and Independent Auditors' Report Review

Report on review of interim financial information

To Shareholders, Members of the Board and Management

Braskem S.A.

Camaçari - Bahia

Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Braskem S.A. (the “Company”) included in the Quarterly Financial Information for the quarter ended June 30, 2016, which comprises the balance sheet as of June 30, 2016, the statements of profit or loss and comprehensive income for the three-month and six-month periods then ended, changes in equity and cash flows for the six-month period then ended, and notes to the interim financial information.

Management is responsible for the preparation and presentation of this individual interim financial information in accordance with CPC 21(R1) Technical Pronouncement - Interim Financial Reporting and the consolidated interim financial information in accordance with CPC 21(R1) and international standard IAS 34 - *Interim Financial Reporting*, issued by the *International Accounting Standards Board* - IASB, as well as for the presentation of this quarterly information in accordance with the standards issued by CVM - Brazilian Securities and Exchange Commission, applicable to the preparation of interim financial information. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international review standards applicable to interim financial information (NBC TR 2410 - *Review of Interim Financial Information Performed by the Independent Auditor of the Entity* and ISRE 2410 - *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the individual interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual interim financial information referred to above is not prepared, in all material respects, in accordance with CPC 21(R1) applicable to the preparation of interim financial information and presented in accordance with the standards issued by CVM - Brazilian Securities and Exchange Commission.

Conclusion on the consolidated interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information referred to above is not prepared, in all material respects, in accordance with CPC 21(R1) and IAS 34, issued by the IASB, applicable to the preparation of interim financial information and presented in accordance with the standards issued by CVM - Brazilian Securities and Exchange Commission.

Emphasis of a matter

We draw attention to notes 18 (a) and (b) to the interim financial information that discloses the allegations, events and actions taken by the Company related to the internal investigation in progress, dialogues with the competent authorities and the progress of the class action brought against it in the United States courts. During the course of the second quarter, the Company became aware of additional allegations regarding unlawful facts involving the Company, arising from the scope of investigations into third parties. Within this scenario, the Company will begin dialogues with the Department of Justice (DoJ) and the Securities and Exchange Commission (SEC) to confirm the veracity of such allegations, any parallel investigations and any agreements, which may imply the enforcement of fines and/or other sanctions by the competent authorities and other parties involved. At present, the Company is unable to reasonably estimate potential losses to be accounted for and, therefore, no provision was recorded in the interim financial information. Our conclusion does not contain modifications in relation to these matters.

Other matters

Statements of value added

We also reviewed the individual and consolidated statements of value added for the six-month period ended June 30, 2016, prepared under the responsibility of the Company's management, whose presentation on the interim financial information is required under the standards issued by CVM - Brazilian Securities and Exchange Commission applicable to the preparation of Interim Financial Information and considered as additional information by IFRS, which do not require the presentation of the statement of value added. These statements have been submitted to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that the accompanying statements of value added are not prepared, in all material respects, in accordance with the individual and consolidated interim financial information taken as a whole.

Notes to the financial statements

at June 30, 2016

All amounts in thousands, unless otherwise stated

1. Operations

Braskem S.A. (hereinafter “Parent Company”) is a public corporation headquartered in Camaçari, Bahia (“BA”), which jointly with its subsidiaries (hereinafter “Braskem” or “Company”) is controlled by Odebrecht S.A. (“Odebrecht”), which directly and indirectly holds interests of 50.11% and 38.32% in its voting and total capital, respectively.

(a) Significant corporate and operating events impacting these financial statements

In December 2015, Braskem commissioned the petrochemical complex of its indirect subsidiary Braskem Idesa S.A.P.I (“Braskem Idesa”) in Mexico with the startup of the utilities area, followed by the cracker in March 2016. The first polyethylene (“PE”) lot was produced on april. The complex houses an ethylene gas-based cracker and three polyethylene plants – two high-density and one low-density - with combined annual PE production capacity of 1.05 million tons*.

Braskem holds 75% indirect interest in Braskem Idesa and the remaining 25% pertains to Etileno XXI, S.A. de C.V.

Other corporate events of 2015 and which did not produce significant impact on these financial statements were presented in the 2015 annual financial statements of the Company (Note 1(a)).

