FOR IMMEDIATE RELEASE - São Paulo, August 3rd, 2010 Gafisa S.A. (Bovespa: GFSA3; NYSE: GFA), Brazil's leading diversified national homebuilder, today reported financial results for the second quarter ended June 30, 2010.

Commenting on results, Wilson Amaral, CEO of Gafisa, said "I am very pleased with our second quarter operating results which demonstrate our ability to not only capitalize on the power and recognition of our strong brands in the market, but also leverage our operating scale throughout the organization. The growth trajectory of sales continued, achieving R\$ 890 million during the quarter, with especially strong interest in our mid to high product segments of Gafisa and Alphaville. As planned, we picked up our launch pace of new developments to R\$1,008 million for the quarter, and we expect to continue increasing this pace throughout the remainder of the year. Our adjusted EBITDA for the quarter was R\$ 184 million with a margin of 19.8%, a marked improvement over last year's 15.8% during the same period. This reflects improved SG&A ratios including Tenda synergies and the emergent strength of the mid to high end segments where we have been able to increase prices to compensate for rising costs in some areas, resulting in improved gross, adjusted EBITDA, and backlog margins.

Amaral added, "All sectors of the market continue to benefit from growth of the Brazilian economy which resulted in the expansion of real wages, record low unemployment rates of 7% for the month of June and strong consumer confidence. We are especially well positioned to gain share with our portfolio of brands that serve all segment of the population. Tenda continues to be well positioned to benefit from the MCMV program with one of the lowest average price points of the industry (R\$ 110/unit launched in the 1H10). Access to housing credit is expanding also reflecting efficiency improvements at Caixa, which through June 26 processed over 226 thousand contracts under MCMV in 2010, valued at R\$17.6 billion as compared to a total of 275.5 thousand contracts valued at R\$14.1 billion for full year 2009. Tenda is poised to be one of the leading providers of housing to this segment while our other brands continue to be extremely popular among the mid to high segment of the Brazilian population.

2Q10 - Operating & Financial Highlights

- Consolidated launches totaled R\$ 1.0 billion for the quarter, a 61% increase over 2Q09. Tenda launched R\$ 290 million in the quarter, and R\$ 587 million in the 1H10, 206% higher than 1H09.
- Pre-sales reached R\$ 890 million for the quarter, a 7% increase as compared to 2Q09 or 25% increase when comparing 1H10 with 1H09.
- Net operating revenues, recognized by the Percentage of Completion (PoC) method, rose 4% to R\$ 927.4 million from R\$ 705.8 million in the 2Q09, reflecting a strong pace of execution.

Edgar Filing: Gafisa S.A. - Form 6-K

(90 days¹): R\$ 110.7 million

1) Up to July 30th, 2010.

- Adjusted EBITDA reached R\$ 184 million with a 19.8% margin, a 66% increase when compared to Adjusted EBITDA of R\$ 111.3 million reached in the 2Q09, mainly due to the strong performance in all segments and better SG&A ratios.
- Net Income before minorities, stock option and non recurring expenses was R\$ 114.1 million for the quarter (12.3% adjusted net margin), an increase of 41% compared with the R\$ 81.1 million in the 2Q09.
- The Backlog of Revenues to be recognized under the PoC method rose 9% to R\$ 3.2 billion from R\$ 2.9 billion reached in the 2Q09. The Margin to be recognized improved 125 bps to 36.4%.
- Gafisa's consolidated land bank totaled R\$15.8 billion in the 2Q10, with R\$ 121 million net increase over 1Q10, reflecting the internal policy of the Company to keep an average of 2-3 years of land bank.
- Gafisa's consolidated cash position reached R\$ 1.8 billion at the end of June, supporting the Company's strategy to fund and execute its growth plan.

CEO Comments and Corporate Highlights for 2Q10

The second quarter results demonstrated the strength of Gafisa's diversified portfolio of high quality national brands, Gafisa, Alphaville and Tenda, which together serve all segments of the large and growing Brazilian housing market. We were not only focused on meeting the growing housing demand through the launch of R\$1.0 billion in new developments, but also continued our drive to enhance operating efficiency which resulted in improved operating margins. A favorable macroeconomic environment and governmental and banking financial support of the industry contributed to robust demand for our housing products.

