The Benefits Committee

Costco 401(k) Retirement Plan:

We have audited the accompanying statements of net assets available for benefits of the Costco 401(k) Retirement Plan (the Plan ) as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance that the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**Table of Contents**

**COSTCO 401(k) RETIREMENT PLAN**

**Notes to Financial Statements**

**December 31, 2009 and 2008**

**(1) Plan Description**

The following description of the Costco 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions. Participants in the Plan are employees of Costco Wholesale Corporation (the Company).

The Plan is a defined contribution plan established by the Company under the provisions of Section 401(a) of the Internal Revenue Code (the IRC) that includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

**(a) Eligibility**

The Plan allows certain employees over 18 years of age to make salary deferral contributions and receive matching contributions commencing the first day of the month following the completion of 90 days of employment. Participants are eligible for the Company's discretionary contribution after completing one year of service, working 1,000 hours in the previous 12 months, and attaining the age of 18.

**(b) Employee Contributions**

Each year, participants may contribute from 1% to 50% of their compensation before income taxes, subject to certain limitations set by the Internal Revenue Service (IRS). Participants may also contribute amounts representing distributions from other qualified benefit or contribution plans (known as rollover contributions).

All newly eligible employees are automatically enrolled in the Plan at a contribution rate of 3% unless the employee elects otherwise. On an active participant's employment anniversary date and each anniversary date thereafter, the percentage deferred into the Plan automatically increases by one percentage point to a maximum deferral of 15%. Employees may choose to opt out of this automatic deferral increase program.

**(c) Employer Contributions**

All Company contributions are made in cash, and invested in accordance with investment selections made by participants. If no selection has been made, then the contribution is defaulted to the age-appropriate Retirement Date Fund. Employer Contributions are allocated based on an employee's classification as either 1) a California Union Employee, or 2) an Other-than-California Union Employee.

**(1) California Union Employees**

The Company matches 50% of each employee's contribution up to a maximum employer matching contribution of \$250 per year.

The Company also makes contributions into the accounts of all eligible plan participants employed on the last day of the plan year based upon straight time hours worked during the plan year, up to a maximum of 2080 hours per calendar year. Based upon years of service, these contributions in 2009 and 2008 ranged from \$0.05 to \$0.60 per hour, totaling \$4.9 million and \$4.2 million for 2009 and 2008, respectively.

**Table of Contents****COSTCO 401(k) RETIREMENT PLAN****Notes to Financial Statements (Continued)****December 31, 2009 and 2008****(2) Other-than-California Union Employees**

The Company matches 50% of each employee's contribution up to a maximum employer matching contribution of \$500 per year.

The Company may also contribute a discretionary amount into the account of each participant that is employed by the Company on the last day of the plan year. A discretionary contribution was approved for the plan years ending December 31, 2009 and 2008 totaling \$177.7 million and \$164.1 million, respectively, and ranged from 3% to 9% of each participant's compensation based upon years of service.

**(d) Participants Accounts**

Participants' accounts are valued on a daily basis based on quoted market prices or, in the case of the Common Commingled Trust Funds, the quoted market prices of the underlying securities. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**(e) Vesting**

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the employer-match and discretionary contributions is based on years of service, according to the following schedule:

<b>Years of service</b>	<b>Percentage vested</b>
Under 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	100%

**(f) Forfeitures**

Forfeitures may be used to reduce future employer contributions or to pay administrative expenses. There were no unallocated forfeitures as of December 31, 2009 and 2008 after consideration of forfeitures used to reduce the employer discretionary contributions funded subsequent to each year. During 2009 and 2008, forfeitures totaling \$3.0 million and \$3.6 million respectively, were used to reduce employer contributions. Forfeitures, without the benefit of investment gains or losses, can be restored to a participant's account if, within five years, the participant is re-employed by the Company and repays the full dollar amount distributed because of the termination.

**(g) Investment Options**

Upon enrollment in the Plan, a participant may direct the account balance into any of the investment options currently available, as listed on the Statements of Net Assets Available for Benefits. Participants may change their investment options and transfer amounts between funds daily. T. Rowe Price is the trustee for all investments, serves as investment manager for certain registered investment company and common commingled trust funds, and provides recordkeeping of all participant accounts. Amounts may be temporarily invested in a cash account prior to investment in Costco Wholesale Corporation common stock. The age-appropriate Retirement Fund is the default investment option.

