DCT Industrial Trust Inc. may offer to sell from time to time debt securities, common stock, preferred stock, stock purchase contracts, depositary shares, units and warrants. The debt securities of DCT Industrial Trust Inc. may be convertible into common stock or preferred stock of DCT Industrial Trust Inc. and may be guaranteed by DCT Industrial Operating Partnership LP. The preferred stock of DCT Industrial Trust Inc. may either be sold separately or represented by depositary shares and may be convertible into common stock or preferred stock of another series. DCT Industrial Operating Partnership LP may offer to sell from time to time debt securities, which may be guaranteed by DCT Industrial Trust Inc.

The debt securities, common stock, preferred stock, stock purchase contracts, depositary shares, units and warrants of DCT Industrial Trust Inc. and the debt securities of DCT Industrial Operating Partnership LP may be offered separately or together, in multiple series, in amounts, at prices and on terms that will be set forth in one or more prospectus supplements to this prospectus. DCT Industrial Operating Partnership LP may guarantee the payment of principal of, premium, if any, and interest on debt securities issued by DCT Industrial Trust Inc. to the extent and on the terms described herein and in the applicable prospectus supplement to this prospectus. DCT Industrial Trust Inc. may guarantee the payment of principal of, premium, if any, and interest on debt securities issued by DCT Industrial Operating Partnership LP to the extent and on the terms described herein and in the applicable prospectus supplement to this prospectus.

This prospectus provides you with a general description of these securities that DCT Industrial Trust Inc., DCT Industrial Operating Partnership LP and selling security holders may offer and the general manner in which they may be offered from time to time. Each time any of DCT Industrial Trust Inc., DCT Industrial Operating Partnership LP or selling security holders sell securities, a prospectus supplement will be provided that will contain specific information about the terms of any securities offered and may add to or update the information in this prospectus. You should read this prospectus and any applicable prospectus supplement carefully before you invest in our securities.

DCT Industrial Trust Inc., DCT Industrial Operating Partnership LP or selling security holders may offer the securities directly to investors, through agents designated from time to time by DCT Industrial Trust Inc. or DCT Industrial Operating Partnership LP, or to or through underwriters or dealers. DCT Industrial Trust Inc. and DCT Industrial Operating Partnership LP may offer and sell these securities on a continuous or delayed basis.

The common stock of DCT Industrial Trust Inc. is listed on the New York Stock Exchange under the symbol DCT. On September 9, 2015 the last reported sale price of DCT Industrial Trust Inc.'s common stock on the New York Stock Exchange was \$31.38.

**Investing in the securities described in this prospectus involves various risks. See Risk Factors beginning on page 4 as well as the risk factors contained in documents DCT Industrial Trust Inc. files with the Securities and Exchange Commission and which are incorporated by reference in this prospectus.**

**Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities, or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.**

**The date of this prospectus is September 10, 2015**

**PROSPECTUS SUMMARY**

*This summary only highlights the more detailed information appearing elsewhere in this prospectus or incorporated by reference in this prospectus. It may not contain all of the information that is important to you. You should carefully read the entire prospectus and the documents incorporated by reference in this prospectus before deciding whether to invest in our securities.*

*Unless the context otherwise requires, or unless otherwise specified, all references in this prospectus to the terms we, us, our and our company refer to DCT Industrial Trust Inc., which we refer to as DCT, together with its subsidiaries, including DCT Industrial Operating Partnership LP, which we refer to as the Operating Partnership.*

**About This Prospectus**

This document is called a prospectus, and it provides you with a general description of the securities we may offer. Each time we sell securities, we will provide a prospectus supplement containing specific information about the terms of the securities being offered. That prospectus supplement may include a discussion of any risk factors or other special considerations that apply to those securities. The prospectus supplement may also add, update or change the information in this prospectus. If there is any inconsistency between the information in this prospectus and in a prospectus supplement, you should rely on the information in that prospectus supplement. You should read both this prospectus and any prospectus supplement together with additional information described under the heading **Where You Can Find More Information**.

We have filed a registration statement with the Securities and Exchange Commission, or the SEC, using a shelf registration process. Under this shelf process, we may offer and sell any combination of the securities described in this prospectus, in one or more offerings.

Our SEC registration statement containing this prospectus, including exhibits, provides additional information about us and the securities offered under this prospectus. The registration statement can be read at the SEC's web site or at the SEC's offices. The SEC's web site and street addresses are provided under the heading **Where You Can Find More Information**.

When acquiring securities, you should rely only on the information provided in this prospectus and in the related prospectus supplement, including any information incorporated by reference. No one is authorized to provide you with information different from that which is contained, or deemed to be contained, in the prospectus and related prospectus supplement. We and the selling stockholders are not offering securities in any state where the offer of such securities is prohibited. You should not assume that the information in this prospectus, any prospectus supplement or any document incorporated by reference is truthful or complete as of any date other than the date indicated on the cover page of these documents.

This prospectus contains forward-looking statements. You should read the explanation of the qualifications and limitations on such forward-looking statements on page 5 of this prospectus. You should also carefully consider the various risk factors incorporated by reference into this prospectus from our SEC filings, which risk factors may cause our actual results to differ materially from those indicated by such forward-looking statements. You should not place undue reliance on our forward-looking statements.

Unless otherwise stated, currency amounts in this prospectus and any prospectus supplement are stated in United States dollars.

**Table of Contents****About DCT Industrial Trust Inc. and DCT Industrial Operating Partnership LP**

DCT Industrial Trust Inc. is a leading industrial real estate company specializing in the acquisition, development, leasing and management of bulk distribution and light industrial properties located in high-volume distribution markets in the United States. DCT was formed as a Maryland corporation in April 2002 and has elected to be treated as a real estate investment trust, or REIT, for U.S. federal income tax purposes. We are structured as an umbrella partnership REIT under which substantially all of our current and future business is, and will be, conducted through a majority owned and controlled subsidiary, DCT Industrial Operating Partnership LP, a Delaware limited partnership, for which DCT is the sole general partner. DCT owns properties through the Operating Partnership and its subsidiaries.

As of June 30, 2015, we owned interests in approximately 72.6 million square feet of properties leased to approximately 900 customers, including:

61.1 million square feet comprising 398 consolidated operating properties, which were 95.1% occupied;

8.1 million square feet comprising 24 unconsolidated properties were 96.9% occupied and which we operated on behalf of four institutional capital management partners;

0.8 million square feet comprising four consolidated properties under redevelopment; and

2.6 million square feet comprising 11 consolidated buildings in development.

In addition, the Company has five projects under construction and several projects in predevelopment.

Our principal executive office is located at 518 17<sup>th</sup> Street, Suite 800, Denver, Colorado 80202; our telephone number is (303) 597-2400. We also maintain regional offices in Atlanta, Georgia; Baltimore, Maryland; Chicago, Illinois; Cincinnati, Ohio; Dallas, Texas; Houston, Texas; Paramus, New Jersey; Newport Beach, California; Emeryville, California; Orlando, Florida; and Seattle, Washington. Our website address is [www.dctindustrial.com](http://www.dctindustrial.com). The information included or referenced to on, or otherwise accessible through, our website is not intended to form a part of or be incorporated by reference into this prospectus.

**Ratio of Earnings to Fixed Charges**

The following table sets forth DCT's consolidated ratios of earnings to fixed charges for each of the periods shown.

	Six Months Ended June 30,		Year Ended December 31			
	2015	2014	2013	2012	2011	2010
Ratio of Earnings to Fixed Charges	2.3 <sup>(1)</sup>	1.5 <sup>(1)</sup>	(1)	(1)	(1)	(1)

- (1) The ratio was less than 1:1 for the years ended December 31, 2013, December 31, 2012, December 31, 2011 and December 31, 2010, as earnings were inadequate to cover fixed charges by deficiencies of approximately \$(9.9) million, \$(27.4) million, \$(38.3) million and \$(38.8) million, respectively.

The ratio of earnings to fixed charges was computed by dividing earnings by fixed charges. Earnings consist of (a) pretax income from continuing operations before adjustment for income or loss from equity investees, plus (b) fixed charges, plus (c) amortization of capitalized interest, plus (d) distributed income of equity investees, plus (e) our share of pre-tax losses of equity investees for which charges arising from guarantees are included in fixed charges, less (f) interest capitalized, less (g) preferred stock dividend requirements of consolidated subsidiaries, less (h) the noncontrolling interest in pre-tax income of subsidiaries that have not incurred fixed charges. Fixed charges consist of the sum of (a) interest expensed and capitalized, (b) amortized premiums, discounts and capitalized expenses related to indebtedness, (c) an estimate of the interest within rental expense and (d) preferred stock dividend requirements of consolidated subsidiaries.

**Table of Contents**

The following table sets forth the Operating Partnership's consolidated ratios of earnings to fixed charges for each of the periods shown.

	Six Months Ended		Year Ended December 31				
	June 30,		2014	2013	2012	2011	2010
	2015						
Ratio of Earnings to Fixed Charges	2.3 <sup>(1)</sup>	1.5 <sup>(1)</sup>	(1)	(1)	(1)	(1)	

<sup>(1)</sup> The ratio was less than 1:1 for the years ended December 31, 2013, December 31, 2012, December 31, 2011 and December 31, 2010, as earnings were inadequate to cover fixed charges by deficiencies of approximately \$(9.9) million, \$(27.4) million, \$(38.3) million and \$(38.8) million, respectively.

The ratio of earnings to fixed charges was computed by dividing earnings by fixed charges. Earnings consist of (a) pretax income from continuing operations before adjustment for income or loss from equity investees, plus (b) fixed charges, plus (c) amortization of capitalized interest, plus (d) distributed income of equity investees, plus (e) the Operating Partnership's share of pre-tax losses of equity investees for which charges arising from guarantees are included in fixed charges, less (f) interest capitalized, less (g) preferred stock dividend requirements of consolidated subsidiaries, less (h) the noncontrolling interest in pre-tax income of subsidiaries that have not incurred fixed charges. Fixed charges consist of the sum of (a) interest expensed and capitalized, (b) amortized premiums, discounts and capitalized expenses related to indebtedness, (c) an estimate of the interest within rental expense and (d) preferred stock dividend requirements of consolidated subsidiaries.

**Ratio of Earnings to Combined Fixed Charges and Preferred Stock Dividends**

The following table sets forth DCT's consolidated ratios of earnings to combined fixed charges and preferred stock dividends for each of the periods shown.

	Six Months Ended		Year Ended December 31				
	June 30,		2014	2013	2012	2011	2010
	2015						
Ratio of Earnings to Combined Fixed Charges and Preferred Stock Dividends	2.3 <sup>(1)</sup>	1.5 <sup>(1)</sup>	(1)	(1)	(1)	(1)	

<sup>(1)</sup> The ratio was less than 1:1 for the years ended December 31, 2013, December 31, 2012, December 31, 2011 and December 31, 2010, as earnings were inadequate to cover fixed charges by deficiencies of approximately \$(9.9) million, \$(27.4) million, \$(38.3) million and \$(38.8) million, respectively.

The ratio of earnings to combined fixed charges and preferred stock dividends was computed by dividing earnings by combined fixed charges and preferred stock dividends. Earnings consist of (a) pretax income from continuing operations before adjustments for income or loss from equity investees, plus (b) fixed charges, plus (c) amortization of capitalized interest, plus (d) distributed income of equity investees, plus (e) our share of pre-tax losses of equity investees for which charges arising from guarantees are included in fixed charges, less (f) interest capitalized, less (g) preferred stock dividend requirements of consolidated subsidiaries, less (h) the noncontrolling interest in pre-tax income of subsidiaries that have not incurred fixed charges. Fixed charges consist of the sum of (a) interest expensed

and capitalized, (b) amortized premiums, discounts and capitalized expenses related to indebtedness, (c) an estimate of the interest within rental expense and (d) preferred stock dividend requirements of consolidated subsidiaries. Preferred stock dividends are the amount of pre-tax earnings that are required to pay the dividends on outstanding preferred stock.

**Table of Contents**

**RISK FACTORS**

*You should carefully consider the risks described in the documents incorporated by reference in this prospectus, before making an investment decision. These risks are not the only ones facing our company. Additional risks not presently known to us or that we currently deem immaterial may also impair our business operations. Our business, financial condition or results of operations could be materially adversely affected by the materialization of any of these risks. The trading price of our securities could decline due to the materialization of any of these risks, and you may lose all or part of your investment. This prospectus and the documents incorporated herein by reference also contain forward-looking statements that involve risks and uncertainties. Actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the risks described in the documents incorporated herein by reference, including (i) DCT's and the Operating Partnership's Annual Report on Form 10-K for the year ended December 31, 2014, (ii) DCT's and the Operating Partnership's Quarterly Reports on Form 10-Q for the quarters ended March 31, 2015 and June 30, 2015 and (iii) documents DCT and the Operating Partnership file with the SEC after the date of this prospectus and which are deemed incorporated by reference in this prospectus.*

**Table of Contents**

**FORWARD-LOOKING STATEMENTS**

We make statements in this prospectus that are considered forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act, which are usually identified by the use of words such as anticipates, believes, estimates, expects, intends, may, plans, projects, seeks, should, will, and words or similar expressions. We intend these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and are including this statement for purposes of complying with those safe harbor provisions. These forward-looking statements reflect our current views about our plans, intentions, expectations, strategies and prospects, which are based on the information currently available to us and on assumptions we have made. Although we believe that our plans, intentions, expectations, strategies and prospects as reflected in or suggested by those forward-looking statements are reasonable, we can give no assurance that the plans, intentions, expectations or strategies will be attained or achieved. Furthermore, actual results may differ materially from those described in the forward-looking statements and will be affected by a variety of risks and factors that are beyond our control including, without limitation:

national, international, regional and local economic conditions;

the general level of interest rates and the availability of capital;

the competitive environment in which we operate;

real estate risks, including fluctuations in real estate values and the general economic climate in local markets and competition for tenants in such markets;

decreased rental rates or increasing vacancy rates;

defaults on or non-renewal of leases by tenants;

acquisition and development risks, including failure of such acquisitions and development projects to perform in accordance with projections;

the timing of acquisitions, dispositions and developments;

natural disasters such as fires, floods, tornadoes, hurricanes and earthquakes;

energy costs;

the terms of governmental regulations that affect us and interpretations of those regulations, including the costs of compliance with those regulations, changes in real estate and zoning laws and increases in real property tax rates;

financing risks, including the risk that our cash flows from operations may be insufficient to meet required payments of principal, interest and other commitments;

lack of or insufficient amounts of insurance;

litigation, including costs associated with prosecuting or defending claims and any adverse outcomes;

the consequences of future terrorist attacks or civil unrest;

environmental liabilities, including costs, fines or penalties that may be incurred due to necessary remediation of contamination of properties presently owned or previously owned by us;

our current and continuing qualification as a REIT, which involves the application of highly technical and complex provisions of the Internal Revenue Code of 1986, or the Internal Revenue Code, and depends on our ability to meet the various requirements imposed by the Internal Revenue Code through actual operating results, distribution levels and diversity of stock ownership; and

other risks and uncertainties detailed in the section entitled Risk Factors.

**Table of Contents**

While forward-looking statements reflect our current beliefs, they are not guaranties of future performance. We disclaim any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, new information, data or methods, future events or other changes. For a further discussion of these and other factors that could impact our future results, performance or transactions, see the section entitled Risk Factors in this prospectus and the documents referred to in that section.

**Table of Contents**

**HOW WE INTEND TO USE THE PROCEEDS**

We currently intend to use the net proceeds from the sale of any securities under this prospectus for general corporate purposes, which may include:

the repayment of debt;

the possible repurchase of our common stock;

the financing of potential investments, including acquisitions, development and redevelopment;

working capital; and

other purposes as mentioned in any prospectus supplement.

Pending such use, we may temporarily invest the net proceeds. The precise amounts and timing of the application of proceeds will depend upon our funding requirements and the availability of other funds. Except as mentioned in any prospectus supplement, specific allocations of the proceeds to such purposes will not have been made at the date of that prospectus supplement.

Based upon our historical and anticipated future growth and our financial needs, we may engage in additional financings of a character and amount that we determine as the need arises.

**Table of Contents**

**DESCRIPTION OF WARRANTS**

*Please note that in the sections entitled Description of Warrants, Description of Stock Purchase Contracts, Description of Units, Description of Common Stock, Description of Preferred Stock and Description of Depository Shares references to we, our and us refer only to DCT and not to its consolidated subsidiaries. This section outlines some of the provisions of each warrant agreement pursuant to which warrants may be issued, the warrants or rights, and any warrant certificates. This information may not be complete in all respects and is qualified entirely by reference to any warrant agreement with respect to the warrants of any particular series. The specific terms of any series of warrants will be described in the applicable prospectus supplement. If so described in the prospectus supplement, the terms of that series of warrants may differ from the general description of terms presented below.*

We may issue warrants. We may issue these securities in such amounts or in as many distinct series as we wish. This section summarizes the terms of these securities that apply generally. Most of the financial and other specific terms of any such series of securities will be described in the applicable prospectus supplement. Those terms may vary from the terms described here.

When we refer to a series of securities in this section, we mean all securities issued as part of the same series under any applicable indenture, agreement or other instrument. When we refer to the applicable prospectus supplement, we mean the prospectus supplement describing the specific terms of the security you purchase. The terms used in the applicable prospectus supplement generally will have the meanings described in this prospectus, unless otherwise specified in the applicable prospectus supplement.

**Warrants**

We may issue warrants, options or similar instruments for the purchase of our preferred stock, common stock, depository shares or units. We refer to these collectively as warrants. Warrants may be issued independently or together with preferred stock, common stock, depository shares or units, and may be attached to or separate from those securities.

**Agreements**

Each series of warrants may be evidenced by certificates and may be issued under a separate indenture, agreement or other instrument to be entered into between us and a bank that we select as agent with respect to such series. The warrant agent will act solely as our agent in connection with the warrant agreement or any warrant certificates and will not assume any obligation or relationship of agency or trust for or with any warrant holders. Copies of the forms of agreements and the forms of certificates representing the warrants will be filed with the SEC near the date of filing of the applicable prospectus supplement with the SEC. Because the following is a summary of certain provisions of the forms of agreements and certificates, it does not contain all information that may be important to you. You should read all the provisions of the agreements and the certificates once they are available.

**General Terms of Warrants**

The prospectus supplement relating to a series of warrants will identify the name and address of the warrant agent, if any. The prospectus supplement will describe the terms of the series of warrants in respect of which this prospectus is being delivered, including:

the offering price;

the designation and terms of any securities with which the warrants are issued and in that event the number of warrants issued with each security or each principal amount of security;

the dates on which the right to exercise the warrants will commence and expire, and the price at which the warrants are exercisable;

**Table of Contents**

the amount of warrants then outstanding;

material U.S. federal income tax consequences of holding or exercising these securities; and

any other terms of the warrants.

Warrant certificates may be exchanged for new certificates of different denominations and may be presented for transfer of registration and, if exercisable for other securities or other property, may be exercised at the warrant agent's corporate trust office or any other office indicated in the prospectus supplement. If the warrants are not separately transferable from any securities with which they were issued, an exchange may take place only if the certificates representing the related securities are also exchanged. Prior to exercise of any warrant exercisable for other securities or other property, warrant holders will not have any rights as holders of the underlying securities, including the right to receive any principal, premium, interest, dividends, or payments upon our liquidation, dissolution or winding up or to exercise any voting rights.

***Modification Without Consent***

We and the applicable warrant agent may amend any warrant or warrant agreement without the consent of any holder:

to cure any ambiguity;

to correct or supplement any defective or inconsistent provision; or

to make any other change that we believe is necessary or desirable and will not adversely affect the interests of the affected holders in any material respect.

We do not need any approval to make changes that affect only warrants to be issued after the changes take effect. We may also make changes that do not adversely affect a particular warrant in any material respect, even if they adversely affect other warrants in a material respect. In those cases, we do not need to obtain the approval of the holder of the unaffected warrant; we need only obtain any required approvals from the holders of the affected warrants.

***Modification With Consent***

We and any agent for any series of warrants may also amend any agreement and the related warrants by a supplemental agreement with the consent of the holders of a majority of the warrants of any series affected by such amendment. However, no such amendment that:

increases the exercise price of such warrant;

shortens the time period during which any such warrant may be exercised;

reduces the number of securities the consent of holders of which is required for amending the agreement or the related warrants; or

otherwise adversely affects the exercise rights of warrant holders in any material respect; may be made without the consent of each holder affected by that amendment.

**Table of Contents**

**DESCRIPTION OF STOCK PURCHASE CONTRACTS**

*This section outlines some of the provisions of the stock purchase contracts, the stock purchase contract agreement and the pledge agreement. This information is not complete in all respects and is qualified entirely by reference to the stock purchase contract agreement and pledge agreement with respect to the stock purchase contracts of any particular series. The specific terms of any series of stock purchase contracts will be described in the applicable prospectus supplement. If so described in a prospectus supplement, the specific terms of any series of stock purchase contracts may differ from the general description of terms presented below.*

Unless otherwise specified in the applicable prospectus supplement, we may issue stock purchase contracts, including contracts obligating holders to purchase from us and us to sell to the holders, a specified number of shares of common stock, preferred stock, depositary shares or other security or property at a future date or dates. Alternatively, the stock purchase contracts may obligate us to purchase from holders, and obligate holders to sell to us, a specified or varying number of shares of common stock, preferred stock, depositary shares or other security or property. The consideration per share of common stock or preferred stock or per depositary share or other security or property may be fixed at the time the stock purchase contracts are issued or may be determined by a specific reference to a formula set forth in the stock purchase contracts. The stock purchase contracts may provide for settlement by delivery by us or on our behalf of shares of the underlying security or property or, they may provide for settlement by reference or linkage to the value, performance or trading price of the underlying security or property. The stock purchase contracts may be issued separately or as part of stock purchase units consisting of a stock purchase contract and debt securities, preferred stock or debt obligations of third parties, including U.S. treasury securities, other stock purchase contracts or common stock, or other securities or property, securing the holders' obligations to purchase or sell, as the case may be, the common stock, preferred stock, depositary shares or other security or property under the stock purchase contracts. The stock purchase contracts may require us to make periodic payments to the holders of the stock purchase units or vice versa, and such payments may be unsecured or prefunded on some basis and may be paid on a current or on a deferred basis. The stock purchase contracts may require holders to secure their obligations thereunder in a specified manner and may provide for the prepayment of all or part of the consideration payable by holders in connection with the purchase of the underlying security or other property pursuant to the stock purchase contracts.

The securities related to the stock purchase contracts may be pledged to a collateral agent for our benefit pursuant to a pledge agreement to secure the obligations of holders of stock purchase contracts to purchase the underlying security or property under the related stock purchase contracts. The rights of holders of stock purchase contracts to the related pledged securities will be subject to our security interest therein created by the pledge agreement. No holder of stock purchase contracts will be permitted to withdraw the pledged securities related to such stock purchase contracts from the pledge arrangement except upon the termination or early settlement of the related stock purchase contracts or in the event other securities, cash or property is made subject to the pledge agreement in lieu of the pledged securities, if permitted by the pledge agreement, or as otherwise provided in the pledge agreement. Subject to such security interest and the terms of the stock purchase contract agreement and the pledge agreement, each holder of a stock purchase contract will retain full beneficial ownership of the related pledged securities.

Except as described in the applicable prospectus supplement, the collateral agent will, upon receipt of distributions on the pledged securities, distribute such payments to us or the stock purchase contract agent, as provided in the pledge agreement. The purchase agent will in turn distribute payments it receives as provided in the stock purchase contract agreement.

**Table of Contents**

**DESCRIPTION OF UNITS**

*This section outlines some of the provisions of the units and the unit agreements. This information may not be complete in all respects and is qualified entirely by reference to the unit agreement with respect to the units of any particular series. The specific terms of any series of units will be described in the applicable prospectus supplement. If so described in a particular supplement, the specific terms of any series of units may differ from the general description of terms presented below.*

We may issue units comprised of shares of common stock, shares of preferred stock, stock purchase contracts, warrants and other securities in any combination. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. The unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately, at any time or at any time before a specified date.

The applicable prospectus supplement may describe:

the designation and terms of the units and of the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;

any provisions of the governing unit agreement;

the price or prices at which such units will be issued;

the applicable U.S. federal income tax considerations relating to the units;

any provisions for the issuance, payment, settlement, transfer or exchange of the units or of the securities comprising the units; and

any other terms of the units and of the securities comprising the units.

The provisions described in this section, as well as those described under [Description of Warrants](#), [Description of Stock Purchase Contracts](#), [Description of Common Stock](#) and [Description of Preferred Stock](#) will apply to the securities included in each unit, to the extent relevant.

**Issuance in Series**

We may issue units in such amounts and in as many distinct series as we wish. This section summarizes terms of the units that apply generally to all series. Most of the financial and other specific terms of your series will be described in the applicable prospectus supplement.

**Unit Agreements**

We will issue the units under one or more unit agreements to be entered into between us and a bank or other financial institution, as unit agent. We may add, replace or terminate unit agents from time to time. We will identify the unit agreement under which each series of units will be issued and the unit agent under that agreement in the applicable prospectus supplement.

The following provisions will generally apply to all unit agreements unless otherwise stated in the applicable prospectus supplement.

***Modification Without Consent***

We and the applicable unit agent may amend any unit or unit agreement without the consent of any holder:

to cure any ambiguity; any provisions of the governing unit agreement that differ from those described below;

to correct or supplement any defective or inconsistent provision; or

## **Table of Contents**

to make any other change that we believe is necessary or desirable and will not adversely affect the interests of the affected holders in any material respect.

We do not need any approval to make changes that affect only units to be issued after the changes take effect. We may also make changes that do not adversely affect a particular unit in any material respect, even if they adversely affect other units in a material respect. In those cases, we do not need to obtain the approval of the holder of the unaffected unit; we need only obtain any required approvals from the holders of the affected units.

### ***Modification With Consent***

We may not amend any particular unit or a unit agreement with respect to any particular unit unless we obtain the consent of the holder of that unit, if the amendment would:

impair any right of the holder to exercise or enforce any right under a security included in the unit if the terms of that security require the consent of the holder to any changes that would impair the exercise or enforcement of that right; or

reduce the percentage of outstanding units or any series or class the consent of whose holders is required to amend that series or class, or the applicable unit agreement with respect to that series or class, as described below.

Any other change to a particular unit agreement and the units issued under that agreement would require the following approval:

If the change affects only the units of a particular series issued under that agreement, the change must be approved by the holders of a majority of the outstanding units of that series; or

If the change affects the units of more than one series issued under that agreement, it must be approved by the holders of a majority of all outstanding units of all series affected by the change, with the units of all the affected series voting together as one class for this purpose.

These provisions regarding changes with majority approval also apply to changes affecting any securities issued under a unit agreement, as the governing document.

In each case, the required approval must be given by written consent.

### ***Unit Agreements Will Not Be Qualified Under Trust Indenture Act***

No unit agreement will be qualified as an indenture, and no unit agent will be required to qualify as a trustee, under the Trust Indenture Act. Therefore, holders of units issued under unit agreements will not have the protections of the Trust Indenture Act with respect to their units.

### ***Mergers and Similar Transactions Permitted; No Restrictive Covenants or Events of Default***

The unit agreements will not restrict our ability to merge or consolidate with, or sell our assets to, another corporation or other entity or to engage in any other transactions. If at any time we merge or consolidate with, or sell our assets substantially as an entirety to, another corporation or other entity, the successor entity will succeed to and assume our obligations under the unit agreements. We will then be relieved of any further obligation under these agreements.

The unit agreements will not include any restrictions on our ability to put liens on our assets, including our interests in our subsidiaries, nor will they restrict our ability to sell our assets. The unit agreements also will not provide for any events of default or remedies upon the occurrence of any events of default.

### **Governing Law**

The unit agreements and the units will be governed by Maryland law.

## **Table of Contents**

### **Form, Exchange and Transfer**

We will issue each unit in global i.e., book-entry form only. Units in book-entry form will be represented by a global security registered in the name of a depository, which will be the holder of all the units represented by the global security. Those who own beneficial interests in a unit will do so through participants in the depository's system, and the rights of these indirect owners will be governed solely by the applicable procedures of the depository and its participants. We will describe book-entry securities, and other terms regarding the issuance and registration of the units in the applicable prospectus supplement.

Each unit and all securities comprising the unit will be issued in the same form.

If we issue any units in registered, non-global form, the following will apply to them.

The units will be issued in the denominations stated in the applicable prospectus supplement. Holders may exchange their units for units of smaller denominations or combined into fewer units of larger denominations, as long as the total amount is not changed.

Holdings may exchange or transfer their units at the office of the unit agent. Holdings may also replace lost, stolen, destroyed or mutilated units at that office. We may appoint another entity to perform these functions or perform them ourselves.

Holdings will not be required to pay a service charge to transfer or exchange their units, but they may be required to pay for any tax or other governmental charge associated with the transfer or exchange. The transfer or exchange, and any replacement, will be made only if our transfer agent is satisfied with the holder's proof of legal ownership. The transfer agent may also require an indemnity before replacing any units.

If we have the right to redeem, accelerate or settle any units before their maturity, and we exercise our right as to less than all those units or other securities, we may block the exchange or transfer of those units during the period beginning 15 days before the day we mail the notice of exercise and ending on the day of that mailing, in order to freeze the list of holders to prepare the mailing. We may also refuse to register transfers of or exchange any unit selected for early settlement, except that we will continue to permit transfers and exchanges of the unsettled portion of any unit being partially settled. We may also block the transfer or exchange of any unit in this manner if the unit includes securities that are or may be selected for early settlement.

Only the depository will be entitled to transfer or exchange a unit in global form, since it will be the sole holder of the unit.

### **Payments and Notices**

In making payments and giving notices with respect to our units, we will follow the procedures as described in the applicable prospectus supplement.

**Table of Contents**

**DESCRIPTION OF COMMON STOCK**

*The following description of our common stock is not complete but is a summary of portions of our charter and is qualified entirely by reference to our charter.*

Under our charter, we have authority to issue a total of 650,000,000 shares of capital stock. Of the total shares authorized, 500,000,000 shares are designated as common stock with a par value of \$0.01 per share, 50,000,000 shares are designated as preferred stock with a par value of \$0.01 per share, and 100,000,000 shares are designated as shares-in-trust with a par value of \$0.01 per share, which would be issued only in the event that there is a purported transfer of, or other change in or affecting the ownership of, our common stock that would result in a violation of the ownership limits described below. As of July 31, 2015, (i) 88,317,306 shares of our common stock were issued and outstanding and (ii) no shares of preferred stock or shares-in-trust were issued and outstanding. Under Maryland law, stockholders generally are not liable for the corporation's debts or obligations.

We may offer common stock issuable upon the conversion of debt securities or preferred stock, the exercise of warrants and pursuant to stock purchase contracts or in exchange for common units of limited partnership interest, or OP Units, in the Operating Partnership.

**Common Stock**

Except as may otherwise be specified in the terms of any class or series of common stock, the holders of common stock are entitled to one vote per share on all matters voted on by stockholders, including election of our directors, and, except as may be provided otherwise in our charter and subject to the express terms of any other series of stock, such holders shall have the exclusive voting power. Our charter does not provide for cumulative voting in the election of directors. Therefore, the holders of a majority of the outstanding common stock can elect our entire board of directors, which means that the holders of a majority of the outstanding shares of our common stock can elect all of the directors then standing for election and the holders of the remaining shares will not be able to elect any directors. Subject to any preferential rights of any outstanding series of preferred stock and to the distribution of specified amounts upon liquidation with respect to shares-in-trust, the holders of common stock are entitled to such distributions as may be authorized from time to time by our board of directors in its discretion and declared by us, out of legally available funds and, upon liquidation, are entitled to receive all assets available for distribution to stockholders. All shares issued will be validly issued, fully paid and non-assessable shares of common stock. Holders of shares of common stock will not have preemptive rights, which means that you will not have an automatic option to purchase any new shares that we issue.

**Preferred Stock**

Our charter authorizes our board of directors to designate and issue one or more classes or series of preferred stock without stockholder approval. Our board of directors may determine the relative rights, preferences and privileges of each class or series of preferred stock so issued, which may be more beneficial than the rights, preferences and privileges attributable to the common stock. The issuance of preferred stock could have the effect of delaying or preventing a change in control of our company. No shares of our preferred stock are presently outstanding.

