

NUVEEN NEW JERSEY DIVIDEND ADVANTAGE MUNICIPAL FUND

Form 497

March 22, 2011

PROSPECTUS

\$44,861,000

*Nuveen New Jersey Dividend Advantage
Municipal Fund*

MUNIFUND TERM PREFERRED SHARES

4,486,100 Shares, 2.30% Series 2014

Liquidation Preference \$10 Per Share

The Offering. *Nuveen New Jersey Dividend Advantage Municipal Fund is offering 4,486,100 MuniFund Term Preferred Shares, 2.30% Series 2014 (Series 2014 MTP Shares), with a liquidation preference of \$10 per share (MTP Shares). The Fund intends to use the net proceeds from the sale of MTP Shares to refinance and redeem all of the Fund's outstanding Municipal Auction Rate Cumulative Preferred Shares (MuniPreferred shares), and to maintain the Fund's leveraged capital structure. Certain of the underwriters and their affiliates or their customers own or are obligated to repurchase in the future MuniPreferred shares and, as a result, may benefit from any such redemption. See Prospectus Summary The Offering.*

The Fund. *This prospectus sets forth concisely information about the Fund that a prospective investor should know before investing, and should be retained for future reference. The Fund is a diversified, closed-end management investment company. The Fund's investment objectives are to provide current income exempt from regular federal and New Jersey income tax and to enhance portfolio value relative to the municipal bond market by investing in tax-exempt municipal bonds that the Fund's investment adviser believes are underrated or undervalued or that represent municipal market sectors that are undervalued.*

Listing. *Application has been made to list the MTP Shares on the New York Stock Exchange so that trading on such exchange will begin within 30 days after the date of this prospectus, subject to notice of issuance. Prior to the expected commencement of trading on the New York Stock Exchange, the underwriters do not intend to make a market in the MTP Shares. Consequently, it is anticipated that, prior to the commencement of trading on the New York Stock Exchange, an investment in the MTP Shares will be illiquid and holders of MTP Shares may*

Edgar Filing: NUVEEN NEW JERSEY DIVIDEND ADVANTAGE MUNICIPAL FUND - Form 497

not be able to sell such shares as it is unlikely that a secondary market for the MTP Shares will develop. If a secondary market does develop prior to the commencement of trading on the New York Stock Exchange, holders of MTP Shares may be able to sell such shares only at substantial discounts from their liquidation preference. The trading or ticker symbol is NXJ Pr A.

Investing in MuniFund Term Preferred Shares involves risks. See *Risks* beginning on page 48.

PRICE \$10 A SHARE

	<u>Price to Public</u>	<u>Underwriting Discounts and Commissions¹</u>	<u>Proceeds to the Fund²</u>
<i>Per Share</i>	\$10.00	\$0.125	\$9.875
<i>Total</i>	\$44,861,000	\$560,762	\$44,300,238

¹ Total expenses of issuance and distribution, excluding underwriting discounts and commissions, are estimated to be \$375,000.

² The Fund has granted the underwriters the right to purchase up to 672,915 additional MTP Shares at the public offering price, less underwriting discounts and commissions, within 30 days of the date of this prospectus solely to cover over-allotments, if any. If such option is exercised in full, the Price to Public, Underwriting Discounts and Commissions and Proceeds to the Fund will be \$51,590,150, \$644,877 and \$50,945,273, respectively. See *Underwriters* on page 67 of this prospectus.

The Securities and Exchange Commission and state securities regulators have not approved or disapproved these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

Book-Entry Only. It is expected that the MTP Shares will be delivered to the underwriters in book-entry form only, through the facilities of the Depository Trust Company, on or about March 24, 2011.

Investment Strategies. Under normal circumstances, the Fund invests at least 80% of its Managed Assets (as defined below) in municipal securities and other related investments the income from which is exempt from regular federal and New Jersey income taxes. Under normal circumstances, the Fund will invest at least 80% of its Managed Assets in investment grade securities that, at the time of investment, are rated within the four highest grades (Baa or BBB or better) by at least one nationally recognized statistical rating organization (NRSRO) or are unrated but judged to be of comparable quality by the Fund's sub-adviser, Nuveen Asset Management, LLC (Nuveen Asset Management). The Fund may invest up to 20% of its Managed Assets in municipal securities that at the time of investment are rated below investment grade or are unrated but judged to be of comparable quality by Nuveen Asset Management. No more than 10% of the Fund's Managed Assets may be invested in municipal securities rated below B3/B- or that are unrated but judged to be of comparable quality by Nuveen Asset Management. Securities of below investment grade quality are regarded as having predominately speculative characteristics with respect to the issuer's capacity to pay interest and repay principal, and are commonly referred to as junk bonds. Managed Assets are net assets, including assets attributable to any principal amount of any borrowings (including the issuance of commercial paper or notes) and any Preferred Stock (as defined herein) outstanding. There is no assurance that the Fund will achieve its investment objectives. See The Fund's Investments.

Fixed Dividend Rate:

Series 2014 MTP Shares

2.30% per annum

The Fixed Dividend Rate may be adjusted in the event of a change in the credit rating of the MTP Shares, as described herein. See Description of MTP Shares Dividends and Dividend Periods.

Dividends. Dividends on the MTP Shares will be payable monthly. The first dividend period for the MTP Shares will commence on the first date of original issuance of MTP Shares and end on April 30, 2011 and each subsequent dividend period will be a calendar month (or the portion thereof occurring prior to the redemption of such MTP Shares). Dividends will be paid on the first business day of the month next following a dividend period and upon redemption of the MTP Shares, except that dividends paid with respect to any dividend period consisting of the month of December in any year will be paid on the last business day of December. Except for the first dividend period, dividends with respect to any monthly dividend period will be declared and paid to holders of record of MTP Shares as their names shall appear on the registration books of the Fund at the close of business on the 15th day of such monthly dividend period (or if such day is not a business day, the next preceding business day). Dividends with respect to the first dividend period for the MTP Shares will be declared and paid to holders of record of such MTP Shares as their names appear on the registration books of the Fund at the close of business on April 28, 2011.

Redemption. The Fund is required to redeem the MTP Shares on April 1, 2014 unless earlier redeemed or repurchased by the Fund. In addition, MTP Shares are subject to optional and mandatory redemption in certain circumstances. As of April 1, 2012, the Series 2014 MTP Shares will be subject to redemption at the option of the Fund, subject to payment of a premium through March 31, 2013, and at their liquidation preference thereafter. The Series 2014 MTP Shares also will be subject to redemption, at the option of the Fund, at their liquidation preference in the event of certain changes in the credit rating of the MTP Shares, as described herein. See Description of MTP Shares Redemption.

Tax Exemption. The dividend rate for MTP Shares assumes that each month's distribution is comprised solely of dividends exempt from regular federal and New Jersey income taxes, although a substantial portion of those dividends may be subject to the federal alternative minimum tax. From time to time, the Fund may be required to allocate capital gains and/or ordinary income to a given month's distribution on MTP Shares. To the extent that it does so, the Fund will contemporaneously make a separate, supplemental distribution of an amount that, when combined with the total amount of regular tax-exempt income, capital gains and ordinary income in the monthly distribution, is intended to make the two distributions equal on an after-tax basis (determined based upon the maximum marginal federal income tax rates in effect at the time of such payment) to the amount of the monthly distribution if it had been entirely comprised of dividends exempt from regular federal and

Edgar Filing: NUVEEN NEW JERSEY DIVIDEND ADVANTAGE MUNICIPAL FUND - Form 497

New Jersey income taxes. Alternatively (particularly in cases where the amount of capital gains or ordinary income to be allocated to the MTP Shares is small), the Fund will satisfy the requirement

(continued from previous page)

to allocate capital gains or ordinary income to MTP Shares by making a supplemental distribution of such gains or income to holders of MTP Shares, over and above the monthly dividend that is fully exempt from regular federal and New Jersey income taxes. If, in connection with a redemption of MTP Shares, the Fund allocates capital gains or ordinary income to a distribution on MTP Shares without having made either a contemporaneous supplemental distribution of an additional amount or an alternative supplemental distribution of capital gains and/or ordinary income, it will cause an additional amount to be distributed to holders of MTP Shares whose interests are redeemed, which amount, when combined with the total amount of regular tax-exempt income, capital gains and ordinary income allocated in the distribution, is intended to make the distribution and the additional amount equal on an after-tax basis (determined based upon the maximum marginal federal income tax rates in effect at the time of such payment) to the amount of the distribution if it had been entirely comprised of dividends exempt from regular federal income tax. Investors should consult with their own tax advisors before making an investment in the MTP Shares. See *Tax Matters* and *Description of MTP Shares Dividends and Dividend Periods Distribution with respect to Taxable Allocations*.

Priority of Payment. MTP Shares will be senior securities that represent stock of the Fund and are senior, with priority in all respects, to the Fund's common shares as to payments of dividends and as to distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund. MTP Shares will have equal priority as to payments of dividends and as to distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund with other preferred shares currently outstanding. The Fund may issue additional preferred shares on parity with MTP Shares, subject to certain limitations. The Fund may not issue additional classes of shares that are senior to MTP Shares and other outstanding preferred shares of the Fund as to payments of dividends or as to distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund. See *Description of MTP Shares*. The Fund, as a fundamental policy, may not issue debt securities that rank senior to MTP Shares. In addition, as a fundamental policy, the Fund may not borrow money, except from banks for temporary or emergency purposes, or for repurchase of its shares, subject to certain restrictions. See *Investment Restrictions* in the *Statement of Additional Information*.

Redemption and Paying Agent. The redemption and paying agent for MTP Shares will be State Street Bank and Trust Company, Canton, Massachusetts.

Adviser and Sub-Adviser. Nuveen Fund Advisors, Inc. (formerly known as Nuveen Asset Management), the Fund's investment adviser, is responsible for determining the Fund's overall investment strategies and their implementation. Nuveen Asset Management, LLC serves as the Fund's sub-adviser and will oversee the day-to-day operations of the Fund.

You should read this prospectus, which contains important information about the Fund, before deciding whether to invest in MTP Shares and retain it for future reference. A *Statement of Additional Information*, dated March 21, 2011, and as it may be supplemented, containing additional information about the Fund has been filed with the Securities and Exchange Commission and is incorporated by reference in its entirety into this prospectus. You may request a free copy of the *Statement of Additional Information*, the table of contents of which is on page 71 of this prospectus, annual and semi-annual reports to shareholders, when available, and other information about the Fund, and make shareholder inquiries by calling (800) 257-8787 or by writing to the Fund, or from the Fund's website (<http://www.nuveen.com>). The information contained in, or that can be accessed through, the Fund's website is not part of this prospectus. You also may obtain a copy of the *Statement of Additional Information* (and other information regarding the Fund) from the Securities and Exchange Commission's website (<http://www.sec.gov>).

MTP Shares do not represent a deposit or obligation of, and are not guaranteed or endorsed by, any bank or other insured depository institution, and are not federally insured by the Federal Deposit Insurance Corporation, the Federal Reserve Board or any other government agency.

You should rely only on the information contained in or incorporated by reference to this prospectus. We have not authorized anyone to provide you with information different from that contained in this prospectus. We are offering to sell MTP Shares and seeking offers to buy MTP Shares, only in jurisdictions where offers and sales are permitted. The information contained in this prospectus is accurate only as of the date of this prospectus, regardless of the time of delivery of this prospectus or any sale of MTP Shares.

PROSPECTUS SUMMARY

This is only a summary. You should review the more detailed information contained elsewhere in this prospectus and in the Statement of Additional Information (the SAI), including the Fund's Statement Establishing and Fixing the Rights and Preferences of MuniFund Term Preferred Shares (the Statement), attached as Appendix A to the SAI, prior to making an investment in the Fund, especially the information set forth under the heading Risks. Capitalized terms used but not defined in this prospectus shall have the meanings given to such terms in the Statement.

The Fund

Nuveen New Jersey Dividend Advantage Municipal Fund (the Fund) is a diversified, closed-end management investment company. The Fund's common shares, \$0.01 par value, are traded on the NYSE Amex under the symbol NXJ. See Description of Outstanding Shares - Common Shares. The Fund commenced investment operations on March 27, 2001. As of February 28, 2011, the Fund had 6,569,912 Common shares outstanding and 1,757 preferred shares outstanding. Preferred shares previously offered by the Fund are referred to as MuniPreferred shares or auction rate preferred shares (ARPS). MTP Shares, as defined below, and any other preferred shares, including MuniPreferred shares, that may then be outstanding are collectively referred to as Preferred Stock.

The Offering

The Fund is offering 4,486,100 MuniFund Term Preferred Shares, 2.30% Series 2014 (Series 2014 MTP Shares or MTP Shares), at a purchase price of \$10 per share. MTP Shares are being offered by the underwriters listed under Underwriters. The Fund has granted the underwriters the right to purchase up to 672,915 additional MTP Shares to cover over-allotments. Unless otherwise specifically stated, the information throughout this prospectus does not take into account the possible issuance to the underwriters of additional MTP Shares pursuant to their right to purchase additional MTP Shares to cover over-allotments. The Fund intends to use the net proceeds from the sale of MTP Shares to refinance and redeem all of the outstanding MuniPreferred shares, and to maintain the Fund's leveraged capital structure. Certain underwriters and their affiliates, including Morgan Stanley & Co. Incorporated, Merrill Lynch, Pierce, Fenner & Smith Incorporated, Citigroup Global Markets Inc., UBS Securities LLC and Wells Fargo Securities, LLC, currently own or are obligated to repurchase in the future outstanding MuniPreferred shares. In addition, customers of certain underwriters and their affiliates currently own outstanding MuniPreferred shares. Upon the successful completion of this offering, these outstanding MuniPreferred shares may be redeemed or purchased by the Fund with the net proceeds of the offering as set forth in Use of Proceeds. Although such a redemption or purchase would be done in accordance with the Investment Company Act of 1940, as amended (the 1940 Act) in a manner that did not favor these underwriters, affiliates or customers, the underwriters or their affiliates may nonetheless be deemed to obtain a material benefit from the offering of the MTP Shares due to such redemption or purchase including, for certain of the underwriters

and their affiliates, potentially substantial financial relief and/or relief related to legal and regulatory matters associated with currently illiquid MuniPreferred shares.

The first issuance date of the MTP Shares upon the closing of this offering is referred to herein as the Date of Original Issue. MTP Shares will be senior securities that constitute stock of the Fund and are senior, with priority in all respects, to the Fund's common shares as to payments of dividends and as to distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund. MTP Shares will have equal priority as to payments of dividends and as to distributions of assets upon dissolution, liquidation or winding up of the affairs of the Fund and will be in parity in all respects with MuniPreferred shares outstanding. The Fund may not issue additional classes of shares that are senior to Preferred Stock as to payments of dividends and as to distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund.

Who May Want to Invest

You should consider your investment goals, time horizons and risk tolerance before investing in MTP Shares. An investment in MTP Shares is not appropriate for all investors and is not intended to be a complete investment program. MTP Shares are designed as a short-term investment to help achieve the after-tax income and capital preservation goals of investors, and not as a trading vehicle. MTP Shares may be an appropriate investment for you if you are seeking:

- Current income exempt from regular federal and New Jersey income taxes;
- Consistent monthly dividends;
- Return of your capital investment after a limited term of three years;
- A security that benefits from significant over-collateralization and related protective provisions;
- Municipal market exposure through the Fund (rather than a single municipal issuer) that diversifies credit risk by investing in many securities and various essential-service sectors;
- Potential for daily liquidity and transparency afforded by New York Stock Exchange listing, once the MTP Shares begin trading on such exchange as anticipated; and
- A short-term fixed income investment with potentially less price volatility than longer-dated fixed income securities.

However, keep in mind that you will need to assume the risks associated with an investment in MTP Shares and the Fund. See Risks.

Fixed Dividend Rate

MTP Shares pay a dividend at a fixed rate of 2.30% per annum of the \$10 liquidation preference per share (the Fixed Dividend

Rate). The Fixed Dividend Rate is subject to adjustment in certain circumstances (but will not in any event be lower than the 2.30% Fixed Dividend Rate). See Description of MTP Shares Dividends and Dividend Periods Fixed Dividend Rate, Adjustments to Fixed Dividend Rate Ratings and Default Period.

Dividend Payments

The holders of MTP Shares will be entitled to receive cumulative cash dividends and distributions on each such share, when, as and if declared by, or under authority granted by, the Board of Trustees, out of funds legally available for payment. Dividends on the MTP Shares will be payable monthly. The first dividend period for the MTP Shares will commence on the Date of Original Issue of MTP Shares and end on April 30, 2011 and each subsequent dividend period will be a calendar month (or the portion thereof occurring prior to the redemption of such MTP Shares) (each dividend period a Dividend Period). Dividends will be paid on the first Business Day of the month next following a Dividend Period and upon redemption of the MTP Shares, except that dividends paid with respect to any Dividend Period consisting of the month of December in any year will be paid on the last Business Day of December (each payment date a Dividend Payment Date). Except for the first Dividend Period, dividends with respect to any monthly Dividend Period will be declared and paid to holders of record of MTP Shares as their names shall appear on the registration books of the Fund at the close of business on the 15th day of such monthly Dividend Period (or if such day is not a Business Day, the next preceding Business Day). Dividends with respect to the first Dividend Period of the Series 2014 MTP Shares will be declared and paid to holders of record of such MTP Shares as their names appear on the registration books of the Fund at the close of business on April 28, 2011. See Description of MTP Shares Dividends and Dividend Periods.

Business Day means any calendar day on which the New York Stock Exchange is open for trading.

On account of the foregoing provisions, only the holders of MTP Shares on the record date for a Dividend Period will be entitled to receive dividends and distributions payable with respect to such Dividend Period, and holders of MTP Shares who sell shares before such a record date and purchasers of MTP Shares who purchase shares after such a record date should take the effect of the foregoing provisions into account in evaluating the price to be received or paid for such MTP Shares.

Term Redemption

The Fund is required to provide for the mandatory redemption of all outstanding Series 2014 MTP Shares on April 1, 2014 at a redemption price equal to \$10 per share plus an amount equal to accumulated but unpaid dividends thereon (whether or not earned or declared but excluding interest thereon) to (but excluding) the redemption date (the Term Redemption Price). No amendment, alteration or repeal of the

obligations of the Fund to redeem all of the Series 2014 MTP Shares on April 1, 2014 can be effected without the prior unanimous vote or consent of the holders of Series 2014 MTP Shares. See Description of MTP Shares Redemption.

Mandatory Redemption for

Asset Coverage and Effective

Leverage Ratio

Asset Coverage. If the Fund fails to have Asset Coverage (as defined below) of at least 225% as of the close of business on any Business Day on which such Asset Coverage is required to be calculated and such failure is not cured as of the close of business on the date that is 30 calendar days following such Business Day (the Asset Coverage Cure Date), the Fund will redeem within 30 calendar days of the Asset Coverage Cure Date shares of Preferred Stock equal to the lesser of (i) the minimum number of shares of Preferred Stock that will result in the Fund having Asset Coverage of at least 230% and (ii) the maximum number of shares of Preferred Stock that can be redeemed out of monies expected to be legally available; and, at the Fund's sole option, the Fund may redeem a number of shares of Preferred Stock (including shares of Preferred Stock required to be redeemed) that will result in the Fund having Asset Coverage of up to and including 285%. The Preferred Stock to be redeemed may include at the Fund's sole option any number or proportion of MTP Shares. If MTP Shares are to be redeemed in such an event, they will be redeemed at a redemption price equal to their \$10 liquidation preference per share plus accumulated but unpaid dividends thereon (whether or not declared, but excluding interest thereon) to (but excluding) the date fixed for such redemption (the Mandatory Redemption Price).

Effective Leverage Ratio. If the Effective Leverage Ratio (as defined below) of the Fund exceeds 50% as of the close of business on any Business Day on which such ratio is required to be calculated and such failure is not cured as of the close of business on the date that is 30 calendar days following such Business Day (the Effective Leverage Ratio Cure Date), the Fund will within 30 calendar days following the Effective Leverage Ratio Cure Date cause the Fund to have an Effective Leverage Ratio that does not exceed 50% by (A) engaging in transactions involving or relating to the floating rate securities not owned by the Fund and/or the inverse floating rate securities owned by the Fund, including the purchase, sale or retirement thereof, (B) redeeming a sufficient number of shares of Preferred Stock, which at the Fund's sole option may include any number or proportion of MTP Shares, in accordance with the terms of such Preferred Stock, or (C) engaging in any combination of the actions contemplated by (A) and (B) above. Any MTP Shares so redeemed will be redeemed at a price per share equal to the Mandatory Redemption Price. See Portfolio Composition Municipal Securities Inverse Floating Rate Securities and Floating Rate Securities.

Optional Redemption

As of April 1, 2012, Series 2014 MTP Shares will be subject to optional redemption (in whole or from time to time, in part) at the sole option of the Fund out of monies legally available therefor, at the redemption price per share equal to the sum of the \$10 liquidation preference per share plus (i) an initial premium of 1.00% of the liquidation preference (with such premium declining by 0.5% every six months so that by April 1, 2013 there will cease to be a premium) and (ii) an amount equal to accumulated but unpaid dividends thereon (whether or not earned or declared but excluding interest thereon) to (but excluding) the date fixed for such redemption. See Description of MTP Shares Redemption Optional Redemption. The period from the Date of Original Issue to the date that the MTP Shares are subject to such optional redemption is referred to herein as the Non-Call Period. In addition to the optional redemption described above, the MTP Shares will also be subject to optional redemption on any Business Day during a Rating Downgrade Period with respect to such MTP Shares at the redemption price per share equal to the sum of the \$10 liquidation preference per share (without any additional premium) plus an amount equal to accumulated but unpaid dividends thereon (whether or not earned or declared, but excluding interest thereon) to (but excluding) the date fixed for redemption. A Rating Downgrade Period means any period during which the MTP Shares are rated A+ or lower by Standard & Poor's Financial Services, LLC, a subsidiary of The McGraw-Hill Companies, Inc. (S&P), A1 or lower by Moody's Investors Service, Inc. (Moody's) and A+ or lower by Fitch Ratings, Inc. (Fitch). See Description of MTP Shares Redemption.

Federal and New Jersey State Income Taxes

Because under normal circumstances the Fund will invest substantially all of its assets in municipal securities that pay interest exempt from regular federal and New Jersey income taxes, the dividends reported by the Fund as exempt-interest dividends received by a holder of MTP Shares will be similarly exempt. The dividends received by a holder of MTP Shares may be subject to other state and local taxes. A substantial portion of the income from the Fund's portfolio securities, and in turn the exempt-interest dividends paid to holders of MTP Shares, may be subject to the federal alternative minimum tax, so MTP Shares may not be a suitable investment if you are subject to this tax. Taxable income or gain earned by the Fund will be allocated proportionately to holders of Preferred Stock and common shares, based on the percentage of total Preferred Stock dividends relative to common share dividends.

The Fund has elected to be treated, and intends to continue to qualify each year, as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code), and generally does not expect to be subject to federal income tax.

Ratings

It is a condition of the underwriters' obligation to purchase MTP Shares that MTP Shares will be rated, as of the Date of Original Issue, at certain minimum levels by Rating Agencies (as defined in this prospectus) designated by the Fund's Board of Trustees. There can be no assurance that such ratings will be maintained at the level originally assigned through the term of the MTP Shares. The ratings may be changed, suspended or withdrawn in the Rating Agencies' discretion. The Fund, however, will use commercially reasonable efforts to cause at least one Rating Agency (as defined in this prospectus) to publish a credit rating with respect to MTP Shares for so long as MTP Shares are outstanding. The Fixed Dividend Rate will be subject to an increase in the event that the ratings of the MTP Shares by the Rating Agencies are each downgraded below such minimum levels or if no Rating Agency is then rating the shares. See Description of MTP Shares Dividends and Dividend Periods Adjustment to Fixed Dividend Rate Ratings. The Board of Trustees of the Fund has the right to terminate the designation of any of the Rating Agencies for purposes of the MTP Shares, provided that at least one Rating Agency continues to maintain a rating with respect to the MTP Shares. In such event, any rating of such terminated Rating Agency, to the extent it would have been taken into account in any of the provisions of the MTP Shares which are described in this prospectus or included in the Statement, will be disregarded, and only the ratings of the then-designated Rating Agencies will be taken into account.

On August 31, 2010 S&P published a Request for Comment concerning its new proposal (the S&P Proposal) to change its methods and assumptions for rating certain market value securities, including those issued by registered closed-end funds such as the MTP Shares to be issued by the Fund. The S&P Proposal defined market value securities as those whose source of repayment is liquidation proceeds generated from open market sales of assets (in the Fund's case, portfolio securities), rather than cash flow generated by assets held to maturity. S&P has requested comments on the S&P Proposal and the comment period ended October 29, 2010. S&P stated that after the comment period expired, it would review the comments and publish updated criteria methodology and assumptions, which would be applicable to all outstanding S&P ratings of market value securities. S&P has not yet published updated criteria methodology and assumptions. The updated criteria, if adopted by S&P, may be the same as proposed or may differ based upon comments received by S&P. Under the current S&P Proposal, when rating market value securities (including MTP Shares) issued by the Fund, S&P would substantially increase the reductions in value, or haircuts, applied to the Fund's portfolio securities compared with its present methodology. Due to these increased haircuts, any market value securities issued by the Fund (including MTP Shares) in the future may be ineligible for a AAA rating from S&P. In addition, any market value securities (including the MTP Shares offered hereby)

that had a rating of AAA from S&P prior to the adoption of the proposed criteria may be unable to maintain such rating after the adoption of such criteria, if adopted as proposed. In the event that S&P downgrades the MTP Shares, the Fixed Dividend Rate would not change. However, if each of the other Rating Agencies also downgrades the MTP Shares, the Fixed Dividend Rate would increase. See Description of MTP Shares Dividends and Dividend Periods Adjustments to Fixed Dividend Rate Ratings. Nevertheless, a downgrade by S&P could adversely affect the market pricing and liquidity of the MTP Shares. There can be no assurance that S&P will or will not take any action with respect to the S&P Proposal or that any such action would not result in a downgrade of MTP Shares. Further, there can be no assurance that any other Rating Agency will not also alter its rating criteria resulting in downgrades of ratings, which could further adversely affect the market pricing and liquidity of MTP Shares.

Asset Coverage

If the Fund fails to maintain at least 225% asset coverage as of the close of business on each Business Day, the MTP Shares may become subject to mandatory redemption as provided above. Asset coverage for Preferred Stock is calculated pursuant to Section 18(h) of the 1940 Act, as in effect on the date of the Statement, and is determined on the basis of values calculated as of a time within 48 hours (only including Business Days) preceding each daily determination (Asset Coverage). See Description of MTP Shares Asset Coverage.

The Fund estimates that on the Date of Original Issue, the Asset Coverage, based on the composition of its portfolio as of October 31, 2010, and after giving effect to (i) the issuance of MTP Shares offered hereby (\$44,861,000), and (ii) \$935,762 of underwriting discounts and commissions and estimated offering costs for such MTP Shares, and assuming the redemption of \$43,925,000 liquidation preference of MuniPreferred shares, will be 317%. The Fund's net investment income coverage calculated by dividing the Fund's per share net investment income by the per share distributions from net investment income to preferred shareholders has averaged approximately 1,377% from March 27, 2001 through October 31, 2010. Net investment income coverage has varied significantly year over year since the Fund's inception, and there is no assurance that historical coverage levels can be maintained.

Effective Leverage Ratio

If the Fund's Effective Leverage Ratio exceeds 50% as of the close of business on any Business Day, the MTP Shares may become subject to mandatory redemption as provided above.

The Effective Leverage Ratio on any date means the quotient of the sum of (A) the aggregate liquidation preference of the Fund's senior

securities (as that term is defined in the 1940 Act) that are stock, excluding, without duplication, (1) any such senior securities for which the Fund has issued a notice of redemption and either has delivered Deposit Securities to the paying agent for such Preferred Stock or otherwise has adequate Deposit Securities on hand for the purpose of such redemption and (2) the Fund's outstanding Preferred Stock that is to be redeemed with net proceeds from the sale of the MTP Shares, for which the Fund has delivered Deposit Securities to the paying agent for such Preferred Stock or otherwise has adequate Deposit Securities on hand for the purpose of such redemption; (B) the aggregate principal amount of the Fund's senior securities representing indebtedness (as that term is defined in the 1940 Act); and (C) the aggregate principal amount of floating rate securities not owned by the Fund that correspond to the associated inverse floating rate securities owned by the Fund; divided by the sum of (A) the market value (determined in accordance with the Fund's valuation procedures) of the Fund's total assets (including amounts attributable to senior securities), less the amount of the Fund's accrued liabilities (other than liabilities for the aggregate principal amount of senior securities representing indebtedness, including floating rate securities); and (B) the aggregate principal amount of floating rate securities not owned by the Fund that correspond to the associated inverse floating rate securities owned by the Fund.

