(*) November 2006 - preliminary data; final data for November 2005.

(1) *Available seat kilometers* represents the aircraft seating capacity multiplied by the number of kilometers the seats are flown.

(2) *Revenue passenger kilometers* represents the numbers of kilometers flown by revenue passengers.

(3) *Load factor* represents the percentage of aircraft seating capacity that is actually utilized (calculated by dividing revenue passenger kilometers by available seat kilometers).

Also, the Company has updated its guidance to account for a higher productivity and stage length on planned capacity increases, reduced load factors due to the decrease in passenger volumes caused by external factors including air traffic control that are expected to be resolved in the near term, lower yields related to lower load factors, an increased stage length, and the launch of approximately 120 new daily flights and three new destinations during the quarter. GOL's operating fleet is currently composed of 62 Boeing 737 aircraft.

About GOL Linhas Aéreas Inteligentes

GOL Linhas Aéreas Inteligentes, a low-cost, low-fare airline, is one of the most profitable and fastest growing airlines in the industry worldwide. GOL operates a simplified fleet with a single class of service. It also has one of the youngest and most modern fleets in the industry that results in low maintenance, fuel and training costs, with high aircraft utilization and efficiency ratios. In addition, safe and reliable services, which stimulate GOL's brand recognition and customer satisfaction, allow GOL to have the best value proposition in the market. GOL currently offers over 530 daily flights to 55 airports in Brazil, Argentina, Bolivia, Paraguay and Uruguay. GOL growth plans include increasing frequencies in existing markets and adding service to additional markets in both Brazil and other high-traffic South American travel destinations. GOL shares are listed on the NYSE and the Bovespa. GOL: here everyone can fly!
