**Duff & Phelps Utility and Corporate
Bond Trust Inc.**

**ANNUAL REPORT
OCTOBER 31, 2015**

December 18, 2015

Dear Fellow Shareholders:

YOUR FUND'S PERFORMANCE

Over the last year, the performance of leveraged bond funds, including Duff & Phelps Utility and Corporate Bond Trust Inc. (the DUC Fund or the Fund), was influenced by questions about the resiliency of the U.S. economic recovery in light of an expected shift to a less accommodative monetary policy and the potential consequences of a global economic slowdown. The perception that the recovery may have reached a point where it is self-sustaining fueled speculation that the Federal Reserve would soon begin paring back the extraordinary monetary stimulus program it has engaged in over the last seven years. However, upward pressure on U.S. interest rates was tempered by relatively low global interest rates and mounting concerns in the global economy. The DUC Fund, along with the broader fixed income market, posted modest returns.

The following table compares the performance of the DUC Fund to a broad-based investment grade bond market benchmark. It is important to note that the index returns stated below include no fees or expenses, whereas the DUC Fund's net asset value (NAV) returns are net of fees and expenses.

Total Return¹

For the period indicated through October 31, 2015

	One Year	Three Years (annualized)	Five Years (annualized)
Duff & Phelps Utility and Corporate Bond Trust Inc.			
Market Value ²	0.71%	-2.58%	1.83%
Net Asset Value ³	0.82%	1.54%	3.68%
Barclays U.S. Aggregate Bond Index ⁴	1.96%	1.65%	3.03%

¹ Past performance is not indicative of future results. Current performance may be lower or higher than performance in historical periods.

² Total return on market value assumes a purchase of common stock at the opening market price on the first business day and a sale at the closing market price on the last business day of the period shown in the table and assumes reinvestment of dividends at the actual reinvestment prices obtained under the terms of the DUC Fund's dividend reinvestment plan. In addition, when buying or selling stock, you would ordinarily pay brokerage expenses. Because brokerage expenses are not reflected in the above calculations, your total return net of brokerage expenses would be lower than the total returns on market value shown in the table. Source: Administrator of the DUC Fund.

³ Total return on NAV uses the same methodology as is described in note 2, but with use of NAV for beginning, ending and reinvestment values. Because the DUC Fund's expenses (ratios detailed on page 12 of this report) reduce the DUC Fund's NAV, they are already reflected in the DUC Fund's total return on NAV shown in the table. NAV represents the underlying value of the DUC Fund's net assets, but the market price per share may be higher or lower than the NAV. Source: Administrator of the DUC Fund.

⁴ The Barclays U.S. Aggregate Bond Index is a broad-based benchmark that measures the investment grade, U.S. dollar-denominated, fixed-rate taxable bond market, including Treasuries, government-related and corporate securities, MBS (agency fixed-rate and hybrid ARM passthroughs), ABS, and CMBS. The index is calculated on a total return basis and rebalanced monthly. Income generated during the month is held in the index without a reinvestment return until month-end when it is removed from the index. The index is unmanaged; its returns do not reflect any fees, expenses, or sales charges and it is not available for direct investment. Source: Bloomberg L.P.

Based on the October 31, 2015 closing price of \$9.39 and a monthly distribution of \$0.05 per share, the DUC Fund common stock had an annualized distribution rate of 6.39%. Please refer to the portion of this letter captioned **ABOUT YOUR FUND** for important information about the sources and characterizations of the DUC Fund's distributions.

MARKET OVERVIEW AND OUTLOOK

U.S. Gross Domestic Product grew modestly over the last year, as the economy moved beyond the early 2015 constraints of extreme winter weather, a west coast port strike and a pullback in the energy sector. On the consumer side, household finances continued to improve, due in part to gains in the job market, lower gasoline prices and the recovering housing sector. Despite improving household finances, stagnant wages and tight credit conditions appear to have restrained consumer spending. On the corporate side, companies continued to issue debt at a record pace in order to take advantage of low borrowing costs. The debt binge, in many instances, may arguably have benefited shareholders as the proceeds were often used for buybacks, dividends and M&A activity. However, expectations for corporate growth were tempered by the stronger dollar and global slowdown, which present challenges for domestic companies that generate a significant portion of their sales overseas. Nationally, pre-election year rhetoric ran high and, along with reduced federal spending, added to fiscal uncertainty. Locally, the financial condition of many municipalities continued to improve, while some state and city governments still grappled with staggering pension obligations and shrinking reserves. Globally, growth was challenged by sluggish momentum overseas, while key foreign central banks renewed their commitment to stimulative monetary policies.

Over the twelve month period ended October 31, 2015, the Federal Open Market Committee (FOMC), the committee within the Federal Reserve that sets domestic monetary policy, reaffirmed its commitment to an accommodative monetary policy. Accordingly, the FOMC held the federal funds rate to a target range of zero to 0.25%. Nonetheless, the era of unprecedented U.S. monetary stimulus would soon be coming to an end, as it became harder to justify the zero interest rate policy of the last seven years. Short term interest rates rose as policy makers signaled that they intended to begin moving towards a more normalized monetary policy in the near future. However, upward pressure on long term U.S. interest rates was mitigated by relatively low global interest rates and renewed geopolitical tension, which caused some investors to remain committed to the relative safety of the U.S. bond market. Over the twelve month period ended October 31, 2015, the U.S. Treasury yield curve flattened, as yields increased by 23 basis points on 2-year maturities, while yields decreased by 19 basis points on 10-year maturities and by 14 basis points on 30-year maturities. Consequently, many sectors of the broader fixed income markets posted modest returns.

On December 16, 2015, the FOMC announced that the target range for the federal funds rate was raised to 0.25% to 0.50%. It is important to note that, even after the move, monetary policy remains highly accommodative and the timing and magnitude of additional moves is likely to remain a topic of debate.

We continue to believe that the U.S. economy remains on track to experience positive albeit moderate growth over the next few quarters. Although we expect a strengthening job market, improving housing sector and falling energy prices to provide support for consumers, we also believe that meager global growth, weaker exports (due in part to the strong dollar) and further fiscal drag are likely to limit U.S. growth and keep the recovery slow and uneven. As a result, we believe that moderate economic growth and modest inflation increase the likelihood that the FOMC is cautious and moves slowly as it attempts to normalize monetary policy.

If the U.S. economy continues to post sub-par growth, the debate over the FOMC's need to significantly raise the federal funds target rate against a backdrop of low inflation and modest global growth is likely to continue. Given heightened geopolitical risks, deflationary fears overseas and mixed economic indicators at home, the fixed income market is likely to remain highly volatile and reactive to the tone of economic data. In the near term, we expect that a tepid U.S. economic recovery, moderate inflation and relatively low global interest rates are likely to limit upward pressure on U.S. Treasury yields. Over the longer term, a self-sustaining economic recovery and growing inflation expectations could set the stage for a sustained and meaningful rise in interest rates. If that happens, the total return of leveraged bond funds, including the DUC Fund, would likely be reduced.

ABOUT YOUR FUND

The DUC Fund seeks to provide investors with a stable monthly distribution that is primarily derived from current fiscal year net investment income. At times a portion of the monthly distribution could be derived from realized capital gains, and to the extent necessary, a return of capital, in which case the DUC Fund is required to inform shareholders of the sources of the distribution based on U.S. generally accepted accounting principles (GAAP). A return of capital

distribution does not necessarily reflect the DUC Fund's investment performance and should not be confused with yield or income. A return of capital may occur, for example, when some of the money that is invested in the Fund is paid back to the investor. Based on GAAP, for the twelve month period ended October 31, 2015, 69% of the total distributions were attributable to current year net investment income and 31% were in excess of current year net investment income. The characterization of the distributions for GAAP purposes and federal income tax purposes differs, primarily because of a difference in the tax and GAAP accounting treatment of amortization for premiums on fixed income securities. As of the date of this letter, for federal income tax purposes, the DUC Fund estimates that its current year distributions will be derived entirely from net investment income. In early 2016, a form 1099-DIV will be sent to shareholders which will state the amount and tax characterization of the DUC Fund's 2015 distributions.

