**Table of Contents****SPARTON CORPORATION AND SUBSIDIARIES****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(1) Business and Basis of Presentation**

Sparton Corporation and subsidiaries (the Company or Sparton) has been in continuous existence since 1900. It was last reorganized in 1919 as an Ohio corporation. The Company is a provider of complex and sophisticated electromechanical devices with capabilities that include concept development, industrial design, design and manufacturing engineering, production, distribution, and field service. The Company operates through three reportable business segments; Medical Device (Medical), Complex Systems (CS) and Defense & Security Systems (DSS), which serves Defense, Security Systems, and Navigation and Exploration industries. The electromechanical device end markets that Sparton, as a whole, serves are in Medical, Military & Aerospace and Industrial & Instrumentation. Financial information by segment is presented in Note 15. All of the Company's facilities are registered to ISO standards, including 9001 or 13485, with most having additional certifications. The Company's products and services include products for Original Equipment Manufacturers (OEM) and Emerging Technology (ET) customers that are microprocessor-based systems that include transducers, printed circuit boards and assemblies, sensors, and electromechanical components, as well as development and design engineering services relating to these product sales. Sparton also develops and manufactures sonobuoys, anti-submarine warfare (ASW) devices, used by the United States Navy and other free-world countries. Many of the physical and technical attributes in the production of sonobuoys are similar to those required in the production of the Company's other electrical and electromechanical products and assemblies.

The unaudited condensed financial statements and related footnotes have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. The financial information presented herein should be read in conjunction with the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2011, which includes information and disclosures not presented herein. All significant intercompany accounts and transactions have been eliminated in consolidation. Certain reclassifications of prior period amounts have been made to conform to the current year presentation. Subsequent events have been evaluated through the date these financial statements were issued. In the opinion of management, the unaudited condensed consolidated financial statements contain all of the adjustments, consisting of normal recurring adjustments, necessary to present fairly, in summarized form, the consolidated financial position, results of operations and cash flows of the Company. The results of operations for the three and nine months ended March 31, 2012 are not necessarily indicative of the results that may be expected for the full fiscal year 2012.

**(2) Inventories and Cost of Contracts in Progress**

The following are the major classifications of inventory, net of interim billings, at March 31, 2012 and June 30, 2011 (in thousands):

	<b>March 31, 2012</b>	<b>June 30, 2011</b>
Raw materials	\$ 36,003	\$ 35,695
Work in process	8,080	7,819
Finished goods	5,773	4,239
Total inventory and cost of contracts in progress, gross	49,856	47,753
Inventory to which the U.S. government has title due to interim billings	(10,604)	(9,001)
Total inventory and cost of contracts in progress, net	\$ 39,252	\$ 38,752

The Company recorded inventory write-downs totaling approximately \$0.1 million and \$0.0 million for the three months ended March 31, 2012 and 2011, respectively, and \$0.5 million and \$0.1 million for the nine months ended March 31, 2012 and 2011, respectively. These charges are included in cost of goods sold for the periods presented.

**Table of Contents****(3) Property, Plant and Equipment, Net**

Property, plant and equipment, net consists of the following at March 31, 2012 and June 30, 2011 (in thousands):

	March 31, 2012	June 30, 2011
Land and land improvements	\$ 1,235	\$ 1,235
Buildings and building improvements	16,268	15,604
Machinery and equipment	15,369	14,250
Construction in progress	2,712	1,114
<b>Total property, plant and equipment</b>	<b>35,584</b>	<b>32,203</b>
Less accumulated depreciation	(21,747)	(20,808)
<b>Total property, plant and equipment, net</b>	<b>\$ 13,837</b>	<b>\$ 11,395</b>

Included in construction in progress at March 31, 2012 and June 30, 2011 is approximately \$1.7 million and \$0.5 million, respectively, related to the implementation of a new enterprise resource planning system expected to be put into service in calendar 2012.

**(4) Goodwill and Other Intangible Assets**

Goodwill represents the excess of purchase price over the fair value of the net assets acquired in conjunction with the Company's purchases of Astro Instrumentation, LLC ( Astro ) in May 2006 and Byers Peak, Incorporated ( Byers Peak ) in March 2011. Goodwill related to both of these acquisitions is reflected within the Company's Medical operating segment. Changes in the carrying value of goodwill for the nine months ended March 31, 2012 and year ended June 30, 2011 and the ending composition of goodwill as of March 31, 2012 and June 30, 2011 are as follows (in thousands):

	March 31, 2012	June 30, 2011
Goodwill, beginning of period	\$ 7,472	\$ 19,141
Additions to goodwill during the period		1,484
Impairment losses during the period		(13,153)
<b>Goodwill, end of period</b>	<b>\$ 7,472</b>	<b>\$ 7,472</b>
	<b>March 31, 2012</b>	<b>June 30, 2011</b>
Acquired Goodwill	\$ 20,625	\$ 20,625
Accumulated impairment	(13,153)	(13,153)
<b>Goodwill</b>	<b>\$ 7,472</b>	<b>\$ 7,472</b>

Other intangible assets represent the values assigned to customer relationships acquired in conjunction with the Company's purchases of Astro and Byers Peak and the values assigned to non-compete agreements acquired in conjunction with the Company's purchase of Byers Peak. All of the Company's intangible assets are included within the Medical Segment. The amortization periods, gross carrying amounts, accumulated amortization, accumulated impairments and net carrying values of intangible assets at March 31, 2012 and June 30, 2011 are as follows (in thousands):

Edgar Filing: SPARTON CORP - Form 10-Q

	Amortization Period in Months	Gross Carrying Amount	March 31, 2012		Net Carrying Value
			Accumulated Amortization	Accumulated Impairments	
<b>Amortized intangible assets:</b>					
Non-compete agreements	24	\$ 158	\$ (85)	\$	\$ 73
Customer relationships	120-180	7,900	(2,587)	(3,663)	1,650
		\$ 8,058	\$ (2,672)	\$ (3,663)	\$ 1,723
<b>June 30, 2011</b>					
<b>Amortized intangible assets:</b>					
Non-compete agreements	24	\$ 158	\$ (26)	\$	\$ 132
Customer relationships	120-180	7,900	(2,316)	(3,663)	1,921
		\$ 8,058	\$ (2,342)	\$ (3,663)	\$ 2,053

**Table of Contents**

Sparton did not incur any significant costs to renew or alter the term of its intangible assets during the nine months ended March 31, 2012. Amortization expense for each of the three months ended March 31, 2012 and 2011 was approximately \$0.1 million. Amortization expense for each of the nine months ended March 31, 2012 and 2011 was approximately \$0.3 million. Aggregate amortization expense relative to existing intangible assets for the periods shown is currently estimated to be as follows (in thousands):

<b>Fiscal Year Ending June 30,</b>	
2012	\$ 435
2013	372
2014	283
2015	247
2016	210
Thereafter	506
<b>Total</b>	<b>\$ 2,053</b>

**(5) Other non-current assets**

Other non-current assets consist of the following at March 31, 2012 and June 30, 2011 (in thousands):

	<b>March 31, 2012</b>	<b>June 30, 2011</b>
Deferred financing fees, net	\$ 113	\$ 367
Cost method investment in Cybernet Systems Corporation		1,623
Coors Road long-term lease receivable	253	242
Other	299	306
<b>Total other non-current assets</b>	<b>\$ 665</b>	<b>\$ 2,538</b>

Costs incurred in connection with the Company's revolving line-of-credit of approximately \$1.0 million were deferred and are amortized to interest expense over the three year term of the facility.

At June 30, 2011, the Company held an approximate 12% interest in Cybernet Systems Corporation (Cybernet), a developer of hardware, software, next-generation network computing, and robotics products. In November 2011 the Company sold its investment in Cybernet back to Cybernet for \$1.75 million resulting in an approximate gain of \$0.1 million during the nine months ended March 31, 2012. See Note 10 for a further discussion of this sale.

On March 27, 2012, the Company received the annual payment due April 1, 2012, in relation to the long-term lease of its Coors Road property in Albuquerque, New Mexico. The Company is due one remaining equal annual payment on April 1, 2013 of approximately \$0.3 million. The remaining future payment due has been discounted for the imputation of interest, resulting in a discounted receivable of approximately \$0.3 million.

**(6) Debt**

**Short-term debt maturities and revolving line of credit** Short-term debt at March 31, 2012 and June 30, 2011 reflects the current portion of the Company's industrial revenue bonds (discussed below under Long-term debt) of approximately \$0.1 million.

The Company has \$20 million of maximum borrowing availability, subject to certain collateral restrictions, under a revolving line-of-credit facility (the Facility) provided in August 2009 by National City Business Credit, Inc. (now PNC Bank, National Association) to support working capital needs and other general corporate purposes. The line-of-credit facility is secured by substantially all of the assets of the Company. Outstanding borrowings bear interest at a variable rate defined as the Bank's minimum base rate plus a specified margin, each component of which is determined separately for domestic and Eurodollar rate loans. The Facility was amended in March 2011 to reduce the interest rates on

## Edgar Filing: SPARTON CORP - Form 10-Q

domestic and Eurodollar rate based loans, which at March 31, 2012 would have ranged from 3.24% to 5.25% per annum. Prior to the Facility amendment, the Company was subject to higher rates, with a minimum rate of 7% per annum. As a condition of the Facility, the Company is subject to certain customary covenants, which it was in compliance with at March 31, 2012. The Company had no borrowings drawn against the Facility during the periods ended March 31, 2012 and June 30, 2011, however it did have certain letters of credit outstanding totaling \$0.5 million. The maturity date for the line-of-credit is August 14, 2012.

**Table of Contents**

**Long-term debt** Long-term debt consists of the following at March 31, 2012 and June 30, 2011 (in thousands):

	March 31, 2012	June 30, 2011
Industrial revenue bonds, face value	\$ 1,798	\$ 1,899
Less unamortized purchase discount	(96)	(103)
<b>Total long-term debt</b>	<b>1,702</b>	<b>1,796</b>
Less: current portion	(131)	(126)
<b>Long-term debt, net of current portion</b>	<b>\$ 1,571</b>	<b>\$ 1,670</b>

In connection with its acquisition of Astro in May 2006, the Company assumed repayment of principal and interest on bonds originally issued to Astro by the State of Ohio. These bonds are Ohio State Economic Development Revenue Bonds, series 2002-4. Astro originally entered into the loan agreement with the State of Ohio for the issuance of these bonds to finance the construction of the Company's Ohio operating facility. The principal amount, including premium, was issued in 2002 and totaled approximately \$2.9 million. These bonds have interest rates which vary, dependent on the maturity date of the bonds ranging from 5.00% to 5.45%. Due to an increase in interest rates since the original issuance of the bonds, a discount amounting to approximately \$0.2 million on the date of assumption by Sparton was recorded.

