NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Thirty-Nine Weeks Ended November 3, 2013 and October 28, 2012

(Unaudited)

NOTE A. FINANCIAL STATEMENTS - BASIS OF PRESENTATION

These financial statements include Williams-Sonoma, Inc. and its wholly owned subsidiaries (we, us or our). The Condensed Consolidated Balance Sheets as of November 3, 2013 and October 28, 2012, the Condensed Consolidated Statements of Earnings for the thirteen and thirty-nine weeks then ended, the Condensed Consolidated Statements of Comprehensive Income for the thirteen and thirty-nine weeks then ended, and the Condensed Consolidated Statements of Cash Flows for the thirty-nine weeks then ended have been prepared by us, without audit. In our opinion, the financial statements include all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position at the balance sheet dates and the results of operations for the thirteen and thirty-nine weeks then ended. Significant intercompany transactions and accounts have been eliminated. The balance sheet as of February 3, 2013, presented herein, has been derived from our audited Consolidated Balance Sheet included in our Annual Report on Form 10-K for the fiscal year ended February 3, 2013.

The results of operations for the thirteen and thirty-nine weeks ended November 3, 2013 are not necessarily indicative of the operating results of the full year.

Certain information and footnote disclosures normally included in the annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted. These financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended February 3, 2013.

NOTE B. STOCK-BASED COMPENSATION

Equity Award Programs

Our Amended and Restated 2001 Long-Term Incentive Plan (the Plan) provides for grants of incentive stock options, nonqualified stock options, stock-settled stock appreciation rights (collectively, option awards), restricted stock awards, restricted stock units, deferred stock awards (collectively, stock awards) and dividend equivalents up to an aggregate of 25,760,000 shares. As of November 3, 2013, there were 6,079,000 shares available for future grant. Awards may be granted under the Plan to officers, employees and non-employee Board members of the company or any parent or subsidiary. Annual grants are limited to 1,000,000 shares covered by option awards and 400,000 shares covered by stock awards on a per person basis. All grants of option awards made under the Plan have a maximum term of seven years. The exercise price of these option awards is not less than 100% of the closing price of our stock on the day prior to the grant date. Option awards and stock awards granted to employees generally vest over a period of four years. Certain option awards, stock awards and other agreements contain vesting acceleration clauses resulting from events including, but not limited to, retirement, merger or a similar corporate event. Option and stock awards granted to non-employee Board members generally vest in one year. Non-employee Board members automatically receive stock awards on the date of their initial election to the Board and annually thereafter on the date of the annual meeting of stockholders (so long as they continue to serve as a non-employee Board member).

Stock-Based Compensation Expense

We measure and record stock-based compensation expense in our Consolidated Financial Statements for all employee stock-based awards using a fair value method. During the thirteen and thirty-nine weeks ended November 3, 2013, we recognized total stock-based compensation expense, as a component of selling, general and administrative expenses, of \$9,968,000 and \$28,440,000, respectively (including stock-based compensation

Table of Contents

expense of \$1,341,000 for the thirty-nine weeks ended November 3, 2013, associated with the retirement of one of our former brand presidents). During the thirteen and thirty-nine weeks ended October 28, 2012, we recognized total stock-based compensation expense of \$7,686,000 and \$22,778,000, respectively (including stock-based compensation expense of \$3,019,000 for the thirty-nine weeks ended October 28, 2012, associated with the retirement of our former Executive Vice President, Chief Operating and Chief Financial Officer).

Balance at November 3, 2013	3,216,353
Vested plus expected to vest at November 3, 2013	2,189,311

NOTE C. EARNINGS PER SHARE

Basic earnings per share is computed as net earnings divided by the weighted average number of common shares outstanding for the period. Diluted earnings per share is computed as net earnings divided by the weighted average number of common shares outstanding for the period plus common stock equivalents. Common stock equivalents consist of shares subject to option awards with exercise prices less than or equal to the average market

Table of Contents

price of our common stock for the period, as well as restricted stock units, to the extent their inclusion would be dilutive.

