The shares of our common stock that may be offered by each selling stockholder using this prospectus supplement represent shares of our common stock that we issued to each selling stockholder in connection with our acquisition of City Financial Corporation. (**City Financial**) We will not receive any of the proceeds from the sale of these shares of our common stock by the selling stockholders.

RISK FACTORS

Investing in our common stock involves risks. We urge you to consider carefully the risks described in the documents incorporated by reference in this prospectus supplement before making an investment decision, including those risks identified under **Risk Factors** in Item 1A of Part I in our Annual Report on Form 10-K for the year ended December 31, 2015, as amended by our Annual Report on Form 10-K/A for the year ended December 31, 2015, which is incorporated by reference in this prospectus supplement and which may be amended, supplemented or superseded from time to time by other reports that we subsequently file with the SEC.

Table of Contents**SELLING STOCKHOLDERS**

This prospectus supplement relates to the resale of shares of our common stock held by the selling stockholders listed in the table below. The selling stockholders acquired these shares from us in a private offering pursuant to an exemption from registration provided in Regulation D, Rule 506 under Section 4(a)(2) of the Securities Act in connection with our acquisition of City Financial, which closed on January 3, 2017. Pursuant to the City Financial acquisition agreement, we agreed to register with the SEC the resale of the shares of our common stock issued to the selling stockholders.

The table below sets forth certain information known to us, based upon written representations from the selling stockholders, with respect to the beneficial ownership of our shares of common stock held by the selling stockholders as of January 3, 2017. Because the selling stockholders may sell, transfer, or otherwise dispose of all, some, or none of the shares of our common stock covered by this prospectus supplement, we cannot determine the number of such shares that will be sold, transferred, or otherwise disposed of by the selling stockholders, or the amount or percentage of shares of our common stock that will be held by the selling stockholders upon termination of any particular offering. See Plan of Distribution. For purposes of the table below, we assume that the selling stockholders will sell all their shares of common stock covered by this prospectus supplement.

We have determined beneficial ownership in accordance with the rules of the SEC. Except as indicated by the footnotes below, we believe, based on the information furnished to us, that the selling stockholders have sole voting and investment power with respect to all shares of common stock that they beneficially own, subject to applicable community property laws. Unless otherwise described below, to our knowledge, none of the selling stockholders has held any position or office or had any other material relationship with us or our affiliates during the three years prior to the date of this prospectus supplement. In addition, except as otherwise described below, based on the information provided to us by the selling stockholders, no selling stockholder is a broker-dealer or an affiliate of a broker-dealer.

Applicable percentage ownership is based on 66,635,636 shares of common stock outstanding as of December 30, 2016. In computing the number of shares of common stock beneficially owned by the selling stockholders and the percentage ownership of the selling stockholders, we deemed to be outstanding all shares of common stock subject to options or other convertible securities held by the selling stockholders that are currently exercisable or releasable or that will become exercisable or releasable within 60 days of December 30, 2016.

PLAN OF DISTRIBUTION

The selling stockholders may effect from time to time sales of common stock directly or indirectly, by or through underwriters, agents or broker-dealers, and the common stock may be sold by one or a combination of several of the following methods:

on any national securities exchange or quotation service on which the securities may be listed or quoted at the time of the sale;

in transactions otherwise than on these exchanges or systems or in the over-the-counter market;

ordinary brokerage transactions;

an underwritten public offering in which one or more underwriters participate;

put or call options transactions or hedging transactions relating to the common stock;

short sales;

purchases by a broker-dealer as principal and resale by that broker-dealer for its own account;

block sale transactions;

privately negotiated transactions;

a combination of any such methods of sale; and

any other method permitted pursuant to applicable law.

