Table of Contents**TAYLOR MORRISON HOME CORPORATION****NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****1. BUSINESS**

Organization and Description of the Business Taylor Morrison Home Corporation (**TMHC** or the **Company**) has its principal business in residential homebuilding and the development of lifestyle communities with operations geographically focused in Arizona, California, Colorado, Florida, Texas, and eastern Canada. Taylor Morrison's product lines feature entry-level, move-up, and luxury homes. The Company operates under our Taylor Morrison and Darling Homes brands in the United States and under our Monarch brand in Canada. Monarch, which was founded in 1918, began homebuilding operations in 1936 and is one of the oldest names in Canadian homebuilding. Our business is organized into 12 homebuilding operating divisions, and a mortgage division, which are combined into four reportable segments: East, West, Canada, and Mortgage. The communities in our East and West segment offer single family attached and/or detached homes. Our Canada segment consists of our operations within the province of Ontario, and offers both single-family homes and high-rise units. We are the general contractors for all real estate projects and retain subcontractors for home construction and site development. Our Mortgage Operations reportable segment provides financial services to customers in the United States through our wholly owned mortgage subsidiary, operating as Taylor Morrison Home Funding, LLC (**TMHF**).

On April 12, 2013, TMHC completed the initial public offering (the **IPO**) of its Class A common stock, par value \$0.00001 per share (the **Class A Common Stock**). The shares of Class A Common Stock began trading on the New York Stock Exchange on April 10, 2013 under the ticker symbol **TMHC**. As a result of the completion of the IPO and a series of transactions pursuant to a Reorganization Agreement dated as of April 9, 2013 (the **Reorganization Transactions**), TMHC became the indirect parent of TMM Holdings Limited Partnership (**TMM Holdings**) through the formation of TMM Holdings II Limited Partnership (**New TMM**). TMM Holdings was formed in 2011 by a consortium comprised of affiliates of TPG Global, LLC (the **TPG Entities**), investment funds managed by Oaktree Capital Management, L.P. or their respective subsidiaries (the **Oaktree Entities**), and affiliates of JH Investments, Inc. (the **JH Entities** and together with the TPG Entities and Oaktree Entities, the **Principal Equityholders**). On July 13, 2011, TMM Holdings, through various wholly owned acquisition subsidiaries, acquired all of the outstanding shares of Taylor Woodrow Holdings (USA), Inc. (**Taylor Woodrow**), which is now known as Taylor Morrison Communities, Inc., (**Taylor Morrison** or **TMC**) and Monarch Corporation (**Monarch**), collectively the **Predecessor**, from Taylor Wimpey plc (**Predecessor Parent Company**) through a combination of equity and debt (the **Acquisition**). In conjunction with the Acquisition, a series of holding companies and partnerships were established to hold TMM Holdings' investments in the acquired businesses, of which the assets and liabilities were recorded at fair value. Unless the context requires otherwise, references in these financial statements to **we**, **us**, and **our** are to the Company and its consolidated subsidiaries.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Consolidation The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States (**GAAP**) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. The information included in this Quarterly Report on Form 10-Q should be read in conjunction with the Consolidated and Combined Financial Statements and accompanying notes included in our 2013 Annual Report on Form 10-K. In the Reorganization Transactions, TMHC became the sole owner of the general partner of New TMM. As the general partner of New TMM, we exercise exclusive and complete control over New TMM. Consequently, for

periods subsequent to April 9, 2013, we consolidate New TMM and record a non-controlling interest in our Condensed Consolidated Balance Sheets for the economic interests in New TMM that are directly or indirectly held by the Principal Equityholders or by members of management and the Board of Directors. The Condensed Consolidated Financial Statements for these periods include the accounts of TMHC, TMM Holdings, New TMM, TMC, Monarch, Darling and our consolidated subsidiaries, partnerships and other entities for which we have a controlling financial interest, and of consolidated variable interest entities. Intercompany balances and transactions have been eliminated on consolidation. In the opinion of management, the accompanying Condensed Consolidated Financial Statements include all normal and recurring adjustments necessary for the fair presentation of our results for the interim periods presented. Results for interim periods are not necessarily indicative of results to be expected for the full year.

Unless otherwise stated, amounts are shown in U.S. dollars. Assets and liabilities recorded in foreign currencies are translated at the exchange rate on the balance sheet date, and revenues and expenses are translated at average rates of exchange prevailing during the period. Translation adjustments resulting from this process are recorded to accumulated other comprehensive income (loss) in the Condensed Consolidated Balance Sheets and Condensed Consolidated Statements of Stockholders' Equity.

Table of Contents

Use of Estimates The preparation of financial statements in accordance with GAAP requires us to make estimates and assumptions that affect the amounts reported in the Condensed Consolidated Financial Statements and accompanying notes. Significant estimates include real estate development costs to complete, valuation of real estate, valuation of equity awards, valuation allowance on deferred tax assets and reserves for warranty and self-insured risks. Actual results could differ from those estimates.

Investments in Consolidated and Unconsolidated Entities

Unconsolidated Joint Ventures We use the equity method of accounting for entities over which we exercise significant influence but do not have a controlling interest over the operating and financial policies of the investee. For unconsolidated entities in which we function as the managing member, we have evaluated the rights held by our joint venture partners and determined that they have substantive participating rights that preclude the presumption of control. For joint ventures accounted for using the equity method, our share of net earnings or losses is included in equity in income of unconsolidated entities when earned and distributions are credited against our investment in the joint venture when received. These joint ventures are recorded in investments in unconsolidated entities on the Condensed Consolidated Balance Sheets. See also *Note 6 Investments in Unconsolidated Entities* for financial statement information related to unconsolidated entities.

Consolidated Joint Ventures We are also involved in several joint ventures with independent third parties for land development and homebuilding activities. If a joint venture is determined to be a variable interest entity (VIE) and we are deemed to be the primary beneficiary, we consolidate the joint venture. For these entities, their financial statements are consolidated in the accompanying Condensed Consolidated Financial Statements and the other partners equity are recorded as non-controlling interests joint ventures.

Consolidated Option Agreements In the ordinary course of business, we enter into land and lot option purchase contracts in order to procure land or lots for the construction of homes. Lot option contracts enable us to control significant lot positions with a minimal initial capital investment and substantially reduce the risks associated with land ownership and development. In accordance with Accounting Standards Codification (ASC) Topic 810, *Consolidation*, we have concluded that when we enter into an option or purchase agreement to acquire land or lots and pay a non-refundable deposit, a VIE may be created because we may be deemed to have provided subordinated financial support and we will potentially absorb some or all of an entity s expected losses if they occur. For further information, see *Note 5 Real Estate Inventory and Revenue Recognition Land Deposits*.

Non-controlling Interests Principal Equityholders Immediately prior to our IPO, the existing holders of TMM Holdings limited partnership interests exchanged their limited partnership interests for limited partnership interests of New TMM (New TMM Units) as part of the Reorganization Transactions. For each New TMM Unit received in the exchange, the holders of New TMM Units also received a corresponding number of shares of our Class B common stock (the Class B Common Stock). Our Class B Common Stock has voting rights but no economic rights. One share of Class B Common Stock, together with one New TMM Unit is exchangeable into one share of our Class A Common Stock in accordance with our Exchange Agreement, dated as of April 9, 2013, among the Company, New TMM and the holders of Class B Common Stock and New TMM Units.

The composition of our outstanding common stock as of September 30, 2014 was as follows:

Class A Common Stock	Class B Common Stock	Total
33,059,687	89,228,269	122,287,956

27.0%

73.0%

100%

Recently Issued Accounting Pronouncements In August 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-15, *Presentation of Financial Statements – Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern* (ASU 2014-15), which requires management to evaluate, at each annual and interim reporting period, whether there are conditions or events that raise substantial doubt about the entity’s ability to continue as a going concern within one year after the date the financial statements are issued and provide related disclosures. ASU 2014-15 is effective for us for our fiscal year ending December 31, 2017. The adoption of ASU 2014-15 is not expected to have a material effect on our consolidated financial statements or disclosures.

In June 2014, the FASB issued ASU No. 2014-12, *Compensation – Stock Compensation* (ASU 2014-12), which provides guidance on the accounting for share-based payments when the terms of an award provide that a performance target could be achieved after the requisite service period. ASU 2014-12 is effective beginning January 1, 2016. We do not anticipate that the adoption of ASU 2014-12 will have a material effect on our consolidated financial statements or disclosures.

Table of Contents

In June 2014, the FASB issued ASU No. 2014-11, *Transfers and Servicing* (ASU 2014-11), which requires that repurchase-to-maturity transactions be accounted for as secured borrowings consistent with the accounting for other repurchase agreements. In addition, the amendments require separate accounting for a transfer of a financial asset executed contemporaneously with a repurchase agreement with the same counterparty, which will result in secured borrowing accounting for the repurchase agreement. ASU 2014-11 is effective beginning January 1, 2015. We do not anticipate that the adoption of ASU 2014-11 will have a material effect on our consolidated financial statements or disclosures.

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers* (ASU 2014-09), which provides guidance for revenue recognition. ASU 2014-09 affects any entity that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets and supersedes the revenue recognition requirements in ASC Topic 605, Revenue Recognition, and most industry-specific guidance. This ASU also supersedes some cost guidance included in Subtopic 605-35, Revenue Recognition-Construction-Type and Production-Type Contracts. The standard's core principle is that a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which a company expects to be entitled in exchange for those goods or services. In doing so, companies will need to use more judgment and make more estimates than under today's guidance. These may include identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price and allocating the transaction price to each separate performance obligation. ASU 2014-09 is effective beginning January 1, 2017 and, at that time we will adopt the new standard under either the full retrospective approach or the modified retrospective approach. Early adoption is not permitted. We are currently evaluating the method and impact the adoption of ASU 2014-09 will have on our consolidated financial statements and disclosures.

3. OPERATING AND REPORTING SEGMENTS

In accordance with ASC Topic 280, *Segment Reporting*, we have 12 homebuilding operating divisions which we aggregate into three reportable homebuilding segments. These segments are engaged in the business of acquiring and developing land, constructing homes, marketing and selling those homes, and providing warranty and customer service. We aggregate our operating segments into a reporting segment based on similar long-term economic characteristics. We have no inter-segment sales as all home sales are to external customers. To the extent we have inter-segment land sales, the profit is deferred until the land is sold to a third party. In addition, we include Mortgage Operations as a separate segment. Our reporting segments are as follows:

East (Domestic)	Houston (which includes a Taylor Morrison division and a Darling Homes division), Austin, Dallas, North Florida and West Florida
West (Domestic)	Phoenix, Northern California, Southern California and Denver
Canada (Foreign)	Kitchener-Waterloo, Ottawa and Toronto
Mortgage Operations (Domestic)	Mortgage and Financial Services

Management evaluates segment performance based on segment adjusted gross margin, which is comprised of GAAP gross margin, less interest amortized to cost of home closings (adjusted gross margin). We define segment gross margin as homebuilding and land revenue less cost of home construction, commissions and other sales costs, land development and other land sales costs and other costs incurred by or allocated to each segment, including impairments. Operating results for each segment may not be indicative of the results for such segment had it been an independent, stand-alone entity.

4. EARNINGS PER SHARE

Basic earnings per share is computed by dividing net income available to TMHC by the weighted average number of Class A Common Stock outstanding during the period. Diluted earnings per share gives effect to the potential dilution that could occur if all shares of Class B Common Stock and their corresponding New TMM Units were exchanged for Class A Common Stock and if equity awards to issue common stock that are dilutive were exercised (in thousands, except per share amounts):

Edgar Filing: Taylor Morrison Home Corp - Form 10-Q

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2014	2013	2014	2013
Numerator:

Basic	\$ 0.54	\$ 0.43	\$ 1.33	\$ 0.60
Diluted	\$ 0.54	\$ 0.43	\$ 1.33	\$ 0.60

⁽¹⁾ Activity for the nine months ended September 30, 2013 gives effect to the pre-IPO period.

Table of Contents

We excluded a total weighted average of 1,294,149 and 1,267,665 stock options and time-vesting restricted stock units (RSUs) from the calculation of earnings per share for the three and nine months ended September 30, 2014, respectively, and excluded 1,240,218 and 1,200,283 stock options from the calculation of the earnings per share for the three and nine months ended September 30, 2013, as their inclusion is anti-dilutive.

The shares of Class B Common Stock have voting rights but no economic rights, including no rights to dividends or distribution on liquidation, and therefore, are not participating securities. Accordingly, Class B Common Stock is not included in basic earnings per share. Additionally, the income from Principal Equityholders non-controlling interest and the related Class B Common Stock may produce an anti-dilutive effect on diluted earnings per common share.

5. REAL ESTATE INVENTORY AND REVENUE RECOGNITION

Real Estate Inventory Inventory consists of raw land, land under development, land held for future development, homes under construction, completed homes, and model homes. Inventory is carried at cost, less any impairment, if applicable. In addition to direct carrying costs, we also capitalize interest, real estate taxes, and related development costs that benefit the entire community, such as field construction supervision and related direct overhead. Home construction costs are accumulated and charged to cost of sales at home closing using the specific identification method. Land acquisition, development, interest, taxes, overhead, and condominium construction costs are allocated to homes and units using methods that approximate the relative sales value method. These costs are capitalized to inventory from the point development begins to the point construction is completed. Changes in estimated costs to be incurred in a community (cost to complete) are generally allocated to the remaining homes on a prospective basis. For those communities that have been temporarily closed or where development has been discontinued, we do not allocate interest or other costs to the community s inventory until operations resume.

In accordance with the provisions of ASC Topic 360, *Property, Plant, and Equipment*, we review our real estate inventory for indicators of impairment by community during each reporting period. In conducting the review for indicators of impairment on a community level, we evaluate, among other things, the margins on homes that have been delivered, margins on homes under sales contracts in backlog, projected margins with regard to future home sales over the life of the community, projected margins with regard to future land sales and the estimated fair value of the land itself. For the three and nine months ended September 30, 2014 and 2013, we recorded no impairments on real estate assets.

In the ordinary course of business, we acquire various specific performance lots through existing lot option agreements. Real estate not owned under these contracts is consolidated into real estate inventory with a corresponding liability in liabilities attributable to consolidated option agreements in the Condensed Consolidated Balance Sheets.

Inventory consists of the following (in thousands):

	September 30, 2014	December 31, 2013
Operating communities	\$ 2,483,013	\$ 1,862,649
Real estate held for development or sale	348,861	381,095
Total owned inventory	2,831,874	2,243,744
Real estate not owned	11,408	18,595

Edgar Filing: Taylor Morrison Home Corp - Form 10-Q

Total real estate inventory	\$	2,843,282	\$	2,262,339
-----------------------------	----	-----------	----	-----------

The development status of our land inventory is as follows (dollars in thousands):

	September 30, 2014		December 31, 2013	
	Book Value of Land and		Book Value of Land and	
	Owned Lots ⁽¹⁾	Development	Owned Lots ⁽¹⁾	Development
Raw	11,755	\$ 486,039	13,982	\$ 425,759
Partially developed	10,589	583,636	10,828	516,492
Finished	9,503	949,691	7,559	732,015
Long-term strategic assets	3,482	25,893	3,729	27,988
Total	35,329	\$ 2,045,259	36,098	\$ 1,702,254

⁽¹⁾ Includes 1,799 and 2,370 lots which are owned within unconsolidated joint ventures at September 30, 2014 and December 31, 2013, respectively.