The following is a reconciliation of net earnings and the number of shares used in the basic and diluted earnings per share computations:

<i>Dollars and amounts in thousands, except per share amounts</i>	Net Earnings	Weighted Average Shares	Earnings Per Share
Thirteen weeks ended November 3, 2013			
Basic	\$ 56,719	95,453	\$ 0.59

Diluted	\$ 56,719	97,863	\$ 0.58
Thirteen weeks ended October 28, 2012			
Basic	\$ 48,900	98,444	\$ 0.50
Effect of dilutive stock-based awards		1,974	
Diluted	\$ 48,900	100,418	\$ 0.49
Thirty-nine weeks ended November 3, 2013			
Basic	\$ 145,104	97,080	\$ 1.49
Effect of dilutive stock-based awards		1,995	
Diluted	\$ 145,104	99,075	\$ 1.46
Thirty-nine weeks ended October 28, 2012			
Basic	\$ 122,996	99,528	\$ 1.24
Effect of dilutive stock-based awards		1,757	
Diluted	\$ 122,996	101,285	\$ 1.21

There were no stock-based awards excluded from the computation of diluted earnings per share for the thirteen and thirty-nine weeks ended November 3, 2013. Stock-based awards of 1,210,000 and 1,604,000 for the thirteen and thirty-nine weeks ended October 28, 2012, respectively, were excluded from the computation of diluted earnings per share, as their inclusion would be anti-dilutive.

NOTE D. SEGMENT REPORTING

We have two reportable segments, direct-to-customer and retail. The direct-to-customer segment has seven merchandising concepts (Williams-Sonoma, Pottery Barn, Pottery Barn Kids, PBteen, West Elm, Rejuvenation and Mark and Graham) which sell our products through our e-commerce websites and direct-mail catalogs. Our direct-to-customer merchandising concepts are operating segments, which have been aggregated into one reportable segment, direct-to-customer. The retail segment has five merchandising concepts (Williams-Sonoma, Pottery Barn, Pottery Barn Kids, West Elm and Rejuvenation) which sell our products through our retail stores. Our retail merchandising concepts are operating segments, which have been aggregated into one reportable segment, retail. Management's expectation is that the overall economic characteristics of each of our operating segments will be similar over time based on management's judgment that the operating segments have had similar historical economic characteristics and are expected to have similar long-term financial performance in the future.

These reportable segments are strategic business units that offer similar home-centered products. They are managed separately because the business units utilize two distinct distribution and marketing strategies. Based on management's best estimate, our operating segments include allocations of certain expenses, including advertising and employment costs, to the extent they have been determined to benefit both channels. These operating segments are aggregated at the channel level for reporting purposes due to the fact that our brands are interdependent for economies of scale and we do not maintain fully allocated income statements at the brand level. As a result, material financial decisions related to the brands are made at the channel level. Furthermore, it is not practicable for us to report revenue by product group.

Table of Contents

We use operating income to evaluate segment profitability. Operating income is defined as earnings (loss) before net interest income or expense and income taxes. Unallocated costs before interest and income taxes include corporate employee-related costs, occupancy expenses (including depreciation expense), administrative costs and third party service costs, primarily in our corporate systems, corporate facilities and other administrative departments. Unallocated assets include corporate cash and cash equivalents, deferred income taxes, the net book value of corporate facilities and related information systems, and other corporate long-lived assets.

Income tax information by reportable segment has not been included as income taxes are calculated at a company-wide level and are not allocated to each reportable segment.

² Includes approximately \$59.3 million and \$31.3 million of long-term assets as of November 3, 2013 and October 28, 2012, respectively, related to our foreign operations.

NOTE E. COMMITMENTS AND CONTINGENCIES

We are involved in lawsuits, claims and proceedings incident to the ordinary course of our business. These disputes, which are not currently material, are increasing in number as our business expands and our company grows larger. Litigation is inherently unpredictable. Any claims against us, whether meritorious or not, could be time consuming, result in costly litigation, require significant amounts of management time and result in the diversion of significant operational resources. The results of these lawsuits, claims and proceedings cannot be predicted with certainty. However, we believe that the ultimate resolution of these current matters will not have a material adverse effect on our consolidated financial statements taken as a whole.

NOTE F. STOCK REPURCHASE PROGRAM AND DIVIDEND

Stock Repurchase Program

In March 2013, we announced that our Board of Directors had authorized a new stock repurchase program to purchase up to \$750,000,000 of our common stock, which we intend to execute over a three-year period. During the thirteen weeks ended November 3, 2013, we repurchased 1,527,327 shares of our common stock at an average cost of \$55.89 per share and a total cost of approximately \$85,363,000. During the thirty-nine weeks ended November 3, 2013, we repurchased 3,942,152 shares of our common stock at an average cost of \$54.89 per share and a total cost of approximately \$216,369,000.

