect the rights of holders of our common stock or other series of preferred stock that may be outstanding.

Please see **Description of Our Capital Stock Authorized Capital** and **Description of Our Capital Stock Preferred Stock** for a description of our authorized and issued preferred stock.

Specific Terms of a Series of Preferred Stock We May Offer

The preferred stock we may offer will be issued in one or more series. Shares of preferred stock, when issued against full payment of its purchase price, will be fully paid and non-assessable. Their liquidation preference, however, will not be indicative of the price at which they will actually trade after their issue. If necessary, the prospectus supplement will provide a description of U.S. Federal income tax consequences relating to the purchase and ownership of the series of preferred stock offered by that prospectus supplement.

Table of Contents

The preferred stock will have the dividend, liquidation, redemption and voting rights discussed below, unless otherwise described in a prospectus supplement relating to a particular series. A prospectus supplement will discuss the following features of the series of preferred stock to which it relates:

the designations and stated value per share;

the number of shares offered;

the amount of liquidation preference per share;

the initial public offering price at which the preferred stock will be issued;

the dividend rate, the method of its calculation, the dates on which dividends would be paid and the dates, if any, from which dividends would cumulate;

any redemption or sinking fund provisions;

any conversion or exchange rights; and

any additional voting, dividend, liquidation, redemption, sinking fund and other rights, preferences, privileges, limitations and restrictions.

Rank

Unless otherwise stated in the applicable prospectus supplement, the preferred stock will have priority over our common stock with respect to dividends and distribution of assets, but will rank junior to all our outstanding indebtedness for borrowed money. Any series of preferred stock could rank senior, equal or junior to our other capital stock, as may be specified in the applicable prospectus supplement, as long as our articles of incorporation so permit.

Dividends

Holders of each series of preferred stock shall be entitled to receive cash dividends to the extent specified in the applicable prospectus supplement when, as and if declared by our board of directors, from funds legally available for the payment of dividends. The rates and dates of payment of dividends of each series of preferred stock will be stated in the applicable prospectus supplement. Dividends will be payable to the holders of record of preferred stock as they appear on our books on the record dates fixed by our board of directors. Dividends on any series of preferred stock may be cumulative or non-cumulative, as discussed in the applicable prospectus supplement.

Conversion or Exchange Rights

Shares of a series of preferred stock may be exchangeable or convertible into shares of our common stock, another series of preferred stock or other securities or property. The conversion or exchange may be mandatory or optional. The applicable prospectus supplement will specify whether the preferred stock being offered has any conversion or exchange features, and will describe all the related terms and conditions.

Redemption

The terms, if any, on which shares of preferred stock of a series may be redeemed will be discussed in the applicable prospectus supplement. Before exercising its option to redeem any shares of preferred stock, we will obtain the approval of the Federal Reserve Board if then required by applicable law.

Liquidation

Upon any voluntary or involuntary liquidation, dissolution or winding up of the affairs of Zions, holders of each series of preferred stock will be entitled to receive distributions upon liquidation in the amount described in the applicable prospectus supplement plus an amount equal to any accrued and unpaid dividends for the then-current dividend period (including any accumulation in respect of unpaid dividends for prior dividend periods, if dividends on that series of preferred stock are cumulative).

Table of Contents

These distributions will be made before any distribution is made on any securities ranking junior to the preferred stock with respect to liquidation, including our common stock. If the liquidation amounts payable relating to the preferred stock of any series and any other securities ranking on a parity regarding liquidation rights are not paid in full, the holders of the preferred stock of that series will share ratably in proportion to the full liquidation preferences of each security. Holders of our preferred stock will not be entitled to any other amounts from us after they have received their full liquidation preference.

Voting Rights

The holders of shares of preferred stock will have no voting rights, except:

as otherwise stated in the applicable prospectus supplement;
