**CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS**

This prospectus supplement, the accompanying prospectus and the information incorporated by reference herein and therein contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and which are subject to certain risks, trends and uncertainties. In particular, statements made in this prospectus supplement, the accompanying prospectus and the information incorporated by reference herein and therein that are not historical facts (including, but not limited to, expectations, estimates, assumptions and projections regarding the industry, business, future operating results, potential acquisitions and anticipated cash requirements) may be forward-looking statements. Words such as should, may, will, anticipates, expects, intends, plans, believes, seeks, estimates and expressions identify forward-looking statements. Such statements, including statements regarding our future growth; anticipated cost savings, revenue increases and capital expenditures; dividend declarations and payments; strategic initiatives, greenfields and acquisitions; our competitive position and retention of customers; and our continued investment in information technology, are not guarantees of future performance and are subject to risks and uncertainties that could cause actual results to differ materially from the results projected, expressed or implied by these forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed in the section entitled Risk Factors beginning on page S-11 of this prospectus supplement and in our annual report on Form 10-K for the year ended December 31, 2012, which is incorporated by reference in this prospectus supplement. Some of these factors include:

fluctuations in consumer demand for and in the supply of used, leased and salvage vehicles and the resulting impact on auction sales volumes, conversion rates and loan transaction volumes;

trends in new and used vehicle sales and incentives, including wholesale used vehicle pricing;

the ability of consumers to lease or finance the purchase of new and/or used vehicles;

the ability to recover or collect from delinquent or bankrupt customers;

economic conditions including fuel prices, foreign exchange rates and interest rate fluctuations;

trends in the vehicle remarketing industry;

trends in the number of commercial vehicles being brought to auction, in particular off-lease volumes;

changes in the volume of vehicle production, including capacity reductions at the major original equipment manufacturers;

increases in the number of used vehicles purchased on virtual auction platforms;

the introduction of new competitors;

laws, regulations and industry standards, including changes in regulations governing the sale of used vehicles, the processing of salvage vehicles and commercial lending activities;

## Edgar Filing: KAR Auction Services, Inc. - Form 424B3

changes in the market value of vehicles auctioned, including changes in the actual cash value of salvage vehicles;

competitive pricing pressures;

costs associated with the acquisition of businesses or technologies;

litigation developments;

our ability to successfully implement our business strategies or realize expected cost savings and revenue enhancements;

our ability to maintain our brand and protect our intellectual property;

our ability to develop and implement information systems responsive to customer needs;

business development activities, including acquisitions and integration of acquired businesses;

the costs of environmental compliance and/or the imposition of liabilities under environmental laws and regulations;

weather, including increased expenses as a result of catastrophic events;

general business conditions;

our substantial amount of debt;

restrictive covenants in our debt agreements;

our assumption of the settlement risk for vehicles sold;

any impairment to our goodwill or other intangible assets;

our self-insurance for certain risks;

any losses of key personnel;

interruptions to service from our workforce;

changes in effective tax rates;

changes to accounting standards; and

other risks described from time to time in our filings with the SEC.

Many of these risk factors are outside of our control, and as such, they involve risks which are not currently known that could cause actual results to differ materially from those discussed or implied herein. The forward-looking statements in this prospectus supplement are made as of the date on which they are made and we do not undertake to update our forward-looking statements.

Our future growth depends on a variety of factors, including our ability to increase vehicle sold volumes and loan transaction volumes, expand our product and service offerings, including information systems development, acquire and integrate additional business entities, manage expansion, control costs in our operations, introduce fee increases, and retain our executive officers and key employees. We cannot predict whether our growth strategy will be successful. In addition, we cannot predict what portion of overall sales will be conducted through online auctions or other remarketing methods in the future and what impact this may have on our auction business.

**Our Company**

We are a leading provider of vehicle auction services in North America. We facilitate an efficient marketplace by providing auction services for sellers of used, or "whole car," vehicles and salvage vehicles through our 230 physical auction locations as of June 30, 2013, and multiple proprietary Internet venues. In 2012, we facilitated the sale of over 3.3 million used and salvage vehicles. Our revenues are generated through auction fees from both vehicle buyers and sellers, as well as by providing value-added ancillary services, including transportation, reconditioning, inspections, marshalling, titling and floorplan financing. We facilitate the transfer of ownership directly from seller to buyer and generally we do not take title to or ownership of vehicles sold at our auctions. For the six months ended June 30, 2013, our revenues totaled \$1,099.0 million, and our Adjusted EBITDA was \$276.4 million. For the six months ended June 30, 2012, our net income was \$62.5 million. For the year ended December 31, 2012, our revenues totaled \$1,963 million, and our Adjusted EBITDA was \$500.2 million. For the year ended December 31, 2011, our net income was \$92.0 million. For a reconciliation of net income (loss) to Adjusted EBITDA, which is a non-GAAP financial measure, see "Summary Consolidated Financial Data."

ADESA, our whole car auction services business, is the second largest provider of used vehicle auction services in North America. Vehicles at ADESA's auctions are typically sold by commercial fleet operators, financial institutions, rental car companies, used vehicle dealers and vehicle manufacturers and their captive finance companies to franchised and independent used vehicle dealers. In 2011, we acquired OPENLANE, the premier upstream online platform focused on private label auction sales for automobile original equipment manufacturers, or OEMs, and their captive finance companies. Through its OPENLANE technology, ADESA provides a comprehensive remarketing solution to automobile manufacturers, captive finance companies, lease and daily rental car companies, financial institutions and wholesale automobile auctions. IAA, our salvage auction services business, is one of the two largest providers of salvage auction services in North America. Vehicles at our salvage auctions are typically damaged or low-value vehicles that are predominantly sold by automobile insurance companies, non-profit organizations, automobile dealers, vehicle leasing companies and rental car companies to licensed dismantlers, rebuilders, scrap dealers or qualified public buyers. An important component of ADESA's and IAA's services to their buyers is providing short-term inventory-secured financing, known as floorplan financing, primarily to independent used vehicle dealers through our wholly-owned subsidiary AFC.

As of June 30, 2013, we had a network of 67 whole car auction locations and 163 salvage auction locations. Our auction locations are primarily standalone facilities dedicated to either whole car or salvage auctions; however, some of our sites are utilized to service both whole car and salvage customers at the same location. We believe our extensive geographic network and diverse product offerings enable us to leverage relationships with North American providers and buyers of used and salvage vehicles.

## **Table of Contents**

### **Our Industry**

Auctions are the hub of the remarketing system for used and salvage vehicles, bringing professional sellers and buyers together and creating a marketplace for the sale of these vehicles. Whole car auction vehicles include vehicles from dealers turning their inventory, off-lease vehicles, vehicles repossessed by financial institutions and rental and other program fleet vehicles that have reached a predetermined age or mileage. The salvage vehicle auction industry provides a venue for sellers, primarily automobile insurance companies, to dispose or liquidate damaged or low value vehicles to dismantlers, rebuilders, scrap dealers or qualified public buyers. The following are key industry highlights:

#### ***Whole Car Auction Industry Volumes***

During the period from 1999 to 2009, approximately 9 to 10 million used vehicles per year were sold in North America through whole car auctions. Whole car auction volumes were 8.4 million, 7.7 million and 8.2 million (including units sold by OPENLANE in 2012) in 2010, 2011 and 2012, respectively. Data for the whole car auction industry is collected by the National Auto Auction Association, or NAAA, through an annual survey. The reduction in auction volumes since 2009 is attributable to supply shortages in the North American whole car auction industry caused principally by declines in new vehicle sales and lease originations from 2007 to 2009 and declines in repossessions from 2009 to 2012. We expect the industry to experience an increase in whole car auction volumes as a result of increasing new vehicle sales and lease originations since 2009 and improving credit availability.

