(A) Refer to Note 4 *Related Party Transactions* in the accompanying *Notes to Consolidated Financial Statements* for additional information.

(B) 2017: Significant non-cash operating activities consisted principally of the following transaction:

In June 2017, one of our portfolio companies, Mathey Investments, Inc. (Mathey) merged with and into another one of our portfolio companies, SBS Industries, LLC (SBS). As a result of this transaction, our debt investments in Mathey, which totaled $8.6 million at principal and cost, were assumed by SBS and combined with our existing debt investment in SBS, which totaled $11.4 million at principal and cost, into a new secured first lien term loan totaling $20.0 million. Our common equity investment in Mathey, with a cost basis of $0.8 million, was converted into a preferred equity investment in SBS with the same cost basis.

JUNE 30, 2018

(DOLLAR AMOUNTS IN THOUSANDS)

(UNAUDITED)

(A) Certain of the securities listed are issued by affiliate(s) of the indicated portfolio company. The majority of the securities listed, totaling $533.0 million at fair value, are pledged as collateral to our revolving line of credit, as described further in Note 5 *Borrowings* in the accompanying *Notes to Consolidated Financial Statements*. Additionally, under Section 55 of the Investment Company Act of 1940, as amended (the 1940 Act), we may not acquire any non-qualifying assets unless, at the time such acquisition is made, qualifying assets represent at least 70% of our total assets. As of June 30, 2018, our investment in Funko Acquisition Holdings, LLC (Funko) is considered a non-qualifying asset under Section 55 of the 1940 Act and represents less than 0.2% of total investments, at fair value.

(B) Unless indicated otherwise, all cash interest rates are indexed to 30-day London Interbank Offered Rate (LIBOR or L), which was 2.1% as of June 30, 2018. If applicable, paid-in-kind (PIK) interest rates are noted separately from the cash interest rate. Certain securities are subject to an interest rate floor. The cash interest rate is the greater of the floor or LIBOR plus a spread. Due dates represent the contractual maturity date.

(C) Security is non-income producing.

(D) Category percentages represent the fair value of each category and subcategory as a percentage of net assets as of June 30, 2018.

(E) Unless indicated otherwise, all of our investments are valued using Level 3 inputs within the FASB Accounting Standard Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures* (ASC 820) fair value hierarchy. Refer to Note 3 *Investments* in the accompanying *Notes to Consolidated Financial Statements* for additional information.

(F) Where applicable, aggregates all shares of a class of stock owned without regard to specific series owned within such class (some series of which may or may not be voting shares) or aggregates all warrants to purchase shares of a class of stock owned without regard to specific series of such class of stock such warrants allow us to purchase.

(G) Debt security is on non-accrual status.

(H) $5.1 million of the debt security was participated to a third party, but is accounted for as collateral for a secured borrowing under accounting principles generally accepted in the U.S. and presented as Secured borrowing on our accompanying *Consolidated Statements of Assets and Liabilities* as of June 30, 2018.

(I) Debt security has a fixed interest rate.

(J) Represents the principal balance for debt investments and the number of shares/units held for equity investments. Warrants are represented as a percentage of ownership, as applicable.

(K) Fair value was based on internal yield analysis or on estimates of value submitted by ICE Data Pricing and Reference Data, LLC (formerly Standard and Poor s Securities Evaluations, Inc.). Refer to Note 3 *Investments* in the accompanying *Notes to Consolidated Financial Statements* for additional information.

(L) Fair value was based on the total enterprise value of the portfolio company, which is generally allocated to the portfolio company s securities in order of their relative priority in the capital structure. Refer to Note 3 *Investments* in the accompanying *Notes to Consolidated Financial Statements* for additional information.

(M) One of our affiliated funds, Gladstone Capital Corporation, co-invested with us in this portfolio company pursuant to an exemptive order granted by the U.S. Securities and Exchange Commission (SEC).

(N) Non-Control/Non-Affiliate investments, as defined by the 1940 Act, are those that are neither Control nor Affiliate investments and in which we own less than 5.0% of the issued and outstanding voting securities.

(O) Affiliate investments, as defined by the 1940 Act, are those that are not Control investments and in which we own, with the power to vote, between and inclusive of 5.0% and 25.0% of the issued and outstanding voting securities.

(P) Control investments, as defined by the 1940 Act, are those where we have the power to exercise a controlling influence over the management or policies of the portfolio company, which may include owning, with the power to vote, more than 25.0% of the issued and outstanding voting securities.

(Q) Fair value was based on the expected exit or payoff amount, where such event has occurred or is expected to occur imminently.

(R) Debt security does not have a stated current interest rate.

(S) Our investment in Funko was valued using Level 2 inputs within the ASC 820 fair value hierarchy. Our common units in Funko are convertible into class A common stock in Funko, Inc. upon meeting certain requirements. Fair value was based on the closing market price of shares of Funko, Inc. as of the reporting date, less a discount for lack of marketability. Funko, Inc. is traded on the Nasdaq Stock Market under the trading symbol FNKO. Refer to Note 3 *Investments* in the accompanying *Notes to Consolidated Financial Statements* for additional information.