Stock repurchases under this program may be made through open market and privately negotiated transactions at times and in such amounts as management deems appropriate. The timing and actual number of shares repurchased will depend on a variety of factors including price, corporate and regulatory requirements, capital availability and other market conditions. This stock repurchase program does not have an expiration date and may be limited or terminated at any time without prior notice.

During the thirteen weeks ended October 28, 2012, we repurchased 748,807 shares of our common stock at an average cost of \$41.69 per share and a total cost of \$31,217,000 under programs previously authorized by our Board of Directors. During the thirty-nine weeks ended October 28, 2012, we repurchased 3,278,078 shares of our common stock at an average cost of \$37.92 per share and a total cost of \$124,293,000 under programs previously authorized by our Board of Directors.

Dividend

Our cash dividend was \$0.31 and \$0.22 per common share for the thirteen weeks ended November 3, 2013 and October 28, 2012, respectively. Our cash dividend was \$0.93 and \$0.66 per common share for the thirty-nine weeks ended November 3, 2013 and October 28, 2012, respectively.

NOTE G. DERIVATIVE FINANCIAL INSTRUMENTS

Substantially all of our purchases and sales are denominated in U.S. Dollars, which limits our exposure to foreign currency exchange rate fluctuations. However, we are exposed to foreign currency exchange risk related to the transactions of our foreign subsidiaries. To mitigate this risk, in April 2013, we began utilizing foreign currency forward contracts in accordance with our risk management policies. We do not enter into such contracts for speculative purposes.

The assets or liabilities associated with the derivative instruments are measured at fair value and recorded in either other current assets or other current liabilities, respectively. As discussed below, the accounting for gains and losses resulting from changes in fair value depends on whether the derivative instrument is designated as a hedge and qualifies for hedge accounting in accordance with the Financial Accounting Standards Board Accounting Standard Codification (ASC) 815, *Derivatives and Hedging*. The majority of our foreign currency forward contracts entered into as of November 3, 2013 are designated as cash flow hedges and, therefore, protect us against the variability of forecasted foreign currency cash flows resulting from purchases in non-functional currencies.

Cash Flow Hedges

We enter into foreign currency forward contracts designated as cash flow hedges for forecasted inventory purchases in U.S. dollars by our foreign subsidiaries. These hedges generally have terms of up to twelve months. All hedging relationships are formally documented, and the hedges are designed to offset changes to future cash flows on hedged transactions. We record the effective portion of changes in the fair value of our derivative instruments designated as cash flow hedges in other comprehensive income (OCI) until the earlier of either the

Table of Contents

hedged forecasted inventory purchase occurs or the respective contracts reach maturity. Subsequently, as the inventory is sold to the customer, we reclassify the amounts previously recorded in OCI to cost of goods sold. Changes in fair value of the forward contract related to interest charges or forward points are excluded from the assessment and measurement of hedge effectiveness and are recorded immediately in other income (expense), net. As of November 3, 2013, we had foreign currency forward contracts in place to sell Canadian dollars and buy U.S. dollars totaling \$23,800,000, consisting of \$18,000,000 designated as cash flow hedges and \$5,800,000 no longer designated as cash flow hedges due to the related inventory purchases having occurred. Based on the rates in effect on November 3, 2013, we would expect to reclassify a net gain of approximately \$211,000 from OCI to cost of goods sold over the next 12 months.

In addition, as of November 3, 2013, we had non-designated foreign currency forward contracts in place to sell Australian dollars and buy U.S. dollars totaling \$7,000,000. These contracts allow us to reduce the exchange rate risk associated with our assets and liabilities denominated in a foreign currency. Any foreign exchange gains (losses) related to these contracts are recognized in other income (expense).

There were no foreign currency forward contracts outstanding as of October 28, 2012.

Hedge effectiveness is evaluated prospectively at inception, on an ongoing basis, as well as retrospectively using regression analysis. Any measureable ineffectiveness of the hedge is recorded in other income (expense), net. No gain or loss was recognized for cash flow hedges due to hedge ineffectiveness and all hedges were deemed effective for assessment purposes for the thirteen and thirty-nine weeks ended November 3, 2013.