Table of Contents

Land Deposits We are subject to the usual obligations associated with entering into contracts, including option contracts, for the purchase, development, and sale of real estate inventory in the routine conduct of our business. We have entered into a number of land purchase option contracts, generally through cash deposits or letters of credit, for the right to purchase land or lots at a future point in time with predetermined terms. We do not have title to the property and the creditors generally have no recourse against us, except in Canada where sellers generally have full recourse under statutory regulations. Our obligations with respect to the option contracts are generally limited to the forfeiture of the related non-refundable cash deposits and/or letters of credit. As of September 30, 2014 and December 31, 2013, we had the right to purchase approximately 6,487 and 6,570 lots under land option or other controlling purchase contracts, respectively, which represents an aggregate purchase price of \$441.4 million and \$500.9 million as of September 30, 2014 and December 31, 2013, respectively. As of September 30, 2014, our exposure to loss related to our option contracts with third parties and unconsolidated entities consists of non-refundable option deposits totaling \$48.8 million in land deposits and had posted \$18.3 million in letters of credit related to land options and land purchase contracts. As of December 31, 2013, we had \$43.7 million in land deposits and had posted \$14.9 million in letters of credit related to land options and land purchase contracts. Creditors of these VIEs, if any, generally have no recourse against us outside of the amounts of letters of credit (see *Note 9 Debt Loans, Letters of Credit, Surety Bonds and Guarantees*).

For the three and nine months ended September 30, 2014 and 2013, no impairment of option deposits or capitalized pre-acquisition costs were recorded. We continue to evaluate the terms of open land option and purchase contracts and may impair option deposits and capitalized pre-acquisition costs in the future, particularly in those instances where land sellers or third-party financial entities are unwilling to renegotiate significant contract terms.

Capitalized Interest We capitalize certain interest costs to real estate inventory during the active development and construction periods. Capitalized interest is amortized to cost of home closings when the related inventory is delivered to the homebuyer. Interest capitalized, incurred, expensed and amortized is as follows (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2014	2013	2014	2013
Interest capitalized - beginning of period	\$ 107,054	\$ 76,515	\$ 87,101	\$ 59,643
Interest incurred	27,580	22,034	75,713	59,231
Interest expensed				(700)
Interest amortized to cost of home closings	(22,312)	(16,344)	(50,492)	(35,969)
Interest capitalized - end of period	\$ 112,322	\$ 82,205	\$ 112,322	\$ 82,205

Revenue Recognition

Home Sales Revenue from home sales are recorded at closing, using the completed contract method of accounting at the time each home is delivered, title and possession are transferred to the buyer, there is no significant continuing involvement with the home, and the buyer has demonstrated sufficient initial and continuing investment in the property.

Condominium Sales Revenue from the sale of condominium units is recognized when construction is beyond the preliminary stage, the buyer is committed to the extent of being unable to require a refund from the Company under applicable laws except for non-delivery of the unit, sufficient units in the project have been sold to ensure that the

property will not be converted to a rental property, the sales proceeds are collectible, and the aggregate sales proceeds and the total cost of the project can be reasonably estimated. For our Canadian high-rise condominiums, these conditions are met when a certificate of occupancy has been received, all significant conditions of registration have been performed and the purchaser has the right to occupy the unit.

Land Sales Revenue from land sales are recognized when title is transferred to the buyer, there is no significant continuing involvement, and the buyer has demonstrated sufficient initial and continuing investment in the property sold. If the buyer has not made an adequate initial or continuing investment in the property, the profit on such sales is deferred until these conditions are met.

Mortgage Operations Revenue from loans originated are recognized at the time the related real estate transactions are completed, usually upon the close of escrow. All of the loans TMHF originates are sold within a short period of time, generally 20 days, on a non-recourse basis as further described in *Note 9 Debt Mortgage Company Warehouse Facilities*. Gains or losses from the sale of mortgages are recognized based on the difference between the selling price and carrying value of the related loans upon sale.

Deposits Forfeited buyer deposits related to home, condominium, and land sales are recognized as an offset to other expense, net in the accompanying Condensed Consolidated Statements of Operations in the period in which we determine that the buyer will not complete the purchase of the property and the deposit is determined to be non-refundable to the buyer.

Table of Contents

Sales Discounts and Incentives We grant home buyers sales discounts and incentives from time to time, including cash discounts, discounts on options included in the home, option upgrades, and seller-paid financing or closing costs. Discounts are accounted for as a reduction in the sales price of the home and home closings revenue is shown net of these discounts.

6. INVESTMENTS IN UNCONSOLIDATED ENTITIES

We participate in a number of joint ventures with unrelated third parties, with ownership interests of up to 65.0%. These entities are generally involved in real estate development, homebuilding and mortgage lending activities.

Summarized condensed, unaudited financial information of unconsolidated entities that are accounted for by the equity method is as follows (in thousands):

	September 30, 2014	December 31, 2013
Assets:		
Real estate inventory	\$ 702,672	\$ 434,411

Income of unconsolidated entities	\$ 26,838	\$ 28,006	\$ 53,948	\$ 62,579
Company's share in income of unconsolidated entities	\$ 11,756	\$ 9,425	\$ 22,497	\$ 21,049
Distributions of earnings from unconsolidated entities	\$ 2,814	\$ 2,998	\$ 21,675	\$ 6,959

We have investments in, and advances to, a number of joint ventures with unrelated parties to develop land and to develop condominium projects, including for-sale residential units and commercial space which are included in loans receivable on the Condensed Consolidated Balance Sheets. Some of these joint ventures develop land for the sole use of the joint venture participants, including us, and others develop land for sale to the joint venture participants and to unrelated builders. Our share of the joint venture profit relating to lots we purchase from the joint ventures is deferred until homes are delivered by us and title passes to a homebuyer.

Table of Contents**7. ACCRUED EXPENSES AND OTHER LIABILITIES**

Accrued expenses and other liabilities consist of the following (in thousands):

	September 30, 2014	December 31, 2013
Real estate development costs to complete	\$ 33,744	\$ 28,491
Compensation and employee benefits	42,525	49,362
Insurance, litigation reserves, and other professional fees	5,349	6,935
Self insurance and warranty reserves	44,865	41,403
Interest payable	34,585	17,024
Merger and restructuring reserves	835	1,326
Property and sales taxes payable	22,722	22,731
Other accruals	49,794	47,228
Total accrued expenses and other liabilities	\$ 234,419	\$ 214,500

Self Insurance and Warranty Reserves We regularly review the reasonableness and adequacy of our self insurance and warranty reserves and make adjustments to the balance of the pre-existing reserves to reflect changes in trends and historical data as information becomes available. Self insurance and warranty reserves are included in accrued expenses and other liabilities in the Condensed Consolidated Balance Sheets. A summary of the changes in our warranty reserves is as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2014	2013	2014	2013
Reserve - beginning of period	\$ 45,073	\$ 41,469	\$ 41,403	\$ 39,760

 Reserve - end of period	 \$ 44,865	 \$ 44,135	 \$ 44,865	 \$ 44,135

8. LOANS PAYABLE AND OTHER BORROWINGS

Loans payable and other borrowings as of September 30, 2014 and December 31, 2013 consist of amounts due to various land sellers and other unrelated business partners. Loans payable bear interest at rates that ranged from 0% to 8% at September 30, 2014 and December 31, 2013, and generally are secured by real estate. Where required, we impute interest for loans with no stated interest rates.

Principal maturities of loans payable and other borrowings are as follows (in thousands):

Edgar Filing: Taylor Morrison Home Corp - Form 10-Q

	September 30, 2014	December 31, 2013
2014	\$ 40,133	\$ 134,413
2015	64,704	42,698
2016	55,828	34,248

Table of Contents**9. DEBT**

Senior Notes and other borrowings consist of the following (in thousands):

	September 30, 2014	December 31, 2013
5.625% Senior Notes due 2024, with \$5.1 million of unamortized debt issuance costs at September 30, 2014	\$ 350,000	\$
5.25% Senior Notes due 2021, with \$7.8 million and \$8.7 million of unamortized debt issuance costs at September 30, 2014 and December 31, 2013, respectively	550,000	550,000
7.75% Senior Notes due 2020, with \$9.3 million and \$10.6 million of unamortized debt issuance costs at September 30, 2014 and December 31, 2013, respectively and includes \$3.6 million and \$4.1 million of unamortized bond premium at September 30, 2014 and December 31, 2013, respectively	489,004	489,497
Senior Notes Sub-total	\$ 1,389,004	\$ 1,039,497
\$400 million Restated Revolving Credit Facility with \$6.2 million and \$7.4 million of unamortized debt issuance costs at September 30, 2014 and December 31, 2013 respectively	150,000	
Mortgage borrowings Flagstar Agreement	26,104	38,084
Mortgage borrowings Comerica Agreement	22,469	36,808
Total Senior Notes and bank financing	\$ 1,587,577	\$ 1,114,389

Unamortized deferred financing costs are included in prepaid expenses and other assets, net in the accompanying Condensed Consolidated Balance Sheets and are amortized to interest expense in the accompanying Condensed Consolidated Statements of Operations.

2020 Senior Notes

On April 13, 2012, TMC and Monarch Communities Inc. (together, the Bond Co-Issuers) issued \$550.0 million of 7.75% Senior Notes due 2020 (the Initial Notes) at an initial offering price of 100% of the principal amount (the Offering). The net proceeds from the sale of the Initial Notes were \$537.4 million, net of debt issuance costs of \$12.6 million, and were used, in part, to repay existing indebtedness. The remaining proceeds of approximately \$187.4 million from the Offering were used by the Bond Co-Issuers for general corporate purposes. An additional \$3.0 million of issuance costs were settled outside the bond proceeds.

Edgar Filing: Taylor Morrison Home Corp - Form 10-Q

On August 21, 2012, the Bond Co-Issuers issued an additional \$125.0 million of 7.75% Senior Notes due 2020 (the Additional Notes together with the Initial Notes, the 2020 Senior Notes) at an initial offering price of 105.5% of the principal amount. The Bond Co-Issuers received \$132.5 million including prepaid interest, net of debt issuance costs of \$3.1 million. The net proceeds were used for general corporate purposes. The Additional Notes issued August 21, 2012 were issued pursuant to the existing indenture for the 2020 Senior Notes. The 2020 Senior Notes are unsecured and not subject to registration rights.

On April 12, 2013, TMHC used \$204.3 million of the net proceeds of the IPO to acquire New TMM Units from New TMM (at a price equal to the price paid by the underwriters for shares of Class A Common Stock in the IPO). TMM Holdings used these proceeds to repay a portion of the 2020 Senior Notes.

Obligations to pay principal and interest on the 2020 Senior Notes are guaranteed by TMM Holdings, Taylor Morrison Holdings, Inc., Monarch Parent Inc. and the U.S. homebuilding subsidiaries of Taylor Morrison Communities, Inc. (collectively, the Guarantors), each of which is directly or indirectly 100.0% owned by TMM Holdings. Such guarantees are full and unconditional, and joint and several. We do not provide separate financial statements of the Guarantors or condensed consolidating financial information because the 2020 Senior Notes were not issued pursuant to a registered offering and are not subject to registration rights. The 2020 Senior Notes and the guarantees are senior unsecured obligations of the Bond Co-Issuers and the Guarantors. The indenture for the 2020 Senior Notes contains covenants that limit (i) the making of investments, (ii) the payment of dividends and the redemption of equity and junior debt, (iii) the incurrence of additional indebtedness, (iv) asset dispositions, (v) mergers and similar corporate transactions, (vi) the incurrence of liens, (vii) the incurrence of prohibitions on payments and asset transfers among the issuers and restricted subsidiaries and (viii) transactions with affiliates, among others. The indenture governing the 2020 Senior Notes contains customary

Table of Contents

events of default. If we do not apply the net cash proceeds of certain asset sales within specified deadlines, we will be required to offer to repurchase the 2020 Senior Notes at par (plus accrued and unpaid interest) with such proceeds. We are also required to offer to repurchase the 2020 Senior Notes at a price equal to 101% of their aggregate principal amount (plus accrued and unpaid interest) upon certain change of control events.

2021 Senior Notes

On April 16, 2013, the Bond Co-Issuers issued \$550.0 million aggregate principal amount of 5.25% Senior Notes due 2021 (the 2021 Senior Notes). The 2021 Senior Notes are unsecured and are not subject to registration rights. The net proceeds from the issuance of the 2021 Senior Notes were \$541.7 million, net of approximately \$8.3 million of debt issuance costs, and were used by the Bond Co-Issuers to repay the outstanding balance under the Restated Revolving Credit Facility and for general corporate purposes, including the purchase of additional land inventory.

The 2021 Senior Notes are guaranteed by the same Guarantors that guarantee the 2020 Senior Notes. The indenture governing the 2021 Senior Notes contains covenants, change of control and asset sale offer provisions that are similar to those contained in the indenture governing the 2020 Senior Notes.

2024 Senior Notes

On March 5, 2014, the Bond Co-Issuers issued \$350.0 million aggregate principal amount of 5.625% Senior Notes due 2024 (the 2024 Senior Notes). The 2024 Senior Notes are unsecured and are not subject to registration rights. The approximate net proceeds from the issuance of the 2024 Senior Notes were \$345.3 million, net of approximately \$4.7 million of debt issuance costs, were used by the Bond Co-Issuers to repay the outstanding balance under the Restated Revolving Credit Facility and for general corporate purposes.

The 2024 Senior Notes are guaranteed by the same Guarantors that guarantee the 2020 and 2021 Senior Notes. The indenture governing the 2024 Senior Notes contains covenants that limit the ability of the Bond Co-Issuers and the Guarantors to incur debt secured by liens and enter into certain sale and leaseback transactions. The indenture governing the 2024 Senior Notes contains events of default that are similar to those contained in the indentures governing the 2020 and the 2021 Senior Notes. The change of control provisions in the indenture governing the 2024 Senior Notes are similar to those contained in the indentures governing the 2020 and 2021 Senior Notes, but a credit rating downgrade must also occur in connection with the change of control before the repurchase offer requirement is triggered for the 2024 Senior Notes.

Prior to December 1, 2023, the 2024 Senior Notes are redeemable at a price equal to 100% plus a make-whole premium for payments through December 1, 2023 (plus accrued and unpaid interest). Beginning on December 1, 2023, the 2024 Senior Notes are redeemable at par (plus accrued and unpaid interest).

Restated Revolving Credit Facility

On January 15, 2014, TMC and various other subsidiaries of TMHC (collectively, the Borrowers), entered into Amendment No. 1 to the senior revolving credit facility entered into with a syndicate of third party banks and financial institutions in July 2011 and amended and restated as of April 13, 2012 and further amended and restated as of April 12, 2013 (the Restated Revolving Credit Facility). This Amendment No. 1 released Monarch from all of its obligations under the Restated Revolving Credit Facility. As a result, the only borrower under the Restated Revolving Credit Facility is TMC. The Restated Revolving Credit Facility is guaranteed by the same Guarantors that guarantee the 2020 Senior Notes. The Restated Revolving Credit Facility matures on April 12, 2017.

The Restated Revolving Credit Facility contains certain springing financial covenants, requiring TMM Holdings and its subsidiaries to comply with a certain maximum capitalization ratio and a certain minimum consolidated tangible net worth test. For purposes of determining compliance with the financial covenants for any fiscal quarter, the Restated Revolving Credit Facility provides that TMC may exercise an equity cure by issuing certain permitted securities for cash or otherwise recording cash contributions to its capital that will, upon the contribution of such cash to TMC, be included in the calculation of consolidated tangible net worth and consolidated total capitalization.

As of September 30, 2014 and December 31, 2013, the Company was in compliance with its financial covenants.