**Table of Contents**

**COSTCO 401(k) RETIREMENT PLAN**

**Notes to Financial Statements (Continued)**

**December 31, 2009 and 2008**

Effective June 2, 2008, the Plan's investment options include the Equity Index Trust Schedule C and Stable Value Trust Fund Schedule B, replacing, respectively, the Equity Index Trust Schedule A and Stable Value Trust Fund Schedule A. In addition, effective October 13, 2008, the name of the Julius Baer International Equity I Fund changed to Artio International Equity I Fund.

Dividends on the Company's stock are reinvested in the participant's Company stock account, unless a distribution is requested by the participant. During the years ended December 31, 2009 and 2008, dividends totaling approximately \$96,000 and \$64,000 respectively, were distributed to participants. A participant may direct the Trustee as to the manner in which the Company's stock allocated to the participant's account shall be voted.

***(h) Distributions***

Upon termination of employment, total disability, or death, the vested interest in a participant's account is payable in a lump sum. Participants may apply for a distribution of all or a portion of the vested interest at any time after attainment of age 59-1/2. Participants are also eligible to make hardship withdrawals from their salary deferral contributions in the event of certain financial hardships. Following a hardship withdrawal, participants are not allowed to contribute to the Plan for a period of six months.

***(i) Participant Loans***

A participant may borrow up to the lesser of \$50,000 or 45% of his or her vested account balance, calculated using the participant's pre-tax contribution, rollover, Company matching and Company discretionary contribution amounts. Only the participant's pre-tax contribution, rollover, and Company-matching amounts may be borrowed against, with a minimum loan of \$1,000. Loans are payable through payroll deductions over a period ranging up to 180 months, depending on the purpose of the loan.

The interest rate is determined by the plan administrator based on the Bank of America prime rate on the last day of the prior calendar quarter in which the loan was made plus 1% for a primary residence loan and prime rate plus 2% for a standard loan. The rates at December 31, 2009 and 2008 ranged from 4.25% to 11.5%. The loans have various maturity dates, through December 2024.

***(j) Plan Administrator***

The Plan is administered by the Benefits Committee, which is appointed by the Board of Directors of the Company.

***(k) Administrative and Investment Expenses***

All administrative and custodial fees of the Plan are paid by the Company. All investment management and transaction fees directly related to plan investments are paid by the Plan. Investment fees for 2009 and 2008 were approximately \$3.0 million and \$2.8 million, respectively.

**Table of Contents**

**COSTCO 401(k) RETIREMENT PLAN**

**Notes to Financial Statements (Continued)**

**December 31, 2009 and 2008**

**(2) Significant Accounting Policies**

**(a) Basis of Accounting**

The financial statements of the Plan are prepared under the accrual method of accounting.

**(b) Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the Plan's management to use estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosures of contingent assets and liabilities. Actual results could differ from these estimates.

**(c) Investment Valuation and Income Recognition**

The Plan invests in Company common stock, various registered investment company and common commingled trust funds that, in turn, invest in a combination of stocks, bonds and other investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and that those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Registered investment company funds and Company common stock are stated at fair value based upon quoted market prices. The T. Rowe Price Equity Index Trust Fund is a common commingled trust fund stated at fair value and valued daily based on the quoted market prices of the underlying securities. Cash is valued at cost.

The T. Rowe Price Stable Value Fund is a common commingled trust fund invested primarily in guaranteed investment contracts (GICs) and synthetic GICs. The GICs are fully benefit-responsive and are recorded at contract value, which approximates fair value. A benefit-responsive investment contract is a contract between an insurance company, a bank, a financial institution, or any financially responsible entity, with a plan that provides for a stated return on principal invested over a specified period and that permits withdrawals at contract value for benefit payments, loans, or transfers to other investment options offered to the participant by the plan. Participant withdrawals from the plan are required to be at contract value. The effective yield and crediting rate of the fund was 4.25% and 4.72% for the years ended December 31, 2009 and 2008, respectively. Contract value is equal to principal balance plus accrued interest. The fair value of the GICs is calculated by discounting the related cash flows based on current yields of similar instruments with comparable investment durations.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is a relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Plan Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis.

**Table of Contents**

**COSTCO 401(k) RETIREMENT PLAN**

**Notes to Financial Statements (Continued)**

**December 31, 2009 and 2008**

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) in fair value of investments includes the change in the fair value of assets from one period to the next, plus realized gains and losses.