The bonds carry certain sinking fund requirements generally obligating the Company to make monthly deposits of one twelfth of the annual obligation plus accrued interest. The purchase discount is being amortized ratably over the remaining term of the bonds. The Company also has an irrevocable letter of credit in the amount of approximately \$0.3 million, which is renewable annually, to secure repayment of a portion of the bonds.

**(7) Fair Value Measurements**

The Company's long-term debt instruments, consisting of industrial revenue bonds, are carried at historical cost. As of March 31, 2012 and June 30, 2011, the fair value of the industrial revenue bonds was approximately \$2.2 million and \$2.2 million, respectively compared to carrying values of approximately \$1.7 million and \$1.8 million, respectively. These fair values were derived from discounted cash flow analyses based on the terms of the contracts and observable market data, including adjustment for nonperformance risk. At June 30, 2011, the Company determined that it was not practicable to estimate the fair value of its cost method investment in Cybernet. Factors in this determination included the investment being a private company, the portfolio of patents owned by Cybernet which were difficult to value and the materiality of the investment in Cybernet to the Company. There had been no identified events or changes in circumstances that the Company viewed might have a significant adverse effect on the fair value of this investment. In October 2011, the Company sold its investment in Cybernet back to Cybernet for a gain of approximately \$0.1 million. See Note 10 for a further discussion of this sale. The fair value of accounts receivable and accounts payable approximated their carrying values at both March 31, 2012 and June 30, 2011.

**(8) Income Taxes**

The Company's effective income tax rate for the interim periods presented is based on management's estimate of the Company's effective tax rate for the applicable year and differs from the Federal statutory income tax rate primarily due to applicable permanent differences, foreign income taxes, state income taxes and, in the case of fiscal 2011, changes in the valuation allowance for deferred income taxes. In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible.

The Company recognized income tax provisions of approximately \$1.1 million and \$3.0 million, or approximately 36% of income before provision for income taxes, for the three and nine months ended March 31, 2012, respectively. For the three and nine months ended March 31, 2011, provisions for income taxes of approximately \$0.1 million and \$0.3 million, respectively, were recognized relating to the increase in the deferred tax liability associated with the amortization of goodwill for tax purposes. There was no other federal income tax expense recorded for the three and nine months ended March 31, 2011, as income generated in this period was offset by the utilization of previously recorded net operating loss carryforwards and the reversal of the related valuation allowance. The Company additionally recorded a benefit of approximately \$0.1 million during the nine months ended March 31, 2011 relating to income tax carryback refunds from the Canadian government.

**Table of Contents**

Prior to June 30, 2011, the Company recorded valuation allowances against substantially all of its net deferred tax assets as management believed that the realization of the deferred tax assets related to the net operating loss carryovers and the other net temporary timing differences while possible, was not more likely than not. At June 30, 2011, the Company restored approximately \$11.7 million of the deferred tax assets as the Company now believed that the realization of the remaining net operating loss carryovers and the other net timing differences is more likely than not. In making these decisions to both record a valuation allowance and restore the net deferred tax assets, the Company considered all available positive and negative evidence, including future reversals of taxable temporary differences, projected future taxable income, tax planning strategies, and recent financial results. At June 30, 2011, approximately \$6.6 million of U.S. income tax net operating loss carryovers were available to offset the Company's future Federal taxable income, of which \$4.7 million and \$1.9 million expire in 2029 and 2028, respectively. For state income tax purposes, the Company also had approximately \$4.9 million of net operating loss carryovers at June 30, 2011, of which \$1.7 million expire in 2029, \$3.1 million expire in 2028 and \$0.1 million expire in 2027.

**(9) Defined Benefit Pension Plan**

Approximately 400 employees and retirees of the Company are covered by a defined benefit pension plan. Effective April 1, 2009, participation and the accrual of benefits in this pension plan were frozen, at which time all participants became fully vested. The components of net periodic pension expense are as follows for the three and nine months ended March 31, 2012 and 2011 (in thousands):

	For the Three Months Ended		For the Nine Months Ended	
	March 31, 2012	March 31, 2011	March 31, 2012	March 31, 2011
Service cost	\$	\$	\$	\$
Interest cost	104	111	313	335
Expected return on plan assets	(140)	(109)	(420)	(328)
Amortization of prior service cost				
Amortization of unrecognized net actuarial loss	11	59	32	176
Net pension expense (income)	(25)	61	(75)	183
Pro rata recognition of lump-sum settlements	32	81	96	244
Total pension expense	\$ 7	\$ 142	\$ 21	\$ 427

Lump-sum settlement charges of approximately \$0.0 million and \$0.1 million were recognized during the three and nine months ended March 31, 2012, respectively, in anticipation of lump-sum benefit distributions exceeding plan service and interest costs for the 2012 fiscal year. Lump-sum settlement charges of approximately \$0.1 million and \$0.2 million were recognized during the three and nine months ended March 31, 2011. The Company's policy is to fund the plan based upon legal requirements and tax regulations. During the three and nine months ended March 31, 2012, approximately \$0.1 million and \$0.2 million, respectively, was contributed to the pension plan, reflective of required funding and discretionary funding to ensure funding levels are in excess of 80%. During the three and nine months ended March 31, 2011, approximately \$0.1 million and \$0.9 million, respectively, was contributed to the pension plan. For further information on future funding projections and other pension disclosures see Part II, Item 8, Note 9 Employee Retirement Benefit Plans of the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2011.

**(10) Commitments and Contingencies**

**Environmental Remediation** Sparton has been involved with ongoing environmental remediation since the early 1980's related to one of its former manufacturing facilities, located in Albuquerque, New Mexico ( Coors Road ). Although the Company entered into a long-term lease of the Coors Road property that was accounted for as a sale of property during fiscal 2010, it remains responsible for the remediation obligations related to its past operation of this facility. At March 31, 2012, Sparton had accrued approximately \$3.9 million as its estimate of the remaining minimum future undiscounted financial liability with respect to this matter, of which approximately \$0.3 million is classified as a current liability and included on the balance sheet in other accrued expenses. The Company's minimum cost estimate is based upon existing technology and excludes certain legal costs, which are expensed as incurred. The Company's estimate includes equipment and operating and maintenance costs for onsite and offsite pump and treat containment systems, as well as continued onsite and offsite monitoring. It also includes periodic reporting requirements.

**Table of Contents**

On October 15, 2009, approximately \$3.1 million of cash was utilized to establish a trust, the Sparton Corporation Financial Assurance Trust, for remediation activity. The funds were held in Sparton's name and were invested with Sparton receiving the benefit of the investment return. As of June 30, 2010, approximately \$3.2 million was held in this trust and reflected as restricted cash on the consolidated balance sheet. These funds were available for use against the expected remediation liability. The trust was established to meet the United States Environmental Protection Agency's (EPA) financial assurance requirements for the fiscal year ended June 30, 2010, with trust funds to be drawn upon only should Sparton not continue to meet its financial remediation requirements. The trust was to remain in place until the Company could again satisfy the EPA financial assurance requirements through compliance with financial ratios, as was previously attained on an annual basis until fiscal year 2009. Based on the Company's financial results for fiscal year 2010, the Company was again in compliance with the financial ratios and dissolved the trust during October 2010.

In fiscal 2003, Sparton reached an agreement with the United States Department of Energy (DOE) and others to recover certain remediation costs. Under the settlement terms, Sparton received cash and obtained some degree of risk protection as the DOE agreed to reimburse Sparton for 37.5% of certain future environmental expenses in excess of \$8.4 million incurred from the date of settlement, if any, of which approximately \$3.9 million has been expended as of March 31, 2012 toward the \$8.4 million threshold. Uncertainties associated with environmental remediation contingencies are pervasive and often result in wide ranges of reasonably possible outcomes. Estimates developed in the early stages of remediation can vary significantly. Normally a finite estimate of cost does not become fixed and determinable at a specific point in time. Rather, the costs associated with environmental remediation become estimable over a continuum of events and activities that help to frame and define a liability. Factors which cause uncertainties for the Company include, but are not limited to, the effectiveness of the current work plans in achieving targeted results and proposals of regulatory agencies for desired methods and outcomes. It is possible that cash flows and results of operations could be materially affected by the impact of changes associated with the ultimate resolution of this contingency. At March 31, 2012, the Company estimates that it is reasonably possible, but not probable, that future environmental remediation costs associated with the Company's past operations at the Coors Road property, in excess of amounts already recorded and net of DOE reimbursement, could be up to \$2.1 million before income taxes over the next approximately twenty years.

The Company and its subsidiaries are also involved in certain existing compliance issues with the EPA and various state agencies, including being named as a potentially responsible party at several sites. Potentially responsible parties (PRPs) can be held jointly and severally liable for the clean-up costs at any specific site. The Company's past experience, however, has indicated that when it has contributed relatively small amounts of materials or waste to a specific site relative to other PRPs, its ultimate share of any clean-up costs has been minor. Based upon available information, the Company believes it has contributed only small amounts to those sites in which it is currently viewed as a PRP.

**Cybernet** On October 6, 2011 the Company and Spencer Street Investments, Inc. (Spencer) reached an agreement with Chuck J. Jacobus, Heidi Jacobus and Cybernet Systems Corporation (Cybernet) to settle a lawsuit filed in the Washtenaw County Circuit Court (Case No. 10-378-CZ) by the Company and Spencer on April 7, 2010 against Mr. Jacobus, Ms. Jacobus and Cybernet, as well as the countersuit against the Company and Cary Wood. The complaint filed by Sparton and Spencer alleged minority oppression and breach of fiduciary duties by Cybernet, Charles Jacobus and Heidi Jacobus. Sparton and Spencer claimed that Cybernet's actions, as directed and implemented by the Jacobuses, frustrated the rights of the minority shareholders, including but not limited to failing to return any capital to the minority shareholders. In response to the complaint, Cybernet filed a counter-complaint against the Company and Cary Wood alleging that Cary Wood, as a member of Cybernet's board of directors, breached his duties to Cybernet. At the conclusion of facilitation, the parties agreed to a complete settlement. The settlement closed in November, 2011. Pursuant to the settlement, the parties agreed to release all claims against each other and Cybernet repurchased the shares of Cybernet common stock held by the Company for \$1.75 million.

