**Section 1 Conflict Minerals Disclosure**

**Item 1.01 Conflict Minerals Disclosure and Report**

**Introduction**

As used in this report (the Report ), the Company and terms such as we and our refer to CLARCOR Inc. and its subsidiaries.

Edgar Filing: CLARCOR INC. - Form SD

Rule 13p-1 under the Securities Exchange Act of 1934, as amended (the Rule ) and the requirements of Form SD generally require a company to annually disclose whether during the applicable reporting period it manufactured or contracted to manufacture products that contained cassiterite, columbite-tantalite, gold, wolframite, and their derivatives, which are limited to tin, tantalum, tungsten, and gold (collectively, the 3TG Minerals ), but only to the extent such 3TG Minerals were necessary to the functionality or production of the company's products. The

required disclosure is more comprehensive if (i) the 3TG Minerals in a company's products during the applicable reporting period originated or may have originated in the Democratic Republic of Congo or an adjoining country (the Covered Countries), or (ii) if a company is unable to determine whether the 3TG Minerals in its products during the applicable reporting period originated or may have originated in the Covered Countries.

The Company manufactures and sells (i) a variety of filtration products and systems, and (ii) packaging containers and related items. Certain of these products contain 3TG Minerals that are necessary to their functionality or production (collectively, the Covered Products).

### **Conflict Minerals Disclosure**

After exercising due diligence on the source and chain of custody of the 3TG Minerals in the Covered Products, as further described in the Conflict Minerals Report filed as Exhibit 1.01 to this Report, we do not have sufficient information from our suppliers or other sources to reasonably conclude whether our Covered Products contain, or do not contain, 3TG Minerals from the Covered Countries. As a result, for the 2014 reporting period, our Covered Products are DRC conflict undeterminable.

The Conflict Minerals Report has not been subject to an independent private sector audit as permitted by Form SD, which provides a temporary accommodation for the first two reporting years.

This Report and our Conflict Minerals Report are publicly available at: <http://www.clarcor.com/iisecfilings.aspx>.

### **Item 1.02 Exhibit**

Conflict Minerals Report as required by Items 1.01 and 1.02 of Form SD.
