ADR American Depositary Receipt  
LIBOR London Interbank Offered Rate

**Footnote Legend:**

- (1) Variable rate security. Rate disclosed is as of February 28, 2019. For leveraged loans, the rate shown may represent a weighted average interest rate. Information in parenthesis represents benchmark and reference rate for each security. Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions, or, for mortgage-backed securities, are impacted by the individual mortgages which are paying off over time. These securities do not indicate a reference rate and spread in their descriptions.
- (2) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At February 28, 2019, these securities amounted to a value of \$48,692 or 19.4% of net assets.
- (3) Regulation S security. Security is offered and sold outside of the United States, therefore, it is exempt from registration with the SEC under Rules 903 and 904 of the Securities Act of 1933.
- (4) All or a portion of the security is segregated as collateral for written options.
- (5) No contractual maturity date.
- (6) Interest payments may be deferred.
- (7) Value shown as par value.
- (8) Interest may be forfeited.
- (9) This loan will settle after February 28, 2019, at which time the interest rate, based on the LIBOR and the agreed upon spread on trade date, will be reflected.
- (10) Shares of this fund are publicly offered, and its prospectus and annual report are publicly available.
- (11) All or a portion of the portfolio is segregated as collateral for borrowings.

There were no transfers between Level 1, Level 2 or Level 3 related to securities held at February 28, 2019.

See Notes to Schedules of Investments

**VIRTUS GLOBAL DIVIDEND & INCOME FUND INC.**

**NOTES TO SCHEDULE OF INVESTMENTS (Unaudited)**

**FEBRUARY 28, 2019**

**Note 1. Significant Accounting Policies**

Virtus Global Dividend & Income Fund Inc. is a closed-end, diversified management investment company registered under the Investment Company Act of 1940 (the Act). The Fund follows the accounting and reporting guidance of Accounting Standards Codification Topic 946 applicable to Investment Companies.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its Schedule of Investments and, for derivatives, included in Note 2 below. The preparation of the Schedule of Investments in conformity with U.S. generally accepted accounting principles ( U.S. GAAP ) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the Schedule of Investments. Actual results could differ from those estimates and those differences could be significant.

**A. Security Valuation**

The Fund utilizes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The Fund's policy is to recognize transfers between levels at the end of the reporting period.

Level 1 quoted prices in active markets for identical securities (security types generally include listed equities).

Level 2 prices determined using other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 prices determined using significant unobservable inputs (including the Valuation Committee's own assumptions in determining the fair value of investments).

A description of the valuation techniques applied to the Fund's major categories of assets and liabilities measured at fair value on a recurring basis is as follows:

Equity securities are valued at the official closing price (typically last sale) on the exchange on which the securities are primarily traded or, if no closing price is available, at the last bid price and are categorized as Level 1 in the hierarchy. Restricted equity securities and private placements that are not widely traded, are illiquid, or are internally fair valued by the Valuation Committee, are generally categorized as Level 3 in the hierarchy.

Certain non-U.S. securities may be fair valued in cases where closing prices are not readily available or are deemed not reflective of readily available market prices. For example, significant events (such as movement in the U.S. securities market or other regional and local developments) may occur between the time that non-U.S. markets close

(where the security is principally traded) and the time that a Fund calculates its net asset value ( NAV ) (at the close of regular trading on the New York Stock Exchange ( NYSE ), generally 4 p.m. Eastern time) that may impact the value of securities traded in these non-U.S. markets. In such cases the Fund fair values non-U.S. securities using an independent pricing service which considers the correlation of the trading patterns of the non-U.S. security to the intraday trading in the U.S. markets for investments such as ADRs, financial futures, exchange-traded funds and certain indexes, as well as prices for similar securities. Such fair valuations are categorized as

**VIRTUS GLOBAL DIVIDEND & INCOME FUND INC.**

**NOTES TO SCHEDULE OF INVESTMENTS (Unaudited) (Continued)**

**FEBRUARY 28, 2019**

Level 2 in the hierarchy. Because the frequency of significant events is not predictable, fair valuation of certain non-U.S. common stocks may occur on a frequent basis.

