PROXY STATEMENT

We are providing this proxy statement in connection with the solicitation of proxies by the Board of Directors of Taxus Cardium Pharmaceuticals Group Inc., a Delaware corporation (the Company, Cardium or we, our, or us), for use at our annual meeting of stockholders to be held on Thursday, June 5, 2014, at 9:00 a.m. Pacific Time, at the San Diego Marriott Del Mar, 11966 El Camino Real, San Diego, California 92130, and at any adjournment or postponement thereof (the Annual Meeting). We expect to mail this proxy statement and the enclosed proxy card on or about April 30, 2013 to all stockholders entitled to vote at the Annual Meeting.

VOTING INFORMATION

Who can vote?

You may vote at the Annual Meeting if you were a stockholder of record as of the close of business on April 21, 2014. This date is known as the record date. You are entitled to one vote for each share of common stock you held on that date on each matter presented at the Annual Meeting. As of April 21, 2014, there were 9,652,710 shares of our common stock, par value \$0.0001 per share, issued and outstanding.

How many votes are needed to hold the Annual Meeting?

To take any action at the Annual Meeting, a majority of our outstanding shares of common stock entitled to vote as of April 21, 2014, or 4,826,356 shares, must be represented, in person or by proxy, at the Annual Meeting. This is called a quorum.

What is a proxy?

A proxy allows someone else to vote your shares on your behalf. Our Board of Directors is asking you to allow the people named on the proxy card (Christopher J. Reinhard and Tyler M. Dylan-Hyde) to vote your shares at the Annual Meeting.

How do I vote by proxy?

Whether you hold shares directly as a stockholder of record or beneficially in street name, you may vote without attending the Annual Meeting. You may vote by granting a proxy or, for shares held in street name, by submitting voting instructions to your broker or nominee. To vote by proxy, please follow the instructions on the enclosed proxy card. You may vote by telephone, by the Internet or by mail. Shares held in street name may be voted by telephone or by the Internet only if your broker or nominee makes those methods available. Your broker or nominee will enclose instructions for voting shares held in street name by telephone or by the Internet with this proxy statement if your broker or nominee has chosen to make those methods available.

If you vote by proxy, your shares will be voted at the Annual Meeting in the manner you indicate. If you vote by mail and return a signed proxy card with no specific instructions, your shares will be voted as the Board of Directors recommends.

Can I change my vote after I submit my proxy?

Yes. You can change or revoke your proxy at any time before it is voted by submitting another proxy with a later date (via the Internet, by telephone or by mail) or attending the meeting and voting in accordance with the

instructions below. You also may send a written notice of revocation to Taxus Cardium Pharmaceuticals Group Inc., 11750 Sorrento Valley Road, Suite 250, San Diego, California 92130, Attention: Tyler M. Dylan-Hyde, Secretary.

Can I vote in person at the Annual Meeting instead of voting by proxy?

Yes. However, we encourage you to vote your shares at your earliest convenience to ensure that your shares are represented and to reduce any expense that we may incur in soliciting proxies to ensure the presence of a quorum at the Annual Meeting. If you vote your shares by proxy and later decide you would like to attend the meeting and vote your shares in person, you will need to provide a written notice of revocation to the secretary of the meeting before your proxy is voted. If the holder of record of your shares is a broker, bank or other nominee and you wish to vote in person at the meeting, you must request a legal proxy from your broker, bank or other nominee that holds your shares and present that proxy and proof of identification at the Annual Meeting. If you would like to obtain directions to be able to attend the meeting and vote in person, please contact the Company at (858) 436-1000.

How are votes counted?

Except as noted, all proxies received will be counted in determining whether a quorum exists and whether we have obtained the necessary number of votes to approve each proposal. An abstention from voting will be used for the purpose of establishing a quorum, but for purposes of determining the outcome of any proposal as to which the proxy is marked abstain, the shares represented by such proxy will not be treated as affirmative votes. In other words, abstentions are not counted with respect to the proposal regarding the election of directors and are treated as votes cast against with respect to the other proposals. A broker non-vote will also be used for the purpose of establishing a quorum, but will not otherwise be counted in the voting process. Thus, broker non-votes will not affect the outcome of any of the matters being voted on at the Annual Meeting. Generally, broker non-votes occur when shares held by a broker for a beneficial owner are not voted with respect to a particular proposal because (i) the broker has not received voting instructions from the beneficial owner and (ii) the broker lacks discretionary voting power to vote such shares.

How many votes are required to approve each proposal?

For Proposal 1, the election of the three Class II directors, a plurality of the votes is required. This means that the three candidates who receive the most votes will be elected to the three available Class II positions on the Board of Directors. Please note that a bank, broker or nominee is not permitted to vote on a discretionary basis on behalf of beneficial owners with respect to uncontested elections of directors. If you wish your shares to be voted, you must instruct your bank, broker or nominee on how to vote your shares for the election of directors.

The affirmative vote of a majority of the shares present in person or represented by proxy and entitled to vote at the Annual Meeting is required to ratify the selection of Marcum LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2014. See, however, Proposal 2 Effect of Ratification.

