Yes No

If "Yes" is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82- _____.

Braskem S.A.

Financial Statements

at December 31, 2011 and 2010

and Independent Auditors' Report

Independent Auditors' Report

on the individual and consolidated Financial Statements

To the Board of Directors and Shareholders

Braskem S.A.

We have audited the accompanying financial statements of Braskem S.A. ("Parent Company"), which comprise the balance sheet as at December 31, 2011 and the statements of operations, comprehensive income, changes in equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

We have also audited the accompanying consolidated financial statements of Braskem S.A. and its subsidiaries ("Consolidated"), which comprise the consolidated balance sheet as at December 31, 2011 and the consolidated statements of operations, comprehensive income, changes in equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

**Management's responsibility
for the financial statements**

Management is responsible for the preparation and fair presentation of the parent company financial statements in accordance with accounting practices adopted in Brazil, and for the consolidated financial statements in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) and accounting practices adopted in Brazil, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Brazilian and International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

Independent Auditors' Report

on the individual and consolidated Financial Statements

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion on the parent company
financial statements**

In our opinion, the parent company financial statements referred to above present fairly, in all material respects, the financial position of Braskem S.A.as at December 31, 2011, and its financial performance and cash flows for the year then ended, in accordance with accounting practices adopted in Brazil.

**Opinion on the consolidated
financial statements**

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Braskem S.A. and its subsidiaries as at December 31, 2011, and their financial performance and cash flows for the year then ended, in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) and accounting practices adopted in Brazil.

Emphasis of matter

As discussed in note 2 to these financial statements, the parent company financial statements have been prepared in accordance with accounting practices adopted in Brazil. In the case of Braskem S.A., these practices differ from IFRS applicable to separate financial statements only in relation to the measurement of investments in subsidiaries, associates and jointly-controlled entities based on equity accounting, while IFRS requires measurement based on cost or fair value. Our opinion is not qualified in respect of this matter.

Independent Auditors' Report

on the individual and consolidated Financial Statements

Other matters

**Supplementary information - statements
of value added**

We also have audited the parent company and consolidated statements of value added for the year ended December 31, 2011, which are the responsibility of the Company's management. The presentation of these statements is required by the Brazilian corporate legislation for listed companies, but is considered supplementary information for IFRS. These statements were subject to the same audit procedures described above and, in our opinion, are fairly presented, in all material respects, in relation to the financial statements taken as a whole.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

1 Operations

Braskem S.A. (“Parent Company”) is a publicly-held corporation headquartered in Camaçari, State of Bahia, which, together with its subsidiaries and jointly-controlled subsidiaries (“Braskem” or “Company”), operates 35 industrial units, 28 of which are located in the Brazilian states of Alagoas, Bahia, Rio de Janeiro, Rio Grande do Sul and São Paulo, five are located in the United States, in the states of Pennsylvania, Texas and West Virginia and two are located in Germany. These units produce basic petrochemicals - such as ethylene, propylene butadiene, toluene, xylene and benzene, as well as gasoline and LPG (Liquefied Petroleum Gas) – and thermoplastic resins – polyethylene, polypropylene and polyvinyl chloride (“PVC”). Additionally, Braskem is also engaged in the import and export of chemicals, petrochemicals and fuels, the production, supply and sale of utilities such as steam, water, compressed air, industrial gases, as well as the provision of industrial services and the production, supply and sale of electric energy for its own use and use by other companies. Braskem also invests in other companies, either as a partner or shareholder.

Braskem S.A. is controlled by Odebrecht S.A. (“Odebrecht”), which directly and indirectly holds a 50.1% and a 38.1% interest in its voting and total capital, respectively.

(a) Significant operational events

In September 2010, the management of the subsidiary Braskem PP Americas, Inc (“Braskem America”) decided to suspend a polypropylene production line at the plant located in the State of Texas. The key factors driving this decision were the line's outdated technology, high production cost, and low production capacity. Braskem America will keep the production of polypropylene in other lines of that plant without affecting its total production of other resins. The residual carrying amount of this production line on December 31, 2011 and 2010 equals zero.

On September 24, 2010, the Company inaugurated an ethanol-derived ethylene unit at the Triunfo Petrochemical Complex, which will produce 200,000 metric tons of green polyethylene per year. With this new unit, the Company now supplies resin from renewable sources, diversifying its competitive raw material sources. The cost of the investment was R\$ 482,053.

In December 2011, Sunoco Chemicals, Inc. (“Sunoco Chemicals”) announced that as from the second half of 2012 it will shut down, permanently, the activities of its refinery, which is one of the suppliers of raw materials to the polypropylene plant of the subsidiary Braskem America located in the State of Pennsylvania. The annual production capacity of this plant is 350,000 metric tons and the residual book value on December 31, 2011 is US\$ 94,303 (R\$ 176,894).

The agreement for the purchase of this polypropylene plant entered into with Sunoco Chemicals itself in 2010 provides for an indemnity to Braskem in the event of an interruption in the supply of raw materials that exceeds the residual book value mentioned above.

Despite this guarantee, Braskem’s management is analyzing economically viable ways for the supply of inputs to its industrial unit. The plant is still operating at normal levels with the supply coming from other sources and from Sunoco Chemicals itself, which has been supplementing the supply through its refinery in Philadelphia.

Braskem S.A.

All amounts in thousands of reais unless otherwise stated

(b) Corporate events

Since its creation on August 16, 2002, Braskem has been undergoing an extensive corporate restructuring process, which has been disclosed to the market in the form of “Material Fact” notices. The main events in 2010 and 2011 are summarized below:

(b.1) Quattor

On January 22, 2010, Braskem announced the completion of the negotiations for the acquisition of Quattor Participações S.A. (“Quattor”), currently named Braskem Qpar S.A. (“Braskem Qpar”), by means of an Investment Agreement entered into on that date between Odebrecht, Petróleo Brasileiro S.A. – PETROBRAS (“Petrobras”), Braskem and Unipar – União de Indústrias Petroquímicas S.A. (“Unipar”). The agreement allowed Petrobras to consolidate its main petrochemical assets in the Company.

Also, as a result of the Investment Agreement, the Company has the preemptive right to participate as a partner in the projects of the Petrochemical Complex in the State of Rio de Janeiro - COMPERJ - and the Petrochemical Complex of Suape, in the State of Pernambuco.

The Investment Agreement was approved without restrictions on February 23, 2011 by the Brazilian antitrust agency (“CADE”).

All stages of the Investment Agreement had already been implemented by September 30, 2010, as follows:

(i) In December 2009, the holding company BRK Investimentos Petroquímicos S.A. (“BRK”) was created, in which all the common shares issued by Braskem and held by Odebrecht and Petrobras were subsequently concentrated.

(ii) In April 2010, Odebrecht and Petrobras completed a capital increase in BRK in the amount of R\$ 3,500,000 through the payment of new shares in cash.

(iii) On April 14, 2010, the Board of Directors approved an increase of the Company's capital in the form of a private subscription, which resulted in the payment of 243,206,530 common shares and 16,697,781 class A preferred shares, at the price of R\$ 14.40 each, totaling R\$ 3,742,622. Of this amount, R\$ 2,378,742 was allocated to capital and R\$ 1,363,880 to the capital reserve account (Note 29(a)).

(iv) On April 27, 2010, the Company announced by means of a Material Fact, the acquisition from Unipar of shares representing 60% of Quattor's voting and total capital by means of the payment of R\$ 659,454 in cash. On April 30, 2010, Quattor held the following investments:

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

(v) On May 10, 2010, the Company announced to the market the acquisition, from Unipar, of 100% of the shares of Unipar Comercial e Distribuidora (“Unipar Comercial”) and the shares representing 33.33% of the total capital of Polibutenos S.A. Indústrias Químicas (“Polibutenos”) by means of the payment in cash of R\$ 27,104 and R\$ 22,362, respectively.

On May 31, 2010, the Company acquired from Chevron Oronite do Brasil ("Chevron"), shares representing 33.33% of the total capital of Polibutenos for R\$ 22,482. With the acquisitions from Unipar and Chevron, the Company became the direct and indirect holder of 100% of Polibutenos' capital.

In accordance with the accounting practices adopted in the preparation of these financial statements (Note 2), the acquisitions of Quattor and Unipar Comercial represented business combinations under Accounting Pronouncement of the Accounting Pronouncements Committee (“CPC”) 15 (R1) and International Financial Reporting Standards (“IFRS”) 3, and the effects of which are stated in Note 5.

(vi) On June 18, 2010, the Company’s Extraordinary General Shareholders’ Meeting approved the merger of Quattor (current Braskem Qpar) shares held by Petrobras, which represented 40% of the total and voting capital of that subsidiary. The carrying amount of the merged net assets on March 31, 2010 amounted to R\$ 199,356. Of this amount, R\$ 164,744 was allocated to capital and R\$ 34,612, to the capital reserve account. In this operation, 18,000,087 common shares were issued based on the exchange ratio of 0.18855863182 share of the Company for each share of Quattor, as determined in economic appraisal reports of the companies prepared by an independent appraiser. With this merger, the Company became the holder of 100% of the total and voting capital of Quattor.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

(vii) On June 24, 2010, Quattor's Extraordinary General Shareholders' Meeting approved a capital increase of R\$ 4,014,128, without the issue of new shares. The capital increase was paid up using advances for future capital increase previously made by the Company. Additionally, on June 29, 2010, the Extraordinary General Shareholders' Meeting of Quattor approved a R\$ 2,578,372 reduction in its capital stock, without the cancellation of shares and with return to the Company, its sole shareholder, of all the investments in Rio Polímeros S.A. ("Riopol") and Quattor Petroquímica S.A. ("Quattor Petroquímica"), which is currently named Braskem Petroquímica S.A. ("Braskem Petroquímica").

(viii) On August 9, 2010, BNDES Participações S.A. ("BNDESPAR") exercised its put option for the shares of Riopol, equivalent to 25% of the total capital of this subsidiary. Braskem acquired 190,784,674 common shares and 30 preferred shares of Riopol for R\$ 209,951 (60% of the shares held by BNDESPAR). The acquisition corresponds to 15% of the capital stock of Riopol and Braskem became the direct and indirect holder of 90% of the capital of this subsidiary.

The amount of this acquisition will be paid in three installments adjusted based on the Long-Term Interest Rate ("TJLP") (Note 18), as follows:

- a. On June 11, 2015, corresponding to 15% of the total amount;
- b. On June 11, 2016, corresponding to 35% of the total amount;
- c. On June 11, 2017, corresponding to 50% of the total amount.

(ix) On August 30, 2010, the Company's Extraordinary General Shareholders' Meeting approved the merger of Riopol shares, converting Riopol into a wholly-owned subsidiary. The carrying amount of the merged net assets on March 31, 2010, the base date of the operation, amounted to R\$ 103,087. Of this amount, R\$ 22,285 was allocated to capital and R\$ 80,802, to the capital reserve account. In this transaction, 2,434,890 class A preferred shares were issued, based on an exchange ratio of 0.010064743789 share of the Company for each Riopol share, as determined in economic appraisal reports of the companies, prepared by an independent appraiser.

Due to this merger of shares, Braskem's subsidiary Quattor Petroquímica (current Braskem Petroquímica), which held 9.02% of Riopol's capital, received shares of the Company. In the consolidated financial statements, these shares, which result in mutual interest, are accounted for as "treasury shares" (Note 29(a)).

(x) On September 1, 2010, the Extraordinary General Shareholders' Meeting of Quattor approved the merger of the companies listed below. The net assets of the merged companies were appraised at carrying amount at June 30, 2010 (the base date of the operation).

a. Quattor Química S.A (“Quattor Química”)

On the date of the merger, Quattor Química's capital was held by Quattor (94.11%) and Quattor Petroquímica (5.89%). The exchange ratio of Quattor Química shares for Quattor shares was determined based on the equity of both companies at June 30, 2010, the base date of the operation, resulting in a capital increase of R\$ 58,231 with the issue of 7,538,949 common shares that were delivered to Quattor Petroquímica.

All amounts in thousands of reais unless otherwise stated

b. Polibutenos

On the date of the merger, Polibutenos's capital was held by Quattor (33.33%) and the Company (66.67%). The exchange ratio of Polibutenos shares for Quattor shares was determined based on the equity of both companies at June 30, 2010, the base date of the operation, resulting in a capital increase of R\$ 13,032 with the issue of 1,687,179 common shares that were delivered to the Company.

c. Mauá Resinas S.A. (“Mauá Resinas”) and Norfolk Distribuidora Ltda. (“Norfolk”)

On the date of the merger, Mauá Resinas and Norfolk were wholly-owned subsidiaries of Quattor and this is why there was no capital increase or issue of shares by the merging company.

(xi) On May 26, 2010, the Company filed with CVM the request for the registration of a public offering for the acquisition of 7,688 common shares and 1,542,006 preferred shares of Quattor Petroquímica held by its non-controlling shareholders as a result of the change in the control of this subsidiary. The shares subject to the offering correspond to 0.68% of the total capital of Quattor Petroquímica. On October 28, 2010, CVM's board approved the public offering.

The offering was completed and settled on December 16, 2010. The total number of shares acquired through the public offering was 224,968, and 1,324,726 preferred shares remained outstanding. The outstanding shares stated at carrying amount on March 31, 2010 were merged into the Company, resulting in an increase in its capital of R\$ 4,270, which was subscribed and paid-up by Quattor Petroquímica's shareholders. In this transaction, 398,175 class A preferred shares were issued based on an exchange ratio of 0.300571316385725 share of the Company for each share of Quattor Petroquímica, as determined in economic appraisal reports of the companies, prepared by an independent appraiser.

This operation was approved by the Extraordinary General Shareholders' Meetings of the Company and of the subsidiary Quattor Petroquímica on December 27, 2010 in accordance with the disclosure in a Material Fact notice on December 7, 2010.

CVM, by means of an official letter dated February 3, 2011, approved the cancelation of the registration of Quattor Petroquímica to trade shares on stock exchanges that was requested by the Company on January 28, 2011.

On January 3, 2011, the shareholders of IQ Soluções & Química S.A. (“Quantiq”) approved the merger of Unipar Comercial. The merger resulted in an increase in the capital of Quantiq by R\$ 38,710, from R\$ 61,141 to R\$ 99,851 without the issue of new shares. Such increase was based on the equity of Unipar Comercial on November 30, 2010 (base date of the operation), under the terms and conditions established in the “Protocol and Justification” dated

December 27, 2010.

On July 29, 2011, the Extraordinary General Shareholders' Meeting approved the capital increase of Quattor by R\$ 543,224, which was fully subscribed and paid up by the Company. Since no new shares were issued, this increase was diluted among the shareholders of the Company and Braskem Petroquímica, simultaneously generating in Braskem's financial statements a loss on the investment in Quattor and a gain on the investment in Braskem Petroquímica in the amount of R\$ 16,521. These effects offset each other in the Company's equity and are eliminated from consolidation (Note 15(b)).

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

On December 31, 2011, the Company's interest in the acquired companies is stated in the flowchart below:

(b.2) Sunoco Chemicals

On February 1, 2010, Braskem announced that its subsidiary Braskem America, Inc. ("Braskem America Inc.") entered into, on that date, an agreement for the purchase and sale of shares with Sunoco Inc., an U.S. oil company, by means of which Braskem America Inc. acquired 100% of the shares representing the voting and total capital of Sunoco Chemicals, Inc. ("Sunoco Chemicals") for US\$ 350.7 million, equivalent to R\$ 620,838. Sunoco Chemicals has an annual installed capacity of 950,000 metric tons of polypropylene distributed over three plants located in the states of Pennsylvania, West Virginia and Texas.

The transaction was completed on April 1, 2010 after full payment was made. On the same date, the name of Sunoco Chemicals was changed to Braskem PP Americas, Inc. ("PP Americas").

In accordance with the accounting practices adopted in the preparation of these financial statements (Note 2), this acquisition represented a business combination under Accounting Pronouncement CPC 15 (R1) and IFRS 3, and the effects of which are stated in Note 5.

On January 1, 2011, the parent company Braskem America Inc. was merged into its subsidiary Braskem PP Americas Inc. On the same date, the corporate name of Braskem PP Americas, Inc. was changed to Braskem America Inc. ("Braskem America").

(b.3) Braskem Idesa

In November 2009, Braskem and the IDESA Sociedad Anónima de Capital Variable Group ("IDESA"), a traditional Mexican petrochemical company, announced that they won a bidding process in Mexico for the implementation of a petrochemical project using ethane in the region of Veracruz by means of an agreement for the supply, by Pemex-Gas y Petrouímica Básica (subsidiary of Petróleos Mexicanos), of 66,000 barrels/day of this input for a period of 20 years. As a result of this bidding process, Braskem and IDESA signed a Memorandum of Understanding and formalized, on February 23, 2010, a final agreement that comprises an investment commitment by Braskem and IDESA for (i) the

construction of an ethane cracker to produce 1 million metric tons of ethane a year; and (ii) the construction of three polyethylene plants for the production of 1 million metric tons of resins a year. The project is called Ethylene XXI and the expected investment is US\$ 3 billion (Capital expenditure – Capex). The works are expected to be completed and the units are expected to be operational in the first half of 2015.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

The corporate name of this new company is Braskem Idesa, Sociedad Anónima Promotora de Inversión (“Braskem Idesa”) and its total and voting capital is held by the Company, 65% and Etileno XXI, Sociedad Anónima de Capital Variable, 35%.

In December 2011, Braskem Idesa’s capital amounts to Mex\$ 2,220,174 thousand (R\$ 293,320).

(b.4) Other events

(i) On June 1, 2010, Braskem approved the spin-off of its subsidiary Variet Distribuidora de Resinas Ltda. (“Variet”) and the merger of the spun-off portion by the new subsidiary called Alcacer Distribuidora de Resinas Ltda. (“Alcacer”). On the same date, the Company completed the negotiations for the sale of these two subsidiaries for the total amount of R\$ 12,700.

(ii) On December 17, 2010, the Extraordinary General Shareholders’ Meeting held by Braskem approved the merger of Companhia Alagoas Industrial - Cinal (“Cinal”) into the Company based on its equity as of September 30, 2010, amounting to R\$ 27,834, in accordance with the terms and conditions set forth in the protocol and justification dated November 29, 2010. There were no changes in the value of the Company’s capital since the Company is the only shareholder of Cinal.

(iii) On May 25, 2011, the Company entered into a private instrument for the purchase and sale of quotas by means of which all the quotas of the subsidiary ISATEC – Pesquisa, Desenvolvimento e Análises Ltda. (“ISATEC”) were sold for R\$ 1,100.

(iv) On July 7, 2011 the company Braskem America Finance, a wholly-owned subsidiary of Braskem America, was incorporated for the purposes of raising funds in the international financial market. Braskem America Finance was the issuer of the US\$ 500 million bond issued on July 19, 2011 (Note 19).

(v) On July 29, 2011, Braskem increased the capital of many subsidiaries (Note 15(b)). The breakdown of the increases that were fully subscribed and paid up by Braskem is presented below:

| | Capital Increase | Number of share / quotas issued |
|--|-----------------------------|--|
| Braskem Participações S.A. (“Braskem Participações”) | 53 | without the issue of new shares |
| Ideom Tecnologia Ltda. (“Ideom”) | 23,701 | 23,700,974 |

Edgar Filing: BRASKEM SA - Form 6-K

| | | |
|---|---------------|---------------------------------|
| Politeno Empreendimentos Ltda. (“Politeno Empreendimentos”) | 35 | 18 |
| IQ Soluções & Química S.A.(“Quantiq”) | 61,100 | without the issue of new shares |
| Rio Polímeros S.A. (“Riopol”) | 14,108 | without the issue of new shares |
| | 98,997 | |

(vi) On August 25, 2011, the company Braskem Europe GmbH (“Braskem Alemanha”), a wholly-owned subsidiary of Braskem Netherlands B.V. (“Braskem Holanda”), current name of Braskem Europe B.V., was incorporated for the purpose of producing, trading, distributing, importing and exporting chemical and petrochemical products and conducting research and development in the area of such products, among other things. The assets acquired in the business combination of The Dow Chemical (“Dow Chemical”) in Germany were recorded in this subsidiary as from October 2011 (Note 5).

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

(vii) On September 27, 2011, Braskem increased the capital of its subsidiary Braskem Netherlands by R\$ 415,168 (US\$ 230 million) through the issue of 84,465,660 shares (Note 15(b)). A portion of this amount was used in the incorporation of its subsidiary Braskem Germany.

(c) Net working capital

On December 31, 2011, the Parent Company's net working capital was negative by R\$ 311,862 (2010 – R\$ 1,391,638) as compared with a positive consolidated net working capital of R\$ 1,110,189 (2010 – R\$ 277,812). Because the consolidated figures are used in the management of working capital, as Braskem uses mechanisms to transfer funds between the companies efficiently, without jeopardizing the fulfillment of the commitments of each of the entities forming the consolidated statements, any analysis of the Parent Company's working capital will not reflect the actual liquidity position of Braskem.

Braskem also has two revolving credit lines, which may be used at any time (Note 4.3).

(d) Effect of foreign exchange variation

Braskem has assets and liabilities denominated in foreign currency, particularly in U.S. dollars, such as financial investments, trade accounts receivable, inventories, trade payables and borrowings, which were translated into Brazilian reais at the commercial sell rate disclosed by the Central Bank of Brazil on December 30, 2011, of US\$ 1.00 to R\$ 1.8758 (US\$ 1.00 to R\$ 1.6662 on December 31, 2010). The appreciation of the Brazilian real in relation to the U.S. dollar in 2011 was 12.58% (2010 – the Brazilian real appreciated 4.31% in relation to the U.S. dollar).

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to the years presented.

2.1 Basis of preparation and presentation of the financial statements

The financial statements have been prepared under the historical cost convention and were adjusted, when necessary, to reflect the fair value of assets and liabilities.

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements, are disclosed in Note 3.

The issue of these financial statements was authorized by the Company's Board of Directors on March 13, 2012.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

a) Consolidated financial statements

The consolidated financial statements have been prepared and are being presented in accordance with accounting practices adopted in Brazil, including the pronouncements issued by the Brazilian Accounting Pronouncements Committee (CPC), as well as according to the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB).

b) Parent company financial statements

The Parent Company financial statements have been prepared in accordance with accounting practices adopted in Brazil, following the provisions in Brazilian Corporate Law, and with the standards issued by the CPC and are disclosed together with the consolidated financial statements. The accounting practices adopted in Brazil applicable to the Parent Company financial statements differ from IFRS only in relation to the evaluation of investments in subsidiaries and associates based on the equity accounting method, instead of cost or fair value in accordance with IFRS. The reconciliations of equity and results of operations of the Parent Company with the consolidated are presented in Note 2.2.2.

2.2 Basis of consolidation

The financial statements of subsidiaries, jointly-controlled subsidiaries and specific purpose entities included in the consolidated financial statements have been prepared in accordance with the same accounting practices as those adopted by the parent company.

