Company Overview

We are a diversified power generation and utility company organized into six market-oriented Strategic Business Units (SBUs): US (United States), Andes (Chile, Colombia and Argentina), Brazil, MCAC (Mexico, Central America and Caribbean), EMEA (Europe, Middle East and Africa) and Asia. We were incorporated in 1981.

Strategy

Our strategic plan intends to maximize the risk-adjusted value of our portfolio through our efforts to execute upon the following objectives:

First, we are managing our portfolio of generation and utility businesses to create value for our stakeholders, including customers and stockholders, through safe, reliable and sustainable operations and effective cost management.

Second, we are driving our operating business to manage capital more effectively and to increase the amount of discretionary cash available for deployment into debt repayment, growth investments, stockholder dividends and share buybacks.

Third, we are realigning our geographic focus. To this end, we will continue to exit markets where we do not have a competitive advantage or where we are unable to earn a fair risk-adjusted return relative to monetization alternatives. In addition, we will focus our growth investments on platform expansions or opportunities to expand our existing operations.

Finally, we are working to reduce the cash flow and earnings volatility of our businesses by proactively managing our currency, commodity and political risk exposures, mostly through contractual and regulatory mechanisms, as well as commercial hedging activities. We also will continue to limit our risk by utilizing non-recourse project financing for the majority of our businesses.

Table of Contents**Business Lines & Strategic Business Units**

Within our six SBUs, as discussed above, we have two lines of business. The first business line is generation, where we own and/or operate power plants to generate and sell power to customers, such as utilities, industrial users and other intermediaries. The second business line is utilities, where we own and/or operate utilities to generate or purchase, distribute, transmit and sell electricity to end-user customers in the residential, commercial, industrial and governmental sectors within a defined service area. In certain circumstances, our utilities also generate and sell electricity on the wholesale market.

The following table summarizes our generation business by capacity and facilities and our utilities business by customers, capacity and facilities for each SBU as of September 30, 2013.

(1) 29,867 proportional MW. Proportional MW is equal to gross MW times AES' equity ownership percentage.

Generation

We currently own and/or operate a generation portfolio of approximately 30,000 MW, excluding the generation capabilities of our integrated utilities. Our generation fleet is diversified by fuel type. As a percentage of installed capacity, natural gas and coal each account for 36% and 29%, respectively, of our generating capacity. Renewables, primarily hydro, wind and solar, represent 30% of our generating capacity, and oil, diesel and petroleum coke comprise the rest.

Performance drivers of our generation businesses include types of electricity sales agreements, plant reliability and flexibility, fuel costs, fixed-cost management, sourcing and competition.

Utilities

AES's nine utility businesses distribute power to more than 10 million people in four countries. These businesses also include generation capacity totaling approximately 7,900 MW. These businesses have a variety of structures, ranging from integrated utility to pure transmission and distribution businesses.

Table of Contents

In general, our utilities sell electricity directly to end-users, such as homes and businesses, and bill customers directly. Key performance drivers for utilities include the regulated rate of return and tariff, seasonality, weather variations, economic activity, reliability of service and competition.

Recent Events

Common Stock Repurchase Program and Concurrent Stock Repurchase

On December 11, 2013, our Board of Directors increased the size of our common stock repurchase program by authorizing the repurchase of up to an additional \$211 million of our common stock (above the amounts previously authorized by the Board of Directors). Accordingly, the total amount of share repurchases authorized by our Board of Directors is \$1,191 million, of which approximately \$741 million has been utilized, leaving approximately \$450 million available. Under the common stock repurchase program, our management, subject to review of pricing and other terms by our Chief Executive Officer and the Chairman of the Board (or a delegate of each), is authorized to make purchases of our outstanding common stock in one or more transactions, including through open-market repurchases, Rule 10b5-1 plans and privately negotiated transactions, in management's discretion.

Pursuant to the common stock repurchase program, we have entered into an agreement with the selling stockholder to repurchase 20,000,000 shares of our common stock, concurrently with the closing of this offering, directly from the selling stockholder in a private, non-underwritten transaction at a price per share of \$12.912, for an aggregate purchase price of \$258,240,000. We intend to fund the Concurrent Stock Repurchase from borrowings under our revolving credit facility, and also from cash on hand. The funding of the Concurrent Stock Repurchase will, if completed, increase the amount of debt on our balance sheet, although we intend to repay any revolver borrowings upon receipt of dividends from certain of our subsidiaries expected by fiscal year-end. The shares of our common stock repurchased in the Concurrent Stock Repurchase will be held in treasury. The consummation of the Concurrent Stock Repurchase is contingent on the closing of this offering and the satisfaction of certain other customary conditions. The terms and conditions of the Concurrent Stock Repurchase were reviewed and approved by our Board of Directors, other than the director nominee of the selling stockholder, who recused himself from the Board's deliberations. In addition, the Board of Directors engaged Barclays Capital Inc. to act as its financial advisor in connection with the Concurrent Stock Repurchase.