The use of leverage enables the DUC Fund to borrow at short-term rates and invest at long-term rates. As of October 31, 2015, the DUC Fund's leverage consisted of senior debt in the amount of \$125 million. On that date, the amount of leverage represented by the senior debt constituted approximately 31% of the DUC Fund's total assets. The amount and type of leverage is reviewed periodically by the Board of Directors based on the DUC Fund's expected earnings relative to the anticipated costs (including fees and expenses) associated with the leverage. In addition, the long-term expected benefits of leverage are weighed against the potential effect of increasing the volatility of both the DUC Fund's NAV and the market value of its common stock. Historically, the tendency of the U.S. yield curve to exhibit a positive slope (i.e., long-term rates higher than short-term rates) has fostered an environment in which leverage can make a positive contribution to the earnings of the DUC Fund. However, there is no assurance that this will continue to be the case in the future. A rise in short-term interest rates relative to long-term interest rates could have an adverse effect on the income provided from leverage. If the use of leverage was expected to cease being beneficial, the amount and type of leverage employed by the DUC Fund could be modified or eliminated.

The DUC Fund does not currently use derivatives and has no investments in complex securities or structured investment vehicles. However, due to the inherent interconnectivity of today's financial markets, corporate bond investors are faced with the task of identifying and quantifying counterparty risk among both financial and non-financial companies. As a result of the DUC Fund's mandate to invest in the credit markets, any disruptions in the broader credit markets could materially and adversely impact the valuation of the investments held in the DUC Fund.

In addition to the risk of disruptions in the broader credit market, the level of interest rates can be a primary driver of bond fund total returns, including the DUC Fund's returns. For example, an extended environment of historically low interest rates adds an element of reinvestment risk, since the proceeds of maturing bonds may need to be reinvested in lower yielding securities. Alternatively, a sudden or unexpected rise in interest rates would likely reduce the total return of bond funds, since higher interest rates could be expected to depress the valuations of fixed rate bonds held in a portfolio.

Maturity and duration are measures of the sensitivity of a fund's portfolio of investments to changes in interest rates. More specifically, duration refers to the percentage change in a bond's price for a given change in rates (typically +/- 100 basis points). In general, the greater the average maturity and duration of a portfolio, the greater is the potential percentage price volatility for a given change in interest rates. As of October 31, 2015, the DUC Fund's portfolio of investments had an average maturity of 4.1 years and a duration of 3.4 years, while the Barclays U.S. Aggregate Bond Index had an average maturity of 7.9 years and a duration of 5.6 years.

As a practical matter, it is not possible for the DUC Fund to be completely insulated from disruptions in the broader credit market or unexpected moves in interest rates. However, management believes that over the long term the diversification of the portfolio across industries and issuers, in addition to the conservative distribution of assets along the yield curve, positions the DUC Fund to take advantage of future opportunities while limiting volatility to some degree.

BOARD OF DIRECTORS MEETING

At the regular December 18, 2015 Board of Directors meeting, the Board declared the following monthly dividends:

<u>Cents Per Share</u>	<u>Record Date</u>	<u>Payable Date</u>

5.0	February 16	February 29
5.0	March 15	March 31

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN AND DIRECT DEPOSIT

For those of you receiving dividends in cash, you may want to consider taking advantage of the dividend reinvestment and cash purchase plan (the Plan) available to all registered shareholders of the DUC Fund. Under the Plan, the DUC Fund absorbs all administrative costs (except brokerage commissions, if any) so that the total amount of your dividends and other distributions may be reinvested in additional shares of the DUC Fund. The cash purchase option permits Plan participants to make voluntary additional share purchases in the open market through the Plan's Agent, Computershare. For those shareholders who wish to continue receiving their dividends in cash, you may want to consider having your monthly dividends deposited, free of charge, directly into your bank account through electronic funds transfer. Direct deposit provides the convenience of automatic and immediate access to your funds, while eliminating the possibility of mail delays and lost, stolen or destroyed checks. Further information about the Plan and direct deposit is available from Computershare, at 1-866-221-1681 or www.computershare.com/investor.

(a) All or a portion of this security has been pledged as collateral for borrowings and made available for loan.

(b) All or a portion of this security has been loaned.

The percentage shown for each investment category is the total value of that category as a percentage of the net assets applicable to common stock of the Fund.

The Fund's investments are carried at fair value which is defined as the price that the Fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. The three-tier hierarchy of inputs established to classify fair value measurements for disclosure purposes is summarized in the three broad levels listed below:

Level 1 quoted prices in active markets for identical securities.

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risks, etc.).

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in these securities. The following is a summary of the inputs used to value each of the Fund's investments at October 31, 2015:

	<u>Level 1</u>	<u>Level 2</u>
Corporate bonds		\$ 384,996,041

* Individual ratings are grouped based on the lower rating of Standard & Poor's Financial Services LLC (S&P) or Moody's Investors Service Inc. (Moody's) and are expressed using the S&P ratings scale. If a particular security is rated by either S&P or Moody's, but not both, then the single rating is used. If a particular security is not rated by either S&P or Moody's, then a rating from Fitch Ratings, Inc. (Fitch) is used, if available. The Fund does not evaluate these ratings but simply assigns them to the appropriate credit quality category as determined by the rating agencies, as applicable. Securities that have not been rated by S&P, Moody's or Fitch totaled 0% of the portfolio at the end of the reporting period.

DUFF & PHELPS UTILITY AND CORPORATE BOND TRUST INC.

NOTES TO FINANCIAL STATEMENTS

October 31, 2015

Note 1. Organization

Duff & Phelps Utility and Corporate Bond Trust Inc. (the Fund) was incorporated under the laws of the State of Maryland on November 23, 1992. The Fund commenced operations on January 29, 1993 as a diversified, closed-end management investment company registered under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund's investment objective is to seek high current income consistent with investing in securities of investment grade quality. In 2014, the Fund changed its fiscal year end to October 31 from December 31.

Note 2. Significant Accounting Policies

The following are the significant accounting policies of the Fund:

A. Investment Valuation: Preferred equity securities traded on a national or foreign securities exchange or traded over-the-counter and quoted on the NASDAQ Stock Market are valued at the last reported sale price or, if there was no sale on the valuation date, then the security is valued at the closing bid price, in each case using valuation data provided by an independent pricing service, and are generally classified as Level 1. Preferred equity securities traded on more than one securities exchange shall be valued at the last sale price on the business day as of which such value is being determined at the close of the exchange representing the principal market for such securities and are classified as Level 1. If there was no sale on the valuation date, then the security is valued at the closing bid price of the exchange representing the principal market for such securities. Debt securities are valued at the mean of bid and ask prices provided by an independent pricing service when such prices are believed to reflect the fair value of such securities and are generally classified as Level 2. Any securities for which it is determined that market prices are unavailable or inappropriate are valued at a fair value using a procedure determined in good faith by the Board of Directors and are classified as Level 2 or 3 based on the valuation inputs.

B. Investment Transactions and Investment Income: Securities transactions are recorded on the trade date. Realized gains and losses on sales of securities are calculated on the identified cost basis. Dividend income is recognized on the ex-dividend date and interest income is recognized on the accrual basis. The Fund amortizes premiums and accretes discounts on securities using the effective interest method.

C. Federal Income Taxes: It is the Fund's intention to comply with requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income and capital gains to its shareholders. Therefore, no provision for Federal income or excise taxes is required. Management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Since tax authorities can examine previously filed tax returns, the Fund's tax returns filed for the tax years 2012 to 2015 are subject to review.

D. Dividends and Distributions: The Fund declares and pays dividends on its common stock monthly from net investment income. Net long-term capital gains, if any, in excess of loss carryforwards are expected to be distributed annually. The Fund will make a determination at the end of its fiscal year as to whether to retain or distribute such gains. Dividends and distributions are recorded on the ex-dividend date. The amount and timing of distributions are generally determined in accordance with federal tax regulations, which may differ from U.S. generally accepted accounting principles.

