04.01 - NOTES TO FINANCIAL STATEMENTS

NOTES TO THE QUARTERLY INFORMATION AS 09/30/2007

(In thousand of Brazilian Reais)

1. OPERATIONS

BRASIL TELECOM S.A. ("Company") is a concessionaire of the Switched Fixed Telephone Service ("STFC") and operates in the Region II of the General Concession Plan, covering the Brazilian states of Acre, Rondônia, Mato Grosso, Mato Grosso do Sul, Tocantins, Goiás, Paraná, Santa Catarina and Rio Grande do Sul, in addition to Distrito Federal. In this area, the Company renders, since July 1998 the STFC in the modalities of local and intra-regional long distance.

With recognition of the prior fulfillment of the obligations for universalization stated in General Plan of Universalization Goals ("PGMU"), required for December 31, 2003, the Company obtained from the National Telecommunications Agency ("ANATEL"), on January 19, 2004, authorizations for the Company to exploit STFC services in the following service modalities: (i) Local and Domestic Long Distance calls in Regions I and III, and Sectors 20, 22 and 25 of Region II of the General Concession Plan ("PGO"); and (ii) International Long Distance calls in Regions I, II and III of PGO. As a result of these authorizations, the Company began to exploit the Domestic and International Long Distance services in all Regions, starting on January 22, 2004. For Local Service in the new regions and PGO sectors, the service offering started on January 19, 2005.

The Company businesses, as well as the rendered services and the charged fees are regulated by Anatel.

The concession agreements in force, under the modalities of local and long distance services, came into force as of January 1, 2006, effective until December 31, 2025. Additional information about these agreements is mentioned in Note 5.i.

Information related to the quality and universalization targets of the Switched Fixed Telephone Service are available to interested parties on ANATEL's homepage, on the website *www.anatel.gov.br*.

The Company is a subsidiary of Brasil Telecom Participações S.A. ("BTP"), incorporated on May 22, 1998 as a result of privatization of the Telebrás System.

The Company is registered in the Comissão de Valores Mobiliários (Securities Commission) ("CVM") and *Securities and Exchange Commission - SEC*. U.S Its shares are traded on the São Paulo Stock Exchange ("BOVESPA"), where it also integrates the Level 1 of Corporate Governance, and trades its *American Depositary Receipts ("ADRs")* on the

New York Stock Exchange ("NYSE").

Subsidiaries

On August 1, 2006, was approved by the Company's Board of Directors the corporate restructuring of its subsidiaries. This restructuring, whose purpose is to optimize the controlling structure through company reductions, concentration of similar activities, simplification of inter-company corporate interest, began in the second semester of 2006. The alterations carried out in the current year are mentioned in the comments on the Companies' below, when applicable. The corporate alterations performed in 2006 and 2007, carried out on the book values, and did not have material effects in the costs structure.

a) 14 Brasil Telecom Celular S.A. ("BrT Celular"): a wholly-owned subsidiary which operates since the fourth quarter of 2004, to provide Personal Mobile Services (SMP), with authorization to render such services to the Region II of PGO.

b) BrT Serviços de Internet S.A. ("BrTI"): a wholly-owned subsidiary whose main product is internet broadband services. It also provides both residential and corporate clients with a series of value-added services, among which wireless internet access.

BrTI, on the other hand, has control of the following companies:

(i) iBest Group

iBest has its operations concentrated in providing dialup to the Internet, sale of advertising space for disclosure in its portal and value-added service, and one of its main services is its internet connection speedup device. iBest activities are totally represented by Freelance S.A., established in Brazil. It also has the iBest Holding Corporation, constituted in Cayman Islands, which is not operating and does not have investments in other companies.

(ii) iG Group

iG operates as an internet access provider, both dialup and broadband. It also provides value-added services focused on the residential and corporate markets. In addition, iG also sells advertising space in its portal.

BrTI's control over the iG Companies is attributed to its 88.81% share in the capital stock of Internet Group (Cayman) Limited ("iG Cayman"), constituted at Cayman Islands.

iG Cayman is a holding which, in its turn, has the control of Internet Group do Brasil S.A. ("iG Brasil") and Central de Serviços Internet Ltda. ("CSI"), both established in Brazil.

Agência O Jornal da Internet Ltda. ("Jornal Internet")

BrTI also keeps the investment of 30% of capital stock in Jornal Internet, which aims at the commercialization of goods and services through the Internet, edition of daily newspapers or magazines, as well as the obtainment, generation and publication of news on selected facts. Seventy percent of the capital stock of Jornal Internet is held by Caio Túlio Vieira Costa, executive vice president of the Company's subsidiaries related to internet businesses.

c) Brasil Telecom Cabos Submarinos Ltda. ("BrT CS"): this company was subsidiary of BrTI up to January 2, 2007. On such date, BrTI reduced the portion of its capital stock held by the Company, using it to pay up part of the investment reduction in BrT CS, in the amount of R\$ 132,678 thousand. Thus, the Company is now the parent company of BrT CS, owning nearly all of the latter's capital stock. BrTI continued to be the holder of only a quota of the capital stock of BrT CS corresponding to an interest below 0.01% .

BrT CS, jointly with its subsidiaries, operates through a system of submarine fiber optics cables, with connection points in the United States, Bermudas Islands, Venezuela and Brazil, allowing data traffic through packages of integrated services, offered to local and international corporate clients..

BrT CS holds the entire capital stock of Brasil Telecom Subsea Cable Systems (Bermuda) Ltd. ("BrT SCS Bermuda"), which by its turn, holds all the shares of Brasil Telecom of America Inc. ("BrT of America") and Brasil Telecom de Venezuela, S.A. ("BrT Venezuela").

d) Brasil Telecom Comunicação Multimídia Ltda. ("BrT Multimídia"): the Company held until April 10, 2007, 100% of the MTH Ventures do Brasil Ltda (MTH) capital, a holding company that controlled the capital of Brasil Telecom Comunicação Multimídia Ltda, with the Company and BrTI holding the remaining equities. On that date, an Extraordinary General Meeting was conducted, and decided by the incorporation of MTH in the Company, which assessment report for incorporation corresponded to the captions below:

Assets

Current	R\$ 37
Non-Current	
Permanent	
Investments	<u>R\$ 141,019</u>
Total Assets	R\$ 141,056

Liabilities

Shareholders	
Equity	<u>R\$ 141,056</u>
Total Liabilities	R\$ 141,056

Today, the Company has equities corresponding to 89.8% of the BrT Multimídia capital stock, with the remaining 10.2% held by BrTI.

BrT Multimídia is a service provider of private telecommunications network through optical fiber digital networks, of local scope in São Paulo, Rio de Janeiro and Belo Horizonte, and long distance network connecting these major metropolitan commercial centers. It performs nationwide through commercial agreements with other telecommunication companies to offer services to other regions in Brazil. It also has an Internet solution center in São Paulo, which offers co-location, hosting and other value-added services..

e) Vant Telecomunicações S.A. ("VANT"): its a company whose total capital stock is practically held by the Company.. BrTI holds only one share of the VANT capital stock, representing less than 0.01% of equity.

VANT aims at the rendering of multimedia communication services, acquisition and onerous assignment of capabilities and other means, operating in the main Brazilian state capitals.

f) Brasil Telecom Call Center S.A. ("BrT Call Center")

Formerly named as Santa Bárbara dos Pinhais S.A., the Company is already operating. Together with the change of its company name, decided in the stockholders meeting carried out on August 21, 2007, its social object has also been changed, and became call center service provisioning to third parties, including client services, active and receptive telemarketing, training, support, consulting services and similar activities, among others.

Change in the Management

During the third quarter of 2005, there were changes to the management of the Brasil Telecom Participações S.A. and Company. The process of replacing the former managers, formerly related to the manager Opportunity, was litigious, according to various material facts published by the Companies during the 2005 and various lawsuits still in progress, filed by the former manager, aiming at retaking the Companies' management.

Agreements as of April 28, 2005 under the Previous Management

On April 28, 2005, still under previous management, Brasil Telecom Participações S.A. and Brasil Telecom S.A. entered into various agreements involving the Opportunity Group and Telecom Italia (April 28 Agreements).

Among such agreements, Brasil Telecom S.A. and its subsidiary 14 Brasil Telecom Celular S.A. executed with TIM International N.V. (TIMI) and TIM Brasil Serviços e Participações S.A. (TIMB) an instrument named as Merger Agreement and a Protocol related thereto.

As mentioned in material facts published, the merger was forbidden by injunctions issued by the Brazilian and U.S. courts. It is also subject-matter of discussion under arbitration involving the controlling shareholders.

The current management of Brasil Telecom Participações S.A. and of the Company understands that the Merger Agreement, the respective Protocol, and other April 28 agreements, which included the waiver and transaction in lawsuits involving the Companies, were entered into with conflict of interests, breaching the laws and the Bylaws of the Companies, and also, in opposition to shareholders' agreements and without the necessary corporate approvals. In addition, the actual management deems that such agreements are contrary to the best interest of the Companies, especially regarding its mobile telephony business.

Referring to the Merger Agreement mentioned in this note, the Company and its subsidiary BrT Celular started on March 15, 2006 arbitration against TIMI and TIMB, with the purpose of annulling it. The Company released a material fact on this matter on March 16, 2006.

TIMI and TIMB sent to the Company and BrT Celular a correspondence dated May 2, 2006, unilaterally terminating the referred Merger Agreement, reserving supposed right to indemnification for losses and damages, which is being dealt with in said arbitration. According to analyses of the Company's legal advisors, the risk of losses referring to the supposed right to indemnification is remote and its amount is not possible to be measured. Also in May 2006, Telecom Italia International filed with Anatel and CADE, petitions requesting to file the operation related to the Merger Agreement due to lack of grounds.

2. PRESENTATION OF THE ACCOUNTING STATEMENTS

Preparation Criteria

The accounting statements have been prepared in accordance with accounting practices adopted in Brazil, in compliance with the Brazilian corporate law, rules of the CVM - Comissão de Valores Imobiliários (Securities Commission) and rules applicable to the telephony service concessionaires.

As the Company is registered with the SEC, it is subject to SEC's standards, and it must prepare accounting statements and other information by using criteria that comply with that agency's requirements. To comply with these requirements and aiming at meeting the market's information needs, the Company adopts, as a principle, the disclosure of information in both markets in their respective languages.

The notes to the accounting statements are presented in thousands of reais, unless otherwise demonstrated. According to each situation, they present information related to the Company and the consolidated statements,

identified as PARENT COMPANY and CONSOLIDATED, respectively. When the information is common to both situations, it is indicated as PARENT COMPANY AND CONSOLIDATED ..

The amounts of judicial deposits bound to the provisions for contingencies are presented in a deductive way from the liabilities established. Also referring to the form of presentation, this quarterly information considers the requirements determined by CVM Resolution 488/05, especially, the segregation of assets in current and non-current groups, as well as pertaining to the latter, the creation of intangible assets subgroup. For comparative effect, previous year balances have been reclassified.

The accounting estimates were based on objective and subjective factors, based on management's judgment to determine the appropriate amount to be recorded in the accounting statements. Significant items subject to these estimates and assumptions include the residual amount of the fixed assets, provisions for doubtful accounts, inventories and deferred income tax and social contribution, provision for contingencies, valuation of derivative instruments, and assets and liabilities related to benefits to employees. The settlement of transactions involving these estimates may result in different amounts due to the inaccuracy inherent to the process of determining these amounts. Management reviews its estimates and assumptions at least quarterly.

Consolidated Accounting Statements

The consolidation was made in accordance with CVM Instruction 247/96 and includes the Company and companies listed in Note 1.

Some of the main consolidation procedures are:

- Elimination of balances of the assets and liabilities accounts among the consolidated companies, as well as revenues and expenses of transactions among them;
- Elimination of balances of the investment accounts and corresponding investor's shareholdings, reserves and accumulated results in the consolidated companies; and
- Segregation of the portions of shareholders' equity and income belonging to minority shareholders, indicated in specific items.

Supplementary Information

The Company is presenting as supplementary information the statement of cash flows, which was prepared in accordance with Accounting Rules and Procedures - NPC 20 of the Brazilian Institute of Independent Auditors - IBRACON. This statement is shown jointly with Note 17.

Report per Segment

The Company is presenting, supplementarily to note 41, the report per business segment. A segment is an identifiable component of the company, intended for service rendering (business segment), or provision of products and services which are subject to risks and compensations which are different among themselves.

