#### Forward-looking statements

This document includes forward-looking statements which include statements regarding our business strategy, financial condition, results of operations, and market data, as well as any other statements which are not historical facts. By their nature, forward-looking statements are subject to numerous factors, risks and uncertainties that could cause actual outcomes and results to be materially different from those projected. These factors, risks and uncertainties include the following: market demand and semiconductor industry conditions, our ability to successfully introduce new technologies and products, the demand for the goods into which our products are incorporated, our ability to generate sufficient cash, raise sufficient capital or refinance our debt at or before maturity to meet both our debt service and research and development and capital investment requirements, our ability to accurately estimate demand and match our production capacity accordingly or obtain supplies from third-party producers, our access to production from third-party outsourcing partners, and any events that might affect their business or our relationship with them, our ability to secure adequate and timely supply of equipment and materials from suppliers, our ability to avoid operational problems and product defects and, if such issues were to arise, to rectify them quickly, our ability to form strategic partnerships and joint ventures and successfully cooperate with our alliance partners, our ability to win competitive bid selection processes to develop products for use in our customers equipment and products, our ability to successfully establish a brand identity, our ability to successfully hire and retain key management and senior product architects; and, our ability to maintain good relationships with our suppliers. In addition, this document contains information concerning the semiconductor industry and our business segments generally, which is forward-looking in nature and is based on a variety of assumptions regarding the ways in which the semiconductor industry, our market segments and product areas will develop. We have based these assumptions on information currently available to us, if any one or more of these assumptions turn out to be incorrect, actual market results may differ from those predicted. While we do not know what impact any such differences may have on our business, if there are such differences, our future results of operations and financial condition, and the market price of the notes, could be materially adversely affected. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak to results only as of the date the statements were made; and, except for any ongoing obligation to disclose material information as required by the United States federal securities laws, we do not have any intention or obligation to publicly update or revise any forward-looking statements after we distribute this document, whether to reflect any future events or circumstances or otherwise. For a discussion of potential risks and uncertainties, please refer to the risk factors listed in our SEC filings. Copies of our filings are available from our Investor Relations department or from the SEC website, www.sec.gov.

#### Use of fair value measurements

In presenting the NXP Group s financial position, fair values are used for the measurement of various items in accordance with the applicable accounting standards. These fair values are based on market prices, where available, and are obtained from sources that we consider to be reliable. Users are cautioned that these values are subject to changes over time and are only valid as of the balance sheet date. When a readily determinable market value does not exist, we estimate fair values using valuation models which we believe are appropriate for their purpose. These require management to make significant assumptions with respect to future developments which are inherently uncertain and may therefore deviate from actual developments. In certain cases independent valuations are obtained to support management s determination of fair values.

## Use of non-U.S. GAAP information

In presenting and discussing the NXP Group s financial position, operating results and cash flows, management uses certain non-U.S. GAAP financial measures. These non-U.S. GAAP financial measures should not be viewed in isolation as alternatives to the equivalent U.S. GAAP measure(s) and should be used in conjunction with the most directly comparable U.S. GAAP measure(s).

#### The Company

Our legal name is NXP Semiconductors N.V. and our commercial name is NXP or NXP Semiconductors .

We are incorporated in the Netherlands as a Dutch public company with limited liability (naamloze vennootschap).

We are a holding company whose only material assets are the direct ownership of 100% of the share of NXP B.V., a Dutch private company with limited liability (*besloten vennootschap met beperkte aansprakelijkheid*), which provides leading High-Performance Mixed-Signal and Standard Products solutions that leverages application insight and technology and manufacturing expertise in radio frequency, analog, power management, interface, security and digital processing products. NXP s product solutions are used in a wide range of automotive, identification, wireless infrastructure, lighting, industrial, mobile, consumer and computing applications.

Our corporate seat is in Eindhoven, the Netherlands. Our principal executive office is at High Tech Campus 60, 5656 AG Eindhoven, the Netherlands, and our telephone number is +31 40 2729233. Our registered agent in the United States is NXP Semiconductors USA, Inc., 411 East Plumeria Drive, San Jose, CA 95134, United States of America, phone number +1 408 518 5500.

