FIRST QUARTER 2009 CONSOLIDATED RESULTS

May 08, 2009 – VIVO Participações S.A. announces today its consolidated results for the first quarter 2009 (1Q09) and for year 2008. The Company’s operating and financial information is presented in Brazilian Reais in accordance with Brazilian Corporate Law, and the comparable figures refer to the first quarter 2008 (1Q08), except as otherwise mentioned.

Translating into practices its new positioning, summarized under the expression “Vivo – Connection Like Any Other Available”, Vivo makes every effort to be the best option among all the mobile telephone operators in Brazil. The nationwide coverage, achieved after the beginning of the operations in the states of Alagoas, Rio Grande do Norte and Piauí, the largest WCDMA coverage in Brazil, present in 399 municipalities, the efficiency and quality of its network, the best service plans and a complete portfolio of handsets, are some of elements which express the Company’s commitment to enable people to connect themselves each time more, at any time, in any place. This is the way how Vivo has managed to ensure sustainable results and reaffirm its market leader position.

HIGHLIGHTS

- In March, **Vivo’s customer base** reached 45,641 thousand customers, with a 29.7% market share, reaffirming its **leadership** in the domestic market;
- The customer base grew 19.1% in the quarter as compared to the same period of last year;
- Worthy of mention is the **20.4% growth in the post-paid customer base** in 1Q09 over 1Q08, with a share of net adds in the quarter of 67%, in this segment, thus improving the mix;
- In 1Q09, Vivo managed to attract 696 thousand new customers, with 23.0% in share of **net additions**;
- In March 2009, the **3G WCDMA** network already served 399 **municipalities** with this technology;
- The **GSM/WCDMA operation achieved more than 33.3 million** accesses, representing 73.1% of the total customer base;
- **Net Service Revenue** of R\$3,669.7 million, an increase of 21.4% over 1Q08 according to the corporate law and 9.6% in the combined basis over the same period of last year;
- Self-supported **data and VAS revenue**, which grew 29.0% and 16.6% in the comparison with 1Q08 and 4Q08, respectively, representing 12.1% of the net service revenue;
- **ARPU** of R\$ 27.0 in the quarter, a reduction of 8.5% in relation to 1Q08, despite the 19.1% increase in the customer base in the last 12 months;
- **EBITDA margin** in the quarter of 29.9%, **a growth of 1.0 percentile point** over 1Q08, in a comparison pursuant to the Brazilian corporate law. **EBITDA** reached R\$ 1,203.9 million in the quarter, a growth of 25.2% in comparison with 1Q08, pursuant to the Brazilian corporate law;
- The **provision for doubtful accounts** was R\$ 77.6 million in the quarter, representing 1.4% of the gross revenue, a reduction of 13.8% in relation to 1Q08;
- **Net profit** of R\$ 123.5 million in the quarter, 26.5% higher than the figure recorded for 1Q08;

- The **net debt** recorded the amount of **R\$ 5,579.5 million** in 1Q09, due to investments made along the year, mainly for acquisition of licenses and of Telemig Celular Participações and payment of Fistel fee.

Market Cap R\$ 11,279 million as of 03/31/2009

Basis for presentation of results

Figures disclosed are subject to differences, due to rounding-up procedures. Information for 1Q08 was prepared in combination with the results of Telemig Celular Participações, thus allowing comparison with the current quarter results, in which Telemig data is already consolidated and, whenever applicable, re-classified. Worthy of mention that 1Q08 figures are positively impacted by the R\$240 million of ICMS tax reversal in Telemig.

Investments (CAPEX)

Investments in the GSM and WCDMA/HSUPA network, resulting in coverage and quality

The expenditures were intended for ensuring continued quality of the network in order to support the accelerated growth Vivo has been experiencing, the increase of the GSM/EDGE capacity and the continued expansion of the WCDMA/HSUPA network, in addition to meeting the coverage goals set forth by Anatel. The Company closed 1Q09 with coverage in 3,119 municipalities, reaching more than 84% of the Brazilian

leadership.

population. CAPEX in 1Q09 represents 13.5% of the net revenue. The coverage of 399 municipalities with 3.5G consolidates its leadership in this technology.