#### ***Salvage Auction Industry Volumes***

We believe that the North American salvage vehicle auction industry volumes are affected primarily by accident rates, the age of the vehicle fleet on the road, miles driven, weather, the increased complexity of vehicles in operation and the increased utilization of after-market recycled parts within the collision repair industry. Vehicles deemed a total loss by automobile insurance companies represent the largest category of vehicles sold in the salvage vehicle auction industry. As vehicle design becomes more complex with additional enhancements, such as airbags and electrical components, vehicles are more costly to repair following an accident and insurance companies are more likely to declare a damaged vehicle a total loss. In addition, the utilization of recycled parts from salvage vehicles by the collision repair industry continues to increase as the quality of these parts gains wider acceptance and insurance companies attempt to reduce their repair claim costs. We believe that salvage volumes will continue to grow over time as the salvage auction industry expands the number of non-insurance vehicles sold, including charity, direct-from-consumer and dealer sales.

#### ***Consolidated Whole Car and Salvage Auction Markets***

The North American used vehicle auction market is largely consolidated. We estimate that Manheim, a subsidiary of Cox Enterprises, and ADESA together represent approximately 70% of the North American whole car auction market. We estimate that ADESA represents approximately 23% of the North American whole car auction market. The North American salvage vehicle auction market is also largely consolidated with the top two competitors, IAA and Copart, Inc., together representing over 70% of the market.

#### ***High Barriers to Entry***

High barriers to entry make it difficult for new entrants to capture significant market share. The required investment in technology and related infrastructure in addition to ongoing maintenance costs required to meet customers' demands present challenges for new entrants. Large tracts of land and a significant investment in facilities and land improvements are required to build new physical auctions. In addition, the need to comply

## **Table of Contents**

with regulatory requirements would pose a challenge for new entrants to build a large-scale operation. Larger participants are also able to better develop relationships with many of the major whole car and salvage sellers and buyers, which increases the sellers' flexibility to redistribute vehicles to markets where demand best matches supply in order to maximize proceeds, while also reducing the cost of disposition.

### **Our Competitive Strengths**

#### ***Leading Provider of Both Whole Car and Salvage Vehicle Auctions***

We are the second largest provider of whole car auctions and one of the leading providers of salvage vehicle auctions and related services in North America, with estimated market shares of approximately 23% and 35% in the whole car and salvage auction markets, respectively. As of June 30, 2013, we had 67 whole car and 163 salvage auction locations and are the only company in North America with a top two market share position in both the whole car and salvage auction markets. Our market presence, including 12 co-located whole car and salvage facilities, in the 75 largest metropolitan markets in the United States and Canada enables us to attract large whole car and salvage sellers while simultaneously maintaining strong relationships with local franchised and independent automobile dealers. Our auctions attract a high volume of vehicles, thereby ensuring sufficient supply to create the successful marketplaces that buyers and sellers demand. We also have a leading market position in the floorplan financing industry. AFC has 104 branches primarily supporting over 11,000 independent dealers across North America who purchase vehicles primarily from whole car auctions. Our ability to provide floorplan financing facilitates the growth of vehicle sales at auction.

#### ***Sophisticated Internet-Based Auction Services Complement Physical Presence***

The services that we provide are augmented by state-of-the-art information technology solutions, enabling our buyers and sellers to maximize exposure and salability of inventory at all points in the remarketing lifecycle.

#### ***ADESA***

For our whole car customers, we complement physical auctions with ADESA.com. ADESA.com includes LiveBlock® (real-time simulcast of the physical auction via the Internet, provided by our wholly-owned subsidiary LAI), DealerBlock® (24/7 interactive, virtual auctions) and customized private label solutions powered by our wholly-owned subsidiary, OPENLANE, that allow our institutional consignors (automobile manufacturers, captive finance companies and other institutions) to offer vehicles via the Internet prior to arrival at the physical auction.

#### ***IAA***

For our salvage buyers, we complement physical auctions with i-Bid LIVE™, a real-time simulcast of the physical auction via the Internet, which allows both a live and Internet buyer to participate in the auctions. i-Bid LIVE's feature rich user interface allows buyers to search inventory, review photos, set up alerts, shop for and purchase vehicles, bid and buy all from one platform. i-Bid LIVE is available as a mobile application, providing buyers the added flexibility to participate in IAA auctions from a smart phone or tablet.

Suppliers, including insurance companies and other participants, can also better process and manage their salvage inventory with IAA's technology. Specific to insurance company suppliers, IAA's patent-pending title procurement tools provide an efficient method of procuring titles and tracking a vehicle's title in the process. This helps reduce cycle time for insurance companies and provides for faster sales of total loss vehicles through IAA's auctions. In addition, IAA's proprietary Internet-based salvage management tool, CSAToday, provides transparency to suppliers' inventory, as well as provides tools, such as salvage return analysis and electronic assignment interfaces. CSAToday is also mobile-compatible, which provides added efficiency to suppliers.

### ***Provider of High Value Added, Integrated Vehicle Auction Services***

We offer a full range of integrated pre- and post-auction services aimed at assisting our customers in the redistribution of their vehicles in an efficient and cost-effective manner. Our services are provided by ADESA at its physical auction locations and wholly-owned brands such as AFC, CarsArrive, Professional Auto Remarketing (PAR), AutoVIN and Dent Demon. For the year ended December 31, 2012, we generated a combined total of more than \$600 million of revenue from pre- and post-auction services. Pre-auction services include transportation, reconditioning (such as detailing, body repairs and light mechanical repairs), inspections, storage, titling and other administrative services. Post-auction services include post-sale inspections, reconditioning, the clearing of auction proceeds and collections, floorplan financing, ownership transfer, storage, vehicle delivery and customized reporting and analyses. The combination of our physical auction locations, Internet-based solutions and ancillary services offers our customers a single vendor solution to meet all of their vehicle redistribution needs.

### ***Longstanding Customer Relationships and Diversified Customer Base***

We have established long-term customer relationships with franchised and independent vehicle dealers, institutional customers and automobile insurance companies. Our combined whole car and salvage buyer base exceeds 150,000 registered buyers in over 100 countries. No single customer accounted for more than 2% of our consolidated revenue in 2012, and our average relationship is more than ten years with our top ten vehicle suppliers. We believe this diversity allows us to better withstand changes in the economy and market conditions. ADESA enjoys long-term relationships with major vehicle manufacturers, vehicle finance companies, vehicle fleet companies and rental car companies in North America, including, but not limited to, GM Financial, Capital One Auto Finance, Avis, Chase Auto Finance, Enterprise Rent-A-Car, Ford, GE Capital, General Motors, Hertz, Honda, HSBC, Mercedes-Benz, Santander Consumer, Toyota and Wells Fargo. Furthermore, ADESA, primarily through its OPENLANE technology, operates private label platforms for many leading OEMs and captive finance companies, including Toyota, Ford, Honda, Volkswagen, Hyundai, Chrysler, GM Financial, BMW and others. IAA enjoys long-term relationships with top automobile insurers, including, but not limited to, American Family Insurance, GEICO, Progressive, State Farm, USAA and Zurich Financial Services.

