Additional U.S. Federal Income Tax Considerations:

The following discussion supplements, and should be read in conjunction with, the discussion in the prospectus supplement under the heading U.S. Federal Income Tax Considerations. Terms used in but not defined in this discussion have the meanings ascribed to them elsewhere in the prospectus supplement or in U.S. Federal Income Tax Considerations in the prospectus supplement, dated June 7, 2012.

The 2015 Senior Notes offered hereby will be issued pursuant to a qualified reopening of the 1.250% Senior Notes due 2015 that were issued on February 28, 2012 with an issue price of 99.789% (the Existing Notes). For U.S. federal income tax purposes, debt instruments issued in a qualified reopening are deemed to be part of the same issue as the original debt instruments. Under the treatment described in this paragraph, all of the 2015 Senior Notes offered hereby will be deemed to have the same issue date and the same issue price as the Existing Notes.

A portion of the price paid for the 2015 Senior Notes offered hereby will be allocable to unpaid stated interest that accrued prior to the date such 2015 Senior Notes are sold pursuant to this offering (the Pre-Issuance Accrued Stated Interest). The issuer intends to treat a portion of the first stated interest payment on the 2015 Senior Notes offered hereby in an amount equal to the Pre-Issuance Accrued

Stated Interest as a return of the Pre-Issuance Accrued Stated Interest and not as an amount payable on such 2015 Senior Notes. Amounts treated as a return of the Pre-Issuance Accrued Stated Interest should not be taxable to a U.S. Holder when received. Prospective investors should consult their own tax advisors regarding the Pre-Issuance Accrued Stated Interest.

It is expected that delivery of the Senior Notes will be made against payment therefor on or about June 14, 2012, which will be the 5th business day following the date of pricing of the Senior Notes (such settlement cycle being referred to herein as T+5). Under Rule 15c6-1 under the Securities Exchange Act of 1934, as amended, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the Senior Notes on the date of pricing or the following business day will be required, by virtue of the fact that the Senior Notes initially will settle in T+5, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of Senior Notes who wish to trade those Senior Notes on the date of pricing or the following business day should consult their own advisor.
