## FEDERAL TRUST CORPORATION AND SUBSIDIARIES

## Notes to Condensed Consolidated Financial Statements (Unaudited)

## (1) Description of Business and Basis of Presentation

**Organization.** Federal Trust Corporation ( Federal Trust ) is the sole shareholder of Federal Trust Bank (the Bank ) and Federal Trust Mortgage Company ( Mortgage Company ). Federal Trust operates as a unitary savings and loan holding company. Federal Trust's business activities primarily include the operation of the Bank and the Mortgage Company. The Bank is federally-chartered as a stock savings bank. The Bank's deposits are insured up to the applicable limits by the Federal Deposit Insurance Corporation. The Bank provides a wide range of banking services to individual and corporate customers through its seven offices located in Orange, Seminole and Volusia Counties, Florida. The Mortgage Company was established in May 2005 and commenced operations in January 2006, to provide residential loan products for customers of the Bank, to close mortgage loans on behalf of certain third party purchasers, and to sell mortgage loans in the secondary market.

The condensed consolidated financial statements include the accounts of Federal Trust, the Bank and the Mortgage Company (collectively referred to herein as, the Company ). All significant intercompany accounts and transactions have been eliminated in consolidation.

In the opinion of management, the accompanying condensed consolidated financial statements contain all adjustments (principally consisting of normal recurring accruals) necessary to present fairly the financial position as of March 31, 2006, and the results of operations and cash flows for the three-month periods ended March 31, 2006 and 2005. The results of operations for the three-month period ended March 31, 2006, are not necessarily indicative of the results to be expected for the entire year ended December 31, 2006. These statements should be read in conjunction with the consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005.

## (2) Loans

The components of loans are summarized as follows (\$in thousands):

|  | At March 31,<br>2006 | At December 31,<br>2005 |
|--|----------------------|-------------------------|
| <b>Residential Lending:</b>                      |                      |                         |
| Mortgages (1)                                    | \$ 404,464           | \$ 399,973              |
| Lot loans  | 39,796               | 40,203                  |
| Construction                                     | 80,632               | 81,572                  |
| <b>Total Residential lending</b>                 | <b>524,892</b>       | <b>521,748</b>          |
| <b>Commercial Lending:</b>                       |                      |                         |
| Real Estate Secured                              | 79,128               | 71,253                  |
| Land, Development and Construction               | 87,519               | 90,794                  |
| Commercial loans                                 | 25,219               | 22,529                  |

## (2) Loans, Continued

The following is a summary of information regarding nonaccrual and impaired loans (\$in thousands):

|   | At March 31,<br>2006 | At December 31,<br>2005 |
|---|----------------------|-------------------------|
| Nonaccrual loans  | \$ 3,857             | \$ 2,118                |
| Accruing loans past due ninety days or more   | \$                   | \$                      |
| Recorded investment in impaired loans for which there is a related allowance for loan losses  | \$ 3,857             | \$ 2,118                |
| Recorded investment in impaired loans for which there is no related allowance for loan losses | \$                   | \$                      |
| Allowance for loan losses related to impaired loans   | \$ 579               | \$ 318                  |

|   | Three Months Ended<br>March 31, |          |
|---|---------------------------------|----------|
|   | 2006                            | 2005     |
| Interest income recognized and received on impaired loans | \$ 24                           | \$ 29    |
| Average net recorded investment in impaired loans         | \$ 2,926                        | \$ 2,148 |

The activity in the allowance for loan losses is as follows (\$ in thousands):

|                                | Three Months Ended<br>March 31, |          |
|--------------------------------|---------------------------------|----------|
|                                | 2006                            | 2005     |
| Balance at beginning of period | \$ 4,477                        | \$ 3,835 |
| Provision for loan losses      | 139                             | 180      |
| Charge-offs                    |                                 | (10)     |
| Recoveries                     | 21                              | 1        |
| Balance at end of period       | \$ 4,637                        | \$ 4,006 |

A provision for loan losses is charged to earnings based upon management's evaluation of the potential losses in its loan portfolio. During the three months ended March 31, 2006, management made a provision of \$139,000 based on its evaluation of the loan portfolio, compared to a provision of \$180,000 made in the comparable period in 2005. At March 31, 2006, management believes that the allowance is adequate, primarily as a result of the overall quality and the high percentage of residential single family home loans in the portfolio.