3. SUMMARY OF SIGNIFICANT ACCOUNTING PRACTICES

The criteria mentioned in this note refer to practices adopted by the Company and its subsidiaries that are included in the consolidated accounting statements.

a. Cash, Bank Accounts and High-Liquid Investments: Financial investments are temporary high-liquidity investments, with immediate maturity. They are recorded at cost, plus income registered until the closing dates of the quarters presented, and do not exceed market value. Investment funds quotas are appreciated considering the quota values on the quarters closing dates.

b. Trade Accounts Receivable: Receivables from users of telecommunications services are recorded at the amount of the fee or the service on the date the service is rendered. Accounts receivable from services include credits for services rendered and not billed until the quarters closing dates. Receivables resulting from sales of cell phones and accessories are recorded by the amount of sales made, at the moment in which the goods are delivered and accepted by the client. The criterion adopted for making the provisions for doubtful accounts takes into account the calculation of the actual percentage of losses incurred on each range of accounts receivable. Future losses on the current receivables balance are estimated based on these historic percentages, which include accounts coming due and also the portion of services rendered yet to be billed, thus composing the amount that could become a future loss, which is recorded as a provision.

c. Material Inventories: Stated at average acquisition cost, not exceeding replacement cost. Inventories are segregated into inventories for plant expansion and those for maintenance and in relation with the consolidated accounting statements, goods inventories for resale, mainly composed of cell phones, accessories and electronic cards - chips. The inventories to be used in expansion are classified in property, plant and equipment (construction in progress), and inventories to be used in maintenance are classified as current and long-term assets, in accordance with the period in which they will be used, and the resale inventories are classified as current assets. Obsolete inventories are recorded as provisions for losses. With regard to cell phones and accessories, the subsidiary BrT Celular records adjustments, in the cases in which the acquisitions presented higher values conforming them to the realization value.

d. Investments: Investments in subsidiaries are assessed using the equity method of accounting. Goodwill is calculated based on the expectation of future results and its amortization is based on the expected realization/timing over an estimated period of not more than ten years. Other investments are recorded at acquisition cost, less provisions for losses, when applicable. The investments resulting from income tax incentives are recognized on the date of investment, and result in shares of companies with tax incentives or investment fund quotas. In the period between the investment date and receipt of shares or quotas of funds, they remain recognized in long-term assets. These investments are periodically valued and the result of the comparison between its original and market costs, when the latter is lower, results in the constitution of provisions for probable losses.

e. Property, Plant and Equipment: Stated at cost of acquisition and/or construction, less accumulated depreciation. Financial charges resulting from obligations for financing assets and construction in progress are capitalized.

The expenditures incurred, when they represent improvements (increase in installed capacity or useful life) are capitalized. Maintenance and repair expenditures are charged to the profit and losses accounts, on an accrual basis.

Depreciation is calculated under the straight-line method. Depreciation rates used are based on expected useful lives of the assets and in accordance with the standards of the Public Telecommunications Service. The main rates used are set forth in Note 27.

f. Intangible Assets: These mainly refer to licenses and rights to use software and regulatory licenses. The amortization of rights to use software is calculated by the straight-line method, for a five-year period and the regulatory licenses according to the terms determined by the regulatory agency. When benefits are not expected from a license or right connected to such asset, it is written off against the non-operating income.

g. Deferred Charges: Mainly refer to implementation and reorganization expenses. Amortization is calculated under the straight-line method, for a five-year term. When benefits are not expected from an asset, it is written off against non-operating income.

h. Income and Social Contribution Taxes: Corporate income and social contribution taxes are accounted for on an accrual basis. These taxes levied on temporary differences, tax losses and the social contribution negative basis are recorded under assets or liabilities, as applicable, according to the assumption of realization or future demand, within the parameters set forth in CVM Instruction 371/02.

i. Loans and Financing: These are restated by monetary and/or exchange variations and interest incurred until the quarter closing date. Equal restatement is applied to the guarantee contracts to hedge the debt.

j. Provisions for Contingencies: The contingency provisions are made based on a survey of the respective risks and they are quantified according to economic grounds and legal opinions on the contingency proceedings and facts known on the quarter closing date. The basis and nature of the provisions are described in Note 7.

k. Revenue Recognition: Revenues from services rendered are recognized when provided. Local and long distance calls are charged based on time measurement according to the legislation in force. Revenues from sales of payphone cards (Public Use Telephony - TUP), cell phones and accessories are recorded when delivered and accepted by the clients. For prepaid services linked to mobile telephony, the revenue is recognized in accordance with the utilization of services. Revenue is not recognized if there is a significant uncertainty in its realization.

l. Recognition Expense: Expenses are recognized on an accrual basis, considering their relation with revenue realization. Expenses related to future periods are deferred.

m. Financial Income (Expenses), Net: Financial income is recognized on an accrual basis and comprises interest earned on overdue accounts settled after the term, gains on financial investments and hedges. Financial expenses comprise interest incurred and other charges on loans, financing and other financial transactions.

Interest on shareholders' equity, when credited, is included in the financial expenses balance, and for financial statement presentation purposes, the amounts are reversed to profit and loss accounts and reclassified as a deduction of retained earnings, in the shareholders' equity.

n. Benefits to Employees: Private pension plans and other retirement benefits sponsored by the Company and its subsidiaries for their employees are managed under three foundations. Contributions are determined on an actuarial basis, when applicable, and accounted for on an accrual basis. As of December 31, 2001, the Company recorded its actuarial deficit on the balance sheet date against shareholders' equity, excluding the corresponding tax effects. As from 2002, as new actuarial revaluations show the necessity for adjustments to the provision, they are recognized in the profit and loss accounts. Additional information on private pension plans is described in Note 6.

o. Profit Sharing: The provision for employees and management profit sharing is recognized on an accrual basis, being accounted as operating expense. The calculation of the amount, which is paid in the subsequent year after the provision is recognized, is based on the target program established with the labor union, by means of collective labor agreement, in accordance with Law 10,101/00 and the Company's Bylaws.

p. Earnings or loss per share: Calculated based on the number of shares outstanding on the quarter closing date, which comprises the total number of shares issued, minus shares held in treasury.

4. RELATED PARTIES TRANSACTIONS

Related parties transactions refer to operations with Brasil Telecom Participações S.A., the Company's parent company, and with the subsidiaries mentioned in Note 1.

Operations between related parties and the Company are carried out under regular market prices and conditions. The main transactions are:

Brasil Telecom Participações S.A.

Sureties and Guarantees: (i) The Parent Company renders sureties as guarantee of loans and financing owed by the Company to the lending financial institutions. Until the quarter closing, related to the guarantee benefit, the Company posted expenses in favor of the Parent Company amounting to R\$ 2,702 (R\$ 2,442 in 2006); and (ii) the Parent Company renders surety for the Company, related to the contracting of insurance policies, guarantee of contractual liabilities (GOC), which amounted to R\$ 97,457 (R\$ 101,502 on 06/30/07). Up to the quarter, in return to such surety, the Company registered an operating expense of R\$ 88 (R\$ 198 in 2006).

Revenues and Accounts payable: arising from transactions related to share of resources. The balance payable is R\$ 1,052 (R\$ 1,287 payable on 06/30/07) and the amounts debited against the result, occurred in 2006, represented operating revenues of R\$ 337.

BrTI

Advances for Future Capital Increase (AFAC): the existing amount for AFAC granted is R\$ 6,695 (R\$ 6,695 on 06/30/07).

Amounts Receivable, Revenues and Expenses: resulting from transactions related to the utilization of facilities, logistics support and telecommunications services. The balance receivable is R\$ 11,171 (R\$ 16,417 to receive, on 06/30/07). The values posted against result up to the quarter represented R\$ 30,065 of operating income (R\$ 19,359 in 2006) and R\$ 38 of operating expenses (R\$ 17,649 in 2006).

BrT Celular

Amounts Payable, Revenues and Expenses: arising from transactions related to the utilization of facilities, logistics support and telecommunications services. The balance payable is R\$ 34,188 (R\$ 12,515 to pay, on 06/30/07). The amounts charged to income in the quarter represented R\$ 167,272 of operating revenue (R\$ 142,273 in 2006) and R\$ 321,689 of operating expenses (R\$ 266,939 in 2006).

VANT

Accounts Receivable, Revenues and Expenses: arising from transactions related to telecommunications services. The balance receivable is R\$ 2,126 (R\$ 5,608 to receive, on 03/31/07) and the amounts charges to income in the quarter represented R\$ 1,918 of operating revenue (R\$ 4,240 in 2006) and R\$ 922 of operating expenses (R\$ 1,458 in 2006).

Advances for Future Capital Increase: the existing amount for AFAC granted is R\$ 9,112 (R\$ 5,050 on 06/30/07).

BrT SCS Bermuda

Amounts Payable and Revenues: arising from transactions related to telecommunications services. The balance Payable is R\$ 1,932 (R\$ 395 to receive, on 06/30/07). The amounts charges to income in the quarter represented R\$ 160 of operating revenues (R\$ 123 in 2006).

BrT of America

Amounts Payable, Revenues and Expenses: resulting from transactions related to telecommunications services. The balance Payable is R\$ 2,434 (R\$ 115 to receive on 06/30/07). The amounts charges to income in the quarter represented R\$ 64 of operating revenues (R\$ 73 in 2006) and R\$ 5,094 of operating expenses (R\$ 5,115 in 2006).

BrT CS

Amounts Payable and Expenses: resulting from transactions related to telecommunications services; balance payable is R\$ 7,610 (R\$ 24 to pay, on 06/30/07). The amounts charges to income in the quarter are represented by operating revenue of R\$ 10 and operating expenses of R\$ 31,206 (R\$ 21,843 in 2006).

Freelance S.A.

Amounts payable, Revenues and Expenses: resulting from transactions related to telecommunications service provisioning. The balance payable is R\$ 5,034 (R\$ 378 to pay, on 06/30/07). The amounts charges to income in the quarter represented R\$ 4,169 of operating revenue (R\$ 3,550 in 2006) and R\$ 15,848 of operating expenses (R\$ 9,781 in 2006).

iG Brasil

Amounts Receivable, Revenues and Expenses: resulting from transactions related to telecommunications service provisioning. The balance receivable is R\$ 5,363 (R\$ 5,203 to receive, on 06/30/07). The amounts charges to income in the quarter represented R\$ 7,651 of operating revenues (R\$ 1,455 in 2006) and R\$ 3,709 of operating expenses (R\$ 1,409 in 2006).

BrT Multimídia

Amounts Payable, Revenues and Expenses: resulting from transactions related to telecommunications services. The balance Payable is R\$ 3,953 (R\$ 3,093 to receive on 06/30/07). The amounts charges to income in the quarter are represented by R\$ 229 of operating revenues (R\$ 609 in 2006) and R\$ 15,592 of operating expenses (R\$ 12,768 in 2006).

Advances for Future Capital Increase: the existing amount for AFAC granted is R\$ 27,130 (R\$ 23,000 on 06/30/07).

Other Related Parties Transactions

Due to the existence of a common partner in the control chain of the Company and the companies mentioned below, operations among them can be rated, under the terms of the Deliberation CVM 26/86, as related parties transactions .

TIM Celular

The Company and TIM Celular companies hold agreements related to the operation of telecommunication services, including the cession of means and co-billing agreements, as well as relations resulting from CSP. The value payable as a result from these transactions is R\$ 93,171 (R\$ 85,715 to pay, on 06/30/07). The amounts charged to income in the quarter represented R\$ 90,903 of operating revenues (R\$ 104,728 in 2006) and R\$ 412,377 of operating expenses (R\$ 392,924 in 2006).

5. MARKET VALUE OF FINANCIAL ASSETS AND LIABILITIES (FINANCIAL INSTRUMENTS) AND RISK ANALISYS

The Company and its subsidiaries assessed the book value of its assets and liabilities as compared to market or realizable values (fair value), based on information available and evaluation methodologies applicable to each case. The interpretation of market data regarding the choice of methodologies requires considerable judgment and determination of estimates to achieve an amount considered adequate for each case. Accordingly, the estimates presented may not necessarily indicate the amounts, which can be obtained in the current market. The use of different assumptions for calculation of market value or fair value may have material effect on the obtained amounts. The selection of assets and liabilities presented in this note took place based on their materiality. Instruments whose values approximate their fair values, for example, cash, bank accounts and high-liquid investments, accounts receivable, assets and liabilities of taxes, pension funds, among others, and whose risk assessment is not significant, are not mentioned.

In accordance with their natures, the financial instruments may involve known or unknown risks, and the potential of such risks is important for the best judgment. Thus, there may be risks with or without guarantees, depending on circumstantial or legal aspects. Among the principal market risk factors which can affect the Company's business are the following:

a. Credit Risk

The majority of services provided by the Company are related to the Concession Agreement, and a significant portion of these services is subject to the determination of fees by the regulatory agency. The credit policy, in its turn, in case of telecommunications public services, is subject to legal standards established by the concession authority. The risk exists since the Company may incur losses arising from the difficulty in receiving amounts billed to its clients. The Company's default up to the quarter was 2.06% (2.54% in 2006), taking into account the accounts receivable total losses in relation to gross revenue. For the Consolidated it was 2.23% (2.60% in 2006). By means of internal controls, the level of accounts receivable is constantly monitored, thus limiting the risk of past due accounts by cutting the access to the service (out phone traffic) if the bill is overdue for over 30 days. Exceptions are made for telephone services, which should be maintained for national security or defense.