#### Management s Discussion and Analysis of Financial Condition and Results of Operations

The following information should be read together with the consolidated interim financial statements included elsewhere in this document. The following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in these forward-looking statements.

#### Introduction

**Business segments** 

The Company is organized into three reportable segments in compliance with Accounting Standards Codification (ASC) Topic 280 Segment Reporting . We have two market-oriented business segments, High Performance Mixed Signal (HPMS) and Standard Products (SP), and one other reportable segment, Manufacturing Operations. Corporate and Other represents the remaining portion to reconcile to the consolidated financial statements.

Our HPMS business segment delivers high performance mixed signal solutions to our customers to satisfy their system and sub systems needs across eight application areas: automotive, identification, mobile, consumer, computing, wireless infrastructure, lighting and industrial.

Our SP business segment offers standard products for use across many application markets, as well as application-specific standard products predominantly used in application areas such as mobile handsets, computing, consumer and automotive.

Our manufacturing operations are conducted through a combination of wholly owned manufacturing facilities, manufacturing facilities operated jointly with other semiconductor companies and third-party foundries and assembly and test subcontractors, which together form our Manufacturing Operations segment. While the main function of our Manufacturing Operations segment is to supply products to our HPMS and SP segments, revenue and costs in this segment are to a large extent derived from revenue of wafer foundry and packaging services to our divested businesses in order to support their separation and, on a limited basis, their ongoing operations. As these divested businesses develop or acquire their own foundry and packaging capabilities, our revenue from these sources is expected to decline.

Corporate and Other includes unallocated research expenses not related to any specific business segment, corporate restructuring charges not allocated to HPMS and SP and other expenses, as well as some operations not included in our two business segments, such as manufacturing, marketing and selling to divested businesses, and software solutions for mobile phones, the NXP Software business. Revenue recorded in Corporate and Other is primarily generated from the NXP Software business.

[-4]

#### **Results of Operations**

The following table presents the composition of operating income (loss).

Q2 2011	Q2 2012	YTD 2011	YTD 2012
1,121	1,094	2,203	2,072
0.2	(2.4)	0.0	(5.9)
523	538	1,029	962
(165)	(156)	(319)	(304)
(229)	(231)	(463)	(453)
4	5	(6)	6
133	156	241	211
	2011 1,121 0.2 523 (165) (229) 4	2011    2012      1,121    1,094      0.2    (2.4)      523    538      (165)    (156)      (229)    (231)      4    5	2011    2012    2011      1,121    1,094    2,203      0.2    (2.4)    0.0      523    538    1,029      (165)    (156)    (319)      (229)    (231)    (463)      4    5    (6)

#### Revenue

The following table presents revenue and revenue growth by segment for the three months and YTD ended July 1, 2012 and July 3, 2011. The growth percentages represent the nominal growth of revenue compared to the same period in the previous year.

(\$ in millions, unless otherwise stated)	Q2	Q2 2011 Q2 2012		YTI	0 2011	YTD 2012		
	Revenue	Growth %	Revenue	Growth %	Revenue	Growth %	Revenue	Growth %
HPMS	779	8.3	803	3.1	1,521	7.6	1,513	(0.5)
SP	246	18.8	219	(11.0)	483	19.0	421	(12.8)
Manufacturing Operations	83	(46.1)	62	(25.3)	175	(33.5)	119	(32.0)
Corporate and Other	13		10		24		19	
Total	1,121	0.2	1,094	(2.4)	2,203	0.0	2,072	(5.9)

The revenue discussion below is qualitative in nature as it pertains to price, volume and mix analyses. Traditional price, volume and mix analysis is not practicable due to the diversity of our product lines and the rapid evolution of technology, including the frequent integration of additional functionality on a single integrated circuit.