The effect of derivative instruments in our Condensed Consolidated Financial Statements, pre-tax, was as follows:

	Thirteen Weeks Ended	Thirty-Nine Weeks Ended
<i>Dollars in thousands</i>	November 3, 2013	November 3, 2013

(a) Changes in fair value of the forward contract related to interest charges or forward points

(b) Changes in fair value subsequent to de-designation for instruments no longer designated as cash flow hedges, and changes in fair value related to instruments not designated as cash flow hedges

The fair values of our derivative financial instruments are presented below. All fair values for these derivatives were measured using Level 2 inputs as defined by the fair value hierarchy described in Note H.

<i>Dollars in thousands</i>	Balance sheet location	November 3, 2013

Table of Contents

We record all derivative assets and liabilities on a gross basis. They do not meet the balance sheet netting criteria as discussed in ASC 210, *Balance Sheet*, because we do not have master netting agreements established with our derivative counterparties that would allow for net settlement.

Amounts recorded within accumulated other comprehensive income (AOCI) associated with our derivative instruments were as follows:

<i>Dollars in thousands</i>	Thirteen Weeks Ended

NOTE H. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

We determine the fair value of financial and non-financial assets and liabilities using the fair value hierarchy established by ASC 820, *Fair Value Measurement*, which defines three levels of inputs that may be used to measure fair value, as follows:

Level 1 inputs which include quoted prices in active markets for identical assets or liabilities;

Level 2 inputs which include observable inputs other than Level 1 inputs, such as quoted prices for similar assets or liabilities; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the asset or liability. These inputs either represent quoted prices for similar assets in active markets or have been derived from observable market data; and

Level 3 inputs which include unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the underlying asset or liability.

The fair values of our cash and cash equivalents are based on Level 1 inputs, which include quoted prices in active markets for identical assets.

Foreign Currency Derivatives and Hedging Instruments

We use the income approach to value our derivatives using observable Level 2 market data at the measurement date and standard valuation techniques to convert future amounts to a single present value amount, assuming that participants are motivated but not compelled to transact. Level 2 inputs are limited to quoted prices that are observable for the assets and liabilities, which include interest rates and credit risk ratings. We use mid-market pricing as a practical expedient for fair value measurements. Key inputs for currency derivatives are the spot rates, forward rates, interest rates and credit derivative market rates.

Table of Contents

The counterparties associated with our foreign currency forward contracts are large credit-worthy financial institutions, and the derivatives transacted with these entities are relatively short in duration, therefore, we do not consider counterparty concentration and non-performance to be material risks at this time. Both we and our counterparties are expected to perform under the contractual terms of the instruments. None of the derivative contracts entered into are subject to credit risk-related contingent features or collateral requirements. Our policy is to present the fair value of our foreign currency derivatives on a gross basis in our Balance Sheet as these instruments are not subject to legal right of offset or other netting arrangements with our counterparties.

There were no transfers between Level 1 and Level 2 categories during the thirteen and thirty-nine weeks ended November 3, 2013.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements that involve risks and uncertainties, as well as assumptions that, if they do not fully materialize or are proven incorrect, could cause our business and results of operations to differ materially from those expressed or implied by such forward-looking statements. Such forward-looking statements include statements related to: the execution of our strategies; our planned use of cash; our expected operating costs in foreign countries; the seasonality in our business; our compliance with our financial covenants; and our belief that our cash on-hand, in addition to our available credit facilities, will provide adequate liquidity for our business operations over the next 12 months, as well as statements of belief and statements of assumptions underlying any of the foregoing. You can identify these and other forward-looking statements by the use of words such as may, should, expects, plans, anticipates, believes, estimates, predicts, intends, potential, continue, or the negative of such terms, or other comparable terminology. The risks, uncertainties and assumptions referred to above that could cause our results to differ materially from the results expressed or implied by such forward-looking statements include, but are not limited to, those discussed under the heading Risk Factors in this document and our Annual Report on Form 10-K for the year ended February 3, 2013, and the risks, uncertainties and assumptions discussed from time to time in our other public filings and public announcements. All forward-looking statements included in this document are based on information available to us as of the date hereof, and we assume no obligation to update these forward-looking statements.

