Trade Date:

February 26, 2016

Expected Settlement Date:

March 4, 2016 (T+5). Under Rule 15c6-1 of the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to a trade expressly agree otherwise. Accordingly, purchasers who wish to trade Notes on the date of pricing or the next succeeding business day will be required, by virtue of the fact that the Notes initially will settle in T+5, to specify alternative settlement arrangements to prevent a failed settlement. Purchasers of the Notes who wish to trade the Notes on the date of pricing or the next succeeding business day should consult their own advisors.

Redemption at our Option:

We may redeem the Notes in whole at any time or in part from time to time. If we redeem any of the Notes more than 60 days prior to their scheduled maturity date, the redemption price of those Notes will be equal to the greater of (i) 100% of their principal amount; or (ii) the present value of the payments of interest (excluding any interest accrued to the redemption date) and principal (including principal due on redemption) that would be due after the actual redemption date if those Notes were redeemed on the day that is 60 days prior to their scheduled maturity date, discounted to the date of the actual redemption, on a semi-annual basis, at the Treasury Rate plus 50 basis points (0.500%). If we redeem any of the Notes on or after the date that is 60 days prior to the scheduled maturity date of the Notes, the redemption price of those Notes will be equal to 100% of the principal amount of the Notes. In any redemption, we will also pay accrued and unpaid interest on the Notes being redeemed to the date of redemption. In determining the redemption price and accrued interest, interest will be calculated on the basis of a 360-day year consisting of twelve 30-day months.