The closing of this offering is not contingent on the consummation of the Concurrent Stock Repurchase, and there can be no assurance that the Concurrent Stock Repurchase will be consummated.

Table of Contents

The description and other information in this prospectus supplement regarding the Concurrent Stock Repurchase and our stock repurchase program generally are included in this prospectus supplement solely for informational purposes. Nothing in this prospectus supplement should be construed as an offer to sell, or the solicitation of an offer to buy, any shares of our common stock subject to the Concurrent Stock Repurchase or subject to any remaining authorized amount under our stock repurchase program.

Other Events

In November 2013 we signed an agreement to sell 100% of our equity interest in two subsidiaries: Condon Wind Power LLC, which holds our interest in Condon, Oregon, and AES Mid-West Holdings, L.L.C., which holds our interest in Lake Benton, Minnesota and Storm Lake, Iowa, for \$27 million, subject to customary purchase price adjustments. The terms of the sale agreement include an option to purchase 100% of our interest in Armenia Mountain, Pennsylvania. The sale of Condon Wind Power LLC and AES Mid-West Holdings, L.L.C. is expected to close in January of 2014, and we expect to recognize a pretax loss, net of noncontrolling interest, of between \$30 million and \$35 million in connection with the sale in the fourth quarter of 2013. These businesses are reported in the US Generation segment and will be reported as discontinued operations beginning in the fourth quarter of 2013.

We are currently performing our annual goodwill impairment evaluation as of October 1, 2013. DP&L, one of two reporting units within DPL Inc., with \$623 million in goodwill as of September 30, 2013, has failed Step 1 of the impairment evaluation, which tests whether the reporting unit's carrying value exceeds its fair value. Additionally, certain U.S. wind generation businesses with aggregate goodwill of approximately \$35 million as of September 30, 2013 have also failed Step 1 of the impairment evaluation. Step 2 of the evaluation, which measures the fair value of individual assets and liabilities to determine if goodwill is impaired, is currently in process for both balances, and may result in the impairment of all, or a portion of, the related goodwill.

Additionally, we are in the early stages of impairment analysis for several of our long-lived assets. At this time, we cannot determine whether this analysis will result in the recognition of additional impairment expense.

As disclosed in our Annual Report, Eletropaulo has ongoing discussions with the Brazilian regulator (ANEEL) at the administrative level regarding the parameters of the tariff reset applied in July 2012, retroactive to July 2011. The main discussions are related to the tariffs applied before July 4th, 2011 and involve the shielded regulatory asset base and whether adjustments should be made to it (which adjustments could require refunds to customers beginning in the third quarter of 2014). Eletropaulo believes it has meritorious arguments and that no adjustments to the shielded regulatory asset base are necessary; however, there can be no assurance that Eletropaulo will prevail on this matter. If Eletropaulo does not prevail at the administrative level or in the courts, the financial impact could be material to our results of operations and cash flow. The company believes it is possible that greater clarity will be received from ANEEL by year-end.

Common stock repurchase program; Concurrent Stock Repurchase from selling stockholder	Our Board of Directors has authorized the repurchase of up to an additional \$211 million of our common stock (above the amounts previously authorized by the Board of Directors), which, based on prior amounts utilized, leaves approximately \$450 million available for repurchases under our common stock repurchase program. RISK FACTORS

An investment in our common stock involves a high degree of risk. Before deciding to invest in our common stock, you should carefully consider the risks set forth below and under the heading Risk Factors beginning on page 70 of our Annual Report, which is incorporated by reference into this prospectus supplement, as well as any risks set forth in our Quarterly Reports, which are also incorporated by reference into this prospectus supplement. In addition, you should carefully consider the other information in the Annual Report, Quarterly Reports and other reports we file from time to time with the SEC that are incorporated by reference into this prospectus supplement. See Where You Can Find More Information and Incorporation of Information by Reference.

The risks and uncertainties set forth below and referred to above are not the only risks and uncertainties that we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations. If any of these risks actually occurs, our business, financial condition and results of operations could be materially adversely affected.

Risks Relating to this Offering and Our Common Stock

Future sales of our shares could depress the market price of our common stock.

Except as described in Underwriting , neither we nor the selling stockholder are restricted from selling additional common stock in the future, including securities that are convertible into or exchangeable for, or that represent the right to receive, common stock. The market price of our common stock could decline as a result of sales of shares of our common stock made after this offering or the perception that such sales could occur, and these sales, or the possibility that these sales may occur, could make it more difficult for us to sell equity securities in the future at a time and at a price that we deem appropriate. In the future, we may issue our common stock in connection with investments or acquisitions. The amount of such common stock issued could constitute a material portion of our then outstanding common stock.

