UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

x **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the Quarterly Period Ended June 30, 2015

Commission File No. 0-21886

BARRETT BUSINESS SERVICES, INC.

(Exact name of registrant as specified in its charter)

Maryland
(State or other jurisdiction of
incorporation or organization)

52-0812977
(IRS Employer
Identification No.)

8100 NE Parkway Drive, Suite 200
Vancouver, Washington
(Address of principal executive offices)

98662
(Zip Code)

(360) 828-0700

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company (as defined in Rule 12b-2 of the Exchange Act).

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Number of shares of common stock, \$.01 par value, outstanding at July 31, 2015 was 7,202,062 shares.

BARRETT BUSINESS SERVICES, INC.

Notes to Consolidated Financial Statements (Unaudited)

Note 1 - Basis of Presentation of Interim Period Statements

The accompanying consolidated financial statements are unaudited and have been prepared by Barrett Business Services, Inc. (Barrett , BBSI , the Company , our or we), pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures typically included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, the consolidated financial statements include all adjustments, consisting only of normal recurring adjustments, necessary for a fair statement of the results for the interim periods presented. The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results may differ from such estimates and assumptions. The consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company s 2014 Annual Report on Form 10-K at pages F1 F34. The results of operations for an interim period are not necessarily indicative of the results of operations for a full year.

Revenue recognition

We recognize revenue as services are rendered by our workforce. Professional employer (PEO) services are normally used by organizations to satisfy ongoing needs related to the management of human capital and are governed by the terms of a client services agreement with a minimum term of one year, which cover all employees at a particular work site. Our client services agreements are renewable on an annual basis and typically require 30 days written notice to cancel or terminate the contract by either party. Our client services agreements provide for immediate termination upon any default of the client regardless of when notice is given. We report PEO revenues on a net basis because we are not the primary obligor for the services provided by our co-employed clients to their customers pursuant to our client services agreements. Consequently, these service fee revenues represent the gross margin generated from our professional employer services after deducting the amounts invoiced to clients for direct payroll expenses such as salaries, wages, health insurance, employee out-of-pocket expenses incurred incidental to employment, and safety incentives. These amounts are also excluded from cost of revenues. Professional employer service fees also include amounts invoiced to our clients for employer payroll-related taxes and workers compensation coverage. Staffing services are engaged by customers to meet short-term and long-term personnel needs.

Marketable securities

As of June 30, 2015, the Company s marketable securities consisted of tax-exempt municipal securities, corporate bonds and U.S. Treasuries. The Company classifies municipal securities, corporate bonds and U.S. Treasuries as available for sale; they are reported at fair value with unrealized gains and losses, net of taxes, shown as a component of accumulated other comprehensive income (loss) in stockholders equity. Management considers available evidence in evaluating potential impairment of investments, including the duration and extent to which fair value is less than cost and the Company s ability and intent to hold the investments. In the event a loss is determined to be other-than-temporary, the loss will be recognized in the statement of operations.

Table of Contents

BARRETT BUSINESS SERVICES, INC.

Notes to Consolidated Financial Statements (Unaudited)

Note 1 - Basis of Presentation of Interim Period Statements (Continued)

Allowance for doubtful accounts

The Company had an allowance for doubtful accounts of \$222,000 and \$291,000 at June 30, 2015 and December 31, 2014, respectively. The Company must make estimates of the collectability of accounts receivable for services provided to customers. Management analyzes historical bad debts, customer concentrations, customer credit-worthiness, current economic conditions, and changes in customers' payment trends when evaluating the adequacy of the allowance for doubtful accounts. If the financial condition of our customers deteriorates, resulting in an impairment of their ability to make payments, additional allowances may be required.

Workers' compensation claims

The Company is a self-insured employer with respect to workers' compensation coverage for all of its employees (including employees co-employed through our client service agreements) working in Oregon, Maryland, Delaware and Colorado, except as described below. In the state of Washington, state law allows only the Company's staffing services and internal management employees to be covered under the Company's self-insured workers' compensation program. Additionally, the Company operates a wholly owned fully licensed insurance company, Ecole Insurance Company (Ecole), in Arizona to provide workers' compensation coverage to our employees in Arizona.

Effective January 1, 2015, the Company no longer maintains a certificate to self-insure in the state of California and now maintains individual policies with ACE Group (ACE) for all California-based clients. The arrangement, typically known as a fronted program, provides BBSI a licensed, admitted insurance carrier in California to issue policies on behalf of BBSI without the intention of transferring any of the workers' compensation risk for the first \$5.0 million per claim. The risk of loss up to the first \$5.0 million per claim is retained by BBSI through an indemnity agreement. While this portion of the risk of loss remains with BBSI, ACE assumes credit risk should BBSI be unable to satisfy its indemnification obligations to ACE. ACE also bears the economic burden for all costs in excess of \$5.0 million per claim. The agreement is effective through January 2016 with the potential for continued annual renewals thereafter.

The Company makes monthly payments into a trust account established between the Company and ACE related to the new ACE fronted insurance program to be set aside for the payment of future claims. The balance in the trust account was \$109.5 million and \$50.1 million at June 30, 2015 and December 31, 2014, respectively. The trust account balance is included as a component of the current and long-term restricted marketable securities and workers' compensation deposits in the accompanying consolidated balance sheets.

BARRETT BUSINESS SERVICES, INC.

Notes to Consolidated Financial Statements (Unaudited) *(Continued)*

Note 1 - Basis of Presentation of Interim Period Statements (Continued)

Workers compensation claims (Continued)

To manage our financial exposure, in the event of catastrophic injuries or fatalities, the Company maintains excess workers compensation insurance through our wholly owned captive insurance company, Associated Insurance Company for Excess (AICE), with a per occurrence retention of \$5.0 million, except in Maryland and Colorado, where our per occurrence retention is \$1.0 million and \$2.0 million, respectively. AICE maintains excess workers compensation insurance coverage with ACE, between \$5.0 million and \$15.0 million per occurrence, except in Maryland, where coverage with ACE is between \$1.0 million and \$25.0 million per occurrence, and in Colorado, where the coverage with ACE is between \$2.0 million and statutory limits per occurrence. The Company continues to evaluate the financial capacity of its insurers to assess the recoverability of the related insurer receivables.

The Company has provided a total of \$229.6 million and \$216.0 million at June 30, 2015 and December 31, 2014, respectively, as an estimated future liability for unsettled workers compensation claims liabilities. The estimated liability for unsettled workers compensation claims represents management s best estimate based upon an actuarial valuation provided by a third party actuary at June 30, 2015 and December 31, 2014. Included in the claims liabilities are case reserve estimates for reported losses, plus additional amounts based on projections for incurred but not reported claims and anticipated increases in case reserve estimates. Also included in these estimates are amounts for unallocated loss adjustment expenses, including legal costs. These estimates are continually reviewed and adjustments to liabilities are reflected in current operating results as they become known.