### ***Low Capital Intensity and Resilient Financial Model***

Our low maintenance capital expenditures and working capital requirements enable the business to generate consistently strong cash flows through a diversified mix of operations. Our business segments are complementary to each other and create a resilient platform for future growth. We generally do not take title to or bear the risk of loss for vehicles sold at whole car or salvage auctions. Furthermore, customers do not receive title or possession of vehicles after purchase until payment is received, proof of floorplan financing is provided or credit is approved. These requirements contribute to limited inventory and accounts receivable exposure. We expect our low capital intensity financial model to allow us to produce significant free cash flow in the future enabling us to continue to reduce debt and return capital to shareholders.

### ***Strong Management Team with Track Record of Driving Growth and Improving Efficiency***

Our senior management team continues to implement and execute on various growth initiatives that have resulted in increasing revenue and gross profit expansion during the past five years. Through a better coordination of corporate sales efforts and local auction operations, in addition to numerous strategic Internet initiatives, we have organically grown our revenues at auction while facing decreasing trends in industry volumes. Furthermore, the management team has implemented a disciplined expansion strategy, acquiring or building numerous auction locations and offering more services since 2009. We believe our management team's integration experience and cost discipline will continue to be a competitive advantage as we grow both organically and across the remarketing lifecycle through selective acquisitions. In addition, we have reduced

## **Table of Contents**

costs through the integration of operating systems and introduction of standard operating practices across all auction sites, resulting in improved operating efficiencies, reduced headcount and improved operating profit at existing and acquired sites.

### **Our Business Strategy**

We continue to focus on growing our revenues and profitability through the execution of the following key operating strategies:

#### ***Expand Opportunities for Customers to Buy and Sell Online***

We are focused on enhancing our Internet solutions in all of the key channels, and we will continue to invest in our technology platforms to capitalize on new opportunities and attract new customers. Online vehicle remarketing solutions provide the opportunity to improve the customer experience, expand our volume of transactions and potentially increase proceeds for sellers through greater buyer participation at auctions. We acquired OPENLANE in order to better capitalize on the increasing use of the Internet as a means to purchase wholesale vehicles. Through its OPENLANE technology, ADESA offers comprehensive private label remarketing solutions to automobile manufacturers, captive finance companies, lease and daily rental car companies, financial institutions and wholesale automobile auctions throughout the United States and Canada. IAA is the only national salvage auction company that offers buyers both live and Internet purchasing opportunities. ADESA provides online solutions to sell vehicles directly from a dealership or other interim storage location (upstream selling), online solutions to offer vehicles for sale while in transit to auction locations (midstream selling) and broadcasting video and audio of the physical auctions to online bidders (simulcast).

#### ***Grow Our Dealer Consignment Business***

The dealer consignment business is a highly market-specific business that requires local auction sales representatives who have experience in the used vehicle business and an intimate knowledge of their local market. We have augmented our local auction teams with the addition of corporate-level resources focused on growing the number of dealer vehicles sold at our physical and online auctions. The corporate team assists the local sales representatives in developing and implementing standard best practices for building and maintaining relationships with dealers to increase our market share. Our sales representatives also utilize proprietary technology solutions to maintain and grow the dealer consignment business by strategically matching the supply of vehicles with prospective buyers at auction. We believe this combination of a standard centralized approach with decentralized resources close to large populations of dealers will enhance our relationships with the dealer community and increase dealer volumes at our whole car auctions. On a same store basis, our dealer consignment sales volumes were up approximately 6% and 11% for the six months ended June 30, 2013 and for the twelve months ended December 31, 2012, respectively, compared with the same periods in prior years.

#### ***Continue to Grow Revenue per Vehicle***

From 2008 through 2012, our whole car (excluding OPENLANE) and salvage revenue per vehicle grew at compound annual growth rates of 1.7% and 3.3%, respectively. Revenue per vehicle generally consists of auction fees and fees from ancillary services. Increased utilization of ancillary services, selective fee increases, higher used vehicle prices and the introduction of new product offerings were key components of this growth. We believe these services provide economic benefits to our customers who are willing to utilize our products and services that improve their ability to manage their remarketing efforts and increase their returns. We plan to grow revenue by increasing customer utilization of these existing products and by enhancing our core auction services through such initiatives as increasing the number of vehicles offered both online and at physical auctions.

## **Table of Contents**

### ***Leverage AFC's Products and Services at ADESA and IAA***

We intend to selectively grow AFC while using enhanced credit analysis and risk management techniques to mitigate risk. We will continue to focus on expanding dealer coverage and improving coordination with ADESA and IAA to capitalize on cross-selling opportunities with AFC. By encouraging a collaborative marketing effort between AFC, ADESA and IAA, we believe we can market an enterprise solution more effectively to used vehicle dealers and tailor AFC's financing products to individual dealer needs. We will maintain our focus on generating additional revenues by expanding our suite of floorplan financing and related products and services and leveraging our market position, broad infrastructure and diversified business relationships to capitalize on current market opportunities.

### ***Grow Our Non-Insurance Salvage Auction Customer Base***

More than 12 million vehicles are de-registered annually, but only approximately 3.5 million are sold through salvage auctions, mostly by automobile insurance companies. In order to capture a greater portion of the total unit volume, we are increasingly focused on growing our vehicle supplier base, with a particular focus on non-insurance company customers, which includes charitable organizations, rental car, captive finance and fleet companies, as well as the general public. ADESA's strong customer relationships with used vehicle dealers as well as rental car, captive finance and fleet companies provide an advantage in accessing such segments, as these customers already use ADESA's whole car auction services.

### ***Continue to Improve Operating Efficiency***

We continue to focus on reducing costs by optimizing efficiency at each of our auction locations and consolidating certain management functions. Since 2007, a number of initiatives have been implemented, which have streamlined operations and improved operating efficiencies. As part of these initiatives, we introduced a management operating system to actively monitor and manage staffing levels and, as a result, have realized additional labor efficiency gains. Additional efficiencies have been gained through two of our wholly-owned subsidiaries, AuctionTrac, a vehicle tracking system at ADESA, and CarsArrive, an Internet-based system that allows customers to review instantly price quotes, delivery times, available transportation loads and also to receive instant notification of available shipments.

### ***Use Excess Cash Flow to Reduce Debt and Return Capital to Shareholders***

We generate strong cash flows as a result of our attractive gross margins, the ability to leverage our corporate infrastructure across our multiple auction locations, low maintenance capital expenditures and limited working capital requirements. Management plans to utilize a significant portion of excess cash generated by the business for debt reduction and return capital to shareholders for the foreseeable future. We generated \$223.0 million and \$170.3 million of cash flow from operations for the six months ended June 30, 2013 and 2012, respectively. We generated \$290.2 million and \$305.8 million of cash flow from operations for the years ended December 31, 2012 and 2011, respectively. On November 30, 2012, we announced that our board of directors approved the initiation of a quarterly cash dividend on our common stock and declared an initial quarterly cash dividend of \$0.19 per share, representing an annualized dividend of \$0.76 per share, which was paid in December 2012. After paying any future dividends to shareholders (subject to prior declaration by our board of directors), we expect that significant cash flow will remain to support further de-leveraging and to support growth initiatives.