**Power to Reclassify Shares of Our Stock**

Our charter authorizes our board of directors to classify and reclassify any unissued shares of stock into other classes or series of stock, including preferred stock. Prior to issuance of shares of each class or series, our board of directors is required by Maryland law and by our charter to set, subject to restrictions on the transfer and ownership of our stock

contained in our charter, the terms of such class or series, including the preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications and terms or conditions of redemption for each class or series. Thus, our board of directors could

---

**Table of Contents**

authorize the issuance of shares of common stock or preferred stock with terms and conditions which could have the effect of delaying, deferring or preventing a transaction or a change in control that might involve a premium price for holders of our common stock or otherwise be in their best interests.

**Power to Issue Additional Shares of Common Stock and Preferred Stock**

We believe that the power of our board of directors to amend our charter without stockholder approval to increase the total number of authorized shares of our stock or any class or series of our stock, to issue additional authorized but unissued shares of our common stock or preferred stock and to classify or reclassify unissued shares of our common stock or preferred stock and thereafter to cause us to issue such classified or reclassified shares of stock will provide us with increased flexibility in structuring possible future financings and acquisitions and in meeting other needs which might arise. The additional classes or series, as well as our common stock, will be available for issuance without further action by our stockholders unless stockholder action is required by applicable law or the rules of any stock exchange or automated quotation system on which our securities may be listed or traded. No shares of our preferred stock are presently outstanding. Although our board of directors has no intention at the present time of doing so, it could authorize us to issue a class or series in the future without stockholder approval that could, depending upon the terms of such class or series, delay, defer or prevent a transaction or a change in control of us that might involve a premium price for holders of our common stock or otherwise be in their best interests.

**Restriction on Ownership of Common Stock**

In order for us to qualify as a REIT, not more than 50% in value of our outstanding shares may be owned, directly or indirectly through the application of certain attribution rules under the Internal Revenue Code, by any five or fewer individuals, as defined in the Internal Revenue Code to include specified entities, during the last half of any taxable year. In addition, the outstanding shares must be owned by 100 or more persons that are independent of us and each other during at least 335 days of a 12-month taxable year or during a proportionate part of a shorter taxable year, excluding our first REIT taxable year ending December 31, 2003. In addition, we must meet requirements regarding the nature of our gross income in order to qualify as a REIT. One of these requirements is that at least 75% of our gross income for each calendar year must consist of rents from real property and income from other real property investments. The rents received by the Operating Partnership from any tenant will not qualify as rents from real property, which could result in our loss of REIT status, if we own, actually or constructively within the meaning of certain provisions of the Internal Revenue Code, 10% or more of the ownership interests in that tenant. Our charter contains limitations on ownership and transfer of shares which prohibit any person or entity from owning or acquiring, directly or indirectly, more than 9.8% of the outstanding shares of any class or series of our stock, prohibit the beneficial ownership of our outstanding shares by fewer than 100 persons and prohibit any transfer of or other event or transaction with respect to our common stock that would result in the beneficial ownership of our outstanding shares by fewer than 100 persons. In addition, our charter prohibits any transfer of or other event with respect to our common stock that would cause us to violate the closely held test (see Federal Income Tax Considerations Requirements for Qualification as a REIT Organizational Requirements ), that would cause us to own, actually or constructively, 9.9% or more of the ownership interests in a tenant of our real property or the real property of the Operating Partnership or any direct or indirect subsidiary of the Operating Partnership or that would otherwise cause us to fail to qualify as a REIT. Our charter provides that any transfer of shares that would violate our share ownership limitations is void *ab initio* and the intended transferee will acquire no rights in such shares unless, in the case of a transfer that would cause a violation of the 9.8% ownership limit, the transfer is approved by our board of directors, prospectively or retroactively, based upon receipt of information that such transfer would not violate the provisions of the Internal Revenue Code for qualification as a REIT.

The shares that, if transferred, would result in a violation of any applicable ownership limit notwithstanding the provisions described above which are attempted to be transferred will be exchanged for shares-in-trust and will be transferred automatically to a trust effective on the day before the purported transfer of such shares. We will designate a trustee of the share trust that will not be affiliated with us or the purported transferee or record or

## **Table of Contents**

beneficial holder. We will also name a charitable organization as beneficiary of the trust that will hold the shares-in-trust. Shares-in-trust will remain issued and outstanding shares. The trustee will receive all dividends and distributions on the shares-in-trust and will hold such distributions or distributions in trust for the benefit of the beneficiary. The trustee also will vote the shares-in-trust.

The trustee will transfer the shares-in-trust to a person whose ownership of our common stock will not violate the ownership limits. The transfer shall be made no earlier than 20 days after the later of our receipt of notice that shares have been transferred to the trust or the date we determine that a purported transfer of our common stock has occurred. During this 20-day period, we will have the option of redeeming such shares. Upon any such transfer or redemption, the purported transferee or holder shall receive a per share price equal to the lesser of (a) the price per share in the transaction that created such shares-in-trust (or, in the case of a gift or devise, the market price at the time of the gift or devise), and (b) the market price per share on the date of the redemption, in the case of a purchase by us, or the price received by the trustee net of any sales commissions and expenses, in the case of a sale by the trustee. The charitable beneficiary will receive any excess amounts. In the case of a liquidation, holders of shares-in-trust will receive a ratable amount of our remaining assets available for distribution to shares of the applicable class or series taking into account all shares-in-trust of such class or series. The trustee will distribute to the purported transferee or holder an amount equal to the lesser of the amounts received with respect to such shares-in-trust or the price per share in the transaction that created such shares-in-trust (or, in the case of a gift or devise, the market price at the time of the gift or devise) and shall distribute any remaining amounts to the charitable beneficiary.

Any person who (1) acquires or attempts to acquire shares in violation of the foregoing restrictions or who owns shares that were transferred to any such trust is required to give immediate written notice to us of such event or (2) purports to transfer or receive shares subject to such limitations is required to give us 15 days written notice prior to such purported transaction. In both cases, such persons shall provide to us such other information as we may request in order to determine the effect, if any, of such event on our status as a REIT. The foregoing restrictions will continue to apply until our board of directors determines it is no longer in our best interest to continue to qualify as a REIT.

The 9.8% ownership limit does not apply to a person or persons which the directors exempt from the ownership limit upon appropriate assurances that our qualification as a REIT is not jeopardized. Any person who owns 5% or more (or such lower percentage applicable under Treasury regulations) of the outstanding shares during any taxable year will be asked to deliver a statement or affidavit setting forth the number of shares beneficially owned.

## **Meetings, Special Voting Requirements and Access to Records**

An annual meeting of our stockholders will be held each year. Special meetings of stockholders may be called only upon the request of a majority of the directors or by the chairman, the chief executive officer or the president or, subject to the satisfaction of certain procedural and information requirements by the stockholders requesting the meeting, by our secretary upon the written request of stockholders entitled to cast not less than a majority of all the votes entitled to be cast at such meeting. The presence either in person or by proxy of a majority of all the votes entitled to be cast at such meeting on any matter shall constitute a quorum. Generally, a majority of the votes cast is necessary to take stockholder action at a meeting at which a quorum is present.

Provided that such matter has first been declared advisable by our board of directors and except as otherwise provided under the Maryland General Corporation Law (the "MGCL") and our charter, stockholders are entitled to vote at a duly held meeting at which a quorum is present on (1) amendment of our charter, (2) dissolution of our company, and (3) merger, consolidation or sale or other disposition of substantially all of our assets.

Stockholders have the ability to elect to remove a director from our board or to remove the entire board, but only for cause and then only by the affirmative vote of at least two-thirds of the votes entitled to be cast generally in the election of directors. Stockholders have rights under Rule 14a-7 under the Exchange Act which provides

**Table of Contents**

that, upon the request of investors and the payment of the expenses of the distribution, we are required to distribute specific materials to stockholders in the context of the solicitation of proxies for voting on matters presented to stockholders or, at our option, provide requesting stockholders with a copy of a list of our stockholders so that the requesting stockholders may make the distribution of proxies themselves. The list provided by us will include each stockholder's name, address and number of shares owned by each stockholder and will be sent within five business days of the receipt by us of the request.

**Transfer Agent and Registrar**

The transfer agent and registrar for our shares of common stock is Computershare Trust Company, N.A.

**Table of Contents**

**DESCRIPTION OF PREFERRED STOCK**

*The following description summarizes the material provisions of the preferred stock we may offer. This description is not complete and is subject to, and is qualified entirely by reference to our charter, bylaws and the applicable provisions of the MGCL. Any series of preferred stock we issue will be governed by our charter (as amended and in effect as of the date of such issuance).*

Our charter authorizes our board of directors to designate and issue one or more classes or series of preferred stock without stockholder approval. Our board of directors may determine the relative rights, preferences and privileges of each class or series of preferred stock so issued. No shares of our preferred stock are presently outstanding. The specific terms of any series of preferred stock offered hereunder will be described in the applicable prospectus supplement.

**Table of Contents**

**DESCRIPTION OF DEPOSITARY SHARES**

*This section outlines some of the provisions of the deposit agreement to govern any depositary shares, the depositary shares themselves and the depositary receipts. This information may not be complete in all respects and is qualified entirely by reference to the relevant deposit agreement and depositary receipts with respect to the depositary shares related to any particular series of preferred stock. The specific terms of any series of depositary shares will be described in the applicable prospectus supplement. If so described in the prospectus supplement, the terms of that series of depositary shares may differ from the general description of terms presented below.*

**Interest in a Fractional Share, or Multiple Shares, of Preferred Stock**

We may, at our option, elect to offer depositary shares, each of which would represent an interest in a fractional share, or multiple shares, of our preferred stock instead of whole shares of preferred stock. If so, we will allow a depositary to issue to the public depositary shares, each of which will represent an interest in a fractional share, or multiple shares, of preferred stock as described in the prospectus supplement.

**Deposit Agreement**

The shares of the preferred stock underlying any depositary shares will be deposited under a separate deposit agreement between us and a bank or trust company acting as depositary with respect to those shares of preferred stock. The prospectus supplement relating to a series of depositary shares will specify the name and address of the depositary. Under the deposit agreement, each owner of a depositary share will be entitled, in proportion of its interest in a fractional share, or multiple shares, of the preferred stock underlying that depositary share, to all the rights and preferences of that preferred stock, including dividend, voting, redemption, conversion, exchange and liquidation rights.

Depositary shares will be evidenced by one or more depositary receipts issued under the deposit agreement. We will distribute depositary receipts to those persons purchasing such depositary shares in accordance with the terms of the offering made by the related prospectus supplement.

**Dividends and Other Distributions**

The depositary will distribute all cash dividends or other cash distributions in respect of the preferred stock underlying the depositary shares to each record depositary shareholder based on the number of the depositary shares owned by that holder on the relevant record date. The depositary will distribute only that amount which can be distributed without attributing to any depositary shareholders a fraction of one cent, and any balance not so distributed will be added to and treated as part of the next sum received by the depositary for distribution to record depositary shareholders.

If there is a distribution other than in cash, the depositary will distribute property to the entitled record depositary shareholders, unless the depositary determines that it is not feasible to make that distribution. In that case the depositary may, with our approval, adopt the method it deems equitable and practicable for making that distribution, including any sale of property and the distribution of the net proceeds from this sale to the concerned holders.

Each deposit agreement will also contain provisions relating to the manner in which any subscription or similar rights we offer to holders of the relevant series of preferred stock will be made available to depositary shareholders.

The amount distributed in all of the foregoing cases will be reduced by any amounts required to be withheld by us or the depositary on account of taxes and governmental charges.

## **Table of Contents**

### **Withdrawal of Preferred Stock**

Upon surrender of depositary receipts at the office of the depositary and upon payment of the charges provided in the deposit agreement and subject to the terms thereof, a holder of depositary receipts is entitled to have the depositary deliver to such holder the applicable number of shares of preferred stock underlying the depositary shares evidenced by the surrendered depositary receipts. There may be no market, however, for the underlying preferred stock and once the underlying preferred stock is withdrawn from the depositary, it may not be redeposited.

### **Redemption and Liquidation**

The terms on which the depositary shares relating to the preferred stock of any series may be redeemed, and any amounts distributable upon our liquidation, dissolution or winding up, will be described in the applicable prospectus supplement.

### **Voting**

Upon receiving notice of any meeting at which preferred stockholders of any series are entitled to vote, the depositary will mail the information contained in that notice to the record depositary shareholders relating to those series of preferred stock. Each depositary shareholder on the record date will be entitled to instruct the depositary on how to vote the shares of preferred stock underlying that holder's depositary shares. The depositary will vote the shares of preferred stock underlying those depositary shares according to those instructions, and we will take reasonably necessary actions to enable the depositary to do so. If the depositary does not receive specific instructions from the depositary shareholders relating to that preferred stock, it will abstain from voting those shares of preferred stock, unless otherwise discussed in the prospectus supplement.

### **Amendment and Termination of Deposit Agreement**

We and the depositary may amend the depositary receipt form evidencing the depositary shares and the related deposit agreement. However, any amendment that significantly affects the rights of the depositary shareholders will not be effective unless holders of a majority of the outstanding depositary shares approve that amendment. No amendment, however, may impair the right of any depositary shareholder to receive any money or other property to which he may be entitled under the terms of the deposit agreement at the times and in the manner and amount provided for therein. We or the depositary may terminate a deposit agreement only if:

we redeemed or reacquired all outstanding depositary shares relating to the deposit agreement;

all outstanding depositary shares have been converted (if convertible) into shares of common stock or another series of preferred stock; or

there has been a final distribution in respect of the preferred stock of any series in connection with our liquidation, dissolution or winding up and such distribution has been made to the related depositary shareholders.

### **Charges of Depositary**

We will pay all transfer and other taxes and governmental charges arising solely from the existence of the depositary arrangements. We will also pay all charges of each depositary in connection with the initial deposit and any redemption of the preferred stock. Depositary shareholders will be required to pay any other transfer and other taxes and governmental charges and any other charges expressly provided in the deposit agreement to be for their accounts.

**Miscellaneous**

Each depositary will forward to the relevant depositary shareholders all our reports and communications that we are required to furnish to preferred stockholders of any series.

**Table of Contents**

The deposit agreement will contain provisions relating to adjustments in the fraction of a share of preferred stock represented by a depositary share in the event of a change in par value, split-up, combination or other reclassification of the preferred stock or upon any recapitalization, merger or sale of substantially all of our assets.

Neither the depositary nor our company will be liable if it is prevented or delayed by law or any circumstance beyond its control in performing its obligations under any deposit agreement, or subject to any liability under the deposit agreement to holders of depositary receipts other than for the relevant party's gross negligence or willful misconduct. The obligations of our company and each depositary under any deposit agreement will be limited to performance in good faith of their duties under that agreement, and they will not be obligated to prosecute or defend any legal proceeding in respect of any depositary shares or preferred stock unless they are provided with satisfactory indemnity. They may rely upon written advice of counsel or accountants, or information provided by persons presenting preferred stock for deposit, depositary shareholders or other persons believed to be competent and on documents believed to be genuine.

**Resignation and Removal of Depositary**

A depositary may resign at any time by issuing us a notice of resignation, and we may remove any depositary at any time by issuing it a notice of removal. Resignation or removal will take effect upon the appointment of a successor depositary and its acceptance of appointment. That successor depositary must be appointed within 60 days after delivery of the notice of resignation or removal.

---

**Table of Contents**

**DESCRIPTION OF DEBT SECURITIES**

**Debt Securities May Be Senior or Subordinated**

DCT Industrial Trust Inc. and DCT Industrial Operating Partnership LP may issue senior or subordinated debt securities at one or more times in one or more series. Each series of debt securities may have different terms. Neither the senior debt securities nor the subordinated debt securities will be secured by any property or assets of DCT Industrial Trust Inc., DCT Industrial Operating Partnership LP or any of their respective subsidiaries. Thus, by owning a debt security, you are an unsecured creditor of DCT Industrial Trust Inc. or DCT Industrial Operating Partnership LP, as the case may be.

Neither any limited or general partner of DCT Industrial Operating Partnership LP, including DCT Industrial Trust Inc., nor any principal, stockholder, member, officer, director, trustee or employee of any limited or general partner of DCT Industrial Trust Inc. or DCT Industrial Operating Partnership LP or of any successor of any limited or general partner of DCT Industrial Operating Partnership LP has any obligation for payment of debt securities or for any of DCT Industrial Trust Inc.'s or DCT Industrial Operating Partnership LP's obligations, covenants or agreements contained in the debt securities or the applicable indenture. By accepting the debt securities, you waive and release all liability of this kind. The waiver and release are part of the consideration for the issuance of debt securities. This waiver and release will not apply to the liability of DCT Industrial Operating Partnership LP solely in its capacity of guarantor of any series of debt securities of DCT Industrial Trust Inc. and solely to the extent of any such guarantee.

The senior debt securities of DCT Industrial Trust Inc. and the senior debt securities of DCT Industrial Operating Partnership LP will be issued under the applicable senior debt indenture, as described below, and will rank equally with all of DCT Industrial Trust Inc.'s or DCT Industrial Operating Partnership LP's, as the case may be, other senior unsecured and unsubordinated debt.

The subordinated debt securities of DCT Industrial Trust Inc. and the subordinated debt securities of DCT Industrial Operating Partnership LP's will be issued under the applicable subordinated debt indenture, as described below, and will be subordinate in right of payment to all of DCT Industrial Trust Inc.'s or DCT Industrial Operating Partnership LP's senior debt, as the case may be, as defined in the applicable subordinated debt indenture, as described under "Description of Debt Securities Subordination Provisions" beginning on page 35 and in the applicable prospectus supplement.

None of the indentures limit DCT Industrial Trust Inc.'s or DCT Industrial Operating Partnership LP's ability to incur additional senior debt, unless otherwise described in the prospectus supplement relating to any series of debt securities.

DCT Industrial Trust Inc.'s senior debt will be structurally subordinate to the indebtedness of DCT Industrial Operating Partnership LP (unless DCT Industrial Operating Partnership LP guarantees such indebtedness and then solely to the extent of any such guarantee), and will be structurally subordinate to the indebtedness of the subsidiaries of DCT Industrial Operating Partnership LP. DCT Industrial Operating Partnership LP's senior debt is, and any additional senior debt of DCT Industrial Operating Partnership LP will be, structurally subordinate to the indebtedness of DCT Industrial Operating Partnership LP's subsidiaries and will be structurally senior to any indebtedness of DCT Industrial Trust Inc., unless DCT Industrial Operating Partnership LP guarantees such indebtedness of DCT Industrial Trust Inc. See "DCT Industrial Trust Inc.'s and DCT Industrial Operating Partnership LP's Debt Securities are Structurally Subordinated to Indebtedness of DCT Industrial Operating Partnership LP and DCT Industrial Operating Partnership LP's Subsidiaries, Respectively" below.

When we refer to senior debt securities in this prospectus, we mean both the senior debt securities of DCT Industrial Trust Inc. and the senior debt securities of DCT Industrial Operating Partnership LP, unless the context

## **Table of Contents**

requires otherwise. When we refer to **subordinated debt securities** in this prospectus, we mean both the subordinated debt securities of DCT Industrial Trust Inc. and the subordinated debt securities of DCT Industrial Operating Partnership LP, unless the context requires otherwise. When we refer to **debt securities** in this prospectus, we mean both the senior debt securities and the subordinated debt securities, unless the context requires otherwise.

If we issue debt securities at a discount from their principal amount, then, for purposes of calculating the aggregate initial offering price of the offered securities issued under this prospectus, we will include only the initial offering price of the debt securities and not the principal amount of the debt securities.

We have summarized below the material provisions of the indentures and the debt securities, or indicated which material provisions will be described in the related prospectus supplement. The prospectus supplement relating to any particular securities offered will describe the specific terms of the securities, which may be in addition to or different from the general terms summarized in this prospectus. Because the summary in this prospectus and in any prospectus supplement does not contain all of the information that you may find useful, you should read the documents relating to the securities that are described in this prospectus or in any applicable prospectus supplement. Please read **Where You Can Find More Information** beginning on page 83 to find out how you can obtain a copy of those documents.

### **The Senior Debt Indenture and the Subordinated Debt Indenture of DCT Industrial Trust Inc.**

The senior debt securities of DCT Industrial Trust Inc. will be issued under an indenture, dated as of a date prior to such issuance, between DCT Industrial Trust Inc., as the issuer of the debt securities, and a trustee to be determined, as amended or supplemented from time to time. The subordinated debt securities of DCT Industrial Trust Inc. will be issued under a separate indenture, dated as of a date prior to such issuance, between DCT Industrial Trust Inc., as the issuer of the debt securities, and a trustee to be determined, as amended or supplemented from time to time. The indentures will be subject to and governed by the Trust Indenture Act of 1939. We included copies of the indentures as exhibits to our registration statement and they are incorporated into this prospectus by reference. Except as otherwise indicated, the terms of the indentures are identical.

DCT Industrial Operating Partnership LP may, under each indenture, guarantee (either fully and unconditionally or in a limited manner) the due and punctual payment of principal of, and premium, if any, and interest on, one or more series or debt securities of DCT Industrial Trust Inc. See **Description of Guarantees** below for more information. If such debt securities are so guaranteed, the existence and terms of such guarantee will be set forth in the applicable prospectus supplement.

### **The Senior Debt Indenture and the Subordinated Debt Indenture of DCT Industrial Operating Partnership LP**

The senior debt securities of DCT Industrial Operating Partnership LP will be issued under an indenture, dated as of a date prior to such issuance between DCT Industrial Operating Partnership LP, as the issuer of the debt securities, and a trustee to be determined, as amended or supplemented from time to time. The subordinated debt securities of DCT Industrial Operating Partnership will be issued under a separate indenture, dated as of a date prior to such issuance, between DCT Industrial Operating Partnership, as the issuer of the debt securities, and a trustee to be determined, as amended or supplemented from time to time. The indentures will be subject to and governed by the Trust Indenture Act of 1939. We included copies of the indentures as exhibits to our registration statement and they are incorporated into this prospectus by reference. Except as otherwise indicated, the terms of the indentures are identical.

DCT Industrial Trust Inc. may, under each indenture, guarantee (either fully and unconditionally or in a limited manner) the due and punctual payment of principal of, and premium, if any, and interest on, one or more

## **Table of Contents**

series or debt securities of DCT Industrial Operating Partnership LP See Description of Guarantees below for more information. If such debt securities are so guaranteed, the existence and terms of such guarantee will be set forth in the applicable prospectus supplement.

### **General**

The indentures:

do not limit the amount of debt securities that we may issue;

allow us to issue debt securities with terms different from those of the debt securities previously issued under the indenture;

allow us to issue debt securities in one or more series;

do not require us to issue all of the debt securities of a series at the same time;

allow us to reopen a series to issue additional debt securities without the consent of the holders of the debt securities of such series; and

provide that the debt securities will be unsecured.

Except as described under Description of Debt Securities Merger, Consolidation or Sale of Assets beginning on page 31 or as may be set forth in the applicable prospectus supplement, the debt securities will not contain any provisions that (1) would limit our ability to incur indebtedness or (2) would afford holders of debt securities protection in the event of (a) a highly leveraged or similar transaction involving DCT Industrial Trust Inc., DCT Industrial Operating Partnership LP or any of their respective affiliates or (b) a change of control or reorganization, restructuring, merger or similar transaction involving us that may adversely affect the holders of the debt securities. In the future, we may enter into transactions, such as the sale of all or substantially all of our assets or a merger or consolidation, that may have an adverse effect on our ability to service our indebtedness, including the debt securities, by, among other things, substantially reducing or eliminating our assets. Neither governing law, nor our governing instruments, define the term substantially all as it relates to the sale of assets. Consequently, to determine whether a sale of substantially all of our assets has occurred, a holder of debt securities must review the financial and other information that we have disclosed to the public.

Each indenture provides that we may, but need not, designate more than one trustee under an indenture. Any trustee under an indenture may resign or be removed and a successor trustee may be appointed to act with respect to the series of debt securities administered by the resigning or removed trustee. If two or more persons are acting as trustee with respect to different series of debt securities, each trustee shall be a trustee of a trust under the applicable indenture separate and apart from the trust administered by any other trustee. Except as otherwise indicated in this prospectus, any action described in this prospectus to be taken by each trustee may be taken by each trustee with respect to, and only with respect to, the one or more series of debt securities for which it is trustee under the applicable indenture.

As used in this prospectus, the term “debt securities” includes the debt securities being offered by this prospectus and all other debt securities issued by DCT Industrial Trust Inc. or DCT Industrial Operating Partnership under the indentures. When we refer to the indenture or the trustee with respect to any debt securities of DCT Industrial Trust Inc. or DCT Industrial Operating Partnership LP, we mean the indenture under which those debt securities are issued and the trustee under that indenture.

### **Information in the Prospectus Supplement**

When we refer to a series of debt securities, we mean a series issued under the applicable indenture. When we refer to a prospectus supplement, we mean the prospectus supplement describing the specific terms of the

**Table of Contents**

debt securities of a particular series being offered, including the terms of any guarantee, if applicable. The terms used in any prospectus supplement have the meanings described in this prospectus, unless otherwise specified.

We will describe most of the financial and other specific terms of a particular series of debt securities being offered, whether it be a series of the senior debt securities or subordinated debt securities, in a prospectus supplement accompanying this prospectus. Those terms may vary from the terms described here.

The applicable prospectus supplement will also contain the terms of a given offering, the initial offering price and our net proceeds. Where applicable, a prospectus supplement will also describe any material U.S. federal income tax considerations relating to the debt securities offered and indicate whether the securities offered are or will be listed on any securities exchange.

Disclosure of the specific terms of a particular series of debt securities in the applicable prospectus supplement may include some or all of the following:

whether the issuer of the debt securities is DCT Industrial Trust Inc. or DCT Industrial Operating Partnership LP;

the title of the debt securities;

whether they are senior debt securities or subordinated debt securities and, if they are subordinated debt securities, any changes in the subordination provisions described in this prospectus applicable to those subordinated debt securities;

the aggregate principal amount of the debt securities being offered, the aggregate principal amount of the debt securities outstanding as of the most recent practicable date and any limit on their aggregate principal amount, including the aggregate principal amount of debt securities authorized;

the stated maturity;

the price at which the debt securities will be issued, expressed as a percentage of the principal amount, and the original issue date;

the portion of the principal payable upon declaration of acceleration of the maturity, if other than the principal amount;

the date or dates, or the method for determining the date or dates, on which the principal of the debt securities will be payable;

Edgar Filing: DCT Industrial Trust Inc. - Form S-3ASR

the fixed or variable interest rate or rates of the debt securities, or the method by which the interest rate or rates is determined;

the date or dates, or the method for determining the date or dates, from which interest will accrue;

the dates on which interest will be payable;

the record dates for interest payment dates, or the method by which we will determine those dates;

the persons to whom interest will be payable;

the basis upon which interest will be calculated if other than that of a 360-day year of twelve 30-day months;

any make-whole amount, which is the amount in addition to principal and interest that is required to be paid to the holder of a debt security as a result of any optional redemption or accelerated payment of such debt security, or the method for determining the make-whole amount;

whether the debt securities may be converted into common stock or preferred stock of DCT Industrial Trust Inc. or other securities, the terms on which such conversion may occur, including whether such conversion is mandatory, at the option of the holder or at our option, the period during which such

**Table of Contents**

conversion may occur, the initial conversion price or rate, and the circumstances or manner in which the shares of common stock or preferred stock issuable upon conversion may be adjusted or calculated according to the market price of DCT Industrial Trust Inc. common stock or preferred stock or such other securities or other applicable parameters;

if the debt securities are issued by DCT Industrial Trust Inc., whether DCT Industrial Operating Partnership LP will guarantee the due and punctual payment of principal of, premium (or make-whole amount), if any, and interest on the debt securities and the extent of any such guarantee, and if so, whether such guarantee will be unsecured and unsubordinated or subordinated to other indebtedness of DCT Industrial Operating Partnership LP;

if the debt securities are issued by DCT Industrial Operating Partnership LP, whether DCT Industrial Trust Inc. will guarantee the due and punctual payment of principal of, premium (or make-whole amount), if any, and interest on the debt securities and the extent of any such guarantee, and if so, whether such guarantee will be unsecured and unsubordinated or subordinated to other indebtedness of DCT Industrial Trust Inc.;

the place or places where the principal of, and any premium (or make-whole amount) and interest on, the debt securities will be payable;

where the debt securities may be surrendered for registration of transfer or exchange;

where notices or demands to or upon us in respect of the debt securities and the applicable indenture may be served;

the times, prices and other terms and conditions upon which we may redeem the debt securities;

any obligation we have to redeem, repay or purchase the debt securities pursuant to any sinking fund or analogous provision or at the option of holders of the debt securities, and the times and prices at which we must redeem, repay or purchase the debt securities as a result of such an obligation;

any deletions from, modifications of, or additions to our events of default or covenants, and any change in the right of any trustee or any of the holders to declare the principal amount of any of such debt securities due and payable;

the denominations in which the debt securities will be issuable, if other than denominations of \$1,000 and any integral multiple of \$1,000;

the currency or currencies in which the debt securities are denominated and in which principal and/or interest is payable if other than United States dollars, which may be a foreign currency or units of two or more foreign currencies or a composite currency or currencies, and the terms and conditions relating thereto, and the manner of determining the equivalent of such foreign currency in United States dollars;

whether the principal of, and any premium (or make-whole amount) or interest on, the debt securities of the series are to be payable, at our election or at the election of a holder, in a currency or currencies other than that in which the debt securities are denominated or stated to be payable, and other related terms and conditions;

whether the amount of payments of principal of, and any premium (or make-whole amount) or interest on, the debt securities may be determined according to an index, formula or other method and how such amounts will be determined;

whether the debt securities will be in registered form, bearer form or both and (1) if in registered form, the person to whom any interest shall be payable, if other than the person in whose name the security is registered at the close of business on the regular record date for such interest, or (2) if in bearer form, the manner in which, or the person to whom, any interest on the security shall be payable if otherwise than upon presentation and surrender upon maturity;

the identity of the depository for securities in registered form, if such series are to be issuable as a global security;

**Table of Contents**

any restrictions applicable to the offer, sale or delivery of securities in bearer form and the terms upon which securities in bearer form of the series may be exchanged for securities in registered form of the series and vice versa if permitted by applicable laws and regulations;

whether any debt securities of the series are to be issuable initially in temporary global form and whether any debt securities of the series are to be issuable in permanent global form with or without coupons and, if so, whether beneficial owners of interests in any such permanent global security may or shall be required to exchange their interests for other debt securities of the series, and the manner in which interest shall be paid;

the date as of which any debt securities in bearer form or in temporary global form shall be dated if other than the original issuance date of the first security of the series to be issued;

the applicability, if any, of the defeasance and covenant defeasance provisions described in this prospectus or in the applicable indenture;

whether and under what circumstances we will pay any additional amounts on the debt securities in respect of any tax, assessment or governmental charge and, if so, whether we will have the option to redeem the debt securities in lieu of making such a payment;

the circumstances, if any, under which beneficial owners of interests in the global security may obtain definitive debt securities and the manner in which payments on a permanent global debt security will be made if any debt securities are issuable in temporary or permanent global form;

any provisions granting special rights to holders of securities upon the occurrence of such events as specified in the applicable prospectus supplement;

the name of the applicable trustee and the nature of any material relationship with us or with any of our affiliates, and the percentage of debt securities of the class necessary to require the trustee to take action; and

any other terms of such debt securities not inconsistent with the provisions of the applicable indenture.

***Original Issue Discount Securities***

We may issue debt securities at a discount below their principal amount and provide for less than the entire principal amount thereof to be payable upon declaration of acceleration of the maturity thereof. We refer to any such debt securities throughout this prospectus as original issue discount securities. A fixed rate debt security, a floating rate debt security or an indexed debt security may be an original issue discount debt security. The applicable prospectus supplement will describe the material U.S. federal income tax consequences and other relevant considerations applicable to original issue discount securities.

***Fixed Rate Debt Securities***

We may issue fixed rate debt securities. A debt security of this type will bear interest at a fixed rate described in the applicable prospectus supplement. This type includes zero coupon debt securities, which bear no interest and are instead issued at a price usually significantly lower than the principal amount. Unless otherwise disclosed in the applicable prospectus supplement, each fixed rate debt security, except any zero coupon debt security, will bear interest from its original issue date or from the most recent date to which interest on the debt security has been paid or made available for payment. Interest will accrue on the principal of a fixed rate debt security at the fixed yearly rate stated in the applicable prospectus supplement, until the principal is paid or made available for payment or the debt security is exchanged.

***Floating Rate Debt Securities***

We may issue floating rate debt securities. A debt security of this type will bear interest at rates that are determined by reference to an interest rate formula. In some cases, the rates may also be adjusted by adding or subtracting a spread or multiplying by a spread multiplier and may be subject to a minimum rate or a maximum

## **Table of Contents**

rate. If a debt security is a floating rate debt security, the formula and any adjustments that apply to the interest rate will be specified in the applicable prospectus supplement.

