CUSIP No. 72919P

During the last five years, none of L Air Liquide S.A. or (to the knowledge of L Air Liquide S.A.) the directors or executive officers of L Air Liquide S.A. (a) has been convicted in any criminal proceeding (excluding traffic violations or similar misdemeanors) or (b) has been a party to any civil proceeding of a judicial or administrative body of competent jurisdiction and as a result of such proceeding was or is subject to a judgment, decree or final order enjoining future violations of, or prohibiting or mandating activities subject to, federal or state securities laws or finding any violation with respect to such laws.

Item 3. Source and Amount of Funds or Other Consideration.

ALIAD acquired the convertible Series C Preferred Stock using internal capital of the Air Liquide group.

Item 4. Purpose of Transaction.

ALIAD acquired the Class C Preferred Stock as an investment and in order to support the business of the Issuer. ALIAD is entitled to designate a Director to the Issuer's Board (see Item 5 below), and such Director will participate fully in the deliberations of the Board. However, at this time the filing persons do not have any plans or proposals which relate to, or could result in, any of the matters referred to in paragraphs (a) through (j), inclusive, of the instructions to Item 4 of Schedule 13D. The filing persons may, at any time and from time to time, review or reconsider their position and/or change their purpose and/or formulate plans or proposals with respect thereto.

Item 5. Interest in Securities of the Issuer.

On May 8, 2013, the Issuer and ALIAD entered into a Securities Purchase Agreement (the Purchase Agreement) pursuant to which the Issuer agreed to issue and sell to ALIAD 10,431 shares of the Issuer's Series C Redeemable Convertible Preferred Stock, par value \$0.01 per share (the Series C Preferred Stock), for an original issue price of \$2,595,400 in cash.

The Series C Preferred Stock is convertible into shares of Common Stock, at an original conversion price equal to \$0.248794 per share, at ALIAD's option, (1) on or after May 8, 2014 or (2) upon any liquidation, dissolution or winding up of the Issuer, any sale, consolidation or merger of the Issuer resulting in a change of control, or any sale or other transfer of all or substantially all of the assets of the Issuer. The number of shares of Common Stock is determined by dividing the original issue price of \$2,595,400 by the conversion price in effect at the time the shares are converted.

The Series C Preferred Stock has weighted average anti-dilution protection. Therefore, the conversion price is subject to adjustment in the event the Issuer issues additional shares of Common Stock for a consideration per share less than the Series C conversion price in effect immediately prior to such issue. Upon this occurrence, the conversion price shall be reduced to a price determined in accordance with a prescribed formula. Accordingly, with the exercise of 16,096,400 warrants at \$0.15 occurring after the close of the Preferred Stock Sale, the Series C Preferred Stock conversion price was adjusted from \$0.248794 per share to \$0.236529 per share. Based on adjusted conversion price

Edgar Filing: PLUG POWER INC - Form SC 13D

of \$0.236529 per share if all shares of the Series C Preferred Stock were to be converted, such shares would be convertible in 10,971,890 shares of Common Stock.

Under the terms of the Purchase Agreement, for so long as ALIAD holds any shares of Series C Preferred Stock, it is entitled to designate one director to the Issuer's Board of Directors. In the event the Series C Preferred Stock is converted into shares of Common Stock and ALIAD continues to hold at least 5% of the outstanding shares of Common Stock of the

CUSIP No. 72919P

Issuer, or 50% of the shares of Common Stock held by ALIAD on an as-converted basis immediately following the issuance of the Series C Preferred Stock, ALIAD shall continue to be entitled to designate one director to the Issuer's Board of Directors. The Purchase Agreement also provides ALIAD with the right to participate in certain future equity financings by the Issuer.

The Series C Preferred Stock ranks senior to the Common Stock with respect to rights upon the liquidation, dissolution or winding up of the Issuer. In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Issuer, or other deemed liquidation event, as defined in the Securities Purchase Agreement, the holders of the Series C Preferred Stock will be entitled to be paid an amount per share equal to the greater of (i) the original issue price, plus any accrued but unpaid dividends or (ii) the amount per share that would have been payable had all shares of Series C Preferred Stock been converted to shares of common stock immediately prior to such liquidation event.

The Series C Preferred Stock is entitled to receive dividends at a rate of 8% per annum, based on the original issue price of \$2,595,400, payable in equal quarterly installments in cash or in shares of Common Stock, at the Issuer's option.

The Series C Preferred Stock votes together with the Common Stock on an as-converted basis on all matters.

The Series C Preferred Stock may not be redeemed by the Issuer until May 8, 2016. After that date, the Series C preferred Stock may be redeemed at the election of the holders of the Series C Preferred Stock or of the Issuer. If redeemed at the election of the holder, the redemption price will be equal to the Series C Original Issue Price per share, plus any accruing but unpaid dividends. If redeemed at the election of the Issuer, the redemption price for shares of Series C Preferred Stock shall be a per share price equal to the greater of (i) the Series C original issue price per share, plus any Series C accruing dividends accrued but unpaid thereon and (ii) the fair market value of a single share of Series C preferred stock as of the date of the redemption.

In connection with the Series C Preferred Stock investment, the Issuer and Axane, S.A. (Axane), a subsidiary of L'Air Liquide S.A., entered into transactions related to their HyPulsion S.A.S. joint venture (HyPulsion). HyPulsion was formed by the Issuer and Axane to develop and market hydrogen fuel cell systems for the European material handling market. Axane purchased a 25% ownership interest in HyPulsion from the Issuer for a cash purchase price of \$3.3 million (euro 2.5 Million). The Issuer now owns 20% and Axane owns 80% of HyPulsion. The Issuer has the right to purchase an additional 60% of HyPulsion from Axane at any time between January 4, 2018 and January 29, 2018 at a formula price. If the Issuer exercises its purchase right, Axane will have the right, at any time between February 1, 2018 and December 31, 2021, to require the Issuer to buy the remaining 20% interest at a formula price.

The Issuer and HyPulsion also entered into an engineering service agreement under which, among other things, the Issuer will provide HyPulsion with engineering and technical services for a new fuel cell assembly line and manufacturing execution system. Under the service agreement, HyPulsion has paid the Issuer approximately \$659,000 (Euro 500,000) in the aggregate for services to be performed by the Issuer.

Item 6. Contracts, Arrangements, Understandings or Relationships with Respect to Securities of the Issuer.

On August 30, 2013, ALIAD and Raymond James & Associates (Raymond James) entered into a Rule 10b5-1 Sales Trading Plan (the Sales Plan). Upon the receipt by ALIAD of a quarterly dividend paid in shares of the Issuer s common stock in respect of shares of Series C Preferred Stock held by ALIAD, Raymond James is required to sell such shares of the Issuer s common stock pursuant to the Sales Plan and pay the cash proceeds thereof to ALIAD.