Voting Rights

Except as otherwise provided in the Fund's Declaration of Trust or as otherwise required by law, (i) each holder of MTP Shares shall be entitled to one vote for each MTP Share held by such holder on each matter submitted to a vote of shareholders of the Fund and (ii) the holders of outstanding Preferred Stock and of common shares shall vote together as a single class; provided that holders of Preferred Stock, voting separately as a class, shall elect at least two of the Fund's trustees and will elect a majority of the Fund's trustees to the extent the Fund fails to pay dividends on any Preferred Stock in an amount equal to two full years of dividends on that stock. See Description of MTP Shares Voting Rights.

Liquidation Preference

The liquidation preference of MTP Shares will be \$10 per share (the Liquidation Preference). In the event of any liquidation, dissolution or winding up of the affairs of the Fund, whether voluntary or involuntary, the holders of MTP Shares will be entitled to receive a liquidation distribution per share equal to the Liquidation Preference plus an amount equal to all unpaid dividends and distributions accumulated to (but excluding) the date fixed for distribution or payment (whether or not earned or declared by the Fund, but excluding interest thereon). See Description of MTP Shares Liquidation Rights.

Investment Objectives and Policies

The Fund's investment objectives are to provide current income exempt from regular federal and New Jersey income tax and to enhance portfolio value relative to the municipal bond market by

investing in tax-exempt municipal bonds that the Fund's investment adviser believes are underrated or undervalued or that represent municipal market sectors that are undervalued. Under normal circumstances, the Fund invests at least 80% of its Managed Assets (as defined below) in municipal securities and other related investments the income from which is exempt from regular federal and New Jersey income taxes. Under normal circumstances, the Fund will invest at least 80% of its Managed Assets in investment grade securities that, at the time of investment, are rated within the four highest grades (Baa or BBB or better) by at least one NRSRO or are unrated but judged to be of comparable quality by Nuveen Asset Management, LLC ("Nuveen Asset Management"). The Fund may invest up to 20% of its Managed Assets in municipal securities that at the time of investment are rated below investment grade or are unrated but judged to be of comparable quality by Nuveen Asset Management. No more than 10% of the Fund's Managed Assets may be invested in municipal securities rated below B3/B- or that are unrated but judged to be of comparable quality by Nuveen Asset Management. Municipal securities of below investment grade quality are regarded as having predominately speculative characteristics with respect to the issuer's capacity to pay interest and repay principal, and are commonly referred to as junk bonds. See

Risks General Risks of Investing in the Fund Credit and Below Investment Grade Risk. Managed Assets are net assets, including assets attributable to any principal amount of any borrowings (including the issuance of commercial paper or notes) and any Preferred Stock outstanding. During temporary defensive periods and in order to keep the Fund's cash fully invested, the Fund may invest up to 100% of its net assets in short-term investments including high quality, short-term securities that may be either tax-exempt or taxable. A substantial portion of the dividends from MTP Shares may be subject to the federal alternative minimum tax. There is no assurance that the Fund will achieve its investment objectives. See The Fund's Investments.

Investment Adviser

Nuveen Fund Advisors, Inc. ("Nuveen Fund Advisors") is the Fund's investment adviser, responsible for determining the Fund's overall investment strategy and its implementation. See Management of the Fund Investment Adviser, Sub-Adviser and Portfolio Manager.

Sub-Adviser

Nuveen Asset Management serves as the Fund's sub-adviser and is a wholly-owned subsidiary of Nuveen Fund Advisors. Nuveen Asset Management is a registered investment adviser. Nuveen Asset Management will oversee the day-to-day operations of the Fund.

Nuveen Investments, LLC, a registered broker-dealer affiliate of Nuveen Fund Advisors and Nuveen Asset Management that is involved in the offering of the Fund's MTP Shares, has received notice of certain charges that may be brought against it by the Financial Industry Regulatory Authority ("FINRA") in connection with the marketing of MuniPreferred shares. See Underwriters.

Legal Proceedings

Certain Nuveen leveraged closed-end funds (including the Fund) were named as nominal defendants in putative shareholder derivative action complaints filed in the Circuit Court of Cook County, Illinois, Chancery Division (the Complaints). The Complaints, filed on behalf of purported holders of the funds' common shares, also name Nuveen Fund Advisors as a defendant, together with current and former officers and a trustee of each of the funds (together with the nominal defendants, collectively, the Defendants). The Complaints allege that the Defendants breached their fiduciary duties by favoring the interests of holders of each fund's ARPS over those of its common shareholders in connection with each fund's ARPS refinancing and/or redemption activities. See Legal Proceedings.

Listing

Application has been made to list the MTP Shares on the New York Stock Exchange so that trading on such exchange will begin within 30 days after the date of this prospectus, subject to notice of issuance. Prior to the expected commencement of trading on the New York Stock Exchange, the underwriters do not intend to make a market in the MTP Shares. Consequently, it is anticipated that, prior to the commencement of trading on the New York Stock Exchange, an investment in the MTP Shares will be illiquid and holders of MTP Shares may not be able to sell such shares as it is unlikely that a secondary market for the MTP Shares will develop. If a secondary market does develop prior to the commencement of trading on the New York Stock Exchange, holders of MTP Shares may be able to sell such shares only at substantial discounts from their liquidation preference. The trading or ticker symbol is NXJ Pr A.

Redemption and Paying Agent

The Fund has entered into an amendment to its Transfer Agency and Service Agreement with State Street Bank and Trust Company, Canton, Massachusetts (the Redemption and Paying Agent) for the purpose of causing the Fund's transfer agent and registrar to serve as transfer agent and registrar, dividend disbursing agent, and redemption and paying agent with respect to MTP Shares.

Risks

Risk is inherent in all investing. Therefore, before investing in MTP Shares you should consider certain risks carefully. The primary risks of investing in the Fund, and in MTP Shares in particular, are:

Risks of Investing in MTP Shares

- *Interest Rate Risk MTP Shares.* MTP Shares pay dividends at a fixed dividend rate. Prices of fixed income investments vary inversely with changes in market yields. The market yields on securities comparable to MTP Shares may increase, which would likely result in a decline in the secondary market price of MTP Shares prior to the term redemption date. See also Secondary Market and Delayed Listing Risk.

- *Secondary Market and Delayed Listing Risk.* Because the Fund has no prior trading history for exchange-listed preferred shares, it is difficult to predict the trading patterns of MTP Shares, including the effective costs of trading MTP Shares. Moreover, MTP Shares will not be listed on a stock exchange until up to 30 days after the date of this prospectus and during this time period an investment in MTP Shares will be illiquid. Even after the MTP Shares are listed on the New York Stock Exchange as anticipated, there is a risk that the market for MTP Shares may be thinly traded and relatively illiquid compared to the market for other types of securities, with the spread between the bid and asked prices considerably greater than the spreads of other securities with comparable terms, credit ratings and tax-advantaged income features.
- *Ratings Risk.* The Fund expects that, at issuance, the MTP Shares will be rated at certain minimum levels by Rating Agencies designated by the Fund's Board of Trustees and that such ratings will be a requirement of issuance of such shares by the underwriters pursuant to an underwriting agreement. There can be no assurance that the MTP Shares will receive any particular rating from any of Moody's, S&P or Fitch (each, a Rating Agency), or that any such ratings will be maintained at the level originally assigned through the term of the MTP Shares. In the event that one or more of the Rating Agencies do not issue a rating on the MTP Shares at all or at the minimum level required, the issuance and sale of MTP Shares in this offering may not be completed. Ratings do not eliminate or mitigate the risks of investing in MTP Shares. A rating issued by a Rating Agency is only the opinion of the entity issuing the rating at that time, and is not a guarantee as to quality, or an assurance of the future performance, of the rated security (in this case, MTP Shares). In addition, the manner in which the Rating Agency obtains and processes information about a particular security may affect the Rating Agency's ability to timely react to changes in an issuer's circumstances (in this case, the Fund) that could influence a particular rating. A Rating Agency could downgrade MTP Shares, which may make MTP Shares less liquid in the secondary market and reduce market prices. As described above under Ratings, S&P is currently considering adopting the S&P Proposal, which may result in S&P downgrading the MTP Shares after such proposal becomes effective. In the event that S&P downgrades the MTP Shares, the Fixed Dividend Rate would only increase if each of the other Rating Agencies also downgrades the MTP Shares. Nevertheless, a downgrade by S&P could adversely affect the market pricing and liquidity of the MTP Shares. There can be no assurance that S&P will or will not take any action with respect to the S&P Proposal or that any such action would not result in a downgrade of MTP Shares. Further, there can be no assurance that any other Rating Agency will not also alter its rating criteria resulting in downgrades of ratings, which could further adversely affect the market pricing and liquidity of MTP Shares.

- *Early Redemption Risk.* The Fund may voluntarily redeem MTP Shares or may be forced to redeem MTP Shares to meet regulatory requirements and the asset coverage requirements of the MTP Shares. Such redemptions may be at a time that is unfavorable to holders of MTP Shares. The Fund expects to voluntarily redeem MTP Shares before the Term Redemption Date to the extent that market conditions allow the Fund to issue other preferred shares or debt securities at a rate that is lower than the Fixed Dividend Rate on MTP Shares. For further information, see Description of MTP Shares Redemption and Asset Coverage.
- *Tax Risk.* To qualify for the favorable U.S. federal income tax treatment generally accorded to regulated investment companies, among other things, the Fund must derive in each taxable year at least 90% of its gross income from certain prescribed sources. If for any taxable year the Fund does not qualify as a regulated investment company, all of its taxable income (including its net capital gain) would be subject to tax at regular corporate rates without any deduction for distributions to stockholders, and such distributions would be taxable as ordinary dividends to the extent of the Fund's current and accumulated earnings and profits. The value of MTP Shares may be adversely affected by changes in tax rates and policies. Because dividends from MTP Shares are generally not expected to be subject to regular federal or New Jersey income taxation, the attractiveness of such shares in relation to other investment alternatives is affected by changes in federal or New Jersey income tax rates or changes in the tax-exempt treatment of dividends on MTP Shares. A substantial portion of the dividends from MTP Shares may be subject to the federal alternative minimum tax. In addition, the Fund will treat MTP Shares as stock in the Fund for federal income tax purposes. See Tax Matters, including Tax Matters Federal Income Tax Treatment of Holders of MTP Shares. See also the opinion of counsel included as Appendix C to the SAI.
- *Credit Crisis and Liquidity Risk.* General market uncertainty and extraordinary conditions in the credit markets, including the municipal market, may impact the liquidity of the Fund's investment portfolio, which in turn, during extraordinary circumstances, could impact the Fund's distributions and/or the liquidity of the Term Redemption Liquidity Account (as described under Description of MTP Shares). Further, there may be market imbalances of sellers and buyers of MTP Shares during periods of extreme illiquidity and volatility. Such market conditions may lead to periods of thin trading in any secondary market for MTP Shares and may make valuation of MTP Shares uncertain. As a result, the spread between bid and asked prices is likely to increase significantly such that an MTP Shares investor may have greater difficulty selling his or her MTP Shares. Less liquid and more volatile trading environments could result in sudden and significant valuation increases or declines in MTP Shares.

- *Inflation Risk.* Inflation is the reduction in the purchasing power of money resulting from the increase in the price of goods and services. Inflation risk is the risk that the inflation-adjusted (or real) value of an investment in MTP Shares or the income from that investment will be worth less in the future. As inflation occurs, the real value of MTP Shares and dividends on MTP Shares declines.
- *Reinvestment Risk MTP Shares.* Given the three-year term and potential for early redemption of MTP Shares, holders of MTP Shares may face an increased reinvestment risk, which is the risk that the return on an investment purchased with proceeds from the sale or redemption of MTP Shares may be lower than the return previously obtained from an investment in MTP Shares.

General Risks of Investing in the Fund

- *Credit and Below Investment Grade Risk.* Credit risk is the risk that one or more municipal securities in the Fund's portfolio will decline in price, or the issuer thereof will fail to pay interest or principal when due, because the issuer experiences a decline in its financial status. Credit risk is increased when a portfolio security is downgraded or the perceived creditworthiness of the issuer deteriorates. The Fund may invest up to 20% (measured at the time of investment) of its Managed Assets in municipal securities that are rated below investment grade or that are unrated but judged to be of comparable quality by Nuveen Asset Management. If a municipal security satisfies the rating requirements described above at the time of investment and is subsequently downgraded below that rating, the Fund will not be required to dispose of the security. If a downgrade occurs, Nuveen Asset Management will consider what action, including the sale of the security, is in the best interests of the Fund and its shareholders. Municipal securities of below investment grade quality are regarded as having predominately speculative characteristics with respect to the issuer's capacity to pay interest and repay principal when due, and are more susceptible to default or decline in market value due to adverse economic and business developments than investment grade municipal securities. Also, to the extent that the rating assigned to a municipal security in the Fund's portfolio is downgraded by any NRSRO, the market price and liquidity of such security may be adversely affected. The market values for municipal securities of below investment grade quality tend to be volatile, and these securities are less liquid than investment grade municipal securities. For these reasons, an investment in the Fund, compared with a portfolio consisting solely of investment grade securities, may experience the following:

increased price sensitivity resulting from a deteriorating economic environment and changing interest rates;

greater risk of loss due to default or declining credit quality;

adverse issuer specific events that are more likely to render the issuer unable to make interest and/or principal payments; and

the possibility that a negative perception of the below investment grade market develops, resulting in the price and liquidity of below investment grade securities becoming depressed, and this negative perception could last for a significant period of time.

- *Municipal Securities Market Risk.* Investing in the municipal securities market involves certain risks. The municipal securities market is one in which dealer firms make markets in bonds on a principal basis using their proprietary capital, and during the recent market turmoil these firms' capital became severely constrained. As a result, some firms were unwilling to commit their capital to purchase and to serve as a dealer for municipal securities. The amount of public information available about the municipal securities in the Fund's portfolio is generally less than that for corporate equities or bonds, and the Fund's investment performance may therefore be more dependent on Nuveen Asset Management's analytical abilities than if the Fund were to invest in stocks or taxable bonds. As noted above, the secondary market for municipal securities also tends to be less well-developed or liquid than many other securities markets, which may adversely affect the Fund's ability to sell its municipal securities at attractive prices or at prices approximating those at which the Fund currently values them.
- *Concentration in New Jersey Issuers.* The Fund's policy of investing primarily in municipal obligations of issuers located in the New Jersey makes the Fund more susceptible to adverse economic, political or regulatory occurrences affecting such issuers.
- *Risks Specific to New Jersey.* The Fund is more susceptible to political, economic, or regulatory factors affecting issuers of New Jersey municipal obligations than a fund that invests more widely. In recent years New Jersey, the region and the nation have been affected by a global financial recession that arguably was the most severe and pervasive economic crisis since the Great Depression. In January 2010, New Jersey faced an estimated budget deficit of \$2.2 billion for Fiscal Year 2010 and \$10.7 billion for Fiscal Year 2011, which were both closed. In February 2011, at the outset of the Fiscal Year 2012 budget process, the Office of Legislative Services, the non-partisan research arm of the New Jersey legislature, estimated a \$10.5 billion structural deficit for Fiscal Year 2012. Additionally, as of June 30, 2010, New Jersey's outstanding long-term debt totaled \$57.9 billion,

representing a \$6.7 billion increase over the prior fiscal year. As of June 30, 2010, the State had \$2.6 billion of State general obligation bonds outstanding with another \$893.2 million of bonding authorization remaining from various State general obligation bond acts. During Fiscal Year 2010, \$209.2 million of General Obligation debt was issued for various purposes, and the amount provided by the State's General Fund for debt service payments for Fiscal Year 2010 was \$263.6 million. The future direction of the national and New Jersey economies will depend on many factors including credit availability, geopolitical tensions, energy prices and the stability of the financial markets. See Risks General Risks of Investing in the Fund Concentration Risk and Appendix A of this prospectus. (Factors Affecting Municipal Securities in New Jersey).

- *Interest Rate Risk The Fund.* Generally, when market interest rates rise, bond prices fall, and vice versa. Interest rate risk is the risk that the municipal securities in the Fund's portfolio will decline in value because of increases in market interest rates. In typical market interest rate environments, the prices of longer-term municipal securities generally fluctuate more than prices of shorter-term municipal securities as interest rates change.
- *Inverse Floating Rate Securities Risk.* The Fund may invest up to 15% of its net assets in inverse floating rate securities. Typically, inverse floating rate securities represent beneficial interests in a special purpose trust (sometimes called a tender option bond trust) formed by a third party sponsor for the purpose of holding municipal securities. See Portfolio Composition Municipal Securities Inverse Floating Rate Securities. In general, income on inverse floating rate securities will decrease when interest rates increase and increase when interest rates decrease. Investments in inverse floating rate securities may subject the Fund to the risks of reduced or eliminated interest payments and losses of principal. In addition, inverse floating rate securities may increase or decrease in value at a greater rate than the underlying interest rate, which effectively leverages the Fund's investment. As a result, the market value of such securities generally will be more volatile than that of fixed rate securities.

The Fund may invest in inverse floating rate securities issued by special purpose trusts that have recourse to the Fund. In Nuveen Fund Advisors's discretion, the Fund may enter into a separate shortfall and forbearance agreement with the third party sponsor of a special purpose trust. The Fund may enter into such recourse agreements (i) when the liquidity provider to the special purpose trust requires such an agreement because the level of leverage in the special purpose trust exceeds the level that the liquidity provider is willing to support absent such an agreement; and/or (ii) to seek to prevent the liquidity provider from collapsing the special purpose trust in the event that the municipal obligation

held in the trust has declined in value. Such an agreement would require the Fund to reimburse the third party sponsor of the trust, upon termination of the trust issuing the inverse floater, the difference between the liquidation value of the bonds held in the trust and the principal amount due to the holders of floating rate securities. In such instances, the Fund may be at risk of loss that exceeds its investment in the inverse floating rate securities.

The Fund's investments in inverse floating rate securities issued by special purpose trusts that have recourse to the Fund may be highly leveraged. The structure and degree to which the Fund's inverse floating rate securities are highly leveraged will vary based upon a number of factors, including the size of the trust itself and the terms of the underlying municipal security held in a special purpose trust. An inverse floating rate security generally is considered highly leveraged if the principal amount of the short-term floating rate interests issued by the related special purpose trust is in excess of three times the principal amount of the inverse floating rate securities owned by the trust (the ratio of the principal amount of such short-term floating rate interests to the principal amount of the inverse floating rate securities is referred to as the "gearing"). In the event of a significant decline in the value of an underlying security, the Fund may suffer losses in excess of the amount of its investment (up to an amount equal to the value of the municipal securities underlying the inverse floating rate securities) as a result of liquidating special purpose trusts or other collateral required to maintain the Fund's anticipated effective leverage ratio.

The economic effect of leverage through the Fund's purchase of inverse floating rate securities creates an opportunity for increased net income and returns, but also creates the possibility that the Fund's long-term returns will be diminished if the cost of leverage exceeds the return on the inverse floating rate securities purchased by the Fund.

Inverse floating rate securities have varying degrees of liquidity based upon the liquidity of the underlying securities deposited in a special purpose trust. The market price of inverse floating rate securities is more volatile than the underlying securities due to leverage. The leverage attributable to such inverse floating rate securities may be "called away" on relatively short notice and therefore may be less permanent than more traditional forms of leverage. In certain circumstances, the likelihood of an increase in the volatility of net asset value and market price of the common shares may be greater for the Fund to the extent that it relies on inverse floating rate securities to achieve a significant portion of its desired effective leverage ratio. The Fund may be required to sell its inverse floating rate securities at less than favorable prices, or liquidate other Fund portfolio holdings in certain circumstances, including, but not limited to, the following:

If the Fund has a need for cash and the securities in a special purpose trust are not actively trading due to adverse market conditions;

If special purpose trust sponsors (as a collective group or individually) experience financial hardship and consequently seek to terminate their respective outstanding special purpose trusts; and

If the value of an underlying security declines significantly (to a level below the notional value of the floating rate securities issued by the trust) and if additional collateral has not been posted by the Fund.

- *Insurance Risk.* The Fund may purchase municipal securities that are additionally secured by insurance, bank credit agreements, or escrow accounts. The credit quality of the companies that provide such credit enhancements will affect the value of those securities. Many significant providers of insurance for municipal securities have recently incurred significant losses and as a result, such losses have reduced the insurers' capital and called into question their continued ability to perform their obligations under such insurance if they are called to do so in the future. Assuming that the insurer remains creditworthy, the insurance feature of a municipal security guarantees the full payment of principal and interest when due through the life of an insured obligation. Such insurance does not guarantee the market value of the insured obligation or the value of the Fund's common shares. See *Risks* General Risks of Investing in the Fund *Insurance Risk*.
- *Reinvestment Risk the Fund.* With respect to the Fund, reinvestment risk is the risk that income from the Fund's portfolio will decline if and when the Fund invests the proceeds from matured, traded or called bonds at market interest rates that are below the Fund's portfolio's current earnings rate.
- *Anti-Takeover Provisions.* The Fund's Declaration of Trust and By-Laws include provisions that could limit the ability of other entities or persons to acquire control of the Fund or convert the Fund to open-end status. See *Certain Provisions in the Declaration of Trust and By-Laws*.

For additional risks of investing in MTP Shares and general risks of the Fund, see *Risks*.

Governing Law

The Declaration of Trust and the Statement are governed by the laws of the Commonwealth of Massachusetts.

FINANCIAL HIGHLIGHTS

The following Financial Highlights table is intended to help a prospective investor understand the Fund's financial performance for the periods shown. Certain information reflects financial results for a single Common share or MuniPreferred share of the Fund. The total returns in the table represent the rate an investor would have earned or lost on an investment in common shares of the Fund (assuming reinvestment of all dividends). The information with respect to the fiscal year ended April 30, 2010 has been audited by Ernst & Young LLP, whose report for the fiscal year ended April 30, 2010, along with the financial statements of the Fund including the Financial Highlights for each of the periods indicated therein, are included in the Fund's 2010 Annual Report. The information with respect to the six months ended October 31, 2010 is unaudited and is included in the Fund's 2010 Semi-Annual report. Results of the interim period are not necessarily indicative of results of the full year. A copy of the 2010 Annual Report and Semi-Annual Report may be obtained from www.sec.gov or by visiting www.nuveen.com. The information contained in, or that can be accessed through, the Fund's website is not part of this prospectus. Past results are not indicative of future performance.

The following per share data and ratios have been derived from information provided in the financial statements.

* Annualized.

** Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share Net Asset Value is the combination of changes in Common share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvestment price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.

- (b) For the period March 27, 2001 (commencement of operations) through June 30, 2001.
- (c) The expense ratios reflect, among other things, the interest expense deemed to have been paid by the Fund on floating rate certificates issued by the special purpose trusts for the self-deposited inverse floaters held by the Fund, as more fully described in Footnote 1 - General Information and Significant Accounting Policies, Inverse Floating Rate Securities, in the most recent shareholder report.
- (d) For the six months ended October 31, 2010. Unaudited.

THE FUND

The Fund is a diversified, closed-end management investment company registered under the 1940 Act. The Fund was organized as a Massachusetts business trust on June 1, 1999 pursuant to a Declaration of Trust governed by the laws of the Commonwealth of Massachusetts (the Declaration of Trust). The Fund's common shares are listed on the NYSE Amex under the symbol NXJ. The Fund's principal office is located at 333 West Wacker Drive, Chicago, Illinois 60606, and its telephone number is (800) 257-8787.

The table below provides information on MuniPreferred shares since 2001.

<u>As of</u>	<u>Amount Outstanding Exclusive of Treasury Securities</u>	<u>Asset Coverage Per Share*</u>	<u>Involuntary Liquidation Preference Per Share</u>	<u>Asset Coverage Ratio**</u>
June 30, 2001	1,920	\$ 74,055	\$ 25,000	296%

Series 2014			

USE OF PROCEEDS

The net proceeds of the offering will be approximately \$43,925,238 or \$50,570,273 if the underwriters exercise the overallotment option in full, after payment of the underwriting discounts and commissions and estimated offering costs. The Fund intends to use the net proceeds from the sale of MTP Shares to refinance and redeem all of the Fund's outstanding MuniPreferred shares, and to maintain the Fund's leveraged capital structure. Any net proceeds from the sale of MTP Shares that remain after giving effect to the contemplated refinancing and redemption of all of

Edgar Filing: NUVEEN NEW JERSEY DIVIDEND ADVANTAGE MUNICIPAL FUND - Form 497

the Fund's outstanding MuniPreferred shares will be invested in accordance with the Fund's investment objectives and policies. In addition, to the extent the underwriters purchase additional shares to cover over-allotments, the proceeds to the Fund from such additional purchase will be invested in accordance with the Fund's investment objectives and policies or, in the event that only a portion of the Fund's outstanding MuniPreferred shares are to be redeemed, will be used to redeem additional MuniPreferred shares. Such redemption of the MuniPreferred shares is expected to occur within four weeks of the closing of the offering.

With respect to any net proceeds from the sale of MTP Shares resulting from an exercise of the underwriters' over-allotment option, the Fund may invest in short-term, high quality instruments on a temporary basis. In this event, the Fund expects that such net proceeds would be invested in accordance with the Fund's investment objectives and policies within eight weeks of the closing of such over-allotment option exercise.

CAPITALIZATION

The following table sets forth the capitalization of the Fund as of October 31, 2010, and as adjusted to give effect to (i) the issuance of all MTP Shares offered hereby (assuming that the underwriters' over-allotment option is not exercised) and (ii) the redemption of all outstanding MuniPreferred shares with the proceeds of the issuance of MTP Shares. Fewer than all of the Fund's outstanding MuniPreferred shares may be redeemed. The as adjusted information is illustrative only.

	Actual October 31, 2010	As Adjusted October 31, 2010
	(Unaudited)	(Unaudited)
MuniPreferred shares, \$25,000 stated value per share, at liquidation value; unlimited shares authorized (1,757 shares outstanding and no shares outstanding, as adjusted, respectively)*	\$ 43,925,000	\$
MTP Shares, \$10 stated value per share, at liquidation value; unlimited shares authorized; (no shares outstanding and 4,486,100 shares outstanding, as adjusted, respectively)*	\$	\$ 44,861,000
COMMON SHAREHOLDERS' EQUITY:		
Common shares, \$.01 par value per share; unlimited shares authorized, 6,569,912 shares outstanding*	\$ 65,699	\$ 65,699
Paid-in surplus**	93,329,738	93,329,738
Undistributed net investment income	1,353,954	1,353,954
Accumulated net realized gain (loss) from investments	189,806	189,806
Net unrealized appreciation (depreciation) of investments	2,376,828	2,376,828
Net assets applicable to Common shares	\$ 97,316,025	\$ 97,316,025

* None of these outstanding shares are held by or for the account of the Fund.

** Assumes a total of \$935,762 of underwriting discounts and commissions and other estimated offering costs of the MTP Shares issuance will be capitalized and amortized over the life of the MTP Shares.

SUPPLEMENTAL PORTFOLIO INFORMATION

DESCRIPTION OF MTP SHARES

The following is a brief description of the terms of MTP Shares, including specific terms of Series 2014 MTP Shares. This is not a complete description and is subject to and entirely qualified by reference to the Fund's Declaration of Trust and the Statement. These documents are filed with the Securities and Exchange Commission as exhibits to the Fund's registration statement of which this prospectus is a part and the Statement also is attached as Appendix A to the SAI. Copies may be obtained as described under Available Information. Many of the terms in this section have a special meaning. Any capitalized terms in this section that are not defined have the meaning assigned to them in the Statement.