On April 4, 2013 and July 3, 2013, we paid a cash dividend of \$0.19 per share to stockholders of record at the close of business on March 25, 2013 and June 24, 2013, respectively. On August 6, 2013, we announced that our board of directors declared a cash dividend of \$0.19 per share payable on October 3, 2013 to stockholders of record at the close of business on September 24, 2013.

## **Table of Contents**

In April 2013, we made an excess cash flow payment of \$39.4 million on our senior secured term loan facility, or Term Loan B, and prepaid the entire \$150.0 million principal amount of the floating rate senior notes due 2014 with available cash on hand.

### ***Selective Acquisitions and Greenfield Expansion***

Increased demand for single source solutions by our customers and other factors may increase our opportunities to acquire competitors. Both ADESA and IAA have a strong record of acquiring and integrating independent auction operations and improving profitability. We will continue to evaluate opportunities to open and acquire new sites in selected markets in order to effectively leverage our sales and marketing capabilities and expand our geographic presence for both ADESA and IAA. In addition, we may pursue opportunities to acquire additional product offerings in each of our business segments.

### ***Increase Our International Presence***

In both our whole car and salvage vehicle businesses, we have experience managing a global buyer base with relationships in over 100 countries. We believe we are well positioned to grow internationally through both technology-based and physical auction expansion. We continue to identify opportunities to expand certain of our service offerings globally and specifically plan to extend our OPENLANE technology. We expect that our ability to efficiently layer in the OPENLANE product and technology licensing will allow us to conveniently enter mature auction markets.

Risk Factors Investing in our common stock involves risks. See Risk Factors beginning on page S-11 and in our annual report on Form 10-K for the year ended December 31, 2012, which is incorporated by reference in this prospectus supplement, to read about factors you should consider before buying our common stock.

Conflict of Interest Because affiliates of Goldman, Sachs & Co. beneficially own more than 10% of our outstanding common stock, Goldman, Sachs & Co. is deemed to be an affiliate of the Company within the meaning of Rule 5121 of the Financial Industry Regulatory Authority, or Rule 5121, and is deemed to have a conflict of interest under Rule 5121. In addition, KAR LLC, the selling stockholder and an affiliate of Goldman, Sachs & Co., will receive all of the net proceeds of this offering. Accordingly, this offering will be made in compliance with the applicable provisions of Rule 5121 as required by Rule 5121. Because there is a bona fide public market (as defined in Rule 5121) for our common stock, the Rule 5121 requirement for the participation of a qualified independent underwriter does not apply to this offering.

(1) Based on the number of shares of our common stock outstanding as of July 31, 2013. Does not include 3,385,540 shares of common stock reserved for future issuance under our equity incentive plans or 8,282,880 shares of common stock issuable upon the exercise of stock options outstanding as of July 31, 2013, at a weighted average exercise price of \$12.02 per share.

Except as otherwise indicated, the information in this prospectus supplement assumes no exercise of the underwriters option to purchase additional shares.

- (1) Working capital is defined as current assets less current liabilities.

- (2) EBITDA and Adjusted EBITDA, as presented herein, are supplemental measures of our performance that are not required by, or presented in accordance with, generally accepted accounting principles in the United States, or GAAP. They are not measurements of our financial performance under GAAP and should not be considered substitutes for net income (loss) or any other performance measures derived in accordance with GAAP.

EBITDA is defined as net income (loss), plus interest expense net of interest income, income tax provision (benefit), depreciation and amortization. Adjusted EBITDA is EBITDA adjusted for the items of income and expense and expected incremental revenue and cost savings as follows (a) gains and losses from asset sales; (b) unrealized foreign currency translation gains and losses in respect of indebtedness; (c) certain non-recurring gains and losses; (d) stock option expense; (e) certain other noncash amounts included in the determination of net income; (f) charges and revenue reductions resulting from purchase accounting; (g) minority interest expense; (h) expenses associated with the consolidation of salvage operations; (i) consulting expenses incurred for cost reduction, operating restructuring and business improvement efforts; (j) expenses realized upon the termination of employees and the termination or cancellation of leases, software licenses or other contracts in connection with the operational restructuring and business improvement efforts; (k) expenses incurred in connection with permitted acquisitions; (l) any impairment charges or write-offs of intangibles; and (m) any extraordinary, unusual or non-recurring charges, expenses or losses.

Management believes that the inclusion of supplementary adjustments to EBITDA applied in presenting Adjusted EBITDA is appropriate to provide additional information to investors about one of the principal measures of performance used by our creditors. In addition, management uses Adjusted EBITDA to evaluate our performance and to evaluate results relative to incentive compensation targets. EBITDA and Adjusted EBITDA have limitations as analytical tools, and should not be considered in isolation or as a substitute for analysis of the results as reported under GAAP. These measures may not be comparable to similarly titled measures reported by other companies.

The following table reconciles EBITDA and Adjusted EBITDA to net income for the periods presented:

**RISK FACTORS**

*An investment in our securities involves a high degree of risk. You should carefully consider the specific risks described below in addition to those set forth under Risk Factors in our annual report on Form 10-K for the year ended December 31, 2012, which is incorporated by reference in this prospectus supplement, before making an investment decision. If any of these risks actually materializes, our business, financial condition, results of operations and prospects could be materially adversely affected. As a result, the value of our securities could decline and you could lose part or all of your investment. These risks are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also materially affect our business, financial condition, results of operations and prospects. See the section entitled Where You Can Find More Information beginning on page S-35 of this prospectus supplement.*

**Risks Related to this Offering and Ownership of Our Common Stock**

**The market price and trading volume of our common stock may be volatile, which could result in rapid and substantial losses for our stockholders.**

You should consider an investment in our common stock to be risky, and you should invest in our common stock only if you can withstand a significant loss and wide fluctuations in the market value of your investment. Many factors could cause the market price of our common stock to rise and fall, including the following:

our announcements or our competitors' announcements regarding new products or services, enhancements, significant contracts, acquisitions or strategic investments;

changes in earnings estimates or recommendations by securities analysts, if any, who cover our common stock;

results of operations that are below our announced guidance or below securities analysts' or consensus estimates or expectations;

fluctuations in our quarterly financial results or the quarterly financial results of companies perceived to be similar to us;

changes in our capital structure, such as future issuances of securities, sales of large blocks of common stock by our stockholders or our incurrence of additional debt;

investors' general perception of us and our industry;

changes in general economic and market conditions in North America;

changes in industry conditions; and

changes in regulatory and other dynamics.

In addition, if the market for stocks in our industry, or the stock market in general, experiences a loss of investor confidence, the trading price of our common stock could decline for reasons unrelated to our business, financial condition or results of operations. If any of the foregoing occurs, it could cause our stock price to fall and may expose us to lawsuits that, even if successfully defended, could be costly to defend and a distraction to management.

**Future offerings of debt or equity securities, which would rank senior to our common stock, may adversely affect the market price of our common stock.**

If, in the future, we decide to issue debt or equity securities that rank senior to our common stock, it is likely that such securities will be governed by an indenture or other instrument containing covenants restricting our operating flexibility. Additionally, any convertible or exchangeable securities that we issue in the future may

## **Table of Contents**

have rights, preferences and privileges more favorable than those of our common stock and may result in dilution to owners of our common stock. We and, indirectly, our stockholders, will bear the cost of issuing and servicing such securities. Because our decision to issue debt or equity securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Thus, holders of our common stock will bear the risk of our future offerings reducing the market price of our common stock and diluting the value of their stock holdings in us.