Unless otherwise disclosed in the applicable prospectus supplement, each floating rate debt security will bear interest from its original issue date or from the most recent date to which interest on the debt security has been paid or made available for payment. Interest will accrue on the principal of a floating rate debt security at the yearly rate determined according to the interest rate formula stated in the applicable prospectus supplement, until the principal is paid or made available for payment or the security is exchanged.

Calculations relating to floating rate debt securities will be made by the calculation agent, an institution that we appoint as our agent for this purpose. The prospectus supplement for a particular floating rate debt security will name the institution that we have appointed to act as the calculation agent for that debt security as of its original issue date. We may appoint a different institution to serve as calculation agent from time to time after the original issue date of the debt security without your consent and without notifying you of the change.

For each floating rate debt security, the calculation agent will determine, on the corresponding interest calculation or determination date, as described in the applicable prospectus supplement, the interest rate that takes effect on each interest reset date. In addition, the calculation agent will calculate the amount of interest that has accrued during each interest period i.e., the period from and including the original issue date, or the last date to which interest has been paid or made available for payment, to but excluding the payment date. For each interest period, the calculation agent will calculate the amount of accrued interest by multiplying the face or other specified amount of the floating rate debt security by an accrued interest factor for the interest period. This factor will equal the sum of the interest factors calculated for each day during the interest period. The interest factor for each day will be expressed as a decimal and will be calculated by dividing the interest rate, also expressed as a decimal, applicable to that day by 360 or by the actual number of days in the year, as specified in the applicable prospectus supplement.

Upon the request of the holder of any floating rate debt security, the calculation agent will provide for that debt security the interest rate then in effect and, if determined, the interest rate that will become effective on the next interest reset date. The calculation agent's determination of any interest rate, and its calculation of the amount of interest for any interest period, will be final and binding in the absence of manifest error.

All percentages resulting from any calculation relating to a debt security will be rounded upward or downward, as appropriate, to the next higher or lower one hundred-thousandth of a percentage point, e.g., 9.876541% (or .09876541) being rounded down to 9.87654% (or .0987654) and 9.876545% (or .09876545) being rounded up to 9.87655% (or .0987655). All amounts used in or resulting from any calculation relating to a floating rate debt security will be rounded upward or downward, as appropriate, to the nearest cent, in the case of U.S. dollars, or to the nearest corresponding hundredth of a unit, in the case of a currency other than U.S. dollars, with one-half cent or one-half of a corresponding hundredth of a unit or more being rounded upward.

In determining the base rate that applies to a floating rate debt security during a particular interest period, the calculation agent may obtain rate quotes from various banks or dealers active in the relevant market, as described in the applicable prospectus supplement. Those reference banks and dealers may include the calculation agent itself and its affiliates, as well as any underwriter, dealer or agent participating in the distribution of the relevant floating rate debt securities and its affiliates.

## ***Indexed Debt Securities***

We may issue indexed debt securities. Payments of principal of, and premium and interest on, indexed debt securities are determined with reference to the rate of exchange between the currency or currency unit in which the debt security is denominated and any other currency or currency unit specified by us, to the relationship

## **Table of Contents**

between two or more currencies or currency units or by other similar methods or formulas specified in the prospectus supplement. A debt security of this type provides that the principal amount payable at its maturity, and the amount of interest payable on an interest payment date, will be determined by reference to:

securities of one or more issuers;

one or more currencies;

one or more commodities;

any other financial, economic or other measure or instrument, including the occurrence or non-occurrence of any event or circumstance; or

one or more indices or baskets of the items described above.

If you are a holder of an indexed debt security, you may receive an amount at maturity that is greater than or less than the face amount of your debt security depending upon the value of the applicable index at maturity. The value of the applicable index will fluctuate over time.

We will provide you with more information in the applicable prospectus supplement regarding any deletions, modifications, or additions to the events of default or covenants that are described below, including any addition of a covenant or other provision providing event risk or similar protection.

## **Amounts That We May Issue**

None of the indentures limit the aggregate amount of debt securities that we may issue or the number of series or the aggregate amount of any particular series. In addition, the indentures and the debt securities do not limit DCT Industrial Trust Inc.'s or DCT Industrial Operating Partnership's ability to incur other indebtedness or to issue other securities, unless otherwise described in the prospectus supplement relating to any series of debt securities. Also, neither DCT Industrial Trust Inc. nor DCT Industrial Operating Partnership LP is subject to financial or similar restrictions by the terms of the debt securities, unless otherwise described in the prospectus supplement relating to any series of debt securities.

## **Payment**

Unless we give you different information in the applicable prospectus supplement, the principal of, and any premium (or make-whole amount) and interest on, any series of the debt securities will be payable at the corporate trust office of the applicable trustee. We will provide you with the address of the trustee in the applicable prospectus supplement. We may also pay interest by mailing a check to the address of the person entitled to it as it appears in the applicable register for the debt securities or by wire transfer of funds to that person at an account maintained within the United States.

All monies that we pay to a paying agent or a trustee for the payment of the principal of, and any premium (or make-whole amount) or interest on, any debt security will be repaid to us if unclaimed at the end of two years after the obligation underlying payment becomes due and payable. After funds have been returned to us, the holder of the debt security may look only to us for payment, without payment of interest for the period which we hold the funds.

**DCT Industrial Trust Inc. s and DCT Industrial Operating Partnership s Debt Securities are Structurally Subordinated to Indebtedness of DCT Industrial Operating Partnership LP and DCT Industrial Operating Partnership LP s Subsidiaries, Respectively**

DCT Industrial Trust Inc. s indebtedness is structurally subordinated to debt of DCT Industrial Operating Partnership LP, except to the extent of any guarantee of such indebtedness by DCT Industrial Operating Partnership LP. In addition, because DCT Industrial Trust Inc. s assets consist principally of interests in DCT

## **Table of Contents**

Industrial Operating Partnership LP and because our DCT Industrial Operating Partnership LP's assets consist principally of interests in the subsidiaries through which we own our properties and conduct our business, our right to participate as an equity holder in any distribution of assets of any of our subsidiaries upon the subsidiary's liquidation or otherwise, and thus the ability of our security holders to benefit from the distribution, is junior to creditors of the applicable subsidiary, except to the extent that any claims we may have as a creditor of such subsidiary are recognized. Furthermore, because some of our subsidiaries are partnerships in which we are a general partner, we may be liable for their obligations. We may also guarantee some obligations of our subsidiaries. Any liability we may have for our subsidiaries' obligations could reduce our assets that are available to satisfy our direct creditors, including investors in our debt securities.

## **Form of Debt Securities**

We will issue each debt security in global i.e., book-entry form only, unless we specify otherwise in the applicable prospectus supplement. Debt securities in book-entry form will be represented by a global security registered in the name of a depository, which will be the holder of all the debt securities represented by that global security. Those who own beneficial interests in a global debt security will do so through participants in the depository's securities clearance system, and the rights of these indirect owners will be governed solely by the applicable procedures of the depository and its participants.

In addition, we will issue each debt security in fully registered form, without coupons.

## **Denomination, Interest, Registration and Transfer**

Unless otherwise described in the applicable prospectus supplement, the debt securities of any series will be issuable in denominations of \$1,000 and integral multiples of \$1,000.

Subject to the limitations imposed upon debt securities that are issued in book-entry form and represented by a global security registered in the name of a depository, a holder of debt securities of any series may:

exchange them for any authorized denomination of other debt securities of the same series and of a like aggregate principal amount and kind upon surrender of such debt securities at the corporate trust office of the applicable trustee or at the office of any transfer agent that we designate for such purpose; and

surrender them for registration of transfer or exchange at the corporate trust office of the applicable trustee or at the office of any transfer agent that we designate for such purpose.

Every debt security surrendered for registration of transfer or exchange must be duly endorsed or accompanied by a written instrument of transfer, and the person requesting such action must provide evidence of title and identity satisfactory to the applicable trustee or transfer agent. Payment of a service charge will not be required for any registration of transfer or exchange of any debt securities, but we or the trustee may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection therewith. If in addition to the applicable trustee, the applicable prospectus supplement refers to any transfer agent initially designated by us for any series of debt securities, we may at any time rescind the designation of any such transfer agent or approve a change in the location through which any such transfer agent acts, except that we will be required to maintain a transfer agent in each place of payment for such series. We may at any time designate additional transfer agents for any series of debt securities.

Neither we nor any trustee shall be required to:

issue, register the transfer of or exchange debt securities of any series during a period beginning at the opening of business 15 days before the day that the notice of redemption of any debt securities selected for redemption is mailed and ending at the close of business on the day of such mailing;

register the transfer of or exchange any debt security, or portion thereof, so selected for redemption, in whole or in part, except the unredeemed portion of any debt security being redeemed in part; and

## **Table of Contents**

issue, register the transfer of or exchange any debt security that has been surrendered for repayment at the option of the holder, except the portion, if any, of such debt security not to be so repaid.

### **Merger, Consolidation or Sale of Assets**

The indentures provide that each of DCT Industrial Trust Inc. and DCT Industrial Operating Partnership LP may, without the consent of the holders of any outstanding debt securities, (1) consolidate with, (2) sell, lease or convey all or substantially all of its assets to, or (3) merge with or into, any other entity provided that:

either it is the continuing entity, or the successor entity, if other than DCT Industrial Trust Inc. or DCT Industrial Operating Partnership LP, as the case may be, is an entity organized and existing under the laws of the United States and assumes its obligations (A) to pay the principal of, and any premium (or make-whole amount) and interest on, all of its debt securities and (B) to duly perform and observe all of its covenants and conditions contained in the applicable indenture;

immediately after giving effect to the transaction and treating any indebtedness that becomes the obligation of DCT Industrial Trust Inc. or DCT Industrial Operating Partnership LP, as the case may be, or the obligation of any of our subsidiaries as having been incurred by us or by such subsidiary at the time of the transaction, no event of default under the applicable indenture, and no event which, after notice or the lapse of time, or both, would become such an event of default, occurs and continues; and

an officers' certificate and legal opinion covering such conditions are delivered to each trustee.

Any limitation applicable to the ability of DCT Industrial Operating Partnership LP, in its capacity as guarantor of debt securities of any series of DCT Industrial Trust Inc., to participate in any of the transactions described above will be set forth in the applicable prospectus supplement.

### **Covenants**

*Existence.* Except as described under "Description of Debt Securities" "Merger, Consolidation or Sale of Assets" above, the indentures require us to do or cause to be done all things necessary to preserve and keep in full force and effect our existence, rights and franchises. However, the indentures do not require us to preserve any right or franchise if the board of directors of DCT Industrial Trust Inc. determines that any right or franchise is no longer desirable in the conduct of our business.

*Provision of Financial Information.* The indentures require us to (1) within 15 days of each of the respective dates by which we are required to file annual reports, quarterly reports and other documents with the SEC, file copies of such reports and documents with the trustee and (2) within 30 days after the filing of such reports and documents with the Trustee, mail to all holders of debt securities, as their names and addresses appear in the applicable register for such debt securities summary of the annual reports, quarterly reports and other documents that we file with the SEC under Section 13 or Section 15(d) of the Exchange Act.

*Additional covenants.* The applicable prospectus supplement will set forth any additional covenants of DCT Industrial Trust Inc. or DCT Industrial Operating Partnership LP relating to any series of debt securities.

### **Events of Default, Notice and Waiver**

Unless the applicable prospectus supplement states otherwise, when we refer to events of default as defined in the indentures with respect to any series of debt securities, we mean:

default in the payment of any installment of interest on any debt security of such series continuing for 30 days;

default in the payment of principal of, or any premium (or make-whole amount) on, any debt security of such series at its maturity;

**Table of Contents**

default in making any sinking fund payment as required for any debt security of such series;

default in the performance or breach of any other covenant or warranty of DCT Industrial Trust Inc. or DCT Industrial Operating Partnership LP, as the case may be, contained in the indenture (other than a covenant or warranty that has been included in the indenture solely for the benefit of a series of debt securities other than that series), which default continues for 60 days after written notice to DCT Industrial Trust Inc. or DCT Industrial Operating Partnership LP, as the case may be, as provided in the applicable indenture;

certain events of bankruptcy, insolvency or reorganization of DCT Industrial Trust Inc. or DCT Industrial Operating Partnership LP; and

any other event of default provided with respect to a particular series of debt securities.

If an event of default occurs and is continuing with respect to debt securities of any series outstanding, then the applicable trustee or the holders of 25% or more in principal amount of the debt securities of that series will have the right to declare the principal amount of all the debt securities of that series to be due and payable. If the debt securities of that series are original issue discount securities or indexed securities, then the applicable trustee or the holders of 25% or more in principal amount of the debt securities of that series will have the right to declare the portion of the principal amount as may be specified in the terms thereof to be due and payable. However, at any time after such a declaration of acceleration has been made, but before a judgment or decree for payment of the money due has been obtained by the applicable trustee, the holders of at least a majority in principal amount of outstanding debt securities of such series or of all debt securities then outstanding under the applicable indenture may rescind and annul such declaration and its consequences if:

we have deposited with the applicable trustee all required payments of the principal, any premium (or make-whole amount), and interest, plus applicable fees, expenses, disbursements and advances of the applicable trustee; and

all events of default, other than the non-payment of accelerated principal, or a specified portion thereof, and any premium (or make-whole amount), have been cured or waived.

The indentures also provide that the holders of at least a majority in principal amount of the outstanding debt securities of any series or of all debt securities then outstanding under the applicable indenture may on behalf of all holders waive any past default with respect to such series and its consequences, except a default:

in the payment of the principal, any premium (or make-whole amount) or interest;

in respect of a covenant or provision contained in the applicable indenture that cannot be modified or amended without the consent of the holders of the outstanding debt security that is affected by the default; or

in respect of a covenant or provision for the benefit or protection of the trustee, without its express written consent.

The indentures require each trustee to give notice to the holders of debt securities within 90 days of a default unless such default has been cured or waived. However, the trustee may withhold notice if specified persons of such trustee consider such withholding to be in the interest of the holders of debt securities. The trustee may not withhold notice of a default in the payment of principal, any premium or interest on any debt security of such series or in the payment of any sinking fund installment in respect of any debt security of such series.

The indentures provide that holders of debt securities of any series may not institute any proceedings, judicial or otherwise, with respect to such indenture or for any remedy under the indenture, unless the trustee fails to act for a period of 60 days after the trustee has received a written request to institute proceedings in respect of an event of default from the holders of 25% or more in principal amount of the outstanding debt securities of such series, as well as an offer of indemnity reasonably satisfactory to the trustee. However, this

## **Table of Contents**

provision will not prevent any holder of debt securities from instituting suit for the enforcement of payment of the principal of, and any premium (or make-whole amount) and interest on, such debt securities at the respective due dates thereof.

The indentures provide that, subject to provisions in each indenture relating to its duties in the case of a default, a trustee has no obligation to exercise any of its rights or powers at the request or direction of any holders of any series of debt securities then outstanding under the indenture, unless the holders have offered to the trustee reasonable security or indemnity. The holders of at least a majority in principal amount of the outstanding debt securities of any series or of all debt securities then outstanding under an indenture shall have the right to direct the time, method and place of conducting any proceeding for any remedy available to the applicable trustee, or of exercising any trust or power conferred upon such trustee. However, a trustee may refuse to follow any direction which:

is in conflict with any law or the applicable indenture;

may involve the trustee in personal liability; or

may be unduly prejudicial to the holders of debt securities of the series not joining the proceeding.

Within 120 days after the close of each fiscal year, we will be required to deliver to each trustee a certificate, signed by one of our several specified officers stating whether or not that officer has knowledge of any default under the applicable indenture. If the officer has knowledge of any default, the notice must specify the nature and status of the default.

## **Modification of the Indentures**

The indentures provide that modifications and amendments may be made only with the consent of the affected holders of at least a majority in principal amount of all outstanding debt securities issued under that indenture. However, no such modification or amendment may, without the consent of the holders of the debt securities affected by the modification or amendment:

change the stated maturity of the principal of, or any premium (or make-whole amount) on, or any installment of principal of or interest on, any such debt security;

reduce the principal amount of, the rate or amount of interest on or any premium (or make-whole amount) payable on redemption of any such debt security;

reduce the amount of principal of an original issue discount security that would be due and payable upon declaration of acceleration of the maturity thereof or would be provable in bankruptcy, or adversely affect any right of repayment of the holder of any such debt security;

change the place of payment or the coin or currency for payment of principal of, or any premium (or make-whole amount) or interest on, any such debt security;

impair the right to institute suit for the enforcement of any payment on or with respect to any such debt security;

reduce the percentage in principal amount of any outstanding debt securities necessary to modify or amend the applicable indenture with respect to such debt securities, to waive compliance with particular provisions thereof or defaults and consequences thereunder or to reduce the quorum or voting requirements set forth in the applicable indenture; and

modify any of the foregoing provisions or any of the provisions relating to the waiver of particular past defaults or covenants, except to increase the required percentage to effect such action or to provide that some of the other provisions may not be modified or waived without the consent of the holder of such debt security.

**Table of Contents**

The holders of a majority in aggregate principal amount of the outstanding debt securities of each series may, on behalf of all holders of debt securities of that series, waive, insofar as that series is concerned, our compliance with material restrictive covenants of the applicable indenture.

DCT Industrial Trust Inc. or DCT Industrial Operating Partnership and the respective trustee may make modifications and amendments of an indenture without the consent of any holder of debt securities for any of the following purposes:

to evidence the succession of another person to us as obligor under such indenture;

to add to the covenants of DCT Industrial Trust Inc. or DCT Industrial Operating Partnership LP for the benefit of the holders of all or any series of debt securities or to surrender any right or power conferred upon us in such indenture;

to add events of default for the benefit of the holders of all or any series of debt securities;

to add or change any provisions of an indenture (1) to facilitate the issuance of, or to change or eliminate restrictions on the payment of principal of, or premium (or make-whole amount) or interest on, debt securities in bearer form, or (2) to permit or facilitate the issuance of debt securities in uncertificated form, provided that such action shall not adversely affect the interests of the holders of the debt securities of any series in any material respect;

to change or eliminate any provisions of an indenture, provided that any such change or elimination shall become effective only when there are no debt securities outstanding of any series created prior thereto which are entitled to the benefit of such provision;

to secure the debt securities;

to establish the form or terms of debt securities of any series;

to provide for the acceptance of appointment by a successor trustee or facilitate the administration of the trusts under an indenture by more than one trustee;

to cure any ambiguity, defect or inconsistency in an indenture, provided that such action shall not adversely affect the interests of holders of debt securities of any series issued under such indenture; and

to supplement any of the provisions of an indenture to the extent necessary to permit or facilitate defeasance and discharge of any series of such debt securities, provided that such action shall not adversely affect the interests of the holders of the outstanding debt securities of any series.

**Voting**

The indentures provide that in determining whether the holders of the requisite principal amount of outstanding debt securities of a series have given any request, demand, authorization, direction, notice, consent or waiver under the indentures or whether a quorum is present at a meeting of holders of debt securities:

the principal amount of an original issue discount security that shall be deemed to be outstanding shall be the amount of the principal thereof that would be due and payable as of the date of such determination upon declaration of acceleration of the maturity thereof;

the principal amount of any debt security denominated in a foreign currency that shall be deemed outstanding shall be the United States dollar equivalent, determined on the issue date for such debt security, of the principal amount or, in the case of an original issue discount security, the United States dollar equivalent on the issue date of such debt security of the amount determined as provided in the immediately preceding bullet point;

the principal amount of an indexed security that shall be deemed outstanding shall be the principal face amount of such indexed security at original issuance, unless otherwise provided for such indexed security under such indenture; and

## **Table of Contents**

debt securities owned by us or any other obligor upon the debt securities or by any affiliate of ours or of such other obligor shall be disregarded.

The indentures contain provisions for convening meetings of the holders of debt securities of a series. A meeting will be permitted to be called at any time by the applicable trustee, and also, upon request, by us or the holders of at least 25% in principal amount of the outstanding debt securities of such series, in any such case upon notice given as provided in such indenture. Except for any consent that must be given by the holder of each debt security affected by the modifications and amendments of an indenture described above, any resolution presented at a meeting or adjourned meeting duly reconvened at which a quorum is present may be adopted by the affirmative vote of the holders of a majority of the aggregate principal amount of the outstanding debt securities of that series represented at such meeting.

Notwithstanding the preceding paragraph, except as referred to above, any resolution relating to a request, demand, authorization, direction, notice, consent, waiver or other action that may be made, given or taken by the holders of a specified percentage, which is less than a majority, of the aggregate principal amount of the outstanding debt securities of a series may be adopted at a meeting or adjourned meeting duly reconvened at which a quorum is present by the affirmative vote of such specified percentage.

Any resolution passed or decision taken at any properly held meeting of holders of debt securities of any series will be binding on all holders of such series. The quorum at any meeting called to adopt a resolution, and at any reconvened meeting, will be persons holding or representing a majority in principal amount of the outstanding debt securities of a series. However, if any action is to be taken relating to a consent or waiver which may be given by the holders of at least a specified percentage in principal amount of the outstanding debt securities of a series, the persons holding such percentage will constitute a quorum.

Notwithstanding the foregoing provisions, the indentures provide that if any action is to be taken at a meeting with respect to any request, demand, authorization, direction, notice, consent, waiver or other action that such indenture expressly provides may be made, given or taken by the holders of a specified percentage in principal amount of all outstanding debt securities affected by such action, or of the holders of such series and one or more additional series:

there shall be no minimum quorum requirement for such meeting; and

the principal amount of the outstanding debt securities of such series that vote in favor of such request, demand, authorization, direction, notice, consent, waiver or other action shall be taken into account in determining whether such request, demand, authorization, direction, notice, consent, waiver or other action has been made, given or taken under such indenture.

## **Subordination Provisions**

Holders of subordinated debt securities should recognize that contractual provisions in the applicable subordinated debt indenture may prohibit the issuer of the subordinated debt securities, whether DCT Industrial Trust Inc. or DCT Industrial Operating Partnership LP, as the case may be, from making payments on those securities. Subordinated debt securities are subordinate and junior in right of payment, to the extent and in the manner stated in the applicable subordinated debt indenture or in the provisions of the applicable debt securities, to all of the issuer's senior debt, as defined in the applicable subordinated debt indenture, including all debt securities the issuer has issued and will issue under the applicable senior debt indenture.

Unless defined differently in the applicable prospectus supplement, the applicable subordinated debt indentures define senior debt as the principal of and premium, if any, and interest on all indebtedness of the issuer, other than the subordinated debt securities, whether outstanding on the date of the indenture or thereafter created, incurred or assumed, which is (a) for money borrowed, (b) evidenced by a note or similar instrument given in connection with the acquisition of any businesses, properties or assets of any kind or (c) obligations the

**Table of Contents**

issuer, as lessee under leases required to be capitalized on the balance sheet of the lessee under generally accepted accounting principles or leases of property or assets made as part of any sale and lease-back transaction to which the issuer is a party. For the purpose of this definition, interest includes interest accruing on or after the filing of any petition in bankruptcy or for reorganization relating to the issuer, to the extent that the claim for post-petition interest is allowed in the proceeding. Also for the purpose of this definition, indebtedness of the issuer includes indebtedness of others guaranteed by the issuer and amendments, renewals, extensions, modifications and refundings of any indebtedness or obligation of the kinds described in the first sentence of this paragraph. However, indebtedness of the issuer for the purpose of this definition does not include any indebtedness or obligation if the instrument creating or evidencing the indebtedness or obligation, or under which the indebtedness or obligation is outstanding, provides that the indebtedness or obligation is not superior in right of payment to the subordinated debt securities.

Unless the applicable prospectus supplement provides differently, the subordinated debt indentures provides that, unless all principal of and any premium or interest on the senior debt has been paid in full, no payment or other distribution may be made in respect of any subordinated debt securities in the following circumstances:

in the event of any insolvency or bankruptcy proceedings, or any receivership, liquidation, reorganization or other similar proceeding involving the issuer or its assets;

in the event of any liquidation, dissolution or other winding up of the issuer, whether voluntary or involuntary and whether or not involving insolvency or bankruptcy;

in the event of any assignment for the benefit of creditors or any other marshalling of assets and liabilities of the issuer;

if any subordinated debt securities of issuer have been declared due and payable before their stated maturity;

in the event and during the continuation of any default in the payment of principal, premium or interest on any senior debt beyond any applicable grace period or if any event of default with respect to any senior debt of the issuer has occurred and is continuing, permitting the holders of that senior debt of the issuer or a trustee to accelerate the maturity of that senior debt, unless the event of default has been cured or waived or ceased to exist and any related acceleration has been rescinded; or

if any judicial proceeding is pending with respect to a payment default or an event of default described in the immediately preceding clause.

If the trustee under the applicable subordinated debt indenture or any holders of the subordinated debt securities receive any payment or distribution that they know is prohibited under the subordination provisions, then the trustee or the holders will have to repay that money to the holders of the senior debt.

Even if the subordination provisions prevent DCT Industrial Trust Inc. or DCT Industrial Operating Partnership LP from making any payment when due on the subordinated debt securities of any series, DCT Industrial Trust Inc. will be in default on its obligations under that series if it does not make the payment when due. This means that the trustee

under the applicable subordinated debt indenture and the holders of that series can take action against us, but they will not receive any money until the claims of the holders of senior debt have been fully satisfied.

**Modification of Subordination Provisions**

Neither DCT Industrial Trust Inc. nor DCT Industrial Operating Partnership LP may amend the subordinated debt indenture governing any series of subordinated debt securities it has already issued to alter the subordination of any outstanding subordinated debt securities without the written consent of each holder of senior debt then outstanding who would be adversely affected by such amendment. In addition, neither DCT Industrial Trust Inc. nor DCT Industrial Operating Partnership LP may modify the subordination provisions of

## **Table of Contents**

the subordinated debt indenture governing any series of subordinated debt securities it has already issued in a manner that would adversely affect the outstanding subordinated debt securities of any one or more series in any material respect, without the consent of the holders of a majority in aggregate principal amount of all affected series, voting together as one class.

## **Discharge, Defeasance and Covenant Defeasance**

Unless otherwise indicated in the applicable prospectus supplement, the indentures allow us to discharge our obligations to holders of any series of debt securities issued under any indenture when:

either (1) all securities of such series have already been delivered to the applicable trustee for cancellation; or (2) all securities of such series have not already been delivered to the applicable trustee for cancellation but (A) have become due and payable, (B) will become due and payable within one year, or (C) if redeemable at our option, are to be redeemed within one year, and we have irrevocably deposited with the applicable trustee, in trust, funds in such currency or currencies, currency unit or units or composite currency or currencies in which such debt securities are payable, an amount sufficient to pay the entire indebtedness on such debt securities in respect of principal (and any premium or make-whole amount) and interest to the date of such deposit if such debt securities have become due and payable or, if they have not, to the stated maturity or redemption date;

we have paid or caused to be paid all other sums payable; and

we have delivered to the trustee an officers' certificate and an opinion of counsel stating the conditions to discharging the debt securities have been satisfied.

Unless otherwise indicated in the applicable prospectus supplement, the indentures provide that, upon our irrevocable deposit with the applicable trustee, in trust, of an amount, in such currency or currencies, currency unit or units or composite currency or currencies in which such debt securities are payable at stated maturity, or government obligations, or both, applicable to such debt securities, which through the scheduled payment of principal and interest in accordance with their terms will provide money in an amount sufficient to pay the principal of, and any premium (or make-whole amount) and interest on, such debt securities, and any mandatory sinking fund or analogous payments thereon, on the scheduled due dates therefor, we may elect either:

to defease and be discharged from any and all obligations with respect to such debt securities; or

to be released from our obligations with respect to such debt securities under the applicable indenture or, if provided in the applicable prospectus supplement, our obligations with respect to any other covenant, and any omission to comply with such obligations shall not constitute an event of default with respect to such debt securities.

Notwithstanding the above, we may not elect to defease and be discharged from the obligation to pay any additional amounts upon the occurrence of particular events of tax, assessment or governmental charge with respect to payments on such debt securities and the obligations to register the transfer or exchange of such debt securities, to replace

temporary or mutilated, destroyed, lost or stolen debt securities, to maintain an office or agency in respect of such debt securities, or to hold monies for payment in trust.

The indentures only permit us to establish the trust described in the paragraph above if, among other things, we have delivered to the applicable trustee an opinion of counsel to the effect that the holders of such debt securities will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such defeasance or covenant defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such defeasance or covenant defeasance had not occurred. Such opinion of counsel, in the case of defeasance, will be required to refer to and be based upon a ruling received from or published by the Internal Revenue Service or a change in applicable federal income tax law occurring after the date of the indenture. In the event of such defeasance, the holders of such debt securities would be able to look only to such trust fund for payment of principal, any premium (or make-whole amount), and interest.

**Table of Contents**

When we use the term government obligations, we mean securities that are:

direct obligations of the United States or the government that issued the foreign currency in which the debt securities of a particular series are payable, for the payment of which its full faith and credit is pledged; or

obligations of a person controlled or supervised by and acting as an agency or instrumentality of the United States or other government that issued the foreign currency in which the debt securities of such series are payable, the payment of which is unconditionally guaranteed as a full faith and credit obligation by the United States or such other government, which are not callable or redeemable at the option of the issuer thereof and shall also include a depository receipt issued by a bank or trust company as custodian with respect to any such government obligation or a specific payment of interest on or principal of any such government obligation held by such custodian for the account of the holder of a depository receipt. However, except as required by law, such custodian is not authorized to make any deduction from the amount payable to the holder of such depository receipt from any amount received by the custodian in respect of the government obligation or the specific payment of interest on or principal of the government obligation evidenced by such depository receipt.

Unless otherwise provided in the applicable prospectus supplement, if after we have deposited funds and/or government obligations to effect defeasance or covenant defeasance with respect to debt securities of any series, (1) the holder of a debt security of such series is entitled to, and does, elect under the terms of the applicable indenture or the terms of such debt security to receive payment in a currency, currency unit or composite currency other than that in which such deposit has been made in respect of such debt security, or (2) a conversion event occurs in respect of the currency, currency unit or composite currency in which such deposit has been made, the indebtedness represented by such debt security will be deemed to have been, and will be, fully discharged and satisfied through the payment of the principal of, and premium (or make-whole amount) and interest on, such debt security as they become due out of the proceeds yielded by converting the amount so deposited in respect of such debt security into the currency, currency unit or composite currency in which such debt security becomes payable as a result of such election or such cessation of usage based on the applicable market exchange rate.

When we use the term conversion event, we mean the cessation of use of:

a currency, currency unit or composite currency both by the government of the country or confederation that issued such currency and for the settlement of transactions by a central bank or other public institutions of or within the international banking community; or

any currency unit or composite currency for the purposes for which it was established.

Unless otherwise provided in the applicable prospectus supplement, all payments of principal of, and premium (or make-whole amount), if any, and interest on, any debt security that is payable in a foreign currency that ceases to be used by its government of issuance shall be made in United States dollars.

In the event that (1) we effect covenant defeasance with respect to any debt securities and (2) such debt securities are declared due and payable because of the occurrence of any event of default, the amount in such currency, currency unit or composite currency in which such debt securities are payable, and government obligations on deposit with the

applicable trustee, will be sufficient to pay amounts due on such debt securities at the time of their stated maturity but may not be sufficient to pay amounts due on such debt securities at the time of the acceleration resulting from such event of default. However, we would remain liable to make payments of such amounts due at the time of acceleration.

The applicable prospectus supplement may further describe the provisions, if any, permitting such defeasance or covenant defeasance, including any modifications to the provisions described above, with respect to the debt securities of or within a particular series.

**Table of Contents**

***Conversion Rights***

The terms and conditions, if any, on which debt securities of DCT Industrial Trust Inc. are convertible into shares of common stock or preferred stock of DCT Industrial Trust Inc. or other securities will be set forth in the applicable prospectus supplement. Such terms will include the terms on which such conversion may occur, including whether such conversion is mandatory, at the option of the holder or at our option, the period or periods during which such conversion may occur, the initial conversion price or rate, the circumstances under or manner in which the number of shares of common stock or preferred stock of DCT Industrial Trust Inc. or other securities issuable upon conversion may be adjusted or calculated according to the market price of such common stock or preferred stock of DCT Industrial Trust Inc. or other securities or based on other parameters, and provisions affecting conversion in the event that the debt securities are redeemed.