Mortgage Company Warehouse Facilities

Borrowings under our TMHF warehouse facilities are accounted for as secured borrowings. The mortgage borrowings outstanding as of September 30, 2014 and December 31, 2013, are collateralized by \$72.9 million and \$95.7 million, respectively, of mortgage loans held for sale. At September 30, 2013, the mortgage borrowings were also secured by restricted short-term investments in certificates

Table of Contents

of deposit of \$2.0 million, which are included in restricted cash in the accompanying Condensed Consolidated Balance Sheets. On September 29, 2014, TMHF entered into an additional warehouse facility, with a maximum credit line of \$50.0 million. There were no amounts outstanding on this line at September 30, 2014. Total capacity under the TMHF warehouse facilities available to TMHC at September 30, 2014 is \$140.0 million.

Loans, Letters of Credit, Surety Bonds and Guarantees

In the course of land development and acquisition, we have issued letters of credit under our Restated Revolving Credit Facility to various land sellers and municipalities, of which we had \$35.5 million outstanding as of September 30, 2014.

Through our subsidiaries, we are committed, under various loans, letters of credit and surety bonds, to perform certain development and construction activities and provide certain guarantees in the normal course of business. These guarantees have been made in connection with joint venture funding of our operations in Canada. Loans, outstanding letters of credit and surety bonds under these arrangements, including our share of responsibility for arrangements with our joint ventures, totaled \$267.3 million and \$212.2 million as of September 30, 2014 and December 31, 2013, respectively. Although significant development and construction activities have been completed related to these site improvements, the letters of credit and surety bonds are reduced as development and construction work is completed, but not fully released until warranty periods have expired.

Monarch is party to a credit facility with The Toronto-Dominion Bank (TD Facility). The TD Facility provides borrowings, including letters of credit, of up to CAD \$100.0 million or its U.S. dollar equivalent in support of Monarch projects. Under the terms of the TD Facility, the first CAD \$80.0 million drawn under the facility is secured by liens on the interests of Monarch in certain Canadian real property. Amounts drawn above CAD \$80.0 million are secured with cash. There was a total of CAD \$56.9 million and CAD \$65.2 million of letters of credit outstanding under the TD Facilities as of September 30, 2014 and December 31, 2013, respectively. Monarch also guarantees the credit facilities that certain joint ventures are party to with the Toronto-Dominion Bank with availability of CAD \$37.0 million and CAD \$34.6 million at September 30, 2014 and December 31, 2013, respectively, which is in addition to the TD Facility noted above. There was a total of CAD \$33.0 million and CAD \$33.3 million of letters of credit outstanding under joint venture credit facilities as of September 30, 2014 and December 31, 2013, respectively.

Monarch is also party to a credit facility with HSBC Bank Canada (HSBC Facility). The HSBC Facility provides a letter of credit facility of up to CAD \$24.2 million as of September 30, 2014 in support of Monarch's construction projects. Under the terms of the HSBC Facility, amounts drawn under this facility are secured by liens over the interests of Monarch in certain Canadian real property or cash. There were CAD \$13.1 million and CAD \$18.0 million letters of credit outstanding under the HSBC Facility as of September 30, 2014 and December 31, 2013, respectively.

Both the TD Facility and the HSBC Facility are 364-day facilities that are scheduled to expire on June 30 of each year. Both facilities have been renewed and extended to June 30, 2015 on terms substantially similar to those in effect prior to the renewal.

10. FAIR VALUE DISCLOSURES

We have adopted ASC Topic 820 *Fair Value Measurements* (ASC 820) for valuation of financial instruments. ASC 820 provides a framework for measuring fair value under GAAP, expands disclosures about fair value measurements, and establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of the fair value hierarchy are summarized as follows:

Edgar Filing: Taylor Morrison Home Corp - Form 10-Q

Level 1 Fair value is based on quoted prices for identical assets or liabilities in active markets.

Level 2 Fair value is determined using quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in markets that are not active or are directly or indirectly observable.

Level 3 Fair value is determined using one or more significant inputs that are unobservable in active markets at the measurement date, such as a pricing model, discounted cash flow, or similar technique.

Table of Contents

The fair value of our mortgages receivable is derived from negotiated rates with partner lending institutions. The fair value of our mortgage borrowings, loans receivable, loans payable and other borrowings and the borrowings under our Restated Revolving Credit Facility approximate carrying value due to their short term nature and variable interest rate terms. The fair value of our 2020 Senior Notes, 2021 Senior Notes and 2024 Senior Notes is derived from quoted market prices by independent dealers in markets that are not active. The carrying value and fair value of our financial instruments are as follows (in thousands):

Description:	Level in Fair Value Hierarchy	September 30, 2014		December 31, 2013	
		Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
Mortgages receivable	2	\$ 72,919	\$ 74,715	\$ 95,718	\$ 97,294
Mortgage borrowings	2	48,573	48,573	74,892	74,892
Loans receivable	2	42,125	42,125	33,395	33,395
Loans payable and other borrowings	2	233,507	233,507	282,098	282,098
7.75% Senior Notes due 2020	2	489,004	521,425	489,497	537,223
5.25% Senior Notes due 2021	2	550,000	544,500	550,000	532,125
5.625% Senior Notes due 2024	2	350,000	341,250	N/A	N/A

11. INCOME TAXES

The effective tax rate for the three and nine months ended September 30, 2014 and 2013 was based on the statutory income tax rates in the United States and Canada, affected by state income taxes, changes in deferred tax assets, changes in valuation allowances, preferential treatment of deductions relating to homebuilding activities and interest relating to uncertain tax positions.

The provision for income taxes for each of the three and nine month periods ended September 30, 2014 and 2013 consists of the following (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30, 2014	September 30, 2013	September 30, 2014	September 30, 2013
United States	\$ 18,404	\$ 18,681	\$ 46,492	\$ (47,268)
Foreign	8,441	12,994	17,595	24,981
Total income tax provision (benefit)	\$ 26,845	\$ 31,675	\$ 64,087	\$ (22,287)

As of September 30, 2014, cumulative gross unrecognized tax benefits were \$2.1 million in the U.S. and \$6.7 million in Canada and all unrecognized tax benefits, if recognized, would affect the effective tax rate. As of December 31, 2013, our cumulative gross unrecognized tax benefits were \$2.1 million in the U.S. and \$7.9 million in Canada. These amounts are included in income taxes payable in the accompanying Condensed Consolidated Balance Sheets at September 30, 2014 and December 31, 2013. No unrecognized tax benefits are expected to reverse in the next 12 months.

12. RELATED-PARTY TRANSACTIONS

From time to time, we may engage in transactions with entities that are affiliated with one or more of the Principal Equityholders. There were \$9.5 million in real estate inventory acquisitions from such affiliates in the three months ended September 30, 2014 and no real estate acquisitions from such affiliates in the three months ended September 30, 2013. There were \$40.5 million and \$19.0 million in real estate inventory acquisitions from such affiliates in the nine months ended September 30, 2014 and 2013, respectively. We believe such real estate transactions with related parties are in the normal course of operations and are executed at arm's length as they are entered into at terms comparable to those with unrelated third parties.

In April 2014, one of our subsidiaries formed a joint venture, Marblehead Development Partners LLC (MDP), with affiliates of Oaktree Capital Management, L.P. and TPG Capital, LLC to acquire and develop Marblehead, a coastal residential development in San Clemente, California consisting of 195.5 acres. The acquisition of the Marblehead site from LV Marblehead, a subsidiary owned by Lehman Brothers Holdings Inc., occurred on April 8, 2014. Our subsidiary has made an initial capital investment of approximately \$46.8 million in MDP and is a minority capital partner and also the operating partner responsible for land development and homebuilding on the Marblehead site, for which we will be entitled to receive an incrementally greater return on our capital investment if the Marblehead project achieves certain economic performance thresholds. In July 2014, MDP entered into an approximately \$264.2 million non-recourse construction and development loan with affiliates of Starwood Property Trust as initial lender and administrative agent to finance development and home construction at the Marblehead site. In connection with entering into the loan agreement, one of our subsidiaries provided the lenders with customary completion, indemnity and environmental guarantees subject to usual non-recourse terms. Home construction at the Marblehead site is expected to begin in 2015.

Table of Contents

Management and Advisory Fees Management fees for the nine months ended September 30, 2013 were \$1.4 million, while there was no management fee expense for the three months ended September 30, 2013. We did not incur any management fee expense for the three and nine months ended September 30, 2014. The management services agreement with affiliates of TPG and Oaktree was terminated immediately prior to the IPO in exchange for an aggregate payment of \$29.8 million split equally between affiliates of TPG and Oaktree, which was recorded as a transaction expense during the quarter ended June 30, 2013. Management fees are included in general and administrative expenses in the accompanying Condensed Consolidated Statements of Operations.

In conjunction with the formation of TMM Holdings and in connection with the Acquisition, an affiliate of JH entered into a partnership services agreement with TMM Holdings relating to the provision of certain services to TMM Holdings. In consideration of these services, TMM Holdings granted to the JH affiliate an amount of partnership interests, subject to certain terms, conditions and restrictions contained in a unit award agreement and the TMM Holdings limited partnership agreement. Prior to the IPO, in connection with the Reorganization Transactions, the Company recorded a one-time, non-cash charge of \$80.2 million which was recorded as indemnification and transaction expense (income) in the 2013 Condensed Consolidated Statements of Operations in respect of the modification of the Class J Units in TMM Holdings resulting from the termination of the JHI Partnership Services Agreement between JH and TMM Holdings and the direct or indirect exchange (on a one-for-one basis) of the Class J Units in TMM Holdings for units having substantially equivalent performance vesting and distribution terms in the TPG and Oaktree Holding Vehicles.

Canadian Operations Loans and other receivables due from joint ventures and partners in the joint ventures was \$42.1 million and \$33.4 million as of September 30, 2014 and December 31, 2013, respectively, which comprise the balance of loans receivable in the accompanying Condensed Consolidated Balance Sheet.

13. EMPLOYEE BENEFIT, RETIREMENT, AND DEFERRED COMPENSATION PLANS

U. S. Operations We have an unfunded pension plan for individuals who previously transferred from our former U.K. companies. At September 30, 2014 and December 31, 2013, we had accrued \$1.7 million and \$1.8 million for obligations under this plan. These obligations are recorded in accrued expenses and other liabilities as compensation and employee benefits in the accompanying Condensed Consolidated Balance Sheets.

We also maintain a Cash Balance Pension Plan (the U.S. Cash Balance Plan). At September 30, 2014 and December 31, 2013, the unfunded status of the plan was \$6.8 million and \$5.9 million, respectively. These obligations are recorded in accrued expenses and other liabilities as compensation and employee benefits in the accompanying Condensed Consolidated Balance Sheets.

During the three and nine months ended September 30, 2014, we recognized approximately \$47,000 and \$455,000, respectively, of expense on settlement of our U.S. Cash Balance Plan.

Canadian Operations Monarch maintains both a defined benefit plan (the Monarch Plan) and a defined contribution plan. Total expense for the defined contribution plan was \$0.2 million for both of the three months ended September 30, 2014 and 2013 and \$0.5 million for both of the nine months ended September 30, 2014 and 2013.

Our funding policy in regard to the Monarch Plan is to make contributions to our pension funds based on various actuarial cost methods as permitted by pension regulatory bodies, and Monarch is responsible for adequately funding the plan. Contributions reflect actuarial assumptions concerning future investment returns and future service benefits. Plan assets are represented primarily by Canadian and foreign equities, government and corporate bonds, debentures, and secured mortgages.

Edgar Filing: Taylor Morrison Home Corp - Form 10-Q

We use a December 31 measurement date for both of our employee benefit plans. Actuaries provide an annual estimate for the plans and perform a full valuation at least every three years to determine the actuarial present value of the accrued pension benefits.

The following tables provide the components of net periodic benefit cost for the U.S. Cash Balance Plan and the Monarch Plan for the three and nine months ended September 30, 2014 and 2013 (in thousands):

	U.S. Cash Balance Plan		Monarch Plan	
	Three Months Ended September 30, 2014	Three Months Ended September 30, 2013	Three Months Ended September 30, 2014	Three Months Ended September 30, 2013
Net periodic benefit cost:				
Interest cost	\$ 329	\$ 322	\$ 110	\$ 119
Expected return on plan assets	(400)	(380)	(173)	(171)
Amortization of actuarial losses	11	34		12
Net periodic benefit cost	\$ (60)	\$ (24)	\$ (63)	\$ (40)

Table of Contents

	U.S. Cash Balance Plan		Monarch Plan	
	Nine Months Ended September 30, 2014	Nine Months Ended September 30, 2013	Nine Months Ended September 30, 2014	Nine Months Ended September 30, 2013
Net periodic benefit cost:				
Interest cost	\$ 1,011	\$ 965	\$ 330	\$ 357
Expected return on plan assets	(1,225)	(1,140)	(517)	(513)
Amortization of actuarial losses	55	102		36
Net periodic benefit cost	\$ (159)	\$ (73)	\$ (187)	\$ (120)

14. ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

The tables below provide the components of accumulated other comprehensive income (loss) for the nine months ended (in thousands):

	Total Post-Retirement Benefits Adjustments	Foreign Currency Translation Adjustments	Non-controlling Interest - Principal Equityholders Reclassification	Total
Balance, December 31, 2013	\$ 3,987	\$ (16,727)	\$ 12,288	\$ (452)
Other comprehensive loss before reclassifications	(888)	(19,238)		(20,126)
Gross amounts reclassified from accumulated other comprehensive loss	55			55
Foreign currency translation	(133)			(133)
Other comprehensive loss, net of tax	\$ (966)	\$ (19,238)	\$	\$ (20,204)
Gross amounts reclassified to non-controlling interest Principal Equityholders			14,744	14,744
Balance, September 30, 2014	\$ 3,021	\$ (35,965)	\$ 27,032	\$ (5,912)

Reclassifications for the amortization of the employee retirement plans are included in selling, general and administrative expense in the accompanying Condensed Consolidated Statements of Operations.

15. EQUITY

Common Stock Holders of Class A Common Stock and Class B Common Stock are entitled to one vote for each share held on all matters submitted to stockholders for their vote or approval. The holders of Class A Common Stock and Class B Common Stock vote together as a single class on all matters submitted to stockholders for their vote or approval, except with respect to the amendment of certain provisions of the amended and restated Certificate of

Incorporation that would alter or change the powers, preferences or special rights of the Class B Common Stock so as to affect them adversely. Such amendments must be approved by a majority of the votes entitled to be cast by the holders of the shares affected by the amendment, voting as a separate class, or as otherwise required by applicable law. The voting power of the outstanding Class B Common Stock (expressed as a percentage of the total voting power of all common stock) is equal to the percentage of New TMM Units not held directly or indirectly by TMHC.

Equity-Based Compensation

Class M Units Certain members of management and certain members of the Board of Directors were issued partnership units in TMM Holdings prior to the IPO. Those units were subject to both time and performance vesting conditions.

Table of Contents

Pursuant to the Reorganization Transactions and IPO, the performance based Class M Units in TMM Holdings were exchanged for new equity interests of the TPG and Oaktree Holding Vehicles with terms that are substantially the same (Holding Vehicle Performance Units), as long term incentive compensation immediately prior to the IPO. Concurrent with the IPO in the second quarter of 2013, we determined that it was probable that the performance conditions for the 752,782 Holding Vehicle Performance Units outstanding would be met. Consequently, we recorded the \$2.8 million grant date fair value related to those Holding Vehicle Performance Units as general and administrative expenses in the Condensed Consolidated Statement of Operations for the nine months ended September 30, 2013.

Pursuant to the Reorganization Transactions and IPO, the time-vesting Class M Units in TMM Holdings were exchanged for New TMM Units with vesting terms substantially the same as the Class M Units surrendered for exchange. As of September 30, 2014 and December 31, 2013, there were 616,463 and 478,246, respectively, vested and unexercised time vesting New TMM Units outstanding. One New TMM Unit together with a corresponding share of Class B Common Stock is exchangeable for one share of Class A Common Stock. The corresponding shares of our Class B Common Stock is included in the shares of Class B common stock outstanding as of September 30, 2014.

