Item 8.01 Other Events.

On August 2, 2013, StemCells, Inc. (the "Company") issued a press release announcing positive two-year clinical results from the study of its proprietary HuCNS-SC cells in patients with Pelizaeus-Merzbacher disease. Notably, the neurological and MRI changes seen in the patients since transplantation of the cells suggest a departure from the natural history of the disease and may represent signals of a clinical effect. A copy of this press release is attached hereto as Exhibit 99.1.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits

Exhibit 99.1 Press Release, dated August 2, 2013, announcing two-year data from the Company's clinical study of HuCNS-SC cells in patients with Pelizaeus-Merzbacher disease.