Additional issuances of equity securities would dilute the ownership of our existing stockholders and could reduce our earnings per share.

We may issue equity securities in the future in connection with capital raisings, acquisitions, strategic transactions or for other purposes. To the extent we issue a substantial number of additional equity securities, the ownership of our existing stockholders would be diluted and our earnings per share could be reduced.

The price of our common stock may fluctuate significantly, which could negatively affect us and holders of our common stock.

The market price of our common stock may fluctuate significantly from time to time as a result of many factors, including:

investors' perceptions of our prospects;

investors' perceptions of the prospects of the commodities markets and more broadly, the energy markets;

differences between our actual financial and operating results and those expected by investors and analysts;

changes in analyst reports, recommendations or earnings estimates regarding us, other comparable companies or the industry generally, and our ability to meet those estimates;

actual or anticipated fluctuations in quarterly financial operating results;

S-9

volatility in the equity securities market;

sales, or anticipated sales, of large blocks of our stock; and

those factors referred to in these Risk Factors, and under the heading Risk Factors beginning on page 70 of our Annual Report, which is incorporated by reference into this prospectus supplement, as well as any risks set forth in our Quarterly Reports, which are also incorporated by reference into this prospectus supplement.

Broad market and industry factors may adversely affect the market price of our common stock, regardless of our actual operating performance. As a result, shares of our common stock may trade at prices significantly below the price at which you purchased them.

If securities or industry analysts do not publish research or publish inaccurate or unfavorable research about our business, our share price and trading volume could decline.

The trading market for our common stock will depend in part on the research and reports that securities or industry analysts publish about us or our business. If few securities or industry analysts cover our company, the trading price for our common shares would be negatively impacted. If one or more of the analysts who covers us downgrades our common stock or publishes inaccurate or unfavorable research about our business, our share price would likely decline. If one or more of these analysts ceases coverage of us or fails to publish reports on us regularly, demand for our common stock could decrease, which could cause our share price and trading volume to decline.

All of the shares of common stock offered by this prospectus supplement will be sold by the selling stockholder. We will not receive any of the proceeds from the sale of our common stock by the selling stockholder.

Description of Certain Provisions of Our Certificate of Incorporation and By-Laws

Our Certificate of Incorporation and By-Laws contain several provisions that may make the acquisition of control of us through a tender offer, open market purchases, a proxy fight or otherwise more difficult. Below is a description of certain of these provisions in the Certificate of Incorporation and By-Laws.

Special Meetings of Stockholders. Our By-Laws provide that, unless otherwise prescribed by law or by the Certificate of Incorporation, special meetings of stockholders may be called by a resolution adopted by a majority of the entire Board of Directors, by the Chairman of the Board or by the President. Only business as specified in the notice of stockholders of the special meeting shall be considered.

Stockholder Nomination of Directors. Our By-Laws contain a procedure for stockholder nomination of directors. The By-Laws provide that any record owner of stock entitled to be voted generally in the election of directors may nominate one or more persons for election as a director at a stockholders meeting only if written notice is given to our secretary of the intent to make a nomination. The notice must be given, with respect to an

S-13

annual meeting, not less than 90 days in advance of the annual meeting. With respect to a special meeting, the notice must be given not later than the close of business on the seventh day following the earlier of:

the date on which notice of such special meeting is first given to stockholders; and

the date on which a public announcement of such meeting is first made.

Each notice must, among other things, include:

the name and address of each stockholder who intends to appear in person or by proxy to make the nomination and of the person or persons to be nominated;

a description of all arrangements or understandings between the stockholder and each nominee and any other person or persons (naming them) pursuant to which the nomination is to be made by the stockholder;

other information regarding each nominee proposed as would have been included in a proxy statement filed pursuant to Regulation 14A under the Exchange Act; and

the consent of each nominee to serve if elected.

The presiding officer of the meeting may refuse to acknowledge the nomination of any person not made in compliance with this procedure.

The procedure for stockholder nomination of directors described above may have the effect of precluding a nomination for election of directors at a particular meeting if the required procedure is not followed.

Removal of Directors. Our By-Laws provide that a director may be removed for cause by the affirmative vote of the holders of a majority of all the shares of capital stock entitled to vote at a special meeting of stockholders called for such purpose.

Elimination of Liability; Indemnification. Except as described below, the Certificate of Incorporation eliminates the liability of members of our Board of Directors to us or our stockholders for monetary damages resulting from breaches of their fiduciary duties as directors. Directors remain liable for breaches of their duty of loyalty to us or our stockholders, as well as for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law and transactions from which a director derives improper personal benefit. The Certificate of Incorporation also does not release directors from liability under Section 174 of the Delaware General Corporation Law (the "GCL"), which makes directors personally liable for unlawful dividends or unlawful stock repurchases or redemptions if the unlawful conduct is willful or results from negligence.