**U.S. Government Audits** Federal government agencies, including the Defense Contract Audit Agency (DCAA) and the Defense Contract Management Agency (DCMA), routinely audit and investigate government contracts and government contractors' administrative processes and systems. These agencies review the Company's performance on contracts, pricing practices, cost structure and compliance with applicable laws, regulations and standards. They also review the adequacy of the Company's internal control systems and policies, including the Company's purchasing, accounting, estimating, compensation and management information processes and systems.

**Table of Contents**

The Company responded in November 2011 to DCAA review comments received in the first quarter of fiscal 2012 regarding corrective actions to improve the reliability for accumulating costs under government contracts. As a result, DCMA has determined our cost accounting system is currently adequate and the Company remains eligible to receive cost reimbursable contracts from the U.S. Government. While the Company's corrective actions remain open for further review, the Company remains confident formal resolution of DCAA cost accounting practices findings will not have a material adverse impact on the Company's financial results.

**Other** In addition to the foregoing, from time to time, the Company is involved in various legal proceedings relating to claims arising in the ordinary course of business. The Company is not currently a party to any other such legal proceedings, the adverse outcome to which, individually or in the aggregate, is expected to have a material adverse effect on our business, financial condition or results of operations.

**(11) Stock-Based Compensation**

The Company has two long-term incentive plans. The Sparton Corporation Stock Incentive Plan, as amended and restated (the 2001 Plan) was approved by the Company's shareholders on October 24, 2001. The Sparton Corporation 2010 Long-Term Incentive Plan (the 2010 Plan) was approved by the Company's shareholders on October 28, 2009.

**2001 Plan.** Under the 2001 Plan, the Company may grant to employees and non-employee directors incentive and non-qualified stock options, stock appreciation rights, restricted stock and other stock-based awards. All of the stock options issued to date under the 2001 Plan have either three, five or ten-year lives with either immediate vesting or vesting on an annual basis over four years beginning one year after grant date. Restricted stock awards granted to date to employees under the 2001 Plan vest annually over periods ranging from approximately 2.5 to 4.0 years, in some cases subject to achievement of certain financial performance metrics in addition to the service requirements. Unrestricted stock awards granted to date under the 2001 Plan represent annual stock grants to directors as a component of their overall compensation. The 2001 Plan's termination date with respect to the granting of new awards was October 24, 2011. The total number of shares authorized to be granted under the 2001 Plan was 970,161 shares of the Company's common stock, which equals the number of underlying awards previously made under the 2001 Plan.

**2010 Plan.** Under the 2010 Plan, the Company may grant to employees, officers and directors of the Company or its subsidiaries incentive and non-qualified stock options, stock appreciation rights, restricted stock or restricted stock units, performance awards and other stock-based awards, including grants of shares. Restricted stock awards granted to date to employees under the 2010 Plan vest annually over four years, subject to achievement of certain financial performance metrics in addition to the service requirements. Unrestricted stock awards granted to date under the 2010 Plan represent annual stock grants to directors as a component of their overall compensation. The 2010 Plan has a term of ten years. The total number of shares that may be awarded under the 2010 Plan is 1,000,000 shares of common stock, of which amount, 701,322 shares remain available for awards as of March 31, 2012.

The following table shows stock-based compensation expense by type of share-based award for the three and nine months ended March 31, 2012 and 2011 included in the condensed consolidated statements of operations (in thousands):

	For the Three Months Ended		For the Nine Months Ended	
	March 31, 2012	March 31, 2011	March 31, 2012	March 31, 2011
Fair value expense of stock option awards	\$	\$	\$	\$
Restricted and unrestricted stock	206	130	738	502
<b>Total stock-based compensation</b>	<b>\$ 206</b>	<b>\$ 130</b>	<b>\$ 738</b>	<b>\$ 502</b>

The following table shows the total remaining unrecognized compensation cost related to restricted stock grants and the fair value expense of stock option awards, as well as the weighted average remaining required service period over which such costs will be recognized as of March 31, 2012:

Total Remaining Unrecognized Compensation Cost (in thousands)	Weighted Average Remaining Required Service Period (in years)
---	---

Edgar Filing: SPARTON CORP - Form 10-Q

Fair value expense of stock option awards	\$		
Restricted stock		1,061	2.03
	\$	1,061	2.03

**Table of Contents**

The following is a summary of options outstanding and exercisable at March 31, 2012:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (in years)	Aggregate Intrinsic Value (in thousands)
Outstanding at June 30, 2011	220,341	\$ 6.79		
Granted				
Exercised	(22,241)	6.85		
Forfeited	(22,741)	8.42		
Expired				
Outstanding at March 31, 2012	175,359	\$ 6.57	1.73	\$ 532
Exercisable at March 31, 2012	175,359	\$ 6.57	1.73	\$ 532

The following is a summary of activity for the nine months ended March 31, 2012 related to shares granted under the Company's long-term incentive plans:

	Shares	Weighted Average Grant Date Fair Value
Restricted shares at June 30, 2011	243,827	\$ 5.09
Granted	160,641	7.87
Vested	(78,528)	5.82
Forfeited	(13,290)	5.00
Restricted shares at March 31, 2012	312,650	\$ 6.34

The total fair value of unrestricted stock granted and restricted stock vested in the nine months ended March 31, 2012 and 2011 was approximately \$0.6 million and \$0.1 million, respectively.

**(12) Earnings Per Share Data**

Basic earnings per share is based on the weighted average number of common shares and participating securities outstanding during the period. Diluted earnings per share include the dilutive effect of additional potential common shares issuable under our stock-based compensation plan and are determined using the treasury stock method. Unvested restricted stock awards, which contain non-forfeitable rights to dividends whether paid or unpaid, are included in the number of shares outstanding for both basic and diluted earnings per share calculations.

Earnings per share calculations, including weighted average number of shares of common stock outstanding used in calculating basic and diluted income per share, for the three and nine months ended March 31, 2012 and 2011 are as follows:

	For the Three Months Ended		For the Nine Months Ended	
	March 31, 2012	March 31, 2011	March 31, 2012	March 31, 2011
Net income (in thousands)	\$ 2,005	\$ 2,523	\$ 5,456	\$ 8,188
Weighted average shares outstanding				
Basic	10,055,459	10,223,928	10,204,444	10,211,187
Net effect of dilutive stock options	40,246	45,561	37,170	32,774

Edgar Filing: SPARTON CORP - Form 10-Q

Weighted average shares outstanding Diluted	10,095,705	10,269,489	10,241,614	10,243,961
Net income per share:				
Basic	\$ 0.20	\$ 0.25	\$ 0.53	\$ 0.80
Diluted	\$ 0.20	\$ 0.25	\$ 0.53	\$ 0.80

---

## **Table of Contents**

For each of the three and nine months ended March 31, 2012, 312,650 unvested restricted shares were included in determining both basic and diluted earnings per share. For each of the three and nine months ended March 31, 2011, 277,095 unvested restricted shares were included in determining both basic and diluted earnings per share. Potential shares of common stock excluded from diluted income per share computations because their inclusion would be anti-dilutive were 71,951 for the nine months ended March 31, 2012 and were 126,551 for both of the three and nine months ended March 31, 2011. No potential shares of common stock were excluded from diluted income per share computations for the three months ended March 31, 2012.

### **(13) Stock Repurchase Plan**

On August 24, 2011 the Company's Board of Directors approved a repurchase by the Company of up to \$3.0 million of shares of its common stock during the 24-month period beginning on the date of authorization. The Company was authorized to purchase shares from time to time in open market, block transactions and privately negotiated transactions at prices deemed appropriate by management, depending on market conditions, applicable laws and other factors. The stock repurchase program did not require the Company to repurchase any specific number of shares and could be discontinued at any time. Pursuant to this stock repurchase program, during the nine months ended March 31, 2012, the Company purchased 366,808 shares of its common stock at an average price of \$8.14 per share for approximately \$3.0 million. Shares purchased under the plan were cancelled upon repurchase. As of March 31, 2012, all authorized funds under the stock repurchase program have been expended.

### **(14) Restructuring Activities**

#### **Delphi Medical Contract Manufacturing Business Acquisition Related Restructuring**

During the first quarter of fiscal 2011, the Company took certain cost reduction actions (the 2011 Colorado Restructuring Plan) in relation to its acquisition of certain assets related to the contract manufacturing business of Delphi Medical Systems, LLC (Delphi Medical). These actions included a workforce reduction and the consolidation of the Frederick, Colorado manufacturing facilities from two to one. Inception to date restructuring/impairment charges recognized within the Medical segment of approximately \$0.1 million have been incurred as of March 31, 2012 related to these acquisition related restructuring activities. The Company does not expect to recognize any additional costs related to these activities. All cash expenditures related to the 2011 Colorado Restructuring Plan have been made as of March 31, 2012.

#### **Byers Peak Acquisition Related Restructuring**

In conjunction with the Byers Peak acquisition, the Company consolidated the Byers Peak operations into the Company's Frederick, Colorado facility. These restructuring activities consisted primarily of production moving costs. Inception to date restructuring/impairment charges recognized within the Medical segment of less than \$0.1 million have been incurred as of March 31, 2012 related to these acquisition related restructuring activities. The Company does not expect to recognize any additional costs related to these activities and all cash expenditures have been made as of March 31, 2012.

### **(15) Business Segments**

The Company is a provider of complex and sophisticated electromechanical devices with capabilities that include concept development, industrial design, design and manufacturing engineering, production, distribution, and field service. Reportable segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker, or group, in assessing performance and allocating resources. The Company operates through three reportable business segments; Medical Device (Medical), Complex Systems (CS) and Defense & Security Systems (DSS), which serves Defense, Security Systems, Navigation and Exploration industries. The electromechanical device end markets that Sparton, as a whole, serves are in Medical, Military & Aerospace and Industrial & Instrumentation.

