ITEM 7.01. REGULATION FD DISCLOSURE

On June 29, 2016, BGC Partners, Inc. (BGC Partners, BGC or the Company) issued a press release announcing that BGC has updated its consolidated outlook for the quarter ended June 30, 2016. A copy of the press release is attached as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated by reference herein.

Except as indicated below, the information in this Item 7.01 and the Exhibit attached to this Current Report on Form 8-K are being furnished under Item 7.01 of Form 8-K. Such information shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as expressly set forth by specific reference in such filing and as set forth below.

ITEM 8.01. OTHER EVENTS

The following risk factor is provided to update the risk factors of the Company previously disclosed in periodic reports filed with the Securities and Exchange Commission (the SEC), including its Annual Report on Form 10-K for the year ended December 31, 2015 and its Quarterly Report on Form 10-Q for the quarter ended March 31, 2016:

A U.K. exit from the European Union could materially adversely impact our customers, and counterparties, businesses, prospects, financial condition and results of operations.

On June 23, 2016, U.K. citizens voted in a referendum to leave the European Union. The consequences of such a vote, and the possible exit of the U.K., together with what may be protracted negotiations around the terms of any exit, could significantly impact the business environment in which we and our customers and counterparties operate, introduce significant new uncertainties in financial markets, and create significant uncertainties with respect to legal and regulatory requirements and environments to which we and our customers and counterparties are subject. The U.K. vote to leave the E.U. has already generated market volatility, with a significant drop in the value of the British pound also occurring. Although market volatility generally benefits our Financial Services businesses, additional market and/or currency volatility or a reduction in trading in certain products may adversely impact customer and investor confidence. The U.K. vote to leave the E.U. may result in similar referendums or votes in other E.U. countries in which we do business. Further, the lack of precedent means that it is unclear how U.K. businesses' access to the E.U. Single Market and how the wider trading, legal and regulatory environments would be impacted, and hence how this could affect our businesses or those of our customers and counterparties over the medium to long term. Although we continue to have regulated entities and offices in place in many of the major European markets, during a transitional period when the terms of the U.K. exit will be negotiated, and beyond these and other risks and uncertainties could have a material adverse effect on our customers, and counterparties, businesses, prospects, financial condition and results of operations.