General

At the time of issuance the MTP Shares will be fully paid and non-assessable and have no preemptive, conversion, or exchange rights or rights to cumulative voting. MTP Shares will rank equally with shares of all other Preferred Stock of the Fund including outstanding MuniPreferred shares, if any, and with any other series of preferred shares of the Fund that might be issued in the future, as to payment of dividends and the distribution of the Fund's assets upon dissolution, liquidation or winding up of the affairs of the Fund. MTP Shares and all other Preferred Stock of the Fund are senior as to dividends and distributions to the Fund's common shares. The Fund may issue additional series of Preferred Stock in the future that will be classified as MuniFund Term Preferred Shares, and any such series, together with the MTP Shares, are herein collectively referred to as MuniFund Term Preferred Shares.

Except in certain limited circumstances, holders of MTP Shares will not receive certificates representing their ownership interest in such shares, and the MTP Shares will be represented by a global certificate to be held by the Securities Depository for the MTP Shares. The Depository Trust Company will initially act as Securities Depository with respect to the MTP Shares.

Dividends and Dividend Periods

General. The following is a general description of dividends and dividend periods. The holders of MTP Shares will be entitled to receive cumulative cash dividends and distributions on such shares, when, as and if declared by, or under authority granted by, the Board of Trustees, out of funds legally available for payment and in preference to dividends and distributions on common shares of the Fund, calculated separately for each

Dividend Period for such MTP Shares at the Dividend Rate for such MTP Shares in effect during such Dividend Period, on an amount equal to the Liquidation Preference for such MTP Shares. The Dividend Rate is computed on the basis of a 360-day year consisting of twelve 30-day months. Dividends so declared and payable will be paid to the extent permitted under state law and the Declaration of Trust, and to the extent available, in preference to and priority over any dividend declared and payable on the common shares.

Fixed Dividend Rate. The Fixed Dividend Rate is an annual rate of 2.30% for Series 2014 MTP Shares. The Fixed Dividend Rate for MTP Shares may be adjusted in certain circumstances, including a change in the credit rating of such MTP Shares and/or upon the occurrence of certain events resulting in a Default Period (as defined below) (the Fixed Dividend Rate as it may be adjusted is referred to as the Dividend Rate).

Payment of Dividends and Dividend Periods. Dividends on the MTP Shares will be payable monthly. The first Dividend Period for the MTP Shares will commence on the Date of Original Issue of MTP Shares and end on April 30, 2011 and each subsequent Dividend Period will be a calendar month (or the portion thereof occurring prior to the redemption of such MTP Shares). Dividends will be paid on the Dividend Payment Date the first Business Day of the month next following a Dividend Period and upon redemption of the MTP Shares, except that dividends paid with respect to any Dividend Period consisting of the month of December in any year will be paid on the last Business Day of December. Except for the first Dividend Period, dividends with respect to any monthly Dividend Period will be declared and paid to holders of record of MTP Shares as their names shall appear on the registration books of the Fund at the close of business on the 15th day of such monthly Dividend Period (or if such day is not a Business Day, the next preceding Business Day). Dividends with respect to the first Dividend Period of the Series 2014 MTP Shares will be declared and paid to holders of record of such MTP Shares as their names appear on the registration books of the Fund at the close of business on April 28, 2011. Dividends payable on any MTP Shares for any period of less than a full monthly Dividend Period, including in connection with the first Dividend Period for such shares or upon any redemption of such shares on any redemption date other than on a Dividend Payment Date, will be computed on the basis of a 360-day year consisting of twelve 30-day months and the actual number of days elapsed for any period of less than one month.

On account of the foregoing provisions, only the holders of MTP Shares on the record date for a Dividend Period will be entitled to receive dividends and distributions payable with respect to such Dividend Period, and holders of MTP Shares who sell shares before such a record date and purchasers of MTP Shares who purchase shares after such a record date should take the effect of the foregoing provisions into account in evaluating the price to be received or paid for such MTP Shares.

Adjustment to Fixed Dividend Rate Ratings. If the highest credit rating assigned on any date to outstanding MTP Shares by any of Moody's, S&P or Fitch is equal to one of the ratings set forth in the table below, the Dividend Rate applicable to such outstanding MTP Shares for such date will be computed or adjusted by multiplying the Fixed Dividend Rate by the applicable percentage (expressed as a decimal) set forth opposite the applicable highest credit rating so assigned on such date to such outstanding MTP Shares by any such Rating Agency as set forth in the table below.

Dividend Rate Adjustment Schedule

S&P	Moody's	Fitch	Applicable Percentage
AAA	Aaa	AAA	100%
AA+ to AA-	Aa1 to Aa3	AA+ to AA-	110%
A+ to A-	A1 to A3	A+ to A-	125%
BBB+ to BBB-	Baa1 to Baa3	BBB+ to BBB-	150%
BB+ and lower	Ba1 and lower	BB+ and lower	200%

Edgar Filing: NUVEEN NEW JERSEY DIVIDEND ADVANTAGE MUNICIPAL FUND - Form 497

If no Rating Agency is rating outstanding MTP Shares, the Dividend Rate applicable to the MTP Shares for such date shall be adjusted by multiplying the Fixed Dividend Rate for such shares by 200%.

The Board of Trustees of the Fund has the right to terminate the designation of any of S&P, Moody's and Fitch as a Rating Agency for purposes of the MTP Shares, provided that at least one Rating Agency continues to maintain a rating with respect to the MTP Shares. In such event, any rating of such terminated Rating Agency, to the extent it would have been taken into account in any of the provisions of the MTP Shares which are described in this prospectus or included in the Statement, will be disregarded, and only the ratings of the then-designated Rating Agencies will be taken into account. If a Rating Agency replaces any credit rating used in the determination of the Dividend Rate with a replacement credit rating, references to the replaced credit rating shall thereafter refer to the replacement credit rating. No adjustment to the Dividend Rate shall result in the Dividend Rate being less than the Fixed Dividend Rate.

Adjustment to Fixed Dividend Rate - Default Period. The Dividend Rate will be adjusted to the Default Rate in the following circumstances. Subject to the cure provisions below, a Default Period with respect to MTP Shares will commence on a date the Fund fails to deposit with the Redemption and Paying Agent by 12:00 noon, New York City time, on the (i) applicable Dividend Payment Date, Deposit Securities sufficient to pay the full amount of any dividend on MTP Shares payable on such Dividend Payment Date (a Dividend Default) or (ii) applicable Redemption Date (as defined below), Deposit Securities sufficient to pay the full amount of the redemption price payable on such Redemption Date (a Redemption Default) and, together with a Dividend Default, referred to as a Default). Subject to the cure provisions in the next paragraph below, a Default Period with respect to a Dividend Default or a Redemption Default shall end on the Business Day on which, by 12:00 noon, New York City time, an amount equal to all unpaid dividends and any unpaid redemption price shall have been deposited irrevocably in trust in same-day funds with the Redemption and Paying Agent. In the case of a Default, the applicable dividend rate for each day during the Default Period will be equal to the Default Rate. The Default Rate for any calendar day shall be equal to the applicable Dividend Rate in effect on such day plus five percent (5%) per annum.

No Default Period with respect to a Dividend Default or Redemption Default will be deemed to commence if the amount of any dividend or any redemption price due (if such default is not solely due to the willful failure of the Fund) is deposited irrevocably in trust, in same-day funds with the Redemption and Paying Agent by 12:00 noon, New York City time, on a Business Day that is not later than three Business Days after the applicable Dividend Payment Date or Redemption Date, together with an amount equal to the Default Rate applied to the amount and period of such non-payment based on the actual number of calendar days comprising such period divided by 360.

Mechanics of Payment of Dividends. Not later than 12:00 noon, New York City time, on a Dividend Payment Date, the Fund is required to deposit with the Redemption and Paying Agent sufficient funds for the payment of dividends in the form of Deposit Securities. Deposit Securities will generally consist of (i) cash or cash equivalents; (ii) direct obligations of the United States or its agencies or instrumentalities that are entitled to the full faith and credit of the United States (U.S. Government Obligations); (iii) securities that constitute municipal securities as described in this prospectus, including municipal bonds and notes, other securities issued to finance and refinance public projects, and other related securities and derivative instruments creating exposure to municipal bonds, notes and securities that provide for the payment of income that is exempt from federal income taxes (Municipal Obligations) that have credit ratings from at least one NRSRO that is the highest applicable rating generally ascribed by such NRSRO to Municipal Obligations with substantially similar terms; (iv) investments in money market funds registered under the 1940 Act that qualify under Rule 2a-7 under the 1940 Act and certain similar investment vehicles that invest in Municipal Obligations, U.S. Government Obligations or any combination thereof; or (v) any letter of credit from a bank or other financial institution that has a credit rating from at least one NRSRO that is the highest applicable rating generally ascribed by such NRSRO to bank deposits or short-term debt of similar banks or other financial institutions, in each case either that is a demand obligation payable to the holder on any Business Day or that has a maturity date, mandatory redemption date or mandatory payment date, preceding the relevant Redemption Date, Dividend Payment Date or other payment date. The Fund does not intend to establish any reserves for the payment of dividends.

All Deposit Securities paid to the Redemption and Payment Agent for the payment of dividends will be held in trust for the payment of such dividends to the holders of MTP Shares. Dividends will be paid by the Redemption and Payment Agent to the holders of MTP Shares as their names appear on the registration books of the Fund. Dividends that are in arrears for any past Dividend Period may be declared and paid at any time, without reference to any regular Dividend Payment Date. Such payments are made to holders of MTP Shares as their names appear on the registration books of the Fund on such date, not exceeding 15 calendar days preceding the payment date thereof, as may be fixed by the Board of Trustees. Any payment of dividends in arrears will first be credited against the earliest accumulated but unpaid dividends. No interest or sum of money in lieu of interest will be payable in respect of any dividend payment or payments on any MTP Shares which may be in arrears. See Adjustment to Fixed Dividend Rate Default Period.

Upon failure to pay dividends for at least two years, the holders of MTP Shares will acquire certain additional voting rights. See Voting Rights below. Such rights shall be the exclusive remedy of the holders of MTP Shares upon any failure to pay dividends on MTP Shares.

Distributions with respect to Taxable Allocations.

Holders of MTP Shares will be entitled to receive, when, as and if declared by the Board of Trustees, out of funds legally available therefor, additional distributions payable with respect to Taxable Allocations (as defined below) that are paid with respect to such shares in accordance with one of the procedures described in the following three paragraphs as set forth below.

Each year, the Fund will allocate exempt interest dividends, ordinary income dividends, and capital gain distributions, between its common shares and Preferred Stock, including MTP Shares, in proportion to the total dividends paid to each class during or with respect to such year. See Tax Matters Federal Income Tax Treatment of Holders of MTP Shares. The Fund may provide notice to the Redemption and Paying Agent prior to the commencement of any Dividend Period for MTP Shares of the amount of a Taxable Allocation that will be made in respect of such MTP Shares for such Dividend Period (a Notice of Taxable Allocation). Such Notice of Taxable Allocation will state the amount of the dividends payable in respect of MTP Shares for such Dividend Period that will be treated as a Taxable Allocation and the amount of any Additional Amount Payments (as defined below) to be paid in respect of such Taxable Allocation. If the Fund provides a Notice of Taxable Allocation with respect to dividends payable on MTP Shares for a Dividend Period, the Fund will, in addition to and in conjunction with the payment of such dividends payable, make a supplemental distribution in respect of each MTP Share for such Dividend Period of an additional amount equal to the Additional Amount Payment payable in respect of the Taxable Allocation paid on such MTP Share for such Dividend Period. In general, the Fund intends to provide Notices of Taxable Allocations as contemplated by this paragraph.

If the Fund does not provide a Notice of Taxable Allocation as provided above with respect to a Taxable Allocation that is made in respect of MTP Shares, the Fund may make one or more supplemental distributions on such MTP Shares equal to the amount of such Taxable Allocation. Any such supplemental distribution in respect of such shares may be declared and paid on any date, without reference to any regular Dividend Payment Date, to the holders of such MTP Shares as their names appear on the registration books of the Fund on such date, not exceeding 15 calendar days preceding the payment date of such supplemental distribution, as may be fixed by the Board of Trustees.

If in connection with a redemption of MTP Shares, the Fund makes a Taxable Allocation without having either given advance notice thereof or made one or more supplemental distributions as described above, the Fund will direct the Redemption and Paying Agent to send an Additional Amount Payment in respect of such Taxable Allocation to each holder of such shares at such holder's address as the same appears or last appeared on the record books of the Fund.

The Fund will not be required to pay Additional Amount Payments with respect to any MTP Shares with respect to any net capital gains or other taxable income determined by the Internal Revenue Service to be allocable in a manner different from the manner used by the Fund.

The term "Taxable Allocation" as used above means, with respect to MTP Shares, the allocation of any net capital gains or other income taxable for federal income tax purposes to a dividend paid in respect of such shares. The term "Additional Amount Payment" means a payment to a holder of MTP Shares of an amount which, when taken together with the aggregate amount of Taxable Allocations made to such holder to which such Additional Amount Payment relates, would cause such holder's dividends in dollars (after federal income tax consequences) from the aggregate of such Taxable Allocations and the related Additional Amount Payment to be equal to the dollar amount of the dividends that would have been received by such holder if the amount of such aggregate Taxable Allocations would have been excludable (for federal income tax purposes) from the gross income of such holder. Such Additional Amount Payment will be calculated (i) without consideration being given to the time value of money; (ii) assuming that no holder of MTP Shares is subject to the federal alternative minimum tax with respect to dividends received from the Fund; and (iii) assuming that each Taxable Allocation and each Additional Amount Payment (except to the extent such Additional Amount Payment is reported as an exempt-interest dividend under Section 852(b)(5) of the Code) would be taxable in the hands of each holder of MTP Shares at the maximum marginal regular federal individual income tax rate applicable to ordinary income or net capital gains, as applicable, or the maximum marginal regular federal corporate income tax rate applicable to ordinary income or net capital gains, as applicable, whichever is greater, in effect at the time such Additional Amount Payment is paid.

Restrictions on Dividend, Redemption and Other Payments

No full dividends and distributions will be declared or paid on MTP Shares for any Dividend Period, or a part of a Dividend Period, unless the full cumulative dividends and distributions due through the most recent dividend payment dates for all outstanding shares of Preferred Stock (including shares of other series of MuniFund Term Preferred Shares) have been, or contemporaneously are, declared and paid through the most recent dividend payment dates for each share of Preferred Stock. If full cumulative dividends and distributions due have not been paid on all outstanding shares of Preferred Stock of any series, any dividends and distributions being declared and paid on MTP Shares will be declared and paid as nearly pro rata as possible in proportion to the respective amounts of dividends and distributions accumulated but unpaid on the shares of each such series of Preferred Stock on the relevant dividend payment date. No holders of MTP Shares will be entitled to any dividends and distributions in excess of full cumulative dividends and distributions as provided in the Statement.

For so long as any MuniFund Term Preferred Shares are outstanding, the Fund will not: (x) declare any dividend or other distribution (other than a dividend or distribution paid in common stock of the Fund) in respect of the common stock of the Fund, (y) call for redemption, redeem, purchase or otherwise acquire for consideration any such common stock, or (z) pay any proceeds of the liquidation of the Fund in respect of such common stock, unless, in each case, (A) immediately thereafter, the Fund shall be in compliance with the 200% asset coverage limitations set forth under the 1940 Act, (B) all cumulative dividends and distributions of shares of all series of MuniFund Term Preferred Shares of the Fund and all other series of Preferred Stock ranking on a parity with the MTP Shares due on or prior to the date of the applicable dividend, distribution, redemption, purchase or acquisition shall have been declared and paid (or shall have been declared and sufficient funds or Deposit Securities as permitted by the terms of such Preferred Stock for the payment thereof shall have been deposited irrevocably with the applicable paying agent) and (C) the Fund shall have deposited Deposit Securities with the Redemption and Paying Agent in accordance with the requirements described herein with respect to outstanding MuniFund Term Preferred Shares of any series to be redeemed pursuant to a Term Redemption or Asset Coverage or Effective Leverage Mandatory Redemption resulting from the failure to comply with the Asset Coverage or Effective Leverage Ratio as described below for which a Notice of Redemption shall have been given or shall have been required to be given in accordance with the terms described herein on or prior to the date of the applicable dividend, distribution, redemption, purchase or acquisition.

Except as required by law, the Fund will not redeem any MTP Shares unless all accumulated and unpaid dividends and distributions on all outstanding MTP Shares and other series of Preferred Stock ranking on a parity with the MTP Shares with respect to dividends and distributions for all applicable past dividend periods (whether or not earned or declared by the Fund) (x) shall have been or are contemporaneously paid or (y) shall have been

or are contemporaneously declared and Deposit Securities or sufficient funds (in accordance with the terms of such Preferred Stock) for the payment of such dividends and distributions shall have been or are contemporaneously deposited with the Redemption and Paying Agent or other applicable paying agent, provided, however, that the foregoing shall not prevent the purchase or acquisition of outstanding MTP Shares pursuant to an otherwise lawful purchase or exchange offer made on the same terms to holders of all outstanding MTP Shares and any other series of Preferred Stock for which all accumulated and unpaid dividends and distributions have not been paid.

As a fundamental policy, the Fund may not issue debt securities that rank senior to MTP Shares other than for temporary or emergency purposes. See the SAI, Investment Restrictions. Under the 1940 Act, the Fund may not (i) declare any dividend with respect to any preferred shares if, at the time of such declaration (and after giving effect thereto), asset coverage with respect to any borrowings of the Fund that are senior securities representing indebtedness (as defined in the 1940 Act), would be less than 200% (or such other percentage as may in the future be specified in or under the 1940 Act as the minimum asset coverage for senior securities representing indebtedness of a closed-end investment company as a condition of declaring dividends on its preferred shares) or (ii) declare any other distribution on the preferred shares or purchase or redeem preferred shares if at the time of the declaration or redemption (and after giving effect thereto), asset coverage with respect to such borrowings that are senior securities representing indebtedness would be less than 300% (or such higher percentage as may in the future be specified in or under the 1940 Act as the minimum asset coverage for senior securities representing indebtedness of a closed-end investment company as a condition of declaring distributions, purchases or redemptions of its shares). Notwithstanding the 1940 Act's requirements, MTP Shares have a higher Asset Coverage (as defined for purposes of the MTP Shares) of at least 225% instead of 200%. Senior securities representing indebtedness generally means any bond, debenture, note or similar obligation or instrument constituting a security (other than shares of capital stock) and evidencing indebtedness and could include the Fund's obligations under any borrowings. For purposes of determining asset coverage for senior securities representing indebtedness in connection with the payment of dividends or other distributions on or purchases or redemptions of stock, the term senior security does not include any promissory note or other evidence of indebtedness issued in consideration of any loan, extension or renewal thereof, made by a bank or other person and privately arranged, and not intended to be publicly distributed. The term senior security also does not include any such promissory note or other evidence of indebtedness in any case where such a loan is for temporary purposes only and in an amount not exceeding 5% of the value of the total assets of the Fund at the time when the loan is made; a loan is presumed under the 1940 Act to be for temporary purposes if it is repaid within 60 calendar days and is not extended or renewed; otherwise it is presumed not to be for temporary purposes. For purposes of determining whether the 200% and 300% statutory asset coverage requirements described above apply in connection with dividends or distributions on or purchases or redemptions of preferred shares, such asset coverages may be calculated on the basis of values calculated as of a time within 48 hours (only including Business Days) next preceding the time of the applicable determination.

Asset Coverage

If the Fund fails to maintain Asset Coverage of at least 225% as of the close of business on each Business Day, the MTP Shares may become subject to mandatory redemption as provided below. Asset Coverage means asset coverage of a class of senior security which is a stock, as defined for purposes of Section 18(h) of the 1940 Act as in effect on the date of the Statement, determined on the basis of values calculated as of a time within 48 hours (only including Business Days) next preceding the time of such determination. For purposes of this determination, no MTP Shares or other Preferred Stock shall be deemed to be outstanding for purposes of the computation of Asset Coverage if, prior to or concurrently with such determination, either (A) sufficient Deposit Securities or other sufficient funds (in accordance with the terms of such Preferred Stock) to pay the full redemption price for such Preferred Stock (or the portion thereof to be redeemed) shall have been deposited in trust with the paying agent for such Preferred Stock and the requisite notice of redemption for such Preferred Stock (or the portion thereof to be redeemed) shall have been given or (B) sufficient Deposit Securities or other sufficient funds (in accordance with the terms of such Preferred Stock) to pay the full redemption price for such

Preferred Stock (or the portion thereof to be redeemed) shall have been segregated by the Fund and its custodian from the assets of the Fund in the same manner as described under **Term Redemption Liquidity Account and Liquidity Requirement** below with respect to the Liquidity Requirement applicable to the MTP Shares. In such event, the Deposit Securities or other sufficient funds so deposited or segregated shall not be included as assets of the Fund for purposes of the computation of Asset Coverage.

Effective Leverage Ratio

If the Fund's Effective Leverage Ratio exceeds 50% as of the close of business on any Business Day, the MTP Shares may become subject to mandatory redemption as provided below. The **Effective Leverage Ratio** on any date means the quotient of the sum of (A) the aggregate liquidation preference of the Fund's senior securities (as that term is defined in the 1940 Act) that are stock for purposes of the 1940 Act, excluding, without duplication, (1) any such senior securities for which the Fund has issued a notice of redemption and either has delivered Deposit Securities or sufficient funds (in accordance with the terms of such senior securities) to the paying agent for such senior securities or otherwise has adequate Deposit Securities or sufficient funds on hand for the purpose of such redemption and (2) any such senior securities that are to be redeemed with net proceeds from the sale of the MTP Shares, for which the Fund has delivered Deposit Securities or sufficient funds to the paying agent for such Preferred Stock or otherwise has adequate Deposit Securities or sufficient funds on hand for the purpose of such redemption; (B) the aggregate principal amount of the Fund's senior securities representing indebtedness (as that term is defined in the 1940 Act); and (C) the aggregate principal amount of floating rate securities not owned by the Fund that correspond to the associated inverse floating rate securities owned by the Fund; divided by the sum of (A) the market value (determined in accordance with the Fund's valuation procedures) of the Fund's total assets (including amounts attributable to senior securities), less the amount of the Fund's accrued liabilities (other than liabilities for the aggregate principal amount of senior securities representing indebtedness, including floating rate securities); and (B) the aggregate principal amount of floating rate securities not owned by the Fund that correspond to the associated inverse floating rate securities owned by the Fund.

Redemption

Term Redemption. The Fund is required to provide for the mandatory redemption (the **Term Redemption**) of all of the Series 2014 MTP Shares on April 1, 2014 (the **Term Redemption Date**), at a redemption price equal to the Liquidation Preference per share plus an amount equal to accumulated but unpaid dividends thereon (whether or not earned or declared but excluding interest thereon) to (but excluding) the **Term Redemption Date** (the **Term Redemption Price**).

Mandatory Redemption for Asset Coverage and Effective Leverage Ratio.

Asset Coverage. If the Fund fails to have Asset Coverage of at least 225% as provided in the Statement and such failure is not cured as of the close of business on the Asset Coverage Cure Date, the Fund will fix a redemption date and proceed to redeem the number of shares of Preferred Stock as described below at a price per share equal to the liquidation price per share of the applicable Preferred Stock, which in the case of the MTP Shares is equal to the Liquidation Preference per Share plus accumulated but unpaid dividends and distributions thereon (whether or not earned or declared but excluding interest thereon) to (but excluding) the date fixed for redemption by the Board of Trustees (the **Mandatory Redemption Price**). The Fund will redeem out of funds legally available the number of shares of Preferred Stock (which may include at the sole option of the Fund any number or proportion of MTP Shares) equal to the lesser of (i) the minimum number of shares of Preferred Stock, the redemption of which, if deemed to have occurred immediately prior to the opening of business on the Asset Coverage Cure Date, would result in the Fund having Asset Coverage of at least 230% and (ii) the maximum number of shares of Preferred Stock that can be redeemed out of funds expected to be legally available in accordance with the Declaration of Trust of the Fund and applicable law. Notwithstanding the foregoing sentence, in the event that shares of Preferred Stock are redeemed pursuant to the Statement, the Fund may at its sole option, but is not required to, redeem a sufficient number of MTP Shares that, when aggregated with other shares of Preferred Stock redeemed by the Fund, permits the Fund to have with respect to the shares of Preferred

Stock (including MTP Shares) remaining outstanding after such redemption, Asset Coverage on such Asset Coverage Cure Date of as much as 285%. The Fund will effect a redemption on the date fixed by the Fund, which date will not be later than 30 calendar days after the Asset Coverage Cure Date, except that if the Fund does not have funds legally available for the redemption of all of the required number of MTP Shares and other shares of Preferred Stock which have been designated to be redeemed or the Fund otherwise is unable to effect such redemption on or prior to 30 calendar days after the Asset Coverage Cure Date, the Fund will redeem those MTP Shares and other shares of Preferred Stock which it was unable to redeem on the earliest practicable date on which it is able to effect such redemption.

If fewer than all of the outstanding MTP Shares are to be redeemed pursuant to the Asset Coverage mandatory redemption provisions above, the MTP Shares to be redeemed will be selected either (i) pro rata among MTP Shares, (ii) by lot or (iii) in such other manner as the Board of Trustees of the Fund may determine to be fair and equitable.

Effective Leverage Ratio. If the Fund fails to comply with the Effective Leverage Ratio (as defined above) requirement as of the close of business on any Business Day on which such compliance is determined and such failure is not cured as of the close of business on the Effective Leverage Ratio Cure Date, the Fund will within 30 days following the Effective Leverage Ratio Cure Date cause the Fund to have an Effective Leverage Ratio of 50% or less by (A) engaging in transactions involving or relating to the floating rate securities not owned by the Fund and/or the inverse floating rate securities owned by the Fund, including the purchase, sale or retirement thereof, (B) redeeming in accordance with the Fund's Declaration of Trust a sufficient number of shares of Preferred Stock, which at the Fund's sole option may include any number or proportion of MuniFund Term Preferred Shares, or (C) engaging in any combination of the actions contemplated by clauses (A) and (B). Any MTP Shares so redeemed will be redeemed at a price per share equal to the Mandatory Redemption Price.

On the Redemption Date for a redemption contemplated by clause (B) in the paragraph above, the Fund will not redeem more than the maximum number of shares of Preferred Stock that can be redeemed out of funds expected to be legally available therefor in accordance with the Fund's Declaration of Trust and applicable law. If the Fund is unable to redeem the required number of MTP Shares and other shares of Preferred Stock which have been designated to be redeemed in accordance with clause (B) in the paragraph above due to the unavailability of legally available funds, the Fund will redeem those MTP Shares and other shares of Preferred Stock which it was unable to redeem on the earliest practicable date on which it is able to effect such redemption.

If fewer than all of the outstanding MTP Shares are to be redeemed pursuant to the Effective Leverage Ratio mandatory redemption provisions above, the MTP Shares to be redeemed will be selected either (A) pro rata among MTP Shares, (B) by lot or (C) in such other manner as the Board of Trustees of the Fund may determine to be fair and equitable.

Optional Redemption. On any Business Day following the expiration of the Non-Call Period for MTP Shares or on any Business Day during a Rating Downgrade Period for MTP Shares, including a Business Day during the Non-Call Period for such MTP Shares (any such Business Day, an Optional Redemption Date), the Fund may redeem in whole or from time to time in part outstanding MTP Shares, at a redemption price equal to the Liquidation Preference, plus an amount equal to all unpaid dividends and distributions accumulated to (but excluding) the Optional Redemption Date (whether or not earned or declared by the Fund, but excluding interest thereon), plus the applicable Optional Redemption Premium per share (as calculated below) (the Optional Redemption Price). The Optional Redemption Premium with respect to each MTP Share will be an amount equal to:

- if the Optional Redemption Date does not occur during a Rating Downgrade Period but occurs on or after April 1, 2012 and prior to October 1, 2012, 1.00% of the Liquidation Preference;
- if the Optional Redemption Date does not occur during a Rating Downgrade Period but occurs on or after October 1, 2012 and prior to April 1, 2013, 0.5% of the Liquidation Preference; or

- if the Optional Redemption Date either occurs during a Rating Downgrade Period or occurs on or after April 1, 2013, 0.00% of the Liquidation Preference.

If fewer than all of the outstanding MTP Shares are to be redeemed pursuant to the optional redemption provisions above, the MTP Shares to be redeemed will be selected either (i) pro rata among MTP Shares, (ii) by lot or (iii) in such other manner as the Board of Trustees of the Fund may determine to be fair and equitable. Subject to the provisions of the Statement and applicable law, the Fund's Board of Trustees will have the full power and authority to prescribe the terms and conditions upon which MTP Shares will be redeemed from time to time.

