As of the date of this Annual Report, Medlink holds the intellectual property developed by the Company and is responsible for initiating research and development.

Current Business Operations

As of the date of this Annual Report, the Company, through TDS, is an international provider of health information management products (collectively, the “Health Information Management Products”), as described below, which are specifically designed for the healthcare providers and health insurance companies. The Company is dedicated to improving healthcare delivery by providing to hospitals, physician practices and health insurance companies with innovative health information management systems to manage coding, compliance, abstracting and record managements processes.

The strategic focus of the Company is to become a premier international provider of health information management network solutions for the healthcare providers and health insurance companies, enabling the real time automation of routine patient transactions. Management of the Company believes that the Company’s unique combination of complimentary solutions is designed to significantly improve the business of healthcare. The Company’s Health Information Management Products and software solutions are designed to generate operational efficiencies, improve cash flow and measure the cost and quality of care.

MedLink Products

The Health Information Management Products and software solutions, including the MedLink Solution, fall into four main areas: (i) compliance management; (ii) coding and reimbursement management; (iii) abstracting; and (iv) record management.

Management of the Company believes that hospitals and other healthcare providers must implement comprehensive coding and compliance programs in order to minimize payer submission errors and assure the receipt of anticipated revenues. Management believes that an effective program should include clear, defined guidelines and procedures, which combined with the Company’s Health Information Management Products, will enhance an organization’s system and effectively increase revenues and reduce costs. The Company’s Health Information Management Products will include compliance management and coding and reimbursement products and software, which are designed to conduct automated prospective and retrospective reviews of all in-patient and out-patient claims data. Management tools include internally designed targets aimed to provide data quality, coding accuracy and appropriate reimbursement. These tools work in conjunction with an organization’s coding and billing compliance program to (i) identify claims with potential errors prior to billing; (ii) screen

professional fees and services; and (iii) identify patterns in coding and physician documentation. Results of the auditing and monitoring activities are represented in executive reports summarizing clinical and financial results as well as detailed reports providing information needed to target specific areas for review. Billing practices for health care services are under close scrutiny by governmental agencies as high-risk areas for Medicare fraud and abuse. Management of the Company believes that the Health Information Management Products will increase an organization's progress in reducing improper payments and ensuring that medical record documentation support services are provided.

The Health Information Management Products are also designed to include abstracting solutions, which enable healthcare facilities to accurately collect and report patient demographic and clinical information. Management of the Company believes that the Health Information Management Products will provide the organization with the ability to calculate in-patient and out-patient hospital reimbursements and customize data fields needed for state, federal or foreign governmental regulatory requirements. Standard and custom reports will provide the customer with the ability to generate facility-specific statistical reporting used for benchmarking, outcomes and performance improvement, marketing and planning. Management of the Company believes that the Health Information Management Products will further provide healthcare organizations the flexibility to customize abstracting workflow to meet data collection reporting and analysis needs. The Health Information Management Products will provide the organization with the ability to customize workflow by creating fields and rules and designing screen navigation.

Management of the Company also believes that the Health Information Management Products will provide record management, which will automate the record tracking and location functions, monitor record completeness and facilitate the release of information process within health information management departments. The Health Information Management Products will assist healthcare organizations in properly completing records pursuant to state, federal, foreign governmental and medical staff requirements. The management tools are designed to monitor a facility's adherence to patient privacy, disclosure and patient bill of rights requirements, if applicable.

MedLink Solution

The Company has developed a proprietary software trademarked (Brazil only) "MedLink Solution", which was specifically designed and developed for the healthcare and health insurance industry enabling the real time automation of routine patient eligibility, verifications, authorizations, claims processing and payment functions that are currently performed manually (the "MedLink Solution"). A transaction fee is charged to the insurer for use of the MedLink Solution.

The MedLink Solution hosts its own network processing system (the "Total Connectivity Solution"), whereby the Company is able to provide an insurer with the ability to cost effectively process all of the transactions generated regardless of location or method of generation. Management of the Company believes that the MedLink Solution solves technological and communication problems within the healthcare systems by creating a virtual "paperless office" for the insurer and total connectivity, regardless of method, for the health provider. The MedLink Solution replaces manual medical claims systems and provides insurance companies and healthcare providers significant savings through a substantial reduction in operational costs. The MedLink Solution allows users to collect, authorize and process transaction information in real-time for applications including, but not

limited to, patient and provider eligibility verification, procedure authorization and claims and debit processing. Participants of the MedLink Solution include private health insurance companies, group medical companies, and healthcare providers.

As of the date of this annual report the Company has installed approximately 1,900 solutions into healthcare provider locations throughout Brazil and plans to install up to a further 10,000 solutions during fiscal 2004. "Item 1. Description of Business – Material Agreements."

MedLink Solution Architecture and Design

Management of the Company believes that the MedLink Solution is the total connectivity system that will allow hospitals, clinics, medical specialists and other healthcare providers to easily capture, route, and authorize medical, hospital, and dental claims in "real time". The MedLink Solution will address pre-existing technological and communication problems by creating a universal virtual link between the insurer and the care provider.

The MedLink Solution's architecture and design is as follows:

- i. Seven capture methods;
- ii. A network processor;
- iii. An authorizer.

Capture Methods

The MedLink Solution is tailored to the specific care provider's environment and needs usage based upon its technological resources, physical installation and volume of claims.

The MedLink Solution offers seven different methods to capture data. The health care provider can select which of these seven methods best suit its operational needs and technological abilities. Regardless of the capture method chosen, transactions are seamless and efficient. The MedLink Solution's capture methods are:

- ◆ MedLink Solution POS Terminal;
- ◆ MedLink Solution Phone;
- ◆ MedLink Solution PC Windows
- ◆ MedLink Solution PC Net
- ◆ MedLink Solution Server Labs
- ◆ MedLink Solution Server Hospitals
- ◆ MedLink Solution Web

Network Processor

The MedLink Solution network processor routes the transactions captured by the MedLink Solution (the “Network Processor”) to the authorization system of the healthcare plan (the “Authorization System”). For example, in Brazil this process is carried out either using Embratel's Rempac service or the Internet. The Network Processor offers uninterrupted 24-hour, seven days a week operation and service.

The Network Processor is secured from the Rempac and Internet communication channels to the communication channels with the Authorization System , passing through the elements of local network, processors and unities of storage of data. It is implemented on a RAID5 disk array architecture.

Authorization System

The Authorization System's software is composed of a control module and a group of storage procedures that validate the specific rules of the health plan or insurer. It is responsible for:

- ◆ Receiving and decoding the messages sent by the Network Processor, containing the solicitations of the MedLink Solution installed at the provider;
- ◆ Identification of the kind of the message (claim, refund, settlement, etc) and of the service provider;
- ◆ Validation or denial of the transaction;
- ◆ Updating the historical database of the claims;
- ◆ Replying to the request by sending a message to the Network Processor.

Product Target Market Strategy

Market Strategy

The Company’s key marketing strategy is to position the Company as a market leader in providing total information management network processing solutions for the healthcare industry worldwide. Management of the Company believes that its Health Information Management Products encompass a variety of solutions for healthcare provider locations, a complete network processing service for the health insurance companies, and in-house software and systems development to address specific and unique customer requirements, and the ability to operate the systems through a variety of communication methods.

The promotional and marketing strategy is based on creating a proactive “push pull” effect on the demand for the Health Information Management Products and services within the healthcare industry. The Company has been focusing on the promotion and marketing of its products to the Brazilian healthcare providers and insurance

companies by demonstrating: (i) the benefits of the MedLink Solution application and services; (ii) real-time cash visibility; (iii) nominal to no capital investment; (iv) the established Network Processor facility; (v) custom software development support; and (vi) option of immediate payment of outstanding claims.

Management of the Company believes that this commonly used marketing and promotional model will be suitable and used for initial market penetration. However, international marketing and promotional strategies will be developed and adapted on a country-to-country basis to meet different market environments and governmental requirements, build business and political relationships, and obtain domestic media exposure and high visibility within the local healthcare industry to establish credibility.

The Company has identified two initial target markets for its products. They are: (i) healthcare providers, such as physicians, clinics, hospitals, laboratories, diagnosis centers, emergency centers, etc.; and (ii) health insurance and group medicine companies.

As of the date of this Annual Report, the Company has been successfully short-listed by the Australian Federal Government through its Health Insurance Commission (the "HIC"), to supply an authorization and eligibility solution for the Australian health insurance market. Management of the Company is currently engaged in negotiations with the HIC regarding the sale and purchase of its Health Information Management products for use in Australia's health insurance reimbursement system. On January 19, 2003, the Company established a wholly-owned subsidiary, Transax Australia Pty Ltd ("Transax Australia"), to seek additional opportunities within Australia.

As of the date of this Annual Report, the Company is currently focused primarily on the marketing and sale of its Health Information Management products in Brazil. Management of the Company believes that there is a significant global market opportunity for its Healthcare Information Management Products and services and software technology. As of the date of this Annual Report, the Company has entered into discussions with a number of groups within the United States, Australia and New Zealand with regard to potential joint venture relationships and licensing arrangements regarding its Health Information Management Products.

Strategic Alliances

The Company has developed key strategic alliances with the following technology providers to support the MedLink Solution's unique system architecture and design. Management of the Company believes that the establishment of these strategic alliances have given the Company a significant competitive advantage in Brazil.

GENS Information – PMS/ASP

On February 19, 2001, the Company and GENS Information (“GENS”), entered into an operating agreement (the “GENS Operating Agreement”). Pursuant to the terms and provisions of the GENS Operating Agreement: (i) GENS will provide to the Company a basic product called “Personal Med”, which is a Windows client-server application, running with Delphi front-end and Paradox and Oracle DB; and (ii) the Company will incorporate the MedLink Solution transaction services within the Personal Med allowing for its users to use the MedLink Solution services from within their PMS.

Management of the Company believes that GENS is the leading Brazilian developer of practice management software with over 50% of the market share. Personal Med is the name of GENS basic product, with some thirty variations according to doctor’s specialization. The variations are designed around specific exams data to be acquired and stored in each medical specialization.

Management of the Company estimates that current installed basis is approximately 10,600 copies sold directly to doctors, plus approximately 500 copies sold to corporations. Management of the Company believes that Gens has approximately 50% of the Brazilian market in practice management systems. The current structure sells an average of 200 copies a month, plus special events.

As of the date of this Annual Report, GENS is implementing versions to its Personal Med based on SQL server, and is further developing a web enabled version, which will allow doctors to select patients they want to have access through the InternetWeb, and a tool to access the database of each patient for this centralized base. GENS is also implementing access to doctor’s agenda and some direct news to be directed to Internet enabled doctors.

Vidalink – Drug Management

On August 29, 2001, the Company and Vidalink entered into an operational agreement (the “Vidalink Operational Agreement”), to allow the Vidalink Health Portal access to the MedLink Solution connectivity services, creating the first authorization and claims processing Internet service in Brazil. The Vidalink Health Portal offers doctors, the most extensive set of information on pathologies and medication practices, with complete drug interaction analysis and alert functionality. It offers also extensive continuous education programs, with selection of doctor’s areas of interest and automatic issuing news on selected subjects.

Pursuant to the terms and provisions of the Vidalink Operational Agreement, the MedLink Solution connectivity capabilities will be added to the Vidalink Health Portal, which will give the MedLink Solution access to Vidalink’s drug management services and Internet content, thus creating a synergic relationship between the two portals and allow doctors access to each portal reaching a much broader range of services.

Vidalink is a health portal focused in offering the premier drug management service package in Latin America, with operations in Mexico and Brazil. Through Vidalink, health plans have access to drug discount programs, as well as an extensive drug usage management service, capable of monitoring consumption of specific drugs by patients.

Management of the Company believes that the Vidalink programs are supported by agreements with approximately twenty-two of the largest pharmaceutical industries in Brazil, offering discount packages for drugs covering over 85% of total chronic diseases. Management of the Company further believes that Vidalink also offers a drug delivery scheme from an extensive network of pharmacies reaching over 5000 points of presence nationwide.

Mosaic Software, Inc – Network Processor System

On November 25, 2003, the Company and Mosaic entered into supplier agreement (the “Mosaic Supplier Agreement”), to develop the Network Processor software package, known as the “Postillion”, for use in the MedLink Solution.

Management of the Company believes that Mosaic is the supplier of the most modern technology for network control software, based on a low cost hardware platform (PC’s) and Windows NT software. Management believes the Position software is the best cost /effect solution for this kind of system, and has just been selected by Calypso, the new ATM being deployed in United States, as the chosen platform.

Hypercom Corporation

On December 1, 2003, the Company and Hypercom Inc., a publicly traded multinational company ("Hypercom"), entered into a servicing agreement (the "Hypercom Service Agreement"). Pursuant to the terms and provisions of the Hypercom Service Agreement Hypercom would provide leasing arrangements for POS (Point of Sale) terminals in Brazil. The company subsequently entered into lease for 255 POS units.

On April 30th 2002, the Company and Netset a wholly owned subsidiary of Hypercom based in Brazil entered into a service agreement whereby Netset will (i) provide to the Company installation, servicing, training, customer service and technical support (Call Center) for its terminal network in Brazil; and (ii) allow the Company to use the entire Hypercom structure to serve its clients.

Management of the Company believes that Hypercom has operations in more than 100 countries, annual revenues of more than US\$400 million, and has been in the Electronic Funds Transfer (EFT) and Communication Networks markets since 1977.

Management further believes that recent data indicates Hypercom is increasingly positioning itself as the world leader in POS terminals, and may be leader in the market of financial transactions.

SchlumbergerSema

On May 5, 2003, the Company and SchlumbergerSema (“Schlumberger”) entered into an agreement (the “Schlumberger Agreement”), pursuant to which Schlumberger will allow the Company to implement its MedLink Solution into the first medical smart card in Brazil for over 350,000 employees of Petrobras (the Brazil state oil corporation)

Management of the Company believes that Schlumberger has twenty years of innovation experience in the intelligent smart cards market and is a world leader in providing financial cards, with more than 1,000,000 terminals installed in over sixty countries. Management further believes that Schlumberger is the world’s second largest provider of smart cards after the takeover of Sema in 2000.

The Company’s strategic alliance with Schlumberger covers the following components: (i) capture devices, which consist of a combination of capture application hardware and software capable of identifying and handling pre-defined services entries, to be rerouted by means of electronic transactions to an authorizer system; (ii) rerouting, which is the development of a hardware and software structure for performing services of collecting electronic transactions at one service point (a service provider), where there is a capture device, with the rerouting of the transaction to a service authorization system, and the following return of the authorization’s result to the capture device; and (iii) authorization system, which is comprised of a hardware structure and application software, for creating parameters for the business regulations, tables and insured registries, providers and histories, and is responsible for handling the transactions received from the collection network, in reference to services, their analyses, release or negative, and for sending the corresponding response to the registered provider, in the form of a message.

Research and Development Agreements

The Company’s research and development department is responsible for the definition, design and implementation of the products associated with the Company.

This comprises three main areas of activity: research of electronic transaction product trends both in Brazil and around the world as it applies to the Healthcare industry, definition of products and services required for MedLink Solution services and implementation of the hardware and software products to support MedLink Solution services.

Products to be offered by MedLink iSolution involves interactive discussions with the marketing and sales team in order to identify the market needs, costs and timing to introduce such products and solutions.

The Company has entered into agreements with Hypercom and Dione PLC, of the United Kingdom, to utilize their terminals for the MedLink Solution. The Company is also currently negotiating with Helett Packard (HP) for the supply of PC's and services to be used by doctors' clinics and labs and with Alter for the introduction of practice management software.

Material Agreements

Merger Agreement

The Board of Directors of the Company, at a special meeting, approved the execution of an agreement in principle dated June 19, 2003 and a subsequent merger agreement and its ancillary documents dated July 22, 2003 (collectively, the "Merger Agreement") among the Company, Vega-Atlantic Acquisition Corporation, the Company's wholly-owned subsidiary ("Vega-Atlantic"), Transax Limited, a Colorado corporation ("Transax"), and certain selling shareholders of Transax. As of the date of this Annual Report, more than 5,000 installations are scheduled to complete the roll out consisting

of 250 MedLink Solution POS terminals and 4,800 IVR Phone. The Camed Agreement also provides for MedLink Solution WEB and MedLink Solution phone solutions, which will be used as appropriate by the healthcare providers. As of the date of this report the Company has approximately 200 Medlink Solutions in Camed providers' locations. During the month of March 2004, the Company processed 18,000 transactions for Camed.

Bradesco Health

On October 17, 2002 TDS and Bradesco Insurance ("Bradesco"), Brazil's largest health insurance company, entered into an agreement for the provision of a four month pilot program contract for the testing of its "Medlink" Solution. Subsequently, in February 2003, the pilot program was extended for a further six months at the request of Bradesco. On October 1, 2003 Bradesco and the Company entered into a contract pursuant to which the Company would undertake and install its "Medlink" Solution into the Bradesco healthcare provider's network. In order to undertake this program, Bradesco agreed to set up a stand alone processing facility to hold its database, which was subsequently contracted to a third party. Phase one of the program went live during March 2004. Current roll out plans indicate that the Company will install up to 5,000 solutions into the Bradesco provider's network during 2004 in order to achieve Bradesco's initial target of 1,000,000 transactions per month.

Competition

The information network solutions market for the healthcare providers and health insurance companies is characterized by rapidly evolving technology and intense competition. Many companies of all sizes, including a number of large technology companies, such as IBM, Siemens and EDS, as well as several specialized healthcare information management companies, are developing various products and services. There may be products on the market that do or will compete directly with the products and services that the Company is seeking to develop. These companies may also compete with the Company in recruiting qualified personnel. Many of the Company's potential competitors have substantially greater financial, research and development, human and other resources than the Company does. Furthermore, the larger companies may have significantly more experience than the Company does in developing such products and services. Such competitors may: (i) develop more efficient and effective products and services; (ii) obtain patent protection or intellectual property rights that may limit the Company's ability to commercialize its products or services; or (iii) commercialize products and services earlier than the Company does.