#### Q2 2012 compared to Q2 2011

Revenue was \$1,094 million in the second quarter of 2012, compared to \$1,121 in the second quarter of 2011, a nominal decline of 2.4%. The revenue of our HPMS segment increased by \$24 million or 3.1% compared to the second quarter of 2011. This increase in revenue was offset by a decline in our other market oriented segment, SP as well as in Manufacturing Operations and Corporate and Other.

In our HPMS segment the increase in revenue of \$24 million was primarily driven by the accelerated ramp up of our mobile transactions products within our emerging Identification business, increased volumes associated with our secure identity business and increased demand for our high speed interface products within our Portable and Computing end market. These increases were partially offset by price declines across most of our product lines as well as weaker demand for our High Performance RF products due to the slowdown of the replacement of 2G/3G cellular base stations with 4G cellular base stations by mobile operators. Revenue was also impacted by unfavorable foreign currency.

Our SP segment experienced lower revenue of \$27 million in the second quarter of 2012 compared to the second quarter of 2011 primarily as a result of pricing pressure for small signal diodes and power discretes and unfavorable foreign currency.

The decline in revenue from our Manufacturing Operations was primarily due to the expiration of contractual obligations to provide manufacturing services for previously divested businesses.

## Table of Contents

[-5]

#### YTD 2012 compared to YTD 2011

Revenue was \$2,072 million in the first six months of 2012 compared to \$2,203 million in the first six months of 2011. Revenue was lower across all our segments. Revenue of our combined market oriented segments, HPMS and SP, decreased by \$70 million or 3.5% compared to the first six months of 2011.

In our HPMS segment, revenue decreased \$8 million to \$1,513 million for the six months ended July 1, 2012 compared to the same prior year period. The decrease was primarily attributable to price declines across most of our product lines, unfavorable foreign currency as well as weaker demand for our High Performance RF products due to the slowdown of the replacement of 2G/3G cellular base stations with 4G cellular base stations by mobile operators and lower volumes associated with our microcontrollers business. These decreases were partially offset by the accelerated ramp up of our mobile transactions products within our emerging Identification business, increased demand for our secure identity business and increased volumes for our power and lighting solutions.

Our SP segment experienced lower revenue as a result of lower pricing and volume declines for small signal diodes, price reductions for power discretes and unfavorable foreign currency.

The decline in revenue from our Manufacturing Operations was primarily due to the expiration of contractual obligations to provide manufacturing services for previously divested businesses.

#### **Gross Profit**

The following table presents gross profit by segment for the three months and YTD ended July 1, 2012 and July 3, 2011.

	Gross	2011 % of segment	Gross	2012 % of segment	Gross	2011 % of segment	Gross	D 2012 % of segment
(\$ in millions, unless otherwise stated)	Profit	revenue	Profit	revenue	Profit	revenue	Profit	revenue
HPMS	433	55.6	465	57.9	855	56.2	829	54.8
SP	92	37.4	66	30.1	179	37.1	124	29.5
Manufacturing Operations	(15)	(18.1)	(3)	(4.8)	(29)	(16.6)	(10)	(8.4)
Corporate and Other	13	100.0	10	100.0	24	100.0	19	100.0
Total	523	46.7	538	49.2	1029	46.7	962	46.4

#### Q2 2012 compared to Q2 2011

Gross profit in the second quarter of 2012 increased \$15 million to \$538 million or 49.2% of revenue compared to \$523 million or 46.7% of revenue in the second quarter of 2011. The increase in gross profit was mainly attributable to volume increases, reversal of a partial accounts receivable valuation allowance of \$51 million as a result of collection of accounts receivable amounts following a legal award, partially offset by price declines, higher product costs associated with the flow through of underutilized capacity capitalized in prior periods, unfavorable foreign currency and increased royalty costs of \$9 million.

Factory utilization declined marginally in the second quarter of 2012 to 92% compared to 94% in the second quarter of 2011.

Gross profit as a percentage of our revenue was impacted by the dilutive effect of product sales at cost to divested businesses by our Manufacturing Operations for each period.

