PART III NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

Vince Holding Corp. (the Company) is unable to file, without unreasonable effort or expense, its Annual Report on Form 10-K for the fiscal year ended January 28, 2017 (the Annual Report) within the prescribed period.

In connection with its initial public offering in November 2013, the Company entered into a shared services agreement with Kellwood Company, the Company's former parent company, pursuant to which the Company utilized various systems and functions historically provided by Kellwood Company until they were transitioned to the Company's own internal and external resources, including certain accounting functions, tax, e-commerce operations, distribution, logistics, information technology, accounts payable, credit and collections and payroll and benefits administration. In December 2016, the Company completed the final phase of such transition, which included the implementation of the new enterprise resource planning and supporting systems (collectively, the ERP System). Following such implementation, the Company has experienced significant difficulties in successfully integrating the ERP System with its internal business processes as well as other third-party systems, requiring the Company to expend extra resources and time to address those issues. The Company is also conducting additional procedures and processes, to ensure that the financial statements to be included in the Annual Report present fairly, in all material respects, the financial position, results of operations and cash flows of the Company and its subsidiaries for the periods presented. These matters have resulted in unanticipated delays in compiling financial reports and other data that are necessary in preparing and completing the financial statements required for the Annual Report.

In addition, although the Company has not concluded its assessment of the effectiveness of its internal controls over financial reporting as of January 28, 2017, it believes that the transition and implementation described above will result in one or more material weaknesses in internal controls.

The Company expects to file the Annual Report within the extension period of fifteen calendar days provided under Rule 12b-25 of the Securities Exchange Act of 1934, as amended.

Because the Company is an emerging growth company under the Jumpstart Our Business Startups Act, as amended, it is not required to include an attestation report of its independent registered public accounting firm relating to the Company's internal controls over financial reporting in the Annual Report.

PART IV OTHER INFORMATION

(1) Name and telephone number of person to contact in regard to this notification

(Name)	(Area Code)	(Telephone Number)

(2) Have all other periodic reports required under Section 13 or 15(d) of the Securities Exchange Act of 1934 or Section 30 of the Investment Company Act of 1940 during the preceding 12 months or for such shorter period that the registrant was required to file such report(s) been filed? If answer is no, identify report(s).	YES	NO
--	-----	----

- (3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof? YES NO

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

After considering its previously disclosed information filed with the Securities and Exchange Commission on its Current Report on Form 8-K dated January 9, 2017, the Company currently anticipates that its results for the fiscal year ended January 28, 2017 will be further impacted by, among other matters, material asset impairment charges, including impairment charges relating to its goodwill and tradename, and the recording of a valuation allowance against all of its deferred tax assets in the fourth quarter. In addition, the Company has made a specified equity contribution of \$1.7 million and currently anticipates making one or more additional specified equity contributions to its operating subsidiary using a portion of the cash held by it for purposes of an equity cure in connection with the Company's compliance with the covenant relating to the consolidated net total leverage ratio under its term loan facility (the "Leverage Ratio Covenant") as of January 28, 2017. The Company continues to hold approximately \$19.7 million of cash until needed by its operating subsidiary, including for purposes of future equity cures under its credit facilities. Furthermore, as required by the new Financial Accounting Standards Board Accounting Standard Update No. 2014-15 that became effective for the Company's fiscal year ended January 28, 2017, the Company's management is assessing whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within one year after the financial statements are issued. This includes, among other factors, the impact of the current trends in the retail business environment on the Company's future projections and its effect on the Company's ability to comply with, or cure any potential future violation of, the Leverage Ratio Covenant during such period. Such trends have contributed to the Company's management lowering its projections in the past.

Notwithstanding the foregoing, as a result of the matters described in Part III above, the Company is experiencing unanticipated delays in compiling financial reports and other data that are necessary in preparing and completing the financial statements required for the Annual Report and is unable to provide a reasonable estimate of the results at this time.

On April 14, 2017, the Company entered into a side letter with its revolving credit facility lender. For more details on the side letter, see the Company's current report on Form 8-K filed with the Securities and Exchange Commission on April 14, 2017.