Management of the Company expects technology developments in the healthcare information management and technology industry to continue to occur at a rapid pace. Commercial developments

by any competitors may render some or all of the Company's potential products or services obsolete or non-competitive, which could materially harm the Company's business and financial condition.

Management believes that the following Brazilian companies, which have developed or are developing various types of similar products or services, could be major competitors of the Company: (i) Polimed, which offers two modalities for the authorization software; (ii) Connectmed, which offers Internet connectivity services; and (iii) Salutia, which offers a connectivity system with software to be installed and integrated to the management systems, similar to the Company's MedLink Solution Web and MedLink Solution Server and related technologies.

Management of the Company believes, however, that its Health Management information Products and related services and solutions for the healthcare providers and health insurance companies represent a unique approach and has certain competitive advantages as follows:

- i. the MedLink Solution significantly reduces medical administrative procedures and costs through connecting in real time individual healthcare provider locations to health insurance companies;
- ii. irrespective of the choice of connectivity or the method of transmission, MedLink provides a secure and reliable service where healthcare providers can automatically verify patient eligibility, receive authorization for the performance of approved medical procedures and process a paperless claim electronically with each insurance provider it interacts with, provided they are subscribed to the network;
- iii. once connected to the network, MedLink Solution provides numerous benefits to doctors and private health insurance companies including the automation of their paper-based clerical duties; and
- iv. by using MedLink Solution, many of these cumbersome tasks can be processed electronically in seconds, virtually eliminating processing costs, paperwork, and the high risks associated with fraud.

Government Regulation

As of the date of this Annual Report, none of the Company's software products or services are regulated by the U.S. Department of Health. However, there is substantial state and federal regulation of the confidentiality of patient medical records and the circumstances under which such records may be used, disclosed to or processed by the Company as a consequence of the Company's contacts with various healthcare providers and health insurance companies. Although compliance with these laws and regulations is presently the principal responsibility of covered entities, including hospitals, physicians or other healthcare providers, regulations governing patient confidentiality rights are rapidly evolving. Additional federal and state legislation governing the dissemination of medical record information may be adopted which could have a material affect on the Company's business. Those laws, including HIPAA and ICD 10 implementation, may significantly affect the Company's future business and materially impacts the Company's product and service development, revenue and working capital. During the past several years, the healthcare industry also has been subject to increasing levels of governmental regulation of, among other things, reimbursement rates and certain capital expenditures. The Company is unable to predict what, if any, changes will occur as a result of such regulation.

Intellectual Property, Patents and Trademarks

Patents and other proprietary rights are vital to the business operations of the Company. The Company's policy is to seek appropriate copyright and patent protection both in the United States and abroad for its proprietary technologies and products. Pursuant to the TDS License Agreement, the Company acquired the license to certain intellectual property as follows:

1. 'Medlink' registered trade name in Brazil Registration number 820986160 filed on August 17, 1998 with INPI Brazil;
2. Source code for all of the Medlink Solutions, source nodes and Network processor source code.

The Company has initiated copyright protection of its products in the United States using appropriate intellectual property counsel. The Company intends to apply for a process patent in the near future.

Employees

The Company's Brazilian subsidiary, TDS, employs approximately 40 staff and contract personnel.

As of the date of this Annual Report, the Company does not employ management on a full-time or on a part-time basis. The Company's President/Chief Executive Officer and Chief Financial Officer are primarily responsible for all day-to-day operations of the Company. Other services are provided by outsourcing and verbal management contracts. As the need arises and funds become available, however, management may seek employees as necessary in the best interests of the Company. For a discussion of the services performed for the Company by its officers and/or directors and consultants pursuant to contractual relationships, see "Part III. Item 10. Executive Compensation" and "Part III. Item 12. Certain Relationships and Related Transactions".

Risk Factors

The shares of the Company are highly speculative and involve an extremely high degree of risk. Shareholders of the Company should consider the following risk factors.

- Rapid Development Changes

The healthcare information management and technology market is highly fragmented and characterized by on-going technological developments, evolving industry standards and rapid changes in customer requirements. The Company's success depends on its ability to timely and effectively: (i) offer a broad range of software products; (ii) enhance existing products and expand product offerings; (iii) respond promptly to new customer requirements and industry standards; (iv) remain compatible with popular operating systems and develop products that are compatible with the new or otherwise emerging operating systems; and (v) develop new

interfaces with healthcare provider organizations to fully integrate the Company's products and services in order to maximize features and functionality. The Company's performance depends in large part on its ability to provide the increasing functionality required by its customers through the timely development and successful introduction of new products and enhancements to existing products. The Company may not successfully, or in a timely manner, develop, acquire, integrate, introduce or market new products or product enhancements. Product enhancements or new products developed by the Company may not meet the requirements of hospital or other healthcare providers or health insurance companies or achieve or sustain market acceptance. The Company's failure to either estimate accurately the resources and related expenses required for a project, or to complete its contractual obligations in a manner consistent with the project plan upon which a contract is based, could have a material adverse effect on the Company's business, financial condition, and results of operations. In addition, the Company's failure to meet a customer's expectations in the performance of its services and products could damage the Company's reputation and adversely affect its ability to attract new business.

- Failure to Accurately Assess, Process or Collect Healthcare Claims or Administer Contracts Could Subject the Company to Costly Litigation and Force the Company to Make Costly Changes to Products.

It is anticipated that some of the Company's products and services will be used in the payment, collection, coding and billing of healthcare claims and the administration of managed care contracts. If the Company's products and services fail to accurately assess, possess or collect these claims, customers could file claims against the Company. As of the date of this Annual Report, the Company does not carry insurance coverage to cover such claims or, if it does carry such insurance coverage in the future, such insurance coverage may not be adequate to cover such claims. A successful claim that is not covered by or is in excess of insurance coverage could adversely affect the Company's business, financial condition, and results of operations. Even a claim without merit could result in significant legal defense costs and could consume management time and resources. In addition, claims could increase insurance premiums such that appropriate insurance cannot be found at commercially reasonable rates. Furthermore, if the Company was found liable, the Company may have to significantly alter one or more of its products, possibly resulting in additional unanticipated research and development expenses.

- Nature of Products Makes Company Vulnerable to Undetected Errors That Could Reduce Revenues, Market Share or Demand.

Health Information Management Products may contain errors or failures, especially when initially introduced or when new versions are released. Although the Company conducts extensive testing of its products and services, software errors could be discovered in certain enhancements and products after their introduction. Despite such testing by the Company and by its current and potential customers, products under development, enhancements or shipped products may contain errors or performance failures resulting in, among other things: (i) loss of customers and

revenue; (ii) delay in market acceptance; (iii) diversion of resources; (iv) damage to the Company's reputation; or (v) increased service costs. Any of these consequences could have a material adverse effect on the Company's business, financial condition and results of operations.

- The Company may be Required to Make Substantial Changes to its Products if They Become Subject to Governmental Regulation.

As of the date of this Annual Report, none of the Company's Health Information Management Products are subject to regulation by the United States' federal government. Computer products used or intended for use in the diagnosis, cure, mitigation, treatment or prevention of disease or other conditions or that affect the structure or function of the body are subject to regulation by the US Department of Health. In the future, however, the US Department of Health could determine that some of the Company's products (because of their predictive aspects) may be clinical decision tools and subject them to regulation. Compliance with US Department of Health regulations such as HIPPA could be burdensome, time consuming and expensive. Other new laws and regulations affecting healthcare software development and marketing could also be enacted in the future. If so, it is possible that the Company's costs and the length of time for product development and marketing could increase and that other unforeseeable consequences could arise.

-Government Regulation of Confidentiality of Patient Health Information Could Result in Required Product Modifications.

There is substantial U.S. federal and state and foreign regulation of confidentiality of patient health information and the circumstances under which such information may be used by, disclosed to or processed by the Company as a consequence of any contracts with various health care providers or insurance companies. Although compliance with these laws and regulations is presently the principal responsibility of the hospital, physician or other healthcare provider, regulations governing patient confidentiality rights are dynamic and rapidly evolving. Changes may be made which would require the Company to change its products and systems and methods which could require significant expenditures of capital and decrease future business prospects. Additional federal and state legislation governing the dissemination of individually identifiable information have been proposed in the United States and may be adopted, which may also significantly affect the Company's business.

- Government Regulation of Healthcare Information Delivery Systems May Affect Healthcare Providers' Decisions.

During the past several years, the healthcare industry within the United States and other countries has been subject to changing political, economic and regulatory influences and to increasing levels of governmental regulation. Certain proposals to reform the U.S. healthcare systems have been and are being considered by Congress.

These proposals, if enacted, could change the operating environment for any of the Company's customers within the United States that could have a negative impact on the Company's business, financial condition and results of operations. However, the U.S. federal government recently mandated the use of electronic transmissions for large Medicare providers, which may positively affect the marketability of the Company's products in the U.S. The Company is unable to predict what, if any, changes will occur.

Changes in current healthcare financing, reimbursement systems and procurement practices could result in unplanned product enhancements, delays, or cancellations of product orders or shipments, or reduce the need for certain systems. A portion of the Company's revenues is expected to be derived from sales of its Health Information Management Products to hospitals in the United States. Consolidation in the healthcare industry, particularly in the hospital and managed care markets, could decrease the number of potential purchasers of the Company's Health Information Management Products and adversely affect the Company's business. In addition, the decision to purchase such products generally involves a committee approval. Consequently, it is difficult for the Company to predict the timing or outcome of the buying decisions of the Company's potential customers.

- There are Political and Economic Risks in Foreign Marketplaces.

As of the date of this Annual Report, the Health Information Management Products are sold by the Company principally in Brazil. The Company intends to enter the global marketplace which includes, but is not limited to, the marketplaces within the United States, Australia, South America and Europe. During fiscal year ended December 31, 2003, international sales accounted for 100% of the Company's total revenue. As a result, the Company faces certain risks associated with international sales. International sales may be subject to political, economic, legal and other uncertainties occurring within these countries. Changes in policies by the respective governments may result in changes in laws, regulations or the interpretation thereof, confiscatory taxation, restrictions on imports and sources of supply, import duties, corruption, economic reforms, and currency revaluation, all of which may materially and adversely affect the Company. The continuation or increase of any such disparities could affect the political and social stability of the country, and thus the operations of the Company. Moreover, there can be no assurance that future controversies will not arise which would threaten trade relations between the United States and the respective country. In any of such eventualities, the business of the Company could be adversely affected.

- The Company May Face Scrutiny From Governmental Agencies.

As a result of the rising healthcare costs, U.S. federal and state governments and foreign governments have placed an increased emphasis on detecting and eliminating fraud and abuse in healthcare programs. Numerous laws and regulations now exist

within the U.S. and other foreign countries to prevent fraudulent or abusive billing, to protect patients' privacy rights, and to ensure patients' access to healthcare. Violation of the laws or regulations governing the Company's operations could result in the imposition of civil or criminal penalties, including temporary or permanent exclusion from participation in government healthcare programs, such as Medicare and Medicaid in the U.S., the cancellation of any contracts with the Company to provide managed care services, and the suspension or revocation of any of the Company's governmental licenses. The Company intends to conduct routine internal audits in an effort to ensure compliance with all applicable laws and regulations. If errors, discrepancies or violations of laws are discovered in the course of these internal audits or otherwise, the Company may be required by law to disclose the relevant facts, once known, to the appropriate authorities.

- The Company May Experience Price Reduction, Reduced Gross Margins and Loss of Market Share if the Company is Unable to Successfully Compete.

Competition for the Company's products and services is intense and is expected to increase. Increased competition could result in reductions in the Company's prices, gross margins and market share, and could have a material adverse effect on the Company's business, financial condition and results of operations. The Company competes with other providers of healthcare information software and services, as well as healthcare consulting firms. Some competitors may have formed business alliances with other competitors that may affect the Company's ability to work with some potential customers. In addition, if some of the Company's competitors merge, a stronger competitor may emerge. Some principal competitors include: Polimed, Connectmed and Salutia, major software information systems companies, including those specializing in the healthcare industry, may not presently offer competing products but may in the future enter the Company's market. Many of the Company's competitors and potential competitors have significantly greater financial, technical, product development, marketing and other resources, and market recognition than the Company's has. Many of these competitors also have, or may develop or acquire, substantial installed customer bases in the healthcare industry. As a result of these factors, our competitors may be unable to respond more quickly to new or emerging technologies, changes in customer requirements, and changes in the political, economic or regulatory environment in the healthcare industry. These competitors may be in a position to devote greater resources to the development, promotion and sale of their products than the Company can. The Company may not be able to compete successfully against current and future competitors, and such competitive pressures could materially adversely affect the Company's business, financial condition and operating results.

- The Inability to Protect Intellectual Property Could Lead to Unauthorized Use of the Company's Products.

The Company relies on a combination of trade secrets, copyright and trademark laws, nondisclosure, non-compete and other contractual provisions to protect its proprietary

rights. Measures taken by the Company to protect its intellectual property may not be adequate, and its competitors could independently develop products and services that are substantially equivalent or superior to the Company's products and services. Any infringement or misappropriation of the Company's proprietary software and databases could put the Company at a competitive disadvantage in a highly competitive market and could cause the Company to lose revenues, incur substantial litigation expense, and divert management's attention from other operations. Intellectual property litigation is increasingly common in the software industry. Therefore, the risk of an infringement claim against the Company may increase over time as the number of competitors in the industry segment grows and the functionality of products overlaps. Third parties could assert infringement claims against the Company in the future. Regardless of the merits, the Company could incur substantial litigation expenses in defending any such asserted claim. In the event of an unfavorable ruling on any such claim, such an infringement may result in significant monetary liabilities that could have a material adverse effect on the business. In the event of an unfavorable ruling on any such claim, a license or similar agreement may also not be available to use on reasonable terms, if at all. The Company may not be successful in the defense of these or similar claims.

- The Company is Dependent upon the License Agreement to Further Develop and Commercialize its Products Effectively or at All.

To further develop and successfully commercialize the Health Information Management Products and related services, the Company and TDS entered into a license agreement (the "License Agreement") to carry out development and commercialization of the MedLink Solution within Brazil. Under the terms of the License Agreement, the Company will receive certain royalties once its subsidiary in Brazil has entered cash flow status.

The risks associated with the License Agreement include, but are not limited to, the following: (i) TDS may not apply the expected resources or required expertise in developing the MedLink Solution resources and systems or other systems necessary to successfully commercialize the MedLink Solution products; and (ii) disputes may arise between the Company and TDS that delay the commercialization of the MedLink Solution or adversely affect its sales or profitability. The Company's success will depend on the successful introduction and marketing of the MedLink Solution and other products which, in turn, is dependent on the continued existence of favorable contractual relations with TDS. The Company's business operations may be materially affected in the event TDS fails to honor the terms and provisions of License Agreement.

- The Company May Require Additional Funding, and Future Access to Capital is uncertain.

It is expensive to develop and commercialize Health Information Management Products. The Company plans to continue to conduct research and development,

which is costly. The Company's product development efforts may not lead to new commercial products, either because the Company's products fail to be found effective or because the Company lacks the necessary financial or other resources or relationships to pursue commercialization. The Company's capital and future revenues may not be sufficient to support the expenses of its business operations and the development of commercial infrastructure. The Company may need to raise additional capital to: (i) fund operations; (ii) continue the research and development of Health Information Management Products; and (iii) commercialize its products. Management of the Company believes that cash on hand will be sufficient to meet the Company's projected operating and capital requirements for at least the next twelve months. However, the Company may need additional financing within this time frame depending on a number of factors. The Company may not be able to obtain additional financing on favorable terms or at all. If the Company is unable to raise additional funds, the Company may have to delay, reduce or eliminate certain business operations. If the Company raises additional funds by issuing equity securities, further dilution to the Company's existing stockholders will result.

- Failure to Retain Key Personnel Could Impede the Company's Ability to Commercialize its Products, Maintain the License Agreement or Obtain Sources of Funds.

The Company depends, to a significant extent, on the efforts of Mr. Stephen Walters, its President/Chief Executive Officer and a director, and on the efforts of its executive officers and research and development personnel. The development of Health Information Management Products requires expertise from a number of different disciplines, some of which are not widely available. The quality and reputation of the Company's research and development personnel, including its executive officers, and their success in performing their responsibilities, may directly influence the success of the Company. In addition, the Company's President/Chief Executive Officer and other executive officers are involved in a broad range of critical activities, including providing strategic and operational guidance. The loss of these individuals, or the Company's inability to retain or recruit other key management and research and development personnel, may delay or prevent the Company from achieving its business objectives. The Company faces intense competition for personnel from other companies, public and private research institutions, government entities and other organizations.

- Market Volatility May Affect the Company's Stock Price, and the Value of a Shareholder's Investment in the Company's Common Stock May be Subject to Sudden Decreases.

The trading price for the shares of Common Stock of the Company has been, and the Company expects it to continue to be, volatile. The price at which the Company's Common Stock trades depends on a number of factors, including the following, many of which are beyond the Company's control: (i) the Company's historical and anticipated operating results, including fluctuations in financial and operating results;

(ii) the market perception of the prospects for health information management network solutions companies as an industry sector; (iii) general market and economic conditions; (iv) changes in government regulations affecting product approvals, reimbursement or other aspects of the Company's and/or competitors' businesses; (v) announcements of technological innovations or new commercial products by the Company or its competitors; (vi) developments concerning the Company's contractual relations with its executive officers, executive management and intellectual property rights; and (vii) announcements regarding significant collaborations or strategic alliances.