The common stock may be sold at prices and on terms then prevailing in the market, at prices related to the then-current market price of the common stock or at negotiated prices. At the time that a particular offer is made, a prospectus supplement, if required, will be distributed that describes the name or names of underwriters, agents or broker-dealers, any discounts, commissions and other terms constituting selling compensation and any other required information. Moreover, in effecting sales, broker-dealers engaged by the selling stockholders and purchasers of the common stock may arrange for other broker-dealers to participate in the sale process. Broker-dealers will receive discounts or commissions from the selling stockholders and the purchasers of the common stock in amounts that will be negotiated prior to the time of the sale. Sales will be made only through broker-dealers properly registered in a

subject jurisdiction or in transactions exempt from registration. If the shares of common stock are sold through underwriters, the selling stockholders will be responsible for underwriting discounts or commissions. Any of these underwriters, broker-dealers or agents may perform services for us or our affiliates in the ordinary course of business.

If the selling stockholders effect such transactions by selling shares of common stock to or through underwriters, broker-dealers or agents, such underwriters, broker-dealers or agents may receive commissions in the form of discounts, concessions or commissions from the selling stockholders or commissions from purchasers of the shares of common stock for whom they may act as agent or to whom they may sell as principal (which discounts, concessions or commissions as to particular underwriters, broker-dealers or agents may be in excess of those customary in the types of transactions involved).

There can be no assurance that the selling stockholders will sell any or all of the shares of common stock registered pursuant to the registration statement, of which this prospectus forms a part.

The selling stockholders and any other person participating in such distribution will be subject to applicable provisions of the Securities Exchange Act of 1934, as amended (the Exchange Act), and the rules and regulations thereunder, including, without limitation, Regulation M of the Exchange Act, which may limit the timing of purchases and sales of any of the shares of common stock by the selling security holder and any other participating person. Regulation M may also restrict the ability of any person engaged in the distribution of the shares of common stock to engage in market-making activities with respect to the shares of common stock. All of the foregoing may affect the marketability of the shares of common stock and the ability of any person or entity to engage in market-making activities with respect to the shares of common stock.

The selling stockholders may also resell all or a portion of the common stock in open market transactions in reliance upon Rule 144 of the Securities Act, provided that such sale meets the criteria and conforms to the requirements of such rule.

Table of Contents

Any broker or dealer participating in any distribution of the common stock in connection with the offering made by this prospectus may be considered to be an underwriter within the meaning of the Securities Act and may be required to deliver a copy of this prospectus, including a prospectus supplement, if required, to any person who purchases any of the common stock from or through that broker or dealer.

We will not receive any of the proceeds from the sale of the common stock offered pursuant to this prospectus. We will bear all expenses incident to the registration of the common stock under federal and state securities laws and the sale of the common stock hereunder other than discounts, fees of underwriters, selling brokers and dealer managers, attorneys' fees incurred by the selling stockholders, and any transfer taxes payable on any shares.

In order to comply with various states' securities laws, if applicable, the common stock will be sold in such jurisdictions only through registered or licensed brokers or dealers.

Our common stock is traded on the New York Stock Exchange and the Chicago Stock Exchange under the symbol SF.

Expenses associated with this offering to be paid by us are estimated to be \$25,000, including Securities and Exchange Commission filing fees.

Table of Contents

Our core philosophy is based upon a tradition of trust, understanding, and studied advice. We attract and retain experienced professionals by fostering a culture of entrepreneurial, long-term thinking. We provide our private, institutional and corporate clients quality, personalized service, with the theory that if we place clients' needs first, both our clients and our company will prosper. Our unwavering client and employee focus have earned us a reputation as one of the leading brokerage and investment banking firms off Wall Street.

We have grown our business both organically and through opportunistic acquisitions, including our acquisition of the capital markets business of Legg Mason from Citigroup in 2005; our acquisitions of Ryan Beck & Co., Inc. in February 2007 and FirstService Bank in April 2007; our acquisition of ButlerWick & Co., Inc. in 2008; our acquisition of 56 branches from the UBS Wealth Management Americas branch network in 2009; our acquisition of Thomas Weisel Partners Group, Inc. in July 2010; our acquisition of Stone & Youngberg in October 2011; our merger with KBW in February 2013; our acquisition of the U.S. institutional fixed income sales and trading business and the hiring of the European institutional fixed income sales and trading team from Knight Capital Group in July 2013; our acquisition of Acacia Federal Savings Bank in October 2013; our acquisition of Ziegler Lotsoff Capital Management, LLC in November 2013; our acquisition of De La Rosa & Co. in April 2014; our acquisition of Oriel Securities in July 2014; our acquisition of Legg Mason Investment Counsel & Trust Co., N.A. in November 2014; and our acquisition of Merchant Capital, LLC in December 2014. Throughout the course of these integrations, our highly variable cost structure has enabled us to achieve consistent core earnings profitability while growing net revenue for 18 consecutive years.

