SECTION 19(B) DISCLOSURE

September 30, 2014 (Unaudited)

Clough Global Allocation Fund, Clough Global Equity Fund, and Clough Global Opportunities Fund (each a Fund and collectively, the Funds), acting pursuant to a Securities and Exchange Commission (SEC) exemptive order and with the approval of each Fund s Board of Trustees (the Board), have adopted a plan, consistent with each Fund s investment objectives and policies to support a level distribution of income, capital gains and/or return of capital (the Plan). In accordance with the Plan, Clough Global Allocation Fund and Clough Global Equity Fund currently distribute \$0.105 per share on a monthly basis and Clough Global Opportunities Fund distributes \$0.095 per share on a monthly basis.

The fixed amount distributed per share is subject to change at the discretion of each Fund s Board. Under the Plan, each Fund will distribute all available investment income to its shareholders, consistent with each Fund s primary investment objectives and as required by the Internal Revenue Code of 1986, as amended (the Code). If sufficient investment income is not available on a monthly basis, each Fund will distribute long-term capital gains and/or return of capital to shareholders in order to maintain a level distribution. Each monthly distribution to shareholders is expected to be at the fixed amount established by the Board, except for extraordinary distributions and potential distribution rate increases or decreases to enable each Fund to comply with the distribution requirements imposed by the Code.

Shareholders should not draw any conclusions about each Fund s investment performance from the amount of these distributions or from the terms of the Plan. Each Fund s total return performance on net asset value is presented in its financial highlights table.

The Board may amend, suspend or terminate each Fund s Plan without prior notice if it deems such action to be in the best interest of either the Fund or its shareholders. The suspension or termination of the Plan could have the effect of creating a trading discount (if a Fund s stock is trading at or above net asset value) or widening an existing trading discount. Each Fund is subject to risks that could have an adverse impact on its ability to maintain level distributions. Examples of potential risks include, but are not limited to, economic downturns impacting the markets, increased market volatility, companies suspending or decreasing corporate dividend distributions and changes in the Code. Please refer to each Fund s prospectus for a more complete description of its risks.

Please refer to Additional Information for a cumulative summary of the Section 19(a) notices for each Fund s current fiscal period. Section 19(a) notices for each Fund, as applicable, are available on the Clough Global Closed-End Funds website www.cloughglobal.com.

Clough Global Funds

To Our Shareholders:

Clough Global Allocation Fund (GLV)

During the six-months ended September 30, 2014, the Clough Global Allocation Fund's total return, assuming reinvestment of all distributions, was -0.59% based on the net asset value and -1.74% based on the market price of the Fund. The S&P 500 and the MSCI World Index returned 6.41% and 2.92%, respectively, over the same period. During the six-months ended September 30, 2014, the Fund paid \$0.63 per share in distributions. As of September 30th, the Fund had a dividend distribution rate on the market price of 8.81%.

Clough Global Equity Fund (GLQ)

During the six-months ended September 30, 2014, the Clough Global Equity Fund's total return, assuming reinvestment of all distributions, was -1.09% based on the net asset value and -3.11% based on the market price of the Fund. The S&P 500 and the MSCI World Index returned 6.41% and 2.92%, respectively, over the same period. During the six-months ended September 30, 2014, the Fund paid \$0.63 per share in distributions. As of September 30th, the Fund had a dividend distribution rate on the market price of 8.79%.

Clough Global Opportunities Fund (GLO)

During the six-months ended September 30, 2014, the Clough Global Opportunities Fund's total return, assuming reinvestment of all distributions, was -0.81% based on the net asset value and -2.12% based on the market price of the Fund. The S&P 500 and the MSCI World Index returned 6.41% and 2.92%, respectively, over the same period. During the six-months ended September 30, 2014, the Fund paid \$0.57 per share in distributions. As of September 30th, the Fund had a dividend distribution rate on the market price of 9.56%.

One thing that has been supportive of equities for the past two years has been the aggressive expansion of liquidity on the part of the Fed. That in turn has depressed securities market volatility. All has now changed. Volatility first emerged in the foreign exchange market several weeks ago, a market where trillions of dollars are traded weekly. One reason for its reemergence is clear: tapering removes that support central bank liquidity has provided the capital markets. Another reason for the rise in volatility is a slowing global economy and the fact that systemic weakness in Europe has finally reached into Germany, where export orders and industrial activity have weakened. Peripheral bond markets have fallen in response and that has brought the Euro under pressure. As an aside, Europe's problems are actually positive for the Fund. As you know we have had a short European bank trade on for some time. Peripheral banks are particularly vulnerable here as they are largely a leveraged bet on their own sovereign spreads, and those spreads are beginning to widen out. We still believe very large capital raises lie ahead for the banks. While some of our strategies have been flat over the last six months, we still believe they have promise for high returns in this new environment.

Our positions in the housing sector encompass both homebuilders and companies involved in providing mortgage insurance. The mortgage insurance industry has the potential of being both rapidly growing and highly profitable in the absence of another collapse in residential housing prices. We think that is unlikely. The industry is under-building

demand. Meanwhile apartment rents are 15% higher year-on-year so that alternative to single family housing is getting pricey at a time mortgage costs are declining. The cog in the machine is mortgage availability which is still depressed largely due to regulatory issues but they are likely to ease. Sheila Bair, the former FDIC (Federal Deposit Insurance Corporation) Chair, wrote a piece in *Fortune* suggesting a less restrictive mortgage lending environment. In addition, Fannie Mae and Freddie Mac announced a joint campaign to make credit more accessible to first time home buyers. The recent move lower in 30-year mortgage rates below 4% should also provide a tailwind for the sector. Meanwhile MGIC Investment Corp., a mortgage insurer held by the Fund, reported a 21% year-on-year rise in new insurance in the third quarter in a flat market as the private companies take share from the FHA (Federal Housing Administration). It may require some patience, but a housing cycle seems more likely.

Citigroup Corp., one of the Fund's largest positions reported third quarter revenues rose 10% year-on-year while expenses dropped 6% and total credit costs dropped 11%. Citi Holdings (the so-called "bad bank") was profitable for the second quarter in a row. Net interest margins and trading revenues improved, as did international consumer revenues. Citi's capital and leverage ratios are far above peers, yet the stock still sells 15% below tangible book and 30% below stated book. It is notable that one-third of the company's earnings came from its Asian consumer business. Citi is part of an oligopoly of only three global banks which can offer corporate banking services worldwide.

Healthcare continues to be the largest contributor to performance for 2014. The funds are long names that will continue to benefit from the M&A (Mergers and Acquisitions) environment. Large slow growing names in the space need to acquire companies to maintain product pipelines. We are long mid-cap names with launched products and no partners that make for attractive acquisition targets. The funds also continue to be long hospitals that benefit from the implementation of the Affordable Care Act. Medicaid is now correcting roughly 10% top line losses for hospitals. Potential losses of the past will now be backed by the government. The long position in Healthcare is hedged with shorts in Biotech and HMO's (Health Maintenance Organization) where valuations look vulnerable.

On the Asia front, we think China's A share market (SHCOMP, Shanghai Stock Exchange Composite Index) could be the world's best performing index over the next few years. That index rose 6.9% in September on a 65% year-on-year rise in turnover while western stocks stumbled. Our thinking is based on China's transformation from a credit dependent industrial economy with a mercantilist bent to a consumer-based services economy. The China consumer is spending big time. One piece of evidence of this is a structural change in its current account makeup. China's merchandise trade

Table of Contents

Clough Global Funds

Shareholder Letter
September 30, 2014 (Unaudited)

balance was a positive \$358 billion in 2013, but that merely means it returned to its 2008 peak. However, China's total current account is deteriorating because of a growing deficit in trade from services. That means services consumption is rising rapidly. A boom in transportation and tourism services is simply reflective of the boom in services spending generally across China.