In addition, the stock market has from time to time experienced extreme price and volume fluctuations. These broad market fluctuations may lower the market price of the Company's Common Stock and affect the volume of trading in the stock. During periods of stock market price volatility, share prices of many health information management network solution companies have often fluctuated in a manner not necessarily related to their individual operating performance. Accordingly, the Company's Common Stock may be subject to greater price volatility than the stock market as a whole.

Information Statement

The Board of Directors of the Company, at a previous meeting, authorized and approved, subject to shareholder approval, a reverse stock split of up to one-for-twenty of the Company's issued and outstanding shares of Common Stock (the "Reverse Stock Split"). The Information Statement was circulated to the shareholders of the Company in connection with the taking of corporate action without a meeting upon the written consent of ten (10) or less shareholders holding of record a majority of the outstanding shares of the Company's Common Stock effective March 25, 2003 (the "March 25, 2003 Written Consent"). As of November 30, 2002 (the "Record Date"), there were 22,532,110 shares of the Company's Common Stock issued and outstanding. The names of the shareholders who signed the March 25, 2003 Written Consent and their respective equity ownership of the Company were as follows: (i) TriStar Financial Services, Inc. holding of record 1,216,214 shares of Common Stock (5.40%); (ii) Investor Communications International, Inc. holding of record 6,071,244 shares of Common Stock (26.94%); (iii) Alexander W. Proxy Statement

On July 22, 2003, the Board of Directors approved and authorized certain corporate action, including an amendment to the Company's Articles of Incorporation to effect a proposed change in name and adoption of a stock option plan for the Company. The Board of Directors further authorized and directed the filing with the Securities and Exchange Commission, and subsequent distribution to the shareholders of record as of May 30, 2003, a notice of special shareholders' meeting and a proxy statement pursuant to Section 14(a) of the Securities Exchange Act of 1934, as amended (collectively, the "Proxy Statement"). On approximately July 20, 2003, the Proxy Statement was distributed to all shareholders of the Company.

Pursuant to the Proxy Statement, a special meeting of shareholders was held on August 8, 2003 (the "Meeting") for the following purposes: (i) to approve a proposed amendment to the Company's Articles of Incorporation, as amended (the "Amendment"), to effectuate a proposed name change of the Company (the "Name Change") to such name as may be approved by the Board of Directors of the Company in its sole and absolute discretion; (ii) to approve a proposed stock option plan for key personnel of the Company (the "Stock Option Plan"); and (iii) to ratify the prior actions by shareholders of the Company taken pursuant to the March 25, 2003 Written Consent approving the Reverse Stock Split.

Only shareholders of record at the close of business on June 9, 2003 (the "Record Date") were entitled to notice of and to vote the shares of Common Stock of the Company held by them on such date at the Meeting or any and all adjournments thereof. As of the Record Date an aggregate 1,126,606 shares of Common Stock were outstanding. There was no other class of voting securities outstanding at that date.

Each share of Common Stock held by a shareholder entitled such shareholder to one vote on each matter that was voted upon at the Meeting. The presence, in person or by proxy, of the holders of a majority of the outstanding shares of Common Stock was necessary to constitute a quorum at the Meeting. Assuming that a quorum was present: (i) the affirmative vote of the holders of a majority of the shares of Common Stock outstanding was required to approve the proposed Amendment to effectuate the proposed Name Change to such name as may be approved by the Board of Directors in its sole and absolute discretion; (ii) the affirmative vote of the holders of a majority of the shares of Common Stock outstanding was required to approve the proposed Stock Option Plan; and (iii) the affirmative vote of the holders of a majority of the shares of Common Stock outstanding was required to ratify the prior actions of the shareholders taken pursuant to the March 25, 2003 Written Consent approving the Reverse Stock Split.

Securities Authorized for Issuance under Equity Compensation Plans

Stock Option Plan

On July 22, 2003, the Board of Directors unanimously approved and adopted a stock option plan (the "Stock Option Plan"), which was implemented by the Board of Directors on the Effective Date of the Merger Agreement. The purpose of the Stock Option Plan is to advance the interests of the Company and its shareholders by affording key personnel of the Company an opportunity for investment in the Company and the incentive advantages inherent in stock ownership in the Company. Pursuant to the provisions of the Stock Option Plan, stock options (the "Stock Options") will be granted only to key personnel of the Company, generally defined as a person designated by the Board of Directors upon whose judgment, initiative and efforts the Company may rely including any director, officer, employee or consultant of the Company. The Stock Option Plan replaced the stock option plan adopted by the Company effective March 25, 2003 and its terms are identical to such stock option plan, except that the Stock Option Plan provides authorization to the Board of Directors to grant Stock Options to purchase a total number of shares of Common Stock of the Company no to presently exceed 4,500,000 shares.

The Stock Option Plan is to be administered by the Board of Directors of the Company, which shall determine (i) the persons to be granted Stock Options under the Stock Option Plan; (ii) the number of shares subject to each option, the exercise price of each Stock Option; and (iii) whether the Stock Option shall be exercisable at any time during the option period of ten (10) years or whether the Stock Option shall be exercisable in installments or by vesting only. The Stock Option Plan provides authorization to the Board of Directors to grant Stock Options to purchase a total number of shares of common stock of the Company, not to presently exceed 4,500,000 shares of Common Stock as at the date of adoption by the Board of Directors of the Stock Option Plan. At the time a Stock Option is granted under the Stock Option Plan the Board of Directors shall fix and determine the exercise price at which shares of common stock of the Company may be acquired; provided, however, that any such exercise price shall not be less than that permitted under the rules and policies of any stock exchange or over-the-counter market which is applicable to the Company.

In the event an optionee who is a director or officer of the Company ceases to serve in that position, any Stock Option held by such optionee generally may be exercisable within up to ninety (90) calendar days after the effective date that his position ceases, and after such 90-day period any unexercised Stock Option shall expire. In the event an optionee who is an employee or consultant of the Company ceases to be employed by the Company, any Stock Option held by such optionee generally may be exercisable within up to sixty (60) calendar days (or up to thirty (30) calendar days where the optionee provided only investor relations services to the Company) after the effective date that his employment ceases, and after such 60- or 30-day period any unexercised Stock Option shall expire.

No Stock Options granted under the Stock Option Plan will be transferable by the optionee, and each Stock Option will be exercisable during the lifetime of the optionee subject to the option period of ten (10) years or limitations described above. Any Stock Option held by an optionee at the time of his

death may be exercised by his estate within one (1) year of his death or such longer period as the Board of Directors may determine.

Unless restricted by the option agreement, the exercise price shall be paid by any of the following methods or any combination of the following methods: (i) in cash; (ii) by cashier's check, certified cheque, or other acceptable banker's note payable to the order of the Company; (iii) by net exercise notice whereby the option holder will authorize the return to the Stock Option Plan pool, and deduction from the option holder's Stock Option, of sufficient Stock Option shares whose net value (fair value less option exercise price) is sufficient to pay the option price of the shares exercise (the fair value of the shares of the Stock Option to be returned to the pool as payment will be determined by the closing price of the Company's shares of Common Stock on the date notice is delivered); (iv) by delivery to the Company of a properly executed notice of exercise together with irrevocable instructions (referred to in the industry as 'delivery against payment') to a broker to deliver to the Company promptly the amount of the proceeds of the sale of all or a portion of the stock or of a loan from the broker to the option holder necessary to pay the exercise price; or (v) such other method as the option holder and the Board of Directors may determine as adequate including delivery of acceptable securities (including securities of the Company), set-off for wages or invoices due, property, or other adequate value. Convertible Loan Warrants

On December 31, 2002, Transax Limited borrowed \$66,195 from a related party. On March 31, 2003, Transax Limited borrowed \$255,000 from this related party, and a further \$100,000 on April 30, 2003.

During the year ended December 31, 2003, the Company incurred approximately \$41,300 in interest. Each loan is repayable on or before a six-month term. The interest rate is 12% per annum compounded monthly. The lender shall have the option during the term of the loan, and any extension thereto, to convert the principal and interest into common stock of TNSX, at a conversion price of \$0.25 per unit. Each unit is comprised of one common share and one warrant. Each warrant entitles the holder to purchase an additional share of the Company's common stock at \$0.50, for a period of twelve months.

On December 31, 2003, the loan and accrued interest of \$93,400 were converted for 373,570 units.

At December 31, 2003, the loans for \$255,000 and \$100,000 were in default, and the holder of the notes has not exercised the conversion feature. At December 31, 2003, \$32,818 in interest was accrued on these two loans. As of the date of this Annual Report, in the event the related party elects to convert the aggregate amount of \$387,818 due and owing into Units, a total of 1,551,272 Convertible Loan Warrants would be issued and outstanding. The 1,551,272 Convertible Loan Warrants would be convertible into 1,551,272 shares of Common Stock of the Company at an exercise price of \$0.50 per share.

As of the date of this Annual Report, there are an aggregate of 4,748,570 share purchase warrants issued and outstanding as follows: (i) 4,100,000 Warrants convertible into 4,100,000 shares of Common Stock at the price of \$1.00 per share expiring on August 14, 2008; (ii) 50,000 ICI Warrants convertible into 50,000 shares of Common Stock at the price of \$1.50 per share expiring on August 26, 2004, 2004; (iii) 225,000 Warrants convertible into 225,000 shares of Common Stock at the price of \$1.00 per share expiring on November 20, 2005; and (iv) 373,570 Warrants convertible into 373,570 shares of Common Stock at the price of \$0.50 per share expiring on December 31, 2004. ICI Settlement Agreement

Exercise of Stock Options

On September 30, 2003, the Company and ICI entered into the ICI Settlement Agreement pursuant to which an aggregate of \$752,070.91 due and owing to ICI (the "Debt") was satisfied by the Company. Pursuant to the terms and provisions of the ICI Settlement Agreement: (i) ICI agreed to settle a portion of the Debt by entering into respective assignment agreements with certain Designates; (ii) the Company agreed to accept the assignment by such Designate of that certain receivable as consideration for the payment of the exercise of the Stock Options granted to IMT and/or its employees or consultants at \$0.50 per option to acquire shares of Common Stock of the Company; and (iii) the Company agreed to issue the shares of Common Stock in the name of the Designate in accordance with the respective notice and agreement of exercise of option.

During fiscal year ended December 31, 2003, an aggregate of 1,206,730 Stock Options were exercised at \$0.50 per option by such Designates and the Company issued an aggregate of 1,206,730 shares of Common Stock to such Designates as partial settlement of the Debt.

Private Placement

The balance of the Debt was satisfied pursuant to issuance by the Company to ICI of an aggregate of 100,000 Units, with each Unit comprised of one share of Common Stock of the Company and one half ICI Warrant. ICI has the right to convert such ICI Warrant into shares of Common Stock on a one-to-one basis at the rate of \$1.50 per share expiring on September 30, 2004. The per share price of the shares of Common Stock was arbitrarily determined by the Board of Directors based upon analysis of certain factors including, but not limited to, stage of development, perceived investment risks, assets and net estimated worth of the Company. The Company issued 100,000 shares of Common Stock to ICI. ICI executed the Settlement Agreement and acknowledged therein that the securities to be issued have not been registered under the Securities Act of 1933, as amended, that ICI understood the economic risks of an investment in the securities, and that ICI had the opportunity to ask questions of and receive answers from the Company's management concerning

any and all matters related to acquisition of the securities.

ITEM 6. Management's Discussion and Analysis or Plan of Operation

Table of Contents

The following discussions of the results of operations and financial position of the Company should be read in conjunction with the financial statements and notes pertaining to them that appear elsewhere in this Form 10-KSB.

Results of Operations

On September 22, 2003 the Board of Directors of the Company approved a change in fiscal year end of the Company from March 31st to a calendar year-end of December 31st. The Board of Directors' decision to change the fiscal year end was based upon consummation of the Merger Agreement and the resulting continuation of the corporate entity Transax under the Merger, which has a calendar fiscal year end. The date of the Company's fiscal year end is December 31, 2003. Therefore, this Annual Report on Form 10-KSB for the year ended December 31, 2003 covers such transition period. As of the date of this Annual Report, management of the Company believes that the Company is in a viable operational position. Management of the Company also believes that the Health Information Management Products are integrated systems that will increase the Company's marketability exponentially. During fiscal year ended December 31, 2003, sales of the Company's products to customers accounted for approximately 100% of total gross revenues. Although the Company intends to expand its marketing of the Health Information Management Products in other countries, management believes that the sales of such products to customers in Brazil will continue to be a substantial line of business for the Company for the next several years.

The accompanying audited consolidated financial statements of the Company present the accounts of Transax Limited from May 2, 1998 [Inception] to December 31, and the accounts of TNSX from the Effective Date of the Merger to December 31, 2003 and the results of operations of Transax Limited for the comparative year ended December 31, 2002.

For Fiscal Year December 31, 2003 Compared with Fiscal Year Ended December 31, 2002

The Company incurred net losses of approximately (\$3,230,300) for the year ended December 31, 2003 (\$0.25 per share), compared to a net loss of approximately (\$2,116,900) (\$0.17 per share) for the year ended December 31, 2002.

Comparative results for the year ended December 31, 2002 include only the results of Transax Limited and its wholly owned subsidiary TDS. Results for the current period include the operations of Transax and its subsidiaries, and also of the Company from the Effective Date of the Merger to December 31, 2003.

During the year ended December 31, 2003, the Company generated approximately \$309,600 in gross revenues compared to approximately \$51,600 in gross revenues during the year ended December 31, 2002. The significant increase in revenues is due to the marketing and sale of the Company's products pursuant to new software contracts in Brazil.

During fiscal year ended December 31, 2003, the Company recorded operating expenses of approximately \$3,352,000 compared to operating expenses of approximately \$1,796,700 incurred during fiscal year ended December 31, 2002. During fiscal year ended December 31, 2003, the Company's operating expenses consisted primarily of: (i) \$1,210,100 (2002 - \$nil) in stock based compensation; (ii) approximately \$397,900 (2002 - \$426,200) in cost of product support services; (iii) approximately \$302,500 (2002 - \$344,900) in payroll and related benefits; (iv) approximately \$385,600 (2002 - \$174,700) in professional fees; (v) approximately \$398,200 (2002 - \$144,800) in management and consulting fees to related parties; (vi) approximately \$162,900 (2002 - \$nil) in investor relation fees; (vii) approximately \$106,200 (2002 - \$27,000) in depreciation expense; and (viii) approximately \$364,200 (2002 - \$232,900) in general and administrative expenses. General and administrative expenses generally include corporate overhead, financial and administrative contracted services and consulting costs.

During the year ended December 31, 2003, stock-based compensation increased to \$1,210,100 from \$-0- during the year ended December 31, 2003 compensation due to the issuance of stock options and warrants to non-employees for certain services performed. Professional fees increased to approximately \$385,600 (2002 - \$174,700). The increase in professional fees during the year ended December 31, 2003 is primarily due to an increase in expenses relating to the merger of Transax with TDS, and subsequent merger of Transax with the Company in 2003. During the year ended December 31, 2003, the Company's professional fees consisted of: (i) approximately \$89,800 (2002 - \$nil) in audit and accounting fees; (ii) approximately \$241,500 (2002 - \$65,100) in legal fees; (iii) approximately \$16,700 (2002 - \$49,000) in monitor fees; and (iv) approximately \$37,600 (2002 - \$60,600) in management fees. Related party management and consulting fees also increased to approximately \$398,200 (2002 - \$144,800) due to the comparative data for 2002 which included only the related party management fees for TDS, while in 2003 it included the related party management fees for TDS, Transax and the Company. General and administrative expenses increased during the year ended December 31, 2003 to approximately \$364,200 (2002 - \$232,900) due to an increase in support services required to maintain operations. On January 1, 2003, the Company changed the estimated useful lives of certain assets in order to reflect better the current circumstances. During the year ended December 31, 2003, the Company incurred approximately \$106,200 in depreciation expenses compared to approximately \$26,900 for the year ended December 31, 2002.

During the year ended December 31, 2003, payroll and related benefits decreased to approximately \$302,600 (2002 - \$344,900), due to certain changes in staff contracts in Brazil. Although there has been new staff due to an increase in the workload required to properly support the current and anticipated products sales, costs have decreased because certain employees have elected to enter into a contractual agreement as opposed to being on payroll. The cost of product support services also approximately decreased moderately from approximately \$426,200 for the year ended December 31, 2002 to approximately \$397,900 for the year ended December 31, 2003. The increase in number of staff on contract has been off set by the decrease in costs of software development. In 2002, research and development costs were expensed as incurred. During the year ended December 31, 2003, certain software development costs were capitalized, and then amortized based on the current and future revenue for each product. Approximately \$24,400 in amortization of the development costs was charged to operations for the year ended December 31, 2003 (2002 : \$Nil).

As discussed above, this resulted in an operating loss of approximately (\$3,042,400) for the year ended December 31, 2003 compared to an operating loss of approximately (\$1,745,100) for the year ended December 31, 2002.

During the year ended December 31, 2003, the Company's other expenses in the amount of approximately (\$187,800) compared to approximately (\$371,700) during the year ended December 31, 2002. Other expenses incurred during the year ended December 31, 2003 primarily consisted of: (i) interest expense of approximately \$86,000 (2002 - \$29,400); (ii) interest expense of approximately \$65,000 (2002 - \$132,200) to a related party due to the conversion of certain cash advances into interest bearing convertible loans and certain cash advances bearing interest; and (iii) approximately \$6,500 (2002 - \$210,100) in foreign exchange due to unfavorable foreign exchange adjustments.

As a result of these factors, net loss for the year ended December 31, 2003 was approximately (\$3,230,300) or (\$0.25) per common share compared to a net loss of approximately (\$2,116,900) or (\$0.17) per common share during the year ended December 31, 2002. The weighted average number of shares of Common Stock outstanding were 12,953,494 at December 31, 2003 compared to 12,472,917 at December 31, 2002.