The Fund may not on any date deliver a notice of redemption to redeem any MTP Shares pursuant to the optional redemption provisions described above unless on such date the Fund has available Deposit Securities for the Optional Redemption Date contemplated by such notice of redemption having a Market Value not less than the amount (including any applicable premium) due to holders of MTP Shares by reason of the redemption of such MTP Shares on such Optional Redemption Date.

Redemption Procedures. The Fund will file a notice of its intention to redeem with the Securities and Exchange Commission so as to provide the 30 calendar day notice period contemplated by Rule 23c-2 under the 1940 Act, or such shorter notice period as may be permitted by the Securities and Exchange Commission or its staff.

If the Fund shall determine or be required to redeem, in whole or in part, MTP Shares, it will deliver a notice of redemption (a Notice of Redemption) by overnight delivery, by first class mail, postage prepaid or by electronic means to the holders of such MTP Shares to be redeemed, or request the Redemption and Paying Agent, on behalf of the Fund, to promptly do so by overnight delivery, by first class mail or by electronic means. A Notice of Redemption will be provided not more than 45 calendar days prior to the date fixed for redemption in such Notice of Redemption (the Redemption Date). Each Notice of Redemption will state: (i) the Redemption Date; (ii) the number of MTP Shares to be redeemed; (iii) the CUSIP number(s) of such MTP Shares; (iv) the applicable Redemption Price of MTP Shares to be redeemed on a per share basis; (v) if applicable, the place or places where the certificate(s) for such MTP Shares (properly endorsed or assigned for transfer, if the Board of Trustees of the Fund will so require and the Notice of Redemption states) are to be surrendered for payment of the redemption price; (vi) that dividends on MTP Shares to be redeemed will cease to accumulate from and after the redemption date; and (vii) the provisions of the Statement under which such redemption is made. If fewer than all MTP Shares held by any holder are to be redeemed, the Notice of Redemption mailed to such holder shall also specify the number of MTP Shares to be redeemed from such holder or the method of determining such number. The Fund may provide in any Notice of Redemption relating to a redemption contemplated to be effected pursuant to a Statement that such redemption is subject to one or more conditions precedent and that the Fund will not be required to effect such redemption unless each such condition has been satisfied. No defect in any Notice of Redemption or delivery thereof will affect the validity of redemption proceedings except as required by applicable law.

If the Fund gives a Notice of Redemption, then at any time from and after the giving of such Notice of Redemption and prior to 12:00 noon, New York City time, on the Redemption Date (so long as any conditions precedent to such redemption have been met or waived by the Fund), the Fund will (i) deposit with the Redemption and Paying Agent Deposit Securities having an aggregate Market Value at the time of deposit no less than the redemption price of the MTP Shares to be redeemed on the Redemption Date and (ii) give the Redemption and Paying Agent irrevocable instructions and authority to pay the applicable redemption price to the holders of MTP Shares called for redemption on the Redemption Date. The Fund may direct the Redemption and Paying Agent with respect to the investment of any Deposit Securities consisting of cash so deposited prior to the Redemption Date, provided that the proceeds of any such investment will be available at the opening of business on the Redemption Date as same day funds. Notwithstanding the foregoing, if the Redemption Date is the Term Redemption Date, then such deposit of Deposit Securities (which may come in whole or in part from the Term Redemption Liquidity Account described below) will be made no later than 15 calendar days prior to the Term Redemption Date.

Upon the date of the deposit of Deposit Securities by the Fund for purposes of redemption of MTP Shares, all rights of the holders of MTP Shares so called for redemption shall cease and terminate except the right of the

holders thereof to receive the Term Redemption Price, Mandatory Redemption Price or Optional Redemption Price thereof, as applicable (any of the foregoing referred to herein as the Redemption Price), and such MTP Shares shall no longer be deemed outstanding for any purpose whatsoever (other than the transfer thereof prior to the applicable Redemption Date and other than the accumulation of dividends thereon in accordance with the terms of the MTP Shares up to (but excluding) the applicable Redemption Date). The Fund will be entitled to receive, promptly after the Redemption Date, any Deposit Securities in excess of the aggregate Redemption Price of MTP Shares called for redemption on the Redemption Date. Any Deposit Securities so deposited that are unclaimed at the end of 90 calendar days from the Redemption Date will, to the extent permitted by law, be repaid to the Fund, after which the holders of MTP Shares so called for redemption shall look only to the Fund for payment of the Redemption Price. The Fund will be entitled to receive, from time to time after the Redemption Date, any interest on the Deposit Securities so deposited.

On or after a Redemption Date, each holder of MTP Shares in certificated form (if any) that are subject to redemption will surrender the certificate(s) evidencing such MTP Shares to the Fund at the place designated in the Notice of Redemption and will then be entitled to receive the Redemption Price, without interest, and in the case of a redemption of fewer than all MTP Shares represented by such certificate(s), a new certificate representing MTP Shares that were not redeemed.

Notwithstanding the other redemption provisions described herein, except as otherwise required by law, the Fund will not redeem any MTP Shares unless all accumulated and unpaid dividends and distributions on all outstanding MTP Shares and shares of other series of Preferred Stock ranking on a parity with the MTP Shares with respect to dividends and distributions for all applicable past dividend periods (whether or not earned or declared by the Fund) (x) shall have been or are contemporaneously paid or (y) shall have been or are contemporaneously declared and Deposit Securities or sufficient funds (in accordance with the terms of such Preferred Stock) for the payment of such dividends and distributions shall have been or are contemporaneously deposited with the Redemption and Paying Agent as set forth herein, provided that the Fund will not be prevented from the purchase or acquisition of outstanding MTP Shares pursuant to an otherwise lawful purchase or exchange offer made on the same terms to holders of all outstanding MTP Shares and any other series of Preferred Stock for which all accumulated and unpaid dividends and distributions have not been paid.

If any redemption for which a Notice of Redemption has been provided is not made by reason of the absence of legally available funds of the Fund in accordance with the Declaration of Trust of the Fund and applicable law, such redemption shall be made as soon as practicable to the extent such funds become available. No Redemption Default will be deemed to have occurred if the Fund has failed to deposit in trust with the Redemption and Paying Agent the applicable Redemption Price with respect to any shares where (1) the Notice of Redemption relating to such redemption provided that such redemption was subject to one or more conditions precedent and (2) any such condition precedent has not been satisfied at the time or times and in the manner specified in such Notice of Redemption. Notwithstanding the fact that a Notice of Redemption has been provided with respect to any MuniFund Term Preferred Shares, dividends may be declared and paid on such MuniFund Term Preferred Shares in accordance with their terms if Deposit Securities for the payment of the Redemption Price of such MuniFund Term Preferred Shares shall not have been deposited in trust with the Redemption and Paying Agent for that purpose.

The Fund may, in its sole discretion and without a shareholder vote, modify the redemption procedures with respect to notification of redemption for the MTP Shares, provided that such modification does not materially and adversely affect the holders of MTP Shares or cause the Fund to violate any applicable law, rule or regulation.

Term Redemption Liquidity Account and Liquidity Requirement

On or prior to October 1, 2013 (the Liquidity Account Initial Date), the Fund will cause its custodian to segregate, by means of appropriate identification on its books and records or otherwise in accordance with its custodian s normal procedures, from the other assets of the Fund (the Term Redemption Liquidity Account) Deposit Securities or any other security or investment owned by the Fund that is rated not less than A3 by

Moody's, A- by S&P, A- by Fitch or an equivalent rating by any other NRSRO (each a Liquidity Account Investment and collectively the Liquidity Account Investments) with a Market Value (as defined in the Statement) equal to at least 110% of the Term Redemption Amount (as defined below) with respect to such MTP Shares. The Term Redemption Amount for MTP Shares is equal to the Term Redemption Price to be paid on the Term Redemption Date, based on the number of MTP Shares then outstanding, assuming for this purpose that the Dividend Rate in effect at the Liquidity Account Initial Date will be the Dividend Rate in effect until the Term Redemption Date. If, on any date after the Liquidity Account Initial Date, the aggregate Market Value of the Liquidity Account Investments included in the Term Redemption Liquidity Account for MTP Shares as of the close of business on any Business Day is less than 110% of the Term Redemption Amount, then the Fund will cause the custodian and Nuveen Fund Advisors to take all such necessary actions, including segregating assets of the Fund as Liquidity Account Investments, so that the aggregate Market Value of the Liquidity Account Investments included in the Term Redemption Liquidity Account is at least equal to 110% of the Term Redemption Amount not later than the close of business on the next succeeding Business Day. With respect to assets of the Fund segregated as Liquidity Account Investments with respect to the MTP Shares, Nuveen Fund Advisors, on behalf of the Fund, will be entitled to instruct the custodian on any date to release any Liquidity Account Investments from such segregation and to substitute therefor other Liquidity Account Investments not so segregated, so long as (i) the assets of the Fund segregated as Liquidity Account Investments at the close of business on such date have a Market Value (as defined in the Statement) equal to 110% of the Term Redemption Amount and (ii) the assets of the Fund segregated as Deposit Securities at the close of business on such date have a Market Value equal to the Liquidity Requirement (if any) (as set forth below) that is applicable to such date. The Fund will cause the custodian not to permit any lien, security interest or encumbrance to be created or permitted to exist on or in respect of any Liquidity Account Investments included in the Term Redemption Liquidity Account, other than liens, security interests or encumbrances arising by operation of law and any lien of the custodian with respect to the payment of its fees or repayment for its advances.

The Market Value of the Deposit Securities held in the Term Redemption Liquidity Account for the MTP Shares, from and after the 15th day of the calendar month that is the number of months preceding the month of the Term Redemption Date specified in the table set forth below, will not be less than the percentage of the Term Redemption Amount for the MTP Shares set forth below opposite such number of months (the Liquidity Requirement), but in all cases subject to the cure provisions of described below:

Number of Months Preceding	Value of Deposit Securities as Percentage of Term Redemption Amount
5	20%
4	40%
3	60%
2	80%
1	100%

If the aggregate Market Value of the Deposit Securities included in the Term Redemption Liquidity Account for the MTP Shares as of the close of business on any Business Day is less than the Liquidity Requirement for such Business Day, then the Fund will cause the segregation of additional or substitute Deposit Securities in respect of the Term Redemption Liquidity Account, so that the aggregate Market Value of the Deposit Securities included in the Term Redemption Liquidity Account is at least equal to the Liquidity Requirement not later than the close of business on the next succeeding Business Day.

The Deposit Securities included in the Term Redemption Liquidity Account may be applied by the Fund, in its discretion, towards payment of the Term Redemption Price. Upon the deposit by the Fund with the Redemption and Paying Agent of Deposit Securities having an initial combined Market Value sufficient to effect the redemption of the MTP Shares on the Term Redemption Date, the requirement of the Fund to maintain the Term Redemption Liquidity Account as described above will lapse and be of no further force and effect.

Liquidation Rights

In the event of any liquidation, dissolution or winding up of the affairs of the Fund, whether voluntary or involuntary, the holders of MuniFund Term Preferred Shares will be entitled to receive out of the assets of the Fund available for distribution to shareholders, after satisfying claims of creditors but before any distribution or payment shall be made in respect of the common stock, a liquidation distribution equal to the Liquidation Preference of \$10 per share, plus an amount equal to all unpaid dividends and distributions accumulated to (but excluding) the date fixed for such distribution or payment (whether or not earned or declared by the Fund, but excluding interest thereon), and such holders shall be entitled to no further participation in any distribution or payment in connection with any such liquidation, dissolution or winding up.

If, upon any liquidation, dissolution or winding up of the affairs of the Fund, whether voluntary or involuntary, the assets of the Fund available for distribution among the holders of all MuniFund Term Preferred Shares, and any other outstanding shares of Preferred Stock, shall be insufficient to permit the payment in full to such holders of MuniFund Term Preferred Shares of the Liquidation Preference plus accumulated and unpaid dividends and distributions and the amounts due upon liquidation with respect to such other shares of Preferred Stock, then the available assets shall be distributed among the holders of such MuniFund Term Preferred Shares and such other series of Preferred Stock ratably in proportion to the respective preferential liquidation amounts to which they are entitled. In connection with any liquidation, dissolution or winding up of the affairs of the Fund whether voluntary or involuntary, unless and until the Liquidation Preference on each outstanding MuniFund Term Preferred Share plus accumulated and unpaid dividends and distributions has been paid in full to the holders of MuniFund Term Preferred Shares, no dividends, distributions or other payments will be made on, and no redemption, repurchase or other acquisition by the Fund will be made by the Fund in respect of, the common stock of the Fund.

Neither the sale of all or substantially all of the property or business of the Fund, nor the merger, consolidation or reorganization of the Fund into or with any other business or statutory trust, corporation or other entity, nor the merger, consolidation or reorganization of any other business or statutory trust, corporation or other entity into or with the Fund will be a dissolution, liquidation or winding up, whether voluntary or involuntary, for purposes of the provisions relating to liquidation set forth in the Statement.

Voting Rights

Except as otherwise provided in the Fund's Declaration of Trust, the Statement, or as otherwise required by applicable law, each holder of MTP Shares will be entitled to one vote for each MTP Share held by such holder on each matter submitted to a vote of shareholders of the Fund and the holders of outstanding shares of Preferred Stock, including the MTP Shares, will vote together with holders of shares of common stock of the Fund as a single class. Under applicable rules of the NYSE Amex, the Fund is currently required to hold annual meetings of shareholders.

In addition, the holders of outstanding shares of Preferred Stock, including the MTP Shares, will be entitled, as a class, to the exclusion of the holders of all other securities and classes of common stock of the Fund, to elect two trustees of the Fund at all times. The holders of outstanding shares of common stock and Preferred Stock, including MTP Shares, voting together as a single class, will elect the balance of the trustees of the Fund.

Notwithstanding the foregoing, if (i) at the close of business on any dividend payment date for dividends on any outstanding share of Preferred Stock, including any outstanding MuniFund Term Preferred Shares, accumulated dividends (whether or not earned or declared) on the shares of Preferred Stock, including the MTP Shares, equal to at least two full year's dividends shall be due and unpaid and sufficient cash or specified securities shall not have been deposited with the Redemption and Paying Agent or other applicable paying agent for the payment of such accumulated dividends; or (ii) at any time holders of any shares of Preferred Stock are entitled under the 1940 Act to elect a majority of the trustees of the Fund (a period when either of the foregoing conditions exists, a "Voting Period"), then the number of members constituting the Board of Trustees of the Fund

will automatically be increased by the smallest number that, when added to the two trustees elected exclusively by the holders of shares of Preferred Stock, including the MTP Shares, as described above, would constitute a majority of the Board as so increased by such smallest number; and the holders of the shares of Preferred Stock, including the MTP Shares, will be entitled as a class on a one-vote-per-share basis, to elect such additional trustees. The terms of office of the persons who are trustees at the time of that election will not be affected by the election of the additional trustees. If the Fund thereafter shall pay, or declare and set apart for payment, in full all dividends payable on all outstanding shares of Preferred Stock, including MTP Shares, for all past dividend periods, or the Voting Period is otherwise terminated, (i) the voting rights stated above shall cease, subject always, however, to the reversion of such voting rights in the holders of shares of Preferred Stock upon the further occurrence of any of the events described herein, and (ii) the terms of office of all of the additional trustees so elected will terminate automatically. Any Preferred Stock, including MTP Shares, issued after the date hereof will vote with MTP Shares as a single class on the matters described above, and the issuance of any other Preferred Stock, including MTP Shares, by the Fund may reduce the voting power of the holders of MTP Shares.

As soon as practicable after the accrual of any right of the holders of shares of Preferred Stock to elect additional trustees as described above, the Fund will call a special meeting of such holders and notify the Redemption and Paying Agent and/or such other person as is specified in the terms of such Preferred Stock to receive notice, (i) by mailing or delivery by electronic means or (ii) in such other manner and by such other means as are specified in the terms of such Preferred Stock, a notice of such special meeting to such holders, such meeting to be held not less than 10 nor more than 30 calendar days after the date of the delivery by electronic means or mailing of such notice. If the Fund fails to call such a special meeting, it may be called at the expense of the Fund by any such holder on like notice. The record date for determining the holders of shares of Preferred Stock entitled to notice of and to vote at such special meeting shall be the close of business on the fifth Business Day preceding the calendar day on which such notice is mailed. At any such special meeting and at each meeting of holders of shares of Preferred Stock held during a Voting Period at which trustees are to be elected, such holders, voting together as a class (to the exclusion of the holders of all other securities and classes of capital stock of the Fund), will be entitled to elect the number of additional trustees prescribed above on a one-vote-per-share basis.

Except as otherwise permitted by the terms of the Statement, so long as any MuniFund Term Preferred Shares are outstanding, the Fund will not, without the affirmative vote or consent of the holders of at least a majority of MuniFund Term Preferred Shares of all series outstanding at the time, voting as a separate class, amend, alter or repeal the provisions of the Declaration of Trust or the Statement, whether by merger, consolidation or otherwise, so as to materially and adversely affect any preference, right or power of the MuniFund Term Preferred Shares or the holders thereof; provided, however, that (i) a change in the capitalization of the Fund as described under the heading Issuance of Additional Preferred Stock will not be considered to materially and adversely affect the rights and preferences of MuniFund Term Preferred Shares, and (ii) a division of a MuniFund Term Preferred Share will be deemed to affect such preferences, rights or powers only if the terms of such division materially and adversely affect the holders of MuniFund Term Preferred Shares. For purposes of the foregoing, no matter shall be deemed to adversely affect any preference, right or power of a MuniFund Term Preferred Share of such series or the holder thereof unless such matter (i) alters or abolishes any preferential right of such MuniFund Term Preferred Share, or (ii) creates, alters or abolishes any right in respect of redemption of such MuniFund Term Preferred Share (other than as a result of a division of a MuniFund Term Preferred Share). So long as any MuniFund Term Preferred Shares are outstanding, the Fund will not, without the affirmative vote or consent of at least 66²/₃% of the holders of MuniFund Term Preferred Shares outstanding at the time, voting as a separate class, file a voluntary application for relief under federal bankruptcy law or any similar application under state law for so long as the Fund is solvent and does not foresee becoming insolvent.

Except as otherwise permitted by the terms of the Statement, so long as any MTP Shares are outstanding, the Fund will not, without the affirmative vote or consent of the holders of at least a majority of the MTP Shares outstanding at the time, voting as a separate class, amend, alter or repeal the provisions of the appendix to the Statement relating to the MTP Shares, whether by merger, consolidation or otherwise, so as to materially and

adversely affect any preference, right or power set forth in such appendix of the MTP Shares or the holders thereof; provided, however, that (i) a change in the capitalization of the Fund as described under the heading Issuance of Additional Preferred Stock will not be considered to materially and adversely affect the rights and preferences of the MTP Shares, and (ii) a division of an MTP Share will be deemed to affect such preferences, rights or powers only if the terms of such division materially and adversely affect the holders of the MTP Shares; and provided, further, that no amendment, alteration or repeal of the obligations of the Fund to (x) pay the Term Redemption Price on the Term Redemption Date for the MTP Shares or (y) accumulate dividends at the Dividend Rate for the MTP Shares will be effected without, in each case, the prior unanimous vote or consent of the holders of the MTP Shares. For purposes of the foregoing, no matter shall be deemed to adversely affect any preference, right or power of a MTP Share or the holder thereof unless such matter (i) alters or abolishes any preferential right of such MTP Share, or (ii) creates, alters or abolishes any right in respect of redemption of such MTP Share.

Unless a higher percentage is provided for in the Declaration of Trust of the Fund, (i) the affirmative vote of the holders of at least a majority of the shares of Preferred Stock, including the MuniFund Term Preferred Shares outstanding at the time, voting as a separate class, will be required to approve any conversion of the Fund from a closed-end to an open-end investment company, (ii) to approve any plan of reorganization (as such term is defined in Section 2(a)(33) of the 1940 Act) adversely affecting such shares of Preferred Stock or (iii) to approve any other action requiring a vote of security holders of the Fund under Section 13(a) of the 1940 Act. For purposes of the foregoing, the vote of a majority of the outstanding shares of Preferred Stock means the vote at an annual or special meeting duly called of (i) 67% or more of such shares present at a meeting, if the holders of more than 50% of such shares are present or represented by proxy at such meeting, or (ii) more than 50% of such shares, whichever is less.

For purposes of determining any rights of the holders of MTP Shares to vote on any matter, whether such right is created by the Statement, by the provisions of the Declaration of Trust, by statute or otherwise, no holder of MTP Shares will be entitled to vote any MTP Shares and no MTP Shares will be deemed to be outstanding for the purpose of voting or determining the number of shares required to constitute a quorum if, prior to or concurrently with the time of determination of shares entitled to vote or the time of the actual vote on the matter, as the case may be, the requisite Notice of Redemption with respect to such MTP Shares will have been given in accordance with the Statement, and the Redemption Price for the redemption of such MTP Shares will have been irrevocably deposited with the Redemption and Paying Agent for that purpose. No MTP Shares held by the Fund will have any voting rights or be deemed to be outstanding for voting or for calculating the voting percentage required on any other matter or other purposes.

Notwithstanding anything herein to the contrary, the Rating Agency Guidelines discussed below, as they may be amended from time to time by the respective Rating Agency, may be amended by the respective Rating Agency without the vote, consent or approval of the Fund, the Board of Trustees of the Fund and any holder of shares of Preferred Stock, including any MTP Shares, or any other shareholder of the Fund.

Unless otherwise required by law or the Declaration of Trust, holders of MTP Shares will not have any relative rights or preferences or other special rights with respect to voting other than those specifically set forth in the Voting Rights section of the Statement. The holders of MTP Shares will have no rights to cumulative voting. In the event that the Fund fails to declare or pay any dividends on MTP Shares, the exclusive remedy of the holders will be the right to vote for additional trustees as discussed above; provided that the foregoing does not affect the obligation of the Fund to accumulate and, if permitted by applicable law and the Statement, pay dividends at the Default Rate as discussed above.

Rating Agencies

The Fund will use commercially reasonable efforts to cause at least one Rating Agency to issue a credit rating with respect to MTP Shares for so long as such MTP Shares are outstanding (which credit rating may consist of a credit rating on the MuniFund Term Preferred Shares generally or the Preferred Stock generally).

Rating Agency means any of Moody's, S&P or Fitch, as designated by the Board of Trustees from time to time to be a Rating Agency for purposes of the Statement. The Board of Trustees has initially designated Moody's, S&P and Fitch to be Rating Agencies. The Fund will use commercially reasonable efforts to comply with any applicable Rating Agency Guidelines. Rating Agency Guidelines are guidelines of any Rating Agency, as they may be amended or modified from time to time, compliance with which is required to cause such Rating Agency to continue to issue a rating with respect to MTP Shares for so long as such MTP Shares are outstanding. The Board of Trustees may elect to terminate the designation of any Rating Agency previously designated by the Board of Trustees to act as a Rating Agency for purposes of the Statement (provided that at least one Rating Agency continues to maintain a rating with respect to the MTP Shares), and may elect to replace any Rating Agency previously designated as a Rating Agency by the Board of Trustees with any other Rating Agency not so designated at such time, if such replacement Rating Agency has at the time of such replacement (i) issued a rating for the MTP Shares and (ii) entered into an agreement with the Fund to continue to issue such rating subject to the Rating Agency's customary conditions. A copy of the current Rating Agency Guidelines will be provided to any holder of MTP Shares promptly upon request therefor made by such holder to the Fund by writing the Fund at 333 West Wacker Dr., Chicago, Illinois 60606.

On August 31, 2010 S&P published a Request for Comment concerning its new proposal to change its methods and assumptions for rating certain market value securities, including those issued by registered closed-end funds such as the MTP Shares to be issued by the Fund. The S&P Proposal defined market value securities as those whose source of repayment is liquidation proceeds generated from open market sales of assets (in the Fund's case, portfolio securities), rather than cash flow generated by assets held to maturity. S&P has requested comments on the S&P Proposal and the comment period ended October 29, 2010. S&P stated that after the comment period expired, it would review the comments and publish updated criteria methodology and assumptions, which would be applicable to all outstanding S&P ratings of market value securities. S&P has not yet published updated criteria methodology and assumptions. The updated criteria, if adopted by S&P, may be the same as proposed or may differ based upon comments received by S&P. Under the current S&P Proposal, when rating market value securities (including MTP Shares) issued by the Fund, S&P would substantially increase the reductions in value, or haircuts, applied to the Fund's portfolio securities compared with its present methodology. Due to these increased haircuts, any market value securities issued by the Fund (including MTP Shares) in the future may be ineligible for a AAA rating from S&P. In addition, any market value securities (including the MTP Shares offered hereby) that had a rating of AAA from S&P prior to the adoption of the proposed criteria may be unable to maintain such rating after the adoption of such criteria, if adopted as proposed. In the event that S&P downgrades the MTP Shares, the Fixed Dividend Rate would not change. However, if each of the other Rating Agencies also downgrades the MTP Shares, the Fixed Dividend Rate would increase. See Description of MTP Shares Dividends and Dividend Periods Adjustments to Fixed Dividend Rate Ratings. Nevertheless, a downgrade by S&P could adversely affect the market pricing and liquidity of the MTP Shares. There can be no assurance that S&P will or will not take any action with respect to the S&P Proposal or that any such action would not result in a downgrade of MTP Shares. Further, there can be no assurance that any other Rating Agency will not also alter its rating criteria resulting in downgrades of ratings, which could further adversely affect the market pricing and liquidity of MTP Shares.

Issuance of Additional Preferred Stock

So long as any MTP Shares are outstanding, the Fund may, without the vote or consent of the holders thereof, authorize, establish and create and issue and sell shares of one or more series of a class of senior securities of the Fund representing stock under Section 18 of the 1940 Act, ranking on a parity with MuniFund Term Preferred Shares as to payment of dividends and distributions of assets upon dissolution, liquidation or the winding up of the affairs of the Fund, in addition to then outstanding MTP Shares, including additional series of MuniFund Term Preferred Shares, and authorize, issue and sell additional shares of any such series of Preferred Stock then outstanding or so established and created, including additional MTP Shares, in each case in accordance with applicable law, provided that the Fund will, immediately after giving effect to the issuance of such additional Preferred Stock and to its receipt and application of the proceeds thereof, including to the redemption of Preferred Stock with such proceeds, have Asset Coverage of at least 225%.

Actions on Other than Business Days

Unless otherwise provided herein or in the Statement, if the date for making any payment, performing any act or exercising any right is not a Business Day, such payment will be made, act performed or right exercised on the next succeeding Business Day, with the same force and effect as if made or done on the nominal date provided therefor, and, with respect to any payment so made, no dividends, interest or other amount will accrue for the period between such nominal date and the date of payment.

Modification

The Board of Trustees, without the vote of the holders of MTP Shares, may interpret, supplement or amend the provisions of the Statement or any appendix thereto to supply any omission, resolve any inconsistency or ambiguity or to cure, correct or supplement any defective or inconsistent provision, including any provision that becomes defective after the date hereof because of impossibility of performance or any provision that is inconsistent with any provision of any other Preferred Stock of the Fund.

THE FUND'S INVESTMENTS

Investment Objectives and Policies

The Fund's investment objectives are:

- to provide current income exempt from regular federal and New Jersey income tax; and
- to enhance portfolio value relative to the municipal bond market by investing in tax-exempt municipal bonds that the Fund's investment adviser believes are underrated or undervalued or that represent municipal market sectors that are undervalued.

By purchasing such tax-exempt New Jersey municipal bonds, the Fund seeks to realize above-average capital appreciation in a rising market, and to experience less than average capital losses in a declining market. Any capital appreciation realized by the Fund will generally result in the distribution of taxable capital gains to Fund shareholders, including holders of MTP Shares. See Tax Matters. A substantial portion of the dividends from MTP Shares may be subject to the federal alternative minimum tax.