One way to think about Asia is that everywhere in Asia, reform is underway. Reform governments are in power in China and India, the Abe government is the best Japan has had in 30 years outside of Junichiro Koizumi. A former salesperson is in power in Indonesia. The army is currently in charge in Thailand but the army is popular and business friendly. In brief, approximately 8-9% of the Fund is invested here at present, largely in China, India, Japan and South Korea, and we are seeking ways to increase that exposure.

The Funds have benefited this year by being long 30-year Treasuries and A-rated US corporate bonds. 30% of equity in GLV and GLO and 20% of equity in GLQ are currently in fixed income assets. The recent volatility has made pricing more attractive in corporate bonds and we will continue to add to this allocation opportunistically. We still believe we are in a low interest rate world and deflationary forces in Europe will continue to make US Treasuries and corporate debt an attractive source of income.

If you have any questions about your investment, please call 1-877-256-8445.

Sincerely,

Charles I. Clough, Jr.

Robert M. Zdunczyk

Past performance is no guarantee of future results.

The information in this letter represents the opinions of the individual Portfolio Managers and is not intended to be a forecast of future events, a guarantee of future results, or investment advice.

The Fund's distribution policy will, under certain circumstances, have certain adverse consequences to the Fund and its shareholders because it may result in a return of capital resulting in less of a shareholder's assets being invested in the Fund and, over time, increase the Fund's expense ratio.

Sources of distributions to shareholders may include net investment income, net realized short-term capital gains, net realized long-term capital gains and return of capital. If a distribution includes anything other than net investment

income, the applicable Fund provides a Section 19(a) notice of the best estimate of its distribution sources at that time. Please refer to Additional Information for a cumulative summary of the Section 19(a) notices for each Fund's current period. The actual amounts and sources of distributions for tax reporting purposes will depend upon the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The estimates may not match the final tax characterization (for the full year's distributions) contained in the shareholder's Form 1099-DIV. Distribution payments are not guaranteed; distribution rates may vary.

MSCI World Index A free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed and emerging markets. The index includes reinvestment of dividends, net of foreign withholding taxes.

S&P 500® Index Standard & Poor's composite index of 500 stocks, a widely recognized, unmanaged index of common stock prices.

Shanghai Stock Exchange Composite-Index A capitalization-weighted index. The index tracks the daily price performance of all A-shares and B-shares listed on the Shanghai Stock Exchange.

30-year Treasuries A U.S. Treasury debt obligation that has a maturity of 30 years. The 30-year Treasury used to be the bellwether U.S. bond but now most consider the 10-year Treasury to be the benchmark.

A-rated US corporate bonds A rating that indicates that a municipal or corporate bond has a relatively low risk of default. Bond rating firms, such as Standard & Poor's, use different designations consisting of upper- and lower-case letters A and B to identify a bond's credit quality rating. AAA and AA (high credit quality) and A and BBB (medium credit quality) are considered investment grade. Credit ratings for bonds below these designations (BB, B, CCC, etc.) are considered low credit quality, and are commonly referred to as junk bonds.

It is not possible to invest directly in an index.

TOTAL SECURITIES SOLD SHORT (Proceeds \$68,615,855)		\$(69,392,768)

(a) Pledged security; a portion or all of the security is pledged as collateral for written options, securities sold short or borrowings. As of September 30, 2014, the aggregate market value of those securities was \$177,616,348, representing 101.94% of net assets. (See Note 1 and Note 6)

(b) Loaned security; a portion or all of the security is on loan as of September 30, 2014.

(c) Non-income producing security.

(d) Security exempt from registration of the Securities Act of 1933. These securities may be resold in transactions exempt from registration under Rule 144A, normally to qualified institutional buyers. As of September 30, 2014, these securities had an aggregate market value of \$5,769,573 or 3.31% of net assets.

(e) Fair valued security; valued by management in accordance with procedures approved by the Fund's Board of Trustees. As of September 30, 2014, these securities had an aggregate market value of \$1,189,619 or 0.68% of total net assets.

(f) Floating or variable rate security - rate disclosed as of September 30, 2014.

(g)

This security has no contractual maturity date, is not redeemable and contractually pays an indefinite stream of interest.

- (h) Rate shown represents the bond equivalent yield to maturity at date of purchase.*
- (i) Includes cash which is being held as collateral for total return swap contracts.*

Clough Global Equity Fund

- (a) *Pledged security; a portion or all of the security is pledged as collateral for written options, securities sold short or borrowings. As of September 30, 2014, the aggregate market value of those securities was \$301,263,725, representing 103.80% of net assets. (See Note 1 and Note 6)*
- (b) *Loaned security; a portion or all of the security is on loan as of September 30, 2014.*
- (c) *Non-income producing security.*
- (d) *Security exempt from registration of the Securities Act of 1933. These securities may be resold in transactions exempt from registration under Rule 144A, normally to qualified institutional buyers. As of September 30, 2014, these securities had an aggregate market value of \$10,991,410 or 3.79% of net assets.*
- (e) *Fair valued security; valued by management in accordance with procedures approved by the Fund's Board of Trustees. As of September 30, 2014, these securities had an aggregate market value of \$772,334 or 0.27% of total net assets.*
- (f) *Floating or variable rate security - rate disclosed as of September 30, 2014.*
- (g) *This security has no contractual maturity date, is not redeemable and contractually pays an indefinite stream of interest.*
- (h) *Rate shown represents the bond equivalent yield to maturity at date of purchase.*
- (i) *Includes cash which is being held as collateral for total return swap contracts.*

---------------------------------	------------------------

- (a) *Pledged security; a portion or all of the security is pledged as collateral for written options, securities sold short or borrowings. As of September 30, 2014, the aggregate market value of those securities was \$739,111,482, representing 102.73% of net assets. (See Note 1 and Note 6)*
- (b) *Loaned security; a portion or all of the security is on loan as of September 30, 2014.*
- (c) *Non-income producing security.*
- (d) *Security exempt from registration of the Securities Act of 1933. These securities may be resold in transactions exempt from registration under Rule 144A, normally to qualified institutional buyers. As of September 30, 2014, these securities had an aggregate market value of \$24,292,012 or 3.38% of net assets.*
- (e) *Fair valued security; valued by management in accordance with procedures approved by the Fund's Board of Trustees. As of September 30, 2014, these securities had an aggregate market value of \$4,759,580 or 0.66% of total net assets.*
- (f) *Floating or variable rate security - rate disclosed as of September 30, 2014.*
- (g) *This security has no contractual maturity date, is not redeemable and contractually pays an indefinite stream of interest.*
- (h) *Rate shown represents the bond equivalent yield to maturity at date of purchase.*
- (i) *Includes cash which is being held as collateral for total return swap contracts.*

Clough Global Funds

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING AND OPERATING POLICIES

Clough Global Allocation Fund, Clough Global Equity Fund, and Clough Global Opportunities Fund, are closed-end management investment companies registered under the Investment Company Act of 1940 (the "1940 Act"). The Funds were organized under the laws of the state of Delaware by an Amended Agreement and Declaration of Trust dated April 27, 2004 and January 25, 2005, respectively for Clough Global Allocation Fund and Clough Global Equity Fund, and an Agreement and Declaration of Trust dated January 12, 2006, for Clough Global Opportunities Fund. The Funds were previously registered as non-diversified investment companies. As a result of ongoing operations, each of the Funds became a diversified company. The Funds may not resume operating in a non-diversified manner without first obtaining shareholder approval. Each Fund's investment objective is to provide a high level of total return. Each Declaration of Trust provides that the Board of Trustees may authorize separate classes of shares of beneficial interest. The common shares of Clough Global Allocation Fund, Clough Global Equity Fund, and Clough Global Opportunities Fund are listed on the NYSE MKT and trade under the ticker symbols GLV, GLQ and GLO respectively.

