Renewal of the Telecommunications Services Cooperation Agreement

In order to better position the Group in the changing landscape of the telecommunications industry in China and to enable the Group to meet the subscribers' demand for one-stop shop telecommunications services, the Company and CMCC entered into the Telecommunications Services Cooperation Agreement on 6 November 2009, pursuant to which the Company and its subsidiaries on the one hand and CMCC and its subsidiaries on the other will provide subscriber development services to each other by utilising their respective existing sales channels and resources, such as sales outlets, internet sales network, sales personnel and local sales units, and will cooperate in the provision of basic telecommunications services and value-added telecommunications services to subscribers of the other party, with a view to achieving integrated development of mobile telecommunications and fixed-line telecommunications services and enjoying the synergies created by complementing the services provided by the Company and CMCC and their respective subsidiaries. The initial term of the Telecommunications Services Cooperation Agreement expired on 31 December 2010. The Telecommunications Services Cooperation Agreement provides that upon expiry of its term, the agreement may be renewed for further terms of one year automatically if the parties so wish. The Company and CMCC agreed to renew the Telecommunications Services Cooperation Agreement on 21 December 2010, 6 December 2011, 12 December 2012, 15 August 2013 and 14 August 2014 for a term of one year commencing on 1 January 2011, 1 January 2012, 1 January 2013, 1 January 2014 and 1 January 2015, respectively. A-4

Agency Services

Pursuant to the Telecommunications Services Cooperation Agreement, each party shall provide subscriber development services to the other party, including but not limited to installation and maintenance services, sales services, tariff collection services, business enquiries and other customer services to subscribers of the other party by utilising its existing sales channels and resources, such as sales outlets, internet sales network, sales personnel and local sales units (collectively, the **Agency Services**).

The service fees payable by the Company and CMCC shall be determined with reference to market prices after taking into consideration the actual volume of Agency Services provided by the other party and performance indicators such as total sales being recognised and additional number of subscribers acquired as a result of the provision of Agency Services by the other party. In view of the landscape of the telecommunications industry in China, the number of industry players which provide or demand the Agency Services are limited. In determining the market prices for the Agency Services, the Company takes into account the service fees payable by the Company and CMCC to other industry players as well as the services fees receivable by the Company and CMCC from other industry players. The service fees payable by the Company and CMCC shall, from the Company's perspective, be no less favourable than the service fees charged to other industry players, being independent third parties, for the same Agency Services provided to such independent third parties.

Business Cooperation

In addition, pursuant to the Telecommunications Services Cooperation Agreement, the Company and CMCC and their respective subsidiaries shall cooperate in the provision of basic telecommunications services (such as fixed-line phone services, fixed-line IDD phone services, IP phone-to-phone calls services, 2G GSM and 3G TD-SCDMA mobile telecommunications services) (the **Basic Telecommunications Services**) and value-added telecommunications services (such as paging services, data transmission services, voice mailbox services and network connection services) (the **Value-Added Telecommunications Services**), to subscribers of the other party by integrating and bundling its Basic Telecommunications Services and Value-Added Telecommunications Services with the services of the other party and providing necessary number and licence resources support to the other party, so as to enable the other party to offer a complete telecommunications solution to its subscribers.

The charges under the Telecommunications Services Cooperation Agreement are payable on a monthly basis in cash. The charges payable by the Company and CMCC are determined with reference to the following pricing principles after taking into account the actual volume of Basic Telecommunications Services and Value-Added Telecommunications Services provided by them and the resources and investment contributed by them:

the government fixed price;

where there is no government fixed price but a government guidance price exists, the government guidance price;

where there is neither a government fixed price nor a government guidance price, the market price; or

where none of the above is applicable, the price to be agreed between the parties and determined on a cost-plus basis.