As of April 21, 2014, our executive officers and directors held of record or beneficially owned approximately 380,758 shares, or 3.9%, of our issued and outstanding common stock. Our executive officers and directors have indicated their intention to vote FOR the election of each of the nominees for the Class II directors and FOR Proposal 2 ratifying the selection of Marcum LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2014.

Who pays for this proxy solicitation?

The Company will pay the cost of soliciting proxies for the Annual Meeting, including the costs of preparing, assembling and mailing the proxy materials. We will provide copies of proxy materials to fiduciaries, custodians and brokerage houses to forward to the beneficial owners of shares held in their name. We may reimburse such fiduciaries, custodians and brokers for their costs in forwarding the proxy materials.

In addition to the solicitation of proxies by mail, certain of our officers and other employees may also solicit proxies personally or by telephone, facsimile, e-mail or other means. No additional compensation will be paid to these individuals for any such services.

Dr. Gabrielson was selected to serve on our Board of Directors because of his medical and general industry experience gained as a practicing physician.

Mr. Otremba was selected to serve on our Board of Directors because of his experience as a management advisor and his media industry experience.

Dr. Dylan-Hyde is a co-founder and serves as an inside director of the Company. He has legal experience as well as scientific, industry and public company experience.

Mr. Leitch served as a licensed CPA for 28 years. He was recruited to join our Board of Directors, in particular, to serve the function of audit committee chairman and financial expert. Mr. Leitch has served as audit committee chair now for three other public companies at various times prior to joining the Company.

Mr. Hutchinson was invited to serve as a member of our Board of Directors because of his strong background in managing business organizations and his experience serving as a director of publicly traded companies.

Mr. Reinhard is a co-founder and serves as an inside director and the Chairman of our Board of Directors. He has significant industry experience as well as public company experience.

Board Leadership

The Chairman of our Board of Directors also serves as our Chief Executive Officer. Our Board of Directors does not have a lead independent director. Our Board of Directors has determined that its leadership structure is appropriate and effective. Our Board of Directors believes that having a single individual serve as both chairman and chief executive officer provides clear leadership, accountability and promotes strategic development and execution. Our Board of Directors also believes that there is a high degree of transparency among directors and company management. Five of the seven members of our Board of Directors are independent directors and all of those individuals serve on the committees of our Board of Directors. Our Chairman and Chief Executive Officer does not serve on any committee, which our Board of Directors believes promotes appropriate independent leadership.

Independence

Our Board of Directors, following the review and determination of the Nominating Committee, has determined that five of our seven directors are independent based on the definition of independence set forth in

the NYSE MKT Company Guide. The members determined to be independent are Messrs. Gabrielson, Hutchison, Leitch, Lewis, and Otremba. In addition, Messrs. Hutchison, Leitch, and Lewis also have been determined by our Board of Directors to meet the independence standards for members of an audit committee set forth in the rules promulgated under the Securities Exchange Act of 1934.

Board Role in Risk Oversight

Our Board of Directors has an oversight role in managing our risk. Our Audit Committee receives reports from senior management on areas of material risk, including operational, financial, legal and strategic risks which enable the Audit Committee to understand management’s views on risk identification, risk management and risk mitigation strategies. The Audit Committee, or if appropriate, the full Board of Directors or another committee, will periodically request that management evaluate additional potential risks, provide additional information on identified risks, or implement risk remediation procedures.

Board Meetings

Our Board of Directors held 5 meetings during the fiscal year ended December 31, 2013 and took action by written consent on one occasion. Each of the seven current directors serving in 2013 attended at least 75% of the total number of meetings of the Board of Directors and applicable committees that each director was eligible to attend.

Board Committees

Our Board of Directors has established an Audit Committee, a Compensation Committee and a Nominating Committee. The committees are comprised entirely of independent directors as defined under the rules of the NYSE MKT Company Guide. Members of the Audit Committee also must meet the independence standards for audit committee members contained in the Securities Exchange Act of 1934, as amended. The members of each of the committees of our Board of Directors are as follows:

Audit Committee	Compensation Committee	Nominating Committee
Murray H. Hutchison*	Murray H. Hutchison	Edward W. Gabrielson
Andrew M. Leitch (Chairman)*	Gerald J. Lewis (Chairman)	Murray H. Hutchison (Chairman)
Gerald J. Lewis	Andrew M. Leitch	Lon E. Otremba

* The Board of Directors has determined that Messrs. Hutchison and Leitch are each an audit committee financial expert as defined by applicable rules adopted by the SEC.

During the year ended December 31, 2013, the Audit Committee held four meetings, the Compensation Committee held one meeting, and the Nominating Committee held one meeting.