The consolidation process provided for in pronouncements CPC 36 and IAS 27 corresponds to the sum of balance sheet accounts and profit and loss, in addition to the following eliminations:

- a) the investments of the Parent Company in the equity of subsidiaries, jointly-controlled subsidiaries and specific purpose entities;
- b) balance sheet accounts between companies;
- c) income and expenses arising from commercial and financial operations carried out between companies; and
- d) the portions of profit (loss) for the year and assets that correspond to unrealized gains and losses on transactions between companies.

2.3 Segment reporting

Operating segment information is prepared and presented consistently with the internal report provided to the Chief Executive Officer, who is the main operating decision-maker and responsible for allocating resources and assessing performance of the operating segments.

The determination of results per segment takes into consideration the transactions carried out with third parties and transfers of goods and provision of services between segments that are considered arm's length sales and stated based on market prices.

2.4 Foreign currency translation

(a) Functional and presentation currency

The functional and presentation currency of the Company is the real, determined in accordance with CPC 02 (R2) and IAS 21.

(b) Transactions and balances

Foreign currency transactions and balances are translated into the functional currency using the foreign exchange rates prevailing at the dates of the transactions or at year end, as applicable. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end foreign exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the statement of operations, except those designated for hedge accounting, which are deferred in equity as cash flow hedges.

Foreign exchange variations on financial assets and liabilities are classified as “financial income” and “financial expenses”, respectively.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

(c) Foreign subsidiaries and jointly-controlled subsidiaries

Some subsidiaries and jointly-controlled subsidiaries have a different functional currency from that of the Company, namely:

- (i) Propilsur and Polimerica - headquartered in Venezuela, for which the functional currency is the U.S. dollar, since they are under the construction stage and the capital contributions and the main supplies of equipment and services are based on this currency;
- (ii) Braskem Idesa and Braskem Idesa Serviços - headquartered in Mexico, for which the functional currency is the Mexican peso, since they are under the construction stage and the main supplies of equipment and services are based on this currency;
- (iii) Braskem America, headquartered in the United States – it maintains a management structure that is independent from the operations of the Parent Company and that comprises own labor, outsourcing services, acquisition of raw materials and production and sale of resins. Prices, personnel expenses and production costs are mostly determined in U.S. dollar, which is, therefore, its functional currency; and
- (iv) Braskem Alemanha – it maintains a management structure that is independent from the operations of the Parent Company and that comprises own labor, outsourcing services, acquisition of raw materials and production and sale of resins. Prices, personnel expenses and production costs are mostly determined in euro, which is, therefore, its functional currency.

The financial statements of these subsidiaries and jointly-controlled subsidiaries are translated into reais based on the following rules:

- assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- equity is converted at the historical rate, that is, the foreign exchange rate prevailing on the date of each transaction; and
- income and expenses for each income statement are translated at the rate prevailing on the dates of the transactions.

All resulting exchange differences are recognized as a separate component of equity in the account “other comprehensive income”. When a foreign investment is partially or fully disposed of, exchange differences recorded in equity are recognized in the income statement as part of the gain or loss on the transaction.

2.5 Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks and highly liquid investments with maturities of three months or less. They are convertible into a known amount and subject to an immaterial risk of change in value.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

2.6 Financial assets

2.6.1 Classification

The Company classifies its financial assets upon initial recognition in the categories listed below. The classification depends on the purpose for which the financial assets were acquired/established.

(a) Held-for-trading financial assets – these are measured at fair value and they are held to be actively and frequently traded in the short term. The assets in this category are classified as current assets.

Derivatives are also categorized as held for trading unless they are designated for hedge accounting (Note 2.7).

(b) Loans and receivables - these are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are classified as current assets, except for those falling due more than 12 months after the balance sheet date (these are classified as non-current assets). The Company's loans and receivables comprise loans to related parties and accounts with associates, trade accounts receivable (Note 8), other accounts receivable (Note 14), cash and cash equivalents (Note 6) and financial investments (Note 7).

(c) Held-to-maturity financial assets - these are financial assets acquired with the intention and financial capacity for their maintenance in the portfolio up to maturity. The Company's held-to-maturity financial assets comprise mainly quotas of investment funds in credit rights, classified as non-current assets.

(d) Available-for-sale financial assets - these are non-derivatives that are either designated in this category or not classified in any of the previous categories. They are included in current assets unless management intends to dispose of them within 12 months after the balance sheet date. These are classified as non-current assets.

2.6.2 Recognition and measurement

Purchases and sales of financial assets are recognized on the trade date (the date on which the Company commits to purchase or sell the asset).

Available-for-sale and held-for-trading financial assets are carried at fair value on an ongoing basis.

Gains or losses arising from changes in the fair value of held-for trading financial assets are presented in “financial results” in the period in which they arise.

Interest on available-for-sale securities calculated using the effective interest method is recognized in the income statement as financial income.

Changes in the fair value of monetary securities classified as available-for-sale are recognized in equity, net of taxes, as “other comprehensive income”. When securities are sold or impaired, the accumulated fair value adjustments are included in the income statement as “financial results”.

Loans and receivables are carried at amortized cost using the effective interest method. These assets are stated at cost of acquisition, plus earnings accrued, against profit or loss for the year.

Financial assets are derecognized when the rights to receive cash flows from the investments have been received or transferred and the Company has transferred substantially all risks and rewards of ownership of the related assets.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

The transaction costs related to the held-for-trading financial assets are expensed in the income statement. For the other financial assets, the transaction costs, when they are significant, are added to their respective fair value.

Dividends declared by associates are recognized in the income statement as part of the account “results from equity investments”.

The fair values of quoted investments are based on current bid prices. If the market for a financial asset and for unlisted securities is not active, the Company establishes fair value by using valuation techniques. These include the use of recent arm’s length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, and option pricing models that make maximum use of market inputs and rely as little as possible on entity-specific inputs.

2.6.3 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when there is a legal right to offset the recognized amounts and an intention to settle them on a net basis, or realize the asset and settle the liability simultaneously.

2.6.4 Impairment of financial assets

The Company assesses at each balance sheet date, based on the history of losses, whether there is objective evidence that a financial asset, classified as loans and receivables, held-to-maturity or available-for-sale, is impaired. The criteria the Company uses to determine that there is objective evidence of an impairment loss include:

- a) significant financial difficulty of the issuer or debtor;
- b) a breach of contract, such as a default or delinquency in interest or principal payments;
- c) it becomes probable that the borrower will enter bankruptcy or other financial reorganization; or

d) the disappearance of an active market for that financial asset because of financial difficulties.

(a) Assets classified as held-to-maturity and loans and receivables

Losses are recorded when there is objective evidence of impairment as a result of one more events that occurred after the initial recognition of the asset and that loss event has an impact on the future cash flows that can be reliably estimated.

The amount of any impairment loss is measured as the difference between the asset's carrying amount and the present value of future cash flows discounted at the financial asset's original effective interest rate. This methodology does not apply to the calculation of the provision for impairment.

The methodology adopted by the Company for recognizing the provision for impairment is based on the history of losses and considers the sum of (i) 100% of the amount of receivables past due for over 180 days; (ii) 50% of the amount of receivables past due for over 90 days; (iii) 100% of the amount of receivables under judicial collection (iv) 100%.of the receivables arising from a second renegotiation with customers; (v) and all the receivables from the first renegotiation maturing within more than 24 months. Receivables from related parties are not considered in this calculation.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

(b) Assets classified as available-for-sale

When there is any evidence of an impairment loss for the financial assets classified as available for sale, the accumulated fair value that is recognized in equity is transferred from “other comprehensive income” to profit (loss) for the year.

If, in a subsequent period, the amount of the loss decreases and this decrease can be objectively related to an event occurring after the impairment loss was recognized, the impairment loss is reversed.

2.7 Derivative financial instruments and hedging activities

Derivatives are recognized at fair value on an ongoing basis.

(a) Hedging activities (designated for hedge accounting)

The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is more than 12 months.

The recognition of the gain or loss in profit or loss depends on whether the derivative is designated as a hedging instrument, and if so, on the nature of the item being hedged.

Management may designate certain derivatives as hedges of a particular risk associated with a recognized asset or liability or a highly probable forecast transaction (cash flow hedge).

The Company documents at the inception of the transaction the relationship between hedging instruments and hedged items, as well as its risk management objectives and strategy for undertaking various hedging transactions. It also documents its assessment, on an ongoing basis, of whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in fair values or cash flows of hedged items.

The effective portion of the changes in the fair value of hedge derivatives is recognized in “other comprehensive income”. These amounts are transferred to profit or loss for the periods in which the hedged item affects profit or loss.

Gains or losses on interest rate or foreign exchange rate swaps that hedge borrowings are recognized in profit (loss) for the year as “financial result”.

The ineffective portion is recognized immediately in the income statement as “financial income and expenses” within “financial result”.

When the hedge instrument matures or is sold or when it no longer meets the criteria for hedge accounting, it is prospectively discontinued and any cumulative gain or loss existing in equity remains in equity and is recognized in profit or loss when the hedged item or transaction affects profit or loss. If the hedged item or transaction is settled in advance or discontinued, the cumulative gain or loss that was previously recognized in equity is immediately transferred to profit or loss for the year.

The cash flow hedge transactions carried out by the Company are described in Note 21.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

(b) Derivatives at fair value through profit or loss

Derivatives not designated as hedge instruments are classified as current assets or liabilities. Changes in the fair value of these derivative instruments are recognized immediately in the income statement within “financial results”.

(c) Derivatives embedded in commercial agreements

The Company has procedures aimed at the timely recognition, control and proper accounting treatment of embedded derivatives in purchase, sale and service agreements.

The contracts that may have embedded derivative instruments are assessed to determine whether the economic characteristics of the embedded derivatives are closely related to those of the host contract or not and, if they are not, the embedded derivatives are separated from the host contract and stated at fair value through profit or loss

Currently, Braskem has no contracts that require the separation of embedded derivatives.

2.8 Trade accounts receivable

Trade accounts receivable are recognized at the amount billed net of the provision for impairment. The Company’s average billing period is 30 days, therefore, the amount of the trade accounts receivable corresponds to their fair value on the date of the sale.

2.9 Inventories

Inventories are stated at the lower of average acquisition or production cost or at the net realizable value. The Company determines the cost of its inventories using the absorption method based on the weighted moving average. Net realizable value is the estimated selling price in the ordinary course of the Company’s business, less taxes. The

provisions for impairment of slow-moving or obsolete inventories are recognized when the realization amount is lower than cost. Imports in transit are stated at the cost accumulated in each import.

2.10 Investments in subsidiaries

Subsidiaries are all entities over which the Company has the power to govern the financial and operating policies so as to obtain benefits from its activities (control). The investments in subsidiaries are accounted for in the financial statements of the Parent Company using the equity method. Subsidiaries are fully consolidated for as long the Company has the control over them.

The Company uses the acquisition method to account for the acquisitions of subsidiaries (business combinations). The use of this method requires (i) the identification of the acquirer; (ii) determination of the date of acquisition; (iii) the recognition and measurement of the identifiable assets acquired, contingencies, liabilities assumed and non-controlling interests; and (iv) the recognition and measurement of goodwill from future profitability or gain arising from a bargain purchase.

The consideration transferred for the acquisition of a subsidiary is the sum of the fair value of the assets transferred, liabilities incurred and equity interests issued by the Company. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The non-controlling interests in the investee are determined by means of the application of the respective interest percentage on the fair value of the acquiree's net assets.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

The excess of the consideration paid in relation to the fair value of the Company's share of the identifiable net assets acquired, is recorded as goodwill. When the consideration transferred is less than the fair value of the net assets of the subsidiary acquired, the difference, after all recalculations are made, is recognized directly as a gain in the income statement (bargain purchase).

The costs related to the acquisition of subsidiaries are accounted for in profit or loss for the year as they are incurred.

Investment gains and losses arising from transactions (purchase or sale) with non-controlling shareholders are directly recorded in equity in "other comprehensive income". These gains and losses are transferred to profit (loss) for the year when the Company ceases to have control over the related subsidiary.

The Company recognizes, in the Parent Company's financial statements, a provision for losses in subsidiaries at an amount equivalent to the net capital deficiency of these subsidiaries. This provision is recorded in non-current liabilities with a contra-entry to the account "results from equity investments".

2.11 Investments in associates and other investments

Associates are all entities over which the Company has the power to participate in the financial and operating decisions without having control (significant influence). Investments in associates are initially accounted for at cost and subsequently using the equity method and they may include possible goodwill identified on acquisition, net of any accumulated impairment loss.

Unrealized gains on transactions between the Company and its associates are eliminated to the extent of the Company's interest.

Gains and losses arising from the dilution of or increase in investments in associates are recognized in the income statement.

Other investments are stated at acquisition cost, less provision for adjustments to market value, when applicable.

2.12 Investments in jointly-controlled subsidiaries

Jointly-controlled subsidiaries are all entities over which the Company shares control with one or more parties under a shareholders' or partners' agreement. Investments in jointly-controlled subsidiaries are initially accounted for at cost and subsequently using the equity method. These investments are consolidated using the proportional consolidation method.

2.13 Property, plant and equipment

Property, plant and equipment is stated at cost net of accumulated depreciation and provision for impairment, when applicable. The cost includes:

- (a) the acquisition price and the financial charges incurred in borrowings during the phase of construction (Note 19(g)), and all other costs directly related with making the asset usable; and
- (b) the fair value of assets acquired through business combinations.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

The assets intended for maintaining the Company's activities arising from financial lease operations are recorded initially at the lower of fair value or the present value of the minimum payment of the contract, and are depreciated on a straight-line basis over the lower of the remaining useful life of the asset or the term of the contract.

The financial charges are capitalized on the balance of the projects in progress using (i) an average funding rate of all borrowings; and (ii) the portion of the foreign exchange variation that corresponds to a possible difference between the average rate of financing in the internal market and the rate mentioned in item (i) above.

The machinery, equipment and installations of the Company require inspections, replacement of components and maintenance in regular intervals. The Company makes stoppages in regular intervals that vary from two to six years to perform these activities. These stoppages can involve the plant as a whole, a part of it, or even specific relevant pieces of equipment, such as industrial boilers, turbines and tanks. Stoppages that take place every six years, for example, are usually made for the maintenance of industrial plants as a whole.

Costs that are directly attributable to these stoppages are capitalized when (i) it is probable that future economic benefits associated with these costs will flow to the Company; and (ii) these costs can be measured reliably. For each scheduled stoppage, the costs of materials and services from third-parties are included in property, plant and equipment items that were the subject matter of the stoppage and are fully depreciated until the beginning of the following related stoppage.

The expenditures with the consumption of small materials, maintenance and the related services from third parties are recorded, when incurred, as production costs.

Property, plant and equipment items are depreciated on a straight-line basis. The average depreciation and depletion rates used, determined based on the useful lives of the assets, are presented in Note 3.4.

Land has an indefinite useful life, therefore, it is not depreciated.

Projects in progress are not depreciated. Depreciation begins when the assets are available for use.

The useful life is annually reviewed by the Company. The review made on December 31, 2011 did not indicate the need for a change in relation to 2010.

The Company does not attribute a residual value to assets due to its insignificance.

2.14 Intangible assets

The group of accounts that comprise the intangible assets is the following:

(a) Goodwill based on future profitability

The existing goodwill was determined in accordance with the criteria established by the accounting practices adopted in Brazil before the adoption of the CPC pronouncements and represent the excess of the amount paid over the amount of equity of the entity acquired. The Company applied the exemption related to business combinations prior to January 1, 2009 and did not remeasure these amounts. This goodwill has not been amortized since January 1, 2009 and it is tested annually for impairment.

Goodwill is accounted for at cost, net of accumulated impairment losses. Impairment losses are not reversed.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

(b) Trademarks and patents

The technologies acquired from third parties and in a business combination are recorded at the cost of acquisition and/or fair value and other directly attributed costs, net of accumulated amortization and provision for impairment, when applicable. Technologies that have defined useful lives and are amortized using the straight-line method based on the estimated useful lives of the assets (15 to 20 years) or the term of the purchase agreement.

Expenditures with research and development are accounted for in profit or loss as they are incurred.

(c) Contractual customer and supplier relationships

Contractual customer and supplier relationships arising from a business combination are recognized at fair value at the acquisition date. These contractual customer and supplier relationships have a finite useful life and are amortized using the straight-line method over the term of the respective purchase or sale agreement.

(d) Software

This is recorded at cost net of accumulated amortization and provision for impairment, when applicable. Cost includes the acquisition price and/or internal development costs and all other costs directly related with making the software usable. Software that has defined useful lives is amortized using the straight-line method based on its estimated useful lives (3 to 10 years) or on the term of the respective purchase contracts. Costs associated with maintaining computer software programs are recognized in profit or loss as incurred.

2.15 Impairment of non-financial assets

Assets that have indefinite useful lives, for example goodwill based on future profitability, are not subject to amortization and are tested annually for impairment. This goodwill is allocated to the Cash Generating Units (“CGU”) or operating segments for the purposes of impairment testing.

Assets that are subject to depreciation or amortization are reviewed for impairment whenever events or circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognized when the asset’s carrying amount exceeds its recoverable amount. The recoverable amount is the higher of (i) an asset’s fair value less costs to sell; (ii) and its value in use. Taking into consideration the peculiarities of the Company’s assets, the value used for assessing impairment is the value in use, except when specifically indicated otherwise. The value in use is estimated based on the present value of future cash flows (Note 3.6).

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are identifiable cash flows that can be CGUs or operating segments.

Non-financial assets other than goodwill that were adjusted due to impairment are subsequently reviewed for possible reversal of the impairment at the balance sheet date.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

2.16 Trade payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business and they are recorded at the amount billed. When applicable, they are recorded at present value based on interest rates that reflect the term, currency and risk of each transaction.

The Company calculates the adjustment to present value for the purchases that fall due after 180 days and accounts for it as financial expenses.

2.17 Borrowings

Borrowings are recognized initially at fair value and, in some cases, net of the transaction costs incurred in structuring the transaction. Subsequently, borrowings are presented with the charges and interest in proportion to the period incurred.

2.18 Provisions

Provisions are recognized in the balance sheet when (i) the Company has a present legal, contractual or constructive obligation as a result of past events, (ii) it is probable that an outflow of resources will be required to settle the obligation and (iii) the amount can be reliably estimated.

The provisions for tax, labor and other contingencies are recognized based on Management's expectation of probable loss in the respective proceedings in progress and supported by the opinion of the Company's external legal advisors (Note 24).

The contingencies assumed in a business combination for which an unfavorable outcome is considered possible are recognized at their fair value on the acquisition date. Subsequently, and until the liability is settled, these contingent liabilities are measured at the higher of the amount recorded in the business combination and the amount that would be recognized under CPC 25 and IAS 37.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a rate before tax effects that reflects current market assessments. The increase in the provision due to passage of time is recognized in "financial results".

2.19 Current and deferred income tax and social contribution

The income tax ("IR") and social contribution ("CSL") recorded in the year are determined on the current and deferred tax basis. These taxes are calculated on the basis of the tax laws enacted at the balance sheet date in the countries where the Company operates and are recognized in the income statement, except to the extent they relate to items recorded in equity.

Deferred income tax and social contribution are recognized on temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements. On the other hand, the deferred income tax and social contribution are not accounted for if they arise from the initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting, nor taxable profit or loss.

Deferred income tax and social contribution assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized based on projections of future results prepared and based on internal assumptions and future economic scenarios that will allow for their utilization. The amounts accounted for and projections are regularly reviewed.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

Deferred income tax and social contribution assets and liabilities are presented net in the balance sheet when there is a legally enforceable right to offset them upon the calculation of current taxes, generally when related to the same legal entity and the same tax authority. Accordingly, deferred tax assets and liabilities in different entities or in different countries are generally presented separately, and not on a net basis.

Management periodically evaluates positions taken by the Company in income tax returns with respect to situations in which applicable tax regulation is subject to interpretation.

2.20 Employee benefits – pension plan

The Company sponsors a defined contribution plan and defined benefit plans.

(i) Defined contribution plan

For the defined contribution plans, the Company pays contributions to private pension plans on compulsory, contractual or voluntary bases. As soon as the contributions are paid, the Company does not have any further obligations related to additional payments.

(ii) Defined benefit plan

The defined benefit plan is financed by the payment of contributions to pension funds and the use of actuarial assumptions is necessary to measure the liability and the expenses of the plan, as well as the existence of actuarial gains and losses.

The liability recognized in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date, less the market value of plan assets, adjusted by actuarial gains or losses and past-service costs. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using the expected interest rate of return on assets disclosed by the plan's manager, which have terms to maturity approximating the terms of the related pension obligation.

The Company adopts the corridor approach to recognize actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions. Actuarial gains and losses that exceed the higher of 10% of plan assets or 10% of plan liabilities, are charged or credited to profit or loss according to the average remaining service period of the fund participants.

Past-service costs are recognized immediately in profit or loss on a straight-line basis over a period equivalent to the vesting period.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

2.21 Contingent assets and liabilities and judicial deposits

The recognition, measurement and disclosure of contingent assets and liabilities and judicial deposits are performed in accordance with CPC 25 and IAS 37 as follows:

- (i) Contingent assets – are not recognized in the books, except when management considers, supported by the opinion of its external legal advisors, the gain to be virtually certain or when there are secured guarantees or for which a favorable final and unappealable decision has been rendered.
- (ii) Contingent liabilities – are not recognized, except when management considers, supported by the opinion of its external legal advisors, that the chances of an unfavorable outcome is probable. In the case of non-recognition, the Company discloses the main proceedings for which an unfavorable outcome is possible in Note 28.
- (iii) Judicial deposits – are maintained in non-current assets without the deduction of the related provisions for contingencies or legal liabilities, unless such deposit can be legally offset against liabilities and the Company intends to offset such amounts.

2.22 Recognition of sales revenue

Sales revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Company's activities. Revenue is shown net of taxes, returns and rebates.

Revenue from the sale of goods is recognized when (i) the amount of revenue can be reliably measured and the Company no longer has control over the goods sold; (ii) it is probable that future economic benefits will be received by the Company; and (iii) all legal rights and risks and rewards of ownership have been transferred to the customer. The Company does not make sales with continued management involvement.

Most of Braskem's sales are made to industrial customers and, in a lower volume, to retailers and resellers.

The moment at which the legal right, as well as the risks and rewards, are substantially transferred to the customer depends on the delivery terms:

- (i) for contracts in which the Company is responsible for freight and insurance, the legal right, as well as the risks and rewards, are transferred to the customer after the good is delivered at the contractually agreed destination;
- (ii) for contracts in which the freight and insurance are the responsibility of the customer, the risks and rewards are transferred at the moment the goods are delivered at the client's shipping company; and
- (iii) for contracts in which the delivery of the goods involves the use of pipelines, particularly basic petrochemicals, the risks and rewards are transferred at the point immediately after the Company's official measures, which is the point of delivery of the goods and transfer of their ownership.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

2.23 Distribution of dividends

Distributions of dividends and interest on capital to the Company's shareholders are recognized as a liability in the financial statements at year-end in accordance with Brazilian tax legislation and the Company's bylaws.

