New discovery in the Transfer of Rights area

Rio de Janeiro, June 8, 2012 – Petróleo Brasileiro S.A. – Petrobras announces the discovery of good quality
oil in the third well drilled in the Transfer of Rights area, located in the area known as Sul de Guará, in the
pre-salt of Santos Basin. According to the contract, at this area Petrobras has the right to produce up to
319 million barrels of oil equivalent.

This discovery well, 1-BRSA-1045-SPS (1-SPS-96), is located in the southern portion of Sapinhoá Field, at a water depth of 2,202 meters, and is 320 km off the coast of the State of São Paulo.

The discovery was confirmed through good quality oil sample (about 27° API), using cable tests, obtained from carbonate reservoirs located below the salt layer.

The well is currently being drilled to a depth of 5,058 meters, in order to determine the lower limit of the reservoir.

After drilling is completed, a formation test will be conducted to evaluate the productivity of the oil reservoirs, as per the activities and investments set out in the Exploratory Program of the Transfer of Rights Contract.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results o f operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