The PPA effect included in our gross profit in the second quarter of 2012 was \$9 million, compared to \$3 million in the second quarter of 2011. Also included in our gross profit were restructuring and other incidental items amounting to an expense of \$9 million in the second quarter of 2012 compared to expense of \$10 million in the second quarter of 2011.

[-6]

Gross profit in our HPMS segment was \$465 million in the second quarter of 2012, or 57.9% of revenue, compared to \$433 million, or 55.6% of revenue, in the second quarter of 2011. The increase in gross profit was mainly attributable to volume increases and reversal of a partial accounts receivable valuation allowance of \$51 million as a result of accounts receivable amounts following a legal award, partially offset by price declines, unfavorable foreign currency, higher product costs associated with the flow through of underutilized capacity capitalized in prior periods, increased royalty costs of \$8 million mainly for our Identification business and increased expenses for restructuring and incidental items of \$7 million.

Gross profit in our SP segment was \$66 million, or 30.1% of revenue, compared to \$92 million or 37.4% of revenue in the second quarter of 2011. The decline in gross profit in our SP segment was mainly due to higher product costs associated with the flow through of underutilized capacity capitalized in prior periods, lower pricing and unfavorable foreign currency.

#### YTD 2012 compared to YTD 2011

Gross profit in the first six months of 2012 amounted to \$962 million, or 46.4% of revenue, compared to \$1,029 million, or 46.7% of revenue, in the first six months of 2011. The decline in gross profit was mainly driven by price declines, higher product costs associated with the flow through of underutilized capacity capitalized in prior periods, unfavorable foreign currency and increased royalty costs of \$19 million. These declines were partially offset by volume increases and reversal of a partial accounts receivable valuation allowance of \$51 million as a result of collection of accounts receivable amounts following a legal award.

The PPA effect included in our gross profit in the first six months of 2012 was \$14 million, compared to \$6 million in the first six months of 2011. Also included in our gross profit were expenses for restructuring and other incidental items of \$13 million in the first six months of 2012 compared to expenses of \$18 million in the first six months of 2011.

Gross profit in our HPMS segment was \$829 million in the first six months of 2012, or 54.8% of revenue, compared to \$855 million, or 56.2% of revenue, in the first six months of 2011. The decrease in gross profit was driven by price reductions, higher product costs associated with the flow through of underutilized capacity capitalized in prior periods, unfavorable foreign currency, increased royalty costs of \$18 million mainly for our Identification business and increased expenses for restructuring and incidental items of \$7 million. These decreases were partially offset by volume increases and reversal of a partial accounts receivable valuation allowance of \$51 million as a result of collection of accounts receivable amounts following a legal award.

Gross profit in our SP segment was \$124 million, or 29.5% of revenue, compared to \$179 million or 37.1% of revenue in the first six months of 2011. The decline in gross profit in our SP segment was primarily due to higher product costs associated with the flow through of underutilized capacity capitalized in prior periods, price reductions, lower volumes, and unfavorable foreign currency.

[-7]

#### **Operating expenses**

The following table presents operating expenses by segment for the three months and YTD ended July 1, 2012 and July 3, 2011.

	Q2	Q2 2011		1 Q2 2012		YTD 2011		2012
		% of		% of		% of		% of
	Operating	segment	Operating	segment	Operating	segment	Operating	segment
(\$ in millions, unless otherwise stated)	expenses	revenue	expenses	revenue	expenses	revenue	expenses	revenue
HPMS	322	41.3	306	38.1	622	40.9	599	39.6
SP	49	19.9	50	22.8	99	20.5	99	23.5
Manufacturing Operations	5	6.0	4	6.5	10	5.7	8	6.7
Corporate and Other	18	138.5	27	270	51	212.5	51	268.4
Total	394	35.1	387	35.4	782	35.5	757	36.5

The following table below presents the composition of operating expenses by line item in the statement of operations.