The amount that is lower than the portion equivalent to the minimum compulsory dividend (25%) is recorded as a liability in the "dividends payable" account because it is considered a legal liability as provided for in the Company's bylaws. The amount of dividends that exceeds the minimum compulsory dividend is not recorded as a liability and it is presented in the "proposed additional dividend" account in equity.

2.24 Operating leases

Leases in which a significant portion of the risks and rewards of ownership of the assets is retained by the lessor are classified as operating leases. Payments made under these leases are charged to the income statement on a straight-line basis over the period of the lease.

The contracts in which the Company holds substantially all risks and rewards of ownership of the assets, are classified as operating leases and recognized in liabilities as "other payables".

2.25 New standards, amendments and interpretations to existing standards that are not yet effective

New standards, amendments and interpretations to existing standards that are not yet effective and that have not been early adopted by the Company and its subsidiaries:

IAS 19, "Employee benefits" was amended in June 2011. The impact on the Company will be as follows: (i) to eliminate the corridor approach; (ii) to recognize all actuarial gains and losses in "other comprehensive income" as they occur; (iii) to immediately recognize all past service costs; and (iv) to replace interest cost and expected return on plan assets with a net interest amount that is calculated by applying the discount rate to the net defined benefit asset (liability). The standard is applicable as from January 1, 2013. These amendments have not yet been ratified by the CPC.

IFRS 9, "Financial instruments" addresses the classification, measurement and recognition of financial assets and financial liabilities. IFRS 9 was issued in November 2009 and October 2010. It replaces the parts of IAS 39 that relate to the classification and measurement of financial instruments. IFRS 9 requires financial assets to be classified into two measurement categories: those measured at fair value and those measured at amortized cost. The determination is made at initial recognition. The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial instruments. For financial liabilities, the standard retains most of the IAS 39 requirements. The main change is that, in cases where the fair value option is taken for financial liabilities, the part of a fair value change due to an entity's own credit risk is recorded in other comprehensive income rather than in the income statement, unless this creates an accounting mismatch. The standard is applicable as from January 1, 2015. This standard has not yet been ratified by the CPC.

IFRS 10, "Consolidated financial statements" builds on existing principles by identifying the concept of control as the determining factor in whether an entity should be included within the consolidated financial statements of the Parent Company. The standard provides additional guidance to assist in the determination of control. The standard is applicable as from January 1, 2013. This standard has not yet been ratified by the CPC.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

IFRS 11, "Joint arrangements" was issued in May 2011. The standard provides for a more realistic reflection of joint arrangements by focusing on the rights and obligations of the arrangement, rather than on its legal form. There are two types of joint arrangements: (i) joint operations - arise where a joint operator has rights to the assets and obligations relating to the arrangement and hence accounts for its interest in assets, liabilities, revenue and expenses; and (ii) joint ventures - arise where the joint operator has rights to the net assets of the arrangement and hence equity accounts for its interest. The proportional consolidation method will no longer be permitted in joint ventures. The standard is applicable as from January 1, 2015. This standard has not yet been ratified by the CPC.

IFRS 12, "Disclosures of interests in other entities" includes the disclosure requirements for all forms of interests in other entities, including joint arrangements, associates, special purpose vehicles and other off balance sheet vehicles. The standard is applicable as from January 1, 2013. This standard has not yet been ratified by the CPC.

IFRS 13, "Fair value measurement" was issued in May 2011. IFRS 13 aims to improve consistency and reduce complexity by providing a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across IFRSs. The requirements do not extend the use of fair value accounting but provide guidance on how it should be applied where its use is already required or permitted by other standards within IFRSs. The standard is applicable as from January 1, 2013. This standard has not yet been ratified by the CPC.

The Company is yet to access the full impact of these standards.

There are no other IFRSs or IFRIC interpretations that are not yet effective that would be expected to have a material impact on the Company.

3 Application of critical accounting practices and judgments

Critical estimates and judgments

Critical estimates and judgments are those that require the most difficult, subjective or complex judgments by management, usually as a result of the need to make estimates that affect issues that are inherently uncertain. Estimates and judgments are continually reassessed and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results can differ from those estimated under different variables, assumptions or conditions.

In order to provide an understanding of the way the Company forms its judgments on future events, the variables and assumptions used in estimates are presented below:

3.1 Deferred income tax and social contribution

The Company keeps a permanent record of deferred income tax and social contribution on the following bases: (i) tax losses and social contribution tax loss carryforwards; (ii) temporarily non-taxable and undeductible income and expenses, respectively; (iii) tax credits and expenses that will be reflected in the books in subsequent periods; and (iv) asset and liability amounts arising from business combinations that will be treated as income or expenses in the future and that will not affect the calculation of income tax and social contribution.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

The recognition and the amount of deferred taxes assets depend on the generation of future taxable income, which requires the use of an estimate related to the Company's future performance. This information is in the Business Plan, which is approved by the Board of Directors at the end of the second half of every year. This plan is prepared by the Executive Board and its main variables, such as the price of the products manufactured by the Company, price of naphtha, exchange variation, interest rate, inflation rate, and the start-up of operations of new plants are obtained from specialized external consultants. The Company annually reviews the projection of taxable income. If this projection shows that the taxable income will not be sufficient to absorb the deferred tax, then the corresponding portion of the asset that cannot be recovered is written-off.

3.2 Pension plans

The Company recognizes the obligation of the employee defined benefit plans and related costs, net of the plan assets, by adopting the following practices:

- (i) the plan cost is determined by actuaries using the projected unit credit method and the best estimates of the plan's manager and the Company of the expected performance of the plan's investments, salary growth, retirement age of employees and discount rates;
- (ii) the plan assets are stated at fair value;
- (iii) plan curtailments result in significant changes in the length of service expected from active employees. A net curtailment gain or loss is recognized when the event is probable and can be estimated.

The discount rate used to determine the future benefit obligation is an estimate of the interest rate of return on the plan assets disclosed by the plan's management.

Additionally, actuaries, supported by the plan's manager, also use subjective factors such as rescission, turnover and mortality rates to estimate these factors. The actuarial assumptions used in the Company's plans can be materially different from the actual results due to changes in economic and market conditions, regulatory events, court decisions, higher or lower rescission rates or longer or shorter longevity of participants (Note 26).

3.3 Derivative financial instruments

The Company evaluates the derivative financial instruments at their fair value on the date of the financial statements and the main sources of information are the stock exchanges, commodities and futures markets, disclosures of the Central Bank of Brazil and quotation services like Bloomberg. Nevertheless the high volatility of the foreign exchange and interest rate markets in Brazil caused, in certain periods, significant changes in future rates and interest rates over short periods of time, leading to significant changes in the market value of swaps and other financial instruments. The market value recognized in its financial statements may not necessarily represent the amount of cash that the Company would receive or pay upon the settlement of the transaction.

3.4 Useful live of assets

The Company recognizes the depreciation and depletion of its long-lived assets based on their useful life estimated by independent appraisers and approved by the Company's technicians taking into consideration the experience of these professionals in the management of Braskem's plants. The useful lives initially established by independent appraisers are reviewed at the end of every year by the Company's technicians in order to check whether they need to be changed. In December 2011, this analysis concluded that the useful lives applied in 2010 and 2011 should be maintained in 2012.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated**

The main factors that are taken into consideration in the definition of the useful life of the assets that compose the Company's industrial plants are the information of manufacturers of machinery and equipment, volume of the plants' operations, quality of preventive and corrective maintenance and the prospects of technological obsolescence of assets.

The Company's management also decided that (i) depreciation should cover all assets because when the equipment and installations are no longer operational, they are sold by amounts that are absolutely immaterial; and (ii) land is not depreciated because it has an indefinite useful life.

The useful lives applied to the assets determined the following average depreciation and depletion rates:

| | Percentage (%) | |
|--|-----------------------|-------------|
| | 2011 | 2010 |
| Buildings and improvements | 3.46 | 4.12 |
| Machinery, equipment and installations | 6.91 | 6.72 |
| Mines and wells | 9.01 | 9.01 |
| Furniture and fixtures | 10.86 | 10.36 |
| IT equipment | 20.80 | 20.50 |
| Lab equipment | 10.18 | 10.18 |
| Security equipment | 9.96 | 9.96 |
| Vehicles | 20.00 | 20.00 |
| Other | 6.38 | 6.38 |

3.5 Valuation of assets and liabilities in business combinations

In accordance with CPC 15 and IFRS 3, the Company must allocate the cost of the assets acquired and liabilities assumed based on their estimated fair values on the acquisition date.

The Company exercises significant judgment in the process of identifying and evaluating tangible and intangible assets and liabilities and in the determination of their remaining useful lives. The use of assumptions in the evaluation of the assets acquired and liabilities assumed includes an estimate of discounted cash flows or discount rates that may result in estimated amounts that are different from those of the assets acquired and liabilities assumed. The Company contracts a specialized company to evaluate the fair value of the assets acquired and liabilities assumed.

If the future results are not consistent with the estimates and assumptions used, the Company may be exposed to losses that may be material.

3.6 Impairment test for tangible and intangible assets

(a) Tangible and intangible assets with defined useful lives

On the balance sheet date, the Company makes an analysis to determine if there is evidence that the amount of long-lived tangible assets and intangible assets with defined useful lives will not be recoverable. This analysis takes into consideration the following variables that are relevant to the Business Plan mentioned in Note 3.1: (i) evolution of Industrial Gross Domestic Product; (ii) price of naphtha; (iii) evolution of Brazil's Gross Domestic Product; (iv) inflation; and (v) foreign exchange rates. The Company uses scenarios projected by specialized consultants to estimate these variables.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

When some evidence that the amount of tangible and intangible assets with defined useful lives will not be recovered is identified, the Company compares the amount of these assets with the respective value in use. For this test, the Company uses the cash flow that is prepared based on the Business Plan. The assets are allocated to the CGUs as follows:

Basic petrochemicals operating segment:

- CGU UNIB Bahia: represented by assets of the basic petrochemicals plants located in the state of Bahia;
- CGU UNIB South: represented by assets of the basic petrochemicals plants located in the state of Rio Grande do Sul;
- CGU UNIB Southeast: represented by assets of the basic petrochemicals plants located in the states of Rio de Janeiro and São Paulo;

Polyolefins operating segment:

- CGU Polyethylene: represented by assets of the polyethylene plants located in Brazil;
- CGU Polypropylene: represented by assets of the polypropylene plants located in Brazil;

Vinyls operating segment:

- CGU Vinyls: represented by assets of PVC plants and chloride soda (CS) located in Brazil;

Foreign businesses operating segment:

- CGU PP USA: represented by assets of polypropylene plants located in the United States;
- CGU PP Germany: represented by assets of polypropylene plants located in Germany;
- CGU Green Polyethylene: represented by the Green Polyethylene plant located in Brazil;

Chemical Distribution operating segment:

- CGU Quantiq – represented by assets of the subsidiaries Quantiq and IQAG.

(b) Goodwill based on future profitability and intangible assets with indefinite useful lives

Whether there are indications that the amount of an asset may not be recovered or not, the balances of goodwill from future profitability arising from business combinations and intangible assets with indefinite useful lives are tested for impairment at least once a year at the balance sheet date.

For the purposes of testing impairment, the Company allocated the goodwill existing at the CGU UNIB South and in the Polyolefins and Vinyls operating segments. The Company's management allocated the goodwill to the Polyolefins segment based on the way this goodwill is internally managed. The existing goodwill was generated in a business combination that resulted in the simultaneous acquisition of polypropylene and polyethylene plants. The main raw materials of these plants were supplied by the Parent Company, which allowed for the obtainment of significant synergies in the operation. These synergies were one of the main drivers of that acquisition. Accordingly, the Company's management tested this goodwill and assets for impairment in the ambit of their operating segment since the benefits of the synergies are associated with all units acquired.

3.7 Provisions and contingent liabilities

Braskem's management, based on the opinion of its external legal advisors, classifies the legal and administrative proceedings against the Company in terms of probability of loss as follows:

Probable loss – these are proceedings for which there is a higher probability of loss than of a favorable outcome, that is, the probability of loss exceeds 50%. For these proceedings, the Company recognizes a provision that is determined as follows:

(i) labor claims – the amount of the provision corresponds to the amount claimed multiplied by the Company's historical percentage of settlement of claims of this nature;

(ii) tax claims - the amount of the provision corresponds to 100% of the value of the matter plus charges corresponding to the variation in the Selic rate, which is the rate disclosed by the Central Bank of Brazil;

(iii) other claims – the amount of the provision corresponds to the value of the matter.

Possible loss – these are proceedings for which the possibility of loss is not remote. The loss may occur, however, the elements available are not sufficient or clear to allow for a conclusion on whether the trend is for a loss or a gain. In percentage terms, the probability of loss is between 25% and 50%. For these claims, except for the cases of business combinations, the Company does not recognize a provision and mentions the most significant ones in a note to the financial statements (Note 28). In business combination transactions, in accordance with the provision in CPC 15 (R1) and IFRS 3, the Company records the fair value of the claims based on the assessment of loss. The amount of the

provision corresponds to the value of the matter, plus charges corresponding to the variation in the Selic rate, multiplied by the probability of loss (Note 24(c)).

Remote loss – these are proceedings for which the risk of loss is small. In percentage terms, this probability is lower than 25%. For these proceedings, the Company does not recognize a provision nor does it disclose them in a note to the financial statements regardless of the amount involved.

The Company's management believes that the estimates related to the outcome of the proceedings and the possibility of future disbursement may change in view of the following: (i) higher courts may decide in a similar case involving another company, adopting a final interpretation of the matter and, consequently, advancing the termination of the of a proceeding involving the Company, without any disbursement or without implying the need of any disbursement; and (ii) programs encouraging the payment of the debts, such as refinancing programs (REFIS) implemented in Brazil at the Federal level, in favorable conditions that may lead to a disbursement that is lower than the one that is currently recognized in the provision or lower than the value of the matter.

Braskem S.A.

Notes to the financial statements

All amounts in thousands of reais unless otherwise stated

4 Risk management

Braskem is exposed to (i) market risks arising from variations in commodity prices, foreign exchange and interest rates; (ii) credit risks of its counterparties in cash equivalents, financial investments and trade accounts receivable; and (iii) liquidity risks to meet its obligations related to financial liabilities.

Braskem adopts procedures for managing market and credit risks that are in conformity with the new financial policy approved by the Board of Directors on August 09, 2010. The purpose of risk management is to protect the cash flows of Braskem and reduce the threats to the financing of its operating working capital and investment programs.

4.1 Market risk

Braskem prepares a sensitivity analysis for each type of market risk to which it is exposed, which is presented in Note 21.4.

(a) Commodities risk

Braskem is exposed to fluctuations in the prices of many petrochemical commodities, in particular, of its main raw material, the naphtha. As Braskem seeks to pass on the fluctuations in the prices of this raw material caused by the fluctuations in international prices, the Company does not enter into derivatives contracts to protect against commodity risks. Additionally, an immaterial part of sales are performed based on fixed-price contracts or contracts with a maximum and/or minimum fluctuation range. These contracts can be commercial agreements or derivative contracts relating to future sales.

(b) Foreign exchange risk

Braskem has commercial operations denominated or indexed in foreign currencies. Braskem's inputs and products have prices denominated in or strongly influenced by international prices of commodities, which are usually denominated in U.S. dollars. Additionally, Braskem has long-term loans in foreign currencies, which expose the company to variations in the foreign exchange rate between the real and the foreign currency, in particular, the U.S. dollar. Braskem manages its exposure to foreign exchange risk by means of a combination of debts in foreign currencies, investments in foreign currencies and derivatives. Braskem's financial policy to manage foreign exchange risks provides for the maximum and minimum coverage limits that should be followed and which are continuously monitored by its management.

(c) Interest rate risk

Braskem is exposed to the risk that a variation in floating interest rates causes an increase in its financial expenses from payments of future interest. Foreign currency denominated debt subject to floating rates is mainly subject to fluctuations in the Libor. Local currency denominated debt is mainly subject to the variation in the TJLP, fixed rates in Brazilian reais and the variation in the Interbank Deposit Certificate ("daily CDI") rate. Braskem has swap contracts designated for hedge accounting with asset positions in floating Libor and liability positions at fixed rates.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

4.2 Credit risk

The transactions that subject Braskem to the concentration of credit risks are mainly in current accounts with banks, financial investments and trade accounts receivable in which Braskem is exposed to the risk of the financial institution or customer involved. In order to manage this risk, Braskem maintains bank current accounts and financial investments with large financial institutions, weighting concentrations in accordance with the ratings and the daily prices seen in the Credit Default Swap market for the institutions, as well as netting contracts that minimize the total credit risk arising from the many financial transactions entered into by the parties.

On December 31, 2011, Braskem has netting contracts with Banco Citibank S.A., HSBC Bank Brasil S.A. – Banco Múltiplo, Banco Itaú BBA S.A., Banco Safra S.A., Banco Santander (Brasil) S.A., Banco Votorantim S.A., Banco West LB do Brasil S.A., Banco Caixa Geral – Brasil S.A., Banco Bradesco S.A. Approximately 50% of the amounts maintained in cash and cash equivalents (Note 6) and financial investments (Note 7) are contemplated in these contracts and the obligations in which are included in the account “borrowings” (Note 19).

With respect to the credit risk of customers, Braskem protects itself by performing a rigorous analysis before granting credit and obtaining secured and unsecured guarantees when considered necessary.

The maximum exposure to credit risks of non-derivative financial instruments on the reporting date is their carrying amounts less any impairment losses. On December 31, 2011, the balance of trade accounts receivable is net of the provision for impairment and amounts to R\$ 253,607 (2010 – R\$ 269,159).

4.3 Liquidity risk and capital management

Braskem has a calculation methodology to determine an operating cash and a minimum cash for the purpose of, respectively: (i) ensure the liquidity of short-term obligations, calculated based on the expectation of operating disbursements for the following month; and (ii) ensure that the Company maintains liquidity in possible moments of crisis, calculated based on the expectation of operating cash generation, less short-term debts, working capital needs, among others.

In some financing agreements, Braskem has covenants that tie the net debt and the payment of interest to its consolidated EBITDA (Earnings before interests, taxes, depreciation and amortization) (Note 19(i)). The Company's Management monitors these indicators on quarterly basis in U.S. dollar, as established in the financing agreements.

Additionally, Braskem has two revolving credit lines amounting to: (i) US\$ 350 million, which may be used without restriction for a period of three years as from September 2010; and (ii) US\$ 250 million, which may be used without restriction for a period of five years as from August 2011. These credit lines allow for the reduction of cash maintained by Braskem. On December 31, 2011, Braskem had not used any credit from these lines.

The table below shows Braskem's financial liabilities by maturity, corresponding to the period remaining in the balance sheet until the contractual maturity date. These amounts are calculated from undiscounted cash flows and may not be reconciled with the balance sheet.

5 Business combinations**5.1 Quattor Participações S.A. (current Braskem Qpar)**

On January 22, 2010 the shareholders of the Parent Company (Odebrecht S.A. – “ODB”, Odebrecht Serviços e Participações S.A. – “OSP”, Petróleo Brasileiro S.A. – Petrobras e Petrobras Química S.A. – Petroquisa), together with União das Indústrias Petroquímicas S.A. – “Unipar”, entered into an Investment Agreement to establish the terms for the acquisition by the Company and of the investments held by Unipar in the petrochemical industry, allowing for the consolidation of Petrobras’ petrochemical investments in Braskem.

On April 27, 2010, the Company purchased 143,192,231 of Quattor shares representing 60% of its total capital and paid the amount of R\$ 659,454 to Unipar. On April 30, 2010, the Company acquired the control of Quattor and, at the Ordinary General Shareholders' Meeting, it appointed the members of Quattor's Board of Directors and this date is the date of acquisition for the purposes of accounting for this business combination.

Under the Investment Agreement of January 22, 2010, when the Company acquired 60% of Quattor's voting capital, it undertook to acquire the following interests:

- (i) 40% of the voting capital of Quattor held by Petrobras through the exchange of 18,000,087 shares issued by the Company;
- (ii) 33.3% of the voting capital of Polibutenos S.A. held by Unipar for a cash consideration of R\$ 22,326;
- (iii) 0.68% of non-controlling interests in Quattor Química; these non-controlling shareholders have a tag along right to sell their shares for up to 80% of the price paid to the controlling shareholder);
- (iv) 25% of the voting capital of Riopol held by BNDESPAR.¹

¹ As part of the acquisition of Quattor, the Company assumed the obligation under a put option entered into by Unipar and BNDESPAR (Note 1(b.1(viii))). Under this put option and a similar put option entered into by Petrobras, Unipar and Petrobras, former owners of a 75% interest in Riopol, agreed to repurchase a 25% (being 15% by Unipar and 10% by Petrobras) non-controlling interest of Riopol from BNDESPAR at the end of a five-year period (that commenced on January 15, 2008), or at an earlier time during that period in the event that BNDESPAR decided to exercise the option earlier. Under the terms of the option, the purchase price of these shares would be equal to the total amount originally invested by BNDESPAR, corrected by a contractually agreed interest rate.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated**

At the acquisition date, the fair value of the option entered by Unipar was R\$ 205,121, based on the amount originally invested corrected by the contractual interest rate. On August 9, 2010, BNDESPAR exercised the put option and Braskem acquired 190,784,674 common shares and 30 preferred shares of Riopol for R\$ 209,951. The change in the fair value of this put option totaled of R\$ 4,830 and was recorded as an expense.

Although the Company did not obtain the legal right over the aforementioned shares of the companies on the acquisition date, all the events described above were accounted for on April 30, 2010, since the Investment Agreement set forth the Company's obligation to acquire all of the remaining shares. Subsequently, all interests were acquired under the Investment Agreement.

The table below summarizes the consideration paid to the shareholders' of the Quattor Group and the amounts of the assets acquired and liabilities assumed recognized on the date of acquisition, as well as the fair value on the date of the acquisition of the non-controlling interests in Quattor.

Consideration paid

| | |
|---|------------------|
| Cash | 704,298 |
| Shares issued (the amount of R\$250,049 also includes Braskem shares issued for the purchase of other interests in this business combination) | 250,049 |
| BNDESPAR put option assumed by the Company and other obligations | 218,739 |
| Total consideration transferred (A) | 1,173,086 |

Fair value of identifiable assets and assumed liabilitiesCurrent assets

| | |
|----------------------|-----------|
| Inventory | 823,012 |
| Other current assets | 1,383,104 |

Non-current assets

| | |
|-----------------------------|-----------|
| Property, plant & equipment | 7,531,158 |
| Intangible | 560,430 |

| | |
|--|------------------|
| Other non-current assets | 990,850 |
| <u>Current liabilities</u> | 2,903,113 |
| <u>Non-current liabilities</u> | |
| Other provisions | 220,619 |
| Deffered income tax and social contribution | 623,173 |
| Other non-current liabilities | 5,527,104 |
| Total identifiable assets and assumed liabilities (B) | 2,014,545 |
| Business combination result (A) – (B) | 841,459 |

The gain (bargain purchase) of R\$ 841,459 is recorded in a specific account in the income statement for 2010 called “results from business combinations”. This bargain purchase was attributable to the terms of negotiation with the shareholders of Quattor.