---

**Table of Contents**

The Company uses an internal management reporting system, which provides important financial data to evaluate performance and allocate the Company's resources on a segment basis. Net sales are attributed to the segment in which the product is manufactured or service is performed. A segment's performance is evaluated based upon its operating income (loss). A segment's operating income (loss) includes its gross profit on sales less its selling and administrative expenses, including allocations of certain corporate operating expenses, but excludes some corporate and other unallocated items such as, interest expense, interest income, other income (expense) and income tax expense (benefit). Allocations of certain corporate operating expenses are allocated based on the nature of the service provided. Corporate and other unallocated costs primarily represent corporate administrative expenses related to those administrative, financial and human resource activities which are not allocated to operations and excluded from segment profit. These costs are not allocated to the segments, as management excludes such costs when assessing the performance of the segments. Inter-segment transactions are generally accounted for at amounts that approximate arm's length transactions. Identifiable assets by segments are those assets that are used in each segment's operations. The accounting policies for each of the segments are the same as for the Company taken as a whole.

**Medical Device ( Medical ) operations** are comprised of contract development, design, production and distribution of complex and sophisticated medical related electromechanical devices for customers with specialized needs, specifically in the design and manufacturing process, to assure product reliability and safety in accordance with Food and Drug Administration ( FDA ) guidelines and approvals. This group specializes in systems and procedures targeted to the requirements of medical OEM and ET customers primarily in the In Vitro Diagnostic and Therapeutic Device segments of the Medical Device market space.

**Complex Systems ( CS ) operations** provides complex electronics systems to multiple industries, offering end-to-end development and manufacturing solutions focused on high expectations of quality and delivery performance through an international footprint. As a vertically integrated business unit, this segment assists in providing its customers with seamless development of circuit card assemblies for integration into electro-mechanical solutions. By focusing on maximizing efficiency and cost containment at the various steps in the design, engineering, and manufacturing process, Complex Systems acts as an intelligent source and ideal partner for development firms and OEMs. This business unit is a supplier for low to medium volume/high complexity commercial and military aerospace applications, telecommunications, energy, and industrial controls. Its current portfolio of applications includes: flight controls, cockpit displays, fuel system controls, secure communications, early warning detection, diagnostics systems, security systems, detection systems, lighting, satellite communications, audio, nuclear detection, inventory control, and defense.

**Defense & Security Systems ( DSS ) operations** are comprised of design, development and production of products for a number of technologically significant programs aimed at fulfilling defense and commercial needs. Specializing in the development and production of complex electromechanical equipment, Sparton designs and manufactures sonobuoys, ASW devices used by the U.S. Navy and foreign governments. This business unit also performs an engineering development function for the United States military and prime defense contractors on advanced technologies targeted as future defense products as well as replacement of current systems. The sonobuoy product line is built to the customer's demanding specifications. These products are restricted by International Tariff and Arms Regulations ( ITAR ), which limits opportunities for foreign competition. Additionally, this business unit internally develops and markets commercial products based on its navigation and underwater acoustic knowledge and the intrinsic skill sets of its technical staff.

**Table of Contents**

Operating results and certain other financial information about the Company's three reportable segments for the three and nine months ended March 31, 2012 and 2011 and as of March 31, 2012 and June 30, 2011 were as follows (in thousands):

	For the Three Months Ended March 31, 2012					
	Medical	CS	DSS	Other Unallocated	Eliminations	Total
Sales	\$ 27,046	\$ 12,812	\$ 19,363	\$	\$ (4,173)	\$ 55,048

Total assets	\$ 51,251	\$ 24,642	\$ 7,872	\$ 38,844	\$	\$ 122,609

- (a) Operating income and gain on acquisition amounts for the nine months ended March 31, 2011 have been adjusted to reflect the Fiscal 2011 fourth quarter finalization of the gain on acquisition of certain assets of the contract manufacturing business of Delphi Medical.

---

**Table of Contents****(16) New Accounting Standards**

In December 2010, the Financial Accounting Standards Board (the FASB) issued Accounting Standards Update (ASU) No. 2010-29, Business Combinations (Topic 805): Disclosure of Supplementary Pro Forma Information for Business Combinations, which specifies that when a public company completes a business combination(s), the company should disclose revenue and earnings of the combined entity as though the business combination(s) occurred as of the beginning of the comparable prior annual reporting period. This standard also expands the supplemental pro forma disclosures under Topic 805 to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the pro forma revenue and earnings. The requirements in this standard are effective for business combinations that occur on or after the beginning of the first annual reporting period beginning on or after December 15, 2010. The Company will apply the provisions of ASU 2010-29 on a prospective basis. The adoption of this guidance is not expected to have a significant impact on the Company's consolidated financial statements.

In May 2011, the FASB issued ASU No. 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs, which is intended to improve comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. generally accepted accounting principles and International Financial Reporting Standards. This standard clarifies the application of existing fair value measurement requirements including (1) the application of the highest and best use valuation premise, (2) the methodology to measure the fair value of an instrument classified in a reporting entity's shareholders' equity, (3) disclosure requirements for quantitative information on Level 3 fair value measurements and (4) guidance on measuring the fair value of financial instruments managed within a portfolio. In addition, the standard requires additional disclosures of the sensitivity of fair value to changes in unobservable inputs for Level 3 securities. This standard is effective for interim and annual reporting periods beginning on or after December 15, 2011. The adoption of this guidance did not have a significant impact on the Company's consolidated financial statements.

In June 2011, the FASB issued ASU No. 2011-05, Presentation of Comprehensive Income (ASU No. 2011-05), which requires that comprehensive income be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. This standard no longer allows companies to present components of other comprehensive income only in the statement of equity. The standard also requires entities to disclose on the face of the financial statements reclassification adjustments for items that are reclassified from other comprehensive income to net earnings. In December 2011, the FASB issued ASU No. 2011-12, Deferral of the Effective Date for Amendments to the Presentation of Reclassification of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05, which defers indefinitely the ASU No. 2011-05 requirement that entities disclose on the face of the financial statements reclassification adjustments for items that are reclassified from other comprehensive income to net earnings. These standards are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. The adoption of this guidance is not expected to have a significant impact on the Company's consolidated financial statements other than the prescribed change in presentation.

In September 2011, the FASB issued ASU No. 2011-08, Testing Goodwill for Impairment, which amends existing guidance by giving an entity the option to first assess qualitative factors to determine whether it is more likely than not (that is, a likelihood of more than 50 percent) that the fair value of a reporting unit is less than its carrying amount. If this is the case, companies will need to perform a more detailed two-step goodwill impairment test which is used to identify potential goodwill impairments and to measure the amount of goodwill impairment losses to be recognized, if any. ASU No. 2011-08 will be effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011, with early adoption permitted. The adoption of this guidance is not expected to have a significant impact on the Company's consolidated financial statements.

**Table of Contents**

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.**

The following is management's discussion and analysis of certain significant events affecting Sparton Corporation (the Company or Sparton) results of operations and financial condition during the periods included in the accompanying financial statements. Additional information regarding the Company can be accessed via Sparton's website at [www.sparton.com](http://www.sparton.com). Information provided at the website includes, among other items, the Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Quarterly Earnings Releases, News Releases, and the Code of Business Conduct and Ethics, as well as various corporate charters and documents.

The Private Securities Litigation Reform Act of 1995 reflects Congress' determination that the disclosure of forward-looking information is desirable for investors and encourages such disclosure by providing a safe harbor for forward-looking statements by corporate management. This report on Form 10-Q contains forward-looking statements within the scope of the Securities Act of 1933 and the Securities Exchange Act of 1934. The words expects, anticipates, believes, intends, plans, will, shall, and similar expressions, and the negatives of such expressions, are intended to identify forward-looking statements. In addition, any statements which refer to expectations, projections or other characterizations of future events or circumstances are forward-looking statements. The Company undertakes no obligation to publicly disclose any revisions to these forward-looking statements to reflect events or circumstances occurring subsequent to filing this Form 10-Q with the Securities and Exchange Commission (SEC). These forward-looking statements are subject to risks and uncertainties, including, without limitation, those discussed below. Accordingly, Sparton's future results may differ materially from historical results or from those discussed or implied by these forward-looking statements. The Company notes that a variety of factors could cause the actual results and experience to differ materially from anticipated results or other expectations expressed in the Company's forward-looking statements.

**Business Overview**

**General**

Sparton is a provider of complex and sophisticated electromechanical devices with capabilities that include concept development, industrial design, design and manufacturing engineering, production, distribution, and field service. The Company operates through three reportable business segments; Medical Device (Medical), Complex Systems (CS) and Defense & Security Systems (DSS), which serves Defense, Security Systems, Navigation and Exploration industries. The electromechanical device end markets that Sparton, as a whole, serves are in Medical, Military & Aerospace and Industrial & Instrumentation.

All of the Company's facilities are registered to ISO standards, including 9001 or 13485, with most having additional certifications. The Company's products and services include products for Original Equipment Manufacturers (OEM) and Emerging Technology (ET) customers that are microprocessor-based systems that include transducers, printed circuit boards and assemblies, sensors, and electromechanical components, as well as development and design engineering services relating to these product sales. Sparton also develops and manufactures sonobuoys, anti-submarine warfare (ASW) devices used by the United States Navy and other free-world countries. Many of the physical and technical attributes in the production of sonobuoys are similar to those required in the production of the Company's other electrical and electromechanical products and assemblies.

The Company uses an internal management reporting system, which provides important financial data to evaluate performance and allocate the Company's resources on a market segment basis. Net sales for segments are attributed to the segment in which the product is manufactured or service is performed. A segment's performance is evaluated based upon its operating income (loss). A segment's operating income (loss) includes its gross profit on sales less its selling and administrative expenses, but excludes some corporate and other unallocated items such as, interest expense, interest income, other income (expense) and income tax expense (benefit). Corporate and other unallocated costs primarily represent corporate administrative expenses related to administrative, financial and human resource activities which are not allocated to the segments, as management excludes such costs when assessing the performance of the segments. Inter-segment transactions are generally accounted for at amounts that approximate arm's length transactions. The accounting policies for each of the segments are the same as for the Company taken as a whole.

## **Table of Contents**

### ***Medical Segment***

Medical operations are comprised of contract development, design, production and distribution of complex and sophisticated medical related electromechanical devices for customers with specialized needs, specifically in the design and manufacturing process, to assure product reliability and safety in accordance with Food and Drug Administration ( FDA ) guidelines and approvals. This group specializes in systems and procedures targeted to the requirements of medical OEM and ET customers primarily in the In Vitro Diagnostic and Therapeutic Device segments of the Medical Device market space.