The Company operates in co-billing, concerning long distance calls with the use of its CSP (Operator Selection Code) originated by subscribers of other fixed and mobile telephony operators. The co-billing accounts receivable are managed by these operators, based on the operational agreements entered into with them and according to the rules set forth by ANATEL. The blocking rules set forth by the regulating agency are the same for the fixed and mobile telephony companies, which are co-billing suppliers. The Company separately controls receivables of this nature and maintains an allowance for losses that may occur, due to the risks of not receiving such amounts.

Regarding mobile telephony, credit risk in cell phones sales and service rendering in the postpaid category is minimized with the adoption of a credit pre-analysis. Still regarding to postpaid service, whose client base at the end of the quarter was 21.3% of the total portfolio (23.6% in 06/30/07), the accounts receivable are also monitored in order to limit the default rate and blocking the service (out of phone traffic) when the bill is overdue for more than 15 days.

b. Exchange Rate RiskLiabilities

The Company has loans and financing contracted in foreign currency. The risk related to these liabilities arises from possible exchange rate fluctuations, which may increase these liabilities balances. Consolidated loans subject to this risk represent approximately 17.7% (18.3% on 06/30/07) of the total liabilities of consolidated loans and financing, minus the contracted hedge balances. In order to minimize this kind of risk, the Company has been entering into exchange hedge agreements with financial institutions. Of the debt installment consolidated in foreign currency, 52.4% (41.0% on 06/30/07) is covered by hedge operations in the exchange rate swap and dollar options mode and financial investments in foreign currency. Unrealized positive and negative effects in these operations are recorded against income as profit or loss.

Net exposure as per book and market values at the exchange rate risk prevailing on the quarter closing date was as follows:

	09/30/07		06/30/07	
	Book Value	Market Value	Book Value	Market Value
Liabilities				
Loans & Financing	642,334	669,150	707,525	738,906
Hedge Contracts	380,389	379,869	425,941	425,778
Total	1,022,723	1,049,019	1,133,466	1,164,684
Current	197,019	196,938	207,917	208,893
Long Term	825,704	852,081	925,549	955,791

The method used for calculating the market value (fair value) of swap instruments was future cash flows associated to each instrument contracted, discounted at market rates in force on the closing date of the quarter. For securities negotiable in organized markets, the market (fair) value is equivalent to the value of the last closing quotation available on the closing date of the quarter multiplied by the number of securities in circulation. For contracts in which the current contracting conditions are similar to those in which they have been originated, or that do not present parameters for quotation or contracting, market values are equal to accounting values.

c. Interest Rate RiskAssets

The Company has loans granted to the phone directory company, with interest indexed to the IGP-DI (a national index price), as well as loans resulting from the sale of property, plant and equipment to other telephony companies, remunerated by IPA-OG/Industrial Products of Column 27 (FGV). The Company also has Bank Deposit Certificates (CDBs) with Banco de Brasília S.A. related to the guarantee to credit benefit granted by the Federal District Government under a program called *Programa de Promoção do Desenvolvimento Econômico e Sustentável do Distrito Federal* PRO-DF, (Program to Promote the Economic and Sustained Development of the Federal District), and the remuneration of these securities is equivalent to 95% of the SELIC rate.

These assets are represented in the balance sheet as follows:

	PARENT COMPANY		CONSOLIDATED	
	09/30/07	06/30/07	09/30/07	06/30/07
Assets				
Loans subject to:				
IGP-DI	7,757	7,802	7,774	7,819

Total	8,870	8,896	11,619	11,578
Current	1,621	1,409	1,638	1,426
Long Term	7,249	7,487	9,981	10,152

Liabilities

The Company has loans and financing contracted in Brazilian currency subordinated to interest rates bound to indexing units. TJLP, UMBNDES, CDI and IGP/DI. The risk inherent to these liabilities arises in function of the eventual fluctuations in these rates. The Company has hedge contracts for 5.3% (9.3% on 06/30/07) of the obligations subject to the UMBNDES rate, in the exchange swap mode. However, there is ongoing monitoring on the other market rates, aiming at assessing the eventual contracting of instruments to protect against variation of these rates. Positive or negative effects not realized in these operations are entered in result as gain or loss.

In addition to loans and financing, the Company issued public debentures, non-convertible or exchangeable with shares. This liability has been contracted at interest rate bound to CDI and the risk on this liability arises in function of eventual rate increase.

The above mentioned liabilities on the quarter closing date are as follows:

	PARENT COMPANY			
	09/30/07		06/30/07	
	Book Value	Market Value	Book Value	Market Value

Current	457,425	461,638	574,705	579,999
Long Term	2,528,721	2,535,463	2,594,795	2,603,393

The method used for calculating the market value (fair value) of swap instruments was future cash flows associated to each instrument contracted, discounted at market rates in force on the closing date of the quarter. For securities negotiable in organized markets, the market (fair) value is equivalent to the value of the last closing quotation available on the closing date of the quarter, multiplied by the number of securities in circulation. For contracts in which the current contracting conditions are similar to those in which they have been originated, or that do not present parameters for quotation or contracting, market values are equal to accounting values.

d. Risk of Not Binding Monetary Restatement Indexes of Loans and Financing to Accounts Receivable

Loan and financing rates contracted by the Company are not bound to amounts of accounts receivable. Thus, a risk exists, since telephony fees adjustments do not necessarily follow increases in local interest rates, which affect the Company's debts.

e. Contingency Risks

Contingency risks are assessed according to loss hypotheses, as probable, possible or remote. Contingencies considered probable risks are recorded as liabilities. Details of these risks are presented in Note 7.

f. Risks Related to Investments

The Company has investments assessed by the equity equivalence and acquisition cost methods. Provisions are constituted for losses when the expected future cash flows from an investment induce to loss expectations.

The investments assessed by equity equivalence are represented by limited liability companies, for which there is no market value.

Investments assessed by acquisition costs are irrelevant in terms of total assets. The risks associated to them would not produce significant impacts for the Company in case of losses with these investments.

g. Financial Investment Risks

The company has temporary high-liquidity investments, in domestic currency, in financial investment funds (FIFs), and investments in its own portfolio of (based on post-fixed rates) private securities issued by first-tier financial institutions (CDBs). The FIFs portfolios are comprised of federal bonds (based on post-fixed, pre-fixed and foreign exchange rates) and CDBs issued by first-tier financial institutions (based on post-fixed rates). Funds may carry out non-leveraged derivative operations, aiming at protecting their portfolios and complying with the purposes established in their respective investment policies. The exposure to market risks is monitored everyday by the *VaR (Value at Risk)* methodology, which expresses the loss risk quantification in these investments.

The temporary high-liquidity investments, in foreign currency, are represented by overnight operations backed by securities issued by foreign financial institutions.

The short-term investments are represented by investments in securities issued by the Republic of Austria, with remuneration bound to CDI.

The investments in CDBs and overnight operations are subject to credit risk of the financial institutions. Investments in foreign currency are subject to exchange rate risk.

The balances of financial investments and short-term investments - temporary investments - are shown in Notes 17 and 18, respectively.

h. Risk of Early Maturity of Loans and Financing

Liabilities resulting from financing, mentioned in note 35, concerning agreements of BNDES, public debentures and most of them referring to financial institutions, have clauses that estimate the early maturity of liabilities or retention of amounts pegged to debt covenants, in the cases in which certain levels for certain indicators are not reached, such as ratios of indebtedness, liquidity, cash generation and others.

For the financing agreements maintained with BNDES, the Company must comply with a set of financial ratios and in the event of non-compliance with some of these ratios, the Bank is allowed to request the temporary block of amounts, given as guarantee in a blocked account.

All indicators set forth in agreements are being complied with, thus there are no sanctions or penalties set forth in the agreement clauses entered into upon the Company.

i. Regulatory Risks

Concession Agreements

Local and domestic long distance concession agreements were entered into by Brasil Telecom S.A. with Anatel, which took effect between January 1, 2006 and December 31, 2025. These new concession agreements, which provide for reviews on a five-year basis, in general have a higher intervention level in the management of the businesses and several provisions defending the consumer's interest, as noticed by the regulation body. The main highlights are:

Edgar Filing: BRASIL TELECOM SA - Form 6-K

- The burden of the concession defined as 2% of the net revenue from taxes, calculated every two years, started in 2006 fiscal year, whose initial payment occurred on April 30, 2007. This will successively occur until the end of the concession. This calculation method, concerning accrual, corresponds to 1% for each fiscal year;
- The definition of new universalization targets, particularly AICE – Special Class Individual Access, of mandatory and progressive offer and the Telecommunications Service Centers - PST, with full burden for the Concessionaire;
- The possibility of the Regulating Agency imposing alternative plans of mandatory offering;
- The introduction of Regulating Agency's right to intervene and modify agreements of the concessionaire with third parties;
- The inclusion of assets of the parent company, subsidiary, affiliated companies and third parties, indispensable to the concession, as reversible assets;
- The creation of the users' board in each concession;

The interconnection tariffs are defined as a percentage public local and domestic long distance tariff until the effective implementation of cost model by service/modality, estimated for 2008, as defined in the Regulation for Separation and Accounting Allocation (Resolution 396/05).

The amendment to the tariff method applicable to the STFC Basic Plan in the Local Modality Rendered under Public Scheme (PBS) – Conversion from Pulses to Minutes, and the implementation of the Alternative Service Plan of the Mandatory Offer (PASOO) shall be concluded in all areas of operations of the Company up to July 31, 2007, in compliance with the regulatory requirements defined by ANATEL set forth in Rules No. 423/05, 432/06 and 450/06. This change enables the clients selecting one of two service plans of mandatory offer (PBS and PASOO), as well as exercising the right of requesting details on their local calls in the telephone bills.

The Bill of the Senate (PLS) 103/2007 and the Bill 1,481/2007, under priority progress, to amend Law 9,394/96 and Law 9,998/00, provide for the access to information digital networks in educational institutions and enable the use of funds raised by FUST by all the telecommunication operators, or even on a decentralized basis, by means of agreements of the federal government with other states. On the date of the preparation of this quarterly information is not possible to assess the future impacts of these Bills under process on the Company's results.

Overlapping of Licenses

When the certification for achieving the universalization targets for 2003 was received, set forth by ANATEL, the Company had already been providing the fixed telephony service (STFC) in the intra-regional local and domestic long distance modalities (LDN) in the Region II of the General Concession Plan (PGO). After achieving the referred targets, ANATEL, in January 2004, issued authorizations that increase the possibility of Company's operation: Local STFC and LDN in the Regions I and III of the PGO (and a few sectors of the Region II); International Long Distance (LDI) in the Regions I, II and III of the PGO; mobile telephony, by means of the subsidiary 14 Brasil Telecom Celular S.A. (BrT Celular), in the Region II of the Personal Mobile Service (SMP). The already existing concession agreements were expanded, enabling LDN calls to any part of the Brazilian territory. If Telecom Italia International N.V. (TII) acquired an indirect interest in the Company, the Company and TIM Brasil Serviços e Participações S.A. (TIM) could be considered affiliates under the new Brazilian telecommunications legislation. That would imply the ability of providing domestic (LDN) and international (LDI) fixed and mobile telephony services throughout the same regions of TIM's, would be subject to risk of being partially closed by ANATEL. On January 16, 2004, ANATEL issued the Act 41,780 establishing an 18-month period for TII to reacquire an indirect interest in the Company, as long as TII did not participate or vote on issues related to the overlapping of services offered by the Company and TIM,

such as domestic and international long-distance and mobile services. On June 30, 2004, the Administrative Council of Economic Defense - CADE, in the records of the Write of Prevention 08700.000018/2004 -68, set forth restrictions to the exercise of the control rights on the part of Telecom Italia International N.V. and its representatives at the board of directors of Solpart Participações S.A., Brasil Telecom Participações S.A. and Brasil Telecom S.A.

On April 28, 2005, TII and TIM and the Company and BrT Celular entered into various corporate agreements, including an instrument called Merger Agreement and a Protocol related thereto. Among other reasons alleged, this merger operation was justified by the management of that time as possible solution to overlapping of regulatory licenses and authorizations with TIM, to remove sanctions and penalties, which could be imposed by ANATEL. The operation was forbidden by an injunction issued by the U.S. court. It is also subject-matter of discussion in the Brazilian Court and in arbitration involving controlling shareholders.