## (3) Regulatory Capital

The Bank is subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Bank's and the Company's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines that involve quantitative measures of the Bank's assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. The Bank's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Bank to maintain minimum amounts and percentages (set forth in the table below) of total and Tier I capital (as defined in the regulations) to risk-weighted assets and Tier I capital to average adjusted assets (as defined in the regulations). Management believes that, as of March 31, 2006, the Bank exceeds the minimum capital adequacy requirements to which it is subject.

As of December 31, 2005, the most recent notification from the Office of Thrift Supervision categorized the Bank as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, the Bank must maintain total risk-based, Tier I risk-based and Tier I leverage percentages as set forth in the table below. There are no conditions or events since March 31, 2006 that management believes would change the institution's categorization as well capitalized. The following table summarizes the capital thresholds for each prompt corrective action capital category. An institution's capital category is based on whether it meets the threshold for all three capital ratios within the category. The Bank's actual capital amounts and percentages are also presented in the table (\$in thousands).

|   | Actual    |       | For Capital Adequacy Purposes |      | To Be Well Capitalized Under Prompt Corrective Action Provisions |       |
|---|-----------|-------|-------------------------------|------|--|-------|
|   | Amount    | %     | Amount                        | %    | Amount   | %     |
| <b>At March 31, 2006:</b>                   |           |       |                               |      |  |       |
| Total capital (to risk-weighted assets)     | \$ 57,072 | 11.3% | \$ 40,267                     | 8.0% | \$ 50,334  | 10.0% |
| Tier I capital (to risk-weighted assets)    | 52,434    | 10.4  | 20,133                        | 4.0% | 30,200   | 6.0%  |
| Tier I capital (to average adjusted assets) | 52,434    | 7.1   | 29,578                        | 4.0% | 36,973   | 5.0%  |

## (4) Earnings Per Share of Common Stock

The Company follows the provisions of Financial Accounting Standards No. 128, *Earnings Per Share* ( SFAS No. 128 ). SFAS No. 128 provides accounting and reporting standards for calculating earnings per share. Basic earnings per share of common stock, has been computed by dividing the net earnings for the period by the weighted-average number of shares outstanding. Shares of common stock purchased by the Company's Employee Stock Ownership Plan ( ESOP ) are considered outstanding when the shares are allocated to participants. Diluted earnings per share is computed by dividing net earnings by the weighted-average number of shares outstanding including the dilutive effect of stock options computed using the treasury stock method. The following table presents the calculation of basic and diluted earnings per share of common stock restated for the effects of a 2% stock dividend declared on April 25, 2006 for shareholders of record on June 1, 2006 (in thousands, except per share amounts):

|  | Three Months Ended<br>March 31, |        |
|--|---------------------------------|--------|
|  | 2006                            | 2005   |
| Weighted-average shares outstanding before adjustment for unallocated ESOP shares  | 8,465                           | 8,234  |
| Adjustment to reflect the effect of unallocated ESOP shares  | (21)                            | (117)  |
| Weighted-average shares outstanding for basic earnings per share   | 8,444                           | 8,117  |
| Basic earnings per share after restatement for stock dividend  | \$ .14                          | \$ .15 |
| Basic earnings per share before restatement for stock dividend   | \$ .14                          | \$ .15 |
| Total weighted-average shares outstanding for basic earnings per share computation   | 8,444                           | 8,117  |
| Additional dilutive shares using the average market value for the period utilizing the treasury stock method regarding stock options | 170                             | 233    |
| Weighted-average shares and equivalents outstanding for diluted earnings per share   | 8,614                           | 8,350  |
| Diluted earnings per share after restatement for stock dividend  | \$ .13                          | \$ .15 |
| Diluted earnings per share before restatement for stock dividend   | \$ .14                          | \$ .15 |

In September 2005, the Financial Accounting Standards Board (FASB) issued a proposed statement of Financial Accounting Standards which amends SFAS No. 128. The proposed statement would be effective in the second quarter of 2006 and is intended to clarify guidance on the computation of earnings per share for certain items such as mandatorily convertible instruments, the treasury stock method, and contingently issuable shares. We have evaluated the proposed statement as presently drafted and have determined that if adopted in its current form, it would not have a significant impact on the computation of our earnings per share.