Audit Committee. The Audit Committee operates under a charter, a copy of which is available in the corporate governance section of our website at www.cardiumthx.com. The general function of the Audit Committee is to oversee the accounting and financial reporting processes of the Company and the audits of its financial statements. The Audit Committee assists the Board of Directors in fulfilling its oversight responsibilities relating to the accounting, reporting and financial practices of the Company, including the integrity of its financial statements and disclosures; the surveillance of administration and financial controls and the Company’s compliance with legal and regulatory requirements; the qualification, independence and performance of the Company’s independent registered public accounting firm; and the performance of the Company’s internal audit function and control procedures. The Audit Committee has the sole authority to appoint, determine funding for, and oversee the Company’s independent registered public accounting firm.

Compensation Committee. The Compensation Committee operates under a charter, a copy of which is available in the corporate governance section of our website at www.cardiumthx.com. The primary purpose of

the Compensation Committee is to oversee the Company's compensation and incentive programs for its executive officers and certain other key personnel. Among other things, the Compensation Committee recommends to the Board of Directors the amount of compensation to be paid or awarded to our executive officers and certain other personnel including salary, bonuses, other cash or stock awards under our incentive compensation plans as in effect from time to time, retirement and other compensation. In addition, the Board of Directors has delegated to the Compensation Committee the authority to administer the Company's 2005 Equity Incentive Plan, including the authority to consider and act upon recommendations from management to grant awards under the plan to employees and consultants of the Company and its subsidiaries, not including officers and directors of the Company. The Compensation Committee may delegate its authority to subcommittees of the committee or to committees comprised of Company employees when legally permissible and when the Compensation Committee deems it appropriate or desirable to facilitate the operation or administration of the plans and programs that the committee oversees. The Compensation Committee also may engage the services of an independent compensation and benefits consulting company to conduct a survey and review of the Company's compensation programs as compared to other similarly situated companies taking into account, among others, industry, size and location when the Compensation Committee deems appropriate. It is anticipated that the Compensation Committee will engage such independent consultants from time to time to aid the committee in its evaluation of the Company's compensation programs for its executive officers.

Nominating Committee. The Nominating Committee operates under a charter, a copy of which is available in the corporate governance section of our website at www.cardiumthx.com. The purpose of the Nominating Committee is to assist the Board of Directors in identifying qualified individuals to become members of the Board of Directors and in determining the composition of the Board of Directors and its various committees. The Nominating Committee periodically reviews the qualifications and independence of directors, selects candidates as nominees for election as directors, recommends directors to serve on the various committees of the Board of Directors, reviews director compensation and benefits, and oversees the self-assessment process of each of the committees of the Board of Directors.

The Nominating Committee considers nominee recommendations from a variety of sources, including nominees recommended by stockholders. Persons recommended by stockholders are evaluated on the same basis as persons suggested by others. Stockholder recommendations may be made in accordance with our Stockholder Communications Policy. See "Stockholder Communications with Directors" below. The Nominating Committee has the authority to retain a search firm to assist in the process of identifying and evaluating candidates.

The Nominating Committee has not established any specific minimum requirements for potential members of our Board of Directors. Instead, the Nominating Committee's evaluation process includes many factors and considerations including, but not limited to, a determination of whether a candidate meets the requirements of the NYSE MKT and the Securities Exchange Act of 1934, as amended, relating to independence and/or financial expertise, as applicable, and whether the candidate meets the Company's desired qualifications in the context of the current make-up of the Board of Directors with respect to factors such as business experience, education, intelligence, leadership capabilities, integrity, competence, dedication, diversity, skills, and the overall ability to contribute in a meaningful way to the deliberations of the Board of Directors respecting the Company's business strategies, financial and operational performance and corporate governance practices. Our Board of Directors does not have a specific policy with regard to the consideration of diversity in the identification of director nominees. The Nominating Committee will generally select those nominees whose attributes it believes would be most beneficial to the Company in light of all the circumstances.

Code of Ethics

We have adopted a Code of Ethics that applies to all of our employees and directors, including all of our officers and non-employee directors and all employees, officers and directors of our subsidiaries. Stockholder Communications with Directors

Our Board of Directors has adopted a Stockholder Communications Policy to provide a process by which our stockholders may communicate with our Board of Directors. Under the policy, stockholders may communicate with our Board of Directors as a whole, with the independent directors, with all members of a committee of our Board of Directors, or with a particular director. Stockholders wishing to communicate directly with our Board of Directors may do so by mail addressed to the Company at 11750 Sorrento Valley Road, Suite 250, San Diego, California, 92121, Attn: Corporate Secretary. The envelope should contain a clear notation indicating that the enclosed letter is a

Stockholder-Board Communication or Stockholder-Director Communication. All such letters must identify the author as a stockholder of the Company and clearly state whether the intended recipients are all members of the Board of Directors, all independent directors, all members of a committee of the Board of Directors, or certain specified individual directors.

Attendance at Annual Meetings

In recognition that it may not be possible or practicable, in light of other business commitments of the Company's directors, to attend the Company's annual meetings of stockholders, the members of the Board of Directors are invited, but not required, to attend each of the Company's annual meeting of stockholders. At the Company's last annual meeting of stockholders held on June 6, 2013 and adjourned until July 2, 2013, two members of the Board of Directors were present.