### **The market price of our common stock could be negatively affected by sales of substantial amounts of our common stock in the public markets.**

As of July 31, 2013, there were 138,042,389 shares of our common stock outstanding, including the shares to be sold by the selling stockholder in this offering. All of the common stock sold in this offering will be freely transferable, except for any shares held by our affiliates, as that term is defined in Rule 144 under the Securities Act of 1933, as amended, or the Securities Act. Pursuant to a registration rights agreement entered into in connection with the 2007 Transactions, KAR LLC caused us to file a registration statement under the Securities Act, including the accompanying prospectus, covering resales of all shares of our common stock held by KAR LLC. These shares represent approximately 42.8% of our outstanding common stock. Following completion of the offering, approximately 32.0% of our outstanding common stock (or approximately 30.3% if the underwriters exercise in full their option to purchase additional shares) will be held indirectly through their investment in KAR LLC by affiliates of the Equity Sponsors, other equity co-investors and members of our management. These shares also may be sold pursuant to Rule 144 under the Securities Act, depending on the holding period and subject to restrictions in the case of shares held by persons deemed to be our affiliates. As restrictions on resale end or if KAR LLC exercises its registration rights, the market price of our stock could decline if KAR LLC sells the restricted shares or is perceived by the market as intending to sell them.

We, our executive officers, our directors, KAR LLC and the Equity Sponsors, have agreed with the underwriters, subject to certain exceptions, not to dispose of or hedge any of their common stock or securities convertible into or exchangeable for shares of common stock during the period from the date of this prospectus continuing through 60 days after the date of this prospectus supplement except with the prior written consent of Credit Suisse Securities (USA) LLC and Goldman, Sachs & Co. See Underwriting.

Pursuant to a registration statement under the Securities Act, we have registered shares of common stock reserved for issuance in respect of stock options and other incentive awards granted to our officers and certain of our employees. If any of these holders cause a large number of securities to be sold in the public market, the sales could reduce the trading price of our common stock. These sales also could impede our ability to raise future capital.

### **Provisions in our amended and restated certificate of incorporation and by-laws, and of Delaware law, may prevent or delay an acquisition of us, which could decrease the trading price of our common stock.**

Our amended and restated certificate of incorporation and by-laws contain provisions that may be considered to have an anti-takeover effect and may delay or prevent a tender offer or other corporate transaction that a stockholder might consider to be in its best interest, including those transactions that might result in a premium over the market price for our shares.

These provisions include:

limiting the right of stockholders to call special meetings of stockholders to holders of at least 35% of our outstanding common stock;

rules regarding how our stockholders may present proposals or nominate directors for election at stockholder meetings;

permitting our board of directors to issue preferred stock without stockholder approval;

## Table of Contents

granting to the board of directors, and not the stockholders, the sole power to set the number of directors; and

authorizing vacancies on our board of directors to be filled only by a vote of the majority of the directors then in office and specifically denying our stockholders the right to fill vacancies in the board.

From and after the time that KAR LLC no longer has beneficial ownership of 35% or more of our outstanding common stock, these provisions will also include:

authorizing the removal of directors only for cause and only upon the affirmative vote of holders of a majority of the outstanding shares of our common stock entitled to vote for the election of directors; and

prohibiting stockholder action by written consent.

These provisions apply even if an offer may be considered beneficial by some stockholders.

**The Equity Sponsors (through KAR LLC) will continue to have significant influence over us after this offering, including significant influence over decisions that require the approval of shareholders, which could limit your ability to influence the outcome of key transactions, including a change of control.**

Currently, we are indirectly controlled by affiliates of the Equity Sponsors. Affiliates of the Equity Sponsors, other equity co-investors and management will indirectly own through their investment in KAR LLC approximately 32.0% of our common stock (or approximately 30.3% if the underwriters exercise in full their option to purchase additional shares) after the completion of this offering. As a result, affiliates of the Equity Sponsors will have significant influence over our decisions to enter into any corporate transaction and the ability to prevent any transaction that requires shareholder approval regardless of whether others believe that the transaction is in our best interests. So long as the Equity Sponsors continue to indirectly hold a significant portion of our outstanding common stock, they will have the ability to exert significant influence on the vote in any election of directors.

We have entered into a director designation agreement that provides for the rights of KAR LLC directly, and the Equity Sponsors indirectly, to nominate designees to our board of directors.

The Equity Sponsors are also in the business of making investments in companies and may from time to time acquire and hold interests in businesses that compete directly or indirectly with us. The Equity Sponsors may also pursue acquisition opportunities that are complementary to our business and, as a result, those acquisition opportunities may not be available to us. So long as the Equity Sponsors, or other funds controlled by or associated with the Equity Sponsors, continue to indirectly own a significant amount of our outstanding common stock, the Equity Sponsors will continue to be able to strongly influence or effectively control our decisions. The concentration of ownership may have the effect of delaying, preventing or deterring a change of control of our company, could deprive shareholders of an opportunity to receive a premium for their common stock as part of a sale of our company and might ultimately affect the market price of our common stock.

**Under our amended and restated certificate of incorporation, the Equity Sponsors and, in some circumstances, any of our directors and officers who is also a director, officer, manager, member or employee of any of our Equity Sponsors, have no obligation to offer us corporate opportunities.**

Our amended and restated certificate of incorporation provides that the Equity Sponsors and their respective subsidiaries and affiliates have the right to engage or invest in, and do not have a duty to abstain from engaging or investing in, the same or similar businesses as us, do business with any of our clients, customers or vendors or employ or otherwise engage any of our officers, directors or employees. If any Equity Sponsor or any of its officers, directors, managers, members, partners or employees acquires knowledge of a potential transaction that could be a corporate opportunity for us, such person has no duty to offer that opportunity to us, our stockholders or our affiliates, even if it is one that we might reasonably have pursued. Neither the Equity Sponsors nor their

**Table of Contents**

officers, directors, managers, members, partners or employees will generally be liable to us or our stockholders for breach of any duty by reason of engaging in such activities. In addition, any of our directors and officers who is also a director, officer, manager, member, partner or employee of any of our Equity Sponsors and is offered or acquires knowledge of a corporate opportunity, other than solely in such person's capacity as our director or officer, will not have any liability to us if any of the Equity Sponsors pursues or acquires such corporate opportunity.

**You may not receive any future dividends on our common stock.**

On November 30, 2012, we announced that our board of directors approved the initiation of a quarterly cash dividend on our common stock. Holders of our common stock are only entitled to receive such dividends as our board of directors may declare out of funds legally available for such payments. We are not required to declare cash dividends on our common stock. Future dividend decisions will be based on and affected by a variety of factors, including our financial condition and results of operations, contractual restrictions, including restrictive covenants contained in our credit agreement and AFC's securitization facilities, capital requirements and other factors that our board of directors deems relevant. Therefore, no assurance can be given as to whether any future dividends may be declared by our board of directors or the amount thereof. See Dividend Policy.

**Table of Contents****SELLING STOCKHOLDER**

KAR LLC is the sole selling stockholder under this prospectus supplement.

