Semi-Annual Report  
April 30, 2004

Letter to Shareholders

June 10, 2004

Dear Shareholder,

We present this Semi-Annual Report which covers the activities of Aberdeen Global Income Fund, Inc. (the "Fund") for the six months ended April 30, 2004. The Fund's principal investment objective is to provide high current income by investing primarily in fixed-income securities denominated in Commonwealth

## Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSRS

Currencies, that is, the currencies of Australia, Canada, New Zealand and the United Kingdom. As a secondary investment objective, the Fund seeks capital appreciation, but only when consistent with its principal investment objective.

High Credit Quality: 76.5% of Securities Rated or Deemed Equivalent to AA/Aa or Better

The Fund's high credit quality has been maintained. Over 76.5% of assets are rated AA/Aa or better, or are considered to be of equivalent quality by the Investment Manager. An additional 11.2% is held in A rated securities.

### Distributions

Distributions to common shareholders for the 12 months ended April 30, 2004 totaled 72 cents per share. Based on the share price of \$11.93 on April 30, 2004, the distribution rate over the 12 months then ended was 6.0%. Since all distributions are paid after deducting applicable withholding taxes, the effective distribution rate may be higher for those U.S. investors who are able to claim a tax credit.

On June 14, 2004 the Board of Directors declared a monthly distribution of 6 cents per share payable on July 16, 2004 to all shareholders of record as of June 30, 2004.

The Board's policy is to provide investors with a stable monthly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in-capital. It is the Board's intention that the monthly distribution of 6 cents per share be maintained for 12 months, beginning with the July 2004 distribution payment. This policy is subject to regular review at the Board's quarterly meetings, unless market conditions require an earlier evaluation. The next review is scheduled to take place in September 2004.

As of April 30, 2004, 11.8% of the Fund's total assets were held in Global Debt Securities. This included 2.9% in Asian debt securities. At April 30, 2004, 1.7% of the Fund's total assets were invested in Eastern Europe, 2.7% in Latin America and 4.5% in Western Europe.

### Limitations on Investments in Investment Company Securities

In March 2004, the Board of Directors approved the modification of the Fund's investment policies to provide that the Fund may invest in securities issued by investment companies registered as such under the Investment Company Act of 1940 ("1940 Act") and unregistered, private funds (each, an "acquired company"), subject to the following limitations (which are to be applied immediately after the acquisition of such securities).

### 2 Aberdeen Global Income Fund, Inc.

#### Letter to Shareholders (continued)

The Fund may not acquire securities issued by an acquired company:

- (i) if the value of such securities exceeds 3% of the total outstanding voting stock of the acquired company;
- (ii) if the aggregate value of such securities would exceed 5% of the value of the total assets of the Fund; or
- (iii) if the aggregate value of such securities, together with all other acquired company securities in the Fund's portfolio, would exceed 10% of the value of the total assets of the Fund.

#### Results of Annual Meeting of Shareholders

At the Annual Meeting of Shareholders held on Tuesday April 20, 2004, Messrs. Martin J. Gilbert, Neville J. Miles and Warren C. Smith were elected by the holders of the Fund's common stock to serve as Class III Directors for three-year terms, expiring at the 2007 Annual Meeting of Shareholders, and Mr. John T. Sheehy and Dr. Anton E. Schrafl were elected by the holders of the Fund's preferred stock to serve as Preferred Directors for a one-year term expiring at the 2005 Annual Meeting of Shareholders, in each case, until their successors are duly elected and qualify.

#### Quarterly Reports to Shareholders

In an effort to reduce Fund expenses, quarterly reports to shareholders for the three-month periods ending July 31 and January 31 will no longer be printed and mailed to shareholders, but instead will be posted on the Fund's website at [www.aberdeen-asset.us](http://www.aberdeen-asset.us). Semi-annual and annual reports to shareholders will continue to be printed and mailed to shareholders.

-----  
Your Board's policy is to provide investors with a stable monthly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in-capital.

The Fund is subject to U.S. corporate, tax and securities laws. Under U.S. tax accounting rules, the amount of distributable income for each fiscal period depends on the actual exchange rates during the entire year between the U.S. dollar and the currencies in which Fund assets are denominated and on the aggregate gains and losses realized by the Fund during the entire year.

Therefore, the exact amount of distributable income for each fiscal year can only be determined as of the end of the Fund's fiscal year, October 31. However, under the U.S. Investment Company Act of 1940, the Fund is required to indicate the source of each distribution to shareholders.

The Fund estimates that distributions for the fiscal year commencing November 1, 2003, including the distribution paid on June 11, 2004, are comprised of 91% net investment income and 9% return of paid-in-capital.