The following is a summary of significant accounting policies followed by the Funds. These policies are in conformity with U.S. generally accepted accounting principles ("GAAP"). The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements during the reporting period. Management believes the estimates and security valuations are appropriate; however, actual results may differ from those estimates, and the security valuations reflected in the financial statements may differ from the value the Funds ultimately realize upon sale of the securities. Each Fund is considered an investment company for financial reporting purposes under GAAP. The financial statements have been prepared as of the close of the New York Stock Exchange ("NYSE" or the "Exchange") on September 30, 2014.

The net asset value per share of each Fund is determined no less frequently than daily, on each day that the Exchange is open for trading, as of the close of regular trading on the Exchange (normally 4:00 p.m. New York time). Trading may take place in foreign issues held by the Fund at times when a Fund is not open for business. As a result, each Fund's net asset value may change at times when it is not possible to purchase or sell shares of a Fund.

Investment Valuation: Securities held by each Fund for which exchange quotations are readily available are valued at the last sale price, or if no sale price or if traded on the over-the-counter market, at the mean of the bid and asked prices on such day. Most securities listed on a foreign exchange are valued at the last sale price at the close of the exchange on which the security is primarily traded. In certain countries market maker prices are used since they are the most representative of the daily trading activity. Market maker prices are usually the mean between the bid and ask prices. Certain markets are not closed at the time that the Funds price their portfolio securities. In these situations, snapshot prices are provided by the individual pricing services or other alternate sources at the close of the NYSE, as appropriate. Securities not traded on a particular day are valued at the mean between the last reported bid and the asked quotes, or the last sale price when appropriate; otherwise fair value will be determined by the board-appointed fair valuation committee. Debt securities for which the over-the-counter market is the primary market are normally valued on the basis of prices furnished by one or more pricing services or dealers at the mean between the latest

available bid and asked prices. As authorized by the Board of Trustees, debt securities (other than short-term obligations) may be valued on the basis of valuations furnished by a pricing service which determines valuations based upon market transactions for normal, institutional-size trading units of securities or a matrix method which considers yield or price of comparable bonds provided by a pricing service. Short-term obligations maturing within 60 days are valued at amortized cost, which approximates value, unless the Board of Trustees determine that under particular circumstances such method does not result in fair value. Over-the-counter options are valued at the mean between bid and asked prices provided by dealers. Financial futures contracts listed on commodity exchanges and exchange-traded options are valued at closing settlement prices. Total return swaps are priced based on valuations provided by a board approved independent third party pricing agent. If a total return swap price cannot be obtained from an independent third party pricing agent the Fund shall seek to obtain a bid price from at least one independent and/or executing broker.

If the price of a security is unavailable in accordance with the aforementioned pricing procedures, or the price of a security is unreliable, e.g., due to the occurrence of a significant event, the security may be valued at its fair value determined by management pursuant to procedures adopted by the Board of Trustees. For this purpose, fair value is the price that a Fund reasonably expects to receive on a current sale of the security. Due to the number of variables affecting the price of a security; however, it is possible that the fair value of a security may not accurately reflect the price that a Fund could actually receive on a sale of the security.

A three-tier hierarchy has been established to classify fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability that are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability that are developed based on the best information available.

Table of Contents

Clough Global Funds

Notes to Financial Statements
September 30, 2014 (Unaudited)

Various inputs are used in determining the value of each Fund's investments as of the reporting period end. These inputs are categorized in the following hierarchy under applicable financial accounting standards:

- Level 1 Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that a Fund has the ability to access at the measurement date;
- Level 2 Quoted prices which are not active, quoted prices for similar assets or liabilities in active markets or inputs other than quoted prices that are observable (either directly or indirectly) for substantially the full term of the asset or liability; and
- Level 3 Significant unobservable prices or inputs (including the Fund's own assumptions in determining the fair value of investments) where there is little or no market activity for the asset or liability at the measurement date.

The following is a summary of the inputs used as of September 30, 2014, in valuing each Fund's investments carried at value. The Funds recognize transfers between the levels as of the end of the period in which the transfer occurred. There were no transfers between Levels 1 and 2 during the six months ended September 30, 2014.

* *For detailed industry descriptions, see the accompanying Statement of Investments.*

** *Swap contracts are reported at their unrealized appreciation/(depreciation) at measurement date, which represents the change in the contract's value from trade date.*

In the event a board approved independent pricing service is unable to provide an evaluated price for a security or Clough Capital Partners L.P. (the Adviser or Clough) believes the price provided is not reliable, securities of each Fund may be valued at fair value as described above. In these instances the Adviser may seek to find an alternative independent source, such as a broker/dealer to provide a price quote, or by using evaluated pricing models similar to the techniques and models used by the independent pricing service. These fair value measurement techniques may utilize unobservable inputs (Level 3).

On a monthly basis, the Fair Value Committee of each Fund meets and discusses securities that have been fair valued during the preceding month in accordance with the Fund's Fair Value Procedures and reports quarterly to the Board of Trustees on the results of those meetings.

Clough Global Funds

Notes to Financial Statements
September 30, 2014 (Unaudited)

Foreign Securities: Each Fund may invest a portion of its assets in foreign securities. In the event that a Fund executes a foreign security transaction, the Fund will generally enter into a forward foreign currency contract to settle the foreign security transaction. Foreign securities may carry more risk than U.S. securities, such as political, market and currency risks.

The accounting records of each Fund are maintained in U.S. dollars. Prices of securities denominated in foreign currencies are translated into U.S. dollars at the closing rates of exchange at period end. Amounts related to the purchase and sale of foreign securities and investment income are translated at the rates of exchange prevailing on the respective dates of such transactions.

The effect of changes in foreign currency exchange rates on investments is reported with all other foreign currency realized and unrealized gains and losses in the Funds' Statements of Operations.

A foreign currency spot contract is a commitment to purchase or sell a foreign currency at a future date, at a negotiated rate. Each Fund may enter into foreign currency spot contracts to settle specific purchases or sales of securities denominated in a foreign currency and for protection from adverse exchange rate fluctuation. Risks to a Fund include the potential inability of the counterparty to meet the terms of the contract.

The net U.S. dollar value of foreign currency underlying all contractual commitments held by a Fund and the resulting unrealized appreciation or depreciation are determined using prevailing forward foreign currency exchange rates. Unrealized appreciation and depreciation on foreign currency spot contracts are reported in the Funds' Statements of Assets and Liabilities as a receivable or a payable and in the Funds' Statements of Operations with the change in unrealized appreciation or depreciation on translation of assets and liabilities denominated in foreign currencies. These spot contracts are used by the broker to settle investments denominated in foreign currencies.

A Fund may realize a gain or loss upon the closing or settlement of the foreign transaction. Such realized gains and losses are reported with all other foreign currency gains and losses in the Statements of Operations.

Short Sales: Each Fund may sell a security it does not own in anticipation of a decline in the fair value of that security. When a Fund sells a security short, it must borrow the security sold short and deliver it to the broker-dealer through which it made the short sale. A gain, limited to the price at which a Fund sold the security short, or a loss, unlimited in size, will be recognized upon the termination of the short sale.