OVERVIEW

Williams-Sonoma, Inc. is a specialty retailer of high-quality products for the home. These products, representing distinct merchandise strategies Williams-Sonoma, Pottery Barn, Pottery Barn Kids, PBteen, West Elm, Williams-Sonoma Home, Rejuvenation, and Mark and Graham are marketed through e-commerce websites, direct mail catalogs and 595 stores. We currently operate in the U.S., Canada, and Australia and offer international shipping to customers worldwide. Our catalogs reach customers throughout the U.S. and Australia and one of our unaffiliated franchisees operates 27 stores in the Middle East.

The following discussion and analysis of financial condition, results of operations, and liquidity and capital resources for the thirteen weeks ended November 3, 2013 (third quarter of fiscal 2013), as compared to the thirteen weeks ended October 28, 2012 (third quarter of fiscal 2012) and the thirty-nine weeks ended November 3, 2013 (year-to-date 2013), as compared to the thirty-nine weeks ended October 28, 2012 (year-to-date 2012), should be read in conjunction with our Condensed Consolidated Financial Statements and the notes thereto.

All explanations of changes in operational results are discussed in order of their magnitude.

Table of Contents*Third Quarter of Fiscal 2013 Financial Results*

In the third quarter of fiscal 2013, our net revenues increased 11.3% to \$1,051,548,000, compared to \$944,554,000 in the third quarter of fiscal 2012, including a comparable brand revenue increase of 8.2%. Diluted earnings per share in the third quarter of fiscal 2013 increased to \$0.58, versus \$0.49 in the third quarter of fiscal 2012, and we returned \$115,000,000 to our stockholders through stock repurchases and dividends.

Direct-to-customer net revenues in the third quarter of fiscal 2013 increased \$64,759,000, or 14.5%, compared to the third quarter of fiscal 2012, primarily driven by Pottery Barn and West Elm. Direct-to-customer net revenues generated 49% of our total company net revenues in the third quarter of fiscal 2013 compared to 47% in the third quarter of fiscal 2012.

Retail net revenues in the third quarter of fiscal 2013 increased \$42,235,000, or 8.5%, compared to the third quarter of fiscal 2012, driven primarily by Pottery Barn and West Elm. Including five net new stores within the third quarter of fiscal 2013, retail leased square footage increased 1.6% from the end of the third quarter of fiscal 2012.

In Pottery Barn, our largest brand, comparable brand revenues increased 8.4% in the third quarter of fiscal 2013 compared to the third quarter of fiscal 2012, driven by both channels in all key categories. In the Williams-Sonoma brand, comparable brand revenues increased 1.4% in the third quarter of fiscal 2013 compared to the third quarter of fiscal 2012. Our autumnal and Halloween assortments, along with exclusive products from key vendors and our branded products, contributed to this growth. In Pottery Barn Kids, comparable brand revenues grew by 3.9% in the third quarter of fiscal 2013, on top of 10.1% in the third quarter of fiscal 2012. We saw strength in our seasonal business and growth in decorative accessories, furniture and textiles. In West Elm, comparable brand revenues increased 22.2% in the third quarter of fiscal 2013 on top of 13.0% in the third quarter of fiscal 2012. West Elm brand growth continues to be driven by all categories, including furniture, textiles, decorative accessories and lighting. In PBteen, comparable brand revenues increased 16.7% in the third quarter of fiscal 2013 compared to the third quarter of fiscal 2012, driven by strength in furniture and textiles.

Results of Operations**NET REVENUES**

Net revenues consist of direct-to-customer net revenues and retail net revenues. Direct-to-customer net revenues include sales of merchandise to customers through our e-commerce websites and our catalogs, as well as shipping fees. Retail net revenues include sales of merchandise to customers at our retail stores, as well as shipping fees on any products shipped to our customers' homes. Shipping fees consist of revenue received from customers for delivery of merchandise to their homes. Revenues are presented net of sales returns and other discounts.

The following table summarizes our net revenues for the third quarter of fiscal 2013 and fiscal 2012, and year-to-date 2013 and 2012:

<i>Dollars in thousands</i>	Thirteen Weeks Ended				Thirty-Nine Weeks Ended

Net revenues in the third quarter of fiscal 2013 increased by \$106,994,000, or 11.3%, compared to the third quarter of fiscal 2012, with comparable brand revenue growth of 8.2%. This increase was primarily driven by the Pottery Barn and West Elm brands.