Under normal circumstances, the Fund will invest at least 80% of its Managed Assets in municipal securities and other related investments the income from which is exempt from regular federal and New Jersey income taxes. Under normal circumstances, the Fund will invest at least 80% of its Managed Assets in investment grade securities that, at the time of investment, are rated within the four highest grades (Baa or BBB or better) by at least one NRSRO or are unrated but judged to be of comparable quality by Nuveen Asset Management. The Fund may invest up to 20% of its Managed Assets in municipal securities that at the time of investment are rated below investment grade or are unrated but judged to be of comparable quality by Nuveen Asset Management. No more than 10% of the Fund's Managed Assets may be invested in municipal securities rated below B3/B- or that are unrated but judged to be of comparable quality by Nuveen Asset Management. Securities of below investment grade quality are regarded as having predominately speculative characteristics with respect to the issuer's capacity to pay interest and repay principal, and are commonly referred to as junk bonds. Managed Assets are net assets, including assets attributable to any principal amount of any borrowings (including the issuance of commercial paper or notes) and any Preferred Stock outstanding. The foregoing credit

Edgar Filing: NUVEEN NEW JERSEY DIVIDEND ADVANTAGE MUNICIPAL FUND - Form 497

quality policies apply only at the time a security is purchased, and the Fund is not required to dispose of a security in the event that a rating agency downgrades its assessment of the credit characteristics of a particular issue. In determining whether to retain or sell such a security, Nuveen Asset Management may consider such factors as its assessment of the credit quality of the issuer of such security, the price at which such security could be sold and the rating, if any, assigned to such security by other rating agencies. A general description of Moody's, S&P's and Fitch's ratings of municipal securities is set forth in Appendix B to the SAI. The Fund may also invest in securities of other open- or closed-end investment companies that invest primarily in municipal bonds of the types in which the Fund may invest directly.

The Fund may purchase municipal bonds that are additionally secured by insurance, bank credit agreements, or escrow accounts. The credit quality of companies which provide such credit enhancements will affect the value of those securities. Although the insurance feature reduces certain financial risks, the premiums for insurance and the higher market price paid for insured obligations may reduce the Fund's income. Insurance generally will be obtained from insurers with a claims-paying ability rated BBB or better by an NRSRO at the time of purchase. Assuming that the insurer remains creditworthy, the insurance feature of a municipal security guarantees the full payment of principal and interest when due through the life of an insured obligation. Such insurance does not guarantee the market value of the insured obligation or the value of the Fund's common shares.

Underrated municipal securities are those municipal securities whose ratings do not, in Nuveen Asset Management's opinion, reflect their true value. They may be underrated because of the time that has elapsed since their last ratings, or because rating agencies have not fully taken into account positive factors, or for other reasons. Undervalued municipal securities are those securities that, in Nuveen Asset Management's opinion, are worth more than their market value. They may be undervalued because there is a temporary excess of supply in that particular sector (such as hospital bonds, or bonds of a particular municipal issuer). Nuveen Asset Management may buy such a security even if the value of that security is consistent with the value of other securities in that sector. Municipal securities also may be undervalued because there has been a general decline in the market price of municipal securities for reasons that do not apply to the particular municipal securities that Nuveen Asset Management considers undervalued. Nuveen Asset Management believes that the prices of these municipal securities should ultimately reflect their true value.

The Fund also may invest up to 15% of its net assets in inverse floating rate securities. The economic effect of leverage through the Fund's purchase of inverse floating rate securities creates an opportunity for increased net income and returns, but also creates the possibility that the Fund's long-term returns will be diminished if the cost of leverage exceeds the return on the inverse floating rate securities purchased by the Fund.

During temporary defensive periods and in order to keep the Fund's cash fully invested, the Fund may invest up to 100% of its net assets in short-term investments including high quality, short-term securities that may be either tax-exempt or taxable. The Fund intends to invest in taxable short-term investments only in the event that suitable tax-exempt short-term investments are not available at reasonable prices and yields. Investment in taxable short-term investments would result in a portion of your dividends being subject to regular federal income taxes. For more information, see the SAI.

The Fund cannot change its investment objectives without the approval of the holders of a majority of the outstanding shares of common shares and Preferred Stock, voting together, and of the holders of a majority of the outstanding Preferred Stock, voting separately. For this purpose, a majority of the outstanding shares means the vote of (1) 67% or more of the shares present at a meeting, if the holders of more than 50% of the shares are present or represented by proxy; or (2) more than 50% of the shares, whichever is less.

The Fund is diversified for purposes of the 1940 Act. Consequently, as to 75% of its assets, the Fund may not invest more than 5% of its total assets in the securities of any single issuer.

See Appendix A to this prospectus for a general description of the economic and credit characteristics of municipal issuers in New Jersey.

Certain Trading Strategies of the Fund

When-Issued and Delayed Delivery Transactions. The Fund may buy and sell municipal securities on a when-issued or delayed delivery basis, making payment or taking delivery at a later date, normally within 15 to 45 days of the trade date. On such transactions, the payment obligation and the interest rate are fixed at the time the purchaser enters into the commitment. Beginning on the date the Fund enters into a commitment to purchase securities on a when-issued or delayed delivery basis, the Fund is required under the rules of the Securities and

Exchange Commission to maintain in a separate account liquid assets, consisting of cash, cash equivalents or liquid securities having a market value at all times of at least equal to the amount of any delayed payment commitment. Income generated by any such assets which provide taxable income for federal income tax purposes is includable in the taxable income of the Fund and, to the extent distributed, will be taxable distributions to shareholders. The commitment to purchase securities on a when-issued or delayed delivery or forward basis may involve an element of risk because no interest accrues on the bonds prior to settlement and at the time of delivery the market value may be less than their cost.

Portfolio Turnover. The Fund may buy and sell municipal securities to accomplish its investment objectives in relation to actual and anticipated changes in interest rates. The Fund also may sell one municipal security and buy another of comparable quality at about the same time to take advantage of what Nuveen Asset Management believes to be a temporary price disparity between the two bonds that may result from imbalanced supply and demand. The Fund also may engage in a limited amount of short-term trading, consistent with its investment objectives. The Fund may sell securities in anticipation of a market decline (a rise in interest rates) or buy securities in anticipation of a market rise (a decline in interest rates) and later sell them, but the Fund will not engage in trading solely to recognize a gain. The Fund will attempt to achieve its investment objectives by prudently selecting municipal securities with a view to holding them for investment. Although the Fund cannot accurately predict its annual portfolio turnover rate, the Fund expects, though it cannot guarantee, that its annual portfolio turnover rate generally will not exceed 100% under normal circumstances. For the fiscal year ended April 30, 2010, the Fund's portfolio turnover rate was 4%. There are no limits on the rate of portfolio turnover, and investments may be sold without regard to length of time held when investment considerations warrant such action. A higher portfolio turnover rate results in correspondingly greater brokerage commissions and other transactional expenses that are borne by the Fund. In addition, high portfolio turnover may result in the realization of net short term capital gains by the Fund which, when distributed to shareholders, will be taxable as ordinary income.

PORTFOLIO COMPOSITION

Municipal Securities

General. The Fund may invest in various municipal securities, including municipal bonds and notes, other securities issued to finance and refinance public projects, and other related securities and derivative instruments creating exposure to municipal bonds, notes and securities that provide for the payment of interest income that is exempt from federal and New Jersey income tax. Municipal securities are generally debt obligations issued by state and local governmental entities and may be issued by U.S. territories to finance or refinance public projects such as roads, schools, and water supply systems. Municipal securities may also be issued for private activities, such as housing, medical and educational facility construction, or for privately owned transportation, electric utility and pollution control projects. Municipal securities may be issued on a long term basis to provide permanent financing. The repayment of such debt may be secured generally by a pledge of the full faith and credit taxing power of the issuer, a limited or special tax, or any other revenue source including project revenues, which may include tolls, fees and other user charges, lease payments, and mortgage payments. Municipal securities may also be issued to finance projects on a short term interim basis, anticipating repayment with the proceeds on long term debt. Municipal securities may be issued and purchased in the form of bonds, notes, leases or certificates of participation; structured as callable or non-callable; with payment forms including fixed coupon, variable rate, zero coupon, capital appreciation bonds, tender option bonds, and residual interest bonds or inverse floating rate securities; or acquired through investments in pooled vehicles, partnerships or other investment companies. Inverse floating rate securities are securities that pay interest at rates that vary inversely with changes in prevailing short-term tax-exempt interest rates and represent a leveraged investment in an underlying municipal security, which may increase the effective leverage of the Fund.

The municipal securities in which the Fund will invest are generally issued by the State of New Jersey, a municipality of New Jersey, or a political subdivision of either, and pay interest that, in the opinion of bond

counsel to the issuer (or on the basis of other authority believed by Nuveen Asset Management to be reliable), is exempt from regular federal and New Jersey income taxes, although the interest may be subject to the federal alternative minimum tax. The Fund may invest in municipal securities issued by U.S. territories (such as Puerto Rico or Guam) that are exempt from regular federal and New Jersey income taxes.

Yields on municipal securities depend on many factors, including the condition of the general money market and the municipal security market, the size of a particular offering, and the maturity and rating of a particular municipal security. Moody's, S&P's and Fitch's ratings represent their opinions of the quality of a particular municipal security, but these ratings are general and are not absolute quality standards. Therefore, municipal securities with the same maturity, coupon, and rating may have different yields, while municipal securities with the same maturity and coupon and different ratings may have the same yield. The market value of municipal securities will vary with changes in interest rates and in the ability of their issuers to make interest and principal payments.

Obligations of municipal security issuers are subject to bankruptcy, insolvency, and other laws affecting the rights and remedies of creditors. These obligations also may be subject to future federal or state laws or referenda that extend the time to payment of interest and/or principal, or that constrain the enforcement of these obligations or the power of municipalities to levy taxes. Legislation or other conditions may materially affect the power of a municipal security issuer to pay interest and/or principal when due.

Municipal Leases and Certificates of Participation. The Fund may purchase municipal securities that represent lease obligations and certificates of participation in such leases. These carry special risks because the issuer of the securities may not be obligated to appropriate money annually to make payments under the lease. A municipal lease is an obligation in the form of a lease or installment purchase that is issued by a state or local government to acquire equipment and facilities. Income from such obligations generally is exempt from state and local taxes in the state of issuance. Leases and installment purchase or conditional sale contracts (which normally provide for title to the leased asset to pass eventually to the governmental issuer) have evolved as a means for governmental issuers to acquire property and equipment without meeting the constitutional and statutory requirements for the issuance of debt. The debt issuance limitations are deemed to be inapplicable because of the inclusion in many leases or contracts of non-appropriation clauses that relieve the governmental issuer of any obligation to make future payments under the lease or contract unless money is appropriated for such purpose by the appropriate legislative body on a yearly or other periodic basis. In addition, such leases or contracts may be subject to the temporary abatement of payments in the event the issuer is prevented from maintaining occupancy of the leased premises or utilizing the leased equipment or facilities. Although the obligations may be secured by the leased equipment or facilities, the disposition of the property in the event of non-appropriation or foreclosure might prove difficult, time consuming and costly, and result in a delay in recovering, or the failure to recover fully, the Fund's original investment. To the extent that the Fund invests in unrated municipal leases or participates in such leases, the credit quality rating and risk of cancellation of such unrated leases will be monitored on an ongoing basis. In order to reduce this risk, the Fund will only purchase municipal securities representing lease obligations where Nuveen Asset Management believes the issuer has a strong incentive to continue making appropriations until maturity.

A certificate of participation represents an undivided interest in an unmanaged pool of municipal leases, an installment purchase agreement or other instruments. The certificates are typically issued by a municipal agency, a trust or other entity that has received an assignment of the payments to be made by the state or political subdivision under such leases or installment purchase agreements. Such certificates provide the Fund with the right to a pro rata undivided interest in the underlying municipal securities. In addition, such participations generally provide the Fund with the right to demand payment, on not more than seven days' notice, of all or any part of the Fund's participation interest in the underlying municipal securities, plus accrued interest.

Municipal Notes. Municipal securities in the form of notes generally are used to provide for short-term capital needs, in anticipation of an issuer's receipt of other revenues or financing, and typically have maturities of up to three years. Such instruments may include tax anticipation notes, revenue anticipation notes, bond anticipation

notes, tax and revenue anticipation notes and construction loan notes. Tax anticipation notes are issued to finance the working capital needs of governments. Generally, they are issued in anticipation of various tax revenues, such as income, sales, property, use and business taxes, and are payable from these specific future taxes. Revenue anticipation notes are issued in expectation of receipt of other kinds of revenue, such as federal revenues available under federal revenue sharing programs. Bond anticipation notes are issued to provide interim financing until long-term bond financing can be arranged. In most cases, the long-term bonds then provide the funds needed for repayment of the bond anticipation notes. Tax and revenue anticipation notes combine the funding sources of both tax anticipation notes and revenue anticipation notes. Construction loan notes are sold to provide construction financing. Mortgage notes insured by the Federal Housing Authority secure these notes; however, the proceeds from the insurance may be less than the economic equivalent of the payment of principal and interest on the mortgage note if there has been a default. The anticipated revenues from taxes, grants or bond financing generally secure the obligations of an issuer of municipal notes. An investment in such instruments, however, presents a risk that the anticipated revenues will not be received or that such revenues will be insufficient to satisfy the issuer's payment obligations under the notes or that refinancing will be otherwise unavailable.

Pre-Refunded Municipal Securities. The principal of, and interest on, pre-refunded municipal securities are no longer paid from the original revenue source for the securities. Instead, the source of such payments is typically an escrow fund consisting of U.S. Government securities. The assets in the escrow fund are derived from the proceeds of refunding bonds issued by the same issuer as the pre-refunded municipal securities. Issuers of municipal securities use this advance refunding technique to obtain more favorable terms with respect to securities that are not yet subject to call or redemption by the issuer. For example, advance refunding enables an issuer to refinance debt at lower market interest rates, restructure debt to improve cash flow or eliminate restrictive covenants in the indenture or other governing instrument for the pre-refunded municipal securities. However, except for a change in the revenue source from which principal and interest payments are made, the pre-refunded municipal securities remain outstanding on their original terms until they mature or are redeemed by the issuer.

Private Activity Bonds. Private activity bonds, formerly referred to as industrial development bonds, are issued by or on behalf of public authorities to obtain funds to provide privately operated housing facilities, airport, mass transit or port facilities, sewage disposal, solid waste disposal or hazardous waste treatment or disposal facilities and certain local facilities for water supply, gas or electricity. Other types of private activity bonds, the proceeds of which are used for the construction, equipment, repair or improvement of privately operated industrial or commercial facilities, may constitute municipal securities, although the current federal tax laws place substantial limitations on the size of such issues.

Inverse Floating Rate Securities. Inverse floating rate securities (sometimes referred to as inverse floaters) are securities whose interest rates bear an inverse relationship to the interest rate on another security or the value of an index. Generally, inverse floating rate securities represent beneficial interests in a special purpose trust formed by a third party sponsor for the purpose of holding municipal bonds. The special purpose trust typically sells two classes of beneficial interests or securities: floating rate securities (sometimes referred to as short-term floaters or tender option bonds) and inverse floating rate securities (sometimes referred to as inverse floaters or residual interest securities). Both classes of beneficial interests are represented by certificates. The short-term floating rate securities have first priority on the cash flow from the municipal bonds held by the special purpose trust. Typically, a third party, such as a bank, broker-dealer or other financial institution, grants the floating rate security holders the option, at periodic intervals, to tender their securities to the institution and receive the face value thereof. As consideration for providing the option, the financial institution receives periodic fees. The holder of the short-term floater effectively holds a demand obligation that bears interest at the prevailing short-term, tax-exempt rate. However, the institution granting the tender option will not be obligated to accept tendered short-term floaters in the event of certain defaults or a significant downgrade in the credit rating assigned to the bond issuer. For its inverse floating rate investment, the Fund receives the residual cash flow from the special purpose trust. Because the holder of the short-term floater is generally assured liquidity at the face value of the security, the Fund as the holder of the inverse floater assumes the interest rate cash flow risk.

and the market value risk associated with the municipal bond deposited into the special purpose trust. The volatility of the interest cash flow and the residual market value will vary with the degree to which the trust is leveraged. This is expressed in the ratio of the total face value of the short-term floaters in relation to the value of the inverse floaters that are issued by the special purpose trust. All voting rights and decisions to be made with respect to any other rights relating to the municipal bonds held in the special purpose trust are passed through to the Fund, as the holder of the residual inverse floating rate securities.

Because increases in the interest rate on the short-term floaters reduce the residual interest paid on inverse floaters, and because fluctuations in the value of the municipal bond deposited in the special purpose trust affect the value of the inverse floater only, and not the value of the short-term floater issued by the trust, inverse floaters' value is generally more volatile than that of fixed rate bonds. The market price of inverse floating rate securities is generally more volatile than the underlying bonds due to the leveraging effect of this ownership structure. These securities generally will underperform the market of fixed rate bonds in a rising interest rate environment (*i.e.*, when bond values are falling), but tend to out-perform the market of fixed rate bonds when interest rates decline or remain relatively stable. Although volatile, inverse floaters typically offer the potential for yields available on fixed rate bonds with comparable credit quality, coupon, call provisions and maturity. Inverse floaters have varying degrees of liquidity based upon the liquidity of the underlying bonds deposited in a special purpose trust.

The Fund may invest in inverse floating rate securities issued by special purpose trusts that have recourse to the Fund. In Nuveen Fund Advisors' discretion, the Fund may enter into a separate shortfall and forbearance agreement with the third party sponsor of a special purpose trust. The Fund may enter into such recourse agreements (i) when the liquidity provider to the special purpose trust requires such an agreement because the level of leverage in the trust exceeds the level that the liquidity provider is willing to support absent such an agreement; and/or (ii) to seek to prevent the liquidity provider from collapsing the trust in the event that the municipal obligation held in the trust has declined in value. Such an agreement would require the Fund to reimburse the third party sponsor of such inverse floater, upon termination of the trust issuing the inverse floater, the difference between the liquidation value of the bonds held in the trust and the principal amount due to the holders of floating rate interests. Such agreements may expose the Fund to a risk of loss that exceeds its investment in the inverse floating rate securities. Absent a shortfall and forbearance agreement, the Fund would not be required to make such a reimbursement. If the Fund chooses not to enter into such an agreement, the special purpose trust could be liquidated and the Fund could incur a loss.

The Fund's investments in inverse floating rate securities issued by special purpose trusts that have recourse to the Fund may be highly leveraged. The structure and degree to which the Fund's inverse floating rate securities are highly leveraged will vary based upon a number of factors, including the size of the trust itself and the terms of the underlying municipal security held in a special purpose trust. An inverse floating rate security generally is considered highly leveraged if the principal amount of the short-term floating rate interests issued by the related special purpose trust is in excess of three times the principal amount of the inverse floating rate securities owned by the trust (the ratio of the principal amount of such short-term floating rate interests to the principal amount of the inverse floating rate securities is referred to as the "gearing"). In the event of a significant decline in the value of an underlying security, the Fund may suffer losses in excess of the amount of its investment (up to an amount equal to the value of the municipal securities underlying the inverse floating rate securities) as a result of liquidating special purpose trusts or other collateral required to maintain the Fund's anticipated effective leverage ratio.

The Fund will segregate or earmark liquid assets with its custodian in accordance with the 1940 Act to cover its obligations with respect to its investments in special purpose trusts. See also "Segregation of Assets" in the Statement of Additional Information.

The Fund invests in both inverse floating rate securities and floating rate securities (as discussed below) issued by the same special purpose trust.

Floating Rate Securities. The Fund may also invest in floating rate securities, as described above, issued by special purpose trusts. Floating rate securities may take the form of short-term floating rate securities or the option period may be substantially longer. Generally, the interest rate earned will be based upon the market rates for municipal securities with maturities or remarketing provisions that are comparable in duration to the periodic interval of the tender option, which may vary from weekly, to monthly, to extended periods of one year or multiple years. Since the option feature has a shorter-term than the final maturity or first call date of the underlying bond deposited in the trust, the Fund as the holder of the floating rate securities relies upon the terms of the agreement with the financial institution furnishing the option as well as the credit strength of that institution. As further assurance of liquidity, the terms of the trust provide for a liquidation of the municipal bond deposited in the trust and the application of the proceeds to pay off the floating rate securities. The trusts that are organized to issue both short-term floating rate securities and inverse floaters generally include liquidation triggers to protect the investor in the floating rate securities.

Special Taxing Districts. Special taxing districts are organized to plan and finance infrastructure developments to induce residential, commercial and industrial growth and redevelopment. The bond financing methods such as tax increment finance, tax assessment, special services district and Mello-Roos bonds, are generally payable solely from taxes or other revenues attributable to the specific projects financed by the bonds without recourse to the credit or taxing power of related or overlapping municipalities. They often are exposed to real estate development-related risks and can have more taxpayer concentration risk than general tax-supported bonds, such as general obligation bonds.

Further, the fees, special taxes, or tax allocations and other revenues that are established to secure such financings are generally limited as to the rate or amount that may be levied or assessed and are not subject to increase pursuant to rate covenants or municipal or corporate guarantees. The bonds could default if development failed to progress as anticipated or if larger taxpayers failed to pay the assessments, fees and taxes as provided in the financing plans of the districts.

Zero Coupon Bonds

A zero coupon bond is a bond that does not pay interest either for the entire life of the obligation or for an initial period after the issuance of the obligation. When held to its maturity, its return comes from the difference between the purchase price and its maturity value. A zero coupon bond is normally issued and traded at a deep discount from face value. Zero coupon bonds allow an issuer to avoid or delay the need to generate cash to meet current interest payments and, as a result, may involve greater credit risk than bonds that pay interest currently or in cash. The market prices of zero coupon bonds are affected to a greater extent by changes in prevailing levels of interest rates and thereby tend to be more volatile in price than securities that pay interest periodically. In addition, the Fund would be required to distribute the income on any of these instruments as it accrues, even though the Fund will not receive all of the income on a current basis or in cash. Thus, the Fund may have to sell other investments, including when it may not be advisable to do so, to make income distributions to its shareholders.

Structured Notes

The Fund may utilize structured notes and similar instruments for investment purposes and also for hedging purposes. Structured notes are privately negotiated debt obligations where the principal and/or interest is determined by reference to the performance of a benchmark asset, market or interest rate (an embedded index), such as selected securities, an index of securities or specified interest rates, or the differential performance of two assets or markets. The terms of such structured instruments normally provide that their principal and/or interest payments are to be adjusted upwards or downwards (but not ordinarily below zero) to reflect changes in the embedded index while the structured instruments are outstanding. As a result, the interest and/or principal payments that may be made on a structured product may vary widely, depending upon a variety of factors, including the volatility of the embedded index and the effect of changes in the embedded index on principal and/or interest payments. The rate of return on structured notes may be determined by applying a multiplier to the

performance or differential performance of the referenced index or indices or other assets. Application of a multiplier involves leverage that will serve to magnify the potential for gain and the risk of loss. These types of investments may generate taxable income.

Other Investment Companies

The Fund may invest up to 10% of its Managed Assets in securities of other open- or closed-end investment companies (including exchange-traded funds (often referred to as ETFs)) that invest primarily in municipal securities of the types in which the Fund may invest directly. The Fund may invest in investment companies that are advised by Nuveen Fund Advisors, Nuveen Asset Management or their respective affiliates to the extent permitted by applicable law and/or pursuant to exemptive relief from the Securities and Exchange Commission. As a stockholder in an investment company, the Fund will bear its ratable share of that investment company's expenses, and would remain subject to payment of the Fund's advisory and administrative fees with respect to assets so invested. Fund common shareholders would therefore be subject to duplicative expenses to the extent the Fund invests in other investment companies.

Nuveen Asset Management will take expenses into account when evaluating the investment merits of an investment in the investment company relative to available municipal security investments. In addition, because the securities of other investment companies may be leveraged and subject to leverage risk, the Fund may indirectly be subject to those risks. See **Risks** Other Investment Companies Risk.

Derivatives

The Fund may invest in derivative instruments in pursuit of its investment objectives. Such instruments include financial futures contracts, swap contracts (including interest rate and credit default swaps), options on financial futures, options on swap contracts, or other derivative instruments. Nuveen Asset Management uses derivatives to seek to enhance return, to hedge some of the risks of its investments in fixed income securities or as a substitute for a position in the underlying asset. See the SAI for additional information.

Portfolio Investments

As used in this prospectus, the term **municipal securities** includes municipal securities with relatively short-term maturities. Some of these short-term securities may be variable or floating rate securities. The Fund, however, emphasizes investments in municipal securities with long- or intermediate-term maturities. The Fund buys municipal securities with different maturities and intends to maintain an average portfolio maturity of 15 to 30 years, although this may be shortened depending on market conditions. As a result, the Fund's portfolio may include long-term and intermediate-term municipal securities. If the long-term municipal security market is unstable, the Fund may temporarily invest up to 100% of its assets in temporary investments. Temporary investments are high quality, generally uninsured, short-term municipal securities that may either be tax-exempt or taxable. The Fund will buy taxable temporary investments only if suitable tax-exempt temporary investments are not available at reasonable prices and yields. The Fund will invest only in taxable temporary securities that are U.S. Government securities or corporate debt securities rated within the highest grade by Moody's, S&P or Fitch, and that mature within one year from the date of purchase or carry a variable or floating rate of interest. The Fund's policies on securities ratings only apply when the Fund buys a security, and the Fund is not required to sell securities that have been downgraded. See Appendix B to the SAI for a description of securities ratings. The Fund also may invest in taxable temporary investments that are certificates of deposit from U.S. banks with assets of at least \$1 billion, or repurchase agreements. The Fund intends to allocate taxable income on temporary investments, if any, proportionately between common shares and Preferred Stock, including MTP Shares, based on the percentage of total dividends distributed to each class for that year.

RISKS

Risk is inherent in all investing. Investing in any investment company security involves risk, including the risk that you may receive little or no return on your investment or even that you may lose part or all of your investment. Therefore, before investing you should consider carefully the following risks that you assume when you invest in MTP Shares. The section below does not describe all of the risks associated with an investment in the Fund. Additional risks and uncertainties may also adversely affect and impact the Fund.

Risks of Investing in MTP Shares

Interest Rate Risk MTP Shares. MTP Shares pay dividends at a fixed dividend rate. Prices of fixed income investments vary inversely with changes in market yields. The market yields on securities comparable to MTP Shares may increase, which would likely result in a decline in the secondary market price of MTP Shares prior to the term redemption date. See Description of MTP Shares Dividends and Dividend Periods and Risks Risks of Investing in MTP Shares Secondary Market and Delayed Listing Risk.

Secondary Market and Delayed Listing Risk. Because the Fund has no prior trading history for exchange-listed preferred shares, it is difficult to predict the trading patterns of MTP Shares, including the effective costs of trading MTP Shares. During a period of up to 30 days from the date of this prospectus, the MTP Shares will not be listed on any securities exchange. During this period, the underwriters do not intend to make a market in MTP Shares. Consequently, an investment in MTP Shares during this period will likely be illiquid and holders of MTP Shares may not be able to sell such shares as it is unlikely that a secondary market for MTP Shares will develop during this period. If a secondary market does develop during this period, holders of MTP Shares may be able to sell such shares only at substantial discounts from liquidation preference. Application has been made to list the MTP Shares on the New York Stock Exchange so that trading on such exchange will begin within 30 days from the date of this prospectus, subject to notice of issuance. If the Fund is unable to list MTP Shares on a national securities exchange, holders of MTP Shares may be unable to sell such shares at all, or if they are able to, only at substantial discounts from liquidation preference. Even after the MTP Shares are listed on the New York Stock Exchange as anticipated, there is a risk that the market for MTP Shares may be thinly traded and relatively illiquid compared to the market for other types of securities, with the spread between the bid and asked prices considerably greater than the spreads of other securities with comparable terms, credit ratings and tax-advantaged income features.