Each Fund's obligation to replace the borrowed security will be secured by collateral deposited with the broker-dealer, usually cash, U.S. government securities or other liquid securities. Each Fund will also be required to designate on its books and records similar collateral with its custodian to the extent, if any, necessary so that the aggregate collateral value is at all times at least equal to the current market value of the security sold short. The cash amount is reported on the Statements of Assets and Liabilities as Deposit with broker for securities sold short. Each Fund is obligated to pay interest to the broker for any debit balance of the margin account relating to short sales. The interest incurred by the Funds for the six months ended September 30, 2014, is reported on the Statements of Operations as Interest expense margin account. Interest amounts payable by the Funds as of September 30, 2014, are reported on the Statements of Assets and Liabilities as Interest payable margin account.

Each Fund may also sell a security short if it owns at least an equal amount of the security sold short or another security convertible or exchangeable for an equal amount of the security sold short without payment of further compensation (a short sale against-the-box). In a short sale against-the-box, the short seller is exposed to the risk of being forced to deliver stock that it holds to close the position if the borrowed stock is called in by the lender, which would cause gain or loss to be recognized on the delivered stock. Each Fund expects normally to close its short sales against-the-box by delivering newly acquired stock.

Derivatives Instruments and Hedging Activities: The following discloses the Funds' use of derivative instruments and hedging activities.

The Funds' investment objectives not only permit the Funds to purchase investment securities, they also allow the Funds to enter into various types of derivative contracts, including, but not limited to, purchased and written options, swaps, futures and warrants. In doing so, the Funds will employ strategies in differing combinations to permit them to increase, decrease, or change the level or types of exposure to market factors. Central to those strategies are features inherent to derivatives that make them more attractive for this purpose than equity securities: they require little or no initial cash investment, they can focus exposure on only certain selected risk factors, and they may not require the ultimate receipt or delivery of the underlying security (or securities) to the contract. This may allow the Funds to pursue their objectives more quickly and efficiently than if they were to make direct purchases or sales of securities capable of affecting a similar response to market factors.

Market Risk Factors: In pursuit of their investment objectives, certain Funds may seek to use derivatives to increase or decrease their exposure to the following market risk factors:

Equity Risk: Equity risk relates to the change in value of equity securities as they relate to increases or decreases in the general market.

Clough Global Funds

Risk of Investing in Derivatives: The Funds' use of derivatives can result in losses due to unanticipated changes in the market risk factors and the overall market. In instances where the Funds are using derivatives to decrease or hedge exposures to market risk factors for securities held by the Funds, there are also risks that those derivatives may not perform as expected, resulting in losses for the combined or hedged positions.

Derivatives may have little or no initial cash investment relative to their market value exposure and therefore can produce significant gains or losses in excess of their cost. This use of embedded leverage allows the Funds to increase their market value exposure relative to their net assets and can substantially increase the volatility of the Funds performance.

Additional associated risks from investing in derivatives also exist and potentially could have significant effects on the valuation of the derivative and the Funds. Typically, the associated risks are not the risks that the Funds are attempting to increase or decrease exposure to, per their investment objectives, but are the additional risks from investing in derivatives.

Examples of these associated risks are liquidity risk, which is the risk that the Funds will not be able to sell the derivative in the open market in a timely manner, and counterparty credit risk, which is the risk that the counterparty will not fulfill its obligation to the Funds. Associated risks can be different for each type of derivative and are discussed by each derivative type in the notes that follow.

Each Fund may acquire put and call options and options on stock indices and enter into stock index futures contracts, certain credit derivatives transactions and short sales in connection with its equity investments. In connection with a Fund's investments in debt securities, it may enter into related derivatives transactions such as interest rate futures, swaps and options thereon and certain credit derivatives transactions. Derivatives transactions of the types described above subject a Fund to increased risk of principal loss due to imperfect correlation or unexpected price or interest rate movements. Each Fund also will be subject to credit risk with respect to the counterparties to the derivatives contracts purchased by a Fund. If a counterparty becomes bankrupt or otherwise fails to perform its obligations under a derivatives contract due to financial difficulties, each Fund may experience significant delays in obtaining any recovery under the derivatives contract in a bankruptcy or other reorganization proceeding. Each Fund may obtain only a limited recovery or may obtain no recovery in such circumstances.

Option Writing/Purchasing: Each Fund may purchase or write (sell) put and call options. One of the risks associated with purchasing an option among others, is that a Fund pays a premium whether or not the option is exercised. Additionally, a Fund bears the risk of loss of premium and change in market value should the counterparty not perform under the contract. The cost of securities acquired through the exercise of call options is increased by premiums paid. The proceeds from securities sold through the exercise of put options are decreased by the premiums paid. Each Fund is obligated to pay interest to the broker for any debit balance of the margin account relating to options. The interest incurred on the Funds for the six months ended September 30, 2014 is reported on the Statements of Operations as Interest expense - margin account. Interest amounts payable by the Funds as of September 30, 2014 are reported on the Statements of Assets and Liabilities as Interest payable - margin account.

When a Fund writes an option, an amount equal to the premium received by a Fund is recorded as a liability and is subsequently adjusted to the current value of the option written. Premiums received from writing options that expire unexercised are treated by a Fund on the expiration date as realized gains. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is recorded as a realized gain or loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security or currency in determining whether a Fund has realized a gain or loss. If a put option is exercised, the premium reduces the cost basis of the securities purchased by a Fund. Each Fund, as writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option.

Swaps: During the period each Fund engaged in total return swaps. A swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset. Each Fund may utilize swap agreements as a means to gain exposure to certain assets and/or to hedge or protect the Fund from adverse movements in securities prices or interest rates. Each Fund is subject to equity risk and interest rate risk in the normal course of pursuing its investment objective through investments in swap contracts. Swap agreements entail the risk that a party will default on its payment obligation to a Fund. If the other party to a swap defaults, a Fund would risk the loss of the net amount of the payments that it contractually is entitled to receive. If each Fund utilizes a swap at the wrong time or judges market conditions incorrectly, the swap may result in a loss to the Fund and reduce the Fund's total return.

Total return swaps involve an exchange by two parties in which one party makes payments based on a set rate, either fixed or variable, while the other party makes payments based on the return of an underlying asset, which includes both the income it generates and any capital gains over the payment period. A Fund's maximum risk of loss from counterparty risk or credit risk is the discounted value of the payments to be received from/paid to the counterparty over the contract's remaining life, to the extent that the amount is positive. The risk is mitigated by having a netting arrangement between a Fund and the counterparty and by the posting of collateral to a Fund to cover the Fund's exposure to the counterparty.

International Swaps and Derivatives Association, Inc. Master Agreements (ISDA Master Agreements) govern OTC financial derivative transactions entered into by a Fund and those counterparties. The ISDA Master Agreements maintain provisions for general obligations, representations, agreements, collateral and events of default or termination. Events of termination include conditions that may entitle counterparties to elect to terminate early and cause settlement of all outstanding transactions under the applicable ISDA Master Agreement. Any election to early terminate could be material to the financial statements.

During the six months ended September 30, 2014, the Funds invested in swap agreements consistent with the Funds investment strategies to gain exposure to certain markets or indices.

Clough Global Funds

Warrants/Rights: Each Fund may purchase or otherwise receive warrants or rights. Warrants and rights generally give the holder the right to receive, upon exercise, a security of the issuer at a set price. Funds typically use warrants and rights in a manner similar to their use of purchased options on securities, as described in options above. Risks associated with the use of warrants and rights are generally similar to risks associated with the use of purchased options. However, warrants and rights often do not have standardized terms, and may have longer maturities and may be less liquid than exchange-traded options. In addition, the terms of warrants or rights may limit each Fund's ability to exercise the warrants or rights at such times and in such quantities as each Fund would otherwise wish. Each Fund held no rights at the end of the period.