The fair value of the Company’s shares issued in these transactions was determined based on the BM&FBovespa closing price on April, 30, 2010 and totaled R\$ 197,101.

The fair value of the assets acquired and liabilities assumed was estimated by an independent appraiser and the main results are described below:

(i) The fair value of inventories was determined taking into consideration the sales price, net of taxes, on the date of the evaluation of the assets using the market approach method. The difference between the market value and the carrying amount of inventories was R\$ 68,009.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

(ii) The method used to evaluate property, plant and equipment was the cost replacement approach method. Management, together with its external appraisers, understands that the use of the market approach method using the unit values of each asset that composes the plant would not reflect the economic value of the plant, since they would not consider the costs of the installed technology, costs of supporting installations and the active connection with production and distribution (going concern). In the evaluation process, the following information was used: (i) cost of installation of similar plants; (ii) most recent quotes for the expansion and replacement of similar assets; and (iii) cash price for the replacement of the asset, taking into consideration the working conditions on the date of inspection, among other. The adjustment booked over the historical Quattor property, plant and equipment book value of R\$ 6,039,067 was in the amount of R\$ 1,492,091. Therefore, after the adjustments, the fair value of property, plant and equipment registered in the acquisition was in the amount of R\$ 7,531,158.

(iii) As a result of the evaluation, net gains on future cash flows were identified for the commercial contracts with customers and suppliers that were brought to present value at a discount rate of 14.1% a year. Additionally, the costs of registration and product placement were considered and, in technology, the expenses incurred with personnel and the administrative expenses for the research conducted together with the Federal University of Rio de Janeiro were also considered. The identifiable intangible assets related to brands, technology, contracts with customers and suppliers totaled R\$ 393,878.

(iv) Many tax contingencies were recognized and the chances of an unfavorable outcome for these contingencies are possible based on the evaluation of the value of the matter in dispute and probability of loss estimated by external legal advisors. The provisions recognized refer to lawsuits related to the State Value-Added Tax (ICMS), Social Integration Program (PIS), Social Contribution on Revenues (COFINS), Income Tax (IR) and Social Contribution on Income (CSL) totaling R\$ 210,695.

(v) The fair value of loans and financing was determined using the income approach method however, the fair value effects were not recognized since these loans included clauses that provided for the advanced settlement were settled in 2010 and the effects were annulled in profit or loss for that year.

The 2010 net sales revenue included in the consolidated income statement since April 30, 2010 includes R\$ 4,412,244 in net revenues from Quattor. Quattor also contributed with profit of R\$ 58.461 in the same period.

The acquisition of Quattor was subject to the final approval of CADE. Brazilian Corporate Law allows for the completion of this transaction before the final approval by the Brazilian antitrust authorities, unless CADE issues a writ of prevention against the transaction. This transaction was submitted for CADE's analysis on February 5, 2010. On February 23, 2011, the transaction was approved with no significant restrictions.

5.2 Sunoco Chemicals

On April 1, 2010, Braskem acquired 100% of Sunoco Chemicals' shares for R\$ 620,838 (US\$ 351 million). The name of this subsidiary was changed to Braskem PP Americas Inc. (currently named Braskem America). Headquartered in Philadelphia, Braskem America has three polypropylene plants located in the states of Texas, Pennsylvania and West Virginia that had an aggregate annual installed capacity of 950,000 metric tons, representing approximately 13% of the total installed polypropylene production capacity in the United States. Additionally, Braskem America also has a technology center in Pittsburgh, Pennsylvania.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated**

The date of acquisition of control over the operating and financial policies of PP Americas is April 1, 2010, date from which the Company started to appoint all the members of this subsidiary's Board.

The following table summarizes the consideration paid to the former shareholders of Sunoco Chemicals and the amounts of the assets acquired and liabilities assumed recognized at the acquisition date.

| | |
|--|----------------|
| Consideration transferred | |
| Cash | 620,838 |
| Total consideration transferred (A) | 620,838 |
| Fair value of the identifiable assets and liabilities assumed | |
| <u>Current assets</u> | |
| Inventory | 177,070 |
| <u>Non-current assets</u> | |
| Property, plant & equipment | 628,698 |
| Intangible | 285,464 |
| Other non-current assets | 11,262 |
| <u>Current liabilities</u> | 6,597 |
| <u>Non-current liabilities</u> | |
| Deferred income tax and social contribution | 330,421 |
| Other non-current liabilities | 18,549 |
| Total identifiable assets and liabilities assumed (B) | 746,927 |
| Business combination result (A) – (B) | 126,089 |

The gain (bargain purchase) of R\$ 126,089 is recorded in a specific account in the income statement for 2010 called "results from business combinations".

The fair value of the assets acquired and liabilities assumed was estimated by an independent appraiser and the main results are described below:

(i) The fair value of inventories was determined taking into consideration the sales price, net of taxes, on the date of the evaluation of the assets by the experts using the market approach method.

(ii) The method used to evaluate property, plant and equipment was the cost approach method. Management, together with its external appraisers, understands that the use of the market approach method using the unit values of each asset that composes the plant would not reflect the economic value of the plant, since they would not consider the costs of the installed technology, costs of supporting installations and the active connection with production and distribution (going concern). In the evaluation process, the following information was used: (i) cost of installation of similar plants; (ii) most recent quotes for the expansion and replacement of similar assets; and (iii) cash price for the replacement of the asset, taking into consideration the working conditions on the date of inspection, among other.

(iii) As a result of the evaluation, net gains on future cash flow were identified for the commercial contracts that were brought to present value at a discount rate of 15% a year. The identifiable intangible assets relate to technology and contracts with suppliers.

The net revenue included in the consolidated income statement since April 1, 2010 includes R\$ 1,891,487 in net revenues from PP Americas' operations. PP Americas also contributed with a profit of R\$ 172,735 in the same period.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

This transaction was approved by CADE on November 3, 2010 and by the U.S. antitrust agency on March 22, 2010.

5.3 Unipar Comercial

On May 10, 2010, the Company acquired 100% of the voting capital of Unipar Comercial. On the same date, the Company acquired the control over its management and, therefore, this date was considered for accounting for the business combination. The total cash consideration paid for the acquisition was R\$ 27,104 and the fair value of the assets acquired and liabilities assumed was R\$ 35,138. The adjustment that was booked over the historical book value, in the amount of R\$ 8,342, arose from the evaluation of property, plant and equipment, and on this amount, deferred income tax and social contribution liabilities, amounting to R\$ 4,139, was also recognized. A bargain purchase gain of R\$ 7,735 was recognized in the income statement for 2010 within “results from business combinations”. CADE approved this transaction on February 23, 2011.

5.4 Polypropylene plants abroad – Dow Chemical

On September 30, 2011, Braskem, through its subsidiaries Braskem America and Braskem Alemanha acquired the polypropylene business from Dow Chemical for R\$ 607,595 (US\$ 323 million). On the same date, the amount of R\$ 312,263 (US\$ 166 million) was paid, corresponding to the portion of the trade payables that were assumed in the transaction.

Based on the changes in trade accounts receivable and inventories between the date of the announcement of the transaction and the closing date, an additional amount of R\$ 9,412 (US\$ 5 million) was paid. The final amount can still be changed based on new changes in trade accounts receivable and inventories.

The negotiations included four industrial units, two in the United States and two in Germany, with an annual production capacity of 1,050 thousand metric tons of polypropylene.

In the United States and Germany, mainly industrial plants, trade accounts receivable, inventories were acquired and liabilities assumed related to the business operation. In the United States, the plants acquired are located in the State of Texas and have an annual polypropylene production capacity of 505,000 metric tons. In Germany, the plants have an annual polypropylene production capacity of 545,000 metric tons.

Trade accounts receivable and inventories located in Mexico were also acquired through the subsidiary Braskem Mexico amounting to R\$ 13,214 (US\$ 7 million), net of trade payables assumed. Since this was a separated purchase of assets that will be terminated in the short term with the sale of inventories and the financial settlement of trade accounts receivable and payable, this transaction is not a business combination.

The closing of this transaction between the parties took place on September 30 and the financial settlement occurred on October 3, 2011.

Until the effective payment to Dow Chemical, the acquirers have not made any significant decision with respect to the operations of the plants. The rights and obligations generated from October 1, 2011 are of the acquirers, including inventories produced and new liabilities assumed.

The reasons mentioned above lead us to conclude that the date of acquisition of control is October 3, 2011, which is the date the business combination was recorded.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated**

The following table summarizes the consideration paid to Dow Chemical and the amounts of the assets acquired and liabilities assumed recognized on the acquisition date:

In the financial statements for the year ended December 31, 2011, the amounts were allocated, on a preliminary basis, to the assets acquired and liabilities assumed by the acquirers.

Independent appraisers were contracted to determine the assets acquired and liabilities assumed at fair value. This work is expected to be completed by the end of the first quarter of 2012 when possible adjustments will be recognized.

The Company did not determine any goodwill or gain from a bargain purchase as a result of this preliminary allocation.

This acquisition was submitted for the approval of CADE on August 17, 2011 and approved on February 8, 2012. This transaction was also submitted to the U.S. antitrust agency on August 16, 2011 and was approved on September 9, 2011, and to European antitrust agencies on August 26, 2011 and it approved on September 28, 2011.

On December 31, 2011, the balances of investments of FIM Sol classified as “held-for-trading” and “loans and receivables” refer to floating-rate fixed income investments with determinable earnings. The held-to-maturity financial investments related to quotas of investments funds in credit rights have maturity in June 2013 and December 2014 and are presented as non-current assets.

This account was presented in the 2010 annual financial statements in specific accounts called “available-for-sale financial assets” and “held-for-trading financial assets”.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****8 Trade accounts receivable**

| Write-offs | 14,900 | 3,400 | 18,671 | 18,131 |
| Addition by acquisition of companies | | (130) | (7,731) | (130) |
| Balance of provision at the end of the year | (189,071) | (212,363) | (253,607) | (269,159) |

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****9 Inventories**

| | | Parent company | | Consolidated |
|--|------------------|-----------------------|------------------|---------------------|
| | 2011 | 2010 | 2011 | 2010 |
| Finished goods | 1,192,940 | 1,012,891 | 2,444,547 | 1,876,290 |
| Raw materials, production inputs and packaging | 620,877 | 621,158 | 866,206 | 781,594 |
| Maintenance materials | 95,980 | 132,510 | 183,779 | 240,442 |
| Advances to suppliers | 16,522 | 8,099 | 58,200 | 56,825 |
| Imports in transit and other | 42,190 | 14,847 | 70,790 | 60,506 |
| Total | 1,968,509 | 1,789,505 | 3,623,522 | 3,015,657 |

Advances to suppliers and expenditures with imports in transit are mainly related to operations for the acquisition of the main raw material of the Company, the petrochemical naphtha.

The account "maintenance materials" includes materials of general and specific use and the useful lives of which, after their application on machinery and equipment, is less than a year. The other maintenance materials are spare assets and replacement parts with useful lives that exceed one year and are classified in property, plant and equipment in accordance with CPC 27 and IAS 16 (Note 16).

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****10 Related parties**

The Company carries out transactions with related parties in the ordinary course of its operations and activities. The Company believes that all the conditions set forth in the contracts with related parties meet the Company's interests. To ensure that these contracts present terms and conditions that are as favorable to the Company as those it would enter into with any other third parties is a permanent objective of Braskem's management.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

As provided for in the Company's bylaws, the Board of Directors has the exclusive power to decide on any contract but those related to the supply of raw materials that exceeds R\$ 5,000 per operation or R\$ 15,000 altogether per year between the Company and its subsidiaries and any of its common shareholders, directors of the Company, its parent company or subsidiary or its respective related parties. Additionally, the Company has a Finance and Investment Committee that, among other things, monitors the contracts with related parties that are approved by the Board of Directors.

It is worth noting that Brazilian Corporate Law ("Corporate Law") forbids officers and directors to: (i) perform any acts of freedom with the use of the Company's assets and in its detriment; (ii) intervene in any operations in which these officers and directors have a conflict of interest with the Company or in resolutions in which they participate; and (iii) receive, based on their position, any type of personal advantage from third parties, directly or indirectly, without an authorization granted by the proper body.

The related parties have the following relationship with the Company:

- CNO: indirect controlling of Braskem
- CNO México: wholly-owned indirect subsidiary of Odebrecht
- OCS: wholly-owned direct subsidiary of Odebrecht
- OPIP: wholly-owned direct subsidiary of Odebrecht
- OSP: indirect controlling of Braskem
- Petrobras: direct shareholder of Brakem
- Pfico: wholly-owned direct subsidiary of Petrobras
- Refap: wholly-owned indirect subsidiary of Petrobras

The transactions with related parties, except wholly-owned subsidiaries of the Company, are summarized below:

- CNO: The Company and CNO signed an alliance agreement for performing services in the stoppages for maintenance and inspection in the industrial units. This agreement provides for a different price for each type of activity carried out by CNO.
- CNO Mexico: The subsidiary Braskem Idesa and CNO Mexico signed, together with Ica Fluor Daniel, S de R. L. de C. V. (Mexican engineering company), agreements for the performance of services of (i) basic engineering and preliminary procurement of equipment amounting to US\$ 16 million and effective until April 2012; and (ii) land leveling, amounting to US\$ 150 million and effective until March 2013. These contracts were signed for the construction of the Ethylene XXI project (Note 1(b.3)).
- CNO and Alagoas Consortium (composed of CNO and OSP): The Company signed: (i) an alliance agreement with the Alagoas Consortium (composed of CNO and OSP) for the construction of a PVC plant in Alagoas in the estimated amount of R\$ 362 million, dated December 14, 2010, and effective for 24 months; and (ii) an alliance agreement with CNO for the construction of a butadiene plant in the state of Rio Grande do Sul in the amount of R\$ 129 million, dated April 4, 2011 and effective until October 3, 2012.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

- Petrobras:

- (i) Naphtha

Braskem and Braskem Qpar have agreements for the supply of naphtha with Petrobras. The agreements provide for the supply of naphtha to the basic petrochemicals units located in the Triunfo, Camaçari and São Paulo Petrochemical Complexes. The agreed-upon price of the naphtha is based on several factors, such as the market price of the naphtha and a number of oil byproducts, the volatility of the prices of these products in the international markets, the Brazilian real - U.S. dollar exchange rate and the concentration of paraffinic content and contaminants present in the naphtha delivered. The agreement provides for a minimum consumption of 3,800,000 metric tons a year and a maximum consumption of 7,019,600 metric tons a year. The subsidiary of Petrobras, PifCo, also supplies naphtha to the Company and its subsidiaries.

- (ii) Propane

Braskem has propane supply agreements with Petrobras and its subsidiary Refap through its refineries for the Company's plants located in the petrochemical complexes. These agreements provide for the full supply of approximately 680,000 metric tons of propane a year.

- (iii) Ethane, propane and electric energy

The subsidiary Riopol has an agreement with Petrobras for the supply of 392,500 metric tons of ethylene a year, 392,500 metric tons of propane a year and 306.6 GWh of electric energy a year.

(iv) Sale of sundry products

The Company supplies to Petrobras many products it manufactures, such as solvents, butadiene, benzene, toluene, etc. These supplies are not covered by an agreement and take place on a regular basis at market prices.

- OCS: The Company entered into a risk and insurance management agreement with OCS, amounting to R\$ 6 million for a period of three years as from 2008.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****(b) Key management personnel**

The Company considers “Key management personnel” to be the members of the Board of Directors and the Executive Board, composed of the CEO and vice-presidents. Not all the members of the Executive Board are members of the statutory board.

| Total | | 1,669,232 | 1,497,466 | 2,542,500 | 2,143,280 |

(a) ICMS

The Company has accumulated ICMS credits over the past few years arising mainly from acquisitions of fixed assets, domestic sales subject to deferred taxation and export sales. This accumulation of tax credits was more evident in the states of Bahia, Rio Grande do Sul and São Paulo where most production units are concentrated. The Company's management has been prioritizing a series of actions so as to maximize the use of these credits and, currently, it does not expect losses on their realization. Among the actions carried out by management are:

- Agreement with the Government of the state of Rio Grande do Sul, maintaining the full deferral of ICMS on the import of naphtha and limiting the use of accumulated ICMS credits to an average of R\$ 8,250 per month for

offsetting monthly ICMS payable by the units in that state;

- Maintenance of the Agreement with the Government of the State of Bahia, which ensures the effective enforcement of State Decree No. 11,807 of October 27, 2009, which (i) gradually reduced the effective ICMS rate on domestic and imported naphtha acquired in that state and; (ii) established that the amount of R\$ 9,100 per month can be deducted from the debt balance between April 2011 and March 2014, and the amount of R\$ 5,907 per month between April 2014 and March 2018; and
- In São Paulo, Braskem started to take measures towards the monetization of the credit balance, including the centralization of the ICMS of the São Paulo units in a single establishment and management of the purchase of inputs, whenever possible, from interstate bases.

Taking into consideration the tax rule that limits the short-term realization of ICMS credits from the acquisition of fixed assets and the projections of the Company's management for the realization of the other credits, as of December 31, 2011, the amount recorded in non-current assets was R\$ 390,247 in the Parent Company and R\$ 685,487 in the consolidated (2010 – R\$ 644,831 in the Parent Company and R\$ 883,163 in the consolidated), including the amount of R\$ 53,017 (2010 – R\$ 59,133), related to the ICMS deferred on the acquisitions of machinery, equipment and parts for the construction of the subsidiary Riopol (Note 22(a)).

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

(b) PIS and COFINS

This account includes PIS and COFINS credits on the acquisition of property, plant and equipment items, and the amount of which on December 31, 2011 totals R\$ 249,191 (2010 – R\$ 168,673). The changes in the year are mainly due to the project for the expansion of the PVC plant in the State of Alagoas and the scheduled stoppages for maintenance. These credits will be realized in the ordinary course of the Company's operations, following the rules provided for in the Regulatory Instruction of the Federal Revenue Service (SRF) No. 457 of October 18, 2004.

(c) PIS and COFINS – Law No. 9,718/98

This account contains credits arising from legal discussions on the constitutionality of some aspects of Law No. 9,718/98. These credits will be used to offset federal taxes due. In 2011, the Company recognized new credits arising from favorable outcomes in lawsuits filed by companies merged into Braskem and by the subsidiary Braskem Petroquímica.

(d) PIS – Decree-Laws No. 2,445 and No. 2,449/88

In 2011, Braskem recognized credits in the amount of R\$ 155,505 arising from favorable decisions in lawsuits that challenged the constitutionality of Decree Laws No. 2,445 and No. 2,449/88.

(e) IR and CSL

This account contains IR and CSL credits arising from prepayments in years that did not present taxable income at year end in addition to the taxes withheld on financial investments. In 2011, the Company used credits from the ILL process for IR prepayments amounting to R\$ 48,299. All these credits are adjusted based on the variation of the Selic rate.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****12 Judicial deposits – Non-current assets**

| | Parent company | | Consolidated | |
|---|-----------------------|----------------|---------------------|----------------|
| | 2011 | 2010 | 2011 | 2010 |
| Judicial deposits | | | | |
| Tax contingencies | 96,081 | 117,130 | 105,611 | 117,137 |
| Labor and social security contingencies | 50,595 | 96,887 | 60,187 | 117,470 |
| Other | 4,916 | 13,871 | 8,422 | 15,588 |
| Total | 151,592 | 227,888 | 174,220 | 250,195 |

On December 31, 2011, a portion of the deposits is associated with legal proceedings for which the probability of loss is possible (Note 28) and a portion is associated with proceedings for which the probability of loss is remote.

13 Insurance claims

On December 31, 2011, this account includes:

(i) indemnities for claims occurred in December 2010 and February 2011 in furnaces and in the electric system in the olefin plants of the Camaçari Basic Petrochemicals unit located in the State of Bahia in the amounts of R\$ 141,247 and R\$ 61,300, respectively; and

(ii) indemnity for the claim in the plant of chloride soda in the State of Alagoas in the amount of R\$ 12,911.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

14 Other receivables (consolidated)

(a) Current

The main balances that compose this account in current assets are:

- R\$ 96,213 related to advances to service suppliers (2010 – R\$ 59,608);
- R\$ 81,955 related to amounts receivable from related companies (2010 – R\$ 45,965), Note 10(b).

(b) Non-current – Eletrobrás compulsory loans

In 2000, the merged company Trikem S.A. and Braskem Petroquímica filed lawsuits related to credits arising from interest and monetary adjustment on the Eletrobrás compulsory loan for the period between 1987 and 1994 and, in 2001, they filed lawsuits related to credits for the period between 1977 and 1986.

The Superior Court of Justice – STJ appeased the matter in favor of the taxpayers upon the judgment of RESP No. 1003955 and RESP No. 1028592 made after repetitive appeals under Article 543-C of the Civil Procedure Code, establishing this decision to all cases that address this matter. Meanwhile, through the judgment of the Interlocutory Appeal No. 735933 lodged by Eletrobrás, the Federal Supreme Court - STF consolidated the understanding of the STJ in the sense that the discussion over the matter relates to ordinary law.

The lawsuits of said companies have already been awarded final and unappealable decisions by the STJ and, therefore, appeals against these decisions are no longer applicable. Accordingly, the Company recognized the related credits, which, as it understands are unconstested based on the opinion of its external legal advisors, amounting to R\$ 51

million and R\$ 29 million for the lawsuits of Trikem and Braskem Petroquímica, respectively, and a revenue was recorded in the operating profit for 2011.

The composition of this amount results from a principal amount and interest. Although the legal advisors consider that there is a probability that this amount will be received in full, Management applied a negative goodwill of 40%.

On December 31, 2011, the balance of this account is R\$ 82,526 (2010 - R\$ 8,766).

On December 31, 2010, this account included, in current assets, balances of insurance claims that were reclassified to a specific account in non-current assets on December 31, 2011 (Note 13).

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

The operations of subsidiaries and jointly-controlled subsidiaries of Braskem are as follows:

- Braskem America – is headquartered in Philadelphia and is composed of five industrial units that produce polypropylene, three of which are in the State of Texas, two acquired in 2011 (Note 5.4), one in the State of Pennsylvania and one in the State of West Virginia.
- Braskem Argentina; Petroquímica Chile; Braskem Holanda – subsidiaries responsible for the sale of products manufactured by Braskem in the international market. Braskem Holanda is also the parent company of Braskem Alemanha.
- Braskem Distribuidora – is responsible for the distribution and sale of oil byproducts and correlated products, including chemical and petrochemical products, fuels and solvents.
- Braskem Alemanha – is headquartered in Frankfurt, Germany, it has two industrial units with a joint polypropylene production capacity of 545,000 metric tons a year. These units were acquired in 2011 (Note 5.4).
- Braskem Finance and Braskem America Finance – were incorporated for the purpose of centralizing the raising of funds abroad.
- Braskem Idesa – is responsible for the construction of an industrial complex for the production of one million metric tons of ethane a year. The project was called Ethylene XXI and the the units are expected to be operational in the first half of 2015.