Brazilian economic indicators remained extremely favorable during the second quarter, despite the central bank's move to tighten monetary policy in order to control inflation, following an exceptionally strong first quarter of 2010 in which GDP grew an unprecedented 9% over the previous year. A vast supply of credit and pent-up demand from homebuyers, pushed by the expansion of real wages, record low unemployment rates which fell to 7% in June, and strong consumer confidence, contributed to a very favorable environment for our industry. We expect this scenario will prevail throughout the year barring any unexpected impact to economic activity caused by the upcoming October Presidential elections.

We expect a range of public and private financial institutions to continue to supply the necessary credit to sustain a high level of growth in the sector. In the affordable housing segments, Caixa Economica Federal will continue to play a central role in stimulating growth through its participation in the *Minha Casa, Minha Vida* program, providing subsidies and financing from the FGTS. All this helps insulate the mortgage market from general interest rate increases. Importantly, with respect to the middle and higher income housing segments, larger private sector banks have shown an appetite for gaining a greater share of the incipient, underserved mortgage market, currently equivalent to a very low 3.2% of GDP. This increasing participation is a development that bodes well for more competitive mortgages to be offered to the expanding middle classes and beyond.

Our Gafisa and Alphaville units, which serve the middle and higher income, turned in particularly strong performances as significantly high demand allowed price increases that offset higher labor and materials costs which also contributed to higher margins. Our EBITDA margin for the quarter was 19.8%, just above the mid range of our full year guidance's estimate (18.5% - 20.5%).

The number of developments launched in the mid- to high segments more than doubled from the previous year's quarter. Indicative of the success of our developments was the strong demand at Gafisa's Jardins das Orquideas, a project launched in June in São Paulo, where 89% of units were sold in the first weekend. While sales velocity is strong, we are primarily focused on an optimal combination of velocity that achieves improved margins.

While demand continues to be robust in the lower income segment, Gafisa's business plan for the second quarter prioritized enhancing Tenda's operating efficiency in preparation for a more aggressive sales and launch posture during the second half of the year. Among our initiatives to improve Tenda's execution capacity was the further standardization of building processes through broader use of innovative aluminum molds that reduce the construction cycle and help mitigate rising labor costs. Another significant achievement at Tenda during the quarter was the completion of the SAP enterprise software implementation, which will allow our business structure to operate in a more integrated efficient. These measures have already started to show results over SG&A ratios.

Our cash position remains very strong with R\$ 1.8 billion, which assures the company has the ability to continue at a strong pace of execution, while providing us with the flexibility to opportunistically benefit from the market dynamics and favorable economic scenario expanding all segments we serve.

Wilson Amaral, CEO -- Gafisa S.A.

Recent Developments

Improved Operating Margin Gafisa's improved operating margin during the quarter reflects the benefits of the Company's national reach, broad range of quality product offerings in various market segments, strong execution capacity, as well as robust market fundamentals. Strong demand permitted higher pricing, mainly in the mid and upper middle segments, in markets such as São Paulo while improved G&A and direct selling expenses as a percentage of net revenues (from 8.4% to 5.9%, and from 7.3% to 6.6%, respectively) also contributed to higher EBITDA margin of 19.8%, more than offsetting higher labor and materials costs throughout the sector.

Successful Launching of Largest Project in Alphaville's History Alphaville launched the first phase of Alphaville Brasilia, the largest project in the company's history. This first phase comprised 861 thousand m², or 498 units. The total project area is approximately 22 million m², compared to an area of less than 10 million m² at the original Alphaville in Barueri. The whole project is expected to take between 15 and 20 years to develop. The successful sales velocity of this first phase (95% sold within one week) was a good testimony of the project potential.