## FEDERAL TRUST CORPORATION AND SUBSIDIARIES

## Notes to Condensed Consolidated Financial Statements (Unaudited), Continued

## (5) Stock Compensation Plans

The Company has three stock options plans. As a result of a 2% stock dividend declared on April 25, 2006, for shareholders of record on June 1, 2006, we have made proportionate adjustments to the number of shares of common stock covered by the stock options and stock units and in the purchase price per share of the stock option and stock units so as to prevent dilution of rights of the participant. The Key Employee Stock Compensation Program (the Employee Plan) is authorized to issue up to 10% of the issued shares up to a maximum of 1,000,000 shares through the exercise of incentive stock options, compensatory stock options, stock appreciation rights or performance shares. All awards granted under the Employee Plan have been incentive stock options. These options have ten year terms and vest over various terms up to five years. At March 31, 2006, the Company had 168,253 options available for future grants under the Employee Plan.

The Directors Stock Option Plan (the Director Plan) is authorized to issue up to 140,000 shares. All options granted under the Director Plan have ten year terms, vest immediately and are not exercisable for a period of six months after the grant date. As of March 31, 2006, all of the allocated options in the Director Plan had been granted.

At the 2005 Annual Meeting held on May 27, 2005, the shareholders approved the 2005 Directors Stock Plan (2005 Directors Plan), which is authorized to issue up to 90,000 shares. Awards made under the 2005 Directors Plan may be in the form of restricted shares, stock units, or stock options. A stock unit is the right to receive a share of common stock on a date elected by the director. While any stock unit is outstanding the director holding the stock unit will be entitled to receive a dividend in the form of additional stock units, if cash dividends are declared on outstanding shares of common stock. Each stock unit, including fractional stock units, will be converted to one share of common stock on the date which has been selected by the director. Awards of shares or stock units may be awarded to a director as an annual stock retainer, which is dependent upon the amount of the director's annual cash retainer. The 2005 Directors Plan also provides for discretionary awards of restricted shares, stock units or stock options, which may be granted by the Board to recognize additional services provided to the Company. Any stock options granted may not be exercisable for less than fair market value per share on the date of grant, and must be exercised at least 6 months from the date of grant and before the earlier of 10 years after the date of the award, or one year from the date the director's service is terminated by reason of retirement or death. During 2005, Restricted Stock Units for 6,963 shares were awarded to two Directors under the 2005 Directors Plan. The closing price of the Company's stock on the date of the grant was \$11.79 per share. Under the terms of their respective Agreements, the awards vest over three years (in near equal installments), unless there is a change in the control, at which point the awards vest immediately. As a Restricted Stock Unit, no shares will be physically issued on vested units until the Director no longer serves on the Board.

A summary of stock option and restricted stock unit transactions for the three-month periods ended March 31, 2006 and 2005 follows; restated for the effects of a 2% stock dividend declared on April 25, 2006 for shareholders of record on June 1, 2006 (\$in thousands, except per share data):

|   | Number<br>of<br>Options | Range of<br>Per Share<br>Option Price | Aggregate<br>Option<br>Price |

(Continued)

**FEDERAL TRUST CORPORATION AND SUBSIDIARIES**

**Notes to Condensed Consolidated Financial Statements (Unaudited), Continued**

**(6) Share-Based Compensation**

Prior to January 1, 2006, the Company's stock option plans were accounted for under the recognition and measurement provisions of APB Opinion No. 25 (Opinion 25), *Accounting for Stock Issued to Employees*, and related Interpretations, as permitted by FASB Statement No. 123, *Accounting for Stock-Based Compensation* (as amended by SFAS No. 148, *Accounting for Stock-Based Compensation Transition and Disclosure*) (collectively SFAS 123). No stock-based employee compensation cost was recognized in the Company's Statements of Earnings through December 31, 2005, as all options granted under the plans had an exercise price equal to the market value of the underlying common stock on the date of grant. Effective January 1, 2006, the Company adopted the fair value recognition provisions of FASB Statement No. 123(R), *Share-Based Payment* (SFAS 123(R)), using the modified-prospective-transition method. Under that transition method, compensation cost recognized in 2006 includes: (a) compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant date fair value calculated in accordance with the original provisions of SFAS 123, and (b) compensation cost for all share-based payments granted subsequent to December 31, 2005, based on the grant-date fair value estimated in accordance with the provisions of SFAS 123(R).