* *unreviewed*

(b) Net working capital

On June 30, 2016, net working capital at the Parent Company was negative R\$4,277,619 (negative R\$5,369,459 on December 31, 2015). On the other hand, consolidated net working capital was positive R\$2,931,561 (positive R\$816,258 on December 31, 2015). The consolidated figures are used in the management of working capital, since the Company uses mechanisms to transfer funds between the companies efficiently without jeopardizing the fulfillment of the commitments of each of the entities forming the consolidated statements. For this reasons, any analysis of the Parent Company's working capital will not reflect the actual liquidity position of the consolidated group.

2. Summary of significant accounting policies

There were no changes in the accounting practices used in the preparation of the Quarterly Information in relation to those presented in the December 31, 2015 financial statements.

2.1. Basis of preparation

This Quarterly Information should be read together with the financial statements of Braskem as of December 31, 2015, which were prepared and presented in accordance with accounting practices adopted in Brazil, including the pronouncements issued by the Brazilian Accounting Pronouncements Committee (CPC), and in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB).

The preparation of the quarterly information requires the use of certain critical accounting estimates. It also requires the Management of the Company to exercise its judgment in the process of applying its accounting policies. There were no significant changes in the assumptions and judgments made by the Company's management in the use of estimates for the preparation of the Quarterly Information in relation to those used in the December 31, 2015 financial statements.

2.2. Foreign currency translation

The information on foreign currency translation was presented in the 2015 annual financial statements of the Company, in Note 2.2.

Braskem S.A.**Notes to the financial statements****at June 30, 2016****All amounts in thousands, unless otherwise stated****(a) Brazilian real as functional currency**

The Company has a few associates abroad using Brazilian real as the functional currency. Transactions and balances in foreign currency are translated into the functional currency using foreign exchange rates on the dates of the transactions or at the end of the period, as applicable. Foreign exchange gains and losses resulting from the settlement of these transactions and translation at foreign exchange rates at the end of the year, relating to monetary assets and liabilities in foreign currency, are recognized in the statement of operations for the year as “financial income” and “financial expenses”, respectively, except when classified as “hedge accounting,” in which case these are recognized under shareholders' equity as cash flow hedge operations.

(b) Exchange variation effects

The main effects from exchange variation in these financial statements are shown below:

Notes to the financial statements

at June 30, 2016

All amounts in thousands, unless otherwise stated

The main transactions with related companies in the period ended June 30, 2016, except for those with subsidiaries of the Company, were:

(i) In March 2016, an agreement was entered into with Usina Conquista do Pontal S.A., with Agro Energia Santa Luzia S.A. and with Odebrecht Agroindustrial Participações S.A. to ensure the continued supply of hydrous ethanol to the Company, with technical flexibilities and differentiated commercial conditions, through an advance duly restated by the market rate and guaranteed by Odebrecht S.A. The Companies that are parties to the agreement are indirectly controlled by Odebrecht S.A. The price of hydrous ethanol is based on the Monthly Rate published by the Luiz de Queiroz College of Agriculture (ESALQ) Hydrous Fuel – São Paulo, in R\$/liter, of the reference month and with a discount. The agreement has an estimated maximum amount of R\$305,000 and is valid through April 30, 2017.

(ii) In March 2016, an agreement was entered into with Refinaria de Petróleo Riograndense S.A. (“RPR”) for the sale of gasoil to RPR to be used as feedstock in the diesel production process, which is renewed on a monthly basis.

(iii) Since March 2016, Braskem has had agreements for the sale of gasoline to RPR, renewable on a monthly basis.

(iv) In June 2016, an agreement was signed for the sale of gasoline to Petrobras Distribuidora, a wholly-owned subsidiary of Petrobras. The agreement expired on July 30, 2016.

(v) In June 2016, an amendment to the agreement with Transpetro was executed for the acquisition of naphtha and condensate handling and storage services by Braskem’s Basic Petrochemicals Unit, located in the Triunfo Industrial Complex. The amendment is worth an estimated R\$8 million and is valid through December 2016.

14.1. Fair value hierarchy

Level 1 – fair value obtained through prices quoted (without adjustments) in active markets for identical assets or liabilities, such as the stock exchange;

Level 2 – fair value obtained from financial models using directly observable market data, such as discounted cash flow, when the instrument is a forward purchase/sale or a swap contract, or such as the Black-Scholes model, when the instrument has the characteristics of an option. To measure the credit risk of the parties involved in derivative instruments, Braskem uses the CVA (Credit Valuation Adjustments) or DVA (Debt Valuation Adjustments) models, which calculates the mark-to-market of each transaction. The Company adopts the credit ratings of counterparties for positive flows and its own rating to negative flows, available and disclosed by rating agencies renowned, as a necessary premise to extract the probability of default.