- Braskem México; Braskem Idesa Serviços – companies that provide services to Braskem Idesa.
- Braskem Importação e Exportação – is responsible for the import, export and sale of petrochemical naphtha, oil and its byproducts.
- Braskem Inc. – operates in the sales of naphtha and other products, in addition to carrying out Braskem’s usual financial funding operations.
- Braskem Participações – its main purpose is the investment in the equity of other companies;
- Braskem Petroquímica and Braskem Qpar – they produce basic petrochemicals such as ethane and propane. In the thermoplastic resins segment, they produce polyethylene and polypropylene. These subsidiaries were acquired by the Company in 2010 (Note 5.1).
- Cetrel – its main purpose is the provision of environmental protection services, such as research in the area of environmental control and waste recycling and other recoverable waste from industrial and urban emissions, among other things.
- Ideom – its purpose is the provision of research services applied in the chemical and petrochemical, plastic materials and textile industries. This company was merged by the Company on February 28, 2012 (Note 39).
- IQAG – operates in the provision of storage services to third parties.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

- Politeno Empreendimentos – its purpose is the participation in industrial projects and ventures, asset management, sales of petrochemical products and the investment in the equity of other companies;
- Quantiq – operates in the distribution, sale and industrialization of solvents from oil and petrochemical products, distribution and sale of process oils, other inputs that are oil byproducts, chemical intermediaries, specialty chemicals and pharmaceutical products.
- Propilsur and Polimérica – Braskem, in partnership with Petroquímica de Venezuela (“Pequiven”), has two investment projects in Venezuela, one for the production of polypropylene (Propilsur) and another for the integrated production of ethane and polyethylene (Polimérica).
- Riopol – its purpose is the production and sale of thermoplastic resins and other petrochemical products.
- RPR – its main activities are the refine, processing and sale and import of oil, its byproducts and correlated products.

(ii) Includes transfers to intangible

(iii) Transfers of spare parts to property, plant and equipment

(c) Breakdown of equity results

The projects in progress relate mainly to operating improvements to increase the economic useful life of machinery and equipment and expansion projects, particularly the expansion of the PVC plant in Alagoas, and the construction of a new butadiene plant in Rio Grande do Sul.

Braskem offered in guarantee plants, land, real estate properties and machinery and equipment in the amount of R\$ 3,428,276 (2010 – R\$ 2,978,033) to comply with the obligations assumed in financing agreements (Note 19).

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

(a) Impairment test for fixed assets

In the preparation of the Business Plan for the 2012/2016 period, the Company's management analyzed the prospects for the main variables that affect its activities (Note 3.6) in both domestic and international markets.

In general, the Business Plan was prepared taking into consideration that no situation that may prevent the operational continuity of Braskem's assets, both in terms of obsolescence of the industrial park and technologies employed and of legal restrictions is foreseen. Braskem's management believes that the plants will operate at their full capacity, or close to it, within the projected period. Also, no significant changes in the Braskem's business are expected, such as a significant excess in the offer by other manufacturers that may negatively affect future sales, with the exception of the seasonal price and profitability increases and decreases, which are historically associated with the petrochemical business worldwide. Also, no new technologies or raw materials, which could negatively impact Braskem's future performance, are expected. Braskem expects to continue to operate in a regulatory environment aimed at environmental preservation, which is absolutely in line with its practices.

In view of all the analysis made, Braskem's management understood that there was no need to conduct an impairment test for the assets of the Foreign Business and Chemical Distribution operating segments, as well as of the CGUs UNIB-Bahia and UNIB-Southeast.

Despite this conclusion, Braskem conducted an impairment test for the assets of the Polyolefins and Vinyls operating segments and CGU UNIB-South since they are associated with goodwill from future profitability (Note 17).

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****(a) Impairment test of goodwill based on future profitability**

The Company's goodwill was systematically amortized until December 2008. As from 2009, it has been subject to annual impairment tests in accordance with the provisions in CPC 01 (R1) and IAS 36. On December 31, 2011, the goodwill of the Company is allocated at the CGU of UNIB-South and at the Polyolefins and Vinyls operating segments.

The CGU UNIB-South belongs to the Basic Petrochemicals operating segment, which is divided into three CGUs. The other CGU, called UNIB-Bahia and UNIB-Southeast do not have goodwill.

The Polyolefins operating segment is divided into two CGUs: Polyethylene and Polypropylene. Part of the industrial plants that compose these CGUs were acquired in a business combination that resulted in a goodwill based on the future profitability of these plants. The Company's management established that the benefits from the synergy of this transaction should be associated with all units acquired and, therefore, the goodwill recognized is allocated and monitored at the lowest level of the corresponding group of assets, which is the Polyolefins operating segment.

In December 2011, Braskem conducted an impairment test of the goodwill of the Polyolefins and Vinyls operating segments and CGU UNIB-South using the value in use method (discounted cash flow) and did not identify any loss, as shown in the table below:

| | Allocated goodwill | Cash flow (CF) | Book value (with goodwill) | Consolidated CF/Book value |
|-------------------------------------|-------------------------------|---------------------------|---------------------------------------|---|
| CGU and operating segments | | | | |
| CGU - UNIB - South | 926,854 | 20,179,263 | 1,380,117 | 14.6 |
| Operating segment - Polyolefins (i) | 944,500 | 34,350,341 | 8,765,178 | 3.9 |

(c) Breakdown of equity results

151

| | | | | |
|----------------------------|------------------|-------------------|-------------------|-----|
| Operating segment - Vinyls | 192,353 | 3,880,780 | 2,343,232 | 1.7 |
| Total | 2,063,707 | 58,410,384 | 12,488,527 | |

(i) These amounts include the industrial units of polyethylene and polypropylene acquired in the business combination of Quattor, arising from the change in the organization structure that took place in 2011 (Note 36).

The assumptions used to determine the discounted cash flow include: cash flows for five years based on the Business Plan, discount rates based on the Weighted Average Cost of Capital (WACC) of 9.3% a year and growth rates to determine the perpetuity based on annual inflation rate according to the Broad Consumer Price Index ("IPCA") of 5%.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****(b) Sensitivity analysis**

Considering the impact of the “discount rate” and “growth rate for perpetuity” on the potential cash flows, Braskem performed a sensitivity analysis with changes in these variables and the cash flows are presented in the table below:

| | +0,5% on discount rate | Consolidated -0,5% on growth rate to perpetuity |
|-----------------------------------|-----------------------------------|--|
| CGU and operating segments | | |
| CGU - UNIB - South | 18,597,888 | 18,900,839 |
| Operating segment - Polyolefins | 30,751,814 | 31,295,193 |
| Operating segment - Vinyls | 3,469,531 | 3,533,534 |
| Total | 52,819,233 | 53,729,566 |

Edgar Filing: BRASKEM SA - Form 6-K

| | | | |
|---------------|------------------|--|-----------------|
| June 2010 | 150,000 | June 2016 US dollar exchange variation + semiannual Libor + 2.60 | 281,86 |
| December 2010 | 100,000 | December 2017 US dollar exchange variation + semiannual Libor + 2.47 | 187,78 |
| March 2011 | 200,000 | February 2021 US dollar exchange variation + semiannual Libor + 1.20 | 377,52 |
| Total | 2,005,000 | | 1,781,34 |

(i) In April 2011, Braskem Finance concluded the funding of US\$ 750 million, which was part of the financial resources used to: (1) partially settle in advance the bonds issued in August 2005 and September 2006; (2) fully settle the perpetual bonds issued in April 2006; (3) partially settle in advance the financing obtained through the Medium-Term Notes program; and (4) fully settle in advance the financing obtained in October 2008 through export prepayments.

(ii) On July 19, 2011, the subsidiary Braskem America Finance completed the funding of US\$ 500 million with semiannual payments of interest on January 22 and July 22 of each year for the purpose of (1) making the payment for the loan obtained in the acquisition of Sunoco Chemicals; (2) making the payment of short and long-term borrowings; and (3) general corporate matters.

(iii) On September 28, 2011, an export prepayment amounting to R\$ 271,798 (US\$ 150,932 thousand) was fully settled in advance.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated**

(iv) Braskem contracted hedge transactions for some export prepayment contracts in order to offset the variation in the Libor (Note 21.2.1(b.i)). On December 31, 2011, the breakdown of the charges on these contracts already shows the nominal rate applied taking into consideration these transactions.

(c) BNDES financing

Braskem has financing contracted with the National Bank for Economic and Social Development – BNDES and the breakdown of which, per project, is represented below:

| Projects | Issue date | Maturity Charges (% per year) | 2011 |
|------------------------|-------------------|--|-------------|
| Green PE | 2008/2009 | July 2017 TJLP + 0,00 to 4,78 | 508,083 |
| Green PE | 2009 | July 2017 US dollar exchange variation + 6.17 | 49,463 |
| Braskem Qpar expansion | 2006/2007/2008 | February 2016 TJLP + 1,00 to 3,50 | 460,270 |
| Braskem Qpar expansion | 2006/2007/2008 | April 2016 US dollar exchange variation + 6.09 to 6.59 | 44,047 |
| Braskem Qpar expansion | 2006/2007/2008 | January 2015 Monetary variation (UMBNDDES) + 6,24 | 2,862 |
| Limit of credit II | 2009 | January 2017 TJLP + 2,58 to 3,58 | 327,902 |
| Limit of credit II | 2009 | January 2017 US dollar exchange variation + 6.17 | 87,694 |
| Limit of credit II | 2009 | January 2017 4.5 | 17,582 |
| PVC Alagoas | 2010 | December 2019 TJLP + 0,00 to 3,58 | 261,403 |
| PVC Alagoas | 2010 | January 2020 US dollar exchange variation + 6.17 | 68,630 |
| PVC Alagoas | 2010 | January 2020 5.5 | 30,129 |
| Limit of credit I | 2007 | April 2015 TJLP + 1,81 to 2,32 | 260,851 |
| Limit of credit I | 2007 | April 2015 US dollar exchange variation + 4.91 to 5.80 | 57,813 |
| Paulinia | 2006 | December 2014 TJLP + 2,40 to 3,40 | 245,014 |
| Paulinia | 2006 | January 2015 US dollar exchange variation + 6.49 | 25,546 |
| Limit of credit III | 2011 | January 2018 TJLP + 2,05 to 3,45 | 122,234 |
| Limit of credit III | 2011 | January 2018 US dollar exchange variation + 6.04 | 28,169 |
| Limit of credit | | | |
| UNIB-South | 2006 | May 2014 TJLP + 2,02 to 3,00 | 92,131 |

(c) Breakdown of equity results

159

| | | | |
|-----------------|-----------|---|------------------|
| Limit of credit | | | |
| UNIB-South | 2006 | July 2014 US dollar exchange variation + 5.41 to 6.09 | 17,866 |
| Butadiene | 2011 | December 2020 TJLP + 2,45 to 3,45 | 64,060 |
| Butadiene | 2011 | January 2021 US dollar exchange variation + 6.04 | 16,185 |
| Other | 2005/2006 | September 2016 TJLP + 0,52 to 4,00 | 166,862 |
| Other | 2005/2006 | October 2016 US dollar exchange variation +6.39 to 6.59 | 11,764 |

| Total | | | 2,970,243 |

The I, II, III and UNIB-South credit limits refer to revolving credit lines, with limits stipulated by BNDES, and the funds of which are aimed at the current investments of the Company and investments in research, development and innovation.

Additionally, in December 2011, BNDES approved a new revolving credit line limit for the Company in the total amount of R\$ 2.5 billion, which may be used for five years as from the date it is contracted. The funds will be used in the Company's investment plan for 2011 to 2013. The first release of these funds (III credit limit) took place in December 2011 in the amount of R\$ 150 million.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****(d) Export credit notes (“NCE”)**

| Issue date | Initial amount of the transaction | Maturity Charges (% per year) | 2011 | Consolidated 2010 |

| September 2010 (ii) | 71,000 | September 2012 100.7% of CDI | 81,818 | 73,110 |
| February 2011 | 250,000 | February 2014 99% of CDI | 274,613 | |
| April 2011 (ii) | 450,000 | April 2019 112.5% of CDI | 461,209 | |
| June 2011 | 80,000 | June 2014 98.5% of CDI | 84,572 | |
| August 2011 (ii) | 400,000 | August 2019 112.5% of CDI | 404,267 | |
| October 2011 | 250,000 | April 2012 108.3% of CDI | 158,568 | |
| November 2011 | 400,000 | November 2019 112.5% of CDI | 405,240 | |
| Total | 3,435,309 | | 3,004,967 | 1,584,061 |

(i) In March 2011, the Company settled this financing in advance.

(ii) Braskem contracted hedge transactions for some NCE contracts in order to offset the variation in the CDI (Note 21.2.1(a.ii)), and the transaction of R\$ 71,000, contracted in September 2010, was designated for hedge accounting (Note 21.2.1(b.ii)).

(e) **Project financing - NEXI**

(i) In March and September 2005, the Company obtained loans in Japanese currency from Nippon Export and Investment Insurance ("NEXI"), in the amount of YEN 5,256,500 thousand (R\$ 136,496) and YEN 6,628,200 thousand (R\$ 141,529), respectively. The principal is repayable in 11 installments as from March 2007, with final maturity in June 2012.

As described in Note 21.2.1 (a.i), the Company entered into swap contracts for all of these debts, changing the effective annual interest cost of the tranche drawn down in March 2005 to 101.59% of the CDI and that of the tranches drawn down in September 2005 to 104.29% and 103.98% of the CDI. The swap contracts were signed with first-class foreign banks and maturities, currency, rates and amounts are perfectly appropriate to the financing contracts.

(ii) In March 2011, the Company obtained loans in U.S. dollar from NEXI in the amount of US\$ 200 million and the charges on which are paid semiannually and include foreign exchange variation, semiannual Libor and interest of 1.20% a year. The principal amount will be paid in semiannual installments as from February 2013 and matures in February 2021. On December 31, 2011, the balance of this loan is presented in the "EPP" account in the amount of R\$ 377,525 in item (b) of this note.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****(f) Payment schedule**

The long-term amounts mature as follows:

| | 2011 | Consolidated 2010 |
|---------------------|-------------------|------------------------------|
| 2012 | | 1,238,243 |
| 2013 | 1,252,464 | 1,814,902 |
| 2014 | 1,781,917 | 1,691,089 |
| 2015 | 1,123,509 | 1,069,774 |
| 2016 | 1,204,472 | 671,495 |
| 2017 | 565,456 | 683,258 |
| 2018 | 1,331,131 | 1,082,112 |
| 2019 | 1,536,264 | 159,965 |
| 2020 | 1,754,200 | 1,510,429 |
| 2021 and thereafter | 3,203,620 | 1,083,034 |
| Total | 13,753,033 | 11,004,301 |

(g) Capitalized financial charges

The Company capitalized financial charges in the year ended December 31, 2011 in the amount of R\$ 101,721 (2010 - R\$ 43,491), including monetary and exchange variation. The average rate of these charges in the year was 7.68% a year (2010 – 6.00% a year).

(h) Guarantees**(c) Breakdown of equity results**

Braskem has provided guarantees for its borrowings as shown below:

| Loans | Maturity | Total guaranteed | Total debt 2011 | Guarantees |
|--------------|-----------------|-----------------------------|----------------------------|--|
| BNB | December 2022 | 214,530 | 214,530 | Mortgage of plants, pledge of machinery and equipment |
| BNDES | January 2020 | 2,955,573 | 2,955,573 | Mortgage of plants, land and property, pledge of machinery and equipment |
| FUNDES | May 2020 | 204,182 | 204,182 | Mortgage of plants, land and property, pledge of machinery and equipment |

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

(i) Covenants

The financing agreements entered into by Braskem and NEXI establish limits for certain indicators related to the capacity for indebtedness and payment of interest.

The first indicator establishes a limit for the indebtedness of Braskem based on its EBITDA generating capacity. This is calculated by dividing the Company's consolidated net debt by its consolidated EBITDA for the past twelve months. This indicator is calculated in U.S. dollars, using the closing PTAX to determine the net debt and the average U.S. dollar rate for the last four quarters for the calculation of EBITDA.

The second indicator found in the agreements of Braskem is the division of consolidated EBITDA by net interest, which corresponds to the difference between the interest paid and interest received. This indicator is checked on a quarterly basis and calculated in U.S. dollars.

A summary of these operations and their limiting factors is provided below:

| Indicator/Limit | Currency |
|----------------------------|-----------------|
| Net debt/EBITDA < 4.5 | U.S. dollar |
| EBITDA /Net interest > 1.5 | U.S. dollar |

The calculation of EBITDA for these operations is determined as follows:

EBITDA = LB (-) DOP (+) DAC (+/-) ORD (+) DJCP

LB = Gross profit

ORD = Other operating income and expenses

(c) Breakdown of equity results

DOP = Selling, general and administrative expenses DJCP = Dividends and interest on capital received from
DAC = Depreciation allocated to the cost of products sold non-consolidated companies

The penalty for the non-compliance with these covenants is the possibility of having the debt maturing earlier. On December 31, 2011, all commitments assumed were complied with.

20 Debentures (public issues of non-convertible debentures)

On September 1, 2011, the Company paid the amount of R\$ 530,424 for non-convertible debentures related to the 14th issue started in August 2006.

On December 31, 2011, the balance of R\$ 19,102 refers to the first issue of non-convertible debentures of the jointly-controlled subsidiary RPR, which took place in 2011, presented in the consolidated non-current liabilities.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****21 Financial instruments****21.1 Non-derivative financial Instruments**

Braskem held on December 31, 2011 and 2010 the following non-derivative financial instruments according to the definition of CPC 38 and IAS 39.

| | Classification by category | Fair value hierarchy | Note | Book value | | Fair value | |

(a) **Fair value**

The fair value of financial assets and liabilities is estimated as the amount for which a financial instrument could be exchanged in an arm's length transaction and not in a forced sale or settlement. The following methods and assumptions were used to estimate the fair value:

(i) held-for-trading and available-for-sale financial assets are measured in accordance with the fair value hierarchy (Level 1 and Level 2), with inputs used in the measurement processes obtained from sources that reflect the most recent observable market prices.

(ii) trade accounts receivable, trade payables and other short-term liabilities approximate their respective carrying amount due to the short-term maturity of these instruments.

(iii) the fair value of related parties is the same as the carrying amount.

(c) **Breakdown of equity results**

(iv) the fair value of borrowings is estimated by discounting future contractual cash flows at the market interest rate, which is available to Braskem in similar financial instruments.

(v) the fair value of debentures is obtained through secondary market prices disclosed by ANDIMA (National Association of Financial Market Institutions).

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

(b) Fair value hierarchy

The Company adopts CPC 40 and IFRS 7 for financial instruments that are measured in the balance sheet; this requires disclosure of measurements by level of the following fair value measurement hierarchy:

Level 1 – Fair value obtained through prices quoted (without adjustments) in active markets for identical assets or liabilities, such as the stock exchange; and

Level 2 – Fair value obtained from discounted cash flow models, when the instrument is a forward purchase or sale or a swap contract, or valuation models of option contracts, such as the Black-Scholes model, when the derivative has the characteristics of an option.

The valuation assumptions (inputs to models) are obtained from sources that reflect the most recent observable market prices, particularly the curves of interest and future currency quotes disclosed by the Commodities & Futures Exchange, the spot exchange rate disclosed by the Central Bank of Brazil and the foreign interest curves disclosed by well-known quoting services such as Bloomberg or Reuters.

21.2 Derivative financial instruments

Derivative financial instruments are presented in the balance sheet at their fair value in an asset or liability account depending on whether the fair value represents a positive or a negative balance to Braskem, respectively. Derivative financial instruments are necessarily classified as "held-for-trading". The regular changes in the fair value of derivatives are recognized as financial income or expense in the period in which they occur, except when the derivative is designated and qualified for hedge accounting.

(c) Breakdown of equity results

All derivative financial instruments held at December 31, 2011 were contracted on Over the Counter - OTC markets with large financial counterparties under global derivative contracts in Brazil or abroad and its fair value is classified as Level 2.

Braskem's Financial Policy provides for a continuous short-term hedging program for foreign exchange rate risk arising from its operations and financial items. The other market risks are addressed on a case-by-case basis for each transaction. In general, Braskem assesses the need for hedging in the analysis of prospective transactions and seeks to customize the hedge for each operation and keeps it in place for the whole period of the hedged transaction.

Braskem may elect derivatives as hedges for the application of hedge accounting in accordance with CPCs 38, 39 and 40. The hedge designation is not mandatory. In general, Braskem will elect to designate derivatives as hedges when the application is expected to provide a significant improvement in the presentation of the offsetting effect of derivatives on the changes in the hedged items.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****21.2.1 Changes in derivative financial instruments**

At December 31, 2011, Braskem had financial derivative contracts with a nominal value of R\$ 1,802,799 (2010 - R\$ 2,257,789), R\$ 279,495 (2010 – R\$ 279,495) of which related to hedge transactions connected with project financing, R\$ 1,444,320 (2010 – R\$ 1,978,294) connected with export prepayments and export credit notes, and R\$ 78,984 connected with commodities and a share repurchase program.

| | 83,257 | | | 92 |

(i) Braskem shares were repurchased by a financial institution and are the subject matter of a swap operation (Note 29(g)).

(ii) As a consequence of the advanced payment of the (1) export prepayment contracts mentioned in Note 19(b); and (2) financing for the acquisition of the investment mentioned in Note 19(ii), Braskem settled in advance the interest rate swap transactions that would mature in October 2013 and April 2015.

(iii) In December 2011, the swap operations held by the subsidiary Braskem America for the purpose of establishing the margins in sales contracts were settled. A financial expense amounting to R\$ 1,300 related to the settlement of these operations was recognized.

The counterparties in these contracts are daily monitored based on the analysis of their respective ratings and Credit Default Swaps – CDS. Braskem has many bilateral risk mitigators in its derivative contracts, such as the possibility of depositing or requesting deposits of a guarantee margin from the counterparties it deems convenient. At December 31, 2011 there was no guarantee deposit placed by Braskem in relation to these derivatives.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****(a) Non-hedge accounting transactions**

The regular changes in the fair value of swaps are recorded as financial income or expenses in the same period in which they occur. Braskem recognized a financial expense of R\$ 66,894 related to the change in the fair value of these swaps for the period ended December 31, 2011.

(a.i) Project financing (NEXI) related swaps

At December 31, 2011, the Company had four currency swap contracts with a total nominal value of R\$ 279,495 to hedge loans obtained in yen with floating interest rates and maturing in March and June, 2012.

The objective of these swaps is to mitigate the risk of fluctuations in the foreign exchange rate between the Brazilian real and the yen arising from the loan mentioned in Note 19(e) and the risk of the change in future expenses with the payment of interest. The term, amount, settlement dates, and interest rate in yen of the swaps match the financing terms. The Company intends to maintain these swaps until the settlement of the loans.