Currently, there are no government fixed price or government guidance price for the Basic Telecommunications Services or the Value-Added Telecommunications Services. Accordingly, the charges payable by the Company and CMCC under the Telecommunications Services Cooperation Agreement for these services are determined with reference to the market price. In view of the landscape of the telecommunications industry in China, the number of industry players which provide or demand the Basic Telecommunications Services or the Value-Added Telecommunications Services are limited. In determining the market prices for the Basic Telecommunications Services and the Value-Added Telecommunications Services, the Company takes into account the charges payable by the Company and CMCC to other industry players and the charges receivable by the Company and CMCC from other industry players. Such charges payable by the Company and CMCC shall, from the Company's perspective, be no less favourable than the charges charged to other industry players, being independent third parties, for the same Basic Telecommunications Services or Value-Added Telecommunications Services.

The annual caps for the charges payable by the Company for the services provided by CMCC and its subsidiaries under the Telecommunications Services Cooperation Agreement for the two years ended 31 December 2013, 31 December 2014 and the year ending 31 December 2015 are RMB4,000 million (equivalent to approximately HK\$5,069 million), RMB5,000 million (equivalent to approximately HK\$6,336 million) and RMB7,000 million (equivalent to approximately HK\$8,871 million), respectively. For the two years ended 31 December 2013 and 31 December 2014, the charges payable by the Company for the services provided by CMCC and its subsidiaries under the Telecommunications Services Cooperation Agreement were RMB2,232 million (equivalent to approximately HK\$2,829 million) and RMB2,567 million (equivalent to approximately HK\$3,253 million), respectively. Based on the Group's unaudited management accounts, the fees payable by the Company for the services provided by CMCC and its subsidiaries under the Telecommunications Services Cooperation Agreement for the six months ended 30 June 2015 amounted to approximately RMB1,360 million (equivalent to approximately HK\$1,724 million).

The annual caps for the charges receivable by the Company for services provided to CMCC and its subsidiaries under the Telecommunications Services Cooperation Agreement for the two years ended 31 December 2013 and 31 December 2014 and for the year ending 31 December 2015 are RMB1,000 million (equivalent to approximately HK\$1,267 million), RMB1,200 million (equivalent to approximately HK\$1,521 million) and RMB1,700 million (equivalent to approximately HK\$2,154 million), respectively. For the two years ended 31 December 2013 and 31 December 2014, the charges received by the Company for the services provided to CMCC and its subsidiaries under the Telecommunications Services Cooperation Agreement amounted to RMB494 million (equivalent to approximately HK\$626 million) and RMB481 million (equivalent to approximately HK\$610 million), respectively. Based on the Group's unaudited management accounts, the fees receivable by the Company for the services provided to CMCC and its subsidiaries under the Telecommunications Services Cooperation Agreement for the six months ended 30 June 2015 amounted to approximately RMB135 million (equivalent to approximately HK\$171 million).

In the full-service business competitive landscape of the telecommunications market in China, the Company has expanded its market share through the promotion of business bundling and joint marketing with TieTong. Accordingly, it is expected that the total amount of charges payable by the Company for services to be provided by CMCC and its subsidiaries under the Telecommunications Services Cooperation Agreement (as renewed) for the year ending 31 December 2016 will increase. At the same time, the Group's revenue from telecommunications services is primarily derived from dedicated lines business and through the efforts of the Company in recent years, the revenue from dedicated lines business has increased. Therefore, it is expected that the total charges payable by the Company for services to be provided by CMCC and its subsidiaries under the Telecommunications Services Cooperation Agreement (as renewed) for the year ending 31 December 2016 will not exceed RMB7,500 million (equivalent to approximately HK\$9,505 million) and the total charges receivable by the Company for the services to be provided to CMCC and its subsidiaries under the Telecommunications Services Cooperation Agreement (as renewed) for the year ending 31 December 2016 will not exceed RMB1,700 million (equivalent to approximately HK\$2,154 million). Accordingly, such amounts are set as the annual caps for the charges payable and receivable by the Company, respectively, under the Telecommunications Services Cooperation Agreement (as renewed) for the year ending 31 December 2016.