Under our By-Laws, and in accordance with Section 145 of the GCL, we shall indemnify to the fullest extent permitted by the GCL any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding. These include civil, criminal, administrative or investigative proceedings by

reason of the fact that the person is or was a director or officer of or employed by us, or is or was serving in that capacity or as an agent at the request of us for another entity. Our indemnification covers expenses, judgments, fines and amounts paid in settlement actually and reasonably incurred in connection with the defense or settlement of an action, suit or proceeding if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to our best interests and, with respect to any criminal action or proceeding, had no reasonable cause to believe was unlawful. We will indemnify persons in a derivative action under the same conditions, except that no indemnification is permitted without judicial approval if the person is adjudged to be liable to us in the performance of his or her duty. Derivative actions are actions by us or in the right of us to procure a judgment in our favor. Agents of ours may be similarly indemnified at the discretion of the Board of Directors.

Under Section 145 of the GCL, a similar duty of care is applicable in the case of derivative actions, except that indemnification only extends to expenses incurred in connection with the defense or settlement of a derivative

Table of Contents

action and then, where the person is adjudged to be liable to us, only if and to the extent that the Court of Chancery of the State of Delaware or the court in which the action was brought determines that the person is fairly and reasonably entitled to the indemnity and only for those expenses as the court deems proper.

Pursuant to our By-Laws, a person eligible for indemnification may have the expenses incurred in connection with any matter described above paid in advance of a final disposition by us. However, these advances will only be made if the indemnified person undertakes to repay all advanced amounts if it is determined that the person is not entitled to indemnification.

In addition, under our By-Laws, we may purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of us or of another corporation against any liability arising out of the person's status as director, officer, employee or agent of us whether or not we would have the power to indemnify such person against such liability under the provisions of our By-Laws. We maintain directors' and officers' insurance.

Stockholder Agreement

On March 12, 2010, we entered into the Stockholder Agreement with Terrific Corp. and CIC (with respect to certain provisions only). Under the Stockholder Agreement, as long as Terrific Corp. holds more than 5% of the outstanding shares of our common stock, Terrific Corp. will have the right to designate one nominee, who must be reasonably acceptable to our Board of Directors, for election to our Board of Directors. Terrific Corp. also has certain registration rights and preemptive rights under the Stockholder Agreement with respect to its shares of our common stock. In addition, until such time as Terrific Corp. holds 5% or less of the outstanding shares of our common stock, Terrific Corp. has agreed to vote its shares in accordance with the recommendation of our Board on any matters submitted to a vote of our stockholders relating to the election of directors and compensation matters. Otherwise, Terrific Corp. may vote its shares in its discretion. Further, under the Stockholder Agreement, Terrific Corp. is subject to a standstill restriction which generally prohibits, subject to certain exceptions, Terrific Corp. from purchasing additional securities of AES beyond the level acquired by it under the stock purchase agreement entered into between Terrific Corp. and AES on November 6, 2009. The standstill restriction also terminates at such time as Terrific Corp. holds 5% or less of the outstanding shares of our common stock. For any registration effected in connection with a public offering, such as this offering, Terrific Corp. is subject to a lock-up restriction that does not permit Terrific Corp. to sell or distribute any shares of common stock or other similar security of AES, including any sale pursuant to Rule 144 of the Securities Act of 1933, as amended (the Securities Act), during the period beginning 14 days prior to the effective date of the applicable registration until the earlier of (i) such time as we and the lead managing underwriter of the public offering shall agree and (ii) as is the case in this offering, 180 days following the pricing of the public offering. See also Underwriting.

The foregoing description of the Stockholder Agreement is qualified in its entirety by reference to the full text of the Stockholder Agreement, which is filed as an exhibit to our Annual Report incorporated herein by reference.

MATERIAL U.S. FEDERAL TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

The following is a discussion of the material U.S. federal income and estate tax consequences of the ownership and disposition of common stock by a beneficial owner that is a non-U.S. holder. A non-U.S. holder is a person or entity that, for U.S. federal income tax purposes, is a:

non-resident alien individual, other than certain former citizens and residents of the United States subject to U.S. tax as expatriates,

foreign corporation, or

foreign estate or trust.

A non-U.S. holder does not include an individual who is present in the United States for 183 days or more in the taxable year of disposition and is not otherwise a resident of the United States for U.S. federal income tax purposes. Such an individual is urged to consult his or her tax adviser regarding the U.S. federal income tax consequences of the sale, exchange or other disposition of our common stock.