Our workers compensation claims liabilities do not represent an exact calculation of liability, but instead represent management s best estimate, generally utilizing actuarial expertise and projection techniques, at a given accounting date. The process of estimating unpaid claims and claim adjustment expense involves a high degree of judgment and is subject to a number of variables. These variables can be affected by both internal and external events such as changes in claims handling procedures, changes in individuals involved in the reserve estimation process, inflation, legal trends and legislative changes.

Safety incentives liability

Safety incentives represent cash incentives paid to certain client companies under client service agreements for maintaining safe-work practices in order to minimize workplace injuries. The Company has provided \$18.1 million at June 30, 2015 and \$14.2 million at December 31, 2014 as an estimate of the liability for unpaid safety incentives. The incentive is based on a percentage of annual payroll and is paid annually to customers who meet predetermined workers compensation claims cost objectives. Safety incentive payments are made only after closure of all workers compensation claims incurred during the customer s contract period. The liability is estimated and accrued each month based upon contract year-to-date payroll and the then-current amount of the customer s estimated workers

compensation claims reserves as established by us and our third-party administrator, and the expected payout as determined by historical incentive payment trends. Safety incentive expense is netted against professional employer services revenue in our consolidated statements of operations.

- 11 -

Table of Contents

BARRETT BUSINESS SERVICES, INC.

Notes to Consolidated Financial Statements (Unaudited) (*Continued*)

Note 1 - Basis of Presentation of Interim Period Statements (Continued)

Statements of cash flows

Interest paid during the six months ended June 30, 2015 and 2014 did not materially differ from interest expense. Income taxes received by the Company during the six months ended June 30, 2015 totaled \$1.1 million compared to income taxes paid during the six months ended June 30, 2014 of \$1.3 million.

Reclassifications

Certain prior year amounts have been reclassified to conform with the 2015 presentation. Such reclassifications had no impact on the Company's financial condition, operating results, cash, working capital or stockholders' equity.

Accounting estimates

The preparation of our consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Estimates are used for carrying values of marketable securities, allowance for doubtful accounts, deferred income taxes, carrying values for goodwill and property and equipment, accrued workers' compensation liabilities and safety incentive liabilities. Actual results may or may not differ from such estimates.

Note 2 - Recently Issued Accounting Pronouncements

Revenue recognition

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2014-09, *Revenue from Contracts with Customers* (ASU 2014-09). The amendments in ASU 2014-09 provide for a single, principles-based model for revenue recognition that replaces the existing revenue recognition guidance. In April 2015, the FASB voted for a one-year deferral of the effective date of ASU 2014-09. If approved, the new guidance will be effective for annual and interim periods beginning on or after December 15, 2017 and will replace most existing revenue recognition guidance under U.S. GAAP when it becomes effective. It permits the use of either a retrospective or cumulative effect transition method and early adoption is not permitted. We have not yet selected a transition method and are in the process of evaluating the effect this standard will have on our consolidated financial statements and related disclosures.

Presentation of debt issuance costs

In April 2015, the FASB issued Accounting Standards Update No. 2015-03, *Interest Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs*. This amends the presentation of debt issuance costs on the consolidated balance sheet, such that it requires

- 12 -

Table of Contents

Notes to Consolidated Financial Statements (Unaudited) (*Continued*)

Note 2 Recently Issued Accounting Pronouncements (Continued)

Presentation of debt issuance costs (Continued)

debt issuance costs to be presented on the balance sheet as a direct reduction from the carrying amount of the related debt liability. The amendments in this accounting standard update are to be applied retrospectively and are effective for interim and annual reporting periods beginning after December 15, 2015. We do not expect the adoption of this accounting standard update to have a material impact on our consolidated balance sheets.

Note 3 Revolving Credit Facility and Long-Term Debt

The Company maintains a credit agreement (the Agreement) with its principal bank, Wells Fargo Bank, National Association (the Bank). The Agreement includes a \$40.0 million term loan maturing December 31, 2016, as well as a \$14.0 million revolving credit line, with a \$5.0 million sublimit for unsecured standby letters of credit. The outstanding balance on the term loan was \$37.0 million at June 30, 2015 and \$40.0 million at December 31, 2014. The Company had an outstanding balance of \$3.2 million on its revolving credit line at June 30, 2015. The Agreement also includes \$114.3 million in cash-secured letters of credit to satisfy collateral requirements associated with various surety deposit requirements for workers' compensation purposes in the state of California. In conjunction with these letters of credit, the Company posted \$114.3 million of certificates of deposit with the Bank as collateral, of which \$26.0 million and \$88.3 million is included in current assets and long-term assets, respectively, on the consolidated balance sheet at June 30, 2015 and \$114.3 million was included in long-term assets on the consolidated balance sheet as of December 31, 2014.

The term loan with the Bank requires payments of \$7.0 million on September 30, 2015, \$15.0 million on December 31, 2015, \$5.0 million on June 30, 2016 and \$5.0 million on September 30, 2016, with the balance due at maturity. The term loan bears interest at the one month LIBOR plus 4.0%.

Advances under the revolving credit facility bear interest, as selected by the Company, of either (a) a daily floating rate of one month LIBOR plus 2.0% or (b) a fixed rate of LIBOR plus 2.0%. The Agreement also provides for an unused commitment fee of 0.35% per year on the average daily unused amount of the revolving credit facility, and a fee of 1.75% of the face amount of each letter of credit.

The credit facility is collateralized by the Company's accounts receivable and other rights to receive payment, general intangibles, inventory and equipment.

The Agreement requires the satisfaction of certain financial covenants as follows:

minimum Fixed Charge Coverage ratio of no less than 1.5:1.0, measured quarterly on a rolling four-quarter basis; and

ratio of restricted and unrestricted cash and marketable securities to workers compensation and safety incentive liabilities of at least 1.0:1.0, measured quarterly.

BARRETT BUSINESS SERVICES, INC.

Notes to Consolidated Financial Statements (Unaudited) *(Continued)*

Note 3 Revolving Credit Facility and Long-Term Debt (Continued)

The Agreement includes certain additional covenants as follows:

capital expenditures may not exceed a total of \$5.0 million in 2015 and a total of \$4.0 million in 2016 without the Bank's prior approval;

incurring additional indebtedness is prohibited without the prior approval of the Bank, other than up to \$200,000 per year in purchase money financing so long as total purchase money indebtedness does not exceed \$400,000 at any time;

repurchases of the Company's common stock are prohibited; and

quarterly cash dividends up to \$0.22 per share may be paid so long as there is no default by the Company and payment would not cause a default.

