Rule 13p-1 under the Securities Exchange Act (17 CFR 240.13p-1) for the reporting period from January 1 to December 31, 2014.

Introduction

Lear Corporation (Lear or the Company) is a leading Tier 1 supplier to the global automotive industry. Our business spans all major automotive markets, and we supply seating and electrical distribution systems and related components to virtually every major automotive manufacturer in the world. As of December 31, 2014, we have manufacturing, engineering and administrative capabilities in 34 countries with 219 locations and are continuing to grow our business in all automotive producing regions of the world.

Lear is a recognized global leader in complete automotive seat systems and key individual seat component parts. Our seating business consists of the design, development, engineering, just-in-time assembly and delivery of complete seat systems, as well as the design, development, engineering and manufacture of all major seat components, including seat structures and mechanisms, seat covers and surface materials such as fabric and leather, seat foam and headrests. Our electrical business consists of the design, development, engineering and manufacture of complete electrical distribution systems that route electrical signals and manage electrical power within a vehicle. Key components of our electrical business include wiring harnesses, terminals and connectors, junction boxes, battery chargers, electronic control modules and wireless control devices.