(T) New portfolio investment valued at cost, as it was determined that the price paid during the three months ended June 30, 2018 best represents fair value as of June 30, 2018.

(U) Refer to Note 11 *Commitments and Contingencies* in the accompanying *Notes to Consolidated Financial Statements* for additional information regarding this guaranty.

(V) Investment was exited subsequent to June 30, 2018. Refer to Note 13 *Subsequent Events* in the accompanying *Notes to Consolidated Financial Statements* for additional information

CONSOLIDATED SCHEDULE OF INVESTMENTS (Continued)

MARCH 31, 2018

(DOLLAR AMOUNTS IN THOUSANDS)

(A) Certain of the securities listed are issued by affiliate(s) of the indicated portfolio company. The majority of the securities listed, totaling $504.0 million at fair value, are pledged as collateral to our revolving line of credit, as described further in Note 5 *Borrowings* in the accompanying *Notes to Consolidated Financial Statements*. Additionally, under Section 55 of the Investment Company Act of 1940, as amended (the 1940 Act), we may not acquire any non-qualifying assets unless, at the time such acquisition is made, qualifying assets represent at least 70% of our total assets. As of March 31, 2018, our investment in Funko Acquisition Holdings, LLC (Funko) is considered a non-qualifying asset under Section 55 of the 1940 Act and represents less than 0.1% of total investments, at fair value.

(B) Unless indicated otherwise, all cash interest rates are indexed to 30-day London Interbank Offered Rate (LIBOR or L), which was 1.9% as of March 31, 2018. If applicable, paid-in-kind (PIK) interest rates are noted separately from the cash interest rate. Certain securities are subject to an interest rate floor. The cash interest rate is the greater of the floor or LIBOR plus a spread. Due dates represent the contractual maturity date.

(C) Security is non-income producing.

(D) Category percentages represent the fair value of each category and subcategory as a percentage of net assets as of March 31, 2018.

(E) Unless indicated otherwise, all of our investments are valued using Level 3 inputs within the FASB Accounting Standard Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures* (ASC 820) fair value hierarchy. Refer to Note 3 *Investments* in the accompanying *Notes to Consolidated Financial Statements* for additional information.

(F) Where applicable, aggregates all shares of a class of stock owned without regard to specific series owned within such class (some series of which may or may not be voting shares) or aggregates all warrants to purchase shares of a class of stock owned without regard to specific series of such class of stock such warrants allow us to purchase.

(G) Debt security is on non-accrual status.

(H) $5.1 million of the debt security was participated to a third party, but is accounted for as collateral for a secured borrowing under accounting principles generally accepted in the U.S. and presented as Secured borrowing on our accompanying *Consolidated Statements of Assets and Liabilities* as of March 31, 2018.

(I) Debt security has a fixed interest rate.

(J) Represents the principal balance for debt investments and the number of shares/units held for equity investments. Warrants are represented as a percentage of ownership, as applicable.

(K) Fair value was based on internal yield analysis or on estimates of value submitted by ICE Data Pricing and Reference Data, LLC (formerly Standard and Poor s Securities Evaluations, Inc.). Refer to Note 3 *Investments* in the accompanying *Notes to Consolidated Financial Statements* for additional information.

(L) Fair value was based on the total enterprise value of the portfolio company, which is generally allocated to the portfolio company s securities in order of their relative priority in the capital structure. Refer to Note 3 *Investments* in the accompanying *Notes to Consolidated Financial Statements* for additional information.

(M) One of our affiliated funds, Gladstone Capital Corporation, co-invested with us in this portfolio company pursuant to an exemptive order granted by the U.S. Securities and Exchange Commission (SEC).

(N) Non-Control/Non-Affiliate investments, as defined by the 1940 Act, are those that are neither Control nor Affiliate investments and in which we own less than 5.0% of the issued and outstanding voting securities.

(O)

Affiliate investments, as defined by the 1940 Act, are those that are not Control investments and in which we own, with the power to vote, between and inclusive of 5.0% and 25.0% of the issued and outstanding voting securities.

(P) Control investments, as defined by the 1940 Act, are those where we have the power to exercise a controlling influence over the management or policies of the portfolio company, which may include owning, with the power to vote, more than 25.0% of the issued and outstanding voting securities.

(Q) Fair value was based on the expected exit or payoff amount, where such event has occurred or is expected to occur imminently.

(R) Debt security does not have a stated current interest rate.