Cash and Equivalents at the beginning	2,182.9	1,913.7	2,921.6
Cash and Equivalents at the end	1,737.3	2,182.9	3,125.2

Operational cash generation.

In 1Q09 we generated R\$ 619.3 million of operating cash, most of which was used for defraying payments (R\$ 540.7 million) arising out of investments effected. The cash balance remaining after the investment activities (R\$78.6 million) together with the available cash was used to pay debts as well as to effect payment of dividends and

interest on the own capital.

In the comparison with 4Q08, a reduction in the operating cash was recorded as a result of the payment of the Installation and Inspection Fee (TFF) occurred on March 31, 2009. Such reduction was followed by an higher reduction in investment activities, causing the Cash Flow After Investment Activities to increase by R\$11.1 million.

In the comparison with 1Q08, an increase of R\$338.3 million was recorded in cash generated by operating activities. Although the result has decreased in the period, due to the extraordinary recovery of the ICMS tax effected in 1Q08 by Telemig, the increased cash generation occurred mainly because of an higher reduction in inventory and increased use of tax credits occurred in 1Q09.

OPERATING HIGHLIGHTS

Growth focused on valuing the customer base.

- Vivo's customer base at the end of 1Q09 recorded **45,641 thousand customers**, of which more than 33.3 million in GSM/WCDMA technology. The competitive position, the quality leadership and the portfolio of plans and handsets, in addition to the promotions implemented and the efforts to value the customer base contributed to such growth, keeping Vivo in a leadership position, with 29.7% market share at the end of the quarter.
- **Net additions** in 1Q09 totaled **696 thousand new customers**, with a share of net additions of 23.0%. Activations in GSM and WCDMA technology, which represent 94.1% of total activations, contributed to a consistent, self-sustainable and profitable growth, as from a segmented and qualified selection of prospects and customers in all income classes. Being positioned as the best choice in telephone services and best quality, the Company has kept its focus on attracting and retaining customers, maintaining rationality and seeking positive results. Worthy of mention is the growth of 20.4% in the post-paid customer base, reaching a share of net addition of 67% in the quarter.

SAC of R\$97 in the quarter due to foreign exchange devaluation.

- **SAC** of R\$ 97 in 1Q09 increased by 10.2% in relation to 1Q08 and by 31.1% in relation to 4Q08. The growth recorded in the quarter is due, mainly, to the foreign exchange devaluation and by the appropriation of the fixed cost of publicity to a lower number of units sold. The efficiency of the owned shops and a greater participation of SIM CARDS in the GSM technology contributed to minimize such effect.

Churn of 2.4% in the quarter, with a drop of 0.4 p.p. in relation to 1Q08.

- **Churn** of 2.4% in the quarter, with a reduction of 0.4 percentile points in relation to 1Q08, and a reduction of 0.1 percentage points in relation to 4Q08, remains relatively stable, reflecting Vivo's success in its efforts to retain customers. Even though with more aggressive competition, portability and acquisition actions focused on chip sets (SIM cards), Vivo has managed to keep this indicator under control thanks to segmented actions.

The Reward Program has continued to be strongly used in the exchange of handsets and in the shielding of the customer base, being consolidated as the main relationship tool as regards post-paid customers. Worthy of mention is the "Highly, Highly, Highly Rewarded Recharge" campaign, which distributes rewards to all pre-paid customers effecting recharges, regardless of the value thereof, upon free-of-charge registration and accrual of coupons at each R\$3.00 recharge. Launched on January 18th, the campaign was effective until early April.

With the beginning of the operations in the states of Alagoas, Rio Grande do Norte and, in April, in Piau – the last Northeast states to be covered by Vivo network – the Company started operating all over Brazil increasing the competitiveness and quality of the offers.

Growth of the customer base diluted the ARPU.