In addition to posting strong sales numbers, the Alphaville unit extended the footprint of its well-recognized brand during the quarter, launching six new community developments with potential sales value of more than R\$225 million in diverse regions throughout the country. These included the above mentioned project in the capital city of Brasilia, the second phase of Alphaville Riberão Preto in São Paulo's country side (182 units), Alphaville Jacuhy in the coastal city of Vitoria (168 units), and Alphaville Mossoró, a smaller project in the state of Rio Grande do Norte (93 units). Alphaville remains the largest and only national community development company in Brazil.

Use of Innovative Construction Techniques Gafisa finished the quarter employing innovative aluminum molds in seven projects under construction, and expects to use this technology in a total of 15 projects by the end of 2010. These molds, which were first used by Tenda and shorten the construction cycle up to 1/3 of the standard time are being used in developments throughout Brazil under the Tenda brand. Under the Gafisa brand we are also testing a similar innovative technology that could reduce construction period by 6 months. Tenda's projects include Portal do Sol, an affordable development of 416 units in Rio de Janeiro with an estimated construction cycle of just 6 months, and Grand Ville das Artes, an extensive, 1,000-unit complex in the state of Bahia. We also completed the implementation of SAP enterprise software, which began running in July. These measures have already begun to raise the overall efficiency of Tenda by mitigating rising materials costs through purchasing leverage, lowering construction time, and permitting greater integration with Gafisa's operations and best practices.

Increased Mortgage Transfers to Caixa Gafisa through Tenda continued ongoing efforts to streamline financial credit procedures and enhancing our relationship with Caixa Economica Federal, the mortgage lender which plays a central role in administration of the federal housing program, Minha Casa, Minha Vida. As a result, we were able to contract 6,239 units in the 2Q10 (9,027 in the 1H10), an increase of 124% when compared to the 1Q10. We have also transferred 2,515 mortgages during the 2Q10 (4,413 in the 1H10), with more than 1,000 in June alone, reflecting the monthly improvement achieved.

Tenda's Low Average Unit Price Tenda continues to be well positioned to meet growing demand for MCMV program. The average price per unit of Tenda is one of the lowest when compared to the universe of Brazilian listed homebuilders. In the 1H10 the average launch price per unit was R\$ 109 thousand while

the average sales price was R\$100 thousand. Respectively 16% and 23% below the MCMV price limit. Approximately 75% of Tenda's launches and sales had an average price per unit below R\$ 130 thousand.

Launches

In the 2Q10, launches totaled R\$ 1.0 billion, an increase of 61% compared to the 2Q09, represented by 34 projects/phases, located in 27 cities.

45% of Gafisa launches represented a price per unit below R\$ 500 thousand, while nearly 75% of Tenda's launches had prices per unit below R\$ 130 thousand. The Gafisa segment was responsible for 49% of launches, Alphaville accounted for 22% and Tenda for the remaining 29%.

Tenda's launches comprised 29% of the total in the second quarter, and approximately 30%-35% of our full year estimate for the first half of launches in the affordable housing segment, since we have a higher than average concentration expected from Tenda in the second half of the year. The average price per unit of Tenda was R\$ 109 thousand, one of the lowest average among homebuilders listed on the Bovespa.

The tables below detail new projects launched during the 2Q and 1H 2010 and 2009:

Pre-Sales

Pre-sales in the quarter increased by 6.5% to R\$ 889.8 million when compared to the 2Q09.

The Gafisa segment was responsible for 51% of total pre-sales, while Alphaville and Tenda accounted for approximately 14% and 34% respectively. Considering Gafisa's pre-sales, 43% corresponded to units priced below R\$ 500 thousand, while 74% of Tenda's pre-sales came from units priced below R\$ 130 thousand.

The tables below illustrate a detailed breakdown of our pre-sales for the 2Q and 1H 2010 and 2009:

Sales Velocity

The consolidated company attained a sales velocity of 24.6% in the 2Q10, compared to a velocity of 23.8% in the 2Q09. Sales velocity increased as compared to the previous period, mainly due to the improved performance of Gafisa and Tenda during the quarter. The sales velocity of second quarter launches was 40.6%, which is consistent with our strategy to optimize the equilibrium between sales velocity and margins/return, fully compensating for cost pressure coming mainly from labor. Additionally, in this quarter we had a positive impact of R\$ 60.8 million, mainly due to an inventory price increase.