Ratings Risk. The Fund expects that, at issuance, the MTP Shares will be rated at certain minimum levels by Rating Agencies designated by the Fund's Board of Trustees and that such ratings will be a requirement of issuance of such shares by the underwriters pursuant to an underwriting agreement. There can be no assurance that the MTP Shares will receive any particular rating from any Rating Agency, or that any such ratings will be maintained at the level originally assigned through the term of MTP Shares. In the event that one or more of the Rating Agencies do not issue a rating on the MTP Shares at all or at the minimum level required, the issuance and sale of MTP Shares in this offering may not be completed. Ratings do not eliminate or mitigate the risks of investing in MTP Shares. A rating issued by a Rating Agency (including Moody's, S&P and Fitch) is only the opinion of the entity issuing the rating at that time, and is not a guarantee as to quality, or an assurance of the future performance, of the rated security (in this case, MTP Shares). In addition, the manner in which the Rating Agency obtains and processes information about a particular security may affect the Rating Agency's ability to timely react to changes in an issuer's circumstances (in this case, the Fund) that could influence a particular rating. A Rating Agency could downgrade MTP Shares, which may make MTP Shares less liquid in the secondary market and reduce market prices. As described above under Description of MTP Shares Rating Agencies S&P is currently considering adopting the S&P Proposal, which may result in S&P downgrading the MTP Shares after such proposal becomes effective. In the event that S&P downgrades the MTP Shares, the Fixed Dividend Rate would only increase if each of the other Rating Agencies also downgrades the MTP Shares. Nevertheless, a downgrade by S&P could adversely affect the market pricing and liquidity of the MTP Shares. There can be no assurance that S&P will or will not take any action with respect to the S&P Proposal or that any such action would not result in a downgrade of MTP Shares. Further, there can be no assurance that any other

Rating Agency will not also alter its rating criteria resulting in downgrades of ratings, which could further adversely affect the market pricing and liquidity of MTP Shares.

Early Redemption Risk. The Fund may voluntarily redeem MTP Shares or may be forced to redeem MTP Shares to meet regulatory requirements and the asset coverage requirements of the MTP Shares. Such redemptions may be at a time that is unfavorable to holders of MTP Shares. The Fund expects to voluntarily redeem MTP Shares before the Term Redemption Date to the extent that market conditions allow the Fund to issue other preferred shares or debt securities at a rate that is lower than the Fixed Dividend Rate on MTP Shares. For further information, see [Description of MTP Shares Redemption](#) and [Description of MTP Shares Asset Coverage](#).

Tax Risk. To qualify for the favorable U.S. federal income tax treatment generally accorded to regulated investment companies, among other things, the Fund must derive in each taxable year at least 90% of its gross income from certain prescribed sources. If for any taxable year the Fund does not qualify as a regulated investment company, all of its taxable income (including its net capital gain) would be subject to tax at regular corporate rates without any deduction for distributions to stockholders, and such distributions would be taxable as ordinary dividends to the extent of the Fund's current and accumulated earnings and profits. The value of MTP Shares may be adversely affected by changes in tax rates and policies. Because dividends from MTP Shares are generally not expected to be subject to regular federal or New Jersey income taxation, the attractiveness of such shares in relation to other investment alternatives is affected by changes in federal or New Jersey income tax rates or changes in the tax-exempt treatment of dividends on MTP Shares. A substantial portion of the dividends from MTP Shares may be subject to the federal alternative minimum tax. In addition, the Fund will treat MTP Shares as stock in the Fund for federal income tax purposes. Because there is no controlling legal precedent on the classification of MTP Shares as equity for federal income tax purposes, investors should be aware that the Internal Revenue Service (IRS) could assert a contrary position meaning that the IRS could attempt to classify MTP Shares as debt. If the IRS prevailed on such a position, the Fund would not be able to pass through tax-exempt income to holders of MTP Shares, and dividends paid on MTP Shares (including dividends already paid) could become taxable. Although there is no controlling legal precedent, the Fund's treatment of the MTP Shares as stock is consistent with the holding of a private letter ruling issued by the IRS to another regulated investment company that preferred stock substantially identical to MTP Shares qualifies as equity for federal income tax purposes. In general, private letter rulings may not be used or cited as precedent, but the courts recognize that private letter rulings reveal the interpretation put upon the statute by the IRS and that they may be helpful in establishing consistency of administrative treatment. In addition, private letter rulings are authority for purposes of determining whether there is substantial authority for the tax treatment of an item in connection with the imposition of the accuracy-related penalty under Section 6662 of the Code. The Fund does not intend currently to seek a ruling on the equity status of MTP Shares. See [Tax Matters](#). See also the opinion of counsel included as Appendix C to the SAI.

Income Shortfall Risk. The municipal securities held in the Fund's portfolio generally pay interest based on long-term yields. Long-term, as well as intermediate-term and short-term interest rates may fluctuate. If the interest rates paid on the municipal securities held by the Fund fall below the Fixed Dividend Rate, the Fund's ability to pay dividends on MTP Shares could be jeopardized.

Subordination Risk. While holders of MTP Shares will have equal liquidation and distribution rights to any other Preferred Stock that might be issued by the Fund, they will be subordinated to the rights of holders of senior indebtedness, if any, of the Fund. Therefore, dividends, distributions and other payments to holders of MTP Shares in liquidation or otherwise may be subject to prior payments due to the holders of senior indebtedness. In addition, the 1940 Act may provide debt holders with voting rights that are superior to the voting rights of Preferred Stock holders, including holders of MTP Shares. Currently, the Fund, as a fundamental policy, may not issue debt securities that rank senior to MTP Shares. See the SAI, [Investment Restrictions](#). If the Fund enters into borrowings in accordance with its fundamental investment policies, delayed delivery purchases and/or forward delivery contracts, the rights of lenders and counterparties in those transactions will also be senior to those of holders of MTP Shares.

Credit Crisis and Liquidity Risk. General market uncertainty and extraordinary conditions in the credit markets, including the municipal market, may impact the liquidity of the Fund's investment portfolio, which in turn, during extraordinary circumstances, could impact the Fund's distributions and/or the liquidity of the Term Redemption Liquidity Account (as described under Description of MTP Shares). Further, there may be market imbalances of sellers and buyers of MTP Shares during periods of extreme illiquidity and volatility. Such market conditions may lead to periods of thin trading in any secondary market for MTP Shares and may make valuation of MTP Shares uncertain. As a result, the spread between bid and asked prices is likely to increase significantly such that an MTP Shares investor may have greater difficulty selling his or her MTP Shares. Less liquid and more volatile trading environments could result in sudden and significant valuation increases or declines in MTP Shares.

Inflation Risk. Inflation is the reduction in the purchasing power of money resulting from the increase in the price of goods and services. Inflation risk is the risk that the inflation-adjusted (or real) value of an investment in MTP Shares or the income from that investment will be worth less in the future. As inflation occurs, the real value of MTP Shares and dividends on MTP Shares declines.

Reinvestment Risk MTP Shares. Given the three-year term and potential for early redemption of MTP Shares, holders of MTP Shares may face an increased reinvestment risk, which is the risk that the return on an investment purchased with proceeds from the sale or redemption of MTP Shares may be lower than the return previously obtained from an investment in MTP Shares.

Other Dividend Risks. In addition to the interest rate risks noted above, the Fund may otherwise be unable to pay dividends on MTP Shares in extraordinary circumstances.

General Risks of Investing in the Fund

Credit and Below Investment Grade Risk. Credit risk is the risk that one or more municipal securities in the Fund's portfolio will decline in price, or the issuer thereof will fail to pay interest or principal when due, because the issuer experiences a decline in its financial status. Credit risk is increased when a portfolio security is downgraded or the perceived creditworthiness of the issuer deteriorates. The Fund may invest up to 20% (measured at the time of investment) of its Managed Assets in municipal securities that are rated below investment grade or that are unrated but judged to be of comparable quality by Nuveen Asset Management. If a municipal security satisfies the rating requirements described above at the time of investment and is subsequently downgraded below that rating, the Fund will not be required to dispose of the security. If a downgrade occurs, Nuveen Asset Management will consider what action, including the sale of the security, is in the best interests of the Fund and its shareholders. Municipal securities of below investment grade quality are regarded as having predominately speculative characteristics with respect to the issuer's capacity to pay interest and repay principal when due, and are more susceptible to default or decline in market value due to adverse economic and business developments than investment grade municipal securities. Also, to the extent that the rating assigned to a municipal security in the Fund's portfolio is downgraded by any NRSRO, the market price and liquidity of such security may be adversely affected. The market values for municipal securities of below investment grade quality tend to be volatile, and these securities are less liquid than investment grade municipal securities. For these reasons, an investment in the Fund, compared with a portfolio consisting solely of investment grade securities, may experience the following:

- increased price sensitivity resulting from a deteriorating economic environment and changing interest rates;
- greater risk of loss due to default or declining credit quality;
- adverse issuer specific events that are more likely to render the issuer unable to make interest and/or principal payments; and

- the possibility that a negative perception of the below investment grade market develops, resulting in the price and liquidity of below investment grade securities becoming depressed, and this negative perception could last for a significant period of time.

Municipal Securities Market Risk. Investing in the municipal securities market involves certain risks. The municipal securities market is one in which dealer firms make markets in bonds on a principal basis using their proprietary capital, and during the recent market turmoil these firms capital became severely constrained. As a result, some firms were unwilling to commit their capital to purchase and to serve as a dealer for municipal securities. The amount of public information available about the municipal securities in the Fund's portfolio is generally less than that for corporate equities or bonds, and the Fund's investment performance may therefore be more dependent on Nuveen Fund Advisors' analytical abilities than if the Fund were to invest in stocks or taxable bonds. As noted above the secondary market for municipal securities also tends to be less well-developed or liquid than many other securities markets, which may adversely affect the Fund's ability to sell its municipal securities at attractive prices or at prices approximating those at which the Fund currently values them. Municipal securities may contain redemption provisions, which may allow the securities to be called or redeemed prior to their stated maturity, potentially resulting in the distribution of principal and a reduction in subsequent interest distributions.

The ability of municipal issuers to make timely payments of interest and principal may be diminished during general economic downturns and as governmental cost burdens are reallocated among federal, state and local governments. If the current national economic recession continues, the ability of municipalities to collect revenue and service their obligations could be materially and adversely affected. The taxing power of any government entity may be limited by provisions of state constitutions or laws and an entity's credit will depend on many factors, including the entity's tax base, the extent to which the entity relies on federal or state aid, and other factors which are beyond the entity's control. See Appendix A Factors Affecting Municipal Securities in New Jersey State Budget and Debt Limitations. In addition, laws enacted in the future by Congress or state legislatures or referenda could extend the time for payment of principal and/or interest, or impose other constraints on enforcement of such obligations, or on the ability of municipalities to levy taxes. Issuers of municipal securities might seek protection under the bankruptcy laws. In the event of bankruptcy of such an issuer, the Fund could experience delays in collecting principal and interest and the Fund may not, in all circumstances, be able to collect all principal and interest to which it is entitled. To enforce its rights in the event of a default in the payment of interest or repayment of principal, or both, the Fund may take possession of and manage the assets securing the issuer's obligations on such securities, which may increase the Fund's operating expenses. Any income derived from the Fund's ownership or operation of such assets may not be tax-exempt.

Revenue bonds issued by state or local agencies to finance the development of low-income, multi-family housing involve special risks in addition to those associated with municipal securities generally, including that the underlying properties may not generate sufficient income to pay expenses and interest costs. These bonds are generally non-recourse against the property owner, may be junior to the rights of others with an interest in the properties, may pay interest that changes based in part on the financial performance of the property, may be prepayable without penalty and may be used to finance the construction of housing developments which, until completed and rented, do not generate income to pay interest. Additionally, unusually high rates of default on the underlying mortgage loans may reduce revenues available for the payment of principle or interest on such mortgage revenue bonds.

Interest Rate Risk The Fund. Generally, when market interest rates rise, bond prices fall, and vice versa. Interest rate risk is the risk that the municipal securities in the Fund's portfolio will decline in value because of increases in market interest rates. In typical market interest rate environments, the prices of longer-term municipal securities generally fluctuate more than prices of shorter-term municipal securities as interest rates change.

Concentration Risk. As described above, the Fund will invest at least 80% of its net assets in state and local municipal securities whose income is exempt from regular federal and New Jersey income taxes. The Fund is therefore more susceptible to political, economic or regulatory factors affecting issuers of such securities than a municipal bond fund that invests more widely. Briefly summarized below are important financial concerns relating to the Fund's investments in New Jersey municipal obligations. The information set forth below and in Appendix A to this prospectus is derived from sources that are generally available to investors. This information is intended to give a recent historical description and is not intended to indicate future or continuing trends in the

financial or other positions of the State of New Jersey (State). It should be noted that the information recorded here primarily is based on the economic and budget forecasts found in certain recent publications issued by the State. The accuracy and completeness of those publications have not been independently verified. There may be significant changes in circumstances altering the economic and budget predictions since the time of those publications or after the publication of this prospectus. Additionally, it should be noted that the creditworthiness of obligations issued by local New Jersey issuers may be unrelated to the creditworthiness of obligations issued by the State, and that there is no obligation on the part of the State to make payment on such local obligations in the event of default. As of the date hereof, the State has not published the Comprehensive Annual Financial Report for the Fiscal Years ended June 30, 2011 and 2012 and, therefore, all numbers related to Fiscal Year 2011 and Fiscal Year 2012 are estimates and may vary based on changes in the State, regional and national economies. In addition, it is important to note that each dollar amount referenced in this section has been truncated to one digit after the decimal and rounded up or down to the appropriate dollar denomination. Because such dollar amounts generally reference large sums of money (e.g., millions or billions of dollars), the truncation and rounding of such dollar amounts may significantly differ from the untruncated and unrounded dollar amounts.

In recent years the State, the region and the nation have been affected by a global financial recession that arguably was the most severe and pervasive economic crisis since the Great Depression. In January 2010, New Jersey faced an estimated budget deficit of \$2.2 billion for Fiscal Year 2010 and \$10.7 billion for Fiscal Year 2011, which were both closed. In February 2011, at the outset of the Fiscal Year 2012 budget process, the Office of Legislative Services, the non-partisan research arm of the New Jersey legislature, estimated a \$10.5 billion structural deficit for Fiscal Year 2012. Additionally, as of June 30, 2010, the State s outstanding long-term obligations for governmental activities totaled \$57.9 billion, a \$6.7 billion increase over the prior fiscal year. As of June 30, 2010, the State had \$2.6 billion of State general obligation bonds outstanding with another \$893.2 million of bonding authorization remaining from various State general obligation bond acts. During Fiscal Year 2010, \$209.2 million of General Obligation debt was issued for various purposes, and the amount provided by the State s General Fund for debt service payments for Fiscal Year 2010 was \$263.6 million. The future direction of the national and State economies will depend on many factors including credit availability, geopolitical tensions, energy prices and the stability of the financial markets.

New Jersey s population is expected to place further demands on the State financial system because the State has experienced an increase in the ratio of elderly to the working-age population and an increase of foreign-born residents, both of which groups have historically increased demand for State services. Additionally, the State is a party to numerous pending or threatened lawsuits in which the State has the potential for either a significant loss of revenue or a significant unanticipated expenditure.

As of February 9, 2011, S&P downgraded the State s various outstanding general obligation bonds to AA-from AA. As of September 30, 2010, Moody s rated them Aa2, and Fitch, Inc. rated them AA. Ratings reflect the respective views of such rating organizations, and an explanation of the significance of such ratings may be obtained from the rating agency that furnished the rating. There is no assurance that a particular rating will continue for any given period of time or that any such rating will not be revised downward or withdrawn entirely if, in the judgment of the agency originally establishing the rating, circumstances so warrant. Any such downward revision or withdrawal could have an adverse effect on the market prices of the State general obligation bonds.

The foregoing information constitutes only a brief summary of some of the general factors that may impact certain issuers of municipal securities and does not purport to be a complete or exhaustive description of all adverse conditions to which the issuers of municipal securities held by the Fund are subject. Additionally, many factors, including national economic, social and environmental policies and conditions, which are not within the control of the issuers of the municipal securities, could affect or could have an adverse impact on the financial condition of the issuers. The Fund is unable to predict whether or to what extent such factors or other factors may affect the issuers of the municipal securities, the market value or marketability of the municipal securities or the ability of the respective issuers of the municipal securities acquired by the Fund to pay interest on or principal of the municipal securities. This information has not been independently verified. See Appendix A to this prospectus for a further discussion of factors affecting municipal securities in New Jersey.

Inverse Floating Rate Securities Risk. The Fund may invest up to 15% of its net assets in inverse floating rate securities. Typically, inverse floating rate securities represent beneficial interests in a special purpose trust (sometimes called a tender option bond trust) formed by a third party sponsor for the purpose of holding municipal securities. See Portfolio Composition Municipal Securities Inverse Floating Rate Securities. In general, income on inverse floating rate securities will decrease when interest rates increase and increase when interest rates decrease. Investments in inverse floating rate securities may subject the Fund to the risks of reduced or eliminated interest payments and losses of principal.

Inverse floating rate securities may increase or decrease in value at a greater rate than the underlying interest rate, which effectively leverages the Fund's investment. As a result, the market value of such securities generally will be more volatile than that of fixed rate securities.

The Fund may invest in inverse floating rate securities issued by special purpose trusts that have recourse to the Fund. In Nuveen Fund Advisors's discretion, the Fund may enter into a separate shortfall and forbearance agreement with the third party sponsor of a special purpose trust. The Fund may enter into such recourse agreements (i) when the liquidity provider to the special purpose trust requires such an agreement because the level of leverage in the special purpose trust exceeds the level that the liquidity provider is willing to support absent such an agreement; and/or (ii) to seek to prevent the liquidity provider from collapsing the special purpose trust in the event that the municipal obligation held in the trust has declined in value. Such an agreement would require the Fund to reimburse the third party sponsor of the trust, upon termination of the trust issuing the inverse floater, the difference between the liquidation value of the bonds held in the trust and the principal amount due to the holders of floating rate securities. In such instances, the Fund may be at risk of loss that exceeds its investment in the inverse floating rate securities.

The Fund's investments in inverse floating rate securities issued by special purpose trusts that have recourse to the Fund may be highly leveraged. The structure and degree to which the Fund's inverse floating rate securities are highly leveraged will vary based upon a number of factors, including the size of the trust itself and the terms of the underlying municipal security held in a special purpose trust. An inverse floating rate security generally is considered highly leveraged if the principal amount of the short-term floating rate interests issued by the related special purpose trust is in excess of three times the principal amount of the inverse floating rate securities owned by the trust (the ratio of the principal amount of such short-term floating rate interests to the principal amount of the inverse floating rate securities is referred to as the gearing). In the event of a significant decline in the value of an underlying security, the Fund may suffer losses in excess of the amount of its investment (up to an amount equal to the value of the municipal securities underlying the inverse floating rate securities) as a result of liquidating special purpose trusts or other collateral required to maintain the Fund's anticipated effective leverage ratio.

The economic effect of leverage through the Fund's purchase of inverse floating rate securities creates an opportunity for increased net income and returns, but also creates the possibility that the Fund's long-term returns will be diminished if the cost of leverage exceeds the return on the inverse floating rate securities purchased by the Fund.

Inverse floating rate securities have varying degrees of liquidity based upon the liquidity of the underlying securities deposited in a special purpose trust. The market price of inverse floating rate securities is more volatile than the underlying securities due to leverage. The leverage attributable to such inverse floating rate securities may be called away on relatively short notice and therefore may be less permanent than more traditional forms of leverage. In certain circumstances, the likelihood of an increase in the volatility of net asset value and market price of the common shares may be greater for the Fund to the extent that it relies on inverse floating rate securities to achieve a significant portion of its desired effective leverage ratio. The Fund may be required to sell its inverse floating rate securities at less than favorable prices, or liquidate other Fund portfolio holdings in certain circumstances, including, but not limited to, the following:

- If the Fund has a need for cash and the securities in a special purpose trust are not actively trading due to adverse market conditions;

- If special purpose trust sponsors (as a collective group or individually) experience financial hardship and consequently seek to terminate their respective outstanding special purpose trusts; and
- If the value of an underlying security declines significantly (to a level below the notional value of the floating rate securities issued by the trust) and if additional collateral has not been posted by the Fund.

Taxability Risk. The Fund will invest in municipal securities in reliance at the time of purchase on an opinion of bond counsel to the issuer that the interest paid on those securities will be excludable from gross income for regular federal income tax purposes, and Nuveen Asset Management will not independently verify that opinion. Subsequent to the Fund's acquisition of such a municipal security, however, the security may be determined to pay, or to have paid, taxable income. As a result, the treatment of dividends previously paid or to be paid by the Fund as exempt-interest dividends could be adversely affected, subjecting the Fund's shareholders to increased federal income tax liabilities.

Under highly unusual circumstances, the IRS may determine that a municipal bond issued as tax-exempt should in fact be taxable. If the Fund held such a bond, it might have to distribute taxable ordinary income dividends or reclassify as taxable income previously distributed as exempt-interest dividends.

Distributions of ordinary taxable income (including any net short-term capital gain) will be taxable to shareholders as ordinary income (and not eligible for favorable taxation as qualified dividend income), and capital gain dividends will be subject to capital gains taxes. In certain circumstances, the Fund will make payments to holders of MTP Shares to offset the tax effects of a taxable distribution. See Tax Matters.

Other Investment Companies Risk. The Fund may invest in the securities of other investment companies. Such securities may be leveraged. As a result, the Fund may be indirectly exposed to leverage through an investment in such securities. Utilization of leverage is a speculative investment technique and involves certain risks. An investment in securities of other investment companies that are leveraged may expose the Fund to higher volatility in the market value of such securities and the possibility that the Fund's long-term returns on such securities will be diminished.

Deflation Risk. Deflation risk is the risk that prices throughout the economy decline over time, which may have an adverse effect on the market valuation of companies, their assets and revenues. In addition, deflation may have an adverse effect on the creditworthiness of issuers and may make issuer default more likely, which may result in a decline in the value of the Fund's portfolio.

Insurance Risk. The Fund may purchase municipal securities that are additionally secured by insurance, bank credit agreements or escrow accounts. The credit quality of the companies that provide such credit enhancements will affect the value of those securities. Many significant providers of insurance for municipal securities have recently incurred significant losses as a result of exposure to sub-prime mortgages and other lower credit quality investments that have experienced recent defaults or otherwise suffered extreme credit deterioration. As a result, such losses have reduced the insurers' capital and called into question their continued ability to perform their obligations under such insurance if they are called upon to do so in the future. As of March 7, 2011, there are no longer any bond insurers rated AAA by Moody's, S&P and/or Fitch and at least one rating agency has placed all bond insurers, except Berkshire Hathaway Assurance Company, on negative credit watch, credit watch evolving, credit outlook developing, or rating withdrawn. These events may presage one or more rating reductions for any other insurer in the future. While an insured municipal security will typically be deemed to have the rating of its insurer, if the insurer of a municipal security suffers a downgrade in its credit rating or the market discounts the value of the insurance provided by the insurer, the rating of the underlying municipal security will be more relevant and the value of the municipal security would more closely, if not entirely, reflect such rating. In such a case, the value of insurance associated with a municipal security would decline and the insurance may not add any value. As concern has increased about the balance sheets of insurers, prices on insured bonds especially those bonds issued by weaker underlying credits declined. Most insured bonds are currently being valued according to their fundamentals as if they were uninsured. Assuming that the insurer remains creditworthy, the insurance feature

of a municipal security guarantees the full payment of principal and interest when due through the life of an insured obligation. Such insurance does not guarantee the market value of the insured obligation or the value of the Fund's common shares.

Counterparty Risk. Changes in the credit quality of the companies that serve as the Fund's counterparties with respect to derivatives, insured municipal securities or other transactions supported by another party's credit will affect the value of those instruments. Certain entities that have served as counterparties in the markets for these transactions have recently incurred significant financial hardships including bankruptcy and losses as a result of exposure to sub-prime mortgages and other lower quality credit investments that have experienced recent defaults or otherwise suffered extreme credit deterioration. As a result, such hardships have reduced these entities' capital and called into question their continued ability to perform their obligations under such transactions. By using such derivatives or other transactions, the Fund assumes the risk that its counterparties could experience similar financial hardships. In the event of insolvency of a counterparty, the Fund may sustain losses or be unable to liquidate a derivatives position.

Call Risk or Prepayment Risk. During periods of declining interest rates or for other purposes, issuers may exercise their option to prepay principal earlier than scheduled, forcing the Fund to reinvest in lower-yielding securities. This is known as call or prepayment risk.

Reinvestment Risk the Fund. With respect to the Fund, reinvestment risk is the risk that income from the Fund's portfolio will decline if and when the Fund invests the proceeds from matured, traded or called bonds at market interest rates that are below the Fund's portfolio's current earnings rate.

Reliance on Investment Adviser and Sub-Adviser. The Fund is dependent upon services and resources provided by its investment adviser, Nuveen Fund Advisors, and sub-adviser, Nuveen Asset Management and therefore their parent, Nuveen Investments, Inc. (Nuveen Investments). Nuveen Investments, through its own business or the financial support of its affiliates, may not be able to generate sufficient cash flow from operations or ensure that future borrowings will be available in an amount sufficient to enable it to pay its indebtedness or to fund its other liquidity needs. For additional information on Nuveen Fund Advisors, Nuveen Asset Management and Nuveen Investments, see Management of the Fund Investment Adviser, Sub-Adviser and Portfolio Manager.

Certain Affiliations. Certain broker-dealers may be considered to be affiliated persons of the Fund, Nuveen Fund Advisors, Nuveen Asset Management and/or Nuveen Investments. Absent an exemption from the Securities and Exchange Commission or other regulatory relief, the Fund generally is precluded from effecting certain principal transactions with affiliated brokers, and its ability to purchase securities being underwritten by an affiliated broker or a syndicate including an affiliated broker, or to utilize affiliated brokers for agency transactions, is subject to restrictions. This could limit the Fund's ability to engage in securities transactions and take advantage of market opportunities.

Anti-Takeover Provisions. The Fund's Declaration of Trust and By-laws include provisions that could limit the ability of other entities or persons to acquire control of the Fund or convert the Fund to open-end status.

HOW THE FUND MANAGES RISK

The Fund has adopted certain investment limitations designed to limit investment risk and maintain portfolio diversification. These limitations are fundamental and may not be changed without the approval of the holders of a majority of the Fund's outstanding common shares and Preferred Stock, including MTP Shares, voting together as a single class, and the approval of the holders of a majority of the outstanding Preferred Stock voting as a separate class.

The Fund may not:

- Invest more than 25% of its total assets in securities of issuers in any one industry, other than municipal securities issued by states and local governments and their instrumentalities or agencies (not including those backed only by the assets and revenues of non-governmental users), and municipal securities issued or guaranteed by the U.S. Government or its instrumentalities or agencies; and
- Invest more than 5% of its total assets in securities of any one issuer (not including securities of the U.S. Government and its agencies, or the investment of 25% of the Fund's total assets).

See the SAI for additional fundamental and non-fundamental policies of the Fund.

In connection with establishing and maintaining ratings on the Fund's MTP Shares, the Rating Agencies restrict the Fund's ability to borrow money, sell securities short, lend securities, buy and sell futures contracts, and write put or call options. The Fund does not expect that these restrictions will adversely affect its ability to achieve its investment objectives. These restrictions are not fundamental policies and the Fund may change them without shareholder approval.

MANAGEMENT OF THE FUND

Trustees and Officers

The Fund's Board of Trustees is responsible for the management of the Fund, including supervision of the duties performed by Nuveen Fund Advisors. The names and business addresses of the Fund's trustees and officers and their principal occupations and other affiliations during the past five years are set forth under Management of the Fund in the SAI.

Investment Adviser, Sub-Adviser and Portfolio Manager

Nuveen Fund Advisors will be responsible for the Fund's overall investment strategy and its implementation. Nuveen Fund Advisors also is responsible for managing the Fund's business affairs and providing certain clerical, bookkeeping and other administrative services.

Nuveen Fund Advisors, 333 West Wacker Drive, Chicago, Illinois 60606, a registered investment adviser, is a wholly owned subsidiary of Nuveen Investments. Founded in 1898, Nuveen Investments and its affiliates had approximately \$197 billion of assets under management as of December 31, 2010, of which approximately \$75.2 billion was in municipal securities. Regarding this approximately \$75.2 billion of tax-exempt municipal securities, approximately \$34.7 billion, \$19.5 billion, \$16.6 billion and \$4.4 billion represent assets relating to closed-end municipal bond funds, open-end municipal bond funds, retail municipal managed accounts and institutional municipal managed accounts, respectively. At such time as the Fund receives an exemptive order permitting it to do so, or as otherwise permitted by the 1940 Act or the rules thereunder, the Fund may, without obtaining approval of the shareholders, retain an unaffiliated subadviser to perform some or all of the portfolio management functions on the Fund's behalf.