The characteristics of each swap transaction are listed below:

| Identification | Nominal value (R\$ thousand) | Interest rate | Maturity | Fair value | |
|-----------------------|-------------------------------------|----------------------|-----------------|-------------------|---------------|
| | | | | 2011 | 2010 |
| Swap NEXI I | 28,987 | 104.29% CDI | June 2012 | (129) | 1,051 |
| Swap NEXI II | 136,495 | 101.85% CDI | March 2012 | 1,468 | 9,283 |
| Swap NEXI III | 86,110 | 103.98% CDI | June 2012 | (503) | 3,089 |
| Swap NEXI IV | 27,903 | 103.98% CDI | June 2012 | (187) | 277 |
| Total | 279,495 | | | 649 | 13,700 |

(c) Breakdown of equity results

174

| | | |
|---|------------|---------------|
| In current liabilities (hedge operations) | 649 | 13,700 |
| Total | 649 | 13,700 |

The Company has elected not to designate these swaps as hedges for the application of hedge accounting since the main risk protected - the variation in the foreign exchange rate - is satisfactorily mitigated by the offsetting results of the foreign exchange variation in the loans and the variation in the derivative's fair value.

Consequently, the regular changes in the fair value of the swaps are recorded as finance income or expense in the same period in which they occur. The Company recognized financial income of R\$ 1,962 related to the changes in the fair value of these swaps in 2011.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****(a.ii) Export credit note (NCE) related swaps**

At December 31, 2011, the Company had five foreign exchange swap contracts with a total nominal value of R\$ 600,000 contracted on a credit line in reais with a rate of 112.5% of the CDI in August 2011 and maturing in April and August 2019 (Note 19(d)). In these swaps the Company receives 112.5% of the CDI and regularly pays exchange variation and a fixed rate of the foreign exchange coupon concurrently with the debt's cash flow.

| Identification | Nominal value (R\$ thousand) | Interest rate | Maturity | Fair value | |
|---|-------------------------------------|----------------------|-----------------|-------------------|-------------|
| | | | | 2011 | 2010 |
| Swap NCE I | 200,000 | 5.44% | August 2019 | 32,023 | |
| Swap NCE II | 100,000 | 5.40% | August 2019 | 13,952 | |
| Swap NCE III | 100,000 | 5.37% | August 2019 | 12,512 | |
| Swap NCE IV | 100,000 | 5.50% | April 2019 | 6,267 | |
| Swap NCE V | 100,000 | 5.50% | April 2019 | 6,215 | |
| Total | 600,000 | | | 70,969 | |
| In current liabilities (hedge operations) | | | | 70,969 | |
| Total | | | | 70,969 | |

The Company has elected not to designate these swaps as hedges for the application of hedge accounting since the main risk protected - the variation in the CDI - is satisfactorily mitigated by the offsetting results of the CDI variation in the loans and the changes in the derivative's fair value. Consequently, the regular changes in the fair value of the swaps are recorded as financial income or expenses in the same period in which they occur. The Company recognized a financial expense of R\$ 66,576 related to the changes in the fair value of these swaps in 2011.

(a.iii) Repurchase of shares related swaps (Note 29(g))

On December 31, 2011, 1,405,400 class A preferred shares of the Company had been repurchased by financial institutions for a nominal value of R\$ 19,830 (Note 29(g)). The Company recognized a financial expense of R\$2,263 related to the variation in the CDI as from the date each repurchase.

| Identification | Nominal value (R\$ thousand) | Interest rate | Maturity | Fair value | |
|---|---|----------------------|-----------------|-------------------|-------------|
| | | | | 2011 | 2010 |
| Repurchase TRS | 19,830 | 108% CDI | August 2012 | 2,263 | |
| Total | 19,830 | | | 2,263 | |
| In current liabilities (hedge operations) | | | | 2,263 | |
| Total | | | | 2,263 | |

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****(a.iv) Naphtha purchase related swaps**

On December 31, 2011, the subsidiary Braskem Inc. held two naphtha swap contracts with a nominal value of US\$ 30,428 thousand. In these swaps, Braskem Inc. swaps floating flows for fixed flows for the purposes of preserving its margins.

| Identification | Nominal value (US\$ thousand) | US\$ Fixed price / ton | Maturity | Fair value | |
|---|--------------------------------------|-------------------------------|-----------------|-------------------|-------------|
| | | | | 2011 | 2010 |
| Naphtha swap | 15,208 | 869.0000 | February 2012 | 228 | |
| Naphtha swap | 15,221 | 869.7500 | February 2012 | 252 | |
| Total | 30,428 | | | 480 | |
| In current liabilities (hedge operations) | | | | 480 | |
| Total | | | | 480 | |

The Company decided not to designate these swaps as hedges for hedge accounting purposes. Consequently, the regular changes in the fair value of the swaps are recorded as financial income or expenses in the same period in which they occur. Braskem recognized a financial expense of R\$ 219 related to the changes in the fair value of these swaps in 2011.

(a.v) Ethanol purchase related swaps

On December 31, 2011, the Company held ethanol derivative contracts indexed to the Commodities & Futures Exchange – BM&F in the nominal amount of R\$ 2,077. In this operation, the Company seeks to protect the margin of its operations.

| Identification | Nominal value (R\$ thousand) | R\$ fixed price / m3 | Maturity | Fair value | |
|---------------------------------------|---|-------------------------------------|-----------------|-------------------|-------------|
| | | | | 2011 | 2010 |
| Term commodity | 2,077 | 1,384.500 | February 2012 | (202) | |
| Total | 2,077 | | | (202) | |
| In current assets (other receivables) | | | | (202) | |
| Total | | | | (202) | |

The Company decided not to designate these swaps as hedges for hedge accounting purposes.

Consequently, the regular changes in the fair value of the swaps are recorded as financial income or expenses in the same period in which they occur. The Company recognized a financial income of R\$ 202 related to the changes in the fair value of these swaps in 2011.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

(b) Hedge accounting transactions

The Company designated the following operations for hedge accounting:

(b.i) Export prepayment (EPP) related interest rate swaps

Braskem, at December 31, 2011, 7 interest rate swap contracts with a total nominal value of US\$ 407,500 thousand relating to export prepayment debts contracted in U.S. dollars and at floating interest rates (Libor basis) in October 2008, April 2009 and June 2010 and maturing between 2013 and 2015 (Note 19 (b)). In these swaps, Braskem receives floating rates (Libor) and pays fixed rates regularly, concurrently with the cash flow of the export prepayment debt. The purpose of these swaps is to mitigate the changes in future financial expenses of the debt caused by fluctuations in the LIBOR rate. The term, amount, settlement dates and floating interest rate match the financing terms. Braskem intends to maintain these swaps until the settlement of the loans.

For hedge accounting purposes, these swaps were designated as cash flow hedges of the risk of fluctuations in LIBOR on the specified debts. The regular effective changes in the fair value of the derivatives designated as cash flow hedges that are highly effective in mitigating the cash flow changes in the hedged item are recognized in equity as "other comprehensive income" until the period in which the respective changes in the hedged item impact profit or loss. The impacts of Libor on the hedged item affect the results of Braskem in every period of allocation of the interest on the debt, from the date of the disbursement until its maturity.

The characteristics of each swap transaction are listed below:

| Identification | Breakdown of equity results | Nominal value | Interest rate | Maturity | Fair value |
|----------------|-----------------------------|---------------|---------------|----------|------------|
| | | | | | 180 |

| | (US\$ thousand) | | | 2011 | 2010 |
|---|--------------------|---------|---------------|---------------|---------------|
| Swap EPP X | 35,000 | 2.5040% | March 2014 | 1,216 | 1,786 |
| Swap EPP XI | 75,000 | 1.9450% | July 2014 | 1,079 | 1,455 |
| Swap EPP XII | 100,000 | 2.1200% | November 2013 | | 4,061 |
| Swap EPP XIII | 50,000 | 2.1500% | November 2013 | | 2,082 |
| Swap EPP XIV | 50,000 | 2.6350% | April 2014 | 3,452 | 3,734 |
| Swap EPP XV | 100,000 | 2.6200% | April 2014 | 6,848 | 7,392 |
| Swap EPP XVI | 47,500 | 1.6650% | June 2013 | 184 | 606 |
| Swap EPP XVII | 75,000 | 2.1975% | March 2015 | 4,923 | 3,684 |
| Swap EPP XIX | 25,000 | 2.1700% | March 2015 | 1,608 | 1,188 |
| Total | 557,500 | | | 19,309 | 25,988 |
| In current liabilities (hedge operations) | | | | 9,031 | 13,918 |
| In non-current liabilities (hedge operations) | | | | 10,278 | 12,070 |
| Total | | | | 19,309 | 25,988 |

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****(b.ii) Export credit note (NCE) related swap**

At December 31, 2011, the Company had an interest rate swap designated for hedge accounting with a total nominal value of US\$ 42,612 thousand, contracted on a fixed-rate credit line in Brazilian reais in September 2010 and maturing in September 2012 (Note 19 (d)). In this swap the Company regularly receives fixed rates and pays a percentage of the CDI concurrently with the debt's cash flow.

| Identification | Nominal value (US\$ thousand) | Interest rate | Maturity | Fair value | |
|---|--|----------------------|-----------------|-------------------|-------------|
| | | | | 2011 | 2010 |
| Swap NCA I | 42,612 | 100.70% CDI | September 2012 | (833) | 456 |
| Total | 42,612 | | | (833) | 456 |
| In current assets (other receivables) | | | | (833) | |
| In non-current liabilities (hedge operations) | | | | | 456 |
| Total | | | | (833) | 456 |

(c) Effectiveness test of transactions designated for hedge accounting

Braskem tests the effectiveness of these hedges at the end of the reporting period using the cumulative monetary compensation method. According to this method, the hedge is considered effective if the variation in the cash flow of derivatives is between 80% and 125% of the variation in the hedged item caused by the risk that is being covered.

The effectiveness test at December 31, 2011, showed that the derivatives were effective in offsetting the changes in the hedged item from the time the derivatives were contracted until the end of the reporting period, and that all other

conditions for qualifying these instruments for hedge accounting were met. Consequently, the effective portion of the changes in the fair value of the derivatives, amounting to R\$ 1,939 (Note 21.2.1), was recorded as "other comprehensive income".

(d) Estimated maximum loss

The amount at risk of the derivatives held by Braskem at December 31, 2011, defined as the highest loss that could result in one month and in 95% of the cases, under normal market conditions, was estimated by the Company at US\$ 1,530 thousand for the EPP swaps, US\$ 8,219 thousand for the NCE swap and R\$ 275,521 for the NEXI swaps.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****21.2.2 Hedge operations presented in “other comprehensive income” in equity**

The derivatives indicated in items 21.2.1 (b) were designated as cash flow hedge, resulting in closing balances in “other comprehensive income”. The appropriations of interest are allocated to interest expenses in the financial expenses group. The summary of changes in the account is as follows:

| | 2010 | Appropriation of interest | Change in fair value | 2011 |
|----------------------------------|-----------------|--------------------------------------|---------------------------------|-----------------|
| Swaps EPP Braskem Inc. | (39,315) | 31,375 | 7,940 | |
| Swaps EPP Braskem | (23,013) | 12,928 | (6,986) | (17,071) |

| | (61,272) | 46,973 | (1,939) | (16,238) |

On December 31, 2011, the appropriation of accrued interest and changes in the fair value of derivatives designated as cash flow hedge was R\$ 45,034, which, with the effect of income tax and social contribution of R\$ 2,458, amounts to R\$ 42,576, and is presented within “other comprehensive income” in equity.

21.3 Credit quality of financial assets**(a) Trade accounts receivable****(c) Breakdown of equity results**

Practically all Braskem's customers do not have risk ratings assigned by credit rating agencies. For this reason, Braskem developed its own credit rating system for all accounts receivable from domestic customers and part of the accounts receivable from foreign customers. Braskem does not apply this rating to all of its foreign customers because most accounts receivable from them are covered by an insurance policy or letters of credit issued by banks. As of December 31, 2011, the credit ratings are as follows:

| | Percentage |
|----------------------|-------------------|
| | (%) |
| 1 Minimum risk | 24.09 |
| 2 Low risk | 33.04 |
| 3 Moderate risk | 30.25 |
| 4 High risk | 4.24 |
| 5 Very high risk (*) | 8.38 |

(*) Most customers in this group are inactive and the respective accounts are in the process of judicial collection. Customers in this group that are still active purchase from Braskem and pay in advance.

Default indicators (*):

- December 2009: 0.25%
- December 2010: 0.13%
- December 2011: 0.18%

(*) Default indicator = total trade accounts receivable in default issued in the past 12 months/total billings in the past 12 months.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****(b) Other financial assets**

In order to determine the credit ratings of counterparties in financial assets classified as cash and cash equivalents, held-for-trading, held-to-maturity and loans and receivables, Braskem uses the following ratings agencies: Standard & Poor's, Moody's and Fitch Ratings.

| | 2011 | 2010 |
|--|------------------|------------------|
| Cash and cash equivalents and financial investments | | |
| AAA | 2,868,992 | 2,136,193 |
| AA+ | | 445,867 |
| AA | 206 | 43,154 |
| AA- | 72,029 | 37,397 |
| A+ | 96,464 | 78,920 |
| A | 28 | |
| A- | 71,367 | 37,176 |
| BBB+ | | 18,684 |
| BB+ | 19,028 | 18,878 |
| B+ | 3,590 | 3,378 |
| Other financial assets with no risk assessment | 10,548 | 8,830 |
| | 3,142,252 | 2,828,477 |
| Held-to-maturity | | |
| Quotas of investment funds in credit rights (i) | 34,720 | 28,706 |
| Restricted deposits (ii) | 4,173 | |
| | 38,893 | 28,706 |
| Other investments (offshore funds) | | |
| Sundry funds (i) | 10,723 | 32,112 |
| | 10,723 | 32,112 |
| Total | 3,191,868 | 2,889,295 |

(i) Financial assets with no internal or external ratings.

(ii) Risk-free financial assets.

Braskem's financial policy determines "A-" as the minimum rating for financial investments. On December 31, 2011, Braskem has balances classified as "B+" and "BB+" related to balances of the jointly-controlled subsidiaries Propilsur and Polimerica amounting to R\$ 3,590, and Term Deposits with Special Guarantee – DPGEs amounting to R\$ 19,028, respectively. The DPGEs are guaranteed by the Credit Guarantee Fund – FGC, which makes these investments appropriate to Braskem's policy.

21.4 Sensitivity analysis

The financial instruments, including derivatives, may be subject to changes in their fair value as a result of the variation in commodity prices, foreign exchange rates, interest rates, shares and share indexes, price indexes and other variables. The sensitivity of the derivative and non-derivative financial instruments to these variables are presented below:

(a) Selection of risks

The three main risks that may most affect the value of Braskem's financial instruments are:

- (i) Brazilian real-U.S. dollar exchange rate
- (ii) Brazilian real-yen exchange rate
- (iii) Libor floating interest rate

For the purposes of the risk sensitivity analysis, Braskem presents the exposures to currencies as if they were independent, that is, without reflecting in the exposure to a foreign exchange rate the risks of the variation in other foreign exchange rates that could be directly influenced by it.

(b) Selection of scenarios

(c) Breakdown of equity results

In accordance with CVM Instruction No. 475/08, Braskem included three scenarios in the sensitivity analysis, one of which is probable and the other two represent adverse effects to Braskem. In the preparation of the adverse scenarios, only the impact of the variables on the financial instruments, including derivatives, and on the items covered by hedge transactions, was considered. The overall impacts on Braskem's operations, such as the one arising from the revaluation of inventories and revenues and future costs, were not considered. Since Braskem manages its exposure to foreign exchange rate risk on a net basis, adverse effects from a depreciation of the Brazilian real in relation to the U.S. dollar can be offset by opposing effects on Braskem's operating results.

The FOCUS survey published by the Central Bank of Brazil on December 30, 2011 was considered for the probable scenario. For the interest rate variables not considered in the FOCUS survey, the probable scenario considered was the Interbank Deposit Certificate (CDI) percentage variation. For the exchange rate variables not included in the FOCUS survey, the probable scenario considered was the U.S. dollar-real percentage variation.

For the Brazilian real-U.S. dollar exchange rate, an increase of 25% was considered for the possible adverse scenario and of 50% for the extreme scenario based on the exchange rate on December 31, 2011.

For the Brazilian real-yen exchange rate, an increase of 25% was considered for the possible adverse scenario and of 50% for the extreme scenario based on the exchange rate on December 31, 2011.

For the Libor interest rate, a decrease of 25% was considered for the possible adverse scenario and of 50% for the extreme scenario based on the Libor rate on December 31, 2011.

The sensitivity amounts in the table below are the changes in the value of the financial instruments in each scenario, except for table (e), which shows the changes in future cash flows.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****(c) Sensitivity to the Brazilian real-U.S. dollar exchange rate**

The sensitivity of each financial instrument, including derivatives and items covered by them, to the variation in the Brazilian real-US dollar exchange rate is presented in the table below:

| Instrument | Possible adverse | | Extreme |
|---|-------------------------|--------------|----------------|
| | Probable | (25%) | adverse |
| | | | (50%) |
| Advances on exchange contracts | 8,830 | (32,917) | (65,834) |
| BNDES | 27,746 | (103,431) | (206,861) |
| Bonds | 401,116 | (1,495,259) | (2,990,517) |
| Working capital / structured operations | 80,009 | (298,255) | (596,509) |
| Raw material financing | 424 | (1,581) | (3,161) |
| Medium-Term Notes | 11,159 | (41,598) | (83,196) |
| EPP | 31,512 | (117,469) | (234,938) |
| Financial investments abroad | (49,290) | 183,742 | 367,483 |
| EPP debt, plus hedge, of which: | | | |
| EPP debt | 87,953 | (327,868) | (655,735) |
| Swap EPP | 1,295 | (4,828) | (9,655) |
| Other swaps | 44,583 | (166,194) | (332,388) |

(d) Sensitivity to the Brazilian real-yen exchange rate

The sensitivity of each financial instrument, including derivatives and items covered by them, to the variation in the Brazilian real-yen exchange rate is presented in the table below:

| | Possible adverse | Extreme |
|--|-------------------------|----------------|
| | | adverse |

(c) Breakdown of equity results**190**

| Instrument | Probable | (25%) | (50%) |
|---|-----------------|--------------|--------------|
| Project financing (NEXI), plus swaps, of which: | | | |
| Debt (NEXI) | 2,578 | (9,610) | (19,219) |
| Swaps (NEXI) | (1,754) | 6,538 | 13,076 |

(e) **Sensitivity of future cash flows to the Libor floating interest rate**

The sensitivity of future interest income and expenses of each financial instrument, including derivatives and items covered by them, is presented in the table below: The figures represent the impact on financial income (expenses), taking into consideration the average term of the respective instrument.

| Instrument | Probable | Possible adverse (25%) | Extreme adverse (50%) |
|--|-----------------|-----------------------------------|--------------------------------------|
| Working capital / structured operation | | | |
| Raw material financing | 14 | (50) | (100) |

(a) ICMS

The consolidated ICMS balance payable includes the amount of R\$ 53,017 (2010 – R\$ 59,133) related to the ICMS due on the import of equipment and parts aimed at the construction of the industrial complex of the subsidiary Riopol. This tax has been paid in six annual installments since the date of the acquisition of the assets and it is not subject to any financial charges. This benefit was granted by specific legislation of the State of Rio de Janeiro.

(b) Tax debt refinancing program – Law No. 11,941/09**(c) Breakdown of equity results**

On May 27, 2009, Law No. 11.941, which establishes the conditions for the program that allows for the installment payments of federal tax debts, was enacted. These conditions include: (i) a payment term that can be as long as 180 months; (ii) reductions in fines, interest and charges that vary in accordance with the payment term; and (iii) the possibility of using the balance of income tax and social contribution tax loss carryforwards in the settlement of fines and interest. In compliance with the provision in said Law, Braskem and its subsidiaries Braskem Qpar and Braskem Petroquímica adhered to this program and paid the minimum amounts established by law until the consolidation of the tax debts.

In June 2011, the Federal Revenue Service made the program available for consolidating the debts in said refinancing program. The amount consolidated totaled R\$ 1,664,907 to be paid in monthly and consecutive installments of R\$ 10,678, adjusted based on the Selic rate as from that month. At December 31, 2011, the balance of R\$ 1,669,976 will be paid in 154 months.

As established in said Law, Braskem will lose all the reductions of arrears charges if it fails to pay three installments, whether consecutive or not.

| Total liabilities | | 900,716 | 19,617 | 39,232 | 38,637 | 803,230 | 1,938,971 | 89,392 | 178,782 | 17 |

Basis for recognition and realization:

- (i) Book goodwill from merged investments, amortized before Law No. 11,638/07, which is controlled in the Taxable Income Assessment Book (LALUR). Realization based on the specific fiscal rule.
- (ii) Book expenses that are still undeductible for determining IR and CSL and the use of which will take place in subsequent periods.
- (iii) Refers to (1) tax goodwill generated in the acquisition of Quattor, and (2) amounts of contingencies recognized in the business combination of Quattor. The goodwill will be realized upon the merger of the acquired companies and of contingencies after write-offs due to settlements or reversal of the proceedings involved.
- (iv) Refers to the provision of the defined benefit plan of Petros Copesul. Realization is based on the expectation of settlement or withdrawal of sponsorship of the plan.
- (v) Amounts recognized on the deferred assets written-off due to the application of Law No. 11,638/07. Realization according to the application of the amortization rate used before the application of this law.
- (vi) Refers to goodwill based on future profitability of merged companies that have not been amortized in the books since the application of Law No. 11,638/07 (Note 17 (a)). Realization is associated with the impairment or disposal of assets related to the goodwill.
- (vii) Foreign exchange variation of assets and liabilities denominated in foreign currency accounted for under the accrual basis, which will be realized on cash basis.

(viii) Book revenues that are not yet taxable for determining income tax and social contribution and the taxation of which will take place in subsequent periods.

(ix) Refers to goodwill on property, plant and equipment and identifiable intangible assets arising from the business combinations of Quattor, Unipar and Petroquímica Triunfo, which is realized through the depreciation and amortization of these assets.

(x) Refers to the adjustment of the additional indexation of property, plant and equipment, which will be realized through the depreciation of assets.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****24 Sundry provisions**

| Total | | 113,672 | 150,531 | 321,723 | 394,867 |

(a) Provision for costumer bonus

Some sales agreements of Braskem provide for a rebate, in products, should some sales volumes be achieved within the year, six-month period or three-month period, depending on the agreement. The rebate is monthly recognized in a provision, assuming that the minimum contractual amount will be achieved. As they are recognized based on contracts, the provisions are not subject to significant uncertainties with respect to their amount or settlement.

(b) Provision for recovery of environmental damages

Braskem has a provision for future expenses for the recovery of environmental damages in some of its industrial plants. The term estimated, which are measured at present value, is five years.

(c) Breakdown of equity results

(c) Judicial and administrative provisions

As presented below, Braskem maintains a provision for legal and administrative proceedings against the Company, for which the chances of loss are considered probable, and tax claims against Quattor, for which the chances of loss are considered possible on April 30, 2010, date on which the control of Quattor was acquired.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

(c.1) Labor claims

On December 31, 2011, the Company is involved in 531 labor claims, including occupational health and security cases, in the total amount of R\$ 117,722. The Company's legal advisors estimate that the term for the termination of these types of claims in Brazil exceeds five years.