The effect of derivatives instruments on each Fund's Statements of Assets and Liabilities as of September 30, 2014:

Clough Global Opportunities Fund	590,405

Certain derivative contracts are executed under either standardized netting agreements or, for exchange-traded derivatives, the relevant contracts for a particular exchange which contain enforceable netting provisions. A derivative netting arrangement creates an enforceable right of set-off that becomes effective, and affects the realization of settlement on individual assets, liabilities and collateral amounts, only following a specified event of default or early termination. Default events may include the failure to make payments or deliver securities timely, material adverse changes in financial condition or insolvency, the breach of minimum regulatory capital requirements, or loss of license, charter or other legal authorization necessary to perform under the contract.

Clough Global Funds

Notes to Financial Statements
September 30, 2014 (Unaudited)

Income Taxes: Each Fund's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required. As of and during the six months ended September 30, 2014, the Funds did not have a liability for any unrecognized tax benefits. The Funds file U.S. federal, state, and local tax returns as required. The Funds' tax returns are subject to examination by the relevant tax authorities until expiration of the applicable statute of limitations, which is generally three years after the filing of the tax return but which can be extended to six years in certain circumstances. Tax returns for open years have incorporated no uncertain tax positions that require a provision for income taxes.

Distributions to Shareholders: Each Fund intends to make a level dividend distribution each month to Common Shareholders after payment of interest on any outstanding borrowings. The level dividend rate may be modified by the Board of Trustees from time to time. Any net capital gains earned by a Fund are distributed at least annually to the extent necessary to avoid federal income and excise taxes. Distributions to shareholders are recorded by each Fund on the ex-dividend date. Each Fund has received approval from the Securities and Exchange Commission (the Commission) for exemption from Section 19(b) of the 1940 Act, and Rule 19b-1 there under permitting each Fund to make periodic distributions of long-term capital gains, provided that the distribution policy of a fund with respect to its Common Shares calls for periodic (e.g. quarterly/monthly) distributions in an amount equal to a fixed percentage of each Fund's average net asset value over a specified period of time or market price per common share at or about the time of distributions or pay-out of a level dollar amount.

Securities Transactions and Investment Income: Investment security transactions are accounted for on a trade date basis. Dividend income and Dividend expense-short sales are recorded on the ex-dividend date. Certain dividend income from foreign securities will be recorded, in the exercise of reasonable diligence, as soon as a Fund is informed of the dividend if such information is obtained subsequent to the ex-dividend date and may be subject to withholding taxes in these jurisdictions. Interest income, which includes amortization of premium and accretion of discount, is recorded on the accrual basis. Realized gains and losses from securities transactions and unrealized appreciation and depreciation of securities are determined using the highest cost basis for both financial reporting and income tax purposes.

Counterparty Risk: Each of the Funds run the risk that the issuer or guarantor of a fixed income security, the counterparty to an over-the-counter derivatives contract, a borrower of each Fund's securities or the obligor of an obligation underlying an asset-backed security will be unable or unwilling to make timely principal, interest, or settlement payments or otherwise honor its obligations. In addition, to the extent that each of the Funds use over-the-counter derivatives, and/or has significant exposure to a single counterparty, this risk will be particularly pronounced for each of the Funds.

Other Risk Factors: Investing in the Funds may involve certain risks including, but not limited to, the following:

Unforeseen developments in market conditions may result in the decline of prices of, and the income generated by, the securities held by the Funds. These events may have adverse effects on the Funds such as a decline in the value and liquidity of many securities held by the Funds, and a decrease in net asset value. Such unforeseen developments may limit or preclude the Funds' ability to achieve their investment objective.

Investing in stocks may involve larger price fluctuation and greater potential for loss than other types of investments. This may cause the securities held by the Funds to be subject to larger short-term declines in value.

The Funds may have elements of risk due to concentrated investments in foreign issuers located in a specific country. Such concentrations may subject the Funds to additional risks resulting from future political or economic conditions and/or possible impositions of adverse foreign governmental laws or currency exchange restrictions. Investments in securities of non-U.S. issuers have unique risks not present in securities of U.S. issuers, such as greater price volatility and less liquidity. At September 30, 2014, Clough Global Allocation Fund, Clough Global Equity Fund and Clough Global Opportunities Fund each had a significant concentration of their investment securities (Investments, at value recorded on the Statements of Assets and Liabilities) in companies based in the United States: 86.46%, 85.31% and 87.05% of net assets, respectively.

Fixed income securities are subject to credit risk, which is the possibility that a security could have its credit rating downgraded or that the issuer of the security could fail to make timely payments or default on payments of interest or principal. Additionally, fixed income securities are subject to interest rate risk, meaning the decline in the price of debt securities that accompanies a rise in interest rates. Bonds with longer maturities are subject to greater price fluctuations than bonds with shorter maturities.

The Funds invest in bonds which are rated below investment grade. These high yield bonds may be more susceptible than higher grade bonds to real or perceived adverse economic or industry conditions. The secondary market, on which high yield bonds are traded, may also be less liquid than the market for higher grade bonds.

Clough Global Funds

2. TAXES

Classification of Distributions: Net investment income/(loss) and net realized gain/(loss) may differ for financial statement and tax purposes. The character of distributions made during the year from net investment income or net realized gains may differ from its ultimate characterization for federal income tax purposes. Also, due to the timing of dividend distributions, the fiscal year in which amounts are distributed may differ from the fiscal year in which the income or realized gain was recorded by the Funds.

The tax character of the distributions paid by the Funds during the year ended March 31, 2014 were as follows:

Distributions Paid From:	Clough Global Allocation Fund	Clough Global Equity Fund	Clough Global Opportunities Fund
Ordinary Income	\$ 2,508,129	\$ 6,725,986	\$ 5,714,309
Long-Term Capital Gains	13,300,299	19,589,053	64,906,503
Total	\$ 15,808,428	\$ 26,315,039	\$ 70,620,812

Tax Basis of Investments: Net unrealized appreciation/(depreciation) of investments based on federal tax cost as of September 30, 2014, were as follows:

	Clough Global Allocation Fund	Clough Global Equity Fund	Clough Global Opportunities Fund
Gross appreciation (excess of value over tax cost)	\$ 11,118,371	\$ 24,511,056	\$ 44,347,830
Gross depreciation (excess of tax cost over value)	(7,460,373)	(15,201,813)	(31,628,678)
Net unrealized appreciation	\$ 3,657,998	\$ 9,309,243	\$ 12,719,152
Cost of investments for income tax purposes	\$ 243,681,200	\$ 406,528,629	\$ 1,016,999,971

3. CAPITAL TRANSACTIONS

Common Shares: There are an unlimited number of no par value common shares of beneficial interest authorized for each Fund.

Transactions in common shares were as follows:

Clough Global Funds

Notes to Financial Statements
September 30, 2014 (Unaudited)**5. INVESTMENT ADVISORY AND ADMINISTRATION AGREEMENTS**

Clough serves as each Fund's investment adviser pursuant to an Investment Advisory Agreement (each an Advisory Agreement and collectively, the Advisory Agreements) with each Fund. As compensation for its services to the Fund, Clough receives an annual investment advisory fee of 0.70%, 0.90% and 1.00% based on Clough Global Allocation Fund's, Clough Global Equity Fund's and Clough Global Opportunities Fund's, respectively, average daily total assets, computed daily and payable monthly. ALPS Fund Services, Inc. (ALPS) serves as each Fund's administrator pursuant to an Administration, Bookkeeping and Pricing Services Agreement with each Fund. As compensation for its services to each Fund, ALPS receives an annual administration fee of 0.285%, 0.32%, and 0.32% based on Clough Global Allocation Fund's, Clough Global Equity Fund's and Clough Global Opportunities Fund's, respectively, average daily total assets, computed daily and payable monthly. ALPS will pay all expenses incurred by each Fund, with the exception of advisory fees, trustees' fees, portfolio transaction expenses, litigation expenses, taxes, expenses of conducting repurchase offers for the purpose of repurchasing fund shares, interest on margin accounts, interest on loans, dividends on short sales, and extraordinary expenses.