PROPOSAL 1

ELECTION OF CLASS II DIRECTORS

Members of each class of our Board of Directors are elected to serve for a three-year term. The three-year terms of the members of each class are staggered, so that each year the members of a different class are due to be elected at the annual meeting. The Class II directors currently are serving a term that is due to expire at the Annual Meeting. The Class III directors currently are serving a term that is due to expire at our 2015 annual meeting, and the Class I directors are serving a term that is due to expire at the 2016 annual meeting.

Nominees

At the Annual Meeting three Class II directors are to be elected, each to serve until the next annual meeting of stockholders held to elect Class II directors and until their respective successor is elected and qualified or until their respective death, resignation or removal. The Board of Directors proposes the election of the nominees named below, who are each currently are Class II members of our Board of Directors.

Vote Required and Board Recommendation

For Proposal 1, the election of the three Class II directors, a plurality of the votes is required. This means that the three candidates who receive the most votes will be elected to the three available Class II positions on the Board of Directors.

Unless authorization to do so is withheld, proxies received will be voted FOR the nominees named below. If any nominee should become unavailable for election before the Annual Meeting, the proxies will be voted for the election of such substitute nominee as the present Board of Directors may propose. The persons nominated for election have agreed to serve if elected, and the Board of Directors has no reason to believe that the nominees will be unable to serve.

Our Board of Directors proposes the election of the following nominees as Class II members of the Board of Directors:

Tyler M. Dylan-Hyde, Andrew M. Leitch, and Gerald J. Lewis

OUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR THE ELECTION OF EACH OF THE NOMINEES AS A CLASS II DIRECTOR OF THE COMPANY.

EXECUTIVE OFFICER COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

Overview

The purpose of this Compensation Discussion and Analysis section is to discuss the material elements of the compensation awarded to, earned by or paid to our executive officers who are considered named executive officers as a result of their officer positions and the amount of compensation they earned during the year ended December 31, 2013. This discussion analyzes the information contained in the tables and related footnotes and narratives under the heading Executive Compensation included elsewhere in this proxy statement. In so doing, this discussion describes our compensation philosophy, policies and practices with respect to our named executive officers. Although this discussion focuses primarily on compensation awarded to, earned by and paid to our named executive officers during 2013, this discussion also describes executive compensation actions prior to 2013 and actions taken after 2013 to the extent it enhances the understanding of or gives context to our executive compensation disclosures for 2013.

As described in more detail under the heading Corporate Governance Compensation Committee included elsewhere in this proxy statement, our Board of Directors has delegated to the Compensation Committee the responsibility, among other things, to determine any and all compensation payable to our executive officers, including annual salaries, incentive compensation, long-term incentive compensation and all other compensation, and to administer our equity and incentive compensation plans applicable to our executive officers. The processes and procedures the Compensation Committee use to consider and determine executive compensation are described under the heading Corporate Governance Compensation Committee Processes and Procedures for Consideration and Determination of Executive Compensation included elsewhere in this proxy statement.

Objectives of Our Executive Compensation Program

Our executive compensation program is designed to:

attract and retain executives important to the success of our company and the creation of value for our shareholders;

motivate our executives to achieve our desired financial, earnings and other corporate goals and create shareholder value; and

reward our executives for the achievement of our desired financial, spending and other corporate goals, the creation of shareholder value in the short and long term and their contributions, in general, to the success of our company.

Our Philosophy

Our executive compensation program and the decisions of the Compensation Committee are based on the following philosophy and principles:

We favor linking a significant component of compensation that varies depending on the attainment of financial and spending goals and the performance of our stock price over solely fixed compensation.

Total compensation should generally increase with position and responsibility. A greater percentage of total compensation should be tied to corporate performance, and therefore be at risk, as position and responsibility increases. As a result, individuals, such as our named executive officers, with greater roles and responsibilities associated with achieving our desired financial and spending goals should bear a greater proportion of the risk that those objectives are not achieved than other employees and should receive a greater proportion of the reward if such goals are met or surpassed.

We seek to align the interests of our executives with the interests of our shareholders through, among other means, the use of long-term, equity-based incentive compensation.

Determination of Amount of Executive Compensation and Use of Benchmarking

In determining the amount of compensation to pay our named executive officers, the Compensation Committee considers a variety of factors, such as the executive's position within the Company and the level of responsibility and skills required by the executive's position; the executive's qualifications; the attainment of or failure to attain our financial and spending goals; individual performance of the executive; current and historical compensation levels; the executive's length of service with our Company and other considerations the Compensation Committee deems relevant.

Our executive compensation program as a whole and each individual element of the program is designed to provide a level of compensation that is competitive for public companies that are comparable to us in terms of profitability, complexity and size in order to attract, motivate and retain executives necessary to the achievement of our desired financial and earnings goals. We generally target total compensation of our executive officers to be within the range of the aggregate compensation that similar companies pay to its executive officers. However, we do not focus on whether or not the total compensation of our executives is above or below the mean or median compensation that is paid to the executive officers of similar companies, because we recognize that trying to tie the compensation that we pay to our executives to any specific metric that is based on the compensation paid by other companies can result in volatility from year to year based on circumstances unique to those companies which may not impact us. We also recognize that those companies may have compensation philosophies that differ from ours.