On July 7, 2005, ANATEL declared, by means of Act 51,450, that the counting of 18 month-term to solve the overlapping of licenses would start on the date of effective return of TII to the control group of Brasil Telecom S.A. On July 26, 2005, ANATEL, by means of Order 576/2005, declared that the counting of term had already started on April 28, 2005. Therefore, according to ANATEL, the interested companies shall adopt the measures necessary to eliminate the overlapping of the concessions until the end of referred term in October 2006, under the penalty of applying legal sanctions, which may affect either companies or both of them.

Depending on the final decision of ANATEL, these sanctions could have an adverse and material effect on businesses and operations of the Company and of 14 Brasil Telecom Celular S.A.

On October 18, 2006, the Board of Executive Officers of ANATEL, by means of its press agency, informed its previous consent to a new operation presented by Telecom Italia International (TII) with the purpose of unmaking the concession overlapping of the Personal Mobile Service (SMP) in Region II of the General Plan of Authorizations (PGA) and of the domestic and international long distance Switched Fixed Telephone Service (STFC) in regions I, II and III of the General Concession Plan (PGO).

This new operation comprised the transfer, to Brasilco S.r.l. (a wholly-owned subsidiary of TII, with headquarters in Italy), of the total voting shares held by TII in the capital stock of Solpart Participações S.A. (corresponding to 38%), the parent company of Brasil Telecom Participações S.A., of Brasil Telecom S. A. and of 14 Brasil Telecom Celular S. A. The stake of TII in Brasilco shall be managed independently by Credit Suisse Securities (Europe) Limited.

The Agency, upon its prior consent, maintained the prohibitions related to the vote and veto exercise in the resolutions related to the STFC services (LDN and LDI) and SMP.

With the effective implementation of the operation until October 28, 2006, the concession overlapping for the SMP exploitation in Region II of PGA and domestic and international long distance STFC in regions I, II and III of PGO would cease, as a communication of ANATEL of October 18, 2006, mentioned above.

On October 27, 2006, the Company received the terms of resignation, dated October 20, 2006, from two members of its Board of Directors pointed by TII, as well as its respective alternate members. Also, on October 27, 2006, the Company received a letter from its controlling shareholder, SOLPART PARTICIPAÇÕES S.A., informing that TII had already transferred the shares in the terms approved by Anatel - however, within the deadline. On October 30, 2006, the Company disclosed to the market a material fact related to these two topics.

Also on October 30, 2006, ANATEL, through its press agency announced that Telecom Italia International would file with ANATEL on October 27, 2006, therefore, within deadline, the supplementary documentation necessary to analyze and approve the new operation: (i) proof of Telecom Italia's managers and deputies' resignations in the Board of Directors of Brasil Telecom and Solpart Participações S.A.; and (ii) corporate documents related to the referred transfer of shares and to the independent management of Brasilco by Credit Suisse, in the capacity as Trustee of Telecom Italia.

Should Anatel's approval be confirmed (still pending) of the documentation presented by TII to the Agency on October 27, 2006, confirming the operation implementation until October 28, 2006, the concession overlapping for SMP exploitation in Region II of PGA and domestic and international long distance in regions I, II and III of PGO would cease.

On November 2006, TII submitted to Anatel the concentration act with Brasilco. During same month, Anatel, observing the procedural progress, it submitted this operation to the Administrative Council of Economic Defense - CADE.

On May 25, 2007, Anatel officially published the decision of granting to TIM new grants of STFC, this time under the local modality, in the Regions I, II and III of the General Concession Plan, (Act 65,152 as of May 24, 2007).

On July 18, 2007, Brasil Telecom Participações S.A. and Brasil Telecom S.A., jointly with 14 Brasil Telecom Celular S.A., Zain Participações S.A., Invitel S.A., Solpart Participações S.A., Techold Participações S.A., Caixa de Previdência dos Funcionários do Banco do Brasil - Previ, Petros - Fundação Petrobras de Seguridade Social, Fundação dos Economistas Federais - Funcef, Investidores Institucionais Fundo de Investimento em Ações, Fundação 14 de Previdência Privada, Fundação Vale do Rio Doce de Seguridade Social - Valia, Citigroup Venture Capital International Brazil, L.P., Citigroup Venture Capital International Brazil, Ltd., International Equity Investments Inc., Citibank, N.A., Priv Fundo de Investimento em Ações, Tele Fundo de Investimento em Ações, Angra Partners Consultoria Empresarial e Participações Ltda., on the one hand, and Telecom Italia International N.V., Telecom Italia S.p.A., Brasilco S.R.L., Credit Suisse Securities (Europe) Limited, Tim Brasil Serviços e Participações S.A. and Tim International N.V., on the other hand (Telecom Italia), signed a Mutual Waiver Agreement, by means of which the signatory parties undertake, provided that they are granted prior authorization of the proper corporate bodies and upon the effective acquisition by Previ, Petros and Funcef, or by Techold, as the case may be, of the entire shareholding represented by shares issued by Solpart held by Brasilco (Brasilco Shares) to waive pleadings and dismiss ongoing disputes at the Judiciary Branch and at international Arbitration Courts, involving the Companies and its shareholders, direct or indirect, on the one hand, and Telecom Italia and its subsidiaries, on the other hand.

With the Mutual Waiver Agreement, current and potential litigations involving Brasil Telecom and Brasil Telecom Participações and its subsidiaries and the companies of Telecom Italia Group, will be closed, among others, including the end of arbitrations aimed at nullifying the Incorporation Agreement of the controlled company BrT Celular, started on March 15, 2006, and mentioned in the relevant fact disclosed by the Companies on March 16, 2006.

Brasil Telecom S.A. and Brasil Telecom Participações S.A. also clarified, by means of material fact, that they are not parties of the Brasilco Share Purchase Agreement, and they are not parties of any other agreements which may have been entered into concurrently to the Mutual Waiver Agreement.

On October 11, 2007, Techold Participações S.A. exercise, in a irrevocable and indefeasible way, its right of preference to acquire all the shares issued by Solpart Participações S.A. and held by Brasilco S.r.l., as provisioned in the Solpart Shareholders Agreement, under the terms and conditions, and by the price, established in the Purchase Agreement of Shares and the Letter Agreement executed on July 18, 2007.

The effective acquisition of Brasilco Shares, which is subject to the approval by the Brazilian Telecommunications Agency - ANATEL and other conditions, will enable finishing the existing administrative proceedings in terms of telephony licensing overlaps (STFC, SMP, LDN and LDI) among the companies in the Brasil Telecom and Telecom Itália groups, thus eliminating at once the possibility of adverse material effect for the business and interests of the companies in the Brasil Telecom group.

6. BENEFITS TO EMPLOYEES

The benefits described in this note are offered to the employees of the Company and its direct or indirect subsidiaries. These companies are better described jointly, and can be referred to as **Brasil Telecom Companies** and for the purpose of the supplementary pension plan mentioned in this note, are also denominated **Sponsor** or **Sponsors** .

a. Supplementary Pension Plan

The Company sponsors supplementary pension plans related to retirement for its employees and assisted members, and, in the case of the latter, medical assistance in some cases. These plans are managed by the following foundations: (i) Fundação 14 de Previdência Privada (**Fundação 14**); (ii) Fundação BrTPREV (**FBrTPREV**) former CRT, a company merged by the Company on 12/28/00; and (iii) Fundação SISTEL de Seguridade Social (**SISTEL**), originated from certain companies of the former Telebrás System.

The Company's Bylaws stipulate approval of the supplementary pension plan policy, and the joint liability attributed to the defined benefit plans is bound to the acts signed with the foundations, with the agreement of the Secretaria de Previdência Complementar - SPC, where applicable to the specific plans.

The plans sponsored are valued by independent actuaries on the fiscal year closing date. In the case of the defined benefit plans described in this explanatory note, immediate recognition of the actuarial gains and losses is adopted. Liabilities are provided for plans which show deficits. This measure has been applied since the 2001 fiscal year, when the regulations of CVM Resolution 371/00 were adopted. In cases that show positive actuarial situations, no assets are recorded due to the legal impossibility of reimbursing these surpluses.

The characteristics of the supplementary pension plans sponsored by the Company are described below.

FUNDAÇÃO 14

Private Pension Fundação 14 was created in 2004 and since 3/10/05 has been in charge of the management and operation of the TCSPREV pension plan. On such a date, it entered into an administration agreement with SISTEL, so that the latter would provide management and operating services to the TCSPREV and PAMEC-BrT plans up to 9/30/06. From this date on, Fundação 14 took over the management and operation services of its plans.

Plans

TCSPREV (Defined Contribution, Liquidated Benefit and Defined Benefit)

This defined contribution and settled benefit plan was introduced on 2/28/00. On 12/31/01, all pension plans sponsored by the Company with SISTEL were merged, being exceptionally and provisionally approved by the Secretaria de Previdência Complementar - SPC of document sent to that Agency, due to the need for adjustments to the regulations. Thus, TCSPREV is comprised of defined contribution groups with settled and defined benefits. The plans that were merged into the TCSPREV were the PBS-TCS, PBT-BrT, BrT Management Agreement, and the Unusual Contractual Relation Instrument, and the conditions established in the original plans were maintained. In March 2003, this plan was no longer offered to the sponsors - new contracted ones. However, concerning the group of defined contribution, this plan started being offered as of March 2005. TCSPREV currently provides assistance to nearly 65.6% of the staff.

Contributions to this plan, by group of participants, are established based on actuarial studies prepared by independent actuaries according to regulations in force in Brazil, using the capitalization system to determine the costs. Currently, contributions are made by the participants and the sponsor only for the internal groups PBS-TCS (defined benefit) and TCSPREV (defined contribution). In the TCSPREV group, the contributions are credited in individual accounts of each participant, equally by employee and sponsor, and the basic contribution percentages vary between 3% and 8% of the participant's salary, according to participant's age and limited to R\$20,070.00 for 2007. Participants have the option to make additional contributions to the plan but without parity of the Company. In the case of the PBS-TCS group, the sponsor's contribution corresponds to 12% of the payroll of the participants; while the employees contribution varies according to the age, service time and salary. An entry fee may also be payable depending on the age of joining the plan. The sponsors are responsible for the cost of all administrative expenses and risk benefits.

PAMEC-BrT - Plano de Assistência Médica ao Complementado (Defined Benefit)

Destined for health care of retirees and pensioners subject to Grupo PBT-BrT, which was merged into TCSPREV on 12/31/01.

The contribution for this plan was fully paid in July 1998, through a single payment. New contributions are limited to future necessity to cover expenses, if that occurs..

FUNDAÇÃO SISTEL DE SEGURIDADE SOCIAL

The supplementary pension plan - PBS-A, which remains under SISTEL's management, comes from the period before the Telebrás Spin-off and assists participants who had the status of beneficiaries in January 2000. SISTEL also manages the PAMA/PAMA-PCE pension plan, formed by participants assisted by the PBS-A Plan, the PBS's plans segregated by sponsor in January 2000 and PBS-TCS - Internal Group, merged into the TCSPREV plan in December 2001.

Plans

PBS-A (Defined Benefit)

Maintained jointly with other sponsors subject to the provision of telecommunications services and destined for participants that had the status of beneficiaries on 1/31/00.

Contributions may occur in case of accumulated deficit. On 12/31/06, the actuarial appraisal date, the plan presented a surplus.

PAMA - Plano de Assistência Médica ao Aposentado / PCE - Plano de Coberturas Especiais (Defined Contribution)
Maintained jointly with other sponsors subject to the provision of telecommunications services and destined for participants that had the status of beneficiaries on 1/31/00, for the beneficiaries of the PBS-TCS Group, merged on 12/31/01 into TCSPREV (plan currently managed by Fundação 14) and for the participants of PBS's defined benefit plans sponsored by other companies, together with SISTEL and other foundations. According to a legal and actuarial appraisal, the Sponsor's responsibility is exclusively limited to future contributions. From March to July 2004 and from December 2005 to April 2006, an incentive optional migration of retirees and pensioners of PAMA took place for new coverage conditions (PCE). The participants who opted for the migration began to contribute to PAMA/PCE.

The contributions for this plan corresponding to 1.5% on payroll of active participants subject to PBS plans, segregated and sponsored by several sponsors company. In the case of Brasil Telecom, the PBS-TCS was merged into the TCSPREV plan on 12/31/01, and began to constitute an internal group of the plan. Contributions by retirees and pensioners who migrated to PAMA/PCE are also carried out.

FUNDAÇÃO BrTPREV

It is the manager originated from the plans sponsored by former CRT, company incorporated by the Company at the end of 2000. The main purpose of the Company sponsoring FBrTPREV is to maintain the supplementary retirement, pension and other provisions in addition to those provided by the official social security system to participants.