Both Clough and ALPS are considered to be affiliates of the Funds as defined in the 1940 Act.

6. COMMITTED FACILITY AGREEMENT AND LENDING AGREEMENT

Each Fund entered into a financing package that includes a Committed Facility Agreement (the Agreement) dated January 16, 2009, as amended, between each Fund and BNP Paribas Prime Brokerage, Inc. (BNP) that allows each Fund to borrow funds from BNP. Each Fund is currently borrowing the maximum commitment covered by the agreement. Borrowings under the Agreement are secured by assets of each Fund that are held by a Fund's custodian in a separate account (the pledged collateral) valued at \$149,357,309, \$256,936,690 and \$623,818,518 for Clough Global Allocation Fund, Clough Global Equity Fund and Clough Global Opportunities Fund, respectively. Each Fund may, with 30 days notice, reduce the Maximum Commitment Financing (Initial Limit amount plus the increased borrowing amount in excess of the Initial Limit) to a lesser amount if drawing on the full amount would result in a violation of the applicable asset coverage requirement of Section 18 of the 1940 Act. Interest is charged at the three month LIBOR (London Inter-bank Offered Rate) plus 0.70% on the amount borrowed and 0.65% on the undrawn balance. Each Fund also pays a one-time arrangement fee of 0.25% on (i) the Initial Limit and (ii) any increased borrowing amount in the excess of the Initial Limit, paid in monthly installments for the six months immediately following the date on which borrowings were drawn by the Fund.

The Agreement was amended on December 31, 2013, to increase the Maximum Commitment Financing to \$93,300,000 for the Clough Global Allocation Fund and \$156,000,000 for the Clough Global Equity Fund. For the six months ended September 30, 2014 the average borrowings outstanding for Clough Global Allocation Fund, Clough Global Equity Fund and Clough Global Opportunities Fund under the agreement were \$93,300,000, \$156,000,000 and \$388,900,000, respectively, and the average interest rate for the borrowings was 0.98%. As of September 30, 2014,

the outstanding borrowings for Clough Global Allocation Fund, Clough Global Equity Fund and Clough Global Opportunities Fund were \$93,300,000, \$156,000,000 and \$388,900,000, respectively. The interest rate applicable to the borrowings of Clough Global Allocation Fund, Clough Global Equity Fund and Clough Global Opportunities Fund on September 30, 2014, was 0.99%.

The Lending Agreement is a separate side-agreement between each Fund and BNP pursuant to which BNP may borrow a portion of the pledged collateral (the Lent Securities) in an amount not to exceed the outstanding borrowings owed by a Fund to BNP under the Agreement. The Lending Agreement is intended to permit each Fund to significantly reduce the cost of its borrowings under the Agreement. BNP has the ability to reregister the Lent Securities in its own name or in another name other than the Fund to pledge, re-pledge, sell, lend or otherwise transfer or use the collateral with all attendant rights of ownership. (It is each Fund's understanding that BNP will perform due diligence to determine the creditworthiness of any party that borrows Lent Securities from BNP.) Each Fund may designate any security within the pledged collateral as ineligible to be a Lent Security, provided there are eligible securities within the pledged collateral in an amount equal to the outstanding borrowing owed by a Fund. During the period in which the Lent Securities are outstanding, BNP must remit payment to each Fund equal to the amount of all dividends, interest or other distributions earned or made by the Lent Securities.

Under the terms of the Lending Agreement, the Lent Securities are marked to market daily, and if the value of the Lent Securities exceeds the value of the then-outstanding borrowings owed by a Fund to BNP under the Agreement (the Current Borrowings), BNP must, on that day, either (1) return Lent Securities to each Fund's custodian in an amount sufficient to cause the value of the outstanding Lent Securities to equal the Current Borrowings; or (2) post cash collateral with each Fund's custodian equal to the difference between the value of the Lent Securities and the value of the Current Borrowings. If BNP fails to perform either of these actions as required, each Fund will recall securities, as discussed below, in an amount sufficient to cause the value of the outstanding Lent Securities to equal the Current Borrowings. Each Fund can recall any of the Lent Securities and BNP shall, to the extent commercially possible, return such security or equivalent security to each Fund's custodian no later than three business days after such request. If a Fund recalls a Lent Security pursuant to the Lending Agreement, and BNP fails to return the Lent Securities or equivalent securities in a timely fashion, BNP shall remain liable for the ultimate delivery to each Fund's custodian of such Lent Securities, or equivalent securities, and for any buy-in costs that the executing broker for the sales transaction may impose with respect to the failure to deliver. Under the terms of the Lending Agreement, each Fund shall have the right to apply and set-off an amount equal to one hundred percent (100%) of the then current fair market value of such Lent Securities against the Current Borrowings. As of September 30, 2014, the market value of the Lent Securities for Clough Global Allocation Fund, Clough Global Equity Fund and Clough Global Opportunities Fund were \$80,435,667, \$174,006,605 and \$365,197,520, respectively.

Table of Contents

Notes to Financial Statements
September 30, 2014 (Unaudited)

Clough Global Funds

The Board of Trustees has approved each Agreement and the Lending Agreement. No violations of the Agreement or the Lending Agreement have occurred during the six months ended September 30, 2014.

Each Fund receives income from BNP based on the value of the Lent Securities. This income is recorded as Hypothecated securities income on the Statements of Operations. The interest incurred on borrowed amounts is recorded as Interest on loan in the Statements of Operations, a part of Total Expenses.

7. OTHER

The Independent Trustees of each Fund receive from each Fund a quarterly retainer of \$3,500 and an additional \$1,500 for each board meeting attended. The Chairman of the Board of Trustees of each Fund receives a quarterly retainer from each Fund of \$4,200 and an additional \$1,800 for each board meeting attended. The Chairman of the Audit Committee of each Fund receives a quarterly retainer from each Fund of \$3,850 and an additional \$1,650 for each board meeting attended.

8. SUBSEQUENT EVENT

The Board of Trustees of each Fund announced, on September 12, 2014, that it had approved a change to the Funds fiscal year-end from March 31 to October 31. The Funds intend to operate in a seven-month stub period from April 1, 2014 to October 31, 2014 and will then begin a new fiscal year on November 1, 2014.

Clough Global Funds

Dividend Reinvestment Plan
September 30, 2014 (Unaudited)

Unless the registered owner of Common Shares elects to receive cash by contacting DST Systems, Inc. (the Plan Administrator), all dividends declared on Common Shares will be automatically reinvested by the Plan Administrator for shareholders in each Fund's Dividend Reinvestment Plan (the Plan), in additional Common Shares. Shareholders who elect not to participate in the Plan will receive all dividends and other distributions in cash paid by check mailed directly to the shareholder of record (or, if the Common Shares are held in street or other nominee name, then to such nominee) by the Plan Administrator as dividend disbursing agent. You may elect not to participate in the Plan and to receive all dividends in cash by contacting the Plan Administrator, as dividend disbursing agent, at the address set forth below. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may reinvest that cash in additional Common Shares for you. If you wish for all dividends declared on your Common Shares to be automatically reinvested pursuant to the Plan, please contact your broker.