Liquidity and Capital Resources

The Company generated approximately \$309,600 in gross revenues during the year ended December 31, 2003, an increase from gross revenues of approximately \$51,600 generated during the year ended December 31, 2002. Management of the Company anticipates that overall generation of revenues will continue to increase on an annual basis based on existing contracts. However, since inception, the Company has incurred cumulative net losses of approximately \$6,687,700 and has a stockholders' deficit of approximately \$1,621,500 as at December 31, 2003. The Company expects to continue to incur substantial losses to develop its products and distribution networks, and does not expect to attain profitability in the near future. Since its inception, the Company has funded operations through short-term borrowings and equity investments in order to meet its strategic objectives. The Company's future operations are dependent upon external funding and its ability to increase revenues and reduce expenses. Management believes that sufficient funding will be available from additional related party

borrowings and private placements following its merger to meet its business objectives including anticipated cash needs for working capital, for a reasonable period of time. However, there can be no assurance that the Company will be able to obtain sufficient funds to continue the development of its software products and distribution networks.

The Company's financial statements have been prepared assuming that it will continue as a going concern and, accordingly, do not include adjustments relating to the recoverability and realization of assets and classification of liabilities that might be necessary should the Company be unable to continue in operation.

Fiscal Year Ended December 31, 2003

As at December 31, 2003, the Company's current assets were approximately \$36,100 (2002 - \$36,300) and its current liabilities were approximately \$1,857,300 (2002 - \$694,600), which resulted in a working capital deficit of approximately \$1,821,200 (2002 - \$658,300). Current assets consisted of approximately \$10,500 (2002 - \$31,100) in cash and approximately \$25,600 (2002 - \$5,100) in prepaid expenses. Current liabilities consisted of: (i) approximately \$477,200 (2002 - \$141,700) in accounts payable and accrued expenses; (ii) approximately \$409,200 (2002 - \$255,600) in accrued payroll and related expenses; (iii) approximately \$387,800 (2002 - \$66,200) in convertible loans from related party; (iv) approximately \$384,500 (2002 - \$194,000) due to related party; (v) approximately \$152,600 (2002 - \$nil) in advances payable; and (vi) approximately \$46,000 (2002 - \$37,100) in current portion of capital lease obligation.

As at December 31, 2003, the Company's total assets were approximately \$249,100 (2002 - \$175,100) and its total liabilities were approximately \$1,870,600 (2002 - \$721,700). The Company's total liabilities exceeded its total assets by approximately \$1,621,500. As at December 31, 2003, the Company's total assets consisted of: (i) approximately \$36,100 (2002 - \$36,300) in current assets; (ii) approximately \$110,300 (2002 - \$nil) in software development costs; and (iii) approximately \$102,700 (2002 - \$138,900) in property and equipment. As at December 31, 2003, the Company's total liabilities consisted of: (i) approximately \$1,857,300 (2002 - \$694,600) in current liabilities; and (ii) approximately \$13,300 (2002 - \$27,100) in capital lease obligation (net of current portion due).

The Company's stockholders' deficit was (\$1,621,500) at December 31, 2003.

For the year ended December 31, 2003, net cash flows used in operating activities were approximately \$1,097,700 compared to approximately \$1,777,400 for the year ended December 31, 2002. Net cash used in operating activities was primarily comprised of: (i) net loss of approximately (\$3,230,300); (ii) stock based compensation of approximately \$1,210,100; (iii) accounts payable of approximately \$435,500; (iv) due to related party of approximately \$196,100; and (v) accrued payroll and related expenses of approximately \$153,500.

Net cash flows from financing activities during the year ended December 31, 2003 were approximately \$1,319,600 resulting primarily from loans and advances from a related party and

non-related company, compared to approximately \$1,564,900 during the year ended December 31, 2002. The borrowings were used to fund operating activities.

Net cash flows used in investing activities amounted to approximately \$178,400 during the year ended December 31, 2003, compared to \$NIL for the year ended December 31, 2002. During the year ended December 31, 2003, the Company capitalized some of its software research and development costs, while in 2002, these costs were expensed as part of the costs of product support services.

In summary, based upon the cash flow activities as previously discussed, during the year ended December 31, 2003, the Company's overall cash position decreased by approximately \$20,600.

Plan of Operations

Notwithstanding consummation of the Merger Agreement, as of the date of this Annual Report, there is substantial doubt regarding the Company's ability to continue as a going concern as the Company has not generated sufficient cash flow to fund its business operations and material commitments. The Company's future success and viability, therefore, are dependent upon the Company's ability to develop, provide and market its anticipated information network solutions to healthcare providers, health insurance companies and other end-users, and the continuing ability to generate capital financing. Management is optimistic that the Company will be successful in its business operations and capital raising efforts; however, there can be no assurance that the Company will be successful in generating revenue or raising additional capital. The failure to generate sufficient revenues or raise additional capital may have a material and adverse effect upon the Company and its shareholders.

Based upon consummation of the Merger, management of the Company anticipates an increase in operating expenses over the next three years to pay costs associated with such business operations. The Company must raise additional funds. The Company may finance these expenses with further issuances of Common Stock of the Company. The Company believes that any anticipated private placements of equity capital and debt financing, if successful, may be adequate to fund the Company's operations over the next twelve months. Thereafter, the Company expects it will need to raise additional capital to meet long-term operating requirements. If the Company raises additional funds through the issuance of equity or convertible debt securities other than to current shareholders, the percentage ownership of its current shareholders would be reduced, and such securities might have rights, preferences or privileges senior to its existing Common Stock. In addition, additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available, or are not available on acceptable terms, the Company may not be able to conduct its business operations successfully, which could significantly and materially restrict the Company's overall business operations.

Based upon a twelve-month work plan proposed by management, it is anticipated that such a work plan would require approximately \$2,000,000 of financing designed to fund various commitments and business operations. As of the date of this Annual Report, management believes that the Company can satisfy its cash requirements for the next twelve months based on its ability to successfully raise

capital and to obtain advances from certain investors and related parties, as necessary. The Company's future success and viability are primarily dependent upon the Company's current management to generate revenues from business operations and raise additional capital through further private offerings of its stock or loans from private investors. There can be no assurance, however, that the Company will be able to raise additional capital. The Company's failure to successfully raise additional capital will have a material and adverse affect upon the Company and its shareholders.

As per the terms of the Merger, these shares were subject to a 2:1 reverse split, and were then exchanged for common shares of the Company. The advances due and owing at December 31, 2003 were non-interest bearing until August 31, 2003, and are accruing 1% interest per month since September 1, 2003.

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles or GAAP in the United States. The preparation of those financial statements requires us to make estimates and judgments that affect the reported amount of assets and liabilities at the date of our financial statements. Actual results may differ from these estimates under different assumptions or conditions.

Critical accounting policies are those that reflect significant judgments or uncertainties, and potentially result in materially different results under different assumptions and conditions. The Company believes that are our most critical accounting policies includes: recognition of transactions revenues and accounting for stock options and warrants.

Revenue Recognition

The Company generates is revenues from contracts which generally last more than one year. There are two principal services in the contract that produce revenues. The first is the installation of the Medlink Solutions software at the locations of healthcare providers. This revenue is recognized in accordance with Statement of Position ("SOP") 98-7 when: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred; (3) the Company's fee is fixed and determinable, and; (4) collectibility is

probable. The second source of revenue is the fee charged for each transaction processed through the Medlink Solutions system. These fees are invoiced after the transactions are processed.

Accounting for Stock-Based Compensation

The Company accounts for stock-based employee compensation arrangements in accordance with the provisions of Accounting Principles Board (“APB”) Opinion No. 25, Accounting for Stock Issued to Employees, and complies with the disclosure provisions of SFAS No. 123, Accounting for Stock-Based Compensation. Under APB No. 25, compensation expense is recognized based on the difference, if any, on the date of grant between the estimated market value of the Company’s stock and the amount an employee must pay to acquire the stock. Compensation expense is recognized immediately for past services and ratably for future services over the option-vesting period. If the Company followed SFAS 123, it would recognize compensation expense using a fair value method, such as Black-Scholes, to estimate the cost of equity instruments as of the date these awards are granted to employees. Any differences between the expense as calculated under SFAS 123 and that computed under APB No. 25 is disclosed on a pro forma basis in the notes to the consolidated financial statements.

The Company accounts for equity instruments issued in exchange for the receipt of goods or services from other than employees in accordance with SFAS No. 123 and the conclusions reached by the Emerging Issues Task Force (“EITF”) in Issue No. 96-18, Accounting for Equity Instruments That Are Issued to Other Than Employees for Acquiring or in Conjunction with Selling, Goods or Services. Costs are measured at the estimated fair market value of the consideration received or the estimated fair value of the equity instruments issued, whichever is more reliably measurable. The value of equity instruments issued for consideration other than employee services is determined on the earlier of a performance commitment or completion of performance by the provider of goods or services as defined by EITF No. 96-18.

REPORT OF INDEPENDENT AUDITORS

[Back to Index of Financial Statements](#)

[Back to Table of Contents](#)

To the Board of Directors and Stockholders' of Transax International Limited.

We have audited the accompanying consolidated balance sheet of Transax International Limited and subsidiaries [a development stage company] as of December 31, 2003, and the related consolidated statements of operations, stockholders' deficit, and cash flows for each of the two years in the period then ended and for the period from May 2, 1998 [inception] to December 31, 2003. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Transax International Limited and subsidiaries [a development stage company] as of December 31, 2003 and the results of their operations and their cash flows for each of the two years in the period then ended and for the period from May 2, 1998 [inception] to December 31, 2003 in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 3 to the consolidated financial statements, the Company has accumulated losses from operations of approximately \$6.7 million and has a net capital deficiency of approximately \$1.6 million at December 31, 2003. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 3. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Notes to the Consolidated Financial Statements

1. The Company

Transax International Limited (“TNSX” or the “Company”) (formerly Vega-Atlantic Corporation) was incorporated in the State of Colorado. The Company currently trades on the OTC Bulletin Board under the symbol "TNSX" and the Frankfurt and Berlin Stock Exchanges under the symbol "TX6".

On June 19, 2003 Transax Limited (“Transax”) entered into an Agreement in Principle (collectively with the Merger Agreement, referred to as the “Agreement”, or the “Merger”) to, by way of merger, exchange all of its outstanding shares for an aggregate of 11,066,207 restricted common shares of the Company, at a deemed issuance price of \$0.50 per share. As of the contemplated merger date, Transax had outstanding 22,132,414 common shares, 8,200,000 warrants and 9,000,000 stock options. These securities were subject to a reverse two-to-one split under the Agreement. The Agreement was finalized on July 22, 2003, and the transaction closed effective August 14, 2003 (See Note 2, Merger).

The Company, through its wholly owned subsidiary TDS Telecommunication Data Systems Ltda. (“TDS”), is an international provider of information network solutions specifically designed for the healthcare providers and health insurance companies. The MedLink Solution™ enables the real time automation of routine patient eligibility, verification, authorizations, claims processing and payment functions. The Company also has offices located in Australia, Singapore, Mauritius.

The Company is in the development stage as defined in Financial Accounting Standards Board (“FASB”) Statement No. 7, Accounting and Reporting for Development Stage Companies. To date, the Company has generated limited sales and has devoted its efforts primarily to developing its products, implementing its business strategy and raising working capital through equity financing or short-term borrowings.

The accompanying audited consolidated financial statements of the Company present the accounts of Transax for the years ended December 31, 2003 and 2002, including TNSX from the effective date of the merger (August 14, 2003) to December 31, 2003 (See Note 2). All material intercompany accounts and transactions between the Company and its subsidiaries have been eliminated.

2. Merger

On June 19, 2003 Transax entered into an Agreement in Principle to, by way of merger, exchange all of its outstanding shares for an aggregate of 11,066,207 restricted common shares of the Company, at a deemed issuance price of \$0.50 per share. As of the contemplated merger date, Transax had outstanding 22,132,414 common shares, 8,200,000 warrants and 9,000,000 stock options. These securities were subject to a reverse two-to-one split under the Agreement. The Agreement was finalized on July 22, 2003, and, on August 14, 2003, the Merger was deemed closed, and the Board or Directors of the newly merged company, Transax International Limited, or "TNSX", approved the issuance of 11,066,207 common shares pursuant to the terms of the Merger. After the merger, TNSX had 12,472,917 common shares outstanding.

Under generally accepted accounting principles, the acquisition is considered to be a capital transaction in substance, rather than a business combination. That is, the acquisition is equivalent to the issuance of stock by Transax for the net monetary assets of TNSX, accompanied by a recapitalization, and is accounted for as a change in capital structure. Accordingly, the accounting for the acquisition is identical to that resulting from a reverse acquisition, except that no goodwill is recorded. Under reverse takeover accounting, the comparative historical financial statements of the "legal acquiror" (TNSX) are those of the "accounting acquiror" (Transax). Costs associated with the reverse merger were expensed as incurred. Shares issued in the transaction are shown as outstanding for all periods presented. Activities of the legal acquiror are included from the date of the transaction onward.

On August 8, 2003, the shareholders of both TNSX and Transax held meetings. TNSX's shareholders approved the following ratifications: (i) name change from Vega-Atlantic Corporation to Transax International Limited; (ii) the Stock Option Plan, and; (iii) the reverse Stock Split. Moreover, on August 8, 2003, the shareholders of Transax approved the terms and conditions of the Agreement in Principle and of the Merger Agreement.

Pursuant to the terms of the Merger Agreement and a corresponding contribution agreement, Transax has contributed to the Company 11,066,207 shares of its restricted common stock, 4,500,000 stock options and 4,100,000 share purchase warrants. Pursuant to further terms of the Agreement, the Company has: (i) exchanged with the Transax shareholders an aggregate of 11,066,207 shares of the Company's restricted common stock (on the basis of each two Transax shares of common stock exchanged into the right to receive one share of common stock of TNSX); (ii) exchanged with the Transax option holders an aggregate of 4,500,000 stock options to acquire up to 4,500,000 shares of TNSX's common stock to replace all stock options presently outstanding in Transax (on the basis of each two Transax stock options exchanged into the right to receive one stock option of TNSX); and (iii) exchanged with the Transax warrant holders an aggregate of 4,100,000 share purchase warrants to acquire up to 4,100,000 shares of TNSX's common stock to replace all share purchase warrants presently outstanding in Transax (on the basis of each two Transax share purchase warrants exchanged into the right to receive one share purchase warrant of TNSX).

On September 22, 2003 the Board of Directors of the Company approved a change in fiscal year end of the Company from March 31st to a calendar year-end of December 31st. The Board of Directors' decision to change the fiscal year end was based upon consummation of the Merger and the resulting continuation of the corporate entity TNSX under the Merger, which has a calendar year end.

3. Going Concern

Since inception, the Company has incurred cumulative net losses of approximately \$6,687,700 and has a stockholders' deficit of approximately \$1,621,500 at December 31, 2003. The Company expects to continue to incur substantial losses to develop its products and distribution networks, and does not expect to attain profitability in the near future. Since its inception, the Company has funded operations through short-term borrowings and equity investments in order to meet its strategic objectives. The Company's future operations are dependent upon external funding and its ability to increase revenues and reduce expenses. Management believes that sufficient funding will be available from additional related party borrowings and private placements to meet its business objectives, including anticipated cash needs for working capital, for a reasonable period of time. However, there can be no assurance that the Company will be able to obtain sufficient funds to continue the development of its software products and distribution networks.

Further, since fiscal 2000, the Company has been deficient in the payment of Brazilian payroll taxes and Social Security taxes. At December 31, 2003, these deficiencies amounted to approximately \$298,600, including a provision of interest and fines of approximately \$61,700. This payroll liability is included as part of the accrued payroll and related expenses within the consolidated balance sheet.

As a result of the foregoing, there exists substantial doubt about the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

4. Summary of Significant Accounting Policies

a. Principle of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and its wholly – owned subsidiaries. All significant intercompany transactions and balances have been eliminated (see Note 2).

b. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

c. Revenue Recognition

Revenue from the sale of software products, which do not require any significant production, modification or customization for the Company's targeted customers and do not have multiple elements, is recognized when: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred; (3) the Company's fee is fixed and determinable, and; (4) collectibility is probable.

d. Cash and Cash Equivalents

Cash and cash equivalents consists of cash on deposit and highly liquid short-term interest bearing securities with a maturity at the date of purchase of three months or less. As of December 31, 2003, the Company had no cash equivalents.

e. Property and Equipment, net

Property and equipment is stated at cost less accumulated depreciation and amortization. Depreciation and amortization is recorded on a straight-line basis over the estimated useful lives (approximately 2 – 10 years) of the assets. Expenditures for maintenance and repairs that do not improve or extend the life of the expected assets are expensed to operations, while major repairs are capitalized.

f. Impairment

Certain long-term assets of the Company are reviewed when changes in circumstances indicate their carrying values may have become impaired, pursuant to guidance established in Statement of Financial Accounting Standards ("SFAS") No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. Management considers assets to be impaired if the carrying value exceeds the future projected cash flows from related operations (undiscounted and without interest charges). If impairment is deemed to exist, the asset will be written down to fair value. Management also reevaluates the period of depreciation or amortization to determine whether subsequent events and circumstances warrant revised estimates of useful lives. As of December 31, 2003, management expects those assets related to its continuing operations to be fully recoverable.

g. Income Taxes

The Company accounts for income taxes under SFAS No. 109, Accounting for Income Taxes. Under SFAS No.109, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between their financial statement carrying amounts and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under SFAS No. 109, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

h. Foreign Currency Translation

The assets and liabilities of the Company's foreign subsidiary are translated into U.S. dollars at the year-end exchange rates and all revenue and expenses are translated into U.S. dollars at the average exchange rates prevailing during the periods in which these items arise. Translation gains and losses are deferred and accumulated as a component of other comprehensive income in stockholders' deficit. Transaction gains and losses that arise from exchange rate fluctuations on transactions denominated in a currency other than the functional currency (TDS – Brazilian Real, Transax Australia, - Australian dollar and Transax and the Company – USD) are included in the Statement of Operations as incurred.

i. Loss Per Share

Basic loss per share is computed by dividing the loss for the period by the weighted average number of common shares outstanding for the period. The weighted average number of common shares outstanding has been retroactively restated for all the periods presented to reflect the effects of the merger (see Note 2). Diluted loss per share reflects the potential dilution of securities by including other potential common stock, including stock options and warrants, in the weighted average number of common shares outstanding for a period, if dilutive.