(\$ in millions, unless otherwise stated)	Q2	Q2	YTD	YTD
	2011	2012	2011	2012
Research and development	(165)	(156)	(319)	(304)
Selling, general and administrative	(229)	(231)	(463)	(453)
Operating expenses	(394)	(387)	(782)	(757)

#### Q2 2012 compared to Q2 2011

Operating expenses in the second quarter of 2012 decreased \$7 million or 2%, to \$387 million from \$394 million in the second quarter of 2011. The lower operating expenses are due primarily to benefits from the impact of foreign currency and lower PPA effects of \$5 million due to the absence of amortization related to certain intellectual property sold in the current quarter partially offset by higher salary and benefit costs associated with our increased headcount of \$6 million and higher restructuring and incidental items of \$6 million.

HPMS operating expenses decreased \$16 million or 5% in the three months ended July 1, 2012 to \$306 million from \$322 million in the three months ended July 3, 2011. The reduction was a result of favorable foreign currency, lower research and development costs due to increased non-recurring engineering costs charged to customers of \$3 million, lower material costs of \$3 million and lower PPA effects of \$2 million partially offset by higher salary and benefit costs associated with increased headcount of \$5 million and higher restructuring and incidental items of \$2 million.

Operating expenses in our SP and Manufacturing and Operations segments in the current quarter were essentially flat compared to the prior year period.

#### YTD 2012 compared to YTD 2011

Operating expenses decreased \$25 million or 3%, to \$757 million in the first six months of 2012, from \$782 million in the first six months of 2011. The decrease is due to benefits from the impact of foreign currency and lower PPA effects of \$11 million partially offset by higher salary and benefit costs associated with our increased headcount of \$16 million and higher restructuring and incidental costs of \$3 million

Operating expenses in our HPMS segment were \$599 million in the first six months of 2012, a decrease of \$23 million or 4%, from \$622 million in the first six months of 2011. The reduction was a result of favorable foreign currency, lower research and development costs due to increased non-recurring engineering costs charged to customers of \$6 million, lower material costs of \$3 million and lower PPA effects of \$6 million partially offset by higher salary and benefit costs associated with increased headcount of \$13 million and higher restructuring and incidental

## Table of Contents

items of \$2 million.

[-8]

Operating expenses in our SP and Manufacturing and Operations segments declined slightly in the current quarter to \$107 million from \$109 million in the prior year period.

#### Other income (expense)

The following table presents other income (expense) for the three months and YTD ended July 1, 2012 and July 3, 2011.

(\$ in millions, unless otherwise stated)	Q2 2011	Q2 2012	YTD 2011	YTD 2012
Other income (expense)	4	5	(6)	6
Q2 2012 compared to Q2 2011				

The increase in other income for the three months ended July 1, 2012 was not material.

#### YTD 2012 compared to YTD 2011

Other income (expense) reflects income of \$6 million for the six months ended July 1, 2012 compared to \$6 million of expense for the six months ended July 3, 2011 primarily due to the absence of a \$13 million loss on the sale of assets in the current year period compared to the prior year period.

#### **Operating income (loss)**

The following table presents operating income (loss) by segment for the three months and YTD ended July 1, 2012 and July 3, 2011.

	Q2 2011		Q2 2012		YTD 2011			2012
(\$ in millions, unless otherwise stated)	Operating income (loss)	% of segment revenue						
HPMS	112	14.4	159	19.8	233	15.3	230	15.2
SP	47	19.1	18	8.2	82	17.0	27	6.4
Manufacturing Operations	(18)	(21.7)	(5)	(8.1)	(34)	(19.4)	(15)	(12.6)
Corporate and Other	(8)		(16)		(40)		(31)	
Total	133	11.9	156	14.3	241	10.9	211	10.2

The table below depicts the PPA effects for the three months and YTD ended July 1, 2012 and July 3, 2011 by line item in the statement of operations.