The Plan Administrator will open an account for each Common Shareholder under the Plan in the same name in which such Common Shareholder's Common Shares are registered. Whenever a Fund declares a dividend or other distribution (together, a Dividend) payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in Common Shares. The Common Shares will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized Common Shares from a Fund (Newly Issued Common Shares) or (ii) by purchase of outstanding Common Shares on the open market (Open Market Purchases) on the American Stock Exchange or elsewhere. If, on the payment date for any Dividend, the closing market price plus estimated brokerage commissions per Common Share is equal to or greater than the net asset value per Common Share, the Plan Administrator will invest the Dividend amount in Newly Issued Common Shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the net asset value per Common Share on the payment date; provided that, if the net asset value is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per Common Share on the payment date. If, on the payment date for any Dividend, the net asset value per Common Share is greater than the closing market value plus estimated brokerage commissions, the Plan Administrator will invest the Dividend amount in Common Shares acquired on behalf of the participants in Open Market Purchases. In the event of a market discount on the payment date for any Dividend, the Plan Administrator will have until the last business day before the next date on which the Common Shares trade on an ex-dividend basis or 30 days after the payment date for such Dividend, whichever is sooner (the Last Purchase Date), to invest the Dividend amount in Common Shares acquired in Open Market Purchases. If, before the Plan Administrator has completed its Open Market Purchases, the market price per Common Share exceeds the net asset value per Common Share, the average per Common Share purchase price paid by the Plan Administrator may exceed the net asset value of the Common Shares, resulting in the acquisition of fewer Common Shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Shares at the net asset value per

Common Share at the close of business on the Last Purchase Date provided that, if the net asset value is less than or equal to 95% of the then current market price per Common Share; the dollar amount of the Dividend will be divided by 95% of the market price on the payment date.

The Plan Administrator maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common Shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instructions of the participants.

In the case of Common Shareholders such as banks, brokers or nominees which hold shares for others who are the beneficial owners, the Plan Administrator will administer the Plan on the basis of the number of Common Shares certified from time to time by the record shareholder's name and held for the account of beneficial owners who participate in the Plan.

There will be no brokerage charges with respect to Common Shares issued directly by a Fund. However, each participant will pay a pro rata share of brokerage commissions incurred in connection with Open Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such Dividends. Participants that request a sale of Common Shares through the Plan Administrator are subject to brokerage commissions.

Each Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, each Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, DST Systems, Inc., 333 West 11th Street, 5th Floor, Kansas City, Missouri 64105.

Clough Global Funds

FUND PROXY VOTING POLICIES & PROCEDURES

Each Fund's policies and procedures used in determining how to vote proxies relating to portfolio securities are available on the Funds' website at <http://www.cloughglobal.com>. Information regarding how each Fund voted proxies relating to portfolio securities held by each Fund for the period ended June 30, are available without charge, upon request, by contacting the Funds at 1-877-256-8445 and on the Commission's website at <http://www.sec.gov>.

PORTFOLIO HOLDINGS

The Funds file their complete schedule of portfolio holdings with the Commission for the first and third quarters of each fiscal year on Form N-Q within 60 days after the end of the period. Copies of the Funds' Form N-Q are available without a charge, upon request, by contacting the Funds at 1-877-256-8445 and on the Commission's website at <http://www.sec.gov>. You may also review and copy Form N-Q at the Commission's Public Reference Room in Washington, D.C. For more information about the operation of the Public Reference Room, please call the Commission at 1-800-SEC-0330.

NOTICE

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that each Fund may purchase at market prices from time to time shares of its common stock in the open market.

SHAREHOLDER MEETING

On July 15, 2014, the Funds held their annual meeting of Shareholders for the purpose of voting on a proposal to re-elect Trustees of the Funds. The results of the proposal for each Fund were as follows:

Proposal: To re-elect the following trustees to the Clough Global Allocation Fund Board.

	Adam D. Crescenzi	Jerry G. Rutledge	Vincent W. Versaci
For	9,188,332	9,180,385	9,179,866
Withheld	383,860	391,807	392,326

Proposal: To re-elect the following trustees to the Clough Global Equity Fund Board.

	Edmund J. Burke	John F. Mee
For	16,004,065.242	15,981,980.242
Withheld	895,718.390	917,803.390

Proposal: To re-elect the following trustees to the Clough Global Opportunities Fund Board.

	Robert L. Butler	James E. Canty	Richard C. Rantzow
For	47,803,248.84	47,897,307.84	47,708,607.84
Withheld	1,288,686.00	1,194,627.00	1,383,327.00

SECTION 19(A) NOTICES

The following table sets forth the estimated amount of the sources of distribution for purposes of Section 19 of the Investment Company Act of 1940, as amended, and the related rules adopted there under. Each Fund estimates the following percentages, of the total distribution amount per share, attributable to (i) current and prior fiscal year net investment income, (ii) net realized short-term capital gain, (iii) net realized long-term capital gain and (iv) return of capital or other capital source as a percentage of the total distribution amount. These percentages are disclosed for the fiscal year-to-date cumulative distribution amount per share for the Fund.

The amounts and sources of distributions reported in these 19(a) notices are only estimates and not for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.

Table of Contents

Clough Global Funds

Additional Information
September 30, 2014 (Unaudited)

	Total Cumulative Distributions for the period ended September 30, 2014				% Breakdown of the Total Cumulative Distributions for the period ended September 30, 2014			
	Net Investment Income	Realized Capital Gains	Return of Capital	Total Per Common Share	Net Investment Income	Realized Capital Gains	Return of Capital	Total Per Common Share
Clough Global Allocation Fund	\$ 0.0000	\$ 0.6300	\$ 0.0000	\$ 0.6300	0.00%	100.00%	0.00%	100.00%
Clough Global Equity Fund	\$ 0.0000	\$ 0.6300	\$ 0.0000	\$ 0.6300	0.00%	100.00%	0.00%	100.00%
Clough Global Opportunities Fund	\$ 0.0000	\$ 0.4278	\$ 0.1422	\$ 0.5700	0.00%	75.06%	24.94%	100.00%

Each Fund's dividend policy is to distribute all or a portion of its net investment income to its shareholders on a monthly basis. In order to provide shareholders with a more stable level of dividend distributions, each Fund may at times pay out less than the entire amount of net investment income earned in any particular month and may at times in any particular month pay out such accumulated but undistributed income in addition to net investment income earned in that month. As a result, the dividends paid by each Fund for any particular month may be more or less than the amount of net investment income earned by the Fund during such month. Each Fund's current accumulated but undistributed net investment income, if any, is disclosed in the Statements of Assets and Liabilities, which comprises part of the financial information included in this report.

Investment Advisory Agreement Approval
September 30, 2014 (Unaudited)

Clough Global Funds

On June 12, 2014, the Board of Trustees of each Fund met in person to, among other things, review and consider the renewal of the Advisory Agreements. In its consideration of the Advisory Agreements, the Trustees, including the non-interested Trustees, considered in general the nature, quality and scope of services to be provided by Clough.

Prior to the beginning of their review of the Advisory Agreements, counsel to the Funds, who also serves as independent counsel to the non-interested Trustees, discussed with the Trustees their fiduciary responsibilities in general and also specifically with respect to the renewal of the Advisory Agreements.

Representatives from Clough presented Clough's materials regarding consideration of renewal of the Advisory Agreements. The Board noted that included in the Board materials were responses by Clough to a questionnaire drafted by legal counsel to the Funds to assist the Board in evaluating whether to renew the Advisory Agreements (the 15(c) Materials). The Board noted that the 15(c) Materials were extensive, and included information relating to: each Fund's investment results; portfolio composition; advisory fee and expense comparisons; financial information regarding Clough; descriptions such as compliance monitoring and portfolio trading practices; information about the personnel providing investment management services to the Funds; and the nature of services provided under the Advisory Agreements.