### ***Complex Systems Segment***

Complex Systems operations provides complex electronics systems to multiple industries, offering end-to-end development and manufacturing solutions focused on high expectations of quality and delivery performance through an international footprint. As a vertically integrated business unit, this segment assists in providing its customers with seamless development of circuit card assemblies for integration into electro-mechanical solutions. By focusing on maximizing efficiency and cost containment at the various steps in the design, engineering, and manufacturing process, Complex Systems acts as an intelligent source and ideal partner for development firms and OEMs. This business unit is a supplier for low to medium volume/high complexity commercial and military aerospace applications, telecommunications, energy, and industrial controls. Its current portfolio of applications includes: flight controls, cockpit displays, fuel system controls, secure communications, early warning detection, diagnostics systems, security systems, detection systems, lighting, satellite communications, audio, nuclear detection, inventory control, and defense.

### ***DSS Segment***

DSS operations are comprised of design, development and production of products for a number of technologically significant programs aimed at fulfilling defense and commercial needs. Specializing in the development and production of complex electromechanical equipment, Sparton designs and manufactures sonobuoys, ASW devices used by the U.S. Navy and foreign governments. This business unit also performs an engineering development function for the United States military and prime defense contractors on advanced technologies targeted as future defense products as well as replacement of current systems. The sonobuoy product line is built to the customer's demanding specifications. These products are restricted by International Tariff and Arms Regulations ( ITAR ), which limits opportunities for foreign competition. Additionally, this business unit internally develops and markets commercial products based on its navigation and underwater acoustic knowledge and the intrinsic skill sets of its technical staff.

### ***Risks and Uncertainties***

Sparton, as a high-mix, low to medium volume supplier, provides rapid product turnaround for customers, often needing multiple product types with generally low to medium volume manufacturing runs. As a contract manufacturer with customers in a variety of markets, the Company has substantially less visibility of end user demand and, therefore, forecasting sales can be problematic. Customers may cancel their orders, change production quantities and/or reschedule production for a number of reasons. Depressed economic conditions may result in customers delaying delivery of product, or the placement of purchase orders for lower volumes than previously anticipated. Unplanned cancellations, reductions, or delays by customers may negatively impact the Company's results of operations. As many of the Company's costs and operating expenses are relatively fixed within given ranges of production, a reduction in customer demand can disproportionately affect the Company's gross margins and operating income. The majority of the Company's sales have historically come from a limited number of customers. Significant reductions in sales to, or a loss of, one of these customers could materially impact our operating results if the Company were not able to replace those sales with new business.

**Table of Contents**

Other risks and uncertainties that may affect our operations, performance, growth forecasts and business results include, but are not limited to, fluctuations in U.S. and/or world economies, sharp volatility of world financial markets over a short period of time, competition in the overall contract manufacturing business, availability of production labor and management services under terms acceptable to the Company, Congressional budget outlays for sonobuoy development and production, Federal government audits of government contracts, Congressional legislation, changes in the interpretation of environmental laws and the uncertainties of environmental remediation and customer labor and work strikes. Further risk factors are the availability and cost of materials, as well as non-cancelable purchase orders we have committed to in relation to customer forecasts that can be subject to change. A number of events can impact these risks and uncertainties, including potential escalating utility and other related costs due to natural disasters, as well as economic uncertainties such as developments surrounding monetary and fiscal policies in Europe and political uncertainties such as the unrest in Africa and the Middle East. The February 2011 earthquake, tsunami and resultant nuclear disaster in Japan had the potential to cause availability and pricing issues relating to certain materials used within the Company's products. The Company currently does not believe that the effects of these events will have a material impact on its business. Additional trends, risks and uncertainties that have arisen recently include risks surrounding the Company's recent acquisitions as well as uncertainties surrounding the global economy and U.S. healthcare legislation and the effects of those uncertainties on OEM behavior, including heightened inventory management, product development cycles and outsourcing strategies. Finally, the Sarbanes-Oxley Act of 2002, and more recently the Dodd-Frank Act have required or will require changes in, and formalization of, some of the Company's corporate governance and compliance practices. The SEC and the New York Stock Exchange have also passed or will pass related rules and regulations requiring additional compliance activities. Compliance with these rules has increased administrative costs and may increase these costs further in the future. A further discussion of the Company's risk factors has been included in Part I, Item 1A. Risk Factors, of the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2011. Management cautions readers not to place undue reliance on forward-looking statements, which are subject to influence by the enumerated risk factors as well as unanticipated future events.

**Consolidated Results of Operations**

The following discussion should be read in conjunction with the Unaudited Condensed Consolidated Financial Statements and Notes thereto included in Item 1 of this report.

**Summary**

The major elements affecting net income for the three and nine months ended March 31, 2012 as compared to the three and nine months ended March 31, 2011 were as follows (in millions):

	<b>For the Three Months Ended March 31,</b>	<b>For the Nine Months Ended March 31,</b>
Net income fiscal 2011	\$ 2.5	\$ 8.2
Increased gross profit on Medical programs	\$ 1.4	\$ 1.9
Increased (decreased) gross profit on CS programs	(0.4)	0.3
Increased gross profit on DSS programs	1.4	1.3
Increased selling and administrative expenses	(0.4)	(0.8)
Increased internal research and development expenses	(0.1)	(0.4)
Gain on acquisition		(2.6)
Gain on sale of property, plant and equipment, net	(0.1)	(0.1)
Income taxes	(1.0)	(2.8)
Other	0.1	0.5
<b>Net change</b>	<b>(0.5)</b>	<b>(2.7)</b>
Net income fiscal 2012	\$ 2.0	\$ 5.5

**Table of Contents**

The three and nine months ended March 31, 2012 were impacted by the following:

Increased gross profit on Medical programs due mainly to increased sales volume resulting from fiscal 2011 acquisitions and overall increased capacity utilization at the Company's Frederick, Colorado facility. Increases in gross profit on Medical programs were offset in the third quarter and partially offset in the first nine months by decreased capacity utilization at the Strongsville, Ohio facility.

Decreased gross profit on CS programs in the third quarter due to unfavorable product mix and, to a lesser extent, certain new program start-up costs in the current year quarter. Increased gross profit on CS programs in the first nine months due to improved capacity utilization at the Company's Vietnam facility in the current year period, partially offset by unfavorable product mix and, to a lesser extent, new program start-up costs in the current year period.

Increased gross profit on DSS programs due to increased sales volume partially offset by decreased digital compass sales and increased costs resulting from sonobuoy quality improvement activities in the current year quarter.

Increased selling and administrative expenses in the third quarter primarily reflecting increased information technology, travel and stock-based compensation expenses. Increased selling and administrative expenses in the first nine months primarily reflecting increased business development, travel and stock-based compensation expenses, partially offset by an unfavorable arbitration award in the prior year period.

Internal research and development expenses of approximately \$0.3 million and \$1.0 million in the three and nine months ended March 31, 2012, respectively, compared to approximately \$0.3 million and \$0.6 million in the comparable fiscal 2011 periods.

Fiscal 2011 \$2.6 million gain on acquisition of certain assets related to the contract manufacturing business of Delphi Medical.

Fiscal 2012 effective income tax rate of approximately 36% following the June 30, 2011 reinstatement of deferred tax assets. Presented below are more detailed comparative data and discussions regarding our consolidated results of operations for the three and nine months ended March 31, 2012 compared to the three and nine months ended March 31, 2011. Results of operations for any period less than one year are not necessarily indicative of results of operations that may be expected for a full year.

***For the Three Months Ended March 31, 2012 compared to the Three Months Ended March 31, 2011***

The following table presents selected consolidated statement of operations data for the three months ended March 31, 2012 and 2011 (in thousands):

	2012		2011	
	Total	% of Sales	Total	% of Sales
Net sales	\$ 55,048	100.0%	\$ 50,352	100.0%
Cost of goods sold	45,887	83.4	42,150	83.7
Gross profit	9,161	16.6	8,202	16.3
Selling and administrative expenses	5,509	10.0	5,143	10.2
Internal research and development expenses	347	0.6	282	0.6
Gain on sale of property, plant and equipment, net			(121)	(0.2)

Edgar Filing: SPARTON CORP - Form 10-Q

Other operating expense, net	135	0.2	219	0.4
Operating income	3,170	5.8	2,679	5.3
Total other expense, net	(37)	(0.1)	(41)	(0.1)
Income before provision for income taxes	3,133	5.7	2,638	5.2
Provision for income taxes	1,128	2.1	115	0.2
Net income	\$ 2,005	3.6%	\$ 2,523	5.0%

**Table of Contents**

The following table presents net sales for the three months ended March 31, 2012 and 2011 (in thousands):

SEGMENT	2012		2011		% Change
	Total	% of Total	Total	% of Total	
Medical	\$ 27,046	49%	\$ 25,377	50%	7%
CS	12,812	24	12,291	24	4
DSS	19,363	35	16,350	33	18
Eliminations	(4,173)	(8)	(3,666)	(7)	14
<b>Totals</b>	<b>\$ 55,048</b>	<b>100%</b>	<b>\$ 50,352</b>	<b>100%</b>	<b>9</b>

The following table presents gross profit and gross profit as a percent of net sales for the three months ended March 31, 2012 and 2011 (in thousands):

SEGMENT	2012		2011	
	Total	GP%	Total	GP%
Medical	\$ 3,593	13.3%	\$ 3,554	14.0%
CS	933	7.3	1,364	11.1
DSS	4,635	23.9	3,284	20.1
<b>Totals</b>	<b>\$ 9,161</b>	<b>16.6</b>	<b>\$ 8,202</b>	<b>16.3</b>

The following table presents operating income (loss) and operating income (loss) as a percent of net sales for the three months ended March 31, 2012 and 2011 (in thousands):

SEGMENT	2012		2011	
	Total	% of Sales	Total	% of Sales
Medical	\$ 2,035	7.5%	\$ 2,044	8.1%
CS	244	1.9	568	4.6
DSS	3,336	17.2	2,068	12.6
Other unallocated	(2,445)		(2,001)	
<b>Totals</b>	<b>\$ 3,170</b>	<b>5.8</b>	<b>\$ 2,679</b>	<b>5.3</b>

**Medical**

Medical sales increased approximately \$1.7 million in the three months ended March 31, 2012 as compared with the same quarter last year. Excluding the impact of \$4.8 million of decreased sales to Siemens Diagnostics due to its dual sourcing decision, and excluding \$1.8 million of fiscal 2011 third quarter pre-acquisition sales related to Byers Peak, Medical sales increased approximately \$4.7 million as compared with the same quarter last year. Medical sales are dependent on a small number of key strategic customers. Fenwal Blood Technologies, which became a customer with the Delphi Medical acquisition in August 2010, contributed 18% and 13% of consolidated company net sales during the three months ended March 31, 2012 and 2011, respectively. Siemens Diagnostics contributed 11% and 21% of consolidated company net sales during the three months ended March 31, 2012 and 2011, respectively. During the fourth quarter of fiscal 2011, Siemens notified the Company that it intends to dual source two of its larger programs with the Company beginning in fiscal 2012. Annual sales related to these programs aggregated \$27.8 million in fiscal 2011 and were \$10.5 million for the first nine months of fiscal 2012. The Company is forecasting fiscal 2012 revenues from the Siemens dual sourced programs to range from \$12 million to \$13 million. Medical backlog was approximately \$43.0 million at March 31, 2012. Commercial orders, in general, may be rescheduled or cancelled without significant penalty, and, as a result, may not be a meaningful measure of future sales. A majority of the March 31, 2012 Medical backlog is currently expected to be realized in the next 12 months.