(S) Our investment in Funko was valued using Level 2 inputs within the ASC 820 fair value hierarchy. Our common units in Funko are convertible into class A common stock in Funko, Inc. upon the expiration of a lock-up agreement and meeting certain other requirements. Fair value was based on the closing market price of shares of Funko, Inc. as of the reporting date, less a discount for lack of marketability. Funko, Inc. is traded on the Nasdaq Stock Market under the trading symbol FNKO. Refer to Note 3 *Investments* in the accompanying *Notes to Consolidated Financial Statements* for additional information.

(T) New portfolio investment valued at cost, as it was determined that the price paid during the three months ended March 31, 2018 best represents fair value as of March 31, 2018.

(U) Refer to Note 11 *Commitments and Contingencies* in the accompanying *Notes to Consolidated Financial Statements* for additional information regarding this guaranty.

(V) Cumulative gross unrealized depreciation for federal income tax purposes is $95.2 million; cumulative gross unrealized appreciation for federal income tax purposes is $113.6 million. Cumulative net unrealized appreciation is $18.4 million, based on a tax cost of $580.8 million.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2018

(DOLLAR AMOUNTS IN THOUSANDS, EXCEPT PER SHARE DATA AND AS OTHERWISE INDICATED)

(UNAUDITED)

NOTE 1. ORGANIZATION

Gladstone Investment Corporation (Gladstone Investment) was incorporated under the General Corporation Law of the State of Delaware on February 18, 2005, and completed an initial public offering on June 22, 2005. The terms the Company, we, our and us all refer to Gladstone Investment and its consolidated subsidiaries. We are an externally advised, closed-end, non-diversified management investment company that has elected to be treated as a business development company (BDC) under the Investment Company Act of 1940, as amended (the 1940 Act), and is applying the guidance of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 946 *Financial Services-Investment Companies* (ASC 946). In addition, we have elected to be treated for tax purposes as a regulated investment company (RIC) under the Internal Revenue Code of 1986, as amended (the Code). We were established for the purpose of investing in debt and equity securities of established private businesses in the United States (U.S.). Debt investments primarily take the form of two types of loans: secured first lien loans and secured second lien loans. Equity investments primarily take the form of preferred or common equity (or warrants or options to acquire the foregoing), often in connection with buyouts and other recapitalizations. Our investment objectives are to: (i) achieve and grow current income by investing in debt securities of established businesses that we believe will provide stable earnings and cash flow to pay expenses, make principal and interest payments on our outstanding indebtedness and make distributions to stockholders that grow over time, and (ii) provide our stockholders with long-term capital appreciation in the value of our assets by investing in equity securities of established businesses, generally in combination with the aforementioned debt securities, that we believe can grow over time to permit us to sell our equity investments for capital gains. We intend that our investment portfolio over time will consist of approximately 75.0% in debt investments and 25.0% in equity investments, at cost.

Gladstone Business Investment, LLC (Business Investment), a wholly-owned subsidiary of ours, was established on August 11, 2006 for the sole purpose of owning our portfolio of investments in connection with our line of credit. The financial statements of Business Investment are consolidated with those of Gladstone Investment. We also have significant subsidiaries (as defined under Rule 1-02(w) of the U.S. Securities and Exchange Commission s (SEC) Regulation S-X) whose financial statements are not consolidated with ours. Refer to Note 12 *Unconsolidated Significant Subsidiaries* for additional information regarding our unconsolidated significant subsidiaries.

We are externally managed by Gladstone Management Corporation (the Adviser), an affiliate of ours and an SEC registered investment adviser, pursuant to an investment advisory agreement and management agreement (the Advisory Agreement). Administrative services are provided by Gladstone Administration, LLC (the Administrator), an affiliate of ours and the Adviser, pursuant to an administration agreement (the Administration Agreement). Refer to Note 4 *Related Party Transactions* for more information regarding these arrangements.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Unaudited Interim Financial Statements and Basis of Presentation

We prepare our interim financial statements in accordance with accounting principles generally accepted in the U.S. (GAAP) for interim financial information and pursuant to the requirements for reporting on Form 10-Q and Articles 6 and 10 of SEC Regulation S-X under the Securities Exchange Act of 1934, as amended. Accordingly, we have not included in this quarterly report all of the information and notes required by GAAP for annual financial statements. The accompanying *Consolidated Financial Statements* include our accounts and those of our wholly-owned subsidiaries. All significant intercompany balances and transactions have been eliminated. In accordance with Article 6 of Regulation S-X, under the Securities Act of 1933, we do not consolidate portfolio company investments. Under the investment company rules and regulations pursuant to the American Institute of Certified Public Accountants (AICPA) Audit and Accounting Guide for Investment Companies, codified in ASC 946, we are precluded from consolidating any entity other than another investment company, except that ASC 946 provides for the consolidation of a controlled operating company that provides substantially all of its services to the investment company or its consolidated subsidiaries. In our opinion, all adjustments, consisting solely of normal recurring accruals, necessary for the fair statement of financial statements for the interim periods have been included. The results of operations for the three months ended June 30, 2018 are not necessarily indicative of results that ultimately may be achieved for the fiscal year ending March 31, 2019 or any future interim period. The interim financial statements and notes thereto should be read in conjunction with the financial statements and notes thereto included in our annual report on Form 10-K for the fiscal year ended March 31, 2018, as filed with the SEC on May 15, 2018.

