## Report on review of interim financial information

To Shareholders, Members of the Board and Management

Braskem S.A.

Camaçari - Bahia

### Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Braskem S.A. (the "Company") included in the Quarterly Financial Information for the quarter ended September 30, 2016, which comprises the balance sheet as of September 30, 2016, the statements of profit or loss and comprehensive income for the three-month and nine-month periods then ended, changes in equity and cash flows for the nine-month period then ended, and notes to the interim financial information.

Management is responsible for the preparation and presentation of this individual interim financial information in accordance with CPC 21(R1) Technical Pronouncement - Interim Financial Reporting and the consolidated interim financial information in accordance with CPC 21(R1) and international standard IAS 34 - *Interim Financial Reporting*, issued by the *International Accounting Standards Board* - IASB, as well as for the presentation of this quarterly information in accordance with the standards issued by CVM - Brazilian Securities and Exchange Commission, applicable to the preparation of interim financial information. Our responsibility is to express a conclusion on this interim financial information based on our review.

### Scope of review

We conducted our review in accordance with Brazilian and international review standards applicable to interim financial information (NBC TR 2410 - *Review of Interim Financial Information Performed by the Independent Auditor of the Entity* and ISRE 2410 - *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

**Conclusion on the individual interim financial information**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual interim financial information referred to above is not prepared, in all material respects, in accordance with CPC 21(R1) applicable to the preparation of interim financial information and presented in accordance with the standards issued by CVM - Brazilian Securities and Exchange Commission.

---

### **Conclusion on the consolidated interim financial information**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information referred to above is not prepared, in all material respects, in accordance with CPC 21(R1) and IAS 34, issued by the IASB, applicable to the preparation of interim financial information and presented in accordance with the standards issued by CVM - Brazilian Securities and Exchange Commission.

### **Emphasis of a matter**

The Notes 2.4 and 19 (a), (b) and (c) to the interim financial information disclose that, as a result of the progress in the investigation process of the operation called “Lava Jato”, specialized law firms identified that the Company made, during the years from 2011 to 2014, payments for the services of companies located abroad, without evidence of the effective delivery of such services, which resulted in tax adjustments to the interim financial information in the amount of R\$ 284,641 thousand. They also disclose that, due to the matters that are under independent internal investigation, negotiations with the competent authorities are in progress, among which are the Department of Justice (DoJ) and the Securities and Exchange Commission (SEC), and the class action filed in the US Courts. Considering the current stage of this matter, it is not possible for the Company to reliably estimate the potential losses to be recorded in view of these negotiations and the class action, and, accordingly, no provision was recorded in the interim financial information. Our conclusion is not qualified in respect of this matter.

### **Other matters**

### **Statements of value added**

We also reviewed the individual and consolidated statements of value added for the nine-month period ended September 30, 2016, prepared under the responsibility of the Company's management, whose presentation on the interim financial information is required under the standards issued by CVM - Brazilian Securities and Exchange Commission applicable to the preparation of Interim Financial Information and considered as additional information by IFRS, which do not require the presentation of the statement of value added. These statements have been submitted to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that the accompanying statements of value added are not prepared, in all material respects, in accordance with the individual and consolidated interim financial information taken as a whole.

**Braskem S.A.**

**Notes to the financial statements**

**at September 30, 2016**

**All amounts in thousands, unless otherwise stated**

**1. Operations**

Braskem S.A. (hereinafter “Parent Company”) is a public corporation headquartered in Camaçari, Bahia (“BA”), which jointly with its subsidiaries (hereinafter “Braskem” or “Company”) is controlled by Odebrecht S.A. (“Odebrecht”), which directly and indirectly holds interests of 50.11% and 38.32% in its voting and total capital, respectively.

**(a) Significant operating event which impacted these financial statements**

In December 2015, began the start-up process of the petrochemical complex of Braskem Idesa S.A.P.I (“Braskem Idesa”) in Mexico, putting into operation the utilities area, followed by the cracker in March 2016. In April, it produced the first lot of polyethylene (“PE”). The complex houses a gas-based ethylene cracker and three polyethylene plants – two high-density and one low-density - with combined annual production of capacity of 1.05 million tons\* of PE.

Braskem holds 75% indirect interest in Braskem Idesa and the remaining 25% pertains to Etileno XXI, S.A. de C.V.