On April 20, 2007, KAR LLC acquired the shares that may be offered for resale pursuant to this prospectus supplement in connection with a merger and related transactions pursuant to which ADESA, Inc. and Insurance Auto Auctions, Inc. became subsidiaries of KAR Auction Services, the issuer of the shares offered hereby. At the time of the merger and until its initial public offering of common stock in December 2009, KAR Auction Services was a wholly-owned subsidiary of KAR LLC. In connection with the merger, KAR LLC contributed to KAR Auction Services approximately \$1.1 billion of consideration, consisting of a combination of cash, stock of ADESA, Inc. and stock of Axle Holdings, Inc. (the then-owner of IAA), in exchange for the 106,853,660 shares offered for resale pursuant to the accompanying prospectus (after giving effect to certain capitalization transactions and a 10-for-1 stock split in December 2009). The per share purchase price was approximately \$10 (after giving effect to a 10-for-1 stock split in December 2009).

See the **Certain Related Party Relationships** section of the proxy statement for our annual meeting of stockholders held on June 12, 2013, which is incorporated by reference into this prospectus supplement, for a description of material relationships between us and the selling stockholder.

The following table sets forth the name of the selling stockholder, the number of shares and percentage of our common stock beneficially owned by the selling stockholder as of July 31, 2013, the number of shares of common stock being sold in this offering and the number of shares to be beneficially owned by the selling stockholder after the completion of this offering. The applicable percentage of ownership for the selling stockholder is based on 138,042,389 shares of common stock outstanding as of July 31, 2013.

Name of Beneficial Owner	Shares Beneficially Owned Prior to This Offering		Number of Shares Offered	Shares Beneficially Owned After This Offering

KAR Holdings II, LLC	59,128,660	42.8%	15,000,000	44,128,660	32.0%

KAR LLC is controlled by the Equity Sponsors, which own common units in KAR LLC. The Equity Sponsors do not directly hold any shares of our common stock that may be offered for resale pursuant to this prospectus supplement.

The Equity Sponsors acquired common units in KAR LLC in connection with the above-mentioned merger and related transactions that occurred on April 20, 2007. In connection with the merger, the Equity Sponsors and the Company's management contributed to the selling stockholder approximately \$1.1 billion of consideration, consisting of a combination of cash, stock of ADESA, Inc. and stock of Axle Holdings, Inc., in exchange for common units in KAR LLC.

Pursuant to the Second Amended and Restated Limited Liability Company Agreement of KAR LLC, as amended, the business and affairs of KAR LLC are managed by a board of directors. Affiliates of Kelso Investment Associates VII, L.P., GS Capital Partners VI, L.P. and ValueAct Capital Master Fund, L.P. each have the right to designate two directors for election to KAR LLC's board and affiliates of Parthenon Investors II, L.P. have the right to designate one director, in each case so long as they continue to hold a specified amount of their original common units.

Pursuant to a director designation agreement entered into in connection with the initial public offering of our common stock in December 2009, KAR LLC has the right to directly nominate individuals to our board of directors. The director designation agreement provides that, for so long as KAR LLC owns more than 10% of our outstanding common stock, no change will be made to the size of our board without the consent of KAR LLC.

**Table of Contents**

KAR LLC will have the right to nominate individuals to our board at each meeting of stockholders where directors are to be elected and, subject to limited exceptions, we will include in the slate of nominees recommended to our stockholders for election as directors the number of individuals designated by KAR LLC as follows (depending on the percentage ownership of KAR LLC at the time of such election):

so long as KAR LLC owns more than 50% of our outstanding common stock, seven individuals;

so long as KAR LLC owns 50% or less but at least 30% of our outstanding common stock, six individuals;

so long as KAR LLC owns less than 30% but at least 20% of our outstanding common stock, four individuals;

so long as KAR LLC owns less than 20% but at least 10% of our outstanding common stock, three individuals; and

so long as KAR LLC owns less than 10% but at least 5% of our outstanding common stock, one individual.

The selling stockholder may be deemed to be an affiliate of Goldman, Sachs & Co., a registered broker-dealer. The selling stockholder acquired the shares offered pursuant to this prospectus supplement and that may be offered for resale pursuant to the accompanying prospectus with investment intent in the ordinary course of business (such business being the investment in and development of companies) in connection with the merger transaction described above. At the time of the purchase of these shares, neither the selling stockholder nor Goldman, Sachs & Co. had any agreements or understandings, directly or indirectly, with any person to distribute the securities.

The Equity Sponsors and certain members of management do not own the shares of our common stock offered pursuant to this prospectus supplement and that may be offered for resale pursuant to the accompanying prospectus. KAR LLC holds all of these shares and the Equity Sponsors and certain members of management hold common units in KAR LLC. The following table presents information on what the beneficial ownership of these shares would be if beneficial ownership of these shares were attributed to the Equity Sponsors and certain members of management based solely on their proportionate holdings of common units in KAR LLC as of July 31, 2013. In addition, (i) the information presented in the footnotes to this table are based on shares beneficially owned prior to this offering and (ii) other than for KAR LLC, the number of shares deemed sold by each holder reflects a pro rata portion of the shares sold by KAR LLC in this offering based on such holder's approximate percentage ownership of common equity interests in KAR LLC. KAR LLC will distribute the net proceeds of its sale of common stock in this offering to its members in accordance with its limited liability company agreement.

**CERTAIN U.S. FEDERAL INCOME TAX CONSEQUENCES TO NON-U.S. HOLDERS OF COMMON STOCK**

The following is a general discussion of certain U.S. federal income tax consequences relating to the ownership and disposition of our common stock by non-U.S. holders (as defined below) who purchase our common stock in this offering and hold such common stock as capital assets for U.S. federal income tax purposes (generally for investment). This discussion is based on currently existing provisions of the Internal Revenue Code of 1986, as amended, applicable U.S. Treasury regulations promulgated thereunder, judicial decisions, and rulings and pronouncements of the U.S. Internal Revenue Service, or the IRS, all as in effect on the date hereof and all of which are subject to change, possibly with retroactive effect, or subject to different interpretation.

This discussion does not address all aspects of U.S. federal income taxation that may be relevant to specific non-U.S. holders in light of their particular circumstances or to non-U.S. holders subject to special treatment under U.S. federal income tax laws (such as banks or other financial institutions, insurance companies, tax-exempt organizations, foreign governments, controlled foreign corporations, passive foreign investment companies, retirement plans, entities that are treated as partnerships for U.S. federal income tax purposes, dealers in securities or currencies, brokers, U.S. expatriates, non-U.S. holders who have acquired our common stock as compensation or otherwise in connection with the performance of services, or non-U.S. holders who have acquired our common stock as part of a straddle, hedge, conversion transaction or other integrated investment).

This discussion does not address the state, local, non-U.S. tax or U.S. federal unearned income Medicare contribution or alternative minimum tax consequences relating to the ownership and disposition of our common stock. You should consult your tax advisor regarding the U.S. federal tax consequences of owning and disposing of our common stock, as well as the applicability and effect of any state, local or foreign tax laws.

