**Braskem reduces the average cost of its capital through  
the successful conclusion of three new transactions**

**São Paulo, September 29, 2006 --- BRASKEM S.A.** (BOVESPA: BRKM5; NYSE: BAK; LATIBEX: XBRK), leader in the thermoplastic resins segment in Latin America and the second largest Brazilian industrial company owned by the private sector, announced today that it concluded three new transactions this week, including:

the issuance of US\$275 million 8.00% Notes due 2017;

the acceptance for purchase of an aggregate amount of US\$184.6 million of its US\$275 million 12.50% Notes due 2008, corresponding to 67.1% of the outstanding principal amount of these notes; and

the issuance of unsecured non-convertible debentures in an aggregate principal amount of R\$500 million, which debentures bear interest at a rate of 103.5% of the CDI rate and will mature in September 2011.

These transactions are part of Braskem's financial strategy to improve its debt profile and to reduce its cost of capital.

According to Paul Altit, Braskem's Chief Financial Officer and Director of Investor Relations, Braskem completed three important transactions during the third quarter of 2006. In addition to the issuance of notes and the repurchase of a portion of its outstanding notes, Braskem completed the issuance of unsecured non-convertible debentures in an aggregate principal amount of R\$500 million with a five-year tenor and that bear interest at a rate of 103.5% of the CDI rate. These related transactions are consistent with Braskem's strategy to optimally manage its indebtedness, with the objective of aligning its debt profile with its cash flow and reduce its cost of indebtedness. Excluding the convertible debentures that are held by Braskem's controlling shareholder and that mature in July 2007, Braskem's average annual debt amortization will be less than U.S.\$200 million, which we believe is reasonable in light of Braskem's cash generation capacity.

For additional information, access [www.braskem.com.br/investor-relations](http://www.braskem.com.br/investor-relations) or contact the department of Investor Relations.

Find below the amortization agenda and cash /cash equivalents balance as if the transactions mentioned above would have been concluded in June 30, 2006:

Braskem, a world-class Brazilian petrochemical company, is the leader in the thermoplastic resins segment in Latin America, and is the second largest Brazilian industrial company owned by the private sector. The company operates 14 manufacturing plants located throughout Brazil, and it has an annual production capacity of 6.1 million tons of petrochemical and chemical products.

Forward-Looking Statement Disclaimer for U.S. Securities Law Purposes

This press release contains statements that are forward-looking within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such forward-looking statements are only predictions and are not guarantees of future performance. Investors are cautioned that any such forward-looking statements are and will be, as the case may be, subject to many risks, uncertainties and factors relating to the operations and business environments of Braskem and its subsidiaries that may cause the actual results of the companies to be materially different from any future results expressed or implied in such forward-looking statements.

Factors that could cause actual results to differ materially from these forward-looking statements include, but are not limited to, the risks and uncertainties set forth from time to time in Braskem's reports filed with the United States Securities and Exchange Commission. Although Braskem believes that the expectations and assumptions reflected in the forward-looking statements are reasonable based on information currently available to Braskem's management, Braskem cannot guarantee future results or events. Braskem expressly disclaims a duty to update any of the forward-looking statements.

## **SIGNATURES**