Use of Estimates

Preparing financial statements requires management to make estimates and assumptions that affect the amounts reported in our accompanying Consolidated Financial Statements and accompanying notes. Actual results may differ from those estimates.

Reclassifications

Certain prior period amounts have been reclassified to conform to the current period presentation in the *Consolidated Financial Statements* and the accompanying *Notes to Consolidated Financial Statements*. Reclassifications did not impact net increase in net assets resulting from operations, total assets, total liabilities, or total net assets, or Statement of Changes in Net Assets and Statement of Cash Flows classifications.

Investment Valuation Policy

Accounting Recognition

We record our investments at fair value in accordance with the FASB ASC Topic 820, *Fair Value Measurements and Disclosures* (ASC 820) and the 1940 Act. Investment transactions are recorded on the trade date. Realized gains or losses are generally measured by the difference between the net proceeds from the repayment or sale and the cost basis of the investment, without regard to unrealized appreciation or depreciation previously recognized, and include investments charged off during the period, net of recoveries. Unrealized appreciation or depreciation primarily reflects the change in investment fair values, including the reversal of previously recorded unrealized appreciation or depreciation when gains or losses are realized.

Board Responsibility

In accordance with the 1940 Act, our Board of Directors has the ultimate responsibility for reviewing and approving, in good faith, the fair value of our investments based on our investment valuation policy (which has been approved by our Board of Directors) (the Policy). Such review occurs in three phases. First, prior to its quarterly meetings, the Board of Directors receives written valuation recommendations and supporting materials provided by professionals of the Adviser and Administrator with oversight and direction from the chief valuation officer (the Valuation Team). Second, the Valuation Committee of our Board of Directors (comprised entirely of independent directors) meets to review the valuation recommendations and supporting materials, presented by the chief valuation officer. Third, after the Valuation Committee concludes its meeting, it and the chief valuation officer present the Valuation Committee s findings to the entire Board of Directors so that the full Board of Directors may review and approve the fair value of our investments in accordance with the Policy.

There is no single standard for determining fair value (especially for privately-held businesses), as fair value depends upon the specific facts and circumstances of each individual investment. In determining the fair value of our investments, the Valuation Team, led by the chief valuation officer, uses the Policy and each quarter the Valuation Committee and Board of Directors review the Policy to determine if changes thereto are advisable and also review whether the Valuation Team has applied the Policy consistently.

Use of Third Party Valuation Firms

The Valuation Team engages third party valuation firms to provide independent assessments of fair value of certain of our investments.

ICE Data Pricing and Reference Data, LLC (ICE) (formerly Standard and Poor s Securities Evaluations, Inc.), a valuation specialist, generally provides estimates of fair value on our debt investments. The Valuation Team generally assigns ICE s estimates of fair value to our debt investments where we do not have the ability to effectuate a sale of the applicable portfolio company. The Valuation Team corroborates ICE s estimates of fair value using one or more of the valuation techniques discussed below. The Valuation Team s estimate of value on a specific debt investment may significantly differ from ICE s. When this occurs, our Valuation Committee and Board of Directors review whether the Valuation Team has followed the Policy and whether the Valuation Team s recommended fair value is reasonable in light of the Policy and other facts and circumstances and then votes to accept or reject the Valuation Team s recommended fair value.

We may engage other independent valuation firms to provide earnings multiple ranges, as well as other information, and evaluate such information for incorporation into the total enterprise value (TEV) of certain of our investments. Generally, at least once per year, we engage an independent valuation firm to value or review the valuation of our significant equity investments, which includes providing the information noted above. The Valuation Team evaluates such information for incorporation into our TEV, including review of all inputs provided by the independent valuation firm. The Valuation Team then makes a recommendation to our Valuation Committee and Board of Directors as to the fair value. Our Board of Directors reviews the recommended fair value and whether it is reasonable in light of the Policy and other relevant facts and circumstances and then votes to accept or reject the Valuation Team s recommended fair value.

Valuation Techniques

In accordance with ASC 820, the Valuation Team uses the following techniques when valuing our investment portfolio:

Total Enterprise Value In determining the fair value using a TEV, the Valuation Team first calculates the TEV of the portfolio company by incorporating some or all of the following factors: the portfolio company s ability to make payments and other specific portfolio company attributes; the earnings of the portfolio company (the trailing or projected twelve month revenue or earnings before interest, taxes, depreciation and amortization (EBITDA)); EBITDA obtained from our indexing methodology whereby the original transaction EBITDA at the time of our closing is indexed to a general subset of comparable disclosed transactions and EBITDA from recent sales to third parties of similar securities in similar industries; a comparison to publicly traded securities in similar industries, and other pertinent factors. The Valuation Team generally reviews industry statistics and may use outside experts when gathering this information. Once the TEV is determined for a portfolio company, the Valuation Team generally allocates the TEV to the portfolio company s securities based on the facts and circumstances of the securities, which typically results in the allocation of fair value to securities based on the order of their relative priority in the capital structure. Generally, the Valuation Team uses TEV to value our equity investments and, in the circumstances where we have the ability to effectuate a sale of a portfolio company, our debt investments.

