(2) We expect that delivery of the notes will be made against payment thereof on or about the settlement date specified in this communication, which will be the seventh business day following the date of pricing of the notes (this settlement cycle being referred to as T+7). Under Rule 15c6-1 of the U.S. Securities and Exchange Commission (the SEC) under the Securities Exchange Act of 1934, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on the date of pricing or the next three succeeding business days will be required, by virtue of the fact that the notes initially will settle in T+7, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of notes who wish to trade notes on the date of pricing or the next three succeeding business days should consult their own advisor.