Table of Contents

Net revenues for year-to-date 2013 increased by \$285,114,000 or 10.8%, compared to year-to-date 2012, with comparable brand revenue growth of 8.0%. This increase was primarily driven by the Pottery Barn and West Elm brands.

Comparable Brand Revenue Growth

Comparable brand revenues include retail comparable store sales and direct-to-customer sales, as well as shipping fees, sales returns and other discounts associated with current period sales. Outlet comparable store net revenues are included in their respective brands. Sales related to our international franchised stores have been excluded as these stores are not operated by us. Comparable stores are defined as permanent stores in which gross square footage did not change by more than 20% in the previous 12 months and which have been open for at least 12 consecutive months without closure for seven or more consecutive days.

Percentages represent changes in comparable brand revenues compared to the same period in the prior year.

Table of Contents

Cost of goods sold includes cost of goods, occupancy expenses and shipping costs. Cost of goods consists of cost of merchandise, inbound freight expenses, freight-to-store expenses and other inventory related costs such as shrinkage, damages and replacements. Occupancy expenses consist of rent, depreciation and other occupancy costs, including common area maintenance and utilities. Shipping costs consist of third party delivery services and shipping materials.

Our classification of expenses in cost of goods sold may not be comparable to other public companies, as we do not include non-occupancy related costs associated with our distribution network in cost of goods sold. These costs, which include distribution network employment, third party warehouse management and other distribution-related administrative expenses, are recorded in selling, general and administrative expenses.

Within our reportable segments, the direct-to-customer channel does not incur freight-to-store or store occupancy expenses, and typically operates with lower markdowns and inventory shrinkage than the retail channel. However, the direct-to-customer channel incurs higher customer shipping, damage and replacement costs than the retail channel.

Third Quarter of Fiscal 2013 vs. Third Quarter of Fiscal 2012

Cost of goods sold increased by \$69,604,000, or 12.1%, in the third quarter of fiscal 2013 compared to the third quarter of fiscal 2012. Cost of goods sold as a percentage of net revenues increased to 61.4% in the third quarter of fiscal 2013 from 61.0% in the third quarter of fiscal 2012. This increase was primarily driven by lower selling margins, partially offset by the leverage of fixed occupancy expenses due to increasing net revenues.

In the direct-to-customer channel, cost of goods sold as a percentage of net revenues increased in the third quarter of fiscal 2013 compared to the third quarter of fiscal 2012 primarily driven by lower selling margins.

In the retail channel, cost of goods sold as a percentage of net revenues increased in the third quarter of fiscal 2013 compared to the third quarter of fiscal 2012 primarily driven by lower selling margins.

Year-to-Date 2013 vs. Year-to-Date 2012

Cost of goods sold for year-to-date 2013 increased by \$188,361,000, or 11.6%, compared to year-to-date 2012. Cost of goods sold as a percentage of net revenues increased to 62.1% for year-to-date 2013 from 61.6% for year-to-date 2012. This increase was primarily driven by lower selling margins, partially offset by the leverage of fixed occupancy expenses due to increasing net revenues.

In the direct-to-customer channel, cost of goods sold as a percentage of net revenues increased for year-to-date 2013 compared to year-to-date 2012 primarily driven by lower selling margins and an increase in occupancy expenses.

In the retail channel, cost of goods sold as a percentage of net revenues increased for year-to-date 2013 compared to year-to-date 2012 primarily driven by lower selling margins.

Table of Contents

Selling, general and administrative expenses consist of non-occupancy related costs associated with our retail stores, distribution warehouses, customer care centers, supply chain operations (buying, receiving and inspection) and corporate administrative functions. These costs include employment, advertising, third party credit card processing and other general expenses.

We experience differing employment and advertising costs as a percentage of net revenues within the retail and direct-to-customer channels due to their distinct distribution and marketing strategies. Store employment costs represent a greater percentage of retail net revenues than employment costs as a percentage of net revenues within the direct-to-customer channel. However, advertising expenses are higher within the direct-to-customer channel than in the retail channel.

Third Quarter of Fiscal 2013 vs. Third Quarter of Fiscal 2012

Selling, general and administrative expenses increased by \$24,192,000, or 8.4%, in the third quarter of fiscal 2013 compared to the third quarter of fiscal 2012. Selling, general and administrative expenses as a percentage of net revenues decreased to 29.8% in the third quarter of fiscal 2013 from 30.6% in the third quarter of fiscal 2012. This decrease as a percentage of net revenues was primarily driven by the leverage of advertising and employment costs due to increasing net revenues.