As a result of a 2% stock dividend declared on April 25, 2006, for shareholders of record on June 1, 2006, we have made proportionate adjustments to the number of shares of common stock covered by the stock options and in the purchase price per share of the stock option so as to prevent dilution of rights of the participant.

In 2005, the Company's Board of Directors approved the acceleration of vesting of 200,235 stock options (the *Acceleration*). In accordance with SFAS 123, in 2005 the Company expensed the remaining unrecognized \$238,000 compensation cost associated with the options with accelerated vesting in the pro forma disclosure. These actions were taken in order to avoid expense recognition in future financial statements upon adoption of SFAS 123(R). As of December 31, 2005, only 51,000 stock options were not fully vested.

As a result of adopting SFAS 123(R) on January 1, 2006, the Company's earnings before income taxes for the three-months ended March 31, 2006, was approximately \$15,000 lower than if it had continued account for share-based compensation as under Opinion 25. As of March 31, 2006, the Company had 63,648 non-vested options outstanding resulting in approximately \$92,000 of total unrecognized compensation cost related to these non-vested options. This cost is expected to be recognized monthly using the straight-line method through March 31, 2011.

The following table illustrates the effect on net earnings and earnings per share if the Company had applied the fair value recognition provisions of SFAS 123 to options granted under the Company's stock option plan for the three months ended March 31, 2005. For purposes of this pro forma disclosure, the value of the options is estimated using the Black-Scholes option-pricing model and is being amortized to expense over the options' vesting periods (in thousands, except per share data).

## Notes to Condensed Consolidated Financial Statements (Unaudited), Continued

## (6) Share-Based Compensation, Continued

|   | Three Months Ended<br>March 31, 2005 |
|---|--------------------------------------|
| Net earnings, as reported   | \$ 1,215                             |
| Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards | (61)                                 |
| Proforma net earnings   | \$ 1,154                             |
| Basic earnings per share:   |                                      |
| As reported   | \$ .15                               |
| Proforma  | \$ .15                               |
| Diluted earnings per share:   |                                      |
| As reported   | \$ .15                               |
| Proforma  | \$ .14                               |

Options are granted to certain employees and directors at price equal to the market value of the stock on the dates the options were granted. The options granted have a term of either five or ten years and vest ratably over various terms up to five years. The fair value of each option is amortized using the straight-line method over the requisite service period of each option. We have estimated the fair value of all option awards as of the grant date by applying the Black-Scholes pricing valuation model. The application of this valuation model involves assumptions that are judgmental and sensitive in the determination of compensation expense. The weighted average for key assumptions used in determining the fair value of options granted during the three months ended March 31, 2006 follows:

|   |        |
|---|--------|
| Expected stock price volatility         | 25.00% |
| Risk-free interest rate                 | 4.53%  |
| Weighted average expected life in years | 3.0    |
| Dividend yield                          | 1.38%  |

Historical information was the primary basis for the selection of the expected volatility, expected dividend yield and the expected lives of the options. The risk-free interest rate was selected based upon yields of U. S. Treasury issues with a term equal to the expected life of the option being valued.

**FEDERAL TRUST CORPORATION AND SUBSIDIARIES**

**Notes to Condensed Consolidated Financial Statements (Unaudited), Continued**

**(7) Subsequent Events**

On April 14, 2006, Federal Trust sold to certain accredited investors in a private equity offering, an aggregate of 850,000 shares of its common stock at an offering price of \$10.00 per share. The offering price was an 11.5% discount to the \$11.30 closing bid price of the common stock on the American Stock Exchange on April 12, 2006. Federal Trust received net proceeds from the sale of these shares of approximately \$7.8 million, which will allow Federal Trust to maintain its strong capital position, retire a borrowing and fund our continued growth.

The shares of Federal Trust's common stock sold in the offering were issued in reliance upon exemptions from registration available under Rule 506 of Regulation D and Section 4(2) of the Securities Act of 1933, as amended, and are restricted securities. Pursuant to a Registration Rights Agreement, dated April 14, 2006, by and among Federal Trust and the investors, Federal Trust has agreed to file a registration statement covering the resale of these shares by the investors. The Agreement includes penalties to a maximum of 5% of the aggregate offering proceeds if the Registration Statement is not filed in a timely manner. We expect to file the Registration Statement within the time requirement stipulated in the Agreement.