As of September 30, 2014, of the Class M Unit awards outstanding, there were 816,111 New TMM Units unvested, which have an aggregate grant date fair value of \$4.5 million. Unamortized compensation expense of \$3.8 million for those units is expected to be recorded over a weighted average period of 2.4 years. Compensation expense was \$0.4 million and \$0.5 million for the three months ended September 30, 2014 and 2013, respectively, and \$1.2 million and \$1.5 million for the nine months ended September 30, 2014 and 2013, respectively, and is recorded in general and administrative expenses in the accompanying Condensed Consolidated Statements of Operations.

Class M Unit award activity for the nine months ended September 30, 2014 is as follows:

	Number of Awards	Weighted Average Grant Date Fair Value
As of December 31, 2013	1,655,469	\$ 5.02
Exchanges ⁽¹⁾	(195,171)	4.20
Forfeited ⁽²⁾	(27,724)	6.09
As of September 30, 2014	1,432,574	\$ 5.11

(1) Exchanges during the period represent the exchange of a vested New TMM Unit along with the corresponding share of Class B Common Stock for a newly issued share of Class A Common Stock.

(2) Awards forfeited during the period represent the unvested portion of M Unit awards for employees who have terminated employment with the Company and for which the New TMM Unit and the corresponding Class B Share have been cancelled.

There are no unissued Class M Unit awards remaining under the Class M Unit Plan and we do not intend to grant any future awards under the Class M Unit Plan.

Stock-Based Compensation In April 2013, we adopted the Taylor Morrison Home Corporation 2013 Omnibus Equity Award Plan (the Plan). The Plan provides for the grant of stock options, restricted stock units, and other awards based on our common stock. As of September 30, 2014 the maximum number of shares of our Class A Common Stock that may be subject to awards under the Plan is 7,956,955, subject to adjustment in accordance with the terms of the Plan. We had an aggregate of 6,445,557 shares of Common Stock available for future grants under the Plan at September 30, 2014.

Table of Contents

Stock Options Options under the Plan granted to employees vest and become exercisable ratably on the second, third, fourth and fifth anniversary of the date of grant. Options granted to members of the Board of Directors vest and become exercisable ratably on the first, second and third anniversary of the date of grant. Vesting of the options is subject to continued employment with TMHC or an affiliate through the applicable vesting dates and expires within ten years from the date of grant. The following table summarizes stock option activity for the Plan for the nine months ended September 30, 2014:

	Shares	Weighted Average Exercise Price Per Share	Weighted Average Remaining Contractual Life (In Years)	Aggregate Intrinsic Value (in thousands) (1)
Outstanding at December 31, 2013	1,250,829	\$ 22.45	9.3	\$ 520
Granted	89,675	21.07		
Exercised				
Cancelled	(21,500)	22.00		
Outstanding at September 30, 2014	1,319,004	\$ 22.36	8.6	\$
Options exercisable at September 30, 2014	7,963	\$ 20.93	8.7	\$

(1) The aggregate intrinsic value is based on the market price of our Common Stock on September 30, 2014, the last trading day in September 2014, which was \$16.22, less the applicable exercise price of the underlying option. This aggregate intrinsic value represents the amount that would have been realized if all the option holders had exercised their options on September 30, 2014.

The fair value of each option granted is estimated on the date of grant using the Black-Scholes option pricing model. Expected volatilities and expected term are based on the historical information of five comparable publicly traded home builders. Due to the limited number and homogeneous nature of option holders, the expected term was evaluated using a single group. The risk-free rate is based on the U.S. Treasury yield curve for periods equivalent to the expected term of the options on the grant date.

The weighted-average assumptions and fair value used for stock option grants in the nine month periods ended September 30, 2014 and 2013 were as follows:

	Nine Months Ended September 30,	
	2014	2013
Expected dividend yield	0.0%	0.0%
Expected volatility	48.6%	56.6%
Risk-free interest rate	1.13%	1.34%
Expected term (years)	4.50	4.28
Weighted average fair value of options granted during the period	\$ 8.65	\$ 11.57

As of September 30, 2014 approximately \$10.8 million of unrecognized stock based compensation related to unvested stock options, net of estimated forfeitures, is expected to be recognized over a weighted average period of 3.6 years.

Restricted Stock Units RSUs consist of shares of our Class A Common Stock that have been awarded to employees and directors. The RSUs granted in connection with the IPO contain both service and market performance vesting conditions and shall become vested with respect to 25% of the RSUs on each of the first four anniversaries of the grant date; provided, that, if the performance condition has not been met as of any such annual vesting date, then such portion of the RSUs shall continue to have the opportunity to become vested with respect to the performance condition on such subsequent date on which the performance condition is first satisfied. The performance condition shall be satisfied only if the weighted average price (after reduction for underwriting discount and commissions) at which TPG TMM Holdings II L.P. (the "TPG Holding Vehicle") and OCM TMM Holdings II L.P. (the "Oaktree Holding Vehicle") have previously sold their New TMM Units or related shares of Class A Common Stock, exceeds the \$22.00 price per share of our Class A Common Stock paid by the public in our IPO. If the performance condition has not been met as of December 31, 2015, all of the RSUs granted subject to the performance condition will be automatically forfeited without consideration. Since these awards contained both service and market performance conditions, we have recorded the compensation expense related to these awards over the service period as that condition is longer than the market performance condition. RSUs granted in periods subsequent to the IPO do not contain performance conditions. RSUs granted to employees will become vested with respect to 25% of the RSUs on each of the first four anniversaries of the grant date. RSUs granted to members of the Board of Directors will become fully vested on the first anniversary of the grant date. Vesting of all RSUs is subject to continued employment with TMHC or an affiliate through the applicable vesting dates.

Table of Contents

The following table summarizes the RSU activity for the period:

	Shares	Weighted Average Grant Date Fair Value	
Balance at December 31, 2013	188,816	\$	24.14
Granted	7,922		22.09
Vested	(6,919)		20.24
Forfeited	(4,141)		24.30
Balance at September 30, 2014	185,678	\$	24.19

As of September 30, 2014, approximately \$2.9 million of unrecognized stock-based compensation expense related to unvested RSUs, net of estimated forfeitures, is expected to be recognized over a weighted-average period of approximately 2.5 years.

Summary of Stock-Based Compensation Expense

The following table summarizes the components and classification of stock-based compensation expense, which is included in general and administrative expenses in the Condensed Consolidated Statements of Operations (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2014	2013	2014	2013
M Units/New TMM Units	\$ 419	\$ 458	\$ 1,230	\$ 4,098
J Units				80,190
Stock options	753	883	2,153	1,304
RSUs	335	341	944	520
Total stock-based compensation expense	\$ 1,507	\$ 1,682	\$ 4,327	\$ 86,112

Tax benefits attributable to stock options and restricted stock units represented 38.5% of the related stock-based compensation expense. Stock based compensation expense related to the M Units is not deductible for tax purposes.

16. COMMITMENTS AND CONTINGENCIES

Legal Proceedings We are involved in various litigation and legal claims in the normal course of our business operations, including actions brought on behalf of various classes of claimants. We are also subject to a variety of local, state, and federal laws and regulations related to land development activities, house construction standards, sales practices, mortgage lending operations, employment practices, and protection of the environment. As a result, we are subject to periodic examination or inquiry by various governmental agencies that administer these laws and regulations.

We establish liabilities for legal claims and regulatory matters when such matters are both probable of occurring and any potential loss can reasonably be estimated. At September 30, 2014 and December 31, 2013, our legal accruals were \$3.3 million and \$4.9 million, respectively. We accrue for such matters based on the facts and circumstances specific to each matter and we revise these estimates as the matters evolve. In such cases, there may exist an exposure to loss in excess of any amounts currently accrued. Predicting the ultimate resolution of the pending matters, the related timing, or the eventual loss associated with these matters is inherently difficult. While the outcome of such contingencies cannot be predicted with certainty, we do not believe that the resolution of such matters will have a material adverse impact on our results of operations, financial position, or cash flows. Accordingly, the liability arising from the ultimate resolution of any matter may exceed the estimate reflected in the recorded reserves relating to such matter.

17. SUBSEQUENT EVENTS

On November 3, 2014, our Board of Directors authorized the repurchase of up to \$50.0 million of the Company's Class A Common Stock through December 31, 2015 in open market purchases, privately negotiated transactions or other transactions. The stock repurchase program will be subject to prevailing market conditions and other considerations, including our liquidity, the terms of our debt instruments, planned land investment and development spending, acquisition and other investment opportunities and ongoing capital requirements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

For purposes of this Management's Discussion and Analysis of Financial Condition and Results of Operations, the terms the Company, we and other forms thereof refer to Taylor Morrison Home Corporation (TMHC) and its subsidiaries, unless the context otherwise requires.

Forward-Looking Statements

This quarterly report includes certain forward-looking statements within the meaning of the federal securities laws regarding, among other things, our or management's intentions, plans, beliefs, expectations or predictions of future events, which are considered forward-looking statements. You should not place undue reliance on those statements because they are subject to numerous uncertainties and factors relating to our operations and business environment, all of which are difficult to predict and many of which are beyond our control. Forward-looking statements include information concerning our possible or assumed future results of operations, including descriptions of our business strategy. These statements often include words such as may, will, should, believe, expect, anticipate, intend, estimate or similar expressions. These statements are based upon assumptions that we have made in light of our experience in the industry, as well as our perceptions of historical trends, current conditions, expected future developments and other factors that we believe are appropriate under the circumstances. As you read this quarterly report, you should understand that these statements are not guarantees of performance or results. They involve known and unknown risks, uncertainties and assumptions, including those described under the heading Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2013 (the Annual Report) filed with the Securities and Exchange Commission (SEC). Although we believe that these forward-looking statements are based upon reasonable assumptions, you should be aware that many factors, including those described under the heading Risk Factors in the Annual Report, could affect our actual financial results or results of operations and could cause actual results to differ materially from those in the forward-looking statements.

Our forward-looking statements made herein are made only as of the date of this quarterly report. We expressly disclaim any intent, obligation or undertaking to update or revise any forward-looking statements made herein to reflect any change in our expectations with regard thereto or any change in events, conditions or circumstances on which any such statements are based. All subsequent written and verbal forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements contained in this quarterly report.

Business Overview

We operate under our Taylor Morrison and Darling Homes brands in the United States and under our Monarch brand in Canada. Our business is organized into 12 homebuilding operating divisions, which are combined into three reportable segments: East, West and Canada, which accounted for 59%, 28% and 13%, respectively, of our net sales orders (excluding unconsolidated joint ventures) for the quarter ended September 30, 2014.

Our reportable homebuilding segments have operations in:

East (Domestic)

Houston (which includes a Taylor Morrison division and a Darling

Homes division), Austin, Dallas, North Florida and West Florida

West (Domestic)

Phoenix, Northern California, Southern California and Denver

Canada (Foreign)

Kitchener-Waterloo, Ottawa and Toronto

Mortgage Operations (Domestic)

Mortgage and Financial Services

The communities in our East and West segment offer single family attached and/or detached homes. Our Canada segment consists of our operations within the province of Ontario, and offers both single-family homes and high-rise units.

Mortgage Operations is also a separate reportable segment for our business. Our Mortgage Operations reportable segment provides financial services to customers in the United States through our wholly owned mortgage subsidiary, operating as Taylor Morrison Home Funding, LLC (TMHF).

Non-GAAP Measures

In addition to the results reported in accordance with U.S. GAAP, we have provided information in this quarterly report relating to the results of unconsolidated joint ventures and adjusted gross margins.

Table of Contents

Results of unconsolidated joint ventures

In certain disclosures of our key results, there are references to the information or results of unconsolidated joint ventures which refer to our proportionate share of unconsolidated joint ventures in Canada and are included as non-GAAP measures because they are accounted for under the equity method. We believe that such results are useful to investors as an indication of the level of business activity of our joint ventures in Canada as well as the potential for cash and revenue generation from those joint ventures.

Adjusted gross margins

We calculate adjusted gross margin from U.S. GAAP gross margin by adding impairment charges, if any, attributable to the write-down of communities, and the amortization of capitalized interest through cost of home closings. We also discuss adjusted home closings gross margin, which is calculated by adding back to home closings gross margin the capitalized interest amortization related to the homes closed. Adjusted land closings gross margin is calculated similarly. Adjusted mortgage operations gross margin is calculated by adding back impairment charges, if any, attributable to the write-down of loans receivable. Management uses our adjusted gross margin measures to evaluate our performance on a consolidated basis as well as the performance of our segments. We believe these adjusted gross margins are relevant and useful to investors for evaluating our performance. These measures are considered non-GAAP financial measures and should be considered in addition to, rather than as a substitute for, the comparable U.S. GAAP financial measures as measures of our operating performance. Although other companies in the homebuilding industry report similar information, the methods used may differ. We urge investors to understand the methods used by other companies in the homebuilding industry to calculate gross margins and any adjustments to such amounts before comparing our measures to those of such other companies.

Third Quarter 2014 Highlights

Key financial results as of and for the three months ended September 30, 2014, as compared to the same period in 2013, are as follows:

We increased our average active selling communities⁽¹⁾ 29.9% to 226 communities.

Sales value of homes sold⁽¹⁾ increased by 38.1% to \$726.4 million, with an increase in the average selling price of those homes sold of 0.9% to \$457,000. Unconsolidated joint venture sales value of homes sold was \$4.4 million, a decrease of \$7.1 million from the prior comparable period, with a decrease in the average selling price of those homes of 3.2% to \$365,000.

Homes closed⁽¹⁾ increased by 8.8% from 1,606 homes to 1,748 homes, with an increase in the average selling price of 10.1% to \$427,000. Unconsolidated joint venture homes closed increased from 92 homes to 108 homes, with an increase in the average selling prices of those homes closed of 19.7% to \$334,000.

Home closings revenue increased by 19.8%, from \$622.1 million to 745.6 million.

(1) Excludes unconsolidated joint ventures.

Table of Contents**Results of Operations**

The following table sets forth our results of operations:

(Dollars in thousands, unaudited)	Three Months Ended		Nine Months Ended	
	September 30, 2014	September 30, 2013	September 30, 2014	September 30, 2013

Table of Contents**Three Months Ended September 30, 2014 Compared to Three Months Ended September 30, 2013****Average Active Selling Communities**

	Three Months Ended September 30,		
	2014	2013	Change
East	159	119	33.6%
West	55	40	37.5
Subtotal U.S.	214	159	34.6%
Canada	12	15	(20.0)
Subtotal	226	174	29.9%
Unconsolidated joint ventures ⁽¹⁾	3	4	(25.0)
Total	229	178	28.7%

⁽¹⁾ Represents the average number of total communities in which our joint ventures were actively selling during the period.

For the three months ended September 30, 2014 compared to the three months ended September 30, 2013, average active selling communities increased primarily due to significant additions in our West Florida, Houston and Phoenix divisions. We expect to open new communities throughout all of our markets during the remainder of 2014, with the largest number of additions in our West Florida and Northern California divisions, where demand and our land positions afford us the opportunity. We open communities when we believe we have the greatest probability of capitalizing on favorable market conditions in which the community is located.