Determination of Form of Executive Compensation and Total Compensation Mix

The principal elements of our executive compensation program consist of base salary, annual incentive compensation, long-term equity-based incentive compensation, and other compensation as described in more detail below under the heading Elements of Our Executive Compensation Program.

We believe these elements achieve the objectives of our compensation program by providing a base salary which is adjusted to reflect individual and company performance, requiring that our financial and earnings goals be met or exceeded to earn a bonus under our annual cash incentive plan, requiring that specific company-related performance goals be met or exceeded to earn a special annual incentive bonus, and awarding stock options with an exercise price equal to the price of our common stock on the date of grant so that the options will only have value if the market price of our common stock increases over time.

In determining the form of compensation to pay our named executive officers, the Compensation Committee views these elements of our executive compensation program as related but distinct. Although the Compensation Committee reviews total compensation, it does not believe that significant compensation derived by an executive from one element of our compensation program should necessarily negate or result in a reduction in the amount of compensation the executive receives from other elements or that, on the flip side, minimal compensation derived from one element of compensation should necessarily result in an increase in the amount the executive should receive from one or more other elements of compensation.

Except as described below, the Compensation Committee has not adopted any formal or informal policies or guidelines for allocating compensation between long-term and currently paid out compensation, between cash and non-cash compensation, or among different forms of non-cash compensation. However, the Compensation Committee's philosophy is to make a greater percentage of an executive's compensation performance-based, and therefore at risk, as the executive's position and responsibility increases given the influence more senior level executives generally have on company performance. It is also the Compensation Committee's view to keep cash

compensation at a competitive level while providing the opportunity to be fairly rewarded through long-term equity-based incentive compensation if the Company's stock price performs well over time. Thus, individuals with greater roles and responsibilities associated with achieving our company's financial and earnings goals, and thus presumably increasing the total return to our shareholders, should bear a greater proportion of the risk that those goals are not achieved than other employees and should receive a greater proportion of the reward if those goals are met or surpassed.

Elements of Our Executive Compensation Program

The principal elements of our executive compensation program for 2013 consisted of:

base salary;

annual incentive compensation, in the form of payments under our annual incentive pay plan and special performance related bonus plan;

long-term equity-based incentive compensation; and

all other compensation.

In addition, our executive compensation program also includes certain change in control arrangements and post-termination severance arrangements, which are described in more detail below under the heading "Change in Control and Post-Termination Severance Arrangements."

Base Salary

General. We provide a base salary for our named executive officers that is not subject to company or individual performance risk. We recognize the need for most executives to receive at least a portion of their total compensation in the form of a guaranteed base salary that is paid in cash regularly throughout the year to support a reasonable standard of living.

We initially set base salaries for our executives at a level that we believe enables us to hire and retain them in a competitive environment and to reward satisfactory individual performance and a satisfactory level of contribution to our overall business objectives.

The Compensation Committee's determination regarding the base salaries of our named executive officers are based on a number of factors, including: the executive's level of responsibility, prior experience, base salary for the prior year, base salary and other compensation data for similarly situated executives from some of our peer group companies, the skills required by the position, length of service with our company (or predecessors), past individual performance, company performance and other considerations the Compensation Committee deems relevant. The Compensation Committee also recognizes that in addition to the typical responsibilities and duties held by our executives by virtue of their positions, they often have additional responsibilities and perform additional duties that typically would be delegated to others in most organizations with additional personnel and resources.

Analysis. The 2013 Radford Global Life Sciences Survey for U.S. Executive Headcount Data for Companies Under 50 Employees (the Radford Survey), a primary benchmarking information source, supports the Company's current practice of establishing base salaries targeted for approximately 50th percentile based on data from the Radford Survey, adjusted for such factors as years of service, specialized skills applicable to our technologies and businesses as well as competitive factors.

Approved annualized base salary rates for 2012, 2013 and 2014 for our chief executive officer and our two highest paid named executive officers are as follows – it being noted that while the base salary rates for Mr. Reinhard and Dr. Dylan-Hyde in effect since 2012 and approved by stockholders at the Annual Meeting of

Stockholders in 2013 remain unchanged, Mr. Reinhard and Dr. Dylan-Hyde voluntarily elected to take only 75% of their base salary during the 4th Quarter of 2013 and continuing in 2014, as shown below.

Annualized Base Salaries Approved by Stockholders:

Name	2012	2013	% Change From 2012	2014	% Change From 2013
Christopher J. Reinhard	\$ 385,875	\$ 385,875 ¹	0.0%	\$ 385,875 ²	0.0%
Tyler Dylan-Hyde	358,313	358,313 ³	0.0%	358,313 ⁴	0.0%
Gabor Rubanyi	330,750	244,281 ⁵	0.0%	36,000 ⁵	0.0%

Notes:

- 1) Mr. Reinhard voluntarily elected to take only 75% of his base salary during the 4th Quarter of 2013.
- 2) Mr. Reinhard is voluntarily electing to take only 75% of his base salary in 2014.
- 3) Dr. Dylan-Hyde voluntarily elected to take only 75% of his base salary during the 4th Quarter of 2013.
- 4) Dr. Dylan-Hyde is voluntarily electing to take only 75% of his base salary in 2014.
- 5) Dr. Rubanyi's salary has been adjusted as programs have advanced in connection with Generex.