***No Recourse***

No recourse under or upon any obligation, covenant or agreement contained in any indenture or the debt securities, or because of any indebtedness evidenced thereby, shall be had against any past, present or future shareholder, employee, officer or director, as such, of the Operating Partnership or DCT Industrial Trust Inc. or any successor under any rule of law, statute or constitutional provision or by the enforcement of any assessment or by any legal or equitable proceeding or otherwise. Each holder of debt securities waives and releases all such liability by accepting the debt securities. The waiver and release are part of the consideration for the issue of the debt securities.

***Trustee***

We may appoint a trustee or co-trustee as may be indicated in the applicable prospectus supplement. If an actual or potential event of default occurs with respect to any of the debt securities, the trustee may be considered to have a conflicting interest for purposes of the Trust Indenture Act of 1939. In that case, the trustee may be required to resign under one or more of the indentures, and the issuer of the debt securities would be required to appoint a successor trustee. For this purpose, a potential event of default means an event that would be an event of default if the requirements for giving the issuer of the debt securities default notice or for the default having to exist for a specific period of time were disregarded.

**Table of Contents**

**DESCRIPTION OF GUARANTEES**

DCT Industrial Trust Inc. may guarantee (either fully or unconditionally or in a limited manner) the due and punctual payment of the principal of, and any premium and interest on, one or more series of debt securities of DCT Industrial Operating Partnership, whether at maturity, by acceleration, redemption, repayment or otherwise, in accordance with the terms of such guarantee and the applicable indenture. In case of the failure of DCT Industrial Operating Partnership punctually to pay any principal, premium or interest on any such guaranteed debt security, DCT Industrial Trust Inc. will cause any such payment to be made as it becomes due and payable, whether at maturity, upon acceleration, redemption, repayment or otherwise, and as if such payment were made by DCT Industrial Operating Partnership LP. The particular terms of the guarantee, if any, will be set forth in a prospectus supplement relating to the guaranteed debt securities. Any guarantee by DCT Industrial Trust Inc. will be of payment only and not of collection.

DCT Industrial Operating Partnership LP may guarantee (either fully or unconditionally or in a limited manner) the due and punctual payment of the principal of, and any premium and interest on, one or more series of debt securities of DCT Industrial Trust Inc., whether at maturity, by acceleration, redemption, repayment or otherwise, in accordance with the terms of such guarantee and the applicable indenture. In case of the failure of DCT Industrial Trust Inc. punctually to pay any principal, premium or interest on any such guaranteed debt security, DCT Industrial Operating Partnership LP will cause any such payment to be made as it becomes due and payable, whether at maturity, upon acceleration, redemption, repayment or otherwise, and as if such payment were made by DCT Industrial Trust Inc. The particular terms of the guarantee, if any, will be set forth in a prospectus supplement relating to the guaranteed debt securities. Any guarantee by DCT Industrial Operating Partnership LP will be of payment only and not of collection.

---

**Table of Contents**

**CERTAIN PROVISIONS OF THE MARYLAND GENERAL CORPORATION LAW**

**AND OUR CHARTER AND BYLAWS**

*The following description of the terms of our stock and of certain provisions of Maryland law is only a summary. The terms we, us and our as such terms are used in the following summary refer to DCT Industrial Trust Inc. unless the context requires otherwise. Copies of our charter, bylaws and the partnership agreement of the Operating Partnership are filed as exhibits to the registration statement of which this prospectus is a part and the following description is qualified entirely by reference to our charter, bylaws, the applicable provisions of Maryland law and the partnership agreement of the Operating Partnership.*

The MGCL and our charter and bylaws contain provisions that could make it more difficult for a potential acquiror to acquire us by means of a tender offer, proxy contest or otherwise. These provisions are expected to discourage certain coercive takeover practices and inadequate takeover bids and to encourage persons seeking to acquire control of us to negotiate first with our board of directors. We believe that the benefits of these provisions outweigh the potential disadvantages of discouraging any such acquisition proposals because, among other things, the negotiation of such proposals may improve their terms.

**Number of Directors; Vacancies; Removal**

Our charter provides that the number of directors will be set only by our board of directors in accordance with our bylaws. Our bylaws provide that a majority of our entire board of directors may at any time increase or decrease the number of directors. However, the number of directors may never be less than the minimum number required by the MGCL. Any vacancies on our board of directors for any cause other than an increase in the number of directors will be filled by the affirmative vote of a majority of the remaining directors in office, even if the remaining directors do not constitute a quorum, and any vacancies on our board of directors created by an increase in the number of directors will be filled by a majority vote of the entire board of directors. Any director elected to fill a vacancy will serve until the next annual meeting of stockholders and until a successor is duly elected and qualifies.

Our charter provides that a director may be removed only for cause, which means conviction of a felony or a final judgment of a court of competent jurisdiction holding that such director caused demonstrable, material harm to us through bad faith or active and deliberate dishonesty, and then only by the affirmative vote of at least two-thirds of the votes entitled to be cast generally in the election of directors.

**Action by Stockholders**

Under the MGCL, stockholder action can be taken only at an annual or special meeting of stockholders or by unanimous consent in lieu of a meeting (unless the charter provides for a lesser percentage, which our charter does not). These provisions, combined with the requirements of our bylaws regarding the calling of a stockholder-requested special meeting of stockholders discussed below, may have the effect of delaying consideration of a stockholder proposal until the next annual meeting.

**Advance Notice Provisions for Stockholder Nominations and Stockholder Proposals**

Our bylaws provide that with respect to an annual meeting of stockholders, nominations of individuals for election to our board of directors and the proposal of business to be considered by stockholders may be made only (i) pursuant to our notice of the meeting, (ii) by or at the direction of our board of directors or (iii) by a stockholder who was a stockholder of record both at the time of giving of notice by such stockholder as provided for in our bylaws and at the

time of the annual meeting and who is entitled to vote at the meeting and who has complied with the advance notice procedures of our bylaws. With respect to special meetings of stockholders, only the business specified in our notice of the meeting may be conducted at the meeting. Nominations of individuals for election to our board of directors at a special meeting at which directors are to be elected may be

## **Table of Contents**

made only (i) pursuant to our notice of the meeting, (ii) by or at the direction of our board of directors or (iii) provided that our board of directors has determined that directors will be elected at the meeting, by a stockholder who was a stockholder of record both at the time of giving of notice by such stockholder as provided for in our bylaws and at the time of the special meeting and who is entitled to vote at the meeting and who has complied with the advance notice provisions of our bylaws.

The purpose of requiring stockholders to give us advance notice of nominations and other business is to afford our board of directors a meaningful opportunity to consider the qualifications of the proposed nominees and the advisability of any other proposed business and, to the extent deemed necessary or desirable by our board of directors, to inform stockholders and make recommendations about such qualifications or business, as well as to provide a more orderly procedure for conducting meetings of stockholders. Although our bylaws do not give our board of directors any power to disapprove stockholder nominations for the election of directors or proposals recommending certain action, they may have the effect of precluding a contest for the election of directors or the consideration of stockholder proposals if proper procedures are not followed and of discouraging or deterring a third party from conducting a solicitation of proxies to elect its own slate of directors or to approve its own proposal without regard to whether consideration of such nominees or proposals might be harmful or beneficial to us and our stockholders.

## **Calling of Special Meetings of Stockholders**

Our bylaws provide that special meetings of stockholders may be called by our board of directors and certain of our officers. Additionally, our bylaws provide that, subject to the satisfaction of certain procedural and informational requirements by the stockholders requesting the meeting, a special meeting of stockholders shall be called by the secretary of the corporation upon the written request of stockholders entitled to cast not less than a majority of all the votes entitled to be cast at such meeting.

## **Approval of Extraordinary Corporate Action; Amendment of Charter and Bylaws**

Under Maryland law, a Maryland corporation generally cannot dissolve, amend its charter, merge, sell all or substantially all of its assets, engage in a share exchange or engage in similar transactions outside the ordinary course of business, unless approved by the affirmative vote of stockholders entitled to cast at least two-thirds of the votes entitled to be cast on the matter. However, a Maryland corporation may provide in its charter for approval of these matters by a lesser percentage, but not less than a majority of all of the votes entitled to be cast on the matter. Our charter, with certain exceptions, generally provides for approval of charter amendments and extraordinary transactions (which have been first declared advisable by our board of directors) by the stockholders entitled to cast at least a majority of the votes entitled to be cast on the matter.

Our bylaws provide that our board of directors will have the exclusive power to adopt, alter or repeal any provision of our bylaws and to make new bylaws.

## **No Appraisal Rights**

As permitted by the MGCL, our charter provides that stockholders will not be entitled to exercise appraisal rights unless a majority of our board of directors determines with respect to all or any classes or series of stock classified or reclassified in the future that such rights will apply.

## **Control Share Acquisitions**

The Maryland Control Share Acquisition Act provides that control shares of a Maryland corporation acquired in a control share acquisition have no voting rights except to the extent approved by a vote of two-thirds of the votes entitled to be cast on the matter. Shares owned by the acquiror, by officers or by employees who are directors of the corporation are excluded from shares entitled to vote on the matter. Control shares are voting

**Table of Contents**

shares which, if aggregated with all other shares owned by the acquiror or with respect to which the acquiror has the right to vote or to direct the voting of, other than solely by virtue of revocable proxy, would entitle the acquiror to exercise voting power in electing directors within one of the following ranges of voting powers:

one-tenth or more but less than one-third;

one-third or more but less than a majority; or

a majority or more of all voting power.

Control shares do not include shares the acquiring person is then entitled to vote as a result of having previously obtained stockholder approval. Except as otherwise specified in the statute, a control share acquisition means the acquisition of control shares. Once a person who has made or proposes to make a control share acquisition has undertaken to pay expenses and has satisfied other required conditions, the person may compel our board of directors to call a special meeting of stockholders to be held within 50 days of demand to consider the voting rights of the shares. If no request for a meeting is made, the corporation may itself present the question at any stockholders meeting.

If voting rights are not approved for the control shares at the meeting or if the acquiring person does not deliver an acquiring person statement for the control shares as required by the statute, the corporation may repurchase any or all of the control shares for their fair value, except for control shares for which voting rights have previously been approved. Fair value is to be determined for this purpose without regard to the absence of voting rights for the control shares, and is to be determined as of the date of the last control share acquisition or of any meeting of stockholders at which the voting rights for control shares are considered and not approved.

If voting rights for control shares are approved at a stockholders meeting and the acquiror becomes entitled to vote a majority of the shares entitled to vote, all other stockholders may exercise appraisal rights. The fair value of the shares as determined for purposes of these appraisal rights may not be less than the highest price per share paid in the control share acquisition. Some of the limitations and restrictions otherwise applicable to the exercise of dissenters rights do not apply in the context of a control share acquisition.

The control share acquisition statute does not apply to (a) shares acquired in a merger, consolidation or share exchange if the corporation is a party to the transaction or (b) to acquisitions approved or exempted by the charter or bylaws of the corporation.

Our bylaws contain a provision exempting from the Control Share Acquisition Act any acquisition by any person of our shares of stock. There can be no assurance that such provision will not be amended or eliminated at any time in the future. However, such provision may not be altered, amended or repealed by the board of directors unless it obtains the affirmative vote of a majority of the votes cast on the matter by the holders of the issued and outstanding shares of our common stock.

**Subtitle 8**

Subtitle 8 of Title 3 of the MGCL permits a Maryland corporation with a class of equity securities registered under the Exchange Act and at least three independent directors to elect to be subject, by provision in its charter or bylaws or a

resolution of its board of directors and notwithstanding any contrary provision in the charter or bylaws, to any or all of five provisions:

a classified board;

a two-thirds stockholder vote requirement for removing a director;

a requirement that the number of directors be fixed only by vote of the directors;

a requirement that a vacancy on the board be filled only by the remaining directors and for the remainder of the full term of the class of directors in which the vacancy occurred; and

a majority requirement for the calling of a special meeting of stockholders.

## **Table of Contents**

Through provisions in our charter and our bylaws unrelated to Subtitle 8, we already (a) require a two-thirds stockholder vote for the removal of any director from the board, as well as require that such removal be for cause (as defined in our charter), (b) unless called by our chairman of the board, our chief executive officer, our president or the board, require the request of holders of a majority of all votes entitled to be cast at a special meeting to call such a meeting and (c) vest in the board the exclusive power to fix the number of directorships. Our board of directors has also adopted a resolution that prohibits us from classifying our board without first obtaining stockholder approval.

## **Business Combinations**

Under the MGCL, business combinations between a Maryland corporation and an interested stockholder or the interested stockholder's affiliate are prohibited for five years after the most recent date on which the stockholder becomes an interested stockholder. For this purpose, the term business combinations includes mergers, consolidations, share exchanges, or, in circumstances specified in the MGCL, asset transfers and issuances or reclassifications of equity securities. An interested stockholder is defined for this purpose as: (1) any person who beneficially owns 10% or more of the voting power of the corporation's shares; or (2) an affiliate or associate of the corporation who, at any time within the two-year period prior to the date in question, was the beneficial owner of 10% or more of the voting power of the then outstanding voting shares of the corporation.

A person is not an interested stockholder under the MGCL if our board of directors approved in advance the transaction by which he or she otherwise would have become an interested stockholder. However, in approving a transaction, our board of directors may provide that its approval is subject to compliance, at or after the time of approval, with any terms and conditions determined by the board.

After the five-year prohibition, any business combination between the corporation and an interested stockholder generally must be recommended by the board of directors of the corporation and approved by the affirmative vote of at least: (1) 80% of the votes entitled to be cast by holders of outstanding voting shares of the corporation; and (2) two-thirds of the votes entitled to be cast by holders of voting shares of the corporation other than shares held by the interested stockholder or its affiliate with whom the business combination is to be effected, or held by an affiliate or associate of the interested stockholder voting together as a single voting group.

These super-majority vote requirements do not apply if the corporation's common stockholders receive a minimum price, as defined under the MGCL, for their shares in the form of cash or other consideration in the same form as previously paid by the interested stockholder for its shares.

The statute permits various exemptions from its provisions, including business combinations that are exempted by our board of directors before the time that the interested stockholder becomes an interested stockholder. Our board of directors has adopted a resolution which provides that any business combination between us and any other person is exempted from the provisions of the Business Combination Act. There can be no assurance that such resolution will not be amended or eliminated at any time in the future. However, the board of directors may not revoke, alter or amend such resolution or otherwise adopt any resolution that is inconsistent with a prior resolution of the board of directors that exempts any business combination between our Company and any other person, whether identified specifically, generally or by type from the provisions of the Business Combination Act without the affirmative vote of a majority of the votes cast on the matter by the holders of the issued and outstanding shares of common stock of our Company.

## **Indemnification and Limitation of Liabilities**

Maryland law permits a Maryland corporation to include in its charter a provision limiting the liability of its directors and officers to the corporation and its stockholders for money damages, except for liability resulting from:

actual receipt of an improper benefit or profit in money, property or services; or

**Table of Contents**

active and deliberate dishonesty established by a final judgment and which is material to the cause of action. Our charter contains such a provision which eliminates directors' and officers' liability to the maximum extent permitted by Maryland law.

Our charter also authorizes our company, to the maximum extent permitted by Maryland law, to obligate our company to indemnify any present or former director or officer or any individual who, while a director or officer of our company and at the request of our company, serves or has served another corporation, real estate investment trust, partnership, joint venture, trust, employee benefit plan or other enterprise as a director, officer, partner or trustee, from and against any claim or liability to which that individual may become subject or which that individual may incur by reason of his or her service in any such capacity and to pay or reimburse his or her reasonable expenses in advance of final disposition of a proceeding.

Our bylaws obligate us, to the maximum extent permitted by Maryland law, to indemnify any present or former director or officer or any individual who, while a director or officer of our company and at the request of our company, serves or has served another corporation, real estate investment trust, partnership, joint venture, trust, employee benefit plan or other enterprise as a director, officer, partner or trustee and who is made, or threatened to be made, a party to the proceeding by reason of his or her service in that capacity from and against any claim or liability to which that individual may become subject or which that individual may incur by reason of his or her service in any such capacity and to pay or reimburse his or her reasonable expenses in advance of final disposition of a proceeding. Our charter and bylaws also permit our company to indemnify and advance expenses to any individual who served a predecessor of our company in any of the capacities described above and any employee or agent of our company or a predecessor of our company.

Maryland law requires a corporation (unless its charter provides otherwise, which our charter does not) to indemnify a director or officer who has been successful, on the merits or otherwise, in the defense of any proceeding to which he or she is made, or threatened to be made, a party by reason of his or her service in such capacity. Maryland law permits a corporation to indemnify its present and former directors and officers, among others, against judgments, penalties, fines, settlements and reasonable expenses actually incurred by them in connection with any proceeding to which they may be made, or threatened to be made, a party by reason of their service in those or other capacities unless it is established that:

the act or omission of the director or officer was material to the matter giving rise to the proceeding and (i) was committed in bad faith or (ii) was the result of active and deliberate dishonesty; or

the director or officer actually received an improper personal benefit in money, property or services; or

in the case of any criminal proceeding, the director or officer had reasonable cause to believe that the act or omission was unlawful.

A court may order indemnification if it determines that the director or officer is fairly and reasonably entitled to indemnification, even though the director or officer did not meet the prescribed standard of conduct or was adjudged liable on the basis that personal benefit was improperly received.

However, under Maryland law, a Maryland corporation may not indemnify for an adverse judgment in a suit by or in the right of the corporation or for a judgment of liability on the basis that personal benefit was improperly received

unless in either case a court orders indemnification and then only for expenses. In addition, Maryland law permits a corporation to advance reasonable expenses to a director or officer upon the corporation's receipt of:

a written affirmation by the director or officer of his or her good faith belief that he or she has met the standard of conduct necessary for indemnification by the corporation; and

---

**Table of Contents**

a written undertaking by him or her or on his or her behalf to repay the amount paid or reimbursed by the corporation if it is ultimately determined that the standard of conduct was not met.

We have obtained a policy of insurance under which our directors and officers will be insured, subject to the limits of the policy, against certain losses arising from claims made against such directors and officers by reason of any acts or omissions covered under such policy in their respective capacities as directors or officers, including certain liabilities under the Securities Act. We have also entered into indemnification agreements with each of our executive officers and directors that obligate us to indemnify them to the maximum extent permitted by Maryland law and our charter. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

**DCT Industrial Operating Partnership LP Limited Partnership Agreement**

The limited partnership agreement of the Operating Partnership may not be amended without DCT's consent as general partner. As general partner, DCT may, without the consent of the limited partners, amend the partnership agreement in any respect or merge or consolidate the Operating Partnership with or into any other partnership or business entity in certain transactions pursuant to the partnership agreement; provided, however, that the following amendments and any other merger or consolidation of the Operating Partnership shall require the consent of limited partners holding more than 50% of the ownership interests of all limited partners:

- (a) certain amendments affecting the operation of the redemption rights for OP Units, or the mechanism for converting OP Units into shares of our common stock, in a manner adverse to the limited partners;
- (b) any amendment that would adversely affect the rights of the limited partners to receive the distributions payable to them under the partnership agreement, other than with respect to the issuance of additional OP Units pursuant to certain provisions of the partnership agreement;
- (c) any amendment that would alter the Operating Partnership's allocations of profit and loss to the limited partners, other than with respect to the issuance of additional OP Units pursuant to certain provisions of the partnership agreement; or
- (d) any amendment that would impose on the limited partners any obligation to make additional capital contributions to the Operating Partnership.

The limited partnership agreement of the Operating Partnership also generally provides that DCT, as general partner of the Operating Partnership, will incur no liability to the Operating Partnership or any limited partner for losses sustained or liabilities incurred as a result of errors in judgment or of any act or omission if DCT acted in good faith. In addition, DCT is not responsible for any misconduct or negligence on the part of its agents, provided DCT appointed such agents in good faith.

The limited partnership agreement of the Operating Partnership also provides for indemnification of DCT, the directors and officers of DCT, and such other persons as DCT may from time to time designate against any liabilities, expenses and other amounts arising from any claim or proceeding that relates to the operations of the Operating Partnership or DCT as set forth in the limited partnership agreement of the Operating Partnership in which such indemnified person is involved, or is threatened to be involved, as a party or otherwise, unless it is established that:

- (1) the act or omission of the indemnified person was material to the matter giving rise to the proceeding and either was committed in bad faith or was the result of active and deliberate dishonesty; (2) the indemnified person actually

received an improper personal benefit in money, property or services; or (3) in the case of any criminal proceeding, the indemnified person had reasonable cause to believe that the act or omission was unlawful. Under the limited partnership agreement, the Operating Partnership generally must also advance all reasonable expenses incurred by an indemnified person who is a party to proceeding in advance of the final disposition of the proceeding.

---

**Table of Contents**

**CERTAIN UNITED STATES FEDERAL INCOME TAX CONSEQUENCES OF AN EXCHANGE**

**OR**

**REDEMPTION OF OP UNITS**

The following summary is a general discussion of certain U.S. federal income tax consequences to a holder of OP Units (a unitholder ) that exercises its option to have all or a portion of such units redeemed as described in

Redemption of OP Units. This summary is based upon the Internal Revenue Code, the regulations promulgated by the U.S. Treasury Department, rulings and other administrative pronouncements issued by the IRS, and judicial decisions, all as currently in effect, and all of which are subject to differing interpretations or to change, possibly with retroactive effect. No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of the tax consequences described below. No advance ruling has been or will be sought from the IRS regarding any matter discussed in this prospectus. The summary is also based upon the assumption that the operation of DCT Industrial Trust Inc., and of its subsidiaries and other lower-tier and affiliated entities, will in each case be in accordance with its applicable organizational documents or partnership agreement. This summary is for general information only and does not purport to discuss all aspects of federal income taxation which may be important to a particular investor in light of its specific investment or tax circumstances, or if a particular investor is subject to special tax rules (for example, if a particular investor is a financial institution, broker-dealer, insurance company, tax-exempt organization or, except to the extent discussed below, foreign investor, as determined for federal income tax purposes). This summary assumes that OP Units are held as capital assets, which generally means as property held for investment. No advance ruling has been or will be sought from the IRS, and no opinion of counsel will be received, regarding the U.S. federal, state, local or foreign tax consequences discussed herein.

The federal income tax consequences to a unitholder that exercises its option to have units redeemed depends in some instances on determinations of fact and interpretations of complex provisions of federal income tax law. No clear precedent or authority may be available on some questions. Accordingly, unitholders should consult their tax advisor regarding the U.S. federal, state, local and foreign tax consequences of an exchange or redemption of OP Units in light of such unitholders specific tax situation.

**Exchange or Redemption of OP Units**

If a unitholder tenders all or any portion of its OP Units for redemption and we exchange shares of our common stock for such units, a unitholder will recognize gain or loss in an amount equal to the difference between (i) the amount realized in the transaction (i.e., the fair market value of our shares received in such exchange plus the amount of the Operating Partnership liabilities allocable to such exchanged units at such time) and (ii) the unitholder's tax basis in such units, which tax basis will be adjusted for the unit's allocable share of the Operating Partnership's income, gain or loss for the taxable year of disposition. In many circumstances, the tax liability resulting from the gain recognized on the disposition of units could exceed the fair market value of any shares of our common stock received in exchange therefor. A unitholder's tax basis in any shares of common stock received in exchange for OP units will be the fair market value of those shares on the date of the exchange. Similarly, a unitholder's holding period in such shares will begin following the exchange and will not include the period during which the unitholder held its units.

If the Operating Partnership redeems a tendered unit with cash (which is not contributed by DCT Industrial Trust Inc. to effect the redemption), the tax consequences generally would be the same as described in the preceding paragraph, except that if the Operating Partnership redeems less than all of a unitholder's units, the unitholder would recognize no taxable loss and would recognize taxable gain only to the extent that the cash, plus the amount of the Operating Partnership liabilities allocable to the redeemed units, exceeded the unitholder's adjusted tax basis in all of such

unitholder's units immediately before the redemption.

## **Table of Contents**

### **Disguised Sales**

Under the Internal Revenue Code, a transfer of property by a partner to a partnership followed by a related transfer by the partnership of money or other property to the partner is treated as a disguised sale if (i) the second transfer would not have occurred but for the first transfer and (ii) the second transfer is not dependent on the entrepreneurial risks of the partnership's operations. In a disguised sale, the partner is treated as if he or she sold the contributed property to the partnership as of the date the property was contributed to the partnership. Transfers of money or other property between a partnership and a partner that are made within two years of each other, including redemptions of units made within two years of a unitholder's contribution of property to the Operating Partnership, must be reported to the IRS and are presumed to be a disguised sale unless the facts and circumstances clearly establish that the transfers do not constitute a sale.

While there is no authority applying the disguised sale rules to the exercise of a redemption right by a partner with respect to a partnership interest received in exchange for property, a redemption of units, by the Operating Partnership, in particular if made within two years of the date of a unitholder's contribution of property to the Operating Partnership, may be treated as a disguised sale.

If this treatment were to apply, such unitholder would be treated for federal income tax purposes as if, on the date of its contribution of property to the Operating Partnership, the Operating Partnership transferred to it an obligation to pay it the redemption proceeds. In that case, the unitholder would be required to recognize gain on the disguised sale in such earlier year, and/or may have a portion of the proceeds recharacterized as interest or be required to pay an interest charge on any tax due.

### **Character of Gain or Loss Recognized**

Except as described below, the gain or loss that a unitholder recognizes on a sale, exchange or redemption of a tendered unit will be treated as a capital gain or loss and will be treated as long-term capital gain or loss if the holding period for the unit exceeds 12 months. Long-term capital gains recognized by individuals and certain other noncorporate taxpayers generally will be subject to a maximum federal income tax rate of 20%. If the amount realized with respect to a unit that is attributable to a unitholder's share of unrealized receivables of the Operating Partnership exceeds the tax basis attributable to those assets, such excess will be treated as ordinary income. Among other things, unrealized receivables include depreciation recapture for certain types of property. In addition, the maximum federal income tax rate applicable to persons who are noncorporate taxpayers for net capital gains attributable to the sale of depreciable real property (which may be determined to include the sale or exchange of a unit to DCT Industrial Trust Inc., but not the redemption of a unit by the Operating Partnership for cash which is not contributed by DCT Industrial Trust Inc.) held for more than 12 months is currently 25% (rather than 15%) to the extent of previously claimed depreciation deductions that would not be treated as unrealized receivables.

### **Net Investment Income Tax**

A U.S. unitholder that is an individual is subject to a 3.8% tax on the lesser of (1) such unitholder's net investment income for the relevant taxable year and (2) the excess of such unitholder's modified gross income for the taxable year over a certain threshold (which will be between \$125,000 and \$250,000, depending on the individual's circumstances). U.S. unitholders that are estates or certain trusts that do not fall into a special class of trusts that is exempt from such tax are subject to the 3.8% tax on the lesser of (A) their undistributed net investment income or (B) the excess of their adjusted gross income for the taxable year over a certain threshold. Net investment income generally includes net gain from the disposition of our units. If you are a U.S. unitholder that is an individual, estate or trust, you are urged to consult your tax advisors regarding the applicability of the Net Investment Income tax to any gains you may recognize

on a sale, exchange or redemption of our units.

**Table of Contents**

**Passive Activity Losses**

The passive activity loss rules of the Internal Revenue Code limit the use of losses derived from passive activities, which generally include investments in limited partnership interests such as the units. You are urged to consult your tax advisor concerning whether, and the extent to which, you have available suspended passive activity losses from the Operating Partnership or other investments that may be used to offset gain from the sale, exchange or redemption of your units tendered for redemption.

**Tax Reporting**

If a unitholder tenders a unit and such unit is acquired by DCT Industrial Trust Inc. or the Operating Partnership, the unitholder must report the transaction by filing a statement with its federal income tax return for the year of the disposition which provides certain required information to the IRS. To prevent the possible application of backup withholding with respect to payment of the consideration, a unitholder must provide DCT Industrial Trust Inc. or the Operating Partnership with its correct taxpayer identification number.

**Foreign Offerees**

Gain recognized by a foreign person on a sale, exchange or redemption of a unit tendered for redemption will be subject to U.S. federal income tax under the Foreign Investment in Real Property Tax Act of 1980 ( FIRPTA ). If you are a foreign person, DCT Industrial Trust Inc. or the Operating Partnership generally will be required, under the FIRPTA provisions of the Internal Revenue Code, to deduct and withhold 10% of the amount realized by you on the disposition and you will be required to file a U.S. federal income tax return to report any gain and pay any additional tax due. The amount withheld would be creditable against your U.S. federal income tax liability and, if the amount withheld exceeds your actual tax liability, you could claim a refund from the IRS.

**YOU SHOULD CONSULT YOUR TAX ADVISOR AS TO THE PARTICULAR TAX CONSEQUENCES APPLICABLE TO YOU AS A RESULT OF A SALE, EXCHANGE OR REDEMPTION OF UNITS TENDERED FOR REDEMPTION.**

**Table of Contents**

**COMPARISON OF OP UNITS AND COMMON STOCK**

The information below highlights a number of the significant differences between the OP Units and our common stock, including, among other things, the nature of the investment, voting rights, distributions and dividends, liquidity and transferability, liquidation rights, redemption rights and certain tax matters. These comparisons are intended to assist holders of OP Units in understanding how their investment changes if they exchange their OP Units for shares of our common stock.

**This discussion is summary in nature and does not constitute a complete discussion of these matters, and holders of OP Units should carefully review the rest of this prospectus and the registration statement of which this prospectus is a part, and the documents we incorporate by reference as exhibits to such registration statement, particularly our charter, our bylaws and the partnership agreement of the Operating Partnership, for additional important information. This discussion, to the extent it constitutes a summary of our charter, our bylaws or the partnership agreement of the Operating Partnership, is qualified entirely by reference to those documents.**

**OP Units**

**Common Stock**

*Nature of Investment*

The OP Units constitute limited partnership interests in the Operating Partnership, a Delaware limited partnership.

The shares of common stock constitute equity securities in DCT, a Maryland corporation.

*Voting Rights*

Under the partnership agreement, OP Unit holders have voting rights as limited partners only with respect to certain limited matters, such as certain types of amendments to the partnership agreement, termination of the partnership and certain other transactions.

Each outstanding share of our common stock entitles the holder thereof to one vote on all matters submitted to a vote of our stockholders, including the election of directors.

In addition, the affirmative vote or consent of holders of at least 50% of the outstanding OP Units will be necessary for any merger, consolidation or other combination of the general partner with or into another person, or sale of all or substantially all of its assets that results in a change of control of the general partner unless (1) the holders of OP Units are entitled to receive for each unit an amount of consideration equal to that paid for each share of common stock or (2) the general partner survives the transaction and holders of common stock are not entitled to any consideration in such transaction other than retaining their shares of common stock. With respect to the exercise of the above described voting rights, a holder of OP Units will be entitled to one vote per unit.

Holders of our common stock have the right to vote on, among other things, a merger of DCT, amendments to the DCT charter and the dissolution of DCT. Certain amendments to our charter require the affirmative vote of not less than two-thirds of votes entitled to be cast on the matter. Our charter permits our Board of Directors to classify and issue capital stock in one or more series having voting power which may differ from that of our common stock.

Under our charter and bylaws, a consolidation, merger, share exchange, transfer of all or substantially all of our assets or the dissolution of DCT requires the affirmative vote of a majority of all the votes entitled to

be cast by stockholders on the matter.

***Distributions/Dividends***

Holders of OP Units are entitled to receive quarterly cash distributions in an amount determined by the general partner in its sole and absolute discretion. Distributions shall be made to holders of OP Units in accordance with their respective percentage interests in the Operating Partnership.

Holders of our common stock are entitled to receive dividends when and as authorized by our Board of Directors and declared by us out of funds legally available therefor.

---

**Table of Contents**

**OP Units**

In no event may a holder of OP Units receive a distribution of cash with respect to an OP Unit if such holder is entitled to receive a cash distribution as the holder of record of a share of our common stock for which all or part of such OP Unit has been or will be exchanged.

**Common Stock**

Under the REIT rules, we are required to distribute dividends (other than capital gain dividends) to our stockholders in an amount at least equal to (i) the sum of (A) 90% of our REIT taxable income (computed without regard to the dividends paid deduction and our net capital gain) and (B) 90% of the income (after tax), if any, from foreclosure property, minus (ii) the sum of certain items of non-cash income. See Operational Requirements Annual Distribution Requirement within the Federal Income Tax Considerations section.

***Liquidity and Transferability/Redemption at Holder's Option***

There is no public market for the OP Units and the OP Units are not listed on any securities exchange.

Our common stock is listed on the New York Stock Exchange under the symbol DCT. Transfers of our common stock are subject to the ownership limits set forth in our charter as such limits may be changed by our board. Our common stock is not redeemable or convertible at the option of the holder.