Net Sales Orders

(Dollars in thousands)

	Three Months Ended September 30, ⁽¹⁾								
	Net Homes Sold			Sales Value			Average Selling Price		
	2014	2013	Change	2014	2013	Change	2014	2013	Change
East	938	698	34.4%	\$ 385,937	\$ 300,278	28.5%	\$ 411	\$ 430	(4.4)%
West	446	320	39.4	247,642	157,977	56.8	555	494	12.5
Subtotal U.S.	1,384	1,018	36.0%	\$ 633,579	\$ 458,255	38.3%	\$ 458	\$ 450	1.7%
Canada	207	145	42.8	92,784	67,750	37.0	448	467	(4.1)
Subtotal	1,591	1,163	36.8%	\$ 726,363	\$ 526,005	38.1%	\$ 457	\$ 452	0.9%
Unconsolidated joint ventures ⁽²⁾	12	31	(61.3)	4,385	11,516	(61.9)	365	378	(3.2)

Total	1,603	1,194	34.3%	\$ 730,748	\$ 537,521	35.9%	\$ 456	\$ 450	1.2%
--------------	-------	-------	-------	------------	------------	-------	--------	--------	------

(1) Net sales orders represent the number and dollar value of new sales contracts executed with customers. High-rise sales are generally not recognized until a building is approved for construction. High-rise sales typically do not close in the year sold. Other sales are recognized after a contract is signed and the rescission period has ended.

(2) Includes only proportionate share of unconsolidated joint ventures.

The increase in the value of sales orders in 2014 compared to 2013 was driven by consumer demand for our well-located and desirable product offerings in our markets. We also continue to benefit from higher selling prices as we continue to see strong consumer demand levels for new homes in the marketplace, historically low interest rates and stabilized macro economic conditions relative to the prior comparable period. In particular, the homebuilding markets in Houston, Dallas, West Florida and both Northern and Southern California have benefited from these factors, resulting in an increase in the number of units sold and related revenue for the three months ended September 30, 2014 over the prior comparable period. The number of net homes sold increased in the East and West segments due primarily to timing of community openings. The Canada segment experienced an increase due to the timing of availability of saleable product in the three months ended September 30, 2014 when compared to the same period last year.

Table of Contents**Sales Order Cancellations**

	Three Months Ended September 30, Cancelled Sales Orders Cancellation Rate ⁽¹⁾			
	2014	2013	2014	2013
East	115	141	10.9%	16.8%
West	102	62	18.6	16.2
Subtotal U.S./Weighted average	217	203	13.6%	16.6%
Canada	2	2	1.0	1.4
Subtotal/Weighted average	219	205	12.1%	15.0%
Unconsolidated joint ventures ⁽²⁾		1	0.0	1.6
Total/Weighted average	219	206	12.0%	14.7%

(1) Cancellation rate represents the number of cancelled sales orders divided by gross sales orders.

(2) Includes only proportionate share of unconsolidated joint ventures.

A favorable financing market, our use of prequalification criteria and increased deposit amounts help us maintain a low cancellation rate.

Sales Order Backlog

(Dollars in thousands)	Sold Homes in Backlog ⁽¹⁾			As of September 30, Sales Value			Average Selling Price		
	2014	2013	Change	2014	2013	Change	2014	2013	Change
East	2,111	1,834	15.1%	\$ 978,999	\$ 750,158	30.5%	\$ 464	\$ 409	13.4%
West	813	746	9.0	494,671	349,143	41.7	608	468	30.0
Subtotal U.S.	2,924	2,580	13.3%	\$ 1,473,670	\$ 1,099,301	34.1%	\$ 504	\$ 426	18.3%
Canada	680	1,104	(38.4)	261,073	372,916	(30.0)	384	338	13.7
Subtotal	3,604	3,684	(2.2)%	\$ 1,734,743	\$ 1,472,217	17.8%	\$ 481	\$ 400	20.4%
Unconsolidated joint ventures ⁽²⁾	404	732	(44.8)	137,369	251,186	(45.3)	340	343	(0.9)
Total	4,008	4,416	(9.2)%	\$ 1,872,112	\$ 1,723,403	8.6%	\$ 467	\$ 390	19.7%

(1)

Sales order backlog represents homes under contract for which revenue has not yet been recognized at the end of the period (including homes sold but not yet started). Some of the contracts in our sales order backlog are subject to contingencies including mortgage loan approval and buyers selling their existing homes, which can result in cancellations.

(2) Reflects our proportionate share of unconsolidated joint ventures.

The overall decrease in backlog units in 2014 compared to 2013 was driven by the delivery of two joint venture and one wholly owned high-rise buildings in our Canada segment during 2013. Additionally, occupancy began in one joint venture and two wholly owned high-rise buildings during the second and third quarter of 2014 which further reduced backlog, while sales began in only one new high rise during this period. Since the third quarter of the prior period, we have delivered 408 units from our wholly owned Canadian backlog. Backlog was also affected by an increase in the number of homes closed in 2014 over the comparable period in 2013. Backlog value increased in the U.S. as our business continued to recognize improved sales pricing performance in most of our communities. In the East segment, backlog is up due to price appreciation and a product mix change to homes with a higher sales value. In the West segment, the backlog increase is based on increases in average active selling communities.

Table of Contents**Home Closings Revenue**

(Dollars in thousands)	Three Months Ended September 30,								
	Homes Closed			Sales Value ⁽¹⁾			Average Selling Price		
	2014	2013	Change	2014	2013	Change	2014	2013	Change
East	800	713	12.2%	\$ 341,038	\$ 275,222	23.9%	\$ 426	\$ 386	10.4%
West	531	485	9.5	274,698	203,480	35.0	517	420	23.3
Subtotal U.S.	1,331	1,198	11.1%	\$ 615,736	\$ 478,702	28.6%	\$ 463	\$ 400	15.8%
Canada	417	408	2.2	129,842	143,423	(9.5)	311	352	(11.4)
Subtotal	1,748	1,606	8.8%	\$ 745,578	\$ 622,125	19.8%	\$ 427	\$ 387	10.1%
Unconsolidated joint ventures ⁽²⁾⁽³⁾	108	92	17.4	36,034	25,653	40.5	334	279	19.7
Total	1,856	1,698	9.3%	\$ 781,612	\$ 647,778	20.7%	\$ 421	\$ 381	10.4%

(1) Home closings revenue represents homes where possession has transferred to the buyer.

(2) Reflects our proportionate share of unconsolidated joint ventures.

(3) Unconsolidated joint venture revenue is not reported as revenue but is recognized as a component of equity in income of unconsolidated entities. Included here on a non-GAAP basis for information purposes only.

Homes closed in 2014 in our North Florida, Dallas, and Southern California markets surpassed that in the prior year period by a significant amount, driving both units and dollars higher as consumer demand for move-up product benefited our communities in these markets. In Canada, both wholly owned and unconsolidated joint venture homes closed increased slightly due to closings of units in one joint venture tower and two wholly owned towers that are scheduled to be delivered in the fourth quarter of 2014, as compared to two joint venture towers and one wholly owned tower delivered in the fourth quarter of 2013.

Land Closings Revenue

(Dollars in thousands)	Three Months Ended September 30,		
	2014	2013	Change
East	\$ 5,027	\$ 4,525	11.1%
West			
Subtotal U.S.	\$ 5,027	\$ 4,525	11.1%
Canada			
Total	\$ 5,027	\$ 4,525	11.1%

Since we generally do not purchase land for future sales, land and lot sales occur at various intervals and varying degrees of profitability depending on the need for such property in our business strategy. Therefore, the revenue and gross margin from land closings will fluctuate from period to period.

Table of Contents***Home Closings Gross Margin***

The following table sets forth a reconciliation between our home closings gross margin and our adjusted home closings gross margin.

(Dollars in thousands)	Three Months Ended	
	September 30,	September 30,
	2014	2013
Home closings revenue	\$ 745,578	\$ 622,125
Cost of home closings	596,606	489,714
Home closings gross margin	\$ 148,972	\$ 132,411
Capitalized interest amortization	22,309	15,570
Adjusted home closings gross margin	\$ 171,281	\$ 147,981
Home closings gross margin %	20.0%	21.3%
Adjusted home closings gross margin % ⁽¹⁾	23.0%	23.8%

⁽¹⁾ Adjusted gross margins are non-GAAP financial measures calculated based on gross margins, excluding impairments and capitalized interest amortization. See *Non-GAAP Measures Adjusted gross margins*. The decrease in home closings gross margin and adjusted home closings gross margin percentage in the three months ended September 30, 2014 was primarily due to a decrease in margins in our Canada segment resulting from a larger proportion of closings from lower margin high-rise homes in the three months ended September 30, 2014 and some moderation in the margin rate in both high-rise units and single family homes, which is falling more in-line with historical norms. As previously expected, moderating economic growth in Ontario relative to the recent past and increasing units in construction have curbed growth in the Ontario housing market and have brought our margins back in line with historical levels. Recognition of capitalized interest amounts has increased commensurate with increases in debt levels associated with properties closed during the period when compared to the prior period.

Table of Contents**Segment Gross Margins**

The following table sets forth a reconciliation between our segment gross margins (home closings, land closings and home and land closings) and our corresponding segment adjusted gross margins. See *Non-GAAP Measures Adjusted gross margins*.

East Segment						

Edgar Filing: Taylor Morrison Home Corp - Form 10-Q

The number of average active selling communities in the East region increased 33.6% to 159 communities in the three months ended September 30, 2014, as compared to 119 in the prior year, due primarily to the opening of 13 new communities in West Florida, nine new communities in Houston and six new communities in North Florida. Sales pace in the East segment remained consistent at 2.0 homes per month per community. The average selling price of net homes sold in the East segment decreased by 4.4% to \$411,000, driven by our product mix and to a lesser extent our overall pricing strategy, which seeks to strike a balance between optimizing inventory turns and margin. Favorable home buyer reception of communities opened subsequent to September 30, 2013 contributed to closing revenue increases. Average home closings sales price in the East segment increased by 10.4% to \$426,000, over the 2013

Table of Contents

period from a combination of product mix and price appreciation. Overall, the improvement in East segment home closings revenue and sales value has been due primarily to our well-located land positions, an increase in active selling communities and our consumer-driven offerings. Management in the region continues to market its offerings while increasing sales prices methodically as market conditions allow.

We experienced increases in home closings gross margin in our West Florida and North Florida divisions in the three months ended September 30, 2014 compared to the same period in the prior year. The recovery and improved stabilization of the West Florida market has generated sustained consumer demand in the Tampa and Ft. Myers areas, which has allowed us to leverage a low cost basis land supply and home price increases to achieve higher margins. We also experienced an increase in home closing margin in our Houston division in the three months ended September 30, 2014 compared to the same period in the prior year, where purchase price accounting adjustments on the assets acquired in the Darling acquisition reduced home closing gross margin for the three months ended September 30, 2013. To the extent that the housing demand in our East segment markets continues, we expect that our margin performance will continue to be favorable.

West Segment

The number of average active selling communities in the West region increased 37.5% to 55 communities in the three months ended September 30, 2014 compared to the 2013 period, due primarily to eight community openings in our Phoenix division and seven openings in our Northern California division. Net sales orders increased both in units and in sales value in the three months ended September 30, 2014 compared to the same period in 2013 due to favorable homebuyer reception of our Northern and Southern California communities. Sales pace in the West segment remained the same at 2.7 homes per month per community for both the three months ended September 30, 2014 and September 30, 2013. We actively manage the availability of product and timing the release of new communities to achieve targeted profitability metrics which are designed to optimize margin and volume.

The decrease in home closings gross margin percentage and adjusted home closings gross margin percentage in 2014 compared to 2013 was primarily due to increased demand for construction labor and higher interest carrying costs. Although home closing gross margin percentage decreased period over period, our average selling price of homes closed increased by 23.3%, to \$517,000 in the three months ended September 30, 2014, driven primarily by high margin dollars with a lower margin rate in our Southern California division.

Canada Segment

The number of average active selling communities in the three month period ended September 30, 2014, including unconsolidated joint ventures, decreased by 4 communities from the prior year period due to the closing of one wholly owned and two joint venture high-rise buildings and several low-rise communities during the latter half of 2013. The average sales orders per community per month, excluding unconsolidated joint ventures, were 6.0 and 3.3 for the three months ended September 30, 2014 and 2013, respectively. The Canada segment, excluding unconsolidated joint ventures, experienced an increase of 62 units in net new homes sold and an increased aggregate sales value in the three months ended September 30, 2014 when compared to the same period last year. Canada segment revenues decreased while number of closings increased in the three months ended September 30, 2014 compared to the three months ended September 30, 2013. The closeout of towers during 2014 and 2013 caused the mix of wholly owned and unconsolidated joint venture closings to shift, accounting for the 16 unit increase in units closed during the three months ended September 30, 2014 as compared to the prior year period. The 19.7% increase in average selling price of unconsolidated joint venture homes closed is a result of the mix of homes sold during 2014. Income from joint venture closings is included as a component of equity in income of unconsolidated entities and not included in home closings revenue.

The decrease in Canada home closings gross margin was due to a larger proportion of sales of lower margin high-rise homes in the three months ended September 30, 2014 as compared to the prior period. As previously expected, moderating economic growth in Ontario relative to the recent past, a constrained land market and increasing units in construction has tempered growth in the Ontario housing market and has brought our margins back in line with historical levels.

Table of Contents***Mortgage Operations***

Our Mortgage Operations segment, which provides mortgage lending through TMHF, is highly dependent on our sales and closings volumes. The following is a summary of mortgage operations gross margin:

(Dollars in thousands)	Three Months Ended	
	September 30,	
	2014	2013
Mortgage operations revenue	\$ 8,433	\$ 7,791
Mortgage operations expenses	5,057	4,385
Mortgage operations gross margin	\$ 3,376	\$ 3,406
Adjusted mortgage operations gross margin	\$ 3,376	\$ 3,406
Mortgage operations margin %	40.0%	43.7%
Adjusted mortgage operations margin %	40.0%	43.7%

Our Mortgage Operations segment's revenue increased from \$7.8 million in the three months ended September 30, 2013 to \$8.4 million in the three months ended September 30, 2014, due primarily to increased closings volume and average loan amounts while gross margin decreased period over period. Our capture rate of 75% was down slightly from the prior comparable quarter as we transitioned our Darling operations from a legacy mortgage provider to TMHF and the availability of lending opportunities to home buyers increased in the United States.

Sales, Commissions and Other Marketing Costs

As a percentage of home closings revenue, sales, commissions and other marketing costs was 6.3% and 6.0% for the three months ended September 30, 2014 and 2013, respectively. Our U.S. segments tend to have higher per-unit commissions, so our mix of commissions paid moved in tandem with our U.S. operations, where we closed 11.1% more homes in the three months ended September 30, 2014 as compared to the same period in 2013.

General and Administrative Expenses

General and administrative expenses decreased to 2.8% as a percentage of total revenue in the three months ended September 30, 2014, compared to 3.5% in the same period in 2013. Our growth in home closings revenue during the period reduced our general and administrative percentage as we were able to utilize our scalable platform, providing leverage with existing infrastructure.

Equity in Income of Unconsolidated Entities

Equity in income of unconsolidated entities was \$11.8 million for the three months ended September 30, 2014 compared to \$9.4 million for the three months ended September 30, 2013. The change is primarily due to the timing of closings in our high-rise business. During the current period, our proportionate share of joint venture high-rise closings was 16 units higher than the prior period due to the closeout timing of certain towers which occurred in the third quarter of 2014 and will continue into the fourth quarter of 2014.

Interest Expense (Income), net

We recorded \$0.3 million of net interest expense during the three months ended September 30, 2014 due to carrying an outstanding balance on our Restated Revolving Credit Facility (as defined below) at September 30, 2014. We recorded \$1.3 million of interest income during the three months ended September 30, 2013 as we were able to capitalize all of our interest cost.

Other Expense, net

Other expense, net for the three months ended September 30, 2014 and 2013 was \$3.0 million and \$1.3 million, respectively. Other expense is primarily related to mothball community expense, pre-acquisition costs on un-pursued land projects and captive insurance claims costs.