Debt securities, including restricted securities, are valued based on evaluated quotations received from independent pricing services or from dealers who make markets in such securities. For most bond types, the pricing service utilizes matrix pricing that considers one or more of the following factors: yield or price of bonds of comparable quality, coupon, maturity, current cash flows, type, and current day trade information, as well as dealer-supplied prices. These valuations are generally categorized as Level 2 in the hierarchy. Structured debt instruments, such as mortgage-backed and asset-backed securities, may also incorporate collateral analysis and utilize cash flow models for valuation, and are generally categorized as Level 2 in the hierarchy. Pricing services do not provide pricing for all securities and therefore indicative bids from dealers are utilized which are based on pricing models used by market makers in the security and are generally categorized as Level 2 in the hierarchy. Debt securities that are internally fair valued by the Valuation Committee, are generally categorized as Level 3 in the hierarchy.

Listed derivatives, such as options, that are actively traded are valued based on quoted prices from the exchange and are categorized as Level 1 in the hierarchy. Over-the-counter derivative contracts, which include forward currency contracts and equity-linked instruments, do not require material subjectivity as pricing inputs are observed from actively quoted markets and are categorized as Level 2 in the hierarchy.

Investments in open-end mutual funds are valued at NAV. Investments in closed-end funds and ETFs are valued as of the close of regular trading on the NYSE each business day. Each is categorized as Level 1 in the hierarchy.

A summary of the inputs used to value the Fund's net assets by each major security type is disclosed at the end of the Schedule of Investments for the Fund. The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

---

**VIRTUS GLOBAL DIVIDEND & INCOME FUND INC.**

**NOTES TO SCHEDULE OF INVESTMENTS (Unaudited) (Continued)**

**FEBRUARY 28, 2019**

**B. Leveraged Loans**

The Fund may invest in direct debt instruments which are interests in amounts owed by a corporate, governmental, or other borrower to lenders or lending syndicates. Leveraged loans are generally non-investment grade and often involve borrowers that are highly leveraged. The Fund may invest in obligations of borrowers who are in bankruptcy proceedings. Leveraged loans are typically senior in the corporate capital structure of the borrower. A loan is often administered by a bank or other financial institution (the lender) that acts as agent for all holders. The agent administers the terms of the loan, as specified in the loan agreement. The Fund's investments in loans may be in the form of participations in loans or assignments of all or a portion of loans from third parties. When investing in loan participations, the Fund has the right to receive payments of principal, interest and any fees to which it is entitled only from the lender selling the loan participation and only upon receipt by the lender of payments from the borrower. The Fund generally has no right to enforce compliance with the terms of the leveraged loans with the borrower. As a result, the Fund may be subject to the credit risk of both the borrower and the lender that is selling the leveraged loan. When the Fund purchases assignments from lenders it acquires direct rights against the borrower on the loan.

The Fund may invest in multiple series or tranches of a loan, which may have varying terms and carry different associated risks. Leveraged loans may involve foreign borrowers, and investments may be denominated in foreign currencies. Direct indebtedness of emerging countries involves a risk that the government entities responsible for the repayment of the debt may be unable, or unwilling, to pay the principal and interest when due.

The leveraged loans have floating rate loan interests which generally pay interest at rates that are periodically determined by reference to a base lending rate plus a premium. The base lending rates are generally LIBOR, the prime rate offered by one or more U.S. banks or the certificate of deposit rate. When a leveraged loan is purchased the Fund may pay an assignment fee. On an ongoing basis, the Fund may receive a commitment fee based on the undrawn portion of the underlying line of credit portion of a leveraged loan. Prepayment penalty fees are received upon the prepayment of a Leveraged loans by a borrower. Prepayment penalty, facility, commitment, consent and amendment fees are recorded to income as earned or paid.

**Note 2. Derivative Financial Instruments**

Disclosures about derivative instruments and hedging activities are intended to enable investors to understand how and why a Fund uses derivatives, how derivatives are accounted for, and how derivative instruments affect a Fund's results of operations and financial position. Summarized below are such disclosures and accounting policies for each specific type of derivative instrument used by the Fund.