As used in this discussion, the term "non-U.S. holder" refers to a beneficial owner of our common stock that for U.S. federal income tax purposes is not:

- (i) an individual who is a citizen or resident of the United States;
- (ii) a corporation (or other entity subject to tax as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States or any state thereof, or the District of Columbia;
- (iii) an estate the income of which is subject to U.S. federal income tax regardless of the source thereof; or
- (iv) a trust (a) if a court within the United States is able to exercise primary supervision over its administration and one or more U.S. persons have the authority to control all of its substantial decisions, or (b) that has in effect a valid election under applicable Treasury Regulations to be treated as a U.S. person.

If an entity or arrangement classified as a partnership for U.S. federal income tax purposes holds our common stock, the tax treatment of the partnership and its partners generally depends on the status of the partner and the activities of the partnership. If you are an entity or arrangement treated as partnership for U.S. federal income tax purposes holding our common stock, or a partner in such entity, you should consult your tax adviser as to the particular U.S. federal income tax consequences applicable to you.

**EACH NON-U.S. HOLDER SHOULD CONSULT ITS TAX ADVISER REGARDING THE U.S. FEDERAL, STATE, LOCAL, AND NON-U.S. INCOME AND OTHER TAX CONSEQUENCES OF ACQUIRING, HOLDING AND DISPOSING OF OUR COMMON STOCK.**

**Distributions on Common Stock**

If we make a distribution of cash or other property (other than certain distributions of our stock) in respect of our common stock, the distribution generally will be treated as a dividend to the extent of our current or

---

## **Table of Contents**

accumulated earnings and profits (as determined under U.S. federal income tax principles). If the amount of a distribution exceeds our current and accumulated earnings and profits (as determined under U.S. federal income tax principles), the excess amount generally will be treated first as a tax-free return of capital, on a share by share basis, to the extent of the non-U.S. holder's tax basis in our common stock, and then as capital gain.

Distributions treated as dividends paid by us to a non-U.S. holder generally will be subject to U.S. federal withholding tax at a 30% rate, unless (i) an applicable income tax treaty reduces or eliminates such tax, or (ii) the dividends are effectively connected with such non-U.S. holder's conduct of a trade or business in the United States and, in each case, the non-U.S. holder provides us with proper IRS documentation. In the latter case, a non-U.S. holder generally will be subject to U.S. federal income tax with respect to such dividends in the same manner as a U.S. person, unless otherwise provided in an applicable income tax treaty. Additionally, a non-U.S. holder that is a corporation may be subject to a branch profits tax on its after-tax effectively connected dividend income at a rate of 30% (or at a reduced rate under an applicable income tax treaty). If a non-U.S. holder is eligible for a reduced rate of U.S. federal withholding tax pursuant to an income tax treaty, such non-U.S. holder may obtain a refund or credit of any excess amount withheld by filing an appropriate claim for refund with the IRS. Non-U.S. holders should consult their tax advisors regarding their entitlement to benefits under an applicable income tax treaty and the manner of claiming the benefits of such treaty.

### **Sale, Exchange or Other Disposition of Common Stock**

Generally, a non-U.S. holder will not be subject to U.S. federal income tax on gain realized upon the sale, exchange or other disposition of our common stock unless (i) such non-U.S. holder is an individual present in the United States for 183 days or more in the taxable year of the sale, exchange or other disposition and certain other conditions are met, (ii) the gain is effectively connected with such non-U.S. holder's conduct of a trade or business in the United States and, where a tax treaty so provides, the gain is attributable to such non-U.S. holder's permanent establishment or fixed base in the United States, or (iii) we are or have been a United States real property holding corporation at any time within the shorter of the five-year period ending on the date of such sale, exchange or other disposition or the period that such non-U.S. holder held our common stock and either (a) our common stock was not regularly traded on an established securities market at any time during the calendar year in which the sale, exchange or other disposition occurs, or (b) such non-U.S. holder owns or owned (actually or constructively) more than five percent of our common stock at any time during the preceding five years. We have determined that we are not, and we believe we will not become, a United States real property holding corporation.

An individual non-U.S. holder described in (i) above is subject to U.S. federal income tax on such non-U.S. holder's gains (including gain from the sale of common stock, net of applicable U.S.-source losses incurred on sales or exchanges of other capital assets during the year) at a flat rate of 30% (or at a reduced rate under an applicable income tax treaty). Other non-U.S. holders who may be subject to U.S. federal income tax on the disposition of our common stock will be subject to U.S. federal income tax on the disposition of our common stock in the same manner in which citizens or residents of the United States would be subject to U.S. federal income tax.

### **Information Reporting and Backup Withholding Tax**

The amount of dividends on our common stock paid to a non-U.S. holder and the amount of any tax withheld from such dividends must generally be reported annually to the IRS and to the non-U.S. holder. The IRS may make this information available to the tax authorities of the country in which the non-U.S. holder is a resident under the provisions of an applicable tax treaty or agreement. Backup withholding tax (at the then applicable rate) may apply to dividends on our common stock paid to a non-U.S. holder, unless the non-U.S. holder certifies as to its status as a non-U.S. holder under penalties of perjury or otherwise establishes an exemption and certain other conditions are satisfied. Information reporting and backup withholding tax (at the

## **Table of Contents**

then applicable rate) may apply to payments treated as the proceeds of a sale of our common stock made to a non-U.S. holder, unless the non-U.S. holder certifies as to its status as a non-U.S. holder under penalties of perjury or otherwise establishes an exemption and certain other conditions are satisfied.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules from a payment to a non-U.S. holder will be allowed as a refund or a credit against such non-U.S. holder's U.S. federal income tax liability, provided that the required information is timely furnished to the IRS. Non-U.S. holders should consult their tax advisors regarding the application of the information reporting and backup withholding rules to them.

## **Foreign Account Tax Compliance Act**

After June 30, 2014, withholding at a rate of 30% will be required on dividends in respect of, and, after December 31, 2016, gross proceeds from the sale or other disposition of, our common stock held by or through certain foreign financial institutions (including investment funds), unless such institution enters into an agreement with the Treasury to report, on an annual basis, information with respect to shares in, and accounts maintained by, the institution held by certain U.S. persons and by certain non-U.S. entities that are wholly or partially owned by U.S. persons and to withhold on certain payments. An intergovernmental agreement between the United States and an applicable foreign country, or future Treasury regulations, may modify these requirements. Accordingly, the entity through which our common stock is held will affect the determination of whether such withholding is required. Similarly, dividends in respect of, and gross proceeds from the sale of, our common stock held by an investor that is a non-financial non-U.S. entity that does not qualify under certain exemptions will be subject to withholding at a rate of 30%, unless such entity either (i) certifies to us that such entity does not have any substantial United States owners or (ii) provides certain information regarding the entity's substantial United States owners, which we will in turn provide to the Secretary of the Treasury. We will not pay any additional amounts to stockholders in respect of any amounts withheld. Non-U.S. holders are encouraged to consult their tax advisers regarding the possible implications of the legislation on their investment in our common stock.