Edgar Filing: NUVEEN NEW JERSEY DIVIDEND ADVANTAGE MUNICIPAL FUND - Form 497

Nuveen Asset Management, 333 West Wacker Drive, Chicago, Illinois 60606, serves as the Fund's sub-adviser, pursuant to a sub-advisory agreement between Nuveen Fund Advisors and Nuveen Asset Management. On January 1, 2011, Nuveen Asset Management was formed as a subsidiary of Nuveen Fund Advisors and was created to house Nuveen Fund Advisors's portfolio management capabilities. Nuveen Asset Management is a registered investment adviser, and a wholly-owned subsidiary of Nuveen Fund Advisors. Nuveen Asset Management oversees day-to-day operations and provides portfolio management services to the Fund. Pursuant to the sub-advisory agreement, Nuveen Asset Management will be compensated for the services it provides to the Fund with a portion of the management fee Nuveen Fund Advisors receives from the Fund. Nuveen Fund Advisors and Nuveen Asset Management retain the right to reallocate investment advisory responsibilities and fees between themselves in the future.

Paul L. Brennan has served as the Fund's portfolio manager since January 1, 2011. He manages several Nuveen municipal national and state mutual funds and closed-end bond funds. Mr. Brennan began his career in the investment business in 1991 as a municipal credit analyst for Flagship Financial before becoming a portfolio manager in 1994. He joined Nuveen Investments in 1997 when Nuveen acquired Flagship Financial that year. He earned his B.S. in Accountancy and Finance from Wright State University. He is a CPA, has earned the Chartered Financial Analyst (CFA) designation and currently sits on the Nuveen Asset Management Investment Management Committee.

Additional information about the portfolio manager's compensation, other accounts managed by him or her and other information is provided in the SAI. The SAI is available free of charge by calling (800) 257-8787 or by visiting the Fund's website at www.nuveen.com. The information contained in, or that can be accessed through, the Fund's website is not part of this prospectus or the SAI.

Nuveen Investments

As a result of the acquisition of Nuveen Investments by an investor group led by Madison Dearborn Partners, LLC, a private equity firm based in Chicago, Illinois (Madison Dearborn), certain underwriters, their affiliates or employees, including Merrill Lynch, Pierce, Fenner & Smith Incorporated, Citigroup Global Markets Inc., UBS Securities LLC and Wells Fargo Securities, LLC, have an ownership interest in Nuveen Investments. For additional information, see Underwriting.

Investment Management Agreement and Sub-Advisory Agreement

Pursuant to an investment management agreement between Nuveen Fund Advisors and the Fund, the Fund has agreed to pay an annual management fee for the services and facilities provided by Nuveen Fund Advisors, payable on a monthly basis, based on the sum of a fund-level fee and a complex-level fee, as described below, according to the following schedule:

Fund-Level Fee. The fund-level fee shall be applied according to the following schedule:

<u>Fund-Level Average Daily Managed Assets</u>	<u>Fund-Level Fee Rate</u>
For the first \$125 million	0.4500%
For the next \$125 million	0.4375%
For the next \$250 million	0.4250%
For the next \$500 million	0.4125%
For the next \$1 billion	0.4000%
For net assets over \$2 billion	0.3750%

For the first ten years of the Fund's operations, Nuveen Fund Advisors has agreed to reimburse the Fund, as a percentage of average daily net assets, for fees and expenses in the amounts and for the time periods set forth below:

Year Ending

Year Ending

March 31,

March 31,

Edgar Filing: NUVEEN NEW JERSEY DIVIDEND ADVANTAGE MUNICIPAL FUND - Form 497

2001*	.30%	2007	.25%
2002	.30%	2008	.20%
2003	.30%	2009	.15%
2004	.30%	2010	.10%
2005	.30%	2011	.05%
2006	.30%		

* From the commencement of operations.

Nuveen Fund Advisors has not agreed to reimburse the Fund for any portion of its fees and expenses beyond March 31, 2011.

Complex Level Fee. The effective rates of the complex-level fee at various specified complex-wide asset levels are as indicated in the following table:

<u>Complex-Level Asset Breakpoint Level(1)</u>	<u>Effective Rate At Breakpoint Level</u>
\$55 billion	0.2000%
\$56 billion	0.1996%
\$57 billion	0.1989%
\$60 billion	0.1961%
\$63 billion	0.1931%
\$66 billion	0.1900%
\$71 billion	0.1851%
\$76 billion	0.1806%
\$80 billion	0.1773%
\$91 billion	0.1691%
\$125 billion	0.1599%
\$200 billion	0.1505%
\$250 billion	0.1469%
\$300 billion	0.1445%

- (1) Breakpoints apply up to the dollar amounts listed above. The complex-level fee begins at a maximum of 0.2000% of average daily Managed Assets, based upon qualifying assets of \$55 billion, with lower fees for assets above that level. The amount of qualifying assets is calculated based upon the aggregate daily managed assets of all Nuveen-sponsored open-end and closed-end funds (collectively, the Nuveen Funds) (as managed assets is defined in each Nuveen Fund's investment management agreement, which, with respect to the closed-end funds, generally includes assets attributable to any preferred shares that may be outstanding, any borrowings and the portion of assets in special purpose trusts of which the Fund owns inverse floater certificates that has been effectively financed by the special purpose trust's issuance of floating rate certificates), but excluding assets attributable to (i) investments by Nuveen Funds in other Nuveen Funds and (ii) the amount, as of January 1, 2011, of managed assets in excess of \$2 billion in the funds that were added to the Nuveen Fund family on that date in connection with Nuveen Fund Advisors' assumption of the management of the former First American Funds. The complex-level fee was based on approximately \$73.2 billion as of December 31, 2010.

Pursuant to an investment sub-advisory agreement between Nuveen Fund Advisors and Nuveen Asset Management, Nuveen Asset Management will receive from Nuveen Fund Advisors a management fee equal to 38.4615% of Nuveen Fund Advisors' net management fee from the Fund.

In addition to Nuveen Fund Advisors' management fee, the Fund pays all other costs and expenses of its operations, including compensation of its trustees (other than those affiliated with Nuveen Fund Advisors), custodian, transfer agency and dividend disbursing expenses, legal fees, expenses of its independent registered accounting firm, expenses of repurchasing shares, expenses of issuing any MTP Shares, expenses of preparing, printing and distributing shareholder reports, notices, proxy statements and reports to governmental agencies, listing fees and taxes, if any. All fees and expenses are accrued daily and deducted before payment of distributions to shareholders.

The basis for the Board of Trustees' continuation of the Fund's investment management agreement will be provided in Annual or Semi-Annual Reports to shareholders for the periods during which such continuations occur. This disclosure was most recently provided in the Fund's Semi-Annual Report to Shareholders for the fiscal year ended October 31, 2010.

LEGAL PROCEEDINGS

Thirty-three Nuveen leveraged closed-end funds (including the Fund) have each received a demand letter from a law firm on behalf of purported holders of the fund's common shares. Each letter alleged that Nuveen Fund Advisors (the fund's investment adviser) and the fund's officers and Board of Directors or Trustees, as applicable (the Board of Trustees) breached their fiduciary duties by favoring the interests of holders of the fund's auction rate preferred shares (ARPS) over those of its common shareholders in connection with each fund's ARPS refinancing and/or redemption activities, and demanded that the Board take action to remedy those alleged breaches. In response to the demand letters, each fund's Board of Trustees established a Demand Committee of certain of its disinterested and independent members to investigate the claims. The Demand Committee, for each fund, retained independent counsel to assist it in conducting its investigation. Based upon its investigation, the Demand Committee, for each fund, found that it was not in the best interests of each fund or its shareholders to take the actions suggested in the demand letters, and recommended that the full Board reject the demands made in the demand letters. After reviewing the findings and recommendation of each Demand Committee, the full Board of each fund unanimously adopted the Demand Committee's recommendation and each of the thirty-three funds has since rejected the demands made in the demand letters.

Subsequently, all thirty-three funds that received demand letters (including the Fund) and one fund that did not receive a demand letter were named as nominal defendants in four putative shareholder derivative action complaints filed in the Circuit Court of Cook County, Illinois, Chancery Division (the Cook County Chancery Court). The four putative shareholder actions have since been consolidated into one shareholder derivative action complaint captioned *Martin Saffier, et al., v. Nuveen Asset Management, et al.*, filed with the Cook County Chancery Court on February 18, 2011 (the Complaint). The Complaint was filed on behalf of purported holders of each fund's common shares and also names Nuveen Fund Advisors as a defendant, together with current and former officers and a trustee of each of the funds (together with the nominal defendants, collectively, the Defendants). The Complaint contains the same basic allegations contained in the demand letters. The suit seeks a declaration that the Defendants have breached their fiduciary duties, an order directing the Defendants not to redeem any ARPS at their liquidation value using fund assets, indeterminate monetary damages in favor of the funds and an award of plaintiffs' costs and disbursements in pursuing the action. The plaintiffs filed a motion for preliminary injunction to stop the funds subject to the lawsuits from redeeming additional ARPS during the pendency of the lawsuits. The court rejected that motion on November 23, 2010.

Nuveen Fund Advisors believes that the Complaint is without merit, and intends to defend vigorously against the charges. Nuveen Fund Advisors also believes that the Complaint will not have a material adverse effect on the ability of Nuveen Fund Advisors to perform its obligations under its investment advisory contract with any of the Nuveen leveraged closed-end funds (including the Fund).

NET ASSET VALUE

The Fund's custodian calculates the Fund's net asset value. The custodian uses prices for portfolio securities from a pricing service the Fund's Board of Trustees has approved. The pricing service values portfolio securities at the mean between the quoted bid and asked price or the yield equivalent when quotations are readily available. Securities for which quotations are not readily available (which will constitute the majority of the Fund's portfolio securities) are valued at fair value as determined by the Board of Trustees in reliance upon data supplied by the pricing service. The pricing service uses methods that consider yields or prices of municipal securities of comparable quality, type of issue, coupon, maturity, and ratings; dealers' indications of value; and general market conditions. The pricing service may use electronic data processing techniques or a matrix system, or both. The Fund's officers review the pricing service's procedures and valuations, under the general supervision of the Board of Trustees of the Fund.

DESCRIPTION OF BORROWINGS

The Fund's Declaration of Trust authorizes the Fund, without prior approval of holders of common stock or Preferred Stock, including MTP Shares, to borrow money. In this connection, the Fund may issue notes or other evidence of indebtedness (including bank borrowings or commercial paper) and may secure any such borrowings subject to the requirements of the 1940 Act. Any borrowings will rank senior to the Fund's shares of Preferred Stock, including the MTP Shares. The Fund, as a fundamental policy, may not issue debt securities that rank senior to MTP Shares, except for emergency or temporary purposes.

Limitations. Under the requirements of the 1940 Act, the Fund, immediately after issuing any borrowings that are senior securities representing indebtedness (as defined in the 1940 Act), must have an Asset Coverage of at least 300%. With respect to any such borrowings, asset coverage means the ratio which the value of the total assets of the Fund, less all liabilities and indebtedness not represented by senior securities, bears to the aggregate amount of any such borrowings that are senior securities representing indebtedness, issued by the Fund. Certain types of borrowings may also result in the Fund being subject to covenants in credit agreements relating to asset coverages or portfolio composition or otherwise. In addition, the Fund may be subject to certain restrictions imposed by guidelines of one or more rating agencies which may issue ratings for Preferred Stock, including MTP Shares, or indebtedness, if any, such as commercial paper or notes issued by the Fund. Such restrictions may be more stringent than those imposed by the 1940 Act.

Distribution Preference. The rights of lenders to the Fund to receive interest on and repayment of principal of any such borrowings will be senior to those of the holders of Preferred Stock (including MTP Shares), and the terms of any such borrowings may contain provisions which limit certain activities of the Fund, including the payment of dividends to holders of Preferred Stock in certain circumstances.

Voting Rights. The 1940 Act does (in certain circumstances) grant to the lenders to the Fund certain voting rights in the event of default in the payment of interest on or repayment of principal. In the event that such provisions would impair the Fund's status as a regulated investment company under the Code, the Fund, subject to its ability to liquidate its portfolio, intends to repay the borrowings.

DESCRIPTION OF OUTSTANDING SHARES

Common Shares

The Fund's Declaration of Trust authorizes the issuance of an unlimited number of common shares of beneficial interest. All common shares have equal rights to the payment of dividends and the distribution of assets upon liquidation. Common shares are, when issued, fully paid and non-assessable, and have no pre-emptive or conversion rights except as the trustees may determine or rights to cumulative voting. At any time when Preferred Stock is outstanding, common shareholders will not be entitled to receive any cash distributions from the Fund unless all accrued dividends on Preferred Stock have been paid, and unless Asset Coverage with respect to Preferred Stock would be at least 200% after giving effect to the distributions. The Fund pays monthly dividends, typically on the first business day of the following month.

The common shares are listed on the NYSE Amex. The Fund intends to hold annual meetings of shareholders so long as the Fund's shares are listed on a national securities exchange and such meetings are required as a condition to such listing.

MuniPreferred Shares

The Fund's Declaration of Trust authorizes the issuance of an unlimited number of preferred shares. The Fund currently has outstanding MuniPreferred shares. Each share of Preferred Stock ranks on parity with respect to the payment of dividends and the distribution of assets upon liquidation. Under the 1940 Act, the MTP Shares are considered to be a separate series of the Fund's existing class of Preferred Stock, and are not considered to be a separate class of securities.

The Fund's outstanding MuniPreferred shares have a liquidation preference of \$25,000 per share, plus all accumulated but unpaid dividends (whether or not earned or declared) to the date of final distribution. MuniPreferred shares are, when issued, (i) fully paid and non-assessable, (ii) not convertible into common shares or other capital stock of the Fund, (iii) have no preemptive rights and (iv) not subject to any sinking fund. MuniPreferred shares are subject to optional and mandatory redemption in certain circumstances. MuniPreferred shares are auction rate securities, meaning that auctions in the securities were held on a periodic basis and interest on the shares was paid at the end of each auction period based on a Dutch auction process. In February 2008, the auction market failed and has not since recovered. The failure of the auction rate market has rendered the MuniPreferred shares virtually illiquid.

Prior to the general failure of the auction markets, MuniPreferred shares paid dividends based on a rate set at the auctions, which were normally held weekly. In most instances, dividends were also paid weekly on the day following the end of the rate period. The rate set at the auctions did not exceed a maximum rate. In instances where auctions have failed, the dividend rates for the MuniPreferred shares reset weekly at a maximum rate, which is determined by a formula, and is based on the greater of 110% of short-term municipal bond rates or AA taxable commercial paper.

A detailed description of the Fund's MuniPreferred shares, including a description of the maximum rate formula, is included in the Fund's Amendment and Restatement of Statement Establishing and Fixing the Rights and Preferences of MuniPreferred Shares that is on file with the Securities and Exchange Commission.

CERTAIN PROVISIONS IN THE DECLARATION OF TRUST AND BY-LAWS

Under Massachusetts law, shareholders could, under certain circumstances, be held personally liable for the obligations of the Fund. However, the Declaration of Trust contains an express disclaimer of shareholder liability for debts or obligations of the Fund and requires that notice of such limited liability be given in each agreement, obligation or instrument entered into or executed by the Fund or the trustees. The Declaration of Trust further provides for indemnification out of the assets and property of the Fund for all loss and expense of any shareholder held personally liable for the obligations of the Fund. Thus, the risk of a shareholder incurring financial loss on account of shareholder liability is limited to circumstances in which the Fund would be unable to meet its obligations. The Fund believes that the likelihood of such circumstances is remote.

The Declaration of Trust and By-Laws include provisions that could limit the ability of other entities or persons to acquire control of the Fund or to convert the Fund to open-end status. The By-Laws require the Board of Trustees elected by the holders of common and Preferred Stock, voting as a single class, be divided into three classes, with the term of one class expiring at each annual meeting of shareholders. See the Statement of Additional Information under Management of the Fund. This provision of the By-Laws could delay for up to two years the replacement of a majority of the Board of Trustees. Holders of Preferred Stock, voting as a separate class, will be entitled to elect two of the Fund's trustees, serving for a one year term. In addition, the Declaration of Trust requires a vote by holders of at least two-thirds of the common shares and Preferred Stock, voting together as a single class, except as described below, to authorize (1) a conversion of the Fund from a closed-end to an open-end investment company, (2) a merger or consolidation of the Fund, or a series or class of the Fund, with any other corporation, association, trust or other organization or a reorganization or recapitalization of the Fund or a series or class of the Fund, (3) a sale, lease or transfer of all or substantially all of the Fund's assets (other than in the regular course of the Fund's investment activities), (4) in certain circumstances, a termination or liquidation of the Fund, or a series or class of the Fund or (5) a removal of trustees by shareholders, and then only for cause, unless, with respect to (1) through (4), such transaction has already been authorized by the affirmative vote of two-thirds of the total number of trustees fixed in accordance with the Declaration of Trust or the By-Laws, in which case the affirmative vote of the holders of at least a majority of the Fund's common shares and Preferred Stock outstanding at the time, voting together as a single class, is required; provided, however, that where only a particular class or series is affected (or, in the case of removing a trustee, when the trustee has been elected by only one class), only the required vote by the applicable class or series will be

required. Approval of shareholders is not required, however, for any transaction, whether deemed a merger, consolidation, reorganization or otherwise whereby the Fund issues shares in connection with the acquisition of assets (including those subject to liabilities) from any other investment company or similar entity. In the case of the conversion of the Fund to an open-end investment company, or in the case of any of the foregoing transactions constituting a plan of reorganization that adversely affects the holders of any outstanding Preferred Stock, the action in question will also require the affirmative vote of the holders of at least two-thirds of the Preferred Stock outstanding at the time, voting as a separate class, or, if such action has been authorized by the affirmative vote of two-thirds of the total number of trustees fixed in accordance with the Declaration of Trust or the By-Laws, the affirmative vote of the holders of at least a majority of the Preferred Stock outstanding at the time, voting as a separate class. None of the foregoing provisions may be amended except by the vote of at least two-thirds of the common shares and Preferred Stock, voting together as a single class. The votes required to approve the conversion of the Fund from a closed-end to an open-end investment company or to approve transactions constituting a plan of reorganization that adversely affects the holders of any outstanding Preferred Stock are higher than those required by the 1940 Act. The Board of Trustees believes that the provisions of the Declaration of Trust relating to such higher votes are in the best interest of the Fund and its shareholders.

The Declaration of Trust provides that the obligations of the Fund are not binding upon the Fund's trustees individually, but only upon the assets and property of the Fund, and that the trustees shall not be liable for errors of judgment or mistakes of fact or law. Nothing in the Declaration of Trust, however, protects a trustee against any liability to which he or she would otherwise be subject by reason of willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his office.

The provisions of the Declaration of Trust and By-Laws described above could have the effect of depriving the common shareholders of opportunities to sell their common shares at a premium over the then current market price of the common shares by discouraging a third party from seeking to obtain control of the Fund in a tender offer or similar transaction. The overall effect of these provisions is to render more difficult the accomplishment of a merger or the assumption of control by a third party. They provide, however, the advantage of potentially requiring persons seeking control of the Fund to negotiate with its management regarding the price to be paid and facilitating the continuity of the Fund's investment objectives and policies. The Fund's Board of Trustees has considered the foregoing anti-takeover provisions and concluded that they are in the best interests of the Fund and its shareholders.

Preemptive Rights. The Declaration of Trust provides that common shareholders shall have no right to acquire, purchase or subscribe for any shares or securities of the Fund, other than such right, if any, as the Fund's Board of Trustees in its discretion may determine. As of the date of this prospectus, no preemptive rights have been granted by the Board of Trustees.

Reference should be made to the Declaration of Trust and By-Laws on file with the Securities and Exchange Commission for the full text of these provisions.

REPURCHASE OF FUND SHARES; CONVERSION TO OPEN-END FUND

The Fund is a closed-end investment company and as such its shareholders will not have the right to cause the Fund to redeem shares in the Fund held by such shareholders. Instead, the common shares will trade in the open market at a price that will be a function of several factors, including dividend levels (which are in turn affected by expenses), net asset value, dividend stability, relative demand for and supply of such shares in the market, general market and economic conditions and other factors. Because shares of closed-end investment companies may frequently trade at prices lower than net asset value, the Fund's Board of Trustees has currently determined that, at least annually, it will consider action that might be taken to reduce or eliminate any material discount from net asset value in respect of common shares, which may include the repurchase of such shares in the open market or in private transactions, the making of a tender offer for such shares at net asset value or submitting the conversion of the Fund to an open-end investment company to a vote of shareholders. The Fund

cannot assure you that its Board of Trustees will decide to take any of these actions, or that share repurchases or tender offers will actually reduce market discount. The Fund will be unable to repurchase its common shares if it does not meet certain asset coverage requirements relating to outstanding Preferred Stock.

If the Fund converted to an open-end investment company, it would be required to redeem all Preferred Stock including MTP Shares then outstanding (requiring in turn that it liquidate a portion of its investment portfolio), and the common shares and MTP Shares would no longer be listed on the New York Stock Exchange, NYSE Amex or elsewhere. If approved by the applicable vote of the Fund's Board of Trustees, the conversion to an open-end fund would require the vote of the majority of the outstanding common shares and Preferred Stock voting together and the Preferred Stock voting as a separate class. In contrast to a closed-end investment company, shareholders of an open-end investment company may require the company to redeem their shares at any time (except in certain circumstances as authorized by the 1940 Act or the rules thereunder) at their net asset value, less any redemption charge that is in effect at the time of redemption. See the SAI under Repurchase of Fund Shares; Conversion to Open-End Fund for a discussion of the voting requirements applicable to the conversion of the Fund to an open-end investment company.

Before deciding whether to take any action if the common shares trade below net asset value, the Board of Trustees would consider all relevant factors, including the extent and duration of the discount, the liquidity of the Fund's portfolio, the impact of any action that might be taken on the Fund or its shareholders, and market considerations. Based on these considerations, even if the Fund's common shares should trade at a discount, the Board of Trustees of the Fund may determine that, in the interest of the Fund and its shareholders, no action should be taken. See the SAI under Repurchase of Fund Shares; Conversion to Open-End Fund for a further discussion of possible action to reduce or eliminate such discount to net asset value.

TAX MATTERS

The discussion below, and the discussion in the SAI under the caption Tax Matters, is based on the opinion of K&L Gates LLP (Tax Counsel) on the anticipated U.S. federal income tax consequences of acquiring, holding, and disposing of MTP Shares. Tax Counsel's opinions are based on the current provisions and interpretations of the Internal Revenue Code of 1986, as amended (the Code) and the accompanying Treasury regulations and on current judicial and administrative rulings. All of these authorities are subject to change and any change can apply retroactively.

Upon issuance of MTP Shares, and subject to certain assumptions and conditions, and based upon certain representations made by the Fund, including representations regarding the nature of the Fund's assets and the conduct of the Fund's business, Tax Counsel will deliver its opinion concluding that for federal income tax purposes MTP Shares will qualify as stock in the Fund and distributions made with respect to the MTP Shares will qualify as exempt-interest dividends to the extent they are reported as such by the Fund and not otherwise limited under Section 852(b)(5)(A) of the Code (under which the total amount of dividends that may be treated as exempt-interest dividends is limited, based on the total amount of tax-exempt income generated by the Fund). The Fund's qualification and taxation as a regulated investment company depend upon the Fund's ability to meet on a continuing basis, through actual annual operating results, certain requirements in the federal tax laws. Tax Counsel will not review the Fund's compliance with those requirements. Accordingly, no assurance can be given that the actual results of the Fund's operations for any particular taxable year will satisfy such requirements.

The following is intended to be a general summary of the material U.S. federal income tax consequences of investing in MTP Shares. The discussion generally applies only to holders of MTP Shares who are U.S. holders. You will be a U.S. holder if you are an individual who is a citizen or resident of the United States, a U.S. domestic corporation, or any other person that is subject to U.S. federal income tax on a net income basis in respect of an investment in MTP Shares. This summary deals only with U.S. holders that hold MTP Shares as capital assets. It does not address considerations that may be relevant to you if you are an investor that is subject to special tax rules, such as a financial institution, insurance company, regulated investment company, real estate

investment trust, investor in pass-through entities, U.S. holder of MTP Shares whose functional currency is not the United States dollar, tax-exempt organization, dealer in securities or currencies, trader in securities or commodities that elects mark to market treatment, person who holds MTP Shares in a qualified tax-deferred account such as an IRA, or person that will hold MTP Shares as a position in a straddle, hedge or as part of a constructive sale for federal income tax purposes. It is not intended to be a complete discussion of all such federal income tax consequences, nor does it purport to deal with all categories of investors. This discussion reflects applicable tax laws of the United States as of the date of this prospectus, which tax laws may change or be subject to new interpretation by the courts or the IRS, possibly with retroactive effect. INVESTORS ARE THEREFORE ADVISED TO CONSULT WITH THEIR OWN TAX ADVISORS BEFORE MAKING AN INVESTMENT IN THE FUND.

Federal Income Tax Treatment of the Fund

The Fund intends to continue to qualify as a regulated investment company under Subchapter M of the Code. As a regulated investment company, the Fund generally will not be subject to any federal income tax.

The Fund primarily invests in municipal securities issued by States, cities and local authorities and certain possessions and territories of the United States (such as Puerto Rico or Guam) or in municipal securities whose income is otherwise exempt from regular federal income taxes. Thus, substantially all of the Fund's dividends to the holders of common shares and MTP Shares will qualify as exempt-interest dividends. A shareholder treats an exempt-interest dividend as interest on state and local bonds exempt from regular federal income tax. Some or all of an exempt-interest dividend, however, may be subject to federal alternative minimum tax imposed on the shareholder. Different federal alternative tax rules apply to individuals and to corporations. The American Recovery and Reinvestment Act of 2009 provides an exemption from the federal alternative minimum tax applicable to individuals for interest on private activity bonds and, for purposes of calculating a corporate taxpayer's adjusted current earnings, an exemption for interest on all tax-exempt bonds, with both exemptions limited to bonds that are issued after December 31, 2008 and before January 1, 2011, including refunding bonds issued during that period to refund bonds originally issued after December 31, 2003 and before January 1, 2009.

In addition to exempt-interest dividends, the Fund also may distribute amounts that are treated as long-term capital gain or ordinary income to its shareholders. The Fund will allocate distributions to shareholders that are treated as tax-exempt interest and as long-term capital gain and ordinary income, if any, proportionately among the common and MTP Shares. In certain circumstances, the Fund will make payments to holders of MTP Shares to offset the tax effects of a taxable distribution. See "Description of MTP Shares Dividends and Dividend Periods" in this prospectus.

The SAI contains a more detailed summary of the federal tax rules that apply to the Fund and its shareholders. Legislative, judicial or administrative action may change the tax rules that apply to the Fund or its shareholders. Any change may be retroactive for Fund transactions.

Federal Income Tax Treatment of Holders of MTP Shares

Under present law, Tax Counsel is of the opinion that MTP Shares of the Fund will constitute equity of the Fund, and thus distributions with respect to MTP Shares (other than distributions in redemption of MTP Shares subject to Section 302(b) of the Code) will generally constitute dividends to the extent of the Fund's current or accumulated earnings and profits, as calculated for federal income tax purposes. Tax Counsel's opinion is consistent with the holding of a private letter ruling issued by the IRS to another regulated investment company that has issued preferred stock substantially identical to MTP Shares. In general, private letter rulings may not be used or cited as precedent. However, the courts recognize that private letter rulings reveal the interpretation put upon the statute by the IRS and that they may be helpful in establishing consistency of administrative treatment. In addition, private letter rulings are authority for purposes of determining whether there is substantial authority for the tax treatment of an item in connection with the imposition of the accuracy-related penalty under Section 6662 of the Code. The

Fund does not intend currently to seek a ruling on the equity status of MTP Shares.

Because the treatment of a corporate security as debt or equity is determined on the basis of the facts and circumstances of each case, and no controlling precedent exists for the MTP Shares, there can be no assurance that the IRS will not question Tax Counsel's opinion and the Fund's treatment of MTP Shares as equity, even though such a challenge, applied to MTP Shares, would not be consistent with the conclusion of the private letter ruling referred to above. If the IRS were to succeed in such a challenge, holders of MTP Shares could be characterized as receiving taxable interest income rather than exempt-interest or other dividends, possibly requiring them to file amended income tax returns and retroactively to recognize additional amounts of ordinary income or to pay additional tax, interest, and penalties.