## Edgar Filing: SPARTON CORP - Form 10-Q

Gross profit varies from period to period and can be affected by a number of factors, including product mix, production efficiencies, capacity utilization, and costs associated with new program introduction. The gross profit percentage on Medical sales remained relatively consistent at 13% for the three months ended March 31, 2012 compared to 14% for prior year quarter. This comparable margin on Medical sales reflects decreased capacity utilization at the Strongsville, Ohio facility and certain unfavorable product mix between the two periods, partially offset by increased capacity utilization at the Frederick, Colorado facility and cost management efforts at the Strongsville, Ohio facility.

Selling and administrative expenses relating to the Medical segment were \$1.4 million for each of the three months ended March 31, 2012 and 2011, respectively, reflecting cost savings from the consolidation of the Colorado facilities, offset by increased allocated corporate selling and administrative expenses in the current year quarter.

---

**Table of Contents**

**CS**

CS sales increased approximately \$0.5 million in the three months ended March 31, 2012 reflecting increased intercompany sales as compared with the same quarter last year. CS intercompany sales result primarily from the production of circuit boards that are then utilized in DSS product sales. These intercompany sales are eliminated in consolidation. Consistent sales to external customers as compared with the same quarter last year reflect \$1.0 million of increased sales to multiple new and existing customers, offset by \$1.0 million reduced demand for one customer's programs. CS backlog was approximately \$32.4 million at March 31, 2012. Commercial orders, in general, may be rescheduled or cancelled without significant penalty, and, as a result, may not be a meaningful measure of future sales. A majority of the March 31, 2012 CS backlog is currently expected to be realized in the next 12 months.

The gross profit percentage on CS sales decreased to 7% for the three months ended March 31, 2012 compared to 11% for the three months ended March 31, 2011. The quarter over quarter comparison primarily reflects unfavorable product mix and, to a lesser extent, certain new program start-up costs in the current year quarter.

Selling and administrative expenses relating to the CS segment were \$0.7 million for the three months ended March 31, 2012 compared to \$0.8 million for the three months ended March 31, 2011, primarily reflecting decreased allocated corporate selling and administrative expenses in the current year quarter.

**DSS**

DSS sales increased approximately \$3.0 million in the three months ended March 31, 2012 as compared with the same quarter last year, reflecting increased sonobuoy sales to foreign governments and, to a lesser extent, increased engineering sales revenue, partially offset by decreased U.S. Navy sonobuoy production and digital compass sales in the current year quarter. Total sales to the U.S. Navy in the three months ended March 31, 2012 and 2011 was approximately \$10.0 million and \$15.5 million, or 18% and 31%, respectively, of consolidated Company net sales for those periods. Sonobuoy sales to foreign governments were \$9.3 million and \$0.1 million in the three months ended March 31, 2012 and 2011, respectively. DSS backlog was approximately \$71.2 million at March 31, 2012. A majority of the March 31, 2012 DSS backlog is currently expected to be realized within the next 12 to 16 months.

The gross profit percentage on DSS sales for the three months ended March 31, 2012 was 24% compared to 20% for the three months ended March 31, 2011. Gross profit percentage was positively affected in the current year quarter by a significant increase in foreign sonobuoy sales, which typically carry higher margins, partially offset by the adverse impact from decreased digital compass sales, which also typically carry higher margins, and by increased costs resulting from sonobuoy quality improvement activities in the current year quarter.

Selling and administrative expenses relating to the DSS segment remained relatively consistent at \$1.0 million and \$0.9 million for the three months ended March 31, 2012 and 2011, respectively.

Internal research and development expenses reflect costs incurred for the internal development of technologies for use in navigation, oil and gas exploration and port security. These costs include salaries and related expenses, contract labor and consulting costs, materials and the cost of certain research and development specific equipment. The Company incurred \$0.3 million of internally funded research and development expenses in each of the three months ended March 31, 2012 and 2011, respectively.

**Table of Contents*****Other Unallocated***

Total corporate selling and administrative expenses were \$4.1 million and \$3.6 million for the three months ended March 31, 2012 and 2011, respectively, reflecting increased expenses related to information technology, travel and stock-based compensation. Of these costs, \$1.6 million and \$1.5 million, respectively, were allocated to segment operations in these periods. Allocations of corporate selling and administrative expenses are based on the nature of the service provided and can fluctuate from period to period.

Interest expense consists of interest and fees on our outstanding debt and revolving credit facility, including amortization of financing costs. Interest expense was \$0.2 million for each of the three months ended March 31, 2012 and 2011. See Note 6, Debt, of the Notes to Unaudited Condensed Consolidated Financial Statements in this Quarterly Report on Form 10-Q for a further discussion of debt.

The Company is responsible for income taxes within each jurisdiction in which it operates. The Company recorded an income tax expense of approximately \$1.1 million for the three months ended March 31, 2012 compared to an income tax expense of approximately \$0.1 million for the three months ended March 31, 2011. At June 30, 2011, the Company reinstated approximately \$11.7 million of deferred tax assets as the Company now believes it is more likely than not that it will be able to utilize these tax benefits in future periods. See Note 8, Income Taxes, of the Notes to Unaudited Condensed Consolidated Financial Statements in this Quarterly Report on Form 10-Q for a further discussion of income taxes.

Due to the factors described above, the Company reported net income of \$2.0 million (\$0.20 per share, basic and diluted) for the three months ended March 31, 2012, compared to net income of \$2.5 million (\$0.25 per share, basic and diluted) for the corresponding period last year.

***For the Nine Months Ended March 31, 2012 compared to the Nine Months Ended March 31, 2011***

The following table presents selected consolidated statement of operations data for the nine months ended March 31, 2012 and 2011 (in thousands):

	2012		2011	
	Total	% of Sales	Total	% of Sales
Net sales	\$ 162,251	100.0%	\$ 142,450	100.0%
Cost of goods sold	136,010	83.8	119,675	84.0
Gross profit	26,241	16.2	22,775	16.0
Selling and administrative expenses	16,455	10.1	15,666	11.0
Internal research and development expenses	963	0.6	564	0.4
Restructuring/impairment charges	(59)	(0.0)	77	0.1

**Medical**

Medical sales increased approximately \$12.5 million in the nine months ended March 31, 2012 as compared with the same period last year. Excluding the impact of \$8.5 million of decreased sales to Siemens Diagnostics due to its dual sourcing decision, and excluding \$10.1 million of fiscal 2011 pre-acquisition sales related to Delphi Medical and Byers Peak, Medical sales increased approximately \$10.9 million as compared with the same period last year. Included within this net sales increase was the \$3.6 million negative impact of one customer's disengagement during fiscal 2011. Medical sales are dependent on a small number of key strategic customers. Fenwal Blood Technologies, which became a customer with the Delphi Medical acquisition in August 2010, contributed 16% and 12% of consolidated company net sales during the nine months ended March 31, 2012 and 2011, respectively. Siemens Diagnostics contributed 11% and 19% of consolidated company net sales during the nine months ended March 31, 2012 and 2011, respectively. During the fourth quarter of fiscal 2011, Siemens notified the Company that it intends to dual source two of its larger programs with the Company beginning in fiscal 2012. Annual sales related to these programs aggregated \$27.8 million in fiscal 2011 and were \$10.5 million for the first nine months of fiscal 2012. The Company is forecasting fiscal 2012 revenues from the Siemens dual sourced programs to range from \$12 million to \$13 million.

The gross profit percentage on Medical sales remained consistent at 13% for each of the nine months ended March 31, 2012 and 2011, respectively. These comparable margins on Medical sales reflects increased capacity utilization at the Frederick, Colorado facility and cost management efforts at the Strongsville, Ohio facility, offset by decreased capacity utilization at the Strongsville, Ohio facility.

Selling and administrative expenses relating to the Medical segment remained consistent at \$4.5 million for each of the nine months ended March 31, 2012 and 2011, reflecting charges in the prior year period related to a \$0.4 million unfavorable arbitration award related to a dispute with a disengaging customer, offset by increased allocated corporate selling and administrative expenses and costs in the current year period relating to changes in operational leadership.

On August 6, 2010, the Company completed the acquisition of certain assets related to the contract manufacturing business of Delphi Medical. The Company determined that the fair value of the assets acquired and liabilities assumed related to this acquisition exceeded the total purchase consideration and as a result the Company recorded a gain on acquisition of \$2.6 million in the nine months ended March 31, 2011.

---

**Table of Contents**

**CS**

CS sales increased approximately \$2.8 million in the nine months ended March 31, 2012 as compared with the same period last year. The comparable sales reflect \$4.5 million of increased sales to multiple new and existing customers, offset by \$3.2 million reduced demand for two customers' programs. CS sales also include intercompany sales resulting primarily from the production of circuit boards that are then utilized in DSS product sales. Intercompany sales increased approximately \$1.5 million in the comparable nine month period. These intercompany sales are eliminated in consolidation.

The gross profit percentage on CS sales remained consistent at 9% for the nine months ended March 31, 2012 and 2011. The period over period comparison primarily reflects improved capacity utilization at the Company's Vietnam facility in the current year period, offset by unfavorable product mix and, to a lesser extent, new program start-up costs in the current year period.