If a partnership or other pass-through entity (including an entity or arrangement treated as a partnership or other type of pass-through entity for U.S. federal income tax purposes) owns our common stock, the tax treatment of a partner or beneficial owner of such entity may depend upon the status of such partner or beneficial owner and the activities of such entity and on certain determinations made at the partner or beneficial owner level. Partnerships, partners and beneficial owners in partnerships or other pass-through entities that own our common stock should consult their tax advisers as to the particular U.S. federal income and estate tax consequences applicable to them.

This discussion is based on the Internal Revenue Code of 1986, as amended (the Code), and administrative pronouncements, judicial decisions and final, temporary and proposed Treasury Regulations, changes to any of which subsequent to the date of this prospectus supplement may affect the tax consequences described herein. This discussion does not address all aspects of U.S. federal income and estate taxation that may be relevant to non-U.S. holders in light of their particular circumstances and does not address any tax consequences arising under the laws of any state, local or foreign jurisdiction. Prospective non-U.S. holders are urged to consult their tax advisers with respect to the particular tax consequences to them of owning and disposing of our common stock, including the consequences under the laws of any state, local or foreign jurisdiction.

Distributions

Distributions on our common stock will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles (which we refer to as Tax E&P). To the extent those distributions exceed both our current and accumulated earnings and profits, they will constitute a return of capital and will first reduce the non-U.S. Holder's basis in our common stock, but not below zero, and then will be treated as gain from the sale of our common stock, the treatment of which is described below under Gain on Disposition of Our Common Stock. Dividends paid to a non-U.S. Holder of our common stock generally will be subject to withholding tax at a 30% rate or a reduced rate specified by an applicable income tax treaty. In order to obtain a reduced rate of withholding (subject to the discussion below under FATCA Legislation), a non-U.S. holder generally will be required to provide an Internal Revenue Service Form W-8BEN

certifying its entitlement to benefits under a treaty. While it is possible that distributions on our common stock in any year may exceed the Tax E&P of the AES Corporation and thus that some or all of such distributions may not constitute dividends for U.S. federal income tax purposes, the facts necessary to make a determination of the extent to which a distribution on our common stock is treated as a dividend for such purpose may not be known at the time of the distribution. A non-U.S. holder should therefore expect that a withholding agent will treat the entire amount of a distribution on our common stock as a dividend for purposes of determining the amount required to be withheld on such distribution.

S-16

Table of Contents

If it is later determined that all or a portion of such distribution did not in fact constitute a dividend for U.S. federal income tax purposes, a non-U.S. holder may be entitled to a refund of any excess tax withheld, provided that the required information is timely furnished to the Internal Revenue Service.

The withholding tax does not apply to dividends paid to a non-U.S. holder that provides an Internal Revenue Service Form W-8ECI, certifying that the dividends are effectively connected with the non-U.S. holder's conduct of a trade or business within the United States. Instead, the effectively connected dividends will be subject to regular U.S. income tax as if the non-U.S. holder were a U.S. person, subject to an applicable income tax treaty providing otherwise. A non-U.S. corporation receiving effectively connected dividends may also be subject to an additional branch profits tax imposed at a rate of 30% (or a lower treaty rate).

Gain on Disposition of Our Common Stock

A non-U.S. holder generally will not be subject to U.S. federal income tax on gain realized on a sale, exchange or other disposition of our common stock unless:

the gain is effectively connected with the non-U.S. holder's conduct of a trade or business in the United States and, if required by an applicable tax treaty, is also attributable to a permanent establishment in the United States maintained by such non-U.S. holder (in which case, the gain will be taxed on a net income basis at the regular graduated rates and in the manner applicable to U.S. persons and, if the non-U.S. holder is a foreign corporation, an additional branch profits tax imposed at a rate of 30%, or a lower treaty rate, may also apply); or

we are or have been a U.S. real property holding corporation (a USRPHC), as defined below, at any time within the five-year period preceding the disposition or the non-U.S. holder's holding period, whichever period is shorter, and either (i) our common stock has ceased to be regularly traded on an established securities market prior to the beginning of the calendar year in which the sale or disposition occurs or (ii) the non-U.S. holder has owned or is deemed to have owned, at any time within the five-year period preceding the disposition or the non-U.S. holder's holding period, whichever period is shorter, more than 5% of our common stock.

Generally, a corporation is a USRPHC if the fair market value of its U.S. real property interests, as defined in the Code and applicable Treasury Regulations, equals or exceeds 50% of the aggregate fair market value of its worldwide real property interests and its other assets used or held for use in a trade or business. Although we have not undertaken a complete analysis and there can be no assurance that the IRS will not take a contrary position, we believe that we are not currently a USRPHC for U.S. federal income tax purposes. The determination of whether we are a USRPHC depends on certain assumptions regarding the fair market value of our U.S. real property interests relative to the fair market value of our other trade or business assets and our non-U.S. real property interests. Moreover, the composition and relative values of our assets may change over time. As a result, we may be, now or at any time while a non-U.S. holder owns our common stock, a USRPHC.