- The **ARPU** of R\$ 27.0 in the quarter recorded a reduction of 8.5% in relation to 1Q08, despite the 19.1% increase in the customer base in the last 12 months.

When compared to 4Q08, the ARPU decreased by 7.2% due to the seasonality between the periods.

- Despite this reduction, increase in the average recharge per customer and growth of 10% in data ARPU year over year and 13.8% quarter over quarter. This result is mainly due to the use of SMS/MMS and internet services (WAP + internet 3G and e-mailing).
- The outgoing ARPU has grown more than the incoming ARPU, constantly decreasing the dependence on the revenue from interconnection traffic.

Stimulation of on-net and mobile-fixed traffic.

- The **Blended MOU** remained stable in relation to 1Q08, with a reduction of 9.4% in relation to 4Q08. Worthy of mention is the increase of 11.4% of the outgoing MOU in the comparison between 1Q09 and 1Q08. The campaigns conducted in the period stimulated the outgoing traffic, reducing the interconnection dependence.

Growth of the outgoing traffic due to the campaigns for stimulation of use

- The **total traffic recorded a 18.6% growth in 1Q09** in relation to 1Q08, with emphasis to the 29.9% increase in the outgoing traffic. In the comparison with 4Q08, the traffic had a drop of 6.1% due to the number of business days (74 in 1Q09 against 77 in 4Q08) and to the seasonality of the period. Worthy of mention is the outgoing on net mobile-mobile and voice mobile-fixed traffic, which recorded a positive variation of 46.7% and of 9.2%, respectively, in comparison with 1Q08.

NET OPERATING REVENUES - VIVO

<i>R\$ million</i>	Consolidated		Δ%	Combined	
	1 Q 09	4 Q 08		1 Q 08	Δ%

Net handset revenues	350.4	479.5	-26.9%	334.1	4.9%
Net Revenues	4,020.1	4,268.3	-5.8%	3,681.3	9.2%

OPERATING REVENUE

Growth of 9.6% in the net service revenue in 1Q09. Total **net revenue** grew 9.2% over 1Q08, due to the growth in the service revenue, which represents growth in all components. Such growth is a result of the natural growth in the customer base, of the actions for stimulation of the recharges and of the sale of products and VAS. In relation to 4Q08, the total net revenue decreased by 5.8%, mainly due to the reduction of 26.9% in the revenue from handsets, as a result of the seasonality of the period.

"**Access and usage revenue**" recorded an increase of 10.4% over 1Q08, mainly due to the increase in the total outgoing traffic due to the incentive to usage. When compared to 4Q08, there was a reduction of 7.5% in the access and usage revenue as a result of the lower number of business days and the seasonality of the period.

Continuous growth of data revenue and VAS. **Data revenue plus VAS** have grown 29.0% and 16.6% over 1Q08 and 4Q08, respectively, representing 12.1% of the Net Service Revenue. Several factors contributed to this: 31.1% increase in the data revenue due to the SMS/MMS usage and 44.7% increase due to WAP, Internet 3G and e-mailing usage year-over-year. SMS/MMS has continued to be the largest selling service, accounting for more than 52% of the data and VAS revenue.

Total operating costs	(3,621.1)	(3,689.7)	-1.9%	(3,097.2)	16.9%

OPERATING COSTS

Cost of services increased due to expenses with Fistel Fee.

The 12.1% increase in the **cost of the services rendered** in 1Q09, when compared with 1Q08, is the result of the 33.0% increase in the costs for the Fistel Fee due to the growth of the customer base, the increase in the leased lines and the increase in lease, insurance and condominium expenses. In comparison with 4Q08, it recorded a slight growth of 0.8% related to the increase in Fistel Fee and other expenses, offset by a reduction in the interconnection costs.

Commercial and operational efficiency.