Under the partnership agreement, no OP Unit holder may transfer all or any portion of its OP Units to any transferee, other than certain of his family members or affiliates or beneficial owners, if the transferee is an entity, without the consent of the general partner, which consent may be withheld in its sole and absolute discretion.

Holders of OP Units maintain a right to redeem their units. At any time after the OP Units shall have been outstanding for at least one year, each holder of OP Units has the right to require the Operating Partnership to redeem all or a portion of such OP Units in exchange for an equivalent number of shares of common stock of DCT.

Notwithstanding the foregoing, upon notice to a holder of OP Units delivered by the Operating Partnership, the Operating Partnership may redeem all or any portion of such holder's OP Units on the redemption date for the Cash Amount of the OP Units, as defined in the partnership agreement.

***Liquidation Rights***

Upon any voluntary or involuntary liquidation, dissolution or winding up of the Operating Partnership, after payment of, or adequate provision for, debts and obligations of the

Holders of our common stock are entitled to share ratably in our assets legally available for distribution to our stockholders in the event of our liquidation,

Operating Partnership, any remaining assets shall be distributed to the partners to the extent of the positive balance of the capital account of each partner.

dissolution or winding up, after payment of or adequate provision for all of our known debts and liabilities. These rights are subject to the preferential liquidation rights of any other class or series of our stock.

***Redemption at Our Option***

The OP Units may not be redeemed by the general partner. Our common stock is not subject to redemption.

**Table of Contents**

**OP Units**

**Common Stock**

*Certain Tax Matters*

The operating partnership itself is not required to pay federal income taxes. Instead, each holder of OP Units includes its allocable share of partnership taxable income or loss in determining its individual federal income tax liability. Income and loss generally is subject to passive activity limitations. Under the passive activity rules, partners can generally offset income and loss that is considered passive against income and loss from other investments that constitute passive activities.

Partnership cash distributions are generally not taxable to a holder of OP Units except to the extent they exceed the holder's basis in its partnership interest, which will include such holder's allocable share of the debt of the partnership.

Holders of units are required, in some cases, to file state income tax returns and/or pay state income taxes in the states in which the Operating Partnership owns property, even if they are not residents of those states.

As long as we qualify as a REIT, distributions out of our current or accumulated earnings and profits, other than capital gain dividends discussed below, generally will constitute dividends taxable to our taxable U.S. stockholders as ordinary income and will not be eligible for the dividends-received deduction in the case of U.S. stockholders that are corporations. In addition, these distributions generally will not be eligible for treatment as qualified dividend income for individual U.S. stockholders. Distributions that we properly designate as capital gain dividends will be taxable to our taxable U.S. stockholders as gain from the sale or disposition of a capital asset, to the extent that such gain does not exceed our actual net capital gain for the taxable year. Distributions in excess of current and accumulated earnings and profits will be treated as a nontaxable return of capital to the extent of a stockholder's adjusted basis in his common stock, with the excess taxed as capital gain.

Distributions we make and gain arising from the sale or exchange by a U.S. stockholder of our shares will not be treated as passive activity income. As a result, U.S. stockholders generally will not be able to apply any passive losses against this income or gain.

Stockholders who are individuals generally will not be required to file state income tax returns and/or pay state income taxes outside of their state of residence with respect to our operations and distributions.

---

**Table of Contents****FEDERAL INCOME TAX CONSIDERATIONS****General**

The following is a summary of certain United States federal income tax considerations associated with an investment in our common shares or debt securities that may be relevant to you. If we offer equity securities other than common shares, information about additional income tax consequences to holders of those securities will be included in the applicable prospectus supplement. The statements made in this section of the prospectus are based upon current provisions of the Internal Revenue Code and Treasury Regulations promulgated thereunder, as currently applicable, currently published administrative positions of the Internal Revenue Service and judicial decisions, all of which are subject to change, either prospectively or retroactively. We cannot assure you that any changes will not modify the conclusions expressed in counsel's opinions described herein. This summary does not address all possible tax considerations that may be material to an investor and does not constitute legal or tax advice. Moreover, this summary does not deal with all tax aspects that might be relevant to you, as a prospective holder of common shares or debt securities, in light of your personal circumstances, nor does it deal with particular types of stockholders that are subject to special treatment under the federal income tax laws, such as insurance companies, holders whose shares are acquired through the exercise of stock options or otherwise as compensation, holders whose shares are acquired through the distribution reinvestment plan or who intend to sell their shares under the share redemption program, tax-exempt organizations except as provided below, financial institutions or broker-dealers, a trust, an estate, a regulated investment company, a person who holds 10% or more (by vote or value) of our stock, foreign corporations or persons who are not citizens or residents of the United States except as provided below, or others who are subject to special treatment under the Internal Revenue Code. This summary assumes that our common shares or debt securities are held as capital assets, which generally means as property held for investment. The Internal Revenue Code provisions governing the federal income tax treatment of REITs and their stockholders are highly technical and complex, and this summary is qualified in its entirety by the express language of applicable Internal Revenue Code provisions, Treasury Regulations promulgated thereunder and administrative and judicial interpretations thereof.

*This discussion is not intended to be, and should not be construed as, tax advice. We urge you, as a prospective holder of stock or debt securities, to consult your tax advisor regarding the specific tax consequences to you of a purchase of shares or debt securities, ownership and sale of the shares or debt securities and of our election to be taxed as a REIT, including the federal, state, local, foreign and other tax consequences of such purchase, ownership, sale and election and of potential changes in applicable tax laws.*

***REIT Qualification***

We elected to be taxable as a REIT for United States Federal income tax purposes commencing with our taxable year ending December 31, 2003. This section of the prospectus discusses the laws governing the tax treatment of a REIT and its stockholders. These laws are highly technical and complex.

Goodwin Procter LLP has delivered an opinion to us that, commencing with our taxable year that began on January 1, 2003, our company was organized in conformity with the requirements for qualification as a REIT under the Internal Revenue Code, and its actual method of operation, and its proposed method of operation has enabled it to meet the requirements for qualification and taxation as a REIT.

It must be emphasized that the opinion of Goodwin Procter LLP is based on various assumptions relating to the organization and operation of our company, and is conditioned upon representations and covenants made by us regarding our organization, our sources of income, our assets and the past, present and future conduct of our business operations. While we intend to operate so that we will qualify as a REIT, given the highly complex nature of the rules

governing REITs, the ongoing importance of factual determinations, and the possibility of future changes in our circumstances, no assurance can be given by Goodwin Procter LLP or by us that we will so qualify for any particular year. Goodwin Procter LLP has no obligation to advise us or the holders of our

## **Table of Contents**

common stock of any subsequent change in the matters stated, represented or assumed in the opinion, or of any subsequent change in the applicable law. You should be aware that opinions of counsel are not binding on the Internal Revenue Service or any court, and no assurance can be given that the Internal Revenue Service will not challenge the conclusions set forth in such opinions.

Qualification and taxation as a REIT depends on our ability to meet on a continuing basis, through actual operating results, distribution levels, and diversity of stock ownership, various qualification requirements imposed upon REITs by the Internal Revenue Code, the compliance with which will not be reviewed by Goodwin Procter LLP. Our ability to qualify as a REIT also requires that we satisfy certain asset tests, some of which depend upon the fair market values of assets directly or indirectly owned by us. Such values may not be susceptible to a precise determination. While we intend to continue to operate in a manner that will allow us to qualify as a REIT, no assurance can be given that the actual results of our operations for any taxable year satisfy such requirements for qualification and taxation as a REIT.

### ***Taxation of Our Company***

If we qualify for taxation as a REIT, we generally will not be subject to federal corporate income taxes on that portion of our ordinary income or capital gain that we distribute currently to our stockholders, because the REIT provisions of the Internal Revenue Code generally allow a REIT to deduct dividends paid to its stockholders. This substantially eliminates the federal double taxation on earnings (taxation at both the corporate level and stockholder level) that usually results from an investment in a corporation. Even if we qualify for taxation as a REIT, however, we will be subject to federal income taxation as follows:

We will be taxed at regular corporate rates on our undistributed REIT taxable income, including undistributed net capital gains ( REIT taxable income is the taxable income of the REIT subject to special adjustments, including a deduction for dividends paid);

Under some circumstances, we may be subject to the alternative minimum tax on our items of tax preference;

If we have income from prohibited transactions (which are, in general, sales or other dispositions of property, other than foreclosure property, held primarily for sale to customers in the ordinary course of business), the income will be subject to a 100% tax;

If we elect to treat property that we acquire in connection with a foreclosure of a mortgage loan or certain leasehold terminations as foreclosure property, we may avoid the 100% tax on gain from a resale of that property (if the sale would otherwise constitute a prohibited transaction), but the income from the sale or operation of the property may be subject to corporate income tax at the highest applicable rate (currently 35%);

If we should fail to satisfy the asset or other requirements applicable to REITs, as described below, yet nonetheless maintain our qualification as a REIT because there is reasonable cause for the failure and other applicable requirements are met, we may be subject to an excise tax. In that case, the amount of the tax will

be \$50,000 per failure, or, in the case of certain asset test failures, the amount of net income generated by the assets in question multiplied by the highest corporate tax rate (currently 35%) if that amount exceeds \$50,000 per failure;

If we fail to satisfy the 75% gross income test or the 95% gross income test, as discussed below, but have otherwise maintained our qualification as a REIT because certain other requirements are met, we will be required to pay a 100% tax equal to (1) the greater of (A) the amount by which 75% of our gross income exceeds the amount qualifying under the 75% gross income test or (B) the amount by which 95% of our gross income (90% for our taxable years beginning before October 23, 2004) exceeds the amount qualifying under the 95% gross income test, multiplied by (2) a fraction intended to reflect our profitability;

## **Table of Contents**

If we fail to distribute during each year at least the sum of (i) 85% of our REIT ordinary income for the year, (ii) 95% of our REIT capital gain net income for such year and (iii) any undistributed taxable income from prior periods, we will be subject to a 4% excise tax on the excess of the required distribution over the sum of (A) the amounts actually distributed, plus (B) retained amounts on which corporate level tax is paid by us;

We may be required to pay monetary penalties to the IRS in certain circumstances, including if we fail to meet record-keeping requirements intended to monitor our compliance with rules relating to the composition of our stockholders;

We may elect to retain and pay income tax on our net long-term capital gain. In that case, a stockholder would include its proportionate share of our undistributed long-term capital gain (to the extent we make a timely designation of such gain to the stockholder) in its income and would be deemed to have paid the tax that we paid on such gain. The stockholder would be allowed a credit for its proportionate share of the tax deemed to have been paid, and an adjustment would be made to increase the stockholders' basis in DCT Industrial Trust Inc.;

If we acquire appreciated assets from a C corporation (*i.e.*, a corporation generally subject to corporate-level tax) in a transaction in which the C corporation would not normally be required to recognize any gain or loss on disposition of the asset and we subsequently recognize gain on the disposition of the asset during the ten year period beginning on the date on which we acquired the asset, then a portion of the gain may be subject to tax at the highest regular corporate rate, unless the C corporation made an election to treat the asset as if it were sold for its fair market value at the time of our acquisition; and

Any taxable REIT subsidiary of ours will be subject to the regular corporate income tax on its income. A 100% tax may be imposed on some items of income and expense that are directly or constructively paid between a REIT and a taxable REIT subsidiary if and to the extent that the IRS successfully asserts that such items were not based on market rates.

No assurance can be given that the amount of any such federal income taxes will not be substantial. In addition, we and our subsidiaries may be subject to a variety of taxes other than U.S. federal income tax, including payroll taxes and state, local, and foreign income, franchise, property and other taxes on assets and operations. We could also be subject to tax in situations and on transactions not presently contemplated.

### **Requirements for Qualification as a REIT**

We elected to be taxed as a REIT for United States federal income tax purposes commencing with our taxable year ending December 31, 2003. In order for us to have so qualified, and to continue to qualify, as a REIT, we must have met and continue to meet the requirements discussed below relating to our organization, sources of income, nature of assets and distributions of income to our stockholders.

#### ***Organizational Requirements***

In order to qualify for taxation as a REIT under the Internal Revenue Code, we must meet tests regarding our income and assets described below and:

Edgar Filing: DCT Industrial Trust Inc. - Form S-3ASR

- 1) Be a corporation, trust or association that would be taxable as a domestic corporation but for the REIT provisions of the Internal Revenue Code;
- 2) Elect to be taxed as a REIT and satisfy relevant filing and other administrative requirements for each taxable year;
- 3) Be managed by one or more trustees or directors;
- 4) Have our beneficial ownership evidenced by transferable shares or by transferable certificates of beneficial interest;

---

**Table of Contents**

- 5) Not be a financial institution or an insurance company subject to special provisions of the federal income tax laws;
- 6) Use a calendar year for U.S. federal income tax purposes;
- 7) Have at least 100 stockholders for at least 335 days of each taxable year of 12 months or during a proportionate part of a taxable year of less than 12 months; and
- 8) Not be closely held as defined for purposes of the REIT provisions of the Internal Revenue Code.

We would be treated as closely held if, during the last half of any taxable year, more than 50% in value of our outstanding capital stock is owned, directly or indirectly through the application of certain attribution rules, by five or fewer individuals, as defined in the Internal Revenue Code to include certain entities. Items 7 and 8 above do not apply until after the first taxable year for which we elect to be taxed as a REIT. If we comply with Treasury regulations that provide procedures for ascertaining the actual ownership of our common stock for each taxable year and we did not know, and with the exercise of reasonable diligence could not have known, that we failed to meet item 8 above for a taxable year, we will be treated as having met item 8 for that year.

We elected to be taxed as a REIT commencing with our taxable year ending December 31, 2003 and we intend to satisfy the other requirements described in Items 1-6 above at all times during each of our taxable years. In addition, our charter contains restrictions regarding ownership and transfer of shares of our stock that are intended to assist us in continuing to satisfy the share ownership requirements in Items 7 and 8 above.

To qualify as a REIT, we also cannot have at the end of any taxable year any undistributed earnings and profits that are attributable to a non-REIT taxable year. We do not believe that we have any non-REIT earnings and profits and believe that we therefore satisfy this requirement.

For purposes of the requirements described herein, any corporation that is a qualified REIT subsidiary of ours will not be treated as a corporation separate from us and all assets, liabilities, and items of income, deduction and credit of our qualified REIT subsidiaries will be treated as our assets, liabilities and items of income, deduction and credit. A qualified REIT subsidiary is a corporation, other than a taxable REIT subsidiary (as described below under **Operational Requirements Asset Tests** ), all of the capital stock of which is owned by a REIT.

In the case of a REIT that is a partner in an entity treated as a partnership for federal tax purposes, the REIT is treated as owning its proportionate share of the assets of the partnership and as earning its allocable share of the gross income of the partnership for purposes of the requirements described herein. In addition, the character of the assets and gross income of the partnership will retain the same character in the hands of the REIT for purposes of the REIT requirements, including the asset and income tests described below. As a result, our proportionate share of the assets, liabilities and items of income of the Operating Partnership and of any other partnership, joint venture, limited liability company or other entity treated as a partnership for federal tax purposes in which we directly or indirectly through other partnerships or disregarded entities have an interest will be treated as our assets, liabilities and items of income.

The Internal Revenue Code provides relief from violations of the REIT gross income requirements, as described below under **Operational Requirements Gross Income Tests**, in cases where a violation is due to reasonable cause and not willful neglect, and other requirements are met, including the payment of a penalty tax that is based upon the magnitude of the violation. In addition, the Internal Revenue Code includes provisions that extend similar relief in the case of certain violations of the REIT asset requirements (see **Operational Requirements Asset Tests** below) and other REIT requirements, again provided that the violation is due to reasonable cause and not willful neglect, and other conditions are met, including the payment of a penalty tax. If we fail to satisfy any of the various REIT requirements,

there can be no assurance that these relief provisions would be available to enable us to maintain our qualification as a REIT, and, if available, the amount of any resultant penalty tax could be substantial.

---

**Table of Contents*****Protection from Stock Concentration***

In order to protect us from a concentration of ownership of stock that would cause us to fail item 8 above, our charter provides that stock owned, or deemed to be owned or transferred to a shareholder in excess of specified ownership limits will be converted automatically into Excess Stock (as defined below) and transferred to a charity for resale. The original shareholder is entitled to receive certain proceeds from such a resale. Excess Stock is a separate class of our capital stock that is entitled to no voting rights but shares ratably with the common stock in dividends and rights upon dissolution. Because of the absence of authority on this issue, however, we cannot assure you that the operation of the Excess Stock or other provisions contained in our charter will, as a matter of law, prevent a concentration of ownership of stock in excess of the applicable ownership limits from causing us to violate item 8 above. If there were such a concentration of ownership and the operation of the Excess Stock or other provisions contained in our charter were not held to cure such violation, we would be disqualified as a REIT. In rendering its opinion that we are organized in a manner that permits us to qualify as a REIT, Goodwin Procter LLP is relying on our representation that the ownership of our stock (without regard to the Excess Stock provisions) satisfies item 8 above. Goodwin Procter LLP expresses no opinion as to whether, as a matter of law, the Excess Stock or other provisions contained in our charter preclude us from failing item 8 above.

To monitor its compliance with item 8 above, a REIT is required to send annual letters to certain stockholders requesting information regarding the actual ownership of its shares. If we comply with the annual letters requirement and we do not know or, exercising reasonable diligence, would not have known of our failure to meet item 8 above, then we will be treated as having met item 8 above. A list of those persons failing or refusing to comply with this demand must be maintained as part of our records. Failure by us to comply with these record-keeping requirements could subject us to monetary penalties. A stockholder that fails or refuses to comply with the demand is required by Treasury Regulations to submit a statement with its tax return disclosing the actual ownership of the shares and other information.

***Operational Requirements Gross Income Tests***

To maintain our qualification as a REIT, we must satisfy annually two gross income requirements.

*75% Income Test:* At least 75% of our gross income, excluding gross income from prohibited transactions (as defined below) certain hedging transactions and certain foreign currency gains recognized after July 30, 2008, for each taxable year must be derived directly or indirectly from investments relating to real property or mortgages on real property and from other specified sources, including qualified temporary investment income, as described below. For these purposes, qualifying gross income includes rents from real property and, in some circumstances, interest, but excludes gross income from dispositions of property held primarily for sale to customers in the ordinary course of a trade or business. These dispositions are referred to as prohibited transactions.

*95% Income Test:* At least 95% of our gross income, excluding gross income from prohibited transactions, certain hedging transactions and certain foreign currency gains recognized after July 30, 2008, for each taxable year must be derived from the real property investments described above and generally from distributions, interest and gains from the sale or disposition of stock or securities or from any combination of the foregoing.

The rents we will receive or be deemed to receive will qualify as rents from real property for purposes of satisfying the gross income requirements for a REIT only if the following conditions are met:

The amount of rent received from a tenant must not be based in whole or in part on the income or profits of any person; however, an amount received or accrued generally will not be excluded from the term rents from real property solely by reason of being based on a fixed percentage or percentages of gross receipts or sales;

---

**Table of Contents**

In general, neither we nor an owner of 10% or more of our stock may directly or constructively own 10% or more of a tenant, or a Related Party Tenant, or a subtenant of the tenant (in which case only rent attributable to the subtenant is disqualified);

Rent attributable to personal property leased in connection with a lease of real property cannot be greater than 15% of the total rent received under the lease, as determined based on the average of the fair market values as of the beginning and end of the taxable year; and

We normally must not operate or manage the property or furnish or render services to tenants, other than through an independent contractor who is adequately compensated and from whom we do not derive any income or through a taxable REIT subsidiary. However, a REIT may provide services with respect to its properties, and the income derived therefrom will qualify as rents from real property, if the services are usually or customarily rendered in connection with the rental of space only and are not otherwise considered rendered to the occupant. Even if the services provided by us with respect to a property are impermissible tenant services, the income derived therefrom will not cause other rental income from the applicable property to fail to qualify as rents from real property if such income does not exceed one percent of all amounts received or accrued with respect to that property.

A taxable REIT subsidiary of ours is a corporation in which we directly or indirectly own stock and jointly elects with us to be treated as a taxable REIT subsidiary under section 856(l) of the Internal Revenue Code. In addition, if one of our taxable REIT subsidiaries owns, directly or indirectly, securities representing 35% or more of the vote or value of a subsidiary corporation, that subsidiary will also be treated as a taxable REIT subsidiary of ours. A taxable REIT subsidiary is a corporation subject to the United States federal income tax, and state and local income tax where applicable, as a regular C corporation.

Generally, a taxable REIT subsidiary can perform impermissible tenant services without causing us to receive impermissible tenant services income under the REIT income tests. However, several provisions regarding the arrangements between a REIT and its taxable REIT subsidiaries ensure that a taxable REIT subsidiary will be subject to an appropriate level of United States federal income taxation. For example, a taxable REIT subsidiary is limited in its ability to deduct interest payments in excess of a certain amount made to us. In addition, we will be obligated to pay a 100% penalty tax on some payments that we receive or on certain expenses deducted by the taxable REIT subsidiary if the economic arrangements among us, our tenants, and/or the taxable REIT subsidiary are not comparable to similar arrangements among unrelated parties. A taxable REIT subsidiary may also engage in other activities that, if conducted by us other than through a taxable REIT subsidiary, could result in the receipt of non-qualified income or the ownership of nonqualified assets or could otherwise adversely affect us.

We may from time to time enter into hedging transactions with respect to interest rate exposure on one or more of our assets or liabilities. Any such hedging transactions could take a variety of forms, including the use of derivative instruments such as interest rate swap contracts, interest rate cap or floor contracts, futures or forward contracts, and options. For taxable years beginning in 2005 or later, except to the extent provided by Treasury Regulations, any income from a hedging transaction (i) made in the normal course of our business primarily to manage risk of interest rate or price changes or currency fluctuations with respect to borrowings made or to be made, or ordinary obligations incurred or to be incurred by us to acquire or own real estate assets or (ii) entered into after July 30, 2008 primarily to manage the risk of currency fluctuations with respect to any item of income or gain that would be qualifying income under the 75% or 95% income tests (or any property which generates such income or gain), which is clearly identified as such before the close of the day on which it was acquired, originated or entered into, including gain from the disposition of such a transaction, will not constitute gross income for purposes of the 95% gross income test and, in

respect of hedges entered into after July 30, 2008, the 75% gross income test. Any income from such hedging transactions for taxable years beginning prior to 2005 is qualifying income for purposes of the 95% test, but nonqualifying for purposes of the 75% test. To the extent we enter into other types of hedging transactions, the income from those transactions is likely to be treated as non-qualifying income for the purposes of both the 75% and 95% gross income tests.

## **Table of Contents**

We intend to structure any hedging transactions in a manner that does not jeopardize our status as a REIT. No assurance can be given, however, that our hedging activities will not give rise to income that does not qualify for purposes of either or both of the REIT income tests, and will not adversely affect our ability to satisfy the REIT qualification requirements.

We expect the bulk of our income to qualify under the 75% Income and 95% Income Tests as rents from real property in accordance with the requirements described above. In this regard, we anticipate that most of our leases will be for fixed rentals with annual consumer price index or similar adjustments and that none of the rentals under our leases will be based on the income or profits of any person. In addition, none of our tenants are expected to be Related Party Tenants and the portion of the rent attributable to personal property is not expected to exceed 15% of the total rent to be received under any lease. Finally, we anticipate that all or most of the services to be performed with respect to our properties will be performed by our property manager and such services are expected to be those usually or customarily rendered in connection with the rental of real property and not rendered to the occupant of such property. In addition, we anticipate that any non-customary services will be provided by a taxable REIT subsidiary or, alternatively, by an independent contractor that is adequately compensated and from whom we derive no income. However, we can give no assurance that the actual sources of our gross income will allow us to satisfy the 75% Income and the 95% Income Tests described above.

Notwithstanding our failure to satisfy one or both of the 75% Income and the 95% Income Tests for any taxable year, we may still qualify as a REIT for that year if we are eligible for relief under specific provisions of the Internal Revenue Code. These relief provisions generally will be available if:

Our failure to meet these tests was due to reasonable cause and not due to willful neglect; and

following our identification of the failure to meet the 75% or 95% Income Test for any taxable year, we file a schedule with the IRS setting forth each item of our gross income for purposes of such tests for such taxable year.

It is not possible, however, to state whether, in all circumstances, we would be entitled to the benefit of these relief provisions. In addition, as discussed above in *General Taxation of Our Company*, even if these relief provisions apply, a tax would be imposed with respect to the excess net income.

### ***Operational Requirements Asset Tests***

At the close of each quarter of our taxable year, we also must satisfy four tests, which we refer to as the Asset Tests, relating to the nature and diversification of our assets.

First, at least 75% of the value of our total assets must be represented by real estate assets, cash, cash items and government securities. The term *real estate assets* includes real property, mortgages on real property, shares in other qualified REITs, property attributable to the temporary investment of new capital and a proportionate share of any real estate assets owned by a partnership in which we are a partner or of any qualified REIT subsidiary of ours. Real estate assets include, for this purpose, stock or debt instruments held for less than one year purchased with the proceeds of an offering of shares of our common stock or certain debt.

Second, no more than 25% of our total assets may be represented by securities other than those in the 75% asset class.

Third, of the investments included in the 25% asset class, the value of any one issuer's securities that we own may not exceed 5% of the value of our total assets. Additionally, we may not own more than 10% of the voting power or value of any one issuer's outstanding securities. This Asset Test does not apply to securities of a taxable REIT subsidiary. For purposes of this Asset Test and the second Asset Test, securities do not include the equity or debt securities of a qualified REIT subsidiary of ours or an equity interest in any entity treated as a partnership for federal tax purposes.

---

**Table of Contents**

Fourth, no more than 25% of the value of our total assets (20% for taxable years beginning on or before July 30, 2008) may consist of the securities of one or more taxable REIT subsidiaries. Subject to certain exceptions, a taxable REIT subsidiary is any corporation, other than a REIT, in which we directly or indirectly own stock and with respect to which a joint election has been made by us and the corporation to treat the corporation as a taxable REIT subsidiary of ours and also includes any corporation, other than a REIT, in which a taxable REIT subsidiary of ours owns, directly or indirectly, more than 35 percent of the voting power or value.

The Asset Tests must generally be met for any quarter in which we acquire securities or other property. If we meet the Asset Tests at the close of any quarter, we will not lose our REIT status for a failure to satisfy the Asset Tests at the end of a later quarter in which we have not acquired any securities or other property if such failure occurs solely because of changes in asset values. If our failure to satisfy the Asset Tests results from an acquisition of securities or other property during a quarter, we can cure the failure by disposing of a sufficient amount of non-qualifying assets within 30 days after the close of that quarter. We intend to maintain adequate records of the value of our assets to ensure compliance with the Asset Tests and to take other action within 30 days after the close of any quarter as may be required to cure any noncompliance.

The Internal Revenue Code also provides that certain securities will not cause a violation of the 10% value test described above. Such securities include instruments that constitute straight debt, which includes securities having certain contingency features. A security will not, however, qualify as straight debt where a REIT (or a controlled taxable REIT subsidiary of the REIT) owns other securities of the issuer of that security which do not qualify as straight debt, unless the value of those other securities constitute, in the aggregate, 1% or less of the total value of that issuer's outstanding securities. In addition to straight debt, the Internal Revenue Code provides that certain other securities will not violate the 10% value test. Such securities include (a) any loan made to an individual or an estate, (b) certain rental agreements in which one or more payments are to be made in subsequent years (other than agreements between a REIT and certain persons related to the REIT), (c) any obligation to pay rents from real property, (d) securities issued by governmental entities that are not dependent in whole or in part on the profits of (or payments made by) a non-governmental entity, (e) any security issued by another REIT, and (f) any debt instrument issued by a partnership if the partnership's income is of a nature that it would satisfy the 75% Income Test described above under Requirements for Qualification as a REIT Operational Requirements Gross Income Tests. The Internal Revenue Code provides that in applying the 10% value test, a debt security issued by a partnership is not taken into account to the extent, if any, of the REIT's proportionate equity interest in that partnership.

The Internal Revenue Code contains a number of provisions applicable to REITs, including relief provisions, that make it easier for REITs to satisfy the asset requirements, or to maintain REIT qualification notwithstanding certain violations of the asset and other requirements.

One such provision applies to *de minimis* violations of the 10% and 5% asset tests. A REIT may maintain its qualification despite a violation of such requirements if (a) the value of the assets causing the violation does not exceed the lesser of 1% of the REIT's total assets, or \$10,000,000, and (b) the REIT either disposes of the assets causing the failure within 6 months after the last day of the quarter in which it identifies the failure, or the relevant tests are otherwise satisfied within that time frame.

A second relief provision allows a REIT which fails one or more of the asset requirements and is ineligible for relief under the *de minimis* rule to nevertheless maintain its REIT qualification if (a) it provides the IRS with a description of each asset causing the failure, (b) the failure is due to reasonable cause and not willful neglect, (c) the REIT pays a tax equal to the greater of (i) \$50,000 per failure, or (ii) the product of the net income generated by the assets that caused the failure multiplied by the highest applicable corporate tax rate (currently 35%), and (d) the REIT either disposes of the assets causing the failure within 6 months after the last day of the quarter in which it identifies the

failure, or otherwise satisfies the relevant asset tests within that time frame.

---

**Table of Contents*****Operational Requirements Annual Distribution Requirement***

In order to be taxed as a REIT, we are required to make distributions, other than capital gain distributions, to our stockholders each year in the amount at least equal to (1) the sum of (a) 90% of our REIT taxable income, computed without regard to the dividends paid deduction and our net capital gain and (b) 90% of the net income, after tax, from foreclosure property, minus (2) the sum of certain specified items of noncash income. In addition, if we should acquire any asset from a C corporation in a carry-over basis transaction and we subsequently recognize any built-in gain during the applicable recognition period (currently, 10 years), we will be required, under Treasury regulations, to include such built-in gain recognized in our REIT taxable income and to distribute at least 90% of the same. While we must generally pay distributions in the taxable year to which they relate, we may also pay distributions in the following taxable year if (1) they are declared before we timely file our federal income tax return for the taxable year in question, and if (2) they are paid on or before the first regular distribution payment date after the declaration.

Even if we satisfy the foregoing distribution requirement and, accordingly, continue to qualify as a REIT for tax purposes, we will still be subject to federal income tax on the excess of our net capital gain and our REIT taxable income, as adjusted, over the amount of distributions to stockholders.

In addition, if we fail to distribute during each calendar year at least the sum of:

85% of our ordinary income for that year;

95% of our capital gain net income other than the capital gain net income which we elect to retain and pay tax on for that year; and

any undistributed taxable income from prior periods,  
we will be subject to a 4% nondeductible excise tax on the excess of the amount of the required distributions over the sum of (A) the amounts actually distributed plus (B) retained amounts on which corporate level tax is paid by us.

We intend to make timely distributions sufficient to satisfy this requirement; however, it is possible that we may experience timing differences between (1) the actual receipt of income and payment of deductible expenses, and (2) the inclusion of that income and deduction of those expenses for purposes of computing our taxable income. It is also possible that we may be allocated a share of net capital gain attributable to the sale of depreciated property by the Operating Partnership that exceeds our allocable share of net cash proceeds attributable to that sale or the Operating Partnership may utilize operating income and/or net sales proceeds to meet other obligations or create reserves rather than distributing it to Unitholders, including us. In those circumstances, we may have less cash than is necessary to meet our annual distribution requirement or to avoid income or excise taxation on undistributed income. We may find it necessary in those circumstances to arrange for financing or raise funds through the issuance of additional shares or to pay a taxable stock dividend (as described below) in order to meet our distribution requirements. If we fail to satisfy the distribution requirement for any taxable year by reason of a later adjustment to our taxable income made by the Internal Revenue Service, we may be able to pay deficiency dividends in a later year and include such distributions in our deductions for dividends paid for the earlier year. In that event, we may be able to avoid losing our REIT status or being taxed on amounts distributed as deficiency dividends, but we would be required to pay an interest charge to the Internal Revenue Service based upon the amount of any deduction taken for deficiency dividends for the earlier year.