Table 6 - Sales velocity per company

	R\$ million	Launches	Sales	Price Increase + Other	End of period Inventories	Sales velocity

Operations

Edgar Filing: Gafisa S.A. - Form 6-K

Gafisa's geographic reach and execution capacity is substantial. The Company was present in 21 different states, with 195 projects under development at the end of the second quarter, upholding and advancing its reputation for delivering projects according to schedule and within budget. Some 428 engineers and architects were in the field, in addition to approximately 543 intern engineers in training.

Further evidence of the Company's execution capacity is the strong pace of revenue recognition, demonstrating that the execution pace of construction is trending with the level of sales growth. Gafisa and its subsidiaries continue to selectively launch successful projects in new regions and in multiple market segments, maximizing returns in accordance with market demand. Through the end of June, Tenda contracted 9,027 units with CEF and we have more than 17,000 additional units under analysis.

Completed Projects

During the second quarter, Gafisa completed 22 projects with 4,782 units equivalent at an approximate PSV of R\$ 631 million, Gafisa delivered 4 projects, Alphaville delivered 6 projects and Tenda delivered the remaining 12 projects/phases.

The tables below list our products completed in the 2Q10:

Table 8 - Delivered projects

Land Bank

The Company's land bank of approximately R\$ 15.8 billion is composed of 198 different projects in 21 states, equivalent to more than 90 thousand units. In line with our strategy, 39% of our land bank was acquired through swaps which require no cash obligations.

The size of our land bank continued to benefit from the disbursement of a portion of the proceeds raised in the follow-on offering concluded in 1Q10. At the end of June we recorded a net increase of R\$ 121 million in the land bank, reflecting acquisitions that more than compensate the R\$1 billion launches in the quarter.

The table below shows a detailed breakdown of our current land bank:

Table 9 - Landbank per company per unit price

2Q10 - Revenues

On the strength of solid sales in the 2Q10, both of newly launched projects and units from inventory, and an accelerated pace of construction, the Company was able to recognize substantial net operating revenues for 2Q10, which rose by 28.5% to R\$ 927.4 million from R\$ 721.8 million in the 2Q09, with Tenda contributing 32% of the consolidated revenues.

Revenues for the industry are recognized based on actual cost versus total budgeted costs of land and construction (Percentage of Completion method or PoC method).

The table below presents detailed information about pre-sales and recognized revenues by launch year:

Table 11 - Sales vs. Recognized revenues

R\$ 000		2Q10				2Q09			
		Sales	% Sales	Revenues	% Revenues	Sales	% Sales	Revenues	% Revenues

Tenda	Total Tenda	304,711	---	299,972	---	366,813	---	261,427	---
Total		889,761		927,442		835,443		705,939	

2Q10 - Gross Profits

On a consolidated basis, gross profit for the 2Q10 totaled R\$ 279.5 million, an increase of 46% over 2Q09, reflecting continued growth and business expansion. The gross margin for 2Q10 reached 30.1% (32.8% w/o capitalized interest) 302 bps higher than the 2Q09.

Table 12 - Capitalized Interest

(R\$000)		2Q10	2Q09	1Q10
Consolidado	Initial balance	94,101	91,254	91,568
	Capitalized interest	32,900	25,900	25,373
	Interest transferred to COGS	(25,104)	(21,317)	(22,840)
	Final Balance	101,897	95,837	94,101

2Q10 - Selling, General, and Administrative Expenses (SG&A)

In the second quarter 2010, SG&A expenses totaled R\$ 116.1 million, compared to R\$ 110.5 in the same period of 2009. When compared to the 1Q10, SG&A increased from R\$ 108.7 million to R\$ 116.1 million. This increase in selling expenses was mainly related to higher launches and sales volume in the second quarter when compared to the 2Q09 and 1Q10. Despite this increase, we have seen an improvement in the G&A structures resulting in efficiencies when compared to the 2Q09, reflecting the benefits of the incorporation of Tenda.