Plans

BrTPREV

Defined contribution plan and settled benefits, launched in October 2002, destined for the concession of pension plan benefits supplementary to those of the official pension plan and that initially assisted only employees subject to the Subsidiary Rio Grande do Sul. This pension plan remained open to new employees of the Company and its subsidiaries from March 2003 to February 2005, when its offering was suspended. Currently, BrTPREV provides assistance to nearly 24.6% of the staff.

Contributions to this plan are established based on actuarial studies prepared by independent actuaries according to the regulations in force in Brazil, using the capitalization system to determine costs. Contributions are credited in individual accounts of each participant, the employee's and Company's contributions being equal, the basic percentage contribution varying between 3% and 8% of the participation salary, according to the participant's age and limited to R\$20,761.00 for 2007. Participants have the option to make additional contributions to the plan but without parity of the sponsor. The sponsor is responsible for the administrative expenses and risk benefits.

Fundador - Brasil Telecom e Alternativo - Brasil Telecom

Defined benefits plans destined to provide supplementary social security benefits in addition to those of the official social security, closed to the entry of new participants. Currently, these plans assist approximately 0.14% of the staff.

The regular contribution by the sponsor is equal to the regular contribution of the participant, rates of which are variable rates according to age, service time and salary. With the Alternativo Plan - Brasil Telecom, the contributions are limited to three times the ceiling benefit of INSS and the participant also pays an entry fee depending on the age of joining the plan.

Actuarial Insufficiency of the Plans

The mathematical reserve to amortize, corresponding to the current value of the Company's supplementary contribution, as a result of the actuarial deficit of the plans managed by FBrTPREV, have the settlement within the maximum established period of twenty years, as from January 2002, according to Circular 66/SPC/GAB/COA from the Supplementary Pension Department dated 1/25/02. From this maximum term, remains fourteen years and three months for total liquidation, and in the current period to the quarter, an amount of R\$ 117,330 (R\$ 96,149 in 2006) has been already amortized.

b. Stock Call Option Plan for Management and Employees

The Extraordinary Shareholders Meeting held on April 28, 2000, approved the general plan to grant stock call options to officers and employees of the Company and its subsidiaries. The plan authorizes a maximum limit of 10% of the shares of each class of Company stock. Shares derived from exercising options guarantee the beneficiaries the same rights granted to other Company shareholders. The administration of this plan was entrusted to a management committee appointed by the Board of Directors, which decided only to grant preferred stock options. The plan is divided into two separate programs:

Program A

This program is granted as an extension of the performance objectives of the Company established by the Board of Directors for a five-year period. Up to the quarter closing date no option had been granted.

Program B

The exercise price is established by the management committee based on the market price of the shares on the date of the grant of option and will be monetarily restated by the IGP-M between the date of signing the contracts and the payment date.

The right to exercise the option is given in the way and terms presented as follows:

	First Grant		Second Grant		Third Grant	
	As from	Deadline	As from	Deadline	As from	Deadline
33%	01/01/04	12/31/08	12/19/05	12/31/10	12/22/05	12/31/11
33%	01/01/05	12/31/08	12/19/06	12/31/10	12/22/06	12/31/11
34%	01/01/06	12/31/08	12/19/07	12/31/10	12/22/07	12/31/11

The acquisition periods can be anticipated as a result of the occurrence of events or special conditions established in the option contract. Since December, 2004 until the quarter closing date options were not granted.

Information related to the general plan to grant call options is summarized below:

	09/30/07	
	Preferred Share Options	Average Exercise Price R\$
Initial balance in the quarter	261,679	13.00
Final balance in the quarter	261,679	13.00

There has been no granting of call options exercised until the quarter closing date and the representation of the options balance in relation to the total of outstanding shares is 0.05% (0.05% on 06/30/07).

Considering the hypothesis that the options will be fully exercised, the opportunity cost of the respective premiums, calculated based on the Black&Scholes method, for the Company would be R\$ 1,607 (R\$ 532 in 2006).

c. Other Benefits to Employees

Other benefits are granted to employees, such as: health/dental care, meal allowance, group life insurance, occupational accident allowance, sickness allowance, transportation allowance, and others.

7. PROVISIONS FOR CONTINGENCIES

a. Contingencies Liabilities

The Company and its subsidiaries periodically assess their contingency risks, and also review their lawsuits taking into consideration the legal, economic, tax and accounting aspects. The assessment of these risks aims to classifying them according to the chances of unfavorable outcome among the alternatives of probable, possible or remote, taking into account, as applicable, the opinion of the legal advisors.

For those contingencies, which the risks are classified as probable, provisions are recognized. Contingencies classified as possible or remote are discussed in this note. These proceedings are under discussion in the administrative or judicial spheres, in all the jurisdictions, from the initial to the extraordinary ones.

In a number of situations, due to legal requirement or as a caution measure, judicial deposits are made to assure the continuity of the proceedings in discussion. Judicial deposits related to risk contingencies of possible and remote loss are shown in Note 24.

We emphasize that, in some cases, similar subjects may be ranked in different risk degree rates, and this is justified by the facts and the peculiar status related to each proceeding.

Labor Claims

The provisions for labor claims include an estimate by the Company's management, supported by the opinion of its legal advisors, of the probable losses related to lawsuits filed by employees, former employees of the Company, and of service providers related to the labor matter.

Tax Suits

The provisions for tax contingencies refer especially to questions related to tax collection and resulting from divergent opinions between the legal counselors of the Company and Tax Authorities.

Civil Suits

The provisions for civil contingencies refers to an estimate of lawsuits related to contractual adjustments arising from Federal Government economic plans, and other cases related to community telephony plans and suit for damages and consumer lawsuits.

Classification by Risk LevelContingencies for Probable Risk

Contingencies for probable risk of loss, for which provisions are recorded under liabilities, have the following balances:

Nature	PARENT COMPANY		CONSOLIDATED	
	09/30/07	06/30/07	09/30/07	06/30/07
Provisions	1,056,416	1,033,744	1,108,107	1,083,540
Labor	439,249	456,874	446,390	464,131
Tax	213,068	201,012	244,223	231,149
Civil	404,099	375,858	417,494	388,260
Bound Judicial Deposits	(292,862)	(302,062)	(298,668)	(306,096)
Labor	(221,746)	(237,547)	(225,088)	(240,405)
Tax	(22,319)	(19,081)	(22,945)	(19,725)
Civil	(48,797)	(45,434)	(50,635)	(45,966)
Total Provisions, Net of Judicial Deposits	763,554	731,682	809,439	777,444

Judicial Deposits Bound on 12/31/06	(242,787)	(244,579)
Variations of Judicial Deposit	21,041	19,491
Subtotal II (Judicial Deposits)	(221,746)	(225,088)
Balance on 09/30/07, Net of Judicial Deposits	217,503	221,302

The main objects that affect the labor contingencies provisioned are the following:

- (i) Risk Premium - related to the claim of additional payment for hazardous activities, based on Law 7,369/85, regulated by Decree 93,412/86, due to the supposed risk of contact by the employee with the electric power system;
- (ii) Salary Differences and Consequences - related, mainly, to requests for salary increases due to supposedly unfulfilled union negotiations. The effects are related to the repercussion of the salary increase supposedly due on the other sums calculated based on the employees' salaries.
- (iii) Career Plan - related to the request for application of the career and salaries plan for employees of the Santa Catarina Branch (formerly Telesc), with promotions for seniority and merit, supposedly not granted by the former Telesc;
- (iv) Joint/Subsidiary Responsibility - related to the request to ascribe responsibility to the Company, made by outsourced personnel, due to supposed non-observance of their labor rights by their direct employers;
- (v) Overtime - refers to the pleading for salary and additional payment due to labor supposedly performed beyond the contracted work time;
- (vi) Reintegration - pleading due to supposed inobservance of employee's special condition, guaranteeing the impossibility of terminating labor contract without cause;
- (vii) Request for the application of regulation, which established the payment of the percentage incurring on the Company's income, attributed to the Santa Catarina Branch; and
- (viii) Supplement of FGTS fine arising from understated inflation - it refers to requests to supplement indemnification of FGTS fine, due to the recomposition of accounts of this fund by understated inflation.

Balance on 09/30/07, Net of Judicial Deposits	355,302	366,859

The lawsuits provisioned are the following:

- (i) Review of contractual conditions - lawsuit where a company which supplies equipment filed legal action against the Company, asking for a review of contractual conditions due to economic stabilization plans;
- (ii) Capital Participation Agreements - TJ/RS (court of appeals) has been firmly positioned as to the incorrect procedure previously adopted by the former CRT in lawsuits related to the application of a rule enacted by the Ministry of the Communications. Such lawsuits are positioned in various phases: lower courts, Court of Appeals and Superior Court of Justice;
- (iii) Client service centers - public civil actions, comprising the closing of client services centers;
- (iv) Free Mandatory Telephone Directories - LTOG's - lawsuits questioning the non-delivery of printed residential telephone directories; and
- (v) Other lawsuits - related to various lawsuits in progress, comprising civil liability suits, indemnifications for contractual termination and consumer matters under procedural progress in the Special Courts, Courts of Law and Federal Courts throughout the country.

Contingencies for Possible Risk

The composition of contingencies with risk level considered to be possible, and therefore not recorded in the accounts, is the following:

Nature	PARENT COMPANY		CONSOLIDATED	
	09/30/07	06/30/07	09/30/07	06/30/07
Labor	533,955	521,845	538,837	526,499
Tax	2,328,199	2,261,832	2,398,199	2,330,098
Civil	773,026	706,081	817,885	750,596
Total	3,635,180	3,489,758	3,754,921	3,607,193

Labor

Variations occurred in 2007:

Amount determined on 12/31/06	PARENT COMPANY	CONSOLIDATED
	Monetary Restatement	
Revaluation of Contingent Risks		479,608
New Shares		50,166
		(65,529)
Amount estimated on 09/30/07		538,837

The main objects that comprise the possible losses of a labor nature are related to joint/subsidiary responsibility, supplement of FGTS indemnifying fine resulting from understated inflation, risk premium, promotions and the request for remuneration consideration for work hours supposedly exceeding the regular workload of hours agreed also contributed to the amount mentioned.

Tax

Variations occurred in 2007:

PARENT COMPANY	CONSOLIDATED	
Amount determined on 12/31/06	2,084,379	2,145,398
Monetary Restatement	183,957	189,369
Revaluation of Contingent Risks	(50,132)	(47,450)
New Shares	109,995	110,882
Amount estimated on 09/30/07	2,328,199	2,398,199

The major existing suits are represented by the objects below:

- (i) INSS additional fiscal assessments on the addition of captions in the contribution salary supposedly due by the company;
- (ii) Additional fiscal assessments promoted by the Secretaria da Receita Federal (Federal Revenue Secretariat), resulting from divergences between DCTF and DIPJ;
- (iii) Public civil suits questioning the supposed transfer of PIS and COFINS taxes to end consumers;
- (iv) ICMS incurring on international calls, which tax responsibility for the collection is assigned to other operator;
- (v) ICMS - credit and respective tax rate differential in interstate acquisitions made by the Company;
- (vi) ICMS - additional fiscal assessments on the supposed incurrence of tax on the activities described in the Agreement No. 69/98;
- (vii) IR-Withheld at Source - on operations related to the protection for debt coverage;
- (viii) Universalization Fund for Telecommunications Service - FUST - in terms of illegal retroactivity, according to the comprehension of the Company, of the effects from the change of interpretation of its calculation basis by ANATEL; and
- (ix) ISS - supposed incurrence on communications auxiliary services and discussion on services taxed by the cities listed in the Complementary Law No. 116/2003.

Civil

Variations occurred in 2007:

PARENT COMPANY	CONSOLIDATED	
Amount determined on 12/31/06	565,896	606,938
Monetary Restatement	48,365	51,300
Revaluation of Contingent Risks	(68,155)	(88,012)
New Shares	226,920	247,659
Amount estimated on 09/30/07	773,026	817,885

The major existing suits are represented by the objects below:

- (i) Repayments resulting from Community Telephony Program lawsuits (PCT) - the plaintiffs intend to repay in lawsuits related to the contracts resulting from the Community Telephony Program. Such proceedings are positioned in various phases: lower courts, Court of Appeals and Superior Court of Justice.
- (ii) Lawsuit for damages and consumer; and
- (iii) Contractual - Lawsuits related to the claim for a percentage resulting from the Real Plan, to be applied to a contract for rendering of services, review of conversion of installments in URV and later in reais, related to the supply of equipment and rendering of services.

Letters of Guarantee

The Company holds contracts for letters of guarantee executed with financial institutions, as a complementary guarantee for judicial proceedings in provisional foreclosure and for attending bidding processes with ANATEL. The total amount of guarantees contracted and in force on the closing date corresponds to R\$ 1,124,821 (R\$ 790,279 on 06/30/07) and R\$ 1,144,924 (R\$ 810,653 on 06/30/07) for consolidated purposes. The commission charges in these contracts are based on market rates.

b. In-progress Contingencies

As follows, the tax claims promoted by the Company are shown, through which the recovery of tax paid is claimed, calculated differently from interpretation sustained by its legal advisers.