**(d) Participant Loans**

Participant loans are valued at amortized cost, which approximates fair value. Interest on participant loans is included in interest on the Statements of Changes in Net Assets Available for Benefits. Loans are classified in the Statements of Net Assets Available for Benefits as an advance.

**(e) Distribution of Benefits**

Distributions of benefits are recorded when paid.

**(3) Fair Value Measurement**

Accounting Standards Codification Topic 820 (ASC 820) defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. ASC 820 also establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs when measuring fair value. The standard describes three levels of inputs:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

The following valuation techniques are used to measure fair value:

Level 1 primarily consists of financial instruments, such as Investments in Registered Investment Company funds and the Costco Common Stock Fund, whose value is based on quoted market prices, such as quoted net asset values published by the fund as supported in an active market, exchange-traded instruments and listed equities.

Level 2 includes assets with observable inputs other than Level 1 prices, such as quoted prices for similar assets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. The Plan's Level 2 assets include Investments in Common Commingled Trust funds. Valuation methodologies are based on consensus pricing, using market prices from a variety of industry-standard data providers or pricing that considers various assumptions, including time value, yield curve, volatility factors, credit spreads, default rates, loss severity, current market and contractual prices for the underlying instruments or debt, broker and dealer quotes, as well as other relevant economic measures. All are observable in the market or can be derived principally from or corroborated by observable market data, for which the Plan typically receives independent external valuation information.

Valuation techniques utilized during the reporting period in the fair value measurement of assets and liabilities presented on the Plan's balance sheet were not changed from previous practice.

**Table of Contents****COSTCO 401(k) RETIREMENT PLAN****Notes to Financial Statements (Continued)****December 31, 2009 and 2008*****Assets and Liabilities Measured at Fair Value on a Recurring Basis***

The following table presents information about the Plan's financial assets that are measured at fair value on a recurring basis as of December 31, 2009 and 2008, and indicates the fair value hierarchy of the valuation techniques utilized to determine such fair value:

	<b>December 31, 2009</b>	
	<b>Level 1 (in 000s)</b>	<b>Level 2 (in 000s)</b>
<b>Assets:</b>		
Investment in Registered Investment Company Funds	\$ 1,700,017	\$
Investment in Common Commingled Trust Funds		965,229
Costco Wholesale Corporation Common Stock	1,115,339	
<b>Total</b>	<b>\$ 2,815,356</b>	<b>\$ 965,229</b>

	<b>December 31, 2008</b>	
	<b>Level 1 (in 000s)</b>	<b>Level 2 (in 000s)</b>
<b>Assets:</b>		
Investment in Registered Investment Company Funds	\$ 1,064,053	\$
Investment in Common Commingled Trust Funds		808,730
Costco Wholesale Corporation Common Stock	903,378	
<b>Total</b>	<b>\$ 1,967,431</b>	<b>\$ 808,730</b>

**(4) Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and the requirements of the collective bargaining agreement with the International Brotherhood of Teamsters in California. In the event of plan termination, participants will become 100% vested in their accounts.

**(5) Tax Status**

The IRS has informed the Company that the Plan is designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended subsequent to receiving the determination letter on May 5, 2006. The plan administrator believes that the Plan is designed and is being operated in compliance with the applicable requirements of the IRS.

**Table of Contents**

**COSTCO 401(k) RETIREMENT PLAN**

**Notes to Financial Statements (Continued)**

**December 31, 2009 and 2008**

**(6) Party-in-Interest and Related Party Transactions**

Certain plan investments are shares of registered investment company and common commingled trust funds managed by T. Rowe Price. T. Rowe Price is also the trustee and recordkeeper as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions. The Plan also invests in Company common stock. Therefore, these transactions qualify as party-in-interest transactions, also.

**(7) Subsequent Events**

Effective January 1, 2010 the company added Roth contributions to the Plan.

Effective June 1, 2010, the Plan will add the T. Rowe Price American Funds Growth Fund of America R-5 and T. Rowe Price American Funds New Perspective Fund R-5. These funds will replace the T. Rowe Price American Funds Growth Fund of America A and the T. Rowe Price American Funds New Perspective Funds A, respectively. The Plan will also eliminate the Vanguard Asset Allocation Fund and add the Vanguard Total Bond Market Index Fund.

Subsequent events have been evaluated through the date of the independent registered public accounting firm's report.