(\$ in millions, unless otherwise stated)	Q2 2011	Q2 2012	YTD 2011	YTD 2012
Gross profit	(3)	(9)	(6)	(14)
Selling, general and administrative	(69)	(64)	(139)	(128)
Operating income (loss)	(72)	(73)	(145)	(142)

## Edgar Filing: NXP Semiconductors N.V. - Form 6-K

PPA effects reflect the amortization in the period related to fair value adjustments resulting from acquisition accounting and other acquisition adjustments charged to the income statement applied to the formation of NXP on September 29, 2006 and all subsequent acquisitions. The PPA effect on the Company s gross profit refers to additional depreciation charges on tangible fixed assets, resulting from the step-up in fair values. The amortization charges related to long-lived intangible assets are reflected in general and administrative expenses.

The table below summarizes the PPA effects for the three months and YTD ended July 1, 2012 and July 3, 2011 on operating income (loss) by segment.

(\$ in millions, unless otherwise stated)	Q2 2011	Q2 2012	YTD 2011	YTD 2012
HPMS	(50)	(54)	(102)	(104)
SP	(15)	(13)	(29)	(26)
Manufacturing Operations	(7)	(6)	(14)	(12)
Corporate and Other				
Total	(72)	(73)	(145)	(142)

#### Net income (loss)

The following table presents the composition of net income.

(\$ in millions, unless otherwise stated)	Q2 2011	Q2 2012	YTD 2011	YTD 2012
Operating income (loss)	133	156	241	211
Financial income (expense)	(19)	(178)	82	(251)
Benefit (provision) for income taxes		(7)	1	(2)
Result equity-accounted investees	(15)	(45)	(37)	(44)
Discontinued operations	(2)		11	1
Net income (loss)	97	(74)	298	(85)

The following table presents the details of financial income and expenses.

#### Financial income (expense)

(\$ in millions, unless otherwise stated)	Q2 2011	Q2 2012	YTD 2011	YTD 2012
Interest income	1	1	2	2
Interest expense	(80)	(71)	(162)	(148)
Foreign exchange results	85	(104)	275	(51)
Extinguishment of debt	(14)		(14)	(36)
Other	(11)	(4)	(19)	(18)
Total	(19)	(178)	82	(251)

#### Q2 2012 compared to Q2 2011

Financial income and expense was an expense of \$178 million in the second quarter of 2012, compared to an expense of \$19 million in the second quarter of 2011. Unfavorable foreign exchange results of \$104 million in the second quarter of 2012 included a loss of \$113 million, resulting from a change in foreign exchange rates mainly applicable to the re-measurement of our U.S. dollar denominated debt, which reside in a EURO functional currency entity, compared to a gain of \$85 million in the second quarter of 2011. The decline in net interest expense was

## Edgar Filing: NXP Semiconductors N.V. - Form 6-K

mainly related to lower average debt outstanding in the second quarter of 2012 compared to the second quarter of 2011. The second quarter of 2011 included a loss of \$14 million resulting from the buy-back.

#### YTD 2012 compared to YTD 2011

Financial income and expense was an expense of \$251 million in the first six months of 2012, compared to a gain of \$82 million in the first six months of 2011. Unfavorable foreign exchange results of \$51 million in the first six months of 2012 included a loss of \$65 million, resulting from a change in foreign exchange rates mainly applicable to the re-measurement of our U.S. dollar denominated debt, which reside in a EURO functional currency entity, compared to a gain of \$275 million in the first six months of 2011. Debt extinguishment costs also increased in the first six months of 2012 compared to the same period in 2011. The increased expenses were partially offset by the decline in net expense which was mainly related to lower average debt outstanding in the six months ended July 1, 2012 compared to the same period in the prior year.

#### Benefit (provision) for income taxes

#### Q2 2012 compared to Q2 2011

The effective income tax rates for the three months ended July 1, 2012 and July 3, 2011 were (31.8)% and zero, respectively. The effective tax rate for the three months ended July 1, 2012 differed from the statutory rate in the Netherlands primarily due to losses recorded in jurisdictions for which a tax benefit is not recognized due to a full valuation allowance against the related deferred tax assets. The effective tax rate for the three months ended July 3, 2011 differed from the Netherlands statutory rate primarily due to profits recorded in jurisdictions with a full valuation allowance.