This estimated distribution composition may vary from month to month because it may be materially impacted by future realized gains and losses on securities and fluctuations in the value of the currencies in which Fund assets are denominated.

In January 2005, a Form 1099 DIV will be sent to shareholders, which will state the amount and composition of distributions and provide information with respect to their appropriate tax treatment.

Auction Market Preferred Stock (AMPS)

The Fund's \$30 million of AMPS continued to be well bid at the weekly auctions. The average interest rate paid was 1.313% over the six months ended April 30, 2004, compared with 1.024% for 30-day U.S. commercial paper over the same period. These rates were slightly lower than for the preceding six-month period. The rates paid to preferred shareholders have increased since April 30, 2004 to a level of 1.5% as of the date of this report.

Over the past year, the impact of AMPS on the net asset value attributable to common shareholders has been positive, as the key currencies of the Fund -- the Australian dollar, British pound, New Zealand dollar and Canadian dollar -- all rose strongly against the U.S. dollar, while most Asian currencies followed a similar trend, although these currencies generally declined from their highs by the end of the period as the U.S. dollar regained some ground. The fact that U.S. interest rates have remained close to historic lows, together with the Fund's ability to lock in fixed rates for 80% of the outstanding AMPS pursuant to the interest rate swap agreement referred to on the following page, has meant that the differential between the AMPS funding rates and the yields at which the Fund invests remains positive.

8 Aberdeen Global Income Fund, Inc.

Report of the Investment Manager (concluded)

As previously reported to shareholders, the Fund entered into an interest rate swap agreement, based on an aggregate notional amount of \$24,000,000, which represents 80% of the total AMPS outstanding. Under the terms of the agreement, the Fund receives a floating rate of interest (one month USD-LIBOR BBA rate) and pays fixed rates of interest for the terms and based upon the notional amounts set forth below:

=====

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSRS

Term	Amount (in \$ million)	Fixed Rate Payable (%)
5 years	7.2	3.54
4 years	7.2	3.16
3 years	4.8	2.69
2 years	4.8	2.1025

A significant type of risk associated with interest rate swaps is the risk that the counterparty may default or file for bankruptcy, in which case the Fund would bear the risk of loss of the amount expected to be received under the swap agreement. There can be no assurance that the Fund will have an interest rate swap in place at any given time nor can there be any assurance that, if an interest rate swap is in place, it will be successful in hedging the Fund's interest rate risk with respect to the AMPS. The implementation of this strategy is at the discretion of the AMPS Pricing Committee of the Board of Directors.

### Notes to Financial Statements (unaudited)

#### Note 1. Investment Objectives

Aberdeen Global Income Fund, Inc. (the "Fund") was incorporated in Maryland on June 28, 1991, as a closed-end, non-diversified investment company.

The Fund's principal investment objective is to provide high current income by investing primarily in fixed-income securities denominated in the Commonwealth Currencies. As a secondary investment objective, the Fund seeks capital appreciation, but only when consistent with its principal investment objective. The Fund will seek to achieve its investment objective through investment in fixed-income securities denominated in the Commonwealth Currencies and in Global Debt Securities. In order to comply with a rule adopted by the Securities and Exchange Commission under the Investment Company Act of 1940 regarding fund names, the Board of Directors has adopted an investment policy that, for as long as the name of the Fund remains Aberdeen Global Income Fund, Inc., it shall be the policy of the Fund normally to invest at least 80% of its net assets plus the amount of any borrowings for investment purposes, in debt securities. This 80% investment policy is a non-fundamental policy of the Fund and may be changed by the Board of Directors upon 60 days prior written notice to shareholders. The ability of issuers of debt securities held by the Fund to meet their obligations may be affected by economic developments in a specific industry, country or region.

#### Note 2. Accounting Policies

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Basis of Presentation: The financial statements of the Fund are prepared in

## Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSRS

accordance with accounting principles generally accepted in the United States of America using the United States dollar as both the functional and reporting currency. However, the Commonwealth Currencies (excluding New Zealand) are the functional currencies for Federal tax purposes (see Taxes below).

30 Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (unaudited) (continued)

Foreign Currency Translation: Foreign currency amounts are translated into United States dollars on the following basis:

- (i) market value of investment securities, other assets and liabilities -- at the closing rates of exchange as reported by a major bank;
- (ii) purchases and sales of investment securities, income and expenses -- at the rates of exchange prevailing on the respective dates of such transactions.

The Fund isolates that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of the securities held at fiscal year end. Similarly, the Fund isolates the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of portfolio securities sold during the fiscal year.