On April 25, 2006, Federal Trust Corporation declared a \$0.05 per share cash dividend and a 2% stock dividend on Federal Trust's common stock. The cash dividend will be payable on May 25, 2006, to shareholders of record on May 9, 2006, and the stock dividend will be distributed on June 12, 2006, to shareholders of record on June 1, 2006.

**(8) Reclassification**

Certain amounts in the prior period condensed financial statements have been reclassified to conform with the 2006 presentation.

**FEDERAL TRUST CORPORATION AND SUBSIDIARIES**

**Review by Independent Registered Public Accounting Firm**

Hacker, Johnson & Smith PA, the Company's independent registered public accounting firm, have made a limited review of the financial data as of March 31, 2006, and for the three-month periods ended March 31, 2006 and 2005 presented in this document, in accordance with standards established by the Public Company Accounting Oversight Board (United States).

Their report furnished pursuant to Article 10 of Regulation S-X is included herein.

**Report of Independent Registered Public Accounting Firm**

Federal Trust Corporation  
Sanford, Florida:

We have reviewed the accompanying condensed consolidated balance sheet of Federal Trust Corporation and Subsidiaries (the Company) as of March 31, 2006, and the related condensed consolidated statements of earnings, stockholders' equity and cash flows for the three-month periods ended March 31, 2006 and 2005. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying interim financial statements for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of December 31, 2005, and the related consolidated statements of earnings, stockholders' equity and cash flows for the year then ended (not presented herein); and in our report dated March 7, 2006 we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2005, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

/s/ Hacker, Johnson & Smith PA

**FEDERAL TRUST CORPORATION AND SUBSIDIARIES**

**Item 2. Management's Discussion and Analysis of  
Financial Condition and Results of Operations**

**Comparison of March 31, 2006 and December 31, 2005**

**General**

Federal Trust Corporation (Federal Trust) is the sole shareholder of Federal Trust Bank (the Bank) and Federal Trust Mortgage Company (the Mortgage Company). Federal Trust operates as a unitary savings and loan holding company. Federal Trust's business activities primarily include the operation of the Bank and the Mortgage Company. Federal Trust, the Bank and the Mortgage Company are collectively referred to herein as the Company. The Bank is federally-chartered as a stock savings bank. The Bank's deposits are insured up to the applicable limits by the Federal Deposit Insurance Corporation. The Bank provides a wide range of banking services to individual and corporate customers through its seven offices located in Orange, Seminole and Volusia Counties, Florida. The Mortgage Company was established in May 2005 and commenced operations in January 2006 to provide residential loan products for customers of the Bank, to close mortgage loans on behalf of certain third party purchasers, and to sell mortgage loans in the secondary market.

**Forward Looking Statements**

Readers should note, in particular, that this document contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act), that involve substantial risks and uncertainties. When used in this document, or in the documents incorporated by reference herein, the words anticipate, believe, estimate, may, intend and expect and similar expressions identify certain of such forward-looking statements. Actual results, performance or achievements could differ materially from those contemplated, expressed or implied by the forward-looking statements contained herein. Actual results may differ materially, depending upon a variety of important factors, including competition, inflation, general economic conditions, changes in interest rates and changes in the value of collateral securing loans we have made, among other things.

**Capital Resources**

During the three months ended March 31, 2006, the Company's primary source of funds consisted of a net increase in deposits of \$18.7 million and net principal repayments and sales of loans of \$11.6 million. The Company used its sources of funds principally to purchase loans of \$26.8 million, and to repay Federal Home Loan Bank advances totaling \$12.5 million.

**Off-Balance-Sheet Arrangements**

The Company is a party to financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit, unused lines of credit, standby letters of credit and loans in process. These instruments involve, to varying degrees, elements of credit and interest-rate risk in excess of the amounts recognized in the condensed consolidated balance sheet. The contract amounts of those instruments reflect the extent of the Company's involvement in particular classes of financial instruments.