While the base salary rates for Mr. Reinhard and Mr. Dylan-Hyde in effect since 2012 and approved by stockholders at the Annual Meeting of Stockholders in 2013 remain unchanged, Mr. Reinhard and Mr. Dylan-Hyde voluntarily elected to take only 75% of their base salary during the 4th Quarter of 2013, and are continuing to take reduced salaries in 2014, with the reduced actual rates being as shown below.

Adjusted Salaries Reflecting Voluntary Reductions:

Name	2012	2013	% Change From 2012	2014	% Change From 2013
Christopher J. Reinhard	\$ 385,875	\$ 332,817	(-13.7)%	\$ 289,406	(-13.0)%
Tyler Dylan-Hyde	358,313	309,045	(-13.7)%	268,735	(-13.0)%
Gabor Rubanyi	330,750	244,281	(-26.1)%	36,000	(-85.3)%

We have historically granted our executive officers an occasional mid-single digit percentage increase in their base salary, although the percentage may be higher or lower if the responsibilities of the executive increased or decreased during the year. For 2012, 2013 and 2014, none of our executive officers was granted an increase to their base salary.

For 2013, base salaries accounted for approximately 100% of total compensation for our Chairman, President and Chief Executive Officer and for the other named executive officers.

Annual Incentive Compensation

General. In addition to base compensation, we provide our named executive officers the opportunity for annual incentive compensation, which is designed to provide a direct financial incentive to our executives to achieve annual financial, earnings and other goals of our Company. We provide our named executive officers a direct financial incentive to achieve our annual goals. In addition, there is possible performance related bonus for our named executive officers to further motivate them to achieve other company-related performance goals. We believe that the combination of our Incentive Pay Plan, which rewards our executives for achieving and exceeding annual financial goals, and the special performance related bonus, which rewards our executives for successfully executing initiatives that we believe will have a positive long-term impact, provides appropriate monetary incentives for our executives to help our Company achieve both near term and long term success.

Analysis. The annual incentive compensation awards for our named executive officers for 2013 are summarized below.

Payouts made to our named executive officers were as follows:

	Incentive Pay Payouts for 2013 Performance \$ Amount
Christopher J Reinhard	\$ 0
Tyler Dylan-Hyde	\$ 0
Gabor Rubanyi	\$ 0

Long-Term Equity-Based Incentive Compensation

General. Although we do not have any stock retention or ownership guidelines, our Board encourages our named executive officers to have a financial stake in our company in order to align the interests of our shareholders and management. We therefore provide long-term equity-based incentive compensation to our named executive officers, as well as to all of our employees. This compensation has historically been paid in the form of founder s stock grants and or stock options. We believe that equity incentive compensation is an important part of our overall compensation program. In particular, we believe that equity-based compensation, such as stock options, aligns the interests of our executives and other employees with shareholder interests and long-term value creation and enables these individuals to achieve meaningful equity ownership in our Company. Through the grant of stock options, we seek to align the long-term interests of our executives and other employees with the long-term interests of our shareholders by creating a strong and direct linkage between compensation and long-term shareholder return. When our executives deliver positive returns to our shareholders, in the form of increases in our stock price or otherwise, stock options allow our executives and employees to share in this positive return. We believe stock options or other equity-based compensation also may enable us to attract, retain and motivate executives and other employees by maintaining competitive levels of total compensation. Unless our stock price increases after stock option grants are made, the stock options deliver no value to the option holders. A stock option becomes valuable only if our common stock price increases above the option exercise price and the holder of the option remains employed during the period required for the option to vest. This provides an incentive for an option holder to remain employed by us.

All of the stock options held by our executives and other employees have been granted under the 2005 Equity Incentive Plan. The plan was been approved by our shareholders. Under the 2005 plan, we have the ability to grant stock options to directors, officers, employees, and outside consultants. To date, only incentive and non-statutory stock options have been granted.

The Compensation Committee has retained all authority to grant options to eligible recipients, and none of its authority may be delegated to our management in the form of mass or block grants to be allocated among employees by our management. Grants to be made in connection with new hires and performance will be recommended by our Chairman, President and Chief Executive Officer and will be considered and acted upon by the Compensation Committee at the next Compensation Committee meeting or by unanimous written consent resolutions or, in the case of executive officers, as part of their compensation package at the time of hire or promotion. Current executive officers and other employees are eligible for option grants thereafter on a periodic basis. We do not have, nor have we ever had, a program, plan or practice to time stock option grants to executives in coordination with the release of material nonpublic information.