The Agreement also contains customary events of default. If an event of default under the Agreement occurs and is continuing, the Bank may declare any outstanding obligations under the Agreement to be immediately due and payable. The Company was in compliance with all applicable financial covenants at June 30, 2015.

Additionally, the Company maintains a term loan with the Bank with a balance of approximately \$4.9 million and \$5.1 million at June 30, 2015 and December 31, 2014, respectively, secured by the Company's corporate office building in Vancouver, Washington. The term loan requires payment of monthly installments of \$18,375, bearing interest at the one month LIBOR plus 2.25%, with the unpaid principal balance due November 1, 2017.

Note 4 - Basic and Diluted Earnings Per Share

Basic earnings per share are computed based on the weighted average number of common shares outstanding during the period using the treasury method. Diluted earnings per share reflect the potential effects of the exercise of outstanding stock options and vesting of restricted stock units. Basic and diluted shares outstanding are summarized as follows (in thousands):

Three Months Ended	Six Months Ended
June 30,	June 30,

Edgar Filing: BARRETT BUSINESS SERVICES INC - Form 10-Q

	2015	2014	2015	2014
Weighted average number of basic shares outstanding	7,151	7,173	7,143	7,171
Effect of dilutive securities	176	248	185	273
Weighted average number of diluted shares outstanding	7,327	7,421	7,328	7,444

Notes to Consolidated Financial Statements (Unaudited) (*Continued*)

Note 7 Income Taxes

Under ASC 740, Income Taxes, management evaluates the realizability of the deferred tax assets on a quarterly basis under a more-likely than not standard. As part of this evaluation, management reviews all evidence both positive and negative to determine if a valuation allowance is needed. One component of this analysis is to determine whether the Company was in a cumulative loss position for the most recent 12 quarters. The Company was in a cumulative income position for the 12 quarters ended June 30, 2015. Management's review of positive evidence included the existence of federal and California taxable income in eligible carryback years, reversal of temporary items, and projection of future taxable income. Management concluded that no additional valuation allowance, other than those previously recorded against particular deferred tax assets, was required at June 30, 2015. Management will monitor the need for an additional valuation allowance at each quarter in the future and, if the negative evidence outweighs the positive evidence, an allowance will be recorded.

Note 8 Litigation

On November 6, 2014, plaintiffs in Michael Arciaga, et al. v. Barrett Business Services, Inc., et al., filed an action in the United States District Court for the Western District of Washington against BBSI and Michael L. Elich and James D. Miller, BBSI's Chief Executive Officer and Chief Financial Officer, respectively. The action purports to be a class action brought on behalf of all Company shareholders alleging violations of the federal securities laws. The claims arise from the decline in the market price for BBSI common stock following announcement of a charge for increased workers compensation reserves expense. The lawsuit seeks compensatory damages (in an amount to be determined at trial), plus interest, and costs and expenses (including attorney fees and expert fees).

On November 13, 2014, a second purported shareholder class action was filed in the United States District Court for the Western District of Washington, entitled Christopher P. Carnes, et al. v. Barrett Business Services, Inc., et al. The Carnes complaint names the same defendants as the Arciaga case and asserts similar claims for relief.

Similarly, on November 17, 2014, a third purported shareholder class action was filed in the United States District Court for the Western District of Washington, entitled Shiva Stein, et al. v. Barrett Business Services, Inc., et al. The Stein complaint names the same defendants as the Arciaga and Carnes cases and asserts similar claims for relief.

On February 25, 2015, the court ordered consolidation of the three cases, and any new or other cases involving the same subject matter, into a single action for pretrial purposes. The court also appointed the Painters & Allied Trades District Council No. 35 Pension and Annuity Funds as the lead plaintiff.

On April 29, 2015, the plaintiffs in the class action filed a consolidated amended complaint that asserts the same legal claims as the original lawsuits. On June 12, 2015, defendants filed a motion to dismiss the consolidated amended complaint. A hearing on the motion to dismiss the lawsuits is scheduled for early September 2015. Discovery has not been undertaken as it is automatically stayed under the federal Private Securities Litigation Reform Act.

BARRETT BUSINESS SERVICES, INC.

Notes to Consolidated Financial Statements (Unaudited) *(Continued)*

Note 8 Litigation (Continued)

BBSI received a subpoena from the San Francisco office of the Division of Enforcement of the Securities and Exchange Commission (the SEC) in May 2015 in connection with the SEC's investigation of the Company's accounting practices with regard to its workers' compensation reserves. The Company believes that the SEC's inquiry was precipitated by the litigation described above and is cooperating fully with the SEC staff in providing the requested information.

On June 17, 2015, Daniel Salinas (Salinas) filed a shareholder derivative lawsuit against BBSI and certain of its officers and directors in the Circuit Court for Baltimore City, Maryland. The complaint alleges breaches of fiduciary duty, unjust enrichment and other violations of law and seeks recovery of various damages, including the costs and expenses incurred in connection with the Company's reserve strengthening process, reserve study and consultants, the cost of stock repurchases by BBSI in October 2014, compensation paid to the Company's officers, and costs of negotiating the Company's credit facility with its principal lender, as well as the proceeds of sales of stock by certain of BBSI's officers and directors during 2013 and 2014. The derivative claim challenges substantially the same conduct as the shareholder class action lawsuits described above. The Company's first appearance is due September 21, 2015. The derivative lawsuit follows a prior demand letter from counsel representing Salinas received by BBSI on February 27, 2015.

Management is unable to estimate the probability, or the potential range, of loss arising from these legal actions.

The Company is subject to other legal proceedings and claims, which arise in the ordinary course of our business. In the opinion of management, the amount of ultimate liability with respect to currently pending or threatened actions is not expected to materially affect the consolidated financial position or results of operations of the Company.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations **Overview**

Barrett Business Services, Inc. (BBSI, the Company, our or we), is a leading provider of business management solutions for small-and mid-sized companies. The Company has developed a management platform that integrates tools from the human resource outsourcing industry and a knowledge-based approach from the management consulting industry. This platform, through the effective leveraging of human capital, assists our business owner clients in more effectively running their business. We believe this platform, delivered through local teams of professionals, differentiates BBSI from our competitors. BBSI was incorporated in Maryland in 1965.

Business Strategy

Our strategy is to align local operations teams with the mission of small and mid-sized business owners, driving value to their business. To do so, BBSI:

partners with business owners to leverage their investment in human capital through a high-touch, results-oriented approach;

brings predictability to each client organization through a three-tiered management platform; and

enables business owners to focus on their core business by reducing organizational complexity and maximizing productivity.