In the direct-to-customer channel, selling, general and administrative expenses as a percentage of net revenues decreased in the third quarter of fiscal 2013 compared to the third quarter of fiscal 2012 primarily driven by the leverage of advertising costs due to increasing net revenues, partially offset by an increase in employment costs.

In the retail channel, selling, general and administrative expenses as a percentage of net revenues decreased in the third quarter of fiscal 2013 compared to the third quarter of fiscal 2012 primarily driven by the leverage of employment costs due to increasing net revenues.

Year-to-Date 2013 vs. Year-to-Date 2012

Selling, general and administrative expenses for year-to-date 2013 increased by \$61,112,000, or 7.5%, compared to year-to-date 2012. Including employee separation charges of \$2,932,000, selling, general and administrative expenses as a percentage of net revenues decreased to 29.9% for year-to-date 2013 from 30.8% for year-to-date 2012 (which included employee separation charges of \$6,935,000). This decrease as a percentage of net revenues was primarily driven by the leverage of advertising and employment costs due to increasing net revenues and a reduction in year-over-year employee separation charges.

In the direct-to-customer channel, selling, general and administrative expenses as a percentage of net revenues decreased for year-to-date 2013 compared to year-to-date 2012 primarily driven by the leverage of advertising costs due to increasing net revenues.

In the retail channel, selling, general and administrative expenses as a percentage of net revenues decreased for year-to-date 2013 compared to year-to-date 2012 primarily driven by the leverage of employment costs due to increasing net revenues.

INCOME TAXES

The effective tax rate was 38.2% for year-to-date 2013 and 38.3% for year-to-date 2012.

LIQUIDITY AND CAPITAL RESOURCES

As of November 3, 2013, we held \$128,759,000 in cash and cash equivalent funds, the majority of which is held in money market funds and interest-bearing demand deposit accounts. As is consistent within our industry, our

Table of Contents

cash balances are seasonal in nature, with the fourth quarter historically representing a significantly higher level of cash than other periods.

Throughout the fiscal year, we utilize our cash balances to build our inventory levels in preparation for our fourth quarter holiday sales. In fiscal 2013, we plan to use our cash resources to fund our inventory and inventory related purchases, advertising and marketing initiatives, stock repurchases, purchases of property and equipment and dividend payments. In addition to the current cash balances on hand, we have a credit facility that provides for a \$300,000,000 unsecured revolving line of credit that may be used for loans or letters of credit. Prior to December 22, 2016, we may, upon notice to the lenders, request an increase in the credit facility of up to \$200,000,000 to provide for a total of \$500,000,000 of unsecured revolving credit. During the thirteen and thirty-nine weeks ended November 3, 2013 and October 28, 2012, we had no borrowings under the credit facility, and no amounts were outstanding as of November 3, 2013 or October 28, 2012. However, as of November 3, 2013, \$3,720,000 in issued but undrawn standby letters of credit was outstanding under the credit facility. Additionally, as of November 3, 2013, we had three unsecured letter of credit reimbursement facilities for a total of \$70,000,000, of which an aggregate of \$16,347,000 was outstanding. These letter of credit facilities represent only a future commitment to fund inventory purchases to which we had not taken legal title. We are currently in compliance with all of our financial covenants and, based on our current projections, we expect to remain in compliance throughout fiscal 2013. We believe our cash on hand, in addition to our available credit facilities, will provide adequate liquidity for our business operations over the next 12 months.

Cash Flows from Operating Activities

For year-to-date 2013, net cash provided by operating activities was \$148,675,000 compared to \$62,383,000 for year-to-date 2012. For year-to-date 2013, net cash provided by operating activities was primarily attributable to an increase in net earnings adjusted for non-cash items and an increase in accounts payable resulting from the timing of payments, partially offset by an increase in merchandise inventories. This represents an increase in net cash provided compared to year-to-date 2012 primarily due to an increase in accounts payable resulting from the timing of payments and an increase in adjusted net earnings, partially offset by an increase in merchandise inventories.