The plan also sets forth the general terms and conditions of our stock option grants. For example, we generally grant incentive stock options within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended, in order to provide our executives and other employees the additional tax benefit associated with incentive stock options, which we believe at this time outweighs our interest in obtaining the tax deduction

which would be available if we granted non-statutory stock options which were later exercised by the optionees. The stock options granted to our employees typically vest or become exercisable over a period of four years from the date of grant, with one-fourth of the underlying shares vesting on the first anniversary of the date of grant and the remaining vesting monthly over the next three years. Stock options typically remain exercisable for a period of seven years from the date of grant, so long as the optionee continues to be employed by us.

It is our policy to set the per share exercise price of all stock options granted under the 2005 plan at an amount equal to the fair market value of a share of our common stock on the date of grant. For purposes of the 2005 plan, the fair market value of our common stock is the closing sales price as reported by OTC QB or exchange on which our stock is traded.

We review the long-term equity-based incentives for our named executive officers and employees, on an individual basis and on an aggregate basis. The Compensation Committee's determinations regarding the number of stock options to grant our named executive officers are based on a number of factors, including: the executive's position within the company and the level of responsibility, skills and experiences required by the executive's position; the attainment of or failure to attain company objectives and the difficulty in achieving desired company objectives; individual performance of the executive; the executive's length of service to our company; the executive's percentage ownership of our common equity outstanding, including stock options; and competitive compensation data, including outstanding options held by an executive as a percentage of our common equity outstanding.

Analysis. While our 2005 plan allows us to grant stock options to all of our employees, including each of our named executive officers, Mr. Reinhard, Dr. Dylan-Hyde, Dr. Rubanyi have refrained from participating in the stock option plan. No stock options were awarded to our named executive officers in 2013.

During 2013, we experienced significant cash constraints. In 2014, after the period covered by this Summary Compensation Table below, partial consideration of the voluntary salary reductions from Mr. Reinhard's and Dr. Dylan-Hyde's stockholder-approved salaries, which reductions significantly reduced their salaries in 2013 and 2014, as noted above, the Compensation Committee of the Board of Directors recommended to the full Board of Directors that it award warrants to Mr. Reinhard and Dr. Dylan-Hyde as partial compensation and to serve as an equity incentive. The Board of Directors agreed with the recommendations of the Compensation Committee, and the warrants awarded comprised 548,550 shares for Mr. Reinhard and 448,550 shares for Dr. Dylan-Hyde, subject to certain adjustments and exercisable over a ten year period at \$0.80 per share, which was approximately 57% above the closing price of the Company's common stock on their issue date, February 28, 2014. The Company's Chief Scientific Officer Dr. Gabor Rubanyi, its Chief Financial Officer Mr. Dennis Mulroy, and its Chief Medical Advisor Dr. Robert Engler, were awarded similar warrants in the amount of 50,000 shares, each at approximately 57% above the closing price on their issue date.

All Other Compensation

General. It is generally our policy not to extend significant perquisites to our executives that are not available to our employees, our executives only receive benefits, which are also received by our other employees, which include health, dental and life insurance benefits. We do not provide pension arrangements or post-retirement health coverage for our executives or employees. We also do not provide any nonqualified defined contribution or other deferred compensation plans or any matching of contributions to a 401(k) plan.

All of our employees, including our named executive officers, are employed at will and do not have employment agreements. We have, however, entered into written severance agreements with all of our named executive officers, which provide for certain cash and other benefits upon the termination of the executive's employment with us under certain circumstances, as described below.

Change in Control and Post-Termination Severance Arrangements

In July 2010, the Board of Directors adopted a Change in Control Severance Plan that provides severance benefits to certain members of management and employees of the Company. The Company has entered into a

severance agreement under the Change in Control Severance Plan with each of the named executive officers. Under the severance agreement, if the employment of any named executive officer is terminated within twelve months following a change in control by either such executive officer for good reason or by the Company for any reason other than cause, death or disability, then such executive officer is entitled to, subject to certain covenants and restrictions set forth in the severance agreement, (a) a cash payment equal to 1.5 times his base salary, (b) the continuation of certain employee benefits for no more than twelve months and (c) all accrued but unpaid salary and vacation, unreimbursed valid business expenses and other vested benefits pursuant to the express terms of any employee benefit plan.

Additionally, if the employment of a named executive officer is terminated within six months prior to an impending change in control and the Board of Directors determines, in good faith, that such termination was in connection with the impending change in control, then such executive officer will be entitled to the benefits set out in the paragraph above, subject to certain covenants and restrictions as set forth in the severance agreement.

For purposes of the severance agreements with the named executive officers, change in control generally means a merger or consolidation in which the Company is not the surviving entity the sale, transfer or other disposition of all or substantially all of the assets of the Company or the acquisition by any person or related group of persons of beneficial ownership of securities possessing more than 50% of the total combined voting power of the Company's outstanding securities.

Accounting and Tax Considerations

We account for equity compensation paid to our employees under the rules of FASB ASC Topic 718, which requires us to estimate and record an expense over the service period of the award. Accounting rules also require us to record cash compensation as an expense at the time the obligation is accrued.