*\* not reviewed*

**(b) Net working capital**

On September 30, 2016, net working capital at the Parent Company was negative R\$5,610,939 (negative R\$5,607,672 on December 31, 2015). On the other hand, consolidated net working capital was positive R\$3,479,569 (positive R\$578,045 on December 31, 2015). The consolidated figures are used in the management of working capital, since the Company uses mechanisms to transfer funds between the companies efficiently without jeopardizing the

fulfillment of the commitments of each of the entities forming the consolidated statements. For this reasons, any analysis of the Parent Company's working capital will not reflect the actual liquidity position of the consolidated group.

## **2. Summary of significant accounting policies**

There were no changes in the accounting practices used in the preparation of the Quarterly Information in relation to those presented in the December 31, 2015 financial statements.

### **2.1. Basis of preparation**

This Quarterly Information includes the nine-month period ended September 30, 2016 and should be read together with the financial statements of Braskem as of December 31, 2015, which were prepared and presented in accordance with accounting practices adopted in Brazil, including the pronouncements issued by the Brazilian Accounting Pronouncements Committee (CPC), and in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB).

The preparation of the Quarterly Information requires the use of certain critical accounting estimates. It also requires the Management of the Company to exercise its judgment in the process of applying its accounting policies. There were no significant changes in the assumptions and judgments made by the Company's management in the use of estimates for the preparation of the Quarterly Information in relation to those used in the December 31, 2015 financial statements.

**Braskem S.A.**

**Notes to the financial statements**

**at September 30, 2016**

**All amounts in thousands of reais, unless otherwise stated**

The main transactions with related companies in the period ended September 30, 2016, except for those with subsidiaries of the Company, were:

- (i) In February 2016, an agreement was extended with Petrobras for the sale of aliphatic solvent, under the same terms and conditions as the agreement signed in July 2015, with duration to March 2017.
- (ii) In March 2016, an agreement was entered into with Usina Conquista do Pontal S.A., with Agro Energia Santa Luzia S.A. and with Odebrecht Agroindustrial Participações S.A. to ensure the continued supply of hydrous ethanol to the Company, with technical flexibilities and differentiated commercial conditions, through an advance duly restated by the market rate and guaranteed by Odebrecht S.A. The Companies that are parties to the agreement are indirectly controlled by Odebrecht S.A. The price of hydrous ethanol is based on the Monthly Rate published by the Luiz de Queiroz College of Agriculture (ESALQ) Hydrous Fuel – São Paulo, in R\$/liter, of the reference month and with a discount. The agreement has an estimated maximum amount of R\$305,000 and is valid through April 30, 2017.
- (iii) In March 2016, an agreement was entered into with Refinaria de Petróleo Rio Grandense S.A. (“RPR”) for the acquisition of gasoil from RPR to be used as feedstock in the diesel oil production process, which is renewed on a monthly basis. The amount accrued in the period is R\$72,488.
- (iv) Since March 2016, Braskem maintains agreements for the sale of gasoline to RPR, which is renewable on a monthly basis. In the nine-month period, the amount accrued is R\$194,043.
- (v) Since June 2016, Braskem maintains agreements for the sale of gasoline to Petrobras Distribuidora, a wholly-owned subsidiary of Petrobras, which is renewable on a monthly basis. In the nine-month period, the amount accrued is R\$257,392.
- (vi) In June 2016, an agreement was renewed with Transpetro, a subsidiary of Petrobras, for the acquisition of naphtha and condensate handling and storage services by Braskem’s Basic Petrochemicals Unit, which is located in the Industrial Complex of Triunfo. The renewal is worth an estimated R\$8 million and is valid through December 2016.
- (vii) In July 2016, a service agreement was executed by Cetrel S.A. (“Cetrel”) to treat wastewater produced by the Braskem industrial units located in the Camaçari Petrochemical Complex. The agreement has an estimated maximum amount of R\$77.000 and is valid through December 31, 2019.
- (viii) In August 2016, an agreement was signed with Santo Antônio Energia S.A., an indirect subsidiary of Odebrecht, to acquire electricity for Braskem industrial units. The agreement has an estimated maximum value of R\$13 billion and is valid for 13 years as of January 1, 2017.

**14. Financial instruments**

The information related to financial instruments was presented in the 2015 financial statements of the Company, in Note 16.