Our common stock is currently listed on the NYSE and we believe that, for as long as we continue to be so listed, our common stock will be treated as regularly traded on an established securities market. If we are or become a USRPHC, and if our common stock ceased to be regularly traded on an established securities market, a non-U.S. holder generally would be subject to U.S. federal income tax on any gain from the disposition of our common stock and transferees of our stock would generally be required to withhold 10% of the gross proceeds payable to the transferor. The gain

would be subject to regular U.S. income tax as if the non-U.S. holder were a U.S. person, and the non-U.S. holder would be required to file a U.S. tax return with respect to such gain. Regardless of whether our common stock is regularly traded on an established securities market, if we are or become a USRPHC, a non-U.S. holder that has owned, or is deemed to have owned, at any time within the shorter of the five-year period preceding the disposition of our common stock or the non-U.S. holder's holding period, more than 5% of our common stock, generally would be subject to U.S. federal income tax on any gain from the disposition of our common stock. This gain would be subject to regular U.S. income tax as if the non-U.S. holder were a U.S. person, and a non-U.S. holder would be required to file a U.S. tax return with respect to such gain.

S-17

Table of Contents**Information Reporting Requirements and Backup Withholding**

Information returns will be filed with the Internal Revenue Service in connection with payments of dividends and may be filed in connection with the proceeds from a sale or other disposition of our common stock. A non-U.S. holder may have to comply with certification procedures to establish that it is not a U.S. person in order to avoid information reporting and backup withholding requirements. Compliance with the certification procedures required to claim a reduced rate of withholding under a treaty will satisfy the certification requirements necessary to avoid backup withholding as well. The amount of any backup withholding from a payment to a non-U.S. holder will be allowed as a credit against such non-U.S. holder's U.S. federal income tax liability and may entitle such non-U.S. holder to a refund, provided that the required information is furnished to the Internal Revenue Service in a timely manner.

FATCA Legislation

Sections 1471 through 1474 of the Code (commonly referred to as FATCA) and applicable Treasury Regulations impose withholding of 30% on payments of dividends on, and gross proceeds from the sale or redemption of, our common stock paid to foreign financial institutions (which is broadly defined for this purpose and in general includes investment vehicles) and certain other non-U.S. entities unless various U.S. information reporting and due diligence requirements (generally relating to ownership by U.S. persons of certain interests in or accounts with those entities) have been satisfied, or an exemption applies. An intergovernmental agreement between the United States and an applicable foreign country may modify these requirements. If FATCA withholding is imposed, a beneficial owner of our common stock that is not a foreign financial institution generally will be entitled to a refund of any amounts withheld in excess of otherwise applicable withholding tax by filing a U.S. federal income tax return (which may entail significant administrative burden). A beneficial owner that is a foreign financial institution but not a participating foreign financial institution (as defined under FATCA) will be able to obtain a refund only to the extent an applicable income tax treaty with the United States entitles such beneficial owner to an exemption from, or reduced rate of, tax on the payment that was subject to withholding under FATCA. These withholding requirements apply to payments of dividends on our common stock made after June 30, 2014, and payments of gross proceeds from a disposition of our common stock made after December 31, 2016. Non-U.S. holders should consult their tax advisers regarding the effects of FATCA on their investment in our common stock and their potential ability to obtain a refund of any FATCA withholding.

Federal Estate Tax

Individual non-U.S. holders and entities the property of which is potentially includible in such an individual's gross estate for U.S. federal estate tax purposes (for example, a trust funded by such an individual and with respect to which the individual has retained certain interests or powers), should note that, absent an applicable treaty benefit, our common stock will be treated as U.S. situs property subject to U.S. federal estate tax.

Table of Contents**UNDERWRITING**

Barclays Capital Inc. and J.P. Morgan Securities LLC are acting as the representatives of the underwriters of this offering. Under the terms of an underwriting agreement, dated as of the date of this prospectus supplement, each of the underwriters named below has severally agreed to purchase from the selling stockholder the respective number of shares of common stock shown opposite its name below:

Underwriters	Number of Shares
Barclays Capital Inc.	14,000,000
J.P. Morgan Securities LLC	14,000,000
Morgan Stanley & Co. LLC	8,000,000
Merrill Lynch, Pierce, Fenner & Smith Incorporated	1,333,333
SunTrust Robinson Humphrey, Inc.	1,333,333
UBS Securities LLC	1,333,334
Total	40,000,000

The underwriting agreement provides that the underwriters' obligation to purchase shares of common stock depends on the satisfaction of the conditions contained in the underwriting agreement including:

the obligation to purchase all of the shares of common stock offered hereby (other than those shares of common stock covered by their option to purchase additional shares as described below), if any of the shares are purchased;

the representations and warranties made by us and the selling stockholder to the underwriters are true;

there is no material change in our business and financial markets; and

we and the selling stockholder deliver customary closing documents to the underwriters.