Renewal of the Network Capacity Leasing Agreement

For the operation of the TD-SCDMA business and to better utilise the resources of CMCC, the Company entered into the Network Capacity Leasing Agreement with CMCC on 29 December 2008. The term of the Network Capacity Leasing Agreement was one year effective from 1 January 2009, and unless the parties agree otherwise, upon expiry of the term, the Network Capacity Leasing Agreement shall automatically be renewed for further terms of one year. As a result of the Company actively developing and promoting the TD-SCDMA business, the Company and CMCC had agreed to renew the Network Capacity Leasing Agreement on 6 November 2009, 21 December 2010, 6 December 2011, 12 December 2012, 15 August 2013 and 14 August 2014 for a term of one year commencing on 1 January 2010, 1 January 2011, 1 January 2012, 1 January 2013, 1 January 2014 and 1 January 2015, respectively. In view of the expiry of the Network Capacity Leasing Agreement on 31 December 2015, the parties have again agreed to renew the Network Capacity Leasing Agreement on 21 August 2015 for a further term of one year commencing on 1 January 2016.

Pursuant to the Network Capacity Leasing Agreement, the Company and its subsidiaries lease the TD-SCDMA network capacity (the **TD Network Capacity**) from CMCC and pay leasing fees (the **Capacity Leasing Fees**) to CMCC.

The Capacity Leasing Fees are payable on a monthly basis in cash. The Capacity Leasing Fees payable by the Company under the Network Capacity Leasing Agreement are determined on a basis that reflects the Group's actual usage of CMCC's TD Network Capacity and to compensate CMCC for the costs of such network capacity. The Capacity Leasing Fees shall be calculated using the following formula:

Capacity Leasing Fees = the costs of the related assets of the TD Network Capacity of CMCC during the period x the average usage of the TD-SCDMA network during the period;

The costs of the related assets of the TD Network Capacity of CMCC during the period = charges including the depreciation and amortisation charges of the TD network assets that are recorded as fixed assets or intangible assets of CMCC which have been realised into network capacity during the period; and

The average usage of the TD-SCDMA network during the period is calculated with reference to general practice for network construction and leasing and is based on the average actual usage of the base resource units of the TD-SCDMA network at peak hours by the subsidiaries.

The annual caps for the transactions contemplated under the Network Capacity Leasing Agreement for the two years ended 31 December 2013 and 31 December 2014 and for the year ending 31 December 2015 are RMB6,000 million (equivalent to approximately HK\$7,604 million), RMB8,500 million (equivalent to approximately HK\$10,772 million) and RMB10,000 million (equivalent to approximately HK\$12,673 million), respectively. For the two years ended 31 December 2013 and 31 December 2014, the Capacity Leasing Fees paid by the Company to CMCC were RMB3,876 million (equivalent to approximately HK\$4,912 million) and RMB5,012 million (equivalent to approximately HK\$6,352 million), respectively. Based on the Group's unaudited management accounts, the Capacity Leasing Fees payable by the Company to CMCC for the six months ended 30 June 2015 amounted to approximately RMB2,304 million (equivalent to approximately HK\$2,920 million).

In order to satisfy the Company's business demand, the Company will continue to pay CMCC the Capacity Leasing Fees based on the actual usage of the TD-SCDMA network. The Company expects the usage of the TD-SCDMA network to remain relatively stable. Accordingly, it is expected that the amount of Capacity Leasing Fees payable by the Company to CMCC under the Network Capacity Leasing Agreement (as renewed) will broadly commensurate with the amount payable in the year 2015.

Based on the existing scale of the TD-SCDMA network, the expected development of the TD-SCDMA business and the anticipated usage of the TD-SCDMA network, the amount of Capacity Leasing Fees payable by the Company to CMCC under the Network Capacity Leasing Agreement (as renewed) for the year ending 31 December 2016 is expected not to exceed RMB10,000 million (equivalent to approximately HK\$12,673 million). Accordingly, this amount is set as the annual cap for the transactions contemplated under the Network Capacity Leasing Agreement (as renewed) for the year ending 31 December 2016.