**FEDERAL TRUST CORPORATION AND SUBSIDIARIES****Item 2. Management's Discussion and Analysis  
of Financial Condition and Results of Operations, Continued**

The Company's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit, unused lines of credit and loans in process is represented by the contractual amount of those instruments. The Company uses the same credit policies in making commitments as it does for on-balance sheet instruments.

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total committed amounts do not necessarily represent future cash requirements. The Company evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if it is deemed necessary by the Company upon extension of credit, is based on management's credit evaluation of the counter party.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loans to customers.

A summary of the amounts of the Company's financial instruments, with off-balance-sheet risk at March 31, 2006, follows (\$ in thousands):

|                              | <b>Contract<br/>Amount</b> |
|------------------------------|----------------------------|
| Commitments to extend credit | \$ 3,464                   |
| Unused lines of credit       | \$ 11,967                  |
| Standby letters of credit    | \$ 7,910                   |
| Loans in process             | \$ 72,170                  |

Management believes the Company has adequate resources to fund all its commitments. At March 31, 2006, the Company had approximately \$314.4 million in time deposits maturing in one year or less. Management also believes that, if so desired, it can adjust the rates on time deposits to retain or obtain new deposits in a changing interest rate environment.

Management believes the Bank was in compliance with all minimum capital requirements which it was subject to at March 31, 2006. See note 3 to the condensed consolidated financial statements.

Management is not aware of any trends, demands, commitments or uncertainties which are expected to have a material impact on future operating results, liquidity or capital resources.

## FEDERAL TRUST CORPORATION AND SUBSIDIARIES

## Results of Operations

The following table sets forth, for the periods indicated, information regarding: (i) the total dollar amount of interest income of the Company from interest-earning assets and the resultant average yields; (ii) the total dollar amount of interest expense on interest-bearing liabilities and the resultant average costs; (iii) net interest/dividend income; (iv) interest-rate spread; and (v) net interest margin (\$ in thousands).

| Interest-rate spread (4)   |                 |          | 2.35%              |                 |          | 2.54%              |
| Net interest margin (5)  |                 |          | 2.42%              |                 |          | 2.60%              |
| Ratio of average interest-earning assets to average interest-bearing liabilities | 1.02            |          |                    | 1.02            |          |                    |

(1) Includes non-accrual loans.

## Edgar Filing: FEDERAL TRUST CORP - Form 10-Q

- (2) Includes Federal Home Loan Bank stock and interest-earning deposits.
- (3) Includes Federal Home Loan Bank advances, other borrowings, junior subordinated debentures and capital lease obligation.
- (4) Interest-rate spread represents the difference between the average yield on interest-earning assets and the average cost of interest-bearing liabilities.
- (5) Net interest margin is annualized net interest income divided by average interest-earning assets.

20

---

**FEDERAL TRUST CORPORATION AND SUBSIDIARIES**

**Comparison of the Three-Month Periods Ended March 31, 2006 and 2005**

**General.** The Company had net earnings for the three-month period ended March 31, 2006, of \$1.2 million or \$.14 per basic and \$.13 diluted share adjusted for the effects of a 2% stock dividend declared on April 25, 2006, compared to \$1.2 million or \$.15 per basic and diluted share for the same period in 2005. Net earnings were flat for the first quarter compared to a year ago, as increases in interest income were offset by increases in interest expense and in other expenses related to the continued expansion of our retail branch distribution network and the Mortgage Company.

**Interest Income.** Interest income increased by \$3.2 million or 43% to \$10.7 million for the three-months ended March 31, 2006, from \$7.5 million for the same period in 2005. Interest income on loans increased \$3.0 million to \$9.9 million in 2006, due to an increase in the average amount of loans outstanding from \$530 million in 2005 to \$633 million in 2006, and an increase in the average yield earned on loans from 5.20% for the three-month period ended March 31, 2005, to 6.23% for the comparable period in 2006. Interest income on securities increased by \$151,000 for the three-month period ended March 31, 2006, over the same period in 2005. Management expects the rates earned on the earning asset portfolio to fluctuate with general market rates.