DUFF & PHELPS UTILITY AND CORPORATE BOND TRUST INC.**NOTES TO FINANCIAL STATEMENTS (Continued)****October 31, 2015**

E. Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Note 3. Agreements and Management Arrangements

A. Adviser: The Fund has an Advisory Agreement with Duff & Phelps Investment Management Co. (the Adviser), an indirect, wholly owned subsidiary of Virtus Investment Partners, Inc. (Virtus). The investment advisory fee is payable monthly at an annual rate of 0.50% of the Fund's average weekly managed assets, which is defined as the average weekly value of the total assets of the Fund minus the sum of all accrued liabilities of the Fund (other than the aggregate amount of any outstanding borrowings or other indebtedness constituting financial leverage).

B. Administrator: The Fund has an Administration Agreement with J.J.B. Hilliard, W.L. Lyons, LLC (Hilliard). The administration fee is payable monthly at an annual rate of 0.14% of the Fund's average weekly net assets, which is defined as the average weekly value of the total assets of the Fund minus the sum of all accrued liabilities of the Fund (including the aggregate amount of any outstanding borrowings or other indebtedness constituting financial leverage).

C. Directors: The Fund pays each director not affiliated with the Adviser an annual fee plus a fee for certain meetings of the board or committees of the board attended. Total fees paid to directors for the year ended October 31, 2015 were \$117,379.

D. Affiliated Shareholder: At October 31, 2015, Virtus Partners, Inc. (a wholly owned subsidiary of Virtus) held 46,087 shares of the Fund, which represents 0.17% of the shares of common stock outstanding. These shares may be sold at any time.

Note 4. Investment Transactions

Purchases and sales of investment securities (excluding U.S. Government and agency mortgage-backed securities and short-term investments) for the year ended October 31, 2015 were \$55,419,405 and \$54,347,761, respectively. Purchases and sales of U.S. Government and agency mortgage-backed securities for the year ended October 31, 2015 were \$-0- and \$109,063, respectively.

Note 5. Distributions and Tax Information

At October 31, 2015, the federal tax cost of investments and aggregate gross unrealized appreciation (depreciation) were as follows:

Federal Tax Cost	Unrealized Appreciation	Unrealized Depreciation	Net Unrealized Depreciation
<u>\$396,457,516</u>	<u>\$ 9,501,581</u>	<u>\$ (19,215,439)</u>	<u>\$ (9,713,858)</u>

The difference between the book basis and tax basis unrealized appreciation (depreciation) is primarily attributable to the difference between book and tax amortization methods for premiums and discounts on fixed income securities.

DUFF & PHELPS UTILITY AND CORPORATE BOND TRUST INC.**NOTES TO FINANCIAL STATEMENTS (Continued)****October 31, 2015**

The tax character of distributions paid during the year ended October 31, 2015, ten months ended October 31, 2014 and year ended December 31, 2013 were as follows:

	<u>10/31/2015</u>	<u>10/31/2014</u>	<u>12/31/2013</u>
<i>Distributions paid from:</i>			
Ordinary income	\$ 16,496,810	\$ 18,696,384	\$ 23,670,312
Total distributions	<u>\$ 16,496,810</u>	<u>\$ 18,696,384</u>	<u>\$ 23,670,312</u>

At October 31, 2015, the components of distributable earnings on a tax basis were as follows:

Undistributed net ordinary income	\$5,696,824
Other accumulated loss	(50,150,186)
Unrealized net appreciation (depreciation)	(9,713,858)
	<u>\$ (54,167,220)</u>

At October 31, 2015, the Fund had a net capital loss carryforward of \$50,150,186 which may be used to offset future capital gains. This net capital loss carryforward will be reduced by future realized capital gains.

Under current law, the Fund may carry forward net capital losses indefinitely to use to offset capital gains realized in future years. Previous law limited the carry forward of capital losses to the eight tax years following the year the capital loss was realized. If the Fund has capital losses that are subject to current law and also has capital losses subject to prior law, the losses realized under current law will be utilized to offset capital gains before any of the losses governed by prior law can be used. As a result of these ordering rules, capital losses realized under previous law may be more likely to expire unused. Capital losses realized under current law will carry forward retaining their classification as long-term or short-term losses; as compared to under prior law in which all capital losses were carried forward as short term capital losses.

At October 31, 2015, the Fund had net capital losses as follows:

	<u>Subject to Expiration</u>	<u>Not Subject to Expiration</u>	<u>Total</u>
		<u>Short Term</u>	<u>Long Term</u>
Carryover loss:	\$ 29,570,215	\$ 21,141	\$ 20,558,830
Expiration dates:			\$ 50,150,186
2017	18,907,565		

2018

10,662,650

Note 6. Reclassification of Capital Accounts

Due to inherent differences in the recognition and distribution of income and realized gains (losses) under U.S. generally accepted accounting principles and for federal income tax purposes, permanent differences between book and tax basis reporting have been identified and appropriately reclassified on the Statement of Assets and Liabilities. At October 31, 2015, the following reclassifications were recorded:

Paid-in Capital	Accumulated net realized loss on investments	Distributions in excess of net investment income
<hr/>	<hr/>	<hr/>
\$(13,096,121)	\$7,843,538	\$5,252,583

DUFF & PHELPS UTILITY AND CORPORATE BOND TRUST INC.

NOTES TO FINANCIAL STATEMENTS (Continued)

October 31, 2015

The reclassifications primarily relate to permanent differences attributable to amortization methods on fixed income securities and the expiration of a net capital loss carryforward. These reclassifications have no impact on the net asset value of the Fund.

Note 7. Borrowings

The Fund has a Committed Facility Agreement (the Facility) with a commercial bank (the Bank) that allows the Fund to borrow cash, up to a limit of \$140,000,000. Borrowings under the Facility are collateralized by certain assets of the Fund (the Hypothecated Securities). The Fund expressly grants the Bank the right to re-register the Hypothecated Securities in its own name or in another name other than the Fund's and to pledge, repledge, hypothecate, rehypothecate, sell, lend or otherwise transfer or use the Hypothecated Securities. Interest is charged at 3 month LIBOR (London Interbank Offered Rate) plus an additional percentage rate of 0.85% on the amount borrowed. A commitment fee of 0.70% on the undrawn balance is also paid and is included in interest expense and fees on the Statement of Operations. The Bank has the ability to require repayment of outstanding borrowings under the Facility upon six months' notice or following an event of default. In addition, the Bank has the ability to require repayment of the Facility upon 29 days' notice conditioned on a three-notch or greater decline in the Bank's long-term credit rating. For the year ended October 31, 2015, the average daily borrowings under the Facility and the weighted daily average interest rate were \$125,000,000 and 1.13%, respectively. As of October 31, 2015, the amount of such outstanding borrowings was \$125,000,000. The interest rate applicable to the borrowing at October 31, 2015 was 1.18%.

The Bank has the ability to borrow the Hypothecated Securities (Rehypothecated Securities). The Fund is entitled to receive a fee from the Bank in connection with any borrowing of Rehypothecated Securities. The fee is computed daily based on a percentage of the difference between the fair market rate as determined by the Bank and the Federal Funds Open rate and is paid monthly. The Fund can designate any Hypothecated Security as ineligible for rehypothecation and can recall any Rehypothecated Security at any time and if the Bank fails to return it (or an equivalent security) in a timely fashion, the Bank will be liable to the Fund for the ultimate delivery of such security and certain costs associated with delayed delivery. In the event the Bank does not return the Rehypothecated Security or an equivalent security, the Fund will have the right to, among other things, apply and set off an amount equal to 100% of the then-current fair market value of such Rehypothecated Securities against any amounts owed to the Bank under the Facility. The Fund is entitled to receive an amount equal to any and all interest, dividends, or distributions paid or distributed with respect to any Hypothecated Security on the payment date. At October 31, 2015, Hypothecated Securities under the Facility had a market value of \$290,771,373 and Rehypothecated Securities had a market value of \$117,053,350. If at the close of any business day, the value of all outstanding Rehypothecated Securities exceeds the value of the borrowings, the Bank shall promptly, at its option, either reduce the amount of the outstanding securities or deliver an amount of cash at least equal to the excess amount.