The Board reviewed the organizational structure of Clough and the qualifications of Clough and its principals to act as each Fund's investment adviser. The Board considered the professional experience of the portfolio managers, Eric A. Brock, James E. Canty and Charles I. Clough, Jr., Partners at Clough, as well as Robert Zdunczyk, portfolio manager of the Clough Global Allocation Fund and Clough Global Opportunities Fund, emphasizing that Messrs. Brock, Canty, Clough and Zdunczyk each had substantial experience as an investment professional. The Trustees, all of whom currently serve as Trustees for the Funds, acknowledged their familiarity with the expertise and standing in the investment community of Messrs. Brock, Canty, Clough and Zdunczyk, and their satisfaction with the expertise of Clough and the services provided by Clough to the Funds. The Trustees concluded that the portfolio management team was well qualified to serve the Funds in those functions.

The Board next reviewed Clough's procedures relating to compliance and oversight with respect to Clough's brokerage allocation and soft dollar policies. The Trustees noted that Clough's order management systems contain pre-trade compliance functions that review each trade against certain of the Funds' investment restrictions and applicable 1940 Act and Internal Revenue Code restrictions, and noted the efforts that Clough's Chief Compliance Officer will undertake to summarize monthly for Clough's management, and quarterly for the Trustees, any violations that may occur, as well as any other violations detected through the manual monitoring that supplements the order management system's testing. The Board noted the recent addition of certain personnel by Clough, including a new General Counsel. The Board discussed with representatives from Clough the various other investment products managed by Clough other than the Funds. The Board also noted the adequacy of Clough's facilities. The Trustees concluded that Clough appeared to have adequate procedures and personnel in place to ensure compliance by Clough with applicable law and with each Fund's investment objectives and restrictions.

The Board next reviewed the terms of the Advisory Agreements, noting that Clough would receive a fee of 0.70%, 0.90% and 1.00% based on Clough Global Allocation Fund's, Clough Global Equity Fund's and Clough Global Opportunities Fund's, respectively, average daily total assets. The Trustees reviewed the fees charged by Clough to

other clients for which it provides comparable services. The Trustees then reviewed Clough's income statement for the year ended December 31, 2013, and its balance sheet as of that date. The Trustees further reviewed a profit and loss analysis as it relates to Clough's advisory business and compared the profitability analysis to that provided by Clough to the Board in previous years. In response to a question from a Trustee, representatives from Clough discussed the allocation of overhead expenses contained in Clough's profitability analysis.

The Board discussed the possible benefits Clough may accrue because of its relationship with the Funds as well as potential benefits that accrue to the Funds because of their relationship with Clough. The Board noted that Clough does not realize any direct benefits due to the allocation of brokerage and related transactions on behalf of the Funds.

The Board reviewed and discussed materials prepared and distributed in advance of the meeting regarding the comparability of the investment advisory fees of the Funds with the investment advisory fees of other investment companies, which had been prepared at the request of ALPS by Lipper Analytical Services (Lipper). Lipper's report contained information regarding investment performance, comparisons of cost and expense structures of each Fund with other funds' cost and expense structures, as well as comparisons of each Fund's performance with the performance during similar periods of members of an objectively identified peer group and related matters.

As the Funds are unique in the marketplace, the Board noted that Lipper had a difficult time presenting a large peer group for comparison. The Trustees compared fees from seven (7) other leveraged closed-end investment companies that Lipper classified as global funds versus each Fund's fees as part of the expense group (the Expense Group) and an expense universe consisting of each Fund, the Expense Group, and all other leveraged closed-end global funds (the Expense Universe). For GLV, the investment advisory fee for the Expense Group ranged from 0.70% to 1.00%, with a median of 0.900%. For GLV, the Board noted that as prepared by Lipper, the gross total expenses for the Expense Group on common and leveraged assets ranged from 1.152% to 1.743%, with a median of 1.379%. For GLQ, the investment advisory fee for the Expense Group ranged from 0.850% to 1.000%, with a median of 0.900%. For GLQ, the Board noted that as prepared by Lipper, the gross total expenses for the Expense

Table of Contents

Clough Global Funds

Investment Advisory Agreement Approval
September 30, 2014 (Unaudited)

Group on common and leveraged assets ranged from 1.152% to 1.949%, with a median of 1.379%. For GLO, the investment advisory fee for the Expense Group ranged from 0.850% to 1.000%, with a median of 0.95%. For GLO, the Board noted that as prepared by Lipper, the gross total expenses for the Expense Group on common and leveraged assets ranged from 1.152% to 2.040%, with a median of 1.379%. The Board noted the Clough Global Allocation Fund s, Clough Global Equity Fund s and Clough Global Opportunities Fund s gross total expenses were 1.743%, 1.949% and 2.040%, respectively.

The Board discussed the other non-management expenses category included in Lipper s expense ratio components. Discussion ensued and the Board noted that the total expense ratio includes investment related expenses such as the interest on each Fund s leverage and dividend expense on short sales. The Board noted that through each Fund s employment of leverage, the income generation capabilities of the underlying investments may be augmented. The Board also noted the extent to which each Fund utilizes leverage and short sales, thereby increasing its investment-related expenses and concluded that the use of leverage and short sales is an important part of each Fund s investment strategy to attempt to meet each Fund s investment objective. The Board noted that they believe investment related expenses are operational in nature and should not be considered a management expense. Excluding the investment related expenses from the total expense ratio, the Board noted that each Fund s net overall expenses are comparable to their peer group.

The Trustees then reviewed each Fund s performance as compared to the performance of the closed-end fund universe selected by Lipper (the Performance Universe). For the one year ended net total return performance as of April 30, 2014, the performance data ranged from a high of 19.69% to a low of 4.0% with a median of 10.81%. The Clough Global Allocation Fund s, Clough Global Equity Fund s and Clough Global Opportunities Fund s performance during such time period was 8.56%, 10.85% and 8.71%, respectively.

The Trustees further noted that the objectives of the funds in the Lipper analysis differed from each Fund s objectives and policies. The Trustees believed that the Lipper report provided a sufficient comparative universe.

At this point, Mr. Burke and Mr. Canty, both interested persons of the Funds, as well as the other representatives of ALPS and Clough, left the meeting. The non-interested Trustees, with the assistance of legal counsel, reviewed and discussed in more detail the information that had been presented relating to Clough, the Advisory Agreements and Clough s profitability.

Mr. Burke, Mr. Canty, and the representatives of ALPS and Clough re-joined the meeting. The Board of Trustees of the Fund, present in person, with the non-interested Trustees present in person voting separately, unanimously concluded that the investment advisory fee of 0.70% of Clough Global Allocation Fund s total assets, 0.90% of Clough Global Equity Fund s total assets and 1.00% of Clough Global Opportunities Fund s total assets are fair and reasonable for each respective Fund and that the renewal of the Advisory Agreements is in the best interests of the Funds and their shareholders.

Item 10. Submission of Matters to a Vote of Security Holders.

There have been no material changes by which shareholders may recommend nominees to the Board of Trustees.

Item 11. Controls and Procedures.

- (a) The Registrant's principal executive officer and principal financial officer have concluded that the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended) are effective based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this document.
- (b) There was no change in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940, as amended) during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 12. Exhibits.

(a)(1) Not applicable to semi-annual report.

(a)(2) The certifications required by Rule 30a-2(a) of the Investment Company Act of 1940, as amended, and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto as Ex-99.Cert.

(a)(3) Not applicable.

(b) A certification for the Registrant's Principal Executive Officer and Principal Financial Officer, as required by Rule 30a-2(b) of the Investment Company Act of 1940, as amended, and Section 906 of the Sarbanes-Oxley Act of 2002 are attached hereto as Ex-99.906Cert.

(c) Pursuant to the Securities and Exchange Commission's Order granting relief from Section 19(b) of the Investment Company Act of 1940 dated September 21, 2009, the form of 19(a) Notices to Beneficial Owners are attached hereto as Exhibit 12(c).