As noted above, we may also elect to retain, rather than distribute, our net long-term capital gains. The effect of such an election would be as follows:

We would be required to pay the federal income tax on these gains;

Taxable U.S. stockholders, while required to include their proportionate share of the undistributed long-term capital gains in income, would receive a credit or refund for their share of the tax paid by the REIT; and

## **Table of Contents**

The basis of the stockholder's shares would be increased by the difference between the designated amount included in the stockholder's long-term capital gains and the tax deemed paid with respect to such shares. In computing our REIT taxable income, we will use the accrual method of accounting and intend to depreciate depreciable property under the alternative depreciation system. We are required to file an annual federal income tax return, which, like other corporate returns, is subject to examination by the Internal Revenue Service. Because the tax law requires us to make many judgments regarding the proper treatment of a transaction or an item of income or deduction, it is possible that the Internal Revenue Service will challenge positions we take in computing our REIT taxable income and our distributions.

Issues could arise, for example, with respect to the allocation of the purchase price of properties between depreciable or amortizable assets and non-depreciable or non-amortizable assets such as land and the current deductibility of fees paid to our former advisor or its affiliates. Were the Internal Revenue Service to successfully challenge our characterization of a transaction or determination of our REIT taxable income, we could be found to have failed to satisfy a requirement for qualification as a REIT. If, as a result of a challenge, we are determined to have failed to satisfy the distribution requirements for a taxable year, we would be disqualified as a REIT, unless we were permitted to pay a deficiency dividend to our stockholders and pay interest thereon to the Internal Revenue Service, as provided by the Internal Revenue Code. A deficiency dividend cannot be used to satisfy the distribution requirement, however, if the failure to meet the requirement is not due to a later adjustment to our income or dividends paid deduction by the Internal Revenue Service.

### ***Operational Requirements Record Keeping***

We must maintain certain records as set forth in Treasury Regulations in order to avoid the payment of monetary penalties to the Internal Revenue Service. Such Treasury Regulations require that we request, on an annual basis, certain information designed to disclose the ownership of our outstanding shares. We intend to comply with these requirements.

### **Failure to Qualify as a REIT**

If we fail to qualify as a REIT for any reason in a taxable year and applicable relief provisions do not apply, we will be subject to tax (including any applicable alternative minimum tax) on our taxable income at regular corporate rates. We will not be able to deduct distributions paid to our stockholders in any year in which we fail to qualify as a REIT. In this situation, to the extent of current and accumulated earnings and profits, all distributions to our stockholders that are individuals will generally be taxable at capital gains rates (through 2012), and, subject to limitations of the Internal Revenue Code, corporate distributees may be eligible for the dividends received deduction. We also will be disqualified from re-electing to be taxed as a REIT for the four taxable years following the year during which qualification was lost unless we are entitled to relief under specific statutory provisions.

### **Sale-Leaseback Transactions**

Some of our investments may be in the form of sale-leaseback transactions. We normally intend to treat these transactions as true leases for U.S. federal income tax purposes. However, depending on the terms of any specific transaction, the Internal Revenue Service might take the position that the transaction is not a true lease but is more properly treated in some other manner. If such re-characterization were successful, we would not be entitled to claim the depreciation deductions available to an owner of the property. In addition, the re-characterization of one or more of these transactions might cause us to fail to satisfy the Asset Tests or the Income Tests described above based upon the asset we would be treated as holding or the income we would be treated as having earned and such failure could result in our failing to qualify as a REIT. Alternatively, the

## **Table of Contents**

amount or timing of income inclusion or the loss of depreciation deductions resulting from the re-characterization might cause us to fail to meet the distribution requirement described above for one or more taxable years absent the availability of the deficiency dividend procedure or might result in a larger portion of our distributions being treated as ordinary distribution income to our stockholders.

## **Prohibited Transactions**

Net income derived from prohibited transactions (including certain foreign currency gain recognized after July 30, 2008) is subject to 100% tax. The term prohibited transactions generally includes a sale or other disposition of property (other than foreclosure property) that is held primarily for sale to customers in the ordinary course of a trade or business. Whether property is held primarily for sale to customers in the ordinary course of a trade or business depends on the specific facts and circumstances. The Internal Revenue Code provides a safe harbor pursuant to which sales of properties held for at least two years and meeting certain additional requirements will not be treated as prohibited transactions, but compliance with the safe harbor may not always be practical. Moreover the character of REIT dividends attributable to gain from assets that comply with the foregoing safe harbor as ordinary income or capital gain must still be determined pursuant to the specific facts and circumstances. We intend to hold our properties for investment with a view to long-term appreciation, to engage in the business of owning and operating properties and to make sales of properties that are consistent with our investment objectives, however, no assurance can be given that any particular property in which we hold a direct or indirect interest will not be treated as property held for sale to customers, or that the safe-harbor provisions will apply. The 100% tax will not apply to gains from the sale of property held through a taxable REIT subsidiary or other taxable corporation, although such income will be subject to tax at regular corporate income tax rates.

## **Taxation of Taxable U.S. Stockholders**

### ***Definition***

In this section, the phrase U.S. stockholder means a holder of our common stock that for U.S. federal income tax purposes is:

a citizen or resident of the United States;

a corporation or other entity treated as a corporation for U.S. federal income tax purposes created or organized in or under the laws of the United States or of any political subdivision thereof;

an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or

any trust if (1) a United States court is able to exercise primary supervision over the administration of such trust and one or more United States persons have the authority to control all substantial decisions of the trust or (2) it has a valid election in place to be treated as a United States person.

The U.S. federal income tax treatment of a partner in a partnership that holds our common stock generally will depend on the status of the partner and the activities of such partnership. Partners and partnerships should consult their own tax advisors as to the particular U.S. federal income tax consequences applicable to them.

For any taxable year for which we qualify for taxation as a REIT, amounts distributed to, and gains realized by, taxable U.S. stockholders with respect to our common shares generally will be taxed as described below.

***Distributions Generally***

Distributions to U.S. stockholders, other than capital gain distributions discussed below, will constitute dividends up to the amount of our current or accumulated earnings and profits and will be taxable to stockholders as ordinary income. As long as we qualify as a REIT, these distributions are not eligible for the dividends received deduction generally available to corporations. In addition, with limited exceptions, these distributions

---

**Table of Contents**

are not eligible for taxation at the preferential income tax rates for qualified distributions received by individuals from taxable C corporations. Stockholders that are individuals, however, are taxed at the preferential rates on distributions designated by and received from us to the extent that the distributions are attributable to (i) income retained by us in the prior taxable year on which we were subject to corporate level income tax (less the amount of tax), (ii) distributions received by us from taxable C corporations, including our taxable REIT subsidiaries, or (iii) income in the prior taxable year from the sales of built-in gain property acquired by us from C corporations in carryover basis transactions (less the amount of corporate tax on such income).

To the extent that we make a distribution in excess of our current and accumulated earnings and profits, the distribution will be treated first as a tax-free return of capital, reducing the tax basis in the U.S. stockholder's shares, and the amount of each distribution in excess of a U.S. stockholder's tax basis in its shares will be taxable as gain realized from the sale of its shares. Distributions that we declare in October, November or December of any year payable to a stockholder of record on a specified date in any of these months will be treated as both paid by us and received by the stockholder on December 31 of the year, provided that we actually pay the distribution during January of the following calendar year. U.S. stockholders may not include any of our losses on their own federal income tax returns.

We will be treated as having sufficient earnings and profits to treat as a dividend any distribution by us up to the amount required to be distributed in order to avoid imposition of the 4% excise tax discussed above. Moreover, any deficiency dividend will be treated as an ordinary or capital gain dividends, as the case may be, regardless of our earnings and profits. As a result, stockholders may be required to treat as taxable some distributions that would otherwise result in a tax-free return of capital.

The discussion in this section applies equally to distributions payable in cash and taxable stock distributions. The Internal Revenue Code provides that certain distributions payable in stock will be treated as taxable stock dividends. In addition, shares acquired through a distribution reinvestment plan are treated as taxable stock dividends. U.S. stockholders receiving taxable dividends of stock will be required to include as dividend income the fair market value of the stock received plus any cash or other property received in the distribution, to the extent of our current and accumulated earnings and profits for U.S. federal income tax purposes. As a result, a U.S. shareholder may be required to pay tax with respect to such dividends in excess of the cash received. If a U.S. shareholder sells the stock it receives as a dividend, the sales proceeds may be less than the amount included in income with respect to the dividend, depending on the market price of the stock at the time of the sale.

***Capital Gain Dividends***

Distributions to U.S. stockholders that we properly designate as capital gain dividends normally will be treated as long-term capital gains to the extent they do not exceed our actual net capital gain for the taxable year without regard to the period for which the U.S. stockholder has held his stock. A corporate U.S. stockholder might be required to treat up to 20% of some capital gain dividends as ordinary income. Long-term capital gains are generally taxable at maximum federal rates of 20% in the case of stockholders who are individuals, and 35% in the case of stockholders that are corporations. Capital gains attributable to the sale of depreciable real property held for more than 12 months are subject to a 25% maximum federal income tax rate for taxpayers who are individuals, to the extent of previously claimed depreciation deductions. See Requirements for Qualification as a REIT Operational Requirements Annual Distribution Requirement above for the treatment by U.S. stockholders of net long-term capital gains that we elect to retain and pay tax on.

***Certain Dispositions of Shares of Our Common Stock***

In general, capital gains recognized by individuals upon the sale or disposition of shares of our common stock will be subject to a maximum federal income tax rate of 20%, if such stock is held for more than 12 months, and will be taxed at ordinary income rates (of up to 39.6%) if such stock is held for 12 months or less. Gains recognized by stockholders that are corporations are subject to federal income tax at a maximum rate of 35%, whether or not classified as long-term capital gains.

## **Table of Contents**

Capital losses recognized by a stockholder upon the disposition of shares of our common stock will be considered capital losses, and are generally available only to offset capital gain income of the stockholder but not ordinary income (except in the case of individuals, who may offset up to \$3,000 of ordinary income each year). In addition, any loss upon a sale or exchange of shares of our common stock by a stockholder who has held such shares for six months or less, after applying holding period rules, will be treated as a long-term capital loss to the extent of distributions received from us that are required to be treated by the stockholder as long-term capital gain.

### ***Passive Activity Losses and Investment Interest Limitations***

Distributions made by us and gain arising from the sale or exchange by a U.S. Stockholder of our stock will not be treated as passive activity income. As a result, a U.S. Stockholder will not be able to apply any passive losses against income or gain relating to our stock. Distributions made by us, to the extent they do not constitute return of capital, generally will be treated as investment income for purposes of computing the investment interest limitation.

### ***Net Investment Income Tax***

A U.S. stockholder that is an individual is subject to a 3.8% tax on the lesser of (1) such stockholder's net investment income for the relevant taxable year and (2) the excess of such stockholder's modified gross income for the taxable year over a certain threshold (which will be between \$125,000 and \$250,000, depending on the individual's circumstances). U.S. stockholders that are estates or certain trusts that do not fall into a special class of trusts that is exempt from such tax are subject to the 3.8% tax on the lesser of (A) their undistributed net investment income or (B) the excess of their adjusted gross income for the taxable year over a certain threshold. Net investment income generally includes dividends on our stock and net gain from the disposition of our stock. If you are a U.S. stockholder that is an individual, estate or trust, you are urged to consult your tax advisors regarding the applicability of the Net Investment Income tax to your income and gains in respect of your investment in our stock.

### ***Information Reporting Requirements and Backup Withholding for U.S. Stockholders***

We will report to U.S. stockholders of our common shares and to the Internal Revenue Service the amount of distributions made or deemed made during each calendar year and the amount of tax withheld, if any. Under some circumstances, U.S. stockholders may be subject to backup withholding at a current rate of up to 28% on payments made with respect to, or cash proceeds of a sale or exchange of, our common stock. Payors are required to backup withhold on any payments if:

the payee fails to furnish its taxpayer identification number or TIN (which, for an individual, would be his or her Social Security number), or to establish an exemption from backup withholding;

there has been a notified payee under-reporting with respect to interest, dividends, or original issue discount described in Section 3406(c) of the Code;

the payor is notified by the Internal Revenue Service that the TIN furnished by the payee is incorrect ; or

the payee fails to certify, under penalties of perjury, that it is not subject to backup withholding under the Code.

Backup withholding will not apply with respect to payments made to some stockholders, such as corporations, in certain circumstances and to tax-exempt organizations. Backup withholding is not an additional tax. Rather, the amount of any backup withholding with respect to a payment to a U.S. stockholder will be allowed as a credit against the U.S. stockholder's United States federal income tax liability and may entitle the U.S. stockholder to a refund, provided that the required information is furnished to the Internal Revenue Service.

## **Table of Contents**

U.S. stockholders should consult their tax advisors regarding their qualification for exemption from backup withholding and the procedure for obtaining an exemption.

### **Treatment of Tax-Exempt Stockholders**

Tax-exempt entities including qualified employee pension benefit trusts, profit sharing trusts and individual retirement accounts generally are exempt from United States federal income taxation. These entities are subject to taxation, however, on any unrelated business taxable income, or UBTI, as defined in the Internal Revenue Code. The Internal Revenue Service has issued a published ruling that distributions from a REIT to a tax-exempt pension trust does not constitute UBTI so long as the trust does not otherwise use the stock of the REIT in an unrelated trade or business of the tax-exempt pension trust.

Although rulings are merely interpretations of law by the Internal Revenue Service and may be revoked or modified, based on this analysis, indebtedness incurred by us or by the Operating Partnership in connection with the acquisition of a property should not cause any income derived from the property to be treated as UBTI upon the distribution of those amounts as dividends to a tax-exempt U.S. stockholder of our common shares. A tax-exempt entity that incurs indebtedness to finance its purchase of our common shares, however, will be subject to UBTI under the debt-financed income rules. However, social clubs, voluntary employee benefit associations, supplemental unemployment benefit trusts and qualified group legal services plans that are exempt from taxation under specified provisions of the Internal Revenue Code are subject to different UBTI rules, which generally will require them to treat dividend distributions from us as UBTI. These organizations are urged to consult their own tax advisor with respect to the treatment of our distributions to them.

In addition, tax-exempt pension and specified other tax-exempt trusts that hold more than 10% by value of the shares of a REIT may be required to treat a specified percentage of REIT dividends as UBTI. This requirement applies only if our qualification as a REIT depends upon the application of a look-through exception to the closely-held restriction and we are considered to be predominantly held by those tax-exempt trusts. It is not anticipated that our qualification as a REIT will depend upon application of the look-through exception or that we will be predominantly held by these types of trusts.

### **Special Tax Considerations for Non-U.S. Stockholders**

The rules governing United States federal income taxation of non-resident alien individuals, foreign corporations, foreign partnerships and other foreign stockholders who are not U.S. stockholders as defined above, which we collectively refer to as Non-U.S. stockholders, are complex. The following discussion is intended only as a summary of these rules. Non-U.S. Stockholders should consult with their own tax advisors to determine the impact of United States federal, state and local income tax laws on an investment in our common stock, including any reporting requirements as well as the tax treatment of the investment under the tax laws of their home country

#### ***Ordinary Dividends***

The portion of distributions received by Non-U.S. stockholders payable out of our earnings and profits which are not attributable to our capital gains and which are not effectively connected with a U.S. trade or business of the Non-U.S. stockholder will be subject to U.S. withholding tax at the rate of 30%, unless reduced by treaty. Non-U.S. stockholders from treaty jurisdictions should note, however, that reduced rates of dividend withholding generally available under treaties may not apply, or may not apply as favorably, to dividends from REITs. In general, Non-U.S. stockholders will not be considered to be engaged in a U.S. trade or business solely as a result of their ownership of our common stock. In cases where the dividend income from a Non-U.S. stockholder's investment in our common

stock is, or is treated as, effectively connected with the Non-U.S. stockholder's conduct of a U.S. trade or business, the Non-U.S. stockholder generally will be subject to U.S. tax at graduated rates, in the same manner as domestic stockholders are taxed with respect to such distributions, such income must generally be reported on a U.S. income tax return filed by or on behalf of the Non-U.S. stockholder,

**Table of Contents**

and the income may also be subject to the 30% branch profits tax in the case of a Non-U.S. stockholder that is a corporation. We plan to withhold United States income tax at the rate of 30% on the gross amount of any distribution paid to a Non-U.S. stockholders unless either:

a lower treaty rate applies and the Non-U.S. stockholders files an IRS Form W-8BEN or IRS Form W-8BEN-E evidencing eligibility for that reduced rate with us; or

the Non-U.S. stockholder files an IRS Form W-8ECI with us certifying that the distribution is effectively connected income.

***Non-Dividend Distributions***

Unless our common stock constitutes a U.S. real property interest, or a USRPI, as described in Dispositions of Our Common Stock below, or either (i) the Non-U.S. stockholder's investment in our common shares is effectively connected with a U.S. trade or business conducted by such Non-U.S. stockholder (in which case the Non-U.S. stockholder will be subject to the same treatment as U.S. stockholders with respect to any gain recognized from such distribution), or (ii) the Non-U.S. stockholder is a nonresident alien individual who was present in the U.S. for 183 days or more during the taxable year and other requirements are met (in which case the Non-U.S. stockholder will be subject to a 30% tax on the individual's net capital gain for the year), distributions by us which are not dividends out of our earnings and profits will not be subject to U.S. income tax. If it cannot be determined at the time at which a distribution is made whether or not the distribution will exceed current and accumulated earnings and profits, the distribution will be subject to withholding at the rate applicable to dividends. However, the Non-U.S. stockholder may seek a refund from the Internal Revenue Service of any amounts withheld if it is subsequently determined that the distribution was, in fact, in excess of our current and accumulated earnings and profits. If our common stock constitutes a USRPI, as described below, distributions by us in excess of the sum of our earnings and profits plus the stockholder's basis in our stock will be taxed under FIRPTA, at the rate of tax, including any applicable capital gains rates, that would apply to a domestic stockholder of the same type (e.g., an individual or a corporation, as the case may be), and the collection of the tax will be enforced by a refundable withholding at a rate of 10% of the amount by which the distribution exceeds the stockholder's share of our earnings and profits.

***Capital Gain Distributions***

Under FIRPTA, a distribution made by us to a Non-U.S. stockholder, to the extent attributable to gains from dispositions of USRPIs held by us directly or through pass-through subsidiaries, or USRPI capital gains, will be considered effectively connected with a U.S. trade or business of the Non-U.S. stockholder and will be subject to federal income tax at the rates applicable to U.S. individuals or corporations, without regard to whether the distribution is designated as a capital gain dividend. See Ordinary Dividends above for a discussion of the consequences of income that is effectively connected with a U.S. trade or business. In addition, we will be required to withhold tax equal to 35% of the amount of dividends to the extent the dividends constitute USRPI capital gains, and this amount is creditable against the Non-U.S. stockholder's U.S. tax liability, and to the extent it such exceeds such Non-U.S. stockholder's U.S. tax liability, is refundable. Distributions that are attributable to gain from sales or exchanges of USRPIs (including capital gain distributions) with respect to any class of our stock that is regularly traded on an established securities market located in the United States will not be treated as gain recognized from the sale or exchange of a USRPI if the Non-U.S. stockholder does not own more than 5% of such class of stock at any time during the 1-year period ending on the date of distribution. Instead, any such distribution will be treated as an ordinary dividend for U.S. federal income tax purposes. We believe that our stock is currently regularly traded on an

established securities market. However, we cannot assure you that we will continue to be regularly traded at all times in the future. Distributions subject to FIRPTA may also be subject to a 30% branch profits tax in the hands of a Non-U.S. stockholder that is a corporation. Capital gain dividends received by a Non-U.S. stockholder from a REIT that are not USRPI capital gains are generally not subject to U.S. income tax unless: (1) the investment in our common stock is effectively connected with the Non-U.S. stockholder's U.S. trade or business (through a U.S. permanent establishment, if the Non-U.S. stockholder is entitled to the benefits of an applicable tax treaty and such tax treaty so requires as a condition for taxation), in

---

**Table of Contents**

which case the Non-U.S. stockholder will be subject to the same treatment as U.S. stockholders with respect to any gain, except that a holder of a foreign corporation also may be subject to the 30% branch profits tax, as discussed above; or (2) the Non-U.S. stockholder is a nonresident alien individual who is present in the United States 183 days or more during the taxable year and certain other requirements are met, in which case the nonresident alien individual will be subject to a 30% tax on the individual's capital gains, reduced by certain capital losses. Capital gain dividends received by a Non-U.S. stockholder from us that are not USRPI capital gains may be subject to withholding.

***Distributions of Stock and Cash***

In the event that we make distributions payable in stock that are treated as taxable stock dividends for U.S. federal income tax purposes, we will generally withhold and remit to the IRS 30% of the amount of the dividend (including any portion of the dividend paid in our common stock). If such withholding exceeds a Non-U.S. stockholder's actual U.S. federal income tax liability, such Non-U.S. stockholder may be entitled to a refund or credit for such excess. To the extent that the amount we are required to withhold with respect to a Non-U.S. stockholder exceeds the cash portion of the dividend payable to such Non-U.S. stockholder, we will also withhold a portion of the common stock payable to the Non-U.S. stockholder to the extent necessary for us to satisfy our withholding obligations. Furthermore, to the extent that any portion of such a distribution is treated as effectively connected with a Non-U.S. stockholder's U.S. trade or business, the Non-U.S. stockholder's tax liability with respect to such dividend may be significantly greater than the amount of cash it receives.

***Dispositions of Our Common Stock***

Unless our common stock constitutes a USRPI, a sale of our common stock by a Non-U.S. stockholder generally will not be subject to U.S. taxation under FIRPTA. Subject to the exceptions described below, our common stock generally will be treated as a USRPI if 50% or more of our assets throughout a prescribed testing period consist of interests in real property located within the United States, excluding, for this purpose, interests in real property solely in a capacity as a creditor.

However, our common stock will not constitute a USRPI if we are a domestically controlled qualified investment entity. A domestically controlled qualified investment entity includes a REIT in which, at all times during a specified testing period, less than 50% in value of its shares is held directly or indirectly by Non-U.S. stockholders. No assurance can be given that we will be a domestically controlled qualified investment entity. In the event that we do not constitute a domestically controlled qualified investment entity, a person's sale of stock nonetheless will generally not be subject to tax under FIRPTA as a sale of a USRPI, provided that (1) the stock owned is of a class that is regularly traded, as defined by applicable Treasury regulations, on an established securities market, and (2) the selling Non-U.S. stockholder held 5% or less of our outstanding stock of that class at all times during a specified testing period. We believe that our stock is currently regularly traded on an established securities market. However, we cannot assure you that we will continue to be regularly traded at all times in the future.

Specific wash sale rules applicable to sales of shares in a domestically-controlled REIT could result in gain recognition, taxable under FIRPTA, upon the sale of our common shares even if we are a domestically-controlled qualified investment entity. These rules would apply if a Non-U.S. stockholder (1) disposes of our common shares within a 30-day period preceding the ex-dividend date of a distribution, any portion of which, but for the disposition, would have been taxable to such Non-U.S. stockholder as gain from the sale or exchange of a USRPI, (2) acquires, or enters into a contract or option to acquire, other shares during the 61-day period that begins 30 days prior to such ex-dividend date, and (3) if our common shares are regularly traded on an established securities market in the United States, such Non-U.S. stockholder has owned more than 5% of such class of outstanding shares at any time during the one-year period ending on the date of such distribution.

If the gain on the sale of shares were subject to taxation under FIRPTA, a Non-U.S. stockholder would be subject to the same treatment as a U.S. stockholder with respect to the gain, subject to any applicable alternative

## **Table of Contents**

minimum tax and a special alternative minimum tax in the case of non-resident alien individuals. Gain from the sale of our common stock that would not otherwise be subject to FIRPTA will nonetheless be taxable in the United States to a Non-U.S. stockholder in two cases: (a) if the Non-U.S. stockholder's investment in our common stock is effectively connected with a U.S. trade or business conducted by such Non-U.S. stockholder, the Non-U.S. stockholder will be subject to the same treatment as a U.S. stockholder with respect to such gain plus an additional branch profits tax of up to 30% in the case of corporate Non-U.S. stockholders, or (b) if the Non-U.S. stockholder is a nonresident alien individual who was present in the United States for 183 days or more during the taxable year and other requirements are met, the nonresident alien individual will be subject to a 30% tax on the individual's capital gain, reduced by certain capital losses.

### ***Information Reporting Requirements and Backup Withholding for Non-U.S. Stockholders***

Non-U.S. stockholders should consult their tax advisors with regard to U.S. information reporting and backup withholding requirements under the Internal Revenue Code.

### ***Additional U.S. Federal Income Tax Withholding Rules***

The Foreign Account Tax Compliance Act ( FATCA ) provisions of the Internal Revenue Code impose withholding taxes on certain types of payments to foreign financial institutions and certain other non-U.S. entities. The withholding tax of 30% would apply to dividends and the gross proceeds of a disposition of our stock paid to certain foreign entities unless various information reporting requirements are satisfied. For these purposes, a foreign financial institution generally is defined as any non-U.S. entity that (i) accepts deposits in the ordinary course of a banking or similar business, (ii) is engaged in the business of holding financial assets for the account of others, or (iii) is engaged or holds itself out as being engaged primarily in the business of investing, reinvesting, or trading in securities, partnership interests, commodities, or any interest in such assets. Currently, withholding is required under FATCA on certain U.S. source income (including dividends paid in respect of our capital stock). Withholding on all other withholdable payments (including gross proceeds from a disposition of our common stock) are expected to apply to payments made on or after January 1, 2017. We will not pay additional amounts in respect of amounts withheld under FATCA. Prospective investors are encouraged to consult their tax advisors regarding the implications of this legislation on their investment in our common stock, as well as the status of any related federal regulations and any other legislative proposals that may pertain to the ownership and disposition of our common stock.

### **Statement of Stock Ownership**

We are required to demand annual written statements from the record holders of designated percentages of our common stock disclosing the actual owners of the shares. Any record stockholder who, upon our request, does not provide us with required information concerning actual ownership of the shares is required to include specified information relating to his shares in his federal income tax return. We also must maintain, within the Internal Revenue District in which we are required to file our federal income tax return, permanent records showing the information we have received about the actual ownership of our common stock and a list of those persons failing or refusing to comply with our demand.

### **Federal Income Tax Aspects of Our Partnership**

The following discussion summarizes certain federal income tax considerations applicable to our investment in the Operating Partnership. The discussion does not cover state or local tax laws or any federal tax laws other than income tax laws.

***Classification as a Partnership***

We will be entitled to include in our income a distributive share of the Operating Partnership's income and to deduct our distributive share of the Operating Partnership's losses only if the Operating Partnership is classified for U.S. federal income tax purposes as a partnership, rather than as a corporation or an association

**Table of Contents**

taxable as a corporation. Under applicable Treasury Regulations, which we refer to as the Check-the-Box Regulations, an unincorporated domestic entity with at least two members may elect to be classified either as an association taxable as a corporation or as a partnership. If the entity fails to make an election, it generally will be treated as a partnership for U.S. federal income tax purposes. The Operating Partnership intends to be classified as a partnership for U.S. federal income tax purposes and will not elect to be treated as an association taxable as a corporation under the Check-the-Box-Regulations.

Even though the Operating Partnership will not elect to be treated as an association for U.S. federal income tax purposes, it may be taxed as a corporation if it is deemed to be a publicly traded partnership. A publicly traded partnership is a partnership whose interests are traded on an established securities market or are readily tradable on a secondary market or the substantial equivalent thereof. We and the Operating Partnership believe and currently intend to take the position that the Operating Partnership should not be classified as a publicly traded partnership because (i) OP Units are not traded on an established securities market, and (ii) OP Units should not be considered readily tradable on a secondary market or the substantial equivalent thereof.

Even if the Operating Partnership were considered a publicly traded partnership under the PTP Regulations, the operating partnership should not be treated as a corporation for U.S. federal income tax purposes under current law as long as 90% or more of its gross income consists of qualifying income under section 7704(d) of the Internal Revenue Code. In general, qualifying income includes interest, dividends, real property rents (as defined by section 856 of the Internal Revenue Code) and gain from the sale or disposition of real property.

We have not requested, and do not intend to request, a ruling from the Internal Revenue Service that the Operating Partnership will be classified as a partnership for U.S. federal income tax purposes.

If for any reason the Operating Partnership were taxable as a corporation, rather than a partnership, for U.S. federal income tax purposes, we would not be able to qualify as a REIT, unless we are eligible for relief from the violation pursuant to relief provisions described above. See Requirements for Qualification as a REIT Organizational Requirements and Operational Requirements Asset Tests, above, for discussion of the effect of the failure to satisfy the REIT tests for a taxable year, and of the relief provisions. In addition, any change in the Operating Partnership's status for tax purposes might be treated as a taxable event, in which case we might incur a tax liability without any related cash distribution. Further, items of income and deduction of the Operating Partnership would not pass through to its partners, and its partners would be treated as stockholders for tax purposes. The Operating Partnership would be required to pay income tax at corporate tax rates on its net income, and distributions to its partners would constitute dividends that would not be deductible in computing the Operating Partnership's taxable income.

***Income Taxation of the Operating Partnership and its Partners***

*Partners, Not Partnership, Subject to Tax.* A partnership is not a taxable entity for U.S. federal income tax purposes. As a partner in the Operating Partnership, we will be required to take into account our allocable share of the Operating Partnership's income, gains, losses, deductions, and credits for any taxable year of the Operating Partnership ending within or with our taxable year, without regard to whether we have received or will receive any distributions from the Operating Partnership.

*Partnership Allocations.* Although a partnership agreement generally determines the allocation of income and losses among partners, such allocations will be disregarded for tax purposes under section 704(b) of the Internal Revenue Code if they do not comply with the provisions of section 704(b) of the Internal Revenue Code and the Treasury Regulations promulgated thereunder. If an allocation is not recognized for U.S. federal income tax purposes, the item subject to the allocation will be reallocated in accordance with the partner's interests in the partnership, which will be

determined by taking into account all of the facts and circumstances relating to the economic arrangement of the partners with respect to such item. The Operating Partnership's allocations of taxable income and loss are intended to comply with the requirements of section 704(b) of the Internal Revenue Code and the Treasury Regulations promulgated thereunder.

---

**Table of Contents**

*Tax Allocations With Respect to Contributed Properties.* Pursuant to section 704(c) of the Internal Revenue Code, income, gain, loss, and deductions attributable to appreciated or depreciated property that is contributed to a partnership in exchange for an interest in the partnership must be allocated for U.S. federal income tax purposes in a manner such that the contributor is charged with, or benefits from, the unrealized gain or unrealized loss associated with the property at the time of the contribution. The amount of unrealized gain or unrealized loss is generally equal to the difference between the fair market value of the contributed property at the time of contribution and the adjusted tax basis of such property at the time of contribution. Under applicable Treasury Regulations, partnerships are required to use a reasonable method for allocating items subject to section 704(c) of the Internal Revenue Code and several reasonable allocation methods are described therein.

Under the partnership agreement, subject to exceptions applicable to the special limited partnership interests, depreciation or amortization deductions of the Operating Partnership generally will be allocated among the partners in accordance with their respective interests in the Operating Partnership, except to the extent that the Operating Partnership is required under section 704(c) to use a different method for allocating depreciation deductions attributable to its properties. In addition, gain or loss on the sale of a property that has been contributed to the Operating Partnership will be specially allocated to the contributing partner to the extent of any built-in gain or loss with respect to the property for U.S. federal income tax purposes. It is possible that we may (1) be allocated lower amounts of depreciation deductions for tax purposes with respect to contributed properties than would be allocated to us if each such property were to have a tax basis equal to its fair market value at the time of contribution, and (2) be allocated taxable gain in the event of a sale of such contributed properties in excess of the economic profit allocated to us as a result of such sale. These allocations may cause us to recognize taxable income in excess of cash proceeds received by us, which might adversely affect our ability to comply with the REIT distribution requirements, although we do not anticipate that this event will occur. The foregoing principles also will affect the calculation of our earnings and profits for purposes of determining the portion of our distributions that are taxable as a dividend. The allocations described in this paragraph may result in a higher portion of our distributions being taxed as a dividend than would have occurred had we purchased such properties for cash.

*Basis in Partnership Interest.* The adjusted tax basis of our partnership interest in the Operating Partnership generally will be equal to (1) the amount of cash and the basis of any other property contributed to the Operating Partnership by us, (2) increased by (A) our allocable share of the Operating Partnership's income and (B) our allocable share of indebtedness of the Operating Partnership, and (3) reduced, but not below zero, by (A) our allocable share of the Operating Partnership's loss and (B) the amount of cash distributed to us, including constructive cash distributions resulting from a reduction in our share of indebtedness of the Operating Partnership. If the allocation of our distributive share of the Operating Partnership's loss would reduce the adjusted tax basis of our partnership interest in the Operating Partnership below zero, the recognition of the loss will be deferred until such time as the recognition of the loss would not reduce our adjusted tax basis below zero. If a distribution from the Operating Partnership or a reduction in our share of the Operating Partnership's liabilities would reduce our adjusted tax basis below zero, that distribution, including a constructive distribution, will constitute taxable income to us. The gain realized by us upon the receipt of any such distribution or constructive distribution would normally be characterized as capital gain, and if our partnership interest in the Operating Partnership has been held for longer than the long-term capital gain holding period (currently one year), the distribution would constitute long-term capital gain.