Business Organization

We operate a decentralized delivery model using locally based teams, typically located within 50 miles of our client companies. We recruit senior level managers to oversee, develop and expand our business at the branch-office level. Additionally, we recruit professionals with expertise in human resources, risk management and workplace safety and various types of administration, including payroll, to field our client delivery teams. This structure fosters autonomous decision-making, allowing local teams of professionals to deliver plans that most closely align with the needs of each business owner client. It also assists us by incubating talent to support increased growth and capacity. We have clients with employees located in 22 states and the District of Columbia, through a network of 54 branch locations in California, Oregon, Washington, Idaho, Arizona, Nevada, Utah, Colorado, Maryland, Delaware and North Carolina. We also have several smaller recruiting locations in our general market areas, which are under the direction of a branch office.

BBSI believes that making significant investments in the best talent available allows us to leverage the value of this investment many times over. We motivate our management employees through a compensation package that includes a competitive base salary and the opportunity for profit sharing. At the branch level, profit sharing is in direct correlation to client performance, reinforcing a culture focused on achievement of client goals.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Services Overview

BBSI's core purpose is to advocate for business owners, particularly in the small-and mid-sized business segment. Our evolution from an entrepreneurially run company to a professionally managed organization has helped to form our view that all businesses experience inflection points at key stages of growth. The insights gained through our own growth, along with the trends we see in working with more than 3,000 companies each day, define our approach to guiding business owners through the challenges associated with being an employer.

BBSI's business teams align with each business owner client through a structured three-tiered progression. In doing so, business teams focus on the objectives of each business owner and deliver planning, guidance and resources in support of those objectives.

Tier 1: Tactical Alignment

The first stage focuses on the mutual setting of expectations and is essential to a successful client relationship. It begins with a process of assessment and discovery in which the business owners' business objectives, attitudes, and culture are aligned with BBSI's processes, controls and culture. This stage includes an implementation process, which addresses the administrative components of employment.

Tier 2: Dynamic Relationship

The second stage of the relationship emphasizes organizational development as a means of achieving each client's business objectives. There is a focus on process improvement, development of best practices, supervisor training and leadership development.

Tier 3: Strategic Counsel

With an emphasis on advocacy on behalf of the business owner, the third stage of the relationship is more strategic and forward-looking with a goal of cultivating an environment in which all efforts are directed by the mission and long-term objectives of the business owner.

In addition to serving as resource and guide, BBSI has the ability to provide workers' compensation coverage as a means of meeting statutory requirements and protecting our clients from employment-related injury claims. Through our internal claims managers and our third-party administrators, we provide claims management services for our co-employed clients. We work aggressively to manage and reduce job injury claims, identify fraudulent claims and structure optimal work programs, including modified duty employees.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)****Results of Operations**

The following table sets forth percentages of total revenues represented by selected items in the Company's Consolidated Statements of Operations for the three and six months ended June 30, 2015 and 2014.

	Percentage of Total Revenue			
	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2015	2014	2015	2014
Revenues:				
Professional employer service fees	76.8%	74.5%	76.7%	74.8%
Staffing services	23.2	25.5	23.3	25.2
Total revenues	100.0	100.0	100.0	100.0
Cost of revenues:				
Direct payroll costs	17.6	19.4	17.7	19.1
Payroll taxes and benefits	39.6	40.4	45.9	46.8
Workers' compensation	23.0	20.4	23.5	20.4
Total cost of revenues	80.2	80.2	87.1	86.3
Gross margin	19.8	19.8	12.9	13.7
Selling, general and administrative expenses	11.6	12.0	10.9	11.4
Depreciation and amortization	0.4	0.4	0.4	0.4
Income from operations	7.8	7.4	1.6	1.9
Other (expense) income, net	(0.3)	0.1	(0.3)	0.1
Income before income taxes	7.5	7.5	1.3	2.0
Provision for income taxes	2.7	2.7	0.5	0.7
Net Income	4.8%	4.8%	0.8%	1.3%

We report professional employer services revenues on a net basis because we are not the primary obligor for the services provided by our co-employed clients to their customers pursuant to our client service agreements. The presentation of revenues on a net basis and the relative contributions of staffing and professional employer services revenues can create volatility in our gross margin percentage. The general impact of fluctuations in our revenue mix is

described below.

A relative increase in professional employer services revenue will generally increase our gross margin percentage. Improvement in gross margin percentage occurs because incremental client services revenue dollars are reported as revenue net of all related direct costs.

A relative increase in staffing revenues will typically decrease our gross margin percentage. Staffing revenues are presented at gross with the related direct costs reported in cost of sales. While staffing relationships typically have higher margins than co-employment relationships, an increase in staffing revenues and related costs presented at gross dilutes the impact of the net professional employer services revenue on gross margin percentage.

- 22 -

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)****Results of Operations (Continued)**

We present for comparison purposes the gross revenues and cost of revenues information set forth in the table below. Although not in accordance with GAAP, management believes this information is more informative as to the level of our business activity and more illustrative of how we manage our operations, including the preparation of our internal operating forecasts, because it presents our professional employer services on a basis comparable to our staffing services.

Cost of revenues	\$ 1,823,654	\$ 1,486,623	\$ (1,519,482)	\$ (1,239,572)	\$ 304,172	\$ 247,051
------------------	--------------	--------------	----------------	----------------	------------	------------

The amount of the reclassification is comprised of direct payroll costs and safety incentives attributable to our co-employed client companies.

Three months ended June 30, 2015 and 2014

Net income for the second quarter of 2015 amounted to \$8.7 million, as compared to net income of \$7.3 million for the second quarter of 2014. Diluted income per share for the second quarter of 2015 was \$1.19 compared to diluted income per share of \$0.98 for the comparable 2014 period.

Revenues for the second quarter of 2015 totaled \$182.4 million, an increase of approximately \$31.3 million or 20.7% over the second quarter of 2014, which reflects an increase in the Company's professional employer service fee revenue of \$27.5 million or 24.5%, coupled with an increase in staffing services revenue of \$3.8 million or 9.8%.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Results of Operations (Continued)

Three months ended June 30, 2015 and 2014 (Continued)

Approximately 78% and 76%, respectively, of our revenue during the three months ended June 30, 2015 and 2014 was attributable to our California operations.

Our growth in professional employer service revenues continues to be primarily attributable to new customers, resulting from continued strength in our referral channels as business from new customers during the second quarter of 2015 doubled our lost business from former customers. Professional employer service revenues from continuing customers reflected a 9.2% increase compared to the second quarter of 2014, primarily resulting from increases in employee headcount and hours worked. The increase in staffing revenues was due primarily to an increase in revenue from continuing customers, coupled with an increase in revenue from the addition of new business, partially offset by lost business from former customers.