Renewal of the Tripartite Agreement

The Company entered into the Tripartite Agreement with CMCC and TieTong on 13 November 2008, pursuant to which the rights and obligations of CMCC under a series of interconnection settlement agreements entered into between CMCC and TieTong from January 2002 to December 2007 were transferred to the Company. Such interconnection settlement agreements regulate the interconnection of the networks of CMCC and TieTong and the settlement of charges for various telecommunications services, including IP phone calls, long distance calls, international telephone service and dial-up service. The initial term of the Tripartite Agreement expired on 31 December 2009, and pursuant to the terms thereof unless the parties agree otherwise, upon the expiry of the term, the Tripartite Agreement shall automatically be renewed for further terms of one year. The Company, CMCC and TieTong agreed to renew the Tripartite Agreement on 6 November 2009, 21 December 2010, 6 December 2011, 12 December 2012, 15 August 2013 and 14 August 2014 for a term of one year commencing on 1 January 2010, 1 January 2011, 1 January 2012, 1 January 2013, 1 January 2014 and 1 January 2015, respectively. In view of the expiry of the Tripartite Agreement on 31 December 2015, the parties have again agreed to renew the Tripartite Agreement on 21 August 2015 for a further term of one year commencing on 1 January 2016.

Settlement payments are made on a monthly basis in cash. Details of the interconnection settlement arrangements between the Company and TieTong under the Tripartite Agreement are set out below:

- (v) In respect of IDD call service, 197 long distance call service and 197300 debit card call service, TieTong makes a settlement payment to the Company at the rate of RMB0.06 per minute.

The settlement charges receivable by the Company from TieTong under the Tripartite Agreement for the two years ended 31 December 2013 and 31 December 2014 were RMB241 million (equivalent to approximately HK\$305 million) and RMB216 million (equivalent to approximately HK\$274 million), respectively. The settlement charges received are below 0.1% of each of the applicable percentage ratios set out in Rule 14.07 of the Listing Rules. Based on the Group's unaudited management accounts, the settlement charges receivable by the Company from TieTong under the Tripartite Agreement for the six months ended 30 June 2015 was approximately RMB94 million (equivalent to approximately HK\$119 million) and it is expected that the settlement charges receivable by the Company from TieTong under the Tripartite Agreement for the year ending 31 December 2015 will be below 0.1% of each of the applicable percentage ratios set out in Rule 14.07 of the Listing Rules. Based on the historical level of the settlement payments made by TieTong to the Company, the aggregate amount of settlement charges receivable by the Company from TieTong under the Tripartite Agreement (as renewed) for the year ending 31 December 2016 is expected to be below 0.1% of each of the applicable percentage ratios set out in Rule 14.07 of the Listing Rules.

The annual caps for the settlement charges payable by the Company to TieTong under the Tripartite Agreement for the two years ended 31 December 2013 and 31 December 2014 and for the year ending 31 December 2015 are RMB700 million (equivalent to approximately HK\$887 million), RMB800 million (equivalent to approximately HK\$1,014 million) and RMB800 million (equivalent to approximately HK\$1,014 million), respectively. For the two years ended 31 December 2013 and 31 December 2014, the settlement charges paid by the Company to TieTong under the Tripartite Agreement was RMB500 million (equivalent to approximately HK\$634 million) and RMB425 million (equivalent to approximately HK\$539 million), respectively. Based on the Group's unaudited management accounts, the aggregate settlement charges payable by the Company under the Tripartite Agreement for the six months ended 30 June 2015 was approximately RMB191 million (equivalent to approximately HK\$242 million).

In view of the Company's current business development, the overall subscriber numbers and business volume remain relatively stable and it is expected that the volume of interconnection settlement from the Company to TieTong will commensurate with the amount payable in the year 2015. The settlement charges payable by the Company to TieTong under the Tripartite Agreement (as renewed) for the year ending 31 December 2016 is expected not to exceed RMB800 million (equivalent to approximately HK\$1,014 million). Accordingly, this amount is set as the annual cap for the transactions contemplated under the Tripartite Agreement (as renewed) for the year ending 31 December 2016.