PIS/COFINS: judicial dispute about the application of Law 9,718/98, which increased the calculation basis for PIS and COFINS. The period comprised by the Law was from February 1999 to November 2002 for PIS and from February 1999 to January 2004 for COFINS. In November 2005, STF (Federal Supreme Court) concluded the judgment of certain lawsuits dealing with such issue and considered unconstitutional the increase of calculation basis introduced by said Law. Part of the lawsuits filed by the Company and the concessionaires of STFC Region II of the Granting Plan, merged into the Company in February 2000, became final and unappealable in 2006, referring to the increase in COFINS calculation basis. The Company is awaiting the judgments of lawsuits of other merged companies, which the assessment of success in future filing of appeals is assessed as probable by the Company's legal advisers. The amount attributed to outstanding contingency not recognized on an accounting basis, referring to these lawsuits amounts to R\$ 17,150 (R\$ 16,985 em 06/30/07).

8. SHAREHOLDERS EQUITY

a. Capital Stock

At the Shareholders General Meeting, held on April 10, 2007, the grouping of shares representing the capital stock of the Company was approved. Resulting from this process, The shares will be grouped at the ratio of one thousand (1,000) share per one (1) share, and the capital stock will be represented by 249,597,049 common shares and 311,353,240 preferred shares, totaling 560,950,289 shares issued, and of which total amount 13,678,100 preferred shares will be kept in treasury.

The Company is authorized to increase its capital stock, according to a resolution of the Board of Executive Officers, in a total limit of eight hundred million (800,000,000) common or preferred shares, observing the legal limit of two thirds (2/3) for the issue of new preferred shares without voting rights.

By means of a resolution of the General Shareholders' Meeting or the Board of Executive Officers, the Company's capital may be increased by the capitalization of retained earnings or reserves prior to this allocated by the General Shareholders' Meeting. Under these conditions, the capitalization may be effected without modifying the number of shares.

The capital stock is represented by common and preferred stocks, with no par value, and it is not mandatory to maintain the proportion between the shares in the case of capital increases.

By means of a resolution of the General Shareholders' Meeting or the Board of Executive Officers, the preemptive right for the issue of shares, subscription bonuses or debentures convertible into shares may be excluded, in the cases stipulated in article 172 of Corporate Law.

The preferred shares do not have voting rights, except in the cases specified in paragraphs 1 to 3 of article 12 of the Bylaws, but are assured priority in receiving the minimum non-cumulative dividend of 6% per annum, calculated on the amount resulting from dividing the capital stock by the total number of the Company's shares or 3% per annum, calculated on the amount resulting from dividing the net book shareholders' equity by the total number of the Company's shares, whichever is greater.

Subscribed and paid-up capital as of the date of the end of the quarter is R\$ 3,470,758 (R\$ 3,470,758 on 06/30/07), represented by shares without par value as follows:

Share Type	Total Shares		Treasury Stock		Outstanding Shares	
	09/30/07	06/30/07	09/30/07	06/30/07	09/30/07	06/30/07
Common	249,597,049	249,597,049	-	-	249,597,049	249,597,049
Preferred	311,353,240	311,353,240	13,678,100	13,678,100	297,675,140	297,675,140
Total	560,950,289	560,950,289	13,678,100	13,678,100	547,272,189	547,272,189

	09/30/07	06/30/07
Book Value per Outstanding Share (R\$)	10.74	10.37

Preferred shares maintained in treasury are deducted when determining the net equity value.

b. Treasury Stock

Treasury stocks derive from Stock Repurchase Programs, carried out between 2002 and 2004. On 9/13/04, the material fact of the current proposal approved by the Company's Board of Executive Officers was published, for the repurchase of preferred stocks issued by the Company, for holding in treasury or cancellation, or subsequent sale.

The status of treasury stocks is the following:

	09/30/07		06/30/07	
	Preferred Shares	Amount	Preferred Shares	Amount
Initial balance in the quarter	13,678,100	154,692	13,678,100	154,692
Final balance in the quarter	13,678,100	154,692	13,678,100	154,692

History cost in the acquisition of treasury stock (R\$ per share)	06/30/07	06/30/07
Weighed Mean	11.31	11.31
Minimum	10.31	10.31
Maximum	13.80	13.80

The unit cost in the acquisition considers the totality of stock repurchase programs.

Until the quarter closing date, there were no disposals of preferred shares purchased based on repurchase programs.

Market Value of Treasury Stocks

The market value of treasury stocks on the quarter closing date was the following:

	09/30/07	06/30/07
Number of preferred shares in treasury	13,678,100	13,678,100
Quotation per share on BOVESPA (R\$)	17.30	14.09
Market Value	236,631	192,724

The Company keeps the balance of treasury stocks in a separate account. For presentation purposes, the values of treasury stocks are deducted from the reserves that originated the repurchase, and are presented as follows.

	Share Subscription Premium		Other Capital Reserves	
	09/30/07	06/30/07	09/30/07	06/30/07
Account Balance of Reserves	458,684	458,684	123,334	123,334
Treasury Stocks	(99,822)	(99,822)	(54,870)	(54,870)
Balance, Net of Treasury Stocks	358,862	358,862	68,464	68,464

c. Capital Reserves

Capital reserves are recognized in accordance with the following practices:

Reserve for Premium on Subscription of Shares: results from the difference between the amount paid on subscription and the portion allocated to capital.

Reserve for Donations and Subsidies for Investments: registered as a result of donations and subsidies received, the contra entry of which represents an asset received by the Company.

Reserve for Special Monetary Restatement as per Law no 8,200/91: registered as a result of special monetary restatement adjustments of permanent assets to compensate the distortions in the monetary restatement indices prior to 1991.

Other Capital Reserves: formed by the contra entry of the interest on works in progress up to 12/31/98 and funds invested in income tax incentives.

d. Profit Reserves

The profit reserves are recognized in accordance with the following practices:

Legal Reserve: allocation of five percent of the annual net income up to twenty percent of paid-up capital or thirty percent of capital plus capital reserves. The legal reserve is only used to increase capital stock or to absorb losses.

Retained Earnings: recorded at the end of each fiscal year, they are composed of remaining balances of net income or loss for the year, adjusted according to the terms of article 202 of Law no 6,404/76, or by the recording of adjustments from prior fiscal years, if applicable.

e. Dividends and Interest on Shareholders Equity

Dividends are calculated at the end of the fiscal year. Mandatory minimum dividends are calculated in accordance with article 202 of Law 6,404/76, and the preferred or priority dividends are calculated in accordance with the Company's Bylaws.

As a result of a resolution by the Board of Executive Officers, the Company may pay or credit, as dividends, interest on shareholders' equity (JSCP), under the terms of article 9, paragraph 7, of Law 9,249, as of 12/26/95. The interest paid or credited will be offset with the minimum mandatory annual dividend amount, in accordance with article 43 of the Company's Bylaws.

The interest on shareholders' equity credited to shareholders and which shall be attributed to dividends, net of income tax, as part of the proposal to allocate results for the fiscal year to close at 2007 year-end, to be submitted for approval of the General Shareholders' Meeting, was the following:

	09/30/07	09/30/06
Interest on Shareholders' Equity - JSCP -Credited	245,000	245,000
Common Shares	111,738	111,738
Preferred Shares	133,262	133,262
Withholding Income Tax (IRRF)	(36,750)	(36,750)
Net Interest on Shareholders' Equity	208,250	208,250

The following table shows the periods in which the deferred tax assets corresponding to income tax and social contribution on net income are expected to be realized, which are derived from temporary differences between book value on the accrual basis and the taxable income, as well as in the tax loss and in the negative basis of social contribution, when existing. The realization periods are based on a technical study that used forecast future taxable income, generated in fiscal years when the temporary differences will become deductible expenses for tax purposes. These assets are recorded in accordance with CVM Instruction 371/02 requirements, and at the closing of the fiscal years the technical study is submitted to the approval of the board of executive officers and the Board of Directors, as

well as its examination by the finance committee.

Current	237,380	279,211
Long-term	542,417	1,195,659

The recoverable amount expected after 2016 is a result of a provision to cover an actuarial insufficiency of pension plans that is being settled according to the maximum remaining period of 14 years and 6 months, in line with the period established by the Supplementary Pension Department (SPC). Despite the time limit stipulated by the SPC and according to the estimated future taxable income, the Company presents conditions to fully offset the deferred taxes in a period lower than ten years, if it opts to fully anticipate the payment of the debt. Tax credits in the amount of R\$139,211, attributed to the Consolidated, were not recorded due to the non-existence of necessary requirements for the history and/or future forecast of taxable income in VANT, BrT Multimídia and BrT CS, companies controlled by the Company.

Other Taxes Recoverable

They are comprised of federal withholding taxes and payments made, calculated based on legal estimates, which will be offset against future tax obligations. The ICMS recoverable arises, for the most part, from credits recorded in the acquisition of fixed assets, whose compensation with ICMS payable may occur in up to 48 months, according to Supplementary Law 102/00.

23. INCOME SECURITIES

Represented by bank deposit certificates (CDB) of Banco de Brasília S.A. BRB, remunerated with 94% and 95% of SELIC rate, maintained as guarantee of the financing obtained through *Programa de Promoção do Desenvolvimento Econômico e Sustentável do Distrito Federal* (Program to Promote Integrated Economic and Sustainable Development of the Federal District - PRÓ-DF). These income securities will be kept during the period of utilization and amortization of financing (liability), whose grace period establishes the first payment for year 2019, payable in 180 monthly, consecutive installments. This asset may be used to pay the final installments of that financing.

(1) It includes exchange variation, bound to investment abroad.

The investments that the Company had in BrT SCS Bermuda were transferred to BrTI on September 1, 2006, who paid back as a capital increase in favor of the Company.

The subsidiary Santa Bárbara dos Pinhais S.A. is a wholly-owned subsidiary, the shareholders' equity of which is R\$ 399 (R\$ 3 on 06/30/07), and is not operating.

Equities assessed using the cost of acquisition: correspond to shareholding obtained by converting shares or capital quotas of the tax incentive investments in the FINOR/FINAM regional programs, the Incentive Law for Information Technology Companies, and the Audiovisual Law. The amount is predominantly composed of shares of other telecommunications companies located in the regions covered by the regional incentives.

Fiscal incentives: arise from investments in FINOR/FINAM and audiovisual funds, originated in the portions allocated to income tax due.

Other investments: are related to collected cultural assets.

Insurances

The Company holds insurance policy programs for covering revertible assets, loss of profits and contractual guarantees, as established in the Concession Agreement executed with the public power, and civil liability for telephony service operations.

The assets, liabilities and interests covered by insurance are:

Mode	Scope	Insured Value	
		09/30/07	06/30/07
Operating Risks	Buildings, machines and equipment, premises, call centers, towers, infrastructure and IT equipment	12,698,975	12,698,975
Loss of Profits	Fixed expenses and net profit	8,669,400	8,669,400
Contractual guarantees	Fulfillment of contractual obligations	89,405	89,405
Civil Liability	Telephony service operations	12,000	12,000

There is also an insurance coverage related to civil liability of managers, supported by a policy of Brasil Telecom Participações S.A., related to the Holding Company and Company, which total value is equivalent to US\$ 50,000,000.00 (fifty million American dollars).

There is no insurance coverage for the optional civil liability, related to casualties with vehicles of the Company, involving third parties.

Financing denominated in domestic currency: bear of (i) fixed interest of 2.4% per year at 11.5% per year, resulting in a weighed average rate of 7.22% per year; and (ii) variable interest based on TJLP plus 2.3% to 6.5% per year, UMBNDES plus 5.9% to 6.5% per year, 104% of CDI, resulting in a weighed average rate of 11.04% per year.

Financing denominated in foreign currency: bear of (i) fixed interest of 1.75% to 9.38% per year, resulting in a weighed average rate of 9.35% per year; and (ii) variable interest of 0.5% per year over LIBOR and 1.92% per year over YEN LIBOR, resulting in a weighed average rate of 3.29% per year. LIBOR and YEN LIBOR rates on 09/30/07, for semestral payments, were 5.4% per year and 1.0825% per year, respectively.

Public Debentures:

Forth Public Issue: 108,000 debentures not convertible into shares without renegotiation clause, for the unit face value of R\$10, amounting to R\$1,080,000 on July 1, 2006. The payment term is seven years, maturing on June 1, 2013. The remuneration corresponds to the interest rate of 104.0% of CDI and its payment periodicity is semiannual. Amortization, which shall indistinctly consider all debentures, will occur annually as from June 1, 2011, in three installments of 33.3%, 33.3% and 33.4% of the unit face value, respectively. On the quarter closing date there were no issuance debentures in Treasury.