The **cost of goods sold** recorded an increase of 14.9%, in the comparison of 1Q09 over 1Q08 due to the foreign exchange devaluation occurred between the periods and to the launching of the operations in the Northeast region, which was offset by an increased activity of sales of Sim Cards. In the comparison with 4Q08, the reduction of 14.9% reflects the decrease in the commercial activity due to the seasonality between the periods being compared.

In the 1Q09, the **selling expenses** grew 3.9% over 1Q08, reflecting the increase in expenses with third-party services, such as: publicity and advertising, outsourced labor and client care. The increase was partially offset by a reduction in the provision for doubtful accounts and customer retention efforts. In the comparison with 4Q08, selling expenses decreased by 9.2%, as a result of the reduction in expenses with third-party services, especially publicity and advertising, and other expenses with materials for points of sale, partially affected by the increase in the provision for doubtful accounts. Decrease in the commercial activity was also recorded.

PDD under control.

The **Provision for Doubtful Accounts** in 1Q09 showed a reduction of 13.8% in relation to 1Q08. The amount of R\$ 77.6 million represents 1.4% of the total gross revenue, lower than it was recorded in 1Q08, of 1.8%. In relation to the 4Q08, which is positively impacted by the corporate segment credit recovery for which provisions had been

previously booked and by the individual segment credit recovery due to the campaigns carried out for stimulating use of the 13th salary, there was an increase of 0.4 percentage points. Vivo has continued with its collection actions and strict credit granting criteria, which have maintained this item under control.

The **general and administrative expenses** decreased by 13.9% in 1Q09 in relation to 1Q08, mainly due to the decrease in expenses with third-party services, especially technical assistance. In the comparison with 4Q08, which was positively impacted by the reduction in technical-administrative services and by settlement with non-recurring suppliers, the increase was of 111.9%, reflecting higher expenses with third-party services, especially auditing, legal, data processing and technical services.

Other Operating Revenue/Expenses recorded revenue of R\$ 4.6 million. The comparison with 4Q08 presents a reduction in the revenues from recovered expenses, especially taxes. As set forth in MP 449/08, the amounts which were previously accounted for as non-operating Revenues/Expenses started being posted to this account. The reduction in comparison with 1Q08 was due to reversal of the ICMS provision by Telemig, effected during the quarter.

EBITDA

Adjusted by the effect of the reversal of ICMS tax in Telemig, the EBITDA would record an increase of 13% in 1Q09 in relation to 1Q08.

The **EBITDA** (earnings before interests, taxes, depreciation and amortization) in the 1Q09 was R\$ 1,203.9 million, a reduction of 7.8% in relation to 1Q08. By adjusting the EBITDA for 1Q08, which is positively impacted by the reversal of the ICMS tax, the EBITDA in 1Q09 would record an increase of 13%. In the same manner, the EBITDA margin would record an increase of 1.0 percentile points in the comparison between the quarters. The result recorded in 1Q09 reflects the maintenance of the growth in revenues due to the increase in the customer base, combined to a lower increase of costs, excluding the reversal of the ICMS tax, especially the fixed costs. In addition, the lower acquisition cost of a GSM handset and therefore lower cost of goods sold, also contributed to this.

DEPRECIATION AND AMORTIZATION

Depreciation and amortization expenses recorded an increase of 11.6% in relation to 1Q08, due to the accelerated depreciation of the CDMA technology and to the investments in the period, in addition to the amortization of the goodwill as a result of the acquisition of Telemig. When compared to 4Q08, it recorded a reduction of 1.6%, due to lower investments made in the period.

Net Financial Income (149.1) (282.8) -47.3% (39.3) 279.4%

Drop of 47.3% in financial expenses in comparison with 4Q08.

In relation to 1Q08, Vivo's financial expenses increased by R\$ 109.8 million, mainly due to the increase in the net debt (3G financing and expenditures for acquisition of Telemig Celular Participações S/A) and to a higher effective interest rate in the period (2.85% in 1Q09 and 2.53% in 1Q08).