Gross margin for the second quarter of 2015 totaled approximately \$36.2 million or 19.8% of revenue compared to \$29.9 million or 19.8% of revenue for the second quarter of 2014. The constant gross margin percentage was primarily due to an increase in workers' compensation expense, as a percentage of revenues, offset by declines in direct payroll costs and payroll taxes and benefits, as a percentage of revenues.

Workers' compensation expense, in terms of dollars and as a percentage of revenues, increased from \$30.8 million or 20.4% in the second quarter of 2014 to \$41.9 million or 23.0% in the second quarter of 2015. The percentage rate increase was primarily due to completing the transition to the ACE fronted insurance program, an increase in the provision for claim costs related to current year claims, and increased costs for surety bonds and standby letters of credit. Our provision for current year claims of \$29.0 million was based on the loss rate as a percentage of payroll calculated by our independent actuary at June 30, 2015.

As described in our Annual Report on Form 10-K for the year ended December 31, 2014, we maintain reserves (recorded as accrued liabilities on our balance sheet) to cover our estimated liabilities for our self-insured workers compensation claims. The adequacy of reserves can be affected by both internal and external events, including adverse development on existing claims, changes in medical, administrative and legal costs, and legislative or systemic changes.

The Company has provided a total of \$229.6 million and \$216.0 million at June 30, 2015 and December 31, 2014, respectively, as an estimated future liability for unsettled workers' compensation claims liabilities. The estimated liability for unsettled workers' compensation claims represents management's best estimate based upon an actuarial valuation provided by a third party actuary at June 30, 2015 and December 31, 2014. Included in the claims liabilities are case reserve estimates for reported losses, plus additional amounts based on projections for incurred but not reported claims and anticipated increases in case reserve estimates. Also included in these estimates are amounts for unallocated loss adjustment expenses, including legal costs. These estimates are continually reviewed and adjustments to liabilities are reflected in current operating results as they become known.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Results of Operations (Continued)

Three months ended June 30, 2015 and 2014 (Continued)

Incurred but not reported (IBNR) is based upon an estimate of future claim payments beyond those considered in the specific case reserve estimates and claims arising from injuries that occurred during a particular time period on or prior to the balance sheet date. Therefore, IBNR is the compilation of the estimated ultimate losses for each accident year less amounts that have been paid and specific case reserves. IBNR reserves, unlike specific case reserves, do not apply to a specific claim, but rather apply to the entire body of claims arising from a specific time period. IBNR primarily provides for costs due to:

- 1) Future claim payments in excess of case reserves on recorded open claims;
- 2) Additional claim payments on closed claims; and
- 3) Claims that have been incurred but have not yet been reported to us.

Our workers' compensation claims liabilities do not represent an exact calculation of liability, but instead represent management's best estimate, generally utilizing actuarial expertise and projection techniques, at a given accounting date. The process of estimating unpaid claims and claim adjustment expense involves a high degree of judgment and is subject to a number of variables. These variables can be affected by both internal and external events such as changes in claims handling and reserve estimation procedures, changes in individuals involved in the reserve estimation process, inflation, legal trends and legislative changes.

A basic premise in most actuarial analyses is that historical data and past patterns demonstrated in the incurred and paid historical data form a reasonable basis upon which to project future outcomes, absent a material change. To the extent a material change affecting the ultimate claim liability is known, such change is quantified to the extent possible through an analysis of internal company data and, if available and when appropriate, external data. Significant structural changes to the available data can materially impact the reserve estimation process. Actuaries exercise a considerable degree of judgment in the evaluation of these factors in their analysis of reserves. The application of actuarial judgment is unavoidable when faced with material uncertainty. Different actuaries may choose different assumptions when faced with such uncertainty, based on their individual backgrounds, professional experiences and the context in which they are reviewing the reserves. Hence, the estimates selected by different actuaries may differ materially from each other.

We use informed judgment throughout the process, derived from individual experiences and expertise applied to multiple sets of data and analysis. We consider all significant facts and circumstances known at the time loss reserves are established and as new facts and circumstances become known. Due to the inherent uncertainty underlying loss reserve estimates including, but not limited to, the future settlement environment, final resolution of our estimated liability for our workers' compensation claims will likely be higher or lower than the related loss reserves at the reporting date. Therefore, actual paid losses, as specific claims are settled in the future, may be materially different in

amount from our current loss reserves.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Results of Operations (Continued)

Three months ended June 30, 2015 and 2014 (Continued)

Direct payroll costs, as a percentage of revenues, decreased from 19.4% for the second quarter of 2014 to 17.6% for the second quarter of 2015, primarily due to the increase in our mix of professional employer services in the Company's customer base compared to the second quarter of 2014 and the effect of each customer's unique mark-up percent.

Payroll taxes and benefits, as a percentage of revenues, for the second quarter of 2015 was 39.6% compared to 40.4% for the second quarter of 2014. The percentage rate decrease was primarily due to a decline in the overall state unemployment tax rates where the Company does business and to a small rise in the overall average wage rates which allowed the tax ceilings to be reached sooner in 2015 as compared to 2014.

Selling, general and administrative (SG&A) expenses for the second quarter of 2015 totaled approximately \$21.3 million, an increase of \$3.3 million or 18.5% over the second quarter of 2014. The increase was primarily attributable to increases in management payroll, incentive bonus pay to field operations, and other variable expense components within SG&A to support our business growth.

Other expense for the second quarter of 2015 totaled approximately \$479,000 as compared to other income of approximately \$106,000 for the comparable 2014 period. The change was primarily attributable to an increase in interest expense from \$44,000 in the second quarter of 2014 to \$562,000 in the second quarter of 2015 resulting from the Company's new credit agreement with its principal bank as disclosed in Note 3 to the Consolidated Financial Statements in this Report.

The income tax rate for the 2015 second quarter was 36.2% compared to the 2014 second quarter rate of 36.0%. We expect the effective income tax rate for the balance of 2015 to remain at a similar rate to the 2015 second quarter income tax rate.

Six months ended June 30, 2015 and 2014

Net income for the six months ended June 30, 2015 amounted to \$2.9 million, as compared to a net income of \$3.7 million for the first six months of 2014. Diluted income per share for the first six months of 2015 was \$0.40 compared to diluted income per share of \$0.50 for the comparable 2014 period.

Revenues for the first six months of 2015 totaled \$349.3 million, an increase of approximately \$63.1 million or 22.0% over the similar period of 2014, which reflects an increase in the Company's professional employer service fee revenue of \$53.6 million or 25.0%, coupled with an increase in staffing services revenue of \$9.5 million or 13.2%.