Note 8. Indemnifications

Under the Fund's organizational documents, its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business, the Fund enters into contracts that provide general indemnifications to other parties. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not occurred. However, the Fund has not had prior claims or losses pursuant to these arrangements and expects the risk of loss to be remote.

Note 9. Subsequent Events

Management has evaluated the impact of all subsequent events on the Fund through the date the financial statements were available for issuance, and has determined that there were no subsequent events requiring recognition or disclosure in these financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Shareholders and Board of Directors of

Duff & Phelps Utility and Corporate Bond Trust Inc.:

We have audited the accompanying statement of assets and liabilities of Duff & Phelps Utility and Corporate Bond Trust Inc. (the Fund), including the schedule of investments, as of October 31, 2015, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the periods indicated therein and the financial highlights for each of the periods indicated therein. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Fund's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of October 31, 2015, by correspondence with the custodian. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Duff & Phelps Utility and Corporate Bond Trust Inc. at October 31, 2015, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the periods indicated therein and the financial highlights for each of the periods indicated therein, in conformity with U.S. generally accepted accounting principles.

Information on the operation of the SEC's Public Reference Room may be obtained by calling (800) 732-0330. In addition, the Fund's Form N-Q is available without charge, upon request, by calling the Administrator toll-free at (888) 878-7845 or is available on the Fund's website at www.ducfund.com.

ADDITIONAL INFORMATION (Unaudited)

Since October 31, 2014: (i) there have been no material changes in the Fund's investment objectives or policies that have not been approved by the shareholders; (ii) there have been no changes in the Fund's charter or by-laws that would delay or prevent a change in control of the Fund which have not been approved by the shareholders; and (iii) there have been no material changes in the principal risk factors associated with an investment in the Fund.

T. Brooks Beittel, a portfolio manager of the Fund, retired on September 30, 2015. Additional information, if any, relating to the Fund's directors and officers, in addition to such information as is found elsewhere in the Annual Report, may be requested by contacting the Fund at the address provided in this report.

Notice is hereby given in accordance with Section 23(c) of the 1940 Act that the Fund may from time to time purchase its shares of common stock in the open market.

INFORMATION ABOUT DIRECTORS AND OFFICERS OF THE FUND (Unaudited)

Set forth below are the names and certain biographical information about the directors of the Fund. Directors are divided into three classes and are elected to serve staggered three-year terms. All of the current directors of the Fund, with the exception of Mr. Partain, are classified as independent directors because none of them are interested persons of the Fund, as defined in the 1940 Act. Mr. Partain is an interested person of the Fund by reason of his position as President and Chief Executive Officer of the Fund and President, Chief Investment Officer and employee of the Adviser. The term Fund Complex refers to the Fund and all the other investment companies advised by affiliates of Virtus.

The address for all directors is c/o Duff & Phelps Investment Management Co., 200 South Wacker Drive, Suite 500, Chicago, Illinois 60606. All of the Fund's directors currently serve on the Board of Directors of three other registered closed-end investment companies that are advised by Duff & Phelps Investment Management Co.: DNP Select Income Fund Inc. (DNP), Duff & Phelps Global Utility Income Fund Inc. (DPG) and DTF Tax-Free Income Inc. (DTF).

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN (Unaudited)

Registered common shareholders are automatically enrolled in the Fund's Dividend Reinvestment and Cash Purchase Plan (the Plan). Under the Plan, all distributions to common shareholders will automatically be reinvested by Computershare Trust Company, N.A. (the Plan Agent) in additional shares of common stock of the Fund unless an election is made to receive distributions in cash. Shareholders who elect not to participate in the Plan will receive all distributions in cash via direct deposit or paid by check in U.S. dollars mailed directly to the shareholder of record (or if the shares are held in street or other nominee name, then to the nominee) by the Plan Agent.

The Plan Agent serves as agent for the common shareholders in administering the Plan. After the Fund declares a dividend or determines to make a capital gains distribution, if (1) the market price of shares on the valuation date equals or exceeds the net asset value of these shares, the

Fund will issue new shares at net asset value, provided that the Fund

will not issue new shares at a discount of more than 5% from the then current market price; or if (2) the market price is lower than the net asset value, or if dividends or capital gains distributions are declared and payable only in cash, then the Plan Agent will, as agent for the participants, receive the cash payment and use it to buy shares of common stock in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value per share of the common stock, the average per share purchase price paid by the Plan Agent may exceed the net asset value of the Fund's common stock, resulting in the acquisition of fewer shares of common stock than if the dividend or distribution had been paid in common stock issued by the Fund. As described below, the Plan was amended, effective December 1, 1999, whereby the Fund will issue new shares in circumstances in which it will be beneficial to Plan participants.

The reinvestment shares are credited to the Plan participant's account in the Fund's stock records maintained by the Plan Agent, including a fractional share to six decimal places. The Plan Agent sends to each Plan participant a monthly written statement of each transaction in the Plan participant's share account, including information that the participant will need for income tax records. Shares held in the Plan participant's account have full distribution and voting rights. Plan participants may elect to send to the Plan Agent certificates for their other shares of the Fund's stock, which will be included in statements of their share accounts as non-certificated shares. The Plan Agent does not currently charge a fee per deposit, but may do so in the future.

The cost of administering the Plan is borne by the Fund. There is no brokerage commission charged on shares issued directly by the Fund. However, Plan participants will pay a per share fee (which includes brokerage commissions or equivalent purchase costs) incurred in connection with purchases by the Plan Agent for reinvestment of distributions and voluntary cash payments.

The Plan also permits Plan participants to periodically purchase additional shares of common stock through the Plan by delivering to the Plan Agent a check for at least \$100, but not more than \$5,000 in any month. The Plan Agent will use the funds to purchase shares in the open market or in private transactions. The Fund will not issue any new shares in connection with voluntary additional share investments. Purchases will be made commencing with the date of the first distribution payment after receipt of the funds for additional purchases (assuming funds have been received at least two business days prior to the distribution date), and may be aggregated with purchases of shares for reinvestment of distributions. Shares will be allocated to the accounts of Plan participants purchasing additional shares at the weighted average price per share, plus a service charge imposed by the Plan Agent and a per share fee incurred in connection with such purchases. Checks are to be drawn in U.S. dollars and drawn against a U.S. bank.

The Plan Agent will make every effort to invest funds promptly, and in no event more than 30 days after the Plan Agent receives a distribution, and 35 days for voluntary additional share investment, except where deferral is required under applicable federal or state laws or regulations.

Funds sent to the Plan Agent for voluntary additional share investment may be recalled by the Plan participant by telephone, Internet, or written notice received by the Plan Agent not later than two business days before the next distribution payment date. If for any reason a regular monthly distribution is not paid by the Fund, funds for voluntary additional share investment will be returned to the Plan participant, unless the Plan participant specifically directs that they continue to be held by the Plan Agent for subsequent investment.

A Plan participant may leave the Plan at any time by telephone, Internet or written notice to the Plan Agent. If notification is received by the Plan Agent after the record date of a distribution, it may not be effective until the next distribution. Upon discontinuing participation, a Plan participant has three choices: (i) if so requested by telephone, Internet or written notice, the Plan Agent will sell the Plan participant's shares and send a check for the net proceeds after deducting the Plan Agent's sales fees (currently \$5.00) and any per share fee (currently \$0.04); (ii) if so requested by telephone, Internet or written notice, the Plan participant's shares may be electronically transferred to the Plan participant's stock broker through the Direct Registration System; or (iii) if not so requested in (i) or (ii), the Plan participant will receive by mail a certificate for the number of whole non-certificated shares held in the Plan participant's account and a check for the value of the fractional share, less applicable fees. The Fund reserves the right to amend the Plan to

institute a service charge to participants. An election to withdraw from the Plan will, until such election is changed, be deemed to be an election by a common shareholder to take all subsequent distributions in cash. There is no penalty for non-participation in or withdrawal from the Plan, and shareholders who have withdrawn from the Plan may rejoin it at any time.