---

**VIRTUS GLOBAL DIVIDEND & INCOME FUND INC.**

**NOTES TO SCHEDULE OF INVESTMENTS (Unaudited) (Continued)**

**FEBRUARY 28, 2019**

**Options contracts**  
**(\$ reported in thousands)**

An options contract provides the purchaser with the right, but not the obligation, to buy (call option) or sell (put option) a financial instrument at an agreed-upon price. The Fund pursues an option income strategy whereby it purchases and sells out-of-the-money puts and calls, creating an options spread designed to generate a consistent level of option cash flow which should result in additional yield. The Fund is subject to equity price risk in the normal course of pursuing its investment objectives.

When the Fund purchases an option, it pays a premium and an amount equal to that premium is recorded as an asset. When the Fund writes an option, it receives a premium and an amount equal to that premium is recorded as a liability. The asset or liability is adjusted daily to reflect the current market value of the option.

Holdings of the Fund designated as collateral for outstanding written options are noted in the Schedule of Investments.

If an option expires unexercised, the Fund realizes a gain or loss to the extent of the premium received or paid. If an option is exercised, the premium received or paid is recorded as an adjustment to the proceeds from the sale or the cost basis of the purchase. The difference between the premium and the amount received or paid on effecting a closing purchase or sale transaction is also treated as a realized gain or loss.

The risk in writing covered call options is that the Fund gives up the opportunity for profit if the market price of the security increases and the option is exercised. The risk in writing covered put options is that the Fund may incur a loss if the market price of the security decreases and the option is exercised. The risk in buying options is that the Fund pays a premium whether or not the option is exercised. The use of such instruments may involve certain additional risks as a result of unanticipated movements in the market. Writers (sellers) of options are normally subject to unlimited risk of loss, as the seller will be obligated to deliver or take delivery of the security at a predetermined price which may, upon exercise of the option, be significantly different from the then-market value. However, the Fund may limit its risk of loss when writing an option by purchasing an option by purchasing an option similar to the one that is sold except for the fact it is further out of the money .

For the period ended February 28, 2019, the average daily premiums paid by the Fund for purchased options were \$270, and the average daily premiums received by the Fund for written options were \$521.

**Note 3. Regulatory Matters And Litigation**

From time to time, Virtus Investment Advisers, LLC ( VIA ), the Fund's Adviser, Kayne Anderson Rudnick Investment Management Co. ( KAR ) Newfleet Asset Management LLC ( Newfleet ) and Rampart Investment Management Company LLC ( Rampart ) the Fund's subadvisers and/or their respective affiliates may be involved in litigation and arbitration as well as examinations and investigations by various regulatory bodies, including the SEC, involving compliance with, among other things, securities laws, client investment guidelines, laws governing the activities of

broker-dealers and other laws and regulations affecting their products and other activities. At this time, the Fund's Adviser believes that the outcomes of such matters are not likely, either individually or in the aggregate, to be material to these financial statements.

**VIRTUS GLOBAL DIVIDEND & INCOME FUND INC.**

**NOTES TO SCHEDULE OF INVESTMENTS (Unaudited) (Continued)**

**FEBRUARY 28, 2019**

**Note 4. Recent Accounting Pronouncement**

In August 2018, the Financial Accounting Standards Board ( FASB ) issued Accounting Standards Update ( ASU ), ASU No. 2018-13, which changes certain fair value measurement disclosure requirements. This ASU, in addition to other modifications and additions, removes the requirement to disclose the amount and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy, the policy for the timing of transfers between levels and the valuation process for Level 3 fair value measurements. For public companies, the amendments are effective for financial statements issued for fiscal years beginning after December 15, 2019, and interim periods within those fiscal years. Management has evaluated the implications of certain provisions of ASU No. 2018-13 and has determined to early adopt all aspects related to the removal and modification of certain fair value measurement disclosures under the ASU effective immediately.

**Note 5. Subsequent Events**

Management has evaluated the impact of all subsequent events on the Fund through the date the financial statements were issued, and has determined that the following subsequent event requires recognition or disclosure in these financial statements.

**Item 2. Controls and Procedures.**

- (a) The Registrant's President (principal executive officer) and Treasurer (principal financial officer) have evaluated the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the Act) (17 CFR 270.30a-3(c))) as of a date within 90 days of the filing date of the report and have concluded that these controls and procedures are effective.
  
- (b) There were no changes in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Act (17 CFR 270.30a-3(d))) that occurred during the Registrant's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting.

**Item 3. Exhibits.**

Certifications pursuant to Rule 30a-2(a) under the 1940 Act and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