We structure cash base salary and annual incentive compensation so that it is taxable to our executives at the time it becomes available to them. We currently intend that all cash compensation paid will be tax deductible for us. In addition, with respect to equity compensation awards, all of our executives who have received equity compensation awards in the form of incentive stock options, which would entitle us to a tax deduction if there was a disqualifying disposition by the executive. However, some of the incentive stock options that have been granted have exceeded the \$100,000 per year limitation (with respect to exercisability) set forth in Section 422 of the Internal Revenue Code. Accordingly, the incentive stock options granted in excess of this \$100,000 per year limitation will be treated as non-qualified stock options for tax purposes. We will, therefore, be entitled to a tax deduction in the year in which the non-qualified stock option is exercised in an amount equal to the amount by which the fair market value of the shares underlying the non-qualified stock options on the date of exercise exceeds the option exercise price.

Executive Officer Compensation

The following table shows the compensation earned by, or paid or awarded to, our chief executive officer and our two most highly compensated executive officers other than our chief executive officer who were serving as executive officers at December 31, 2013, for each of our three most recent fiscal years. Such officers are referred to as our named executive officers.

Narrative Disclosure to 2013 Summary Compensation Table

There are three basic components to our executive compensation program: salary and benefits; cash bonuses; and long-term incentive compensation in the form of stock options and other equity-based compensation. None of our named executive officers had an employment agreement with the Company for fiscal 2013.

Salary and Benefits.

In 2010, our Board of Directors adopted a recommendation of the Compensation Committee of the Board of Directors to authorize the Company to increase the base salary of our named executive officers effective as of July 6, 2010 by 5%, no salary increases have occurred since.

In establishing the base salaries of our named executive officers, the Compensation Committee considered various factors, including the executive's qualifications and relevant experience, the scope of the executive's job responsibilities, the executive's contributions and performance, the compensation levels of executives at similar companies with similar job responsibilities, and that it had been three years since the base salaries of our executives had been increased. No increase to base salaries of names executive officers has occurred since July 2010.

Cash Bonuses.

We currently do not have a formal cash bonus plan. Any bonuses awarded have been in the discretion of the Compensation Committee and the Board of Directors. No bonuses were awarded in 2012 and 2013. A performance bonus was accrued during the second quarter of 2010 for performance during 2007, 2008 and 2009. Half of the accrued performance bonus was paid in the third quarter of 2010. The remainder was paid in 2011 conditioned upon the successful FDA 510(k) clearance for our Excellagen product.

As our business units are developing, the Compensation Committee is expected to give further consideration to plans that would seek to further align bonuses and other compensation with successful application of our business model by rewarding executive officers and other key personnel for significant contributions towards the development of our assets and portfolio of medical products and our efforts to monetize the economic value of that portfolio through strategic collaborations, selling businesses or assets, or completing other monetizing transactions at appropriate valuation inflection points.

Long-Term Incentive Compensation.

No awards were granted to our named executive officers under the 2005 Equity Incentive Plan in 2013. Mr. Reinhard, Dr. Dylan-Hyde, and Dr. Rubanyi have refrained participating in the 2005 Equity Incentive Plan.

Outstanding Equity Awards at Fiscal Year-End 2013

Mr. Reinhard, Dr. Dylan-Hyde, and Dr. Rubanyi have refrained participating in the Plan and have never accepted stock option awards under the plan, but did receive certain warrants in 2014 in partial compensation for their salary reductions as discussed above.

DIRECTOR COMPENSATION

Each non-employee director generally receives an annual retention fee of \$24,000, payable quarterly, and members of the Audit Committee receive an additional annual fee of \$10,000 for their service on the Audit Committee. Directors appointed during a term year may receive a proportional amount of the annual retention fee for that year. Options and other equity awards may be granted to directors on a discretionary basis. Upon joining the Board of Directors, each non-employee director receives an option under the Company's 2005 Equity

Incentive Plan to acquire 5,000 shares of the Company's common stock, vesting over a four year period, with an exercise price equal to the last reported sale price of the Company's common stock on the date of grant, and a ten year term. Directors are reimbursed for travel and other expenses incurred in connection with attending board and committee meetings. Neither Mr. Reinhard nor Dr. Dylan-Hyde, each of whom serve as both our executive officers and on our Board of directors, received any additional compensation for serving as a director.

Directors accepted reduced payments in 2013, representing 50% of the planned compensation amount. In 2014, after the period covered by the Director Compensation table below, and in partial consideration for such reductions in 2013, and as an ongoing equity incentive for 2014 and beyond, non-employee directors received warrants to purchase 50,000 shares of the Company's common stock, subject to certain adjustments and exercisable over a ten year period at \$0.80 per share, which was approximately 57% above the closing price of the Company's common stock on their issue date, February 28, 2014.

The following table shows the compensation earned by or paid or awarded to our non-employee directors for all services rendered by them in their capacity as a director of the Company during the year ended December 31, 2013.