TEV is primarily calculated using EBITDA; however, TEV may also be calculated using revenue multiples or a discounted cash flow (DCF) analysis whereby future expected cash flows of the portfolio company are discounted to determine a net present value using estimated risk-adjusted discount rates, which incorporate adjustments for nonperformance and liquidity risks. Generally, the Valuation Team uses a DCF analysis to calculate TEV to corroborate estimates of value for our equity investments where we do not have the ability to effectuate a sale of a portfolio company or for debt of credit impaired portfolio companies.

Yield Analysis The Valuation Team generally determines the fair value of our debt investments (where we do not have the ability to effectuate a sale of a portfolio company) using the yield analysis, which includes a DCF calculation and assumptions that the Valuation Team believes market participants would use, including, but not limited to: estimated remaining life; current market yield; current leverage; and interest rate spreads. This technique develops a modified discount rate that incorporates risk premiums including, among other things, increased probability of default, increased loss upon default and increased liquidity risk. Generally, the Valuation Team uses the yield analysis to corroborate both estimates of value provided by ICE and market quotes.

Market Quotes For our investments for which a limited market exists, we generally base fair value on readily available and reliable market quotations, which are corroborated by the Valuation Team (generally by using the yield analysis explained above). In addition, the Valuation Team assesses trading activity for similar investments and evaluates variances in quotations and other market insights to determine if any available quoted prices are reliable. Typically, the Valuation Team uses the lower indicative bid price (IBP) in the bid-to-ask price range obtained from the respective originating syndication agent s trading desk on or near the valuation date. The Valuation Team may take further steps to consider additional information to validate that price in accordance with the Policy. For securities that are publicly traded, we generally base fair value on the closing market price of our shares as of the reporting date. For restricted securities that are publicly traded, we generally base fair value on the closing market price of our shares as of the reporting date less a discount for the restriction, which includes consideration of the nature and term to expiration of the restriction.

Investments in Funds For equity investments in other funds, where we cannot effectuate a sale, the Valuation Team generally determines the fair value of our uninvested capital at par value and of our invested capital at the Net Asset Value (NAV) provided by the fund. The Valuation Team may also determine fair value of our investments in other investment funds based on the capital accounts of the underlying entity.

In addition to the valuation techniques listed above, the Valuation Team may also consider other factors when determining the fair value of our investments, including but not limited to: the nature and realizable value of the collateral, including external parties guaranties; any relevant offers or letters of intent to acquire the portfolio company; timing of expected loan repayments; and the markets in which the portfolio company operates. New and follow-on debt and equity investments made during the current reporting quarter are generally valued at our original cost basis, as appropriate, as near-measurement date transaction value generally is a reasonable indicator of fair value.

Fair value measurements of our investments may involve subjective judgments and estimates and, due to the uncertainty inherent in valuing these securities, the determinations of fair value may fluctuate from period to period and may differ materially from the values that could be obtained if a ready market for these securities existed. Our NAV could be materially affected if the determinations regarding the fair value of our investments are materially different from the values that we ultimately realize upon our disposal of such securities. Additionally, changes in the market environment and other events that may occur over the life of the investment may cause the gains or losses ultimately realized on these investments to be different than the valuations currently assigned. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we could realize significantly less than the value at which it is recorded.

Refer to Note 3 *Investments* for additional information regarding fair value measurements and our application of ASC 820.

Revenue Recognition

Interest Income Recognition

Interest income, adjusted for amortization of premiums, amendment fees and acquisition costs and the accretion of discounts, is recorded on the accrual basis to the extent that such amounts are expected to be collected. Generally, when a loan becomes 90 days or more past due, or if our qualitative assessment indicates that the debtor is unable to service its debt or other obligations, we will place the loan on non-accrual status and cease recognizing interest income on that loan until the borrower has demonstrated the ability and intent to pay contractual amounts due. However, we remain contractually entitled to this interest. Interest payments received on non-accrual loans may be recognized as income or applied to the cost basis, depending upon management s judgment. Generally, non-accrual loans are restored to accrual status when past-due principal and interest are paid and, in management s judgment, are likely to remain current, or, due to a restructuring, the interest income is deemed to be collectible. As of June 30, 2018, certain of our loans to B-Dry, LLC, The Mountain Corporation, and PSI Molded Plastics, Inc. were on non-accrual status, with an aggregate debt cost basis of $55.1 million, or 12.4% of the cost basis of all debt investments in our portfolio, and an aggregate fair value of $33.8 million, or 8.2% of the fair value of all debt investments in our portfolio. As of March 31, 2018, certain of our loans to Alloy Die Casting Co. and Tread Corporation were on non-accrual status, with an aggregate debt cost basis of $15.6 million, or 3.6% of the cost basis of all debt investments in our portfolio, and an aggregate fair value of $12.5 million, or 3.1% of the fair value of all debt investments in our portfolio.