We primarily operate our business through two segments, Global Wealth Management and Institutional Group. Our Global Wealth Management segment consists of two businesses, the Private Client Group and Stifel Bank. The Private Client Group provides securities brokerage services, including the sale of equities, mutual funds, fixed income products, and insurance, as well as offering banking products to our clients through Stifel Bank. Stifel Bank provides residential, consumer, and commercial lending, as well as FDIC-insured deposit accounts to customers of our broker-dealer subsidiaries and to the general public.

Our Institutional Group segment includes institutional sales and trading. It provides securities brokerage, trading, and research services to institutions, with an emphasis on the sale of equity and fixed income products. This segment also includes the management of and participation in underwritings for both corporate and public finance (exclusive of sales credits generated through the private client group, which are included in the Global Wealth Management segment), merger and acquisition, and financial advisory services.

For the year ended December 31, 2013, Global Wealth Management net revenues increased 12.7% to a record \$1.12 billion from \$991.6 million in 2012. For the nine months ended September 30, 2014, Global Wealth Management net revenues increased 11.8% to a record \$921.7 million from \$824.3 million for the comparable period in 2013. For the year ended December 31, 2013, Institutional Group net revenues increased 42.4% to a record \$861.2 million from \$604.7 million in 2012. For the nine months ended September 30, 2014, Institutional Group net revenues increased 21.4% to \$720.8 million from \$593.9 million for the comparable period in 2013.

We believe that our Global Wealth Management segment provides balance with respect to our Institutional Group segment and creates a stable base of revenue that helps us achieve consistent profitability through market cycles.

Our customers include individuals, corporations, municipalities, and institutions. We have customers throughout the United States with geographic areas of concentration in the Northeast, Midwest, Mid-Atlantic, and Western regions, with a growing presence in the Southeastern United States. No single client accounts for a material percentage of any segment of our business. Our inventory, which we believe is of modest size and intended to turn over quickly, exists to facilitate order flow and support the investment strategies of our clients. Although we do not engage in significant

proprietary trading for our own account, the inventory of securities held to facilitate customer trades and our market-making activities are sensitive to market movements. Furthermore, our balance sheet is highly liquid, without material holdings of securities that are difficult to value or remarket. We believe that our broad platform, fee-based revenues, and strong distribution network position us well to take advantage of current trends within the financial services sector.

Table of Contents**RISK FACTORS**

An investment in our securities involves risks. We urge you to consider carefully the risks described in the documents incorporated by reference in this prospectus and, if applicable, in any prospectus supplement used in connection with an offering of our securities, before making an investment decision, including those risks identified under Risk Factors in Item 1A of Part I in our Annual Report on Form 10-K for the year ended December 31, 2013, which is incorporated by reference in this prospectus and which may be amended, supplemented or superseded from time to time by other reports that we subsequently file with the SEC. Additional risks, including those that relate to any particular securities we offer, may be included in a prospectus supplement or free writing prospectus that we authorize from time to time, or that are incorporated by reference into this prospectus or a prospectus supplement.

Our business, financial condition, results of operations and cash flows could be materially adversely affected by any of these risks. The market or trading price of our securities could decline due to any of these risks. Additional risks not presently known to us or that we currently deem immaterial also may impair our business and operations or cause the price of our securities to decline.

USE OF PROCEEDS

Unless otherwise indicated in a prospectus supplement, we intend to use the net proceeds of any offering of securities sold by us for general corporate purposes. Unless otherwise set forth in a prospectus supplement, we will not receive any proceeds in the event that the securities are sold by a selling security holder.