14.4. Non-derivative liabilities designated for export hedge accounting**(a.i) Future exports in U.S. dollars**

On May 1, 2013, Braskem S.A. designated non-derivative financial instrument liabilities, denominated in U.S. dollars, as hedge for the flow of its highly probable future exports. Thus, the impact of exchange rates on future cash flows in dollars derived from these exports will be offset by the foreign exchange variation on the designated liabilities, partly eliminating the volatility of results.

Exports that were designated and not yet realized are shown below:

	Total nominal value US\$
2016	421,744
2017	829,685

14.6. Sensitivity analysis

Financial instruments, including derivatives, may be subject to changes in their fair value as a result of the variation in commodity prices, foreign exchange rates, interest rates, shares and share indexes, price indexes and other variables. The sensitivity of the derivative and non-derivative financial instruments to these variables are presented below:

(a) Selection of risks

On June 30, 2016, the main risks that can affect the value of Braskem's financial instruments are:

- Brazilian real/U.S. dollar exchange rate;
- Brazilian real/Mexican peso exchange rate;
- Libor floating interest rate;
- Selic interest rate;
- CDI interest rate; and
- TJLP interest rate.

For the purposes of the risk sensitivity analysis, Braskem presents the exposures to currencies as if they were independent, that is, without reflecting in the exposure to a foreign exchange rate the risks of the variation in other foreign exchange rates that could be directly influenced by it.

(b) Value at risk

The value at risk of the derivatives held by Braskem which is defined as the loss that could result in one month as from June 30, 2016, with a probability of 5%, and under normal market conditions, was estimated by the Company at US\$31,018 for the NCE exchange rate swap (Note 14.3.1(a.i)); US\$9,566 for the swap of Libor related to Braskem Idesa's project (Note 14.3.1 (a.ii)).

(c) Selection of scenarios

(c.1) Probable scenario

The *Market Readout* published by the Central Bank of Brazil was used to create the probable scenario for the U.S. dollar/Brazilian real exchange rate, Selic basic interest rate and the CDI interest rate, using the reference date of June 30, 2016. According to the Market Readout, at the end of 2016, the U.S. dollar will appreciate by 12.16% against the Brazilian real, compared to the closing PTAX rate at June 30, 2016, while the Selic rate will be 13.75% p.a. The Selic rate is used as a reference for analyses of sensitivity to the CDI.

The probable scenario for the TJLP is an increase of 0.50% from the current rate of 7.5%, in line with the size of the government's most recent decisions to increase or decrease the rate. The Market Readout does not publish forecasts for the Libor interest rate. Therefore, to determine the probable scenario, Braskem considered a 5% increase on current market levels.

Notes to the financial statements

18. Contingencies

(a) Allegations

Braskem and its subsidiaries are subject to a number of anti-corruption laws in the countries where they operate, including Federal Law 12,846/2013, or the Brazilian Anticorruption Law, which came into force on January 28, 2014, and the U.S. Foreign Corrupt Practices Act.

In early March 2015, in connection with the operation by Brazilian Federal Police called Operation Car Wash (Lava Jato), statements made by defendants in judicial proceedings of a criminal nature were made public, in which Braskem, certain former managers and one former executive were mentioned in allegations asserting that improper payments were made in exchange for favorable treatment in connection with certain feedstock supply agreements entered into with Petrobras.

In light of said facts, the Company's Management and Board of Directors immediately approved the engagement of law firms with vast experience in similar cases in the United States and Brazil ("Expert Firms") to conduct an independent internal investigation into the allegations mentioned above ("Investigation"). Through said Expert Firms, Braskem voluntarily contacted the agencies regulating the capital markets in Brazil (Securities and Exchange Commission of Brazil - CVM) and the United States (Securities and Exchange Commission – SEC), as well as the U.S. Department of Justice – DoJ, to advise them of the launch of the Investigation.