At December 31, 2003, there were 4,748,570 outstanding warrants and 2,743,270 outstanding options that were granted under the year 2003 incentive stock option plan (See Note 14). These securities may dilute the earnings per share calculation in the future.

j. Comprehensive Income

The Company has adopted SFAS No. 130, Reporting Comprehensive Income. Other comprehensive income, which currently includes only foreign currency translation adjustments, is shown net of tax in the Statement of Changes in Stockholders' Deficit.

k. Fair Value of Financial Instruments

SFAS No. 107, Disclosures about Fair Values of Financial Instruments, requires disclosing fair value to the extent practicable for financial instruments, which are recognized or unrecognized in the balance sheet. The fair value of the financial instruments disclosed herein is not necessarily representative of the amount that could be realized or

settled, nor does the fair value amount consider the tax consequences of realization or settlement.

For certain financial instruments, including cash, accounts payable and accrued expenses and short term debt, it was assumed that the carrying amounts approximate fair value because of the near term maturities of such obligations. The fair value of long-term debt was determined based on current rates at which the Company could borrow funds with similar remaining maturities, which amount approximates its carrying value.

l. Stock Based Compensation

The Company accounts for stock-based employee compensation arrangements in accordance with the provisions of Accounting Principles Board ("APB") Opinion No. 25, Accounting for Stock Issued to Employees, and complies with the disclosure provisions of SFAS No. 123, Accounting for Stock-Based Compensation. Under APB No. 25, compensation expense is recognized based on the difference, if any, on the date of grant between the estimated market value of the Company's stock and the amount an employee must pay to acquire the stock. Compensation expense is recognized immediately for past services and rateably for future services over the option-vesting period.

The Company accounts for equity instruments issued in exchange for the receipt of goods or services from other than employees in accordance with SFAS No. 123 and the conclusions reached by the Emerging Issues Task Force ("EITF") in Issue No. 96-18, Accounting for Equity Instruments That Are Issued to Other Than Employees for Acquiring or in Conjunction with Selling, Goods or Services. Costs are measured at the estimated fair market value of the consideration received or the estimated fair value of the equity instruments issued, whichever is more reliably measurable. The value of equity instruments issued for consideration other than employee services is determined on the earlier of a performance commitment or completion of performance by the provider of goods or services as defined by EITF No. 96-18.

m. Allowance for Doubtful Accounts

The Company recognizes an allowance for doubtful accounts to ensure accounts receivable are not overstated due to uncollectibility. Bad debt reserves are maintained for all customers based on a variety of factors, including the length of time the receivables are past due, significant one-time events and historical experience. An additional reserve for individual accounts is recorded when the Company becomes aware of a customer's inability to meet its financial obligation, such as in the case of bankruptcy filings or deterioration in the customer's operating results or financial position. If circumstances related to customers change, estimates of the recoverability of receivables would be further adjusted. As of December 31, 2003, the allowance for doubtful accounts was \$NIL.

5. Financial Instruments / Credit risk

The Company performs certain credit evaluation procedures and does not require collateral for financial instruments subject to credit risk. The Company believes that credit risk is limited because the Company routinely assesses the financial strength of its customers, and based upon factors surrounding the credit risk of its customers, establishes an allowance for uncollectible accounts and, as a consequence, believes that its accounts receivable credit risk exposure beyond such allowances is limited.

The Company's principal business activities are located in Brazil. Although Brazil is considered to be economically stable, it is always possible that unanticipated events in foreign countries could disrupt the Company's operations.

The Company had net sales to 2 major customers during each of the years ended December 31, 2003 and 2002. These sales accounted for approximately 95% or \$294,100 and 100% or \$51,600 of the total sales for the years 2003 and 2002, respectively.

The Company maintains cash deposits with financial institutions, which from time to time may exceed federally insured limits. The Company has not experienced any losses and believes it is not exposed to any significant credit risk from cash. At December 31, 2003 the Company did not have cash balances on deposit that exceeded the federally insured limits.

6. New Authoritative Pronouncements

- In December 2002, the FASB issued SFAS No. 148, Accounting for Stock-Based Compensation-Transition and Disclosure. SFAS No. 148 amends SFAS No. 123, Accounting for Stock-Based Compensation to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, SFAS No. 148 amends the disclosure requirements of SFAS No. 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. SFAS No. 148 is effective for fiscal periods beginning after December 15, 2002.
- In April 2003, the FASB issued SFAS No. 149, Amendment of Statement 133 on Derivative Instruments and Hedging Activities, which clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts and for hedging activities under SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities. SFAS No. 149 is effective for contracts entered into or modified after June 30, 2003 and for hedging relationships designated after June 30, 2003.

The Company expects that the adoption of the new Statements will not have a significant impact on its financial statements.

7. Income Taxes

At December 31, 2003 the Company has recorded a deferred tax asset of approximately \$980,100. This deferred tax asset is due primarily to accumulated net operating losses incurred since inception. A valuation allowance of an equal amount has been recorded because the Company believes it is more likely than not that the losses will not be utilized. The valuation allowance increased by approximately \$961,600 in 2003.

The Company has accumulated approximately \$2,649,000 of taxable losses, which can be used to offset future federal taxable income. The utilization of the losses expires as follows:

Year	Amount
2021	\$199,200
2022	\$228,200
2023	\$2,221,600

\$2,649,000

Transax files its income tax return on a single company basis as U.S. tax rules prohibit the consolidation of its foreign subsidiaries.

TDS has accumulated tax loss carryforwards of approximately \$2,546,800 at December 31, 2003 (2002 - \$1,327,200). Current Brazilian tax legislation imposes no time period for the utilization of the losses, although it does limit the annual usage of the losses to 30 % of taxable profits.

These losses gives rise to a deferred tax asset of approximately \$866,000 (2002 - \$454,000), which has been offset by a valuation allowance of the same amount as the Company believes it is more likely than not that the losses will not be utilized. The valuation allowance increased by approximately \$412,000.

8. Foreign Operations

The Company identifies its operating segments based on its business activities and geographical locations. The Company operates within a single operating segment, being a provider of information network solutions specifically designed for healthcare providers and health insurance companies. The Company operates in Brazil, Australia and Mauritius, and has a registered mailing address in Singapore and in the USA. All of the Company's assets are located in Brazil.

In accordance with SFAS No. 86, Accounting for the Costs of Computer Software to be Sold, Leased or Otherwise Marketed, the Company has capitalized certain of its software development costs incurred during the year ended December 31, 2003. The capitalized costs are amortized, starting in the third quarter, based on the current and future revenue for each product. Approximately \$24,400 in amortization of the development costs was charged to operations for the year ended December 31, 2003 (2002 : \$Nil).

12. Commitments and Contingencies

The Company has an operating lease for rental of office space in Brazil, renewable on an annual basis.

Interest expense related to these two leases for the year ended December 31, 2003 was approximately \$22,700 (2002 : \$ 29,400).

The minimum lease payments under these capital leases are as follows:

For the year ending December 31,

	\$59,299

Sales

Through contractual agreements with three main customers, the Company is committed to provide installations of its Medlink Solutions as per the respective roll-out plans and to process transactions over the next two calendar years. Above-cost fees are charged for each installation and transaction processed.

13. Litigation

In the normal course of its operations, the Company may be named in legal actions seeking monetary damages. While the outcome of these matters cannot be estimated with certainty, management does not expect, based upon consultation with legal counsel, that they would have a material adverse effect on the Company's business or financial condition or results of operations.

14. Share Capital

ITEM 8. Changes in and Disagreements with Accountants on Accounting and Financial Disclosures.

[Table of Contents](#)

On September 22, 2003, the Board of Directors of the Company terminated the services of LaBonte & Co., Chartered Accountants (“LaBonte”) as principal independent accountant for the Company. The termination of LaBonte is a result of consummation of the merger between Transax Limited and Vega-Atlantic Corporation and the subsequent decision by the Board of Directors that it would be in the best interests of the Company to effect a change in auditors to the current auditors of Transax Limited. During the Company’s two most recent fiscal years and any subsequent interim period preceding the resignation of LaBonte, there were no disagreements with LaBonte which were not resolved on any matter concerning accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of LaBonte, would have caused LaBonte to make reference to the subject matter of the disagreements in connection with its reports. The report of LaBonte for fiscal year ended March 31, 2003 indicated the following:

“In the United States, reporting standards for auditors would require the addition of an explanatory paragraph following the opinion paragraph when the financial statements are affected by conditions and events that cast substantial doubt on the Company’s ability to continue as a going concern, such as those described in Note 1. Our report to the stockholders and Board of Directors dated June 3, 2002 is expressed in accordance with Canadian reporting standards which do not permit a reference to such conditions and events in the auditors’ report when these are adequately disclosed in the financial statements.”

Except as described in the immediately preceding paragraph, the report of LaBonte did not contain an adverse opinion or a disclaimer of opinion, and was not qualified or modified as to uncertainty, audit scope, or accounting principles.

On September 22, 2003, the Board of Directors of the Company approved and authorized the engagement of Moore Stephens, P.C., 708 Third Avenue, New York, New York 10017-5102 as the principal independent accountant for the Company.

Indemnification Provisions

Under Section 7-109-102 of the Colorado Business Corporations Act (the "Colorado Act") a corporation may indemnify a person made a party to a proceeding because the person is or was a director, against liability incurred in the proceeding. Indemnification permitted under this section in connection with a proceeding by or in the right of the corporation is limited to reasonable expenses incurred in connection with the proceeding.

Indemnification is only possible under this section 7-109-102, however, if: (a) the person conducted

him/herself in good faith; and (b) the person reasonably believed: (i) in the case of conduct in an official capacity with the corporation, that his or her conduct was in the corporation's best interests; and (ii) in all other cases, that his or her conduct was at least not opposed to the corporation's best interests; and (c) in the case of any criminal proceeding, the person had no reasonable cause to believe his or her conduct was unlawful.

It should be noted, however, that under Section 7-109-102(4), a corporation may not indemnify a director: (i) in connection with a proceeding by or in the right of the corporation in which the director is adjudged liable to the corporation; or (ii) in connection with any other proceeding in which a director is adjudged liable on the basis that he or she derived improper personal benefit.

Under Section 7-109-103 a director is entitled to mandatory indemnification, when he/she is wholly successful in the defense of any proceeding to which the person was a party because the person is or was a director, against reasonable expenses incurred in connection to the proceeding.

Under Section 7-109-105, unless restricted by a corporation's Articles of Incorporation, a director who is or was a party to a proceeding may apply for indemnification to a court of competent jurisdiction. The court, upon receipt of the application, may order indemnification after giving any notice the court considers necessary. The court, however, is limited to awarding the reasonable expenses incurred in connection with the proceeding and reasonable expenses incurred to obtain court-ordered indemnification.

Under Section 7-109-107, unless restricted by the corporation's Articles of Incorporation, an officer of a corporation is also entitled to mandatory indemnification and to apply for court-ordered indemnification to the same extent as a director.

A corporation may also indemnify an officer, employee, fiduciary or agent of the corporation to the same extent as a director.

Under Section 7-109-108 a corporation may purchase and maintain insurance on behalf of a person who is or was a director, officer, employee, fiduciary or agent of the corporation against liability asserted against or incurred by the person in that capacity, whether or not the corporation would have the power to indemnify such person against the same liability under other sections of the Colorado Act.

The officers and directors of the Company are accountable to the shareholders of the Company as fiduciaries, which means such officers and directors are required to exercise good faith and integrity in handling the Company's affairs.

A shareholder may be able to institute legal action on behalf of himself and all other similarly situated shareholders to recover damages where the Company has failed or refused to observe the law. Shareholders may, subject to applicable rules of civil procedure, be able to bring a class action or derivative suit to enforce their rights, including rights under certain federal and state securities laws and regulations. Shareholders who have suffered losses in connection with the purchase or sale of

their interest in the Company due to a breach of a fiduciary duty by an officer or director of the Company in connection with such sale or purchase including, but not limited to, the misapplication by any such officer or director of the proceeds from the sale of any securities, may be able to recover such losses from the Company.

The Company and its affiliates may not be liable to its shareholders for errors in judgment or other acts or omissions not amounting to intentional acts.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Company pursuant to the foregoing provisions, or otherwise, the Company has been advised that in the opinion of the Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Company of expenses incurred or paid by a director, officer or controlling person of the Company in the successful defense or any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Company will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

The Company has no agreements with any of its directors or executive officers providing for indemnification of any such persons with respect to liability arising out of their capacity or status as officers and directors.

At present, there is no pending litigation or proceeding involving a director or executive officers of the Company as to which indemnification is being sought.

Prior to the Merger Vega-Atlantic shall, pursuant to the terms of the "Contribution Agreement"; a copy of which is attached hereto as Exhibit D (the "*Contribution Agreement*"); issue and deliver to Newco shares, warrants and options of Vega-Atlantic Common Stock equivalent to the final number of Vega-Atlantic Shares, Vega-Atlantic Options and Vega-Atlantic Warrants to be transferred to the existing shareholders, warrant holders and option holders of Transax pursuant to the terms and provisions of the Plan.

1.2 Effective Time of the Merger. As promptly as practicable after the approval hereof by the shareholders of Transax and, where required, if at all, by any of the other Constituent Corporations, and the execution and delivery of this Agreement by each of the parties hereto, but in no event after August 31, 2003, the parties hereto each shall cause the Merger to be consummated by filing Articles of Merger with the Secretary of State of Colorado in such form as required by, and executed in accordance with the relevant provisions of, Article 111 of the CBCA. The Merger shall become effective at such time as the Secretary of State of Colorado accepts for filing the Articles of Merger or at such later time pursuant to the mutual agreement of Newco and Transax (the "*Effective Time*").

1.3 Capitalization of Transax for conversion. The authorized capital stock of Transax consists of 100,000,000 shares of the common stock of Transax, no par value (the “*Transax Common Stock*”), of which 22,132,414 common shares of Transax (collectively, the “*Transax Shares*”) are outstanding and no shares are held in Transax’s treasury. Except as set forth above in this Section, there are outstanding: (i) no shares of capital stock or other voting securities of Transax; (ii) no securities of Transax convertible into or exchangeable for shares of capital stock or other voting securities of Transax; (iii) except for the presently issued and outstanding stock options to acquire up to 9,000,000 shares of Transax Common Stock (collectively, the “*Transax Options*”; which will be cancelled and exchanged for the Vega-Atlantic Options upon the Effective Time hereunder), and except for the presently issued and outstanding non-transferable share purchase warrants to acquire up to 8,200,000 shares of Transax Common Stock (collectively, the “*Transax Warrants*”; which will also be cancelled and exchanged for the Vega-Atlantic Warrants upon the Effective Time hereunder), no other options or other rights to acquire from Transax, and no obligation of Transax to issue or sell, any shares of capital stock or other voting securities of Transax or any securities of Transax convertible into or exchangeable for such capital stock or voting securities; and (iv) no equity equivalents, interests in the ownership or earnings or other similar rights of or with respect to Transax. For the purposes of this Agreement the Transax Shares, Transax Options and Transax Warrants shall collectively be referred to as the “*Transax Securities*”.

1.4 Conversion of Transax Securities. At the Effective Time, by virtue of the Merger and without any action on the part of Newco, Transax or the holders of any of the following securities:

- a. Each two Transax Shares of Transax Common Stock issued and outstanding immediately prior to the Effective Time, excluding any treasury shares held by Transax, shares held by Vega-Atlantic and Dissenting Shares (as defined in Section 1.7), if any, shall be converted into the right to receive one Vega-Atlantic Share (the “*Common Stock Exchange Ratio*”) of fully paid and non-assessable shares of Vega-Atlantic Common Stock and, where applicable, rounded up to the nearest whole number of Vega-Atlantic Shares of Vega-Atlantic Common Stock consequent thereon
- b. Each two Transax Warrants outstanding immediately prior to the Effective Time shall be converted into one Vega-Atlantic Warrant to purchase Vega-Atlantic Common Stock and, where applicable, rounded up to the nearest whole number of Vega-Atlantic Warrants to purchase shares of Vega-Atlantic Common Stock, and the per share exercise price for the shares of Vega-Atlantic Common Stock issuable upon the exercise of such Vega-Atlantic Warrant shall be the same as set forth in the Transax Warrant without any adjustment thereto by the Common Stock Exchange Ratio. The date of grant of a Vega-Atlantic Warrant issued in exchange for a Transax Warrant shall be deemed to be the date on which such Vega-Atlantic Warrant is granted. Vega-Atlantic Warrants issued in exchange for Transax Warrants pursuant hereto shall have the same schedule of vesting (or acceleration) as applies to such Transax Warrants.
- c. Each two Transax Options outstanding immediately prior to the Effective Time shall be converted into one Vega-Atlantic Option to purchase Vega-Atlantic Common Stock and, where applicable, rounded up to the nearest whole number of Vega-Atlantic Options to purchase shares of Vega-Atlantic Common Stock, and the per share exercise price for the shares of Vega-Atlantic Common Stock issuable upon the exercise of such Vega-Atlantic Option shall be the same as set forth in the Transax Option without any adjustment thereto by the Common Stock Exchange Ratio. The date of grant of a Vega-Atlantic Option issued in exchange for a Transax Option shall be deemed to be the date on which such Vega-Atlantic Option is granted. Vega-Atlantic Options issued in exchange for Transax Options pursuant hereto shall have the same schedule of vesting (or acceleration) as applies to such Transax Options.
- d. All Transax Securities shall no longer be outstanding and shall automatically be canceled and retired and shall cease to exist, and each certificate previously evidencing any such Transax Securities shall thereafter represent the right to receive the Merger Consideration (as defined in Section 1.5(b) below). The holders of certificates previously evidencing Transax Securities outstanding immediately prior to the Effective Time shall cease to have any rights with respect to such Transax Securities, except as otherwise provided herein or by law. Such certificates previously evidencing Transax Securities shall be exchanged for certificates evidencing Vega-Atlantic Shares, Vega-Atlantic Options or Vega-Atlantic Warrants (collectively, the “*Vega-Atlantic Securities*”), as appropriate, issued in consideration therefor in accordance with the allocation procedures of this Section and upon the surrender

of such certificates in accordance with the provisions of Section 1.5.