**14.1. Fair value hierarchy**

Level 1 – fair value obtained through prices quoted (without adjustments) in active markets for identical assets or liabilities, such as the stock exchange;

Level 2 – fair value obtained from financial models using directly observable market data, such as discounted cash flow, when the instrument is a forward purchase/sale or a swap contract, or such as the Black-Scholes model, when the instrument has the characteristics of an option.

To measure the credit risk of the parties involved in derivative instruments, Braskem uses CVA (Credit Valuation Adjustment) or DVA (Debt Valuation Adjustment) models, applied flow by flow on the mark-to-market value of each instrument. The Company adopts the ratings of the other parties for positive flows and its own rating for negative flows, both available in the market and disclosed by renowned rating agencies, as a necessary assumption to define the probability of default.

**14.2. Non-derivative financial instruments – consolidated**

The following table shows the financial instruments movement in the period designated for this hedge:

				<b>US\$</b>
	<b>Dec/2015</b>	<b>Exports in the period</b>	<b>Hedge discontinued</b>	<b>Sep/2016</b>
Designated balance	6,757,231	(628,538)	(620,321)	5,508,373

On September 30, 2016, the maturities of financial liabilities designated, within the scope of the consolidated balance sheet, were as follows:

	<b>Total nominal value US\$</b>
2016	403,076
2017	718,736
2018	1,145,149

2021	1,017,703
2022	519,837
2024	688,854
	<b>5,508,373</b>

Considering the strong cash generation in recent quarters, the Management of the Company believed it was appropriate to advance the payment of dollar-denominated obligations, among which liabilities designated for this hedge. As a result of the decision, the amount of US\$620,321 was discontinued prospectively. Exchange variation on the discontinued amount, of R\$761,733, which is recorded under Shareholders' Equity as "Other comprehensive income" will be taken to net financial income (expenses) as of October 2016, as the hedged exports are realized.

**14.6. Sensitivity analysis**

Financial instruments, including derivatives, may be subject to changes in their fair value as a result of the variation in commodity prices, foreign exchange rates, interest rates, shares and share indexes, price indexes and other variables. The sensitivity of the derivative and non-derivative financial instruments to these variables are presented below:

**(a) Selection of risks**

On September 30, 2016, the main risks that can affect the value of Braskem's financial instruments are:

- Brazilian real/U.S. dollar exchange rate;
- Brazilian real/Mexican peso exchange rate;
- Libor floating interest rate;
- Selic interest rate;
- CDI interest rate; and
- TJLP interest rate.

For the purposes of the risk sensitivity analysis, Braskem presents the exposures to currencies as if they were independent, that is, not reflecting in the exposure to a foreign exchange rate the risks of the variation in other foreign exchange rates that could be directly influenced by it.

**(b) Value at risk**

The value at risk of the derivatives held by Braskem which is defined as the loss that could result in one month as from September 30, 2016, with a probability of 5%, and under normal market conditions, was estimated by the Company at US\$33,289 for the NCE exchange rate swap (Note 14.3.1(b.i)) and at US\$12,523 for the swap of Libor related to Braskem Idesa's project (Note 14.3.1 (b.ii.i)).

**Notes to the financial statements**

**at September 30, 2016**

**All amounts in thousands of reais, unless otherwise stated**

**(c) Selection of scenarios**

**(c.1) Probable scenario**

The *Market Readout* published by the Central Bank of Brazil was used to create the probable scenario for the U.S. dollar/Brazilian real exchange rate, Selic basic interest rate and the CDI interest rate, using the reference date of September 30, 2016. According to the Market Readout, at the end of 2016, the U.S. dollar will appreciate by 1.04% against the Brazilian real, compared to the closing PTAX rate at September 30, 2016, while the Selic rate will be 13.75% p.a. The Selic rate is used as a reference for analyses of sensitivity to the CDI.

The probable scenario for the TJLP is an increase of 0.50% from the current rate of 7.5%, in line with the size of the government's most recent decisions to increase or decrease the rate. The Market Readout does not publish forecasts for the Libor interest rate. Therefore, to determine the probable scenario, Braskem considered a 5% increase on current market levels.