Common shareholders whose common stock is held in the name of a broker or nominee should contact such broker or nominee to determine whether or how they may participate in the Plan. The Plan permits a nominee to participate on behalf of its underlying owners who wish to participate. However, some nominees may not permit an underlying owner to participate without transferring the shares into the owner's name.

The automatic reinvestment of dividends and distributions will not relieve Plan participants of any federal income tax that may be payable (or required to be withheld) on such distributions. The Fund reserves the right to amend or terminate the Plan as applied to any distribution paid subsequent to written notice of the change sent to all Plan participants at least 90 days before the record date for the distribution. The Plan may also be amended or terminated by the Plan Agent by at least 90 days' written notice to all Plan participants. All questions concerning the Plan should be directed to the Plan Agent by calling (866) 221-1681 or by visiting the Plan Agent's website, www.computershare.com/investor.

ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer and principal financial officer (the Code of Ethics). The registrant's principal financial officer also performs the functions of principal accounting officer.

The text of the registrant's Code of Ethics is posted on the registrant's web site at <http://www.ducfund.com>. In the event that the registrant makes any amendment to or grants any waiver from the provisions of its Code of Ethics, the registrant intends to disclose such amendment or waiver on its web site within five business days.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's board of directors has determined that two members of its audit committee, Philip R. McLoughlin and Carl F. Pollard are audit committee financial experts and that each of them is independent for purposes of this Item.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

The following table sets forth the aggregate audit and non-audit fees billed to the registrant for each of the last two fiscal years for professional services rendered by the registrant's principal accountant Ernst & Young LLP, an independent registered public accounting firm (the Independent Auditor).

	Fiscal year ended October 31, 2015	Fiscal year ended October 31, 2014⁽¹⁾
Audit Fees (2)	\$ 54,600	\$ 53,000
Audit-Related Fees (3)(7)	0	0
Tax Fees (4)(7)	8,050	8,750
All Other Fees (5)(7)	0	0
Aggregate Non-Audit Fees (6)(7)	8,050	8,750

- (1) In 2014, the Registrant changed its fiscal year end to October so this fiscal year end consists of the ten months ended October 31, 2014.
- (2) Audit Fees are fees billed for professional services rendered by the Independent Auditor for the audit of the registrant's annual financial statements and for services that are normally provided by the Independent Auditor in connection with statutory and regulatory filings or engagements.
- (3) Audit-Related Fees are fees billed for assurance and related services by the Independent Auditor that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under the caption Audit Fees. In both years shown in the table, such services consisted of the performance of periodic agreed-upon procedures relating to the registrant's preferred stock.
- (4) Tax Fees are fees billed for professional services rendered by the Independent Auditor for tax compliance, tax advice and tax planning. In both years shown in the table, such services consisted of preparation of the registrant's annual federal and state income tax returns and excise tax returns.
- (5) All Other Fees are fees billed for products and services provided by the Independent Auditor, other than the services reported under the captions Audit Fees, Audit-Related Fees and Tax Fees.

- (6) Aggregate Non-Audit Fees are non-audit fees billed by the Independent Auditor for services rendered to the registrant, the registrant's investment adviser (the Adviser) and any entity controlling, controlled by or under common control with the Adviser that provides ongoing services to the registrant (collectively, the Covered Entities). During both years shown in the table, no portion of such fees related to services rendered by the Independent Auditor to the Adviser or any other Covered Entity.
- (7) No portion of these fees was approved by the registrant's audit committee after the beginning of the engagement pursuant to the waiver of the pre-approval requirement for certain *de minimis* non-audit services described in Section 10A of the Securities Exchange Act of 1934 (the Exchange Act) and applicable regulations.

The audit committee of the board of directors of the registrant (the Audit Committee), jointly with the audit committee of the board of directors of DNP Select Income Fund Inc. (DNP), Duff & Phelps Global Utility Income Fund Inc. (DPG) and DTF Tax-Free Income Inc. (DTF), has adopted a Joint Audit Committee Pre-Approval Policy to govern the provision by the Independent Auditor of the following services: (i) all engagements for audit and non-audit services to be provided by the Independent Auditor to the registrant and (ii) all engagements for non-audit services to be provided by the Independent Auditor to the Adviser or any other Covered Entity, if the engagement relates directly to the operations and financial reporting of the registrant. With respect to non-audit services rendered by the Independent Auditor to the Adviser or any other Covered Entity that were not required to be pre-approved by the Audit Committee because they do not relate directly to the operations and financial reporting of the registrant, the Audit Committee has nonetheless considered whether the provision of such services is compatible with maintaining the independence of the Independent Auditor.

Set forth below is a copy of the Joint Audit Committee Pre-Approval Policy (omitting data in the appendices relating to DNP, DPG and DTF).

AUDIT COMMITTEE

AUDIT AND NON-AUDIT SERVICES PRE-APPROVAL POLICY

(adopted on December 18, 2014 and amended June 18, 2015)

I. Statement of Principles

Under the Sarbanes-Oxley Act of 2002 (the Act), the Audit Committee of the Board of Directors of each of DNP Select Income Fund Inc., Duff & Phelps Global Utility Income Fund Inc., Duff & Phelps Utility and Corporate Bond Trust Inc. and DTF Tax-Free Income Inc. (each a Fund and, collectively, the Funds) is responsible for the appointment, compensation and oversight of the work of the independent auditor. As part of this responsibility, the Audit Committee is required to pre-approve the audit and non-audit services performed by the independent auditor in order to assure that they do not impair the auditor's independence from the Fund. To implement these provisions of the Act, the Securities and Exchange Commission (the SEC) has issued rules specifying the types of services that an independent auditor may

- (1) This Joint Audit Committee Pre-Approval Policy has been adopted by the Audit Committee of each Fund. Solely for the sake of clarity and simplicity, this Joint Audit Committee Pre-Approval Policy has been drafted as if there is a single Fund, a single Audit Committee and a single Board. The terms Audit Committee and Board mean the Audit Committee and Board of each Fund, respectively, unless the context otherwise requires. The Audit Committee and the Board of each Fund, however, shall act separately and in the best interests of its respective Fund.

not provide to its audit client, as well as the Audit Committee's administration of the engagement of the independent auditor. Accordingly, the Audit Committee has adopted this Audit and Non-Audit Services Pre-Approval Policy (this Policy), which sets forth the procedures and the conditions pursuant to which services proposed to be performed by the independent auditor may be pre-approved.

The SEC's rules establish two different approaches to pre-approving services, which the SEC considers to be equally valid. Proposed services either: may be pre-approved without consideration of specific case-by-case services by the Audit Committee (general pre-approval); or require the specific pre-approval of the Audit Committee (specific pre-approval). The Audit Committee believes that the combination of these two approaches in this Policy will result in an effective and efficient procedure to pre-approve services performed by the independent auditor. As set forth in this Policy, unless a type of service has received general pre-approval, it will require specific pre-approval by the Audit Committee if it is to be provided by the independent auditor. Any proposed services exceeding pre-approved cost levels or budgeted amounts will also require specific pre-approval by the Audit Committee.

For both types of pre-approval, the Audit Committee will consider whether such services are consistent with the SEC's rules on auditor independence. The Audit Committee will also consider whether the independent auditor is best positioned to provide the most effective and efficient service, for reasons such as its familiarity with the Fund's business, people, culture, accounting systems, risk profile and other factors, and whether the service might enhance the Fund's ability to manage or control risk or improve audit quality. All such factors will be considered as a whole, and no one factor should necessarily be determinative.

Under the SEC's rules, the Audit Committee must pre-approve non-audit services provided not only to the Fund but also to the Fund's investment adviser and other affiliated entities that provide ongoing services to the Fund if the independent accountant's services to those affiliated entities have a direct impact on the Fund's operations or financial reporting.