Except in the case of exempt-interest dividends and capital gain dividends, if any, dividends paid by the Fund generally will be taxable to holders at ordinary income tax rates. Dividends derived from net capital gain and reported by the Fund as capital gain dividends will be treated as long-term capital gains in the hands of holders regardless of the length of time such holders have held their shares. Distributions in excess of the Fund's earnings and profits, if any, will first reduce a shareholder's adjusted tax basis in his or her shares and, after the adjusted tax basis is reduced to zero, will constitute capital gains to a holder who holds such shares as a capital asset. A holder of MTP Shares will be required to report the dividends declared by the Fund for each day on which such holder is the shareholder of record. The Fund intends to notify holders of MTP Shares in advance if it will allocate to them income that is not exempt from regular federal income tax. In certain circumstances, the Fund will make payments to holders of MTP Shares to offset the tax effects of the taxable distribution.

The IRS currently requires that a regulated investment company that has two or more classes of stock allocate to each such class proportionate amounts of each type of its income (such as ordinary income and capital gains). Accordingly, the Fund intends to report dividends made with respect to common shares and Preferred Stock, including MTP Shares, as consisting of particular types of income (e.g., exempt-interest dividends, net capital gain, or ordinary income) in accordance with each class's proportionate share of the total dividends paid by the Fund during the year.

Although dividends generally will be treated as distributed when paid, a distribution will be treated as having been paid on December 31 if it is declared by the Fund in October, November or December with a record date in such months and is paid by the Fund in January of the following year. Accordingly, such distributions will be taxable to shareholders in the calendar year in which the distributions are declared.

New Jersey Tax Matters

The following is based upon the advice of K&L Gates LLP, special counsel to the Fund.

Reference in this Prospectus and Statement of Additional Information to New Jersey income tax shall mean the tax imposed under the New Jersey Gross Income Tax Act (the "New Jersey Gross Income Tax").

Assuming compliance with the provisions more fully described in the Statement of Additional Information, the Fund's distributions will not be subject to the New Jersey Gross Income Tax to the extent they are attributable to interest or gains from obligations of the State of New Jersey and its political subdivisions, and agencies or instrumentalities thereof; obligations of the United States government; or other obligations whose interest is exempt from tax by New Jersey or United States law. Distributions of the Fund will be subject to the New Jersey Gross Income Tax, however, to the extent the Fund makes distributions attributable to other obligations. If you realize a net gain from the sale of shares of the Fund, the net gain will not be subject to the New Jersey Gross Income Tax. If you realize a loss from the sale of shares of the Fund, you may not be able to use the loss to offset other New Jersey gains.

Edgar Filing: NUVEEN NEW JERSEY DIVIDEND ADVANTAGE MUNICIPAL FUND - Form 497

The treatment of corporate holders who pay New Jersey corporate franchise tax differs from that described above. Corporate holders should refer to the Statement of Additional Information for more detailed information and are urged to consult their tax advisor.

The Fund will be subject to the New Jersey Corporation Business Tax only if it has sufficient nexus with New Jersey for purposes of the New Jersey Corporation Business Tax. If it is subject to the New Jersey Corporation Business Tax, it does not expect to pay a material amount of such tax.

You are advised to consult with your own tax advisor for more detailed information concerning New Jersey tax matters. See **Tax Matters** in the Statement of Additional Information for a more detailed discussion of New Jersey state and local tax matters.

Other State and Local Tax Matters

While exempt-interest dividends are exempt from regular federal and New Jersey income taxes, they may not be exempt from other state or local income or other taxes. Some states exempt from state income tax that portion of any exempt-interest dividend that is derived from interest a regulated investment company receives on its holdings of securities of that state and its political subdivisions and instrumentalities. Therefore, the Fund will report annually to its shareholders the percentage of interest income the Fund earned during the preceding year on tax-exempt obligations and the Fund will indicate, on a state-by-state basis, the source of this income. You should consult with your tax adviser about state and local tax matters.

Sale of Shares

The sale of MTP Shares by holders will generally be a taxable transaction for federal income tax purposes. A holder of MTP Shares who sells such shares will generally recognize gain or loss in an amount equal to the difference between the net proceeds resulting from the sale and such holder's adjusted tax basis in the shares sold. A portion of any such gain will generally be characterized as dividend income to the extent it is attributable to declared but unpaid dividends. If such MTP Shares are held as a capital asset at the time of the sale, the gain or loss will generally be a capital gain or loss. Similarly, a redemption by the Fund (including a redemption resulting from liquidation of the Fund), if any, of all MTP Shares actually and constructively held by a shareholder generally will give rise to capital gain or loss under Section 302(b) of the Code if the shareholder does not own (and is not regarded under certain federal income tax rules of constructive ownership as owning) any common shares in the Fund, and provided that the redemption proceeds do not represent declared but unpaid dividends. Other redemptions may also give rise to capital gain or loss, but certain conditions imposed by Section 302(b) of the Code must be satisfied to achieve such treatment.

Losses realized by a shareholder on the sale or exchange of shares of the Fund held for six months or less are disallowed to the extent of any distribution of exempt-interest dividends received with respect to such shares, and, if not disallowed, such losses are treated as long-term capital losses to the extent of any distribution of long-term capital gain received (or reported amounts of undistributed capital gain that are treated as received) with respect to such shares.

Any loss realized on a sale or exchange will be disallowed to the extent that substantially identical shares are reacquired within a period of 61 days beginning 30 days before and ending 30 days after the disposition of such shares. In such case, the basis of the shares acquired will be adjusted to reflect the disallowed loss.

Backup Withholding

Edgar Filing: NUVEEN NEW JERSEY DIVIDEND ADVANTAGE MUNICIPAL FUND - Form 497

The Fund may be required to withhold, for U.S. federal income tax purposes, a portion of all distributions (including redemption proceeds) payable to shareholders who fail to provide the Fund with their correct taxpayer identification number, who fail to make required certifications or who have been notified by the IRS that they are subject to backup withholding (or if the Fund has been so notified). The current rate of backup withholding is 28%. Certain shareholders specified in the Code and the regulations thereunder are exempt from backup withholding. Backup withholding is not an additional tax; any amounts withheld may be credited against the shareholder's U.S. federal income tax liability provided the appropriate information is furnished to the IRS.

Investors are advised to consult their own tax advisors with respect to the application to their own circumstances of the above-described general federal income taxation rules and with respect to other federal, state, local or foreign tax consequences to them before making an investment in MTP Shares.

UNDERWRITERS

Under the terms and subject to the conditions contained in an underwriting agreement dated the date of this prospectus, the underwriters named below, for whom Morgan Stanley & Co. Incorporated, Merrill Lynch, Pierce, Fenner & Smith Incorporated, Citigroup Global Markets Inc., UBS Securities LLC, and Wells Fargo Securities, LLC are acting as representatives, have severally agreed to purchase, and the Fund has agreed to sell to them, severally, the number of MTP Shares indicated below:

<u>Name</u>	<u>Number of MTP Shares</u>
Morgan Stanley & Co. Incorporated	879,276
Merrill Lynch, Pierce, Fenner & Smith Incorporated	879,276
Citigroup Global Markets Inc.	879,276
UBS Securities LLC	879,276
Wells Fargo Securities, LLC	879,276
Nuveen Investments, LLC	89,720
Total	4,486,100

The underwriters are offering the MTP Shares subject to their acceptance of the MTP Shares from the Fund and subject to prior sale. The underwriting agreement provides that the obligations of the several underwriters to pay for and accept delivery of the MTP Shares offered by this prospectus are subject to the approval of certain legal matters by their counsel and to certain other conditions. The underwriters are obligated to take and pay for all of the MTP Shares offered by this prospectus if any such MTP Shares are taken.

The underwriters initially propose to offer part of the MTP Shares directly to the public at the public offering price listed on the cover page of this prospectus and part to certain dealers at a price that represents a concession not in excess of \$0.075 per MTP Share under the public offering price. Any underwriter may allow, and such dealers may reallow, a concession not in excess of \$0.05 per MTP Share to other underwriters or to certain dealers. After the initial offering of the MTP Shares, the offering price and other selling terms may from time to time be varied by the representatives. The underwriting discounts and commissions of \$0.125 per MTP Share are equal to 1.25% of the public offering price. Investors must pay for any MTP Shares purchased on or before March 24, 2011.

The Fund has granted the underwriters an option, exercisable for 30 days from the date of this prospectus, to purchase up to an aggregate of 672,915 additional MTP Shares at the public offering price listed on the cover page of this prospectus, less underwriting discounts and commissions. The underwriters may exercise this option solely for the purpose of covering over-allotments, if any, made in connection with the offering of the MTP Shares offered by this prospectus. To the extent the option is exercised, each underwriter will become obligated, subject to certain conditions, to purchase about the same percentage of the additional MTP Shares as the number listed next to the underwriter's name in the preceding table bears to the total number of MTP Shares listed in the preceding table. If the underwriters' option is exercised in full, the total price to the public would be \$51,590,150, the total underwriting discounts and commissions would be \$644,877 and total proceeds to the Fund would be \$50,945,273.

The following table shows the underwriting discounts and commissions the Fund will pay in connection with this offering. The information assumes either no exercise or full exercise by the underwriters of their over-allotment option. However, the underwriters are not required to take or pay for the MTP Shares covered by the underwriters over-allotment option described below.

	<u>Per</u> <u>MTP Share</u>	<u>Without</u> <u>Option</u>	<u>With</u> <u>Option</u>
Underwriting discounts and commissions	\$ 0.125	\$ 560,762	\$ 644,877

Application has been made to list the MTP Shares, subject to official notice of issuance, on the New York Stock Exchange under the symbol NXJ Pr A. Prior to this offering, there has been no public market for MTP Shares. It is anticipated that trading on the New York Stock Exchange will begin within 30 days from the date of this prospectus. During such period, the underwriters do not intend to make a market in MTP Shares. Consequently, it is anticipated that, prior to the commencement of trading on the New York Stock Exchange, an investment in MTP Shares will be illiquid and holders of MTP Shares may not be able to sell such shares as it is unlikely that a secondary market for MTP Shares will develop. If a secondary market does develop prior to the commencement of trading on the New York Stock Exchange, holders of MTP Shares may be able to sell such shares only at substantial discounts from liquidation preference.

The Fund, Nuveen Fund Advisors and Nuveen Asset Management have each agreed that, without the prior written consent of Morgan Stanley & Co. Incorporated on behalf of the underwriters, the Fund will not, during the period ending 180 days after the date of this prospectus:

- offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend, or otherwise transfer or dispose of, directly or indirectly, any senior securities (as defined in the 1940 Act) or any securities convertible into or exercisable or exchangeable for senior securities; or
- enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the MTP Shares,

whether any such transaction described above is to be settled by delivery of MTP Shares or such other securities, in cash or otherwise; or file any registration statement with the Securities and Exchange Commission relating to the offering of any MTP Shares or any securities convertible into or exercisable or exchangeable for MTP Shares.

In order to facilitate the offering of the MTP Shares, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the MTP Shares. Specifically, the underwriters may over-allot in connection with the offering, creating a short position in the MTP Shares for their own account. In addition, to cover over-allotments or to stabilize the price of the MTP Shares, the underwriters may bid for, and purchase, MTP Shares in the open market. Finally, the underwriting syndicate may reclaim selling concessions allowed to an underwriter or a dealer for distributing the MTP Shares in the offering, if the syndicate repurchases previously distributed MTP Shares in transactions to cover syndicate short positions, in stabilization transactions or otherwise. Any of these activities may stabilize or maintain the market price of the MTP Shares above independent market levels. The underwriters are not required to engage in these activities, and may end any of these activities at any time.

The Fund anticipates that the representatives and certain other underwriters may from time to time act as brokers and dealers in connection with the execution of its portfolio transactions after they have ceased to be underwriters and, subject to certain restrictions, may act as such brokers while they are underwriters. From time to time, Morgan Stanley & Co. Incorporated has provided, and continues to provide, investment banking services to the Fund, Nuveen Fund Advisors, Nuveen Asset Management and their affiliates for which it has received customary fees and expenses. The underwriters may, from time to time, engage in transactions with or perform services for the Fund, Nuveen Fund Advisors, Nuveen Asset Management and their affiliates in the ordinary course of business. As a result of the acquisition of Nuveen Investments by an investor group led by Madison Dearborn, certain underwriters, their affiliates or employees, including Merrill Lynch, Pierce, Fenner & Smith Incorporated, Citigroup Global Markets Inc., UBS Securities LLC and Wells Fargo Securities, LLC, have an ownership interest in Nuveen Investments.

Certain underwriters and their affiliates, including Morgan Stanley & Co. Incorporated, Merrill Lynch, Pierce, Fenner & Smith Incorporated, Citigroup Global Markets Inc., UBS Securities LLC and Wells Fargo Securities, LLC, currently own or are obligated to repurchase in the future outstanding MuniPreferred shares. In addition, customers of certain underwriters and their affiliates currently own outstanding MuniPreferred shares.

In connection with an inquiry by FINRA into the activities of Nuveen Investments, LLC, a registered broker-dealer affiliate of Nuveen Fund Advisors and Nuveen Asset Management that is involved in the offering of the Fund's MTP Shares, in marketing and distributing MuniPreferred shares and FundPreferred shares (the latter being preferred shares issued by certain Nuveen non-municipal closed-end funds), FINRA staff members have notified Nuveen Investments, LLC that they have made a preliminary determination to recommend that disciplinary action be brought against Nuveen Investments, LLC. The potential charges recommended by the FINRA staff in such action would allege that certain MuniPreferred share and FundPreferred share marketing materials provided by Nuveen Investments, LLC were false and misleading from 2006 to 2008, and also would allege failures by Nuveen Investments, LLC relating to its supervisory system with respect to the marketing of MuniPreferred and FundPreferred shares. The FINRA staff has provided Nuveen Investments, LLC an opportunity to make a written submission to FINRA to aid its consideration of whether to revise and/or go forward with the staff's preliminary determination to recommend disciplinary action. Nuveen Investments, LLC has made such a submission responding to the potential allegations and asserting its defenses. Nuveen Investments, LLC anticipates continuing to discuss these matters with the FINRA staff. Upon the successful completion of this offering, these outstanding MuniPreferred shares may be redeemed or purchased by the Fund with the net proceeds of the offering as set forth in Use of Proceeds. Although such a redemption or purchase would be done in accordance with the 1940 Act in a manner that did not favor these underwriters, affiliates or customers, the underwriters or their affiliates may nonetheless be deemed to obtain a material benefit from the offering of the MTP Shares due to such redemption or purchase including, for certain of the underwriters and their affiliates, potentially substantial financial relief and/or relief related to legal and regulatory matters associated with currently illiquid MuniPreferred shares.

The Fund, Nuveen Fund Advisors, Nuveen Asset Management and the underwriters have agreed to indemnify each other against certain liabilities, including liabilities under the Securities Act of 1933.

The principal business address of Morgan Stanley & Co. Incorporated is 1585 Broadway, New York, New York 10036. The principal business address of Merrill Lynch, Pierce, Fenner & Smith Incorporated is One Bryant Park, New York, New York 10036. The principal business address of Citigroup Global Markets Inc. is 388 Greenwich Street, New York, New York 10013. The principal business address of UBS Securities LLC is 299 Park Avenue, New York, New York 10071. The principal business address of Wells Fargo Securities, LLC is 375 Park Avenue, New York, New York 10152.

CUSTODIAN, TRANSFER AGENT, DIVIDEND DISBURSING AGENT AND REDEMPTION AND PAYING AGENT

The custodian of the assets of the Fund is State Street Bank and Trust Company (State Street), One Lincoln Street, Boston, Massachusetts 02110. The custodian performs custodial, fund accounting and portfolio accounting services. The Fund's transfer, shareholder services and dividend disbursing agent and redemption and paying agent is also State Street, 250 Royall Street, Canton, Massachusetts 02021. State Street has subcontracted the transfer agency servicing of the Fund to Computershare, Inc.

LEGAL OPINIONS

Certain legal matters in connection with MTP Shares will be passed upon for the Fund by K&L Gates LLP, Washington, DC, and for the Underwriters by Simpson Thacher & Bartlett LLP, New York, New York. K&L Gates LLP and Simpson Thacher & Bartlett LLP may rely as to certain matters of Massachusetts law on the opinion of Bingham McCutchen LLP, Boston, Massachusetts.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The financial statements of the Fund appearing in the Fund's Annual Report for the year ended April 30, 2010 and the Fund's unaudited financial statements for the six months ended October 31, 2010 are incorporated by reference into the Statement of Additional Information. The April 30, 2010 financial statements have been audited by Ernst & Young LLP, an independent registered public accounting firm, as set forth in their report thereon and incorporated herein by reference. Such financial statements are incorporated by reference in reliance upon such report given on the authority of such firm as experts in accounting and auditing. Ernst & Young LLP provides auditing services to the Fund. The principal business address of Ernst & Young LLP is 155 North Wacker Drive, Chicago, Illinois 60606.

MISCELLANEOUS

To the extent that a holder of MTP Shares is directly or indirectly a beneficial owner of more than 10% of any class of the Fund's outstanding shares (meaning for purposes of holders of MTP Shares, more than 10% of the Fund's outstanding Preferred Stock), such a 10% beneficial owner would be subject to the short-swing profit rules that are imposed pursuant to Section 16 of the Securities Exchange Act of 1934, as amended (the Exchange Act) (and related reporting requirements). These rules generally provide that such a 10% beneficial owner may have to disgorge any profits made on purchases and sales, or sales and purchases, of the Fund's Preferred Stock (including MTP Shares) within any six month time period. Investors should consult with their own counsel to determine the applicability of these rules.

AVAILABLE INFORMATION

The Fund is subject to the informational requirements of the Exchange Act and the 1940 Act and is required to file reports, proxy statements and other information with the Securities and Exchange Commission. These documents can be inspected and copied for a fee at the Securities and Exchange Commission's public reference room, 100 F Street, N.E., Washington, D.C. 20549-0102. Reports, proxy statements, and other information about the Fund can be inspected at the offices of the Securities and Exchange Commission.

This prospectus does not contain all of the information in the Fund's Registration Statement, including amendments, exhibits, and schedules. Statements in this prospectus about the contents of any contract or other document are not necessarily complete and in each instance reference is made to the copy of the contract or other document filed as an exhibit to the registration statement, each such statement being qualified in all respects by this reference.

Additional information about the Fund and MTP Shares can be found in the Fund's Registration Statement (including amendments, exhibits, and schedules) on Form N-2 filed with the Securities and Exchange Commission. The Securities and Exchange Commission maintains a web site (<http://www.sec.gov>) that contains the Fund's Registration Statement, other documents incorporated by reference, and other information the Fund has filed electronically with the Securities and Exchange Commission, including proxy statements and reports filed under the Exchange Act. Additional information may be found on the Internet at <http://www.nuveen.com>. The information contained in, or that can be accessed through, the Fund's website is not part of this prospectus.

APPENDIX A FACTORS AFFECTING MUNICIPAL SECURITIES IN NEW JERSEY

The following information constitutes only a brief summary of some of the general factors that may impact certain issuers of municipal bonds and does not purport to be a complete or exhaustive description of all adverse conditions to which the issuers of municipal bonds held by the Fund are subject. Additionally, many factors, including national economic, social and environmental policies and conditions, which are not within the control of the issuers of the municipal bonds, could affect or could have an adverse impact on the financial condition of the issuers. The Fund is unable to predict whether or to what extent such factors or other factors may affect the issuers of the municipal securities, the market value or marketability of the municipal securities or the ability of the respective issuers of the municipal bonds acquired by the Fund to pay interest on or principal of the municipal securities. This information has not been independently verified.

Special Considerations Relating to New Jersey Municipal Obligations. Nuveen New Jersey Dividend Advantage Municipal Fund (the Fund) will have considerable investments in New Jersey municipal obligations. Accordingly, the Fund is susceptible to certain factors which could adversely affect issuers of New Jersey municipal obligations. The ability of issuers to pay interest on, and repay principal of, New Jersey municipal obligations may be affected by: (1) amendments to the New Jersey Constitution and other statutes that limit the taxing and spending authority of New Jersey government entities; (2) the general financial and economic profile as well as the political climate of the State of New Jersey, its public authorities, and political subdivisions; and (3) a change in New Jersey laws and regulations or subsequent court decisions that may affect, directly or indirectly, New Jersey municipal obligations. The Fund's yield and share price are sensitive to these factors as one or more of such factors could undermine New Jersey issuers' efforts to borrow, inhibit secondary market liquidity and erode credit ratings. Furthermore, it should be noted that the creditworthiness of obligations issued by local New Jersey issuers may be unrelated to the creditworthiness of obligations issued by the State of New Jersey (State) and that there is no obligation on the part of the State to make payment on such local obligations in the event of default.

Summarized below are important financial concerns relating to the Fund's investments in New Jersey municipal obligations. This section is not intended to be an entirely comprehensive description of all risks involved in investing in New Jersey municipal obligations. The information in this section is intended to give a recent historical description and is not intended to indicate future or continuing trends in the financial or other positions of the State. It should be noted that the information recorded here primarily is based on the economic and budget forecasts found in certain recent publications issued by the State, available as of March 16, 2011. The accuracy and completeness of the information in those reports have not been independently verified. There may be significant changes in circumstances altering the economic and budget predictions since the time of those publications or after the publication of this SAI. As of the date hereof, the State has not published the Comprehensive Annual Financial Report for the Fiscal Year ended June 30, 2011 and, therefore, all numbers related to Fiscal Year 2011 (and Fiscal Year 2012) are estimates. It is also important to note that each dollar amount referenced in this section has been truncated to one digit after the decimal and rounded up or down to the appropriate dollar denomination. Because such dollar amounts generally reference large sums of money (e.g., millions or billions of dollars), the truncation and rounding of such dollar amounts may significantly differ from the untruncated and unrounded dollar amounts.

State Demographics. New Jersey is the fifth smallest state in land area, the eleventh largest in population, and the most densely populated of all the states. The State is located at the center of the megalopolis that extends from Boston to Washington D.C. The air, land and water transportation complex that influences much of the State's economy is augmented by the State's extensive port developments. The State's central location also makes it an attractive location for corporate headquarters and international business offices.

The State's economic base is diversified, consisting of a variety of manufacturing, construction and service industries, supplemented by rural areas with selective commercial agriculture. New Jersey is bordered on the east by the Atlantic Ocean and on the north and northwest by lakes and mountains, providing recreation for both residents and tourists. Since 1976, casino gambling in Atlantic City has been an important State tourist attraction.

As of July 2010, the State's population was estimated to be 8.8 million. With the Baby Boom generation beginning to retire and life expectancies continuing to grow, seniors will comprise an increasingly large share of the State's population. The State's population aged 85 and older grew by 33 percent from 2000 to 2007 compared to 5.3 percent for the general population, and its rate of growth is expected to rise in the coming years. Nationwide, the number of senior citizens per working-aged adult is expected to increase by 61 percent from 2000 to 2030. The result is an increase in the ratio of elderly to the working-age population, which the State Department of the Treasury's Office of Management and Budget (OMB) projects will increase demand for State services and will decrease tax revenue as a greater share of the population will pass its peak earning and spending years. Additionally, the percent of foreign-born residents increased by almost 46 percent from 2000 to 2007. OMB projects this population trend will further increase demand for government assistance as newly-arrived immigrants traditionally require higher levels of assistance as they make the transition towards becoming citizens.

State Economy. New Jersey's economy weakened significantly in 2009 along with the national economy and other states' economies as a result of the global economic recession, but it is beginning to show signs of recovery. Between December 2006 and December 2010, New Jersey lost 225,800 private sector jobs, or 6.6% of the workforce. Unemployment reached its highest level in 33 years, while the housing market declined significantly along with State revenue. New Jersey's economy remains sluggish, and the latest State economic forecasts from Global Insight, Moody's Economy.com, and Rutgers University call for improvement in economic conditions through 2011. However, the weak labor market and tight credit conditions may constrain the growth path to that of a tenuous near-term recovery.

The State and the nation may experience some near-term deterioration in growth and the expected pace of economic expansion may decline further if consumers, investors and businesses become more concerned about the impact of the federal economic stimulus program on job growth, and the impact of federal health care reform, credit availability, financial market stresses, global economic recovery and geopolitical tensions. To a large extent, the future direction of the economy nationally and in the State hinges on the assumptions regarding the strength of the current economic recovery, energy prices and stability in the financial markets. The future economic outlook depends to a marked degree on supportive fiscal and monetary policies, but at this juncture there is considerable uncertainty about both the shape and effectiveness of these policies going forward. Enhanced availability of credit, stability in the financial markets, and improvements in consumer and business confidence are critical factors necessary for an economic turnaround nationally and in the State.

Based on estimates from the Department of the Treasury, Office of Revenue and Economic Analysis, the State's total revenues for Fiscal Year 2012 will be close to \$29.4 billion, including the Governor's proposed tax cuts. Total Fiscal Year 2012 revenues will be \$1.11 billion or 4% above the revised Fiscal Year 2011 projected level. Fiscal Year 2012's projected growth in revenues is consistent with ongoing improvement in the State's economy. The State's economy is expected to grow steadily in calendar year 2011, with gradual improvements in labor market conditions, and gain additional momentum in 2012. On the whole, the outlook for the State's economy is roughly in line with forecasts for national trends, and the projected improvement in revenues will also be in line with national developments. The start of significant and ongoing tax reform in the State is expected to bring greater economic growth.

State Budget. The State operates on a Fiscal Year beginning July 1 and ending June 30. Annual budgets are adopted for the State's General Fund and certain special revenue funds. The Legislature enacts the annual budget through specific departmental appropriations, the sum of which may not exceed estimated resources. It is a State Constitutional requirement that the annual State budget be balanced. Pursuant to the State Constitution, no money may be drawn from the State Treasury except for appropriations made by law. In addition, all monies for the support of State government and all other State purposes, as far as can be reasonably ascertained or predicted, must be provided for in one general appropriation law covering the span of a single Fiscal Year. No general appropriations law or other law appropriating money for any State purpose may be enacted if the amount of money appropriated, together with all other appropriations for that fiscal year, exceeds the total amount of revenue available (current and anticipated) for such fiscal year, as certified by the Governor.

Debt Limitations. The State Constitution further provides, in part, that the State Legislature shall not, in any manner, create in any fiscal year a debt or liability of the State, which, together with any previous debts or liabilities, shall exceed at any time one percent of the total appropriations for such year, unless the same shall be authorized by a law for some single object or work distinctly specified therein. No such law shall take effect until it shall have been submitted to the people at a general election and approved by a majority of the legally qualified voters voting thereon; provided, however, no such voter approval is required for any such law authorizing the creation of a debt for a refinancing of all or any portion of the outstanding debts or liabilities of the State, so long as such refinancing shall produce a debt service savings. Furthermore, any funds raised under these authorizations must be applied only to the specific object stated therein. The State Constitution provides as to any law authorizing such debt: Regardless of any limitation relating to taxation in this Constitution, such law shall provide the ways and means, exclusive of loans, to pay the interest of such debt or liability as it falls due, and also to pay and discharge the principal thereof within thirty-five years from the time it is contracted; and the law shall not be repealed until such debt or liability and the interest thereon are fully paid and discharged. This constitutional provision does not apply to the creation of debts or liabilities for purposes of war, or to repel invasion, or to suppress insurrection or to meet emergencies caused by disaster or act of God (Article VIII, Sec. 2, para. 3) (the Debt Limitation Clause).

The Debt Limitation Clause was amended by the voters on November 4, 2008. The amendment provides that, beginning after the effective date of the amendment, the State Legislature is prohibited from enacting any law that creates or authorizes the creation of a debt or liability of an autonomous State corporate entity, which debt or liability has a pledge of an annual appropriation as the means to pay the principal of and interest on such debt or liability, unless a law authorizing the creation of that debt or liability for some single object or work distinctly specified therein shall have been submitted to the people and approved by a majority of the legally qualified voters of the State voting thereon at a general election. The constitutional amendment does not require voter approval for any such law providing the means to pay the principal of and interest on such debt or liability subject to appropriations of an independent non-State source of revenue paid by third persons for the use of the single object or work thereof, or from a source of State revenue otherwise required to be appropriated pursuant to another provision of the State Constitution. Furthermore, voter approval is not needed for any law providing for the refinancing of all or a portion of any outstanding debts or liabilities of the State or of an autonomous State corporate entity provided that such law requires that the refinancing produces debt service savings.

State Funds. The State s financial accounting