- e. All Transax Securities held in the treasury of Transax and all Transax Securities owned by Vega-Atlantic or any direct or indirect wholly-owned subsidiary of Vega-Atlantic or of Transax immediately prior to the Effective Time shall be canceled and extinguished without any conversion thereof and no payment shall be made with respect thereto.

1.5 Exchange of Certificates.

- a. As of the date hereof Newco has deposited, or caused to be deposited, with Global Securities Transfer Inc. (the “*Exchange Agent*”), for the benefit of the holders of Transax Securities, for exchange in accordance with this Article I through the Exchange Agent: (i) certificates evidencing such number of Vega-Atlantic Shares of Vega-Atlantic Common Stock equal to the Common Stock Exchange Ratio multiplied by the number of Transax Shares of Transax Common Stock; (ii) certificates representing such number of Vega-Atlantic Warrants equal to the Common Stock Exchange Ratio multiplied by the number of Transax Warrants that are equivalent in all other material respects to the outstanding Transax Warrants; and (iii) agreements representing Vega-Atlantic Options evidencing the right to purchase such number of shares of Vega-Atlantic Common Stock equal to the Common Stock Exchange Ratio multiplied by the number of shares of Transax Common Stock represented by the Transax Options that are equivalent in all other material respects to the outstanding Transax Options. The Exchange Agent shall, pursuant to irrevocable instructions, deliver the Vega-Atlantic Securities to the holders of the Transax Securities.
- b. As soon as reasonably practicable after the Effective Time, Transax will instruct the Exchange Agent to mail to each holder of record of Transax Securities (other than Dissenting Shares) (all Transax Share stock certificates and other documents evidencing Transax Warrants and Transax Options being, collectively, the “*Certificates*”): (i) a letter of transmittal (which shall specify that delivery shall be effected, and risk of loss and title to the Certificates shall pass, only upon proper delivery of the Certificates to the Exchange Agent and shall be in such form and have such other provisions as Transax may reasonably specify); and (ii) instructions for use in effecting the surrender of the Certificates in exchange for certificates evidencing Vega-Atlantic Securities. Upon surrender of a Certificate for cancellation to the Exchange Agent together with such letter of transmittal, duly executed, and such other customary documents as may be required pursuant to such instructions, the holder of such Certificate shall be entitled to receive in exchange therefor: (i) certificates evidencing that number of Vega-Atlantic Shares of Vega-Atlantic Common Stock which such holder has the right to receive in respect of the Transax Shares of Transax Common Stock multiplied by the Common Stock Exchange Ratio; (ii) Vega-Atlantic Warrants evidencing the right to purchase that number of shares of Vega-Atlantic Common Stock which such holder has the right to receive in respect of Transax Warrants multiplied by the Common Stock Exchange Ratio; and (iii) Vega-Atlantic Options evidencing the right to purchase that number of shares of Vega-Atlantic Common Stock which such holder has the right to receive in respect of Transax Options multiplied by the Common Stock Exchange Ratio; in each case in accordance with Section 1.4 (such Vega-Atlantic Shares, Vega-Atlantic Warrants and Vega-Atlantic Options being collectively, the “*Merger Consideration*”), and the Certificates so surrendered shall forthwith be canceled. In the event of a transfer of ownership of shares of Transax Shares, a Transax Warrant or a Transax Option, and which transfer is not registered in the transfer records of Transax, a certificate evidencing the proper number of Vega-Atlantic Shares of Vega-Atlantic Common Stock, a Vega-Atlantic Warrant or a Vega-Atlantic Option, as appropriate, may be issued in accordance with this Article I to a transferee if the Certificate evidencing such Transax Share, Transax Warrant or Transax Option is presented to the Exchange Agent accompanied by all documents required to evidence and effect such transfer and by evidence that any applicable stock transfer taxes have been paid. Until surrendered as contemplated in this Section 1.5, each Certificate shall be deemed at any time after the Effective Time to evidence only the right to receive, upon such surrender, the Merger Consideration.
- c. All Vega-Atlantic Shares, Vega-Atlantic Warrants and Vega-Atlantic Options issued upon conversion of Transax Shares, Transax Warrants and Transax Options in accordance with the terms hereof shall be deemed to have been issued or paid in full satisfaction of all rights pertaining to the previously issued and outstanding Transax Shares, Transax Warrants and Transax Options.

1.6 Stock transfer books. At the Effective Time the stock transfer books of Transax shall be closed and there shall be no further registration of transfers of shares of Transax Securities thereafter on the records of Transax. On or after the Effective Time any Certificates presented to the Exchange Agent for any reason shall be converted into the Merger Consideration.

1.7 Dissenting Shares. If required under the applicable corporate and securities laws of the State of Colorado and the federal laws of the United States applicable therein (collectively, the “Colorado Law”), notwithstanding any other provisions of this Merger Agreement to the contrary, Transax Securities that are outstanding immediately prior to the Effective Time and which are held by stockholders who shall have not voted in favor of the Merger or consented thereto in writing and who shall have demanded properly in writing payment for such Transax Securities in accordance with Colorado Law (collectively, the “Dissenting Shares”) shall not be converted into or represent the right to receive the Merger Consideration. Such stockholders shall be entitled to receive payment for the value of the Transax Securities held by them in accordance with such provisions of Colorado Law, except that all Dissenting Shares held by stockholders who shall have failed to perfect or who effectively shall have withdrawn or lost their rights to payment for such Transax Securities under such provisions of Colorado Law shall thereupon be deemed to have been converted into and to have become exchangeable, as of the Effective Time, for the right to receive Vega-Atlantic Securities, upon surrender, in the manner provided in Section 1.5, of the certificate or certificates that formerly evidenced such Transax Securities. The parties hereby acknowledge and agree that Vega-Atlantic’s and Transax’s obligation to consummate the Merger as contemplated by this Agreement is subject to the satisfaction or waiver on or prior to the Effective Time of the condition that holders of not more than nine point five percent (9.5%) of the Transax Securities shall have exercised their right of dissent as Dissenting Shares under Colorado Law, and Transax shall provide to Vega-Atlantic a certificate of Transax certifying on the Effective Time the number of Dissenting Shares and the number of convertible securities in respect of which the holders thereof have exercised dissent rights.

1.8 Adjustment. In the event of any stock split, combination, reclassification, recapitalization, exchange, stock dividend or other distribution permitted under this Agreement and payable in Vega-Atlantic Common Stock with respect to shares of Vega-Atlantic Common Stock (or if a record date with respect to any of the foregoing should occur) during the period between the date of the Merger Agreement and the Effective Time, then the Merger Consideration shall be appropriately adjusted to reflect such stock split, combination, reclassification, recapitalization, exchange, stock dividend or other distribution.

1.9 Resale restrictions and legending of Certificates. Transax and the Selling Shareholders hereby acknowledge and agree that Vega-Atlantic makes no representations as to any resale or other restriction affecting the Vega-Atlantic Securities and that it is presently contemplated that the Vega-Atlantic Securities will be issued and delivered by Vega-Atlantic through Newco under the Merger in reliance upon the registration and prospectus exemptions contained in certain sections of the Securities Act or “Regulation S” promulgated under the Securities Act which will impose a trading restriction in the United States on the Vega-Atlantic Securities for a period of at least 12 months from the closing hereof (the “Closing”). In addition, Transax and the Selling Shareholders hereby also acknowledge and agree that the within obligation of Vega-Atlantic and Newco to issue and deliver the Vega-Atlantic Securities pursuant to this Article and the Merger will be subject to Vega-Atlantic being satisfied that an exemption from applicable registration and prospectus requirements is available under the Securities Act and all applicable securities laws, in respect of each particular Transax shareholder, warrant holder and option holder and related Transax Securities and Vega-Atlantic Securities, and Vega-Atlantic and Newco shall be relieved of any obligation whatsoever to purchase any Transax Securities and to issue Vega-Atlantic Securities in respect of any such Transax Shareholder, warrant holder and option holder where Vega-Atlantic reasonably determines that a suitable exemption is not available to it.

Transax and the Selling Shareholders hereby also acknowledge and understand that neither the sale of the Vega-Atlantic Securities nor any of the Vega-Atlantic Securities themselves have been registered

under the Securities Act or any state securities laws, and, furthermore, that the Vega-Atlantic Securities must be held indefinitely unless subsequently registered under the Securities Act or an exemption from such registration is available. Transax and the Selling Shareholders also acknowledge and understand that the Certificates representing the Vega-Atlantic Securities will be stamped with the following legend (or substantially equivalent language) restricting transfer in the following manner:

“The transfer of the securities represented by this certificate is prohibited except in accordance with the provisions of Regulation S promulgated under the United States Securities Act of 1933, as amended (the “Securities Act”), pursuant to registration under the Act or pursuant to an available exemption from registration. In addition, hedging transactions involving such securities may not be conducted unless in compliance with the Securities Act.”.

or

“The securities represented by this certificate have not been registered under the United States Securities Act of 1933, as amended, or the laws of any state, and have been issued pursuant to an exemption from registration pertaining to such securities and pursuant to a representation by the security holder named hereon that said securities have been acquired for purposes of investment and not for purposes of distribution. These securities may not be offered, sold, transferred, pledged or hypothecated in the absence of registration, or the availability of an exemption from such registration. Furthermore, no offer, sale, transfer, pledge or hypothecation is to take place without the prior written approval of counsel to the company being affixed to this certificate. The stock transfer agent has been ordered to effectuate transfers only in accordance with the above instructions.”;

and Transax and the Selling Shareholders hereby consent to Vega-Atlantic making a notation on its records or giving instructions to the Exchange Agent in order to implement the restrictions on transfer set forth and described hereinabove.

Transax and the Selling Shareholders also acknowledge and understand that:

- a. the Shares are restricted securities within the meaning of “Rule 144” promulgated under the Securities Act;
- b. the exemption from registration under Rule 144 will not be available in any event for at least one year from the date of issuance of the Vega-Atlantic Securities, and even then will not be available unless: (i) a public trading market then exists for the Vega-Atlantic Common Stock; (ii) adequate information concerning Vega-Atlantic is then available to the public; and (iii) other terms and conditions of Rule 144 are complied with; and
- c. any sale of the Vega-Atlantic Securities may be made only in limited amounts in accordance with such terms and conditions.

Transax and the Selling Shareholders finally acknowledge and understand that, without in anyway limiting the acknowledgements and understandings as set forth hereinabove, they shall in no event make any disposition of all or any portion of the Vega-Atlantic Securities which are being acquired hereunder unless and until:

- a. there is then in effect a “Registration Statement” under the Securities Act covering such proposed disposition and such disposition is made in accordance with said Registration Statement; or

- b. (i) the Transax Shareholder, warrant holder or option holder, as the case may be, shall have notified Vega-Atlantic of the proposed disposition and shall have furnished Vega-Atlantic with a detailed statement of the circumstances surrounding the proposed disposition, (ii) the Transax Shareholder, warrant holder or option holder, as the case may be, shall have furnished Vega-Atlantic with an opinion of its own counsel to the effect that such disposition will not require registration of any such Vega-Atlantic Securities under the Securities Act and (iii) such opinion of its counsel shall have been concurred in by counsel for Vega-Atlantic and Vega-Atlantic shall have advised the Transax Shareholder, warrant holder or option holder, as the case may be, of such concurrence.

1.10 Interim secured Loan from the Vega-Atlantic to Transax. It is hereby acknowledged and agreed by the parties hereto that, in conjunction with and as a condition to the entering into of the Agreement In Principle and this Agreement by the parties hereto, Vega-Atlantic has heretofore agreed, in accordance with the specific terms and conditions of that certain form of proposed "Secured and Convertible Loan Agreement" (the "*Loan Agreement*") in this matter, to be entered into between Vega-Atlantic and Transax prior to or concurrently with the execution of this Agreement; a copy of the form of said proposed Loan Agreement being attached hereto as Exhibit E; to advance by way of a loan or loans to Transax (collectively, the "Loan") the aggregate principal sum of up to U.S. \$250,000.00 (the "Principal Sum") within five business days of the due and complete closing of a minimum of U.S. \$250,000.00 of the proposed Private Placement financing as set forth hereinbelow. In this regard, and in accordance with the terms and conditions of the proposed Loan Agreement, any such Principal Sum Loan amount will bear interest accruing thereon at the rate of ten percent (10%) per annum, compounded semi-annually and not in advance (the "Interest") prior to maturity, and any such Principal Sum and Interest will be secured, contemporaneously with the advancement of any funds under any such Loan, by way of a fixed and floating charge on all of the assets of Transax then ranking pari passu with all existing liabilities in and to Transax at that time (collectively, the "Security"). In this regard it is hereby also acknowledged and agreed by the parties hereto that, upon the completion of the within Merger, it is intended, subject to Vega-Atlantic's prior receipt of appropriate accounting and legal advice, that the Loan will simply be forgiven, or become an inter-company account as the situation may require.

In order to induce Vega-Atlantic to provide any such Loan under the Loan Agreement as contemplated hereinabove, Transax hereby covenants with Vega-Atlantic, with the intent that Vega-Atlantic will rely thereon in providing any such Loan and in concluding the transactions contemplated thereby, that:

- a. Transax will use any such Principal Sum monies which may be advanced by Vega-Atlantic by way of Loan for the sole purpose of advancing the ongoing development, marketing and maintenance of Transax's business interests; and
- b. any such Principal Sum will be advanced by Vega-Atlantic to Transax subject to the fulfillment and/or the continuing fulfillment of at least the following Security conditions to the sole and absolute satisfaction and discretion of Vega-Atlantic:
- i. the execution by Transax of formal Loan documentation in form and substance satisfactory to Vega-Atlantic and its counsel, acting reasonably; and
 - ii. the granting and delivery by Transax to Vega-Atlantic of such Security documentation (and including, without limitation, promissory notes and security instruments) as may be required by Vega-Atlantic and its counsel, acting reasonably, in order to evidence the Loan, together with and all other supporting documents required under any such Security documentation.

Subject to the prior application of the provisions provided for in section "3.5" of the proposed Loan Agreement and as set forth hereinbelow, it is hereby acknowledged and agreed by the parties hereto that, in accordance with the section "3.4" of the proposed Loan Agreement, Transax will covenant to repay to Vega-Atlantic, as required under the terms of the proposed Loan Agreement, all Principal

Sum monies which are advanced by Vega-Atlantic to Transax under the proposed Loan Agreement, together with all outstanding Interest accrued thereon, at or before 5:00 p.m. (Blaine, Washington, time) on the day which is 90 calendar days from the earlier of one year from the execution date of the Loan Agreement and the date upon which Newco's proposed Merger with Transax terminates for any reason whatsoever (herein and therein the "*Final Principal Sum Payment Date*"); failing which Vega-Atlantic may immediately realize upon any of the Security which has been provided by Transax to Vega-Atlantic in accordance with the terms of the proposed Loan Agreement.

It is hereby acknowledged and agreed by the Parties hereto that, in accordance with section "3.5" of the proposed Loan Agreement, Transax may prepay and redeem any portion of the Principal Sum portion of the Loan in whole or in part at any time prior to the Final Principal Sum Payment Date (herein and therein the "Right of Redemption") and in the manner as set forth immediately hereinbelow by providing Vega-Atlantic with not less than 30 calendar days' prior written notice (herein and therein the "*Redemption Notice*") of its Right of Redemption intention to redeem and repay all or any portion of the Principal Sum and any Interest accrued thereon which would be due and owing by Transax to Vega-Atlantic at the end of such 30-day period (herein and therein, collectively, the "*Redemption Amount*") (such day at the end of such 30-day period being the "*Redemption Date*" and, for clarity, such Redemption Date would be the date to which such Principal Sum and Interest would be calculated and due and payable to Vega-Atlantic at the close of business, in Blaine, Washington, on such Redemption Date). In order to provide such Redemption Notice it is hereby also acknowledged and agreed that Transax will be required, at the date of its delivery to Vega-Atlantic of the Redemption Notice, to provide to Vega-Atlantic's solicitors, or to such other mutually agreeable holder (herein and therein the "*Escrow Holder*"), a certified cheque or bank draft representing the entire Redemption Amount and made payable to Vega-Atlantic in funds of the United States, or funds by way of wire transfer to such designation as may be directed by Vega-Atlantic in its sole and absolute discretion, in the amount of any such Redemption Amount. Thereupon, and should the proposed Redemption Amount in fact represent all of the Principal Sum and any Interest accrued thereon which would be due and owing by Transax to Vega-Atlantic under the proposed Loan Agreement at the Redemption Date, then Vega-Atlantic will be required to provide to the Escrow Holder, and as soon as reasonably possible after its receipt of the Redemption Notice, all such registerable discharges as may be necessary to relieve Transax of any obligation to Vega-Atlantic under each of the proposed Loan Agreement and each and every other Security instrument already provided by Transax to Vega-Atlantic under the terms and conditions of the proposed Loan Agreement (herein and therein, collectively, the "*Discharges*"). In this regard, and on the second business day subsequent to the Redemption Date, the Escrow Holder, if applicable, shall deliver to Vega-Atlantic the Redemption Amount and, only if also applicable, to Transax the Discharges, and, unless otherwise directed in writing by each of Vega-Atlantic and Transax, to Vega-Atlantic's and Transax's respective addresses for notice and delivery as set forth on the front page of the proposed Loan Agreement. Notwithstanding Transax's prior exercise of its Right of Redemption and/or Vega-Atlantic's prior exercise of its Right of Election as provided for in the proposed Loan Agreement and as set forth herein, and notwithstanding the prior repayment to Vega-Atlantic by Transax of all or any portion of the entire Redemption Amount and/or the prior conversion by Vega-Atlantic of all or any portion of the entire Outstanding Indebtedness (as hereinafter defined) for any Equity Interest (as hereinafter defined) as also provided for in the proposed Loan Agreement and as set forth herein, no such action or actions will, in any manner, and unless this Agreement is otherwise terminated for any reason whatsoever prior to the Closing thereof, affect the within obligation of each of Vega-Atlantic and Transax to complete the proposed Merger as contemplated by the terms and conditions of this Agreement.