The Audit Committee is also mindful of the relationship between fees for audit and non-audit services in deciding whether to pre-approve any such services and may determine, for each fiscal year, the appropriate ratio between the total amount of fees for audit, audit-related and tax services (including any audit-related or tax service fees for affiliates that are subject to pre-approval) and the total amount of fees for certain permissible non-audit services classified as all other services (including any such services for affiliates that are subject to pre-approval).

The appendices to this Policy describe the audit, audit-related, tax and all other services that have the general pre-approval of the Audit Committee. The term of any general pre-approval is 12 months from the date of pre-approval, unless the Audit Committee considers a different period and states otherwise. The Audit Committee will annually review and pre-approve the services that may be provided by the independent auditor without obtaining specific pre-approval from the Audit Committee. The Audit Committee will add to or subtract from the list of general pre-approved services from time to time, based on subsequent determinations.

The purpose of this Policy is to set forth the procedures by which the Audit Committee intends to fulfill its responsibilities. It does not delegate the Audit Committee's responsibilities to pre-approve services performed by the independent auditor to management.

The independent auditor has reviewed this Policy and believes that implementation of this Policy will not adversely affect the auditor's independence.

II. Delegation

As provided in the Act and the SEC's rules, the Audit Committee may delegate either type of pre-approval authority to one or more of its members who are independent directors. Any member to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions to the Audit Committee at its next scheduled meeting. In accordance with the foregoing provisions, the Audit

Committee has delegated pre-approval to its chairman, since under the Audit Committee's charter each member of the Audit Committee, including the chairman, is required to be an independent director.

III. Audit Services

The annual audit services engagement terms and fees will be subject to the specific pre-approval of the Audit Committee. Audit services include the annual financial statement audit and other procedures required to be performed by the independent auditor to be able to form an opinion on the Fund's financial statements. These other procedures include information systems and procedural reviews and testing performed in order to understand and place reliance on the systems of internal control, and consultations relating to the audit. The Audit Committee will monitor the audit services engagement as necessary, but no less than on a semiannual basis, and will also approve, if necessary, any changes in terms, conditions and fees resulting from changes in audit scope, Fund structure or other items.

In addition to the annual audit services engagement approved by the Audit Committee, the Audit Committee may grant general pre-approval to other audit services, which are those services that only the independent auditor reasonably can provide. Other audit services may include statutory audits and services associated with SEC registration statements (on Forms N-1A, N-2, N-3, N-4, etc.), periodic reports and other documents filed with the SEC or other documents issued in connection with securities offerings.

The Audit Committee has pre-approved the audit services in Appendix A. All other audit services not listed in Appendix A must be specifically pre-approved by the Audit Committee.

IV. Audit-Related Services

Audit-related services are assurance and related services that are reasonably related to the performance of the audit or review of the Fund's financial statements or that are traditionally performed by the independent auditor. Because the Audit Committee believes that the provision of audit-related services does not impair the independence of the auditor and is consistent with the SEC's rules on auditor independence, the Audit Committee may grant general pre-approval to audit-related services. Audit-related services include, among others, accounting consultations related to accounting, financial reporting or disclosure matters not classified as audit services; assistance with understanding and implementing new accounting and financial reporting guidance from rulemaking authorities; agreed-upon or expanded audit procedures related to accounting and/or billing records required to respond to or comply with financial, accounting or regulatory reporting matters; and assistance with internal control reporting requirements under form N-SAR.

The Audit Committee has pre-approved the audit-related services in Appendix B. All other audit-related services not listed in Appendix B must be specifically pre-approved by the Audit Committee.

V. Tax Services

The Audit Committee believes that the independent auditor can provide tax services to the Fund such as tax compliance, tax planning and tax advice without impairing the auditor's independence, and the SEC has stated that the independent auditor may provide such services. Hence, the Audit Committee believes it may grant general pre-approval to those tax services that have historically been provided by the auditor, that the Audit Committee has reviewed and believes would not impair the independence of the auditor, and that are consistent with the SEC's rules on auditor independence. The Audit Committee will not permit the retention of the independent auditor in connection with a transaction initially recommended by the independent auditor, the sole business purpose of which may be tax avoidance and the tax treatment of which may not be supported in the Internal Revenue Code and related regulations. The Audit Committee will consult with the Fund's Administrator or outside counsel to determine that the tax planning and reporting positions are consistent with this Policy.

Pursuant to the preceding paragraph, the Audit Committee has pre-approved the tax services in Appendix C. All tax services involving large and complex transactions not listed in Appendix C must be specifically

pre-approved by the Audit Committee, including: tax services proposed to be provided by the independent auditor to any executive officer or director of the Fund, in his or her individual capacity, where such services are paid for by the Fund.

VI. All Other Services

The Audit Committee believes, based on the SEC's rules prohibiting the independent auditor from providing specific non-audit services, that other types of non-audit services are permitted. Accordingly, the Audit Committee believes it may grant general pre-approval to those permissible non-audit services classified as all other services that it believes are routine and recurring services, would not impair the independence of the auditor and are consistent with the SEC's rules on auditor independence.

The Audit Committee has pre-approved the all other services in Appendix D. Permissible all other services not listed in Appendix D must be specifically pre-approved by the Audit Committee.

A list of the SEC's prohibited non-audit services is attached to this Policy as Appendix E. The SEC's rules and relevant guidance should be consulted to determine the precise definitions of these services and the applicability of exceptions to certain of the prohibitions.

VII. Pre-Approval Fee Levels or Budgeted Amounts

Pre-approval fee levels or budgeted amounts for all services to be provided by the independent auditor will be established annually by the Audit Committee. (Note that separate amounts may be specified for services to the Fund and for services to other affiliated entities that are subject to pre-approval.) Any proposed services exceeding these levels or amounts will require specific pre-approval by the Audit Committee. The Audit Committee is mindful of the overall relationship of fees for audit and non-audit services in determining whether to pre-approve any such services. For each fiscal year, the Audit Committee may determine the appropriate ratio between the total amount of fees for audit, audit-related and tax services for the Fund (including any audit-related or tax services fees for affiliates that are subject to pre-approval), and the total amount of fees for services classified as all other services (including any such services for affiliates that are subject to pre-approval).

VIII. Procedures

All requests or applications for services to be provided by the independent auditor that do not require specific approval by the Audit Committee will be submitted to the Fund's Administrator and must include a detailed description of the services to be rendered. The Administrator will determine whether such services are included within the list of services that have received the general pre-approval of the Audit Committee. The Audit Committee will be informed on a timely basis of any such services rendered by the independent auditor.

Requests or applications to provide services that require specific approval by the Audit Committee will be submitted to the Audit Committee by both the independent auditor and the Fund's Administrator, and must include a joint statement as to whether, in their view, the request or application is consistent with the SEC's rules on auditor independence.

The Audit Committee has designated the Fund's Administrator to monitor the performance of all services provided by the independent auditor and to determine whether such services are in compliance with this Policy. The Administrator will report to the Audit Committee on a periodic basis on the results of its monitoring. Both the Administrator and any member of management will immediately report to the Chairman of the Audit Committee any breach of this Policy that comes to their attention.

IX. Additional Requirements

The Audit Committee has determined to take additional measures on an annual basis to meet its responsibility to oversee the work of the independent auditor and to assure the auditor's independence from the Fund, such as reviewing a formal written statement from the independent auditor delineating all relationships between the independent auditor and the Fund, consistent with applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the Audit Committee concerning independence, and discussing with the independent auditor its methods and procedures for ensuring independence.

