**Item 1.01 Entry into a Material Definitive Agreement.**

On November 23, 2009, Cliffs Natural Resources Inc., an Ohio corporation (the "Company"), entered into a definitive arrangement agreement with Freewest Resources Canada Inc. ("Freewest"). The agreement provides that, upon the terms and subject to the conditions set forth in the agreement, the Company will acquire Freewest and Freewest will incorporate a new, wholly-owned subsidiary ("New Freewest") into which the non-chromite assets of Freewest will be transferred.

Under the terms of the agreement, the Company will acquire all of the outstanding common shares of Freewest in exchange for common shares of the Company, representing a fixed consideration of C\$0.55 per each common share of Freewest, or C\$118 million in aggregate (C\$110 million excluding shares the Company already owns in Freewest). The fraction of a share in the Company to be issued per Freewest share will be determined based on the volume weighted average price of the Company's shares on the New York Stock Exchange for the five trading days ending on the third trading day before the effective date of the transaction. In addition, each Freewest shareholder will receive one common share of New Freewest for each common share of Freewest held on the record date, estimated to have a value of C\$0.15 per share.

The agreement provides for customary representations, warranties and covenants, including, among others, customary break fees. The transaction is expected to close in the first quarter of 2010. Closing of the transaction is subject to approval by Freewest shareholders, court approval of the transaction and a number of other customary conditions.

The news release regarding the transaction is contained in Item 9.01 as Exhibit 99(a) and is incorporated in this Item 1.01 by reference.