**Table of Contents****UNDERWRITING**

Under the terms and subject to the conditions contained in an underwriting agreement, dated August 1, 2013, the selling stockholder has agreed to sell to the underwriters named below, for whom Credit Suisse Securities (USA) LLC, Goldman, Sachs & Co. and J.P. Morgan Securities LLC are acting as representatives, the following respective numbers of shares of common stock:

<b>Underwriter</b>	<b>Number of Shares</b>
Credit Suisse Securities (USA) LLC	
Goldman, Sachs & Co.	
J.P. Morgan Securities LLC	
BMO Capital Markets Corp.	
Deutsche Bank Securities Inc.	
Barclays Capital Inc.	
Merrill Lynch, Pierce, Fenner & Smith Incorporated	
Robert W. Baird & Co. Incorporated	
Barrington Research Associates, Inc.	
BB&T Capital Markets, a division of BB&T Securities, LLC	
Stephens Inc.	
<b>Total</b>	<b>15,000,000</b>

The underwriting agreement provides that the underwriters are obligated to purchase all the shares of common stock in the offering if any are purchased, other than those shares covered by the underwriters' option described below. The underwriting agreement also provides that if an underwriter defaults, the purchase commitments of non-defaulting underwriters may be increased or the offering may be terminated. The offering of the shares by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

The selling stockholder has granted to the underwriters a 30-day option to purchase on a pro rata basis up to 2,250,000 additional outstanding shares from the selling stockholder at the public offering price set forth on the cover page of this prospectus supplement less the underwriting discounts and commissions.

The underwriters propose to offer the shares of common stock initially at the public offering price set forth on the cover page of this prospectus supplement and to selling group members at that price less a selling concession of up to \$ \_\_\_\_\_ per share. After the initial public offering, the representatives may change the public offering price and concession.

The following table summarizes the compensation the selling stockholder will pay, assuming both no exercise and full exercise of the underwriters' option to purchase 2,250,000 additional shares of common stock:

	<b>Per Share</b>		<b>Total</b>	
	<b>No Exercise</b>	<b>Full Exercise</b>	<b>No Exercise</b>	<b>Full Exercise</b>
Underwriting Discounts and Commissions paid by the selling stockholder	\$	\$	\$	\$

We estimate that the out of pocket expenses for this offering which will be paid by us will be approximately \$0.5 million.

We, our executive officers, our directors, the selling stockholder and the Equity Sponsors have agreed with the underwriters, subject to certain exceptions, not to dispose of or hedge any of our common stock or securities

convertible into or exchangeable for shares of common stock during the period from the date of this prospectus supplement continuing through the date 60 days after the date of this prospectus supplement, except with the prior written consent of Credit Suisse Securities (USA) LLC and Goldman, Sachs & Co. This agreement does not apply to any of our existing employee benefit plans.

We and the selling stockholder have agreed to indemnify the several underwriters against liabilities under the Securities Act, or contribute to payments that the underwriters may be required to make in that respect.

Our common stock is listed on The New York Stock Exchange, under the symbol KAR.

In connection with the offering the underwriters may engage in stabilizing transactions, over-allotment transactions, syndicate covering transactions and penalty bids in accordance with Regulation M under the Exchange Act of 1934.

Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.

Over-allotment involves sales by the underwriters of shares in excess of the number of shares the underwriters are obligated to purchase, which creates a syndicate short position. The short position may be either a covered short position or a naked short position. In a covered short position, the number of shares over-allotted by the underwriters is not greater than the number of shares that they may purchase by exercising their option to purchase additional shares. In a naked short position, the number of shares involved is greater than the number of shares subject to the underwriters' option to purchase additional shares. The underwriters may close out any covered short position by either exercising their option to purchase additional shares and/or purchasing shares in the open market.

Syndicate covering transactions involve purchases of the common stock in the open market after the distribution has been completed in order to cover syndicate short positions. In determining the source of shares to close out the short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the option to purchase additional shares. If the underwriters sell more shares than could be covered by the option to purchase additional shares, a naked short position, the position can only be closed out by buying shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.

Penalty bids permit the representatives to reclaim a selling concession from a syndicate member when the common stock originally sold by the syndicate member is purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions. These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of the common stock. As a result the price of our common stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on The New York Stock Exchange and, if commenced, may be discontinued at any time.

A prospectus in electronic format may be made available on the web sites maintained by one or more of the underwriters, or selling group members, if any, participating in this offering and one or more of the underwriters participating in this offering may distribute prospectuses electronically. The representatives may agree to allocate a number of shares to underwriters and selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the underwriters and selling group members that will make Internet distributions on the same basis as other allocations.

An affiliate of BMO Capital Markets Corp. is securitization agent under the Amended and Restated Receivables Purchase Agreement dated May 24, 2011, relating to AFC's Canadian securitization facility.

### **Conflict of Interest**

Because affiliates of Goldman, Sachs & Co. beneficially own more than 10% of our outstanding common stock, Goldman, Sachs & Co. is deemed to be an affiliate of the Company within the meaning of Rule 5121 of the Financial Industry Regulatory Authority, or Rule 5121, and is deemed to have a conflict of interest under Rule 5121. In addition, KAR LLC, the selling stockholder and an affiliate of Goldman, Sachs & Co., will receive all of the net proceeds of this offering. Accordingly, this offering will be made in compliance with the applicable provisions of Rule 5121 as required by Rule 5121. Because there is a bona fide public market (as defined in Rule 5121) for our common stock, the Rule 5121 requirement for the participation of a qualified independent underwriter does not apply to this offering.

### **Offering Restrictions**

#### **European Economic Area**

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive, each a Relevant Member State, each underwriter has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State it has not made and will not make an offer of the shares of common stock which are the subject of the offering contemplated by this prospectus supplement to the public in that Relevant Member State other than:

to any legal entity which is a qualified investor as defined in the Prospectus Directive;

to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the representatives for any such offer; or

in any other circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of shares shall require us or any underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of the above, (i) the expression an offer of shares of common stock to the public in relation to any shares of common stock in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the shares of common stock to be offered so as to enable an investor to decide to purchase or subscribe the shares of common stock, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, (ii) the expression Prospectus Directive means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State), and includes any relevant implementing measure in the Relevant Member State and (iii) the expression 2010 PD Amending Directive means Directive 2010/73/EU.

In the case of any common stock being offered to a financial intermediary as that term is used in Article 3(2) of the Prospectus Directive, such financial intermediary will also be deemed to have represented, acknowledged and agreed that the common stock acquired by it in the offering have not been acquired on a non-discretionary basis on behalf of, nor have they been acquired with a view to their offer or resale to persons in circumstances which may give rise to an offer of any securities to the public other than their offer or resale in a Relevant Member State to qualified investors as so defined or in circumstances in which the prior consent of the underwriters has been obtained to each such proposed offer or resale. KAR Auction Services, Inc. and the underwriters and their affiliates, and others will rely on the truth and accuracy of the foregoing representation, acknowledgment and agreement. Notwithstanding the above, a person who is not a qualified investor and who has notified the underwriters of such fact in writing may, with the consent of the underwriters, be permitted to subscribe for or purchase the common stock in the offering.

### **United Kingdom**

Each underwriter has represented and agreed that it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000) in connection with the issue or sale of the shares of common stock in circumstances in which Section 21(1) of such Act does not apply to KAR Auction Services, Inc. and that it has complied and will comply with all applicable provisions of such Act with respect to anything done by it in relation to any shares of common stock in, from or otherwise involving the United Kingdom.

### **Hong Kong**

The shares may not be offered or sold by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap.32, Laws of Hong Kong), or (ii) to professional investors within the meaning of the Securities and Futures Ordinance (Cap.571, Laws of Hong Kong) and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a prospectus within the meaning of the Companies Ordinance (Cap.32, Laws of Hong Kong), and no advertisement, invitation or document relating to the shares may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or