Renewal of the Network Assets Leasing Agreement

In order to better position the Group in the changing landscape of the telecommunications industry in China and to enable the Group to meet the subscribers' demand for one-stop shop telecommunications services, the Company entered into the Network Assets Leasing Agreement with CMCC on 18 August 2011, pursuant to which the Company and its subsidiaries on the one hand and CMCC and its subsidiaries on the other will lease their respective telecommunications network operation assets (the **Network Assets**) to each other in return for a leasing fee (the **Assets Leasing Fees**). By utilising the Network Assets of CMCC and its subsidiaries, the Company intends to offer its subscribers a complete telecommunications solution. The initial term of the Network Assets Leasing Agreement expired on 31 December 2011, and pursuant to the terms thereof unless the parties agree otherwise, upon expiry of the term, the Network Assets Leasing Agreement shall automatically be renewed for further terms of one year. The Company and CMCC agreed to renew the Network Assets Leasing Agreement on 6 December 2011, 12 December 2012, 15 August 2013 and 14 August 2014 for a term of one year commencing on 1 January 2012, 1 January 2013, 1 January 2014 and 1 January 2015, respectively. In view of the expiry of the Network Assets Leasing Agreement on 31 December 2015, the parties have again agreed to renew the Network Assets Leasing Agreement on 21 August 2015 for a term of one year commencing on 1 January 2016.

The Network Assets include, among others, access network, transmission network, machinery rooms and equipment. The parties to the Network Assets Leasing Agreement have the right to adjust the scope of the Network Assets leased under the Network Assets Leasing Agreement to suit their respective business needs.

The Assets Leasing Fees are payable on a monthly basis in cash. The Assets Leasing Fees shall be determined with reference to the prevailing market rates. In view of the landscape of the telecommunications industry in China, the number of industry players which own and operate Network Assets are limited. In determining the market rates for the Assets Leasing Fees, the Company takes into account the charges payable by the Company and CMCC to other industry players as well as the charges receivable by the Company and CMCC from other industry players. The Assets Leasing Fees payable by the Company to CMCC shall not be more than the leasing fees charged to other industry players, being independent third parties, for same kinds of Network Assets.

The Assets Leasing Fees received by the Group from CMCC and its subsidiaries under the Network Assets Leasing Agreement for the two years ended 31 December 2013 and 31 December 2014 were RMB109 million (equivalent to approximately HK\$138 million) and RMB95 million (equivalent to approximately HK\$120 million), respectively, which is below 0.1% of each of the applicable ratios set out in Rule 14.07 of the Listing Rules. Based on the Group's unaudited management accounts, the Assets Leasing Fees receivable by the Group from CMCC and its subsidiaries under the Network Assets Leasing Agreement for the six months ended 30 June 2015 was approximately RMB63 million (equivalent to approximately HK\$80 million), and the amount of Assets Leasing Fees receivable from CMCC and its subsidiaries for the year ending 31 December 2015 is expected to be below 0.1% of each of the applicable percentage ratios set out in Rule 14.07 of the Listing Rules. The amount of Assets Leasing Fees receivable by the Group from CMCC and its subsidiaries under the Network Assets Leasing Agreement (as renewed) for the year ending 31 December 2016 is also expected to be below 0.1% of each of the applicable percentage ratios set out in Rule 14.07 of the Listing Rules.

The annual caps for the Assets Leasing Fees payable by the Group to CMCC and its subsidiaries under the Network Assets Leasing Agreement for the two years ended 31 December 2013 and 31 December 2014 and for the year ending 31 December 2015 are RMB13,000 million (equivalent to approximately HK\$16,475 million), RMB14,600 million (equivalent to approximately HK\$18,503 million) and RMB15,000 million (equivalent to approximately HK\$19,009 million), respectively. For the two years ended 31 December 2013 and 31 December 2014, the Assets Leasing Fees paid by the Group to CMCC and its subsidiaries under the Network Assets Leasing Agreement were RMB9,837 million (equivalent to approximately HK\$12,466 million) and RMB11,062 million (equivalent to approximately HK\$14,019 million), respectively. Based on the Group's unaudited management accounts, the Assets Leasing Fees payable by the Group to CMCC and its subsidiaries for the six months ended 30 June 2015 amounted to approximately RMB5,706 million (equivalent to approximately HK\$7,231 million).