Indemnification Expense and Transaction Expenses

Taylor Wimpey plc (the Predecessor Parent Company) indemnified TMM Holdings Limited Partnership (TMM Holdings) for specific uncertain tax positions existing as of the date of the acquisition in 2011. An indemnification receivable of was recorded at the time of the acquisition. During the three months ended September 30, 2013, we recorded \$0.4 million of interest expense related to the income tax liability.

Table of Contents***Income Tax Provision***

Our effective tax rate for the three months ended September 30, 2014 and 2013 was based on the statutory tax rates in the United States and Canada. The tax expense for the three months ended September 30, 2014 represented an effective tax rate of 28.9%, which is representative and inclusive of state income taxes, the recognition of previously unrecognized tax benefits, changes in deferred tax assets, changes in valuation allowances and certain deductions relating to homebuilding activities and interest relating to uncertain tax positions.

Nine Months Ended September 30, 2014 Compared to Nine Months Ended September 30, 2013***Average Active Selling Communities***

	Nine Months Ended September 30,		
	2014	2013	Change
East	148	121	22.3%
West	53	35	51.4
Subtotal U.S.	201	156	28.8%
Canada	13	15	(13.3)
Subtotal	214	171	25.1%
Unconsolidated joint ventures ⁽¹⁾	3	4	(25.0)
Total	217	175	24.0%

⁽¹⁾ Represents the average number of total communities in which our joint ventures were actively selling during the period.

For the nine months ended September 30, 2014 compared to the nine months ended September 30, 2013, average active selling communities increased, with the largest percentage increase in the West segment, primarily due to significant additions in our Phoenix and Northern California divisions. We expect to open new communities throughout all of our markets during the remainder of 2014, with the largest number of additions in our West Florida and Northern California divisions, where demand and our land positions afford us the opportunity. We open communities when we believe we have the greatest probability of capitalizing on favorable market conditions in which the community is located.

Net Sales Orders

Total	4,989	4,500	10.9%	\$ 2,292,514	\$ 1,843,075	24.4%	\$ 460	\$ 410	12.2%

(1) Net sales orders represent the number and dollar value of new sales contracts executed with customers. High-rise sales are generally not recognized until a building is approved for construction. High-rise sales typically do not close in the year sold. Other sales are recognized after a contract is signed and the rescission period has ended.

(2) Includes only proportionate share of unconsolidated joint ventures.

The increase in the value of sales orders in 2014 compared to 2013 was driven by consumer demand for our well-located and desirable product offerings in our markets. We also continue to benefit from higher selling prices as we continue to see improved consumer demand levels for new homes in the marketplace, historically low interest rates and stabilized macro-economic conditions. In particular, the homebuilding markets in Austin, West Florida, Darling Dallas and both Northern and Southern California have benefited from these factors, resulting in an increase in the number of units sold and related revenue for the nine months ended September 30, 2014 over the prior comparable period. The number of net homes sold increased in the East segment due primarily to

Table of Contents

timing of community openings. The Canada segment experienced an increase of 26 units (including units in unconsolidated joint ventures) in net new homes sold in the nine months ended September 30, 2014 when compared to the same period prior year and continues to benefit from generally stable market conditions. The increase was attributable to the timing of saleable product in the segment.

Sales Order Cancellations

	Nine Months Ended September 30, Cancelled Sales Orders Cancellation Rate ⁽¹⁾			
	2014	2013	2014	2013
East	371	412	11.5%	13.6%
West	267	221	14.6	14.0
Subtotal U.S./Weighted average	638	633	12.6%	13.8%
Canada	11	6	2.0	1.3
Subtotal/Weighted average	649	639	11.6%	12.6%
Unconsolidated joint ventures ⁽²⁾	3	1	8.5	1.6
Total/Weighted average	652	640	11.6%	12.5%

(1) Cancellation rate represents the number of cancelled sales orders divided by gross sales orders.

(2) Includes only proportionate share of unconsolidated joint ventures.

A favorable financing market, our use of prequalification criteria and increased deposit amounts help us maintain a low cancellation rate.

Home Closings Revenue

(Dollars in thousands)	Homes Closed			Sales Value ⁽¹⁾			Average Selling Price		
	2014	2013	Change	2014	2013	Change	2014	2013	Change
East	2,301	1,986	15.9%	\$ 949,494	\$ 737,790	28.7%	\$ 413	\$ 371	11.1%
West	1,374	1,268	8.4	704,396	499,521	41.0	513	394	30.1

Subtotal	4,346	3,959	9.8%	\$ 1,890,057	\$ 1,484,927	27.3%	\$ 435	\$ 375	15.9%
Unconsolidated joint ventures ⁽²⁾⁽³⁾	171	234	(26.9)	62,773	70,851	(11.4)	367	303	21.2

Total	4,517	4,193	7.7%	\$ 1,952,830	\$ 1,555,778	25.5%	\$ 432	\$ 371	16.5%
--------------	-------	-------	------	--------------	--------------	-------	--------	--------	-------

- (1) Home closings revenue represents homes where possession has transferred to the buyer.
- (2) Reflects our proportionate share of unconsolidated joint ventures.
- (3) Unconsolidated joint venture revenue is not reported as revenue but is recognized as a component of equity in income of unconsolidated entities. Included here on a non-GAAP basis for information purposes only.

Homes closed in 2014 in our Dallas, Houston (Taylor Morrison and Darling), West Florida and Northern and Southern California markets surpassed that in the prior year period by a significant amount, driving both units and dollars higher as consumer demand for move-up product benefited our communities in these markets. In Canada, the decrease in unconsolidated joint venture homes closed in 2014 is due to the timing of close-out for the high rise towers. In the fourth quarter of 2014, we expect to deliver one joint venture tower for which units closed were underway in the third quarter of 2014. Homes closed in the Canada segment in the prior year period reflect closings in the third quarter of 2013 for our two joint venture towers that were delivered in the fourth quarter of 2013.

Table of Contents**Land Closings Revenue**

(Dollars in thousands)	Nine Months Ended September 30,		
	2014	2013	Change
East	\$ 18,994	\$ 13,833	37.3%
West	925	5,040	(81.6)
Subtotal U.S.	\$ 19,919	\$ 18,873	5.5%
Canada	3,181	121	2,528.9
Total	\$ 23,100	\$ 18,994	21.6%

Since we generally do not purchase land for future sale, land and lot sales occur at various intervals and varying degrees of profitability depending on the need for such property in our business strategy. Therefore, the revenue and gross margin from land closings will fluctuate from period to period.

Home Closings Gross Margin

The following table sets forth a reconciliation between our home closings gross margin and our adjusted home closings gross margin. Adjusted gross margins are non-GAAP financial measures calculated based on gross margins, excluding impairments and capitalized interest amortization. See *Non-GAAP Measures Adjusted gross margins*.

(Dollars in thousands)	Nine Months Ended September 30,	
	2014	2013
Home closings revenue	\$ 1,890,057	\$ 1,484,927
Cost of home closings	1,498,906	1,172,749
Home closings gross margin	\$ 391,151	\$ 312,178
Capitalized interest amortization	50,430	34,913
Adjusted home closings gross margin	\$ 441,581	\$ 347,091
Home closings gross margin %	20.7%	21.0%
Adjusted home closings gross margin %	23.4%	23.4%

The slight decrease in home closings gross margin percentage in the nine months ended September 30, 2014 was primarily due to increased interest carrying costs and in Canada, was due to a larger proportion of sales of higher margin single-family detached and attached homes in the prior year period. As previously expected, moderating economic growth in Ontario and increasing units under construction have brought our margins back in line with historical levels.

Table of Contents**Segment Gross Margins**

The following table sets forth a reconciliation between our segment gross margins (home closings, land closings and home and land closings) and our corresponding segment adjusted gross margins. See *Non-GAAP Measures Adjusted gross margins*.

East Segment

The number of average active selling communities in the East segment increased 22.3% to 148 communities in the nine months ended September 30, 2014, as compared to 121 in the prior year period, due primarily to the opening of 13 new communities in West Florida, six new communities in North Florida and nine new communities in Houston. Sales pace in the East segment decreased to 2.2 homes per month per community for the nine months ended September 30, 2014 from 2.4 homes per month per community in the prior year period. Timing of community openings and our continued efforts to increase sales prices and margin in order to maximize returns in our communities were the main reasons for the decrease in sales pace for the nine months ended September 30, 2014. The number of net homes sold increased in the nine months ended September 30, 2014 compared to the same period in 2013 as a result of timing of new community openings. Due to continued improvement throughout the East segment markets in 2014, we were able to

Table of Contents

increase the average selling price of net homes sold in the East segment by 8.1% to \$412,000, resulting in an increase in sales value of net homes sold of 18.4%. These market improvements, as well as favorable home buyer reception of communities opened subsequent to September 30, 2013, contributed to closing revenue increases. Average home closings sales price in the East segment increased by 11.1% to \$413,000, over the 2013 period from a combination of product mix and price appreciation. Overall, the improvement in East segment home closings revenue and sales value has been due primarily to our well-located land positions, an increase in active selling communities and our consumer-driven offerings. Management in the region continues to market its offerings and look to reduce customer incentives and other promotions while increasing sales prices methodically as market conditions allow.

We experienced increases in home closings gross margin in our West Florida and North Florida divisions in 2014. The recovery and stabilization of the West Florida market has generated sustained consumer demand in the Tampa and Ft. Myers areas, which has allowed us to leverage a low cost basis land supply and home price increases to achieve higher margins. We also experienced increases in home closings gross margin in our Darling Dallas and Darling Houston divisions in 2014, where purchase price accounting adjustments on the assets acquired in the Darling acquisition reduced home closings gross margin for the nine months ended September 30, 2013. Home closings gross margin for the nine months ended September 30, 2014 for our Houston and Austin divisions decreased slightly in 2014 compared to the prior year period.

West Segment

The number of average active selling communities in the West segment increased 51.4% to 54 communities in the nine months ended September 30, 2014 compared to the 2013 period, due to eight community openings in our Phoenix division and seven openings in our Northern California division. Net sales orders increased both in units and in sales value in 2014 compared to 2013 due to favorable homebuyer reception of our Northern and Southern California communities. Sales pace in the West segment decreased to 3.2 homes per month per community for the nine months ended September 30, 2014 from 4.3 homes per month per community in the 2013 period. The decrease in sales pace for the current period reflects the effect of normalized demand, compared to a surge of buyers re-entering the market in the prior period. We actively manage the availability of product and timing of releases in order to help us achieve our profitability metrics and not sacrifice profitability for volume. We continue to see strong demand in these markets and year-over-year are systematically releasing product into the marketplace to capture and maintain operating margins, as evidenced, in part, by the 30.0% increase in average sales price of our backlog homes.

The home closings gross margin percentage and adjusted home closings gross margin percentage decreased in 2014 compared to 2013 which was primarily due to increased demand for construction labor and increased interest carrying costs. We were, however, able to increase our average selling price of homes closed by 30.1%, to \$513,000 in the nine months ended September 30, 2014, driven primarily by high margin dollars with a lower margin rate in our Southern California division.

Canada Segment

The number of average active selling communities in the nine month period ended September 30, 2014, including unconsolidated joint ventures, decreased by 4 communities from the prior year period due to the closing of one wholly owned and two joint venture high-rise buildings during the latter half of 2013. The average sales orders per community per month, excluding unconsolidated joint ventures, were 4.7 and 3.5 for the nine months ended September 30, 2014 and 2013, respectively. The Canada segment, excluding unconsolidated joint ventures, experienced an increase of 59 units in net new homes sold and an increased aggregate sales value in the nine months ended September 30, 2014 when compared to the same period last year, which is due to higher product availability during 2014. The closeout of towers during 2013 caused the product mix of our unconsolidated joint ventures to shift

to our low-rise product, accounting for the 63 unit decrease in units closed during the nine months ended September 30, 2014 as compared to the prior year period. Income from joint venture closings is included as a component of equity in income of unconsolidated entities and not included in home closings revenue.

The decrease in Canada home closings gross margin was due to a larger proportion of sales of higher margin single-family detached and attached homes in the nine months ended September 30, 2013 as compared to the current period. As previously expected, moderating economic growth in Ontario relative to the recent past, a constrained land market and increasing units in construction has tempered growth in the Ontario housing market and has brought our margins back in line with historical levels.

Table of Contents***Mortgage Operations***

Our Mortgage Operations segment, which provides mortgage lending through TMHF, is highly dependent on our sales and closings volumes.

(In thousands)	Nine Months Ended	
	September 30,	
	2014	2013
Mortgage operations revenue	\$ 22,870	\$ 20,896
Mortgage operations expenses	13,641	11,945
Mortgage operations gross margin	\$ 9,229	\$ 8,951
Adjusted mortgage operations gross margin	\$ 9,229	\$ 8,951
Mortgage operations margin %	40.4%	42.8%
Adjusted mortgage operations margin %	40.4%	42.8%

Our Mortgage Operations segment's revenue increased from \$20.9 million in the nine months ended September 30, 2013 to \$22.9 million in the nine months ended September 30, 2014, due primarily to increased closings volume and average loan amounts. The decrease in gross margin was due primarily to increases in mortgage underwriting costs driven by increased staffing for compliance initiatives. Our capture rate at 73% was down from the prior year comparable period as we transitioned our Darling operations from a legacy provider to TMHF and the availability of other lending opportunities to home buyers increased in the United States.

Sales, Commissions and Other Marketing Costs

For the nine months ended September 30, 2014 and 2013, sales commissions, and other marketing costs such as advertising and sales office expenses were \$124.3 million and \$97.2 million, respectively, reflecting a 9.8% increase in homes closed (excluding joint ventures) as well as an increase in average selling price. As a percentage of home closings revenue, sales, commissions and other marketing costs was 6.6% and 6.5% for the nine months ended September 30, 2014 and 2013, respectively. Our U.S. segments tend to have higher per-unit commissions, so our mix of commissions paid moved in tandem with our U.S. operations, where we closed 12.9% more homes in the nine months ended September 30, 2014 as compared to the same period in 2013.

General and Administrative Expenses

For the nine months ended September 30, 2014, general and administrative expenses were \$66.3 million as compared to \$68.2 million in the same period in 2013, which represents a 2.8% decrease. General and administrative expenses decreased to 3.4% as a percentage of total revenue in the nine months ended September 30, 2014, compared to 4.5% in the same period in 2013. Our growth in home closings revenue during the period reduced our general and administrative percentage as we were able to utilize our scalable platform, providing leverage on increased revenue with existing infrastructure.

Equity in Income of Unconsolidated Entities

Equity in income of unconsolidated entities was \$22.5 million for the nine months ended September 30, 2014 compared to \$21.0 million for the nine months ended September 30, 2013.

Interest Expense (Income), net

Interest expense represents interest incurred, but not capitalized on our long-term debt and other borrowings. Interest income is from cash balance deposits. Interest expense (income), net for the nine months ended September 30, 2014 and 2013, was \$0.7 million of expense and \$1.1 million of income, respectively.

Loss on Extinguishment of Debt

On April 12, 2013 TMHC used \$204.3 million of the net proceeds of the its initial public offering (IPO) to acquire limited partnership interests (New TMM Units) of TMM Holdings II Limited Partnership (New TMM) from New TMM (at a price equal to the price paid by the underwriters for shares of Class A Common Stock in the IPO). New TMM contributed such net proceeds to TMM Holdings, which then contributed such proceeds to the Bond Co-Issuers (as defined below) to redeem \$189.6 million aggregate principal amount of 2020 Senior Notes (as defined below) (at a purchase price equal to 103.875% of their principal amount, plus accrued and unpaid interest of \$7.3 million through the date of redemption). We wrote off \$4.6 million of unamortized issuance costs, wrote off \$1.8 million of original issue premium and incurred a call premium of \$7.3 million related to the redemption. These costs are included in the \$10.1 million loss on extinguishment for the nine months ended September 30, 2013.