#### YTD 2012 compared to YTD 2011

The effective income tax rates for the six months ended July 1, 2012 and July 3, 2011 were (5.0)% and (0.3)%, respectively. The effective tax rate for the six months ended July 1, 2012 differed from the statutory rate in the Netherlands primarily due to losses recorded in jurisdictions for which a tax benefit is not recognized due to a full valuation allowance against the related deferred tax assets, partially offset by an extension of a tax holiday in one of our jurisdictions. The effective tax rate for the six months ended July 3, 2011 differed from the Netherlands statutory rate primarily due to profits recorded in jurisdictions with a full valuation allowance.

#### **Results relating to equity-accounted investees**

#### Q2 2012 compared to Q2 2011

Results relating to the equity-accounted investees amounted to a loss of \$45 million in the second quarter of 2012, compared to a loss of \$15 million in the second quarter of 2011. The loss in 2012 primarily reflects extra provisions to the amount of \$46 million for litigations, claims and proceedings. In 2011 the loss was mainly related to our investment in Trident.

#### YTD 2012 compared to YTD 2011

Results relating to the equity-accounted investees amounted to a loss of \$44 million in the first six months of 2012, compared to a loss of \$37 million in the first six months of 2011. The loss in 2012 primarily reflects extra provisions to the amount of \$46 million for litigations, claims and proceedings. In 2011 the loss was mainly related to our investment in Trident.

#### Income (loss) on discontinued operations

#### Q2 2012 compared to Q2 2011

There was no income on discontinued operations in the second quarter of 2012, compared to a loss of \$2 million in the second quarter of 2011. The result in the second quarter of 2011 related entirely to the results of our Sound Solutions business, which was sold during 2011.

#### YTD 2012 compared to YTD 2011

The income on discontinued operations, net of taxes was \$1 million in the first six months of 2012 compared to \$11 million in the first six months of 2011. This related entirely to the results of our Sound Solutions business, which was sold during 2011.

#### Non-controlling interests

#### Q2 2012 compared to Q2 2011

Non-controlling interests are related to the third party share in the results of consolidated companies, predominantly, SSMC. The share of non-controlling interest amounted to a profit of \$16 million in the second quarter of 2012, compared to a profit of \$13 million in the second quarter of 2011.

#### YTD 2012 compared to YTD 2011

Non-controlling interests are related to the third party share in the results of consolidated companies, predominantly, SSMC. The share of non-controlling interest amounted to a profit of \$29 million in the first six months of 2012, compared to a profit of \$27 million in the first six months of 2011.

#### Employees

The following tables provide an overview of the number of full-time employees by segment and geographic area at July 1, 2012 and December 31, 2011.

(number of full-time employees)	December 31, 2011	July 1, 2012
HPMS	3,037	3,211
SP	1,745	1,785
Manufacturing Operations	14,860	16,353
Corporate and Other	4,018	4,039
Total	23,660	25,388

(number of full-time employees)	December 31, 2011	July 1, 2012
Europe and Africa	6,932	7,114
Americas	532	532
Greater China	6,805	7,438
Asia Pacific	9,391	10,304
Total	23,660	25,388

#### Liquidity and Capital Resources

At the end of the second quarter of 2012, our cash balance was \$837 million. Taking into account the undrawn amount of the Secured Revolving Credit Facility, we had access to \$1,146 million of liquidity as of July 1, 2012. Since December 31, 2011 our cash balance increased by \$94 million.

Capital expenditures increased in the second quarter of 2012 compared to the second quarter of 2011 from \$71 million to \$74 million.

Our July 1, 2012 cash balance included \$192 million held by SSMC, our joint venture company with TSMC. A portion of this cash can be distributed by way of a dividend but 38.8% of the dividend will be paid to our joint venture partner. In the second quarter of 2012 a dividend of \$100 million was distributed by SSMC.

Since December 2011, our total debt has increased from \$3,799 million to \$3,819 million as of July 1, 2012. Short term debt as of the second quarter of 2012 was \$52 million in line with December 2011. It mainly consists of a local bank borrowing by our Chinese subsidiary.