PROXY VOTING POLICIES AND PROCEDURES

Last Revised June 19, 2014

I. ***Definitions.*** As used in these Policies and Procedures, the following terms shall have the meanings ascribed below:

A. **Adviser** refers to Duff & Phelps Investment Management Co.

B. **Adviser's Act** refers to the Investment Adviser's Act of 1940, as amended.

- C. **corporate governance matters** refers to changes involving the corporate ownership or structure of an issuer whose voting securities are within a portfolio holding, including changes in the state of incorporation, changes in capital structure, including increases and decreases of capital and preferred stock issuance, mergers and other corporate restructurings, and anti-takeover provisions such as staggered boards, poison pills, and supermajority voting provisions.
- D. **Delegate** refers to the Adviser, any proxy committee to which the Adviser delegates its responsibilities hereunder and any qualified, independent organization engaged by the Adviser to vote proxies on behalf of the Fund.
- E. **executive compensation matters** refers to stock option plans and other executive compensation issues, including votes on **say on pay** and **golden parachutes**.
- F. **Fund** refers to DNP Select Income Fund Inc., DTF Tax-Free Income Inc., Duff & Phelps Utility and Corporate Bond Trust Inc., or Duff & Phelps Global Utility Income Fund Inc., as the case may be.
- G. **Investment Company Act** refers to the Investment Company Act of 1940, as amended.
- H. **portfolio holding** refers to any company or entity whose voting securities are held within the investment portfolio of the Fund as of the date a proxy is solicited.
- I. **proxy contests** refer to any meeting of shareholders of an issuer for which there are at least two sets of proxy statements and proxy cards, one solicited by management and the others by a dissident or group of dissidents.
- J. **social issues** refers to social, political and environmental issues.
- K. **takeover** refers to **hostile** or **friendly** efforts to effect radical change in the voting control of the board of directors of a company.
- II. **General policy.** It is the intention of the Fund to exercise voting stock ownership rights in portfolio holdings in a manner that is reasonably anticipated to further the best economic interests of shareholders of the Fund. Accordingly, the Fund or its Delegate(s) shall endeavor to analyze and vote all proxies that are considered likely to have financial implications, and, where appropriate, to participate in corporate governance, shareholder proposals, management communications and legal proceedings. The Fund and its Delegate(s) must also identify potential or actual conflicts of interests in voting proxies and address any such conflict of interest in accordance with these Policies and Procedures.
- III. **Factors to consider when voting.**
- A. The Delegate may abstain from voting when it concludes that the effect on shareholders' economic interests or the value of the portfolio holding is indeterminable or insignificant.
- B. In analyzing **anti-takeover measures**, the Delegate shall vote on a case-by-case basis taking into consideration such factors as overall long-term financial performance of the target company relative to its industry competition. Key measures which shall be considered include, without limitation, five-year annual compound growth rates for sales, operating income, net income, and total shareholder returns (share price appreciation plus dividends). Other financial indicators that will be considered include margin analysis, cash flow, and debt levels.

- C. In analyzing **proxy contests for control**, the Delegate shall vote on a case-by-case basis taking into consideration such factors as long-term financial performance of the target

company relative to its industry; management's track record; background to the proxy contest; qualifications of director nominees (both slates); evaluation of what each side is offering shareholders; strategic plan of dissident slate and quality of critique against management; as well as the likelihood that the proposed objectives and goals can be met; and stock ownership positions.

- D. In analyzing **contested elections for director**, the Delegate shall vote on a case-by-case basis taking into consideration such factors as the qualifications of all director nominees. The Delegate shall also consider the independence and attendance record of board and key committee members. A review of the corporate governance profile shall be completed highlighting entrenchment devices that may reduce accountability.
- E. In analyzing **corporate governance matters**, the Delegate shall vote on a case-by-case basis taking into consideration such factors as tax and economic benefits associated with amending an issuer's state of incorporation, dilution or improved accountability associated with changes in capital structure, management proposals to require a supermajority shareholder vote to amend charters and bylaws and bundled or conditioned proxy proposals.
- F. In analyzing **executive compensation matters and management matters**, the Delegate shall vote on a case-by-case basis, taking into consideration a company's overall pay program and demonstrated pay-for-performance philosophy, and generally disfavoring such problematic pay practices as (i) repricing or replacing of underwater stock options, (ii) excessive perquisites or tax gross-ups, and (iii) change-in-control payments that are excessive or are payable based on a single trigger (*i.e.*, without involuntary job loss or substantial diminution of duties). With respect to the advisory vote on the frequency of say on pay votes, the Delegate shall vote in favor of the option that received majority support from shareholders in the most recent advisory vote. If no option received majority support and the board implemented an option that is less frequent than that which received a plurality, but not majority, of votes cast, additional factors will be taken into consideration on a case-by-case basis, including the board's rationale for implementing a less recurring say on pay vote, ownership structure, compensation concerns and say on pay support level from the prior year.
- G. The Delegate shall generally vote against shareholder proposals on **social issues**, except where the Delegate determines that a different position would be in the clear economic interests of the Fund and its shareholders.

IV. *Responsibilities of Delegates.*

- A. In the absence of a specific direction to the contrary from the Board of Directors of the Fund, the Adviser will be responsible for voting proxies for all portfolio holdings in accordance with these Policies and Procedures, or for delegating such responsibility as described below.
- B. The Adviser may delegate the administration of proxy activities hereunder to a proxy committee established from time to time by the Adviser and may engage one or more qualified, independent organizations to vote proxies on behalf of the Fund. The Adviser shall be responsible for ensuring that any such Delegate is informed of and complies with these Policies and Procedures.
- C. In voting proxies on behalf of the Fund, each Delegate shall have a duty of care to safeguard the best interests of the Fund and its shareholders and to act in accordance with these Policies and Procedures.
- D. No Delegate shall accept direction or inappropriate influence from any other client or third party, or from any director, officer or employee of any affiliated company, and shall

not cast any vote inconsistent with these Policies and Procedures without obtaining the prior approval of the Board of Directors of the Fund or its duly authorized representative.

V. *Conflicts of interest*

- A. The Fund and its Delegate(s) seek to avoid actual or perceived conflicts of interest in the voting of proxies for portfolio holdings between the interests of Fund shareholders, on the one hand, and those of the Adviser or any affiliated person of the Fund or the Adviser, on the other hand. The Board of Directors may take into account a wide array of factors in determining whether such a conflict exists, whether such conflict is material in nature, and how to properly address or resolve the same.
- B. While each conflict situation varies based on the particular facts presented and the requirements of governing law, the Board of Directors or its duly authorized representative may take the following actions, among others, or otherwise give weight to the following factors, in addressing material conflicts of interest in voting (or directing Delegates to vote) proxies pertaining to portfolio holdings: (i) vote pursuant to the recommendation of the proposing Delegate; (ii) abstain from voting; or (iii) rely on the recommendations of an established, independent third party with qualifications to vote proxies, such as Institutional Shareholder Services.
- C. The Adviser shall notify the Board of Directors of the Fund promptly after becoming aware that any actual or potential conflict of interest exists and shall seek the Board of Directors' recommendations for protecting the best interests of Fund's shareholders. The Adviser shall not waive any conflict of interest or vote any conflicted proxies without the prior written approval of the Board of Directors or its duly authorized representative.

VI. *Miscellaneous.*

- A. A copy of the current Proxy Voting Policies and Procedures and the voting records for the Fund, reconciling proxies with portfolio holdings and recording proxy voting guideline compliance and justification, shall be kept in an easily accessible place and available for inspection either physically or through electronic posting on an approved website.
- B. In the event that a determination, authorization or waiver under these Policies and Procedures is requested at a time other than a regularly scheduled meeting of the Board of Directors, the Chairman of the Audit Committee shall be the duly authorized representative of the Board of Directors with the authority and responsibility to interpret and apply these Policies and Procedures and shall provide a report of his or her determinations at the next following meeting of the Board of Directors.
- C. The Adviser shall present a report of any material deviations from these Policies and Procedures at every regularly scheduled meeting of the Board of Directors and shall provide such other reports as the Board of Directors may request from time to time. The Adviser shall provide to the Fund or any shareholder a record of its effectuation of proxy voting pursuant to these Policies and Procedures at such times and in such format or medium as the Fund shall reasonably request. The Adviser shall be solely responsible for complying with its disclosure and reporting requirements under applicable laws and regulations, including, without limitation, Rule 206(4)-6 under the Advisers Act as amended. The Adviser shall gather, collate and present information relating to its proxy voting activities and those of each Delegate in such format and medium as the Fund shall determine from time to time in order for the Fund to discharge its disclosure and reporting obligations pursuant to Rule 30b1-4 under the Investment Company Act.
- D. The Adviser shall pay all costs associated with proxy voting for portfolio holdings pursuant to these Policies and Procedures and assisting the Fund in providing public

notice of the manner in which such proxies were voted, except that the Fund shall pay the costs associated with any filings required under the Investment Company Act.