Commissions and Expenses

The following table summarizes the underwriting discounts and commissions the selling stockholder will pay to the underwriters. These amounts are shown assuming both no exercise and full exercise of the underwriters' over-allotment option. The underwriting fee is the difference between the initial price to the public and the amount the underwriters pay to the selling stockholder for the shares.

	No Exercise	Full Exercise
Per Share	\$ 0.2690	\$ 0.2690
Total	\$ 10,760,000	\$ 12,374,000

The representatives have advised us that the underwriters propose to offer the shares of common stock directly to the public at the public offering price on the cover of this prospectus supplement and to selected dealers, which may include the underwriters, at such offering price less a selling concession not in excess of \$0.1614 per share. After the offering, the representatives may change the offering price and other selling terms.

The expenses of the offering that are payable by us are estimated to be approximately \$675,000 (excluding underwriting discounts and commissions payable by the selling stockholder).

Table of Contents**Option to Purchase Additional Shares**

The selling stockholder has granted the underwriters an option, solely to cover over-allotments, if any, exercisable for 30 days after the date of this prospectus supplement to purchase, in whole or in part, at any time, up to an aggregate of 6,000,000 shares from the selling stockholder at the public offering price less underwriting discounts and commissions. To the extent that this over-allotment option is exercised, each underwriter will be obligated, subject to certain conditions, to purchase its pro rata portion of these additional shares based on the underwriter's percentage underwriting commitment in the offering as indicated in the table at the beginning of this Underwriting section.

Lock-Up Agreements

We have agreed that, for a period of 180 days after the date of this prospectus supplement, we will not directly or indirectly, without the prior written consent of Barclays Capital Inc., (1) offer for sale, sell, pledge, or otherwise dispose of (or enter into any transaction or device that is designed to, or could be expected to, result in the disposition by any person at any time in the future of) any shares of common stock or securities convertible into or exercisable or exchangeable for common stock, or sell or grant options, rights or warrants with respect to any shares of common stock or securities convertible into or exchangeable for common stock, (2) enter into any swap or other derivatives transaction that transfers to another, in whole or in part, any of the economic benefits or risks of ownership of shares of common stock, whether any such transaction described in clause (1) or (2) above is to be settled by delivery of common stock or other securities, in cash or otherwise, (3) file or cause to be filed a registration statement, including any amendments thereto, with respect to the registration of any shares of common stock or securities convertible, exercisable or exchangeable into common stock, or (4) publicly disclose the intention to do any of the foregoing. The foregoing restrictions with respect to us shall not apply to: (A) the sale of common stock in this offering; (B) the Concurrent Stock Repurchase or any other common stock repurchase pursuant to our common stock repurchase program in effect as of the date of this prospectus supplement; (C) grants of stock options or restricted stock or restricted stock units in accordance with the terms of any employee, executive officer or non-employee director stock option, compensation or benefit plans (collectively, benefit plans) existing on the date of this prospectus supplement; (D) the issuance of common stock upon the exercise of an option or the conversion or vesting of a security outstanding on the date of this prospectus supplement; (E) the filing of a registration statement on Form S-8 relating to the offering of securities in accordance with the terms of any benefit plans in effect on the date of this prospectus supplement; or (F) the issuance of common stock in connection with a bona fide strategic partnership, joint venture, merger or acquisition of any business or assets of a third party, provided that the aggregate number of shares of common stock that may be issued pursuant to this clause (F) during the period of our lock-up restrictions shall not exceed 5% of the total number of shares of common stock outstanding on the date of the closing of this offering.

The selling stockholder has agreed, pursuant to the Stockholder Agreement and the underwriting agreement, that, for a period of 180 days after the date of this prospectus supplement, it will not directly or indirectly, without the prior written consent of us or Barclays Capital Inc., respectively, (1) offer for sale, sell, pledge, or otherwise dispose of (or enter into any transaction or device that is designed to, or could be expected to, result in the disposition by any person at any time in the future of) any shares of common stock or securities convertible into or exercisable or exchangeable for common stock (other than the stock offered pursuant to this prospectus supplement), (2) enter into any swap or other derivatives transaction that transfers to another, in whole or in part, any of the economic benefits or risks of ownership of shares of common stock, whether any such transaction described in clause (1) or (2) above is to be settled by delivery of common stock or other securities, in cash or otherwise, (3) make any demand for or exercise any right or file or cause to be filed a registration statement, including any amendments thereto, with respect to the registration of any shares of common stock or securities convertible, exercisable or exchangeable into common stock or any of our other similar securities, or (4) publicly disclose the intention to do any of the foregoing. The foregoing restrictions with respect to the selling stockholder shall not apply to: (A) the disposition of any common stock

acquired, after the completion of this offering, by the selling stockholder in open market transactions, provided that such transfers are not required to be reported in