**(i) PIS and COFINS**

The Federal Revenue Service inspected the Company and its subsidiary Braskem Petroquímica between 2006 and 2011 and disallowed a part of the non-cumulative PIS and COFINS credits appropriated, due to: (i) differences between the amounts reported in the Statement of Calculation of Social Contributions (“DACON”) and those in the electronic files of tax invoices; (ii) amounts not recorded in the interim balance sheets, acquisitions not taxed for contributions, recording of a credit on a portion of IPI, failure to submit tax documents; and (iii) nonpayment of amounts stated as due in DACONs/Statements of Federal Tax Debits and Credits (“DCTF”).

The related contingencies were initially diagnosed with chances of possible success. However, this estimate was altered due to the weaknesses identified, validated both internally by the Company and by external lawyers and confirmed by external audit, so there is no justification for the differences mentioned by the federal tax authorities.

For this reason, the Company recorded a provision of R\$47,914, considering that a favorable outcome is now deemed remote after exhaustion of analyses for defense.

**19. Contingencies**

The description of the main contingent liabilities of the Company was presented in the 2015 annual financial statements, in Note 23.

**(a) Reports of irregularities**

Braskem and its subsidiaries are subject to a number of anti-corruption laws in the countries where they operate, including Federal Law 12,846/2013, or the Brazilian Anticorruption Law, which came into force on January 28, 2014, and the U.S. Foreign Corrupt Practices Act (FCPA).

In March 2015, in connection with the so-called Operation Car Wash, certain allegations made by defendants in judicial proceedings were made public, according to which Braskem was allegedly involved in illegal payments related to feedstock supply agreements entered into with Petrobras.

In light of said facts, the Company immediately approved the engagement of law firms with extensive and proven experience in similar cases in the United States and Brazil ("Expert Firms") to conduct an independent internal investigation into the allegations cited above ("Investigation"), under the supervision of the U.S. Department of Justice (DoJ) and of the U.S. Securities and Exchange Commission (SEC).

Since then, the Company has been fully cooperating with the authorities, including in relation to the formal requests made by the SEC (subpoena) in February and July 2016, and by Brazil's Office of the Federal Controller General (CGU), also in July of this year.

As the process advanced, the Company became aware of new reports of irregularities, which are being investigated by the Expert Firms, in cooperation with the applicable authorities. In parallel, the Company decided to open negotiations with the DoJ, SEC and authorities in Brazil, through which it hopes to reach an agreement to resolve such allegations and reports of irregularities.

During the Investigation, the Expert Firms identified payments for services to third parties without corresponding evidence of the service being rendered.

**Braskem S.A.**

**Notes to the financial statements**

**at September 30, 2016**

**All amounts in thousands of reais, unless otherwise stated**

With the exception of the amount cited in Note 19(b), the Company cannot measure at this time the extent of the financial and non-financial impacts potentially arising from the confirmation of the allegations and reports of irregularities, any parallel investigations or the execution of an agreement with the competent authorities, or the resources that would be required to remedy such occurrences. The Company also cannot predict or measure the impacts from any measures that the competent authorities in Brazil and abroad may take, which could include the payment of fines and damages to third parties, the filing of lawsuits against the Company or the appointment of an independent monitor to supervise the Company's compliance with the agreement.

Confirmation of the aforementioned allegations and reports of irregularities, any parallel investigations or any agreements entered into with competent authorities in Brazil or abroad may have a material adverse effect on the business, reputation, financial situation and operational result of the Company, as well as on the liquidity and price of its securities. Furthermore, the negative publicity stemming from all these facts could have a material adverse impact on the Company's businesses, including reducing the demand for its products and other effects that currently cannot be estimated or measured.

Also in connection with Operation Car Wash, the Company cannot predict the impacts on the Company of the investigations or any decision or action by authorities involving the majority shareholders of Braskem, namely Odebrecht S.A. and Petróleo Brasileiro S.A. – Petrobras, or any of their subsidiaries.

If any fines and/or other sanctions are imposed by the competent authorities and others involved, at this time, neither Management nor its legal counsel and Expert Firms have sufficient information to reliably estimate the potential losses to be recorded and, therefore, based on current accounting practices, no provision was recorded in this Quarterly Information in addition to the amounts of the fiscal contingency mentioned in Note 19(b).

Based on the current stage of the investigation, on information available and on the statements made by the attorneys, no other items were identified that could require material adjustments to the financial statements, unless as a result of any agreement with the competent authorities.