Paid-in-kind (PIK) interest, computed at the contractual rate specified in the loan agreement, is added to the principal balance of the loan and recorded as interest income. As of June 30, 2018 and March 31, 2018, we did not have any loans with a PIK interest component.

Success Fee Income Recognition

We record success fees as income when earned, which often occurs upon receipt of cash. Success fees are generally contractually due upon a change of control in a portfolio company, typically resulting from an exit or sale.

Dividend Income Recognition

We accrue dividend income on preferred and common equity securities to the extent that such amounts are expected to be collected and if we have the option to collect such amounts in cash or other consideration.

Restricted Cash and Cash Equivalents

Restricted cash is generally cash held in escrow received as part of an investment exit. Restricted cash is carried at cost, which approximates fair value.

Deferred Financing and Offering Costs

Deferred financing and offering costs consist of costs incurred to obtain financing, including lender fees and legal fees. Certain costs associated with our revolving line of credit are deferred and amortized using the straight-line method, which approximates the effective interest method, over the term of the revolving line of credit. Costs associated with the issuance of our mandatorily redeemable preferred stock are presented as discounts to the liquidation value of the mandatorily redeemable preferred stock and are amortized using the straight-line method, which approximates the effective interest method, over the terms of the respective financings. Refer to Note 5 *Borrowings* and Note 6 *Mandatorily Redeemable Preferred Stock* for further discussion.

Related Party Fees

We are party to the Advisory Agreement with the Adviser, which is owned and controlled by our chairman and chief executive officer. In accordance with the Advisory Agreement, we pay the Adviser fees as compensation for its services, consisting of a base management fee and an incentive fee. Additionally, we pay the Adviser a loan servicing fee as compensation for its services as servicer under the terms of the Fifth Amended and Restated Credit Agreement dated April 30, 2013, as amended (the Credit Facility).

We are also party to the Administration Agreement with the Administrator, which is owned and controlled by our chairman and chief executive officer, whereby we pay separately for administrative services.

Refer to Note 4 *Related Party Transactions* for additional information regarding these related party fees and agreements.

Recent Accounting Pronouncements

In November 2016, the FASB issued Accounting Standards Update 2016-18, *Restricted Cash (a consensus of the Emerging Issues Task Force)* (ASU 2016-18), which requires that the statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. ASU 2016-18 is effective for annual reporting periods beginning after December 15, 2017, including interim periods within those fiscal years, with early adoption permitted, and we adopted ASU 2016-18 effective April 1, 2018. The adoption of ASU 2016-18 did not have a material impact on our financial position, results of operations, or cash flows.

In August 2016, the FASB issued Accounting Standards Update 2016-15, *Classification of Certain Cash Receipts and Cash Payments (a consensus of the Emerging Issues Task Force)* (ASU 2016-15), which is intended to reduce diversity in practice in how certain transactions are classified in the statement of cash flows. ASU 2016-15 is effective for annual reporting periods beginning after December 15, 2017, including interim periods within those fiscal years, with early adoption permitted, and we adopted ASU 2016-15 effective April 1, 2018. The adoption of ASU 2016-15 did not have a material impact on our financial position, results of operations, or cash flows.

In January 2016, the FASB issued Accounting Standards Update 2016-01, *Financial Instruments Overall: Recognition and Measurement of Financial Assets and Financial Liabilities* (ASU 2016-01), which changes how entities measure certain equity investments and how entities present changes in the fair value of financial liabilities measured under the fair value option that are attributable to instrument-specific credit risk. ASU 2016-01 is effective for annual reporting periods beginning after December 15, 2017, including interim periods within those fiscal years, with early adoption permitted for certain aspects of ASU 2016-01 relating to the recognition of changes in fair value of financial liabilities when the fair value option is elected, and we adopted ASU 2016-01 effective April 1, 2018. The adoption of ASU 2016-01 did not have a material impact on our financial position, results of operations, or cash flows.