The estimates related to the outcome of proceedings and the possibility of future disbursement may change in view of new decisions in higher courts. The Company's management believes that the chances of increasing the amount of the existing provision is remote.

The Company has a judicial deposit that will be used to settle possible unfavorable decisions (Note 12).

(c.2) Tax claims

On December 31, 2011, Braskem has recognized a provision in the amount of R\$ 38,197 for claims from the Brazilian tax authorities and the chances of loss for which are considered probable. On the same date, the Company has recognized a provision in the amount of R\$ 184,082 for these claims arising from the business combination of Quattor (Note 5.1) and the chances of loss for which are considered possible.

The Company's external legal advisors believe that the estimates related to the outcome of the claims and the possibility of future disbursement may change in view of the following: (i) the Federal Supreme Court or the Superior Court of Justice deciding in a similar case involving another company, adopting a final interpretation of the matter and, consequently, advancing the termination of the claims involving the Company, without any disbursement or implying a disbursement lower than that assessed; and (ii) programs encouraging the payment of the debts, such as the REFIS (refinancing program) implemented at the Federal level, in favorable conditions that may lead to a

disbursement that is lower than the one that is currently recognized in the provision.

On December 31, 2011, the main tax claims for which the Company maintains a provision are the following:

(i) **IR and CSL**

The subsidiary Braskem Petroquímica is assessed for the payment of IR and CSL on the foreign exchange variation in the account of investments in foreign subsidiaries in 2002. On December 31, 2011, the amount involved is R\$ 110 million. The amount of the provision recognized is based on the estimate of disbursement made by an external legal advisor taking into consideration the case law on the matter at the administrative and judicial levels.

There is no judicial deposit or other type of guarantee for this claim and the Company's management expects this case to be terminated by 2015.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

(ii) PIS and COFINS

The subsidiary Braskem Petroquímica is assessed for the payment of these taxes in many claims, such as:

- non-payment of COFINS for the period from March 1999 to December 2000, from February 2001 to March 2002, from May 2002 to July 2002 and September 2002;
- undue offset of credit arising from the additional 1% to the rate of COFINS;
- offset with credits from PIS – Decree-Laws No. 2,445 and No. 2,449;
- omission in the calculation basis of income arising from foreign exchange variations on assets, determined as a result of successive reductions in the capital of Suzanopar Petroquímica Ltda.

On December 31, 2011, the total amount involved in these claims is R\$ 89 million. The amount of the provision recognized is based on the estimate of disbursement made by an external legal advisor taking into consideration the case law on the matters at the administrative and judicial levels. Guarantees were offered for these claims in the form of bank guarantee and finished products manufactured by Braskem Petroquímica, which, together, cover the amount of the claims. The Company's management estimates that these cases should be terminated by 2020.

(iii) ICMS – interstate purchases

(c) Breakdown of equity results

In 2009, the subsidiary Braskem Qpar was assessed by the Finance Department of the State of São Paulo for the payment of ICMS in view of:

- undue use of tax credits in the periods from February 2004 to August 2005, November 2005 to February 2006, and September 2006 to January 2008, arising from the bookkeeping of credits that were unduly presented in the sales invoices of products acquired from another company, since the operations were aimed at the export of the products and, as such, they would not be subject to ICMS;
- issue of invoices without registering the shipment of the goods from its facilities for storage;
- non-presentation of the tax documents requested by inspection authorities.

On December 31, 2011, the adjusted amount involved is R\$ 350 million. The amount of the provision recognized is based on the estimate of disbursement made by an external legal advisor taking into consideration the case law on the matters at the administrative and judicial levels. Management estimates that this case should be terminated by 2019.

There are no assets deposited or recorded by the Company with respect to this case.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

(iv) ICMS – sundry violations

The subsidiary Braskem Qpar was assessed by the Finance Department of the State of São Paulo for the payment of ICMS in view of the following alleged violations:

- undue tax credit and issue of invoices in the periods between 2004 and 2005, without the effective shipment of the goods; and
- non-payment of tax in the period from 2002 and 2004 when carrying out interstate sale operations to taxpayers located in another state but the goods never left the State of São Paulo.

On December 31, 2011, the total amount involved in these claims is R\$ 131 million. The amount of the provision recognized is based on the estimate of disbursement made by an external legal advisor taking into consideration the case law on the matters at the administrative and judicial levels. The Company's management estimates that these cases should be terminated by 2020. There is no judicial asset or any other type of guarantee for these cases.

(d) Changes in provisions

25 Long-term incentive

A long-term non-share-based incentive plan was approved at the Shareholders' Meeting held in September 2005, under which the participants designated annually by management can acquire securities issued by the Company that are called "Investment Units". The objective of the plan is, among others, to align the interests of participants in the creation of long-term value with those of shareholders, help participants develop a sense of ownership and motivate the vision and commitment of participants to long-term results.

The investment unit does not give its holder rights as a shareholder of Braskem, or any other rights or privileges that are inherent to shareholders, in particular voting rights and other political rights.

On an annual basis, the Board of Directors approves the eligible participants, the quantity of Investment Units to be issued, the percentage of the Company's consideration for the participants' acquisition and the number of units offered per participant. The acceptance by the participant implies cash payment of the amount attributed to the participant and the execution of the unit purchase agreement, with Braskem being responsible for issuing the respective Certificate of Investment Units.

The Investment Unit is issued in the first half of each year and its value is annually adjusted based on the average price of the Company's class A preferred share at the closing of the trading sessions of the São Paulo Stock Exchange (BM&FBovespa) from October to March. In addition to the change in its par value, the Investment Unit yields the same as the dividend and/or interest on capital distributed by Braskem.

There are three types of Investment Units:

- unit acquired by the participant, called "Alpha";

- unit received by the participant from Braskem as a consideration, called “Beta”;
- unit received by the participant as earnings, called “Gama”.

The Investment Unit (and its related certificate) is issued in its holder’s name and can be sold only to Braskem by means of redemption, according to the following conditions:

- as from the 5th year, after the first acquisition, the acquirer can redeem up to 20% of the accumulated balance of investment units; and
- as from the 6th year, redemption is limited to 10% of the accumulated balance.

The changes in the number and amount of Investment Units at December 31, 2011 and 2010 are as follows:

| | Investment unit Alpha | | Investment unit Beta | |
|------------------------------------|-----------------------|---------------|----------------------|--------------|
| | Quantity | Amount | Quantity | Amount |
| December 31, 2010 | 672,753 | 8,699 | 665,268 | 5,743 |
| Conversion from IU's Gama to Alpha | 19,475 | 349 | | |
| Update of nominal amount | | 4,346 | | 2,002 |
| Redemption | (153,250) | (2,965) | (153,073) | (2,962) |
| December 31, 2011 | 538,978 | 10,429 | 512,195 | 4,783 |

26 Private pension plans

The actuarial obligations relating to the pension and retirement plans are recorded in conformity with CPC 33 and IAS 19.

26.1 Defined contribution plans

(a) ODEPREV

The Company maintains a defined contribution plan for its employees managed by ODEPREV, a private pension plan entity created by Odebrecht. ODEPREV offers its participants, which are employees of the sponsoring companies, an optional defined contribution plan in which monthly and additional participant contributions and monthly and annual sponsor contributions are made to individual pension savings accounts.

At December 31, 2011, the number of active participants in ODEPREV totals 5,259 (2010 – 3,468). The contributions made by the Company in the year amounted to R\$ 13,873 (2010 - R\$ 11,315) and the contributions made by the participants amounted to R\$ 39,927 (2010 - R\$ 25,515). As from January 2011, the process for the integration of the employees of the subsidiaries Braskem Qpar, Braskem Petroquímica, Ripol and Quantiq in the ODEPREV plan began.

(b) Triunfo Vida

(c) Breakdown of equity results

Braskem, due to the merger of Triunfo, became a sponsor of Triunfo Vida. On May 31, 2010, the Company requested to withdraw its sponsorship of this plan and the contributions were suspended in June 2010. The contributions of the Company and participants until June 2010 totaled R\$ 126 and R\$ 197, respectively.

In 2011, the withdrawal process followed its course with the submittal of the withdrawal documents and calculations to the regulatory agency, PREVIC – National Superintendency of Supplementary Pension Plan (“PREVIC”). As established by regulation, PREVIC is conducting a technical analysis that precedes the approval of the sponsorship withdrawal process.

The Company does not expect any additional disbursement in the withdrawal process.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

26.2 Defined benefit plans

(a) PETROS - Fundação Petrobras de Seguridade Social ("PETROS")

- **PETROS Copesul Plan**

Braskem and part of the employees of the merged company Copesul make contributions as sponsors of PETROS in a defined benefit retirement and pension plan.

At December 31, 2011, the number of active participants in this plan totals 244 (2010 – 293). The contributions of the Company and participants were made only until 2010 and amounted to R\$ 1,160 and R\$ 944, respectively.

As mentioned above, the PETROS charter and applicable legislation determine that, in the event of insufficient technical reserves, both the sponsor and participants are required to contribute with additional amounts, otherwise the plan benefits will be adjusted to the available funds.

- **PETROS PQU Plan**

With the acquisition of Quattor in April 2010, the Company became responsible for the supplementary defined benefit pension plan called Petros PQU. Quattor had already been in the process for withdrawing its sponsorship since September 2009 when it determined the base date for the withdrawal and suspended its contributions to the plan.

(c) Breakdown of equity results

In 2011, the withdrawal process followed its course with the submittal of the withdrawal documents and calculations to PREVIC and the beginning of the technical analysis that should finish with the approval of the withdrawal process. The calculation of the mathematical reserves of the participants was completed in February 2010. Due to the plan's surplus, no provision is necessary in the Company's financial statements.

(b) Fundação Francisco Martins Bastos – (“Francisco Martins Bastos Foundation”)

The Company, due to the merger of Ipiranga Petroquímica S.A., became a sponsor of the Francisco Martins Bastos Foundation - FFMB, a supplementary private pension entity, whose purpose is the management and execution of a defined benefit pension plan for the former employees of the Ipiranga Group.

In June 2009, the Company formally requested its withdrawal from the sponsorship of the benefit plan and related amendments as from the 30th of that month to FFMB in accordance with the provisions in the Foundation's bylaws. The calculation of the mathematical reserves of participants was completed in November 2009. In the same month, the withdrawal request was filed with PREVIC, which approved it on December 16, 2010 and, due to the plan surplus, no additional contribution was required in the settlement process.

(c) Novamont – Braskem America

On April 1, 2010, with the acquisition of Sunoco Chemicals, Braskem America became the sponsor of Novamont, which is a defined benefit plan of the employees of the plant located in the State of West Virginia.

At December 31, 2011, the number of active participants in Novamont totals 73 (2010 – 70). In 2011 and 2010, no contributions were made by the Company and participants.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****(d) Braskem Alemanha defined benefit plan**

On October 3, 2011, with the acquisition of the polypropylene business from Dow Chemical, Braskem Alemanha became the sponsor of the defined benefit plan of the employees of the plant located in that country.

At December 31, 2011, the number of active participants totals 96. In 2011, no contributions were made by Braskem Alemanha and participants.

26.2.1 Breakdown and changes in the balances of defined benefit private pension plans

The amounts recognized for defined benefit pension plans are as follows:

| | 2011 | Parent company 2010 | 2011 | Consolidated 2010 |
|--|----------------|------------------------|----------------|----------------------|
| Actuarial asset recorded with | | | | |
| Novamont Braskem America (i) | | | | 270 |
| | | | | 270 |
| Actuarial liabilities recorded with | | | | |
| Novamont Braskem America | | | 821 | |
| Petros | 134,506 | 109,894 | 134,506 | 110,744 |
| Braskem Alemanha | | | 14,248 | |
| RPR | | | | 12,773 |
| | 134,506 | 109,894 | 149,575 | 123,517 |

- (i) This amount is part of the balance of “other receivables” in non-current assets.

On December 31, 2011, the amounts recognized in the balance sheet are as follows:

| | 2011 | Consolidated 2010 |
|--|------------------|------------------------------|
| Fair value of plan assets | (780,561) | (680,010) |
| Funded status of the plan | 589,116 | 541,761 |
| Past service cost not recognized | (191,445) | (138,249) |
| Actuarial gains | 4,182 | 5,939 |
| Net balance parent company and subsidiaries | 37,688 | 22,686 |
| Net balance of jointly-controlled subsidiaries | (149,575) | (109,624) |
| Consolidated net balance | (149,575) | (13,623) |
| | | 270 |
| In non-current liability | (149,575) | (123,517) |
| | (149,575) | (123,247) |

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated**

The changes in the obligations of the defined benefit plans in the year are presented below:

| | 2011 | Consolidated 2010 |
|--|----------------|------------------------------|
| Change in defined benefit obligations | | |
| Balance at beginning of year | 680,010 | 563,058 |
| Acquisition of company 26.2 (c) (d) | 13,661 | 695,302 |
| Current service cost | 7,309 | 77,812 |
| Interest cost | 70,480 | 64,444 |
| Special retirement | 278 | |
| Benefits paid | (41,379) | (107,509) |
| Change of plan | 1,026 | |
| Actuarial losses | 46,951 | 215,000 |
| Other revenue | | (41) |
| Plan curtailment 26.2 (a) | | (828,056) |
| Exchange variation | 2,225 | |
| Balance at the end of the year | 780,561 | 680,010 |

The changes in the fair value of the benefit plan's assets in the periods presented are as follows:

| | 2011 | Consolidated 2010 |
|--|-------------|------------------------------|
| Change in fair value of plan assets | | |
| Balance at beginning of the year | 541,761 | 512,143 |
| Acquisition of company | 632 | 878,198 |
| Actual return on plan assets | 83,781 | 275,440 |
| Employer contributions | | 2,526 |
| Employee contributions | 2,955 | 9,180 |
| Current expenses | (35) | (42) |
| Benefits paid | (42,140) | (107,509) |
| Plan curtailment | | (1,028,175) |
| Exchange variation | 2,162 | |

| | | |
|--------------------------------|----------------|----------------|
| Balance at the end of the year | 589,116 | 541,761 |
|--------------------------------|----------------|----------------|

The amounts recognized in the income statement are:

| | 2011 | Consolidated 2010 |
|---|-----------------|------------------------------|
| Amounts recognized in the income statement | | |
| Current service cost | (7,309) | (8,358) |
| Interest cost | (70,480) | 10,037 |
| Expected return on plan assets | 54,720 | (35,600) |
| Amortization of actuarial gains | (32) | (153,293) |
| Amortization of unrecognized service cost | (2,783) | (2,783) |
| Employee contributions | | 2,526 |
| Charges on special retirement | (278) | |
| Plan curtailment | | 173,117 |
| | (26,162) | (14,354) |

The amounts recognized in the income statement related to the changes in the defined benefit pension plans are presented in Braskem's operating profit (loss).

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated**

The main actuarial assumptions used were the following:

| | 2011 | | | Percentage (%) 2010 United | |
|--|---------------|--------------------------|----------------|---|---------------|
| | Brazil | United States | Germany | Brazil | States |
| Discount rate | 6.00 | 5.70 | 5.75 | 6.00 | 6.00 |
| Inflation rate | 4.50 | 3.00 | n/a | 4.50 | 3.00 |
| Expected return on plan assets | 10.50 | 1.00 | n/a | 10.50 | 1.00 |
| Rate of increase in future salary levels | 4.50 | n/a | 3.00 | 4.50 | n/a |
| Rate of increase in future pension plan | 4.50 | n/a | 2.25 | 4.50 | n/a |

The breakdown of the plan's net assets classified based on the fair value hierarchy is as follows:

| | 2011 | | | | Percentual (%) 2010 | | | |
|----------------------------------|----------------|----------------|----------------|--------------|--------------------------------|----------------|----------------|--------------|
| | Level 1 | Level 2 | Level 3 | Total | Level 1 | Level 2 | Level 3 | Total |
| Investment fund - equity | 39.41 | | | 39.41 | 26.73 | | | 26.73 |
| Receivables | 18.68 | | | 18.68 | | | | |
| Government debt securities | 12.78 | | | 12.78 | 13.11 | | | 13.11 |
| Shares | 14.17 | | | 14.17 | 19.34 | | | 19.34 |

219

The defined benefit plan's assets of Petros consist mainly of National Treasury Notes (NTN), fixed-income and variable-income investment funds, variable-income funds managed by large financial institutions and investments in shares of large domestic companies.

The assets of the defined benefit plan of Novamont are composed of quotas of funds in fixed income.

The defined benefit plan of Braskem Germany is a non-contribution plan, that is, the contributions of the sponsor are managed and recorded directly by the Company and this type of plan is allowed by legislation of that country. On December 31, 2011, the balance of the fair value of the plan's assets is only composed of contributions made by participants.

27 Advances from customers – non-current

On December 31, 2011, the balance of this account includes the advance of R\$ 140,685 (US\$ 75 million) made by a foreign customer for the acquisition of butadiene between February 2013 and December 2016.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****28 Contingencies**

The Company is a party to labor and social security, tax, civil and corporate claims for which the chances of loss was considered possible and for which no provision has been recognized, in accordance with the breakdown and estimate below:

| | Note | 2011 |
|----------------|-------------|------------------|
| Labor claims | (a) | 768,022 |
| Tax claims | (b) | 3,455,777 |
| Other lawsuits | (c) | 416,321 |
| Total | | 4,640,120 |

(a) Labor

On December 31, 2011, the Company is involved in 1,403 indemnity and labor claims for which the chances of loss are considered possible. Among these claims are:

(a.1) In the second quarter of 2005, the Union of Workers in the Petrochemical and Chemical Industries in Triunfo (State of Rio Grande do Sul) lodged a number of class actions claiming overtime payment. For part of these actions, for which the claims amount to R\$ 86,479, the chances of a loss are considered possible. For the remaining actions in progress, for which the claims amount of R\$ 641,854, the chances of a loss are considered remote.

All actions in progress are with the Superior Labor Court and Management expects them to be judged by 2013.

One of these actions was awarded a final and unappealable decision in favor of the Company.

There are judicial deposits related to these claims.

(a.2) In the third quarter of 2010, the Union of Workers in the Petrochemical and Chemical Industries in Triunfo (State of Rio Grande do Sul) filed class actions claiming the payment of overtime referring to work breaks and integration into base salary of the remunerated weekly day-off amounting to R\$ 255,048.

The proper defenses were presented for these actions and the Company, based on the opinion of the external legal advisors, does not expect losses arising from the outcome of these proceedings. The chances of loss are considered possible.

The claims are in the fact finding and appeals phase and they are expected to be granted a final and unappealable decision in the last quarter of 2013.

There are judicial deposits related to these claims.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

(b) Tax

On December 31, 2011, the Company is involved in many proceedings with the Brazilian tax authorities and the chances of loss are considered possible based on the estimate and opinion of its external advisors.

Braskem's external legal advisors believe that the estimates related to the outcome of the claims and the possibility of future disbursement may change in view of the following: (i) the Federal Supreme Court or the Superior Court of Justice deciding in a similar case involving another company, adopting a final interpretation of the matter and, consequently, advancing the termination of the claims involving the Company, without any disbursement or implying a disbursement lower than that assessed; and (ii) programs encouraging the payment of the debts, such as the REFIS (refinancing program) implemented at the Federal level, in favorable conditions that may lead to the adherence of the Company to these programs.

On December 31, the main tax contingencies are the following:

(b.1) ICMS - reduction in calculation basis

In 2010, the Company was assessed by the Finance Department of the State of Bahia for the payment of ICMS in view of the perpetration of many violations. Most of the demands are based on the fact that the Company shipped goods and reduced the tax calculation basis without having made the proportional reversal of the tax credit from the acquisitions of the goods used in the manufacturing process. On December 31, 2011, the adjusted amount involved is R\$ 500 million.

The Company's legal advisors estimate that: (i) the judicial proceeding is expected to be terminated in 2020; and (ii) in the event of an unfavorable decision to the Company, which is not expected, this contingency could be settled for up

to 50% of the amount in dispute. This estimate is based on the probability of success of the Company's defense theory taking into consideration the case law at the administrative and judicial levels.

There are no assets deposited or recorded by the Company with respect to this case.

(b.2) ICMS - sundry

The Company is involved in many ICMS collection claims that became relevant because they are the subject matter of repeated assessment notices drawn up mainly by the Finance Department of the State of Bahia and Alagoas. On December 31, 2011, the adjusted amounts involved of these claims total R\$ 700 million and the objects of the claims include the following matters:

- ICMS credit on the acquisition of assets that are considered by the Revenue Services as being of use and consumption. The Revenue Service understands that the asset has to be a physically integral part of the final product to give rise to a credit. Most of the products do not so, but the Judiciary branch has a precedent that says that the asset must be an integral part of the product or be consumed in the production process.
- ICMS credit arising from the acquisition of assets to be used in property, plant and equipment, which is considered by the Revenue Services as not being related to the production activity, such as laboratory materials, construction of warehouses, security equipment, etc.
- transfer of goods for an amount lower than the production cost;

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

- omission of the entry or shipment of goods based on physical count of inventories;

- lack of evidence that the company exported goods so that the shipment of the goods is presumably taxed for the domestic market;

- fines for the failure to register invoices;

- ICMS credit on transportation services with CIF clause without having evidence that it used the transportation service.

The Company's legal advisors estimate that: (i) the judicial proceedings are expected to be terminated in 2020, and (ii) in the event of an unfavorable decision to the Company, which is not expected, this contingency could be settled for up to 40% of the amount in dispute. This estimate is based on the probability of success of the Company's defense theory taking into consideration the case law at the administrative and judicial levels.

There are no assets deposited or recorded by the Company with respect to these cases.

(b.3) COFINS - sundry

The Company is involved in collection actions related to COFINS in which the use, by the Company, of certain tax credits to determine and pay this tax is under discussion. These credits arise from (i) legal actions; and (ii) income tax

prepayments.

On December 31, 2011, the adjusted amounts involved of these assessments total R\$ 182 million.

The Company's external legal advisors estimate that: (i) the judicial proceedings are expected to be terminated in 2018; and (ii) in the event of an unfavorable decision to the Company, which is not expected, this contingency could be settled for up to 50% of the amount in dispute. This estimate is based on the probability of success of the Company's defense theory taking into consideration the case law at the administrative and judicial levels.

The Company offered assets in guarantee that cover the amount involved in these claims.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

(b.4) Income tax - BEFIEIX

The Company was assessed by the Federal Revenue Service for the payment of income tax for the calendar year 2001 since the existence of the negative balance declared by Braskem was questioned. The plaintiff notes that the Company determined a lower taxable income in view of the undue offset, in full, of tax losses based on the Export Special Program – BEFIEIX after the period of effectiveness of the program. The use of an income tax reduction benefit of 37.5% is also being questioned but the right to such benefit has not been proved. On December 31, 2011, the adjusted amount involved is R\$ 63 million.