The Company's SG&A/Net Revenue ratio improved by 312 bps as compared to the 2Q09, mainly due to the continued gains in operating efficiency at Tenda and from synergy gains related to the merger of Tenda into Gafisa. As Tenda's sales and revenues continue to ramp up in the coming quarters, it is expected that costs associated with its sales platform will be diluted and fixed cost ratios will improve.

It is noteworthy that we already achieved a comfortable level of SG&A/Net Revenue even before capturing all of the expected synergies such as those related to Tenda's utilization of SAP enterprise software, which began in July 2010. We expect to capture more benefits in 2011, including increased dilution.

When compared to the 2Q09, all expense ratios improved as compared to net revenues, resulting in a comfortable ratio of SG&A/Net Revenues of 12.5%, compared to 15.7% in 2Q09.

Table 13 - Sales and G&A Expenses

(R\$'000)		2Q10	2Q09	1Q10	2Q10 x 2Q09	2Q10 x 1Q10

	G&A expenses / Net revenue	5.9%	8.4%	6.3%	-246 bps	-38 bps
	SG&A / Net revenue	12.5%	15.7%	12.0%	-312 bps	56 bps

2Q10 - Other Operating Results

In the 2Q10, our results reflected a negative impact of R\$6.9 million, compared to R\$ 16.3 million in the 2Q09 mainly due to higher contingency provisions in the previous period.

2Q10 - Adjusted EBITDA

Our Adjusted EBITDA for the 2Q10 totaled R\$ 184 million, 65.3% higher than the R\$ 111.3 million for 2Q09, with a consolidated adjusted margin of 19.8%, compared to 15.8% in the 2Q09.

This gain is part of an expected gradual recovery due to the fact that the Company's results recognition increasingly reflects the execution of recent projects at the same time that our older-low margin projects are being delivered. This positive trend is clearly reflected in our Backlog margin of 36.4%.

Gafisa also benefitted from robust market fundamentals and strong demand that permitted higher pricing in markets such as São Paulo, mainly in the mid and upper middle segments, while improved G&A and direct selling expenses as a percentage of net revenues also contributed to higher EBITDA margin.

We continue to be confident that additional synergies related to the merger of Tenda could also benefit our margins in the future, and accordingly we are confident that we can achieve a result in keeping with our guidance of 18.5% to 20.5% EBITDA margin for 2010.

We adjust our EBITDA for expenses associated with stock options plans, as it represents a non-cash expense.

Table 14 - Adjusted EBITDA

(R\$'000)		2Q10	2Q09	1Q10	2Q10 x 2Q09	2Q10 x 1Q10
Consolidated	Net Profit	97,269	57,768	64,819	68%	50%
	(+) Financial result	13,911	12,720	33,268	9%	-58%
	(+) Income taxes	22,060	20,621	22,489	7%	-2%
	(+) Depreciation and Amortization	8,781	6,399	10,238	37%	-14%
	(+) Capitalized Interest Expenses	25,106	21,316	22,840	18%	10%
	(+) Minority shareholders	14,260	19,609	11,623	-27%	23%
	(+) Stock option plan expenses	2,584	3,750	3,183	-31%	-19%
	(+) Tenda's goodwill net of provisions	-	(30,865)	-	-	-
	Adjusted EBITDA	183,970	111,319	168,459	65.3%	9.2%
	Net Revenue	927,442	705,818	907,585	31%	2%
	Adjusted EBITDA margin	19.8%	15.8%	18.6%	406 bps	127 bps

2Q10 - Depreciation and Amortization

Depreciation and amortization in the 2Q10 was R\$ 8.8 million, an increase of R\$ 2.5 million when compared to the R\$ 6.4 million recorded in 2Q09, reflecting business increased operations.

2Q10 Financial Result

Net financial expenses totaled R\$ 13.9 million in 2Q10, compared to net financial expenses of R\$ 12.7 million in the 2Q09, since the average net debt for both periods was about the same. When compared to a net expense of R\$ 33.3 million in the 1Q10, the reduction was mainly derived from the equity offering proceeds, which benefited the financial revenue account due to a higher average cash balance.