The financial expenses decreased by R\$ 133.7 million in the comparison between 1Q09 and 4Q08. This variation is mainly explained by the extraordinary effects occurred in 4Q08, such as recognition of the extraordinary provision for 3G and the expense of Pis/Cofins on the distribution of Interest on Own Capital, effected in 4Q08 (in the amount of R\$ 25.3 million). In addition, a reduction in expenses was recorded due to a lower effective interest rate in the period (2.85% in 1Q09 and 3.26% in 4Q08).

(**) UMBND - prepared by the BNDES, it is a basket of foreign currencies unit, US dollar predominant

Increase of debt due to payment of Fistel Fee and dividends

The Company closed March 2009 with a debt of R\$ 7,713.1 million (R\$ 4,969.5 million at March 31, 2008), of which 23.7% is denominated in foreign currency, 99.9% of which being hedged. The debt recorded in the 1Q09 was offset by cash and financial investments (R\$ 1,820.0 million) and by derivative assets and liabilities (R\$ 313.6 million receivable), resulting in a net debt of R\$5,579.5 million (R\$ 2,229.5 million at March 31, 2008).

Improved debt profile.

Despite the increase in the net debt, the debt profile improved. In 1Q08, 55.4% of the debt was at long term, while in 1Q09 the long term debt represented 61.2%. This change in the debt composition has occurred due to higher funding from structured transactions (BNDES and BNB) and to the use of the credit facility granted for the 3G license which was made available in the auction carried out by Anatel.

The increase in the net debt in 1Q09, when compared to 1Q08, is mainly due to the acquisitions of 3G licenses and of Telemig Celular Participações S/A, offset by generation of cash in the period.

In the comparison between 1Q09 and 4Q08, the consolidated net debt recorded an increase of R\$ 277.4 million. Although the company has recorded a good operational cash generation in 1Q09 in the amount of R\$ 619.2 million, which was impacted by payment of the TFF (Installation and Inspection Fee) to Anatel in the amount of R\$ 552.5 million, Vivo's payments of CAPEX (R\$ 541.3 million) and of dividends (R\$ 122.7 million) increased.

In 1Q09, the Company issued one-series, simple, non-convertible in shares, in the amount of R\$ 210.0 million, at a cost of 113.55% of the CDI, with maturity date on 01/11/10.

Net Profit of R\$ 123.5 million. A Net Profit of R\$ 123.5 million was recorded in the quarter, pursuant to the corporate law, which result represents an increase of 26.5% in relation to the same period of last year.

**Corporate
Reorganization.**

The managements of Vivo Participações S.A. (“Vivo Part”), Telemig Celular Participações S.A. (“TCP”) and Telemig Celular S.A. (“TC”) (jointly referred to as “Companies”), in the form and for the purposes of CVM Instructions no. 319/99 and 358/02, have informed that their respective Boards of Directors approved the proposal to constitute an independent Committee (in conformity with “Parecer de Orientação” of CVM nº 35) for a corporate reorganization aiming at the merger of TC’s shares into TCP and of TCP’s shares into Vivo Part, for conversion of TC into a wholly-owned subsidiary of TCP, and of TCP into a wholly-owned subsidiary of Vivo Part.

The purpose of the proposed Corporate Reorganization is to simplify the current organizational structure, which has three publicly-held companies, two of them having ADRs traded abroad. The simplified structure will reduce administrative costs and allow the shareholders of the Companies to hold shares in one sole company whose shares are traded both in Brazilian and international stock exchanges, with more liquidity. Additionally, the structure will make the unification, standardization and rationalization of the general business management easier.

Having in consideration that TC will become a wholly-owned subsidiary of TCP and that TCP will become a wholly-owned subsidiary of Vivo Part, their respective registrations with CVM and BOVESPA and the registrations of TCP with the Securities and Exchange Commission – SEC and with the New York Stock Exchange – NYSE will be cancelled, in order to eliminate the costs associated thereto.

Shareholding structure **after merger** of TC’s shares into TCP and of TCP’s shares into Vivo Part.:

More information can be obtained from our Investor Relations website at www.vivo.com.br/ri.