The Company's legal advisors estimate that: (i) the judicial proceeding is expected to be terminated in 2019, and (ii) in the event of an unfavorable decision to the Company, which is not expected, this contingency could be settled for up to 70% of the amount in dispute. This estimate is based on the probability of success of the Company's defense theory taking into consideration the case law at the administrative and judicial levels.

There are no assets deposited or recorded by the Company with respect to these cases.

(b.5) IPI – presumed credit

The Company is involved in tax assessments that question the undue use of presumed IPI credit as a way to offset the payment of PIS and COFINS levied on the acquisitions of raw materials, intermediate products and packaging material used in the industrialization of exported products. The Revenue Service understands that only the products that have been in contact with or have a direct influence on the final product provide for the right to the presumed credit. The Judicial branch understands that the products that give rise to the right to the credits are those that (i) are incorporated into the final product; or (ii) are immediately and completely consumed in the production process. On December 31, 2011, the adjusted amount involved of these assessments is R\$ 90 million.

The Company's legal advisors estimate that: (i) the judicial proceeding is expected to be terminated in 2020; and (ii) in the event of an unfavorable decision to the Company, which is not expected, this contingency could be settled for up to 60% of the amount in dispute. This estimate is based on the probability of success of the Company's defense theory taking into consideration the case law at the administrative and judicial levels.

There are no assets deposited or recorded by the Company with respect to these cases.

(c) Other court disputes involving the Company and its subsidiaries

(c.1) Civil

The Company is the defendant in civil lawsuits filed by the owner of a former distributor of caustic soda and by the shipping company that provided services to this former distributor, which, at December 31, 2011, totaled R\$ 30,540. The claimants seek indemnity for damages related to the alleged non-performance of the distribution agreement by the Company. Management's evaluation, supported by the opinion of its external legal advisors who are responsible for the cases, is that the lawsuits will possibly be dismissed within a period of 8 years.

There are judicial deposits related to these claims.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

(c.2) Corporate

Some shareholders of preferred shares acquired with incentives filed lawsuits, originally against Copene, the former name of the Company, and against the merged companies Nitrocarbono, OPP Química, Salgema, Trikem, Polialden and Politeno. They claim a share in the profit remaining after the payment of priority dividends on the same basis as the common shareholders, in addition to the right to vote in shareholders' meetings until the distribution of dividends in the desired conditions is reestablished. The amount involved in the lawsuits for which there is a possibility of loss is R\$ 14,093. Since the lawsuits are in different phases, the Company's external legal advisors are not able to estimate when these proceedings are expected to be terminated.

There are judicial deposits related to these claims.

(c.3) Social security

The Company is a party to 85 administrative and judicial proceedings concerning social security matters, which total approximately R\$ 205,684 at December 31, 2011, as adjusted by the Selic rate.

The Company's management, based on the opinion of its external legal advisors, who consider that the chances of success in all these proceedings are possible, understands that no amount is due with respect to these assessments and, for this reason, no provision was recognized to this end. The Company's external legal advisors were not able to estimate when these proceedings are expected to be terminated. Additionally, management believes that is not possible to estimate the amount of disbursement to cover a possible unfavorable decision to the Company.

29 Equity

(c) Breakdown of equity results

(a) Capital

At December 31, 2011, the Company's subscribed and paid up capital amounts to R\$ 8,043,222 and comprises 801,665,617 shares with no par value divided into 451,669,063 common shares, 349,402,736 class A preferred shares, and 593,818 class B preferred shares.

The Company's Extraordinary Shareholders' General Meeting held on February 25, 2010 approved a capital increase, regardless of changes in the bylaws, up to the limit of 1,152,937,970 shares, divided into: 535,661,731 common shares, 616,682,421 class A preferred shares and 593,818 class B preferred shares. The amount of preferred shares without voting rights or with restricted voting rights may not exceed the limit of two thirds of the Company's total capital.

On April 14, 2010, the Company's Board of Directors approved a capital increase in the form of private subscription through the issue of 259,904,311 shares, of which: 243,206,530 of which are common shares and 16,697,781 are class A preferred shares with an issue price of R\$ 14.40 per share, totaling R\$ 3,742,622. The amount of R\$ 1,363,880 was credited to the capital reserve account and R\$ 2,378,742 to the capital account, which increased from R\$ 5,473,181 to R\$ 7,851,923, comprising 780,832,465 shares divided into 433,668,976 common shares, 346,569,671 class A preferred shares and 593,818 class B preferred shares.

The Extraordinary General Shareholders' Meeting held on June 18, 2010 approved the merger of Quattor shares by Braskem. This merger resulted in the issue of 18,000,087 common shares, amounting to R\$ 199,356, R\$ 164,744 of which was allocated to the capital account and R\$ 34,612 to the capital reserve account. As a result, the Company's capital increased from R\$ 7,851,923 to R\$ 8,016,667.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

The Extraordinary General Shareholders' Meeting held on August 30, 2010 approved the merger of Riopol shares by Braskem. This merger resulted in the issue of 2,434,890 class A preferred shares amounting to R\$ 103,087, R\$ 22,285 of which was allocated to the capital account and R\$ 80,802 to the capital reserve account. As a result, the Company's capital increased from R\$ 8,016,667 to R\$ 8,038,952.

The Extraordinary General Shareholders' Meeting held on December 27, 2010 approved the merger of Quattor Petroquímica shares by Braskem. This merger resulted in the issue of 398,175 class A preferred shares amounting to R\$ 4,270 which was allocated to the capital account. As a result, the Company's capital increased from R\$ 8,038,952 to R\$ 8,043,222.

(b) Share rights

Preferred shares carry no voting rights but they ensure priority, non-cumulative annual dividend of 6% of their unit value, according to profits available for distribution. The unit value of the shares is obtained through the division of capital by the total number of outstanding shares. Only class A preferred shares will have the same claim on the remaining profit as common shares and will be entitled to dividends only after the priority dividend is paid to preferred shareholders. Only class A preferred shares also have the same claim as common shares on the distribution of shares resulting from capitalization of other reserves. Only class A preferred shares can be converted into common shares upon resolution of majority voting shareholders present at a General Meeting. Class B preferred shares can be converted into class A preferred shares at any time, at the ratio of two class B preferred shares for one class A preferred share, upon a simple written request to the Company, provided that the non-transferability period provided for in specific legislation that allowed for the issue and payment of such shares with tax incentive funds has elapsed.

In the event of liquidation of the Company, class A and B preferred shares will have priority in the reimbursement of capital.

Shareholders are entitled to receive a mandatory minimum dividend of 25% on profit for the year, adjusted under Brazilian Corporate Law.

(c) Capital reserve – tax incentives

The balance of this reserve mainly comprises the income tax deduction benefit determined before the base period of 2006 (Note 32(a)). After the adoption of Laws No. 11,638/07 and 11,941/09, as from January 1, 2007, the income tax benefit started to be recorded in the income statement in the revenue reserves account as proposed by management and approved at the General Shareholders' Meeting. Regardless of the change introduced by Laws No. 11,638/07 and 11,941/09, this tax incentive can be used only for capital increase or absorption of losses.

(d) Legal reserve

Under Brazilian Corporate Law, the Company must transfer 5% of net profit for the year, determined in accordance with the accounting practices adopted in Brazil, to a legal reserve until this reserve is equivalent to 20% of the paid-up capital. The legal reserve can be used for capital increase or absorption of losses.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****(e) Unrealized profit reserves**

This reserve was established based on unrealized profits in accordance with items I and II, paragraph 1 of Article 197 of Law No. 6,404/76, which states that in the fiscal year that the distributable dividends exceed the amount of profits, which generated cash inflows to the Company, the General Stockholders' Meeting may, upon proposal of the board, attribute such excess to "unrealized profit reserves". Under the terms of the Law No 6,404/76, this reserve should only be used to (i) absorb losses; and (ii) to pay dividends.

At the end of 2011, the Company used R\$979,048 of the balance of this reserve to (i) absorb part of the accumulated deficit of 2011, amounting to R\$496,455; and (ii) propose the payment of dividends, amounting to R\$ 482,593 (Note 29(h.2)). On December 31, 2011, the balance of this reserve is R\$16,457.

(f) Treasury shares

The breakdown of treasury shares is as follows:

| | 2011 | Parent company 2010 | 2011 | Consolidated 2010 |
|--------------------------------|------------------|--------------------------------|------------------|------------------------------|
| Quantity | | | | |
| Common shares | 411 | 411 | 411 | 411 |
| Preferred shares class "A" (i) | 1,542,258 | 1,506,060 | 2,697,016 | 2,660,818 |
| | 1,542,669 | 1,506,471 | 2,697,427 | 2,661,229 |
| Amount (R\$ thousand) | 11,325 | 10,379 | 60,217 | 59,271 |

(i) In the consolidated financial statements as of December 31, 2011 and 2010, the Company recorded the amount of R\$ 48,892 within "treasury shares," corresponding to 1,154,758 class A preferred shares issued by Braskem and held by the subsidiary Braskem Petroquímica (Note 2.2.2). These shares were received by Braskem Petroquímica as a result of the merger of Riopol shares by Braskem (Note 1 (b.1 (ix))).

On December 31, 2011, the total amount of treasury shares in the Parent Company, calculated based on the closing trading price of BM&FBovespa, is R\$ 19,741 (2010 – R\$ 30,678), and consolidated, R\$ 34,522 (2010 – R\$ 54,201).

In 2010 and 2011, the events that resulted in the increase of the number of treasury shares in the Parent Company were the following:

- The Extraordinary General Shareholders' Meeting held on August 30, 2010 approved the merger of Riopol shares by Braskem. As a result, some holders of 411 common shares of Braskem exercised their right to withdraw. The reimbursement of these shares corresponded to the carrying amount of the share in accordance with the balance sheet as of December 31, 2009 of R\$ 9.15237722 per share, totaling R\$ 3.
- In January 2011, the Company repurchased 36,198 class A preferred shares for the amount of R\$ 946 arising from the right of non-controlling shareholders to withdraw from Braskem Petroquímica due to the merger of its shares into Braskem, which was approved by the shareholders on December 27, 2010.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

(g) Program for the repurchase of shares in progress

On August 26, 2011, Braskem's Board of Directors approved a new program for the repurchase of shares to be effective between August 29, 2011 and August 28, 2012 through which the Company may acquire up to 12,162,504 class A preferred shares at market price. The shares may be acquired by the Company or financial institutions contracted for this purpose.

The program, which was approved by the Brazilian Securities Commission ("CVM"), provides that even if they are in the possession of financial institutions, the shares repurchased in the ambit of the program will not be entitled to the dividends proposed by the Company.

Until the end of the program, Braskem will acquire from the financial institutions, at market price, the shares acquired by them, which is when they will be recorded by the Company as "treasury shares".

By December 31, 2011, 1,405,400 shares had been repurchased by financial institutions for the amount of R\$ 19,830 at a weighted average cost of R\$ 14.11 (minimum cost of R\$ 13.26 and maximum of R\$ 15.15). The average market value of these shares at December 31, 2011 is R\$ 17,989.

Additionally, during the term of the program, the shares repurchased by financial institutions will be excluded from the calculation basis of earnings (loss) per share since, in essence, they are treasury shares and, for this reason, they are not subject to this calculation.

(h) Dividends proposed and appropriation of profit

(c) Breakdown of equity results

Under the Company's bylaws, profit for the year, adjusted according to Law No. 6,404/76, is appropriated as follows:

- (i) 5% to a legal reserve, which must not exceed 20% of capital;

- (ii) 25% to pay for mandatory, non-cumulative dividends, provided that the legal and statutory advantages of the Class A and B preferred shares are observed. When the amount of the priority dividend paid to class A and B preferred shares is equal to or higher than 25% of profit for the year calculated under Article 202 of Corporate Law, it is the full payment of the mandatory dividend. Any surplus remaining after the payment of the priority dividend will be used to:
 - pay dividends to common shareholders up to the limit of the priority dividends of preferred shares;

 - if there still is any surplus, distribute additional dividends to common shareholders and class A preferred shareholders so that the same amount of dividends is paid for each common share or class A preferred share.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****(h.1) Appropriation of profit for 2010**

On April 29, 2011, the Ordinary General Shareholders' Meeting approved the payment of dividends in the amount of R\$ 665,630 (corresponding to 40% of profit adjusted for the calculation of the dividends) as from May 10, 2011, R\$ 376,352 of which was made available to common shareholders and R\$ 288,891 and R\$ 357 to class A and B preferred shareholders, respectively. The remaining proposed and undistributed amount, of R\$ 30, was reversed to retained earnings and refers to the 36,198 class A preferred shares acquired by Braskem in January 2011 as a result from the exercise of the right to withdraw by the shareholders of Braskem Petroquímica (Note 29 (f)).

Total dividends paid represent R\$ 0.83324710 for common and class A preferred shares and R\$ 0.601988304 for class B preferred shares, in conformity with the provisions in the Company's bylaws.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****30 Earnings (loss) per share**

Basic earnings (loss) per share is calculated by means of the division of adjusted profit for the year attributable to the Company's common and class A preferred shareholders by the weighted average number of these shares held by shareholders, excluding those held in treasury and following the rules for the distribution of dividends provided for in the Company's bylaws, as described in Note 29 (h).

Diluted earnings (loss) per share is calculated by means of the division of adjusted profit for the year attributable to the Company's common and class A preferred shareholders by the weighted average number of these shares held by shareholders, excluding those held in treasury. Also, the weighted average number of shares is adjusted by the potential convertibility of class B preferred shares into class A preferred shares in the proportion of two to one, and following the rules for the distribution of dividends provided for in the Company's bylaws, as described in Note 29 (h).

The weighted average numbers per share is calculated based on the number of outstanding common and Class A preferred shares at the beginning of the period, adjusted by the number of shares repurchased or issued in the period, multiplied by a weighting time factor. The calculation of the weighted average in 2011 is shown below:

| | Note | Common shares | Total of outstanding shares Preferred shares class "A" | Total of weighted average | Common shares | Wei Preferred shares clas "A" |
|--|--------|--------------------|--|---------------------------|--------------------|-------------------------------|
| As of December 31, 2010 | | 451,668,652 | 346,741,918 | 798,410,570 | 374,037,573 | 341,130,77 |
| Withdrawal of shareholders of Braskem Petroquímica | 29 (f) | | (36,198) | (36,198) | | (31,636) |
| Repurchase of shares | (i) | | (1,405,400) | (1,405,400) | | (258,793) |

(c) Breakdown of equity results

241

As of December 31, 2011

451,668,652 345,300,320 796,968,972 451,668,652 346,451,48

(i) The shares repurchased in the program for the repurchase of shares by financial institutions were not considered in the calculation of earnings (loss) per share since they are not entitled to dividends (Note 29 (g)).

Class A preferred shares participate in dividends with common shares after the mandatory dividends has been attributed in accordance with the formula provided for in the Company's bylaws, as described in Note 29(h). There is no highest limit for their participation.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated**

As required by CPC 41 and IAS 33, the table below show the reconciliation of profit (loss) for the period adjusted to the amounts used to calculate basic and diluted earnings (loss) per share.

| | Basic | 2011 Diluted | Basic | |
|---|--------------|-------------------------|--------------|---|
| Profit (loss) for the year attributed to Company's shareholders | (525,142) | (525,142) | 1,895,309 | 1 |
| Dividends attributable to priority Preferred share class "A" | | | 209,824 | |

32 Tax incentives**(a) SUDENE – Income Tax**

Until calendar year 2011, the Company has the right to reduce by 75% the income tax on the profit arising from the sale of basic petrochemical products and utilities produced in the Camaçari plant. The same rights apply to the three Camaçari polyethylene plants and polypropylene plant until calendar years 2011, 2012, 2013 and 2016 and to the Camaçari and Marechal Deodoro (state of Alagoas) PVC plants until 2013 and 2019, respectively.

Productions of caustic soda, chloride, ethylene dichloride and caprolactam enjoy the benefit of a 75% decrease in the income tax rate until 2012.

(b) PRODESIN - ICMS

The Company has ICMS tax incentives granted by the state of Alagoas, through the state of Alagoas Integrated Development Program - PRODESIN. These incentives are aimed at the implementation and expansion of a plant in that state and are recorded in the account “net sales revenue” in the income statement and in the account “taxes” of Note 31. In 2011, the amount of this incentive was R\$ 22,683 (2010 – R\$ 19,010).

(c) REINTEGRA – federal taxes

On December 14, 2011, Federal Law No. 12,546 was approved, converted from the Provisional Measure No. 540, which, among other provisions, created the program called “REINTEGRA”, aimed at the refund to exporting companies the federal taxes levied on their production chain of goods sold abroad. The refund is equivalent to 3% of the amount of export revenues and will be performed through the reimbursement in cash or of credit for offset against the federal taxes due. This program will be valid for export sales until December 31, 2012.

In December 2011, first month of effectiveness of REINTEGRA, the Company determined a credit of R\$ 17,924, which is presented in the account “net sales revenue”, in the income statement and in the account “taxes” of Note 31.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****33 Other operating income (expenses), net**

On December 31, 2011, this account includes:

- (i) loss of property, plant and equipment items and investment amounting to R\$ 89,702, R\$ 52,605 of which refers to the disposal of assets in the period of tests of the green PE plant;
- (ii) depreciation of dormant plants, amounting to R\$ 20,702.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

36 Segment information

The Company's management determined Braskem's operating structure based on the type of business and on the main products, markets, and production processes and identified five operating and reportable segments, four of which are production segments and one is a distribution segment. The information on the operating segments presented is that sent to the Chief Executive Officer, who is the main responsible for the Company's decision making and allocation of funds.

On December 31, 2011, Braskem's organizational structure comprises the following segments:

- **Basic petrochemicals**

This segment comprises the activities related to the production of basic petrochemicals and the supply of electric energy, steam and compressed air to second-generation producers located in the Camaçari, Triunfo, Capuava and Duque de Caxias petrochemical complexes.

- **Polyolefins**

This segment comprises the activities related to the production of polyethylene and polypropylene.

- **Vinyls**

This segment comprises the activities related to the production of PVC, caustic soda and chloride.

- **Foreign businesses**

This segment comprises the activities related to the production of polyethylene in the United States and Germany and Green polyethylene in Brazil. This segment was created on April 1, 2010 as a result of the acquisition of the petrochemical assets from Sunoco Chemicals, as disclosed in Note 5.2. Since October 2011, the results of the plants acquired from Dow Chemical have been added to the results of this segment, as disclosed in Note 5.4.

- **Chemical distribution**

This segment mainly comprises the activities related to distribution of solvents from oil, chemical intermediaries, specialty chemicals and pharmaceutical products of the subsidiary Quantiq.

- **Segment restructuring**

In February 2011, CADE approved the operation for the acquisition and integration of Quattor's assets, which made possible the change in the Company's organizational structure as from 2011. The change in relation to the previous structure, presented in the Company's 2010 annual financial statements, in Note 28, is in the distribution of Quattor's activities among the Basic petrochemicals and Polyolefins units. The 2010 information below was reclassified to allow comparability with the results for 2011.

Additionally, the Foreign business segment was presented as PP Americas in the financial statements for 2010.

The Company retrospectively reviews the segment information for the periods presented and evaluates and manages their performance based on the information generated in its statutory accounting records maintained in accordance with the accounting principles and practices adopted in Brazil, according to CPC pronouncements and IFRS, and which are reflected in the consolidated financial statements.

Braskem S.A.

Notes to the financial statements

at December 31, 2011

All amounts in thousands of reais unless otherwise stated

The eliminations stated in the operating segment information, when compared with the consolidated balances disclosed in accordance with CPC pronouncements and IFRS, are represented by sales between segments that are carried out as arm's length sales. The reclassifications are represented mainly by results arising from the provision of services that are presented as "other operating income (expenses), net" by operating segment, and as "net sales revenue" in the consolidated financial statements.

The complete results of the subsidiaries Cetrel and Braskem Idesa and the proportional results of the jointly-controlled subsidiaries Propilsur, Polimérica and RPR are presented in Other segments.

The results of equity investments recognized in the Company's income statement are presented in Corporate unit.

The operating segments are stated based on the results of operations, which does not include financial results, and current and deferred income tax and social contribution expenses.

In 2011 and 2010, the Company does not have any revenue arising from transactions with only one customer that is equal or superior to 10% of its total net revenue. In 2011, the most representative revenue arising from only one customer amounts to approximately 5% of total net revenues of the Company and refers to the Basic petrochemical segment.

The Company does not disclose assets per segment since this information is not presented to its chief operating decision maker.

Braskem S.A.**Notes to the financial statements****at December 31, 2011****All amounts in thousands of reais unless otherwise stated****37 Insurance coverage**

Braskem, according to the policy approved by the Board of Directors, maintains a broad risk and insurance management program. Specifically in the risk management area, the risk and procedure assessment practices are applied in all companies, in Brazil and abroad, including the acquisition for the period, following the principles adopted by Braskem.

On March 30, 2011, Riopol's assets were included in Braskem's insurance program.

In October 2011, the entire All Risks program of Braskem was renewed and the polypropylene operations acquired from Dow Chemical were included in the insurance program of the "Foreign Businesses" segment.

The all-risk insurance policies of Braskem, which include all assets in Brazil and abroad, have maximum indemnity limits established based on the amounts of maximum possible loss that are deemed sufficient to cover possible claims in view of the nature of the Company's activities and based on the guidance of its insurance consultants.

The information on the all-risk policies in effect is presented below:

| | Maturity | Effectiveness (in days) | Maximum indemnity limit US\$ million | Amount insured US\$ million |
|--------------------------------------|--------------------|------------------------------------|---|--|
| Braskem | April 8, 2013 | 548 | 2,000 | 27,340 |
| Braskem America and Braskem Alemanha | September 30, 2012 | 366 | 500 | 2,430 |
| (c) Breakdown of equity results | | | | 260 |

39 Subsequent events

(a) Partial spin-off of BRK and merger of Petroquisa

On January 27, 2012, the controlling shareholder of Braskem was proportionally spun-off. In this spin-off, part of the shares issued by Braskem and which were held by BRK were delivered to Petrobras. BRK became a wholly-owned subsidiary of OSP and kept the shares that are equivalent to 50.11% and 28.23% of the voting and total capital of Braskem, respectively. On the same date, the merger of Petroquisa into Petrobras was approved and Petrobras became the holder of 47.03% and 35.95% of the voting and total capital of Braskem.

(b) On February 8, 2012, CADE approved the acquisition by Braskem of the units acquired from Dow Chemical located in the United States and Germany (Note 5.4).

(c) On February 28, 2012, the Extraordinary General Shareholders' Meeting approved the merger of Ideom into the Company.

(b) Braskem completed the following issues of bonds: (i) US\$ 250 million, on February 2, 2012, related to the additional issue to the issue Braskem Finance performed in April 2011 in the amount of US\$ 750 million (Note 19(a)); and (ii) US\$ 250 million on February 14, 2012, related to the additional issue to the issue of perpetual bonds Braskem Finance performed in October 2010, in the amount of US\$ 700 million (Note 19(a)).