Table of Contents

We did not incur any losses on extinguishment of debt for the nine months ended September 30, 2014.

Other Expense, net

Other expense, net for the nine months ended September 30, 2014 and 2013 was \$10.3 million and \$2.6 million of expense, respectively. Other expense is primarily related to mothball community expense, pre-acquisition costs on un-pursued land projects and captive insurance claims costs.

Indemnification Expense and Transaction Expenses

On July 13, 2011, TMM Holdings, through various wholly owned acquisition subsidiaries, acquired all of the outstanding shares of Taylor Woodrow Holdings (USA), Inc. (Taylor Woodrow) and are now known as Taylor Morrison Communities, Inc. (TMC) and Monarch Corporation (Monarch), collectively the Predecessor , from the Predecessor Parent Company through a combination of equity and debt (the Acquisition).

The Predecessor Parent Company indemnified TMM Holdings for specific uncertain tax positions existing as of the date of the Acquisition. An indemnification receivable of \$129.7 million was recorded at the time of the Acquisition. The indemnification receivable also includes a periodic increase for accrued interest, penalties, and additional identified tax issues covered by the indemnity, offset by periodic decreases as uncertain tax matters and related tax obligations are resolved. The receivable due from the Predecessor Parent Company for the indemnification was valued at the same amount as the estimated income tax liability. During the nine months ended September 30, 2013, \$77.9 million of the indemnification receivable was written off and recorded as indemnification expense due to successful effective settlement of a tax position that was indemnified by the Predecessor Parent Company. The uncertain tax position was reversed simultaneously in our tax provision.

During the nine months ended September 30, 2013, we also incurred \$29.8 million of expense related to the termination of the management services agreement between us and affiliates of TPG Global, LLC (the TPG Entities), investment funds managed by Oaktree Capital Management, L.P. or their respective subsidiaries (the Oaktree Entities), and affiliates of JH Investments, Inc. (the JH Entities and together with the TPG Entities and Oaktree Entities, the Principal Equityholders) as part of the Reorganization Transactions. Additionally, we incurred \$80.2 million of non-cash stock compensation expense for the modification of the Class J Units which were exchanged from the Company to entities controlled by the Principal Equityholders. The charge was related to the termination of the services agreement which was a modification of the award.

No similar charges were recorded in the nine months ended September 30, 2014.

Income Tax Provision

Our effective tax rate for the nine months ended September 30, 2014 and 2013 was based on the statutory tax rates in the United States and Canada, affected by state income taxes, the recognition of previously unrecognized tax benefits, changes in deferred tax assets, changes in valuation allowances, preferential treatment of deductions relating to homebuilding activities and interest relating to uncertain tax positions. For the nine months ending September 30, 2014 we recorded a tax expense of \$64.1 million and for the nine months ending September 30, 2013 we recorded a benefit of \$22.3 million. The tax expense for nine months ended September 30, 2014 represented an effective tax rate of 28.2%. The effective rate in the current period was impacted by certain discrete items related to the valuation of deferred tax assets, tax ramifications of our organizational structure and the impact of tax credits.

Edgar Filing: Taylor Morrison Home Corp - Form 10-Q

During the nine months ended September 30, 2013, we accepted a settlement offer from the IRS related to Taylor Woodrow for the 2008 and 2009 tax years. As a result, \$79.6 million of our previously unrecognized tax positions including interest and penalties were recognized during the nine months ended September 30, 2013. In addition, we recorded an increase to our unrecognized tax positions of \$7.2 million in respect of state tax issues related to tax returns filed under the legacy Predecessor Parent Company operations.

Table of Contents

Liquidity and Capital Resources

Liquidity

We finance our operations from operating cash flows, borrowings under our Restated Revolving Credit Facility, our various series of Senior Notes, mortgage warehouse facilities, project-level financing (including non-recourse loans) and our Canadian credit facilities. We also obtain performance, payment and completion surety bonds, and letters of credit to finance our projects. We believe that we can fund our current and foreseeable liquidity needs for the next 12 months from the cash generated from operations, borrowings under our Restated Revolving Credit Facility and our existing Canadian credit facilities; however, we may access the capital markets to obtain additional liquidity on an opportunistic basis.

Our principal uses of capital in the three and nine months ended September 30, 2014 and 2013 were land purchases, lot development, home construction, operating expenses, payment of debt service, income taxes, investments in joint ventures and the payment of various liabilities. Cash flows for each of our communities depend on the status of the development cycle, and can differ substantially from reported earnings. Early stages of development or expansion require significant cash outlays for land acquisitions, plats, site development, construction of model homes, general landscaping and other amenities. Because these costs are a component of our inventory and are not recognized in our statement of operations until a home closes, we incur significant cash outflows prior to recognition of earnings. In the later stages of a community, cash inflows may significantly exceed earnings reported for financial statement purposes, as the costs associated with home and land construction were previously incurred.

We have a defined strategy for cash management, particularly as related to cash outlays for land and inventory development. We used \$371.0 million of cash in operating activities for the nine months ended September 30, 2014 and \$338.4 million in the same period in 2013. Our principal cash uses in 2014 were real estate inventory acquisitions, construction and taxes. We generated the cash used in 2014 through our operating activities, borrowings under our revolving facilities and the issuance of the 2024 Senior Notes.

Our need for letters of credit has been primarily fulfilled through The Toronto-Dominion Bank (TD Facility), the Restated Revolving Credit Facility and HSBC Bank Canada (the HSBC Facility), which are discussed in more detail below. We believe that our strong balance sheet and liquidity position will allow us to be flexible in reacting to changing market conditions.

Depending upon future homebuilding market conditions and our expectations for these conditions, we may use a portion of our cash and cash equivalents to take advantage of land opportunities. We intend to maintain adequate liquidity and balance sheet strength, and we will continue to evaluate opportunities to access the debt and equity capital markets as they are available.

Capital Resources

Cash and Cash Equivalents

As of September 30, 2014, we had available cash and cash equivalents of \$281.5 million. Cash and cash equivalents consist of cash on hand, demand deposits with financial institutions and short-term, highly liquid investments. We consider all highly liquid investments with original maturities of 90 days or less, such as certificates of deposit, money market funds, and commercial paper, to be cash equivalents. Cash accounts are insured up to \$250,000 in the United States by the Federal Deposit Insurance Corporation and up to CAD \$100,000 in Canada by the Canadian Deposit Insurance Company.

The amount of cash and cash equivalents held by foreign subsidiaries as of September 30, 2014 was \$162.3 million. While all of such cash and cash equivalents are readily convertible into U.S. dollars, we would be required to accrue and pay taxes to repatriate those funds to the United States. Historically we have not generally repatriated such funds, since we generally have used such funds in our Canadian business. However, in the future we may repatriate such funds to the United States.

2020 Senior Notes

On April 13, 2012, the Bond Co-Issuers issued \$550.0 million of 7.75% Senior Notes due 2020 (the *Initial Notes*) at an initial offering price of 100% of the principal amount (the *Offering*). The net proceeds from the sale of the *Initial Notes* were \$537.4 million, net of debt issuance costs of \$12.6 million, and were used, in part, to repay existing indebtedness. The remaining proceeds of approximately \$187.4 million from the *Offering* were used by the Bond Co-Issuers for general corporate purposes. An additional \$3.0 million of issuance costs were settled outside the bond proceeds.

Table of Contents

On August 21, 2012, the Bond Co-Issuers issued an additional \$125.0 million of 7.75% Senior Notes due 2020 (the Additional Notes together with the Initial Notes, the 2020 Senior Notes) at an initial offering price of 105.5% of the principal amount. The Bond Co-Issuers received \$132.5 million including prepaid interest, net of debt issuance costs of \$3.1 million. The net proceeds were used for general corporate purposes. The Additional Notes issued August 21, 2012 were issued pursuant to the existing indenture for the 2020 Senior Notes. The 2020 Senior Notes are unsecured and not subject to registration rights.

On April 12, 2013, TMHC used \$204.3 million of the net proceeds of the IPO to acquire New TMM Units from New TMM (at a price equal to the price paid by the underwriters for shares of Class A Common Stock in the IPO). TMM Holdings used these proceeds to repay a portion of the 2020 Senior Notes.

Obligations to pay principal and interest on the 2020 Senior Notes are guaranteed by TMM Holdings, Taylor Morrison Holdings, Inc., Monarch Parent Inc. and the U.S. homebuilding subsidiaries of TMC (collectively, the Guarantors). The 2020 Senior Notes and the guarantees are senior unsecured obligations of the Bond Co-Issuers and the Guarantors. The indenture for the 2020 Senior Notes contains covenants that limit (i) the making of investments, (ii) the payment of dividends and the redemption of equity and junior debt, (iii) the incurrence of additional indebtedness, (iv) asset dispositions, (v) mergers and similar corporate transactions, (vi) the incurrence of liens, (vii) the incurrence of prohibitions on payments and asset transfers among the issuers and restricted subsidiaries and (viii) transactions with affiliates, among others. The indenture governing the 2020 Senior Notes contains customary events of default. If we do not apply the net cash proceeds of certain asset sales within specified deadlines, we will be required to offer to repurchase the 2020 Senior Notes at par (plus accrued and unpaid interest) with such proceeds. We are also required to offer to repurchase the 2020 Senior Notes at a price equal to 101% of their aggregate principal amount (plus accrued and unpaid interest) upon certain change of control events.

2021 Senior Notes

On April 16, 2013, the Bond Co-Issuers issued \$550.0 million aggregate principal amount of 5.25% Senior Notes due 2021 (the 2021 Senior Notes). The 2021 Senior Notes are unsecured and are not subject to registration rights. The net proceeds from the issuance of the 2021 Senior Notes were \$541.7 million net of approximately \$8.3 million of debt issuance costs, and were used by the Bond Co-Issuers to repay the outstanding balance under the Restated Revolving Credit Facility and for general corporate purposes, including the purchase of additional land inventory.

The 2021 Senior Notes are guaranteed by the same Guarantors that guarantee the 2020 Senior Notes. The indenture governing the 2021 Senior Notes contains covenants, change of control and asset sale offer provisions that are similar to those contained in the indenture governing the 2020 Senior Notes.

2024 Senior Notes

On March 5, 2014, the Bond Co-Issuers issued \$350.0 million aggregate principal amount of 5.625% Senior Notes due 2024 (the 2024 Senior Notes). The 2024 Senior Notes are unsecured and are not subject to registration rights. The approximate net proceeds from the issuance of the 2024 Senior Notes were \$345.3 million, net of approximately \$4.7 million of debt issuance costs, were used by the Bond Co-Issuers to repay the outstanding balance under the Restated Revolving Credit Facility and for general corporate purposes.

The 2024 Senior Notes will mature on March 1, 2024. The 2024 Senior Notes are guaranteed by the same Guarantors that guarantee the 2020 and 2021 Senior Notes. The indenture governing the 2024 Senior Notes contains covenants that limit the ability of the Bond Co-Issuers and the Guarantors to incur debt secured by liens and enter into certain sale and leaseback transactions. The indenture governing the 2024 Senior Notes contains events of default that are

similar to those contained in the indentures governing the 2020 and the 2021 Senior Notes. The change of control provisions in the indenture governing the 2024 Senior Notes are similar to those contained in the indentures governing the 2020 and the 2021 Senior Notes, but a credit rating downgrade must occur in connection with the change of control before the repurchase offer requirement is triggered for the 2024 Senior Notes.

Prior to December 1, 2023, the 2024 Senior Notes are redeemable at a price equal to 100% plus a make-whole premium for payments through December 1, 2023 (plus accrued and unpaid interest). Beginning on December 1, 2023, the 2024 Senior Notes are redeemable at par (plus accrued and unpaid interest).

Restated Revolving Credit Facility

On January 15, 2014, TMC and various other subsidiaries of TMHC (collectively, the Borrowers), entered into Amendment No. 1 to the senior revolving credit facility entered into with a syndicate of third party banks and financial institutions in July 2011 and amended and restated as of April 13, 2012 and further amended and restated as of April 12, 2013 (the Restated Revolving Credit Facility). This Amendment No. 1 released Monarch from all of its obligations under the Restated Revolving Credit Facility. As a result, the only borrower under the Restated Revolving Credit Facility is TMC. The Restated Revolving Credit Facility is guaranteed by the same Guarantors that guarantee the 2020 Senior Notes. The Restated Revolving Credit Facility matures on April 12, 2017.

Table of Contents

The Restated Revolving Credit Facility contains certain springing financial covenants, requiring TMM Holdings and its subsidiaries to comply with a certain maximum capitalization ratio and a certain minimum consolidated tangible net worth test. The financial covenants would be in effect for any fiscal quarter during which any (a) loans under the Restated Revolving Credit Facility are outstanding during the last day of such fiscal quarter or on more than five separate days during such fiscal quarter or (b) undrawn letters of credit (except to the extent cash collateralized) issued under the Restated Revolving Credit Facility in an aggregate amount greater than \$40.0 million or unreimbursed letters of credit issued under the Restated Revolving Credit Facility are outstanding on the last day of such fiscal quarter or for more than five consecutive days during such fiscal quarter. For purposes of determining compliance with the financial covenants for any fiscal quarter, the Restated Revolving Credit Facility provides that TMC may exercise an equity cure by issuing certain permitted securities for cash or otherwise recording cash contributions to its capital that will, upon the contribution of such cash to TMC, be included in the calculation of consolidated tangible net worth and consolidated total capitalization. The equity cure right is exercisable up to twice in any period of four consecutive fiscal quarters and up to five times overall. The maximum debt to total capitalization ratio is 0.60 to 1.00. The ratio as calculated by the Borrowers at September 30, 2014 was 0.47 to 1.00. The minimum consolidated tangible net worth requirement was \$1.3 billion at September 30, 2014. At September 30, 2014, the Borrowers' tangible net worth, as defined in the Restated Revolving Credit Facility, was \$1.7 billion.

The Restated Revolving Credit Facility contains certain restrictive covenants including limitations on incurrence of liens, dividends and other distributions, asset dispositions and investments in entities that are not guarantors, limitations on prepayment of subordinated indebtedness and limitations on fundamental changes. The Restated Revolving Credit Facility contains customary events of default, subject to applicable grace periods, including for nonpayment of principal, interest or other amounts, violation of covenants (including financial covenants, subject to the exercise of an equity cure), incorrectness of representations and warranties in any material respect, cross default and cross acceleration, bankruptcy, material monetary judgments, ERISA events with material adverse effect, actual or asserted invalidity of material guarantees and change of control. As of September 30, 2014 and December 31, 2013, the Company was in compliance with its financial covenants.

As of September 30, 2014, under our Restated Revolving Credit Facility, there were \$150.0 million in outstanding borrowings and there were no outstanding borrowings at December 31, 2013. As of September 30, 2014, we had \$214.5 million of availability for borrowings including \$164.5 million of availability for letters of credit (giving effect to a sub-limit for letters of credit of \$200.0 million and \$35.5 million of letters of credit outstanding as of such date).