Net realized foreign exchange losses includes realized foreign exchange gains and losses from sales and maturities of portfolio securities, sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the amounts of interest, discount and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent amounts actually received or paid. Net unrealized foreign exchange gains include changes in the value of portfolio securities and other assets and liabilities arising as a result of changes in the exchange rate. Accumulated realized and unrealized foreign exchange gains (losses) shown in the composition of net assets represent foreign exchange gains (losses) for book purposes that may not have been recognized for tax purposes.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin, including unanticipated movements in the value of the foreign currency relative to the U.S. dollar.

The exchange rates of the Commonwealth Currencies utilized by the Fund at April 30,

Aberdeen Global Income Fund, Inc. 31

Notes to Financial Statements (unaudited) (continued)

2004 were US\$0.72 to A\$1.00, US\$0.73 to C\$1.00, US\$0.63 to NZ\$1.00, US\$1.77 to (pound)1.00.

Security Valuation: The Fund's Board of Directors has adopted Pricing and Valuation Procedures (the "Procedures") to be used in determining the value of the assets held by the Fund. In accordance with the Procedures, investments are stated at value. Investments for which market quotations are readily available are valued at the last trade price on the date of determination as obtained from

## Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSRS

a pricing source. If no such trade price is available, such investments are valued at the quoted bid price or the mean between the quoted bid and asked price on the date of determination as obtained from a pricing source.

Securities purchased with a maturity of less than 60 days are valued at amortized cost. Securities purchased with a maturity of greater than 60 days are valued at current market quotations until the 60th day prior to maturity. At that time, the value of the security on the 61st day prior to maturity is amortized on a straight-line basis to value the security for the remaining 60 days. Securities for which market quotations are not readily available are valued at fair value in good faith using methods set forth in the Procedures.

**Repurchase Agreements:** In connection with transactions in repurchase agreements with U.S. financial institutions, it is the Fund's policy that its custodian/counterparty segregates the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the collateral is valued on a daily basis to determine its adequacy. If the seller defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

**Securities Transactions and Investment Income:** Securities transactions are recorded on the trade date. Realized and unrealized gains and losses from security and currency transactions are calculated on the identified cost basis. Interest income is recorded on an accrual basis. Discounts and premiums on securities

32 Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (unaudited) (continued)

purchased are accreted or amortized on an effective yield basis over the estimated lives of the respective securities. Expenses are accrued on a daily basis.

**Derivative Financial Instruments:** The Fund is authorized to use derivatives to manage both currency and interest rate risk for global debt securities. With respect to investments denominated in Commonwealth currencies, derivatives can only be used to manage interest rate risk. Losses may arise due to changes in the value of the contract if the counterparty does not perform under the contract.

**Interest Rate Swap:** The Fund may engage in certain swap transactions, in order to obtain a desired return at a lower cost than if the Fund invested directly in the asset that yielded the desired return or to hedge the Fund's AMPS. An interest rate swap is an agreement between two parties, which involves exchanging a floating rate and fixed rate interest payments for a specified period of time. Interest rate swaps involve the accrual and exchange of interest payments between the parties. These payments are recorded as realized gain/(loss).

During the term of the swap, changes in the value of the swap are recognized as unrealized gains and losses by "marking-to-market" to reflect the market value of the swap. When the swap is terminated, the Fund will record a realized gain or loss equal to the difference, if any, between the proceeds from (or cost of) the closing transaction and the Fund's basis in the contract. The Fund is exposed to credit risk in the event of non-performance by the other party to the interest rate swap. However, the Fund does not anticipate non-performance by any counterparty.

## Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSRS

Periodic payments made or accrued under interest rate swap agreements were previously included within interest income but, as a result of a recent FASB Emerging Issues Task Force consensus and subsequent related SEC staff guidance, are now shown as a component of either realized gain/(loss) or unrealized appreciation/(depreciation) in the Statement of Operations. Prior years' net investment income and realized and unrealized gain/loss in Statement of Changes and net investment income and realized gain/loss per share numbers in the Financial

Aberdeen Global Income Fund, Inc. 33

Notes to Financial Statements (unaudited) (continued)

Highlights have not been impacted by the change as the amounts were not material.

**Forward Currency Contracts:** A forward currency contract involves an obligation to purchase and sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. The foreign currency contract is marked-to-market daily and the change in market value is recorded by the Fund as an unrealized gain or loss. When the forward currency contract is closed, the Fund records a realized gain or loss equal to the difference between the value at the time it was opened and the value at the time it was closed. As of April 30, 2004, there were no open contracts.

**Financial futures contracts:** A futures contract is an agreement between two parties to buy and sell a security for a set price on a future date. Upon entering into a contract, the Fund deposits and maintains as collateral such initial margin as required by the exchange on which the transaction is effected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized gains or losses. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. As of April 30, 2004, there were no open futures contracts.