*Depreciation Deductions Available to the Operating Partnership.* To the extent that the Operating Partnership acquires properties for cash, the Operating Partnership's initial basis in such properties for U.S. federal income tax purposes generally will be equal to the purchase price paid by the Operating Partnership. The Operating Partnership plans to depreciate each depreciable property for U.S. federal income tax purposes under the alternative depreciation system of depreciation, or ADS. Under ADS, the Operating Partnership generally will depreciate buildings and improvements over a 40-year recovery period using a straight-line method and a mid-month convention and will

depreciate furnishings and equipment over a 12-year recovery period. To the extent that the Operating Partnership acquires properties in exchange for OP Units, the Operating Partnership s

## **Table of Contents**

initial basis in each such property for U.S. federal income tax purposes should be the same as the transferor's basis in that property on the date of acquisition by the Operating Partnership. Although the law is not entirely clear, the Operating Partnership generally intends to depreciate such depreciable property for U.S. federal income tax purposes over the same remaining useful lives and under the same methods used by the transferors.

*Sale of the Operating Partnership's Property.* Generally, any gain realized by the Operating Partnership on the sale of property held for more than one year will be long-term capital gain, except for any portion of such gain that is treated as depreciation or cost recovery recapture. Our share of any gain realized by the Operating Partnership on the sale of any property held by the Operating Partnership as inventory or other property held primarily for sale to customers in the ordinary course of the Operating Partnership's trade or business will be treated as income from a prohibited transaction that is subject to a 100% tax. We, however, do not presently intend to acquire or hold or allow the Operating Partnership to acquire or hold any property that represents inventory or other property held primarily for sale to customers in the ordinary course of our or the Operating Partnership's trade or business.

## **Other Tax Considerations**

### ***Legislative or Other Actions Affecting REITs***

The rules dealing with federal income taxation are constantly under review by persons involved in the legislative process and by the Internal Revenue Service and the U.S. Treasury Department. Changes to the federal tax laws and interpretations thereof could adversely affect an investment in our stock.

### ***State and Local Taxation***

We and any operating subsidiaries we may form may be subject to state and local tax in states and localities in which we or they do business or own property. The tax treatment of our company, the Operating Partnership, any operating subsidiaries, joint ventures or other arrangements we or the Operating Partnership may form or enter into and the tax treatment of the holders of our common stock in local jurisdictions may differ from the federal income tax treatment described above. Consequently, prospective stockholders should consult their own tax advisors regarding the effect of state and local tax laws on their investment in our common stock.

## **Taxation of Holders of Certain Fixed Rate Debt Securities**

This section describes for general information only the material United States federal income tax consequences of owning the fixed rate debt securities that DCT Industrial Trust, Inc. may offer. It is not tax advice. It applies only if the fixed rate debt securities purchased are acquired in the initial offering at the offering price and are held as a capital asset. If these fixed rate debt securities are purchased at a price other than the offering price, the amortizable bond premium or market discount rules may apply which are not described in this Prospectus. Prospective holders should consult their own tax advisors regarding these possibilities.

The tax consequences of owning any floating rate debt securities, convertible or exchangeable debt securities, or indexed debt securities that we offer will be discussed in the applicable prospectus supplement.

### ***Taxation of Taxable U.S. Holders.***

The term "U.S. Holder" means any beneficial owner of a debt security, other than an entity treated as a partnership for U.S. federal income tax purposes, that for United States federal income tax purposes, is

a citizen or resident of the United States;

a corporation (including an entity treated as a corporation for United States federal income tax purposes)  
created or organized under the laws of the United States or of a political subdivision of the United States;

---

**Table of Contents**

an estate, the income of which is subject to United States federal income taxation regardless of its source; or

any trust if (1) a United States court is able to exercise primary supervision over the administration of such trust and one or more United States persons have the authority to control all substantial decisions of the trust or (2) it has a valid election in place to be treated as a United States person.

The term *Non-U.S. Holder* shall refer to a beneficial owner of a debt security, other than an entity treated as a partnership for U.S. federal income tax purposes, that is not a U.S. Holder.

If a partnership (including for this purpose any entity treated as a partnership for U.S. federal income tax purposes) is a beneficial owner of debt securities, the treatment of a partner in the partnership will generally depend upon the status of the partner and upon the activities of the partnership. A holder of debt securities that is a partnership, and partners in such partnership, should consult their tax advisors about the U.S. federal income tax consequences of purchasing, holding and disposing of debt securities.

*Interest and Original Issue Discount.*

If the issue price of a debt security is less than its stated redemption price at maturity, then the debt security will be treated as being issued with original issue discount ( *OID* ) for U.S. federal income tax purposes unless the difference between the debt security's issue price and its stated redemption price at maturity is less than a statutory de minimis amount. Generally, the issue price of a debt security is the first price at which a substantial amount of the debt securities is sold to purchasers other than bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers. The stated redemption price at maturity of a debt security is the total of all payments to be made under the debt security other than qualified stated interest (generally, stated interest that is unconditionally payable in cash or property at least annually at a single fixed rate or at certain floating rates that properly take into account the length of the interval between stated interest payments); and, generally, is expected to equal the principal amount of the debt security. The amount of *OID* on the debt security will be de minimis if it is less than 0.0025 multiplied by the product of the stated redemption price at maturity and the number of complete years to maturity.

If the difference between the issue price and the stated redemption price at maturity of a debt security is more than the statutory de minimis amount, the debt security will be treated as having been issued with *OID*. The amount of *OID* on a debt security, which is equal to the difference, must be included in income as ordinary interest as it accrues under a constant yield method in advance of receipt of the cash payments attributable to such income, regardless of such U.S. Holder's regular method of tax accounting.

Stated interest on a debt security generally will be included in the income of a U.S. Holder as ordinary income at the time such interest is received or accrued, in accordance with the U.S. Holder's regular method of tax accounting. U.S. holders purchasing debt securities with *OID* should consult their tax advisors regarding computation of *OID* accruals.

*Disposition of the Debt Securities.*

Upon the sale, exchange, redemption, repurchase, retirement or other disposition of a debt security, a U.S. Holder generally will recognize capital gain or loss equal to the difference between (i) the amount of cash proceeds and the fair market value of any property received on the disposition (except to the extent such amount is attributable to accrued but unpaid stated interest, which is taxable as ordinary income if not previously included in such holder's income) and (ii) such U.S. Holder's adjusted tax basis in the debt security. A U.S. Holder's adjusted tax basis in a debt security generally will equal the cost of the debt security to such Holder increased by the amount of *OID* (if any)

previously included in income by such Holder and decreased by the amount of any payments other than qualified stated interest payments. Capital gain or loss recognized upon the

**Table of Contents**

disposition of a debt security will be a long-term capital gain or loss if the debt security was held for more than one year. The maximum tax rate on long-term capital gains to non-corporate U.S. Holders is generally 20%. The deductibility of capital losses is subject to limitations.

***Net Investment Income Tax***

A U.S. Holder that is an individual is subject to a 3.8% tax on the lesser of (1) such U.S. holder's net investment income for the relevant taxable year and (2) the excess of such U.S. Holder's modified gross income for the taxable year over a certain threshold (which will be between \$125,000 and \$250,000, depending on the individual's circumstances). U.S. Holders that are estates or certain trusts that do not fall into a special class of trusts that is exempt from such tax are subject to the 3.8% tax on the lesser of (A) their undistributed net investment income or (B) the excess of their adjusted gross income for the taxable year over a certain threshold. Net investment income generally includes interest on our debt securities and net gain from the disposition of our debt on September 30, 2018 and December 31, 2017 and intercompany payables to Fortis and such subsidiaries of less than \$1 million at September 30, 2018 and December 31, 2017.

Related party charges for corporate expenses from Fortis and such subsidiaries are recorded in general and administrative expense. Such expense for each of the three months ended September 30, 2018 and 2017 for ITC Holdings was \$2 million. For each of the nine months ended September 30, 2018 and 2017, such expense for ITC Holdings was \$6 million. Related party billings for services to Fortis and other subsidiaries recorded as an offset to general and administrative expenses for ITC Holdings were less than \$1 million for each of the three and nine months ended September 30, 2018 and 2017.

**Dividends**

During the nine months ended September 30, 2018, we paid dividends of \$150 million to Investment Holdings. ITC Holdings also paid dividends of \$50 million to Investment Holdings in October 2018.

**14. COMMITMENTS AND CONTINGENT LIABILITIES****Environmental Matters**

We are subject to federal, state and local environmental laws and regulations, which impose limitations on the discharge of pollutants into the environment, establish standards for the management, treatment, storage, transportation and disposal of solid and hazardous wastes and hazardous materials, and impose obligations to investigate and remediate contamination in certain circumstances. Liabilities relating to investigation and remediation of contamination, as well as other liabilities concerning hazardous materials or contamination, such as claims for personal injury or property damage, may arise at many locations, including formerly owned or operated properties and sites where wastes have been treated or disposed of, as well as properties currently owned or operated by us. Such liabilities may arise even where the contamination does not result from noncompliance with applicable environmental laws. Under some environmental laws, such liabilities may also be joint and several, meaning that a party can be held responsible for more than its share of the liability involved, or even the entire share. Although environmental requirements generally have become more stringent and compliance with those requirements more expensive, we are not aware of any specific developments that would increase our costs for such compliance in a manner that would be expected to have a material adverse effect on our results of operations, financial position or liquidity.

Our assets and operations also involve the use of materials classified as hazardous, toxic or otherwise dangerous. Many of the properties that we own or operate have been used for many years, and include older facilities and equipment that may be more likely than newer ones to contain or be made from such materials. Some of these properties include aboveground or underground storage tanks and associated piping. Some of them also include large electrical equipment filled with mineral oil, which may contain or previously have contained PCBs. Our facilities and equipment are often situated on or near property owned by others so that, if they are the source of contamination, others' property may be affected. For example, aboveground and underground transmission lines sometimes traverse properties that we do not own and transmission assets that we own or operate are sometimes commingled at our

transmission stations with distribution assets owned or operated by our transmission customers.

Some properties in which we have an ownership interest or at which we operate are, or are suspected of being, affected by environmental contamination. We are not aware of any pending or threatened claims against us with respect to environmental contamination relating to these properties, or of any investigation or remediation of contamination at these properties, that entail costs likely to materially affect us. Some facilities and properties are located near environmentally sensitive areas such as wetlands.

#### Litigation

We are involved in certain legal proceedings before various courts, governmental agencies and mediation panels concerning matters arising in the ordinary course of business. These proceedings include certain contract disputes, eminent domain and vegetation management activities, regulatory matters and pending judicial matters. We cannot predict the final disposition of such proceedings. We regularly review legal matters and record provisions for claims that are considered probable of loss.

#### Rate of Return on Equity Complaints

On November 12, 2013, the Association of Businesses Advocating Tariff Equity, Coalition of MISO Transmission Customers, Illinois Industrial Energy Consumers, Indiana Industrial Energy Consumers, Inc., Minnesota Large Industrial Group and Wisconsin Industrial Energy Group (collectively, the “complainants”) filed the Initial Complaint with the FERC under Section 206 of the FPA requesting that the FERC find the then current 12.38% MISO regional base ROE rate (the “base ROE”) for all MISO TOs, including ITCTransmission, METC and ITC Midwest, to no longer be just and reasonable. The complainants sought a FERC order reducing the base ROE used in the formula transmission rates for our MISO Regulated

Table of Contents

Operating Subsidiaries to 9.15%, reducing the equity component of our capital structure and terminating the ROE adders approved for certain Regulated Operating Subsidiaries. The FERC set the base ROE for hearing and settlement procedures, while denying all other aspects of the Initial Complaint. The FERC set the refund effective date for the Initial Complaint as November 12, 2013.

On June 19, 2014, in a separate Section 206 complaint against the regional base ROE rate for ISO New England TOs, the FERC adopted a methodology for establishing base ROE rates for electric transmission utilities. The methodology was based on a two-step DCF analysis that uses both short-term and long-term growth projections in calculating ROE rates for a proxy group of electric utilities. The FERC also reiterated that it can apply discretion in determining how ROE rates are established within a zone of reasonableness and reiterated its policy for limiting the overall ROE rate for any company, including the base and all applicable adders, at the high end of the zone of reasonableness set by the two-step DCF methodology. The new method ultimately adopted in the ISO New England ROE case, discussed below, is expected to be used in resolving the MISO ROE cases.

On December 22, 2015, the presiding administrative law judge issued an initial decision on the Initial Complaint, consistent with the two-step DCF methodology adopted in the ISO New England decision in June 2014. On September 28, 2016, the FERC issued the September 2016 Order affirming the presiding administrative law judge's initial decision and setting the base ROE at 10.32%, with a maximum ROE of 11.35%, effective for the period from November 12, 2013 through February 11, 2015 (the "Initial Refund Period"). Additionally, the base ROE established by the September 2016 Order will be used prospectively from the date of that order until a new approved base ROE is established by the FERC. The September 2016 Order resulted in an ROE used by ITC Transmission, METC and ITC Midwest of 11.35%, 11.35% and 11.32%, respectively, effective for the period between September 28, 2016 and April 19, 2018. Beginning April 20, 2018, the ROE used by all MISO Regulated Operating Subsidiaries was 11.07%. See Note 5 for additional information regarding the challenge to independence incentive adders for transmission rates. The September 2016 Order required all MISO TOs, including our MISO Regulated Operating Subsidiaries, to provide refunds for the Initial Refund Period. The total refund for the Initial Complaint resulting from this FERC order, including interest, was \$118 million for our MISO Regulated Operating Subsidiaries and refunds were completed during the first six months of 2017.

On October 28, 2016, the MISO TOs, including our MISO Regulated Operating Subsidiaries, filed a request with the FERC for rehearing of the September 2016 Order regarding the short-term growth projections in the two-step DCF analysis used by FERC to determine the cost of equity of public utilities. The complainants also filed a request for rehearing, citing that FERC erred in several material respects in the September 2016 Order. The FERC issued a tolling order on November 28, 2016 to allow for additional time to address the rehearing requests.

On February 12, 2015, the Second Complaint was filed with the FERC under Section 206 of the FPA by Arkansas Electric Cooperative Corporation, Mississippi Delta Energy Agency, Clarksdale Public Utilities Commission, Public Service Commission of Yazoo City and Hoosier Energy Rural Electric Cooperative, Inc., seeking a FERC order to reduce the base ROE used in the formula transmission rates of our MISO Regulated Operating Subsidiaries to 8.67%, with an effective date of February 12, 2015. The FERC set the Second Complaint for hearing and settlement procedures and set the refund effective date for the Second Complaint as February 12, 2015.

On June 30, 2016, the presiding administrative law judge issued an initial decision on the Second Complaint, which recommended a base ROE of 9.70% for February 12, 2015 through May 11, 2016 (the "Second Refund Period"), with a maximum ROE of 10.68%. The initial decision is a non-binding recommendation to the FERC on the Second Complaint, and all parties have filed briefs contesting various parts of the proposed findings and recommendations. FERC has not yet issued an order on the initial decision on the Second Complaint.

On April 14, 2017, in *Emera Maine v. FERC*, the D.C. Circuit Court vacated the precedent-setting FERC orders that revised the regional base ROE rate for the ISO New England TOs and established and applied the two-step DCF methodology for the determination of ROE. The court remanded the orders to the FERC for further justification of its establishment of the new base ROE for the ISO New England TOs. On October 16, 2018, FERC issued an order on remand which proposes a new methodology for 1) determining when an existing ROE is no longer just and reasonable; and 2) setting a new just and reasonable ROE if an existing ROE has been found not to be just and reasonable. FERC requested written responses through a paper hearing on how the proposed new methodology should

apply to the ISO New England TOs ROE complaint proceedings. If finalized, FERC's proposed policy for determining whether an existing ROE remains just and reasonable, and if not, what the new just and reasonable ROE is, would be applied in ROE proceedings currently pending before the FERC, including the MISO ROE Initial Complaint, and all subsequent periods including, but not limited to, the Second Complaint.

Table of Contents

On September 29, 2017, certain MISO transmission owners, including our MISO Regulated Operating Subsidiaries, filed a motion for the FERC to dismiss the Second Complaint, on the grounds that the Second Complaint fails as a matter of law to make the showings required by the D.C. Circuit Court's decision in *Emera Maine v. FERC* to demonstrate that the currently effective base ROE of 10.32% is unjust and unreasonable. Pending a determination by FERC on the merits of the motion, the estimated current regulatory liability that has been recorded in the condensed consolidated statements of financial position for the Second Complaint has not been modified.

If the Second Complaint is not dismissed, we expect the FERC to establish a new base ROE and zone of reasonableness that will be used, along with any ROE adders, to calculate the refund liability for the Second Refund Period and future ROEs for our MISO Regulated Operating Subsidiaries. As of September 30, 2018, the estimated refund for the related refund period was \$149 million on a pre-tax basis. Our MISO Regulated Operating Subsidiaries had an estimated current regulatory liability for the Second Complaint of \$149 million and \$145 million as of September 30, 2018 and December 31, 2017, respectively. The recognition of the obligations associated with the complaints resulted in a reduction of net income and additional revenue and interest expense as set forth in the table below for the periods indicated.

	Three months ended		Nine months ended	
	September 30,		September 30,	
(in millions)	2018	2017	2018	2017
Revenue increase	\$ —	\$ —	—	(1 )
Interest expense increase	2	1	5	4
Estimated net income reduction	1	—	3	2

Further uncertainty regarding the outcome of the Initial Complaint and the Second Complaint and the timing of completion of these matters has been introduced due to the *Emera Maine v. FERC* decision and FERC's October 16, 2018 order on remand. It is possible that the outcome of these matters could differ from the amounts previously refunded and estimated losses and could, therefore, materially affect our consolidated results of operations. This is due to the uncertainty of the calculation of an authorized base ROE along with the zone of reasonableness, which is subject to significant discretion by the FERC.

As of September 30, 2018, our MISO Regulated Operating Subsidiaries had a total of approximately \$4 billion of equity in their collective capital structures for ratemaking purposes. Based on this level of aggregate equity, we estimate that each 10 basis point change in the authorized ROE would impact annual consolidated net income by approximately \$4 million.

In a separate but related matter, in November 2014, METC, ITC Midwest and other MISO TOs filed a request with the FERC, under FPA Section 205, for authority to include a 50 basis point incentive adder for RTO participation in each of the TOs' Formula Rates. On January 5, 2015, the FERC approved the use of this incentive adder, effective January 6, 2015. Additionally, ITC Midwest filed a request with the FERC, under FPA Section 205, in January 2015 for authority to include a 100 basis point incentive adder for independent transmission ownership. On March 31, 2015, the FERC approved the use of a 50 basis point incentive adder for independence, effective April 1, 2015. On April 30, 2015, ITC Midwest and an intervenor, RPGI, filed separate requests with the FERC for rehearing on the approved incentive adder for independence, and both requests were subsequently denied by the FERC on January 6, 2016. RPGI has filed an appeal of the FERC's decisions, which remains pending. Beginning September 28, 2016, these incentive adders have been applied to METC's and ITC Midwest's base ROEs in establishing their total authorized ROE rates, subject to the maximum ROE limitation in the September 2016 Order of 11.35%. Effective April 20, 2018, an incentive adder of 25 basis points has been applied to the ROE of the MISO Regulated Operating Subsidiaries as a result of the FERC order on the complaint regarding the MISO Regulated Operating Subsidiaries' independence incentive adders. See Note 5 for additional information regarding the challenge to independence incentive adders for transmission rates. Maximum ROEs may be subject to revision based on the methodology finally established in the ROE complaint proceedings for the ISO New England TOs.

#### Development Projects

We are pursuing strategic development projects that may result in payments to developers that are contingent on the projects reaching certain milestones indicating that the projects are financially viable. We believe it is reasonably possible that we will be required to make these contingent development payments up to a maximum amount of \$125 million for the period from 2018 through 2022. In the event it becomes probable that we will make these payments, we would recognize the liability and the corresponding intangible asset or expense as appropriate.

Table of Contents

## 15. SUPPLEMENTAL FINANCIAL INFORMATION

## Reconciliation of Cash, Cash Equivalents and Restricted Cash

The following table provides a reconciliation of cash, cash equivalents and restricted cash reported on the condensed consolidated statements of financial position that sum to the total of the same such amounts shown in the condensed consolidated statements of cash flows:

(in millions)	September 30, December 31,			
	2018	2017	2017	2016
Cash and cash equivalents	\$ 18	\$ 8	\$ 66	\$ 8
Restricted cash included in:				
Other non-current assets	4	2	2	3
Total cash, cash equivalents and restricted cash	\$ 22	\$ 10	\$ 68	\$ 11

Restricted cash included in other non-current assets primarily represents cash on deposit to pay for vegetation management, land easements and land purchases for the purpose of transmission line construction.

## Supplementary Cash Flows Information

(in millions)	Nine months ended September 30,	
	2018	2017
Supplementary cash flows information:		
Interest paid (net of interest capitalized) (a)	\$ 164	\$ 157
Income tax refunds received	13	1
Supplementary non-cash investing and financing activities:		
Additions to property, plant and equipment and other long-lived assets (b)	102	103
Allowance for equity funds used during construction	26	25

(a) Amount for the nine months ended September 30, 2017 includes \$9 million of interest paid associated with the Initial Complaint. See Note 14 for information on the Initial Complaint.

(b) Amounts consist of current and accrued liabilities for construction, labor, materials and other costs that have not been included in investing activities. These amounts have not been paid for as of September 30, 2018 or 2017, respectively, but will be or have been included as a cash outflow from investing activities when paid.

## 16. SEGMENT INFORMATION

We identify reportable segments based on the criteria set forth by the FASB regarding disclosures about segments of an enterprise, including the regulatory environment of our subsidiaries and the business activities performed to earn revenues and incur expenses. The following tables show our financial information by reportable segment:

OPERATING REVENUES:	Three months ended September 30,		Nine months ended September 30,	
	2018	2017	2018	2017
(in millions)				
Regulated Operating Subsidiaries	\$302	\$306	\$886	\$921
ITC Holdings and other	—	1	—	1
Intercompany eliminations	(7 )	(8 )	(22 )	(22 )
Total Operating Revenues	\$295	\$299	\$864	\$900
			Three months ended September 30,	Nine months ended September 30,
INCOME (LOSS) BEFORE INCOME TAXES:				

Edgar Filing: DCT Industrial Trust Inc. - Form S-3ASR

(in millions)	2018	2017	2018	2017

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

SAFE HARBOR STATEMENT UNDER THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

Our reports, filings and other public announcements contain certain statements that describe our management's beliefs concerning future business conditions, plans and prospects, growth opportunities, the outlook for our business and the electric transmission industry and expectations with respect to various legal and regulatory proceedings based upon information currently available. Such statements are "forward-looking" statements within the meaning of the Private Securities Litigation Reform Act of 1995. Wherever possible, we have identified these forward-looking statements by words such as "will," "may," "anticipates," "believes," "intends," "estimates," "expects," "projects," "likely" and similar phrases. Forward-looking statements are based upon assumptions our management believes are reasonable. Such forward-looking statements are based on estimates and assumptions and subject to significant risks and uncertainties which could cause our actual results, performance and achievements to differ materially from those expressed in, or implied by, these statements, including, among others, the following risks and uncertainties listed in "Item 1A Risk Factors" of our Form 10-K for the year ended December 31, 2017:

Certain elements of our Regulated Operating Subsidiaries' Formula Rates can be and have been challenged, which could result in lowered rates and/or refunds of amounts previously collected and thus have an adverse effect on our business, financial condition, results of operations and cash flows.

The TCJA and any future changes in tax laws or regulations may negatively affect our results of operations, net income, financial condition and cash flows.

Our actual capital investment may be lower than planned, which would cause a lower than anticipated rate base and would therefore result in lower revenues, earnings and associated cash flows compared to our current expectations. In addition, we expect to incur expenses related to the pursuit of development opportunities, which may be higher than forecasted.

The regulations to which we are subject may limit our ability to raise capital and/or pursue acquisitions, development opportunities or other transactions or may subject us to liabilities.

Changes in energy laws, regulations or policies could impact our business, financial condition, results of operations and cash flows.

Each of our MISO Regulated Operating Subsidiaries depends on its primary customer for a substantial portion of its revenues, and any material failure by those primary customers to make payments for transmission services could have a material adverse effect on our business, financial condition, results of operations and cash flows.

A significant amount of the land on which our assets are located is subject to easements, mineral rights and other similar encumbrances. As a result, we must comply with the provisions of various easements, mineral rights and other similar encumbrances, which may adversely impact our ability to complete construction projects in a timely manner. We contract with third parties to provide services for certain aspects of our business. If any of these agreements are terminated, we may face a shortage of labor or replacement contractors to provide the services formerly provided by these third parties.

Hazards associated with high-voltage electricity transmission may result in suspension of our operations, costly litigation or the imposition of civil or criminal penalties.

We are subject to environmental regulations and to laws that can give rise to substantial liabilities from environmental contamination.

If amounts billed for transmission service for our Regulated Operating Subsidiaries' transmission systems are lower than expected, or our actual revenue requirements are higher than expected, the timing of actual collection of our total revenues would be delayed.

We are subject to various regulatory requirements, including reliability standards; contract filing requirements; reporting, recordkeeping and accounting requirements; and transaction approval requirements. Violations of these requirements, whether intentional or unintentional, may result in penalties that, under some circumstances, could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Acts of war, terrorist attacks, cyber attacks, natural disasters, severe weather and other catastrophic events may have a material adverse effect on our business, financial condition, results of operations and cash flows.

## Table of Contents

ITC Holdings is a holding company with no operations, and unless we receive dividends or other payments from our subsidiaries, we may be unable to fulfill our cash obligations.

We have a considerable amount of debt and our reliance on debt financing may limit our ability to fulfill our debt obligations and/or to obtain additional financing.

Adverse changes in our credit ratings may negatively affect us.

Certain provisions in our debt instruments limit our financial and operating flexibility.

Forward-looking statements speak only as of the date made and can be affected by assumptions we might make or by known or unknown risks and uncertainties. Many factors mentioned in our discussion in this report will be important in determining future results. Consequently, we cannot assure you that our expectations or forecasts expressed in such forward-looking statements will be achieved. Except as required by law, we undertake no obligation to publicly update any of our forward-looking or other statements, whether as a result of new information, future events or otherwise.

### OVERVIEW

ITC Holdings and its subsidiaries are engaged in the transmission of electricity in the United States. ITC Holdings is a wholly-owned subsidiary of Investment Holdings. Through our Regulated Operating Subsidiaries, we own and operate high-voltage systems in Michigan's Lower Peninsula and portions of Iowa, Minnesota, Illinois, Missouri, Kansas and Oklahoma that transmit electricity from generating stations to local distribution facilities connected to our systems. Our business strategy is to own, operate, maintain and invest in transmission infrastructure in order to enhance system integrity and reliability, reduce transmission constraints and support new generating resources to interconnect to our transmission systems. We also are pursuing development projects outside our existing systems, which are also intended to improve overall grid reliability, reduce transmission constraints and facilitate interconnections of new generating resources, as well as enhance competitive wholesale electricity markets.

As electric transmission utilities whose rates are regulated by the FERC, our Regulated Operating Subsidiaries earn revenues for the use of their electric transmission systems by our customers. We derive nearly all of our revenues from providing electric transmission service over our Regulated Operating Subsidiaries' transmission systems to investor-owned utilities, such as DTE Electric, Consumers Energy and IP&L, and other entities, such as alternative electricity suppliers, power marketers and other wholesale customers that provide electricity to end-use consumers as well as from transaction-based capacity reservations on our transmission systems.

As independent transmission companies, our Regulated Operating Subsidiaries are subject to rate regulation only by the FERC, and our cost-based rates are discussed in Note 5 to the condensed consolidated interim financial statements. Our Regulated Operating Subsidiaries' primary operating responsibilities include maintaining, improving and expanding their transmission systems to meet their customers' ongoing needs, scheduling outages on system elements to allow for maintenance and construction, maintaining appropriate system voltages and monitoring flows over transmission lines and other facilities to ensure physical limits are not exceeded.

Significant recent matters that influenced our financial position, results of operations and cash flows for the nine months ended September 30, 2018 or that may affect future results include:

The change in federal tax rate arising from the enactment of the TCJA, which results in reductions to revenue requirements, payments of the 2018 resettlement obligation in connection with the reposting of the 2018 rates and payments related to the amortization through rates of the net regulatory liability recorded for excess deferred taxes; Our capital expenditures of \$556 million at our Regulated Operating Subsidiaries during the nine months ended September 30, 2018 as described below under "Capital Investment and Operating Results Trends," resulting primarily from our focus on improving system reliability, increasing system capacity and upgrading the transmission network to support new generating resources;

Debt issuances and repayments as described in Note 7 to the condensed consolidated interim financial statements, including issuance of First Mortgage bonds by ITCTransmission, ITC Midwest and borrowings under our revolving credit agreements to fund capital investment at our Regulated Operating Subsidiaries as well as for general corporate purposes; and

Our MISO Regulated Operating Subsidiaries have an estimated current regulatory liability of \$149 million as of September 30, 2018 for the potential refund relating to the Second Complaint, as described in Note 14 to the

condensed consolidated interim financial statements.

Table of Contents

These items are discussed in more detail throughout Management's Discussion and Analysis of Financial Condition and Results of Operations.

## Recent Developments

## Rate of Return on Equity Complaints

In November 2013 and February 2015, certain parties filed complaints with the FERC under Section 206 of the FPA requesting that the FERC find the then current MISO regional base ROE rate for all MISO TOs, including ITCTransmission, METC and ITC Midwest, to no longer be just and reasonable. The complainants sought a FERC order reducing the base ROE used in the formula transmission rates for our MISO Regulated Operating Subsidiaries. In September 2016, the FERC issued the September 2016 Order in connection with the Initial Complaint reducing the base ROE from 12.38% to 10.32%, with a maximum ROE of 11.35%, effective for the period from November 12, 2013 through February 11, 2015 and prospectively from the date of that order until a new approved base ROE is established by the FERC. The total refund for the Initial Complaint resulting from this FERC order, including interest, was \$118 million for our MISO Regulated Operating Subsidiaries and refunds were completed during the first six months of 2017.

On April 14, 2017, in *Emera Maine v. FERC*, the D.C. Circuit Court vacated the precedent-setting FERC orders that revised the regional base ROE rate for the ISO New England TOs and established and applied the two-step DCF methodology for the determination of ROE. The court remanded the orders to the FERC for further justification of its establishment of the new base ROE for the ISO New England TOs. On October 16, 2018, FERC issued an order on remand which proposes a new methodology for 1) determining when an existing ROE is no longer just and reasonable; and 2) setting a new just and reasonable ROE if an existing ROE has been found not to be just and reasonable. FERC requested written responses through a paper hearing on how the proposed new methodology should apply to the ISO New England TOs ROE complaint proceedings. If finalized, FERC's proposed policy for determining whether an existing ROE remains just and reasonable, and if not, what the new just and reasonable ROE is, would be applied in ROE proceedings currently pending before the FERC, including the MISO ROE Initial Complaint, and all subsequent periods including, but not limited to, the Second Complaint.

An order has not yet been issued by the FERC in connection with the Second Complaint. If the Second Complaint is not dismissed, we expect FERC to establish a new base ROE and zone of reasonableness that will be used, along with any ROE adders, to calculate the refund liability for the refund period related to the Second Complaint and future ROEs for our MISO Regulated Operating Subsidiaries. As of September 30, 2018, the estimated refund for the related refund period was \$149 million on a pre-tax basis. We had an estimated current regulatory liability for the Second Complaint of \$149 million and \$145 million as of September 30, 2018 and December 31, 2017, respectively. The recognition of the obligations associated with the complaints resulted in a reduction of net income and additional revenue and interest expense as set forth in the table below for the periods indicated.