Selling and administrative expenses relating to the CS segment were \$2.1 million for the nine months ended March 31, 2012 compared to \$2.5 million for the nine months ended March 31, 2011, primarily reflecting decreased allocated corporate selling and administrative expenses in the current year period.

**DSS**

DSS sales increased approximately \$6.0 million in the nine months ended March 31, 2012 as compared with the same period last year, reflecting increased sonobuoy sales to foreign governments and, to a lesser extent, increased engineering sales revenue, partially offset by decreased U.S. Navy sonobuoy production and digital compass sales in the current year period. Total sales to the U.S. Navy in the nine months ended March 31, 2012 and 2011 was approximately \$28.9 million and \$41.1 million, or 18% and 29%, respectively, of consolidated Company net sales for those periods. Sonobuoy sales to foreign governments were \$23.8 million and \$3.7 million in the nine months ended March 31, 2012 and 2011, respectively.

The gross profit percentage on DSS sales remained consistent at 22% for each of the nine months ended March 31, 2012 and 2011, respectively. Gross profit percentage was positively affected in the current year period by a significant increase in foreign sonobuoy sales, which typically carry higher margins, offset by the adverse impact from decreased digital compass sales, which also typically carry higher margins, and by increased costs resulting from sonobuoy quality improvement activities in the current year period.

Selling and administrative expenses relating to the DSS segment were \$2.9 million and \$2.5 million for the nine months ended March 31, 2012 and 2011, respectively, reflecting increased business development efforts in the current fiscal period.

Internal research and development expenses reflect costs incurred for the internal development of technologies for use in navigation, oil and gas exploration and port security. These costs include salaries and related expenses, contract labor and consulting costs, materials and the cost of certain research and development specific equipment. The Company incurred \$1.0 million and \$0.6 million of internally funded research and development expenses in the nine months ended March 31, 2012 and 2011, respectively.

***Other Unallocated***

Total corporate selling and administrative expenses were \$12.1 million and \$11.1 million for the nine months ended March 31, 2012 and 2011, respectively, reflecting increased expenses related to business development, travel and stock-based compensation. Of these costs, \$5.2 million and \$4.9 million, respectively, were allocated to segment operations in these periods. Allocations of corporate selling and administrative expenses are based on the nature of the service provided and can fluctuate from period to period.

Interest expense consists of interest and fees on our outstanding debt and revolving credit facility, including amortization of financing costs. Interest expense was \$0.5 million for each of the nine months ended March 31, 2012 and 2011. See Note 6, Debt, of the Notes to Unaudited Condensed Consolidated Financial Statements in this Quarterly Report on Form 10-Q for a further discussion of debt.

Other income (expense), net for the nine months ended March 31, 2012 includes a gain on sale of investment of \$0.1 million from the sale of the Company's interest in Cybernet Systems Corporation. See Commitments and Contingencies below for a further discussion of this sale.

## **Table of Contents**

The Company is responsible for income taxes within each jurisdiction in which it operates. The Company recorded an income tax expense of approximately \$3.0 million for the nine months ended March 31, 2012 compared to an income tax expense of approximately \$0.2 million for the nine months ended March 31, 2011. At June 30, 2011, the Company reinstated approximately \$11.7 million of deferred tax assets as the Company now believes it is more likely than not that it will be able to utilize these tax benefits in future periods. See Note 8, Income Taxes, of the Notes to Unaudited Condensed Consolidated Financial Statements in this Quarterly Report on Form 10-Q for a further discussion of income taxes.

Due to the factors described above, the Company reported net income of \$5.5 million (\$0.53 per share, basic and diluted) for the nine months ended March 31, 2012, compared to net income of \$8.2 million (\$0.80 per share, basic and diluted) for the corresponding period last year.

## **Liquidity and Capital Resources**

Certain of the Company's DSS contracts allow for billings to occur when certain milestones under the applicable program are reached, independent of the amount shipped by Sparton as of such date. These advance billings reduce the amount of cash that would otherwise be required during the performance of these contracts. As of March 31, 2012 and June 30, 2011, \$19.6 million and \$13.0 million, respectively, of billings in excess of costs were received. The Company's revolving line-of-credit facility expires on August 14, 2012. The Company currently expects to replace this facility with another credit facility upon its expiration. The Company currently expects to meet its liquidity needs through a combination of sources including, but not limited to, operations, existing cash balances, its revolving line-of-credit, anticipated continuation of advance billings on certain DSS contracts and improvement in working capital management. With the above sources providing the expected cash flows, the Company currently believes that it will have sufficient liquidity for its anticipated needs over the next 12 months, but no assurances regarding liquidity can be made.

Operating activities provided \$6.4 million and \$3.4 million of net cash flows in the nine months ended March 31, 2012 and 2011, respectively. Excluding changes in working capital, operating activities provided \$10.6 million and \$8.1 million in the first nine months of fiscal 2012 and 2011, respectively, reflecting the Company's relative operating performance during those periods. Working capital used \$4.2 million and \$4.7 million of net cash flows in the nine months ended March 31, 2012 and 2011, respectively. Working capital related cash flows in the first nine months of fiscal 2012 primarily reflect increased accounts receivable due to increased sonobuoy sales to foreign governments, increased prepaid expenses and other assets and reduced accounts payable and accrued liabilities, partially offset by the collection of advance billings related to U.S. Navy contracts during the nine month period in excess of the funding of production under those contracts. Working capital related cash flows in the first nine months of fiscal 2011 primarily reflect funding of production related to U.S. Navy contracts during the nine month period in excess of advance billings received, the initial working capital funding related to the acquired Frederick, Colorado facility as well as a funding of a pension contribution during the period.

Cash flows used in investing activities in the nine months ended March 31, 2012 and 2011 totaled \$1.4 million and \$7.8 million, respectively. The nine months ended March 31, 2012 reflects the Company's sale of its investment in Cybernet Systems Corporation for approximately \$1.8 million and receipt of its annual payment of approximately \$0.3 million in relation to the long-term lease of its Coors Road property. The nine months ended March 31, 2011 reflects the consideration paid of \$8.4 million for the acquisition of certain assets related to the contract manufacturing business of Delphi Medical. Fiscal 2011 also reflects the \$4.4 million net acquisition of certain assets and assumption of certain liabilities of Byers Peak. These two purchases were financed entirely through the use of Company cash. The nine months ended March 31, 2011 additionally reflects the \$3.2 million receipt of cash from the dissolution of a trust related to environmental remediation activities at one of Sparton's former facilities. For further discussion of this remediation activity, see Commitments and Contingencies below. Capital expenditures for the nine months ended March 31, 2012 and 2011 were approximately \$3.4 million and \$2.3 million, respectively. Included within the fiscal 2012 and fiscal 2011 capital expenditures is approximately \$1.2 million and \$0.4 million, respectively, of capital expenditures related to the expected implementation of a new enterprise resource planning system to be put into service in calendar 2012.

Cash flows used in financing activities in the nine months ended March 31, 2012 and 2011 totaled \$2.9 million and \$0.1 million, respectively. The primary use of cash in the first nine months of fiscal 2012 was the repurchase of \$3.0 million of the Company's common stock. See below for a further discussion of the Company's stock repurchase plan. Each of the nine months ended March 31, 2012 and 2011 reflect repayments on the Company's outstanding industrial revenue bonds with the state of Ohio of \$0.1 million. Additionally, the Company received \$0.2 million from the exercise of stock options during the first nine months of fiscal 2012.

---

**Table of Contents**

As of March 31, 2012, the Company's bank line-of-credit facility totaled \$20.0 million, subject to certain collateral restrictions, with no borrowings against the available funds. The Company did have certain letters of credit outstanding against this facility totaling \$0.5 million at March 31, 2012. This bank debt is subject to certain customary covenants which the Company was in compliance with at March 31, 2012. The maturity date for this line-of-credit is August 14, 2012. The Company currently expects to replace this facility with another credit facility upon its expiration. The Company also has approximately \$1.7 million of industrial revenue bonds outstanding at March 31, 2012. See Note 6, Debt, of the Notes to Unaudited Condensed Consolidated Financial Statements in this Quarterly Report on Form 10-Q for a further discussion of the Company's debt.

During fiscal 2011, the Company took certain cost reduction actions in relation to its acquisition of certain assets related to the contract manufacturing business of Delphi Medical. These actions included a workforce reduction and the consolidation of the Frederick, Colorado manufacturing facilities from two to one. All of these restructuring activities were completed as of December 31, 2011. In conjunction with the Byers Peak acquisition, the Company consolidated the Byers Peak operations into the Company's Frederick, Colorado facility. These restructuring activities consisted primarily of production moving costs. Restructuring/impairment charges recognized within the Medical segment of less than \$0.1 million have been incurred as of March 31, 2012 related to these acquisition related restructuring activities. The Company does not expect to recognize any additional costs related to these activities and all cash expenditures have been made as of March 31, 2012.

On August 24, 2011 the Company's Board of Directors approved a repurchase by the Company of up to \$3.0 million of shares of its common stock during the 24-month period beginning on the date of authorization. The Company was authorized to purchase shares from time to time in open market, block transactions and privately negotiated transactions at prices deemed appropriate by management, depending on market conditions, applicable laws and other factors. The stock repurchase program did not require the Company to repurchase any specific number of shares and could be discontinued at any time. Pursuant to this stock repurchase program, during the nine months ended March 31, 2012, the Company purchased 366,808 shares of its common stock at an average price of \$8.14 per share for approximately \$3.0 million. Shares purchased under the plan were cancelled upon repurchase. As of March 31, 2012, all authorized funds under the stock repurchase program have been expended.

**Commitments and Contingencies*****Environmental Remediation***

Sparton has been involved with ongoing environmental remediation since the early 1980's related to one of its former manufacturing facilities, located in Albuquerque, New Mexico (Coors Road). Although the Company entered into a long-term lease of the Coors Road property that was accounted for as a sale of property during fiscal 2010, it remains responsible for the remediation obligations related to its past operation of this facility. At March 31, 2012, Sparton had accrued approximately \$3.9 million as its estimate of the remaining minimum future undiscounted financial liability with respect to this matter, of which approximately \$0.3 million is classified as a current liability and included on the balance sheet in other accrued expenses. The Company's minimum cost estimate is based upon existing technology and excludes certain legal costs, which are expensed as incurred. The Company's estimate includes equipment and operating and maintenance costs for onsite and offsite pump and treat containment systems, as well as continued onsite and offsite monitoring. It also includes periodic reporting requirements.