RATIO OF EARNINGS TO FIXED CHARGES

The ratio of earnings to fixed charges presented below should be read together with the consolidated financial statements and the notes accompanying them and Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Quarterly Report on Form 10-Q for the period ended September 30, 2014 and our Annual Report on Form 10-K for the year ended December 31, 2013, incorporated by reference into this prospectus. PLAN OF DISTRIBUTION

We may sell the securities covered by this prospectus in one or more of the following ways from time to time, including without limitation:

to or through underwriters for resale to the purchasers, which underwriters may act directly or through a syndicate represented by one or more managing underwriters;

directly to one or more purchasers, through a specific bidding, auction or other process;

Table of Contents

A prospectus supplement with respect to each series of securities will state the terms of the offering of the securities, including:

the terms of the offering;

the name or names of any underwriters or agents and the amounts of securities underwritten or purchased by each of them, if any;

the public offering price or purchase price of the securities and the net proceeds to be received by us from the sale;

We will, in the prospectus supplement relating to such offering, name any agent that could be viewed as an underwriter under the Securities Act and describe any commissions that we must pay. Any such agent will be acting on a best efforts basis for the period of its appointment or, if indicated in the applicable prospectus supplement, on a firm commitment basis.

Agents, dealers and underwriters may be customers of, engage in transactions with, or perform services for us in the ordinary course of business.

If any underwriters or agents are utilized in the sale of the securities in respect of which this prospectus is delivered, we will enter into an underwriting agreement or other agreement with them at the time of sale to them, and we will set forth in the prospectus supplement relating to such offering the names of the underwriters or agents and the terms of the related agreement with them.

Table of Contents

Market-Making, Stabilization and Other Transactions

In order to facilitate the offering of the securities, any underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the securities or any other securities the prices of which may be used to determine payments on such securities. Specifically, any underwriters may overallocate in connection with the offering, creating a short position for their own accounts. In addition, to cover overallocations or to stabilize the price of the securities or of any such other securities, the underwriters may bid for, and purchase, the securities or any such other securities in the open market. Finally, in any offering of the securities through a syndicate of underwriters, the underwriting syndicate may reclaim selling concessions allowed to an underwriter or a dealer for distributing the securities in the offering if the syndicate repurchases previously distributed securities in transactions to cover syndicate short positions, in stabilization transactions or otherwise. Any of these activities may stabilize or maintain the market price of the securities above independent market levels. Any such underwriters are not required to engage in these activities and may end any of these activities at any time.

There is currently no market for any of the offered securities, other than the common stock which is listed on the NYSE and the CSX. If the offered securities are traded after their initial issuance, they may trade at a discount from their initial offering price, depending upon prevailing interest rates, the market for similar securities and other factors. While it is possible that an underwriter could inform us that it intends to make a market in the offered securities, such underwriter would not be obligated to do so, and any such market-making could be discontinued at any time without notice. Therefore, no assurance can be given as to whether an active trading market will develop for the offered securities. We have no current plans for listing of any of the preferred stock, debt securities, warrants, depositary shares, subscription rights, stock purchase contracts, stock purchase units, or stock appreciation rights on any securities exchange; any such listing with respect to any particular security will be described in the applicable prospectus supplement or pricing supplement, as the case may be.

SELLING SECURITY HOLDERS

Selling security holders are persons or entities that, directly or indirectly, have acquired or will from time to time acquire from us, common stock, preferred stock, debt securities, warrants, depositary shares, subscription rights, stock purchase contracts, stock purchase units, or stock appreciation rights in various private transactions. Such selling security holders may be parties to registration rights agreements with us, or we otherwise may have agreed or will agree to register their securities for resale. The initial purchasers of our securities, as well as their transferees, pledges, donees or successors, all of whom we refer to as selling security holders, may from time to time offer and sell the securities pursuant to this prospectus and any applicable prospectus supplement.

Information about selling security holders, where applicable, will be set forth in a prospectus supplement, in a post-effective amendment, and in filings we make with the SEC under the Securities Exchange Act of 1934, as amended, which we incorporate by reference into this registration statement.