Subject to Transax's prior Right of Redemption as set forth hereinabove and in the proposed Loan Agreement, at any time after the Final Principal Sum Payment Date as set forth hereinabove, should

either this Agreement terminate for any reason whatsoever prior to the Closing thereof or should the Final Principal Sum Payment Date be otherwise determined at any time subsequent to the advance of any Loan under the proposed Loan Agreement, then Vega-Atlantic will have, in addition to all of the rights and Security specifically provided for in the proposed Loan Agreement, the sole and exclusive right and option, in its sole and absolute discretion, to elect (the "*Right of Election*") to convert the entire Principal Sum, Interest or any other sum outstanding under any Loan from Transax to Vega-Atlantic as contemplated by the proposed Loan Agreement (herein and therein, collectively, the "Outstanding Indebtedness") to a participating and voting interest in and to Transax which is then equivalent to that percentage which is equivalent to five percent (5%) multiplied by the fraction which has, as its numerator, the Outstanding Indebtedness, and which has, as its denominator, U.S. \$250,000.00, of the resulting issued and outstanding participating and voting common shares of Transax at that time (the "*Equity Interest*"). In this regard, and should Vega-Atlantic exercise its Right of Election to convert the entire Outstanding Indebtedness outstanding into the Equity Interest in and to Transax as set forth immediately hereinabove then it is also hereby acknowledged and agreed that Transax will, at all times, maintain such Equity Interest percentage ownership position of Vega-Atlantic in and to Transax with no dilution whatsoever unless otherwise consented to in writing by Vega-Atlantic. In this regard it is hereby acknowledged and agreed by the parties hereto that Vega-Atlantic's Right of Election may only be exercised by Vega-Atlantic's surrender of the proposed Loan Agreement and the delivery to the Escrow Holder of a duly executed "Election Form" (herein and therein the "*Election Form*"); in substantially the form which is attached as Schedule "D" to the proposed Loan Agreement; together with such registerable Discharges as may be necessary to relieve Transax of any obligation to Vega-Atlantic under the proposed Loan Agreement and each and every other Security instrument already provided by Transax to Vega-Atlantic under the terms and conditions of the proposed Loan Agreement. In conjunction with the Escrow Holder's receipt of the Election Form and Discharges from Vega-Atlantic it is hereby also acknowledged and agreed that Transax will then be required to provide to the Escrow Holder, and as soon as reasonably possible thereafter, a certificate or certificates representing the Equity Interest duly registered to the prior order and direction of Vega-Atlantic together with such other documentation or assurances as may be necessary, in the sole and absolute discretion of Vega-Atlantic, acting reasonably, in order to evidence Transax's compliance with the terms and conditions of the proposed Loan Agreement and including, without limitation, the issuance of such Equity Interest as provided for hereunder (herein and therein, collectively, the "*Equity Interest Documentation*"). In this regard, and on the second business day subsequent to the Escrow Holder's receipt of the Equity Interest Documentation from Transax, the Escrow Holder shall deliver to Vega-Atlantic the Equity Interest Documentation and to Transax the Election Form and the Discharges, and, unless otherwise directed in writing by each of Vega-Atlantic and Transax, to Vega-Atlantic's and Transax's respective addresses for notice and delivery as set forth on the front page of the proposed Loan Agreement. Notwithstanding Transax's prior exercise of its Right of Redemption and/or Vega-Atlantic's prior exercise of its Right of Election as provided for in the proposed Loan Agreement and as set forth herein, and notwithstanding the prior repayment to Vega-Atlantic by Transax of all or any portion of the entire Redemption Amount and/or the prior conversion by Vega-Atlantic of all or any portion of the entire Outstanding Indebtedness for any Equity Interest as also provided for in the proposed Loan Agreement and as set forth herein, no such action or actions will, in any manner, and unless this Agreement is otherwise terminated for any reason whatsoever prior to the Closing thereof, affect the within obligation of each of Vega-Atlantic and Transax to complete the proposed Merger as contemplated by the terms and conditions of this Agreement.

1.11 Costs. It is hereby further acknowledged and agreed by the parties hereto that while any portion of any Outstanding Indebtedness is outstanding Transax will be, and up to and including either the Closing or the termination of either this Agreement will be, directly responsible for and pay all fees and expenses and including, without limitation, all legal, accounting, sponsorship, regulatory and

filing fees and expenses, and otherwise, in connection with the preparation and execution of this Agreement, all filings with any regulatory authority as may have jurisdiction over any of the parties hereto in conjunction with the completion of this Agreement and all documentation necessarily incidental thereto; and which fees and expenses shall be added to and form part of the Outstanding Indebtedness hereunder.

1.12 Agreement to sell and to vote by the Selling Shareholders. It is hereby further acknowledged and agreed by the parties hereto that, should the final terms and conditions of the Merger not be approved by the shareholders of Transax at any duly constituted meeting respecting the same (and, pursuant to which, the Selling Shareholders hereby irrevocably agree to vote in favour of the Merger at any such duly constituted meeting), or should the proposed Merger not be consummated by the parties hereto in the manner which is contemplated herein for any reason whatsoever and including, without limitation, the implementation of any Dissenting Share rights which are not acceptable to Vega-Atlantic or Transax resulting from the same, and notwithstanding the prior failure of the proposed Merger, each of the undersigned Selling Shareholders of Transax, together with each of their respective and associated and affiliated shareholders of Transax as the case may be, have hereby irrevocably agreed to assign, sell and transfer all of their respective right, entitlement and interest in and to their respective Transax Shares to Vega-Atlantic on a pro rata basis (collectively, the “*Private Purchase and Sale*”); the number of such Transax Shares to be sold to Vega-Atlantic by the Selling Shareholders being set forth in the execution section hereof. Any such Private Purchase and Sale by the Selling Shareholders to Vega-Atlantic will structured and completed in accordance with the general pro rata Merger Consideration and remaining terms and conditions contained in this Agreement.

1.13 Standstill provisions. In consideration of the parties’ within agreement for the proposed Merger and the entering into the terms and conditions of this Agreement, each of the parties hereby undertake for themselves, and for each of their respective agents and advisors, that they will not until the earlier of the Closing or the termination of this Agreement approach or consider any other potential purchasers, or make, invite, entertain or accept any offer or proposal for the proposed sale of any interest in and to any of the Transax Securities, any securities of Vega-Atlantic or Newco or the assets or the respective business interests of Transax, Newco or Vega-Atlantic, as the case may, or, for that matter, disclose any of the terms of this Agreement, without the parties’ prior written consent. In this regard each of the parties hereby acknowledges that the foregoing restrictions are important to the respective businesses of the parties and that a breach by either of the parties of any of the covenants herein contained would result in irreparable harm and significant damage to each affected party that would not be adequately compensated for by monetary award. Accordingly, the parties hereby agree that, in the event of any such breach, in addition to being entitled as a matter of right to apply to a court of competent equitable jurisdiction for relief by way of restraining order, injunction, decree or otherwise as may be appropriate to ensure compliance with the provisions hereof, any such party will also be liable to the other parties, as liquidated damages, for an amount equal to the amount received and earned by such party as a result of and with respect to any such breach. The parties hereby also acknowledge and agree that if any of the aforesaid restrictions, activities, obligations or periods are considered by a court of competent jurisdiction as being unreasonable, they agree that said court shall have authority to limit such restrictions, activities or periods as the court deems proper in the circumstances.

further that, in the case of payments by Transax such \$50,000.00 limitation on liability shall take into account and include all expenses and fees which Transax may be obligated to pay to Vega-Atlantic pursuant to Section 5.9 hereof, including fees relating to the Vega-Atlantic Fairness Opinion, if required, up to a maximum of \$25,000.00. All amounts shall be paid in immediately available funds. The parties agree that it is impossible to determine with any reasonable accuracy the amount of prospective damages resulting from a party's termination of this Agreement and agree that the damages set forth above are reasonable, and not a penalty, based upon the facts and circumstances of the parties at the time of entering into this Agreement and with due regard to future expectations.

8.3 Waiver. Each of Transax, on the one hand, and Vega-Atlantic and Newco, on the other, may: (i) waive any inaccuracies in the representations and warranties of the other contained herein or in any document, certificate or writing delivered pursuant hereto; or (ii) waive compliance by the other with any of the other's agreements or fulfillment of any conditions to its own obligations contained herein. Any agreement on the part of a party hereto to any such waiver shall be valid only if set forth in an instrument in writing signed by or on behalf of such party. No failure or delay by a party hereto in exercising any right, power or privilege hereunder shall operate as a waiver thereof nor shall any single or partial exercise thereof preclude any other or further exercise thereof or the exercise of any other right, power or privilege.

8.4 Remedies exclusive. The rights and remedies herein provided shall be in addition to any other rights or remedies provided by law. The rights and remedies of any party based upon, arising out of or otherwise in respect of any inaccuracy in or breach of any representation, warranty, covenant or agreement contained in this Agreement shall in no way be limited by the fact that the act, omission, occurrence or other state of facts upon which any claim of any such inaccuracy or breach is based may also be the subject matter of any other representation, warranty, covenant or agreement contained in this Agreement (or in any other agreement between the parties) as to which there is no inaccuracy or breach.

Article IX INDEMNIFICATION FOLLOWING EFFECTIVE TIME

9.1 Survival.

- a. The representations and warranties of the parties hereto contained in this Agreement or in any certificate, instrument or document delivered pursuant hereto shall survive the Effective Time, regardless of any investigation made by or on behalf of any party, until the first anniversary of the Effective Time (such anniversary, the "Survival Date"). From and after the Survival Date no party hereto or any shareholder, director, officer, employee or affiliate of such party shall be under any liability whatsoever pursuant to this Article IX with respect to any such representation or warranty, except with respect to matters as to which notice has been received in accordance with Section 9.1(b).
- b. No party hereto shall have any indemnification obligation pursuant to this Article IX in respect of any representation or warranty unless before the Survival Date it shall have received from the party seeking indemnification written notice of the existence of the claim for or in respect of which indemnification in respect of such representation or warranty is sought. Such notice shall set forth with reasonable specificity: (i) the basis under this Agreement, and the facts that otherwise form the basis, of such claim; (ii) an estimate of the amount of such claim (which estimate shall not be conclusive of the final amount of such claim) and an explanation of the calculation of such estimate, including a statement of any significant assumptions employed therein; and (iii) the date on and manner in which the party delivering such notice became aware of the existence of such claim; provided, however, that any notice which the party seeking indemnification delivers to the indemnifying party prior to the Survival Date which notifies the indemnifying party of the existence of a claim and, notwithstanding the failure of such notice to meet the requirements set forth in clauses (i), (ii) and (iii) above, does not materially prejudice the indemnifying party's ability to defend such claim, shall be deemed to have met the requirement of

delivery of notice prior to the Survival Date for the purpose of preserving the indemnified party's right to indemnification pursuant to this Article IX.

- c. The provisions of this Section shall have no effect upon any other obligation of the parties hereto under this Agreement whether to be performed before, at or after the Effective Time.

9.2 Indemnification by Vega-Atlantic and Newco. Subject to the terms and conditions of this Article IX, Vega-Atlantic shall indemnify, defend and hold harmless Transax from and against any and all claims, actions, causes of action, demands, assessments, losses, damages, liabilities, judgments, settlements, penalties, costs and expenses (including reasonable attorneys' fees and expenses) of any nature whatsoever (collectively, the "*Damages*"), asserted against, resulting to, imposed upon or incurred by Transax, directly or indirectly, following the Effective Time, by reason of or resulting from any breach by Vega-Atlantic or Newco of any of its representations and warranties contained in this Agreement or in any certificate, instrument or Ancillary Document delivered pursuant hereto (collectively, the "*Transax Claims*"). Neither Vega-Atlantic nor Newco shall be entitled to any contribution or reimbursement from Transax with respect to payments made by Vega-Atlantic, Newco or both under this Article IX. The indemnification obligations of Vega-Atlantic and Newco pursuant to this Section shall only apply to the extent that the aggregate Damages incurred in connection with the Transax Claims exceed \$100,000.00.

9.3 Indemnification by Transax. Subject to the terms and conditions of this Article IX, Transax shall indemnify, defend and hold harmless Vega-Atlantic and Newco from and against any and all claims, actions, causes of action, demands, assessments, losses, damages, liabilities, judgments, settlements, penalties, costs and expenses (including reasonable attorneys' fees and expenses) of any nature whatsoever (collectively, again, the "*Damages*"), asserted against, resulting to, imposed upon or incurred by Vega-Atlantic or Newco, directly or indirectly, following the Effective Time, by reason of or resulting from any breach by Transax of any of its representations and warranties contained in this Agreement or in any certificate, instrument or Ancillary Document delivered pursuant hereto (collectively, the "*Vega-Atlantic Claims*"). Transax shall not be entitled to any contribution or reimbursement from Vega-Atlantic or Newco with respect to payments made by Transax under this Article IX. The indemnification obligations of Transax pursuant to this Section shall only apply to the extent that the aggregate Damages incurred in connection with the Vega-Atlantic Claims exceed \$100,000.00.

9.4 Procedure for indemnification. Promptly after receipt by an indemnified party under Section 9.2 or 9.3 of notice of the commencement of any action, such indemnified party shall, if a claim in respect thereof is to be made against an indemnifying party under such Section, give written notice to the indemnifying party of the commencement thereof, but the failure so to notify the indemnifying party shall not relieve it of any liability that it may have to any indemnified party except to the extent the indemnifying party demonstrates that the defense of such action is prejudiced thereby. In case any such action shall be brought against an indemnified party and it shall give written notice to the indemnifying party of the commencement thereof, the indemnifying party shall be entitled to participate therein and, to the extent that it may wish, to assume the defense thereof with counsel reasonably satisfactory to such indemnified party. If the indemnifying party elects to assume the defense of such action the indemnified party shall have the right to employ separate counsel at its own expense and to participate in the defense thereof. If the indemnifying party elects not to assume (or fails to assume) the defense of such action the indemnified party shall be entitled to assume the defense of such action with counsel of its own choice, at the expense of the indemnifying party. If the action is asserted against both the indemnifying party and the indemnified party and there is a conflict of interests which renders it inappropriate for the same counsel to represent both the indemnifying party and the indemnified party, the indemnifying party shall be responsible for paying for separate counsel for the indemnified party; provided, however, that if there is more than one indemnified party,

the indemnifying party shall not be responsible for paying for more than one separate firm of attorneys to represent the indemnified parties, regardless of the number of indemnified parties. If the indemnifying party elects to assume the defense of such action: (i) no compromise or settlement thereof may be effected by the indemnifying party without the indemnified party's written consent (which shall not be unreasonably withheld) unless the sole relief provided is monetary damages that are paid in full by the indemnifying party; and (ii) the indemnifying party shall have no liability with respect to any compromise or settlement thereof effected without its written consent (which shall not be unreasonably withheld).

The words “this Agreement”, “herein”, “hereof”, “hereby”, “hereunder” and words of similar import refer to this Agreement as a whole and not to any particular subdivision unless expressly so limited. Whenever the words “include”, “includes” and “including” are used in this Agreement, such words shall be deemed to be followed by the words “without limitation”. The purposes of this Plan are to (i) attract and retain the best available personnel for positions of responsibility within the Company (ii) provide incentives to employees, officers, and management of the Company, (iii) provide Directors, Consultants and Advisors of the Company with an opportunity to acquire a proprietary interest in the Company to encourage their continued provision of services to the Company, and to provide such persons with incentives and rewards for superior performance more directly linked to the profitability of the Company's business and increases in shareholder value, and (iv) generally to promote the success of the Company's business and the interests of the Company and all of its stockholders, through the grant of options to purchase shares of the Company's Common Stock.

Incentive benefits granted hereunder may be either Incentive Stock Options, Non-qualified Stock Options, stock awards, Restricted Shares or cash awards. The types of options or other incentives granted shall be determined by the board or the Compensation Committee and reflected in the terms of written agreements.

