SABESP announces second quarter 2004 results

São Paulo, August 13th, 2004 A SABESP Cia. de Saneamento Básico do Estado de São Paulo (Bovespa: SBSP3; NYSE: SBS), the largest water and sewage utility company in the Americas and the third largest in the world, according to its number of customers, today announces its results for the second quarter 2004 (2Q04). The Company's operating and financial information, except when indicated otherwise, is shown in Brazilian Reais, in accordance with the Brazilian corporate law. All comparisons in this release, unless otherwise stated, refer to the second quarter of 2003.

Highlights

- The consumer education campaign aimed at the rational use of water success avoided the rationing in the SP metro area
- The entrance of São Bernardo do Campo in the areas supplied directly by Sabesp minimized the volume of water and sewage billed to the retail market in the SP metro area
- Gross Revenue of R\$ 1,078.6 million; 6.4% growth.

1. SABESP posted 6.8% net revenue growth with a small variation in EBITDA.

	(R\$ million)		
Highlights	2Q03	2Q04	Chg.%
Net Operating Revenues	972.4	1,038.9	6.8%
EBIT	299.5	291.5	(2.7%)

EBITDA Margin	44.8%	42.4%	
Net Income/Loss	332.6	(73.3)	

(*) Earnings Before Interest, Taxes, Depreciation and Amortization

SABESP recorded net revenue of R\$ 1,038.9 million and EBITDA of R\$ 440.8 million in 2Q04. Despite net revenue growth, 6.8% real exchange rate devaluation originated a negative impact on the period. The final result was net loss of R\$ 73.3 million.

2. Gross Operating Revenue 6.4% growth

Gross operating revenues posted R\$ 64.8 million growth, or 6.4%. This quarter reflects the consumer education campaign aimed at the rational use of water initiated last March for the whole SP metro area, which is responsible for approximately 70% of the Company's revenue. During the quarter, a total R\$ 34.9 million bonus was paid, equivalent to 4.7% of total water and sewage billing in the SP metro area.

Besides the direct impact on revenues of bonus payments, a considerable number of customers (around 20% of total connections) reached close to the water-usage consumption reduction demanded in order to receive the bonus. This caused a decrease in the average tariff, resulting in a modest growth in revenues in the period.

Volume of water and sewage billed to the retail market increased by 1.2% with the inclusion of São Bernardo do Campo on the Company's retail volume. Disregarding this county, there was a 3.9% decrease in the volume of water and sewage billed to the retail market at the SP metro area and 2.2% in Sabesp's total volume.

The following tables show the water and sewage services volume billed to retail by type of use and region, in the second quarter of 2003 and 2004 (not audited):

Bellow we present the main variations:

3.1. Salaries and Payroll Charges

Salaries and payroll charges grew R\$ 5.7 million or 2.2%. This increase is mainly related to the increase in wages of 4.18% beginning May 2004, as a result of the collective labor agreement.

3.2. General Supplies

General supplies posted a R\$ 0.9 million increase or 4.5%, mainly due to maintenance of residential connections.

3.3. Treatment Supplies

Treatment Supplies rose by R\$ 1.8 million or 8.7%, principally due to higher consumption of active carbon and aluminum sulfate. With weather changes and fountainhead conditions, the proliferation of algae leaves, odor and taste in the water when dead, removed by the application of active carbon.

3.4. Third Party Services

Third Party Services increased by R\$ 20.1 million or 25.6%, motivated by higher advertising and marketing expenses due to institutional campaigns promoted by Sabesp (Olha o Nível , Racionamento 2004 and Programa de Incentivo à Redução do Consumo de Água). Other expenses that can justify such an increase are Paving, Sidewalk Replacements, and also Technical Professional Services.

3.5. Electric Power

Electric Power presented an increase of R\$ 12.9 million or 16.6%, motivated by the average increase of 14.3% in electric power tariffs and 1.3% Emergency Capacity Charge (ECE) readjustment. Regarding electric power consumption, there was a 1% drop in the second quarter of 2004 (510,576 MWh) in comparison to the same period of 2003 (515,807 MWh) due to consumer education campaign aimed at the rational use of water, started in March.

3.6. General Expenses

General expenses recorded a drop of R\$ 3.0 million or 11.3%, mainly due to contingencies. The provision for 2Q04 was lower than the one of 2Q03.

3.7. Depreciation and Amortization

Depreciation and Amortization grew by R\$ 13.5 million or 9.9%, as a result of transfer of works in place from Permanent Asset to Operating Permanent Assets.

3.8. Credit Write-offs

Grew by R\$ 25.5 million or 61.7%, due to the provisions occurred on June 2004 regarding credits over R\$ 30,000.00, past due for more than one year and with lawsuits.

3.9. Tax Expenses

Tax expenses posted a decrease of R\$ 2.9 million or 35.8% in comparison to 2Q03, when an amount was paid in response to the Provisional Contribution on Financial Activities - CPMF due to the maturity of Eurobonds 2003.

4. Financial Expenses and Monetary Variations

4.1 Financial Expenses

Financial Expenses decreased by R\$ 90.2 million or 31.1%, due to:

- Provisions, a drop of R\$ 51.0 million, due to higher provisions for lawsuits occurred during 2Q03;
- Interest expenses on domestic loans and financing caused a decrease of R\$ 26.7 million, due to lower Certificates of Interbank Deposits (CDI) annual interest rate used to calculate interest of the Debentures issued by Sabesp;
- Other financial expenses, dropped by R\$ 19.7 million, due to charges (50% decrease) under tax for social security financing - Cofins and Social Integration Program - Pasep charges consolidated at PAES (Law 10.684/2003 - New Refis), during the 2Q03.

4.2 Monetary Exchange Variation

The monetary Exchange variation presented a R\$ 613.3 million variation, due to Real exchange rate devaluation versus US dollars of 6.8% in 2Q04 compared to an appreciation of 14.4% which occurred in 2Q03, affecting loans denominated in foreign currency.