**Options:** When the fund writes an option, an amount equal to the premium received by the Fund is reflected as an asset and an equivalent liability. The amount of the liability is subsequently marked to market to reflect the current market value of the option written. When a security is purchased or sold through an exercise of an option, the related premium paid (or received) is added to (or deducted from) the basis of the security acquired or deducted from (or added to) the proceeds of the security sold. When an option expires (or the Fund enters into a closing transaction), the Fund realizes a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the premium

Notes to Financial Statements (unaudited) (continued)

paid or received). As of April 30, 2004, there were no open option contracts.

**Dividends and distributions:** Dividends and distributions to common shareholders are recorded on the ex-dividend date. These are based upon net investment income

## Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSRS

and capital and currency gains determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to amortization of premium and discount and differing treatments for foreign currencies and loss deferrals. Dividends and distributions to preferred shareholders are accrued on record date and are determined as described in Note 7.

**Taxes:** For Federal income and excise tax purposes, substantially all of the Fund's transactions are accounted for using the functional currencies. Accordingly, only realized currency gains and losses resulting from the repatriation of any of the Commonwealth Currencies into U.S. dollars or another Commonwealth Currency and realized currency gains and losses on non-Commonwealth currencies are recognized for U.S. tax purposes.

No provision has been made for United States of America Federal income taxes because it is the Fund's policy to meet the requirements of the United States of America Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to shareholders. Under the applicable foreign tax law, a withholding tax may be imposed on interest and discounts earned at various rates.

**Cash Flow Information:** The Fund invests in securities and distributes dividends from net investment income and net realized gains on investment and currency transactions which are paid in cash or are reinvested at the discretion of shareholders. These activities are reported in the Statements of Changes in Net Assets Applicable to Common Shareholders and additional information on cash receipts and cash payments is presented in the Statement of Cash Flows. Cash includes domestic and foreign currency.

**Use of Estimates:** The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and

Aberdeen Global Income Fund, Inc. 35

Notes to Financial Statements (unaudited) (continued)

assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

### Note 3. Agreements

The Fund has agreements with Aberdeen Asset Management Asia Limited (the "Investment Manager"), Aberdeen Asset Management Limited (the "Investment Adviser"), and Princeton Administrators, L.P. (the "Administrator"). The Investment Manager and the Investment Adviser are direct or indirect wholly-owned subsidiaries of Aberdeen Asset Management Plc. The Investment Manager has entered into an agreement with CIBC World Markets, Inc. (the "Consultant").

The Investment Manager makes investment decisions on behalf of the Fund on the basis of recommendations and information furnished to it by the Investment Adviser and the Consultant, including the selection of and the placement of orders with brokers and dealers to execute portfolio transactions on behalf of the Fund.

The management agreement provides the Investment Manager with a fee, computed weekly and payable monthly, at the following annual rates: 0.65% of the Fund's average weekly total net assets of both common and preferred shareholders up to

## Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSRS

\$200 million, 0.60% of such assets between \$200 million and \$500 million and 0.55% of such assets in excess of \$500 million. The administration agreement provides the Administrator with a fee computed and payable monthly at the annual rate of 0.20% of the Fund's average weekly total net assets of both common and preferred shareholders, subject to a minimum annual payment of \$150,000 (\$12,500 per month). The

Investment Manager pays fees to the Investment Adviser and the Consultant for their services rendered.

The Investment Manager informed the Fund that it paid \$190,731 to the Investment Adviser and approximately \$2,180 to the Consultant during the six months ended April 30, 2004.

Under terms of an Investor Relations Services Agreement, Aberdeen Asset Management Inc. ("Aberdeen"), an affiliate of the Fund's Investment Manager and Investment Adviser, serves as the Fund's investor relations services provider. This agreement provides Aberdeen with a monthly retainer of \$4,000 plus out-of-pocket expenses. During the six months ended April 30, 2004, the Fund incurred fees of \$33,427 for the services of Aberdeen. Investor relations fees and expenses in the Statement of Operations include certain out-of-pocket expenses.

### Note 4. Portfolio Securities

Purchases and sales of investment securities, other than short-term investments, for the six months ended April 30, 2004 aggregated \$7,440,945 and \$14,785,459, respectively.

As previously reported to shareholders, the Fund entered into an interest rate swap agreement, based on an aggregate notional amount of \$24,000,000, which represents 80% of the total AMPS outstanding. Under the terms of the agreement, the Fund receives a floating rate of interest (one month USD-LIBOR BBA rate) and pays fixed rates of interest for the terms and based upon the notional amounts set forth below:
