2Q18

CSN´s consolidated result

- In the 2Q18, **net revenue** totaled R\$5,687 million, an increase of **12%** and **32%** compared to the 1Q18 and 2Q17, respectively. The improvement in performance compared to the 1Q18 was due to the increase in steel product prices, increase in volumes and prices in the mining segment and expansion of the railway logistics, cement and energy segments.
- In the 2Q18, **cost of sales** totaled R\$4.124 million, an increase of **12%** compared to the 1Q18, due to the larger volume of sales in the period and increase in raw material prices (coal and coke) as a result of the US dollar appreciation against Brazilian real, as well as increase in general manufacturing costs.
- In the second quarter of 2018, **gross profit** totaled R\$1,563 million, a significant increase of **59%** compared to the 2Q17, and increase in gross margin by 4.7 p.p. against the same comparison basis, from 22.8% to 27.5%, due to the recovery of the steel and mining margin.
- In the 2Q18, **general and administrative expenses** totaled R\$113 million, a decrease from **2.5% (2Q17) to 2.0% (2Q18)** of net revenue. **Selling expenses** totaled R\$470 million, or 8.3% of net revenue, a reduction of **2.8 p.p.** compared to the 2Q17 (11.1% of net revenue).
- In the 2Q18, **other net income** totaled R\$542 million arising mainly from the gain on the sale of CSN LLC (R\$1,150 million), partially compensated for the depreciation of Usiminas' shares in the period, representing a loss of R\$516 million at fair value through profit or loss.
- In the 2Q18, **net financial result**, totaled R\$989 million. **Financial expenses (ex-exchange variation)** continue to decrease, by virtue of the decrease in Selic rate, generating a **reduction of R\$195MM** compared to the 2Q17. Monetary and exchange variations were strongly impacted by exchange variation in the period, generating a negative

amount of R\$ 1,905 million, with the increase in *hedge accounting* positions softening the final result.

- **Adjusted EBITDA** totaled **R\$1,420 million**, compared to R\$1,242 million in the 1Q18, an increase of 14% due to an improvement in all segments. **Adjusted EBITDA margin reached 23.9%**, an increase of 0.4 p.p. compared to the previous quarter.

Adjusted EBITDA margin is calculated based on Adjusted EBITDA divided by Adjusted net revenue, which includes 100% stake in CSN Mining, 37.27% in MRS and 50% in CBSI, beginning December/15.

Free Cash Flow

In **2Q18**, generation of operating cash, measured by Free Cash Flow, was R\$ 1,598 million, influenced by the sale of LLC. Considering only the recurring operation, R\$ 73MM was generated in the period, due to the negative variation of working capital, impacted by higher inventories. In the last 12 months, recurring Free Cash Flow reached R\$ 1,395 million.

Debt

In June 30, 2018, adjusted net debt totaled R\$27,125 million, while net debt/EBITDA ratio, calculated based on the adjusted EBITDA for the last twelve months, reached 5.34x. In the quarter, the deleveraging effects from the increased EBITDA LTM, in addition to the sale of LLC, reduced the net debt/EBITDA ratio by 0.8x. However, these effects were partially offset by the exchange rate changes on the debt, representing a final reduction of 0.48x.

Foreign exchange exposure

The net foreign exchange exposure of the consolidated balance sheet was US\$1,035 million as at June 30, 2018, as shown in the table below. It should be noted that within the net foreign exchange exposure, a liability of US\$1.0 billion is included in line item “Borrowings and financing” related to the perpetual bond, which, due to its nature, will not require disbursement for settlement of the principal amount in the foreseeable future.

The hedge accounting adopted by CSN correlates the projected export inflow in US dollars with part of the scheduled debt payments in the same currency. As a result, the exchange rate changes in the US dollar-denominated debt is temporarily recorded in equity and subsequently recorded in profit or loss when revenues in US dollars from exports occur. In this quarter, the increased number of US debt instruments designated as hedge accounting, increased with additional export volumes, mitigated further volatility.

2Q18

CSN's Mining Results

In the **2Q18**, the steel production in China was 238 Mt, reaching a record quarterly production and representing an increase of 13% compared to 1Q18. However, the cut in production of sintering and trade tensions have negatively impacted prices. In this regard, **iron ore price ratio in the 2Q18 reached US\$65.35/dmt (Platts, Fe62%, N. China), on average, a decrease of 12% compared to the 1Q18**. The US dollar variation between the periods was 11.1%, which offset, in domestic currency, the decrease in iron ore prices.

The drop in the overall supply of **high silica ore** resulted in a **strong reduction of 50% in the market discount of this impurity in 2Q18**, compared to the 1Q18.

In regards to **maritime freight**, the BCI-C3 (Tubarão-Qingdao) route reached an average of US\$17.41/wmt in the **2Q18, an increase of 16%** compared to the prior quarter driven by higher transoceanic volumes and superior oil prices.

- In the **2Q18, iron ore production totaled** 6.7 million tons, an increase of 10% compared to the 1Q18, mainly due to the mining plan, lower rainfall index of the period and efforts to mitigate the restrictions imposed by the truck drivers' strike. **Iron ore purchases** totaled 1,878 thousand tons in the **2Q18**, an increase of 26% compared to the 1Q18.
- **Iron ore sales** totaled 8.1 million tons in the **2Q18**, an increase of 9% compared to the 1Q18, out of which 1.4 million tons were sold to Presidente Vargas Plant (+5%).

In the **2Q18**, **mining net revenue** totaled R\$1,331 million, an increase of **16%** compared to the immediately prior quarter due to the decrease in sales volumes (+9%) and appreciation of the US dollar against Brazilian real. The CIF + FOB unit revenue in the **2Q18** totaled **US\$56.8/wmt**, an increase of 2% compared to the prior quarter, due to improved quality and higher demand for low alumina products.

- **Mining sales cost** totaled R\$855 million in the **2Q18**, an increase of 7% compared to the 1Q18, due to the increase in the sales volume in the period (+9%).