#### **Cash Flow from Operating Activities**

Net cash provided by operating activities was \$366 million and \$78 million for the six months ended July 1, 2012 and July 3, 2011, respectively. The improvement is primarily attributable to lower cash outflows related accounts payable and accrued liabilities and the receipt of \$59 million in 2012 following a legal award.

#### **Cash Flow from Investing Activities**

Net cash used for investing activities was \$127 million in the first six months of 2012 compared to \$125 million in the first six months of 2011. The investing activities in the first six months of 2012 mainly relate to capital expenditures of \$113 million and the purchase of intangible assets for \$14 million. Net cash used for investing activities in the first half of 2011 primarily included gross capital expenditure of \$135 million offset by proceeds of \$13 million from disposals of property, plant and equipment.

#### **Cash Flow from Financing Activities**

Net cash used for financing activities in the first half of 2012 was \$107 million compared to \$31 million in the first half of 2011. Cash flows related to financing transactions in the first half of 2012 and first half of 2011 are primarily related to the financing activities described below under the captions 2012 Financing Activities and 2011 Financing Activities, respectively. In addition to the financing activities described below, net cash used for financing activities in the first half of 2012 includes the use of \$39 million for dividends paid to non-controlling interests and \$37 million used for the purchase of treasury shares. The 2011 period reflects the use of \$67 million to pay dividends to non-controlling interests.

#### **YTD 2012 Financing Activities**

#### 2019 Term Loan

On March 19, 2012, our subsidiary, NXP B.V. together with NXP Funding LLC entered into a new \$475 million aggregate principal amount Senior Secured Term Loan Facility due April 3, 2019. The Term Loan was issued with an original issue discount at 98.5% of par and was recorded at its fair value of \$468 million on the accompanying Interim Consolidated Balance Sheet. The net proceeds of this issuance, together with a \$330 million draw-down under our existing Revolving Credit Facility and approximately \$52 million of cash on hand, were used to redeem \$510 million of the U.S. dollar-denominated 9 1/2% Senior Notes due October 2015, 203 million of the euro-denominated 8 5/8% Senior Notes due October 2015, and pay related call premiums of \$36 million and accrued interest of \$31 million.

#### 2017 Revolving Credit Facility

On April 27, 2012, NXP concluded a new Senior Secured Revolving Credit Agreement ( RCA ) under which it borrowed \$330 million to settle and close its existing Revolving Credit Facility.

#### **YTD 2011 Financing Activities**

#### 2017 Term Loan

On March 4, 2011, our subsidiary, NXP B.V. together with NXP Funding LLC entered into a \$500 million aggregate principal amount Senior Secured Term Loan Facility due April 3, 2017, which was drawn in the second quarter of 2011, on April 5, 2011. The Term Loan was issued with an original issue discount at 99.5% of par and was recorded at its fair value of \$497 million on the accompanying Interim Consolidated Balance Sheet. The net proceeds of this issuance, together with available borrowing capacity under the Secured Revolving Credit Facility of \$200 million, were used to redeem all \$362 million of outstanding 2014 Dollar Fixed Rate Notes, \$100 million of 2013 Dollar Floating Rate Secured Notes as well as pay related call premiums of \$14 million and accrued interest of \$16 million.

#### **Cash Flow from Discontinued Operations**

Net cash used for discontinued operations in the first half of 2012 was \$45 million reflecting a payment of \$45 million to Dover Corporation related to outstanding commitments on the sale of the Sound Solution business. In 2011 net cash used for discontinued operations was \$2 million.

#### **Contractual Obligations**

Other than the \$475 million 2019 Term Loan entered into in Q1 2012, no material changes in our contractual obligations occurred since December 31, 2011.

#### **Off-balance Sheet Arrangements**

At the end of the second quarter of 2012, we had no off-balance sheet arrangements other than operating leases and other commitments resulting from normal business operations.

#### Subsequent Events

On July 27, 2012 NXP repaid \$ 200 million of the \$330 million which it borrowed under the RCA.

Eindhoven, August 21, 2012