**Interest Expense.** Interest expense increased by \$2.8 million or 76% during the three-month period ended March 31, 2006, compared to the same period in 2005. Interest on deposits increased \$2.0 million or 79% to \$4.4 million in 2006 from \$2.4 million in 2005. The increase in interest on deposits was a result of an increase in average deposits outstanding from \$403.3 million in 2005 to \$471.9 million in 2006, together with an increase in the average cost of deposits from 2.41% for the three-month period ended March 31, 2005, to 3.69% for the comparable period in 2006. Interest on other borrowings increased to \$2.1 million in 2006 from \$1.2 million in 2005, primarily as a result of an increase in the average amount of other borrowings outstanding from \$166.3 million in 2005 to \$212.5 million in 2006 and an increase in the average cost from 2.96% to 3.93% from 2005 to 2006. Management expects to continue to use FHLB advances and other borrowings as a liability management tool.

**Provision for Loan Losses.** A provision for loan losses is charged to earnings based upon management's evaluation of the losses in its loan portfolio. During the quarter ended March 31, 2006, management recorded a provision for loan losses of \$139,000 based on its evaluation of the loan portfolio, which was a decrease of \$41,000 from the same period in 2005. The allowance for loan losses at March 31, 2006, was \$4.6 million compared to \$4.5 million at December 31, 2005. As a percent of total loans outstanding, the allowance for loan losses increased slightly to .72% at March 31, 2006 from .71% at December 31, 2005. Management believes the allowance for loan losses at March 31, 2006 was adequate.

**Other Income.** Other income increased to \$649,000 for the first quarter of 2006 from \$629,000 for the three-month period ended March 31, 2005. The increase in other income resulted primarily from an increase in service charges and fees, and was partially offset by a decrease in the net gains on sales of securities and loans available for sale. Included in the service charges and fees for the 2006 first quarter, was a \$114,000 non-refundable commitment fee from one customer, which was recognized by the Bank when the commitment expired unused.

**Other Expenses.** Other expenses increased by \$638,000 or 27% during the three-month period ended March 31, 2006, compared to the same period in 2005. Salaries and employee benefits increased \$536,000 along with an increase of \$56,000 in occupancy expense. Additionally, both data processing and marketing and advertising increased \$24,000 and \$30,000, respectively. These additional expenses are a direct result of the opening of our Lake Mary branch in January 2006 and the costs associated with the Mortgage Company.

**Income Taxes.** Income taxes for the three months ended March 31, 2006, totaled \$581,000 (an effective rate of 33.5%), compared to \$670,000 (an effective rate of 35.5%) for the same period in 2005.

**FEDERAL TRUST CORPORATION AND SUBSIDIARIES**

**Item 3. Quantitative and Qualitative Disclosures about Market Risk**

Market risk is the risk of loss from adverse changes in market prices and rates. The Company's market risk arises primarily from interest-rate risk inherent in its lending, investment and deposit taking activities. The Company has little or no risk related to trading accounts, commodities or foreign exchange.

Management actively monitors and manages its interest rate risk exposure. The primary objective in managing interest-rate risk is to limit, within established guidelines, the adverse impact of changes in interest rates on the Company's net interest income and capital, while adjusting the Company's asset-liability structure to obtain the maximum yield-cost spread on that structure. Management relies primarily on its asset-liability structure to control interest rate risk. However, a sudden and substantial increase in interest rates could adversely impact the Company's earnings, to the extent that the interest rates borne by assets and liabilities do not change at the same speed, to the same extent, or on the same basis. There has been no significant change in the Company's market risk exposure since December 31, 2005.

**Item 4. Controls and Procedures**

- a. *Evaluation of Disclosure Controls and Procedures.* The Company maintains controls and procedures designed to ensure that information required to be disclosed in the reports that the Company files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. Based upon their evaluation of those controls and procedures as of the end of the period covered by this report, the Chief Executive and Chief Financial Officers of the Company concluded that the Company's disclosure controls and procedures were adequate.
- b. *Changes in Internal Controls.* The Company made no significant changes in its internal controls or in other factors that could significantly affect these controls subsequent to the date of the evaluation of those controls by the Chief Executive and Chief Financial Officers.

**PART II. OTHER INFORMATION**

**Item 1. Legal Proceedings**

There are no material pending legal proceedings to which Federal Trust Corporation or its subsidiaries is a party or to which any of their property is subject.

**Item 1A. Risk Factors**

There have been no material changes to the risk factors disclosed in Item 1A *Risk Factors* in our Annual Report on Form 10-K for the year ended December 31, 2005.