Payment schedule

The long-term debt is scheduled to be paid in the following fiscal years:

Guarantees

Certain loans and financing contracted are guaranteed by collateral of pledge of credit rights derived from the provision of telephony services and the Parent Company's surety.

The Company has hedge contracts on 52.1% of its U.S. dollar-denominated and yen loans and financing with third parties and 5.3% of the debt in UMBNDDES (basket of currencies) with the BNDES, to protect against significant fluctuations in the quotations of these debts restatement factors. On the closing date of the quarter, taking into account the hedge operations and foreign currency investments, the Company had an effective exposure of 11.4% (14.0% on 06/30/07). The gains and losses on these contracts are recognized on the accrual basis.

Public debentures have personal guarantee, through surety granted by Brasil Telecom Participações S.A. According to the deed of issue, the Parent Company, in the capacity as intervening guarantor undertakes before the debenture holders as primary obligor and guarantor, to be jointly liable for all obligations assumed by the Company related to such debentures.

36. LICENCES AND CONCESSIONS TO EXPLOIT SERVICES

	CONSOLIDATED	
	09/30/07	06/30/07
Personal Mobile Service	295,298	283,357
Other Licences	10,770	10,177
Total	306,068	293,534
Current	74,927	71,873
Long -term	231,141	221,661

The licenses for Personal Mobile Services (SMP) are represented by the terms signed, in 2002 and 2004, by the subsidiary 14 Brasil Telecom Celular S.A. with ANATEL, to offer SMP Services for the next fifteen years in the same area of operation where the Company has a concession for fixed telephony. Out of the contracted value, 10% was paid at the time of signing the contract, and the remaining balance was fully recognized in the subsidiary's liabilities to be amortized in equal, consecutive annual installments, with maturities foreseen for the years 2007 to 2010 (balance of four installments), and 2008 to 2012 (balance of five installments), depending on the fiscal year when the agreements

were executed. The remaining balance is adjusted by the variation of IGP-DI, plus 1% per month.

The amount of other licenses pertains to BrT Multimídia and refers to the authorization granted to the use of radiofrequency blocks associated with the exploitation of multimedia communication services. Initially, such granting was obtained from ANATEL by VANT and on April 2006 the transfer registration to BrTMultimídia took place, which assumed the outstanding balance, with a variation of the IGP-M, plus 1% a month. The settlement of the balance of such obligation will be paid in four equal, consecutive and annual installments, falling due in May.

37. PROVISIONS FOR PENSION FUNDS

They refer to the recognition of the actuarial deficit of the pension plans of defined benefit managed by FBrTPREV and the pension plan managed by Fundação 14 appraised by independent actuaries in accordance with CVM Resolution 371/00. Such sponsored plans are detailed in Note 6.

Self-financing funds - Rio Grande do Sul branch

They correspond to the credits of capital participation, paid by engaged subscribers, for acquisition of the right of use of switched fixed telephone service, still under the elapsed self-financing modality. It happened that, as the shareholders of the Company had fully subscribed the capital increase made to repay in shares the credits for capital participation, there were no unsold shares to be delivered to the engaged subscribers. Part of these engaged subscribers, who did not accept the Company's Public Offering for return of the referred credits in cash, as established in article 171, paragraph 2, of Law no. 6,404/76, are awaiting resolution of the ongoing lawsuit, filed by the Public Prosecution Service and Other, aiming at reimbursement in shares.

40. FUNDS FOR CAPITALIZATION

The expansion plans (self-financing) were the means by which the telecommunications companies financed part of the network investments. With the issue of Administrative Rule no 261/97 by the Ministry of Communications, this mechanism for raising funds was eliminated, and the existing amount of R\$7,974 (R\$7,974 on 06/30/07) derives from plans sold prior to the issue of the Administrative Rule, the corresponding assets to which are already incorporated in the Company's fixed assets through the Community Telephony Plant - PCT. For reimbursement in shares, it is necessary to await the judicial ruling on the suits brought by the interested parties.

41. INFORMATION PER BUSINESS SEGMENT - CONSOLIDATED

Information per segments is presented in relation to the Company and its subsidiaries' business, which was identified based on their performance and management structure, as well as the internal management information.

The operations carried out among the business segments presented were based on conditions equivalent to the market.

Edgar Filing: BRASIL TELECOM SA - Form 6-K

The income by segment, as well as the equity items presented, takes into consideration the items directly attributable to the segment, also taking into account those which can be allocated on reasonable basis.

42. SUBSEQUENT EVENTS

Relevant Fact

The joint relevant fact is shown below, regarding the Company and Brasil Telecom Participações S.A., disclosed after the closing date of the quarter, and is related to the subject described in the explanation note No. 5.i - Regulatory Aspect Risk - Overlapping of Licenses.

Relevant fact disclosed on October 16, 2007:

"**Brasil Telecom Participações S.A.** and **Brasil Telecom S.A.**, based on art. 157 of Law No. 6,404/76, and Instruction CVM No. 358/02, transcribe hereby the Relevant Fact disclosed by their shareholders on October 15, 2007, with the relevant clarifications on the transaction value and other conditions, as follows:

**TECHOLD PARTICIPAÇÕES
S.A. PUBLICLY TRADED COMPANY
CNPJ No. 02.605.028/0001 -88
NIRE No. 33.3.0026046 -3**

RELEVANT FACT

TECHOLD PARTICIPAÇÕES S.A. ("Techold" or "Company"), by fulfilling the dispositions in § 4, article 157 of Law No. 6.404/76 and Instruction CVM No. 358/02 and further changes, and considering the Relevant Fact disclosed on October 19 this year, inform that on October 11, 2007, the Company exercised, in an irrevocable and indefeasible way, its preference right of acquiring all the shares issued by Solpart Participações S.A. ("Solpart"), held by Brasilco S.r.l. ("Brasilco Shares"), as provisioned in the Solpart Shareholders Agreement, under the terms and conditions, and by the price, defined in the "*Share Purchase Agreement*" and "*Letter Agreement*", executed on July 18, 2007.

The Company will provide more information as soon as the acquisition of Brasilco Shares is finished.

Rio de Janeiro, October 15, 2007.

TECHOLD PARTICIPAÇÕES S.A.

Mariana Sarmiento Meneghetti
Director of Investor Relations"

Brasília, October 16, 2007.

Utilization Rate	77.8%	78.4%	-0.6 p.p.

Brasil Telecom launched new plans and promotions, which resulted in a loyalty increase of fixed telephony clients in this quarter. **Brasil Telecom developed as new positioning for fixed telephony, aiming at valuing it, which has been converted to family telephone in the communication campaigns.** In addition, it promoted improvements in its client retention programs, by creating the new Brasil Total and Brasil Total Negócios offerings, with packages

including local fixed telephony, DDD, intelligent services, mobile telephony and broadband.

In 3Q07, Brasil Telecom had 3.5 million lines in alternative local fixed telephony plans, which means an increase of 26.6% when compared to 3Q06, as a result from the strategy of approaching the market in a more segmented way, by encouraging the adoption of alternative plans. As determined by Anatel, Brasil Telecom finished successfully the conversion from pulses to minutes on July 31, 2007, with no negative impacts on the local fixed telephony income, due to the optimal adhesion of the clients to alternative plans, with billing mode in minutes, equivalent to the previous model in pulses.

Among the alternative plans offered, we highlight the "Conta Completa" plan, which leveraged the sales of alternative plans with a share of more than 60% of the sales mix in 3Q07. This plan enables the clients to select free minutes franchise according to their utilization profile, for each call type: local for fixed telephone, mobile and long distance.

The commercial area focused on advanced fixed telephony, including products such as Virtual PABX and Net Virtual PABX, which do not require investment from clients and offer the functions of traditional PABX, such as monthly services, and evidence the strategy success of Brasil Telecom in offering high-value services. This strategy has been strengthened with the launching of VIP Report CNG (Non-Geographical Codes), which offers to the client advanced reports to manage products such as DDG 0800, favoring even more the client loyalty to Brasil Telecom solutions.

Brasil Telecom also offers alternative long distance plans, and had 747,9 clients at end of 3Q07, which means an increase of 53.2% when compared to 3Q06.

At the end of 3Q07, Brasil Telecom plant were comprised by 10.4 million lines installed, 8.1 million of them in service, representing utilization rate of 77.8% . At end of 3Q07, Brasil Telecom had 7,862.1 lines active and 202.1 lines blocked.

Traffic

Operational Data	3Q07	2Q07	3Q07/2Q07 (%)
Exceeding Pulses (million)	378	1,217	-69.0
Exceeding Minutes (million)	2,107	500	321.6
VC-1 (million minutes)	673	698	-3.5
Minutes Long Distance (million)	1,366	1,382	-1.1
Long Distance	1,070	1,061	0,8
VC-2	172	175	-1.5
VC-3	124	146	-14.7

Local Pulses and Exceeding Minutes

The conversion from pulse to minutes billing changed significantly the traffic profile from this quarter. For comparison purposes and using the utilization profile at Brasil Telecom, the conversion factor of the basic home plan was on average 1.7 minutes, non-home was 1.5 minutes and alternative was 4.0 minutes.

It is important emphasizing that the ongoing increase in adhesion to alternative plans leads to the reduction of the exceeding traffic over the free minutes franchise, because the clients are prone to adopt plans according their use profile.

VC-1

VC-1 traffic totaled 673.4 million minutes in 3Q07, 6.7% lower than 3Q06, in function of the fixed-mobile replacement.

Long Distance Traffic

There was a reduction of 3.1% in long distance traffic in 3Q07, when compared to 3Q06. However, this drop is partially compensated in the revenues by the increase of the number of clients that entered in long distance alternative plans, and also by the increase of VC-2 and VC-3 traffic, due to strategic partnerships. **These adhesions to alternative domestic long distance plans (LDN) were especially supported on the "14 Simples" plan.** "14 Simples" plan offers a 30-min package for the client in order to make LDN calls from fixed telephone to fixed telephone, at anytime of the day and to any place in Brazil, by a very affordable value. CSP 14 repositioning, highlighting the importance of voice in the transmission of feelings and approach among people, has also contributed to motivate the adhesion to alternative plans.

LD Market Share

In 3Q07, Brasil Telecom held its leadership position and achieved an **average market share of 85.5% in intra-regional segment. In the intra-sectorial segment, Brasil Telecom achieved 90.2% of market share. Brasil Telecom maintained in 3Q07 the 63.7% of market share in inter-regional segment and increased in 3Q07, 1.4 p.p. in the international segment, reaching 37.4% of market share.**

Mobile Telephony

Operational Data	3Q07	2Q07	3Q07/2Q07 (%)
Clients (1,000)	4,024	3,769	6.8

Commutation and Control Centers (CCCs)	11	10	10.0
Employees	605	610	-0.8

Mobile Accesses

Mobile telephony reached 4,023.8 mobile accesses in service, which represented net addition of 255.3 accesses in 3Q07. **At end of 3Q07, the client portfolio of BrT Móvel was 31.9% greater than that in 3Q06, versus an increase of 17.6% of the Brazilian market in the same period.**

At end of September 2007, **the mobile plant was comprised by 856.8 post-paid subscribers (21.3% of BrT Móvel client base) and 3,167.0 prepaid clients.**

Gross additions in 3Q07 were 642.7 accesses, 45.1% over 3Q06. The number of gross additions of 3Q07 also exceeded the previous quarter, which is traditionally the top second of the year in function of the Mother's Day. This result reflects the success of the plans and promotions offered by BrT Móvel and the capillarity increase of the points of sale.

Promotions have been created, aiming at encouraging on-net traffic or call reception, in order to generate interconnection revenues, such as "Fale de Graça com Outras Operadoras". Among the promotions for the Father's Day, we have "Fale de Graça à Noite" and "Fale de Graça do Orelhão". And, in the post-paid segment, the promotion: "Fale de Graça aos Domingos" was launched.

Coverage Area

At the end of 3Q07, **BrT Móvel covered 841 locations, servicing 87% of the population in Region II.**

BrT Móvel has maintained the strategy of growing with profitability, by reducing costs and following the market at subsidies level. **The client acquisition cost (SAC) of BrT Móvel was R\$85.1, 42.6% lower when compared to the figures in 3Q06**, confirming the strategy of focusing growth of the base without impairing its profitability. In this quarter, BrT Móvel was pioneer in launching the "ultra low cost" handset, sold by R\$49. to encourage prepaid sales.

DATA**Broadband**

Operational Data	3Q07	2Q07	3Q07/2Q07 (%)
ADSL Accesses (1,000)	1,523	1,454	4,8
Net Additions (1,000)	70	70	0,0
<u>ADSL Penetration (%)</u>	18.9%	17.9%	1.0 p.p.