Approximately 78% and 77%, respectively, of our revenue during the first six months ended June 30, 2015 and 2014 was attributable to our California operations.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Results of Operations (Continued)

Six months ended June 30, 2015 and 2014 (Continued)

Our growth in professional employer service revenues was primarily attributable to new customers, resulting from continued strength in our referral channels as business from new customers during the first six months of 2015 doubled our lost business from former customers. Professional employer service revenues from continuing customers reflected a 8.3% increase compared to the first six months of 2014, primarily resulting from increases in employee headcount and hours worked. The increase in staffing revenues was due primarily to an increase in revenue from the addition of new business, coupled with an increase in revenue from continuing customers, partially offset by lost business from former customers.

Gross margin for the first six months of 2015 totaled approximately \$45.1 million or 12.9% of revenue compared to \$39.2 million or 13.7% of revenue for the first six months of 2014. The .8% decline in gross margin percentage was primarily due to an increase in workers' compensation expense, as a percentage of revenues, partially offset by a decline in direct payroll costs and payroll taxes and benefits, as a percentage of revenues.

Workers' compensation expense, in terms of dollars and as a percentage of revenues, increased from \$58.4 million or 20.4% in the first six months of 2014 to \$81.8 million or 23.5% in the first six months of 2015. The percentage rate increase was primarily due to completing the transition to the ACE fronted insurance program, an increase in the provision for claim costs related to current year claims, and increased costs for surety bonds and standby letters of credit. Our provision for current year claims of \$55.2 million was based on the loss rate as a percentage of payroll calculated by our independent actuary at June 30, 2015.

Direct payroll costs, as a percentage of revenues, decreased from 19.1% for the first six months of 2014 to 17.7% for the first six months of 2015, primarily due to the increase in our mix of professional employer services in the Company's customer base compared to the first six months of 2014 and the effect of each customer's unique mark-up percent.

Payroll taxes and benefits, as a percentage of revenues, for the first six months of 2015 was 45.9% compared to 46.8% for the comparable period of 2014. The percentage rate decrease was primarily due to a decline in the overall state unemployment tax rates where the Company does business and to a small rise in the overall average wage rates which allowed the tax ceilings to be reached sooner in 2015 as compared to 2014.

SG&A expenses for the first six months of 2015 totaled approximately \$38.3 million, an increase of \$5.9 million or 18.3% over the first six months of 2014. The increase was primarily attributable to increases in management payroll, incentive bonus pay to field operations, information technology (IT) expenses and other variable expense components within SG&A to support our business growth. The increased IT expenses related to projects designed to enhance access and delivery of information to the field as well as to improve efficiencies in operations.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Results of Operations (Continued)

Six months ended June 30, 2015 and 2014 (Continued)

Other expense for the six months ended June 30, 2015 totaled approximately \$924,000 as compared to other income of approximately \$196,000 for the comparable 2014 period. The change was primarily attributable to an increase in interest expense from \$88,000 in the first six months of 2014 to \$1.1 million in the comparable 2015 period resulting from the Company's new credit agreement with its principal bank as disclosed in Note 3 to the Consolidated Financial Statements in this Report.

The income tax rate for the first six months of 2015 was 35.6% compared to the income tax rate for the first six months of 2014 of 36.5%.

Factors Affecting Quarterly Results

The Company has historically experienced significant fluctuations in its quarterly operating results and expects such fluctuations to continue in the future. The Company's operating results may fluctuate due to a number of factors such as seasonality, wage limits on statutory payroll taxes, claims experience for workers' compensation, demand for the Company's services, competition, and the effect of acquisitions. The Company's revenue levels may fluctuate from quarter to quarter primarily due to the impact of seasonality on its staffing services business and on certain of its co-employed clients in the agriculture, food processing and construction-related industries. As a result, the Company may have greater revenues and net income in the third quarter of its fiscal year. Revenue levels in the fourth quarter may be affected by many customers' practice of operating on holiday-shortened schedules. Payroll taxes and benefits fluctuate with the level of direct payroll costs, but tend to represent a smaller percentage of revenues and direct payroll later in the Company's fiscal year as federal and state statutory wage limits for unemployment and Social Security taxes are exceeded on a per employee basis. Workers' compensation expense varies with both the frequency and severity of workplace injury claims reported during a quarter and the estimated future costs of such claims. Adverse loss development of prior period claims during a subsequent quarter may also contribute to volatility in the Company's estimated workers' compensation expense.

We have begun offering healthcare coverage to eligible staffing employees in compliance with the employer mandate provision of the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010 (collectively, the Acts). The Acts represent comprehensive U.S. healthcare reform legislation that, in addition to other provisions, would subject us to potential penalties unless we offer to our employees minimum essential healthcare coverage that is affordable. While it is still early in the adoption phase of the Acts' employer mandate provision, our initial price increases appear to be sufficient to cover implementation and operating costs of offering healthcare coverage to staffing employees.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Liquidity and Capital Resources

The Company's cash position for the six months ended June 30, 2015 decreased \$7.1 million from December 31, 2014, compared to a decrease of \$45.7 million for the comparable period in 2014. The decrease in cash at June 30, 2015, as compared to December 31, 2014, was primarily due to the purchase of restricted marketable securities of \$64.5 million and an increase of trade accounts receivable of \$35.2 million, partially offset by net income of \$2.9 million, proceeds from sales and maturities of marketable securities of \$47.2 million, an increase in accrued payroll, payroll taxes and related benefits of \$24.1 million, and an increase in workers' compensation claims liabilities of \$13.6 million.

Net cash provided by operating activities for the six months ended June 30, 2015 amounted to \$12.6 million, compared to \$8.7 million for the comparable 2014 period. For the six months ended June 30, 2015, cash flow was primarily due to net income of \$2.9 million, increases of \$24.1 million in accrued payroll, payroll taxes and related benefits, \$13.6 million in workers' compensation claims liabilities and \$3.9 million in safety incentives liability, partially offset by \$35.2 million in increased trade accounts receivable.

Net cash used in investing activities for the six months ended June 30, 2015 was \$17.3 million, as compared to \$51.0 million for the comparable 2014 period. For the 2015 period, cash from investing activities was primarily used to purchase \$64.5 million of restricted marketable securities, partially offset by proceeds from sales and maturities of marketable securities of \$47.2 million.

Net cash used in financing activities for the six months ended June 30, 2015 was \$2.3 million as compared to \$3.3 million for the comparable 2014 period. For the 2015 period, cash was primarily used for payments of \$41.7 million on credit-line borrowings, \$3.1 million of dividends paid, and payments of \$3.1 million on long-term debt, partially offset by proceeds of \$44.9 million from credit-line borrowings.

The Company's business strategy continues to focus on growth through the expansion of operations at existing offices, together with the possibility of selective acquisition of additional personnel-related businesses, both in its existing markets and other strategic geographic markets. The Company periodically evaluates proposals for various acquisition opportunities, but there can be no assurance that any additional transactions will be consummated.