Cash Flows from Investing Activities

For year-to-date 2013, net cash used in investing activities was \$142,001,000 compared to \$117,946,000 for year-to-date 2012, and was primarily attributable to purchases of property and equipment. Net cash used compared to year-to-date 2012 increased primarily due to an increase in purchases of property and equipment.

Cash Flows from Financing Activities

For year-to-date 2013, net cash used in financing activities was \$301,161,000 compared to \$185,567,000 for year-to-date 2012. For year-to-date 2013, net cash used in financing activities was primarily attributable to repurchases of common stock and the payment of dividends. Net cash used compared to year-to-date 2012 increased primarily due to an increase in repurchases of common stock.

Critical Accounting Policies

Management's Discussion and Analysis of Financial Condition and Results of Operations is based on our condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to

Table of Contents

make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. The estimates and assumptions are evaluated on an ongoing basis and are based on historical experience and various other factors that we believe to be reasonable under the circumstances. Actual results may differ significantly from these estimates. During the third quarter of fiscal 2013, there have been no significant changes to the critical accounting policies discussed in our Annual Report on Form 10-K for the year ended February 3, 2013.

Seasonality

Our business is subject to substantial seasonal variations in demand. Historically, a significant portion of our revenues and net earnings have been realized during the period from October through January, and levels of net revenues and net earnings have typically been lower during the period from February through September. We believe this is the general pattern associated with the retail industry. In anticipation of our peak season, we hire a substantial number of additional temporary employees in our retail stores, customer care centers and distribution centers, and incur significant fixed catalog production and mailing costs.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risks, which include significant deterioration of the U.S. and foreign markets, changes in U.S. interest rates, foreign currency exchange rates, including the devaluation of the U.S. dollar, and the effects of uncertain economic forces which may affect the prices we pay our vendors in the foreign countries in which we do business. We do not engage in financial transactions for trading or speculative purposes.

Interest Rate Risk

Our line of credit facility is the only instrument we hold with a variable interest rate which could, if drawn upon, subject us to risks associated with changes in that interest rate. As of November 3, 2013, there were no amounts outstanding under our credit facility.

In addition, we have fixed and variable income investments consisting of short-term investments classified as cash and cash equivalents, which are also affected by changes in market interest rates. As of November 3, 2013, our investments, made primarily in money market funds and interest-bearing demand deposit accounts, are stated at cost and approximate their fair values.

Foreign Currency Risks

We purchase a significant amount of inventory from vendors outside of the U.S. in transactions that are denominated in U.S. dollars. Approximately 3% of our international purchase transactions are in currencies other than the U.S. dollar, primarily the euro. Any currency risks related to these international purchase transactions were not significant to us during year-to-date 2013 or year-to-date 2012. Since we pay for the majority of our international purchases in U.S. dollars, however, a decline in the U.S. dollar relative to other foreign currencies would subject us to risks associated with increased purchasing costs from our vendors in their effort to offset any lost profits associated with any currency devaluation. We cannot predict with certainty the effect these increased costs may have on our financial statements or results of operations.

In addition, our retail stores in Canada and Australia, and our limited operations in Asia and Europe, expose us to market risk associated with foreign currency exchange rate fluctuations. Substantially all of our purchases and sales are denominated in U.S. dollars, which limits our exposure to this risk and, as such, these exchange rate fluctuations have not been material to us in the past. However, as we continue to expand globally, we are exposed to foreign currency exchange risk related to the transactions of our foreign subsidiaries. To mitigate this risk, beginning in April 2013, we began utilizing foreign currency forward contracts in accordance with our risk management policies (see Note G to our Condensed Consolidated Financial Statements).

Table of Contents**ITEM 4. CONTROLS AND PROCEDURES***Evaluation of Disclosure Controls and Procedures*

As of November 3, 2013, an evaluation was performed by management, with the participation of our Chief Executive Officer (CEO) and our Chief Financial Officer (CFO), of the effectiveness of our disclosure controls and procedures. Based on that evaluation, our management, including our CEO and CFO, concluded that our disclosure controls and procedures are effective to ensure that information we are required to disclose in reports that we file or submit under the Securities Exchange Act of 1934 is accumulated and communicated to our management, including our CEO and CFO, as appropriate, to allow for timely discussions regarding required disclosures, and that such information is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC.

Changes in Internal Control Over Financial Reporting

There was no change in our internal control over financial reporting that occurred during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