SECTION 3 PLAN ADMINISTRATION

3.1 Stock Option Committee. The Stock Option Committee will administer the Plan. In accordance with the provisions of the Plan, the Stock Option Committee will, in accordance with policies ordered by the Board but in the absence of board direction in its sole discretion, select the Eligible Participants to whom Options will be granted, the form of each Option, the amount of each Option, and any other terms and conditions of each Option as the Stock Option Committee may deem necessary and consistent with the terms of the Plan. The Stock Option Committee will determine the form or forms of the agreements with Option Holders. The agreements will evidence the particular provisions, terms, conditions, rights and duties of the Company and the Option Holders with respect to Options granted pursuant to the Plan, which provisions need not be identical except as may be provided herein. The Stock Option Committee may from time to time adopt such rules and regulations for carrying out the purposes of the Plan as it may deem proper and in the best interests of the Company. The Stock Option Committee may correct any defect, supply any omission or reconcile any inconsistency in the Plan or in any agreement entered into hereunder in the manner and to the extent it may deem expedient and it will be the sole and final judge of such expediency. No member of the Stock Option Committee will be liable for any action or determination made in good faith, and all members of the Committee will, in addition to their rights as directors, be fully protected by the Company with respect to any such action, determination or interpretation. The determinations, interpretations and other actions of the Stock Option Committee pursuant to the provisions of the Plan will be binding and conclusive for all purposes and on all persons.

SECTION 4 STOCK SUBJECT TO THE PLAN AND EXCEPTIONS

4.1 Plan limit. A maximum of 4,500,000 Shares (“*Plan Limit*”) are authorized for issuance under the Plan in accordance with the provisions of the Plan. Shares that are issued upon the exercise of Options will be deducted from the Plan Limit and such Plan Limit shall not be increased without approval of the board or, if shareholders of the Company have so required, without approval of the shareholders of

the Company. While any Options are outstanding, the Company will retain as authorized and unissued Stock at least the number of Shares from time to time required under the provisions of the Plan or otherwise assure itself of its ability to perform its obligations hereunder.

4.2 Unused and Forfeited Stock. Any Shares that are subject to an Option under this Plan that are not used because the terms and conditions of the Option are not met or any Shares that are used for full or partial payment of the purchase price of Shares with respect to which an Option is exercised or any Shares retained by the Company for any purpose of this Plan automatically will be returned to the Plan Limit and become available for again for use under the Plan.

4.3 Adjustments for Stock Split, Stock Dividend, Etc. If the Company at any time increases or decreases the number of its outstanding Shares of Stock, or changes in any way the rights and privileges of such Shares by means of the Payment of a Stock dividend or any other distribution upon such Shares payable in Stock, or through a stock split, subdivision, consolidation, combination, reclassification or recapitalization involving the Stock, then, in relation to the Stock that is affected by the above events, the provisions of this Section 4.3 will apply. In such event, the numbers, rights and privileges of the following will be increased, decreased or changed in like manner as if such shares had been issued and outstanding, fully paid and nonassessable at the time of such event:

- i. adjustment to the Shares of Stock as to which Options may be granted under the Plan; and
- ii. adjustment to the exercise price of each outstanding Option granted hereunder.

4.4 General Adjustment Rules. If any adjustment or substitution provided for in this Section 4 will result in the creation of a fractional Share under any Option, the number of Shares subject to the Option will be rounded to the next higher Share.

4.5 Determination by Stock Option Committee, Etc. Adjustments under this Section 4 will be made by the Stock Option Committee, whose determinations with regard thereto will be final and binding upon all parties.

4.6 Options Exceptional to Plan. With the concurrence of the board, the Stock Option Committee may grant Options outside the Plan or within the Plan but in excess of the Plan Limit, such that the available Plan Limit is not diminished, for exceptional circumstances or to acquire or retain personnel or achieve important goals or strategic targets considered important to the Company but which cannot reasonably be fit into the Plan Limit or the Plan due to insufficiency of available Plan Options, legal impediments whereby the recipient cannot or is best not included in the Plan, or other purposes or reasons considered appropriate to the board.

SECTION 5 REORGANIZATION OR LIQUIDATION

5.1 Reorganization and Options. In the event that the Company is merged or consolidated with another corporation (other than a merger or consolidation in which the Company is the continuing corporation and that does not result in any reclassification or change of outstanding Shares), or if all or

substantially all of the assets or control of the outstanding voting stock of the Company is acquired by any other corporation, business entity or person (other than by a sale or conveyance in which the Company continues as a holding company of an entity or entities that conduct the business of businesses formerly conducted by the Company), or in case of a reorganization (other than a reorganization under the United States Bankruptcy Code) or liquidation of the Company, the Stock Option Committee will have the power and discretion to prescribe the terms and conditions for the exercise or modification of any outstanding Options granted hereunder. By way of illustration, and not by way of limitation, the Stock Option Committee may provide for the complete or partial acceleration of the dates of exercise of the Options, or may provide that such Options will be exchanged or converted into options to acquire securities of the surviving or acquiring cooperation, or may provide for a payment or distribution in respect of outstanding Options (or the portion thereof that currently is exercisable) in cancellation thereof. The Stock Option Committee may provide that Options must be exercised in connection with the closing of such transaction and that if not so exercised such Options will expire. Any such determinations by the Stock Option Committee may be made generally with respect to all Option Holders, or may be made on a case-by-case bases with respect to particular Option Holders. The provisions of this Section 5 will not apply to any transaction undertaken for the purpose of reincorporating the Company under the laws of another jurisdiction, if such transaction does not materially affect the beneficial ownership of the Company's capital stock. Any determination by the Stock Option Committee hereunder shall not amend the terms of any Option without the consent of the Option Holder unless, in the opinion of the Committee acting reasonably, such amendment is necessary to permit the alterations to the Company to be effected and such is in the interest of shareholders generally.

SECTION 6 STOCK OPTIONS

6.1 Grant of Options. An Eligible Participant may be granted one or more Options. Options granted under the Plan will be Non-Statutory Options.

6.2 Option Agreements. Each Option granted under the Plan will be evidenced by a written stock option agreement that will be entered into by the Company and the Eligible Participant to whom the Option is granted (the "Option Holder"), and will be deemed to contain the following terms and conditions, unless other terms and conditions inconsistent therewith have been entered into the Option agreement. In the event of inconsistency between the provisions of the Plan and any Option agreement entered into, the provisions of the Option agreement will be considered to have been determined to be exceptional from the below and such Option Agreement shall govern where not inconsistent with law. However, the provisions of the Plan will govern where the agreement omits to provide for a matter governed by the Plan and the agreement will not be incomplete nor unenforceable if it fails to provide for a matter provided by the terms of this Plan as such shall be incorporated by reference:

(a) Number of Shares. Each Stock option agreement will state that it covers a specified number of Shares, as determined by the Stock Option Committee and the agreement. If the agreement fails to state the number then it shall be the number set forth in the minutes of the Stock Option Committee.

(b) Price. The price at which each Share covered by an Option may be purchased will be determined by the Stock Option Committee and set forth in the Stock Option agreement. Where the price shall be omitted the price shall be the Fair Market Value of the Stock on the date set forth at the beginning of the Option agreement.

(c) Vesting Period. Each Stock Option will state the time and the amount of the Shares of the Option which vest, and are exercisable thereafter, at specified times during the Option Period. Unless otherwise provided in the Option agreement, Options will vest and be exercisable for types of Option Holders as follows:

- i. *Directors and senior officers to Vice-President* - 100% of the amount of the Shares under Option upon granting.
- ii. *Employees Generally* - 50% at the end of the later of any probation period pursuant to which the Employee is subject to or date of engagement and 50% twelve months thereafter.
- iii. *Other Option Holders* - 50% at the end of the first 30 days of engagement, 50% upon completion of the term (if term less than twelve months) or 50% twelve months after commencement of the contract.

(d) Duration of Options. Each Stock option agreement will state the period of time within which the Option may be exercised by the Option Holder (the "Option Period"). The Option Period shall expire not more than five years from the date an Option is granted. Unless otherwise stated, director and senior officer Options shall be the lesser of five years or the term of their office plus 90 days, Employee Options the lesser of five years or the term of their employment plus 30 days, and other Option Holders the lesser of five years or the term of the engagement agreement plus 30 days.

(e) Termination of Employment, Death, Disability Etc. Except as otherwise determined by the Stock Option Committee, each Stock Option agreement will provide as follows with respect to the exercise of the Option upon termination of the employment or the death of the Option Holder:

(i) Termination. If the Option Holder's employment or office with the Company is terminated within the Option Period for cause, as determined by the Company in its sole discretion, or if the Option Holder resigns without appropriate or agreed notice and agreed termination terms, the Option will be void for all purposes immediately upon notice of termination or resignation, as the case may be, unless otherwise agreed solely at the discretion of the Company. Unless specified in an engagement agreement, "cause" means a material violation, as determined by the Company, of the Company's established policies and procedures and the terms of engagement and a failure to rectify within 15 days of notice. If the Option Holder is terminated for another reason, not provided for below or in the engagement agreement or the Option agreement, then the Option shall be exercisable, as to the vested portion only on the date of termination, for a period of 30 days after termination, except as otherwise permitted by the sole discretion of the Stock Option Committee but not to exceed the Option Period. The effect of this Section will be limited to determining the consequences of a termination and nothing in this Section will restrict or otherwise interfere with the Company's discretion with respect to the termination of any Employee.

(ii) Death or Disability. If the Option Holder's employment with the Company is terminated within the Option Period because of the Option Holder's death or disability

the Option will remain exercisable, to the extent that it was vested and exercisable on the date of the Option Holder's death or disability, for a period of six months after such date; provided, however, that in no event may the Option be exercised after the expiration of the Option Period.

(iii) Non-Employees or non-Office Holders. For all purposes under this Section, an Eligible Participant who is not an Employee or office holder of the Company will be considered to have a termination at the conclusion of the relevant contract or upon notice by the Company of termination for default or breach of agreement. If the contract is terminated for breach or default then the Option shall terminate immediately. Otherwise the Option shall terminate in accordance with its terms or section 6.2(d) above.

(f) Transferability of Option. Each stock option agreement will provide that the Option and exercise rights granted therein are not transferable or subject to assignment or lien for security purposes by the Option Holder except to the Option Holder's legal representative, his estate, a family corporation or personal holding corporation, a bona fide lender or in such other circumstance as the Stock Option Committee may approve in its sole discretion, which may be exercised contrary without reason. Each assignment of an interest in an Option must be approved before such will be enforceable.

(g) Exercise, Payments, Etc. Unless otherwise provided by the Stock Option agreement the method for exercising the Option granted will be by delivery to the office of the Company of written notice specifying the particular Option (or portion thereof) that is being exercised and the number of Shares with respect to which such Option is exercised, together with payment of the Option Price. The exercise of the Option will be deemed effective upon actual receipt of such notice and payment to the Company of the Option Price in a form satisfactory to the Company, acting reasonably. The purchase of such Stock will take place at the principal offices of the Company upon delivery of such notice. A properly executed certificate or certificates representing the Stock will be issued by the Company and delivered to the Option Holder with reasonable dispatch. Unless restricted by the Option agreement, the exercise price shall be paid by any of the following methods or any combination of the following methods:

(i) in cash;

(ii) by cashier's check, certified cheque, or other acceptable banker's note payable to the order of the Company;

(iii) by net exercise notice whereby the Option Holder will authorize the return to the Plan pool, and deduction from the Option Holder's Stock Option, of sufficient Option Shares whose net value (Fair Value less Option exercise price) is sufficient to pay the Option Price of the Shares exercised. The Fair Value of the Shares of the Option to be returned to the Plan pool as payment will be determined by the closing price of the Company's Shares on the date notice is delivered;

(iv) by delivery to the Company of a properly executed notice of exercise together with irrevocable instructions (referred to in the industry as 'delivery against payment') to a broker to deliver to the Company promptly the amount of the proceeds of the sale of all or a portion of the Stock or of a loan from the broker to the Option Holder necessary to pay the exercise price; or

(v) such other method as the Option Holder and the Stock Option Committee may determine as adequate including delivery of acceptable securities (including securities of the Company), set-off for wages or invoices due, property, or other adequate value.

(h) Date of Grant. An Option will be considered as having been granted on the date specified in the grant resolution of the Stock Option Committee.

6.3 Stockholder Privileges. Prior to the exercise of the Option and the transfer of Shares to the Option Holder, an Option Holder will have no rights as a stockholder with respect to any Shares subject to any Option granted to such person under this Plan and, until the Option Holder becomes the holder of the record of such Stock, no adjustments, other than those described in Section 4, will be made for dividends or other distributions or other rights to which there is a record date preceding the date such Option Holder becomes the holder of record of such Stock.

SECTION 7 RIGHTS OF EMPLOYEES AND OPTION HOLDERS

7.1 Employment. Nothing contained in the Plan or in any Option will confer upon any Eligible Participant any right with respect to the continuation of employment by the Company, or interfere in any way with the right of the Company, subject to the terms of any separate employment agreement to the contrary, at any time to terminate such employment or to increase or decrease the compensation of such Eligible Participant from the rate in existence at the time of the grant of an Option.

SECTION 8 GENERAL RESTRICTIONS

8.1 Investment representations. The Company may require any person to whom an Option is granted, as a condition of exercising such Option or receiving Stock under the Option, to give written assurances, in substance and form satisfactory to the Company and its counsel, to the effect that such person is acquiring the Stock subject to the Option for his own account for investment and not with any present intention of selling and to such other effects as the Company deems necessary or appropriate in order to comply with federal and applicable state and provincial securities laws.

Legends evidencing such restrictions may be placed on the certificates evidencing the Stock.

8.2 Compliance with Securities Laws. Each Option will be subject to the requirement that if at any time counsel to the Company determines that the listing, registration or qualification of the Shares subject to such Option upon any securities exchange or under any state, provincial or federal law, or the consent or approval of any governmental or regulatory body, is necessary as a condition of, or in connection with, the issuance or purchase of Shares thereunder, such Option may not be exercised in whole or in part unless such listing, registration, qualification, consent or approval will have been effected or obtained on conditions acceptable to the Stock Option Committee. Nothing herein will be deemed to require the Company to apply for or to obtain such listing, registration or qualification. However, where available to the circumstances of an Option Holder the Company will include the Option with any other filings that the Company elects, at its sole discretion, to file under S-8 or any other filings with the SEC but the Company shall not be obliged to make an individual filing for a particular Option, unless such shall have been required pursuant to the specific Option agreement.

SECTION 9 OTHER EMPLOYEE BENEFITS

9.1 Benefits and Taxes. The amount of any compensation deemed to be received by an Option Holder as a result of the exercise of an Option will not constitute “earnings” with respect to which any other employee benefits of such Option Holder are determined, including, without limitation, benefits under any pension, profit sharing, life insurance or salary continuation plan. Any taxable consequences of any Option are entirely the responsibility of the Option Holder and no contribution shall be required of the Company and, further, if the Company should suffer liability for unpaid taxes of an Option Holder then the full amount of such shall be a debt of the Option Holder to the Company payable immediately and for which the Company may seek judgment and, before judgment or process, may set-off against any amounts due to the Option Holder or may recover, again before judgment or process, by exercise of any Options of the Option Holder on the Option Holder’s behalf, at the discretion of the Stock Option Committee.

SECTION 10 PLAN AMENDMENT, MODIFICATION AND TERMINATION

10.1 Amendment. The Board may at any time terminate and, from time to time, may amend or modify the Plan provided, however, that no amendment or modification may become effective without approval of the amendment or modification by the stockholders where stockholder approval is required to enable the Plan to satisfy any applicable statutory requirements, or if the Company, on the advice of counsel, determines that stockholder approval otherwise is necessary or desirable.

No amendment, modification or termination of the Plan will in any manner adversely affect any Options theretofore granted under the Plan, without the consent of the Option Holders holding such Options.

SECTION 11
WITHHOLDING

11.1 Withholding Requirement. The Company's obligations to deliver Shares upon the exercise of an Option will be subject to the Option Holder's satisfaction of all applicable federal, state and local income and other tax withholding requirements and applicable securities requirements.

11.2 Withholding With Stock. At the time an Option is granted the Stock Option Committee, in its sole discretion, may permit the Option Holder to pay all such amounts of tax withholding, or any part thereof, that is due upon exercise of the Option by such adjustments as the Stock Option Committee determines, including adjustment to a net exercise price or adjustment to the Option Price.

SECTION 12
BROKERAGE ARRANGEMENTS

12.1 Brokerage. The Stock Option Committee, in its discretion, may enter into arrangements with one or more banks, brokers or other financial institutions to facilitate the disposition of shares acquired upon exercise of Stock Options, including, without limitation, arrangements for the simultaneous exercise of Stock Options and sale of the Shares acquired upon such exercise.

SECTION 13
NONEXCLUSIVITY OF THE PLAN

13.1 Other Plans. The adoption of this Plan by the Board will not be construed as creating any limitations on the power or authority of the Board to adopt such other or additional incentive or other compensation arrangements of whatever nature as the Board may deem necessary or desirable or preclude or limit the continuation of any other plan, practice or arrangement for the payment of compensation or fringe benefits to employees generally, or to any class or group of employees, or any other persons that the Company or any Affiliated Corporation now has lawfully put into effect, including, without limitation, any retirement, pension, savings and stock purchase plan, insurance, death and disability benefits and executive short-term incentive plans.

SECTION 14
REQUIREMENTS OF LAW

14.1 Requirements of Law. The insurance of Stock and the payment of cash pursuant to the Plan will be subject to all applicable laws, rules and regulations.

14.2 Governing Law. The Plan and all agreements hereunder will be construed in accordance with and governed by the laws of the State of Colorado.

SECTION 15
DURATION OF THE PLAN

15.1 Termination. The Plan will terminate at such time as may be determined by the Board, and no Option will be granted after such termination. If not sooner terminated under the preceding sentence, the Plan will fully cease and expire on the earlier of one year from the date that the Plan Limit has been exhausted and all Options exercised or expired or January 30, 2013. Options outstanding at the time of the Plan termination may continue to be exercised in accordance with their terms.