Throughout 3Q07, **Brasil Telecom added 69.8 ADSL accesses to its plant, totaling 1,523.2 accesses in service at the end of September 2007**, with an increase of 21.6% when compared to 3Q06. The ongoing growth of ADSL services was maintained throughout 3Q07, supported by the expansion of the standard portfolio of turbo services, by launching three new speeds - 2Mega, 4Mega and 8Mega - using ADSL 2+ technology, and due to the partnership with Sky. The new speeds have the purpose of supporting the demand for higher speed in function of the development of new Web 2.0 tools at disposal of the users. **ADSL (ADSL/LES) penetration in 3Q07 reached 18.9%, against 14.5% in 3Q06.**

Brasil Telecom has been investing significantly, in the last years, in the capping and introduction of new promising technologies in this segment, which has resulted in an **ADSL coverage for 1,488 cities**.

For Brasil Telecom, Broadband networks are the major ways to offering new services to its users, among them: Multimedia Conference, VoIP, Data VPN, etc.

Today, Brasil Telecom offers broadband service over metallic pair with the technology ADSL 2+, which enables accesses up to 24Mbps, and is introducing VDSL2 in its network, which enables speeds up to 100Mbps. By their turn, optical networks that enable offering typical speeds ranging from 10Mbps to 1Gbps - to this date offered by Brasil Telecom only for the corporate segment (via Metro Ethernet), will be offered to home users and PME (small- and medium-size companies) segment.

To reflect this strategy in the communication with its clients, Brasil Telecom adopted a new positioning for Turbo, which is now presented as Turbo: a Internet de quem quer tudo.

In addition to ADSL accesses, **Brasil Telecom registered in 3Q07, the continuity in the growth of other products in the data communication segment aimed at companies, with special emphasis to those using IP as technological base (Vetor - VPN IP MPLS and Corporate IP -acesso dedicated to Internet).**

New IP-based data communication products were launched to support the demand from small- and medium-size companies. The IP Professional product was launched to meet the need for Internet access, by offering exclusive differentials to make business via Internet. With VPN Empresas, small- and medium-size companies are able to interconnect their business units in a simple and safe way, with a single service provider, Brasil Telecom.

Products with high value added also present significant growth, such as managed location services and equipment supervision. Video, audio and web conference services are also offered as an integral part of the advanced service portfolio in a single solution (MultiConferências). This trend confirms the strategy implementation success of Brasil Telecom by focusing on IP services and providing complete and convergent solutions to its clients.

Brasil Telecom was the first telephone company in Brazil to offer the IPTV service. Launched at end of September 2007, the product was named Videon, which enables the user, among other benefits, to watch any audiovisual content, access web contents, play on-line games, and in a short period, *chat* or forward instant messages to mobile handsets (SMS). Initially, Videon will be offered in Brasília, by a call center of the operator, and soon it will be available at the major capitals and cities of the Brasil Telecom operation region.

Internet Providers

The Internet Group, Internet unit at Brasil Telecom that comprises the activities of iG, iBest and BrTurbo providers, is the **2nd top broadband provider in the Brazilian market**, with **1.3 million clients**, representing an increase of 34.4% when compared to the same period in the previous year. Considering the iG and BrTurbo subscribers, the group maintains the market leadership in Region II.

At the end of 3Q07, the total number of pagantes clients of Internet Group was 2.0 million. In addition to broadband access clients, Internet Group presented a growth of 166.6% in the number of charged clients for Value-Added Services, when compared to the same period last year, reaching 700,000 clients. In this quarter, the product highlights were: (i) **Educa**, content product aimed at family education, with college entrance exam tips and professor web, with 21.5% growth; (ii) **Aditivado**, dial access product that enables increasing the navigation speed, with 20.2% growth; and (iii) **Protege**, on-line antivirus product for PC, with 19.4% growth.

Internet Group also has **3.6 million clients in dial-up access**, in addition to be the **3rd top Brazilian portal in audience, with more than 10.6 million** home Unique Visitors per month. The traffic generated in minutes was 10.6 billion in 3Q07. iBest and iG share in the minutes market in Region II was 64.9% at end of 3Q07, placing the Internet Group as the market leader in this region.

ECONOMICAL-FINANCIAL PERFORMANCE

Income

Total gross income of Brasil Telecom reached R\$3,997.3 million in 3Q07, 4.2% over 3Q06. The increase in the data communication and mobile telephony service market share evidences the successful income diversification strategy implemented by Brasil Telecom.

Local Service

Gross income in local service reached R\$1,624.5 million in 3Q07, 6.4% less than that registered in 3Q06. The quarter highlights were: increase of 2.7% in the subscription gross income due to client migrations to alternative plans and rate readjustments of 2.14% in local service basket and 3.29% in VCs. In function of the transparency in the pulse-to-minute conversion process, the previous rates practiced for pulses and fixed-fixed local minutes were maintained until September 30, 2007. The increase was offset by the 24.9% reduction in gross income with local traffic, and 7.4% with VC-1 calls.

Public Telephony

Gross income from public telephony reached R\$138.8 million in 3Q07, 2.4% over the one achieved in 3Q06, due to fees restatement of 2.14% .

Long Distance

Gross income with long distance service reached R\$720.0 million in 3Q07, representing an increase of 8.1% when compared to 3Q06, especially reflecting the increase in VC-2 and VC-3 traffics and fees restatement of 2.14% in the long distance service basket, and 3.29% in VCs.

Interconnection

Income from interconnection in 3Q07 was R\$82.5 million, 31.2% less than the R\$ 120.0 million registered in 3Q06 due especially to traffic reduction and the decrease of 20% of the TU-RL from January 1, 2007.

Data Communication

In 3Q07, the gross income in data communication and other services in te major activity reached R\$704.9 million, with an increase of 20.3% when compared to 3Q06, due primarily to an increment of 21.6% in the ADSL client base.

Mobile Telephony

Consolidated gross income from mobile telephony services in 3Q07 exceeded in 40.8% that registered in 3Q06. Such increase is due to the increase in the client base and the launch of new service plans.

In 3Q07, total consolidated gross income in mobile telephony totaled R\$539.6 million, from which R\$478.8 million were related to services, and R\$60.8 million to the sale of handsets and accessories.

ARPU

Fixed telephony ARPU (excluding data communication) maintained the R\$77.9 in 3Q07, 9.1% over the figures registered in 3Q06, reflecting the company strategy in containing the erosion of fixed telephony income. **Including data communication, the ARPU registered in 3Q07 was R\$97.9**, 12.7% over the figures registered in 3Q06, reflecting the increasing penetration of ADSL accesses.

Total ARPU of mobile telephony registered in 3Q07 was R\$34.9. ARPU related to post-paid users was R\$57.7 and prepaid ARPU was kept in R\$28.3.

ADSL ARPU registered in 3Q07 was R\$71.2, with increase of 1.4% over 3Q06, due to the strategy of prioritizing the sale of more profitable products with higher access speeds.

Consolidated Net Income

The consolidated net income of Brasil Telecom reached R\$2,748.3 million in 3Q07, stable when compared to R\$2,743.3 million in 2Q07 and 4.6% over the R\$2,628.0 million registered in 3Q06.

Costs and Expenses

Operating Costs and Expenses

In 3Q07, operating costs and expenses totaled R\$2,380.0 million, stable when compared to R\$2,385.8 million registered in 3Q06.

Personnel

In 3Q07, personnel costs and expenses reached R\$158.1 million, an increase of 0.8% when compared to 3Q06. At the end of 3Q07, BrT group employed 5,885 collaborators, an increase of 2.1% when compared to September 2006, with 5,280 collaborators in the fixed telephony, data and Internet providers, and 605 at BrT Móvel.

Outsourced Services

Costs and expenses with outsourced services, excluding interconnection, advertising and marketing, **totaled R\$ 556.5 million in 3Q07**, 5.2% over the figures registered in 3Q06.

PCCR/ROB

Accounts Receivable Losses (PCCR) vs. gross income ratio in 3Q07 was 1.4% and totaled R\$56.0 million, 1.0 p.p. below 2.4% in 3Q06. The reduction in losses in 3Q07 occurred in function of the tele-collection performance improvement.

Provisions for Contingencies

In 3Q07, provisions for contingencies totaled R\$154.8 million, with an increase of R\$35.6 million when compared to 3Q06, primarily due to monetary restatement and the increase of loss risk in labor claims, civil and tax suits.

Materials

Costs and expenses with materials totaled R\$92.9 million in 3Q07, with a reduction of 7.2% when compared to 3Q06. **Costs and expenses with materials at BrT Móvel totaled R\$69.8 million**, representing 75.1% of total costs and expenses with materials registered in the Group, due to the cost of goods sold and posted under this caption.

Depreciation and Amortization

Depreciation and amortization costs totaled R\$606.4 million in 3Q07, 8.9% less than 3Q06, due to the increase of goods totally depreciated.

Other Costs and Expenses/Operating Income

Other operating costs and expenses were R\$158.0 million in 3Q07, 29.2% over 3Q06. Contributed for this increase, the posting in 3Q07 of the actuarial liabilities of the company near R\$ 27 million, and approximately R\$ 2.9 million of negative restatement at market value of the mobile handsets stocked in the company.

Financial Result

In 3Q07, Brasil Telecom registered negative financial result of R\$61.2 million, versus R\$ 136.3 million negative in the previous year. Major variations were: (i) negative dollar exchange variation of 15.4% and 13.0% for yen in 3Q07 when compared to 3Q06; (ii) reduction of the financial income caused by the reduction in interest rates; and (iii) reduction of financial expenses due to amortization of debentures in R\$500 million.

Net Profit

Brasil Telecom registered net profit of R\$ 195.7 million in 3Q07, equivalent to R\$0.3577 per share. Net profit by ADR in period was US\$0.5835. In 3Q06, the Company registered profit of R\$54.7 million, equivalent to R\$0.1000 per 1,000 shares, while profit by ADR in period was US\$0.1379.

Indebtedness

Total Debt

At the end of September 2007, the consolidated gross debt of Brasil Telecom totaled R\$4,008.8 million, 17.2% less than that registered at the end of September 2006, especially due to the amortization of debentures, amounting to R\$500 million in April 2007 and the Real valorization, which reduced the debt in foreign currency. **In September, 83.7% of total debt were allocated in long term.**

Net Debt

Consolidated net debt reached R\$2,199.5 million, 25.8% less than that registered in September 2006.

16.01 - REPORT ON SPECIAL REVIEW - NO EXCEPTIONS

(Convenience Translation into English from the Original Previously Issued in Portuguese)

INDEPENDENT ACCOUNTANTS REVIEW REPORT

To the Managers and Shareholders of
Brasil Telecom S.A.
Brasília - DF

1. We have performed a special review of the accompanying interim financial statements of Brasil Telecom S.A. (the Company) and subsidiaries, consisting of the individual (Company) and consolidated balance sheets as of September 30, 2007 the related statements of income for the quarter and nine-month period then ended and the performance report, all expressed in Brazilian reais and prepared in accordance with Brazilian accounting practices under the responsibility of the Company's management.
2. Our review was conducted in accordance with specific standards established by the Brazilian Institute of Independent Auditors (IBRACON), together with the Federal Accounting Council, and consisted principally of: (a) inquiries of and discussions with certain officials of the Company and subsidiaries who have responsibility for accounting, financial and operating matters about the criteria adopted in the preparation of the interim financial statements, and (b) review of the information and subsequent events that had or might have had material effects on the financial position and results of operations of the Company and its subsidiaries.
3. Based on our special review, we are not aware of any material modifications that should be made to the interim financial statements referred to in paragraph 1 for them to be in conformity with Brazilian accounting practices and standards established by the Brazilian Securities Commission (CVM), specifically applicable to the preparation of mandatory interim financial statements.
4. Our special review was conducted for the purpose of issuing report on the special review of the Quarterly Information referred in paragraph 1, as a whole. The cash flow statements related to the 9-month periods ended on September 30, 2007 and 2006, which are presented to provide supplementary information on the Company and its controlled companies, are not required as an integral part of the Quarterly Information. These statements were submitted to the review procedures described in paragraph 2, and based on our review, we do not know any relevant modification to be made on these supplementary statements in order to make them adequate to presentation, in all of their relevant aspects, in relation of the Quarterly Information related to the 9-month periods ended on September 30, 2007 and 2006, as a whole.
5. We previously review the balance sheets (individual and consolidated) prepared on June 30, 2007 and the income statements related to the quarter and 9-month period ended on September 30, 2006, presented for comparison purposes, on which we issued special review, without exceptions, dated on July 24, 2007 and October 31, 2006, respectively.
6. The accompanying interim financial statements have been translated into English for the convenience of readers outside Brazil.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