In May 2014, the FASB issued Accounting Standards Update 2014-09, *Revenue from Contracts with Customers* (ASU 2014-09), which was amended in March 2016 by FASB Accounting Standards Update 2016-08, *Principal versus Agent Considerations* (ASU 2016-08), in April 2016 by FASB Accounting Standards Update 2016-10, *Identifying Performance Obligations and Licensing* (ASU 2016-10), in May 2016 by FASB Accounting Standards Update 2016-12, *Narrow-Scope Improvements and Practical Expedients* (ASU 2016-12), and in December 2016 by FASB Accounting Standards Update 2016-20, *Technical Corrections and Improvements to Topic 606* (ASU 2016-20). ASU 2014-09, as amended, supersedes or replaces nearly all GAAP revenue recognition guidance. The new guidance establishes a new control-based revenue recognition model, changes the basis for deciding when revenue is recognized over time or at a point in time, and will expand disclosures about revenue. In July 2015, the FASB issued Accounting Standards Update 2015-14, *Deferral of the Effective Date,* which deferred the effective date of ASU 2014-09. ASU

2014-09, as amended by ASU 2015-14, ASU 2016-08, ASU 2016-10, ASU 2016-12, and ASU 2016-20, is now effective for annual reporting periods beginning after December 15, 2017 and interim periods within those years, with early adoption permitted for annual reporting periods beginning after December 15, 2016 and interim periods within those years. We adopted ASU 2014-09, as amended, effective April 1, 2018. The adoption of ASU 2014-09, as amended, did not result in a material change in the timing of revenue recognition or a material impact on our financial position, results of operations, or cash flows from adopting this standard.

NOTE 3. INVESTMENTS

Fair Value

In accordance with ASC 820, we determine the fair value of our investments to be the price that would be received for an investment in a current sale, which assumes an orderly transaction between willing market participants on the measurement date. This fair value definition focuses on exit price in the principal, or most advantageous, market and prioritizes, within a measurement of fair value, the use of market-based inputs over entity-specific inputs. ASC 820 also establishes the following three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of a financial instrument as of the measurement date.

Level 1   inputs to the valuation methodology are quoted prices (unadjusted) for identical financial instruments in active markets;

Level 2   inputs to the valuation methodology include quoted prices for similar financial instruments in active or inactive markets, and inputs that are observable for the financial instrument, either directly or indirectly, for substantially the full term of the financial instrument. Level 2 inputs are in those markets for which there are few transactions, the prices are not current, little public information exists, or instances where prices vary substantially over time or among brokered market makers; and

Level 3   inputs to the valuation methodology are unobservable and significant to the fair value measurement. Unobservable inputs are those inputs that reflect assumptions that market participants would use when pricing the financial instrument and can include the Valuation Team s assumptions based upon the best available information.

When a determination is made to classify our investments within Level 3 of the valuation hierarchy, such determination is based upon the significance of the unobservable factors to the overall fair value measurement. However, Level 3 financial instruments typically include, in addition to the unobservable, or Level 3, inputs, observable inputs (or, components that are actively quoted and can be validated to external sources). The level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement.

As of June 30, 2018 and March 31, 2018, all of our investments were valued using Level 3 inputs within the ASC 820 fair value hierarchy, except for our investment in Funko Acquisition Holdings, LLC (Funko), which was valued using Level 2 inputs.

We transfer investments in and out of Level 1, 2 and 3 of the valuation hierarchy as of the beginning balance sheet date, based on changes in the use of observable and unobservable inputs utilized to perform the valuation for the period. There were no transfers in or out of Level 1, 2 and 3 during the three months ended June 30, 2018. During the three months ended June 30, 2017, we transferred our investment in AquaVenture Holdings Limited, f/k/a Quench Holdings Corp., (AquaVenture) from Level 2 to Level 1 as a result of the expiration of the lock-up period from the initial public offering in October 2016 and subsequently sold our investment.

As of June 30, 2018 and March 31, 2018, our investments, by security type, at fair value were categorized as follows within the ASC 820 fair value hierarchy:

		Fair Value Measurements		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

(A) Fair value was determined based on the closing market price of shares of Funko, Inc. (our units in Funko can be converted into shares of Funko, Inc.) at the reporting date less a discount for lack of marketability, as our investment was subject to certain restrictions.

(B) Fair value was determined based on the closing market price of shares of Funko, Inc. (our units in Funko can be converted into shares of Funko, Inc.) at the reporting date less a discount for lack of marketability, as our investment was subject to a 180-day lock-up period, which expired in May 2018, and other restrictions.

The following table presents our investments, valued using Level 3 inputs within the ASC 820 fair value hierarchy, and carried at fair value as of June 30, 2018 and March 31, 2018, by caption on our accompanying *Consolidated Statements of Assets and Liabilities,* and by security type:

In accordance with ASC 820, the following table provides quantitative information about our investments valued using Level 3 fair value measurements as of June 30, 2018 and March 31, 2018. The table below is not intended to be all-inclusive, but rather provides information on the significant Level 3 inputs as they relate to our fair value measurements. The weighted-average calculations in the table below are based on the principal balances for all debt-related calculations and on the cost basis for all equity-related calculations for the particular input.