	Three months ended		Nine months ended	
	September 30, 2018	September 30, 2017	September 30, 2018	September 30, 2017
(in millions)				
Revenue increase	\$ —	\$ —	—	(1 )
Interest expense increase	2	1	5	4
Estimated net income reduction	1	—	3	2

Further uncertainty regarding the outcome of the Initial Complaint and the Second Complaint and the timing of completion of these matters has been introduced due to the *Emera Maine v. FERC* decision and FERC's October 16, 2018 order on remand. It is possible that the outcome of these matters could differ from the amounts previously refunded and estimated losses and could, therefore, materially affect our consolidated results of operations due to the uncertainty of the calculation of an authorized base ROE along with the zone of reasonableness. Based on the level of aggregate equity in our MISO Regulated Operating Subsidiaries, we estimate that each 10 basis point change in the authorized ROE would impact annual consolidated net income by approximately \$4 million. In addition, the motion to

dismiss, filed in September 2017, could also affect the resolution of the Second Complaint. For a more detailed discussion of the ROE complaints, see Note 14 to the condensed consolidated interim financial statements.

#### Reposting of Rates for Regulated Operating Subsidiaries

As a result of the reduction in the federal tax rate arising from the enactment of the TCJA, the 2018 projected Formula Rates for our MISO Regulated Operating Subsidiaries have been reposted. On March 15, 2018, the FERC granted a waiver which allows us the ability to adjust the rates effective back to January 1, 2018 for our MISO Regulated Operating Subsidiaries and allows MISO to return to customers excess amounts previously collected in 2018. Our rates included in MISO invoices

Table of Contents

for services provided starting in March 2018 and going forward reflected the lower corporate tax rate. Resettlement of invoices for services provided in January and February 2018 occurred in April 2018 when the services were billed. We recorded a reduction of revenue of \$16 million in the first quarter of 2018, which was offset through a lower income tax provision for our MISO Regulated Operating Subsidiaries and as such did not impact net income.

In addition, the 2018 projected Formula Rates for ITC Great Plains, which are settled by SPP, have been reposted. On May 25, 2018, the FERC granted a waiver which allows us the ability to adjust the rate effective back to January 1, 2018 and allows SPP to return to customers excess amounts previously collected in 2018. Our rates included in SPP invoices for services provided starting in June and going forward reflected the lower corporate tax rate. During the second quarter of 2018, we recorded a reduction of revenue of \$4 million related to the resettlement of invoices for services provided in January through May 2018. This reduction of revenue was offset through a lower income tax provision for ITC Great Plains and as such did not impact net income. At September 30, 2018, this amount was primarily recorded as a current regulatory liability related to the resettlement of invoices at ITC Great Plains.

Challenge to Independence Incentive Adders for Transmission Rates

On April 20, 2018, Consumers Energy, IP&L, Midwest Municipal Transmission Group, Missouri River Energy Services, Southern Minnesota Municipal Power Agency and WPPI Energy filed a complaint with the FERC under section 206 of the FPA, challenging the independence incentive adders that are included in transmission rates charged by ITC's operating subsidiaries in the MISO region. The adders allowed up to 50 basis points or 100 basis points to be added to the MISO Regulated Operating Subsidiaries' authorized ROE, subject to any ROE cap established by FERC. On October 18, 2018, FERC issued an order granting the complaint in part, setting revised adders for each of the MISO Regulated Operating Subsidiaries at 25 basis points, and requiring the MISO Regulated Operating Subsidiaries to include the revised adders, effective April 20, 2018, in their Formula Rates. In addition, the order directs the MISO Regulated Operating Subsidiaries to provide refunds, with interest, for the period from April 20, 2018 through the date of the order. A compliance filing to revise the MISO Regulated Operating Subsidiaries' Formula Rates will be submitted to FERC and refunds will be made to reflect the revised rates in compliance with the FERC order. On October 22, 2018, MISO filed a motion requesting an extension until January 17, 2019 to issue the refunds. We do not expect the resolution of this proceeding to have a material adverse impact on our consolidated results of operations, cash flows or financial condition.

Cost-Based Formula Rates with True-Up Mechanism

Our Regulated Operating Subsidiaries calculate their revenue requirements using cost-based Formula Rates that are effective without the need to file rate cases with the FERC, although the rates are subject to legal challenge at the FERC. Under their cost-based formula, each of our Regulated Operating Subsidiaries separately calculates a revenue requirement based on financial information specific to each company. The calculation of projected revenue requirement for a future period is used to establish the transmission rate used for billing purposes. The calculation of actual revenue requirements for a historic period is used to calculate the amount of revenues recognized in that period and determine the over- or under-collection for that period.

Under these Formula Rates, our Regulated Operating Subsidiaries recover expenses and earn a return on and recover investments in property, plant and equipment on a current basis. The Formula Rates for a given year initially reflect forecasted expenses, property, plant and equipment, point-to-point revenues, network load at our MISO Regulated Operating Subsidiaries and other items for the upcoming calendar year to establish projected revenue requirements for each of our Regulated Operating Subsidiaries that are used as the basis for billing for service on their systems from January 1 to December 31 of that year. Our rates include a true-up mechanism, whereby our Regulated Operating Subsidiaries compare their actual revenue requirements to their billed revenues for each year to determine any over- or under-collection of revenue. The over- or under-collection typically results from differences between the projected revenue requirement used as the basis for billing and actual revenue requirement at each of our Regulated Operating Subsidiaries, or from differences between actual and projected monthly peak loads at our MISO Regulated Operating Subsidiaries. In the event billed revenues in a given year are more or less than actual revenue requirements, which are calculated primarily using information from that year's FERC Form No. 1, our Regulated Operating Subsidiaries will refund or collect additional revenues, with interest, within a two-year period such that customers pay only the amounts that correspond to actual revenue requirements for that given period. This annual true-up ensures that our Regulated

Operating Subsidiaries recover their allowed costs and earn their allowed returns.

Revenue Accruals and Deferrals — Effects of Monthly Peak Loads

For our MISO Regulated Operating Subsidiaries, monthly peak loads are used for billing network revenues, which currently is the largest component of our operating revenues. One of the primary factors that impacts the revenue accruals and deferrals at our MISO Regulated Operating Subsidiaries is actual monthly peak loads experienced as compared to those forecasted in

Table of Contents

establishing the annual network transmission rate. Under their cost-based Formula Rates that contain a true-up mechanism, our MISO Regulated Operating Subsidiaries accrue or defer revenues to the extent that their actual revenue requirement for the reporting period is higher or lower, respectively, than the amounts billed relating to that reporting period. Although monthly peak loads do not impact operating revenues recognized, network load affects the timing of our cash flows from transmission service. The monthly peak load of our MISO Regulated Operating Subsidiaries is generally impacted by weather and economic conditions and seasonally shaped with higher load in the summer months when cooling demand is higher.

ITC Great Plains does not receive revenue based on a peak load or a dollar amount per kW each month and, therefore, peak load does not have a seasonal effect on operating cash flows. The SPP tariff applicable to ITC Great Plains is billed ratably each month based on its annual projected revenue requirement posted annually by SPP.

Capital Investment and Operating Results Trends

We expect a long-term upward trend in revenues and earnings, subject to the impact of:

- any rate changes and required refunds resulting from the resolution of the ROE complaints as described in Note 14 and Note 5 to the condensed consolidated interim financial statements;

- lower revenue from customers due to a lower tax gross up on our authorized return on equity at our Regulated Operating Subsidiaries resulting from the change in U.S. federal corporate income tax rate from 35% to 21% under the TCJA; and

- lower net income due to lower interest expense deductibility as a result of a lower federal tax rate at ITC Holdings under the TCJA.

The primary factor that is expected to continue to increase our revenues and earnings in future years is increased rate base that would result from our anticipated capital investment, in excess of depreciation, from our Regulated Operating Subsidiaries' long-term capital investment programs to improve reliability, increase system capacity and upgrade the transmission network to support new generating resources. Investments in property, plant and equipment, when placed in-service upon completion of a capital project, are added to the rate base of our Regulated Operating Subsidiaries.

Our Regulated Operating Subsidiaries strive for high reliability of their systems and improvement in system accessibility for all generation resources. The FERC requires compliance with certain reliability standards and may take enforcement actions against violators, including the imposition of substantial fines. NERC is responsible for developing and enforcing these mandatory reliability standards. We continually assess our transmission systems against standards established by NERC, as well as the standards of applicable regional entities under NERC that have been delegated certain authority for the purpose of proposing and enforcing reliability standards. We believe that we meet the applicable standards in all material respects, although further investment in our transmission systems and an increase in maintenance activities will likely be needed to maintain compliance, improve reliability and address any new standards that may be promulgated.

We also assess our transmission systems against our own planning criteria that are filed annually with the FERC. Based on our planning studies, we see needs to make capital investments to (1) rebuild existing property, plant and equipment; (2) upgrade the system to address demographic changes that have impacted transmission load and the changing role that transmission plays in meeting the needs of the wholesale market, including accommodating the siting of new generation or increasing import capacity to meet changes in peak electrical demand; (3) relieve congestion in the transmission systems; and (4) achieve state and federal policy goals, such as renewable generation portfolio standards. The following table shows our actual and expected capital expenditures at our Regulated Operating Subsidiaries:

Actual	Forecasted
Capital	
Expenditures	Capital
for the	
Nine Months	
Ended	Expenditures

(in millions)	September 30, 2018	2019 — 2023
Expenditures for property, plant and equipment (a)	\$ 556	\$ 3,515

---

(a) Amounts represent the cash payments to acquire or construct property, plant and equipment, as presented in the condensed consolidated statements of cash flows. These amounts exclude non-cash additions to property, plant and equipment for the allowance for equity funds used during construction as well as accrued liabilities for construction, labor and materials that have not yet been paid.

We are pursuing development projects that could result in a significant amount of capital investment, but are not able to estimate the amounts we ultimately expect to invest or the timing of such investments. Our capital investment efforts relating to development initiatives are based on establishing an ongoing pipeline of projects that would position us for long-term

Table of Contents

growth. Refer to “Item 1 Business — Development of Business — Development Projects” in our Form 10-K for the year ended December 31, 2017 for a discussion of our development projects.

Investments in property, plant and equipment could vary due to, among other things, the impact of actual loads, forecasted loads, regional economic conditions, weather conditions, union strikes, labor shortages, material and equipment prices and availability, our ability to obtain any necessary financing for such expenditures, limitations on the amount of construction that can be undertaken on our systems at any one time, regulatory approvals for reasons relating to rate construct, environmental, siting, regional planning, cost recovery or other issues or as a result of legal proceedings, variances between estimated and actual costs of construction contracts awarded and the potential for greater competition for new development projects. In addition, investments in transmission network upgrades for generator interconnection projects could change from prior estimates significantly due to changes in the MISO queue for generation projects and other factors beyond our control.

**RESULTS OF OPERATIONS**

## Results of Operations and Variances

(in millions)	Three months ended		Percentage		Nine months ended		Percentage	
	September 30, 2018	September 30, 2017	Increase (decrease)	increase (decrease)	September 30, 2018	September 30, 2017	Increase (decrease)	increase (decrease)

Table of Contents

## Operating Revenues

Three months ended September 30, 2018 compared to three months ended September 30, 2017

The following table sets forth the components of and changes in operating revenues which included revenue accruals and deferrals as described in Note 5 to the condensed consolidated interim financial statements:

(in millions)	2018		2017		Increase (decrease)	Percentage increase (decrease)
	Amount	Percentage	Amount	Percentage		
Network revenues (a)	\$198	67 %	\$199	67 %	\$ (1 )	(1 )%
Regional cost sharing revenues (a)	86	29 %	84	28 %	2	2 %
Point-to-point	3	1 %	2	1 %	1	50 %
Scheduling, control and dispatch (a)	3	1 %	3	1 %	—	— %
Other	5	2 %	11	3 %	(6 )	(55 )%
Total	\$295	100 %	\$299	100 %	\$ (4 )	(1 )%

(a) Includes a portion of the Formula rate true-up of \$(55) million and \$(63) million for the three months ended September 30, 2018 and 2017, respectively.

Network revenues decreased primarily due to lower network revenue requirements at our Regulated Operating Subsidiaries, as a result of the TCJA which reduced the U.S. federal corporate income tax rate from 35% to 21%, partially offset by higher rate bases associated with higher balances of property, plant and equipment in-service in 2018.

Regional cost sharing revenues increased primarily due to an increase in capital projects placed in service that were identified by MISO and SPP as eligible for regional cost sharing as well as higher accumulated investment for existing regional cost sharing projects in northern Michigan and Kansas for the three months ended September 30, 2018 compared to the same period in 2017 partially offset by lower regional revenue requirements at our Regulated Operating Subsidiaries, as a result of the TCJA which reduced the U.S. federal corporate income tax rate from 35% to 21%.

Nine months ended September 30, 2018 compared to nine months ended September 30, 2017

The following table sets forth the components of and changes in operating revenues which included revenue accruals and deferrals as described in Note 5 to the condensed consolidated interim financial statements:

(in millions)	2018		2017		Increase (decrease)	Percentage increase (decrease)
	Amount	Percentage	Amount	Percentage		
Network revenues (a)	\$577	67 %	\$604	67 %	\$ (27 )	(5 )%
Regional cost sharing revenues (a)	247	29 %	250	28 %	(3 )	(1 )%
Point-to-point	10	1 %	15	2 %	(5 )	(33 )%
Scheduling, control and dispatch (a)	11	1 %	10	1 %	1	10 %
Other (b)	19	2 %	21	2 %	(2 )	(10 )%
Total	\$864	100 %	\$900	100 %	\$ (36 )	(4 )%

(a) Includes a portion of the Formula rate true-up of \$(68) million and \$(47) million for the nine months ended September 30, 2018 and 2017, respectively.

(b) Includes reduction in refund liabilities recognized in prior periods of \$1 million for the nine months ended September 30, 2018.

Network revenues decreased primarily due to lower network revenue requirements at our Regulated Operating Subsidiaries, as a result of the TCJA which reduced the U.S. federal corporate income tax rate from 35% to 21%, partially offset by higher rate bases associated with higher balances of property, plant and equipment in-service in 2018.

Regional cost sharing revenues decreased primarily due to lower regional revenue requirements at our Regulated Operating Subsidiaries, as a result of the TCJA which reduced the U.S. federal corporate income tax rate from 35% to 21%.

21%. These decreases were partially offset by an increase in capital projects placed in service that were identified by MISO and SPP as eligible for regional cost sharing as well as higher accumulated investment for existing regional cost sharing projects in northern Michigan and Kansas for the nine months ended September 30, 2018 as compared to the same period in 2017.

Table of Contents

Operating Expenses

Operation and maintenance expenses

Three months ended September 30, 2018 compared to three months ended September 30, 2017

Operation and maintenance expenses increased primarily due to higher tower painting and overhead line expenses, as well as higher vegetation management requirements.

Income Tax Provision

Three months ended September 30, 2018 compared to three months ended September 30, 2017

Our effective tax rates for the three months ended September 30, 2018 and 2017 were 23% and 36%, respectively. The decrease in our effective tax rate is due to the reduction in the federal tax rate arising from the enactment of the TCJA. Our effective tax rate for the three months ended September 30, 2018 exceeded our 21% statutory federal income tax rate due primarily to state income taxes, partially offset by the tax effects of AFUDC equity and the final Federal tax return adjustments which reduced the effective tax rate.

Nine months ended September 30, 2018 compared to nine months ended September 30, 2017

Our effective tax rates for the nine months ended September 30, 2018 and 2017 were 26% and 37%, respectively. The decrease in our effective tax rate is due to the reduction in the federal tax rate arising from the enactment of the TCJA. Our effective tax rate for the nine months ended September 30, 2018 exceeded our 21% statutory federal income tax rate due primarily to state income taxes, partially offset by the tax effects of AFUDC equity and the final Federal tax return adjustments which reduced the effective tax rate. During the nine months ended September 30, 2018, Iowa enacted a reduction in corporate statutory income tax rates from 12.0% to 9.8%, effective January 1, 2021. Based upon the future change in rate, we have revalued the Iowa NOL at ITC Holdings. As a result, additional income tax expense was recorded in 2018 partially offsetting the decrease in the effective tax rate. The amount of income tax expense relating to AFUDC equity was recognized as a regulatory asset and is not included in the income tax provision.

LIQUIDITY AND CAPITAL RESOURCES

We expect to maintain our approach of funding our future capital requirements with cash from operations at our Regulated Operating Subsidiaries, our existing cash and cash equivalents, future issuances under our commercial paper program and amounts available under our revolving credit agreements (the terms of which are described in Note 7 to the condensed consolidated interim financial statements). In addition, we may from time to time secure debt funding in the capital markets, although we can provide no assurance that we will be able to obtain financing on favorable terms or at all. As market conditions warrant, we may also from time to time repurchase debt securities issued by us, in the open market, in privately negotiated transactions, by tender offer or otherwise. We expect that our capital requirements will arise principally from our need to:

Fund capital expenditures at our Regulated Operating Subsidiaries. Our plans with regard to property, plant and equipment investments are described in detail above under “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Capital Investment and Operating Results Trends.”

Fund business development expenses and related capital expenditures. We are pursuing development activities for projects that will continue to result in the incurrence of development expenses and could result in significant capital expenditures incremental to our current plan. Refer to Note 14 to the condensed consolidated interim financial statements for a discussion of contingent payments related to development projects.

Fund working capital requirements.

Fund our debt service requirements, including principal repayments and periodic interest payments, which are further described in detail below under “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Contractual Obligations.” We expect our interest payments to increase each year as a result of additional debt expected to be incurred to fund our capital expenditures and for general corporate purposes.

Fund any refund obligation in connection with the Second Complaint.

Fund reductions to revenue requirements at our Regulated Operating Subsidiaries going forward arising from the enactment of the TCJA.

Fund payments related to the amortization through rates of the net regulatory liability recorded for excess deferred taxes and any other obligations arising from the implementation of the TCJA.

Table of Contents

Fund contributions to our retirement benefit plans, as described in Note 9 to the condensed consolidated interim financial statements.

In addition to the expected capital requirements above, any adverse determinations or settlements relating to the regulatory matters or contingencies described in Notes 5 and 14 to the condensed consolidated interim financial statements would result in additional capital requirements.

We believe that we have sufficient capital resources to meet our currently anticipated short-term needs. We rely on both internal and external sources of liquidity to provide working capital and fund capital investments. ITC Holdings' sources of cash are dividends and other payments received by us from our Regulated Operating Subsidiaries and any of our other subsidiaries as well as the proceeds raised from the sale of our debt securities. Each of our Regulated Operating Subsidiaries, while wholly owned by ITC Holdings, is legally distinct from ITC Holdings and has no obligation, contingent or otherwise, to make funds available to us.

We expect to continue to utilize our commercial paper program and revolving credit agreements as well as our cash and cash equivalents as needed to meet our short-term cash requirements. As of September 30, 2018, we had consolidated indebtedness under our revolving credit agreements of \$290 million, with unused capacity under our revolving credit agreements of \$610 million. Additionally, ITC Holdings had no commercial paper issued and outstanding as of September 30, 2018, with the ability to issue \$400 million under the commercial paper program. See Note 7 to the condensed consolidated interim financial statements for a discussion of the commercial paper program, our revolving credit agreements as well as the debt activity in 2018.

To address our long-term capital requirements, we expect that we will need to obtain additional debt financing. Certain of our capital projects could be delayed if we experience difficulties in accessing capital. We expect to be able to obtain such additional financing as needed, in amounts and upon terms that will be reasonably satisfactory to us due to our strong credit ratings and our historical ability to obtain financing.

Credit Ratings

Credit ratings by nationally recognized statistical rating agencies are an important component of our liquidity profile. Credit ratings relate to our ability to issue debt securities and the cost to borrow money, and should not be viewed as a recommendation to buy, sell or hold securities. Ratings are subject to revision or withdrawal at any time and each rating should be evaluated independently of any other rating. Our current credit ratings are displayed in the following table. An explanation of these ratings may be obtained from the respective rating agency.

Issuer	Issuance	Standard and Poor's Ratings Services	Moody's Investor Service, Inc.
ITC Holdings	Senior Unsecured Notes	A-	Baa2
ITC Holdings	Commercial Paper	A-2	Prime-2
ITCTransmission	First Mortgage Bonds	A	A1
METC	Senior Secured Notes	A	A1
ITC Midwest	First Mortgage Bonds	A	A1
ITC Great Plains	First Mortgage Bonds	A	A1

- (a) On September 15, 2017, Standard and Poor's reaffirmed the secured credit ratings of ITCTransmission, METC, ITC Midwest, ITC Great Plains and the short-term commercial paper rating at ITC Holdings, which applies to the commercial paper program discussed in Note 7 to the condensed consolidated interim financial statements. On September 28, 2017, Standard and Poor's raised the senior unsecured credit rating of ITC Holdings to A- from BBB+. On December 20, 2017, Standard and Poor's published reports on ITCTransmission, METC and ITC Midwest as part of their annual review process. No ratings actions were taken in those reports. On March 21, 2018, Standard and Poor's revised its outlook on all these entities from stable to negative. On September 24, 2018, Standard and Poor's reaffirmed the secured credit rating of ITC Great Plains.
- (b) On April 16, 2018, Moody's issued credit opinions that maintained the senior unsecured credit rating of ITC Holdings, the secured credit ratings of ITCTransmission, METC, ITC Midwest, ITC Great Plains and the short-term commercial paper rating at ITC Holdings, which applies to the commercial paper program discussed in Note 7 to the condensed consolidated interim financial statements. Moody's also maintained the stable outlook for

these entities.

Table of Contents

Covenants

Our debt instruments contain numerous financial and operating covenants that place significant restrictions on certain transactions as well as require us to meet certain financial ratios, which are described in Note 7 to the condensed consolidated interim financial statements and in our Form 10-K for the fiscal year ended December 31, 2017. As of September 30, 2018, we were not in violation of any debt covenant. In the event of a downgrade in our credit ratings, none of the covenants would be directly impacted, although the borrowing costs under our revolving credit agreements may increase.

Cash Flows From Operating Activities

Net cash provided by operating activities was \$494 million and \$403 million for the nine months ended September 30, 2018 and 2017, respectively. The increase in cash provided by operating activities was due primarily to the refund, including interest, paid pursuant to the Initial Complaint during the nine months ended September 30, 2017. The increase was also driven by higher receipts from tax refunds received in 2018 and lower receipts in 2017 due to higher accrued revenues at September 30, 2017 compared to the same period in 2018. This increase was partially offset by lower receipts from operating revenues in 2018 as a result of the TCJA, higher receipts in 2017 due to collection of the regional cost allocation refund and higher interest payments during the nine months ended September 30, 2018 compared to the same period in 2017.

Cash Flows From Investing Activities

Net cash used in investing activities was \$533 million and \$544 million for the nine months ended September 30, 2018 and 2017, respectively. Capital expenditures were consistent with the same period in 2017.

Cash Flows From Financing Activities

Net cash used in financing activities was \$7 million for the nine months ended September 30, 2018 and net cash provided by financing activities was \$140 million for the nine months ended September 30, 2017. The increase in cash used in financing activities was due primarily to a decrease in borrowings under our term loan credit agreements, a decrease in net issuances of commercial paper under our commercial paper program, an increase in retirement of long-term debt and repayment of our term loan credit agreement during the nine months ended September 30, 2018 compared to the same period in 2017. These decreases were partially offset by an increase in net borrowings under our revolving credit agreements, an increase in long-term debt issuances and a decrease in dividends paid during the nine months ended September 30, 2018 compared to the same period in 2017. See Note 7 to the condensed consolidated interim financial statements for detail on the issuances and retirements of debt, repayment of our term loan credit agreement and a description of our revolving credit agreements and our commercial paper program.

CONTRACTUAL OBLIGATIONS

Our contractual obligations are described in our Form 10-K for the year ended December 31, 2017. There have been no material changes to that information since December 31, 2017, other than the items listed below and described in Note 7 to the condensed consolidated interim financial statements:

- Changes in amounts borrowed under our unsecured, unguaranteed revolving credit agreements;
- The issuance of \$225 million of 4.00% First Mortgage Bonds, Series G, due March 30, 2053, by ITCTransmission;
- The repayment of \$100 million of ITCTransmission's 5.75% First Mortgage Bonds, due April 1, 2018, with the proceeds from the issuance of ITCTransmission's 4.00% First Mortgage Bonds, Series G, due March 30, 2053;
- The repayment of \$50 million of borrowings under the ITCTransmission term loan credit agreement, due March 23, 2019, with the proceeds from the issuance of ITCTransmission's 4.00% First Mortgage Bonds, Series G, due March 30, 2053; and
- The issuance of \$162 million of 4.32% First Mortgage Bonds, Series I, due November 1, 2051, by ITC Midwest. (a)

(a) ITC Midwest expects to issue an additional \$13 million of these First Mortgage Bonds in early November 2018.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our condensed consolidated interim financial statements are prepared in accordance with GAAP. The preparation of these condensed consolidated interim financial statements requires the application of appropriate technical accounting rules and guidance, as well as the use of estimates. The application of these policies requires judgments regarding future events.

## Table of Contents

These estimates and judgments, in and of themselves, could materially impact the condensed consolidated interim financial statements and disclosures based on varying assumptions, as future events rarely develop exactly as forecasted, and even the best estimates routinely require adjustment.

The accounting policies discussed in “Item 7 — Management’s Discussion and Analysis of Financial Condition and Results of Operations — Critical Accounting Policies and Estimates” in our Form 10-K for the fiscal year ended December 31, 2017 are considered by management to be the most important to an understanding of the consolidated financial statements because of their significance to the portrayal of our financial condition and results of operations or because their application places the most significant demands on management’s judgment and estimates about the effect of matters that are inherently uncertain. There have been no material changes to that information during the nine months ended September 30, 2018.

### RECENT ACCOUNTING PRONOUNCEMENTS

See Note 2 to the condensed consolidated interim financial statements.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

#### Fixed Rate Debt

Based on the borrowing rates currently available for bank loans with similar terms and average maturities, the fair value of our consolidated long-term debt and debt maturing within one year, net of discount and deferred financing fees and excluding revolving credit agreements was \$4,967 million at September 30, 2018. The total book value of our consolidated long-term debt and debt maturing within one year, excluding revolving credit agreements was \$4,956 million at September 30, 2018. We performed an analysis calculating the impact of changes in interest rates on the fair value of long-term debt and debt maturing within one year, excluding revolving credit agreements at September 30, 2018. An increase in interest rates of 10% (from 5.0% to 5.5%, for example) at September 30, 2018 would decrease the fair value of debt by \$217 million, and a decrease in interest rates of 10% at September 30, 2018 would increase the fair value of debt by \$235 million at that date.

#### Revolving Credit Agreements

At September 30, 2018, we had a consolidated total of \$290 million outstanding under our revolving credit agreements, which are variable rate loans and fair value approximates book value. A 10% increase or decrease in borrowing rates under the revolving credit agreements compared to the weighted average rates in effect at September 30, 2018 would increase or decrease interest expense by less than \$1 million for an annual period with a constant borrowing level of \$290 million.

#### Other

As described in our Form 10-K for the fiscal year ended December 31, 2017, we are subject to commodity price risk from market price fluctuations, and to credit risk primarily with DTE Electric, Consumers Energy and IP&L, our primary customers. There have been no material changes in these risks during the nine months ended September 30, 2018.

### ITEM 4. CONTROLS AND PROCEDURES

#### Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to provide reasonable assurance that material information required to be disclosed in our reports that we file or submit under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required financial disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that a control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, with a company have been detected.

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15 of the

Exchange Act. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective at a reasonable assurance level.

Table of Contents

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the three months ended September 30, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

See Note 14 to the condensed consolidated interim financial statements for a description of recent developments in the ROE complaints filed against all MISO TOs, including our MISO Regulated Operating Subsidiaries.

ITEM 1A. RISK FACTORS

In light of recent legal developments in a case involving the base ROE and range of reasonableness for certain New England TOs, we are amending and restating, in the manner set forth below, the risk factor entitled “Certain elements of our Regulated Operating Subsidiaries’ formula rates can be and have been challenged, which could result in lowered rates and/or refunds of amounts previously collected and thus have an adverse effect on our business, financial condition, results of operations and cash flows” as previously disclosed in “Item 1A Risk Factors” of our Form 10-K for the year ended December 31, 2017. Other than as set forth below, there have been no material changes to the risk factors set forth in “Item 1A Risk Factors” of our Form 10-K for the year ended December 31, 2017.

Certain elements of our Regulated Operating Subsidiaries’ formula rates can be and have been challenged, which could result in lowered rates and/or refunds of amounts previously collected and thus have an adverse effect on our business, financial condition, results of operations and cash flows.

Our Regulated Operating Subsidiaries provide transmission service under rates regulated by the FERC. The FERC has approved the cost-based formula rates used by our Regulated Operating Subsidiaries to calculate their respective annual revenue requirements, but it has not expressly approved the amount of actual capital and operating expenditures to be used in the formula rates. All aspects of our Regulated Operating Subsidiaries’ rates approved by the FERC, including the formula rate templates, the rates of return on the actual equity portion of their respective capital structures and the approved capital structures, are subject to challenge by interested parties at the FERC, or by the FERC on its own initiative in a proceeding under Section 206 of the FPA. In addition, interested parties may challenge the annual implementation and calculation by our Regulated Operating Subsidiaries of their projected rates and formula rate true up pursuant to their approved formula rates under the Regulated Operating Subsidiaries’ formula rate implementation protocols. End-use consumers and entities supplying electricity to end-use consumers may also attempt to influence government and/or regulators to change the rate setting methodologies that apply to our Regulated Operating Subsidiaries, particularly if rates for delivered electricity increase substantially. If a challenger can establish that any of these aspects are unjust, unreasonable, unduly discriminatory or preferential, then the FERC will make appropriate prospective adjustments to them and/or disallow any of our Regulated Operating Subsidiaries’ inclusion of those aspects in the rate setting formula. This could result in lowered rates and/or refunds of amounts collected, any of which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

In November 2013 and February 2015, certain parties filed complaints with the FERC under Section 206 of the FPA, requesting that the FERC find the base rate of return on equity for all MISO transmission owners, including ITCTransmission, METC and ITC Midwest, to be unjust and unreasonable. In December 2015, the presiding administrative law judge issued an initial decision on the Initial Complaint recommending to the FERC a reduction in the base rate of return on equity of the MISO Transmission owners from 12.38% to 10.32%, with a maximum rate of 11.35%. In September 2016, the FERC issued an order affirming the presiding administrative law judge's initial decision, with the new base ROE to become effective immediately and for the period from November 12, 2013 through February 11, 2015. During the year ended December 31, 2017, we provided net refunds related to the Initial Complaint, with interest, which were substantially finalized during the second quarter of 2017. All parties have filed motions for rehearing on various aspects of the September 2016 Order and the FERC’s decision remains subject to change. The timing of further FERC action is uncertain.

On June 30, 2016, the presiding administrative law judge issued an initial decision on the Second Complaint, which recommended a base rate of return on equity of 9.70%, which would be applicable for the period from February 12,

2015 through May 11, 2016 and going forward from the date on which the FERC issues an order on the Second Complaint, with a maximum rate of 10.68%. In resolving the Second Complaint, if the Second Complaint is not dismissed, we expect the FERC to establish a new base ROE rate and zone of reasonable returns that will be used, along with any incentive adders, to calculate

Table of Contents

the refund liability for the period from February 12, 2015 through May 11, 2016 and the base ROE going forward from the date on which the FERC issues an order on the complaint.

On April 14, 2017, the D.C. Circuit Court vacated the precedent-setting FERC orders that revised the regional base ROE rate for the ISO New England TOs and established and applied the two-step DCF methodology for the determination of ROE. The court remanded the orders to the FERC for further justification of its establishment of the new base ROE for the ISO New England TOs. On October 16, 2018, FERC issued an order on remand which proposes a new methodology for 1) determining when an existing ROE is no longer just and reasonable; and 2) setting a new just and reasonable ROE if an existing ROE has been found not to be just and reasonable. FERC established a paper hearing on how the proposed new methodology should apply to the ISO New England TOs ROE complaint proceedings. If finalized, FERC's proposed policy for determining whether an existing ROE remains just and reasonable, and if not, what the new just and reasonable ROE is, would be applied in ROE proceedings currently pending before the FERC, including the MISO ROE Initial Complaint, and all subsequent periods including, but not limited to, the Second Complaint.

The resolution of these matters may reduce our future revenues and net income and have a further adverse effect on our future results of operations, cash flows and financial condition.

## ITEM 6. EXHIBITS

The following exhibits are filed as part of this report (unless otherwise noted to be previously filed, and therefore incorporated herein by reference). Our SEC file number is 001-32576.

Exhibit No.	Description of Document
31.1	<u>Certification of Chief Executive Officer pursuant to Rule 13a-14 of the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002</u>
31.2	<u>Certification of Chief Financial Officer pursuant to Rule 13a-14 of the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002</u>
32	<u>Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002</u>