Mortgage Company Loan Facilities

Borrowings under our TMHF warehouse facilities are accounted for as secured borrowings under ASC Topic 860, Transfers and Servicing. The mortgage borrowings outstanding as of September 30, 2014 and December 31, 2013, are collateralized by \$72.9 million and \$95.7 million, respectively, of mortgage loans held for sale, which comprise the balance of mortgage receivables. At September 30, 2013, the mortgage borrowings were also secured by restricted short-term investments in certificates of deposit known as Certificate of Deposit Account Registry Service (CDARS) of \$2.0 million, which are included in restricted cash in the accompanying Condensed Consolidated Balance Sheets. On September 29, 2014 TMHF entered into an additional warehouse facility, with a maximum credit line of \$50.0 million. There were no amounts outstanding on this line at September 30, 2014. Total capacity under the TMHF warehouse facilities available to TMHC at September 30, 2014 is \$140.0 million.

Loans, Letters of Credit, Surety Bonds and Financial Guarantees

In the course of land development and acquisition, we have issued letters of credit under our Restated Revolving Credit Facility to various land sellers and municipalities in the amount of \$35.5 million outstanding as of

September 30, 2014.

Through our subsidiaries, we are committed, under various loans, letters of credit and surety bonds, to perform certain development and construction activities and provide certain guarantees in the normal course of business. These guarantees have been made in connection with joint venture funding of our operations in Canada. Loans, outstanding letters of credit and surety bonds under these arrangements, including our share of responsibility for arrangements with our joint ventures, totaled \$267.3 million as of September 30, 2014 and \$212.2 million as of December 31, 2013. Although significant development and construction activities have been completed related to these site improvements, the letters of credit and surety bonds are reduced as development and construction work is completed, but not fully released until warranty periods have expired.

Monarch is party to the TD Facility, which provides borrowings, including letters of credit, of up to CAD \$100.0 million or its U.S. dollar equivalent in support of Monarch projects. Under the terms of the TD Facility, the first CAD \$80.0 million drawn under the facility is secured by liens on the interests of Monarch in certain Canadian real property. Amounts drawn above CAD \$80.0 million are secured with cash. There was a total of CAD \$56.9 million and CAD \$65.2 million of letters of credit outstanding under the TD Facilities as of September 30, 2014 and December 31, 2013, respectively. Monarch also guarantees the credit facilities that certain joint ventures are party to with the Toronto-Dominion Bank with availability of CAD \$37.0 million and CAD \$34.6 million at September 30, 2014 and December 31, 2013, respectively, which is in addition to the TD facility noted above. There was a total of CAD \$33.0 million and CAD \$33.3 million of letters of credit outstanding under joint venture credit facilities as of September 30, 2014 and December 31, 2013, respectively.

Table of Contents

Monarch is also party to a credit facility with HSBC Bank Canada. The HSBC Facility provides a letter of credit facility of up to CAD \$24.2 million as of September 30, 2014 in support of Monarch's construction projects. Under the terms of the HSBC Facility, amounts drawn under this facility are secured by liens over the interests of Monarch in certain Canadian real property or cash. There was CAD \$13.1 million and CAD \$18.0 million letters of credit outstanding under the HSBC Facility as of September 30, 2014 and December 31, 2013, respectively.

Both the TD Facility and the HSBC Facility are 364-day facilities that are scheduled to expire on June 30 of each year. Both facilities have been renewed and extended to June 30, 2015 on terms substantially similar to those in effect prior to the renewal.

Loans Payable and Other Borrowings

Loans payable and other borrowings as of September 30, 2014 consist of project-level debt due to various land sellers and municipalities, and are generally secured by the land that was acquired. Principal payments generally coincide with corresponding project lot sales or a principal reduction schedule. The weighted average interest rate on \$127.1 million of the loans as of September 30, 2014 was 5.9% per annum, and \$106.4 million of the loans were non-interest bearing.

Operating Cash Flow Activities

Our net cash used in operating activities amounted to \$371.0 million for the nine months ended September 30, 2014 compared to \$338.4 million used in operating activities for the nine months ended September 30, 2013. Contributing to this change was a decrease in prepaid expense during the 2014 period as amounts recognized for model homes and insurance renewals decreased as closings increased and insurance policies conditioned on number of closings forecasted were executed. Also contributing to the change was a decrease in income taxes payable as a result of timing of estimated income tax payments.

Investing Cash Flow Activities

Net cash used in investing activities was \$71.2 million and \$6.2 million for the nine months ended September 30, 2014 and 2013, respectively. The increase in cash used in 2014 was primarily the result of an increased investments in unconsolidated entities as we continue to fund new joint venture operations. This increase was partially offset by a decrease in restricted cash which secures lines of credit in our Canadian operations.

Financing Cash Flow Activities

Net cash provided by financing activities totaled \$341.8 million for the nine months ended September 30, 2014 compared to \$407.4 million for the nine months ended September 30, 2013. Net cash provided by financing activities in 2014 was primarily attributable to our issuance of \$350.0 million of 2024 Senior Notes in March 2014 and borrowings under our Restated Revolving Credit Facility. These proceeds were partially offset by repayments on our line of credit borrowings.

Table of Contents***Commercial Commitments and Off-Balance Sheet Arrangements***

The following table summarizes our loans, letters of credit, surety bonds and financial guarantees of joint ventures as of the dates indicated:

<i>(In thousands)</i>	As of September 30, 2014	As of December 31, 2013
Letters of credit		
U.S.	\$ 35,541	\$ 26,457
Canada	62,866	77,871
Total outstanding letters of credit	\$ 98,407	\$ 104,328
Surety bonds		
U.S.	\$ 241,906	\$ 130,459
Canada	12,738	58,248
Total outstanding surety bonds	\$ 254,644	\$ 188,707
Financial guarantees of joint ventures, proportionate share		
Letters of credit	\$ 16,449	\$ 15,115
Borrowings	68,895	25,169
Total outstanding financial guarantees of joint ventures	\$ 85,344	\$ 40,284
Total outstanding letters of credit, surety bonds and financial guarantees of joint ventures	\$ 438,395	\$ 333,319

We do not engage in commodity trading or other similar activities. We had no material derivative financial instruments at September 30, 2014 or December 31, 2013.

Investments in Land Development and Homebuilding Joint Ventures or Unconsolidated Entities

We participate in a number of strategic land development and homebuilding joint ventures with related and unrelated third parties. The use of these entities, in some instances, enables us to acquire land to which we could not otherwise obtain access, or could not obtain access on terms that are favorable. Our partners in these joint ventures historically have been land owners/developers, other homebuilders and financial or strategic partners. Joint ventures with other homebuilders have provided us with the ability to bid jointly with our partners for large or expensive land parcels. Joint ventures with financial partners have allowed us to combine our homebuilding expertise with access to our partners' capital. Joint ventures with strategic partners have allowed us to combine our homebuilding expertise with the specific expertise (e.g. commercial or infill experience) of our partners.

As of September 30, 2014, we had equity investments in 32 unconsolidated land development and homebuilding joint ventures, compared to 34 at December 31, 2013. Not all of these joint ventures are actively engaged in homebuilding operations and some may be maintained, despite no longer being operational.

Investment in unconsolidated land development and homebuilding joint ventures

<i>(In thousands)</i>	As of September 30, 2014	As of December 31, 2013
East	\$ 51,747	\$ 20,191
West	33,960	
Canada	129,826	118,115
Other	1,244	1,244
Total	\$ 216,777	\$ 139,550

These joint ventures often obtain acquisition, development and construction financing, designed to reduce our equity investment and improve our overall returns. This joint venture specific indebtedness is typically secured by all assets of the entity raising the debt. As of September 30, 2014, our unconsolidated joint ventures' borrowings were \$232.2 million compared to \$139.4 million at December 31, 2013. Our proportional share of letters of credit issued and indebtedness was \$16.4 million and \$68.9 million at September 30, 2014 and \$15.1 million and \$25.2 million, respectively, at December 31, 2013.

Table of Contents

As added support to the third party lenders of these unconsolidated joint ventures related to our Canadian business, secured guarantees are typically provided by Monarch typically in proportion to Monarch's equity ownership in the joint venture. As of September 30, 2014, our maximum recourse exposure related to outstanding indebtedness and letters of credit issued by our unconsolidated land development and homebuilding joint ventures totaled \$136.5 million, an increase from \$91.1 million as of December 31, 2013. We also provide completion and performance guarantees for projects undertaken by our unconsolidated joint ventures.

The summarized balance sheets below of our unconsolidated land development and homebuilding joint ventures with recourse to us were as follows:

<i>(In thousands)</i>	As of September 30, 2014	As of December 31, 2013
Assets	\$ 935,012	\$ 573,351
Liabilities	411,950	313,726
Equity	523,062	259,625

Seasonality

Our business is seasonal. We have historically experienced, and in the future expect to continue to experience, variability in our results on a quarterly basis. We generally have more homes under construction, close more homes and have greater revenues and operating income in the third and fourth quarters of the year. Therefore, although new home contracts are obtained throughout the year, a significant portion of our home closings occur during the third and fourth calendar quarters. Our revenue therefore may fluctuate significantly on a quarterly basis and we must maintain sufficient liquidity to meet short-term operating requirements. Factors expected to contribute to these fluctuations include:

the timing of the introduction and start of construction of new projects;

the timing of project sales;

the timing of closings of homes, condominium units, lots and parcels;

our ability to continue to acquire land and options on that land on acceptable terms;

the timing of receipt of regulatory approvals for development and construction;

the condition of the real estate market and general economic conditions in the areas in which we operate;

mix of homes closed;

construction timetables;

the prevailing interest rates and the availability of financing, both for us and for the purchasers of our homes;

the cost and availability of materials and labor; and

weather conditions in the markets in which we build.

As a result of seasonal activity, our quarterly results of operations and financial position are not necessarily representative of the results we expect at year end.

Inflation

We and the homebuilding industry in general may be adversely affected during periods of high inflation, primarily because of higher land, financing, labor and material construction costs. In addition, higher mortgage interest rates can significantly affect the affordability of permanent mortgage financing to prospective homebuyers. We attempt to pass through to our customers any increases in our costs through increased sales prices. However, during periods of soft housing market conditions, we may not be able to offset our cost increases with higher selling prices.

Critical Accounting Policies

There have been no significant changes to our critical accounting policies during the nine months ended September 30, 2014 as compared to those we disclosed in Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the year ended December 31, 2013.

Table of Contents**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK****Interest Rate Risk**

Our operations are interest rate sensitive. We monitor our exposure to changes in interest rates and incur both fixed rate and variable rate debt. At September 30, 2014, 89% of our debt was fixed rate and 11% was variable rate. None of our market sensitive instruments were entered into for trading purposes. We did not utilize swaps, forward or option contracts on interest rates or other types of derivative financial instruments to manage our risk as of and for the nine months ended September 30, 2014. For fixed rate debt, changes in interest rates generally affect the fair value of the debt instrument, but not our earnings or cash flows. Conversely, for variable rate debt, changes in interest rates generally do not impact the fair value of the debt instrument but may affect our future earnings and cash flows, and may also impact our variable rate borrowing costs, which principally relate to any borrowings under our Restated Revolving Credit Facility and to any borrowings by TMHF under its various warehouse facilities. As of September 30, 2014, we had \$150.0 million in outstanding borrowings under our \$400.0 million Restated Revolving Credit Facility. We had \$214.5 million of additional availability for borrowings and \$164.5 million of additional availability for letters of credit (giving effect to \$35.5 million of letters of credit outstanding as of such date). Our fixed rate debt is subject to a requirement that we offer to purchase the Senior Notes at par with certain proceeds of asset sales (to the extent not applied in accordance with the indenture governing the Senior Notes). We are also required to offer to purchase all of the outstanding Senior Notes at 101% of their aggregate principal amount upon the occurrence of specified change of control events. Other than in those circumstances, we do not have an obligation to prepay fixed rate debt prior to maturity and, as a result, interest rate risk and changes in fair value would not be expected to have a significant impact on our cash flows related to our fixed rate debt until such time as we are required to refinance, repurchase or repay such debt.

We are not materially exposed to interest rate risk associated with TMHF's mortgage loan origination business because at the time any loan is originated, TMHF has identified the investor who will agree to purchase the loan on the interest rate terms that are locked in with the borrower at the time the loan is originated.

The following table sets forth principal cash flows by scheduled maturity and effective weighted average interest rates and estimated fair value of our debt obligations as of September 30, 2014. The interest rate for our variable rate debt represents the interest rate on our mortgage warehouse facilities. Because the mortgage warehouse facilities are effectively secured by certain mortgage loans held for sale which are typically sold within 20 days, its outstanding balance is included as a variable rate maturity in the most current period presented.

<i>(In millions, except percentage data)</i>	Expected Maturity Date						Total	Fair Value
	2014	2015	2016	2017	2018	Thereafter		
Fixed Rate Debt	\$ 40.3	\$ 65.4	\$ 56.5	\$ 23.8	\$ 35.8	1,400.7	1,622.5	1,640.7
Average interest rate ⁽¹⁾	3.2%	3.2%	3.2%	3.3%	3.2%	6.2%	5.8%	
Variable rate debt⁽²⁾	\$ 198.6	\$	\$	\$	\$	\$	\$ 198.6	\$ 198.6
Average interest rate	4.0%						4.0%	

(1) Represents the coupon rate of interest on the full principal amount of the debt.

(2) Based upon the amount of variable rate debt at September 30, 2014 and, holding the variable rate debt balance constant, each 1% increase in interest rates would increase the interest incurred by us by approximately \$2.0 million per year.

Currency Exchange Risk

The functional currency for our Canadian operations is the Canadian dollar. In the nine months ended September 30, 2014 and 2013, 12.4% and 16.2%, respectively, of our consolidated revenues were generated by our Canadian operations. As a result, our future earnings could be affected by fluctuations in the exchange rate between the United States and Canadian dollars. We did not utilize swaps, forward or option contracts on currency exchange rates or other types of derivative financial instruments to manage our risk for the nine months ended September 30, 2014. Based upon the level of our Canadian operations during the nine months ended September 30, 2014, relative to our operations as a whole, a 10% increase in the value of the Canadian dollar as compared to the U.S. dollar would have reduced net income by approximately \$3.9 million for the nine months ended September 30, 2014.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, management has evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934) as of September 30, 2014. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective to ensure information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act is recorded, processed, summarized and reported within the periods specified in the Securities and Exchange Commission's rules and forms and is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error and mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of controls.

The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, a control may become inadequate because of changes in conditions or because the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and may not be detected.

Changes in Internal Controls

No change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) occurred during the quarter ended September 30, 2014 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are involved in various litigation and legal claims in the normal course of our business operations, including actions brought on behalf of various classes of claimants. We are also subject to a variety of local, state, and federal laws and regulations related to land development activities, house construction standards, sales practices, mortgage lending operations, employment practices, and protection of the environment. As a result, we are subject to periodic examination or inquiry by various governmental agencies that administer these laws and regulations.

We establish liabilities for legal claims and regulatory matters when such matters are both probable of occurring and any potential loss can reasonably be estimated. We accrue for such matters based on the facts and circumstances specific to each matter and revise these estimates as the matters evolve. In such cases, there may exist an exposure to loss in excess of any amounts currently accrued. Predicting the ultimate resolution of the pending matters, the related timing, or the eventual loss associated with these matters is inherently difficult. While the outcome of such contingencies cannot be predicted with certainty, we do not believe that the resolution of such matters will have a material adverse impact on our results of operations, financial position, or cash flows. Accordingly the liability arising from the ultimate resolution of any matter may exceed the estimates reflected in the recorded reserves relating to such matter.

ITEM 1A. RISK FACTORS

There have been no material changes to the Risk Factors set forth in Part 1, Item 1A. of our 2013 Annual Report on Form 10-K. These Risk Factors may materially affect our business, financial condition or results of operations. You should carefully consider the Risk Factors set forth in our 2013 Annual Report on Form 10-K and the other information set forth elsewhere in this quarterly report. You should be aware that these Risk Factors and other information may not describe every risk facing our Company.