In order to satisfy the Company's business demand, the Company will continue to lease Network Assets from CMCC and its subsidiaries but the scale of the Network Assets leased will decrease, resulting in a decrease in the Assets Leasing Fees payable by the Group. The Assets Leasing Fees payable by the Group under the Network Assets Leasing Agreement (as renewed) for the lease of Network Assets for the year ending 31 December 2016 are expected not to exceed RMB14,000 million (equivalent to approximately HK\$17,742 million). Accordingly, this amount is set as the annual cap for the Assets Leasing Fees payable by the Group to CMCC and its subsidiaries under the Network Assets Leasing Agreement (as renewed) for the year ending 31 December 2016.

LISTING RULES IMPLICATIONS

CMCC is the ultimate controlling shareholder of the Company and hence a connected person of the Company. As TieTong is a wholly-owned subsidiary of CMCC, TieTong is also a connected person of the Company. Accordingly, the transactions contemplated under the Telecommunications Services Cooperation Agreement (as renewed), the Network Capacity Leasing Agreement (as renewed), the Tripartite Agreement (as renewed) and the Network Assets Leasing Agreement (as renewed) constitute continuing connected transactions for the Company under Rule 14A.25 of the Listing Rules.

Since each of the applicable percentage ratios set out in Rule 14.07 of the Listing Rules in respect of the annual caps for the amounts payable or receivable by the Company under the Telecommunications Services Cooperation Agreement (as renewed), and for the amounts payable by the Company under each of the Network Capacity Leasing Agreement (as renewed), the Tripartite Agreement (as renewed) and the Network Assets Leasing Agreement (as renewed) is, on an annual basis, above 0.1% but below 5%, each of the transactions contemplated thereunder is classified as a continuing connected transaction under Rule 14A.76(2) of the Listing Rules and is only subject to the reporting, annual review and announcements requirement set out in the Listing Rules but is exempt from the independent shareholders' approval requirement under the Listing Rules. Details of the Telecommunications Services Cooperation Agreement (as renewed), the Network Capacity Leasing Agreement (as renewed), the Tripartite Agreement (as renewed) and the Network Assets Leasing Agreement (as renewed) will be included in the annual report and accounts of the Company in accordance with Rules 14A.49, 14A.71 and 14A.72 of the Listing Rules.

The Group had no other prior transactions with CMCC or TieTong (as the case may be) and their respective associates which required aggregation with the Telecommunications Services Cooperation Agreement (as renewed), the Network Capacity Leasing Agreement (as renewed), the Tripartite Agreement (as renewed) or the Network Assets Leasing Agreement (as renewed) under Rule 14A.81 of the Listing Rules.

As all the executive Directors also hold executive positions at CMCC, all the executive Directors abstained from voting on the board resolution approving the transactions under the Telecommunications Services Cooperation Agreement (as renewed), the Network Capacity Leasing Agreement (as renewed), the Tripartite Agreement (as renewed) and the Network Assets Leasing Agreement (as renewed).

The Directors (including independent non-executive Directors but excluding the Directors who abstained from voting) of the Company are of the view that the Telecommunications Services Cooperation Agreement (as renewed), the Network Capacity Leasing Agreement (as renewed), the Tripartite Agreement (as renewed) and the Network Assets Leasing Agreement (as renewed) were entered into after arm's length negotiation between the Company, CMCC and TieTong (as the case may be) and in the ordinary and usual course of business of the Group, reflect normal commercial terms and are in the interests of the shareholders of the Company and the Company as a whole, and the terms as well as the proposed annual caps for the transactions thereunder are fair and reasonable.