2Q10 - Taxes

Income taxes, social contribution and deferred taxes for 2Q10 amounted to R\$ 22.1 million compared to R\$20.6 million in 2Q09. The effective tax rate was 16.5% in the 2Q10 compared to 21% in 2Q09, mainly due to the deferred tax over the amortization of Tenda's negative goodwill that negatively impacted the 2Q09.

2Q10 - Adjusted Net Income

Net income in 2Q10 was R\$ 97.3 million compared to R\$ 57.8 million in the 2Q09. However, if we consider the adjusted net income (before deduction of expenses related to minority shareholders and stock options), this figure reached R\$ 114.1 million, with an adjusted net margin of 12.3%., representing growth of R\$ 33 million when compared to the R\$ 81.1 million in the 2Q09.

2Q10 - Earnings per Share

Earnings per share already adjusted for the 2:1 stock split in all comparable periods were R\$ 0.23/share in the 2Q10 compared to R\$ 0.22/share in 2Q09, a 2.2% increase. Shares outstanding at the end of the period were 428.7 million (ex. Treasury shares) and 260.7 million in the 2Q09.

Backlog of Revenues and Results

The backlog of results to be recognized under the PoC method reached R\$ 1.16 billion in the 2Q10, R\$ 37 million higher than 2Q09. The consolidated margin in the 2Q10 was 36.4%, 125 bps higher than the 1Q10, reflecting the fact that recent projects are having a greater impact on the company's results to be recognized while our older-lower margin projects are less and less, since we are delivering them.

The table below shows our revenues, costs and results to be recognized, as well as the expected margin:

Table 15 - Results to be recognized (REF)

(R\$ million)		2Q10	2Q09	1Q10	2Q10 x 2Q09	2Q10 x 1Q10
Consolidated	Revenues to be recognized	3,209	3,092	2,934	3.8%	9.4%
	Costs to be recognized	(2,042)	(1,968)	(1,904)	3.8%	7.3%
	Results to be recognized (REF)	1,167	1,125	1,030	3.8%	13.3%
	REF margin	36.4%	36.4%	35.1%	0 bps	125 bps

Note: Revenues to be recognized are net of PIS/Cofins (3.65%); excludes the AVP method introduced by Law nº 11,638

Balance Sheet

Cash and Cash Equivalents

On June 30, 2010, cash and cash equivalents exceeded R\$ 1.8 billion, 15% lower than the balance of R\$ 2.1 billion as of March 31, 2010, and 70% higher than the R\$ 1.06 billion recorded at the end of 2Q09,

reflecting the proceeds from the equity offering completed at the end of 1Q10.

Accounts Receivable

At the conclusion of the 2Q10, total accounts receivable increased by 10% to R\$ 7.9 billion, compared to R\$ 7.2 billion in 1Q10, and an increase of 30% as compared to the R\$ 6.0 billion balance in the 2Q09, reflecting increasing sales activity.

Table 16 - Total receivables

Inventory (Properties for Sale)

Inventory at market value totaled R\$ 2.7 billion in 2Q10, an increase of 2% when compared to R\$ 2.68 billion registered in the 2Q09. This almost flat market value reflects a relative reduction to a comfortable 9.2 months of sales based on 2Q10 sales figures.

Finished units represented 11.6% of our inventory at market value, while 56% of the total inventory reflects units where construction is up to 30% complete.

Liquidity

On June 30, 2010, Gafisa had a cash position of R\$ 1.8 billion. On the same date, Gafisa's debt and obligations to investors totaled R\$ 3.4 billion, resulting in a net debt and obligations of R\$ 1.6 billion. Net debt and investor obligation to equity and minorities ratio was 45.2% compared to 34.6% in 1Q10, mainly due to the R\$ 415 million cash burn in the quarter. When excluding Project Finance, this ratio reached a negative -2.4% net debt/Equity, a comfortable leverage level with a competitive cost, of less than 100% of the Selic rate.

Gafisa's cash burn rate of R\$ 415 million during the second quarter reflected a strong pace of construction activity at the Company and a R\$ 46 million expenditures in Land acquisition. Efforts undertaken to reduce the construction cycle and increased amount of receivables to be collected are expected to start to slow or revert this rate in 2011.