- E. In performing its duties hereunder, any Delegate or authorized committee may engage the services of a research and/or voting adviser, the cost of which shall be borne by such Delegate. The Adviser may delegate its voting responsibilities hereunder to a Proxy Committee established by the Adviser.
- F. These Policies and Procedures shall be presented to the Board of Directors annually for their amendment and/or approval.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

In this Item, the term "Fund" refers to the registrant, Duff & Phelps Utility and Corporate Bond Trust Inc.

The Fund's Portfolio Manager

A team of investment professionals employed by Duff & Phelps Investment Management Co., the Fund's investment adviser (the "Adviser"), is responsible for the day-to-day management of the Fund's portfolio. The member of that investment team that is primarily responsible for the day-to-day management of the Fund's portfolio and his areas of responsibility and expertise, as of December 30, 2015, is as follows:

Daniel J. Petrisko, CFA, has been Chief Investment Officer of the Fund since 2004 (Portfolio Manager from 2002 to 2004, Vice President since 2000). He has been a Senior Managing Director of the Adviser since 2014 (Senior Vice President from 1997 to 2014 and Vice President from 1995 to 1997). Mr. Petrisko has investment authority with respect to the Fund's investment portfolio. He is also a member of the portfolio management team of DNP Select Income Fund Inc. ("DNP"), a closed-end utilities-oriented fund. He joined the Duff & Phelps organization in 1995 and has served since then in positions of increasing responsibility.

Other Accounts Managed by the Fund's Portfolio Manager

The following table provides information as of October 31, 2015 regarding the other accounts besides the Fund that are managed by the portfolio manager of the Fund. As noted in the table, the portfolio manager of the Fund may also manage or be a member of the management team for certain other accounts. As of October 31, 2015, the Fund's portfolio manager did not manage any accounts with respect to which the advisory fee is based on the performance of the account, nor does he manage any hedge funds.

	Number of Accounts	Total Assets	Number of Accounts	Total Assets	Number of Accounts	Total Assets
		(in millions)		(in millions)		(in millions)
Portfolio Manager						
Daniel J. Petrisko	1	\$ 3,500	0		8	\$ 1,817

- (1) Registered Investment Companies include all open and closed-end mutual funds. For Registered Investment Companies, assets represent net assets of all open-end investment companies and gross assets of all closed-end investment companies.
- (2) Other Pooled Investment Vehicles include, but are not limited to, securities of issuers exempt from registration under Section 3(c) of the Investment Company Act of 1940 (the "1940 Act"), such as private placements and hedge funds.

- (3) Other Accounts include, but are not limited to, individual managed accounts, separate accounts, institutional accounts, pension funds and collateralized bond obligations.

There may be certain inherent conflicts of interest that arise in connection with the portfolio manager's management of the Fund's investments and the investments of any other accounts he manages. Such conflicts could include aggregation of orders for all accounts managed by the portfolio manager, the allocation of purchases across all such accounts, the allocation of IPOs and any soft dollar arrangements that the Adviser may have in place that could benefit the Fund and/or such other accounts. The Adviser has adopted policies and procedures designed to address any such conflicts of interest to ensure that all management time, resources and investment opportunities are allocated equitably. There have been no material compliance issues with respect to any of these policies and procedures during the Fund's most recent fiscal year.

Compensation of the Fund's Portfolio Manager

The following is a description of the compensation structure of the Fund's portfolio manager.

The Adviser is a wholly-owned indirect subsidiary of Virtus Investment Partners, Inc. ("Virtus"). Virtus and its affiliated investment management firms, including the Adviser, believe that their compensation programs are adequate and competitive to attract and retain high-caliber investment professionals. The portfolio manager receives a base salary, an incentive bonus opportunity, and a benefits package, as detailed below. Highly-compensated individuals participate in a long-term incentive compensation program, including potential awards of Virtus restricted stock units ("RSUs") with multi-year vesting, subject to Virtus board approval, and may also take advantage of opportunities to defer their compensation and potentially defer their current tax liability.

Base Salary: The portfolio manager is paid a fixed base salary, which is determined by Virtus and the Adviser and is designed to be competitive in light of the individual's experience and responsibilities. Virtus management utilizes results of investment industry compensation surveys conducted by an independent third party in evaluating competitive market compensation for its investment management professionals.

Incentive Bonus: Incentive bonus pools are based on firm profits. The short-term incentive payment is generally paid in cash, but a portion may be paid in Virtus RSUs. Individual payments are assessed using comparisons of actual investment performance with specific peer group or index measures established at the beginning of each calendar year. Performance of the Fund managed is measured over one-, three- and five-year periods. Generally, an individual manager's participation is based on the performance of each fund managed as weighted roughly by total assets in each of these funds. Incentive bonus compensation of the Fund's portfolio manager is currently comprised of two main components:

First, 70% of the incentive bonus is based on: (i) the pre-tax performance of the Fund, as measured by earnings per share and total return over one-, three- and five-year periods against specified benchmarks and/or peer groups; (ii) the success of the individual manager in achieving assigned goals; and (iii) a subjective assessment of the manager's contribution to the efforts of the team. The total return component of the performance portion of portfolio manager's incentive bonus compensation is compared to the Barclays U.S. Aggregate Bond Index. Portfolio managers who manage more than one product may have other components in their formulaic calculation that are appropriate to the other products, weighted according to the proportion of the manager's time that is allocated to each specific product.

Second, 30% of the target incentive is based on financial measures of Virtus. These financial measures include adjusted earnings before interest, tax, depreciation and amortization; gross inflows, and product investment performance. A portion of the total incentive bonus can be paid in RSUs of Virtus that vest over three years.

The performance portion of the portfolio manager's incentive bonus compensation is not based on the value of assets held in the Fund's portfolio (except to the extent that the level of assets in the Fund's portfolio affects the advisory fee received by the Adviser and thus, indirectly, the profitability of Virtus).

Other Benefits: The portfolio manager is eligible to participate in a 401(k) plan, health insurance, and other benefits offered generally to the firm's employees that could include granting of RSUs in Virtus stock.

Equity Ownership of Portfolio Manager

The following table sets forth the dollar range of equity securities in the Fund beneficially owned, as of October 31, 2015, by the portfolio manager identified above.

Name of Portfolio Manager	Dollar Range of Equity Securities in the Fund
Daniel J. Petrisko	\$ 10,001-\$50,000

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

During the period covered by this report, no purchases were made by or on behalf of the registrant or any affiliated purchaser (as defined in Rule 10b-18(a)(3) under the Exchange Act) of shares or other units of any class of the registrant's equity securities that is registered by the registrant pursuant to Section 12 of the Exchange Act.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

No changes to the procedures by which shareholders may recommend nominees to the registrant's board of directors have been implemented after the registrant last provided disclosure in response to the requirements of Item 22(b)(15) of Schedule 14A (*i.e.*, in the registrant's Proxy Statement dated May 7, 2015) or this Item.

ITEM 11. CONTROLS AND PROCEDURES.

(a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the 1940 Act) are effective, based on an evaluation of those controls and procedures made as of a date within 90 days of the filing date of this report as required by Rule 30a-3(b) under the 1940 Act and Rule 13a-15(b) under the Exchange Act.

(b) There has been no change in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

- (a) Exhibit 99.CERT Certifications pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- (b) Exhibit 99.906CERT Certifications pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