On October 15, 2009, approximately \$3.1 million of cash was utilized to establish a trust, the Sparton Corporation Financial Assurance Trust, for remediation activity. The funds were held in Sparton's name and were invested with Sparton receiving the benefit of the investment return. As of June 30, 2010, approximately \$3.2 million was held in this trust and reflected as restricted cash on the consolidated balance sheet. These funds were available for use against the expected remediation liability. The trust was established to meet the United States Environmental Protection Agency's (EPA) financial assurance requirements for the fiscal year ended June 30, 2010, with trust funds to be drawn upon only should Sparton not continue to meet its financial remediation requirements. The trust was to remain in place until the Company could again satisfy the EPA financial assurance requirements through compliance with financial ratios, as was previously attained on an annual basis until fiscal year 2009. Based on the Company's financial results for fiscal year 2010, the Company was again in compliance with the financial ratios and dissolved the trust during October 2010.

## **Table of Contents**

In fiscal 2003, Sparton reached an agreement with the United States Department of Energy ( DOE ) and others to recover certain remediation costs. Under the settlement terms, Sparton received cash and obtained some degree of risk protection as the DOE agreed to reimburse Sparton for 37.5% of certain future environmental expenses in excess of \$8.4 million incurred from the date of settlement, if any, of which approximately \$3.9 million has been expended as of March 31, 2012 toward the \$8.4 million threshold. Uncertainties associated with environmental remediation contingencies are pervasive and often result in wide ranges of reasonably possible outcomes. Estimates developed in the early stages of remediation can vary significantly. Normally a finite estimate of cost does not become fixed and determinable at a specific point in time. Rather, the costs associated with environmental remediation become estimable over a continuum of events and activities that help to frame and define a liability. Factors which cause uncertainties for the Company include, but are not limited to, the effectiveness of the current work plans in achieving targeted results and proposals of regulatory agencies for desired methods and outcomes. It is possible that cash flows and results of operations could be materially affected by the impact of changes associated with the ultimate resolution of this contingency. At March 31, 2012, the Company estimates that it is reasonably possible, but not probable, that future environmental remediation costs associated with the Company's past operations at the Coors Road property, in excess of amounts already recorded and net of DOE reimbursement, could be up to \$2.1 million before income taxes over the next approximately twenty years.

The Company and its subsidiaries are also involved in certain existing compliance issues with the EPA and various state agencies, including being named as a potentially responsible party at several sites. Potentially responsible parties ( PRP s) can be held jointly and severally liable for the clean-up costs at any specific site. The Company's past experience, however, has indicated that when it has contributed relatively small amounts of materials or waste to a specific site relative to other PRPs, its ultimate share of any clean-up costs has been minor. Based upon available information, the Company believes it has contributed only small amounts to those sites in which it is currently viewed as a PRP.

### ***Cybernet***

On October 6, 2011 the Company and Spencer Street Investments, Inc. ( Spencer ) reached an agreement with Chuck J. Jacobus, Heidi Jacobus and Cybernet Systems Corporation ( Cybernet ) to settle a lawsuit filed in the Washtenaw County Circuit Court (Case No. 10-378-CZ) by the Company and Spencer on April 7, 2010 against Mr. Jacobus, Ms. Jacobus and Cybernet, as well as the countersuit against the Company and Cary Wood. The complaint filed by Sparton and Spencer alleged minority oppression and breach of fiduciary duties by Cybernet, Charles Jacobus and Heidi Jacobus. Sparton and Spencer claimed that Cybernet's actions, as directed and implemented by the Jacobuses, frustrated the rights of the minority shareholders, including but not limited to failing to return any capital to the minority shareholders. In response to the complaint, Cybernet filed a counter-complaint against the Company and Cary Wood alleging that Cary Wood, as a member of Cybernet's board of directors, breached his duties to Cybernet. At the conclusion of facilitation, the parties agreed to a complete settlement. The settlement closed in November, 2011. Pursuant to the settlement, the parties agreed to release all claims against each other and Cybernet repurchased the shares of Cybernet common stock held by the Company for \$1.75 million.

### ***U.S. Government Audits***

Federal government agencies, including the Defense Contract Audit Agency ( DCAA ) and the Defense Contract Management Agency ( DCMA ), routinely audit and investigate government contracts and government contractors' administrative processes and systems. These agencies review the Company's performance on contracts, pricing practices, cost structure and compliance with applicable laws, regulations and standards. They also review the adequacy of the Company's internal control systems and policies, including the Company's purchasing, accounting, estimating, compensation and management information processes and systems.

The Company responded in November 2011 to DCAA review comments received in the first quarter of fiscal 2012 regarding corrective actions to improve the reliability for accumulating costs under government contracts. As a result, DCMA has determined our cost accounting system is currently adequate and the Company remains eligible to receive cost reimbursable contracts from the U.S. Government. While the Company's corrective actions remain open for further review, the Company remains confident formal resolution of DCAA cost accounting practices findings will not have a material adverse impact on the Company's financial results.

### ***Other***

In addition to the foregoing, from time to time, the Company is involved in various legal proceedings relating to claims arising in the ordinary course of business. The Company is not currently a party to any other such legal proceedings, the adverse outcome to which, individually or in the aggregate, is expected to have a material adverse effect on our business, financial condition or results of operations.

## **Table of Contents**

### **Contractual Obligations and Off-Balance Sheet Arrangements**

Information regarding the Company's long-term debt obligations, environmental liability payments, operating lease payments, and other commitments is provided in Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, of the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2011. As of June 30, 2011, there were \$29.6 million of non-cancelable purchase orders outstanding. This amount decreased to \$27.7 million as of December 31, 2011 and has increased to \$29.9 million as of March 31, 2012. Other than as noted above, there have been no material changes in the nature or amount of the Company's contractual obligations since June 30, 2011.

### **Critical Accounting Policies**

Our financial statements are prepared in conformity with GAAP and require us to select appropriate accounting policies. The assumptions and judgments we use in applying our accounting policies have a significant impact on our reported amounts of assets, liabilities, revenue and expenses. While we believe that the assumptions and judgments used in our estimates are reasonable, actual results may differ from these estimates under different assumptions or conditions.

We have identified the most critical accounting policies upon which our financial status depends. The critical policies were determined by considering accounting policies that involve the most complex or subjective decisions or assessments. We also have other policies considered key accounting policies; however, these policies do not meet the definition of critical accounting policies because they do not generally require us to make estimates or judgments that are complex or subjective. Our critical accounting policies include the following:

Environmental contingencies

Government contract cost estimates

Commercial inventory valuation

Allowance for probable losses on receivables

Pension obligations

Business combinations

Valuation of property, plant and equipment

Goodwill and intangible assets

Income taxes

Stock-based compensation

There have been no significant changes to our critical accounting policies that are described in Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations section of our Annual Report on Form 10-K for the year ended June 30, 2011.

**New Accounting Pronouncements**

See Note 16, New Accounting Standards, of the Notes to Unaudited Condensed Consolidated Financial Statements in this Quarterly Report on Form 10-Q for a discussion of new accounting pronouncements.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk.**

The Company manufactures its products in the United States and Vietnam. Sales are to the U.S. as well as foreign markets. The Company is potentially subject to foreign currency exchange rate risk relating to intercompany activity and balances and to receipts from customers and payments to suppliers in foreign currencies. Also, adjustments related to the translation of the Company's Vietnamese financial statements into U.S. dollars are included in current earnings. As a result, the Company's financial results could be affected by factors such as changes in foreign currency exchange rates or economic conditions in the domestic and foreign markets in which the Company operates. However, minimal third party receivables and payables are denominated in foreign currency and the related market risk exposure is considered to be immaterial.

The Company's revolving credit line, if drawn upon, is subject to future interest rate fluctuations which could potentially have a negative impact on cash flows of the Company. The Company is not party to any currency exchange or interest rate protection agreements as of March 31, 2012.

**Table of Contents****Item 4. Controls and Procedures.**

Each of our Chief Executive Officer and Chief Financial Officer has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities and Exchange Act of 1934) as of the end of the period covered by this quarterly report. Based on such evaluation, such officers have concluded that, as of the end of the period covered by this quarterly report, our disclosure controls and procedures are effective.

There have been no changes in our internal controls over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended March 31, 2012 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

**PART II. OTHER INFORMATION****Item 1. Legal Proceedings.**

See Management's Discussion and Analysis of Financial Condition and Results of Operations, Commitments and Contingencies of this report.

In addition to the above, from time to time, we are involved in various legal proceedings relating to claims arising in the ordinary course of business. We are not currently a party to any such legal proceedings, the outcome of which, individually or in the aggregate, is expected to have a material adverse effect on our business, financial condition or results of operations.

**Item 1A. Risk Factors.**

You should carefully consider the risks and uncertainties described in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended June 30, 2011 and the other information in our subsequent filings with the SEC, including this Quarterly Report on Form 10-Q. Our business, financial condition, results of operations and stock price could be materially adversely affected by any of these risks. The risks described in our Annual Report on Form 10-K are not the only ones we face. Additional risks and uncertainties that are currently unknown to us or that we currently consider to be immaterial may also impair our business or adversely affect our financial condition, results of operations and stock price.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

The following table provides information about shares of common stock the Company acquired during the three months ended March 31, 2012:

**Issuer Purchases of Equity Securities**

	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs (a)	Maximum number (or approximate dollar value) of shares that may yet be purchased under the plans or programs (a)
January 1, 2012 to January 31, 2012	151,110	\$ 8.42	151,110	\$ 249,755
February 1, 2012 to February 29, 2012	28,903	\$ 8.61	28,903	\$
March 1, 2012 to March 31, 2012		\$		\$
Total	180,013	\$ 8.45	180,013	\$

(a)

## Edgar Filing: SPARTON CORP - Form 10-Q

On August 24, 2011 the Company's Board of Directors approved a repurchase by the Company of up to \$3.0 million of shares of its common stock during the 24-month period beginning on the date of authorization. The Company was authorized to purchase shares from time to time in open market, block transactions and privately negotiated transactions at prices deemed appropriate by management, depending on market conditions, applicable laws and other factors. The stock repurchase program did not require the Company to repurchase any specific number of shares and could be discontinued at any time. As of March 31, 2012, all authorized funds under the stock repurchase program have been expended.