Currently we have access to a total of R\$ 3.8 billion in construction finance lines of credit provided by all of the major banks in Brazil. At this time we have R\$ 1.8 billion in signed contracts and R\$ 668 million in contracts in process, giving us additional availability of R\$ 1.3 billion.

We also have receivables (from units already delivered) of R\$ 250 million available for securitization. The following tables set forth information on our debt position as of June 30, 2010.

Table 20 - Indebtedness and Investor obligations

	Max.	20.5%		-70 bps		-130 bps

The second quarter financial statements were prepared and are being presented in accordance with the accounting practices adopted in Brazil (Brazilian GAAP required for the years ended December 31, 2009. Therefore, they do not consider the early adoption of the technical pronouncements issued by CPC in 2009, approved by the Federal Accounting Council (CFC), required beginning on January 1, 2010. On November 10, 2009 the CVM, issued the deliberation n° 603 changed by deliberation n° 626, which gives the option for the listed Companies presents your 2010 quarterly information based o accounting practices in force at December 31, 2009.

Glossary

Affordable Entry Level

Residential units targeted to the mid-low and low income segments with prices below R\$ 1,800 per square meter.

Backlog of Results

As a result of the Percentage of Completion Method of recognizing revenues, we recognize revenues and expenses over a multi-year period for each residential unit we sell. Our backlog of results represents revenues minus costs that will be incurred in future periods from past sales.

Backlog of Revenues

As a result of the Percentage of Completion Method of recognizing revenues, we recognize revenues over a multi-year period for each residential unit we sell. Our backlog represents revenues that will be incurred in future periods from past sales.

Backlog Margin

Equals to $\frac{\text{Backlog of Results}}{\text{Backlog of Revenues}}$ to be recognized in future periods.

Land Bank

Land that Gafisa holds for future development paid either in Cash or through swap agreements. Each decision to acquire land is analyzed by our investment committee and approved by our Board of Directors.

LOT (Urbanized Lots)

Land subdivisions, or lots, with prices ranging from R\$ 150 to R\$ 600 per square meter

PoC Method

Under Brazilian GAAP, real estate development revenues, costs and related expenses are recognized using the percentage-of-completion (PoC) method of accounting by measuring progress towards completion in terms of actual costs incurred versus total budgeted expenditures for each stage of a development.

Pre-sales

Contracted pre-sales are the aggregate amount of sales resulting from all agreements for the sale of units entered into during a certain period, including new units and units in inventory. Contracted pre-sales will be recorded as revenue as construction progresses (PoC method). There is no definition of "contracted pre-sales" under Brazilian GAAP.

PSV

Potential Sales Value.

SFH Funds

Funds from SFH are originated from the Governance Severance Indemnity Fund for Employees (FGTS) and from savings accounts deposits. Banks are required to invest 65% of the total savings accounts balance in the housing sector, either to final customers or developers, at lower interest rates than the private market.

Swap Agreements

A system in which we grant the land-owner a certain number of units to be built on the land or a percentage of the proceeds from the sale of units in such development in exchange for the land. By acquiring land through this system, we intend to reduce our cash requirements and increase our returns.

18

About Gafisa

Gafisa is a leading diversified national homebuilder serving all demographic segments of the Brazilian market. Established over 55 years ago, we have completed and sold more than 990 developments and built more than 11 million square meters of housing, more than any other residential development company in Brazil. Recognized as one of the foremost professionally managed homebuilders, "Gafisa" is also one of the most respected and best-known brands in the real estate market, recognized among potential homebuyers, brokers, lenders, landowners, competitors, and investors for its quality, consistency, and professionalism. Our pre-eminent brands include Tenda, serving the affordable/entry level housing segment, and Gafisa and Alphaville, which offer a variety of residential options to the mid to higher-income segments. Gafisa S.A. is traded on the Novo Mercado of the BM&FBOVESPA (BOVESPA:GFSA3) and on the New York Stock Exchange (NYSE:GFA).