The Expert Firms report directly to an Ad Hoc committee of the Board of Directors of the Company and to the applicable authorities. The Company, through the Expert Firms, has maintained frequent contact and cooperated with said authorities. The cooperation of the Company with said authorities included voluntarily producing documents, responding to requests for documents, including formal requests by the SEC (subpoena) in February and July 2016, as well as an official request by the Office of the Federal Controller General in July 2016. In this context, the Company will begin dialogues with the DoJ and the SEC to clarify additional allegations of unlawful acts arising in connection

with the investigations involving third parties. The future flow of information between the Company, the DoJ and the SEC, as well as any information obtained during the Investigation but not yet verified by the Expert Firms, may confirm the allegations of said unlawful acts.

At this time, the Company is unable to measure the extent to which the confirmation of said allegations, any parallel investigations or any agreement with the applicable authorities may impact the Company and the resources needed to remedy such matters. The Company cannot predict the actions that the applicable authorities in Brazil and abroad may take on this matter, but the range of possibilities includes fines and lawsuits against the Company or even against its current or former officers, directors and employees.

Therefore, the confirmation of the abovementioned allegations, any parallel investigations, or any agreements entered into with the applicable authorities may have a material adverse effect on the business, reputation, financial situation and results of operations of the Company, as well as on the liquidity and trading price of its securities.

The financial exposure to which the Company may be subject includes the payment of fines and the obligation to compensate third parties and, to the extent permitted by law, the current and former officers, directors and employees against losses incurred as a result of the facts, whose value cannot be measured. Moreover, adverse publicity associated with all these facts could have a material adverse effect on the Company's business, including a decrease in the demand for its products, among other effects that cannot be determined or estimated at this time.

Also in connection with Operation Car Wash, the Company cannot predict whether and how the investigations, or any decision or action by authorities involving the majority shareholders of Braskem, Odebrecht S.A. and Petróleo Brasileiro S.A. – Petrobras, or any of their subsidiaries, could affect the Company.

If any fines and/or other sanctions are imposed by the authorities with jurisdiction over the Company and others involved, at this time, neither the Management nor its legal counsel and Expert Firms have sufficient information to reliably estimate the potential losses to be recorded and, therefore, based on current accounting practices, no provision has been recorded in this Quarterly Financial Information.

The management of the Company is committed to taking all necessary measures to clarify the facts and will keep the market informed of any developments in this matter.

(b) Class actions

A class action has been filed with the U.S. courts by the Boilermaker-Blacksmith National Pension Trust, as Lead Plaintiff, alleging that the Company has made misrepresentations and/or omissions in certain filings at the SEC that allegedly concealed the existence of improper payments. The Company engaged an expert U.S. law firm to represent it and filed its initial defense (motion to dismiss) on July 6, 2016.

The Company cannot predict the outcome of this process. The Company may be cited as defendant in other lawsuits. Furthermore, the Company may be required, to the extent permitted by law, to indemnify directors, officers and employees who are defendants in lawsuits such as these. Such lawsuit has demanded significant time and dedication from the Management of the Company. Moreover, the Company may also incur financial obligations that could have a material adverse effect on its businesses, reputation, financial situation and results of its operations, as well as on the liquidity and trading price of its securities.

(c) Labor

(c.1) The labor action disclosed in Note 23 (a.i) of the 2015 financial statements ended after the payment made under a settlement between the parties.

(c.2) In the class action suits filed by the Trade Union of Petrochemical and Chemical Workers of Triunfo, Rio Grande do Sul, in the third quarter of 2010, claiming the payment of overtime related to breaks during work shifts ("Breaks") and the inclusion of overtime in the calculation of the weekly remunerated rest ("WRR"), in the restated amount of R\$377,560, the following developments occurred in the period: (i) Breaks: the Superior Labor Court ("TST") upheld the appeal by Braskem to eliminate breaks during work shifts, with the Trade Union filing an appeal at the TST, which rejected the appeal and handed down a final and unappealable decision in favor of Braskem. The amount of this suit is R\$332,640; and (ii) WRR: judgment for plaintiff in the suit involving the inclusion of overtime in the calculation of the weekly remunerated rest, which was upheld by the Regional Appellate Labor Court ("TRT"), for which Braskem appealed to the TST, which ordered the case to be sent back to the TRT for a new trial. However, as the TRT did not judge on the merits, Braskem appealed once again to the TST. After examining the appeal, the TST handed down a new decision granting the claim. Braskem will enter into motion for clarification and special appeal at the Supreme Court ("STF"). The amount of this suit is R\$44,920.

No judicial deposit or other form of security was made for these suits.

The description of the main contingent liabilities of the Company was presented in the 2015 annual financial statements, in Note 23.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