As disclosed in Note 3 to the Consolidated Financial Statements in this Report, the Company maintains a credit agreement (the "Agreement") with its principal bank, Wells Fargo Bank, National Association (the "Bank"). The Agreement includes a \$40.0 million term loan maturing December 31, 2016, as well as a \$14.0 million revolving credit line, with a \$5.0 million sublimit for unsecured standby letters of credit. The outstanding balance on the term loan was \$37.0 million and \$40.0 million at June 30, 2015 and December 31, 2014, respectively. The Company had an outstanding balance of \$3.2 million on its revolving credit line at June 30, 2015. The Agreement also includes \$114.3 million in cash-secured letters of credit to satisfy collateral requirements associated with various surety deposit requirements for workers

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Liquidity and Capital Resources (Continued)

compensation purposes in the state of California. In conjunction with the letters of credit, the Company posted \$114.3 million of certificates of deposit with the Bank as collateral, of which \$26.0 million and \$88.3 million are included in current assets and long-term assets, respectively, on the consolidated balance sheet at June 30, 2015 and \$114.3 million was included in long-term assets on the consolidated balance sheet as of December 31, 2014.

The term loan with the Bank requires payments of \$7.0 million on September 30, 2015, \$15.0 million on December 31, 2015, \$5.0 million on June 30, 2016, and \$5.0 million on September 30, 2016, with the balance due at maturity. The term loan bears interest at the one month LIBOR plus 4.0%.

Advances under the revolving credit facility bear interest, as selected by the Company, of either (a) a daily floating rate of one month LIBOR plus 2.0% or (b) a fixed rate of LIBOR plus 2.0%. The Agreement also provides for an unused commitment fee of 0.35% per year on the average daily unused amount of the revolving credit facility, and a fee of 1.75% of the face amount of each letter of credit.

The states of California, Oregon, Maryland, Washington, Delaware and Colorado required us to maintain specified investment balances or other financial instruments, totaling \$199.3 million at June 30, 2015, to cover potential workers' compensation claims losses related to the Company's status or former status as a self-insured employer. In partial satisfaction of these requirements, at June 30, 2015, we have provided surety bonds and standby letters of credit totaling \$194.9 million. As of June 30, 2015, the State of California required the Company to maintain a surety deposit of \$190.6 million (which is included in the total \$194.9 million of surety bonds and standby letters of credit), which the Company satisfied through the posting of third party issued surety bonds, backed by a total of \$114.3 million in letters of credit. In conjunction with these letters of credit, the Company posted \$114.3 million of restricted certificates of deposit with the Bank as collateral.

Subsequent to June 30, 2015, the State of California reduced the Company's security requirement from \$190.6 million to \$147.2 million. As a result of the reduced security requirement, the Company's cash-secured letters of credit with its principal bank of \$114.3 million will be reduced to \$88.3 million during the third quarter of 2015. Correspondingly, the certificates of deposit collateral with the Bank will be reduced from \$114.3 million to \$88.3 million. The restricted certificates of deposit are included in current assets and long-term assets at \$26.0 million and \$88.3 million, respectively, on the consolidated balance sheet at June 30, 2015. Management expects future balances of the certificates of deposit and the letters of credit to decrease over time due to a declining self-insured liability as the Company's ability to self-insure its workers' compensation liabilities in California ended December 31, 2014. Consequently, management expects the Company's working capital position to improve in future quarters as the related collateral requirements ease.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Liquidity and Capital Resources (Continued)

The credit facility is collateralized by the Company's accounts receivable and other rights to receive payment, general intangibles, inventory and equipment.

The Agreement requires the satisfaction of certain financial covenants as follows:

minimum Fixed Charge Coverage ratio of no less than 1.5:1.0, measured quarterly on a rolling four-quarter basis; and

ratio of restricted and unrestricted cash and marketable securities to workers' compensation and safety incentive liabilities of at least 1.0:1.0, measured quarterly.

The Agreement includes certain additional covenants as follows:

capital expenditures may not exceed a total of \$5.0 million in 2015 and \$4.0 million in 2016 without the Bank's prior approval;

incurring additional indebtedness is prohibited without the prior approval of the Bank, other than up to \$200,000 per year in purchase money financing so long as total purchase money indebtedness does not exceed \$400,000 at any time;

repurchases of the Company's common stock are prohibited; and

quarterly cash dividends up to \$0.22 per share may be paid so long as there is no default by the Company and payment would not cause a default.

Additionally, the Company maintains a term loan with the Bank with a balance of approximately \$4.9 million at June 30, 2015, secured by the Company's corporate office building in Vancouver, Washington. The term loan requires payment of monthly installments of \$18,375, bearing interest at the one month LIBOR plus 2.25%, with the unpaid principal balance due November 1, 2017.

Management expects that the funds anticipated to be generated from operations and availability under its revolving credit facility will be sufficient in the aggregate to fund the Company's working capital needs for the next twelve months.

Inflation

Inflation generally has not been a significant factor in the Company's operations during the periods discussed above. The Company has taken into account the impact of escalating medical and other costs in establishing reserves for future expenses for workers' compensation claims.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Forward-Looking Information

Statements in this report which are not historical in nature, including discussion of economic conditions in the Company's market areas and effect on revenue levels, the effect of changes in the Company's mix of services on gross margin, the adequacy of the Company's workers' compensation reserves, the effect of changes in its reserving practices and claims management process on its actuarial estimates and workers' compensation reserves, the effect of changes in the interest rate environment on the value of the Company's investment securities and long-term debt, the adequacy of the Company's allowance for doubtful accounts, the effect of the Company's formation and operation of two wholly owned, fully licensed captive insurance subsidiaries and becoming self-insured for certain business risks, the operation and cost of the Company's fronted insurance program with ACE in California, the financial viability of the Company's excess insurance carriers, the effectiveness of the Company's management information systems, payment of future dividends, the availability of working capital to meet the Company's funding requirements, and the potential for and effect of acquisitions, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company or industry to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors with respect to the Company include the ability to retain current clients and attract new clients, difficulties associated with integrating clients into the Company's operations, economic trends in the Company's service areas, the potential for material deviations from expected future workers' compensation claims experience, the effect of changes in the workers' compensation regulatory environment in one or more of the Company's primary markets, collectability of accounts receivable, the carrying values of deferred income tax assets and goodwill, which may be affected by the Company's future operating results, the impact of the Patient Protection and Affordable Care Act on our business, the effect of conditions in the global capital markets on the Company's investment portfolio, and the availability of capital, borrowing capacity on the Company's revolving credit facility, or letters of credit necessary to meet state-mandated surety deposit requirements for maintaining the Company's status as a qualified self-insured employer for workers' compensation coverage or its fronted insurance program, among others. The Company disclaims any obligation to update any such factors or to publicly announce the result of any revisions to any of the forward-looking statements contained herein to reflect future events or developments.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company's exposure to market risk for changes in interest rates primarily relates to its investment portfolio of liquid assets and its outstanding borrowings on its line of credit and long-term debt. As of June 30, 2015, the Company's investment portfolio consisted principally of approximately \$114.3 million in restricted certificates of deposit, \$109.5 million in money market funds held in trust, \$7.4 million in municipal bonds, \$6.6 million in corporate bonds, and \$5.1 million in U.S. treasuries. The Company's outstanding long-term debt totaled approximately \$41.9 million at June 30, 2015. Based on the Company's overall interest exposure at June 30, 2015, a 100 basis point increase in market interest rates would not have a material effect on the fair value of the Company's investment portfolio of liquid assets, its outstanding borrowings or its results of operations because of the predominantly short maturities of the securities within the investment portfolio and the relative size of the outstanding borrowings.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of June 30, 2015 the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures, as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934. Based on the evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and is accumulated and communicated to our management as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Company's internal control over financial reporting that occurred during the Company's fiscal quarter ended June 30, 2015 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents

Part II Other Information

Item 1. Legal Proceedings

On November 6, 2014, plaintiffs in Michael Arciaga, et al. v. Barrett Business Services, Inc., et al., filed an action in the United States District Court for the Western District of Washington against BBSI and Michael L. Elich and James D. Miller, BBSI's Chief Executive Officer and Chief Financial Officer, respectively. The action purports to be a class action brought on behalf of all Company shareholders alleging violations of the federal securities laws. The claims arise from the decline in the market price for BBSI common stock following announcement of a charge for increased workers compensation reserves expense. The lawsuit seeks compensatory damages (in an amount to be determined at trial), plus interest, and costs and expenses (including attorney fees and expert fees).

On November 13, 2014, a second purported shareholder class action was filed in the United States District Court for the Western District of Washington, entitled Christopher P. Carnes, et al. v. Barrett Business Services, Inc., et al. The Carnes complaint names the same defendants as the Arciaga case and asserts similar claims for relief.

Similarly, on November 17, 2014, a third purported shareholder class action was filed in the United States District Court for the Western District of Washington, entitled Shiva Stein, et al. v. Barrett Business Services, Inc., et al. The Stein complaint names the same defendants as the Arciaga and Carnes cases and asserts similar claims for relief.

On February 25, 2015, the court ordered consolidation of the three cases, and any new or other cases involving the same subject matter, into a single action for pretrial purposes. The court also appointed the Painters & Allied Trades District Council No. 35 Pension and Annuity Funds as the lead plaintiff.

On April 29, 2015, the plaintiffs in the class action filed a consolidated amended complaint that asserts the same legal claims as the original lawsuits. On June 12, 2015, defendants filed a motion to dismiss the consolidated amended complaint. A hearing on the motion to dismiss the lawsuits is scheduled for early September 2015. Discovery has not been undertaken as it is automatically stayed under the federal Private Securities Litigation Reform Act.

On June 17, 2015, Daniel Salinas (Salinas) filed a shareholder derivative lawsuit against BBSI and certain of its officers and directors in the Circuit Court for Baltimore City, Maryland. The complaint alleges breaches of fiduciary duty, unjust enrichment and other violations of law and seeks recovery of various damages, including the costs and expenses incurred in connection with the Company's reserve strengthening process, reserve study and consultants, the cost of stock repurchases by BBSI in October 2014, compensation paid to the Company's officers, and costs of negotiating the Company's credit facility with its principal lender, as well as the proceeds of sales of stock by certain of BBSI's officers and directors during 2013 and 2014. The derivative claim challenges substantially the same conduct as the shareholder class action lawsuits described above. The Company's first appearance is due September 21, 2015. The derivative lawsuit follows a prior demand letter from counsel representing Salinas received by BBSI on February 27, 2015.

Table of Contents

Part II Other Information (Continued)

Item 1. Legal Proceedings (Continued)

We intend to vigorously defend against the foregoing actions. We have not recorded any liabilities with respect to the claims in our consolidated balance sheets as of June 30, 2015 and December 31, 2014. We believe that the claims are covered under our directors' and officers' liability insurance, and we have notified our insurance carriers of the claims. The insurers have responded by requesting additional information and by reserving their rights under the policies, including the right to deny coverage under various policy exclusions. Subject to their reservation of rights and the satisfaction of applicable deductibles, we expect to be reimbursed for substantially all legal fees relating to our defense of the claims.

The Company is subject to other legal proceedings and claims, which arise in the ordinary course of our business. In the opinion of management, the amount of ultimate liability with respect to currently pending or threatened actions is not expected to materially affect the consolidated financial position or results of operations of the Company.

BBSI received a subpoena from the San Francisco office of the Division of Enforcement of the Securities and Exchange Commission (the SEC) in May 2015 in connection with the SEC's investigation of the Company's accounting practices with regard to its workers' compensation reserves. The Company believes that the SEC's inquiry was precipitated by the litigation described above and is cooperating fully with the SEC staff in providing the requested information.

Item 1A. Risk Factors

In addition to the risk factors included in our Annual Report on Form 10-K for the year ended December 31, 2014, which was filed with the SEC on March 16, 2015, the following risk factor should be considered:

In March 2010, the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010 (collectively, the Acts) were signed into U.S. law. The Acts represent comprehensive U.S. healthcare reform legislation that, in addition to other provisions, subjects us to potential penalties unless we offer to our employees minimum essential healthcare coverage that is affordable. In order to comply with the employer mandate provision of the Acts, we have begun offering health care coverage to all temporary and permanent employees eligible for coverage under the Acts. Designating employees as eligible is complex, and is subject to challenge by employees and the Internal Revenue Service. While we believe we have properly identified eligible employees, a later determination that we failed to offer the required health coverage to eligible employees could result in penalties that may materially harm our business. We cannot be certain that compliant insurance coverage will remain available to us on reasonable terms, and we could face additional risks arising from future changes to the Acts or changed interpretations of our obligations under the Acts. There can be no assurance that we will be able to recover all related costs through increased pricing to our customers or that such costs will be recovered in the period in which costs are incurred, and the net financial impact on our results of operations could be significant.

Table of Contents

Part II Other Information (Continued)

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

There were no common stock repurchases during the quarter ended June 30, 2015. In November 2006, the Board adopted a stock repurchase program and authorized the repurchase of up to 500,000 common shares of the Company's common stock from time to time to open market purchases. In November 2007, the Board approved an increase in the authorized shares to be repurchased up to 1.0 million common shares. In October 2008, the Board approved a second increase in the authorized common shares to be repurchased up to 3.0 million shares. At June 30, 2015, 1,121,013 shares could be repurchased under the program.