S-20

Table of Contents

any public report or filing with the SEC and the selling stockholder does not otherwise voluntarily effect any public filing or report regarding such transfers during its lock-up period, (B) transfers of common stock to us, pursuant to any right or obligation of us to repurchase shares from the selling stockholder, including the Concurrent Stock Repurchase, or (C) transfers of common stock to the selling stockholder's direct or indirect affiliates, including, without limitation, its direct and indirect stockholders, its direct and indirect subsidiaries, or to any investment fund or other entity controlled or managed by, or under the common control or management with, the selling stockholder, provided that such affiliate, stockholder, subsidiary, investment fund or other entity agrees to be bound in writing by the lock-up restrictions set forth in this paragraph and such transfers are not required to be reported in any public report or filing with the SEC and the selling stockholder does not otherwise voluntarily effect any public filing or report regarding such transfers. For the avoidance of doubt, the restrictions set forth in this paragraph shall not apply to the sale of common stock by the selling stockholder to the underwriters pursuant to this offering.

Barclays Capital Inc., in its discretion, may release the common stock and other securities subject to the lock-up agreements described above in whole or in part at any time, provided, however, that we must also consent in writing to the release of the selling stockholder's common stock and other securities subject to the lock-up agreements described above. When determining whether or not to release common stock and other securities from lock-up agreements, Barclays Capital Inc. will consider, among other factors, the holder's reasons for requesting the release, the number of shares of common stock and other securities for which the release is being requested and market conditions at the time.

Indemnification

We and the selling stockholder have, severally and not jointly, agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, and to contribute to payments that the underwriters may be required to make for these liabilities.

Stabilization, Short Positions and Penalty Bids

The underwriters may engage in stabilizing transactions, short sales and purchases to cover positions created by short sales, and penalty bids or purchases for the purpose of pegging, fixing or maintaining the price of the common stock, in accordance with Regulation M under the Exchange Act.

Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.

A short position involves a sale by the underwriters of shares in excess of the number of shares the underwriters are obligated to purchase in the offering, which creates the syndicate short position. This short position may be either a covered short position or a naked short position. In a covered short position, the number of shares involved in the sales made by the underwriters in excess of the number of shares they are obligated to purchase is not greater than the number of shares that they may purchase by exercising their option to purchase additional shares. In a naked short position, the number of shares involved is greater than the number of shares in their option to purchase additional shares. The underwriters may close out any short position by either exercising their option to purchase additional shares and/or purchasing shares in the open market. In determining the source of shares to close out the short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at

which they may purchase shares through their option to purchase additional shares. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.

Syndicate covering transactions involve purchases of the common stock in the open market after the distribution has been completed in order to cover syndicate short positions.

S-21

Table of Contents

Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when the common stock originally sold by the syndicate member is purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of the common stock. As a result, the price of the common stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the NYSE or otherwise and, if commenced, may be discontinued at any time.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the common stock. In addition, neither we nor any of the underwriters make any representation that the underwriters will engage in these stabilizing transactions or that any transaction, once commenced, will not be discontinued without notice.

Concurrent Stock Repurchase

We have entered into an agreement with the selling stockholder to repurchase 20,000,000 shares of our common stock concurrently with the closing of this offering. The consummation of the Concurrent Stock Repurchase is contingent on the closing of this offering. The closing of this offering is not contingent on the consummation of the Concurrent Stock Repurchase. See Summary Recent Events Common Stock Repurchase Program and Concurrent Stock Repurchase.

Other Relationships

The underwriters and certain of their affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriters and certain of their affiliates have, from time to time, performed, and may in the future perform, various commercial and investment banking and financial advisory services for the issuer and its affiliates, for which they received or may in the future receive customary fees and expenses. In particular, Barclays Capital Inc. is acting as a financial advisor to us in connection with the Concurrent Stock Repurchase and is receiving a customary advisory fee for such services. In addition, affiliates of the underwriters are agents and lenders under our senior secured credit facilities.

In the ordinary course of their various business activities, the underwriters and certain of their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments of us or our affiliates. If the underwriters or their affiliates have a lending relationship with us, certain of those underwriters or their affiliates routinely hedge,

and certain other of those underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, the underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities or the securities of our affiliates, including potentially the shares of common stock offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the shares of common stock offered hereby. The underwriters and certain