The Management of the Company will continue to adopt the necessary measures to clarify the facts, in cooperation with Brazilian and foreign authorities, and will maintain the market informed of any developments regarding this matter.

**(b) Tax adjustments**

Although the payments identified in Note 19(a) are still under investigation, the Company recognized errors in the determination of taxes from prior periods and recorded a fiscal contingency of R\$284,641, of which R\$166,568 corresponded to taxes not paid in the last 5 years, R\$87,805 corresponded to fines and adjustments for inflation (variation in the SELIC rate) and R\$30,268 corresponded to a reduction in deferred Income and Social Contribution taxes on tax losses and social contribution tax loss carryforwards.

This contingency is presented as follows: (i) R\$235,622 corresponding to taxes payable and deferred taxes, interest on arrears and restatement at the SELIC rate from October 2011 to December 2014, in the opening balance of the line "Retained earnings" of the Statement of Changes in Shareholders' Equity for the period from January 1, 2015 to September 30, 2015; (ii) R\$6,129 and R\$16,603 corresponding to the restatement at the SELIC rate of taxes payable in the three- and nine-month periods to September 2015, respectively, under the line "Financial expenses" of the Statement of operations; (iii) R\$4,352 and R\$16,160 corresponding to the restatement at the SELIC rate of taxes payable in the three- and nine-month periods to September 2016, respectively, under the line "Financial expenses" of the Statement of operations. The Balance sheet as of December 31, 2015 includes: (i) reduction of deferred Income and Social Contribution taxes on tax losses and social contribution tax loss carryforwards, in the amount of R\$10,253; and (ii) restatement of taxes payable at the SELIC rate, through said date, in the amount of R\$22,606. The statements of Cash Flows and Value Added reflect all of these impacts.

These tax adjustments should not be used as the basis for determining the amount of any agreement with authorities, which would be based on specific criteria.

**(c) Class actions**

A class action has been filed in the U.S. courts by the Boilermaker-Blacksmith National Pension Trust, as Lead Plaintiff, alleging the Company has made misrepresentations and/or failed to disclose through certain SEC filings the existence of unlawful payments. The Company has engaged an expert U.S. law firm to represent it and filed motion to dismiss on July 6, 2016 which, after response from the plaintiffs, is currently waiting for the judge's decision.

The Company cannot foresee the outcome of this process. The Company may be cited as defendant in other legal actions. Furthermore, the Company may be required, observing the legal and regulatory limits, to indemnify directors, officers and employees that are defendants in actions of this nature. Said action has required significant time and dedication of the Management of the Company. The Company may also incur financial obligations that may have a material adverse impact on its business, reputation, financial condition and the results of its operations, as well as liquidity and price of its securities.

**(d) Labor**

**(d.1)** The labor action disclosed in Note 23 (a.i) of the 2015 financial statements ended after the payment made under a settlement between the parties.

**(d.2)** In the class action suits filed by the Trade Union of Petrochemical and Chemical Workers of Triunfo, Rio Grande do Sul, ("SINDIPOLO") in the third quarter of 2010, claiming the payment of overtime related to breaks during work shifts ("Breaks") and the inclusion of overtime in the calculation of the weekly remunerated rest ("WRR"), in the restated amount of R\$377,560, the following developments occurred in the period: (i) Breaks: the Superior Labor Court ("TST") upheld the appeal by Braskem to eliminate breaks during work shifts, with the Trade Union filing an appeal at the TST, which rejected the appeal and handed down a final and unappealable decision in favor of Braskem. The amount of this suit is R\$332,640; and (ii) WRR: judgment for plaintiff in the suit involving the inclusion of overtime in the calculation of the weekly remunerated rest, which was upheld by the Regional Appellate Labor Court ("TRT"), for which Braskem appealed to the TST, which ordered the case to be sent back to the TRT for a new trial. However, as the TRT did not judge on the merits, Braskem appealed once again to the TST. After examining the appeal, the TST handed down a new decision granting the claim. Braskem will enter into motion for clarification and special appeal at the Supreme Court ("STF"). Before the last recent decision of TST, Braskem reclassified a part of the suit to remote and recorded a provision of R\$24,133, based on the presentation of a provisional implementation by the SINDIPOLO in September 2016. The amount of this suit is R\$44,920.

No judicial deposit or other form of security was made for these suits.

### FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