(A) Fair value as of June 30, 2018 includes one new proprietary debt investment of $23.0 million, which was valued at cost using the transaction price as the unobservable input. Fair value as of March 31, 2018 includes two new proprietary debt investments for a combined $14.5 million, which were valued at cost using the transaction price as the unobservable input, and one proprietary debt investment of $10.0 million, which was valued at the expected payoff amount as the unobservable input.

(B) Fair value as of both June 30, 2018 and March 31, 2018 includes one proprietary debt investment of $13.0 million, which was valued at the expected payoff amount as the unobservable input.

(C) Fair value as of June 30, 2018 includes one new proprietary equity investment of $4.9 million, which was valued at cost using the transaction price as the unobservable input. Fair value as of March 31, 2018 includes one proprietary equity investment of $3.4 million, which was valued at the expected payoff amount as the unobservable input.

(D) Fair value as of June 30, 2018 includes one proprietary equity investment of $2.4 million, which was valued at the expected payoff amount as the unobservable input. Fair value as of March 31, 2018 includes two proprietary equity investments for a combined $17.6 million, which were valued at the expected payoff amount as the unobservable input.

(E) Fair value as of both June 30, 2018 and March 31, 2018 excludes our investment in Funko with a fair value of $0.7 million and $0.2 million, respectively, which was valued using Level 2 inputs.

Fair value measurements can be sensitive to changes in one or more of the valuation inputs. Changes in discount rates, EBITDA or EBITDA multiples (or revenue or revenue multiples), each in isolation, may change the fair value of certain of our investments. Generally, an increase/(decrease) in discount rates or a (decrease)/increase in EBITDA or EBITDA multiples (or revenue or revenue multiples) may result in a (decrease)/increase in the fair value of certain of our investments.

Changes in Level 3 Fair Value Measurements of Investments

The following tables provide our portfolio s changes in fair value, broken out by security type, during the three months ended June 30, 2018 and 2017 for all investments for which the Adviser determines fair value using unobservable (Level 3) inputs.

Investment Activity

During the three months ended June 30, 2018, the following significant transactions occurred:

In April 2018, we invested $29.2 million in Bassett Creek Restoration, Inc. (d/b/a J.R. Johnson, LLC) (Bassett Creek) through a combination of secured first lien debt and preferred equity. Bassett Creek, headquartered in Portland, Oregon, is a leading provider of commercial restoration and renovation services to the Oregon and Southwest Washington region.

In June 2018, we sold our investment in Drew Foam Companies, Inc., which resulted in dividend and success fee income of $0.2 million and a realized gain of $13.8 million. In connection with the sale, we received net cash proceeds of $27.3 million, including the repayment of our debt investment of $9.9 million at par.

Investment Concentrations

As of June 30, 2018, our investment portfolio consisted of investments in 33 portfolio companies located in 16 states across 17 different industries with an aggregate fair value of $629.3 million. Our investments in Cambridge Sound Management, Inc., Nth Degree, Inc., Brunswick Bowling Products, Inc., J.R. Hobbs Co. Atlanta, LLC, and ImageWorks Display and Marketing Group, Inc. represented our five largest portfolio investments at fair value, and collectively comprised $204.7 million, or 32.5%, of our total investment portfolio at fair value.

Receivables from Portfolio Companies

Receivables from portfolio companies represent non-recurring costs that we incurred on behalf of portfolio companies. Such receivables, net of any allowance for uncollectible receivables, are included in Other assets, net on our accompanying *Consolidated Statements of Assets and Liabilities*. We generally maintain an allowance for uncollectible receivables from portfolio companies when the receivable balance becomes 90 days or more past due or if it is determined, based upon management s judgment, that the portfolio company is unable to pay its obligations. We write-off accounts receivable when we have exhausted collection efforts and have deemed the receivables uncollectible. As of both June 30, 2018 and March 31, 2018, we had gross receivables from portfolio companies of $0.7 million. The allowance for uncollectible receivables was $0.4 million and $0.2 million as of June 30, 2018 and March 31, 2018, respectively.

NOTE 4. RELATED PARTY TRANSACTIONS

Transactions with the Adviser

We pay the Adviser certain fees as compensation for its services, such fees consisting of a base management fee and an incentive fee, as provided for in the Advisory Agreement, and a loan servicing fee for the Adviser s role as servicer pursuant to the Credit Facility, each as described below. On July 10, 2018, our Board of Directors, including a majority of the directors who are not parties to the Advisory Agreement or interested persons of either party, approved the annual renewal of the Advisory Agreement through August 31, 2019.

Two of our executive officers, David Gladstone (our chairman and chief executive officer) and Terry Lee Brubaker (our vice chairman and chief operating officer) serve as directors and executive officers of the Adviser, which is 100% indirectly owned and controlled by Mr. Gladstone. David Dullum (our president) is also an executive managing director of the Adviser.

The following table summarizes the base management fees, loan servicing fees, incentive fees, and associated non-contractual, unconditional, and irrevocable credits reflected in our accompanying *Consolidated Statements of Operations*:
